APPROVED BY (Name and title) Fred J. Overly, Superintendent	DATE July 10, 1957

(ATTACH NARRATIVE STATEMENT, PHOTOGRAPHS, AND "AS BUILT" DRAWINGS TO THIS FORM)

TO ACCOMPANY COMPLETION REPORT, U-26-2, DOSEWALLIPS WATER SYSTEM

Water line was laid out by Park Engineer in 1955. Two inch mains were installed in 1955 by Fire Control Aids stationed at Dosewallips. Galvanized iron pipe in good condition was first salvaged from abandoned Kelley's ranch and Beardsley Bay by Fire Control Aids also.

Project U-26-2, Dosewallips Water System Completion (this project) included dam, filtration gallery and necessary valves and connections to previously installed water system.

This project was designed by Project Supervisor Tidey of WDC. Construction was by NPS crews. Cement, reinforcing steel, perforated pipe and fittings procured through headquarters warehouse. Sand and gravel for concrete was from nearby river bar as well as gravel for filtration gallery. Ten cubic yards of commercial sand was hauled in for the filtration gallery.

Other construction relative to U-26-2 was M-30-3, Camp-ground Development, Dosewallips.
