Proof of Appropriation of Water

- Application No. **4383** Permit No. **2517**
1. Name of applicant **United States Forest Service**
2. Postoffice address **Box 187, Olympia, Washington.**
3. Source of appropriation **July Creek** tributary of **Quinault Lake**
4. For what purpose or purposes is water used? **Public supply for July Creek Forest Camp.**
5. Give date of beginning of construction **February 1, 1939**
6. Give date of completion of construction work **February 15, 1939**
7. When was all the water completely applied to proposed use? **February 15, 1939**
8. Fill in the following carefully, according to use. If for irrigation, fill in the number of acres described in permit and the number of acres actually irrigated (Water should be applied to the full number of acres to be irrigated before certificate can issue). If for power, give location of power plant and the theoretical horse power described in permit. If for domestic supply, municipal, manufacturing or other uses, simply give the description of place of use.

PLACE OF USE			LEGAL SUBDIVISION	FOR IRRIGATION FILL IN FOLLOWING	
Section	Township	Range		No. Acres Described in Permit	No. Acres Actually Irrigated

LOCATION OF POWER PLANT			LEGAL SUBDIVISION	FOR POWER FILL IN FOLLOWING	
Section	Township	Range		H. P. Described in Permit	H. P. Actually Developed

FOR ALL OTHER USES

Section	Township	Range	LEGAL SUBDIVISION	
7	23 N,	9 W. WM	Lot 3	

9. During what months is water used? **May 15 to October 31.**
10. Does map filed with your permit show correctly the location of diverting work and area of land where water is used? **Yes** If not, state wherein such map is in error. **—**
11. If the dimensions of your ditch or dam do not correspond to those described in your permit and the plans and specifications now on file in the office of the State Supervisor of Hydraulics, state what changes have been made, giving dimensions of ditch or other distributing works.

REMARKS:

Notice of Complete Application of Water to a Beneficial Use

I, United States Forest Service, holder of Permit No. 2517
issued by the State Supervisor of Hydraulics of Washington for the appropriation of 0.05 second-
feet of the waters of July Creek, in accordance with the tenor of such
permit and the limitations endorsed thereon by the State Supervisor of Hydraulics, completely applied
the waters to a beneficial use on the 15th day of February, 1939, being within
the time limitation as fixed in said permit or extended by the State Supervisor of Hydraulics for the
complete application of water to a beneficial use.

(If all water granted in the permit has not been fully applied to beneficial use, give amount used in
percentage to the whole, so that subsequent appropriators may have notice. If permit is for irrigation
use, state per cent of lands not now watered.)

IN WITNESS WHEREOF, I have hereunto set my hand this 24th day of February, 19 39

Box 187, Olympia, Washington.

NOTICE OF WATER RIGHT APPLICATION

State of Washington, Office of Supervisor of Hydraulics, Olympia.

To Whom It May Concern:

Notice is hereby given that the United States Forest Service of Olympia, Washington, under date of April 16, 1937, filed with the State Supervisor of Hydraulics, Olympia, Washington, the following application for permits to divert public waters:

Application No. 4352 for appropriation of 0.05 second-feet from Falls Creek, tributary of Quinault Lake, to be diverted within Lot 2, Sec. 20, Twp. 23, N., Rge. 9 W. W. M., for water supply at Falls Creek Forest Camp;

Application No. 4353 for appropriation of 0.05 second-feet from July Creek, tributary of Lake Quinault, to be diverted within Lot 3, Sec. 7, Twp. 23 N., Rge. 9 W. W. M., for water supply for July Creek Forest Camp;

All of the above appropriations to be used continuously, subject to existing rights, in Grays Harbor County, Washington.

A map showing the location and plan of said diversion and the place of the proposed use is on file in the office of the State Supervisor of Hydraulics, Olympia, Washington, together with such other information as is required by law.

Any person, firm or corporation whose rights will be injuriously affected by said application may file with the State Supervisor of Hydraulics, at Olympia, Washington, such objections or representations, in writing, as he may desire to make, within thirty (30) days after date of last publication, which date is May 12, 1937.

Witness my hand and official seal this 23rd day of April, A. D. 1937.

CHAS. J. BARTHOLET,
State Supervisor of Hydraulics,

APPLICATION FOR A PERMIT
To Appropriate Public Waters of the State of Washington

Application No. 4383

Permit No. 2517

I, United States Forest Service
(Name of applicant)
of Quinalt
(Postoffice), County of Grays Harbor
State of Washington, do hereby make application for a permit to appropriate
the following described public waters of the State of Washington subject to existing rights:

If the applicant is a corporation, give date and place of incorporation.

1. The source of the proposed appropriation is July Creek
(Name of stream)
tributary of Lake Quinalt
2. The amount of water which the applicant intends to apply to beneficial use is 0.05
cubic feet per second.
3. The use to which the water is to be applied is Public supply for July Creek
(Irrigation, power, mining, manufacturing, domestic supplies, etc.)
Forest Camp.
4. Time during which water will be required each year May 15th to October 31st
5. The approximate point of diversion is located S 46°W. 1485' from 1/4 corner
(Give distance and bearing to section corner)
common to Secs. 7 and 8, Twp. 23 N., Rge. 9 W.W.M.

being within ~~xxx~~ Lot 3 of Sec. 7, Tp. 23 N., R. 9 W. W. M.,
(Give smallest legal subdivision) (No. E. or W.)

in the county of Grays Harbor

6. The pipe line to be 700 ft. ~~7000~~ in length, terminating
(Main ditch, canal, or pipe line)
in ~~xxx~~ Lot 3 of Sec. 7, Tp. 23 N., R. 9 W. W. M.,
(Smallest legal subdivision) (No. E. or W.)
the proposed location being shown on the accompanying map.

7. The name of the ditch, canal or other works is July Creek Forest Camp
Water System.

8. Estimated cost of development necessary to utilize fully the appropriation herein asked for
\$ 150.00

9. Does the stream from which you wish to appropriate water flow through the tract of land on
which the water is to be used? Yes

10. Do you own the required right-of-way for the proposed works? Yes

DESCRIPTION OF WORKS.

DIVERSION WORKS—

11. (a) Height of diversion dam 4 feet; length on top 16 feet;
length at bottom 12 feet; material to be used and character of construction

Timber crib, wasteway over dam

(Loose rock, concrete, masonry, rock and brush, timber crib, etc., wasteway over or around dam)

- (b) Description of headgate. Pipe line extends above dam, wood box at opening.

(Timber, concrete, etc.; number and size of openings)

When storage works are contemplated a storage permit must be filed in addition to the above. These forms can be secured, together with instructions, by addressing the State Supervisor of Hydraulics, Olympia, Washington.

CANAL SYSTEM—

12. (a) Give approximate dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: Width on top (at water line).....feet; width on bottom.....feet; depth of water.....feet; grade.....feet fall per one thousand feet.

(b) At.....miles from headgate: Width on top (at water line).....feet; width on bottom.....feet; depth of water.....feet; grade.....feet fall per one thousand feet.

SUPPLY THE FOLLOWING INFORMATION ACCORDING TO USE PROPOSED:

IRRIGATION—

13. The land to be irrigated has a total area of.....acres, described as follows:.....
(Give legal subdivision by section, township and range)

(If more space is required, attach separate sheet)

14. Give the legal description of land when water is to be used for purposes other than irrigation, power and municipal supply. **Lot 3** Sec. **7**, Tp. **23** N., Rge. **9 W.** W. M.,
(Legal subdivisions) (E. or W.)

(a) To what stream is water returned **Quinault Lake by seepage.**

(b) Locate the point of return.....Sec....., Tp....., Rge.....W. M.,
(Smallest legal subdivision of section) (E. or W.)

POWER—

15. (a) Total amount of power to be developed.....H. P.
(Theoretical horsepower)

(b) Total fall to be utilized.....feet.
(Head)

(c) The nature of the works by means of which the power is to be developed.....

(d) Such works to be located in.....of Sec.....
(Legal subdivision)
Tp....., N., Rge.....W. M.,
(No. E. or W.)

(e) To what stream is the water to be returned.....

(f) Locate point of return.....Sec.....
Tp....., N., Rge.....W. M.,
(No. E. or W.)

(g) The use to which power is to be applied is.....

MUNICIPAL SUPPLY—

16. To supply the city of.....
(Name)
.....County, having a present population of.....
and an estimated population of.....in 19.....
(a) Estimated present requirement.....
(b) Estimated future requirement.....

17. Construction work will begin on or before.....

18. Construction work will be completed on or before.....

Duplicate maps of the proposed ditch or other works, prepared in accordance with the rules of the State Supervisor of Hydraulics accompany this application.

J. R. Bruckart

This is to certify that I have examined the foregoing application together with the accompanying maps and data, and return the same for correction or completion, as follows:.....

In order to retain its priority, this application must be returned to the State Supervisor of Hydraulics, with corrections, on or before....., 19.....

WITNESS my hand this.....day of....., 19.....

.....
State Supervisor of Hydraulics.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions: If for irrigation, this appropriation shall be subject to such reasonable rotation system as may be ordered by the State Supervisor of Hydraulics.

The amount of water appropriated shall be limited to the amount which can be applied to beneficial use and not to exceed 0.05 cubic feet per second, or its equivalent in case of rotation. The priority date of this permit is April 16, 1937

Actual construction work shall begin on or before April 1, 1939 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1939

Complete application of the water to the proposed use shall be made on or before October 1, 1940

Given under my hand and the seal of this office at Olympia, Washington, this 15th day of March, 1938

Chas. J. Bartholet

State Supervisor of Hydraulics.

PERMIT

**To Appropriate Public Waters of the
State of Washington**

Filed by United States Forest Service

County of Grays Harbor

This instrument was first received in the office of the State Supervisor of Hydraulics, Olympia, Washington, on the 16th day of April, 1937 at 2:30 o'clock P. M.

Approved March 15, 1938

Recorded in Book No. 11 of

Permits, on Page 2517

CHAS. J. BARTHOLET

State Supervisor of Hydraulics.

JAY THOMAS, PUBLIC PRINTER, OLYMPIA

Before your certificate of water right is issued it will be necessary for you to file with the State Supervisor of Hydraulics a copy of each of the following reports:

- 1st. Progress reports (in case temporary permit is issued).
- 2nd. Affidavit of publication of notice of water right application.
- 3rd. Notice of beginning of construction.
- 4th. Notice of completion of construction.
- 5th. Notice of application of water to a beneficial use.
- 6th. Proof of appropriation of water.

Upon a satisfactory showing that the appropriation has been perfected as provided by statute the State Supervisor of Hydraulics will issue a water right certificate.

(Blanks will be furnished by the office of State Supervisor of Hydraulics)

Memorandum

To: Regional Director, Region Four
From: Superintendent, Olympic
Subject: Termination of Herman Snider Permit I-47np-288

With your memorandum of February 24, 1953 on the above subject you transmitted a copy of Mr. Dunn's memorandum to you of February 16 and requested this office to supply the required information on the Herman Snider water system.

Mr. Dunn says that he does not recall if the Snider water system was an independent one. If it were not, it would seem to me that it would be so stated in the permit. The answer is that it is an independent water system.

This Service has no use for the system. Mr. Dunn requests a description of the system and an explanation of water right claims and applications, if any.

The system consists of a $2\frac{1}{2}'$ x $2\frac{1}{2}'$ x 8' wooden settling box in July Creek; 70 feet of wooden flume 6" x 18" made of 2" planks, about 20 feet of which has been destroyed by high water; 55' of wooden flume 6" x 8" made of 2" planks; 420 feet of $1\frac{1}{2}"$ pipe and 330 feet of $1\frac{1}{4}"$ pipe. The flume intake is about 475' north of the North Shore Road in July Creek. The flume leads to the settling tank from which the pipe leads to the building site.

The condition of the pipe is poor. It is badly rusted and has some patched frost cracks. The pipe and flume are exposed except where the pipe crosses the North Shore Road. All pipe in the former building has to be salvaged.

No water right application was ever filed by Mr. Snider. Beneficial use of the water was made on the land described in the permit, which is Federally owned.

If my memory serves me right the provision in the permit requiring the water system to be left intact resulted from a requirement promulgated by Mr. Dunn. In my opinion this requirement was needless.

Memorandum

To: Regional Director, Region Four

From: Chief, Water Resources Branch

Subject: Termination of Permit I-47np-288 to Authorize Herman Snider
to Maintain Summer Home Site in Quinault Area, Olympic
National Park

The letter of January 12 to permittee from Mr. Maier cancels the subject permit and states that the water system shall be left in place. The memo of November 24, 1952, to you from Mr. Overly advised that no appropriative water right had been initiated. I do not recall whether the permittee had an independent water system or shared a system with other permittees or landowners. It is possible that July Creek Summer Home Sites are served by July Creek Camp-ground Water System under Water Right 3-1167 (Docket 31).

Accordingly, we should know what use is to be made of the water system hereafter. We should also prepare a description of the system, statement of Federal water claim, and a water right application, if the water system is to have further use. An explanation will be appreciated.

Memorandum

To: Superintendent, Olympic
From: Acting Regional Director, Region Four
Subject: Cancellation of Special Use Permit I-47np-288 - Herman Snider

As recommended in your memorandum of November 24, we have prepared a letter to Mr. Herman Snider, Hoquiam, Washington, notifying him of the cancellation of the subject permit. We are attaching the original and 3 copies of this letter, and request that you make the necessary distribution if the letter meets with your approval.

You will note that Special Condition 18, which we have quoted in the letter, provides that the permittee shall remove everything installed by him from the premises, except the water system, within 90 days after termination of the permit "unless otherwise directed by the superintendent." You may, therefore, wish to supplement the notice of cancellation with a letter regarding cleanup of the area.

REGION FOUR
180 New Montgomery Street
San Francisco 5, California

January 12, 1953

Through: Superintendent,
Olympic National Park

Mr. Herman Snider
Hoquiam
Washington

Dear Mr. Snider:

This office has been advised by the Superintendent, Olympic National Park, that on November 14 a strong wind swept the Quinault area and felled a large tree on your cabin, damaging it beyond economical repair.

In the circumstances we believe that permit I-47np-288, issued to you for the purpose of maintaining a summer residence on Lot 10 of the July Creek group of summer home lots on Lake Quinault, and including a right-of-way for a pipeline of approximately 400 feet in length for the transmission and use of water from July Creek for domestic purposes at said residence, should be cancelled. Accordingly, you are hereby advised that said permit I-47np-288 is cancelled effective January 1, 1953.

We invite your attention to Special Condition 18 of the permit, which reads as follows: "Unless otherwise directed by the Superintendent, all structures, facilities, and equipment installed by the permittee, except water systems, which shall be left in place and shall become the property of the Government, must be removed from the site and the site restored to the satisfaction of the Superintendent, within 90 days after the termination of the permit, failing which said structures, facilities, and equipment, shall become the property of the United States.

Sincerely yours,

(SGD) HERBERT MAIER

November 24, 1952

Memorandum

To: Regional Director, Region Four
From: Superintendent, Olympic
Subject: Special Use Permit I-47np-288, Herman Snider

This supplements our October 29 memorandum concerning the request for transfer of the above permit.

On November 14 a strong wind swept the Quinault area, and felled a large tree on Mr. Snider's cabin, damaging it beyond economical repair.

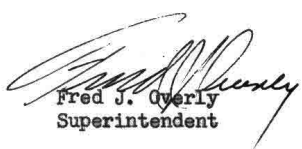

Inasmuch as Mr. Snider desired to dispose of his interest in this property and since that interest is now essentially worthless, we see no reason for considering the transfer of the permit to Mr. Maw.

Your memorandum of November 13 points up the fact that the policy is to retire such permits when it can be accomplished without working a hardship on the permittee.

Whatever his investment, he has lost it through natural cause and now has nothing of value. He has enjoyed the privileges since 1933, which appears ample time for him to realize full value on his modest investment.

The water system was constructed in 1947 and no water rights perfected or initiated by the permittee.

Cancellation of the permit is recommended, with allowance of time for salvaging what he can and cleaning up the area.

Fred J. Overly
Superintendent

MAY 3 1948	
ROUTING	DATE
<i>McCall</i>	<i>km 521</i>

MEMORANDUM for the Regional Director, Region Four.

From our reviews of many permits, it appears that greater care should be given to the preparation and approval of Special Use Permits from Olympic National Park. In a particular instance, we have received copies of Permit I-47np-216, to authorize Herman Snider to use certain lands, with a copy of Mr. Macy's memorandum of January 28 which states, incorrectly, that all applicable clauses of Memorandum FO-563 have been included.

Condition 12 in the Special Use Permit is copied verbatim from FO-563 and states that water rights shall be perfected in the name of the United States, by the National Park Service, and ends with "unless otherwise specified." There should be no question as to the need for a water right, and it should be perfected in the name of the United States. However, there is no reason why this Service should bear the cost of fees and all of the labor if the water system is to be for the sole benefit of the permittee.

Condition 14 authorizes the permittee to remove all structures at any time up to 90 days after termination of permit with no protection of the Federal water rights which may be jeopardized by such action. The removal of the water system, for instance, would be an indication of abandonment of the water right unless some other protective measures were taken first.

Finally, if the United States is to own the water rights, the permit should authorize the use of water as well as land, the water to be obtained under said Federal water rights at the point of diversion.

All of these provisions should be included in the permit. There are five distinct types of conditions listed on pages 18 and 19 of Memorandum FO-563. The first two should appear in any permit involving water use as an incidental to the land use. The last three, on page 19, are for permits to authorize construction of water systems. Therefore, all five conditions are needed in the particular permit which authorizes both land use and the construction of a pipe line. However, they are all given in general terms which must be made

NATIONAL PARK SERVICE
OLYMPIC NATIONAL PARK
PORT ANGELES, WASHINGTON

FEB 3 1948	
ROUTING	DATE

January 28, 1948

MEMORANDUM for the Regional Director, Region Four.

Enclosed herewith are the required number of copies of Special Use Permit No. I-47np-216 issued to Mr. Herman Snider covering his summer homesite on Lake Quinault together with right-of-way for a water pipe line in Olympic National Park for the calendar year 1948.

The permit for Lot 10 of the July Creek summer homesites has been in effect in prior years and you will note that special condition 15 of this permit supercedes and cancels Special Use Permit No. I-26p-85, approved February 24, 1944 and automatically renewable to December 31, 1949.

Mr. Snider installed about 400 feet of pipe line to bring water into his summer residence and the installation was unauthorized. When we found about it an inspection was made of the property and Mr. Snider was instructed to revise the construction to meet our requirements. Inasmuch as the use of the water by Mr. Snider will in no way interfere with the requirements of the park we felt that he should be allowed to use the system. Water rights, if any, will be perfected in the name of the United States since the Government owns the land upon which beneficial use would be made.

The permit contains all of the applicable clauses of FO 563, the fee in the amount of \$20.00 has been collected and placed in special deposits and it is recommended that the permit be approved. You will note that the fee of \$20.00 is \$5.00 more than was charged under the previous permit for the summer homesite only.

Mr. Herman Snider
Acme Door Company
Hoquiam, Washington

Dear Mr. Snider:

Reference is made to your letter of April 23 and our reply of May 8 concerning your installation of a pipe line on July Creek in the park. When we wrote our letter of May 8 we had only a preliminary report on the situation. On May 21, Assistant Superintendent Overly, Chief Ranger Brown and Park Ranger Dickinson inspected your pipe line and found it to be most unsatisfactory.

The line on the north side of the road which parallels the road is not buried adequately, in fact it would interfere with the use of a grader in levelling out the cut which has been made at that particular place. The idea of running the pipe line overhead on A frames made out of 2x4 and 1 inch material and over logs certainly does not add beauty to the section of the July Creek which is adjacent to the July Creek campground. Furthermore, the installation of the intake is most undesirable. While you have gone to considerable expense in constructing a three compartment overshot intake system its location directly in the stream bed makes it subject to destruction by the first freshet that comes along. In view of the fact that this system was constructed without authority and on plans not approved by this Service, and because the system is not satisfactorily installed and is unsightly, it is necessary for us to request you to remove the entire system and to do so within the next sixty days.

The grounds around your cabin are not well kept. There is considerable down brush which should be cleaned up and there are cans and other refuse in an adjacent stump and on the ground which is indeed unsightly. You should contact Ranger Dickinson for a burning permit whenever you desire to burn the brush. It is suggested that a good garbage pit should be constructed.

It also appeared to the inspecting party that some sort of vent for water was made directly under the house. Because the place was locked it could not be determined what the source of this water was but for sanitary reasons any waste water should be run into a septic tank.

The alder tree which you limbed and topped and now are using as a pole for the power line running into your house will soon rot. It is suggested that a suitable pole be installed. Park Ranger Dickinson, by copy of this letter, is instructed to inspect your area at the end of sixty days to see whether or not

this work has been accomplished. If it has not been we see no alternative but to recommend the cancellation of your permit.

Sincerely yours

Preston P. Macy
Superintendent

SPECIAL CONDITIONS OF THIS PERMIT

1. Permittee shall exercise this privilege subject to the supervision of the Superintendent of the Park and shall comply with the regulations of the Secretary of the Interior governing the park.
2. Use by the permittee of the land covered hereby is subject to the right of the Director, National Park Service, to establish trails, roads, and other improvements and betterments over, upon, or through said premises, and further to the use by travelers and others of such roads and trails as well as of those already existing.
3. No building or other structure shall be erected under this permit except upon plans and specifications approved by the Director, National Park Service, and the premises and all appurtenances thereto shall be kept in a safe, sanitary, and slightly condition.
4. Permittee shall dispose of brush and other refuse as required by the Superintendent.
5. Permittee shall pay the United States for any damage resulting from this use.
6. Permittee and his employees shall take all reasonable precautions to prevent forest fires and also shall assist the Superintendent to extinguish forest fires in the vicinity of any tract which may be used hereunder, and in the preservation of good order within the metes and bounds of the park.
7. No timber may be cut or destroyed without first obtaining permit therefor from the Director, National Park Service, in writing.
8. This permit may not be transferred or assigned without the consent of the Director, National Park Service, in writing.
9. This permit shall terminate upon the violation of any of the conditions hereof or of any Act of Congress or regulation of the Secretary of the Interior governing the park or anything in it, or at the discretion of the Director, National Park Service.
10. Neither Members of, nor Delegates to Congress, or Resident Commissioners, officers, agents, or employees of the Government shall be admitted to any share or part of this permit or derive, either directly or indirectly, any pecuniary benefit to arise therefrom.

SPECIAL CONDITIONS (Continued)

11. All utilities, services, and heat shall be furnished by the permittee.
12. The United States reserves the right to perfect title to all rights for water which may be developed or used in connection with this permit and shall furnish water to the permittee, when available, at reasonable rates to be approved by the Regional Director.
13. Should water service be unavailable or inadequate, the permittee may, with prior approval of the Regional Director, provide the same at his own expense, subject to such special requirements as may be prescribed.
14. Water rights, shall be perfected in the name of the United States.
15. The permittee shall be responsible for returning the premises to the Government at expiration of the permit in substantially the same condition as when accepted, except for normal wear and tear, and acts beyond his control.
16. The permittee shall maintain the premises in an orderly manner and make all essential minor repairs, including repairs to auxiliary buildings, fences, driveways, etc., which may be necessary for reasonable upkeep during his occupancy, including any specific repairs as may be required in the permit.
17. The permittee shall comply with the regulations of the National Park Service governing the area, shall observe all sanitary laws and regulations applicable to the premises, and shall keep the premises in a neat and orderly condition and dispose of all refuse and locate outhouses and cesspools in a manner satisfactory to the Superintendent.
18. Unless otherwise directed by the Superintendent, all structures, facilities, and equipment installed by the permittee, except water systems, which shall be left in place and shall become the property of the Government, must be removed from the site and the site restored to the satisfaction of the Superintendent, within 90 days after the termination of the permit, failing which said structures, facilities, and equipment, shall become the property of the United States.
19. All uranium, thorium, and all other materials determined pursuant to section 5(b)(1) of the Atomic Energy Act of 1946 (60 Stat. 761) to be peculiarly essential to the production of fissionable material, contained, in whatever concentration, in deposits in the lands covered by this contract are hereby reserved for the use of the United States, together with the right of the United States through its authorized agents or representatives at any time to enter upon the land and prospect for, mine, and remove the same, making just compensation for any damage or injury occasioned thereby.
20. The Government shall not be liable for damage to or loss of property or persons resulting from the exercise of privileges authorized herein.
21. The Government shall not be required to keep the park roads cleared from snow or ice during winter months or to sand the roads during such periods.
22. The permittee shall take adequate measures, as directed and approved by the Superintendent, to arrest and prevent soil erosion on the lands covered hereby and shall so utilize such lands as not to contribute to soil erosion on adjoining lands.
23. In cases where the word "Permittee" is used, it shall apply to his representatives or employees and to any of his equipment.

9. This permit shall terminate upon the violation of any of the conditions hereof or of any Act of Congress or regulation of the Secretary of the Interior governing the park or anything in it, or at the discretion of the Director, National Park Service.
10. Neither Members of, nor Delegates to Congress, or Resident Commissioners, officers, agents, ~~representatives of the Government~~ shall be admitted to any share or part of this permit or derive, either directly or indirectly, any pecuniary benefit to arise therefrom.

11. This permit is granted for the maintenance of a summer residence only and it is expressly understood that said residence shall at no time be used or occupied by the permittee or others as a base for or for the purpose of hunting within the vicinity of the Park.

12. The use of this lot for any commercial or other purposes, except as a residence will be cause for the revocation of this permit.

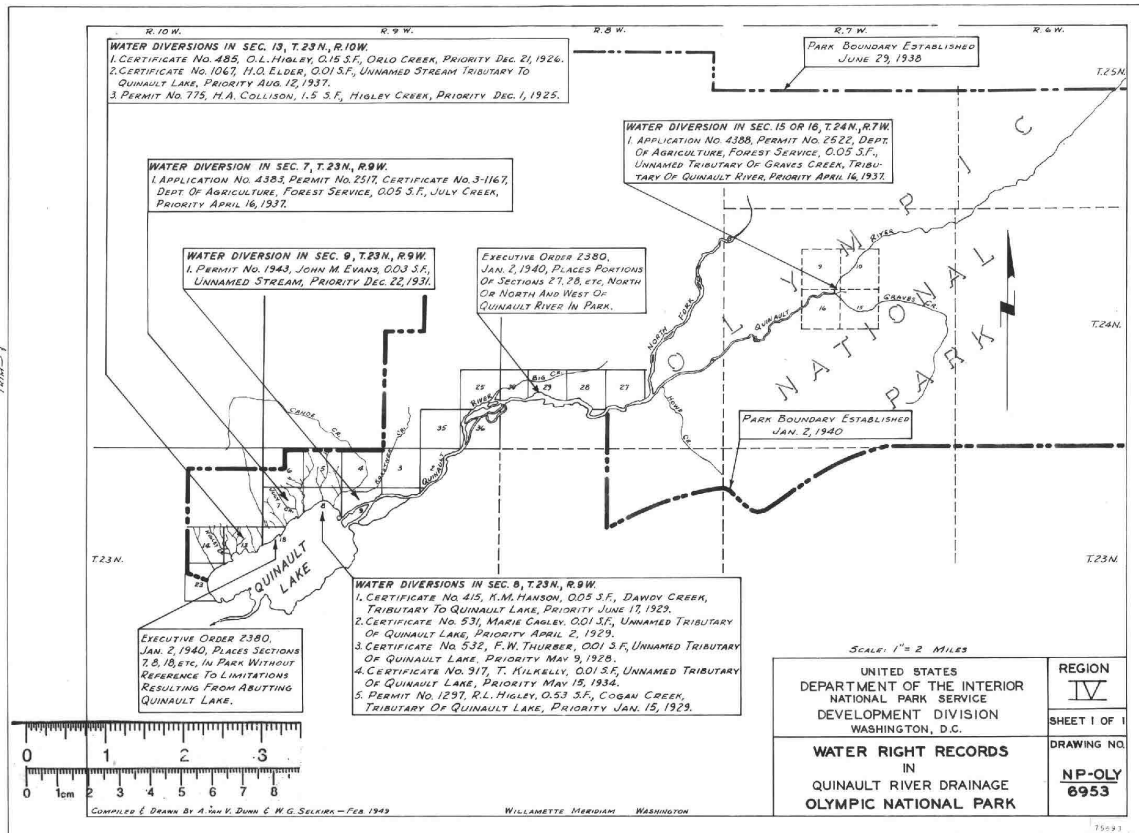

13. The permittee shall comply with the regulations of the National Park Service governing the National Park, shall observe all sanitary laws and regulations applicable to the premises, and shall keep the premises in a neat and orderly condition and dispose of all refuse and locate outhouses and cesspools as required by the National Park Service representatives.

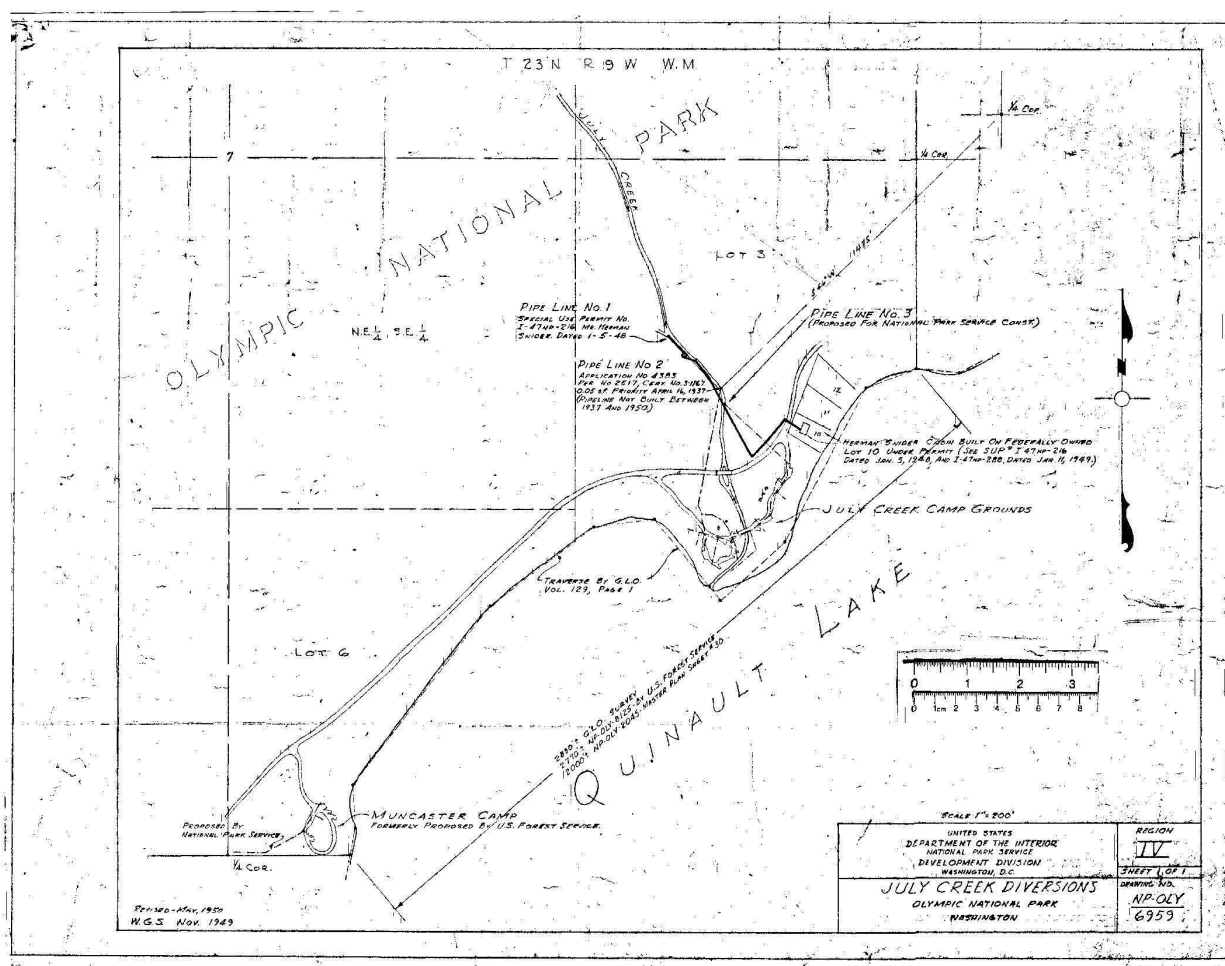

14. It is expressly understood and agreed that this permit may be revoked at any time in the discretion of the Director of the National Park Service, and that no right of renewal is granted herein.

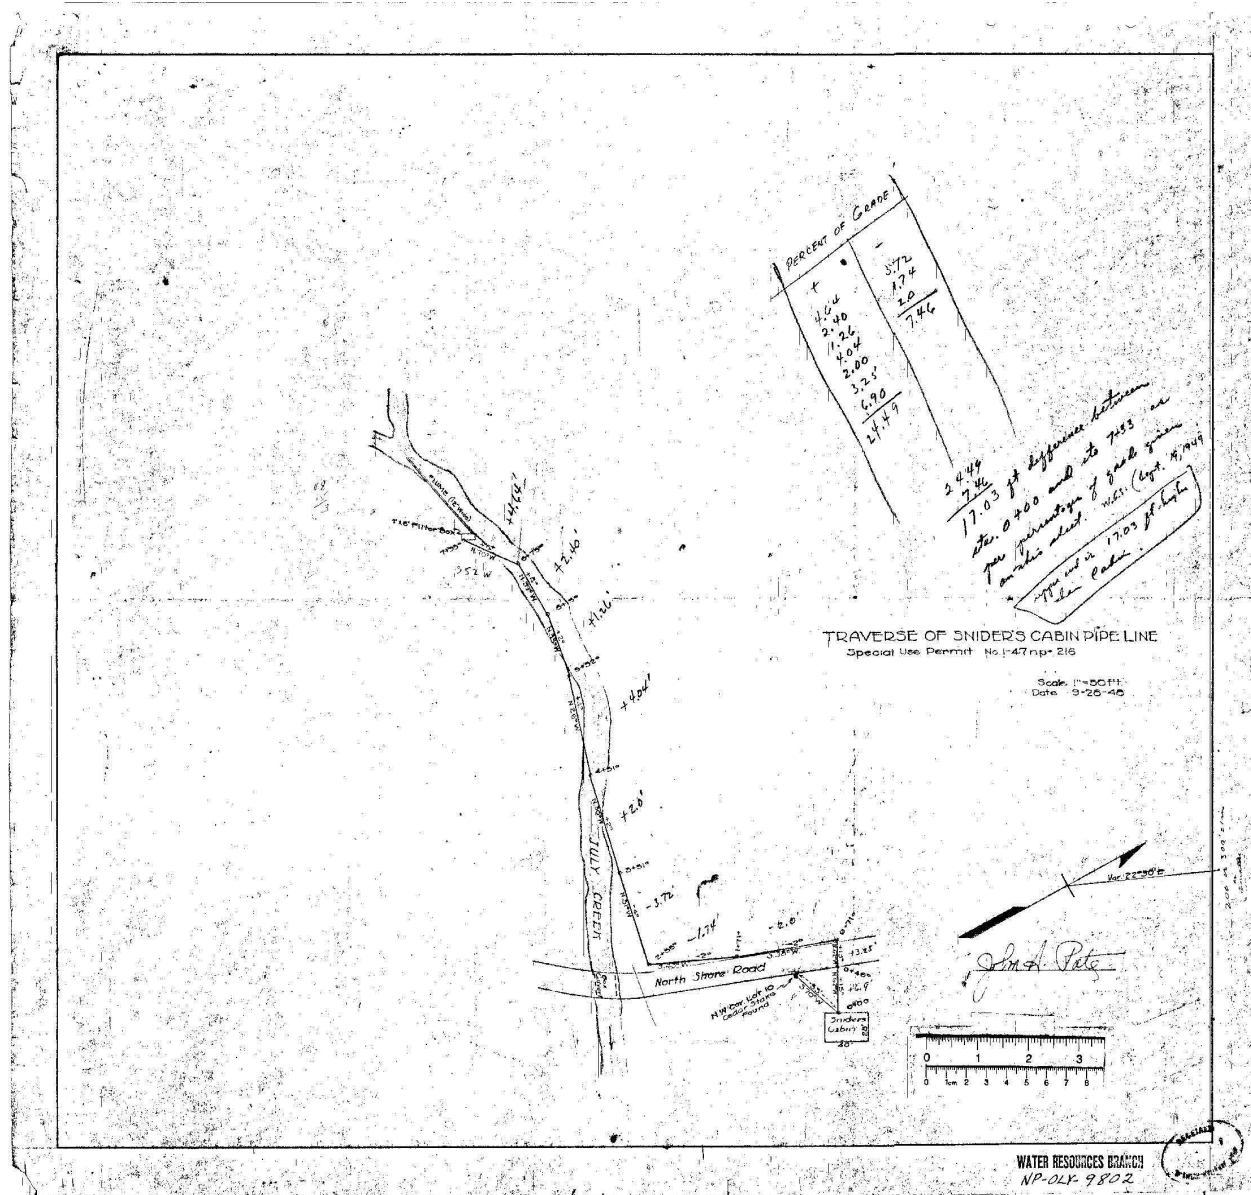

15. A permit covering residence was issued originally by the Forest Service when the area was under the administration and jurisdiction of that Bureau.

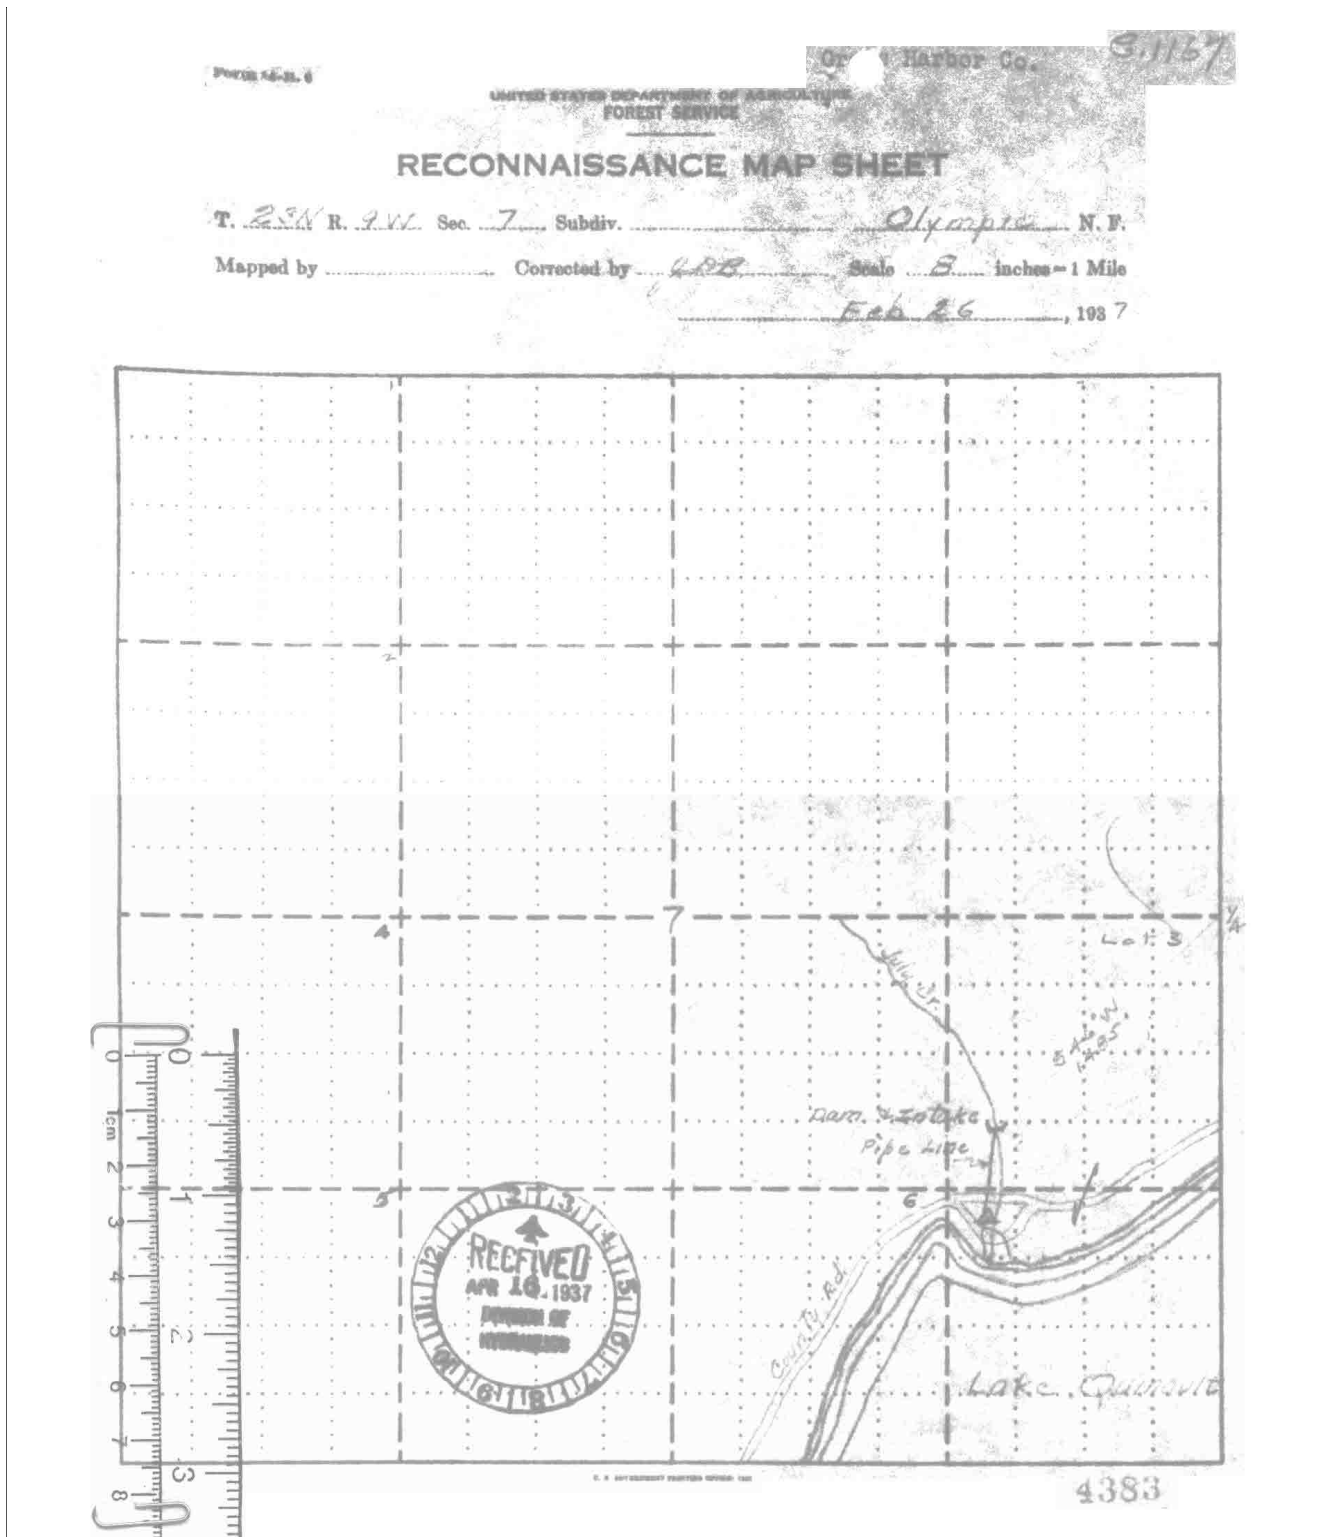

16. This permit shall be automatically renewable upon its expiration for further periods of one year each but not to exceed in all a total of five years, that is December 31, 1949, unless extended in writing by the Director of the National Park Service.
