Please Carefully Review Your Partial Decree

Carefully read and check all items to make sure they are accurate, such as:

1. Name and Address
2. Water Source
3. Date of Priority
4. Point of Diversion
5. Place of Use
6. Nature of Use

If You Find An Error Or Something That Needs To Be Corrected

Immediately call the IDWR Regional Office that handles your basin. The telephone numbers are on the back panel of this brochure. Your basin is designated as the first two digits of your water right.

If an administrative change is needed the proper form will be mailed to you upon your request. Complete and return the form to the IDWR Regional Office that handles your basin.

Costs associated with this publication are available from the Idaho Department of Water Resources in accordance with Section 60-202, Idaho Code.

Guide To Reviewing Your Partial Decree Water Right In The Snake River Basin Adjudication

Idaho
Department
of Water
Resources

5th Judicial
District
Court
of Twin Falls

Congratulations **Here's your decreed water right!**

You have received your partial decree of water rights in the Snake River Basin Adjudication (SRBA) with this brochure. The partial decree is the SRBA Court's official decision on your water right based on the claim to a water right you submitted.

The term "Partial Decree" simply means your water right represents only a small portion of the future SRBA decree. This partial decree is final; however, you may have the opportunity to correct errors and the right to an appeal.

This brochure is designed to help answer questions you may have about your water right and to provide a way to get more information or to have your questions answered.

Commonly Asked Questions

1. Do I need to do something?

Yes. Carefully check your partial decree to make sure all the information is correct. If there are errors, immediately call the Idaho Department of Water Resources (IDWR) to discuss the problem. You may need to request a change form. In some instances the correction can only be made by the SRBA Court. If so you will need to contact the court or approach an attorney to assist you. The phone numbers are on the back of this brochure.

If the partial decree correctly describes your water right, you do not need to do anything more. However, be sure to keep IDWR notified of any changes in ownership for all your water rights.

2. This is a copy of the partial decree for my water right. Where is the original?

The original partial decree for your water right will be retained by the Snake River Basin Adjudication

(SRBA) Court, and a certified copy will be permanently archived at IDWR. Copies are available upon request.

3. When will the SRBA be completed so my partial decree becomes part of the final decree?

The final decree will be issued at the end of the case when all water rights have been reviewed and disputes resolved. The SRBA Court and IDWR are moving forward as quickly as possible. This is a large, complex case with many legal and technical problems to resolve.

We anticipate that finalization of the process will require many more years of hard work. In the meantime, your partial decree represents a completion of the effort to decree your individual water right, and if you are not advised otherwise you can consider this process complete.

A Very Important Reminder

While the SRBA continues, the law requires that you notify IDWR if there are any name or address changes. If the property to which the right applies changes hands, please file a change of ownership with the form obtained from an IDWR office. Failure to file an ownership change may result in your right not being included in the final decree at the end of the case, a penalty of up to \$100 and restrictions on water use.

RE: Water Rights in Reporting Area 7, Basin 43
Snake River Basin Adjudication (SRBA)

Dear Water Right Claimant(s):

Please find enclosed the Idaho Department of Water Resources recommendations for your water right(s) in Basin 43 for the Raft River drainage basin. We have also enclosed instructions for reviewing (1) your recommended water right(s), and (2) other recommended right(s) in your area. Water rights for nearly all domestic and/or stockwater rights were recommended separately in an earlier report, and most of those now have been decreed by the SRBA Court.

Note that you have 120 days in which to review your water rights or those of other claimants and to file any objection to our recommendations. Information on the other water rights can be found at the county courthouses in American Falls, Burley, and Malad City, and at all the Idaho Department of Water Resources offices (see addresses in enclosures).

If the SRBA Court does not receive an objection to our recommendation from you and no other party objects to your water right, your water right will be decreed next year as recommended. You will receive your decree from the SRBA Court.

Completion of the SRBA is important for the future of water management in Idaho. We invite you to contact our regional offices with any questions you have about your water right(s) or this adjudication process.

Sincerely,

Karl J. Dreher
Director

Dear Water Right Claimant(s):

The Idaho Department of Water Resources (IDWR) has completed its initial investigation of your water right claim(s) in the Snake River Basin Adjudication (SRBA). We have enclosed a printout showing our preliminary recommendation for reporting your claim(s) to the SRBA District Court.

Please review the preliminary recommendation carefully. If there is any information on the printout you believe is inaccurate, please fill out the enclosed reply indicating what changes you believe should be made. Further instructions to assist you with the review are enclosed. For water rights with an irrigation water use, a Geographic Information System (GIS) computerized image of the place of use for your claim(s) is also enclosed.

You may return this reply in person to us at a public meeting IDWR will be conducting in your area. **The meeting will be held on Wednesday, May 30, 2001, at 7:00 p.m. in the Raft River Elementary School Cafeteria at 140 W Center St, Malta, ID.** Please come to the public meeting, where you will have an opportunity to find out more about the SRBA process and speak with a department staff member should you have questions regarding your water right claim. Please bring any and all information you have which will help the Department understand your claim(s) and describe them accurately.

This process is intended to ensure IDWR recommends your water right accurately to the SRBA District Court. This is the easiest and least costly means for you to identify corrections you believe should be made to our recommendation. Completion of this process is an important step toward the overall success of the adjudication in Idaho. Your participation is necessary so that accurate information is provided to the SRBA District Court.

We look forward to hearing from you.

Sincerely,

Karl J. Dreher

Dear Water Users of the Raft River Valley,

Please find enclosed the Preliminary Director's Report for your water right claims in the Snake River Basin Adjudication. This is an important opportunity to review the Idaho Department of Water Resources' (IDWR) conclusions regarding your water rights, resolve errors, and have questions answered **before** the report is finalized for the SRBA Court.

CONTENTS OF THIS MAILING:

- ❖ Preliminary Director's Report Instructions (blue page, front and back)
- ❖ Letter From Karl Dreher, Director of IDWR
- ❖ **Your Water Right Recommendation(s) & Map(s)** with Notice of Error form(s)
- ❖ Proposed General Provisions for the Raft River Basin (with attachment)
- ❖ General Basin Map for the Raft River Area for vicinity reference
- ❖ Letter from the Presiding Judge, Snake River Basin Adjudication Court

Please join us for an informational presentation at **7:00 pm on May 30th, at Raft River Elementary School in Malta**. If you miss the informational meeting or need additional assistance then give us a call to set up an appointment.

Respectfully yours,

Douglas Jones, P.E.
Water Rights Supervisor
Southern Adjudication Unit
Idaho Department of Water Resources

(Other instructions on the back)

HOW TO REVIEW YOUR WATER RIGHT:

- ❖ Examine the water right print out and map carefully.
- ❖ Look for errors in spelling, names, and addresses on the water right print out.
- ❖ Look for differences between what IDWR proposes to recommend and what you think your water right should be. Complete the Notice of Error form(s) as instructed below if you disagree – or even if you agree!
- ❖ If you no longer own the property represented in the water right please forward this mailing to the new owner or contact IDWR-Southern Region Office, Adjudication Unit, (208)736-3033.
- ❖ If your address has changed correct the information on the Notice of Error form, sign it and return to IDWR. Or you may write a letter, signed by the claimant of record, describe the address change, and list the water rights involved.

NOTICE OF ERROR INSTRUCTIONS:

- ❖ Please review the preliminary recommendation carefully. Your name, water right number and address have been pre-printed on this reply for your convenience. Check to be sure that the pre-printed information on this form is accurate.
- ❖ Please fill in your daytime and evening telephone numbers.
- ❖ If there is any portion of the preliminary recommendation that is inaccurate, or with which you disagree, please complete items number 1, 2 and 3 on the reply, sign where indicated, and return the reply in the envelope provided. This reply must be mailed before **June 15, 2001**. If IDWR has questions about the information included in your reply, a staff member will be in contact with you to set up an appointment. You may also return the reply in person at the public meeting on **May 30, 2001, at 7:00 p.m. in the Raft River Elementary School, Malta, ID.**
- ❖ Please indicate on the form if you agree with the proposed recommendation and return it to us. Feel free to write down questions, even if you agree, and we will strive to respond in a timely manner.
- ❖ If you have questions or do not understand this process, please call the Adjudication hotline toll free number: **1-800-451-4129** or contact the IDWR Southern Regional Office, located at 1341 Fillmore St, Twin Falls, ID 83301, **(208)736-3033**.

Dear Water Right Claimant:

To help you with your water right claim(s) in the Snake River Basin Adjudication, this letter of explanation is being sent to you along with information sent by the Idaho Department of Water Resources (IDWR). Included are the following important documents which I ask you to please read carefully because they give you the opportunity to save a great deal of time and money:

1. **Preliminary Recommendation.** This is IDWR's *initial* finding and conclusion about your water right and how it should be reported to the SRBA Court. This preliminary recommendation is not filed with the court, but is provided to you to help correct errors or resolve any disagreement you may have over its content. This document has been prepared following IDWR's investigation and may be different than the claim(s) you actually filed.

Therefore, please review this preliminary recommendation carefully to find any errors or disagreements you have with IDWR's findings.

2. **Error Correction/Settlement Process.** This preliminary recommendation is a special service provided to you by IDWR to help you correct errors and resolve any other disagreement you have before the actual recommendations are ultimately filed with the court.

A description of how to work with IDWR is included. Our experience in the SRBA shows that by working in cooperation with IDWR most errors and differences can be addressed before coming into court. It's well worth your time to take full advantage of IDWR's helpful service. If your disagreement cannot be resolved, you will be able to file an objection to IDWR's actual recommendation when it is filed in court and have the final decision made by the Presiding Judge.

This error correction service is an important opportunity for you to work together with IDWR to make sure your water right claim(s) are decreed accurately. There is no cost to you other than your time reviewing the preliminary recommendation and talking to IDWR about any problem you see. Of course, you may always employ the services of an attorney if you wish.

The goal of the SRBA is to see that your water right(s) are decreed by the court as accurately and fairly as possible. It is important to me that this is done efficiently in order to reduce your costs and present you with your decree.

I strongly encourage you to take full advantage of this opportunity to use the fine and courteous services provided by IDWR.

Sincerely yours,

Roger S. Burdick

Subject: Re:Snake River Adjudication Preliminary Recommendations for CIRO Claims [1]

Hi Barbara,

We have received Preliminary Recommendations from the Idaho Department of Water Resources (IDWR) for our City of the Rocks Claim Numbers: 43-11113, 43-11144, 43-11145, 43-11146, 43-12915, 43-12916, 43-12917, and 43-12918 filed in the SRA.

IDWR requests that we sign and return the "Notice Of Error Reply" forms indicating whether or not we agree with the Preliminary Recommendation for each water right claim.

For the water rights claims listed above we are requesting that IDWR change the "Quantity" for Water Right Number 43-11113 from .03 CFS to .003 CFS (as per our submitted claim).

The remaining Water Right Claims have been reviewed and we agree with IDWR's Recommendations.

Would you like us to send these "Notice Of Error Reply" forms back to IDWR through you or should Chuck sign them and we can mail them from here?

Thanks Barbara,
Jim Harte

CHUCK,
I SPOKE WITH BARBARA TODAY AND SHE SAID:
1) YOU CAN SIGN AND MAIL THE FORMS
(IF SHE DID IT SHE WOULD HAVE TO SEND THEM THROUGH D.C.)
2) FAX HER A COPY OF THE REPLY FORM SHOWING THE CORRECTION
3) FAX HER ONE COPY OF A REPLY FORM SHOWING WE AGREE WITH THE DETERMINATION. jh

Re: In re: General Adjudication of Rights to the Use
of Water from the Snake River Basin Water System,
Civil No. 39576.

Dear Mr. Higginson:

In accordance with certain orders of the district court, please find enclosed notices of claims by the United States of America on behalf of the Department of Defense, the U.S. Fish & Wildlife Service, the U.S. Geological Survey, the Department of Veterans Affairs, the General Services Administration, and the National Park Service. Notices of claims are also being hand delivered to your office on behalf of the U.S. Forest Service and the Bureau of Land Management.

As part of these notices, a general notice of the claims accompanies this letter. The general notice provides information that is of applicability to all the non-tribal claims as well as provides the required verification and notice of appearance. Notices of claims for certain Indian tribes and individuals, as well as on behalf of the United States Department of the Interior, Bureau of Indian Affairs, are being transmitted under separate cover and are not included within the General Notice provided with this letter.

By submitting these claims, of course, neither I nor any agency officer, nor the United States of America waives any immunities, privileges, rights, or presumptions, whether based on federal, state or other applicable law, except as clearly and unambiguously required by act of Congress.

Should you have any questions, please contact me at
(202) 272-4134.

Sincerely,

K. Jack Haugrud

Case No. 39576

**GENERAL NOTICE OF UNITED
STATES' CLAIMS TO WATER
ACQUIRED UNDER STATE AND
FEDERAL LAW**

General Remarks for All United States Claims

1. The claims filed with this notice are submitted by the United States of America on behalf of the United States Department of Agriculture--Agricultural Research Service and Forest Service; United States Department of the Interior--Bureau of Land Management (BLM), Fish and Wildlife Service (FWS), and Geological Survey (USGS); the United States Department of Defense; the General Services Administration; and the Department of Veterans Affairs. Regardless of the precise wording of each claim, the listed owner of each claim should be the United States of America.

2. The assertions and remarks made in this General Notice supplement the information provided in the claim forms and should be considered a part of each claim.

3. Attached to this General Notice is the Verification of Claims for each agency. In addition, the Notice of Appearance of the Department of Justice is also attached to this General Notice.

4. By filing these claims, the United States does not waive its right to defer adjudication of de minimus claims as authorized by Court Order dated January 17, 1989.

5. By submitting these claims, neither the United States nor any agency or its personnel waives any immunities, privileges, rights, or presumptions, whether based on federal, state or other applicable law, except as clearly and unambiguously required by act of Congress.

6. The United States reserves the right to amend or withdraw its claims subsequent to the ruling by the United States Supreme Court on the applicability of Idaho's filing fees to the federal government.

7. In addition to the separate claims filed in conjunction with this notice, the United States seeks to have asserted into any decree the following provisions regarding its rights: The United States has reserved that quantity of water reasonably necessary for purposes of fire fighting.

8. Many of the claims filed on behalf of the United States involve claims for stock watering where the total use is not in

excess of thirteen thousand gallons per day. For each of those claims, the purpose of use should include "wildlife" as one of the purposes. This purpose should be listed for each such stockwatering claim.

General Notice Provisions for U.S. Forest Service Claims:

9. In addition to the separate claims filed in conjunction with this notice, the United States on behalf of the USDA--Forest Service seeks to have asserted into any decree provisions regarding its rights. These provisions include but are not limited to:

- a. The United States has reserved that quantity of water reasonably necessary for purposes of road watering.
- b. The United States has reserved that quantity of water reasonably necessary for the following future needs: domestic uses at future administrative sites or expanded existing sites; mixing water for pesticides and fertilizers; irrigation for watershed restoration purposes; watering of Forest Service pack stock; and irrigation for pack stock pasture, tree nurseries and tree seed orchards.

The future uses listed above are needed to fulfill the purposes for which the national forests in Idaho were reserved, including (among other purposes) to secure favorable conditions of water flow, to provide a continuous supply of timber, and to preserve and protect the Forest. The priority date for these rights

should be the date of establishment of the applicable forest reservation.

10. On behalf of the Forest Service, the United States is asserting federal reserved right claims to maintain the integrity of natural stream channels. These claims are needed to fulfill the purposes for which the national forests in Idaho were established including, among other purposes, securing favorable conditions of water flow, providing a continuous supply of timber, and to preserve a healthy forest environment that is sustainable in the long-term. Each claim made to preserve the integrity of stream channels should be deemed to have listed as its purpose the items listed above as well as all other applicable purposes for which the national forests in Idaho were reserved.

11. At a few locations within the national forests, the United States has used water in conjunction with fish screens to aid in fish propagation. The use of water for this purpose is authorized, among other authorities, through an assertion of the federal government's Commerce Clause power under the United States Constitution; the use does not involve water rights that are subject to this adjudication. Nevertheless, if a court of competent jurisdiction rules that this use is subject to this adjudication, the United States on behalf of the USDA-Forest Service intends that this paragraph serve as notice of the United States' claims.

General Notice Provisions Regarding BLM Claims

12. In many instances, the BLM claims for springs and waterholes have more than one basis. In some cases, the claims are for springs and waterholes that were first appropriated by the United States under state law and subsequently reserved pursuant to Executive Order in 1926. In other cases, the claims are for springs and waterholes that were first federally reserved and that subsequently received state licenses. In those instances where the United States has a right pursuant to both federal and state law, the United States has asserted both bases on the claim form. These claims are not intended to be two independent claims to water but rather constitute a single claim to the water with two different bases and priority dates. To the extent that the Department of Water Resources must list the rights separately in Parts 1 and 2 of its Director's Reports, a remark should be included to notify other claimants that a single claim is being asserted with two bases.

General Notice Provisions regarding claims made on behalf of the Department of Defense

13. On behalf of the Department of Defense (DOD), the United States is filing for water rights reserved under federal law and acquired under state law. In addition, the water usage by the U.S. Army Corps of Engineers at civil works projects is provided as a matter of information to the state. This information, which is found at Tab C of the DOD filings, does not constitute claims to water. The use and control of water in

connection with civil projects operated by the U.S. Army Corps of Engineers do not in general involve water rights or water rights claims. Because these projects are authorized through an assertion of the federal government's Commerce Clause power under the United States Constitution, they do not in general involve water rights that are subject to this adjudication.

Nevertheless, the court should include in any decree the information provided as a matter of comity without purporting to alter, deny or restrict such use and control of water, and should include a remark that the information is provided by the United States as a matter of comity and is included in the decree only for the information and use of the State of Idaho and other interest parties.

Notice of Appearance:

Notice is hereby given that K. Jack Haugrud, Daria J. Zane, and Geoffrey Garver will be acting as attorneys of record on behalf of the claimant agencies' referenced in paragraph one of the General Notice, and that all notices required by law to be mailed by the director to the claimant agencies should be mailed to them at the address listed below.

Verification of United States (Department of the Interior - National Park Service)

As the Regional Director, or his authorized designee, for the Pacific Northwest Region of the United States Department of the Interior - National Park Service, I verify under penalty of perjury pursuant to the provisions of 28 U.S.C. § 1746, that to the best of my knowledge and belief the statements made in this document and in the claims filed herewith on behalf of the United States, acting through the United States Department of the Interior - National Park Service are true and correct.

Although federal compliance with 28 U.S.C. § 1746 satisfies the verification requirements of Idaho Code § 42-1409(5), as a matter of comity I also solemnly swear or affirm under oath that I am the Regional Director, or his designee, and that to the best of my knowledge and belief the statements made in this document and in the claims filed herewith on behalf of the United States, acting through the United States Department of the Interior - National Park Service are true and correct.

By making this verification, neither I, the United States of America, nor any of its agencies or personnel, waive any immunities, rights, privileges, or presumptions, whether based on federal, state, or other statutory and/or common law, except as clearly and unambiguously required by Congress.
