I, Christine A. Gable, Hydrologist for the National Park Service, Water Resources Division, 1201 Oak Ridge Drive, Suite 250, Fort Collins, Colorado, 80525, and Daniel L. Evans, Research Associate, Colorado State University, working for the Water Resources Division, surveyed the location of the A-frame Well #11 in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 23, T13S R71W, 6th P.M., at Florissant Fossil Beds National Monument (FLFO) on July 8, 1993. The well is located 2,462 feet from the North section line and 876 feet from the East section line, Sec. 23, T13S R71W, 6th P.M., based on the survey described below:

The survey was requested by Alice Johns of the National Park Service (NPS), Water Resources Division (WRD). The requested accuracy was to survey within 5 to 10 feet.

EQUIPMENT: Sokkia/(Lietz), Electronic Total Station SET4
 Accuracy: Horizontal 5"
 Vertical 5"
 Sokkia SDR33 Data Collector and Single Prism
 4-Stage Range Plumbing Pole
 Tripod, Extension Leg, Aluminum

PROCEDURE: Prior to arriving at FLFO, survey notes from previous surveys of section 23 and surrounding sections were obtained from the Bureau of Land Management and reviewed. On July 8, 1993, we located the monument marking the corner section of 13, 14, 23 and 24 and also the locations of the A-frame Well #11, the A-frame residence and Ghist Well #10. After viewing each location, we examined on foot the proposed line of survey for approximately one-half mile, following contours and features from a 7.5 minute U.S. Geological Survey Lake George Quadrangle map, from the A-frame residence to the monument originally located.

The survey began from this corner section monument. The direction of north was determined using a brunton compass. The survey proceeded south based on a backsight bearing north along the north-south line of sections 23 and 24. The survey stayed along the north bearing, vegetation permitting. From an established station, each well and building location was measured.

We were unable to find the $\frac{1}{4}$ section monument of sections 23 and 24. The survey was ended with confidence of a good survey based upon (1) minimum electronic distance measurement errors, (2) close agreement with measured site bearings to features and topography from the U.S. Geological Survey map, and (3) requested location accuracy.

ACTION PLANConfirmation of WD-1 Adjudication
Information for FLFO and ROMO

BACKGROUND - Amended applications were filed for adjudication procedures in District Court, Water Division No. 1, Colorado in 1984 for Florissant Fossil Beds National Monument (FLFO) and Rocky Mountain National Park (ROMO). The Findings and Ruling of the Referee and Decree of the Water Court were received from the Department of Justice (DOJ) on January 6, 1989. The DOJ asked the NPS to review and confirm acceptance of the Courts Decree. The case numbers reviewed were:

<u>Case Number</u>	<u>Name of Structure</u>
W-8795-77	FLFO - Visitors Center Well No. 1
W-8796-77	FLFO - Hornbuck Well No. 2
W-8799-77	FLFO - Maytag Red Barn Well No. 6
W-8800-77	FLFO - Maytag Domestic Well No. 8
W-8801-77	FLFO - Nelson Domestic Well No. 9
W-8802-77	FLFO - Ghist Domestic Well No. 10
W-8803-77	FLFO - A-Frame Domestic Well No. 11
W-8790-77	ROMO - Aspenglen CG Well No. 23820
W-8792-77	ROMO - Hallowell Park Well No. 23819
85 CW 374	ROMO - Hallowell Park Pipeline No. 3
85 CW 375	ROMO - Hallowell Park Ditch No. 2
	Mill Creek Minimum Flow

Each Ruling was reviewed for accuracy and compared with the Service filings filed in 1984. Each review considered name of structure, location, source, date of appropriation, amount of water and use (see attached summary sheets for FLFO and ROMO).

An initial review revealed that the Court's Findings were acceptable with the exception of conflicting legal locations for FLFO - W-8799-77, and ROMO - W-8792-77. A letter dated 1/11/89 was sent to John Hill (DOJ) confirming such (attached).

After further file review it was determined that the Court's Findings for FLFO - W-8799-77 were accurate. Review revealed that location conflicts occurred on case numbers ROMO - W-8792-77, ROMO - 85 CW 374, FLFO - W-8796-77. This results in a need to accurately identify legal locations for these cases.

Discussions with Rick Inglis concerning FLFO - Hornbuck Well No. 2 (W-8796-77) confirmed the Court's Findings. Rick conducted a intensive field reconnaissance of the water developments in FLFO and specifically remembered the conflict in question. He is positive that the correct legal location is NE1/4, NW1/4, Section 13, T13S, R71W. Based upon Rick's field review, FLFO - W-8796-77 will be dropped from further review. Location changes in FLFO-Docket #2 were made on 1/19/89.

After a file review and discussions with Rick Inglis, there continues to be a need to confirm the legal locations for ROMO-W-8792-77 and ROMO - 85 CW 374. The following actions items are required to complete this review of the Court's Findings:

ACTION ITEMS

- 1) Field review the legal locations for the point of diversion for Hallowell Pipeline No. 3 and for Percival Well (85 CW 374). Utilize and investigate the Deed survey from the Singer property.
- 2) Field review the legal location for the Hallowell Park Well No. 23819 (W-8792-77). Utilize land acquisition survey drawing no. 2759.
- 3) Confirm legal locations and submit State forms for correcting clerical errors.
- 4) Update docket information.

Review of Court's Findings and Decree
in Water District No. 1

Florissant Fossil Beds National Monument

- * Visitors Center Well No. 1 (W-8795-77) - Location, source, date, and amount were correct. Court granted use for drinking and sanitation facilities at Visitor Center. Our amended claim (1984) requested use for domestic, recreation, and fire fighting (see below).
- * Hornbuck Well No. 2 (W-8796-77) - Source, date, and amount were correct. A conflict in location was noted between the Court's Findings and the Water Right Record. Discussions with Rick Inglis who conducted an intensive field review indicate that the correct location is the NE, NW, Sec. 13, T13S, R71W. Docket #2 data is incorrect and has been changed. Court granted use for domestic and stockwater. Our amended claim (1984) requested use for domestic, recreation and fire fighting (see below).
- * Maytag Red Barn Well No. 6 (W-8799-77) - Location, source, date and amount were correct. Court granted use for stockwater. Our amended claim (1984) requested use for domestic, recreation and fire fighting (see below).
- * Maytag Domestic Well No. 8 (W-8800-77) - Location, source, date and amount were correct. Court granted use for domestic and stockwater. Our amended claim (1984) requested use for domestic, recreation and fire fighting (see below).
- * Nelson Domestic Well No. 9 (W-8801-77) - Location, source, date and amount were correct. Court granted use for domestic. Our amended claim (1984) requested use for domestic, recreation and fire fighting (see below).
- * Ghist Domestic Well No. 10 (W-8802-77) - Location, source, date and amount were correct. Court granted use for domestic. Our amended claim (1984) requested use for domestic, recreation and fire fighting (see below).
- * A-Frame Domestic Well No. 11 (W-8803-77) - Location, source, date and amount were correct. Court granted use for domestic. Our amended claim (1984) requested use for domestic, recreation and fire fighting (see below).

Conflicts in Use - The Court granted our domestic use in all cases except the Maytag Red Barn Well No. 6. Well No. 6 has historically been used as a livestock and wildlife water. Because the well has a windmill and has not been used for domestic purposes the Court's Findings are acceptable. Recreational uses can be met through domestic water supplies and fire fighting uses will be met during any emergency situation using domestic water. Therefore, the Court's Findings on use are acceptable to the NPS.

Summary prepared by Wm. R. Hansen on 1/19/89

Review of Court's Findings and Decree
in Water District No. 1

Rocky Mountain National Park

- * Hallowell Park Ditch No. 2 (85 CW 375) - Location, source, date, amount and use were correct. Abandonment of 0.7 cfs correct.

- * Hallowell Park Pipeline No. 3 (85 CW 374) - Source, date, and amount were correct. Court granted use for domestic in 2 seasonable residences for government purposes. Our amended request (1984) requested use for domestic and fire fighting (see below). Conflicts in location of point of diversion (Pipeline No. 3) and location of new use at Percival Well were found.

Conflict - Point of diversion Pipeline No. 3

- Amendment (1984) - NW,SW, Sec. 5, T4N, R73W
- Court Finding (1989) - SW,NW, Sec. 5, T4N, R73W

Conflict - Location of Percival Well

- Amendment (1984) - NE,SE, Sec. 27, T5N, R73W
- Court Finding (1989) - SE,SE, Sec. 28, T5N, R73W
- Deed survey suggests location in SW,SE, Sec. 28, T5N, R73W.

- * Hallowell Park Well No. 23819 (W-8792-77) - Source, date, and amount were correct. Court granted use for drinking and sanitary facilities for Job Corps Camp. Our amended request (1984) requested use for domestic, recreation, and fire fighting (see below). Conflicts in legal location.

Conflict

- Water Right Record - NE,SW, Sec. 6, T4N, R73W
- Court Finding (1989) - SE,NW, Sec. 6, T4N, R73W
- Water Quality Report - SW,NE, Sec. 6, T4N, R73W
- Survey confirms SW,NW, Sec. 6, T4N, R73W - Drawing No. 2759.

- *Aspenglenn Campground Well No. 23820 (W-8790-77) - Source, date, location were correct. Court granted use for drinking and sanitary facilities in campground with 61 camp sites. Our amended request (1984) requested use for domestic, recreation, and fire fighting (see below). There were differences in amounts claimed and amounts granted by the Court.

Conflict

- Amendment dated 9/28/84 - Claimed 55 gpm (Appropriative).
- Amendment for W-8788-77 - Claimed 30 gpm (Reserved).
- Court Finding - 30 gpm limited to 1 ac-ft/yr.
- O. Williams confirmed that 30 gpm was acceptable.

Conflicts in Use - In all cases our primary need for domestic use was met. Recreational uses can and will be met with domestic water and fire fighting uses will be met during any emergency situation using domestic water. Therefore, the Court's Findings on use are acceptable to the NPS.

Dear Mr. Hill:

We have reviewed the copies of FINDINGS AND RULING OF THE REFEREE AND DECREE OF THE WATER COURT in the above captioned cases. We have verified our claims and the courts findings and find the Rulings to be acceptable. During our review we identified conflicting legal locations for W-8792-77 and W-8799-77. We will investigate these conflicts and if found to be in error in the Ruling, will make the appropriate changes in legal location at a later date.

If you have any questions, please call me.
