Memorandum

To: Superintendent, Point Reyes National Seashore

From: Chief, Water Rights Branch

Subject: California State Water Resources Control Board Progress Reports and Reports of Licensee

We have reviewed the thirteen reports of licensee and one progress report by permittee (attached) mailed to us in a letter dated October 6, 1997. There is missing information or discrepancies in all of the reports between the authorized beneficial purposes and the reported water uses. Before we can finalize the reports and sign them, we would like your assistance in clarifying these discrepancies. Please review our comments below and return the completed reports and/or call Bill Hansen, of my staff, at (970) 225-3532 to discuss the need for filing change applications so we are in compliance with the conditions of each permit.

Our concerns are listed below and referenced by application and permit number:

Application A029021, Permit 020434, Use of Water (5): Has use of water commenced? If so, is any irrigation use and/or recreational use occurring?

Application A021954, Permit 009630: There is a conflict between the authorized purpose which is stockwatering and the actual uses shown on page 2. If this water is being used for domestic purposes we are in non-compliance with the permit and should file a change application to add domestic use.

No Use

Application A019955, Permit 007931: What type of recreational use is occurring (i.e., fishing, boating, etc.)?

2

Application A019953, Permit 007929: There is a conflict between the authorized purposes which are domestic, recreational, and stockwatering and the actual uses shown on page 2. Is this water is being used for domestic purposes? If not, will it be in the future or should we file a change application to subtract domestic use? What type of recreational use is occurring (i.e., fishing, boating, etc.)?

Application A019952, Permit 007928: There is a conflict between the authorized purpose which is stockwatering and the actual uses shown on page 2. If recreational use is occurring we should file a change application. If it is not, we should not show this use on page 2.

Application A019951, Permit 007927: Is recreational use occurring? If so, what type and it should be shown on page 2.

Application A019950, Permit 007926: There is a conflict between the authorized purposes which are recreational and stockwatering and the actual uses shown on page 2. Is there actually 280 acres being irrigated, or was it intended to show 280 head of stock being watered. If irrigation is occurring we are in non-compliance with our permit. Is recreational use occurring? If so, what kind. If these discrepancies are real we will need to file a change application.

Application A020021, Permit 007941: There is a conflict between the authorized purpose which is stockwatering and the actual uses shown on page 2. If domestic use is occurring we need to file a change application to be in compliance with our permit.

Application A020022, Permit 007942: There is a conflict between the authorized purpose which is stockwatering and the actual uses shown on page 2. If domestic use is occurring we need to file a change application to be in compliance with our permit.

Application A021277, Permit 009049: There is a conflict between the authorized purposes which are recreational and stockwatering and the actual uses shown on page 2. If domestic use is occurring we need to file a change application to be in compliance with our permit. Is recreational use occurring? If so, what type and it should be shown on page 2.

Application A013473, Permit 003827: Are uses occurring in November, December, January, and February? Is irrigation occurring? If not, should we file a change application to be in compliance with our permit?

Application A013322, Permit 003800: Does use occur in January? There is a conflict between the authorized purposes which are domestic and industrial and the actual uses shown on page 2. It appears that the purpose should be changed to stockwatering since this is a beef cattle operation. Was this water used at one time for a dairy operation and the original permittee issued for industrial uses associated with dairy farming?

Application A017417, Permit 006748: There is a conflict between the authorized purpose which is recreational and the actual uses shown on page 2. If horses are being watered we are in non-compliance with our permit and should either discontinue stockwatering or file a change application to add stockwatering. *~ May need change application*

Application A019954, Permit 007930: What types of recreational use are occurring?

Ref: Application Nos. 19950, 19951, 19952, 19953, 19954, 19955

Dear Mr. Parkenson:

It has come to our attention that a number of water licenses originally issued to Mr. Alfred Grossi were never transferred to the United States at the time the property was sold to the National Park Service. As a part of our ongoing project to inventory, document and manage our water rights, we wish to transfer these water licenses to reflect our current ownership. We have enclosed six Notice of Assignment forms (WR 29a) designating Point Reyes National Seashore as the owner for these water rights. We are requesting that the following licenses be officially transferred to Point Reyes National Seashore as the legal owner.

<u>Application</u>	<u>License</u>
19950	7926
19951	7927
19952	7928
19953	7929
19954	7930
19955	7931

We have enclosed a copy of the deed of sale dated July 9, 1971 which substantiates the transfer of the Grossi property and water rights to the National Park Service. Upon completion of the transfer we will assume responsibility for submitting timely progress reports.

Thank you for your attention to this matter.

Sincerely,

John L. Sansing
