Official Records of Marin County, Calif.

Licensee shall allow representatives of the Board and other parties, as may be authorized from time to time by the Board, reasonable access to project works to determine compliance with the terms of this license.

All rights and privileges under this license including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time to time by the Board.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein specified and to the lands or place of use herein described.

This license is granted and licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the Board.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

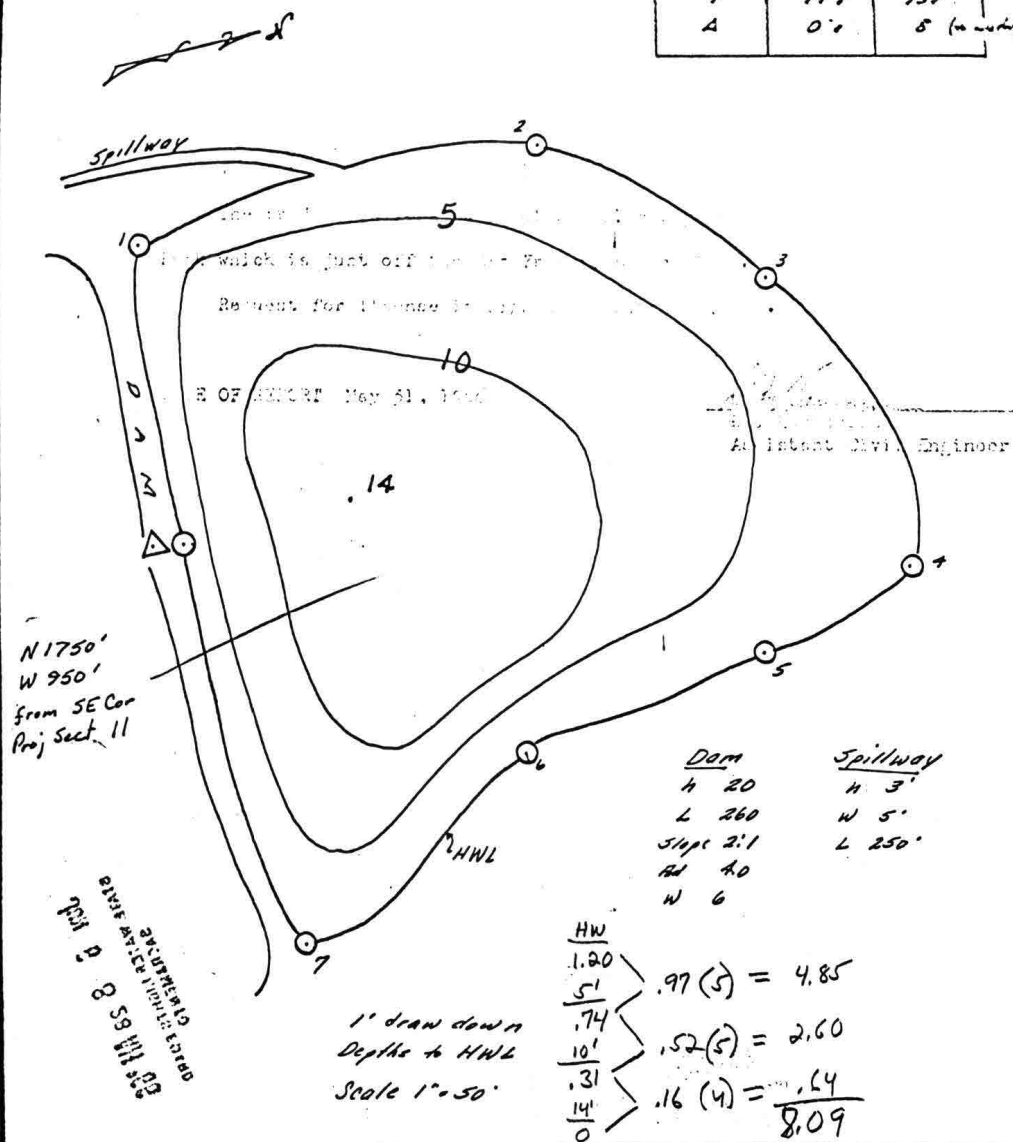

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.

From: Chief, Water Rights Branch

Subject: California State Water Resources Control Board Progress Reports and Reports of Licensee

We have reviewed the thirteen reports of licensee and one progress report by permittee (attached) mailed to us in a letter dated October 6, 1997. There is missing information or discrepancies in all of the reports between the authorized beneficial purposes and the reported water uses. Before we can finalize the reports and sign them, we would like your assistance in clarifying these discrepancies. Please review our comments below and return the completed reports and/or call Bill Hansen, of my staff, at (970) 225-3532 to discuss the need for filing change applications so we are in compliance with the conditions of each permit.

Our concerns are listed below and referenced by application and permit number:

Application A029021, Permit 020434, Use of Water (5): Has use of water commenced? If so, is any irrigation use and/or recreational use occurring?

Application A021954, Permit 009630: There is a conflict between the authorized purpose which is stockwatering and the actual uses shown on page 2. If this water is being used for domestic purposes we are in non-compliance with the permit and should file a change application to add domestic use.

No Use

Application A019955, Permit 007931: What type of recreational use is occurring (i.e., fishing, boating, etc.)?

2

Application A019953, Permit 007929: There is a conflict between the authorized purposes which are domestic, recreational, and stockwatering and the actual uses shown on page 2. Is this water is being used for domestic purposes? If not, will it be in the future or should we file a change application to subtract domestic use? What type of recreational use is occurring (i.e., fishing, boating, etc.)?

Application A019952, Permit 007928: There is a conflict between the authorized purpose which is stockwatering and the actual uses shown on page 2. If recreational use is occurring we should file a change application. If it is not, we should not show this use on page 2.

Application A019951, Permit 007927: Is recreational use occurring? If so, what type and it should be shown on page 2.

Application A019950, Permit 007926: There is a conflict between the authorized purposes which are recreational and stockwatering and the actual uses shown on page 2. Is there actually 280 acres being irrigated, or was it intended to show 280 head of stock being watered. If irrigation is occurring we are in non-compliance with our permit. Is recreational use occurring? If so, what kind. If these discrepancies are real we will need to file a change application.

Application A020021, Permit 007941: There is a conflict between the authorized purpose which is stockwatering and the actual uses shown on page 2. If domestic use is occurring we need to file a change application to be in compliance with our permit.

Application A020022, Permit 007942: There is a conflict between the authorized purpose which is stockwatering and the actual uses shown on page 2. If domestic use is occurring we need to file a change application to be in compliance with our permit.

Application A021277, Permit 009049: There is a conflict between the authorized purposes which are recreational and stockwatering and the actual uses shown on page 2. If domestic use is occurring we need to file a change application to be in compliance with our permit. Is recreational use occurring? If so, what type and it should be shown on page 2.

Application A013473, Permit 003827: Are uses occurring in November, December, January, and February? Is irrigation occurring? If not, should we file a change application to be in compliance with our permit?

Application A013322, Permit 003800: Does use occur in January? There is a conflict between the authorized purposes which are domestic and industrial and the actual uses shown on page 2. It appears that the purpose should be changed to stockwatering since this is a beef cattle operation. Was this water used at one time for a dairy operation and the original permittee issued for industrial uses associated with dairy farming?

Application A017417, Permit 006748: There is a conflict between the authorized purpose which is recreational and the actual uses shown on page 2. If horses are being watered we are in non-compliance with our permit and should either discontinue stockwatering or file a change application to add stockwatering. *May need change application*

Application A019954, Permit 007930: What types of recreational use are occurring?

Dear Mr. Parkenson:

It has come to our attention that a number of water licenses originally issued to Mr. Alfred Grossi were never transferred to the United States at the time the property was sold to the National Park Service. As a part of our ongoing project to inventory, document and manage our water rights, we wish to transfer these water licenses to reflect our current ownership. We have enclosed six Notice of Assignment forms (WR 29a) designating Point Reyes National Seashore as the owner for these water rights. We are requesting that the following licenses be officially transferred to Point Reyes National Seashore as the legal owner.

<u>Application</u>	<u>License</u>
19950	7926
19951	7927
19952	7928
19953	7929
19954	7930
19955	7931

We have enclosed a copy of the deed of sale dated July 9, 1971 which substantiates the transfer of the Grossi property and water rights to the National Park Service. Upon completion of the transfer we will assume responsibility for submitting timely progress reports.

Thank you for your attention to this matter.

Sincerely,

John L. Sansing
