WATER RIGHT/SOURCE DOCKET INFORMATION
REGION Western AREA Death Valley National Monument
SITE Mesquite Spring
STATE California COUNTY Inyo DOCKET NO. WR # 28
LOCATION SE 1/4 Sec. 26, T11S, R42E
REGIONAL BASIN LOCAL BASIN
ACQUIRED BY Appropriation
APPLICATION 19538 PERMIT 12743 CERTIFICATE 7578
ACTION DUE PRIORITY July 13, 1960 RESERVATION February 11, 1933
QUANTITY 7200 GPD USE Domestic, irrigation, wildlife
STATUS Active SOURCE Spring

REMARKS

NARRATIVE: On June 13, 1960, the National Park Service filed application #19538 with the State of California, to request permission to appropriate water from Mesquite Spring in DEVA. Permit #12743 was granted for this purpose on April 19, 1961. On March 9, 1966, licence #7578 was granted under this permit.

Compiled by Wm. N. Murray
Approved by W. Werrell

State Water Resources Control Board

NOTICE TO WATER RIGHT LICENSEE

March 5, 2012

Designated Contact or Agent:
U S NATIONAL PARK SERVICE
1201 OAK RIDGE DR STE 250
FORT COLLINS, CO 80525

Contact Phone Number: (970) 225-3500**Primary Owner:** U S NATIONAL PARK SERVICE**Application ID:** A019538 **License No.** 007578

First three Sources listed:	Counties:
MESQUITE SPRING	Inyo

Direct Diversion Rate: 7200.000 Gallons per Day **Collection to Storage Amount:** 0.000 AC-FT**LICENSEE REPORTING FOR 2011**

As indicated in the California Code of Regulations title 23, section 847, the State Water Resources Control Board (State Water Board) requires annual reporting of water diversion and use under licenses. The State Water Board has historically required these reports to be filed once every three years in paper form. California Water Code chapter 2.7 section 348 authorizes the State Water Board to require online reporting of water diversions. Consistent with these requirements, the State Water Board, Division of Water Rights (Division) developed a new online Report Management System (RMS) as a component of the enhanced Water Right Information Management System (eWRIMS). RMS allows electronic submittal of water diversion and use reports, saving both paper and resources. **All reports must be completed online through RMS; paper copies are not available.** To report online, go to www.waterboards.ca.gov/rms and login with your User ID and Password. The information required to login and access your online Report of Licensee is:

User ID (Water Right ID): **A019538**
Password (Reporting Identifier): **552276**

You are required to complete the online report for 2011 no later than **June 30, 2012**. If you do not have a computer or internet access, you should use a friend's computer, a computer in a public library, or a Division computer to fill out the form. Unfortunately, Division staff cannot fill the form out on your behalf. However, if you wish to seek assistance with the form, you may contact the Division to request a listing of attorneys and consulting firms with water rights experience. You can also review the listing on the Division's Business Information Contacts webpage at: http://www.waterboards.ca.gov/waterrights/board_info/contacts.shtml.

If you have multiple water rights, please be aware you must report water use separately for

CHARLES P. HOPPIN, CHAIRMAN | THOMAS HOWARD, EXECUTIVE DIRECTOR

1001 I Street, Sacramento, CA 95814 | Mailing Address: P.O. Box 100, Sacramento, CA 95812-0100 | www.waterboards.ca.gov

- 2 -

each right. Do not list total combined diversions under multiple rights on the form. To document compliance with the conditions of your water right(s), you may use RMS to submit photos (such as staff gages, measuring devices, etc.), documents (Department of Fish and Game agreements, other agency approvals, etc.), graphs, and spreadsheets.

CHANGES FOR 2011 REPORTING:

- It is possible to create one account on the RMS site to report all of your water rights. It is not necessary to create an account if you would like to report your water rights individually. Please see the RMS login page for more information and instructions.
- RMS includes the capability to amend current and past reports. Amendments to credits previously claimed pursuant to Water Code sections 1010, 1011, and 1011.5 are subject to review and may not be accepted.
- Licensees can list all of their reservoirs associated with this license in their report.
- RMS includes new on screen help tools and instructions.

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the Division directly of any water right ownership change. Your county assessor's office or title company does not notify the Division of ownership changes. Failure to notify the Division of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the Division should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/board_info.

CONTACT INFORMATION

Frequently asked questions pertaining to filling out online reports are posted at the RMS website and we encourage you to read these first. However, if you still have any questions or need assistance completing the report, please contact the Division of Water Rights at (916) 323-9393 or send an email to: ewrims@waterboards.ca.gov.

Sincerely,

Phillip Crader, Manager
Permitting and Licensing Section
Division of Water Rights

ANNUAL LICENSEE REPORTING FOR 2010

The State Water Resources Control Board (State Water Board) has historically required Reports of Licensee to be filed once every three years in paper form. Senate Bill 8, which was signed into law in 2009, authorized the State Water Board to adopt regulations requiring online reporting of water diversions. Consistent with the Senate Bill, the State Water Board has adopted regulations requiring annual reporting of water diversion and use under licenses, and developed a new online Report Management System (RMS) as a component of the enhanced Water Right Information Management System (eWRIMS). The online RMS allows you to electronically submit your water diversion and use report, saving both paper and resources. To report on-line, go to www.waterboards.ca.gov/rms and log in with your water right ID and password. The information required to log in and access your online Report of Licensee is:

Water Right ID: **A019538**
Password: **2W3T5Y**

You are required to complete the online report for 2010 no later than **July 1, 2011**. You may also submit your record of diversion and use for previous years using the RMS. To maintain a continuous record of water use under your license, Licensees with **Reporting Cycle 1** should report their monthly diversion and use for 2008, 2009, and 2010. Licensees with **Reporting Cycle 2** should report their monthly diversion and use for 2009 and 2010; and Licensees with **Reporting Cycle 3** only need to report monthly diversion and use for 2010. Please note that it is not possible at this time to amend a report submitted through the RMS.

CHANGES FOR 2010 REPORTING:

Question 4 on the previous Report of Licensee form ("Amount of Water Used") has changed. New Question 5c requires you to report both the "Amount directly diverted and/or collected to storage" and the corresponding "Amount used" for each month. For many direct diversion-only projects, these amounts will be the same and the online form provides a check box for that purpose (Question 5b).

New Questions 6a and 6b on the RMS Report of Licensee requires you to report the maximum instantaneous *rate* of diversion that has occurred in each month under the license, if available.

If your water project is covered by two or more water rights, you should only report your diversion and use of water for the project covered by the license number printed above. The total amount diverted and used under multiple water rights should not be combined and reported on a single

California Environmental Protection Agency

**Notice to Water Right Licensee
Licensee Reporting for 2010**

-2-

February 2011

form. In such cases, you should quantify your diversion under each water right, assigning water to the senior-most right first, to the extent allowed under the permit or license.

REQUIRED NOTIFICATION OF CHANGE IN OWNERSHIP

You are required to notify the State Water Board directly of any water right ownership change. Your county assessor's office or title company does not notify us of any ownership updates. Failure to notify the State Water Board of an ownership change prior to assessment of annual water right fees will result in your liability to pay the annual water right fee even if you transferred the property associated with the water right. Notification to the State Water Board should be made using the Change of Name/Address or Ownership form by clicking on the Water Rights Forms link located at www.waterboards.ca.gov/waterrights/board_info

CONTACT INFORMATION

Frequently asked questions pertaining to filling out online reports are posted at the RMS website and we encourage you to read these first. However, if you still have any questions or need assistance completing the report, please contact the Division of Water Rights at (916) 341-5431 or send an email to: ewrims@waterboards.ca.gov

App ID No. A019538

6. For Storage Projects only:	2007	2008	2009
6.a. Did your reservoir(s) spill?			
6.b. If No, how many feet vertically below the spillway was the water level at maximum storage?			
6.c. Have you emptied the reservoir(s)?			
6.d. If No, how many feet vertically below the spillway was the water level(s) at minimum storage?			

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW THAT ARE APPLICABLE TO YOUR WATER RIGHT PROJECT
(Please note that future amendments to the claims below will not be accepted.)

An appropriate water right can be reduced or revoked through five continuous years of nonuse. However, the California Water Code specifies that under certain conditions no reduction or loss of the appropriate water right shall occur due to: (a) water conservation efforts; (b) use of recycled, desalinated, or polluted water; and/or (c) conjunctive use of groundwater and surface water. You must report the extent and amount of water claimed for credit below. Failure to report the amounts will deprive you of the benefits allowed under the Water Code sections.

CONSERVATION OF WATER: (Water Code section 1011)

7. ☐ YES ☐ NO During the period covered by this Report, were you implementing any water conservation efforts? If YES, please describe:

8. If YES and you want to claim credit for the amount of water conserved towards the water use authorized under your license as allowed under Water Code section 1011, please show the amount of water conserved below:

Future amendments to this claim will not be accepted.

	2007	2008	2009
Amount of water conserved. Specify in acre-feet (AF) or million gallons (MG)			

WATER QUALITY AND WASTEWATER RECLAMATION: (Water Code section 1010)

9. ☐ YES ☐ NO During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?

10. If YES and you want to claim credit for the substitution of this reclaimed, desalinated, or polluted water in lieu of the surface water authorized under your license as allowed by Water Code section 1010, please show the amount of reclaimed, desalinated, or polluted water used below:

Future amendments to this claim will not be accepted.

	2007	2008	2009
Amount of reclaimed, desalinated, or polluted water used. Specify in acre-feet (AF) or million gallons (MG)			

CONJUNCTIVE USE OF GROUNDWATER AND SURFACE WATER: (Water Code section 1011.5)

11. ☐ YES ☐ NO During the period covered by this Report, were you using groundwater in lieu of the surface water authorized under your license?

12. If YES and you want to claim credit for the groundwater used in lieu of the surface water authorized under your permit as allowed under Water Code section 1011.5, please show the amount of groundwater used below:

Future amendments to this claim will not be accepted.

	2007	2008	2009
Amount of groundwater used in lieu of surface water. Specify in acre-feet (AF) or million gallons (MG)			

REMARKS: (Identify the item you are explaining; additional pages may be attached.)

Dear Mr. Wright:

Enclosed are completed Reports of Licensee forms for water right licenses in Pinnacles National Monument and Death Valley National Monument.

As Denise Newberry of my staff discussed with you earlier this year, the National Park Service (NPS) is updating its files and the State's records of its water rights in California park units. The NPS requests orders correcting the purpose of use for the following water licenses, as indicated below:

License 4621 (Application A009510) Main Cow Creek - add
wildlife preservation

License 10580 (Application A008423) Unnamed Spring - add
wildlife preservation

2

License 6110 (Application A015381) Lower Emigrant - add
wildlife preservation

License 7854 (Application A010119) Unnamed Source - add
wildlife preservation

License 2430 (Application A005073) Lower Spring - add wildlife
preservation, delete domestic

License 6559A (Application A013852A) Burns Creek - add
wildlife preservation, delete domestic

If you have questions regarding these Reports of Licensee, please
contact Denise at (303) 225-3525.

Sincerely,

Owen R. Williams
Chief, Water Rights Branch

REPORT OF LICENSEE FOR

- PAGE 2

NOTE: The following questions relate to the Board's continuing responsibility to insure that appropriated water is best developed, conserved, and utilized in the public interest as required by the Water Code. Please answer those questions which are applicable to your project.

CONSERVATION OF WATER (WATER PURVEYORS) *NA*

17. What measures are you using or planning to reduce water losses in conveyance systems? (1) Seepage or leak detection program [] ; (2) Lining canals [] ; (3) Phreatophyte and aquatic vegetation control [] ; (4) Other (describe in "Remarks") [] .
18. What measures are used to encourage consumers to conserve water in agricultural use? (1) Program to encourage more efficient irrigation systems (sprinkler, drip, etc.) where applicable [] ; (2) Return flow systems on individual farms [] ; (3) Return flow system areawide [] ; (4) Water pricing to encourage reduced use [] ; (5) Charges for drainage of irrigated lands [] ; (6) Other (describe in "Remarks") [] .
19. What measures are used to encourage municipal and industrial consumers to conserve water? (1) Regulations to control wasteful use [] ; (2) Public education program on water conservation [] ; (3) Pricing to encourage reduced use [] ; (4) Assistance to industry in design of recycle systems [] ; (5) Other (describe in "Remarks") [] .
20. What records are maintained on water use and conservation? (1) Loss rate from conveyance system [] ; (2) Water use for major crops by each farm [] ; (3) Other (describe in "Remarks") [] .

CONSERVATION OF WATER (WATER USERS) *NA*

21. Describe any water conservation efforts you may have started: _____
22. If credit toward beneficial use of water under this license for water not used due to a conservation effort is claimed under Water Code Section 1011, please show the amounts of water conserved (acre feet or mg.):
1978 _____ 1979 _____ 1980 _____

WATER QUALITY AND WASTEWATER RECLAMATION ~~NA~~

23. Describe methods you are using to minimize erosion and to prevent the entry of silt into surface waters: *NA*
24. After use, the water is (1) retained in reservoir [] ; (2) discharged into a stream or lake [] ; (3) discharged into settling ponds [] ; (4) Other ☒. Describe: *Septic tank leach field for campground toilets*
25. Does or will water being discharged contain waste materials? YES [] NO ☒
(1) Domestic [] ; (2) Municipal [] ; (3) Industrial [] ; (4) Agricultural [] ; (5) Other [] . Describe: _____
26. Does or will water being discharged contain any specific material which is deleterious to fish and wildlife or which would impair the water for beneficial uses? YES [] NO ☒. Describe: _____

TO THE EXTENT THE FOLLOWING QUESTIONS APPLY TO YOUR LICENSE, PLEASE ANSWER IN REMARKS SECTION BELOW.

27. Are you now or have you been using reclaimed water from a wastewater treatment facility or water polluted by waste to a degree which unreasonably affects such water for other beneficial uses? YES [] NO ☒ *NA*
If credit toward use under this water right through substitution of reclaimed or polluted water in lieu of appropriated water is claimed under Section 1010 of the Water Code, please show amounts of reduced diversion and amounts of reclaimed water used.
28. Are you now or have you been reclaiming or reusing any of the water appropriated under this right? YES [] NO ☒ *NA*
If yes, please describe. _____
29. What is present availability or current potential for using reclaimed water from a wastewater treatment plant or polluted water in place of the appropriated water to satisfy all or part of your water needs? *NA*
30. What is the current potential for reusing the appropriated water to satisfy part of your water needs? *NA*
31. If you produce reclaimed water, or polluted water, is there a potential for others to use it? *NA*

REMARKS: (Identify the item you are explaining. Additional pages may be attached.)

I declare under penalty of perjury that the information in this report is true to the best of my knowledge and belief.

Date: *7/23/87*

REPORT CONTINUES ON REVERSE SIDE

REPORT OF LICENSEE FOR 1975, 1976, 1977—PAGE 2

NOTE: The following questions relate to the Board's continuing responsibility to insure that appropriated water is best developed, conserved, and utilized in the public interest as required by the Water Code. Please answer only those questions which are applicable to your project.

CONSERVATION OF WATER

17. What measures are you using or planning to reduce water losses in conveyance systems? (1) Seepage or leak detection program ☐; (2) Lining canals ☐; (3) Phreatophyte and aquatic vegetation control ☐; (4) Other (describe in "Remarks") ☐.
18. What measures are used to encourage consumers to conserve water in agricultural use? (1) Program to encourage more efficient irrigation systems (sprinkler, drip, etc.) where applicable ☐; (2) Return flow systems on individual farms ☐; (3) Return flow system statewide ☐; (4) Water pricing to encourage reduced use ☐; (5) Charges for drainage of irrigated lands ☐; (6) Other (describe in "Remarks") ☐.
19. What measures are used to encourage municipal and industrial consumers to conserve water? (1) Regulations to control wasteful use ☐; (2) Public education program on water conservation ☐; (3) Pricing to encourage reduced use ☐; (4) Assistance to industry in design of recycle systems ☐; (5) Other (describe in "Remarks") ☐.
20. What records are maintained on water use and conservation? (1) Loss rate from conveyance system ☐; (2) Water use for major crops by each farm ☐; (3) Other (describe in "Remarks") ☐.

WATER QUALITY AND WASTEWATER RECLAMATION

21. Describe methods you are using to minimize erosion and to prevent the entry of silt into surface waters: _____
22. After use, the water is (1) retained in reservoir ☐; (2) discharged into a stream or lake ☐; (3) discharged into settling ponds ☐; (4) other ☐. Describe: _____
23. Does or will water being discharged contain waste materials? ☐ Yes ☐ No.
(1) Domestic ☐; (2) Municipal ☐; (3) Industrial ☐; (4) Agricultural ☐; (5) Other ☐. Describe: _____
24. Does or will water being discharged contain any specific material which is deleterious to fish and wildlife or which would impair the water for beneficial uses? ☐ Yes ☐ No. Describe: _____
25. Describe what steps you are taking, have been taking, or can take to reclaim or indirectly reuse the water appropriated: _____

REMARKS

STATE OF CALIFORNIA - STATE WATER RIGHTS BOARD

Application 19538 Permit 743

EXTENSION PETITION

NOTE: A reasonable extension of time may be obtained upon a showing of good cause. Section 779 of the California Administrative Code, Title 23, Waters, provides that sickness, lack of finances or other conditions incident to the person and not to the enterprise will not generally be accepted as good cause for delay while weather conditions and conditions which are incident to the project itself may be accepted as good cause for delay. A fee of \$5 is required for each permit petitioned.

- A. If construction work has not commenced within the time allowed under the permit, an extension of such commencement date may be petitioned by completing Items 1, 2 and 3.

1. Approximate total amount of money spent in connection with the project to date \$ N/A What was the money spent for? _____

2. Estimated date of commencement of construction N/A

3. Reasons why construction was not begun within the time allowed by the permit N/A

- B. If construction work and/or use of water is proceeding but is not fully complete, an extension of time may be petitioned by completing Items 4, 5, 6, 7, 8, 9 and 10.

4. A ~~(1-year)~~ ~~(2-year)~~, (3-year) extension of time is requested for completion of construction work and/or beneficial use of water. (Indicate period of time desired).

5. Approximate total amount spent on project to date \$ 1,100.00

6. Approximate amount spent during last extension period \$ 600.00

7. Approximate per cent of construction work complete to date 100%

8. Estimated date of completion of construction work Completed

9. Estimated year in which full use of water will be made 1970

10. Reasons why construction and/or use of water was not completed within time previously allowed: _____

STATE OF CALIFORNIA—STATE WATER RIGHTS BOARD

License for Diversion and Use of Water

APPLICATION 19538

PERMIT 12743

LICENSE 7578

United States Death Valley National Monument
Death Valley, California

THIS IS TO CERTIFY, That

has made proof as of March 23, 1965,
(the date of inspection) to the satisfaction of the State Water Rights Board of a right to the use of the water of
Mesquite Spring in Inyo County

tributary to an unnamed stream thence Death Valley Wash

for the purpose of irrigation, domestic, and wildlife propagation
under Permit 12743 of the State Water Rights Board and that said right to the use of said water has been
perfected in accordance with the laws of California, the Rules and Regulations of the State Water Rights Board and the
terms of the said permit; that the priority of the right herein confirmed dates from July 13, 1960,
and that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited
to the amount actually beneficially used for said purposes and shall not exceed seven thousand two hundred (7200)
gallons per day to be diverted from about March 1 to about November 1 of each year and
throughout the remainder of the year as required for domestic and wildlife propagation
purposes.

The point of diversion of such water is located :

North eighty-five degrees west (N85°W) one thousand three hundred (1300) feet from
SE corner of Section 26, T11S, R42E, MDB&M, being within SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of said Section 26.

A description of the lands or the place where such water is put to beneficial use is as follows:

Domestic, wildlife propagation and irrigation of 0.6 acre at Mesquite Spring Campground
all within SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 26, T11S, R42E, MDB&M.

Licensee shall not construct or maintain fences or other works which may prevent access
to water from the source hereunder by the public or wildlife.

This license is conditioned upon full compliance with Section 5937 of the Fish and
Game Code.

All rights and privileges under this license including method of diversion, method of use and quantity of water
diverted are subject to the continuing authority of the State Water Rights Board in accordance with law and in the
interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of
diversion of said water.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time
to time by the State Water Rights Board.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein
specified and to the lands or place of use herein described.

This license is granted and licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the board.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.

SACRAMENTO, CALIFORNIA

REQUEST FOR LICENSE

Application 19538

Permit 12743

Subject to approval by the State Water Rights Board The United States of America
Department of the Interior
Death Valley National Monument
Death Valley, California

having made proof as of March 23, 1965,

(the date of inspection) hereby request license action as listed below.

If any reduction in amount, season or land description is necessitated when the rough calculations are checked, the owner will be notified and allowed 30 days within which to submit a protest to any changes. If no protest is submitted the changes may be considered to be acceptable; however, the changes, an explanation thereof and the date of notification shall be noted on the reverse side of this sheet and become a permanent part of the record in connection with this filing. To the best of the knowledge and belief of the undersigned a right has been established to the use of water of Mesquite Spring

in Inyo County

tributary to an unnamed stream thence Death Valley Wash

for the purpose of irrigation, domestic, and wildlife propagation

under Permit 12743 the priority of which dates from July 13, 1960,

by beneficial use in the amount of 7,200 gallons per day to be diverted from about March 1 to about November 1 of each year for irrigation purposes and throughout the year as required for domestic and wildlife propagation purposes.

The point of diversion of such water is located: One thousand three hundred (1,300) feet North eighty-five degrees west (N85°W) from the SE corner of Section 26, T11S, R42E, NDBM, being within SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of said Section 26.

A description of the lands or the place where such water is put to beneficial use is as follows: Domestic, wildlife propagation and irrigation of 0.6 acre at Mesquite Spring Campground all within SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 26, T11S, R42E, NDBM.

Licensor shall not construct or maintain fences or other works which may prevent access to water from the source hereunder by the public or wildlife.

This license is conditioned upon full compliance of Section 5937 of the Fish and Game Code.

This does constitute a change or changes which require a petition. Any required petitions will be submitted within days.

PERMIT 12743

Neither the filing of an application nor issuance of a permit in approval thereof constitutes a water right. A water right is established only by beneficial use of water in accordance with the terms and conditions of the permit. This report provides a record of the development of your project. After use of water is complete, an inspection will be made and license issued for the amount of water actually put to use under the terms and conditions of the permit.

1. Has the project been abandoned? no Has construction work commenced? yes
2. Has all construction work been completed? yes If not, give estimated date of completion _____
3. State approximate cost of construction work on this project during the past 12 months _____
Describe briefly the portions of the project upon which the above amount was expended _____
4. What construction work remains to be done to complete the project? _____
5. Has use of water commenced? yes
6. Has use of water, as to both amount and season, been as great as you expect in any future year under this permit?
no
7. Has location of the intake or place of use been changed? no
8. Did the source go dry? no If so, during what months? _____
9. Did your reservoir spill this year? not applicable If not, how many feet below crest vertically was the water level at maximum storage? _____ Have you emptied the reservoir? _____ If not, how many feet below crest vertically was it drawn down at end of season? _____

Docket 28

STATE OF CALIFORNIA—STATE WATER RIGHTS BOARD

Application No. 19538 Filed July 13, 1960, at 11:20 A.M.
(Applicant must not fill in the above blanks)

APPLICATION TO APPROPRIATE UNAPPROPRIATED WATER

I, U. S. Death Valley National Monument
 Name of applicant or applicants
 of Death Valley County of Inyo
 Address
 State of California, do hereby make application for a permit to appropriate the
 following described unappropriated waters of the State of California, *SUBJECT TO VESTED RIGHTS*:

Source, Amount, Use and Location of Diversion Works

- The source of the proposed appropriation is Mesquite Spring
Give name of stream, lake, etc., if named; if unnamed state nature of source and that it is unnamed
 located in Inyo County, tributary to unnamed stream thence Death Valley Wash
- The amount of water which applicant desires to appropriate under this application is as follows:
 - For diversion to be directly applied to beneficial use 0.04 cubic feet per
1 cubic foot per second equals 40 statute miner's inches or 646,317 gallons per day
 second, to be diverted from January 1 to December 31 of each year.
Beginning date Closing date
 - For diversion to be stored and later applied to beneficial use _____ acre-feet
1 acre-foot equals 121,471 gallons
 per annum, to be collected between _____ and _____ of each season.
Beginning date Closing date

NOTE.—Answer (a) or (b) or both (a) and (b) as may be necessary. If amount under (a) is less than .021 cubic foot per second, state in gallons per day. Neither the amount nor the season may be increased after application is filed. If underground storage is proposed a special supplemental form will be supplied by the State Water Rights Board upon request.
- The use to which the water is to be applied is domestic, irrigation and wildlife propagation
Domestic, irrigation, power, municipal, mining, industrial, recreational
 purposes.
- The point of diversion is to be located 1300 feet north 85° W of the SE corner of Section 26
State bearing and distance or coordinate distances from section or quarter section corner
 being within the S¹ of S¹
State 40-acre subdivision of public land survey or projection thereof
 of Section 26, T. 11S, R. 42E, M. D. B. & M., in the County of Inyo
- The main conduit terminates in NE¹ of NE¹ of Sec. 35, T. 11S, R. 42E, M. D. B. & M.
State 40-acre subdivision of U. S. Government survey or projection thereof

Description of Diversion Works

NOTE.—An application cannot be approved for an amount grossly in excess of the estimated capacity of the diversion works.

- Intake or Headworks (fill only those blanks which apply)
 - Diversion will be made by pumping from _____
Swamp, offset well, unobstructed channel, etc.
 - Diversion will be by gravity, the underground collection pipe being 4" in diameter
Conduit type, material, etc.

underground 150 feet long perforated asphalt impregnated
Concrete, earth, brick, etc. fiber pipe

 - The storage dam will be none feet in height (stream bed to overflow level); _____ feet
 long on top; have a freeboard of _____ feet, and be constructed of _____
Concrete, earth, etc.
Regulation
 7. Storage Reservoir concrete tank
Name
 The storage reservoir will flood lands in _____
Indicate section or sections, also 40-acre subdivisions unless shown upon map
 It will have a surface area of _____ acres, and a capacity of 1000 gallon water
In case of insufficient space for answers in form, attach extra sheets at top of page 3 and cross reference.

FORM 1

Rec'd with Copy 7 works memo 7 6/19/61, 6 Sept

8. Conduit System (describe main conduits only)

(a) Canal, ditch, flume: Width on top (at water line) _____ feet; width at bottom _____ feet; depth of water _____ feet; length _____ feet; grade _____ feet per 1,000 feet; materials of construction _____
Earth, rock, timber, etc.

(b) Pipe line: Diameter 1 1/2 inches; length 400 feet; grade 30 feet per 1,000 feet; total fall 12 feet; kind plastic
Riveted steel, concrete, wood-stave, etc.

NOTE.—If a combination of different sizes or kinds of conduit is to be used, attach extra sheets with complete description, also show location of each clearly on map.

9. The estimated capacity of the diversion conduit or pumping plant proposed is 0.04 cubic feet per second

The estimated cost of the diversion works proposed is \$ 500.
Give only cost of intake, or headworks, pumps, storage reservoirs and main conduits described herein.

Completion Schedule

10. Construction work will begin on or before May 1, 1960

Construction work will be completed on or before October 1, 1961

The water will be completely applied to the proposed use on or before November 1, 1961

Description of Proposed Use

11. Place of Use. NE 1/4 of Sec. 26 and NE 1/4 of Sec. 35, T18S, R42E, MDB&M
State 40-acre subdivisions of the public land survey. If area is unsurveyed indicate the location as if land of the public land survey were projected. In the case of irrigation use state the number of acres to be irrigated in each 40-acre tract, if space permits. If space does not permit listing of all 40-acre tracts, describe area in a general way and show detail upon map.

Do(es) applicant(s) own the land whereon use of water will be made? Yes Jointly? _____
Yes or No Yes or No

If applicant does not own land whereon use of water will be made, give name and address of owner and state what arrangements have been made with him.

12. Other Rights. Describe all rights except those on file with the State Water Rights Board under which water is served to the above named lands.

Nature of Right (riparian, appropriative, purchased water, etc.)	Year of First Use	Use made in recent years including amount if known	Season of Use	Source of Other Supply
1. <u>See closing statement</u>				
2.				
3.				
4.				

Attach supplement at top of page 3 if necessary.

13. Irrigation Use. The area to be irrigated is 3 acres.
State net acreage to be irrigated

The segregation of acreage as to crops is as follows: Rice _____ acres; alfalfa _____ acres;
shade trees (Mesquite); 5 acres
 orchard _____ acres; general crops _____ acres; pasture _____ acres.

NOTE.—Care should be taken that the various statements as to acreage are consistent with each other, with the statement in Paragraph 11, and with the map.

The irrigation season will begin about March 1 and end about November 1
Beginning date Closing date

14. Power Use. The total fall to be utilized is _____ feet.
Difference between nozzle or draft tube water level and first free water surface above

The maximum amount of water to be used through the penstock is _____ cubic feet per second.

The maximum theoretical horsepower capable of being generated by the works is _____ horsepower.
Second feet $\times$ fall $\div$ 8.8

The use to which the power is to be applied is _____
For distribution and sale or private use, etc.

The nature of the works by means of which power is to be developed is _____
Turbine, Pelton wheel, etc.

The size of the nozzle to be used is _____ inches.

The water will be returned to _____ in _____ of _____
Name stream State 40-acre subdivision

Sec. _____, T. _____, R. _____, B. & M. _____

17. Other Uses. The nature of the use proposed is domestic and wildlife
Industrial, recreational, domestic, stockraising, fish culture, etc.

State basis of determination of amount needed. 50 campers per day, faucets and flush toilets
Number of persons, residence, area of domestic lawns and gardens, number and kind of stock, type
provided, using 25 gallons per day per person. Small pond provided for use of
diverted use, and other requirements
birds and animals.

18. Are the maps as required by the Rules and Regulations filed with Application? Yes . If not, state specifically the time required for filing same Yes or No

19. Does the applicant own the land at the proposed point of diversion? Yes . If not, give name and address of owner and state what steps have been taken to secure right of access thereto. Yes or No

20. What is the name of the post office most used by those living near the proposed point of diversion?
Death Valley, California and Goldfield, Nevada

21. What are the names and addresses of claimants of water from the source of supply below the proposed point of diversion?
none

Nothing herein shall constitute a waiver of other rights the United States may have to the same water.

UNITED STATES OF AMERICA

NOTICE OF APPLICATION TO APPROPRIATE WATER

Application 19538

Notice Is Hereby Given, That U. S. Death Valley
National Monument
Death Valley
California

has under the date of July 13, 1960, applied to the State Water Rights Board for a permit to appropriate unappropriated water, subject to vested rights.

DESCRIPTION OF PROJECT

Water to be appropriated from Mesquite Spring tributary to unnamed stream thence Death Valley Wash.

In the County of Inyo.

Amount applied for: 0.04 cubic foot per second.

Diversion season named: January 1 to December 31 of each year.

Water to be used for domestic, irrigation and wildlife propagation purposes.

Point of diversion within SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 26, T11S, R42E, MDB&M.

Place of use described: Incidental use and irrigation of 3 acres within S $\frac{1}{2}$ of SE $\frac{1}{4}$ of Section 26, and N $\frac{1}{2}$ of NE $\frac{1}{4}$ of Section 25, T11S, R42E, MDB&M, as shown on map filed with State Water Rights Board.

RELATIVE TO PROTESTS

BLANKS UPON WHICH TO SUBMIT PROTESTS WILL BE SUPPLIED FREE UPON REQUEST

Any person desiring to protest against the granting of such permit shall within 40 days from date hereof file with the State Water Rights Board, Sacramento, California, a written protest. Such protest shall clearly set forth the protestant's objections to the approval of the application and shall contain the following information:

- (1) Statement of the injury which would result to protestant from such appropriation and use.
- (2) The basis of protestant's water right.
- (3) Protestant's past and present use of water both as to amount used and land irrigated, or use made of water if other than irrigation.
- (4) The approximate location of protestant's land or place of use and point of diversion of the water

A COPY OF THE PROTEST SHOULD BE SENT TO THE APPLICANT AND THIS OFFICE NOTIFIED THAT THE SAME HAS BEEN DONE.

Subject: Applications 19482 and 19538, Ranger Spring
and Mesquite Spring in Inyo County

Dear Mr. Morris:

The fees accompanying your petitions requesting extensions of time within which to complete the subject water right projects will be returned to you under separate cover.

The extensions and fees will not be necessary if the Board acts favorably on the two requests for licenses obtained by our field engineer who visited the projects on March 23, 1965.

The request for license under Application 19482, Ranger Spring, is for the full amount and season sought under that filing and the request for license under Application 19538 is for the total flow of Mesquite Spring as measured on March 23, 1965. Copies of the requests are enclosed for your files.

If you should have questions on this matter, please feel free to contact us.

Sincerely,

L. K. Hill

Memorandum

To: Superintendent, Death Valley

From: Regional Chief of Operations, Region Four

Subject: Water Right Application 19482, Ranger Spring, Docket 27
Water Right Application 19538, Mesquite Spring, Docket 28, -
Death Valley National Monument

Attached for forwarding to Executive Officer L. K. Hill of the State Water Rights Board are a purchase order and a voucher for the permit fees required for the subject water rights. The State should be asked to sign the voucher and return it for payment.

Mr. L. K. Hill's form letter of April 13 is returned herewith for filing with your correspondence on the subject water rights.

After the fees have been paid the State will return the two applications with permit portions completed. When received, these documents should be sent to this office for reproduction and distribution to the several offices holding docket assemblies.

California

Attention: Mr. Granville B. Liles, Superintendent

Subject: Applications 19482 and 19538

Gentlemen:

The above-numbered applications have been approved and in accordance with Chapter 254, Statutes of 1955, minimum fees of \$5.00 for each permit will be required.

The water code requires that the fees must be received in this office within 30 days after service of notice of issuance of permits, personally or by registered mail. This letter is being sent by regular mail and is not intended as notice of issuance of permits within the purview of the water code, but is to informally advise you of the approvals in order to prevent the running of the 30-day period of time.

Kindly send such vouchers or other forms as may be appropriate and the permits will be forwarded upon receipt of the check for the necessary fees.

Very truly yours,

L. K. Hill

Gentlemen:

There are enclosed three copies of a notice of your application, two of which should be posted as indicated below and the third of which should be returned to this office with attached affidavit.

You are directed to post two copies of this notice on or before August 31, 1960, in at least two conspicuous places in the locality to be affected by the proposed appropriation. On or before September 26, 1960, you should file with this office proof of such posting. IT IS REQUIRED THAT PROOF OF POSTING SHALL CONSIST OF AN AFFIDAVIT EXECUTED ON THE ENCLOSED FORM ATTACHED TO A COPY OF THE NOTICE OF APPLICATION TO APPROPRIATE. In case of inability to post two copies of the notice or file proof of posting within the time allowed kindly advise this office immediately and copies of a new notice of a later date will be forwarded.

This notice is designed for the mutual protection of applicant and prior claimants. Although vested rights to the use of water from the source from which the appropriation is sought cannot be lost, prejudiced or impaired by failure to protest against the application, prior claimants are given this notice so that they may protest if it is felt the proposed appropriation will result in injury to them.

If protests are filed you will be furnished with copies thereof and you are required to file with this office and with the protestant a brief but complete answer to each protest. There is no prescribed legal form which such answer must take but anything which you may do toward placing this office in possession of all the facts relative to the objections raised to your application will expedite action thereon.

Very truly yours

L. K. HILL, Executive Officer

Memorandum

To: Regional Director, Region Four
From: Chief, Water Resources Section
Subject: Water Right Application, Mesquite Spring, New Docket 28,
Death Valley

The subject application has been received with copy of the memorandum of April 11 to the Superintendent from the Acting Regional Chief of Operations, which requests my comments before it is signed and filed.

In answer to question 12, it is suggested that the words "none known" be deleted and the words "see closing statement" inserted in lieu thereof. The closing statement on the third page is intended to permit assertion of Federal riparian or sovereign rights if the U.S. decides to do so later. It also appears from the cover memorandum that the U.S. has been making some use of the water, and we should not admit that the use has been made without some basis of right. It is realized that the State Water Rights Board presently recognizes riparian rights on patented land only, or on land entered with a view to ultimate patent. Nevertheless, we feel that we should continue to preserve our possible rights under the reserved land theory set forth in the Pelton Dam case.

It is satisfactory to start the application with the Superintendent as claimant for the United States, as now worded. However, you should be sure that the notice of application for appropriation, and the permit, indicate that the United States, and not Mr. Liles, is the claimant. I usually find that the State officials make fewer mistakes with the statement: I, the United States of America, by Granville B. Liles.

L54

Memorandum

To: Superintendent, Death Valley National Monument
From: Acting Regional Chief of Operations, Region Four
Subject: Water Right Application, Mesquite Spring, Death Valley National Monument

Attached are an original and two carbon copies of an application with supporting map for the appropriation of the water of Mesquite Spring.

The application should be held until Mr. Dunn's concurrence is received. If satisfactory to you the original and one carbon copy may then be signed and mailed together with the attached purchase order and voucher to the State Water Rights Board. Your letter of transmittal to the State should ask that the voucher covering the filing fee be signed and returned directly to this office for payment.

The application was prepared to claim the full flow of the spring which Mr. Dinnevis' memorandum of October 16 reported to be 15 gallons per minute. Making full use of this amount of water will require that the present diversion works and pipeline be enlarged and that additional area be planted and irrigated. We understand that you intend to undertake this work during the coming summer. Consequently, items 8 and 9 of the application were filled in to show a modest system fully complete and in use by November, 1961 (allowing another season for the establishment of planting).

Memorandum

To: Regional Director, Region Four

From: Superintendent, Death Valley

Subject: Water Rights, Mesquite Spring and Grapevine Ranger Station

Mr. Wosky's memorandum of September 17 suggests that it would be desirable to establish water rights at Mesquite Springs and Grapevine Ranger Station.

Recent reconstruction of both water systems has developed flows of 18 gpm at Mesquite and 20 gpm at the ranger station. The 20 gpm is more than enough water for domestic needs, including some irrigating, and in view of the fact that the station will be moved to a new location in a few years it is recommended that the water right application be for only 5-10 gpm. The full flow at Mesquite Springs will be used for campers and irrigating and it should be applied for.

Will you please prepare the applications following these suggestions.

Fred W. Binnewies
Fred W. Binnewies
Superintendent

In duplicate

September 17, 1959

Memorandum

To: Superintendent, Death Valley
From: Regional Chief of Operations, Region Four
Subject: Water Rights, Mesquite Spring and Grapevine
Ranger Station, Death Valley

We received your memorandum of August 27, asking whether or not it would be desirable to file water right applications for the subject springs.

The uncertainty as to when additional development is to be accomplished at these two sites would make it difficult to keep alive filings for ultimate water needs. We understand that the Grapevine Ranger Station may be moved to an alternate location.

In the face of such uncertainty, we suggest that if we file at this time it be for only the small amount of water presently being used. Such filings could rapidly pass to licensing. Future increased water needs would, under this course of action require applications for supplemental rights.

We believe it desirable to establish rights and, if satisfactory to you, we will prepare applications following our above suggestion.

A search of our records failed to reveal any water

rights for Mesquite Spring or the unnamed spring that furnishes water for Grapevine Ranger Station. Water from Mesquite Spring is used for the small campground development there.

There is no suggestion of any conflicting use, and none is likely to develop, but we would appreciate your advice as to whether or not it would be desirable to file water right applications for both of these springs.
