Greetings:

As part of our Piping Plover Recovery Plan, the Breezy Point District of Gateway National Recreation Area requested and received permission in 1992 from your agency to collect Herring and Black-backed Gull eggs (Permit PRT-768421). Eggs were collected at the Tip of Breezy Point to discourage gulls from nesting in the Piping Plover/tern colony.

To fulfill the requirement of the permit, a brief summary of our activity is listed below:

1,166 gull eggs were collected from May 27, 1992 through July 22, 1992. Eggs were then transported to Gateway's Office of Resource Management and Compliance located at Floyd Bennett Field for disposal.

If you have any questions regarding this matter, please contact me at (718) 474-4600.

Sincerely,

David Avrin
Chief Ranger, Breezy Point District
