Memorandum

To: Regional Director, Region Two

From: Chief, Water Resources Section

Subject: Water Rights, Avalanche Campground, Docket 8, Glacier

By memorandum of May 15 to the Superintendent, Mr. P. E. Smith, WDC, submitted plans and specifications for developments at Avalanche Campground.

We have never filed an appropriative claim with the County Recorder for this water system. I have a folder, designated as proposed Docket 8, which contains a print of a drawing of the water system based on survey of 6/15/40, by Tynham. We also prepared a tracing which I believe I have sent to you, but I can find no reference to its number, or that it was sent to you. It may have been sent with my memorandum of October 8, 1957, concerning Drawing 2252, or my memorandum of January 18, 1960, concerning the 11 docket numbers which had been assigned.

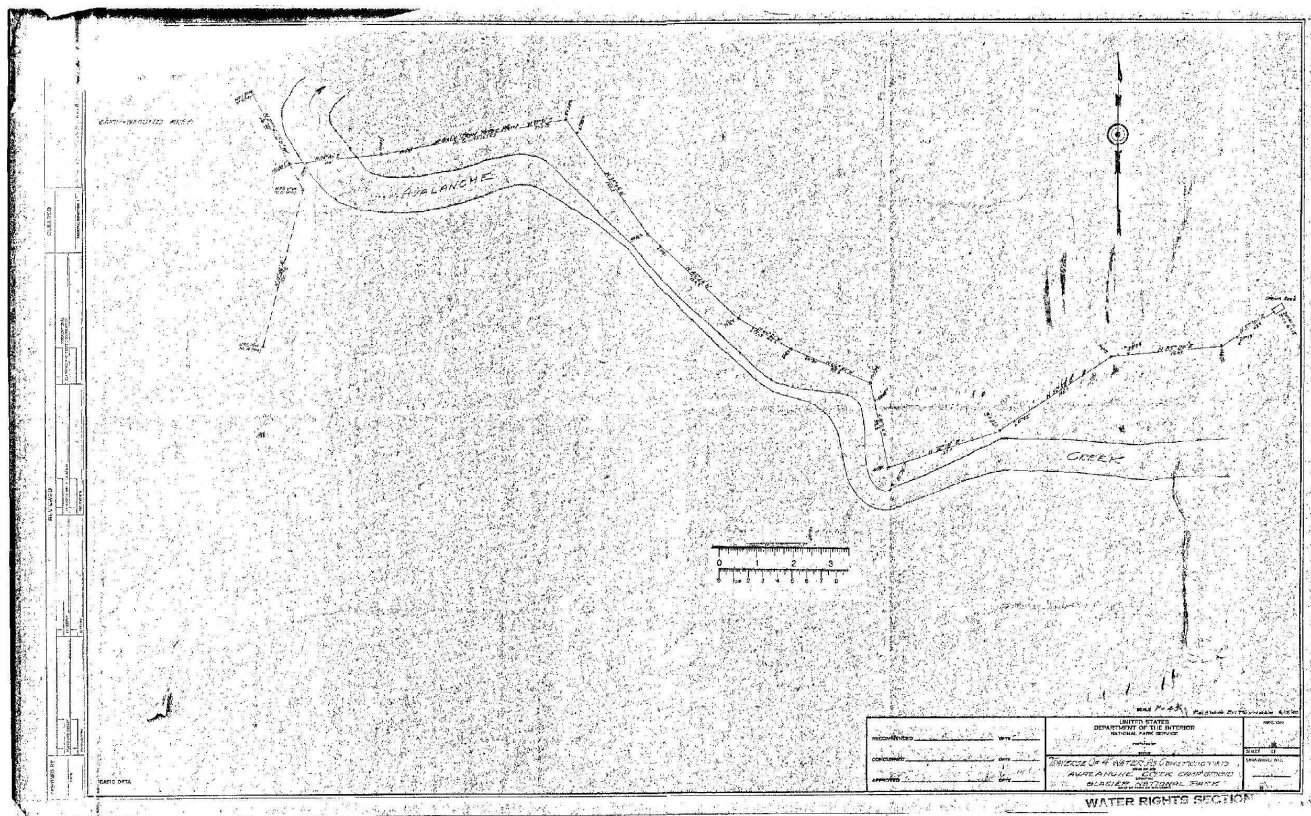

This might be a proper time to make a county filing for your estimated ultimate required quantity of water, if there is a change in the system and amount of use. Such a filing should indicate that use was started at the date of first development, that the use has continued to increase, and that the water system has been enlarged at specified dates as the need became necessary.
