DOCKET NO. 2

APPLICATION NO. 5789

PERMIT NO. 3710

CERTIFICATE NO.

TITLE OF DOCKET CLINIC PIPE LINE

PRIORITY 2/15/43

REMARKS:

Mt Rainier - Dead #

S. F. No. 376—1922. Approved as to Form ' ept. of Efficiency. 10617.

Notice of Beginning of Construction

United States of America, Department of the Interior, National Park Service,
I, by John C. Preston, Mount Rainier National Park, the holder of
Permit No. 15-3710, and Reservoir Permit No. —, both issued by the Supervisor of Hydraulics
of the State of Washington for the appropriation of 0.11 second-feet and
the storage of — acre-feet of the unappropriated waters of nameless spring (#7) tribu-
tary to Ohahapeseah River
in accordance with the tenor of such permits and the limitations endorsed thereon by the Supervisor of
Hydraulics, began the actual construction of the works described therein before on the first day of
July, 1920, being within the time limitation as fixed in said permit for the beginning of
construction work.

The nature and the amount of the construction work already done is as follows: (This does not in-
clude preliminary investigation and reconnaissance.)

PER CENT COMPLETED:

Clearing 100%; Material in place 100%; Material on ground 100%; Excavation 100%;
Structure 100%.

Any additional information which may tend to show good faith in the prosecution of the work.....
Public water use in the area started in 1916 with undeveloped campground facilities.
The existing water system was built in 1920 to serve hotel and bathhouses built the same
year.

IN WITNESS WHEREOF, I have hereunto set my hand this 17th day of January, 1944.
Mount Rainier National Park, John C. Preston, Supt.
Longmire, Washington Mt Rainier National Park
(Present Address) (Signature of Applicant)
Superintendent, Mount Rainier National Park.

STATE OF WASHINGTON
DEPARTMENT OF CONSERVATION AND DEVELOPMENT
Division of Hydraulics

Permit to Appropriate Public Waters of the State of Washington

Book No. 15 of Permits, on Page 3710 Under Application No. 5789

United States of America, Department of the Interior, National Park Service
by John C. Preston, Superintendent of Mount Rainier National Park,
of Longview, Washington

is hereby granted a permit to appropriate the following described public waters of the State of Washington, subject to existing rights and to the following limitations and provisions: Permittee shall construct and maintain at his own expense a weir, or other suitable device, for measuring any water granted herein for irrigation purposes and such appropriation shall be subject to a reasonable rotation system if ordered by the State Supervisor of Hydraulics; and it is further provided that Permittee, in the use of water under this permit, shall comply with all the laws of the Departments of Fisheries and Game in accordance with Chap. 127, Laws of 1939, and all regulations and laws hereafter enacted.

Priority date of this permit is February 15, 1943

Source of the proposed appropriation is Unnamed spring, designated as Diversion #7

tributary of Chanspecoosh River

The quantity of water appropriated shall be limited to the amount which can be beneficially applied and not to exceed 0.11 cubic feet per second, or its equivalent in case of rotation, to be used as set out below:

The approximate point of diversion is located at point whence $N\frac{1}{2}$ corner of Sec. 4,

Twp. 14 N., Rge. 10 E.W.M., bears $N 49^{\circ} 58'$ W. 160 feet,

being within Lot 2 Sec. 4, Twp. 14 N., Rge. 10 E. W. M.,
county of Lewis

The use, or uses, to which water is to be applied:

FOR DOMESTIC SUPPLY AND MISCELLANEOUS USES: 0.11 cubic feet per second during entire year for Domestic and fire protection at a sanitarium and lodge to be used

within Lot 3 Sec. 4, Twp. 14 N., Rge. 10 E. W. M.

FOR IRRIGATION: cubic feet per second, from to

each year, for irrigation of acres, described as follows:

h

FOR POWER: _____ cubic feet per second continuously each year. Total power to be developed _____ theoretical horse power. Total fall to be utilized _____ feet.

Nature of works by means of which power is to be developed _____

Works to be located in _____ Sec. _____, Twp. _____ N., Rge. _____ W. M.

Water to be returned to _____

Point of return _____ Sec. _____, Twp. _____ N., Rge. _____ W. M.

Use to which power is to be applied _____

FOR MUNICIPAL SUPPLY: _____ cubic feet per second during entire year to supply _____

DESCRIPTION OF DIVERSION WORKS

Height of dam _____ ft.; Length on top _____ ft.; Length on bottom _____ ft.

Material to be used and character of construction _____

Description of headgate _____

CANAL SYSTEM

AT HEADGATE: Width on top (at water line) _____ ft.; Width on bottom _____ ft.;

Depth of water _____ ft.; Grade _____ ft. fall per one thousand feet.

AT _____ MILES FROM HEADGATE: Width on top (at water line) _____ ft.; Width on bottom _____ ft.; Depth of water _____ ft.; Grade _____ feet per one thousand feet.

(Please read carefully provisions below)

Construction work shall begin on or before Already started

and shall thereafter be prosecuted with reasonable diligence and completed on or before _____

Already completed

and complete application of water to proposed uses shall be made on or before _____

October 1, 1944

Given under my hand and the seal of this office at Olympia, Washington, this 21st day of October, 19 43

/s/ Chas. J. Bartholet.

State Supervisor of Hydraulics.

INSTRUCTIONS

This permit is not a final water right but a license to proceed with construction and use the water, under the provisions of the permit, pending the time that the final certificate of water right is issued.

Actual construction work must be commenced, the project must be completed, and water put to beneficial use within the time fixed by the permit. The times for commencement and completion will be found on the second page of this permit.

Accompanying this permit is a blank for making report of beginning of construction and thereafter blanks, as listed on the back of the permit, will be furnished you and must be filled out and filed in this office as the work progresses. *Failure to file the required notices or to comply with the provisions for protection of fish life may result in cancellation of the permit.*

Should it be impossible for you to begin or to complete the work before the expiration of the time fixed in the permit, you should make application to the Supervisor of Hydraulics for an extension of time, stating reasons why such an extension is needed.

Any assignment of this permit must be in writing and must be recorded in this office in order to be valid. There is a statutory fee of \$2.00 for recording assignments.

This permit is issued subject to vested rights and all beneficial uses made of the water prior to the date of filing of the application for this permit, and it should be understood that the diversion must be so regulated that it will not injuriously affect such prior rights.

When all of the water has been put to the beneficial use or uses set out in the permit and all notices filed "Certificat  of Water Right" will be issued. *Such certificate gives final title to the water granted.*

CHAS. J. BARTHOLET,
State Supervisor of Hydraulics.

d

Before your certificate of water right is issued it will be necessary to file with the State Supervisor of Hydraulics each of the following reports:

1. Notice of Beginning of Construction.
2. Notice of Completion of Construction.
3. Notice of Complete Application of Water to a Beneficial Use.
4. Proof of Appropriation of Water.

Upon a satisfactory showing that the appropriation has been perfected as provided by statute the State Supervisor of Hydraulics will issue a water right certificate.

(Blanks will be furnished by the office of the Supervisor of Hydraulics)

NOTICE OF WATER RIGHT APPLICATIONS

Nos. 5785, 5786 and 5789
State of Washington, Office of
Supervisor of Hydraulics, Olympia.
To Whom It May Concern:

Notice is hereby given that on
February 15, 1943, the United
States of America, Department of
the Interior, National Park Serv-
ice, by John O. Preston, Superin-
tendent of Mount Rainier National
Park of Longmire, Washington,
filed with the Supervisor of Hy-
draulics at Olympia, Washington,
three applications for permits to
divert, subject to existing rights,
public waters in Lewis County,
Washington, as follows:

Application 5785 for appropri-
ation of 0.4 second-feet of waters
of Laughingwater Creek and two
unnamed tributaries of Ohanape-
cosh River continuously each year
for the purpose of domestic, rec-
reational and fire protection; the
proposed point of diversion being
within SE 1/4 of NW 1/4 and SW 1/4
of SE 1/4 of Sec. 12, Twp. 14 N.,
Rge. 10 E. and SE 1/4 of NW 1/4
Sec. 4, Twp. 14 N., Rge. 10 E. W.

M.
Application 5786 for appropri-
ation of 0.11 second-feet of the
waters of an unnamed spring, tribu-
tary of the Ohanapecosh river,
continuously each year for domes-
tic and fire protection purposes,
the proposed point of diversion be-
ing within Lot 3, Sec. 4, Twp. 14
N., Rge. 10 E. W. M.

Application No. 5789 for the
appropriation of 0.05 second-feet
of waters of six unnamed springs,
tributaries of Ohanapecosh River
continuously each year for hydro-
therapeutic and recreational pur-
poses, the proposed points of di-
version being within Lot 3, Sec.
4, Twp. 14 N., Rge. 10 E. W. M.

Maps showing the locations and
plans of said diversions and the
places of proposed use are on file
in the office of the State Supervi-
sor of Hydraulics, Olympia, Wash-
ington, together with such other
information as is required by law.
Any person, firm or corporation
whose right will be injuriously af-
fected by said applications may
file with the State Supervisor of
Hydraulics, at Olympia, Washing-
ton, such objections or represen-
tations, in writing, as he may de-
sire to make, within thirty (30)
days after date of last publication,
which date is March 15, 1943.

Witness my hand and official
seal this 17th day of February,
1943.

(SEAL)
CHAS. J. BARTHOLET,
State Supervisor of Hydraulics.

STATE OF WASHINGTON
DEPARTMENT OF CONSERVATION AND DEVELOPMENT
Division of Hydraulics

APPLICATION FOR A PERMIT
To Appropriate Public Waters of the State of Washington
(Read directions on last page carefully before filling out this form)

Application No. 5789
United States of America, Department of the Interior, National Park Service,
 I, **by John C. Preston, Superintendent of Mount Rainier National Park,**
(Name of applicant)
 of Longmire, County of Pierce,
(Postoffice)
 State of Washington, do hereby make application for a permit to appropriate
 the following described public waters of the State of Washington subject to existing rights:
 If the applicant is a corporation, give date and place of incorporation.

1. The source of the proposed appropriation is a nameless spring herein designated
Diversion No. 7,
(Name of stream)
 tributary of Ohanapecosh River.
2. The amount of water which the applicant intends to apply to beneficial use is 0.11
 cubic feet per second.
3. The use to which the water is to be applied is domestic and fire protection at a
(Irrigation, power, mining, manufacturing, domestic supplies, etc.)
sanitarium and lodge.
4. Time during which water will be required each year January 1 to December 31 inclusive.
5. The approximate point of diversion is located at point whence N $\frac{1}{2}$ corner of Section 4,
T. 14 N., R. 10 E., W.B.&M., bears N. 49° 58' W. 160 feet,
(Give distance and bearing to section corner)

being within the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 4, Tp. 14 N., R. 10 E W. M.,
(Give smallest legal subdivision)
 in the county of Lewis.
(E. or W.)

6. The pipe line to be 1400 ft. or miles in length, terminating
(Main ditch, canal, or pipe line)
 in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 4, Tp. 14 N., R. 10 E W. M.,
(Smallest legal subdivision)
 the proposed location being shown on the accompanying map.

7. The name of the ditch, canal or other works is Clinic Pipe Line

8. Estimated cost of development necessary to utilize fully the appropriation herein asked for
\$10,000.

9. Does the stream from which you wish to appropriate water flow through the tract of land on
 which the water is to be used? Yes.

10. Do you own the required right-of-way for the proposed works? Yes.

DESCRIPTION OF WORKS

DIVERSION WORKS—

11. (a) Height of diversion dam none feet; length on top _____ feet;
 length at bottom _____ feet; material to be used and character of construction _____

(Loose rock, concrete, masonry, rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate Water is collected in masonry galleries at spring whence
it drains by 5" wood stave pipe into masonry collecting sump which serves also as distri-
bution reservoir.
(Timber, concrete, etc.: number and size of openings)

When storage works are contemplated a storage permit must be filed in addition to the above. These forms can be secured, together with instructions, by addressing the State Supervisor of Hydraulics, Olympia, Washington.

CANAL SYSTEM—

12. (a) Give approximate dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: Width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(b) At _____ miles from headgate: Width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

There are 420 feet of 5"; 420 feet of 4", and 500 feet of 3" GI pipe.

The overall grade is 103.5 feet per 1000 feet.

SUPPLY THE FOLLOWING INFORMATION ACCORDING TO USE PROPOSED:

IRRIGATION—

13. The land to be irrigated has a total area of _____ acres, described as follows: _____

(Give legal subdivision by section, township and range)

(If more space is required, attach separate sheet)

14. Give the legal description of land when water is to be used for purposes other than irrigation, power and municipal supply. **NE $\frac{1}{4}$ NW $\frac{1}{4}$** Sec. **4**, Tp. **14** N., Rge. **10 E.** W. M. (Legal subdivisions) (E. or W.)

(a) To what stream is water returned **Ohanapecosh River**

(b) Locate the point of return **SE $\frac{1}{4}$ NE $\frac{1}{4}$** Sec. **5**, Tp. **14** N., Rge. **10 E.** W. M. (Smallest legal subdivision) (E. or W.)

POWER—

15. (a) Total amount of power to be developed _____ H. P. (Theoretical horsepower)

(b) Total fall to be utilized _____ feet. (Head)

(c) The nature of the works by means of which the power is to be developed _____

(d) Such works to be located in _____ of Sec. _____, (Legal subdivision)

Tp. _____ N., Rge. _____ W. M. (E. or W.)

(e) To what stream is the water to be returned _____

(f) Locate point of return _____ Sec. _____,

Tp. _____ N., Rge. _____ W. M. (E. or W.)

(g) The use to which power is to be applied is _____

MUNICIPAL SUPPLY—

16. To supply the city of _____
 _____ (Name)
 _____ County, having a present population of _____
 and an estimated population of _____ in 19 _____

(a) Estimated present requirement _____

(b) Estimated future requirement _____

17. Construction work will begin on or before completed.

18. Construction work will be completed on or before completed.

Duplicate maps of the proposed ditch or other works, prepared in accordance with the rules of the State Supervisor of Hydraulics, accompany this application.

United States of America

(Name of applicant)

By /s/ John C. Preston

Superintendent of Mount Rainier National Park.

Signed in the presence of us as witnesses:

(1) /s/ O. W. Carlson Longmire, Wash.
 (Name) (Address of witness)

(2) /s/ L. A. Boyer Longmire, Wash.
 (Name) (Address of witness)

Remarks: This system was constructed in 1920.

The hotel, clinic, and adjacent public campgrounds are integral parts of the Chanapecosh Hot Springs are of Mt. Rainier National Park and the development of the hotel and clinic is merely part of the normal expansion of that area. Thus, the pipe line covered by this application is a part of the expanding water use initiated by the public prior to 1916. (See accompanying application covering the Laughing Water Pipe Line for more details.)

STATE OF WASHINGTON, }
 COUNTY OF THURSTON. } ss.

This is to certify that I have examined the foregoing application together with the accompanying maps and data, and return the same for correction or completion, as follows: _____

In order to retain its priority, this application must be returned to the State Supervisor of Hydraulics, with corrections, on or before _____, 19 _____

WITNESS my hand this _____ day of _____, 19 _____

 State Supervisor of Hydraulics.

DIRECTIONS FOR PREPARING APPLICATIONS

Initial examination fee of \$5.00 should accompany each application. If additional fee is required, you will be notified.

1. Write plainly in ink or use typewriter.
2. Read carefully all questions. Answer only those that apply to your project.
3. Under Question 2 estimate quantity in cubic feet per second or gallons per minute.
 - 1 cubic foot per second equals 450 gallons per minute and is sufficient to irrigate from 40 to 100 acres of land.
 - 0.1 of a cubic foot per second equals 45 gallons per minute and is sufficient for domestic supply and irrigation of 5 to 10 acres of land.
 - 0.05 of a cubic foot per second equals 22 gallons per minute or 31,700 gallons per day. This is ample for a domestic supply and for irrigation of lawn and garden up to 1 or 2 acres.
 - 0.01 of a cubic foot per second equals 4.5 gallons per minute or 6,500 gallons per day. This is ample for an ordinary domestic supply and for irrigation of about $\frac{1}{2}$ acre.
4. Maps, showing the location of the stream, point of diversion and place of use, must be made in duplicate on the enclosed section plats. If for irrigation, show the approximate area to be irrigated.
5. In answering Question 5 give approximate distance and direction of diversion point from nearest 40-acre corner, as

"320 feet North and 1100 feet East from South quarter corner of Section 1, Township 13 North, Range 2 East, W. M."

or

"North 36 degrees 20 minutes East 550 feet from the Northeast Corner of the Northwest Quarter of the Southwest Quarter of Section 33, Township 12 North, Range 3 East, W. M."
6. **Right-of-Way.** If you wish to divert water from or across land not owned by you it will be necessary to secure from the owner the right-of-way needed. The State cannot help you in this.
7. Be sure to give on the map brief directions for driving to the point of diversion from some town or easily located point on a State highway. This for our convenience in making the examination.
8. If you have been using water since before June 15, 1917, a State permit will be of no advantage to you for that particular use.
9. "Public waters" only are subject to appropriation. If a stream does not flow beyond the borders of the landholding on which it rises or into any other body of water it will not be considered public water in the meaning of the statute.
10. Sign application on the line indicated under Section 18.

SCHEDULE OF FEES DUE IN CONNECTION WITH OBTAINING WATER RIGHTS

(Sec. 44 of Water Code—Sec. 7399, Remington's Rev. Stat.)

EXAMINATION FEES

There is a minimum fee of \$5.00 for all applications received.

Additional Examination Fees for Appropriation Applications:

\$1.00 per c. f. s. over 5 c. f. s. to 500 c. f. s., inclusive.
 .25 per c. f. s. over 500 c. f. s. to 2000 c. f. s., inclusive.
 .10 per c. f. s. over 2000 c. f. s.

Additional Examination Fees for Reservoir Applications:

1/2¢ per acre-foot over 1000 a. f. up to 100,000 a. f., inclusive.
 1/10¢ per acre-foot over 100,000 acre-feet.

FEES FOR FILING AND RECORDING PERMITS

There is a minimum fee of \$2.00 for filing and recording permit.

Additional Permit Fee for Irrigation Purposes:

10¢ per acre over 20 acres to 100 acres, inclusive.
 5¢ per acre over 100 acres to 1000 acres, inclusive.
 2½¢ per acre over 1000 acres.

Additional Permit Fee for Power Purposes:

10¢ per theoretical horsepower over 20 H. P. to 1000 H. P., inclusive.
 2¢ per theoretical horsepower over 1000 H. P.

Permit Fee for Other Uses:

For all other beneficial purposes the fee is twice the amount of the examination fee, except for individual household and domestic use; this may include water for the irrigation of a family garden, for which the minimum fee of \$2.00 is charged.

FILING AND RECORDING FINAL WATER RIGHT CERTIFICATE

In office of Supervisor of Hydraulics \$1.40
 In office of County Auditor..... .75

Re: Permits 3710, 3711, 3814 and 3815
Mount Rainier National Park

Dear Mr. Walker:

The enclosed voucher and purchased order are submitted in accordance with the letter of October 15 from Mr. Hahn to cover the Statutory fees for extensions of time in which to perfect rights under the subject permits. The voucher should be signed and returned to this office for payment.

I am sorry I did not look further back in our records of past payments, or refer to Sec. 90.04.040 of Remington's Revised Statutes in your condensed water code of 1954 before requesting the extensions.

Since our copy of your condensed code is dated August 1954, we shall appreciate a copy of any later one which may contain new or amended laws which should be considered in connection with our water rights at Mount Rainier or Olympic National Parks.

Very truly yours,

SIGNED

Attention: A. van V. Dunn, Chief, Water Resources Section

Gentlemen: Re: L54-L Permit Nos. ~~3710~~ 3711, 3814 and 3815
Mount Rainier National Park

We acknowledge receipt of your letter of October 8, 1957 requesting an extension of time of five years relative to complete application of water to a beneficial use for the above numbered permits.

While our letter of September 10, 1945 indicated there was no extension fee for completion, the session laws of 1951 altered the water code to the extent that a \$2.00 extension fee for such is now required.

You may recall that fees in the amount of \$8.00 for these four permits were paid on November 7 of 1952 at which time a 5 year extension of time was granted which placed the subject permits in good standing until October 1, 1957.

We shall be pleased to comply with your request for another five year extension on the 4 noted above permits, upon receipt of the statutory fee of \$2.00 per permit so that the National Park Service may ultimately obtain certificates of water rights for these filings.

Yours very truly,

DEPARTMENT OF CONSERVATION

EARL COE, Director

App. 5970, Per. 3814, Tahoma Visita
Pipeline
App. 5971, Per. 3815, Paradise Water
System
MOUNT RAINIER NATIONAL PARK

Dear Mr. Walker:

In compliance with Sec. 40.20.090 of the Washington Water Code, request is hereby made for extensions of time in which to complete construction and make full beneficial use of water under each of the subject applications and permits at Mount Rainier National Park. According to Section 90.04.040 and a letter of September 10, 1945, from the then Supervisor of Hydraulics, there appears to be no fee in these cases in which the water systems are largely completed and in use.

As explained in our letter of September 25, 1956, concerning extensions of time under Permits 2519, 2520, and others, the authorized quantity of water is not yet being fully used because of inadequate water using facilities which are being provided over a 10-year period under a construction program designated as MISSION 66, by which it is intended to have facilities adequate for the estimated, increasing public use of Mount Rainier National Park in 1966.

Because of the extended construction program, and varied priorities for completing different water systems, we should like to have at least a 5-year extension of time.

Very truly yours,

Gentlemen:

Re: Surface Water Permit Nos. ~~3710~~, 3711 and 3815

In checking over your permit we find that you have not submitted your Proof of Appropriation of Water.

If the water has been put to the full use as indicated in the permit, you should fill out the enclosed Proof of Appropriation form (to be notarized) and submit to this office along with statutory fees of \$3.00 payable to the Department of Conservation and \$ 2.50 payable to the Lewis and \$ 1.25 to the Pierce County Auditor. Please send two separate checks or money orders. By following the above instructions, you will receive your final water right certificate.

If more time is required to put the water to full use, an extension of the time limit should be requested. By statute, a \$2.00 fee must accompany such request. Please state why such extension is necessary.

If we do not hear from you within sixty (60) days from date, we shall assume that you are no longer interested in retaining the permit and shall cancel it without further notice.

Very truly yours,

ORIGINAL

September 24, 1952

Supervisor of Hydraulics
Department of Conservation and Development
Olympia, Washington

Dear Sir:

Request is hereby made for another extension of time in which to complete construction of the water systems at Mount Rainier National Park, and to make full beneficial use of the water under Water Right Permits Nos. 3700, 3711, 3814, and 3815.

Since 1947 the increase in public use of the national parks and monuments, including the water and sanitary facilities, has increased far more rapidly than the related accommodations could be expanded. With limited Federal appropriations, it has been necessary to divert construction funds from many proposed projects to those more urgently needed as the proportionately greater popularity of certain areas has become evident. The number of annual visitors at Mount Rainier lagged somewhat for a number of years, but has now caught up with the general trend as shown by the following records of attendance:

1947 - 511,794	visitors
1948 - 580,135	"
1949 - 573,183	"
1950 - 568,098	"
1951 - 871,577	"
1952 - 722,934	" (through Aug. 31. The travel year ends on Sept. 30.)

Because of the trend, developments at Mount Rainier have not been expanded to permit full water use based on demands with modern facilities. With an increase of 41% in 5 years, largely in the last two years, it has also been unwise and impractical to determine the extent of further, permanent water developments which should be made before water rights are limited by final water system design and proof.

Sincerely yours,

(SGD.) A. VAN V. DUNN.

Dear Sir:

Re: Permits Nos. 3814, 3815, 3710, & 3711

We are returning the vouchers received in this office December 20 since no extension fees are necessary after Notice of Beginning of Construction is filed.

An extension of time is being granted on each of these permits until October 1, 1952 for Completion of Construction or Complete Application of Water to Beneficial Use as stated below.

We are enclosing forms for each as follows:

Permit No. 3814 - Notice of Completion of Construction.

Permits Nos. 3710, 3711, and 3815 - Proof of Appropriation and Notice of Complete Application of Water to Beneficial Use to be accompanied by the following fees:

\$1.40 each - payable to the Department of Conservation and Development.

\$0.75 each - payable to the Lewis County Auditor.

Final water right certificates will be issued on the three latter permits when their respective notices are filed.

Very truly yours,

UNITED STATES
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

~~WASHINGTON, D. C.~~
CHICAGO, ILLINOIS

Washington 25, D. C.

ADDRESS ONLY
THE DIRECTOR, NATIONAL PARK SERVICE

November 25, 1947.

Mr. Rodney Ryker,
Supervisor of Hydraulics,
Department of Conservation and Development,
Olympia, Washington.

My dear Mr. Ryker:

Under the terms of Permit No. 3710, granted on Application No. 5789, construction and the full use of the waters of an unnamed spring, tributary to the Ohanapecosh River, at Mt. Rainier National Park, were supposed to have been completed by this fall. Because of the emergencies of war, and the general economics and industrial complications involved in the adjustment of our national postwar recovery, the United States has been unable to comply with these terms. However, the water system is nearly complete, and in use.

Now, therefore, it is requested that the United States be granted approximately 5 years in which to complete construction and fully use the water. A voucher is being transmitted to you with another letter of this date, covering the charge for this, and other extensions, at one-half the fee for filing and recording the original permit, in accordance with Section 7385, Remington Compiled Statutes.

Sincerely yours,

(SGD.) A. VAN V. DUNN

A. van V. Dunn,

Dear Mr. Dunn:

Re: Permit No. 3710

In view of the conditions stated in your letter of December 8, we have extended the time for making complete beneficial use of the water under the above numbered permit to October 1, 1947.

Of course, if complete use is made before that date, the required notices should be sent in.

Yours very truly

(Sgd.) Chas. J. Bartholet

CHAS. J. BARTHOLET
Supervisor of Hydraulics

CJB:GH

December 8, 1944.

Mr. Chas. J. Bartholet,
Supervisor of Hydraulics,
Olympia, Washington.

Dear Mr. Bartholet:

This is to request an extension of time in which to complete full beneficial use under Application No. 5789, Permit No. 3710, for appropriation of a spring tributary to the Ohanapeecosh River for use at the Bridge Clinic and Hotel at the Ohanapeecosh area of Mt. Rainier National Park.

It is possible that full use may have been made of the water in some past years, but we have not sufficient records to prove it. Use during the war has been far below normal due to restrictions on motor travel, and the use of this water system is dependent on the public attendance at the area.

Sincerely yours,

AvVD:sh.

Dear Sir:

Replying to your inquiry of August 18,
regarding fees under Applications Nos. ~~5788~~, 5789
and 5790:

The fees you mention are separate fees,
as set out in Sec. 44 of the Water Code, a copy
of which is enclosed for your information. There
is an examination fee of \$5.00 which should accompany
each application when it is filed. For amounts over
5.0 c.f.s. there is also an additional examination fee.
Then if the application is approved for permit, there
is a fee for filing and recording permit, which is
based on the quantity of water and the use, and in
this case the permit fee amounts to \$10.00 for each
of the above numbered applications.

When final water right certificates are
issued there will also be a nominal fee for recording.

MEMORANDUM for the Regional Director, Region Four.

Reference is made to your memorandum of January 19 forwarding three applications for the appropriation of water at Ohanapeecosh.

The applications have been submitted to the Supervisor of Hydraulics, State of Washington, and he advised that the filing of these applications does not constitute a waiver of any priorities and rights which may exist by virtue of use prior to June 15, 1917.

The Supervisor of Hydraulics has also submitted a formal notice of the filing of applications which he advises should be published for two consecutive weekly issues of any newspaper of general circulation published at Chehalis, the County seat of the county in which the proposed diversions and use are to be made, after which affidavits of publication are to be sent to his office. It is further stated that publication should start within thirty days from date of notice, which is February 17. Copy of notice is attached for your information.

Your advice is requested as to how the matter of advertising is to be handled and whether or not any specific authorization is required.

The duplicate copies of the applications are being returned as requested by Mr. Dunn.

NOTICE OF WATER RIGHT APPLICATIONS NOS. 5788, ~~5789~~ and 5790.

TO WHOM IT MAY CONCERN:

Notice is hereby given that on February 15, 1943, the United States of America, Department of the Interior, National Park Service by John C. Preston, Superintendent of Mount Rainier National Park of Longmire, Washington, filed with the Supervisor of Hydraulics at Olympia, Washington, three applications for permits to divert, subject to existing rights, public waters in Lewis County, Washington, as follows:

Application 5788 for appropriation of 0.4 second-feet of waters of Laughingwater Creek and two unnamed tributaries of Ohnapecosh River continuously each year for the purpose of domestic, recreational and fire protection, the proposed points of diversion being within $SE\frac{1}{4}$ of $NE\frac{1}{4}$ and $SW\frac{1}{4}$ of $SE\frac{1}{4}$ of Sec. 33, Twp. 15 N., Rge. 10 E. and $SE\frac{1}{4}$ of $SW\frac{1}{4}$ of Sec. 4, Twp. 14 N., Rge. 10 E.W.M.;

Application 5789 for appropriation of 0.11 second-feet of the waters of an unnamed spring, tributary of the Ohanpecosh River, continuously each year for domestic and fire protection purposes, the proposed point of diversion being within Lot 2, Sec. 4, Twp. 14 N., Rge. 10 E.W.M.;

Application No. 5790 for the appropriation of 0.06 second-feet of waters of six unnamed springs, tributaries of Ohanpecosh River continuously each year for hydro-therapeutic and recreational purposes, the proposed points of diversion being within Lot 3, Sec. 4, Twp. 14 N., Rge. 10 E.W.M.

Maps showing the locations and plans of said diversions and the places of proposed use are on file in the office of the State Supervisor of Hydraulics, Olympia, Washington, together with such other information as is required by law. Any person, firm or corporation whose right will be injuriously affected by said applications may file with the State Supervisor of Hydraulics, at Olympia, Washington, such objections or representations, in writing, as he may desire to make, withing thirty (30) days after date of last publication, which date is _____.

Witness my hand and official seal this 17th day of
February, 1943.
