Re: L3025 (PAIS)
Addendum to Plan of Operation
Dunn McCampbell A Lease
Dunn McCampbell A-3 Well
Kleberg and Kenedy Counties, Texas

Dear Mr. Echols:

BNP Petroleum Corporation ("BNP") is nearing the end of the lease term on the Dunn McCampbell A Lease. In order for BNP to retain the lease, additional production needs to be sustained prior to the end of the lease term. It is of utmost importance operations begin immediately to hold this lease for present and future development operations.

Therefore, pursuant to that certain letter dated December 14, 1999, Approval of Vector Energy's Plan of Operations for the Dunn McCampbell A Lease, BNP, as successor and operating under the above Plan of Operations, has secured a workover rig to move in on the Dunn McCampbell A-3 on Saturday, April 2, 2005, and commence operations to restore production.

The above workover operation will take approximately 15 to 20 days to complete. There will be nineteen (19) trucks, more or less, carrying equipment and supplies to the wellsite. In addition to trucks caring equipment and supplies for initial operations, four (4) trucks per week will carry fuel, oil base mud, cuttings, and tools to the well location.

For your information, we are supplying three attachments which depict the following information:

Attachment II
Attachment III

Workover Procedures
Proposed Well Bore
Vertical Section

Please be advised, when necessary, each truck proceeding to the location of the Dunn McCampbell A-3 will be assisted by biological monitors who will lead the trucks to the wellsite and assure safe travel for environmental purposes.

If further information is needed, please contact Bill Chemerinski at 713-202-1532, or the undersigned at 713-572-6400 Ext. 1206.

Sincerely,

A handwritten signature in purple ink that reads "Helen Hannon". The signature is fluid and cursive, with the first name "Helen" and last name "Hannon" clearly distinguishable.

Helen Hannon
