Dear Sir:

The records of this office show that the time for the completion of construction of the Lizard Point No. 1 Well, Permit No. U. W. 865, expires on the 31st day of December, 1963.

Failure to complete the construction of the well within the period specified in the permit, or within the period of extension granted by the State Engineer, acts as a forfeiture of the rights granted in the permit. If the well described in said permit has been completed, notice should be given this office before the expiration of the construction period. A Form UW4, Statement of Completion, was previously furnished you for this purpose. If you no longer have this form, please notify this office and you will be furnished with same.

The State Engineer is given authority, within certain limitations, to extend the construction period of a permit upon a showing of sufficient cause therefor. If more time for completion of construction is desired, a request for an extension of time should be filed in this office before the time for completion authorized by the State Engineer has expired. This request should describe the work performed under the terms of the permit, and should also state the reasons for seeking an extension of time.

Floyd A. Bishop

State Engineer

JUN 28 1963

Dear Sir:

Lizard Point No. 1 Well

under Permit No. U. W. 865 expires on the 2nd day of June, 1963

If you desire more time in which to commence work under the said permit, a request for an extension of time should be filed in this office before the time for commencing work has expired. Good reasons should be given in support of your request.

Earl Lloyd
State Engineer

Grand Teton National Park
Moose, Wyo., December 31, 1963

Cheyenne, Wyoming.

I hereby notify you that work was commenced on the Lizard Point No. 1 Well

under Permit No. U.W. 865, said work having been commenced on the 27th day of May 19 63.

U.S. Department of the Interior
National Park Service
Grand Teton National Park
Moose, Wyoming

Dear Sir:

The records of this office show that the time for completing the application of water to beneficial use from the Lizard Point No. 1 well Permit No. U.W. 865, expires on the 31st day of December, 1963

Failure to make beneficial application of the water within the time limit specified in the permit or within the period of extension granted by the State Engineer, acts as a forfeiture of the rights granted in the permit. If the beneficial application of water to the lands entitled to be irrigated under the terms of the permit has been completed, notice should be given this office before the expiration of the irrigation period, and a form is hereto attached for that purpose. Where the beneficial application of the water has been completed in accordance with the terms of the permit and the applicant fails to notify the State Engineer thereof before the time limiting the application of water to beneficial use expires, it will be necessary to file in this office an affidavit setting forth the facts in the case.

The State Engineer is given authority, within certain limitations, to extend the irrigation period of a permit upon showing of sufficient cause therefor. If more time for applying water to beneficial use is desired, a request for an extension of time should be filed in this office before the time for applying water beneficially, as authorized by the State Engineer, has expired. This request should describe the progress which has been made toward applying the water to beneficial use under the terms of the permit, and give reasons for seeking an extension of time.

State Engineer.

NOTICE OF APPLICATION OF WATER TO BENEFICIAL USE FOR IRRIGATION PURPOSES, MEANS THAT WATER HAS BEEN BENEFICIALLY USED ON ALL OF THE LAND FOR WHICH PROOF OF APPROPRIATION WILL BE SUBMITTED.

NOTICE OF BENEFICIAL USE OF WATER
Grand Teton National Park
Moose, Wyo., December 31, 1963

STATE ENGINEER,
Cheyenne, Wyoming.

I hereby notify you that I completed the application of water to the beneficial uses described in Permit No. U.W. 865, for the Lizard Point No. 1 well on the 8th day of October, 1963.

My Commission Expires Dec 24, 1964

THE STATE OF WYOMING, }
STATE ENGINEER'S OFFICE } ss.

THIS IS TO CERTIFY that I have examined the foregoing application and do hereby grant the same subject to the following limitations and conditions:

The right to be acquired under this permit shall not include the right to have the water level or artesian pressure at the point of diversion maintained at any level higher than that required for maximum beneficial use of available water in the source of supply.

If the well is a flowing artesian well it shall be so equipped that the flow may be shut off when not in use. Provision shall also be made for a threaded tap to which a pressure gage may be attached for determining shut-in pressure when desired.

This permit is granted subject to the condition that it shall not interfere with prior valid and existing rights to the use of the waters of said underground source, and use of water hereunder is subject to the further provisions of Chapter 169, Session Laws of Wyoming, 1957.

Construction of proposed work shall begin within one year from the date of approval.

The time for completing the work and completing the application of water to beneficial use shall terminate on December 31, 1963.

The amount of appropriation shall be limited to the quantity to which permittee is entitled as determined at time of proof of application of water to beneficial use.

Witness my hand this 2nd day of June, A. D. 1962.

NOTICE

This application must be accompanied by a filing fee of two dollars.

Section 7, Chapter 169, Session Laws of Wyoming, 1957, provides in part: "Any person who after March 1, 1958, intends to acquire the right to beneficial use of any underground water in the State of Wyoming, except for those purposes specifically exempted by provisions, of Section 2 shall, before commencing construction of any well or performing any work in connection with said construction or proposed appropriation or any manner utilizing said water for beneficial purposes, file with the State Engineer an application for a permit to make such appropriation and shall not proceed with any of such construction or work until a permit is granted by the State Engineer, provided, that whenever any well constructed for any other purpose shall be found to be suitable for the withdrawal of underground water, such application shall be filed before said water is utilized for beneficial use."*****

Final proof may be submitted in accordance with the provisions of Sections 7 and 12, Chapter 169, Session Laws of Wyoming, 1957, after which Certificate of Appropriation will be issued by the State Board of Control.
