PETITION FOR CHANGE OF POINT OF DIVERSION
AND MEANS OF CONVEYANCE FOR A WATER RIGHT
UNDER THE HOBBO DITCH UNDER PERMIT NO. 2001E
TO THE ENTERPRISE DITCH.

BEFORE THE STATE BOARD OF
CONTROL AT CHEYENNE, WYOMING.

STATE OF WYOMING -----
COUNTY OF TETON -----

Comes now William Fleischmann of Jackson, County of Teton, State of Wyoming, who
upon being first duly sworn, upon his oath according to law, does set forth the
following statement of facts and petitions:

1. That he is the bona fide owner of the S.E. $\frac{1}{4}$ of Section 21 and the W. $\frac{1}{2}$ of S.W. $\frac{1}{4}$ of Section 22, all in T. 42 N. of R. 116 W. of the 6th. Principal Meridian, as evidenced by Certificate of Ownership issued by the County Clerk of Teton County, Wyoming accompanying this instrument.
2. That there is attached, a water right for 175 acres under the Hobo Ditch diverting water from Gros Ventre River, a tributary of Snake River, under Permit No. 2001 Enl. to and upon the lands above described.
3. That owing to the fact that the Hobo Ditch and a ditch known and of record as the ENTERPRISE DITCH also diverting from Gros Ventre River are located so near each other and the fact that your petitioner also is part owner of said Enterprise Ditch for the amount of 74 acres irrigable under Permit No. 6095 it would become much less costly in maintenance and a considerable saving of water by transferring of the water right under Permit No. 2001 Enl. in the Hobo Ditch to the said Enterprise Ditch and thus eliminating the Hobo Ditch.
4. That there are no intervening headgates or sources of supply between the point of diversion of the Hobo Ditch and the point of diversion of the Enterprise Ditch and that no water appropriator or user will be injured in any way by such transfer.
5. That your petitioner has obtained consent from all co-owners of the Enterprise Ditch as shown by consent in writing accompanying this petition.
6. Your petitioner humbly prays and petitions that the water right for 175 acres diverting at a point located N. 62° 45' E. 3742 feet from the Southwest corner of Section 24, of T. 42 N. R. 116 W. which is the headgate for the Hobo Ditch, be transferred to and the means of conveyance be changed to the Enterprise Ditch diverting at a point located N. 72° 00' E. 3540 feet from the Southwest corner of said Section 24, of T. 42 N. of R. 116 W. and that such transfer or change be allowed without loss of priority and a proper order of the Board entered recording said change.
7. That maps in duplicate, prepared by a duly Registered Engineer, showing the situation and conditions existing accompany this petition.

Memorandum

To: Regional Director, Region Two

From: Acting Chief, Water Resources Section

Subject: Conversion of Temporary Docket E to Water Right Docket 19, Grand Teton

The attached docket folders are for inserting the certificates and maps of Hobo and Enterprise Ditches and their enlargements which at their terminus are irrigating lands privately owned outside the park boundary. Some of the rights, however, are for federally owned acreage en route which is inside the park boundary. All are presently included under temporary Docket E, and will become Docket 19. That which is inside the park should be placed in the section marked "Federal Interests". It is described on Certificate 40-177, 41-16, 30-438, 41-15, 30-428 and 30-427. The balance go in the section marked "Alien Rights".

The attached docket index indicates the order of maps and certificates from the bottom of the assembly upwards. The necessary petition papers pertaining to the merging of Hobo and Enterprise Ditches now in temporary Docket E should be included. We are attaching the applicable sheet 1 of Drawing MP-GT/6954.

Memorandum

To: Regional Director, Region Two
From: Superintendent, Grand Teton
Subject: Petition of William Fleischmann to change point of diversion of Hobe Ditch to that of Enterprise Ditch, at Grand Teton National Park.

As suggested in Mr. McLaughlin's memorandum dated October 6, 1952 the matter of the tie from the S.W. corner of Sec. 24 to the headgate of the enterprise ditch has been investigated and discussed with the Water Commissioner, Mr. James M. Robertson, of Teton County. It should be noted that the bearing has been corrected to 73°, however, the distance remains 3540'. In temporary water right assembly LIV under enlargement permit 2992E the distance is 3540'. Under the original the distance was 54 chains. Mr. O. E. Williams surveyed for the enlargement and his surveys are quite accurate. Mr. Robertson feels that at the time of the enlargement the point of diversion was changed slightly in order to construct a dyke across the Grosvent River and enable the water users to divert more water at that point. Mr. Robertson also states that the original surveyor of the enterprise ditch was quite often in error, particularly in distances. I hope this clears up the matter.

Under separate cover I am sending copies of the map and petition. When the petition is granted I will send documents to that effect.
