QUANTITY -0- USE None
STATUS Inactive SOURCE Spring

REMARKS Hydrologic Unit #15010005

NARRATIVE: On March 11, 1937, Mr. J.D. Waring filed Application No. A-1745 with the State of Arizona to appropriate 1,000 gallons per day for domestic use and 12,700 gallons per day for stockwatering. The point of diversion was to be at Green Spring and the diversion works were to consist of a concrete sump, a pump, and a pipeline. The domestic use was to be at a cattle ranch headquarters for about 20 persons. Mr. Waring obtained Water Right Certificate No. 1554 from the State of Arizona in 1949. On November 13, 1968, the Park Service acquired the J.D. Waring "Home Ranch" and grazing allotment and various water rights and improvements. Included in the quitclaim deed was the water right covered by Certificate No. 1554.

Grand Canyon National Monument was merged into Grand Canyon National Park on July 25, 1975. Pursuant to the merger, the boundaries between Lake Mead National Recreation Area and Grand Canyon National Park were changed. As a result, Green Canyon Wash, which was in the Recreation Area (as Lake Mead AWR # 13), is now in Grand Canyon National Park (as Grand Canyon WR# 12).

Per telephone call with Lake Mead, it was learned that as of August, 1976, this water source is not used.

Other sources in this area are:

Pack Rat Spring (SW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec.27 T29N R12W, also noted as being in Sec.13 T29N R12W), subject of Certificate #1479 (1948)

Suicide Spring (SE $\frac{1}{4}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec.1 T30N R12W, listed as in NW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec.12 T30N R12W), subject of Certificate #1480 (1948)

Cottonwood Spring (NW $\frac{1}{4}$ SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec.24 T30N R12W, listed as in Sec.18 T30N R11W), subject of Certificate #1483 (1948)

Amos Spring (SE $\frac{1}{4}$ SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec.1 T29N R12W, listed as in NE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec.2 T29N R12E), subject of Certificate #265 (1928)

Horse Spring (SW $\frac{1}{4}$ NE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec.32 T30N R11W)

Shanley Spring (SE $\frac{1}{4}$ NE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec.28 T29N R10W)

Mathis Spring (SE $\frac{1}{4}$ SW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec.20 T31N R12W)

Burnt Canyon Spring (NW $\frac{1}{4}$ NE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec.22 T31N R13W)

Compiled by Kevin Kidder

cont. next page

Approved by W. Werrell

Page 1 of 1

Unnamed Spring (SW $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec.22 T31N R13W)

Red Rock Spring (SW $\frac{1}{4}$ SW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec.14 T30N R13W)

Unnamed Spring (Sec.6 T29N R13W)

Green Spring is located on land the Park Service acquired from Waring in 1968; all the other mentioned springs are located on land withdrawn from the public domain, originally for inclusion in Lake Mead National Recreation Area, and added to Grand Canyon N.P. in 1975. There is a possibility that Green Spring is still located in Lake Mead N.R.A., though its drainage is entirely within Grand Canyon.

Certificate No. 1554

Issued 4-13-49

Permit No. A-1101

Application No. A-1745

APPLICATION FOR A PERMIT

To Appropriate Public Waters of the State of Arizona

Filed March 11, 1937 at 11:45 A. M.
(Applicant must not fill in the above blanks.)I, J. D. WARING
(Name of Applicant.)of Fredonia, County of Coconino
(Postoffice.)State of Arizona, do hereby make application for a permit to appropriate the following described unappropriated waters of the State of Arizona:1. The source of the proposed appropriation is Green Canyon Wash
(Name of stream or name of reservoir and stream if water is diverted from reservoir.)
tributary of Colorado River

2. The amount of water which the applicant intends to apply to beneficial use is:

For Domestic use, 1,000 gallons per day.
(Municipal or Domestic.)For Stockwatering use, 12,700 gallons per day
(Irrigation.) (Cubic feet per second, or acre feet per acre per annum.)For Stockwatering use, 12,700 gallons per day
(Mining or Stock Watering.) (Cubic feet per second, or gallons per day.)For Power use, cubic feet per second.For use, 3. The point of diversion is located at what is known as Green Spring, Tie Point of
(State bearing and distance or coordinate distances to section or quarter section corner.)
Diversion is 648' S 85° W from NE cor Sect. 16 (Brass capped G.L.O. cor.)being within the NE 1/4 of Sec. 16, T. 31 N
(State 40-acre subdivision of U. S. Government survey or projection thereof.) (No. N. or S.)R. 11 W, G. & S. R. B. & M., in the County of Mohave
(No. E. or W.)4. The Pipe Line to be 700 ft miles in length, terminating in the
(Main ditch, canal or pipe line.)NE 1/4 of NW 1/4 of Sec. 16, T. 31 N, R. 11 W, G. & S. R. B. & M.,
(State 40-acre subdivision of U. S. Government survey or projection thereof.) (No. N. or S.) (No. E. or W.)

the proposed location being shown throughout on the accompanying map.

DESCRIPTION OF WORKS

5. **Diversion Works:** (a) Diversion will be by gravity, the diverting dam to be feet in height (stream bed to overflow), long on top, and constructed of
(Concrete, earth, brush, etc.)(b) Description of headgate Concrete sump box from which to pump. 3x3x3 ft
(Timber, concrete, etc., number and size of openings.)(c) If water is to be pumped give general description Triplex Pump capacity 25 gal. per min.
(Size and type of pump.)Water to be lifted 200 ft on each side of the Canyon to troughs above.
(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

Do not use this form in making application for a permit to construct a reservoir and store water. A special form for this purpose may be obtained from the State Water Commissioner.

6. Conduit System. (a) Canal, ditch, flume: Width on top (at water line) feet; width at bottom feet; depth of water feet; length feet; grade feet per 1,000 feet; materials of construction

(b) Pipe line: Diameter one inches; length 700 feet; grade 800 feet per 1,000 feet; total ~~feet~~ from intake to outlet 200 feet; kind Galv. iron for each line to points of use Nos. 2 and 3 of map. Same pipe will be used for domestic and stock watering purposes.

NOTE.—If a combination of different sizes or kinds of conduit is to be used, attach extra sheets with complete description, also show location of each clearly on map. Domestic use is household only — No irrigation

7. Distributing Works. Tank ~~or trough~~: Material Concrete Size 10' x 10' x 6'
(Cross out one.)
Capacity 4,500

8. Cost and Construction Schedule. The estimated cost of the proposed project is \$ 1,100.
It is proposed to begin construction ~~within~~ before March 1st 1938 after the approval of this application, to complete construction within Six months thereafter and to completely apply the water to the proposed use Six months after the beginning of construction.

DESCRIPTION OF PROPOSED USE

9. Domestic Use. Domestic use is proposed as follows: Cattle ranch Headquarters and mess
(Describe nature of use which may include the irrigation of gardens
about 20 persons & 640 head of stock
not exceeding one-half acre, stating number of persons and number of domestic stock to be served, etc.)

10. Municipal Use. To supply the city of
(Name of.) County, having a present population of, and an estimated population of in 19.....

11. Irrigation Use. (a) The land to be irrigated has an area of acres; is located in County, Arizona, and is particularly described by legal subdivisions as follows:

(Describe the subdivisions of the township or section the entire area of which it is proposed to irrigate, by the largest possible legal subdivisions, in the table below, inserting the area in the acreage column. In case of irregular shaped parcels use a separate line to describe each 2½ acre subdivision in which they occur and insert only the area of such subdivision to be irrigated in the acreage column.)

Tp.	Range	Sec.	SUBDIVISIONS	Number Acres To Be Irrigated
<u>31N</u>	<u>11 W</u>	<u>16</u>	<u>NE¼ NW¼ location of both domestic and stockwatering</u>	

(If more space is required, attach separate sheet.)

(b) What is the character of the soil?
(c) What quantity of water is necessary to raise proposed crops?
(Acres feet per acre per annum.)
(d) Land to be irrigated is owned by
(Name of owner.) (If applicant is lessee, etc., so state.)
(e) The irrigation season will begin about and end about
(Beginning date each season.) (Closing date each season.)
(f) Has the land to be irrigated any water right or source of water supply other than that herein applied for? Describe the nature and amount of any additional supply.

12. Stock Watering Use. (a) What kind of stock is it proposed to serve? Cattle & horses

(b) What is the average number of stock it is proposed to serve per annum? 640 head

(c) What is the maximum number of stock it is proposed to serve? 850 head

13. **Power Use.** (a) The maximum amount of water to be used through the penstock is cubic feet per second.

(b) Total amount of power to be developed theoretical horsepower.
(Head in feet $\times$ fall $\div$ 8.8.)

(c) Total fall to be utilized feet.
(Pressure head.)

(d) The nature of the works by means of which the power is to be developed
(Turbine, Pelton wheel, hydraulic ram, etc.)

(e) The works to be located, and the water to be released, in of Sec.
(40-acre subdivision.)

T. R. G. & S. R. B. & M.
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream? If so, name stream and describe location of point where returned in the Sec. T.
(Name of stream.) (40-acre subdivision.) (No. N. or S.)

R. G. & S. R. B. & M.
(No. E. or W.)

(g) The use to which the power is to be applied is
(For distribution and sale or private use, etc.)

14. **Mining Use.** The mines to be served are known
(Placer gold, lode gold, copper, etc.)

as the
(Names of claims or name of group.)

located in Sec. T. R. G. & S. R. B. & M.
(40-acre subdivision.) (No. N. or S.) (No. E. or W.)

and owned by

The method of utilizing the water is

Will the water be polluted by chemicals or otherwise?
(Explain nature of pollution, if any.)

What disposition is made of water after use?
(State if stored for reuse. If returned to a stream give name of stream and description of 40-acre tract to which returned.)

GENERAL

15. Are the maps required by the Rules and Regulations filed with Application? Yes If not, state specifically the time required for filing same
(Yes or No.)
16. The proposed point of diversion is on land of Public Domain
(Insert name of owner, or state of Public Domain, National Forest, State Land, etc.)
17. The proposed conduit system is on land of Public Domain
(Insert name of owner, or state of Public Domain, National Forest, State Land, etc.)
18. The land at the proposed place of use is owned by Public Domain
19. Post office used by those living near the proposed point of diversion is Mount Trumble
20. Of the applicant's knowledge, has the water described herein ever been appropriated, claimed or used by others? No If so, file a statement herewith furnishing names of former appropriators or users of the water, and supporting applicant's claim that the water is now subject to appropriation.
21. If the source of supply is a stream, state names and addresses of water users from the stream below the proposed point of diversion; or, if the source of supply is other than a stream, furnish the names and addresses of at least three residents of the vicinity familiar with the source of supply and the proposed use of water.

ORDER OF CORRECTION

STATE OF ARIZONA, }
County of Maricopa. } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for correction or completion, as follows:

Paragraphs 4 and 6 (b) and map do not agree as to length of pipeline.
Reconcile. Complete 6 (b) by describing length of pipeline for each use.
Describe dam curbing or other structure at point of diversion in Par. 5.
In Par. 11 describe, for each use, the 10-acre subdivision in which the water is to be used. Show distributing tank on map and indicate which location is for domestic use. Do not erase. Line out matter to be eliminated and interline corrections.

In order to retain its priority, this application must be corrected, completed and refiled in the office of the State Water Commissioner on or before July 20th, 1937.

WITNESS my hand and seal of office this 21st day of May, 1937.

Memorandum

To: District Manager, Arizona Strip District, Bureau of
Land Management, P. O. Box 250, St. George, Utah

From: Acting Superintendent, Lake Mead

Subject: Special Use Permit No. 3:602:755

Attached is a copy of the subject special use permit and related information involving the National Park Service acquisition of the J. D. Waring "Horse Ranch" grazing allotment. This is the last transaction and the waters, and improvements permitted herein were acquired by Quitclaim Deed dated November 13, 1968, and recorded in Book 272, pages 315-316.

Exhibit "A" attached to the subject special use permit does not include all the waters, rights, and improvements as contained in the Quitclaim Deed because many of the improvements were located on private lands and a permit was issued at the time the lands were acquired.

The Quitclaim Deed does however include the waters and water rights which were located on both private and Federal lands and this Quitclaim Deed does therefore duplicate certain properties or rights which were conveyed to the United States by the four previous warranty and exchange deeds. We have supplied your office with all previous deeds and special use permits for your grazing files concerning the subject allotment. Please contact this office if there is any question.

Memorandum

To: Chief, Office of Land and Water Rights, SSC
Attention: Mr. Fields

From: Chief, Branch of Water Resources

Subject: Water Rights, J. D. Waring, Lake Mead

The enclosed copy of a quitclaim deed for the Waring property was forwarded to this office for our information. Subsequent telephone conversation with Mr. Witucki of your office confirmed that the listing of water rights had been compiled with his assistance.

At your earliest convenience, further study of these rights are in order leading to the preparation of dockets, and then to a decision as to what procedures are necessary to protect them properly. For instance, some of the certifications are dated in 1948 whereas in most parts of the recreation area the Arizona - California decision gave a priority of 1928 under the reservation doctrine.

A search of our files here reveals no previous knowledge of the water rights described in the quitclaim, which leads us to wonder how many other alien water rights within the recreation area remain unknown. Perhaps the Bureau of Land Management, which manages the grazing leases, has this information.
