10. CONDITIONS

- A. The licensee and/or his designated agent(s) are authorized to collect, by hand, and possess herring gull and great black-backed gull eggs from up to 150 nests located at the Breezy Point tip area of the Rockaway Peninsula part of Gateway National Recreation Area, as provided and authorized under Federal Permit, to discourage herring and great black-backed gull nesting in the piping plover/least tern colony.
- B. The licensee and/or his designated agent(s) are authorized to retain gull eggs if further studies are required, as provided and authorized under Federal Permit.
- C. The licensee and/or his designated agent(s) are further authorized to conduct gull harassment activities, including the playing of tape recorded distress calls and the use of pyrotechnic devices, to discourage gull nesting at Breezy Point during March, 1995, until such activities appear to be negatively affecting the nesting behavior of piping plovers and/or other nesting species of terns and black skimmers; puncture up to 2,000 eggs of herring and great black-backed gulls to eliminate their reproduction at Breezy Point during the breeding season of 1995.
- D. The licensee and/or his designated agent(s) shall monitor the effects of these gull control activities on all potentially affected species including piping plover, least tern, common tern and black skimmer for the duration of this project.
- E. The licensee shall inform and consult on at least a bi-weekly basis with the regional department wildlife biologist (718-482-4922) on the results and progress of these activities.

Additional Conditions for this license are provided on the attached sheet. These attached conditions are an integral part of this license. If you did not receive attached conditions you must call the NYS DEC Special Licenses Unit at (518) 457-0689.
