

WATER-RIGHT DOCKET

Redwood National and State Parks

Docket No: 4

SPRING. PETERSON-SHROEDER DIVERSION

Preliminary Docket Information

09-07-1993: letter to division of water rights from water rights specialist regarding multiple license nos.

September 7, 1993

L54(479)
REDW/Water Rights

Mr. John Wright
State Water Resources Control Board
Division of Water Rights
P.O. Box 2000
Sacramento, CA 95812-2000

Dear John:

As discussed in our telephone conversation on May 27, 1993, the National Park Service (NPS) is reviewing its water-rights records for NPS units located in California. The following Reports of Licensee for Redwood National Park are missing from our files:

<u>LICENSE NUMBER</u>	<u>YEARS MISSING</u>
003866	1984 - present
005046	1988 - present
005125	1988 - present
005929	1984 - present
005369	1988 - present
003442	1988 - present
009017	1984 - present
005141	1988 - present
007429	1986 - present

If your office has the Reports of Licensee, we would appreciate copies sent to the above letterhead address. If your office has no record of the reports having been filed, please send us blank copies so they can be completed and returned to you.

Thank you for your assistance. If you have any questions, please contact me at (303) 225-3525.

Sincerely,

Denise L. Newberry
Water Rights Specialist

WATER RESOURCES/WATER RIGHT

DATE: January 7, 1977

WATER RIGHT/SOURCE DOCKET INFORMATION

REGION Western AREA Redwood National Park
 SITE Peterson - Shroeder Diversion
 STATE California COUNTY Del Norte DOCKET NO WR #4
 LOCATION NE¹₄, NW¹₄, sec. 7, T14N, R1E
 REGIONAL BASIN _____ LOCAL BASIN _____
 ACQUIRED BY Purchase
 APPLICATION 12706 PERMIT 7478 CERTIFICATE 5929
 ACTION DUE _____ PRIORITY September 23, 1948 RESERVATION _____
 QUANTITY 1300 GPD USE Domestic
 STATUS Active SOURCE Spring
 REMARKS Hydrologic Unit #18010101

NARRATIVE: E.F. and C.E. Hazelton filed Application No. 12706 on September 23, 1948, to appropriate 8000 gallons per day from an unnamed spring for domestic purposes. Apparently between that date and 1960, the Hazeltons transferred their interest in the application to Carl and Eva Peterson and Robert Shroeder, for on January 8, 1960, License No. 5929 was issued to the Petersons and Shroeder. The license was for 1300 gallons per day. It is to be noted that Application No. 11595, held by Mariam Rudisill, also had the same point of diversion as Application No. 12706.

Redwood National Park was established on October 2, 1968. In May or June of 1969, the Petersons conveyed certain lands in section 7, T14N, R1E, within the boundaries of the Park, to the United States by Grant Deed. Also conveyed was "the Grantor's right, title, and interest in and to water rights appurtenant to this property, including but not limited to water rights as recorded in Book 62, page 211 on July 30, 1957, Del Norte County Records." These water rights included License No. 5929, as noted in a letter from the Petersons to the California Water Resources Control Board. The deed also reserved to the grantor (Petersons) the right to use the land for residential purposes for 25 years.

Application No. ~~12706~~ ¹¹⁵⁹⁵ went to license (No. 5927) on January 8, 1960. It was transferred to the Del Norte Palisades Mutual Water Company. As the point of diversion was located within the Park, the United States initiated a condemnation action to acquire this water right. The action is presently pending in the Court of Claims.

Update - 8/6/82 A. McMahon

License #5927 was assigned to the National Park Service on 6/11/81.

At the present time, the State Water Resources Control Board has no record of License #5929 ever being assigned to the NPS. They are now conducting a routine investigation as to the ownership of #5929, and will be notifying us shortly.

STATE OF CALIFORNIA—STATE WATER RIGHTS BOARD

License for Diversion and Use of Water

APPLICATION 11595

PERMIT 6731

LICENSE 5927

THIS IS TO CERTIFY, That

Del Norte Palasedes Mutual Water Company
c/o Rudisill Ranch Company
Requa, California

has made proof as of July 30, 1957
(the date of inspection) to the satisfaction of the State Water Rights Board of a right to the use of the water of
an unnamed stream in Del Norte County

tributary to an unnamed stream thence Pacific Ocean

for the purpose of domestic use
under Permit 6731 of the State Water Rights Board and that said right to the use of said water has been
perfected in accordance with the laws of California, the Rules and Regulations of the State Water Rights Board and the
terms of the said permit; that the priority of the right herein confirmed dates from October 25, 1946
and that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited
to the amount actually beneficially used for said purposes and shall not exceed two thousand four hundred
(2400) gallons per day to be diverted from January 1 to December 31 of each year.

During times of water shortage, use under this license is limited to strictly
household domestic needs.

The point of diversion of such water is located :

South six hundred fifty-four and nine tenths (654.9) feet and west three thousand
two hundred eighty-four and eighteen hundredths (3284.18) feet from NE corner of
Section 7, T14N, R1E, HB&M, being within NW $\frac{1}{4}$ of NE $\frac{1}{4}$ of said Section 7.

A description of the lands or the place where such water is put to beneficial use is as follows:

Within Lots 3, 8 and 9 of Del Norte Palasedes being within NE $\frac{1}{4}$ of NW $\frac{1}{4}$, SE $\frac{1}{4}$ of NW $\frac{1}{4}$
and NE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 7, T14N, R1E, HB&M.

All rights and privileges under this license including method of diversion, method of use and quantity of water
diverted are subject to the continuing authority of the State Water Rights Board in accordance with law and in the
interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of
diversion of said water.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time
to time by the State Water Rights Board.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein
specified and to the lands or place of use herein described.

This license is granted and licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the board.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

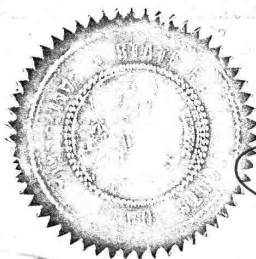

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.

Gentlemen:

LICENSE 5929 (APPLICATION 12706) UNNAMED SPRING IN DEL NORTE COUNTY

Thank you for informing us that you have acquired the property formerly owned by Carl E. and Iva D. Peterson and Robert Schroeder which is served under the above listed water right. Unless we hear to the contrary within 30 days, we will change our records to show ownership of License 5929 as follows:

U. S. Redwood National Park
c/o National Parks Service
Division of Water Resources

We assume you were given a copy of the license by the previous owners and that you are familiar with its terms and conditions. If not, one is available upon request.

Please advise us of any future change of address or ownership. If you have any questions, please write or telephone (916) 924-2465.

Sincerely,

A handwritten signature in dark ink, appearing to read 'John O'Hagan'.

Dear Mr. Woodward:

Please be advised that we have sold our property, as described in the attached documents, together with all water rights appurtenant thereto, to the United States as represented by the Department of the Interior, National Park Service, Office of Land and Water Rights, 450 Golden Gate Avenue, Box 36025, San Francisco, California 94102. The following application, permit, and certificate numbers apply:

Application No. 12706

License No. 5929

together with any others whose identity is more easily identified in your files.

The above mentioned rights are within the
REDWOOD NATIONAL PARK

It would be appreciated if you would advise the National Park Service when this change of ownership is corrected in your files.

Sincerely yours,

Grantor

Application 11595

Carl E. and Iva D. Peterson
and Robert Shroeder
c/o Carl E. Peterson
Ocean View Terrace
Requa, California

Gentlemen:

On September 10, 1957, a petition was received from H. D. Rudisill, Administrator for the estate of Mariam Rudisill, to change the place of use under Application 11595, Permit 6731, for the diversion of 19,500 gallons per day from an unnamed stream for domestic and stockwatering purposes. The above petition proposes to change Permit 6731 to serve domestic water in the Del Norte Palisades unit No. 2, resubdivided from Lots 8 and 9 of Del Norte Palisades, consisting of 27 residential lots of not less than 9,000 square feet per lot and to also supply water necessary for stock. The above described place, wherein it is proposed to use the water, is located within the NE $\frac{1}{4}$ of NW $\frac{1}{4}$; SE $\frac{1}{4}$ of NW $\frac{1}{4}$ and NE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 7, T14N, R1E, HB&M.

On January 14, 1958, another petition was received from Mr. Rudisill requesting permission to correct the description of the point of diversion and stating that the original tie to the section corner was found to be incorrect. This petition involves no physical change in the point at which the water is taken into the pipe line. The proposed new description reads as follows:

"South 654.90 feet and west 3284.18 feet from the NE corner of Section 7, T14N, R1E, HB&M, being within the NE $\frac{1}{4}$ of NW $\frac{1}{4}$ of said Section 7."

It is our understanding that the above tie describes the same point as that of Application 12706 of Carl E. and Iva D. Peterson and Robert Shroeder.

Carl E. and Iva D. Peterson
and Robert Shroeder

Application No. 12706 Filed September 23, 1948 at 9:57 A. M.
DEC 2 - 1948 (Applicant must not fill in the above blanks) AMENDED APPLICATION RECEIVED DEC 20-1948

APPLICATION TO APPROPRIATE UNAPPROPRIATED WATER

I, Edith F. Hazelton and C. E. Hazelton

Name of applicant

of Reque County of Del Norte

Post office

State of California

, do hereby make application for a permit to appropriate the following described unappropriated waters of the State of California, *SUBJECT TO EXISTING RIGHTS*:

Source, Amount, Use and Location of Diversion Works

1. The source of the proposed appropriation is unnamed spring
Give name of stream, lake, etc., if named; if unnamed state nature of source and that it is unnamed
located in Del Norte County, tributary to unnamed stream thence Pacific Ocean

2. The amount of water which applicant desires to appropriate under this application is as follows:

(a) For diversion to be directly applied to beneficial use without storage 8000 gallons per second
1 cubic foot per second equals 40
statute minor's inches or 646,317
gallons per day

~~XXXXXX~~ to be diverted from January 1st to December 31st of each ~~XXXXXX~~
Beginning date each season Closing date each season

(b) For diversion to be stored temporarily and later applied to beneficial use XXXXXX acre-feet
per annum, to be collected between XXXXXX and XXXXXX of each season.
Beginning date each season Closing date each season

NOTE.—Answer (a) or (b) or both (a) and (b) as may be necessary. The amounts stated must be in definite terms of some established unit of measurement. Neither these amounts nor the season may be increased after application is filed.

3. The use to which the water is to be applied is domestic
Domestic, irrigation, power, municipal, mining, industrial, recreational
purposes.

4. The point of diversion is to be located approximately 2700 Ft. West and 600 Ft. South of
State bearing and distance or coordinate distance to section or quarter section corner
Corner common to Sec. 5-6-7-8

being within the NW 1/4 of NE 1/4
State 40-acre subdivision of U. S. Government survey or projection thereof
of Section 7, Tp. 14 N., R. 1 E., H. B. & M., in the County of Del Norte

5. The main conduit terminates in NW 1/4 of SE 1/4, of Sec. 7, Tp. 14 N., R. 1 E., H. B. & M.
State 40-acre subdivision of U. S. Government survey or projection thereof

Description of Diversion Works

NOTE.—An application can not be approved for an amount grossly in excess of the estimated capacity of the diversion works.

6. Intake or Headworks (fill only those blanks which apply)

(a) Diversion will be made by pumping: Capacity of plant XXXXXX gallons per minute.

(b) Diversion will be by gravity, the diverting dam being three feet in height (stream bed to level of overflow); six feet long on top; and constructed of redwood
Concrete, earth, brush, etc.

(c) The storage dam will be XXXXXX feet in height (stream bed to overflow level); XXXXXX feet long on top; have a freeboard of XXXXXX feet, and be constructed of XXXXXX
Concrete, earth, etc.

7. Storage Reservoir Name XXXXXX

The storage reservoir will flood lands in XXXXXX
Indicate section or sections, also 40-acre subdivisions unless shown upon map

It will have a surface area of XXXXXX acres, and a capacity of XXXXXX acre-feet.

In case of insufficient space for answers in form, attach extra sheets at top of page 3 and cross reference.

FORM 1

8. **Conduit System** (describe main conduits only)

(a) Canal, ditch, flume: Width on top (at water line) _____ feet; width at bottom _____ feet; depth of water _____ feet; length _____ feet; grade _____ feet per 1,000 feet; materials of construction _____
 Earth, rock, timber, etc. 1 1/2 inches; length 3140 feet; grade _____ feet per 1,000 feet; total fall from intake to outlet 260 feet; kind riveted steel
 (b) Pipeline: Diameter 2 inches; length 60 feet; grade _____ feet per 1,000 feet; kind riveted steel
 Riveted steel, cement, wood-stave, etc.

Norm.—If a combination of different sizes or kinds of conduit is to be used, attach extra sheets with complete description, also show location of each clearly on map.

9. The estimated capacity of the diversion works proposed is do not know
 State cubic feet per second or gallons per minute

The estimated cost of the diversion works proposed is approximately \$1200.00
 Give only cost of intakes, or headworks, pumps, storage reservoirs and main conduits described herein

Completion Schedule

10. Construction work will begin on or before _____

Construction work was completed on or before August 1946

The water was completely applied to the proposed use xxx before August 1946

Description of Proposed Use

11. Place of Use. NW 1/4 of Sec. 7, T 14 N, R 1 E, H.B. & M.
 State 40-acre subdivisions of the public land survey. If area is unsurveyed indicate the location as if lines of the public land survey were projected. In the case of irrigation use state the number of acres to be irrigated in each 40-acre tract, if space permits. If space does not permit listing of all 40-acre tracts, describe area in a general way and show detail upon map. These blanks need not be filled in when municipal use is proposed.

Does applicant own the land whereon use of water will be made? Yes
 Yes or No

If applicant does not own land whereon use of water will be made, state what arrangements have been made with owner.

12. Domestic Use. Domestic use is proposed as follows: 1 house, 4 to 6 people to be served
 Describe nature of use which may include stock water and the irrigation of domestic gardens not exceeding one-half acre with each place of residence. State number and kind of stock to be watered, number of houses and people to be served.

and 1/2 acre of garden

The amount for which application is made was determined by reference to Sec. 658 Article 2.
 Describe basis of quantity needed

13. Irrigation Use. The area to be irrigated is _____ acres.
 State net acreage to be irrigated

The segregation of acreage as to crops is as follows: Rice _____ acres; alfalfa _____ acres;

orchard _____ acres; general crops _____ acres; pasture _____ acres.

Norm.—Care should be taken that the various statements as to acreage are consistent with each other, with the statement in Paragraph 11, and with the map.

The irrigation season will begin about _____ and end about _____
 Beginning date each season Closing date each season

The land to be irrigated has _____ another _____ water right or source of water supply other than that herein applied for. The nature

and amount of the additional supply referred to is _____

14. Power Use. The total fall to be utilized is _____ feet.
 Difference between nozzle or draft tube water level and first free water surface above

The maximum amount of water to be used through the penstock is _____ cubic feet per second.

The maximum theoretical horsepower capable of being generated by the works is _____ horsepower.
 Second feet X fall -> H.P.

The use to which the power is to be applied is _____
 For distribution and sale or private use, etc.

The nature of the works by means of which power is to be developed is _____
 Turbine, Pelton wheel, etc.

The size of the nozzle to be used is _____ inches.

The water will be returned to _____ in _____ of _____
 Name stream State 40-acre subdivision

Sec. _____, Tp. _____, R. _____, M. _____

DO NOT WRITE IN THIS SPACE

ATTACH EXTRA SHEETS HERE

15. **Municipal Use.** This application is made for the purpose of serving _____
Name city or cities, town or towns. Urban areas only
 having a present population of _____

The estimated average daily consumption during the month of maximum use at the end of each five-year period until the full amount applied for is put to beneficial use is as follows:

16. **Mining Use.** The name of the mining property to be served is _____
Name of claim
 and the nature of the mines is _____
Gold placer, quartz, etc.

The method of utilizing the water is _____

It is estimated that the ultimate water requirement for this project will be _____
Cubic feet per second, gallons per minute. State basis of estimate

The water will be polluted by chemicals or otherwise _____
Explain nature of pollution, if any

and it will be returned to _____ in _____ of _____
Name stream State 40-acre subdivision

Sec. _____, Tp. _____, R. _____, M. _____

17. **Industrial Use.** The nature of the use proposed is _____
Describe nature and method of use

The amount for which application is made was determined by _____
Describe basis of estimate of quantity needed

18. **Recreational Use.** Water will be used for _____
Describe nature and method of use

The amount for which application is made was determined by _____
Describe basis of estimate of quantity needed

General

19. Are the maps as required by the Rules and Regulations filed with Application? Yes If not, state specifically the time required for filing same _____
Yes or No

20. Does the applicant own the land at the proposed point of diversion? No If not, state what steps have been taken to secure right of access thereto Right of way conveyed by deed.
Yes or No

21. What is the name of the post office most used by those living near the proposed point of diversion?

Requa, California

22. What are the names and addresses of claimants of water from the source of supply below the proposed point of diversion?

LESTER L. MOORE, C.E.
 [SIGNATURE OF APPLICANT] /s/ Mrs. (Edith) Hazelton
 CHARLES E. HAZELTON

APPLICANT MUST NOT FILL IN BLANKS BELOW

PERMIT No. 7478

This is to certify that the application of which the foregoing is a true and correct copy has been considered and is hereby approved SUBJECT TO VESTED RIGHTS and the following limitations and conditions:

1. The amount of water appropriated shall be limited to the amount which can be beneficially used, and shall not exceed eight thousand (8000) gallons per day to be diverted from January 1 to December 31 of each year.
2. The maximum amount herein stated may be reduced in the license if investigation so warrants.
3. Actual construction work shall begin on or before July 1, 1950 and shall thereafter be prosecuted with reasonable diligence, and if not so commenced and prosecuted this permit may be revoked.
4. Said construction work shall be completed on or before December 1, 1952
5. Complete application of the water to the proposed use shall be made on or before December 1, 1953
6. Progress reports shall be filed promptly by permittee on forms appropriate to the purpose which will be provided annually by the State Engineer until license is issued.
7. All rights and privileges under this permit including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the Department acting through the State Engineer in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

This permit is issued and permittee takes it subject to the following provisions of the Water Code:

Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.

Section 1392. Every permittee, if he accepts a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any permit granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (or the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any permittee, or the possessor of any rights granted, issued, or reserved under the provisions of this division (of the Water Code).

Witness my hand and the seal of the
Department of Public Works of the State of California
this 17th day of August 1949

EDWARD HYATT, State Engineer

FORM 61-A

IMPORTANT
[Please Read Carefully]

1. Note the terms and conditions of this permit. Construction work must be prosecuted, and the water applied to the beneficial uses intended with due diligence. Annual reports of progress will be expected from you upon forms which will be furnished for the purpose. When the water has been fully applied to the beneficial uses intended the Water Code requires that you notify the State Engineer thereof.
2. Neither this application nor the permit is a water right, but if the terms and conditions of the permit are observed a water right can be obtained through beneficial use of the water—the extent of the right to be determined by a field inspection which will be made by a representative of the State Engineer.
3. No change in point of diversion, or place of use or character of use, can be made under this application and permit without the approval of the State Engineer.
4. If the rights under this permit are assigned immediate notice to that effect with the name and address of the new owner should be forwarded to the State Engineer, Sacramento, California.

Land History

GRANT DEED

THIS DEED, Made and entered into this _____ day of _____, one thousand nine hundred and sixty nine, by and between the undersigned, hereafter styled Grantors, and the UNITED STATES OF AMERICA and its Assigns, Grantee.

WITNESSETH, That said Grantors for and in consideration of the sum of Eighteen Thousand Nine Hundred Seventy Five and no/100 dollars (\$ 18,975.00), in hand paid, the receipt of which is hereby acknowledged, do hereby grant, bargain, sell, and convey unto the UNITED STATES OF AMERICA the following-described real estate and premises situated in Del Norte County, California, To wit:

BEGINNING at a point which is 342.64 feet south and 1982.68 feet west of the northeast corner of Section 7, Township 14 North, Range 1 East, Humboldt Meridian, said point being the southeast corner of Lot 11, Del Norte Palisades, as per map recorded in Book 3 of Maps, at pages 105, 106, and 107 in the office of the Del Norte County Recorder; thence North 32 degrees 35 minutes West 370.0 feet; thence South 57 degrees 25 minutes West 603.96 feet; thence South 32 degrees 35 minutes East 251.02 feet; thence South 57 degrees 25 minutes West 84.91 feet to Highway; thence along Highway southeasterly 121.00 feet to a point from which the point of beginning bears North 57 degrees 25 minutes East; thence North 57 degrees 25 minutes East 666.32 feet to the point of beginning.

Together with the Grantor's right, title, and interest in and to water rights appurtenant to this property, including but not limited to water rights as recorded in Book 62, page 211 on July 30, 1957, Del Norte County Records.

Together with all the improvements thereon and the appurtenances thereunto belonging.

Subject to existing easements for public roads and highways, public utilities, railroads and pipelines, including rights-of-way for power and telephone lines granted by deeds recorded in Book 21 of Official Records, page 502 and Book 77 of Official Records, page 226.

Reserving unto the Grantor the right of use and occupancy of the improvements and above described tract of land for noncommercial residential purposes in accordance with the provisions of the act of October 2, 1968 (82 Stat. 931). Said retained right of use and occupancy shall be for a period of twenty five (25) years. The effective date of this retained right of use and occupancy shall be the date of this conveyance.

TO HAVE AND TO HOLD the said premises, with their appurtenances unto the UNITED STATES OF AMERICA and its assigns, forever.

And the said Grantors, for themselves and their heirs, executors, and administrators, do hereby agree that the sum received shall be in the full and just compensation and in full satisfaction of any and all claims against the United States by reason of the enactment of P.L. 90-545 (82 Stat. 931) establishing the Redwood National Park.

The Grantors further remises, releases, and forever quitclaims to the UNITED STATES OF AMERICA and its assigns, all right, title and interest which the Grantors may have in the banks, beds, and waters of any streams bordering the said land to be conveyed and also all interest in any alleys, roads, streets, ways, strips, gores, or railroad rights-of-way abutting or adjoining said land in any means of ingress or egress appurtenant thereto.

IN WITNESS WHEREOF, That said Grantors have hereunto set their hands and seals the day and year first above written

Mr. K. L. Woodward
Chief, Division of Water Rights
State Water Resources Control Board
Room 1140, Resources Building
1416 Ninth Street
Sacramento, California 95814

Dear Mr. Woodward:

Please be advised that we have sold our property, as described in the attached documents, together with all water rights appurtenant thereto, to the United States as represented by the Department of the Interior, National Park Service, Office of Land and Water Rights, 450 Golden Gate Avenue, Box 36025, San Francisco, California 94102. The following application, permit, and certificate numbers apply:

<u>Application No.</u>	<u>License No.</u>
------------------------	--------------------

together with any others whose identity is more easily identified in your files.

The above mentioned rights are within the Redwood National Park.

It would be appreciated if you would advise the National Park Service when this change of ownership is corrected in your files.

Sincerely yours,

Grantor

QUITCLAIM DEED

By this instrument dated March 17, 1963 for a valuable consideration, BANK OF AMERICA, NATIONAL TRUST AND SAVINGS ASSOCIATION, A National Banking Association, as Trustee under the Last Will and Testament of HENRY D. RUDISILL, Deceased, does hereby remise, release, and forever quitclaim to: WILBUR GORST and GAYNELL GORST, his wife,

That real property in the County of Del Norte, State of California, described as follows:

Lot 20 and Lot 21 of Del Norte Palisades according to the Map thereof filed in the Office of the County Recorder of Del Norte County, California on July 26, 1949 in Book 3, Pages 105, 106 and 107 of Maps.

SUBJECT TO: the Declaration of Restrictions as recorded April 26, 1956, File No. 3041, Book 16, Page 351 of Official Records in the office of the County Recorder of said Del Norte County, California.

RESERVING UNTO the Grantors, their successors and assigns the right to take water from an existing spring located upon the above described premises (subject only to the right of Grantees to take sufficient water for domestic purposes from said spring) together with the right of ingress and egress to said spring to install and maintain adequate storage tank, water mains and controls.

Other Supporting Information

6/10/84

Bill -

The information sent to us by Del Norte Co confirms our belief that License 5927 and 5929 authorize appropriation from the same source.

As indicated on License 5927, the license-holders were to appropriate water for use in lots 3, 8 and 9 of the Del Norte Palisades development. ~~But~~ (See accompanying development maps.) Perhaps there is some evidence of a water system in any of these three subdivided lots.

License 5927 is that license which the United States supposedly initiated a condemnation action against (as indicated in our water docket.)

Conversation:

Called to determine if NPS was holder of title to License's 5927 and 5929.

NPS is the registered owner of 5927 - the SWRCB is forwarding a copy. — rec'd 8/5/82

License 5929 has apparently never been changed to show that the NP is the legal owner. The SWRCB will send a notice to the "registered" owners - they will have 30 days to respond. If they do not respond within that time, the SWRCB will change their records to show that the NPS is the legal owner.

Follow-up Action to be Taken:

When we are notified by the SWRCB that we have title to both licenses, we should notify the Del Norte Co. Recorder so that both ownership records are duly recorded

Follow-up Action Taken:

TO: Bill

FROM: Bud

SUBJECT: Peterson-Schroeder Diversion, REDW

The records in our files indicate that License 5927 and License 5929 pertain to the same diversion. I couldn't find any information concerning the condemnation action against License 5927, but since we own #5929, we probably also have title to #5927. A thorough search should be made before the NPS develops the source, but for current purposes, this is probably no big deal.

The point of diversion as described on License 5929 is in the NW $\frac{1}{4}$, NE $\frac{1}{4}$, NE $\frac{1}{4}$, Sec. 7, T. 14 N., R. 1 E. (aab)

The diversion works were or were to be as follows:

- dam - 3 feet high
- 6 feet across on top
- constructed of redwood

- pipeline - 1 $\frac{1}{2}$ " riveted steel pipe for 3140 ft.
- 2" riveted steel pipe for 60 ft.
- 3200 ft total
- 260 ft elevation drop from intake to outlet

The use of the water was to be for domestic purposes only - 1 house and approx.

$\frac{1}{2}$ acre of garden

Attached is a copy of the associated topos with the location plotted. The location was projected from the description on License 5929.

BY HAND

Mr. George B. Hartzog, Jr.
Director, National Park Service
U. S. Department of the Interior
Washington, D.C.

Dear Mr. Hartzog:

In response to the invitation of Mr. Crafts, I am pleased to present the requests of Arcata National Corporation for interim and permanent licenses, permits and leases, in order that Arcata may conduct certain operations and use certain facilities within the boundaries of the Redwood National Park. The requests are contained in a detailed memorandum, two copies of which I attach herewith.

In addition, I am enclosing two copies of a memorandum submitted today to Mr. Crafts, containing Arcata's requests relating to clarifications and adjustments of the boundaries of the Park.

If you have any questions or need further information, please contact me, John Zentay or Richard Murray.

Thank you very much.

Kind personal regards.

Sincerely,

David Ginsburg

Memorandum for
Mr. George B. Hartzog

cc: Mr. Edward C. Crafts

November 22, 1968

REDWOOD NATIONAL PARK

Requests of Arcata National Corporation
For Interim and Permanent Licenses,
Permits and Leases

Pursuant to the request of Mr. Crafts, Arcata National Corporation presents its requests for interim and permanent licenses, permits and leases sufficient to permit it to conduct certain operations and use certain facilities within the boundaries of the Redwood National Park created under PL 90-545.

First, Arcata wishes to emphasize that no logging has been conducted by Arcata within the boundaries of the Redwood National Park for a number of years. We are sure you are familiar with the terms of Arcata's voluntary moratorium agreement, which has been fulfilled by Arcata to the letter.

Second, Arcata would be pleased to make appropriate arrangements with the Park Service for use of roads remaining in Arcata's ownership by Park administrative personnel.

Requests for Licenses, Permits and Leases.

Roads

1) The following roads are those with respect to which Arcata has suggested boundary clarifications or adjustments which would permit ownership to remain in Arcata (see the memorandum this date to Mr. Crafts, a copy of which accompanies this memorandum). Such adjustments would afford the most direct and satisfactory resolution of the related operating problems at the lowest possible cost to the United States in terms of severance damages. In the event that, for some reason, any of the adjustments requested are refused, Arcata must, in any event, continue to use the following roads for general forestry purposes and forest products operations:

- a) The A Line Road from Mill A to and including the Berry Glen junction with the B Line Road.
- b) The West Side (or "200") Road starting at the County road to the beach, and then northeasterly approximately $3/8$ of a mile to connect with Arcata's heavy equipment shop.
- c) Mae Creek Road from the Park boundary to Highway 101.

2) The following roads are those with respect to which Arcata requested no boundary adjustments but which it

must also be able to use for general forestry purposes and forest products operations:

a) The Geneva Road for its entire distance through Sections 23 and 24, Township 11 North, Range 2 East and Sections 19 and 20 in Township 11 North, Range 2 East.

b) Arcata's "500" road (which connects to the Geneva Road in Section 24, Township 11 North, Range 1 East) for its entire distance inside the Park boundary.

c) The old Simpson A Line Road in Sections 16, 17, 20 and 21 of Township 11 North, Range 2 East; also the Holter Ridge Road towards the Bald Hills Road including the crossing of that portion of the Park near the junction of the Holter Ridge Road and the Bald Hills Road.

d) The West Side (or "200") Road from the Mae Creek Road crossing at the north to Arcata's Mill B in Section 22, Township 11 North, Range 1 East.

e) In the event that either of them is donated by the County to the Park, the County Road to the Gold Bluff Beach and the Bald Hills Road.

With respect to all roads within the Park to be used by Arcata, the most practicable arrangement would be leases

from the United States to Arcata which would be without fee but which would obligate Arcata to undertake or pay for its allocable share of maintenance. Arcata is prepared to commence negotiations for such leases immediately following the final determination of Park boundaries.

Water Systems

Arcata requests interim and permanent licenses or permits to continue to use the following water systems and facilities:

- 1) The tank and pumps near an unnamed creek in SE-SE Section 27, Township 11 North, Range 1 East which serve 12 houses at Prairie Creek and Mill A (a 10,000 gallon tank and approximately 1,000 feet of water line).
- 2) The tanks in SE-SE Section 22, Township 11 North, Range 1 East which serve Valley Green headquarters, Valley Green housing, and Berry Glen House No. 26 (one tank of approximately 15,000 gallons, one tank of approximately 1,000 gallons, and approximately 2,000 feet of water line).
- 3) The tank and water system in NE-NE Section 27, Township 11 North, Range 1 East (a tank of approximately 200 gallons, with 150 feet of water line). (For information only; this system serves a house not belonging to Arcata.)

4) The water tank and related fixtures on Arcata's "500" road in SE-SW Section 13, Township 11 North, Range 1 East (approximately 4,000 gallon tank and equipment used for woods fire protection).

5) The following in SE-NE Section 22, Township 11 North, Range 1 East:

a) A steel water tank of estimated 15,000 gallon capacity and associated water lines for fire protection of Geneva yard buildings and housing (generally uphill and north of shop).

b) Shop water system (water lines to catch basin approximately 150 feet uphill from shop).

6) Dirt Reservoir in NW-NW Section 23, Township 11 North, Range 1 East (approximately 600 feet north of point G as designated on Park Service map) used for Geneva location fire protection (approximately 40,000 gallon capacity).

The Humboldt County Fish Hatchery

(For information only; Arcata itself requires no licenses relating to the hatchery.)

1) The hatchery is using a water system originating in SE-NE Section 23, Township 11 North, Range 1 East (a dam approximately 1/2 mile upstream from the fish hatchery and an equal length of 6" or larger pipe which carries water from the dam to the hatchery).

2) The well and holding ponds south of the fish hatchery are within the described Park boundaries, but are required for hatchery operation.

Other Facilities and Operations

Arcata requests interim and permanent licenses or permits respecting the following other matters:

1) Continued use, for normal road building and upkeep purposes, of the rock at the Geneva Road rock pit in Section 23, Township 11 North, Range 1 East and the Simpson rock pit in Section 20, Township 11 North, Range 2 East.

2) Continued use of the two houses occupied by Williams and Buchert located in NE-SW Section 11, Township 11 North, Range 1 East, along with use of water systems and telephone and electric lines leading to main lines along Highway 101. (These houses are on land previously owned by Arcata which are now included within the Park boundaries.)

3) Permission to fly helicopters or other aircraft over the Park in connection with seeding, fire protection and other forest-industry related activities.

Arcata respectfully requests your consideration and approval of these requests. If, as seems possible, additional matters subsequently occur to us, we shall, of course, notify you promptly. If there is any further information you might need, please do not hesitate to call on Mr. David Ginsburg or Mr. Richard Murray.

Arcata National Corporation

105

ACCEPTANCE:
The Board of Supervisors of Del Norte Co. hereby approves the attached map of Del Norte Palisades and accepts on behalf of the public the dedication of these streets as roads shown thereon and more particularly designated as Del Norte Road, Redoubt Road, and Ballistics Road (See Particulars).
In witness whereof we have hereunto set our hands and caused this process to be attested in my County Court and the official seal of said County of Del Norte hereunto affixed this 12th day of June, 1949.

County Clerk of Del Norte
County, State of California.

COUNTY AUDITOR'S CERTIFICATE:
I, _____, County Auditor of the County of Del Norte, State of California, do hereby certify that I have examined all the fees in my office relative to the above shown on the enclosed map for the purpose of ascertaining whether there exists any lien on the map or County fees, and after careful examination of the fee rolls on my office I hereby certify that there are no fees due against the County fees, map fees, and get payable.
In witness whereof I have hereunto set my hand this 12th day of June, 1949.

County Auditor of Del Norte
County, State of California.

COUNTY SURVEYOR'S CERTIFICATE:
I, _____, County Surveyor of the County of Del Norte, State of California, do hereby certify that I have examined the map of DEL NORTE PALISADES in which this certificate is attached, that the boundaries are substantially as shown on the map; that all portions of the land of the State of California have been properly surveyed and that the map is substantially correct.
In witness whereof I have hereunto set my hand this 12th day of June, 1949.

County Surveyor of Del Norte
County, State of California.

OWNER'S CONSENT:
I, _____, being the owner of all lands embraced within the bounds of the enclosed map of DEL NORTE PALISADES do hereby consent to the making and filing of this map and to the dedication of streets as shown on the map thereon, and release all claims to the streets or lands thereby designated.
In witness whereof and before me this 12th day of June, 1949, I have signed this certificate of consent.

Owner.

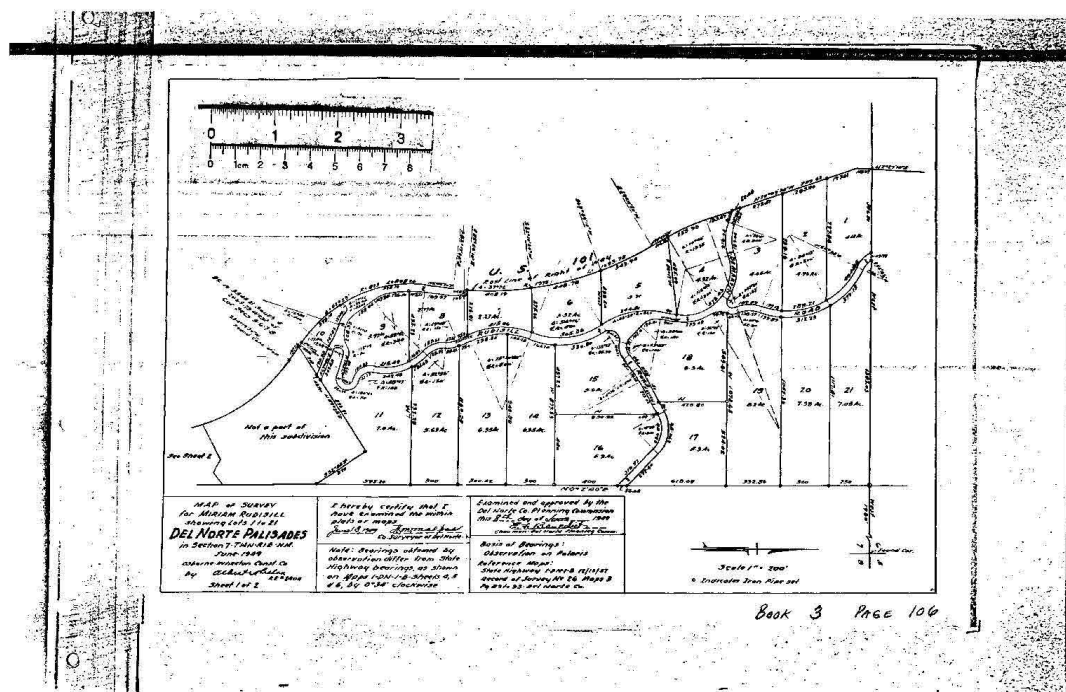

ENGINEER'S CERTIFICATE:
I, _____, hereby certify that I am a Civil Engineer duly registered in the State of California; that this map, consisting of sheets and title sheet, correctly represents a survey made under my supervision in May and June, 1949; that monuments shown thereon are correctly placed and that their positions are correctly shown.
June 14, 1949. _____
Engineer.

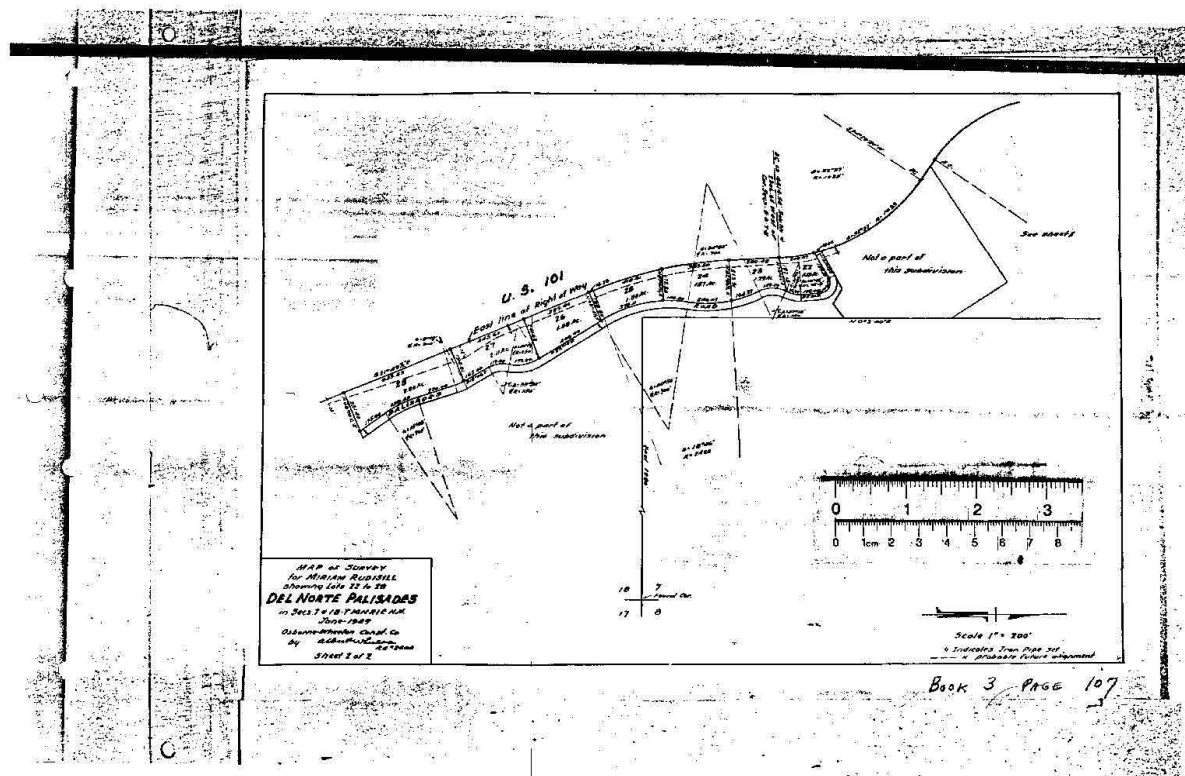

NOTARY PUBLIC:
I, _____, Notary Public in and for the State of California, do hereby certify that the foregoing map of DEL NORTE PALISADES was presented to me by the person whose name is subscribed to the above consent and dedication, and that I have examined the same and that I am satisfied that the same is substantially correct and that the person whose name is subscribed to the above consent and dedication is the owner of the land shown thereon.
In witness whereof I have hereunto subscribed my name and affixed my official seal.

Notary Public in and for the State of California.
