Subject: Songbird Data

Hi Erica,

Attached is our songbird data from the Bigelow Mt.'s in Maine. It includes date, time, lat/long, species observed, observer.

Unfortunately, we do not have any mammal / herp data that would be useful to your project, I think? One of our staff members is currently live-trapping and releasing River Otter and Mink as part of our mercury research, however the target areas are not in the immediate area of the AT.

The bulk of BRI's data consists of Common Loon and other piscivorous birds tissue sampling for mercury accumulation. Our research sites are spread out through most of New England, and have not yet neared the AT.

We are happy to help with your project and any other projects that may arise. Please don't hesitate to contact us for more information!

Lucas

Species Code:

BITH	Bicknell's Thrush
BLJA	Blue Jay
BOCH	Boreal Chickadee
BPWA, BLPW	Blackpoll Warbler
DEJU, SCJU	Dark-eyed Junco
GCKI	Golden-crowned Kinglet
GRJA	Gray Jay
MAWA	Magnolia Warbler
NAWA	Nashville Warbler
OVEN	Ovenbird
RCKI	Ruby-crowned Kinglet
SCJU	Slate-colored Junco
SWTH	Swainson's Thrush
WIWR	Winter Wren
WTSP	White-throated Sparrow
WWCR	White-winged Crossbill
YBFL	Yellow-billed Flycatcher
YRWA, MYWA	Yellow-rumped Warbler
