Re: Water Right 99-92 (A57274)

Dear Eric:

Enclosed are the prepared Water Users Claims for the above referenced water right. This application is for the well which is at Halls Crossing. Please review these documents carefully. If the information on them is correct, would you please forward them to your Denver Office to be signed and notarized. The forms then need to be returned to our office.

Thank you for your help and cooperation in this matter. If you have any questions regarding this procedure, please feel free to contact me.

Sincerely,

Blaine Ipson, P.E.
Assistant Area Engineer

Form 114
25M 4-63IN THE SEVENTH JUDICIAL DISTRICT COURT, IN AND FOR THE
COUNTY OF GRAND STATE OF UTAHIN THE MATTER OF THE GENERAL DETERMINATION
OF RIGHTS TO THE USE OF WATER, BOTH SURFACE
AND UNDERGROUND, WITHIN THE DRAINAGE AREA OF
THE COLORADO RIVER IN SAN JUAN, GRAND AND
UINTAH COUNTIES, UTAH, AND EXCLUSIVE OF THE
GREEN RIVER DRAINAGE.STATEMENT OF WATER
USER'S CLAIM
CODE NO. SERIAL NO.

99 92

MAP NO.

NOTE: This blank is sent to you in accordance with Utah Law. The information called for herein will be used in connection with the adjudication of water rights on the above mentioned drainage area. All questions applicable to your claim must be answered fully, and one copy of this form must be filed with the Clerk of the District Court at

Moab, Utah, within sixty (60) days from date of service of the attached Notice. A copy shall be filed with the State Engineer, State Capitol, Salt Lake City. Failure to file the attached Statement of the Water User's Claim with the Clerk of the District Court within the time stated will forever bar and estop you from asserting any right to the use of water from said drainage area.

1. Name of Claimant USA - National Park Service
P.O. Box 25287 Interest Claimed Full
2. Address Denver, Colorado 80225
3. Name of particular spring, spring area, stream, well, tunnel or drain from which water is diverted is Underground water well in San Juan County.
4. Priority date claimed Sept. 11, 1981 Date when water was first used
Date when work on diverting system was first begun Date when diverting system was completed
Nature of work
5. Class of Right (Indicate by X):
(a) Right to surface water initiated by beneficial use before 1903 Claim No.
(b) Right to underground water initiated before 1935 Claim No.
(c) Right decreed by court, cite title of case
(d) X Application filed, State Engineer's Office No. 57274 Cert. of App. No. Election
(e) Right acquired by adverse use prior to 1939
6. Nature (Indicate by X), Amount, and Annual Period of Use (by month & day):
(a) Irrigation Sec. Ft. from to (both dates incl.)
(b) Stockwatering Sec. Ft. from to (both dates incl.)
(c) X Domestic Sec. Ft. 1.3 from January 1 to December 31 (both dates incl.)
(d) Municipal Sec. Ft. from to (both dates incl.)
(e) X Misc. Sec. Ft. INC. from January 1 to December 31 (both dates incl.)
7. Direct Flow Appropriation (must be described with reference to U. S. Government Survey Corner)
(a) Point of diversion from spring, spring area, stream, well, tunnel, drain
S. 1913 ft. & W. 1641 ft. from NE Cor. Sec. 29, T38 1/2S, R11E, SLB&M
(b) Description of spring area
(c) Point of redirection or point of return to natural channel
(d) If flow is intermittently diverted, list by number or description, all rights involved
8. Where water is used for irrigation purposes:
(a) Area irrigated in legal subdivisions of land by 40-acre tract. (All sources of water for same land or lands must be described in each instance by name or claim number). Claims Used For Purpose Described:
Domestic Uses: 99-92: 100,00 visitors per year, 33 families (year round)
20 families (summer housekeeping trailer rental units from May 1 to Oct. 31)
SW1/4 Sec. 28; S1/2 Sec. 28; S1/2 Sec. 29; E1/2 Sec. 28; NE1/4 Sec. 32; NW1/4 Sec. 33; all T38S, R11E, SLB&M; NW1/4 Sec. 28; NE1/4 Sec. 29; all T38 1/2S, R11E, SLB&M.
(b) Do you get water under a ditch owned by several users? If so, give names of all users and divisions of interest
(c) Do you get water under a ditch owned by several users? If so, give names of all users and divisions of interest
9. Where water is used for Stockwatering:
(a) Number of each kind of stock watered
(b) All sources of water for same stock. (Describe by name or claim number)
10. Where water is used for Domestic:
(a) Number of families or their equivalent All sources of water for same use.
(Describe by name or claim number)

11. Where water is used for Municipal Purposes:

(a) Name of city or town supplied Population
 Number of families Quantity of water

12. Where water is used for a purpose not above enumerated:

(a) Nature of Use Extent of Use
1 school, 1 community building, 2 maintenance shop buildings, 1 administrative
office, 1 gas station, 2 convenience stores, 1-32 unit RV campground, 55 site
campground, 1 laundromat, 1 fish cleaning station, 1 RV dump station.

13. Appropriation for Storage Purposes:

(a) Name of reservoir
 (b) Location of reservoir by legal subdivisions described by 40-acre tracts
 (c) Maximum capacity of reservoir in acre feet Year construction commenced
 Completed Water first used Is reservoir located on or off stream
 (d) Period of Storage from to (both dates incl.). Period of use from
 to (both dates incl.). Maximum area in acres inundated Max. depth in feet
 Average depth in feet Is reservoir drained each year Maximum number of fillings per
 year Is reservoir used for equalizing purposes If feeder canal is used, give maximum
 carrying capacity in sec. ft.

14. Diverting Works:

(a) Surface water diverting dam: Material composed of
 Max. length Max. height Max. width at bottom Max. width
 at top
 (b) Underground water diverting works: Is well flowing or pump Depth of well
 Diameter of well Length of drain Width of drain Depth of drain
 Diameter of drain Length of tunnel Width of tunnel Height of tunnel
 Type of pump Capacity of pump
 (c) Surface and underground water conveying works: Length of ditch to first place of use Width of
 ditch at top Width of ditch at bottom Depth of water Grade of
 ditch per 1000 ft. Material through which ditch passes Maximum length of
 pipe line to first place of use Diameter of pipe line Grade of pipe line per
 1000 feet

Memorandum

DEC 13 1988

To: Regional Director, Rocky Mountain Region

Through: Associate Regional Director, Planning and Resource Preservation,
Rocky Mountain Region *Richard A. Smith*

From: Chief, Branch of Compliance and Legislation, Division of Planning
and Compliance, Rocky Mountain Region

Subject: Meeting with Federal Aviation Administration about Halls Crossing
Airport

On December 7, 1988, Assistant Superintendent Larry May, Resource Management Specialist Jim Holland, and I attended meetings at the Federal Aviation Administration (FAA) Denver Airports District Office. In attendance from FAA were Alan Weichmann, Manager, Airports District Office; Bob Bielek, Utah State Supervisor; Harold Rugg, State Engineer; and Barbara Johnson, Airport Planner. The National Park Service (NPS) had several questions to be answered before the environmental analysis could be completed, and these questions were dealt with first.

The Park Service has requested that the document include a third alternative that would show a 4,500-foot runway with minimal services, to be constructed with NPS funding. We asked if it would be possible to locate that airstrip anywhere else in that area, or if the selected location was the safest and best location for the airstrip. FAA indicated that the proposed location was the best location, even for a shorter strip.

We discussed the need for more design detail, especially on power, water, and sewer design. FAA will provide this information for a standard facility of the size we are considering, and they will also include needed information on fuel storage.

The amount of facility development desired by NPS was discussed. In accordance with previous commitments, NPS would like to have an airport with tie-downs, fuel sales, and service/repair facilities. In response to FAA questions, NPS indicated that there would be no flight instruction or air taxi service based at the airport.

FAA suggested that use restrictions at the proposed Halls Crossing airport be tied to safety considerations. They suggested we check with Grand Canyon NP on their recent safety restrictions. I will check on this and also brief Steve Hodapp in WASO about this project.

FAA explained some of the compliance requirements they must meet before funding an airport. There must be a public sponsor, there are no exclusive rights at the airport, and the airport must be open to the public. We discussed the requirements for a beacon (propose no beacon) and navigational aids (no problem with use of such aids). We discussed the use of runway lighting to be radio-controlled and used only for emergencies. Lighting would need to be available for use at any time to be funded by FAA.

There appeared to be a perception by FAA that NPS did not support the airport development. Assistant Superintendent May explained that NPS has identified the need for the airport in the Development Concept Plan, but that NPS must also ensure the protection of park resources. It appeared to FAA that there may be significant obstacles to airport development. Because a substantial amount of the airport development costs must be borne by the airport sponsor, FAA requested that NPS meet soon with San Juan county to discuss possible restrictions of use. The meeting that was to be held on December 8 will be rescheduled for sometime in January. FAA requested that they receive a written copy of what restrictions we might propose to the sponsor and that the meeting be held at the FAA Denver offices. Glen Canyon National Recreation Area will prepare a draft memorandum for the Regional Director's signature.

There was some question if limiting fixed base operations (FBO) would limit the FAA authority to fund the airport. The FAA general council would need to review the proposal for partial FBO. The sponsor would need to break even, and fuel sales would probably be the key piece. If NPS and the airport sponsor can come to agreement on FBO activities, then FAA will promote and support the airport. Most airports nationwide are subsidized.

We had a lengthy discussion on the accuracy of operations forecasts. The FAA has based their operations forecasts on a shift from the existing 30:70 ratio of use at Halls Crossing and Bullfrog to their predicted 70:30 split. We objected, because, based on recreational patterns, we feel that the shift will result in a 50:50 split between use at Halls Crossing and Bullfrog. The final decision was to have FAA use their figures, but we requested a qualifier saying that the figures might be less. Their contention that there will be a large shift is based on their experience at other airstrips. They did survey 25 Glen Canyon airport users and only 2-3 of those surveyed said that they would continue to use the Bullfrog airstrip.

We discussed some other concerns about airport construction. There is a need to determine what water needs might develop, and then to investigate the status of water rights in the Halls Crossing area. The park will check into this issue.

The request for proposal for cultural resource mitigation was discussed, and NPS requested that the Park Service be included in supervision of the on-site work. FAA was under the impression that the cultural resource mitigation could be completed in a few months; NPS cautioned that discovery of subsurface resources could require complete excavation and therefore more time.

We requested that noise monitoring be a mitigation for the project.
Continuous monitoring at three sites will be entertained by FAA.

The enclosed information was given to us by the FAA.

Mr. Blaine Ipson, P.E.
Assistant Area Engineer
State of Utah Natural Resources Department
P.O. Box 718
Price, Utah 84501-0718

Dear Mr. Ipson:

I am submitting three signed copies of the attached Statement of Water User's Claim 99-92. This completes the application and proof of appropriation for the water well at Halls Crossing in the Glen Canyon National Recreation Area. The number of visitors per year was erroneously shown as 100,00 so we corrected this to read 100,000. We made no other changes.

The National Park Service is making this submission of claim only to complete the appropriation process. It does not represent a response to the general determination of rights to the use of water within the drainage area of the Colorado River in San Juan, Grand and Uintah Counties, Utah, and exclusive of the Green River drainage.

Dear Applicant;

RE: Appl. No. ~~4~~6353 (99-50)

It is noted from our files that you have only fourteen more days in which to submit proof before the lapsing of your application.

This letter is sent to remind you to have your proof or request for extension of time filed in this office before the proof-due date of your application which is February 28, 1981.

Enclosed is a request for extension of time form in case you have misplaced the one previously sent to you.

Yours truly,

Dee C. Hansen

DENVER CO 80225

Dear Applicant:

RE: Application No. 46353 (99-50)

To appropriate water in Utah or to change the point of diversion, place and nature of use of water, you must make application, receive approval, complete the intended development work and submit proof that the water has been put to beneficial use. Our records indicate that you have not made proof on your application. This is due February 28, 1981.

In those areas in which general adjudication proceedings are pending and elections are authorized, the applicant can either:

1. Submit a satisfactory Proof of Appropriation;
or
2. Elect to file a Statement of Water User's Claim in lieu of
Proof of Appropriation;
or
3. Request an extension of time.

Failure to complete one of the above three actions on or before the proof-due date shall cause the application to lapse.

If development is not complete, additional time may be allowed by completing the enclosed Request for Extension of Time and submitting it in affidavit form before the proof-due date. Submission of a Request for Extension of Time in no way guarantees that it will be granted. Extensions of time are granted only after the applicant has made a showing of diligence before the State Engineer. Also enclosed is an Election to File a Water User's Claim form for submission in lieu of proof if the project is complete.

Yours truly,

Dee C. Hansen, P.E.
State Engineer

Dear Applicant:

RE: APPROVED APPLICATION
NUMBER 46353 (99-50)

Enclosed find approved Application No. 46353 (99-50).
This is your authority to proceed with actual construction
work which, under Sections 73-3-10 and 73-3-12, Utah Code
Annotated, 1953, as amended, must be diligently prosecuted
to completion. The water shall be put to beneficial use
and proof of appropriation shall be made to the State Engi-
neer on or before February 28, 1981 otherwise, the
application shall lapse.

Failure on your part to comply with the requirements of the
statutes may result in forfeiture of this application.

Yours truly,

Dee C. Hansen
State Engineer

APPLICATION APPROVED

Form 97 2M 10-70

Application No. 46353

APPLICATION TO APPROPRIATE WATER

STATE OF UTAH

NOTE:—The information given in the following blanks should be free from explanatory matter, but when necessary, a complete supplementary statement should be filed on the following page under the heading "Explanatory."

For the purpose of acquiring the right to use a portion of the unappropriated water of the State of Utah, for uses indicated by (X) in the proper box or boxes, application is hereby made to the State Engineer, based upon the following showing of facts, submitted in accordance with the requirements of the Laws of Utah.

1. Irrigation ☒ Domestic ☒ Stockwatering ☐ Municipal ☐ Power ☐ Mining ☐ Other Uses ☒
2. The name of the applicant is U.S. Dept. Interior, National Park Service
3. The Post Office address of the applicant is P.O. Box 25287, Denver, Colorado 80225
4. The quantity of water to be appropriated .4 second-feet and/or _____ acre-feet
5. The water is to be used for Irrigation from March 15 to November 15
 (Major Purpose) (Month) (Day) (Month) (Day)
 other use period Park Facility & Domestic from January 1 to December 31
 (Minor Purpose) (Month) (Day) (Month) (Day)
 and stored each year (if stored) from January 1 to December 31
 (Month) (Day) (Month) (Day)
6. The drainage area to which the direct source of supply belongs is Colorado River
 (Leave Blank)
7. The direct source of supply is* Underground Water (Well)
 (Name of stream or other source)

which is tributary to _____, tributary to _____

*Note.—Where water is to be diverted from a well, a tunnel, or drain, the source should be designated as "Underground Water" in the first space and the remaining spaces should be left blank. If the source is a stream, a spring, a spring area, or a drain, so indicate in the first space, giving its name, if named, and in the remaining spaces, designate the stream channels to which it is tributary, even though the water may sink, evaporate, or be diverted before reaching said channels. If water from a spring flows in a natural surface channel before being diverted, the direct source should be designated as a stream and not a spring.

8. The point of diversion from the source is in San Juan County, situated at a point*
1. S. 1913 ft. & W. 1640 ft. from the NE Cor. Sec. 29, T38½S, R11E, SLB&M.
2. N. 1397 ft. & W. 671 ft. from the SE Cor. Sec. 29, T38S, R11E, SLB&M.
Halls Crossing N.P.S. Facility, Glen Cyn. Nat'l Rec. Area, Lake Cyn. Quad.

*Note.—The point of diversion must be located definitely by course and distance or by giving the distances north or south, and east or west with reference to a United States land survey corner or United States mineral monument, if within a distance of six miles of either, or if at a greater distance, to some prominent and permanent natural object. No application will be received for filing in which the point of diversion is not defined definitely.

9. The diverting and carrying works will consist of 1. 8-inch well, 1054 ft. deep
2. 5 1/2-inch well, 600 ft. deep. EXISTING
10. If water is to be stored, give capacity of reservoir in acre-feet one height of dam _____
 area inundated in acres _____ legal subdivision of area inundated 300,000 gallon tank
in the NW¼SW¼ Sec. 33, T38S, R11E, SLB&M.

11. If application is for irrigation purposes, the legal subdivisions of the area irrigated are as follows:
Sec. 29, T38½S, R11E, SLB&M.

12. Is the land owned by the applicant? Yes ☒ No _____ Total Two Acres

13. Is this water to be used supplementally with other water rights? Yes ☒ No _____

If "yes," identify other water rights on page 2.

14. If application is for power purposes, describe type of plant, size and rated capacity _____

15. If application is for mining, the water will be used in _____ Mining District at the _____ mine, where the following ores are mined _____

16. If application is for stockwatering purposes, number and kind of stock watered _____

17. If application is for domestic purposes, number of persons 500,000, & families 200

18. If application is for municipal purposes, name of municipality _____

19. If application is for other uses, include general description of proposed uses SEE EXPLANATORY

20. Give place of use by legal subdivision of the United States Land Survey for all uses described in paragraphs 14 to 19, incl. SEE EXPLANATORY

21. The use of water as set forth in this application will consume All second-feet and/or acre-feet of water and None second feet and/ or acre feet will be returned to the natural stream or source at a point described as follows: _____

Page No. 2

EXPLANATORY

The following additional facts are set forth in order to define more clearly the full purpose of the proposed application:

19. (Other Uses) Uses incidental to the operation and administration of a camping and boating facility at Halls Crossing in the Glen Canyon National Recreation Area; mobile home park, camping facilities, marina, store, motel, administration buildings, staff residences, service station, cafe, etc.

20. (Places of Use) All uses are in Secs. 28, 29, 32, 33, T38S, R11E and Secs. 28 & 29, T38½S, R11E, All SLB&M. This area is unsurveyed and survey data is almost non-existent. The accompanying sheet 2 of Drawing No. NRA-GC/3137-B, Halls Crossing (Utilities) developed area plan indicates the location of facilities as accurately as is possible at this time. From this drawing a more accurate description of the places of use would be as follows:

E½NW¼, E½, SE½SW¼ Sec. 32; W½SW¼ Sec. 33; both T38S, R11E; and the NE½NW¼ of Sec. 29, T38½S, R11E; All SLB&M, or whatever, depending upon how T38½S, R11E is subdivided. The Lake Canyon USGS 15' Quad. sheet shows T38½S, R11E to be about 1.37 miles N-S and 6 Miles E-W.

(Use page 4 if additional explanatory is needed.)

The quantity of water sought to be appropriated is limited to that which can be beneficially used for the purpose herein described.

 - c.

Dee C. Hansen
Dee C. Hansen, State Engineer

21. Time for making Proof of Appropriation extended to
22. Proof of Appropriation submitted.
23. Certificate of Appropriation, No., issued

Application No. 46353

The approval of this Application is not a Certificate of Appropriation. It is merely your authority to begin construction work, which must be prosecuted diligently to completion. To secure a Certificate of Appropriation under this Application, Proof of Appropriation must be submitted within the time limit allowed by the State Engineer. The amount of water for which Certificate will be issued will depend upon the amount of water actually put to a beneficial use, not to exceed, however, the amount of water specified in this Application. Proof of Appropriation must be made in accordance with the requirements of the law. For further information write the State Engineer.
