Memorandum

To: Director

From: Regional Chief of Lands

Subject: Draw Down of Wells, Annual Forest Report, Mesa Verde

Acting Chief Carlson, Branch of Park Forest and Wildlife Protection, has called my attention to the Annual Forestry Report (Y2619) 1957 for Mesa Verde.

The report was prepared by Chief Park Ranger Jack J. Wade and a copy with attachments was furnished your office by Mr. Carlson with his memorandum of January 22.

The graphs at the back of the report show water trends in Morfield upper, lower and middle Prater Wells, as well as White's Well. The graphs show the relationship of draw down to precipitation and if the report has not been brought to Mr. Dunn's attention, we think he will be interested in the information contained in this very good report.
