REGIONAL BASIN _____ LOCAL BASIN _____

ACQUIRED BY Appropriation

APPLICATION 19482 PERMIT 12742 CERTIFICATE 7577

ACTION DUE _____ PRIORITY June 10, 1960 RESERVATION February 11, 1933

QUANTITY 7200 GPD USE Domestic

STATUS Active SOURCE Spring

REMARKS Water Use: Domestic -- usage of this water is for NPS employees who work
at Scotty's Castle.

NARRATIVE:

On June 10, 1960, the National Park Service filed application #19482 with the state of California, to request permission to appropriate water from an unnamed spring in the Grapevine Ranger Station area of DEVA. Permit #12742 was granted for this purpose on November 14, 1961.
On March 23, 1965, licence # 7577 was granted under this permit.

Report of Licensee for 1978, 1979, 1980 completed and returned. A call to DEVA was made by Bill Werrell to check on present status of water source and use.
Hershey, Jan. 7, 1980

Description of water conservation efforts	
9. Amount of water conserved	

Water Quality and Wastewater Reclamation

10. During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?	No
11. Amount of reclaimed, desalinated, or polluted water used	

Conjunctive Use of Groundwater and Surface Water

12. During the period covered by this Report, were you using groundwater in lieu of available surface water authorized under your license?	No
13. Amounts of groundwater used	

Additional Remarks

This right is no longer used in support of livestock, but is presently used by wildlife. The NPS considers state appropriative licenses to be federal property, and this change of type of use does not indicate an intent to abandon this license. NPS intends to determine whether a formal change in use is appropriate in the future. The exact amount of use is not known. The United States gives this information in the interest of comity, and does not concede that the State has the power to regulate the rights of the United States to the use of water.

State Water Resources Control Board

NOTICE TO WATER RIGHT LICENSEE

March 5, 2012

Designated Contact or Agent:
U S NATIONAL PARK SERVICE
1201 OAK RIDGE DR STE 250
FORT COLLINS, CO 80525

Contact Phone Number: (970) 225-3500**Primary Owner:** U S NATIONAL PARK SERVICE**Application ID:** A019482 **License No.** 007577

First three Sources listed:	Counties:
RANGER SPRING	Inyo

Direct Diversion Rate: 7200.000 Gallons per Day **Collection to Storage Amount:** 0.000 AC-FT**LICENSEE REPORTING FOR 2011**

As indicated in the California Code of Regulations title 23, section 847, the State Water Resources Control Board (State Water Board) requires annual reporting of water diversion and use under licenses. The State Water Board has historically required these reports to be filed once every three years in paper form. California Water Code chapter 2.7 section 348 authorizes the State Water Board to require online reporting of water diversions. Consistent with these requirements, the State Water Board, Division of Water Rights (Division) developed a new online Report Management System (RMS) as a component of the enhanced Water Right Information Management System (eWRIMS). RMS allows electronic submittal of water diversion and use reports, saving both paper and resources. **All reports must be completed online through RMS; paper copies are not available.** To report online, go to www.waterboards.ca.gov/rms and login with your User ID and Password. The information required to login and access your online Report of Licensee is:

User ID (Water Right ID): A019482
Password (Reporting Identifier): 605479

You are required to complete the online report for 2011 no later than **June 30, 2012**. If you do not have a computer or internet access, you should use a friend's computer, a computer in a public library, or a Division computer to fill out the form. Unfortunately, Division staff cannot fill the form out on your behalf. However, if you wish to seek assistance with the form, you may contact the Division to request a listing of attorneys and consulting firms with water rights experience. You can also review the listing on the Division's Business Information Contacts webpage at: http://www.waterboards.ca.gov/waterrights/board_info/contacts.shtml.

If you have multiple water rights, please be aware you must report water use separately for

CHARLES H. HOPPIN, CHAIRMAN | THOMAS HOWARD, EXECUTIVE DIRECTOR

1001 I Street, Sacramento, CA 95814 | Mailing Address: P.O. Box 100, Sacramento, CA 95812-0100 | www.waterboards.ca.gov

100% RECYCLED PAPER

- 2 -

each right. Do not list total combined diversions under multiple rights on the form. To document compliance with the conditions of your water right(s), you may use RMS to submit photos (such as staff gages, measuring devices, etc.), documents (Department of Fish and Game agreements, other agency approvals, etc.), graphs, and spreadsheets.

CHANGES FOR 2011 REPORTING:

- It is possible to create one account on the RMS site to report all of your water rights. It is not necessary to create an account if you would like to report your water rights individually. Please see the RMS login page for more information and instructions.
- RMS includes the capability to amend current and past reports. Amendments to credits previously claimed pursuant to Water Code sections 1010, 1011, and 1011.5 are subject to review and may not be accepted.
- Licensees can list all of their reservoirs associated with this license in their report.
- RMS includes new on screen help tools and instructions.

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the Division directly of any water right ownership change. Your county assessor's office or title company does not notify the Division of ownership changes. Failure to notify the Division of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the Division should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/board_info.

CONTACT INFORMATION

Frequently asked questions pertaining to filling out online reports are posted at the RMS website and we encourage you to read these first. However, if you still have any questions or need assistance completing the report, please contact the Division of Water Rights at (916) 323-9393 or send an email to: ewrims@waterboards.ca.gov.

Sincerely,

Phillip Crader, Manager
Permitting and Licensing Section
Division of Water Rights

ANNUAL LICENSEE REPORTING FOR 2010

The State Water Resources Control Board (State Water Board) has historically required Reports of Licensee to be filed once every three years in paper form. Senate Bill 8, which was signed into law in 2009, authorized the State Water Board to adopt regulations requiring online reporting of water diversions. Consistent with the Senate Bill, the State Water Board has adopted regulations requiring annual reporting of water diversion and use under licenses, and developed a new online Report Management System (RMS) as a component of the enhanced Water Right Information Management System (eWRIMS). The online RMS allows you to electronically submit your water diversion and use report, saving both paper and resources. To report on-line, go to www.waterboards.ca.gov/rms and log in with your water right ID and password. The information required to log in and access your online Report of Licensee is:

Water Right ID: **A019482**
Password: **2W3T5Y**

You are required to complete the online report for 2010 no later than **July 1, 2011**. You may also submit your record of diversion and use for previous years using the RMS. To maintain a continuous record of water use under your license, Licensees with **Reporting Cycle 1** should report their monthly diversion and use for **2008, 2009, and 2010**. Licensees with **Reporting Cycle 2** should report their monthly diversion and use for **2009 and 2010**; and Licensees with **Reporting Cycle 3** only need to report monthly diversion and use for **2010**. Please note that it is not possible at this time to amend a report submitted through the RMS.

CHANGES FOR 2010 REPORTING:

Question 4 on the previous Report of Licensee form ("Amount of Water Used") has changed. New Question 5c requires you to report both the "*Amount directly diverted and/or collected to storage*" and the corresponding "*Amount used*" for each month. For many direct diversion-only projects, these amounts will be the same and the online form provides a check box for that purpose (Question 5b).

New Questions 6a and 6b on the RMS Report of Licensee requires you to report the maximum instantaneous *rate* of diversion that has occurred in each month under the license, if available.

If your water project is covered by two or more water rights, you should only report your diversion and use of water for the project covered by the license number printed above. The total amount diverted and used under multiple water rights should not be combined and reported on a single

California Environmental Protection Agency

**Notice to Water Right Licensee
Licensee Reporting for 2010**

-2-

February 2011

form. In such cases, you should quantify your diversion under each water right, assigning water to the senior-most right first, to the extent allowed under the permit or license.

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the State Water Board directly of any water right ownership change. Your county assessor's office or title company does not notify us of any ownership updates. Failure to notify the State Water Board of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the State Water Board should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/board_info

App ID No. A019482

6. For Storage Projects only:	2007	2008	2009
6.a. Did your reservoir(s) spill?			
6.b. If No, how many feet vertically below the spillway was the water level at maximum storage?			
6.c. Have you emptied the reservoir(s)?			
6.d. If No, how many feet vertically below the spillway was the water level(s) at minimum storage?			

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW THAT ARE APPLICABLE TO YOUR WATER RIGHT PROJECT
(Please note that future amendments to the claims below will not be accepted.)

An appropriate water right can be reduced or revoked through five continuous years of nonuse. However, the California Water Code specifies that under certain conditions no reduction or loss of the appropriate water right shall occur due to: (a) water conservation efforts; (b) use of recycled, desalinated, or polluted water; and/or (c) conjunctive use of groundwater and surface water. You must report the extent and amount of water claimed for credit below. Failure to report the amounts will deprive you of the benefits allowed under the Water Code sections.

CONSERVATION OF WATER: (Water Code section 1011)

7. ☐ YES ☐ NO During the period covered by this Report, were you implementing any water conservation efforts? If YES, please describe:

8. If YES and you want to claim credit for the amount of water conserved towards the water use authorized under your license as allowed under Water Code section 1011, please show the amount of water conserved below:

Future amendments to this claim will not be accepted.

	2007	2008	2009
Amount of water conserved. Specify in acre-feet (AF) or million gallons (MG)			

WATER QUALITY AND WASTEWATER RECLAMATION: (Water Code section 1010)

9. ☐ YES ☐ NO During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?

10. If YES and you want to claim credit for the substitution of this reclaimed, desalinated, or polluted water in lieu of the surface water authorized under your license as allowed by Water Code section 1010, please show the amount of reclaimed, desalinated, or polluted water used below:

Future amendments to this claim will not be accepted.

	2007	2008	2009
Amount of reclaimed, desalinated, or polluted water used. Specify in acre-feet (AF) or million gallons (MG)			

CONJUNCTIVE USE OF GROUNDWATER AND SURFACE WATER: (Water Code section 1011.5)

11. ☐ YES ☐ NO During the period covered by this Report, were you using groundwater in lieu of the surface water authorized under your license?

12. If YES and you want to claim credit for the groundwater used in lieu of the surface water authorized under your permit as allowed under Water Code section 1011.5, please show the amount of groundwater used below:

Future amendments to this claim will not be accepted.

	2007	2008	2009
Amount of groundwater used in lieu of surface water. Specify in acre-feet (AF) or million gallons (MG)			

REMARKS: (Identify the item you are explaining; additional pages may be attached.)

Dear Mr. Wright:

Enclosed are completed Reports of Licensee forms for water right licenses in Pinnacles National Monument and Death Valley National Monument.

As Denise Newberry of my staff discussed with you earlier this year, the National Park Service (NPS) is updating its files and the State's records of its water rights in California park units. The NPS requests orders correcting the purpose of use for the following water licenses, as indicated below:

License 4621 (Application A009510) Main Cow Creek - add
wildlife preservation

License 10580 (Application A008423) Unnamed Spring - add
wildlife preservation

License 6110 (Application A015381) Lower Emigrant - add
wildlife preservation

License 7854 (Application A010119) Unnamed Source - add
wildlife preservation

THIS REPORT IS REQUIRED BY THE TERMS AND CONDITIONS OF YOUR LICENSE

IMPORTANT! EVERY license is subject to the conditions therein. I have currently reviewed my license: YES ☒ NO ☐. I am complying with the conditions of my license: YES ☒ NO ☐. Identify any noncompliance by license number under "Remarks" on reverse side. This report is important in providing the record of use needed in maintaining your water right. It should be filled out carefully and returned promptly to the above-listed address.

THE PROJECT HAS BEEN ABANDONED, AND I REQUEST REVOCATION OF THE LICENSE: YES ☐ NO ☒

COMPLETE FOR DIRECT DIVERSION PROJECTS

- Have you used the full licensed amount of water each year? YES ☒ NO ☐.
- State the quantity of water used each month in gallons or acre-feet (if not known, check months water was used).

- If either the location of the point of diversion or place of use has been changed and the permission of this Board has not yet been obtained, please describe nature of change on the reverse side under "Remarks".

REPORT OF LICENSEE FOR

- PAGE 2

NOTE: The following questions relate to the Board's continuing responsibility to insure that appropriated water is developed, conserved, and utilized in the public interest as required by the Water Code. Please answer the questions which are applicable to your project.

CONSERVATION OF WATER (WATER PURVEYORS)

17. What measures are you using or planning to reduce water losses in conveyance systems? (1) Seepage or leak detection program ☐; (2) Lining canals ☐; (3) Phreatophyte and aquatic vegetation control ☐; (4) Other (describe in "Remarks") ☐.
18. What measures are used to encourage consumers to conserve water in agricultural use? (1) Program to encourage more efficient irrigation systems (sprinkler, drip, etc.) where applicable ☐; (2) Return flow systems on individual farms ☐; (3) Return flow system areawide ☐; (4) Water pricing to encourage reduced use ☐; (5) Charges for drainage of irrigated lands ☐; (6) Other (describe in "Remarks") ☐.
19. What measures are used to encourage municipal and industrial consumers to conserve water? (1) Regulations to control wasteful use ☐; (2) Public education program on water conservation ☐; (3) Pricing to encourage reduced use ☐; (4) Assistance to industry in design of recycle systems ☐; (5) Other (describe in "Remarks") ☐.
20. What records are maintained on water use and conservation? (1) Loss rate from conveyance system ☐; (2) Water use for major crops by each farm ☐; (3) Other (describe in "Remarks") ☐.

CONSERVATION OF WATER (WATER USERS)

21. Describe any water conservation efforts you may have started: _____
Camping restrictions near spring sites
22. If credit toward beneficial use of water under this license for water not used due to a conservation effort is claimed under Water Code Section 1011, please show the amounts of water conserved (acre feet or mg.):
 19__ 19__ 19__

WATER QUALITY AND WASTEWATER RECLAMATION

23. Describe methods you are using to minimize erosion and to prevent the entry of silt into surface waters: _____
24. After use, the water is (1) retained in reservoir ☐; (2) discharged into a stream or lake ☐; (3) discharged into settling ponds ☐; (4) Other ☒ Describe: septic tank
25. Does or will water being discharged contain waste materials? YES ☐ NO ☒.
 (1) Domestic ☐; (2) Municipal ☐; (3) Industrial ☐; (4) Agricultural ☐; (5) Other ☐. Describe: _____
26. Does or will water being discharged contain any specific material which is deleterious to fish and wildlife or which would impair the water for beneficial uses? YES ☐ NO ☒. Describe: _____

TO THE EXTENT THE FOLLOWING QUESTIONS APPLY TO YOUR LICENSE, PLEASE ANSWER IN REMARK SECTION BELOW.

27. Are you now or have you been using reclaimed water from a wastewater treatment facility or water polluted by waste to a degree which unreasonably affects such water for other beneficial uses? YES ☐ NO ☒.
 If credit toward use under this water right through substitution of reclaimed or polluted water in lieu of appropriate water is claimed under Section 1010 of the Water Code, please show amounts of reduced diversion and amounts of reclaimed water used.
28. Are you now or have you been reclaiming or reusing any of the water appropriated under this right? YES ☐ NO ☒.
 If yes, please describe: _____
29. What is present availability or current potential for using reclaimed water from a wastewater treatment plant or polluted water in place of the appropriated water to satisfy all or part of your water needs? none
30. What is the current potential for reusing the appropriated water to satisfy part of your water needs? none
31. If you produce reclaimed water, or polluted water, is there a potential for others to use it?

REMARKS: (Identify the item you are explaining. Additional pages may be attached.)

I declare under penalty of perjury that the information in this report is true to the best of my knowledge and belief.

PETITION FOR CHANGE IN PURPOSE OF USE

Application 19482 Permit _____ License 7577

State Water Resources Control Board
Division of Water Rights
P. O. Box 2000
Sacramento, CA 95810

I request permission to change the purpose of use described in this permit or license as follows:

The water is used for domestic, recreational, and fish and wildlife purposes.
(State all purposes for which water is to be used)

Give reason for proposed change: Water is used for other purposes in addition to
domestic uses.

Does this change involve any place of use not described in the permit or license?

No. If answer is yes, give legal description:
(yes or no)

THIS CHANGE DOES NOT INVOLVE AN INCREASE IN THE AMOUNT OF THE APPROPRIATION OR SEASON OF USE.

Give names and addresses of persons known to you who may be affected by the proposed change: None

I declare under penalty of perjury that the above is true and correct to the best of my knowledge and belief.

Dated: June 6, 19 88, at Fort Collins, Colorado, XXXXXXXXXX

Owen R. Williams, Acting Chief, Water Rights
Branch, National Park Service

Section 1547 of the Water Code requires a \$100 filing fee with petitions for changes.

18. What measures are used to encourage consumers to conserve water in agricultural use? (1) Program to encourage more efficient irrigation systems (sprinkler, drip, etc.) where applicable ☐; (2) Return flow systems on individual farms ☐; (3) Return flow system acrewide ☐; (4) Water pricing to encourage reduced use ☐; (5) Charges for drainage of irrigated lands ☐; (6) Other (describe in "Remarks") ☐.
19. What measures are used to encourage municipal and industrial consumers to conserve water? (1) Regulations to control wasteful use ☐; (2) Public education program on water conservation ☐; (3) Pricing to encourage reduced use ☐; (4) Assistance to industry in design of recycle systems ☐; (5) Other (describe in "Remarks") ☐.
20. What records are maintained on water use and conservation? (1) Loss rate from conveyance system ☐; (2) Water use for major crops by each farm ☐; (3) Other (describe in "Remarks") ☐.

WATER QUALITY AND WASTEWATER RECLAMATION

21. Describe methods you are using to minimize erosion and to prevent the entry of silt into surface waters:

22. After use, the water is (1) retained in reservoir ☐; (2) discharged into a stream or lake ☐; (3) discharged into settling ponds ☐; (4) other ☐. Describe: _____
23. Does or will water being discharged contain waste materials? ☐ Yes ☐ No.
(1) Domestic ☐; (2) Municipal ☐; (3) Industrial ☐; (4) Agricultural ☐; (5) Other ☐. Describe: _____
24. Does or will water being discharged contain any specific material which is deleterious to fish and wildlife or which would impair the water for beneficial uses? ☐ Yes ☐ No. Describe: _____
25. Describe what steps you are taking, have been taking, or can take to reclaim or indirectly reuse the water appropriated: _____

REMARKS

STATE OF CALIFORNIA—STATE WATER RIGHTS BOARD

License for Diversion and Use of Water

APPLICATION 19482

PERMIT 12742

LICENSE 7577

United States Death Valley National Monument
Death Valley, California

THIS IS TO CERTIFY, That

has made proof as of March 23, 1965,
(the date of inspection) to the satisfaction of the State Water Rights Board of a right to the use of the water of
an unnamed spring (Ranger Spring) in Inyo County
tributary to an unnamed stream thence Death Valley Wash

for the purpose of domestic use
under Permit 12742 of the State Water Rights Board and that said right to the use of said water has been
perfected in accordance with the laws of California, the Rules and Regulations of the State Water Rights Board and the
terms of the said permit; that the priority of the right herein confirmed dates from June 10, 1960,
and that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited
to the amount actually beneficially used for said purposes and shall not exceed seven thousand two hundred (7200)
gallons per day to be diverted from January 1 to December 31 of each year.

The point of diversion of such water is located:

North forty-five degrees east (N45°E) three thousand three hundred (3300) feet
from SW corner of Section 24, T11S, R42E, MDB&M, being within NE $\frac{1}{4}$ of SW $\frac{1}{4}$ of
said Section 24.

A description of the lands or the place where such water is put to beneficial use is as follows:

Within NE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 24, T11S, R42E, MDB&M, as shown on map filed with
State Water Rights Board.

Licensee shall not construct or maintain fences or other works which may prevent
access to water from the source hereunder by the public or wildlife.

This license is conditioned upon full compliance of Section 5937 of the Fish and
Game Code.

All rights and privileges under this license including method of diversion, method of use and quantity of water
diverted are subject to the continuing authority of the State Water Rights Board in accordance with law and in the
interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of
diversion of said water.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time
to time by the State Water Rights Board.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein
specified and to the lands or place of use herein described.

This license is granted and licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the board.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.

STATE OF CALIFORNIA
STATE WATER RIGHTS BOARD
SACRAMENTO, CALIFORNIA

REQUEST FOR LICENSE

Application 19482

Permit 12742

Subject to approval by the State Water Rights Board The United States of America
Department of the Interior
Death Valley National Monument
Death Valley, California

having made proof as of March 23, 1965
(the date of inspection) hereby request license action as listed below.

If any reduction in amount, season or land description is necessitated when the rough calculations are checked, the owner will be notified and allowed 30 days within which to submit a protest to any changes. If no protest is submitted the changes may be considered to be acceptable; however, the changes, an explanation thereof and the date of notification shall be noted on the reverse side of this sheet and become a permanent part of the record in connection with this filing. To the best of the knowledge and belief of the undersigned a right has been established to the use of water of an unnamed spring (Ranger Spring)

in Inyo County

tributary to an unnamed stream thence Death Valley Wash

for the purpose of domestic use

under Permit 12742 the priority of which dates from June 10, 1960

by beneficial use in the amount of 7,200 gallons per day to be diverted from January 1 to December 31 of each year.

The point of diversion of such water is located: Three thousand three hundred (3,300) feet North forty-five degrees east (N45°E) from the SW corner of Section 24, T11S, R42E, MDB&M, being within NE $\frac{1}{4}$ of SW $\frac{1}{4}$ of said Section 24.

A description of the lands or the place where such water is put to beneficial use is as follows: within NE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 24, T11S, R42E, MDB&M, as shown on map filed with State Water Rights Board.

Licensee shall not construct or maintain fences or other works which may prevent access to water from the source hereunder by the public or wildlife.

This license is conditioned upon full compliance of Section 5937 of the Fish and Game Code.

This does constitute a change or changes which require a petition. Any required petitions will be submitted within days.

EXTENSION PETITION

NOTE: A reasonable extension of time may be obtained upon a showing of good cause. Section 779 of the California Administrative Code, Title 23, Waters, provides that sickness, lack of finances or other conditions incident to the person and not to the enterprise will not generally be accepted as good cause for delay while weather conditions and conditions which are incident to the project itself may be accepted as good cause for delay. A fee of \$5 is required for each permit petitioned.

- A. If construction work has not commenced within the time allowed under the permit, an extension of such commencement date may be petitioned by completing Items 1, 2 and 3.

1. Approximate total amount of money spent in connection with the project to date \$ N/A. What was the money spent for? _____

2. Estimated date of commencement of construction N/A

3. Reasons why construction was not begun within the time allowed by the permit N/A

- B. If construction work and/or use of water is proceeding but is not fully complete, an extension of time may be petitioned by completing Items 4, 5, 6, 7, 8, 9, and 10.

4. A ~~3-year~~ (3-year) extension of time is requested for completion of construction work and/or beneficial use of water. (Indicate period of time desired).

5. Approximate total amount spent on project to date \$ 2,000.00 2000.

6. Approximate amount spent during last extension period \$ 0

7. Approximate per cent of construction work complete to date 100%

8. Estimated date of completion of construction work Completed

9. Estimated year in which full use of water will be made 1970

10. Reasons why construction and/or use of water was not completed within time previously allowed: A developed picnicking site is now planned for this area.

(c) ☐ Industrial Nature of use (g) ☒ Recreational Picknicking, Radiator Water,
Nature of use For 2000 visitors annually
(d) ☒ Domestic 3 permanent residents (h) ☐ Power Installed horsepower capacity
Number of persons Area of garden, lawn, etc. (i) ☒ Other Wildlife
Approximate population
7. During what months was water used in 1961? January - December
Do you expect to use it over a longer or different season in the future? No
If so, state other months of use _____
8. Have you used as much water this year as you expect to use in any future year under this permit? No
If not, estimate year in which use will be full and complete. 1966
9. Has location of the intake or place of use been changed? No

IF PROJECT INVOLVES STORAGE ANSWER 10 AND 11

10. Have you filled in your reservoir during the 1960-61 collection season—if not, do you expect to fill it in any one future collection season? not applicable How much of the stored water has been used? _____
Have you emptied the reservoir? _____ If not, have you drawn down the reservoir as far as you intend to use in any one season? _____ State acre-feet used if known _____
11. During which months was water collected in the reservoir? Not applicable

FILE IN DUPLICATE

[For full information concerning the filling out of this form refer to
Article 4 of Rules and Regulations Pertaining to Appropriation of Water]

STATE OF CALIFORNIA—STATE WATER RIGHTS BOARD

Application No. 19482 Filed June 10, 1960, at 1:46 P. M.
(Applicant must not fill in the above blanks)

APPLICATION TO APPROPRIATE UNAPPROPRIATED WATER

I, U. S. Death Valley National Monument
Name of applicant or applicants
 of Death Valley County of Inyo
Address
 State of California, do hereby make application for a permit to appropriate the
 following described unappropriated waters of the State of California, *SUBJECT TO VESTED RIGHTS*:

Source, Amount, Use and Location of Diversion Works

1. The source of the proposed appropriation is unnamed spring (Ranger Spring)
Give name of stream, lake, etc., if named; if unnamed state nature of source and that it is unnamed
 located in Inyo County, tributary to unnamed stream thence Death Valley Wash

2. The amount of water which applicant desires to appropriate under this application is as follows:

(a) For diversion to be directly applied to beneficial use 7200 gallons per day ~~xxxxxxx~~
1 cubic foot per second equals 448.832 gallons or 646,317 gallons per day
~~xxxxx~~ to be diverted from January 1 to December 31 of each year.
Beginning date Closing date

(b) For diversion to be stored and later applied to beneficial use _____ acre-feet
1 acre-foot equals 325,851 gallons
 per annum, to be collected between _____ and _____ of each season.
Beginning date Closing date

NOTE.—Answer (a) or (b) or both (a) and (b) as may be necessary. If amount under (a) is less than .025 cubic foot per second, state in gallons per day. Neither the amount nor the season may be increased after application is filed. If underground storage is proposed a special supplemental form will be supplied by the State Water Rights Board upon request.

3. The use to which the water is to be applied is domestic
Domestic, irrigation, power, municipal, mining, industrial, recreational
 purposes.

4. The point of diversion is to be located 3300 feet N 45° east from the SW corner of Section 24,
T11S, R42E, MDBM.,
State bearing and distance or coordinate distances from section or quarter section corner

being within the NW 1/4 of SW 1/4
State 40-acre subdivisions of public land survey or projection thereof
 of Section 24, T. 11S, R. 42E, M.D. B. & M., in the County of Inyo

5. The main conduit terminates in NW 1/4 of SW 1/4 of Sec. 24, T. 11S, R. 42E, M.D. B. & M.
State 40-acre subdivision of U. S. Government survey or projection thereof

Description of Diversion Works

NOTE.—An application cannot be approved for an amount grossly in excess of the estimated capacity of the diversion works.

6. Intake or Headworks (fill only those blanks which apply)

(a) Diversion will be made by pumping from _____

(b) Diversion will be by gravity, underground collection pipe being 3" in diameter
~~xxxxxxxxxxxxxx~~ feet in height ~~xxxxxxxxxx~~

level of overflow): 168 feet long on top; and constructed of perforated asphalt impregnated fiber
Concrete, earth, brush, etc. pipe.

(c) The storage dam will be _____ feet in height (stream bed to overflow level); _____ feet
 long on top; have a freeboard of _____ feet, and be constructed of _____
Concrete, earth, etc.

7. Storage Reservoir concrete tank for regulatory storage
Name

The storage reservoir will flood lands in _____
Indicate section or sections, also 40-acre subdivisions unless shown upon map

It will have a surface area of _____ acres, and a capacity of 1500 ~~xxxxxx~~ gallons

~~xxx~~ In case of insufficient space for answers in form, attach extra sheets at top of page 3 and cross reference.

FORM 1

8. Conduit System (describe main conduits only)

(a) Canal, ditch, flume: Width on top (at water line) _____ feet; width at bottom _____ feet; depth of water _____ feet; length _____ feet; grade _____ feet per 1,000 feet; materials of construction _____
Cover not two feet wide
 Earth, rock, timber, etc.

(b) Pipe line: Diameter 1 inches; length 1160 feet; grade 37 feet per 1,000 feet; total fall 42 feet; kind galvanized steel
Riveted steel, concrete, wood-stave, etc.

Note.—If a combination of different sizes or kinds of conduit is to be used, attach extra sheets with complete description, also show location of each clearly on map.

9. The estimated capacity of the diversion conduit or pumping plant proposed is 5 gallons per minute
State cubic feet per second or gallons per minute

The estimated cost of the diversion works proposed is \$ 2000
Give only cost of intake, or headworks, pump, storage reservoirs and main conduits described herein

Completion Schedule

10. Construction work will begin on or before _____

Construction work will be completed on or before completed as of April 1960

The water will be completely applied to the proposed use on or before completed as of April 1960

Description of Proposed Use

11. Place of Use NE 1/4 of SW 1/4 of Section 24, T11S, R42E, M28N Grapewine Ranger Station.
State 40-acre subdivisions of the public land survey. If area is unsurveyed indicate the location as if lines of the public land survey were projected. In the case of irrigation use state the number of acres to be irrigated in each 40-acre tract, if space permits. If space does not permit listing of all 40-acre tracts, describe area in a general way and show detail upon map.

Do(es) applicant(s) own the land whereon use of water will be made? yes Jointly? _____
Yes or No Yes or No

If applicant does not own land whereon use of water will be made, give name and address of owner and state what arrangements have been made with him.

12. Other Rights. Describe all rights except those on file with the State Water Rights Board under which water is served to the above named lands.

Nature of Right (irrigation, appropriation, purchased water, etc.)	Year of First Use	Use made in recent years (including amount if known)	Season of Use	Source of Other Supply
1.				
2.				
3.				
4.				

Attach supplement at top of page 3 if necessary.

13. Irrigation Use. The area to be irrigated is _____ acres.
State net acreage to be irrigated

The segregation of acreage as to crops is as follows: Rice _____ acres; alfalfa _____ acres; orchard _____ acres; general crops _____ acres; pasture _____ acres.

NOTE.—Care should be taken that the various statements as to acreage are consistent with each other, with the statement in Paragraph 11, and with the map.

The irrigation season will begin about _____ and end about _____
Beginning date Closing date

14. Power Use. The total fall to be utilized is _____ feet.
Difference between nozzle or draft tube water level and first free water surface above

The maximum amount of water to be used through the penstock is _____ cubic feet per second.

The maximum theoretical horsepower capable of being generated by the works is _____ horsepower.
Second fall X fall 1/2 H.P.

The use to which the power is to be applied is _____
For distribution and sale or private use, etc.

The nature of the works by means of which power is to be developed is _____
Turbine, Pelton wheel, etc.

The size of the nozzle to be used is _____ inches.

The water will be returned to _____ in _____ of _____
Name stream State 40-acre subdivision

Sec. _____, T. _____, R. _____, B. & M. _____

having a present population of

and the nature of the mines is _____
Gold placer, quartz, etc.

The method of utilizing the water is _____

It is estimated that the ultimate water requirement for this project will be _____
Cubic feet per second, gallons per minute. *Spate basis estimate.*

The water will be polluted by chemicals or otherwise

and it will be returned to _____ in _____ of _____
will not _____ Name stream _____ Stage 40-acre subdivision _____

Sec. _____ T. _____, R. _____, B. & M. _____

17. Other Uses. The nature of the use proposed is domestic
Industrial, recreational, domestic, stock watering, fish culture, etc.

State basis of determination of amount needed. Grapevine Ranger Station being one residence occupied
Number of persons, residences, size of domestic lawns and gardens, number and kind of stock, type
by 3 persons with approximately 1/4 acre of irrigated shrubbery and shade trees. Drinking
Industrial use, and other requirements
and radiator water provided for visitors' use.

18. Are the maps as required by the Rules and Regulations filed with Application? Yes Yes or No. If not,

state specifically the time required for filing same

19. Does the applicant own the land at the proposed point of diversion? Yes, If not, give name and address of owner: _____
Yes or No

address of owner and state what steps have been taken to secure right of access thereto _____

20. What is the name of the post office most used by those living near the proposed point of diversion?

Death Valley, California and Goldfield, Nevada

21. What are the names and addresses of claimants of water from the source of supply below the proposed point of

diversion? none known Nothing herein shall constitute a waiver of other rights
the United States may have to the same water.

[SIGNATURE OF APPLICANT] /s/ Granville B. Liles
Superintendent, Death Valley
National Monument

Reg. 4 - Docket 2T DEVA

STATE OF CALIFORNIA--STATE WATER RIGHTS BOARD
P. O. Box 1592
Sacramento, California

NOTICE OF APPLICATION TO APPROPRIATE WATER
Application 19482

Notice Is Hereby Given, That U. S. Death Valley National
Monument
c/o Granville B. Liles
National Park Service
Region 4 Office
180 New Montgomery Street
San Francisco, California

has under the date of June 10, 1960, applied to the State Water
Rights Board for a permit to appropriate unappropriated water,
subject to vested rights.

DESCRIPTION OF PROJECT

Water to be appropriated from unnamed spring (Ranger Spring)
tributary to unnamed stream thence Death Valley Wash.

In the County of Inyo.

Amount applied for: 7,200 gallons per day

Diversion season named: January 1 to December 31 of each year.

Water to be used for domestic purposes.

Point of diversion within NE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 24, T11S, R42E,
MDB&M.

Place of use described: NE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 24, T11S, R42E, MDB&M,
as shown on map filed with State Water Rights Board.

RELATIVE TO PROTESTS

BLANKS UPON WHICH TO SUBMIT PROTESTS WILL BE SUPPLIED FREE UPON REQUEST

Any person desiring to protest against the granting of such permit shall
with 90 days from date hereof file with the State Water Rights Board, Sacramento,
California, a written protest. Such protest shall clearly set forth the protes-
tant's objections to the approval of the application and shall contain the follow-
ing information:

- (1) Statement of the injury which would result to protestant from such
appropriation and use.
- (2) The basis of protestant's water right.
- (3) Protestant's past and present use of water both as to amount used
and land irrigated, or use made of water if other than irrigation.
- (4) The approximate location of protestant's land or place of use and
point of diversion of the water

A COPY OF THE PROTEST SHOULD BE SENT TO THE APPLICANT AND THIS OFFICE
NOTIFIED THAT THE SAME HAS BEEN DONE.

License 3442 (Application 12228) Unnamed Stream in Del Norte County
License 5125 (Application 14931) Smith River in Del Norte County
License 6740 (Application 18433) Goldbelt Spring in Inyo County
License 7577 (Application 19482) Ranger Spring in Inyo County

Dear Mr. Pankratz:

The National Park Service (NPS) responds to your letter of May 29, 1991, by agreeing to process License numbers 6343, 5141, 3442, 5125, and 6740 as ORDERS CORRECTING THE PURPOSE OF USE AND AMENDING THE LICENSE (Orders) rather than as PETITIONS FOR CHANGE IN PURPOSE OF USE as originally requested (For License number 7577 we also concur with processing the changes as Orders, as indicated in our July 11, 1991, letter). An August 15, 1991, telephone conversation between Jeff Hughes of my staff and Bert Parkinson clarified our concerns in this matter.

Upon further review of our water right files and after discussions with Park personnel, we have determined that the Purpose of Use for License 5141 (Application 12222) should be corrected as Recreation, Fish and Wildlife, in place of Domestic, Fish and Wildlife; and License 6740 (Application 18433) should be corrected as Recreational, Fish and Wildlife, in place of Domestic, Recreational, Fish and Wildlife uses. Please inform us as to the proper course for the NPS in regard to these changes.

If you have any questions, please contact either me or Dan McGlothlin at (303) 493-1441.

Sincerely,

Jeffrey Albright

LICENSE 7577 (APPLICATION 19482) RANGER SPRING IN INYO COUNTY

Thank you for your letter of June 29, 1988, regarding the water rights set forth above. On further review of this matter it has been determined to handle the changes as corrections, which do not require a \$100 petition fee. Enclosed are Orders correcting your water right licenses to describe the projects as they are. It is suggested that you retain the Orders with your copies of the licenses.

In some of the Orders domestic and/or irrigation uses have been deleted, therefore, I suggest that you review the Orders carefully. If you believe that the Orders are not consistent with the projects as they exist please inform the State Board within 30 days.

Please note that the State Board's continuing authority condition has been amended to reflect the current common law public trust doctrine as contained in Title 23, California Code of Regulations, Section 780(a).

If you have any questions, please write or call Bert Parkinson at (916) 324-5686.

Sincerely,

Jim H. Pankratz, Chief

Memorandum

To: Associate Regional Director
Resources Management and Planning
Western Region

From: Chief, Water Resources Division

Subject: Transmittal of Petitions for Change in Purpose of Use

Attached are completed Petitions for Change in Purpose of Use forms for water right licenses in Death Valley National Monument and Redwoods National Park. We would appreciate your assistance in transmitting the petitions to the State Water Resources Control Board. We've included for your consideration a draft letter of transmittal.

When staff of the Water Rights Branch prepared the Reports of Licensee for these areas this year, several discrepancies in use of water became obvious. After discussions with park management, petitions were prepared to change the beneficial use of six water right licenses. Copies of the petitions are included for your files.

Payment will be handled through the Rocky Mountain Region's finance office and will be sent to the State Water Resources Control Board in the form of a U.S. Government purchase order under separate cover.

Please contact Ms. Pat Larson or me at (303) 221-5341 if you have questions regarding these petitions or their transmittal.

DRAFT

L54 (479)

Mr. Dave Cornelius
State Water Resources Control Board
Division of Water Rights
P.O. Box 2000
Sacramento, CA 95810

Dear Mr. Cornelius:

Enclosed are Petitions for Change in Purpose of Use for six water right licenses the National Park Service holds in Death Valley National Monument and Redwoods National Park.

As Pat Larson of the Water Rights Branch staff discussed with you earlier this year, the National Park Service is updating the status of its water rights in California park units. For many of the water rights, the beneficial uses have changed, so we believe the Petitions for Change are necessary at this time.

The fees for filing these petitions will be sent to your office under separate cover. The fees will be paid by U.S. Government purchase order issued through the Rocky Mountain Region's finance office. When the purchase order is received, your office should follow the instructions provided on the form to obtain payment of these fees.

Please contact Ms. Pat Larson or Owen Williams of the Water Resources Division at (303) 221-5341 if you have questions regarding these petitions.

Subject: Applications 19482 and 19538, Ranger Spring
and Mesquite Spring in Inyo County

Dear Mr. Morris:

The fees accompanying your petitions requesting extensions of time within which to complete the subject water right projects will be returned to you under separate cover.

The extensions and fees will not be necessary if the Board acts favorably on the two requests for licenses obtained by our field engineer who visited the projects on March 23, 1965.

The request for license under Application 19482, Ranger Spring, is for the full amount and season sought under that filing and the request for license under Application 19538 is for the total flow of Mesquite Spring as measured on March 23, 1965. Copies of the requests are enclosed for your files.

If you should have questions on this matter, please feel free to contact us.

Sincerely,

Memorandum

To: Superintendent, Death Valley

From: Hydraulic Engineer, Division of Land and Water Rights,
Western Region

Subject: Water Rights Progress Reports by Permittee for the year 1964

Of the reports accompanying the memorandum of January 8, 1965 from Acting Superintendent Burgen, those for applications 18489 (docket 1), 19482 (docket 27) and 19538 (docket 28) are being forwarded to the State Water Rights Board. Copies are being sent to each of the docket holders, and your retained copies should be added to your dockets.

The permits for the remaining applications, 16069 (docket 21), 16138 and 15539 (docket 22), and 17839 (docket 25) have expired December 1, 1964. As a matter of convenience, the extension petitions should be filed with the progress reports. Prepare the enclosed extension petition forms in duplicate; keep the copies and send us the originals. We make additional copies, distribution and pay the fees. We will hold these reports until receiving the petitions.

The reports should reflect the water uses described in the original applications unless these uses have changed, in which case the State must be notified on still another special form. We doubted that such changes have occurred, so we made minor additions to the reports to make this clearer. Copies of the amended reports are included and should replace those in your files.

Gentlemen:

This Board has issued permits in approval of the above-numbered applications. The permits, which are endorsed on the reverse side of the applications, fix a definite time schedule as prescribed by law within which to begin construction, complete construction and make full beneficial use. Extensions of time can be allowed only upon a showing of good cause, and you will observe that the permits provide that unless development proceeds promptly and is prosecuted diligently to completion, the permits may be revoked.

Annual reports of progress are required on forms which will be mailed to you on or about October 1, 1961. If and when use of water is reported full and complete, an engineer of this office will make an inspection of the projects. This Board will subsequently issue licenses to confirm the rights to the amount of water found at the time of inspection to have been beneficially used in accordance with the terms and conditions of the permits. After issuance of the licenses there can be no further increase in the use under these rights.

Very truly yours,

L. K. Hill

Dear Mr. Hill:

We are enclosing a purchase order and voucher for payment of permit fees for the construction of works to appropriate waters of Ranger Spring (Application 19482) and Mesquite Spring (Application 19538) in Death Valley National Monument.

Please sign the voucher in the space indicated and return it directly to the National Park Service, Region Four Office, 180 New Montgomery Street, San Francisco 5, California, and payment will be made promptly.

Sincerely yours,

Willard W. Danielson
Acting Superintendent

Memorandum

To: Superintendent, Death Valley

From: Regional Chief of Operations, Region Four

Subject: Water Right Application 19482, Ranger Spring, Docket 27
Water Right Application 19538, Mesquite Spring, Docket 28,
Death Valley National Monument

Attached for forwarding to Executive Officer L. K. Hill of the State Water Rights Board are a purchase order and a voucher for the permit fees required for the subject water rights. The State should be asked to sign the voucher and return it for payment.

Mr. L. K. Hill's form letter of April 13 is returned herewith for filing with your correspondence on the subject water rights.

After the fees have been paid the State will return the two applications with permit portions completed. When received, these documents should be sent to this office for reproduction and distribution to the several offices holding docket assemblies.

Attention: Mr. Granville E. Liles, Superintendent

Subject: Applications 19482 and 19538

Dear Sir:

The above-numbered applications have been approved and in accordance with Chapter 254, Statutes of 1955, minimum fees of \$5.00 for each permit will be required.

The water code requires that the fees must be received in this office within 30 days after service of notice of issuance of permits, personally or by registered mail. This letter is being sent by regular mail and is not intended as notice of issuance of permits within the purview of the water code, but is to informally advise you of the approvals in order to prevent the running of the 30-day period of time.

Kindly send such vouchers or other forms as may be appropriate and the permits will be forwarded upon receipt of the check for the necessary fees.

Very truly yours,

L. K. Hill
Executive Officer

Memorandum

To: Superintendent, Death Valley National Monument
From: Acting Regional Chief of Operations, Region Four
Subject: Water Right Application, Spring Serving Grapevine Ranger Station, Docket 27, Death Valley National Monument

By memorandum of April 4, a copy of which you probably received, Mr. Dunn commented upon the application sent you with our memorandum of March 22. After making the changes noted below the application and carbon copy may be signed and, together with maps, purchase order and voucher, submitted to the State Water Rights Board.

1. After the "5" in question 3, add "gallons per minute." The theoretical capacity of the line cannot be calculated with closer accuracy because the pipe being old and of unknown condition has a C value which cannot be estimated closer than 10 percent. In addition, it is our recollection that the upper end of the line runs nearly level giving a controlling grade which may be less than the average grade.

2. We favor leaving the claimed quantity of 6,000 gpd because we think that even this quantity is more than the pipeline will carry and is more than can be used beneficially unless irrigation is greatly increased. You may recall that when the application was prepared by Engineers Fleming and Spaulding last month 2,600 gallons per day was selected as a reasonable amount. The amount was later increased in this office to be closer to the amount recommended by Mr. Hinewies in his October 16 memorandum.

3. After "concrete tank" in question 7 add "for regulatory storage."

Please send us a copy of your letter transmitting the application to the State and let us have confirmation of changes you make in the application.

The application with the memorandum of March 22 to the Superintendent is satisfactory for filing if you are satisfied as to the maximum water need, subject to the following reconsiderations:

1. The pipeline capacity in question 9 is actually only 5.346 gpm, by my slide rule. The gallons per minute should be added whether you show the extra third of a gallon per minute or not.
2. The pipe will deliver only 7200 gpd at 5 gpm, or 7675 gpd at 5.346 gpm (slide rule). With so little difference, I should claim one of those quantities instead of 6000 gpd in question 2(a), since no extra construction would be needed before proof. The right can then be reduced as the State Water Rights Board sees fit, at the time of inspection, but it could not be increased above a claimed 6000 gpd.
3. Bearing, in question 4, should read N45°E 3300 feet, but the change should be noted for future applications rather than for correction of this one.
4. The first line, question 7, should probably read "concrete tank for regulatory storage". The question is to cover claims for annual storage which is filled once, and we claim the right to use and refill as needed during a 24 hour day, to handle peak hourly demand.

I believe from the records in Alien Water Right 41, that this development is on Federal land, and does not conflict with any claims of the Gospel Mission as successor to A. M. Johnson.

We have assigned the next docket number which is 27, and you should hereafter assign such numbers. Please advise what changes, if any, you decide to make in the application before filing, so that we may do so on the copy we received.

Attached are an original, a carbon copy and an apeco copy of an application with supporting map for the appropriation of the water of the unnamed spring (Ranger Spring) serving Grapevine Ranger Station. The application was prepared in response to Mr. Binnewies' memorandum of October 16.

The attachments should be held until Mr. Dunn's concurrence is received. The original and carbon copy, if satisfactory, may then be signed by you and mailed to the State Water Rights Board.

Also attached are a purchase order and a voucher in the amount of \$10.00 for the filing fee. These should be attached to the application and your letter of transmittal to the State should ask that the voucher be signed and returned directly to this office for payment.

The application was prepared on the basis of present usage and existing diversion works with no provision for enlargement of capacity or increased use. This was done because of the uncertainty of the future of the present station and to allow the application to proceed rapidly to licensing. Future needs, if they develop, can be covered by a supplemental application.

An application for the use of Mesquite Spring is in preparation and will be submitted soon. By copy of this memorandum to Mr. Dunn, we are asking that he assign docket numbers to the subject application and to the Mesquite Spring application. We will prepare and distribute the folders.

Memorandum

To: Regional Director, Region Four

From: Superintendent, Death Valley

Subject: Water Rights, Mesquite Spring and Grapevine Ranger Station

Mr. Wosky's memorandum of September 17 suggests that it would be desirable to establish water rights at Mesquite Springs and Grapevine Ranger Station.

Recent reconstruction of both water systems has developed flows of 18 gpm at Mesquite and 20 gpm at the ranger station. The 20 gpm is more than enough water for domestic needs, including some irrigating, and in view of the fact that the station will be moved to a new location in a few years it is recommended that the water right application be for only 5-10 gpm. The full flow at Mesquite Springs will be used for campers and irrigating and it should be applied for.

Will you please prepare the applications following these suggestions.

Memorandum

To: Superintendent, Death Valley
From: Regional Chief of Operations, Region Four
Subject: Water Rights, Mesquite Spring and Grapevine
Ranger Station, Death Valley

We received your memorandum of August 27, asking whether or not it would be desirable to file water right applications for the subject springs.

The uncertainty as to when additional development is to be accomplished at these two sites would make it difficult to keep alive filings for ultimate water needs. We understand that the Grapevine Ranger Station may be moved to an alternate location.

In the face of such uncertainty, we suggest that if we file at this time it be for only the small amount of water presently being used. Such filings could rapidly pass to licensing. Future increased water needs would, under this course of action require applications for supplemental rights.

We believe it desirable to establish rights and, if satisfactory to you, we will prepare applications following our above suggestion.

Memorandum

To: Regional Director, Region Four
From: Superintendent, Death Valley
Subject: Water Rights, Mesquite Spring and Grapevine Ranger Station

A search of our records failed to reveal any water rights for Mesquite Spring or the unnamed spring that furnishes water for Grapevine Ranger Station. Water from Mesquite Spring is used for the small campground development there.

There is no suggestion of any conflicting use, and none is likely to develop, but we would appreciate your advice as to whether or not it would be desirable to file water right applications for both of these springs.
