NARRATIVE:

In 1946 a group of residents of the Hiouchi area constructed a diversion at a spring and a concrete cistern for water collection. Also, a small tank was filled by a spillway below the cistern. A 2-inch pipeline ran to "Marie's Hiouchi Cafe" and from there to five lots just west of the cafe. In 1947 the five residents of the lots made separate filings (App.12221-12225, see below) on the source, all with the same priority date. None of the applicants owned the property on which the source was located, but there was an express agreement in the terms of the subdivision compact giving an easement for pipelines to supply the lower lots in the development.

In 1968 Redwood N.P. was established, including two of the above tracts within its boundaries. The water rights appurtenant to the parcels were also purchased. In 1974 the Hanseths left the area and the water system to that residence was capped. The park is currently using the home as an employee residence, with water supplied by the local water district. Wold, the other former lot owner, has a right-of-occupancy until 1994 and continues to be supplied by the system.

Please contact either Dan McGlothlin or myself if this is not acceptable or you have any other questions.

Subject: Transmittal of Petitions for Change in Purpose of Use

Attached are completed Petitions for Change in Purpose of Use forms for water right licenses in Death Valley National Monument and Redwoods National Park. We would appreciate your assistance in transmitting the petitions to the State Water Resources Control Board. We've included for your consideration a draft letter of transmittal.

When staff of the Water Rights Branch prepared the Reports of Licensees for these areas this year, several discrepancies in use of water became obvious. After discussions with park management, petitions were prepared to change the beneficial use of six water right licenses. Copies of the petitions are included for your files.

Payment will be handled through the Rocky Mountain Region's finance office and will be sent to the State Water Resources Control Board in the form of a U.S. Government purchase order under separate cover.

Please contact Ms. Pat Larson or me at (303) 221-5341 if you have questions regarding these petitions or their transmittal.

Sacramento, CA 95810**

Dear Mr. Cornelius:

Enclosed are Petitions for Change in Purpose of Use for six water right licenses the National Park Service holds in Death Valley National Monument and Redwoods National Park.

As Pat Larson of the Water Rights Branch staff discussed with you earlier this year, the National Park Service is updating the status of its water rights in California park units. For many of the water rights, the beneficial uses have changed, so we believe the Petitions for Change are necessary at this time.

The fees for filing these petitions will be sent to your office under separate cover. The fees will be paid by U.S. Government purchase order issued through the Rocky Mountain Region's finance office. When the purchase order is received, your office should follow the instructions provided on the form to obtain payment of these fees.

Please contact Ms. Pat Larson or Owen Williams of the Water Resources Division at (303) 221-5341 if you have questions regarding these petitions.
