TITLE OF DOCKET SPRING 6 PIPE LINE

PRIORITY 2/15/43

REMARKS:

Mt Rainier - Road 5

Notice of Beginning of Construction

United States of America, Department of the Interior, National Park Service,
I, by John C. Preston, Mount Rainier National Park, the holder of
Permit No. 15-3711, and Reservoir Permit No. --, both issued by the Supervisor of Hydraulics
of the State of Washington for the appropriation of 0.06 second-feet and
the storage of -- acre-feet of the unappropriated waters of 6 springs tributary to
Ohanapecosh River
in accordance with the tenor of such permits and the limitations endorsed thereon by the Supervisor of
Hydraulics, began the actual construction of the works described therein ^{before} on the first day of
July, 19 20, being within the time limitation as fixed in said permit for the beginning of
construction work.

The nature and the amount of the construction work already done is as follows: (This does not in-
clude preliminary investigation and reconnaissance.)

PER CENT COMPLETED:

Clearing 100%; Material in place 100%; Material on ground 100%; Excavation 100%;
Structure 100%.

Any additional information which may tend to show good faith in the prosecution of the work.....
Public use and some development started in 1916. The existing developments were con-
structed in 1920 when the Bridge Clinic was built and provided baths and hotel
accommodations.

IN WITNESS WHEREOF, I have hereunto set my hand this 17th day of January, 19 44.
Mount Rainier National Park, John C. Preston, Supt.
Longmire, Washington Mt Rainier National Park
(Present Address) (Signature of Applicant)
Superintendent, Mount Rainier National Park.

Affidavit of Publication

THE CHEHALIS ADVOCATE

STATE OF WASHINGTON, } ss.
COUNTY OF LEWIS

George B. Hayden, being first duly sworn on oath
Henry E. Villwock,

deposes and says that he is Publisher of THE
CHEHALIS ADVOCATE, a weekly newspaper,
which has been established, published in the Eng-
lish language, and circulated continuously as a
weekly newspaper in the City of Chehalis, and in
said County and State, and of general circulation
in said county for more than six (6) months
prior to the date of the first publication of the
Notice hereto attached, and that the said Chehalis
Advocate was on the 3rd day of July, 1941, ap-
proved as a legal newspaper by the Superior Court
of said Lewis County, as provided in Chapter 213,
Session Laws of 1941, and that the annexed is a

true copy of a *Notice of State*
Right Applications

as it was published in regular issues (and not in
supplement form) of said newspaper once each
week for a period of consecutive
weeks, commencing on the

..... day of *March*, 19*43*

and ending on the

NOTICE OF WATER RIGHT APPLICATIONS

Nos. 5752, 5753 and 5754
State of Washington, Office of
Supervisor of Hydraulics, Olympia.
To Whom It May Concern:

Notice is hereby given that on
February 12, 1943, the United
States of America, Department of
the Interior, National Park Serv-
ice by John O. Preston, Superin-
tendent of Mount Rainier National
Park of Longmire, Washington,
filed with the Supervisor of Hy-
draulics at Olympia, Washington,
three applications for permits to
divert, subject to existing rights,
public waters in Lewis County,
Washington, as follows:

Application 5752 for appropri-
ation of 0.1 second-foot of waters
of Laughingwater Creek and two
unnamed tributaries of Okanage-
cosh River continuously each year
for the purpose of domestic, rec-
reational and fire protection, the
proposed point of diversion being
within Sec. 3, Sec. 4, Twp. 14
N., Rge. 10 E., W. M. and Sec. 3
of Sec. 4, Twp. 14 N., Rge. 10 E.,
W. M. and Sec. 3 of Sec. 4, Twp. 14
N., Rge. 10 E., W. M.

Application 5753 for appropri-
ation of 0.11 second-foot of the
waters of an unnamed spring, trib-
utary of the Okanagecosh River,
continuously each year for domes-
tic and fire protection purposes,
the proposed point of diversion be-
ing within Lot 3, Sec. 4, Twp. 14
N., Rge. 10 E., W. M.

Application No. 5754 for the
appropriation of 0.04 second-foot
of waters of six unnamed springs,
tributaries of Okanagecosh River
continuously each year for hydro-
therapeutic and recreational pur-
poses, the proposed points of di-
version being within Lot 3, Sec.
4, Twp. 14 N., Rge. 10 E., W. M.

Maps showing the locations and
plans of said diversions and the
places of proposed use are on file
in the office of the State Super-
visor of Hydraulics, Olympia, Wash-
ington, together with such other
information as is required by law.
Any person, firm or corporation
whose right will be injuriously af-
fected by said applications may
file with the State Supervisor of
Hydraulics, at Olympia, Washing-
ton, such objections or represen-
tations, in writing, as he may de-
sire to make, within thirty (30)
days after date of last publication,
which date is March 13, 1943.

Witness my hand and official
seal this 17th day of February,
1943.

(SEAL)
CHAS. J. BARTHOLET,
State Supervisor of Hydraulics.
March 11, 1943

Form 10. S. F. No. 370-7-26-40-331, 19676.

STATE OF WASHINGTON
DEPARTMENT OF CONSERVATION AND DEVELOPMENT
Division of Hydraulics

Permit to Appropriate Public Waters of the State of Washington

Book No. 15 of Permits, on Page 3711 Under Application No. 5790

United States of America, Department of the Interior, National Park Service,
by John C. Preston, Superintendent of Mount Rainier National Park
of Longmire, Washington

is hereby granted a permit to appropriate the following described public waters of the State of Washington, subject to existing rights and to the following limitations and provisions: Permittee shall construct and maintain at his own expense a weir, or other suitable device, for measuring any water granted herein for irrigation purposes and such appropriation shall be subject to a reasonable rotation system if ordered by the State Supervisor of Hydraulics; and it is further provided that Permittee, in the use of water under this permit, shall comply with all the laws of the Departments of Fisheries and Game in accordance with Chap. 127, Laws of 1939, and all regulations and laws hereafter enacted.

Priority date of this permit is February 15, 1943

Source of the proposed appropriation is Six unnamed springs designated as
Springs Nos. 1, 2, 3, 4, 5, and 6,
tributary of Okanapecos River

The quantity of water appropriated shall be limited to the amount which can be beneficially applied and not to exceed 0.06 cubic feet per second, or its equivalent in case of rotation, to be used as set out below:

The approximate point of diversion ~~is~~ ^{are} located at points such that N $\frac{1}{2}$ corner Sec. 4,
Twp. 14 N., Rge. 10 E. W. M. bears as follows:
Spring #1- N 21°03' E 1197.80 feet Spring #4- N 22°51' E 1125.17 feet
Spring #2- N 23°06' E 1146.28 feet Spring #5- N 24°34' E 1066.40 feet
Spring #3- N 23°02' E 1128.32 feet Spring #6- N 25°51' E 1051.04 feet
being within Lot 3 Sec. 4, Twp. 14 N., Rge. 10 E. W. M.,
county of Lewis

The use, or uses, to which water is to be applied:

FOR DOMESTIC SUPPLY AND MISCELLANEOUS USES: 0.06 cubic feet per second during entire year for Hydro-therapeutic and recreational purposes to be used within Lot 3 Sec. 4, Twp. 14 N., Rge. 10 E. W. M.

FOR IRRIGATION: cubic feet per second, from to each year, for irrigation of acres, described as follows:

FOR POWER: _____ cubic feet per second continuously each year. Total power to be developed _____ theoretical horse power. Total fall to be utilized _____ feet.
Nature of works by means of which power is to be developed _____

Works to be located in _____ Sec. _____, Twp. _____ N., Rge. _____ W. M.

Water to be returned to _____

Point of return _____ Sec. _____, Twp. _____ N., Rge. _____ W. M.

Use to which power is to be applied _____

FOR MUNICIPAL SUPPLY: _____ cubic feet per second during entire year to supply _____

DESCRIPTION OF DIVERSION WORKS

Height of dam _____ ft.; Length on top _____ ft.; Length on bottom _____ ft.

Material to be used and character of construction _____

Description of headgate _____

CANAL SYSTEM

AT HEADGATE: Width on top (at water line) _____ ft.; Width on bottom _____ ft.;

Depth of water _____ ft.; Grade _____ ft. fall per one thousand feet.

AT _____ MILES FROM HEADGATE: Width on top (at water line) _____ ft.; Width on

bottom _____ ft.; Depth of water _____ ft.; Grade _____ feet per one thousand feet.

(Please read carefully provisions below)

Construction work shall begin on or before _____ Already started _____

and shall thereafter be prosecuted with reasonable diligence and completed on or before _____

_____ October 1, 1944 _____

and complete application of water to proposed uses shall be made on or before _____

_____ October 1, 1945 _____

Given under my hand and the seal of this office at Olympia, Washington, this 21st day of

October, 1943.

/s/ Chas. J. Bartholet.

State Supervisor of Hydraulics.

INSTRUCTIONS

This permit is not a final water right but a license to proceed with construction and use the water, under the provisions of the permit, pending the time that the final certificate of water right is issued.

Actual construction work must be commenced, the project must be completed, and water put to beneficial use within the time fixed by the permit. The times for commencement and completion will be found on the second page of this permit.

Accompanying this permit is a blank for making report of beginning of construction and thereafter blanks, as listed on the back of the permit, will be furnished you and must be filled out and filed in this office as the work progresses. *Failure to file the required notices or to comply with the provisions for protection of fish life may result in cancellation of the permit.*

Should it be impossible for you to begin or to complete the work before the expiration of the time fixed in the permit, you should make application to the Supervisor of Hydraulics for an extension of time, stating reasons why such an extension is needed.

Any assignment of this permit must be in writing and must be recorded in this office in order to be valid. There is a statutory fee of \$2.00 for recording assignments.

This permit is issued subject to vested rights and all beneficial uses made of the water prior to the date of filing of the application for this permit, and it should be understood that the diversion must be so regulated that it will not injuriously affect such prior rights.

When all of the water has been put to the beneficial use or uses set out in the permit and all notices filed "Certificate of Water Right" will be issued. *Such certificate gives final title to the water granted.*

CHAS. J. BARTHOLET,
State Supervisor of Hydraulics.

2

Before your certificate of water right is issued it will be necessary to file with the State Supervisor of Hydraulics each of the following reports:

1. Notice of Beginning of Construction.
2. Notice of Completion of Construction.
3. Notice of Complete Application of Water to a Beneficial Use.
4. Proof of Appropriation of Water.

Upon a satisfactory showing that the appropriation has been perfected as provided by statute the State Supervisor of Hydraulics will issue a water right certificate.

(Blanks will be furnished by the office of the Supervisor of Hydraulics)

C O P Y

STATE OF WASHINGTON
DEPARTMENT OF CONSERVATION AND DEVELOPMENT
Division of Hydraulics

APPLICATION FOR A PERMIT
To appropriate Public Waters of the State of Washington
(Read directions on last page carefully before filling out this form)

Application No. 5790

United States of America, Department of the Interior, National Park Service,
I, by John C. Preston, Superintendent of Mount Rainier National Park
(Name of applicant)

of Longmire, County of Pierce
(Postoffice)

State of Washington, do hereby make application for a permit to appropriate
the following described public waters of the State of Washington subject to existing rights:

If the applicant is a corporation, give date and place of incorporation. ---

1. The source of the proposed appropriation is 6 nameless springs herein designated as
Springs Nos. 1, 2, 3, 4, 5, and 6,
tributary of Ohanapecosh River.
(Name of stream)

2. The amount of water which the applicant intends to apply to beneficial use is 0.06
cubic feet per second.

3. The use to which the water is to be applied is for hydro-therapeutic and recreational
purposes.
(Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. Time during which water will be required each year January 1 to December 31 inclusive.

5. The approximate points of diversion are such that NW 1/4 corner Sec. 4, T14N, R10E, W6&M
bears as follows:
Spring No. 1- N21°03' E 1197.80 feet Spring No. 4- N 22°51' E 1125.17 feet
Spring No. 2- N23°06' E 1146.28 feet Spring No. 5- N24°34' E 1066.40 feet
Spring No. 3- N23°02' E 1128.32 feet Spring No. 6- N 25°51' E 1051.04 feet
(Give distance and bearing to section corner)

being within the NE 1/4 NW 1/4 of Sec. 4, Tp. 14 N., R. 10 E W. M.,
(Give smallest legal subdivision) (E. or W.)
in the county of Lewis

6. The pipe line to be 210 ft. or miles in length, terminating
(Main ditch, canal, or pipe line)
in the a bath-house in NE 1/4 NW 1/4 of Sec. 4, Tp. 14 N., R. 10 E W. M.,
(Smallest legal subdivision) (E. or W.)
the proposed location being shown on the accompanying map.

7. The name of the ditch, canal or other works is Spring No. 6 Pipe Line

8. Estimated cost of development necessary to utilize fully the appropriation herein asked for
\$10,000.

9. Does the stream from which you wish to appropriate water flow through the tract of land on
which the water is to be used? Yes

10. Do you own the required right-of-way for the proposed works? Yes

DESCRIPTION OF WORKS

DIVERSION WORKS—

11. (a) Height of diversion dam --- feet; length on top --- feet;
length at bottom --- feet; material to be used and character of construction

(Loose rock, concrete, masonry, rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate

A spring well of masonry or wood has been built at each spring and the wooden ones are being
replaced with masonry as funds permit. There are no headgates, the unused water returning
to normal drainage by overflow pipes.
(Whether concrete, etc., number and size of openings)

When storage works are contemplated a storage permit must be filed in addition to the above. These forms can be secured, together with
instructions, by addressing the State Supervisor of Hydraulics, Olympia, Washington.

2

CANAL SYSTEM—

12. (a) Give approximate dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: Width on top (at water line).....feet; width on bottom.....feet; depth of water.....feet; grade.....feet fall per one thousand feet.

(b) At.....miles from headgate: Width on top (at water line).....feet; width on bottom.....feet; depth of water.....feet; grade.....feet fall per one thousand feet.

Spring No. 1 is cold sulphur water, not connected to main system. Water is dipped from well. Springs 2-6 are hot mineral water, conveyed by various sized pipes, depending on spring flow, to 1000 gallon reservoir at Spring No. 6. There is also a short pipe from Spring No. 2 with continuous free flow for free public purposes. The distribution pipe from reservoir to bath-house controls capacity, its length is 210 feet, diameter 4 inches, control grade 24.9 feet per 1000 feet, material wood.

SUPPLY THE FOLLOWING INFORMATION ACCORDING TO USE PROPOSED:

IRRIGATION—

13. The land to be irrigated has a total area of.....acres, described as follows:.....
(Give legal subdivision by section, township and range)

(If more space is required, attach separate sheet)

14. Give the legal description of land when water is to be used for purposes other than irrigation, power and municipal supply. NE 1/4 NW 1/4 Sec. 4, Tp. 14 N., Rge. 10E W. M.
(Legal subdivisions) (E. or W.)

(a) To what stream is water returned Ohanapecosh River

(b) Locate the point of return. SE 1/4 NE 1/4 Sec. 5, Tp. 14 N., Rge. 10E W. M.
(Smallest legal subdivision) (E. or W.)

POWER—

15. (a) Total amount of power to be developed.....H. P.
(Theoretical horsepower)

(b) Total fall to be utilized.....feet.
(Head)

(c) The nature of the works by means of which the power is to be developed.....

(d) Such works to be located in.....of Sec.....
(Legal subdivision)
Tp.....N., Rge.....W. M.
(E. or W.)

(e) To what stream is the water to be returned.....

(f) Locate point of return.....Sec.....
Tp.....N., Rge.....W. M.
(E. or W.)

(g) The use to which power is to be applied is.....

MUNICIPAL SUPPLY—

16. To supply the city of _____
 _____ County, having a present population of _____
 and an estimated population of _____ in 19 _____

- (a) Estimated present requirement _____
 (b) Estimated future requirement _____

17. Construction work will begin on or before Completed except for modernization.

18. Construction work will be completed on or before Completed except for modernization.

Duplicate maps of the proposed ditch or other works, prepared in accordance with the rules of the State Supervisor of Hydraulics, accompany this application.

United States of America

(Name of applicant)

by /s/ John C. Preston

Superintendent of Mount Rainier National Park.

Signed in the presence of us as witnesses:

- (1) /s/ O. W. Carlson Longmire, Wash.
 (Name) (Address of witness)
 (2) /s/ L. A. Boyer Longmire, Wash.
 (Name) (Address of witness)

Remarks: The springs have approximately the following flow in mid-summer, all at times used: No. 1 - 1440 gpd; No. 2 - 7200 gpd; No. 3 - 1400 gpd; No. 4 - 1450 gpd; No. 5 - 7200 gpd; No. 6 - 14,400 gpd. The hot springs are all mineralized with temperatures between 118° and 124° Fahrenheit.
The United States makes this appropriation as trustee for the public. The major part of the flow of Springs Nos. 1 and 2 is for free public use and, by the terms of the lease to the Bridge Clinic, charges for the use of the bath-house are kept at a minimum consistent with the maintenance of sanitary conditions, and to cover the cost of soap and clean towels.
Public use is very old, but first official records date from about 1916. Organized clinical use started in 1920. Sanitary supervision by U. S. Public Health started in 1928.

STATE OF WASHINGTON, }
 COUNTY OF THURSTON. } ss.

This is to certify that I have examined the foregoing application together with the accompanying maps and data, and return the same for correction or completion, as follows: _____

In order to retain its priority, this application must be returned to the State Supervisor of Hydraulics, with corrections, on or before _____, 19 _____

WITNESS my hand this _____ day of _____, 19 _____

 State Supervisor of Hydraulics.

DIRECTIONS FOR PREPARING APPLICATIONS

Initial examination fee of \$5.00 should accompany each application. If additional fee is required, you will be notified.

1. Write plainly in ink or use typewriter.
2. Read carefully all questions. Answer only those that apply to your project.
3. Under Question 2 estimate quantity in cubic feet per second or gallons per minute.
 - 1 cubic foot per second equals 450 gallons per minute and is sufficient to irrigate from 40 to 100 acres of land.
 - 0.1 of a cubic foot per second equals 45 gallons per minute and is sufficient for domestic supply and irrigation of 5 to 10 acres of land.
 - 0.05 of a cubic foot per second equals 22 gallons per minute or 31,700 gallons per day. This is ample for a domestic supply and for irrigation of lawn and garden up to 1 or 2 acres.
 - 0.01 of a cubic foot per second equals 4.5 gallons per minute or 6,500 gallons per day. This is ample for an ordinary domestic supply and for irrigation of about $\frac{1}{2}$ acre.
4. Maps, showing the location of the stream, point of diversion and place of use, must be made in duplicate on the enclosed section plats. If for irrigation, show the approximate area to be irrigated.
5. In answering Question 5 give approximate distance and direction of diversion point from nearest 40-acre corner, as
 - "320 feet North and 1100 feet East from South quarter corner of Section 1, Township 13 North, Range 2 East, W. M."
- or
 - "North 36 degrees 20 minutes East 550 feet from the Northeast Corner of the Northwest Quarter of the Southwest Quarter of Section 33, Township 12 North, Range 3 East, W. M."
6. **Right-of-Way.** If you wish to divert water from or across land not owned by you it will be necessary to secure from the owner the right-of-way needed. The State cannot help you in this.
7. Be sure to give on the map brief directions for driving to the point of diversion from some town or easily located point on a State highway. This for our convenience in making the examination.
8. If you have been using water since before June 15, 1917, a State permit will be of no advantage to you for that particular use.
9. "Public waters" only are subject to appropriation. If a stream does not flow beyond the borders of the landholding on which it rises or into any other body of water it will not be considered public water in the meaning of the statute.
10. Sign application on the line indicated under Section 18.

SCHEDULE OF FEES DUE IN CONNECTION WITH OBTAINING WATER RIGHTS

(Sec. 44 of Water Code—Sec. 7399, Remington's Rev. Stat.)

EXAMINATION FEES

There is a minimum fee of \$5.00 for all applications received.

Additional Examination Fees for Appropriation Applications:

\$1.00 per c. f. s. over 5 c. f. s. to 500 c. f. s., inclusive.
 .25 per c. f. s. over 500 c. f. s. to 2000 c. f. s., inclusive.
 .10 per c. f. s. over 2000 c. f. s.

Additional Examination Fees for Reservoir Applications:

$\frac{1}{2}$ ¢ per acre-foot over 1000 a. f. up to 100,000 a. f., inclusive.
 $\frac{1}{10}$ ¢ per acre-foot over 100,000 acre-feet.

FEES FOR FILING AND RECORDING PERMITS

There is a minimum fee of \$2.00 for filing and recording permit.

Additional Permit Fee for Irrigation Purposes:

10¢ per acre over 20 acres to 100 acres, inclusive.
 5¢ per acre over 100 acres to 1000 acres, inclusive.
 $2\frac{1}{2}$ ¢ per acre over 1000 acres.

Additional Permit Fee for Power Purposes:

10¢ per theoretical horsepower over 20 H. P. to 1000 H. P., inclusive.
 2¢ per theoretical horsepower over 1000 H. P.

Permit Fee for Other Uses:

For all other beneficial purposes the fee is **twice** the amount of the examination fee, except for individual household and domestic use; this may include water for the irrigation of a family garden, for which the minimum fee of \$2.00 is charged.

Re: Permits 3710, ~~3711~~, 3814 and 3815
Mount Rainier National Park

Dear Mr. Walker:

The enclosed voucher and purchased order are submitted in accordance with the letter of October 15 from Mr. Hahn to cover the Statutory fees for extensions of time in which to perfect rights under the subject permits. The voucher should be signed and returned to this office for payment.

I am sorry I did not look further back in our records of past payments, or refer to Sec. 90.04.040 of Remington's Revised Statutes in your condensed water code of 1954 before requesting the extensions.

Since our copy of your condensed code is dated August 1954, we shall appreciate a copy of any later one which may contain new or amended laws which should be considered in connection with our water rights at Mount Rainier or Olympic National Parks.

Very truly yours,

A. van V. Dunn

Attention: A. van V. Dunn, Chief, Water Resources Section

Gentlemen: Re: L54-L Permit Nos. 3710, ~~3711~~ 3814 and 3815
Mount Rainier National Park

We acknowledge receipt of your letter of October 8, 1957 requesting an extension of time of five years relative to complete application of water to a beneficial use for the above numbered permits.

While our letter of September 10, 1945 indicated there was no extension fee for completion, the session laws of 1951 altered the water code to the extent that a \$2.00 extension fee for such is now required.

You may recall that fees in the amount of \$8.00 for these four permits were paid on November 7 of 1952 at which time a 5 year extension of time was granted which placed the subject permits in good standing until October 1, 1957.

We shall be pleased to comply with your request for another five year extension on the 4 noted above permits, upon receipt of the statutory fee of \$2.00 per permit so that the National Park Service may ultimately obtain certificate of water rights for these filings.

Your truly

Department of Conservation

App. 5970, Per. 3814, Tahoma Visita
Pipeline
App. 5971, Per. 3815, Paradise Water
System
MOUNT RAINIER NATIONAL PARK

Dear Mr. Walker:

In compliance with Sec. 40.20.090 of the Washington Water Code, request is hereby made for extensions of time in which to complete construction and make full beneficial use of water under each of the subject applications and permits at Mount Rainier National Park. According to Section 90.04.040 and a letter of September 10, 1945, from the then Supervisor of Hydraulics, there appears to be no fee in these cases in which the water systems are largely completed and in use.

As explained in our letter of September 25, 1956, concerning extensions of time under Permits 2519, 2520, and others, the authorized quantity of water is not yet being fully used because of inadequate water using facilities which are being provided over a 10-year period under a construction program designated as MISSION 66, by which it is intended to have facilities adequate for the estimated, increasing public use of Mount Rainier National Park in 1966.

Because of the extended construction program, and varied priorities for completing different water systems, we should like to have at least a 5-year extension of time.

Very truly yours,

SIGNED

Gentlemen:

Re: Surface Water Permit Nos. 3710, 3711 and 3815

In checking over your permit we find that you have not submitted your Proof of Appropriation of Water.

If the water has been put to the full use as indicated in the permit, you should fill out the enclosed Proof of Appropriation form (to be notarized) and submit to this office along with statutory fees of \$3.00 payable to the Department of Conservation and \$2.50 payable to the Lewis and \$1.25 to the Pierce County Auditor. Please send two separate checks or money orders. By following the above instructions, you will receive your final water right certificate.

If more time is required to put the water to full use, an extension of the time limit should be requested. By statute, a \$2.00 fee must accompany such request. Please state why such extension is necessary.

If we do not hear from you within sixty (60) days from date, we shall assume that you are no longer interested in retaining the permit and shall cancel it without further notice.

By

W. H. Allen
Accountant

ORIGINAL

September 24, 1952

Supervisor of Hydraulics
Department of Conservation and Development
Olympia, Washington

Dear Sir:

Request is hereby made for another extension of time in which to complete construction of the water systems at Mount Rainier National Park, and to make full beneficial use of the water under Water Right Permits Nos. 3710, 3711, 3614, and 3615.

Since 1947 the increase in public use of the national parks and monuments, including the water and sanitary facilities, has increased far more rapidly than the related accommodations could be expanded. With limited Federal appropriations, it has been necessary to divert construction funds from many proposed projects to those more urgently needed as the proportionately greater popularity of certain areas has become evident. The number of annual visitors at Mount Rainier lagged somewhat for a number of years, but has now caught up with the general trend as shown by the following records of attendance:

1947	-	511,794	visitors
1948	-	580,135	"
1949	-	573,183	"
1950	-	568,098	"
1951	-	871,577	"
1952	-	722,934	" (through Aug. 31. The travel year ends on Sept. 30.)

Because of the trend, developments at Mount Rainier have not been expanded to permit full water use based on demands with modern facilities. With an increase of 41% in 5 years, largely in the last two years, it has also been unwise and impractical to determine the extent of further, permanent water developments which should be made before water rights are limited by final water system design and proof.

Sincerely yours,

A. van V. Dunn
Chief, Water Resources Branch

Dear Sir:

Re: Permits Nos. 3814, 3815, 3710, & 3711

We are returning the vouchers received in this office December 20 since no extension fees are necessary after Notice of Beginning of Construction is filed.

An extension of time is being granted on each of these permits until October 1, 1952 for Completion of Construction or Complete Application of Water to Beneficial Use as stated below.

We are enclosing forms for each as follows:

Permit No. 3814 - Notice of Completion of Construction.

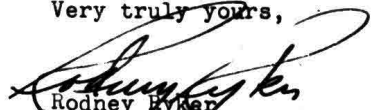

Permits Nos. 3710, 3711, and 3815 - Proof of Appropriation and Notice of Complete Application of Water to Beneficial Use to be accompanied by the following fees:

\$1.40 each - payable to the Department of Conservation and Development.

\$0.75 each - payable to the Lewis County Auditor.

Final water right certificates will be issued on the three latter permits when their respective notices are filed.

Very truly yours,

Rodney Ryker
Supervisor of Hydraulics

UNITED STATES
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

~~XXXXXXXXXXXXXX~~
CHICAGO, ILLINOIS
Washington 25, D. C.

ADDRESS ONLY
THE DIRECTOR, NATIONAL PARK SERVICE

November 25, 1947.

Mr. Rodney Ryker,
Supervisor of Hydraulics,
Department of Conservation and Development,
Olympia, Washington.

My dear Mr. Ryker:

Under the terms of Permit No. (3711), granted on Application No. 5790, construction and the full use of the waters of six unnamed springs, tributary to the Ohanapeecosh River, at Mt. Rainier National Park, were supposed to have been completed by this fall. Because of the emergencies of war, and the general economics and industrial complications involved in the adjustment of our national postwar recovery, the United States has been unable to comply with these terms. However, the water system is nearly complete, and in use.

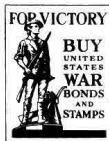

Now, therefore, it is requested that the United States be granted approximately 5 years in which to complete construction and fully use the water. A voucher is being transmitted to you with another letter of this date, covering the charge for this, and other extensions, at one-half the fee for filing and recording the original permit, in accordance with Section 7385, Remington Compiled Statutes.

Sincerely yours,

(SGD.) A. VAN V. DUNN

Dear Mr. Dunn:

Re: Permits No. ~~3814~~ 3814, 3815

In compliance with the request contained in your letter of September 6, we are extending the time for making complete application of water to a beneficial use on Permits 3711 and 3815 to October 1, 1947. The time for completion of construction on Permit 3814 is also being extended to October 1, 1947.

We are returning herewith the order and voucher which accompanied your letter. There is a statutory fee only for extension of time on the beginning of construction and not for completion of construction or complete application of the water.

Very truly yours,

(Sgd) Clarence B. Shain

Clarence B. Shain
Supervisor of Hydraulics

CBS:MK
Enc.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

CHICAGO, ILLINOIS
54

September 6, 1945.

ADDRESS ONLY
THE DIRECTOR, NATIONAL PARK SERVICE

Mr. Charles J. Bartholet,
Supervisor of Hydraulics,
Department of Conservation and Development,
Olympia, Washington.

My dear Mr. Bartholet:

Under water right Application No. 5790, Permit No. 15-~~3813~~, and Application No. 5971, Permit No. 15-3815, the United States is required to report the complete application of the water to beneficial use by October 1, 1945; and under Application No. 5970, Permit No. 15-3814, a report on the completion of construction is due on the same date.

As stated in the notice of beginning of construction, dated June 5, 1944, the water system covered by Permit No. 15-3814 has been completed to the stage necessary to serve immediate needs of the area which it serves. For the public good, the United States has diverted all available labor and materials to the prosecution of the war during the past few years and, for this reason, it has been impossible to complete the final features to provide for future increasing needs.

In connection with all three permits, the majority of the water is used by the public visitors to Mt. Rainier National Park. As another war measure, the United States has found it necessary to restrict such travel by limiting the quota of gasoline and tires for pleasure cars and by discouraging extended vacations and the operation of resort facilities. For these reasons, public attendance and resultant water use have been far below normal, although there has been a marked increase this summer.

It is requested, therefore, that extensions of time be granted in which to complete the facilities and make full beneficial use under the above permits until the public is again equipped with a normal quota of motor cars and tires.

Under section 7385 of the Remington Compiled Statutes it appears that the basic fee for granting an extension of time is \$1.00 with certain increases if the filing and recording fee was greater than \$2.00. We enclose an order at the basic rate, amounting to \$3.00, and a blank voucher for your signature. Please return the signed voucher with a correct statement of the fees if they differ from those shown in the order.

Sincerely yours,

(S.S.) A. VAN V. DUNN

Dear Mr. Dunn:

Re: Permit No. 3711

We acknowledge receipt of your letter of December 8, enclosing Notice of Completion of Construction in connection with the above numbered permit.

We are recording the notice, which is perfectly acceptable as made out. The replacement of pipes, etc. is considered maintenance work rather than completion.

Enclosed are forms to be filled out and sent in when the water has been put to full beneficial use. The permit allows you until October 1, 1945 to make full use of the water and if this is not sufficient time, it will be extended upon request.

Yours very truly

(Sgd.) Chas. J. Bartholet

CHAS. J. BARTHOLET
Supervisor of Hydraulics

CJB:GH

54

December 8, 1944.

Mr. Chas. J. Bartholet,
Supervisor of Hydraulics,
Olympia, Washington.

Dear Mr. Bartholet:

There is enclosed a Notice of Completion of Construction under Water Right Permit No. 3710 for Mt. Rainier National Park. By separate letter I have requested an extension of time in which to make full beneficial use under Permit No. 3710.

Both permits relate to water developments which are complete to the extent that they are in use and are adequate for all past demands. Permit 3710 covers a system with capacity for full beneficial use, while it might be hard to prove full use under the system covered by Permit 3711. Due to wartime restrictions, neither water system has been used to full capacity since the water right applications were filed.

Permit 3710 seems to require no notice of completion of construction, but one seems to be needed for Permit 3711. It is submitted at this time with the above qualifications. We are not particular whether you accept it and class further improvements as maintenance, or return it with an extension of time in which to make the improvements. The main thing is to prevent lapse of priority during the war and for a reasonable time thereafter.

Sincerely yours,

(SIGNED) A. VAN V. DUMM

Acting Superintendent
Mount Rainier National Park
Longmire, Washington

Dear Sir:

Replying to your inquiry of August 18,
regarding fees under Applications Nos. 5788, 5789
and 5790:

The fees you mention are separate fees,
as set out in Sec. 44 of the Water Code, a copy
of which is enclosed for your information. There
is an examination fee of \$5.00 which should accompany
each application when it is filed. For amounts over
5.0 c.f.s. there is also an additional examination fee.
Then if the application is approved for permit, there
is a fee for filing and recording permit, which is
based on the quantity of water and the use, and in
this case the permit fee amounts to \$10.00 for each
of the above numbered applications.

When final water right certificates are
issued there will also be a nominal fee for recording.

601 Sheldon Building
San Francisco, California

Attention: A. van V. Dunn, Hydraulic Engineer.

Gentlemen:

This will acknowledge receipt of your letter of July 2, together with four applications for permits to appropriate and store water, but as the statute and the rules and regulations of this office require separate applications for diversions on each stream, we are returning the application covering Frozen Lake, Klickitat Creek and Shadow Lake Outlet, with the request that you file separate applications for Klickitat Creek and Shadow Lake Outlet. It will not be necessary to file another application for Frozen Lake, as this application has been recorded for diversion from that source only, and it will not be necessary to send additional maps as those submitted cover the ground very well for all of the applications. Please return Application 5866 on Frozen Lake after you have taken from it the necessary data for separate applications for the other two diversions.

It will be necessary for us to approve plans of the dam for Frozen Lake Reservoir. This is required on all reservoirs containing 10 acre-feet or more. Therefore, will you please send us an additional voucher in the amount of \$15.00 to cover the \$5.00 examination fee on two new applications and the \$5.00 minimum fee for examination and approval of dam plans. We will approve drawing-Sheet 2 of 2, Drawing NP-RAI #6984 as to safety for the dam structure.

We will enclose the voucher for \$20.00 examination fees on four applications.

Yours very truly,

Chas J. Bartholet

WATER RIGHTS SECTION

~~601 Sheldon Building~~ IF.

July 2, 1943.

Supervisor of Hydraulics,
Division of Water Resources,
Olympia, Washington.

Dear Sir:

We enclose the following applications to appropriate and store water for use at Mt. Rainier National Park:

1. Application to appropriate waters of ~~amalgam springs tri-tributary to the Champanouch River~~, together with tracing and print of drawing NP-RAI-6985, Tipsoo Lake Water Claim.
2. Application to appropriate waters of Frozen Lake, Klickitat Creek and Shadow Lake Outlet, all tributary to White River.
3. Application to appropriate waters of Lodi Spring, tributary to the West Fork of White River.
4. Application to store water in Frozen Lake, tributary to the main branch of White River.
5. Tracing and two prints of drawing NP-RAI-6984 in 2 sheets, White River Water Claims, of which sheet 1 is the map to accompany the two applications to appropriate waters of the greater White River drainage and sheet 2 is the Frozen Lake Reservoir to accompany the storage application.
6. Voucher for \$20 to cover examination fees for the four applications.

If you will sign the voucher at the point indicated by pencil cross and return it we will see that payment is made promptly.

We have made a single application for the appropriations of Frozen Lake, Klickitat Creek and Shadow Lake Outlet because they are all part of one recreational development on a homogeneous area of Park Service land. No other claimants may obtain access to White River above the park boundary

without special Congressional authorization. The application to appropriate Lodi Creek is separate because the West Fork does not unite with the main White River until it reaches a point some distance outside the park.

Yours very truly,

(SGD.) A. VAN V. DUNN
A. van V. Dunn,
Hydraulic Engineer.

MEMORANDUM for the Regional Director, Region Four.

Reference is made to your memorandum of January 19 forwarding three applications for the appropriation of water at Ohanapecosh.

The applications have been submitted to the Supervisor of Hydraulics, State of Washington, and he advised that the filing of these applications does not constitute a waiver of any priorities and rights which may exist by virtue of use prior to June 15, 1917.

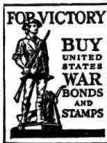

The Supervisor of Hydraulics has also submitted a formal notice of the filing of applications which he advises should be published for two consecutive weekly issues of any newspaper of general circulation published at Chehalis, the County seat of the county in which the proposed diversions and use are to be made, after which affidavits of publication are to be sent to his office. It is further stated that publication should start within thirty days from date of notice, which is February 17. Copy of notice is attached for your information.

Your advice is requested as to how the matter of advertising is to be handled and whether or not any specific authorization is required.

The duplicate copies of the applications are being returned as requested by Mr. Dunn.

NOTICE OF WATER RIGHT APPLICATIONS NOS. 5788, 5789 and 5790.

TO WHOM IT MAY CONCERN:

Notice is hereby given that on February 15, 1943, the United States of America, Department of the Interior, National Park Service by John C. Preston, Superintendent of Mount Rainier National Park of Longmire, Washington, filed with the Supervisor of Hydraulics at Olympia, Washington, three applications for permits to divert, subject to existing rights, public waters in Lewis County, Washington, as follows:

Application 5788 for appropriation of 0.4 second-feet of waters of Laughingwater Creek and two unnamed tributaries of Ohnapecosh River continuously each year for the purpose of domestic, recreational and fire protection, the proposed points of diversion being within $SE\frac{1}{4}$ of $NE\frac{1}{4}$ and $SW\frac{1}{4}$ of $SE\frac{1}{4}$ of Sec. 33, Twp. 15 N., Rge. 10 E. and $SE\frac{1}{4}$ of $SW\frac{1}{4}$ of Sec. 4, Twp. 14 N., Rge. 10 E.W.M.;

Application 5789 for appropriation of 0.11 second-feet of the waters of an unnamed spring, tributary of the Ohanpecosh River, continuously each year for domestic and fire protection purposes, the proposed point of diversion being within Lot 2, Sec. 4, Twp. 14 N., Rge. 10 E.W.M.;

Application No. 5790 for the appropriation of 0.06 second-feet of waters of six unnamed springs, tributaries of Ohanpecosh River continuously each year for hydro-therapeutic and recreational purposes, the proposed points of diversion being within Lot 3, Sec. 4, Twp. 14 N., Rge. 10 E.W.M.

Maps showing the locations and plans of said diversions and the places of proposed use are on file in the office of the State Supervisor of Hydraulics, Olympia, Washington, together with such other information as is required by law. Any person, firm or corporation whose right will be injuriously affected by said applications may file with the State Supervisor of Hydraulics, at Olympia, Washington, such objections or representations, in writing, as he may desire to make, within thirty (30) days after date of last publication, which date is _____.

Witness my hand and official seal this 17th day of
February, 1943.

CHAS. J. BARTHOLET
State Supervisor of Hydraulics.

Dear Sir:

Re: Applications Nos. 5788, 5789 & 5790

We acknowledge receipt of your applications for permits to appropriate water, which have been given the above numbers for our records. The filing of these applications does not constitute a waiver of any priorities and rights which may exist by virtue of use prior to June 15, 1917.

Enclosed is a notice of these applications, which you should have published for two consecutive weekly issues of any newspaper of general circulation published at Chehalis, the county seat of the county in which the proposed diversions and use are to be made, after which kindly send the affidavits of publication to this office. Publication should start within thirty days from date.

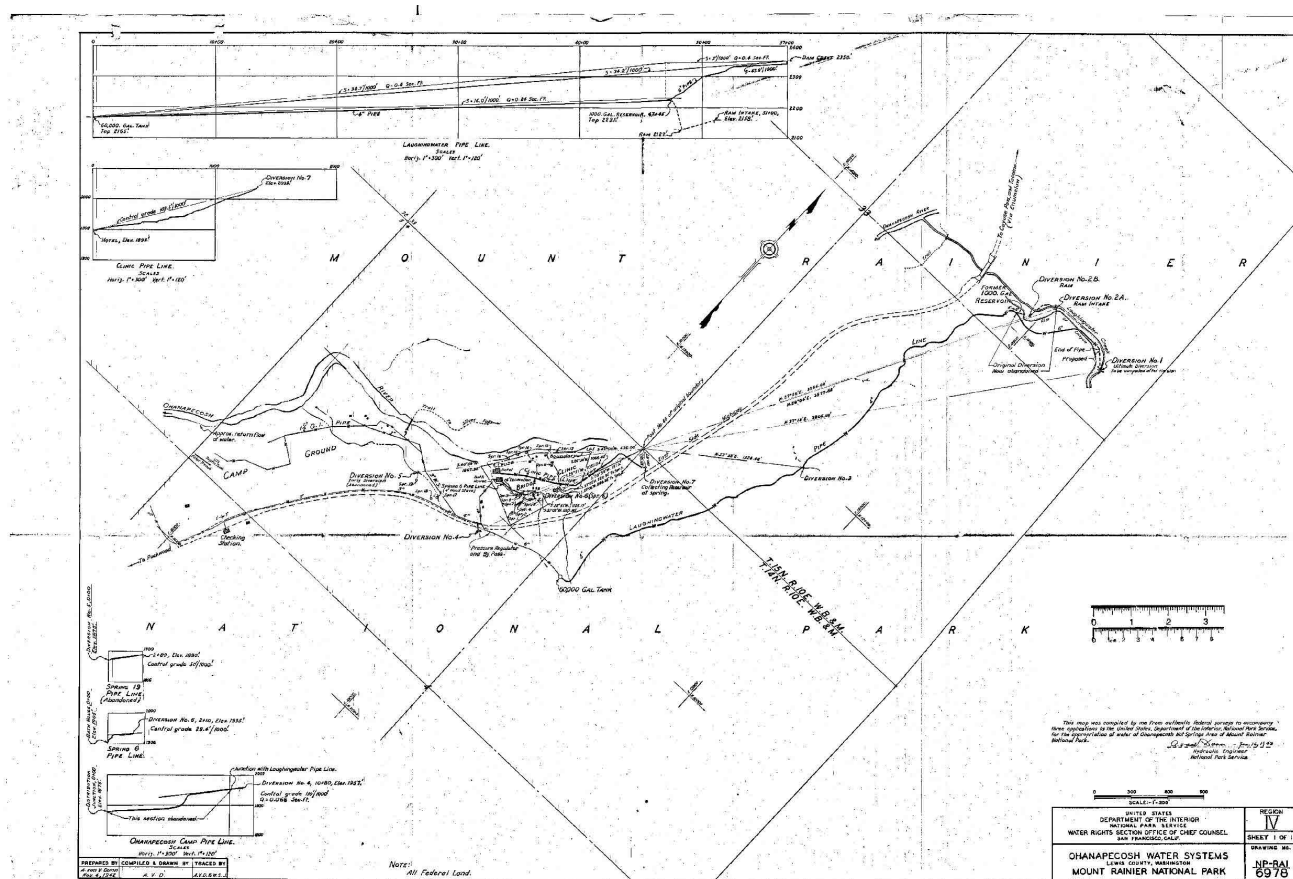

Yours very truly,

CHAS. J. BARTHOLET
Supervisor of Hydraulics
