Mr. Thomas J. Allen,
Assistant Director,
National Park Service,
United States Department of the Interior
Washington 25, D. C.

Ref: L54L.

Dear Mr. Allen:

In reply to your letter of February 8, 1955, regarding among other matters, the conflict of in the National Park Service's application for Fourth Enlargement of the Savage Ditch from Gros Ventre River, under our temporary filing No. 16 2/252, with Permit No. 11648 for the Gros Ventre Canal, also from the Gros Ventre River, you naturally would not find any reference to it in the book of adjudicated water rights, since only water rights for which certificates of appropriation have been issued are included in the tabulation.

The terms under Permit No. 11648 were never fulfilled, the description in part and its status as taken from the records in the State Engineer's Office being as follows:

Permit No. 11648 - Gros Ventre Canal - Source Gros Ventre River - Appropriator Teton Irrigation Company - Priority Dec. 24, 1912 - For irrigation of 17,963.38 acres, including:

40 Acres - NE $\frac{1}{4}$ SW $\frac{1}{4}$

40 " - NW $\frac{1}{4}$ SW $\frac{1}{4}$

40 " - SW $\frac{1}{4}$ SW $\frac{1}{4}$

40 " - SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 33, T. 43 N., R. 115 W.,

being same lands described in the application for Fourth Enlargement of Savage Ditch.

Time for completion was extended from time to time. Last extension of time for completion expired December 31, 1936, with no work of record being done. Request for an extension of time for completion from Karl S. Albert received October 29, 1936, was denied by John D. Quinn, then State Engineer.

Mr. Thomas J. Allen,
Washington 25, D. C.
Page 2.

I believe this answers your question regarding any possibility of reinstating this earlier priority. But since the permit is still of record it is required that the State Engineer be requested and authorized to eliminate any lands under the permit in conflict with pending application, that the record may be cleared before approval can be given the application.

The proper form has been typed up and enclosed for your convenience.

The following lands have been adjudicated under the Savage Ditch, which total acres were corrected in 60 of the application as mentioned in our previous letter:

Permit No. 10707 - Savage Ditch - Source Gros Ventre River - Appr. Hilmer Bark - Priority May 15, 1911 - For irrigation of 80 acres described as:
