Gentlemen:

Re: Permit No. U. W. 1377
Gros Ventre Campground No. 1 Well

Your statement of completion for the above-mentioned well cannot be filed because it was submitted on the wrong form. We have transferred the information given by you to the correct form and we are enclosing it herewith for you to sign before a notary public.

We are also in need of additional information on several items before the statement of completion will be in order for filing:

(1) Under "Casing Record", can you give us the depth of the casing from the top to the bottom? The information you submitted indicates the perforated zone, but there is no information as to the over-all depth of the casing.

(2) We do not consider a well to have been completed until the pump and power plant are installed. However, you gave the date of completion of this well as September 4, 1964, while the date the pump and power plant were installed is given as November, 1965. Will you please enter the correct date for installation of the pump and power plant and completion of this well on this form?

When this form has been completed as indicated above, and signed before a notary public, please return it to us

U. S. National Park Service
Grand Teton National Park

Page 2

December 12, 1966

for filing at your earliest convenience.

Very truly yours,

A handwritten signature in cursive script, reading "George L. Christopoulos".

UW4 sent in 10/21/66

Dear Sir:

The records of this office show that the time for the completion of construction of the Gros Ventre Campground No. 1 Well, Permit No. U. W. 1377, expires on the 31st day of December, 1966.

Failure to complete the construction of the well within the period specified in the permit, or within the period of extension granted by the State Engineer, acts as a forfeiture of the rights granted in the permit. If the well described in said permit has been completed, notice should be given this office before the expiration of the construction period. A Form UW4, Statement of Completion, was previously furnished you for this purpose. If you no longer have this form, please notify this office and you will be furnished with same.

The State Engineer is given authority, within certain limitations, to extend the construction period of a permit upon a showing of sufficient cause therefor. If more time for completion of construction is desired, a request for an extension of time should be filed in this office before the time for completion authorized by the State Engineer has expired. This request should describe the work performed under the terms of the permit, and should also state the reasons for seeking an extension of time.

Gentlemen:

In the interest of efficiency and to improve service to water appropriators, we have revised the procedure in this office in regard to the processing and recording of applications for permits to appropriate the water of the state.

We are now retaining the original application for permit in our files and are returning a copy of the approved permit to the applicant for his records.

You will, therefore, find enclosed herewith a copy of ~~copies~~ of Permit No. U. W. 1377

for the construction of the
Gros Ventre Campground No. 1 Well

which were
was approved under date of December 10, 1964

Also enclosed are blank forms for your convenience in notifying this office of the dates of commencement, completion of construction and completion of the application of water to beneficial use. Please note that date of completion is to be reported on a special form - Form U. W. 4.

If the enclosed permit should be lost or destroyed, additional copies can be furnished for a nominal charge.

Very truly yours,

Floyd A. Bishop

**APPLICATION FOR PERMIT TO APPROPRIATE
UNDERGROUND WATERS IN THE STATE OF WYOMING**

(Under Chapter 169, Session Laws of Wyoming, 1957)

WATER DIVISION NO. 4 UNDERGROUND WATER DISTRICT Teton County
I, Fred C. Fagergren, Superintendent of Moose
County of Teton, State of Wyoming,

being duly sworn according to law, upon my oath say:

1. The name... of the applicant United States Department of the Interior, National Park Service, Grand Teton National Park.
2. The postoffice address... of the applicant Moose, Wyoming,
3. The use to which the water is to be applied is domestic, culinary, stock purposes,
(State whether for irrigation, municipal, railway, industrial, etc.)
watering of lawns and shrubbery.
4. The name of the proposed well is Gros Ventre Campground No. 1.
(Designate by name and number)
5. The well is to be located in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section
(Designate Subdivision)
8, T. 42 N., R. 115 W., of the 6th P.M., Wyoming,
 on land owned by United States Department of the Interior, National Park Service.
6. The type of the proposed well is Drilled.
(Drilled, Dug, Driven, or Jetted)
7. The estimated depth of the well is to be 150 feet.
8. The approximate depth to the water table below land surface is 25 feet.
9. The diameter of well at top is to be 8 inches, and at bottom 8 inches.
10. The kind of casing used, if any, is to be Steel.
11. Type of pump, if any, Turbine.
(Centrifugal, turbine, rotary, plunger)
 Capacity of Pump 150 Gal. per min.
12. Type of power Electric Motor.
(Electric motor, steam or gasoline engine, etc.)
 Horsepower of engine or motor 7 $\frac{1}{2}$.
13. Construction of well will begin within one year from date of approval of this application.
14. Completion of the construction and completion of the application of water to the beneficial uses stated in this application will be made within two years from date of approval of this application.

PERMIT NO. U.W. 1377

PAGE NO. 25

REMARKS: The well covered by this application with appurtenant pumping equipment
and distribution systems will constitute a potable water supply to serve
campers, comfort stations and attendant employees in the Gros Ventre
Campground of Grand Teton National Park.

(Signed)

THE STATE OF WYOMING

COUNTY OF Teton } ss.

I hereby certify that the foregoing application was signed in my presence and sworn to before me by

Fred. C. Fagugner this 29th day of November, 1964

Shane A. Smith
Notary Public

My Commission Expires June 23, 1966

THE STATE OF WYOMING, }
STATE ENGINEER'S OFFICE } ss.

THIS IS TO CERTIFY that I have examined the foregoing application and do hereby grant the same
subject to the following limitations and conditions:

The right to be acquired under this permit shall not include the right to have the water level or artesian
pressure at the point of diversion maintained at any level higher than that required for maximum beneficial use
of available water in the source of supply.

If the well is a flowing artesian well it shall be so equipped that the flow may be shut off when not in use.
Provision shall also be made for a threaded tap to which a pressure gage may be attached for determining shut-
in pressure when desired.

This permit is granted subject to the condition that it shall not interfere with prior valid and existing rights
to the use of the waters of said underground source, and use of water hereunder is subject to the further pro-
visions of Chapter 169, Session Laws of Wyoming, 1957.

Construction of proposed work shall begin within one year from the date of approval.

The time for completing the work and completing the application of water to beneficial use shall terminate
on December 31, 1966.

The amount of appropriation shall be limited to the quantity to which permittee is entitled as determined
at time of proof of application of water to beneficial use.

Witness my hand this 10th day of December, A. D. 1964

NOTICE

This application must be accompanied by a filing fee of two dollars.

Section 7, Chapter 169, Session Laws of Wyoming, 1957, provides in part: "Any person who after March 1, 1958, intends to acquire the right to beneficial use of any underground water in the State of Wyoming, except for those purposes specifically exempted by provisions, of Section 2 shall, before commencing construction of any well or performing any work in connection with said construction or proposed appropriation or any manner utilizing said water for beneficial purposes, file with the State Engineer an application for a permit to make such appropriation and shall not proceed with any of such construction or work until a permit is granted by the State Engineer, provided, that whenever any well constructed for any other purpose shall be found to be suitable for the withdrawal of underground water, such application shall be filed before said water is utilized for beneficial use."*****

Final proof may be submitted in accordance with the provisions of Sections 7 and 12, Chapter 169, Session Laws of Wyoming, 1957, after which Certificate of Appropriation will be issued by the State Board of Control.
