CERTIFICATE RECORD No. 3, PAGE 1252 Olympic - Deed 35

STATE OF WASHINGTON, COUNTY OF Clallam

CERTIFICATE OF WATER RIGHT

(For rights perfected under original, enlargement or secondary permits.)
(In accordance with the provisions of Chapter 117, Laws of Washington for 1917, and the regulations of the State Supervisor of Hydraulics thereunder.)

This is to certify, that United States Forest Service
of Washington, State of Washington, has made
proof to the satisfaction of the State Supervisor of Hydraulics of Washington, of a right to the use of
the waters of a small brook, a tributary of Elwha River,
for the purposes of Use of public at Altair Forest Camp, Olympic National Forest
under Appropriation Permit No. 2527 issued by the State Supervisor of Hydraulics, and
that said right to the use of said waters has been perfected in accordance with the laws of Washington,
and is hereby confirmed by the State Supervisor of Hydraulics of Washington and entered of record in
Volume 3, at Page 1252, on the 2nd day of October, 1939, that
the right hereby confirmed dates from April 16, 1937; that the amount of water to
which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount
actually beneficially used for said purposes, and shall not exceed One-tenth (0.1) of a
cubic foot per second.

A description of the lands under such right to which the water hereby confirmed is appurtenant,
and the place where such water is put to beneficial use, is as follows:

PLACE OF USE			LEGAL SUBDIVISION	FOR IRRIGATION	
Section	Township	Range		No. Acres Described in Permit	No. Acres Actually Irrigated

LOCATION OF POWER PLANT			LEGAL SUBDIVISION	FOR POWER	
Section	Township	Range		H. P. Described in Permit	H. P. Actually Developed

Section	Township	Range	LEGAL SUBDIVISION	FOR OTHER USES
17	20 N.	7 W.W.M.	NE 1/4 of NE 1/4	Domestic supply

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of
use herein described, except as provided in Section 39, Chapter 117, Session Laws 1917.

WITNESS the seal and signature of the State Supervisor of Hydraulics affixed this 2nd day
of October, 1939.

Chas. S. Burkhart
State Supervisor of Hydraulics.

Proof of Appropriation of Water

Application No. 4393Permit No. 2527

1. Name of applicant United States Forest Service
2. Postoffice address Box 187, Olympia, Washington.
3. Source of appropriation small brook tributary of Klaha River.
4. For what purpose or purposes is water used? For public use at Altaire Forest Camp.
5. Give date of beginning of construction September 1, 1937
6. Give date of completion of construction work September 15, 1937
7. When was all the water completely applied to proposed use? September 15, 1937.
8. Fill in the following carefully, according to use. If for irrigation, fill in the number of acres described in permit and the number of acres actually irrigated (Water should be applied to the full number of acres to be irrigated before certificate can issue). If for power, give location of power plant and the theoretical horsepower described in permit. If for domestic supply, municipal, manufacturing or other uses, simply give the description of place of use.

PLACE OF USE			LEGAL SUBDIVISION	FOR IRRIGATION FILL IN FOLLOWING	
Section	Township	Range		No. Acres Described in Permit	No. Acres Actually Irrigated

LOCATION OF POWER PLANT			LEGAL SUBDIVISION	FOR POWER FILL IN FOLLOWING	
Section	Township	Range		H. P. Described in Permit	H. P. Actually Developed

Notice of Complete Application of Water to a Beneficial Use

I, United States Forest Service, holder of Permit No. 2527
issued by the State Supervisor of Hydraulics of Washington for the appropriation of 0.1 second-
feet of the waters of a small brook, tributary of Elwha River., in accordance with the tenor of such
permit and the limitations endorsed thereon by the State Supervisor of Hydraulics, completely applied
the waters to a beneficial use on the 15th day of September, 19 37, being within
the time limitation as fixed in said permit or extended by the State Supervisor of Hydraulics for the
complete application of water to a beneficial use.

(If all water granted in the permit has not been fully applied to beneficial use, give amount used in
percentage to the whole, so that subsequent appropriators may have notice. If permit is for irrigation
use, state per cent of lands not now watered.)

IN WITNESS WHEREOF, I have hereunto set my hand this 13th day of Sept., 19 39.

Box 187, Olympia, Washington.

STATE OF WASHINGTON
Office of Supervisor of Hydraulics
OLYMPIANOTICE OF WATER RIGHT
APPLICATIONS

TO WHOM IT MAY CONCERN:
Notice is hereby given that the United States Forest Service of Olympia, Washington, under date of April 16, 1937, filed with the State Supervisor of Hydraulics, Olympia, Washington, the following applications for permits to divert public waters:

Application No. 4380 for appropriation of 0.05 second-foot from an unnamed stream, tributary of Elwha river, to be diverted within NW 1/4 of NW 1/4 of Sec. 3, Twp. 23 N., Rge. 7 W., M., for water supply for Elwha Forest Camp.

Application No. 4381 for appropriation of 0.05 second-foot from Crockett river, tributary of Duwamish river, to be diverted within NW 1/4 of NW 1/4 of Sec. 20, Twp. 23 N., Rge. 3 W., M., for water supply for Duwamish Forest Camp.

Application No. 4382 for appropriation of 0.05 second-foot from Lapwai creek, tributary of Crescent and Lyre river, to be diverted within lot 6, Sec. 32, Twp. 20 N., Rge. 9 W., M., for water supply for Lapwai Camp.

Application No. 4383 for appropriation of 0.01 second-foot from an unnamed stream, tributary of Soladuck river, to be diverted within NW 1/4 of NE 1/4 of Sec. 32, Twp. 23 N., Rge. 9 W., M., for water supply for Soladuck Hot Springs.

Application No. 4384 for appropriation of 0.01 second-foot from an unnamed stream, tributary of Ennis creek, to be diverted within SW 1/4 of NE 1/4 of Sec. 3, Twp. 23 N., Rge. 9 W., M., for water supply for Ennis Creek Guard Station.

Application No. 4385 for appropriation of 0.05 second-foot from an unnamed stream, tributary of Goulard creek, to be diverted within approximate Sec. 27, Twp. 23 N., Rge. 8 W., M., for water supply for Olympic Hot Springs Forest Camp.

Application No. 4386 for appropriation of 0.1 second-foot from an unnamed stream, tributary of Elwha river, to be diverted within NE 1/4 of NE 1/4 of Sec. 17, Twp. 20 N., Rge. 7 W., M., for water supply at Altair Forest Camp.

Application No. 4387 for appropriation of 0.05 second-foot from an unnamed stream, tributary of Soladuck river, to be diverted within NW 1/4 of NW 1/4 of Sec. 32, Twp. 30 N., Rge. 10 W., M., for suppression of forest fires.

All of the above appropriations to be used continuously, subject to existing rights in Clallam County, Washington.

A map showing the location and plan of said diversion and the place of the proposed use is on file in the office of the State Supervisor of Hydraulics, Olympia, Washington, together with such other information as is required by law.

Any person, firm or corporation whose right will be injuriously affected by said application may file with the State Supervisor of Hydraulics, at Olympia, Washington, such objections or representations, in writing, as he may desire to make, within thirty (30) days after date of last publication, which date is May 13, 1937.

Witness my hand and official seal this 22nd day of April, A. D., 1937.

STATE OF WASHINGTON
DEPARTMENT OF CONSERVATION AND DEVELOPMENT
Division of Hydraulics

APPLICATION FOR A PERMIT
To Appropriate Public Waters of the State of Washington

Application No. 4393

Permit No. 2527

I, United States Forest Service
(Name of applicant)
of Sk
(Postoffice), County of _____,
State of Washington, do hereby make application for a permit to appropriate
the following described public waters of the State of Washington subject to existing rights:

If the applicant is a corporation, give date and place of incorporation _____

1. The source of the proposed appropriation is a small brook
(Name of stream)
tributary of Elwha River
2. The amount of water which the applicant intends to apply to beneficial use is _____
cubic feet per second.
3. The use to which the water is to be applied is for use of public at Altaire
(Irrigation, power, mining, manufacturing, domestic supplies, etc.)
Forest Camp, Olympic National Forest.
4. Time during which water will be required each year. Continuously
5. The approximate point of diversion is located S. 86° 40' W. 1056 feet from
(Give distance and bearing to section corner)
Northeast corner of Sec. 17, Twp. 29 N., Rge. 7 W.W.M.

being within the NE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Sec. 17, Twp. 29 N., R. 7 W. W. M.,
(Give smallest legal subdivision) (No. E. or W.)

in the county of Clallam

6. The pipe line
(Main ditch, canal, or pipe line) to be 1435 ft. ~~1000~~ in length, terminating
in the NE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Sec. 17, Twp. 29 N., R. 7 W. W. M.,
(Smallest legal subdivision) (No. E. or W.)
the proposed location being shown on the accompanying map.

7. The name of the ditch, canal or other works is Water supply for Altaire Forest
Camp, Olympic National Forest.

8. Estimated cost of development necessary to utilize fully the appropriation herein asked for
\$ 350.00

9. Does the stream from which you wish to appropriate water flow through the tract of land on
which the water is to be used? No.

10. Do you own the required right-of-way for the proposed works? Yes.

DESCRIPTION OF WORKS.

DIVERSION WORKS—

11. (a) Height of diversion dam 3 feet; length on top 18 feet;
length at bottom 7 feet; material to be used and character of construction
Timber crib dam, wasteway in center of top of dam.
(Loose rock, concrete, masonry, rock and brush, timber crib, etc., wasteway over or around dam)

- (b) Description of headgate No headgate. Water to enter pipe line from
wood box installed above dam.
(Timber, concrete, etc.; number and size of openings)

When storage works are contemplated a storage permit must be filed in addition to the above. These forms can be secured, together
with instructions, by addressing the State Supervisor of Hydraulics, Olympia, Washington.

CANAL SYSTEM—

12. (a) Give approximate dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: Width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: Width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

SUPPLY THE FOLLOWING INFORMATION ACCORDING TO USE PROPOSED:

IRRIGATION—

13. The land to be irrigated has a total area of acres, described as follows:
(Give legal subdivision by section, township and range)

(If more space is required, attach separate sheet)

14. Give the legal description of land when water is to be used for purposes other than irrigation, power and municipal supply. ~~NE 1/4 NE 1/4~~ Sec. 17, Tp. 29 N., Rge. 7 W. W. M.,
(Legal subdivisions) (E. or W.)

(a) To what stream is water returned

(b) Locate the point of return Sec., Tp. N., Rge. W. M.,
(Smallest legal subdivision of section) (E. or W.)

POWER—

15. (a) Total amount of power to be developed H. P.
(Theoretical horsepower)

(b) Total fall to be utilized feet.
(Head)

(c) The nature of the works by means of which the power is to be developed

(d) Such works to be located in of Sec.,
(Legal subdivision)
Tp. N., Rge. W. M.
(No. E. or W.)

(e) To what stream is the water to be returned

(f) Locate point of return Sec.,
Tp. N., Rge. W. M.
(No. E. or W.)

(g) The use to which power is to be applied is

MUNICIPAL SUPPLY—

16. To supply the city of _____,
(Name)
_____ County, having a present population of _____
and an estimated population of _____ in 19____
(a) Estimated present requirement _____
(b) Estimated future requirement _____

17. Construction work will begin on or before _____

18. Construction work will be completed on or before _____

Duplicate maps of the proposed ditch or other works, prepared in accordance with the rules of the
State Supervisor of Hydraulics accompany this application.

WITNESS my hand this _____ day of _____, 19____

State Supervisor of Hydraulics.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions: If for irrigation, this appropriation shall be subject to such reasonable rotation system as may be ordered by the State Supervisor of Hydraulics.

The amount of water appropriated shall be limited to the amount which can be applied to beneficial use and not to exceed 0.1 cubic feet per second, or its equivalent in case of rotation. The priority date of this permit is April 16, 1937

Actual construction work shall begin on or before April 1, 1939 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1939

Complete application of the water to the proposed use shall be made on or before October 1, 1940

Given under my hand and the seal of this office at Olympia, Washington, this 15th day of March, 1938

(Sgd.) Chas. J. Bartholet

State Supervisor of Hydraulics.

(SEAL)

Application No. 4393	PERMIT	Filed by U. S. Forest Service	This instrument was first received in the office of the State Supervisor of Hydraulics, Olympia, Washington, on the 16th day of April , 19 <u>37</u>	Approved March 15, 1938	Recorded in Book No. 11	Permits, on Page 2527
Permit No. 2527	To Appropriate Public Waters of the State of Washington	County of Clallam	at 2:30 o'clock P. M.	CHAS. J. BARTHOLET State Supervisor of Hydraulics.		

Before your certificate of water right is issued it will be necessary for you to file with the State Supervisor of Hydraulics a copy of each of the following reports:

- 1st. Progress reports (in case temporary permit is issued).
- 2nd. Affidavit of publication of notice of water right application.
- 3rd. Notice of beginning of construction.
- 4th. Notice of completion of construction.
- 5th. Notice of application of water to a beneficial use.
- 6th. Proof of appropriation of water.

Upon a satisfactory showing that the appropriation has been perfected as provided by statute the State Supervisor of Hydraulics will issue a water right certificate.

(Blanks will be furnished by the office of State Supervisor of Hydraulics)

MEMORANDUM for the Director.

Reference is made to Mr. Demaray's memorandum of July 19 concerning water system extension, Altaire Campground in Olympic National Park.

In reply to your question in the second paragraph, it is the intention to abandon the rights under Certificate 3-1252 and have all transferred to Griff Creek. The Elwha Ranger Station line has a capacity of 0.08 sec. ft. plus, for free discharge.

As for the additional \$1,500 required, we know of no source of funds in this Region, especially as this job could not be covered by rehabilitation funds, being to a considerable extent new work.

(SGD.) H. MAIER

Herbert Maier,
Associate Regional Director.

BOSTON

July 19, 1948.

MEMORANDUM for the Regional Director, Region Four.

Drawing No. NP-OLY-5424-B, Campground Water System Extension, Altaire Campground, Olympic National Park, approved by Mr. Maier on May 15 and submitted with his memorandum of June 28, has been reviewed in this Office.

It is not clear whether you propose to abandon all water rights under Certificate S-1252 or if you wish to have all or a part of them transferred to the Griff Creek diversion. If it is desired to have the rights transferred, please advise us of the gradient or capacity of the Elwha Ranger Station pipe line which we assume to be more than the licensed 0.02 second feet. You will note that the information was not given in the Forest Service application.

We do not have the additional \$1500 which is required for this project. However, we hope to have sufficient funds returned from other projects within two or three weeks so that we can allot the funds requested. It would be appreciated if you could recommend releasing the required funds from any Physical Improvements project in your region for this work.

REGION FOUR
SAN FRANCISCO, CALIFORNIA
180 New Montgomery Street

June 28, 1948.

MEMORANDUM for the Director.

In reference to Mr. Demaray's memorandum of June 7 concerning the Altaire Campground water supply in Olympic National Park, we transmitted a copy of this memorandum to Superintendent Macy with our comments under date of June 16 of which you have a copy.

Under date of June 22, Superintendent Macy confirms our assumptions. We believe that this amplified information now in your hands, together with a print of NP-OLY-5424B and the assurance that Griff Creek can meet the demands mentioned in your penultimate paragraph should clear up all questionable items.

As previously pointed out in our memorandum to you of May 27, Olympic National Park has a balance of about \$1,100 under 14X1018 (rehabilitation) for this project P.C.P. #U-30, which is \$1,500 short of achieving our objective. In the last paragraph of your memorandum you mention possible means of obtaining the \$1,500. Whatever steps you may be able to take to provide these funds at an early date would be gratefully appreciated.

(SGD.) H. MAIER

Herbert Maier,
Associate Regional Director.

Enclosure 226.

C O P Y

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
REGION FOUR
SAN FRANCISCO 5, CALIFORNIA
180 New Montgomery Street

June 16, 1948.

MEMORANDUM for the Superintendent, Olympia.

Enclosed, herewith, is a copy of a memorandum of June 7 signed by Mr. Demaray concerning Altaire Campground water system.

Referring to their second paragraph we did not find water right Certificate 3-1252 on water rights drawing N.P.-OLY-5321 (part of the master plan), but now we have identified it from Deed #35 with the supply now serving the Altaire Campground through a 3/4" pipe, obviously an inadequate line for 0.1 sec. ft. as Mr. Demaray's memorandum points out in the third paragraph.

Referring to the fourth paragraph, the question raised-----
"whether the desired pressure and quantity of water can be obtained by restoring the authorized point of diversion." We can say that according to Architect Hauser's reports to this office this source has gone almost dry at times when water was needed most.

The capacity of the lines using the Elwha Ranger station system will be in excess of 0.02 sec. ft. allowed under Certificate 2-594 (9 gal. per min., 540 gal./hr., 12,900 gal./day). We are assuming that this is enough to supply campground, ranger station and the occasional demands of the utility area under reduced pressure.

We are working under the foregoing assumptions. If you have any modifications to suggest please do so as soon as possible. If you concur fully please let us know.

We shall make the changes and additions in this office on the plans requested by the Director.

(SGD.) H. MAIER

Herbert Maier,
Acting Regional Director.

Enclosure 208.

cc: Director.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
WASHINGTON 25, D. C.

ADDRESS ONLY
THE DIRECTOR, NATIONAL PARK SERVICE

June 7, 1948.

MEMORANDUM for the Regional Director, Region Four.

We should appreciate clarification of the memorandum of May 27 from Mr. Maier, concerning the extension of the Altaire Campground Water System at Olympic National Park under PCF-U-30, with funds from Account 14X1018.

The Altaire Campground Water System is covered by Water Right Certificate 3-12-2 (Deed 35), with rights to 0.1 second foot of water from a small brook. The Elwha Ranger Station Water System is covered by Water Right Certificate 2-594 (Deed 23), with rights to 0.02 second foot of water from Griff Creek. Both rights were perfected by the Forest Service.

It is quite possible that the spring mentioned by Mr. Maier, is the source of the small brook described in Deed 35, but it is hard to believe that the Forest Service made proof for the appropriation of 0.1 second foot of water with a 3/4 inch pipe line. Verification is necessary, to determine whether the existing water system is that described in Deed 35; and if not, how the two systems differ. It will be helpful if the two systems, and proposed unification, can be shown in a small scale insert on drawing NP-OLY-5424A. Also, please show the north point in that drawing.

We concur in the plan to change the source of supply if there is inadequate water at the present point of diversion. However, we should like to know whether the present point of diversion is that described in the water right certificate. If the two are not identical, we should like to know whether the desired pressure and quantity of water can be obtained by restoring the authorized point of diversion. The answer should indicate whether the extension shown on drawing NP-OLY-5424A, is permanent or temporary.

The extension, if permanent, will require amendment of water rights under Certificate 2-594, to expand the area of use. In addition, we should consider the total, ultimate water demand

in the area; whether it will exceed the 0.02 second foot covered by that certificate ; or whether part of the rights under Certificate 3-1252 should be transferred to the Griff Creek diversion.

Griff Creek is also the source of supply for the Elwha Ranger Station hydroelectric plant which is covered by Water Right Certificate 2-822, (Deed 24), for 1.0 second foot. It is evident that the flow of this creek is adequate for the total water demands of the Elwha Ranger Station, the Wamilla Lodge, and the Altaire Campground; but we are not sure that it is adequate for these demands and the needs of the hydroelectric plant. These broad aspects should be fully considered.

Water right funds are not available for construction. However, we may be able to provide the additional funds requested for this project, by the time we obtain your comments on the preceding discussion - in about two weeks.

(SGD) A. E. DEMARAY
Associate Director.
