Statement of Need

Re: Crater Lake Water Claims on Umpqua River.

The United States now has a temporary checking station at the North Entrance of Crater Lake in the Umpqua River Drainage in unsurveyed land in what would probably be the N $\frac{1}{2}$ of the NW $\frac{1}{4}$ of Section 9, T 29 S, R 6 W, W. M.. It is planned to make this a permanent installation when funds are available.

No local source has been found for a water supply. The rangers now live at the Old North Entrance in Section 17, T 30 S, R. 6 E. W.M., as shown on the accompanying map, and haul such water as they need for drinking from their residences to the new checking kiosk. If water can be obtained economically for the new site, a development similar to that at the East and West Entrances will be provided with a probable demand for 0.03 sec. ft. of water.

It is assumed that the Umpqua River has already been adjudicated, but if not this information is supplied as a request for advice before any general adjudication in order that a formal claim may be made if a source of supply has been found.

Crater Lake Nat'l. Park
Crater Lake, Oregon

Attention: Mr. E. P. Leavitt, Superintendent

Gentlemen:

This will acknowledge receipt of your Statement of Need in connection with your contemplated use of water which is tributary to the Umpqua River.

The rights to the use of the waters of the Umpqua River and its tributaries have not been adjudicated.

Pursuant to your instructions your Statement of Need has been placed on file, and you will be notified if and when operations are commended, looking toward the determination of the rights to the use of the waters of the Umpqua River and its tributaries.

Very truly yours,

CHAS. E. STRICKLIN
State Engineer
