CASE NO. 85CW347
(Boulder County CA 4862 and CA 10050)

FINDINGS AND RULING OF THE REFEREE AND DECREE OF THE WATER COURT

IN THE MATTER OF THE APPLICATION OF WATER RIGHTS OF
UNITED STATES OF AMERICA, ROCKY MOUNTAIN NATIONAL PARK,
IN LARIMER COUNTY

THIS CHANGE was filed with the Water Clerk, Water Division 1, on November 26, 1985 to modify the decree in Boulder County CA 10050. The Referee being fully advised in the premises does hereby find:

All notice required by law of the filing of this application have been fulfilled, and the Referee has jurisdiction of this application.

No Statements of Opposition to said application were filed and the time for filing such statement has expired.

All matters contained in the application were reviewed, and testimony was taken where such testimony was necessary and such corrections made as are indicated by the evidence presented.

FINDINGS OF FACT

1. Horseshoe Ditch was decreed in Boulder County CA 4862 dated June 29, 1916. The ditch was decreed for irrigation of 85 acres with 5 cfs of water as of May 1, 1886.

IN THE MATTER OF PRIORITY)
OF WATER RIGHTS IN DISTRICT)
NO. 4.) ON PETITION OF THE UNITED STATES
OF AMERICA TO CHANGE POINTS OF
DIVERSION OF A PORTION OF THE
WATER HERETOFORE AUTHORIZED TO BE
TAKEN AND USED UNDER PRIORITIES
NUMBERED 57, 58 AND 68.

FINDINGS AND DECREE.

THIS MATTER NOW COMING ON TO BE HEARD in open Court this 30th day of January A. D. 1939, upon the petition of the UNITED STATES OF AMERICA, praying for authority to make changes in points of diversion of a portion of the waters authorized to be taken under adjudication priorities numbered 57, 58 and 68, in Water District No. 4, within and for the State of Colorado.

And the petitioner, appearing by Worth Allen and Wayne C. Williams, special assistants to the Attorney General of the United States, and the objectors or protestants or others appearing in person or by counsel as follows: Eleanor E. Hondius in person and by her attorneys, Fred W. Stover and Dale E. Shannon.

And this cause having been originally set by order of this court made on August 11, 1938, for hearing on the 28th day of September, 1938, and having been duly continued from time to time by order of this court, each continuance having been made at or before the time for which the matter previously had been set,

And the Court having heard and received evidence, and heard argument of attorneys, and being fully advised in the premises, finds that:

1. All parties who may be affected by the proposed changes in points of diversion have been duly notified, as by law required, and that the following named persons and corporations, in written instruments filed with the Clerk of this Court, acknowledged service upon them on the dates set opposite their respective names, of a printed copy of the notice issued by the Clerk of this Court:

Gertrude H. Grant, August 22, 1938.

The Farmers Irrigating Ditch and Reservoir Company, a corporation, by T. M. McKee, President, August 24, 1938.

Florence E. Kistler,
by Clarence L. Ireland, her attorney, August 26, 1938.

Alice G. Henry, August 27, 1938.

The Eaton Investment Company, a corporation,
by Robert G. Smith, its attorney, September 1, 1938.

2. The Petitioner, United States of America, is now the lawful owner of and is entitled to exercise the rights in and to, said adjudicated priorities numbered 57, 58, and 68, in Water District No. 4, within and for the State of Colorado, having acquired said rights as appurtenances to land purchased by it from Pieter (Peter) Mondius in the years 1923, 1924 and 1932, which said lands are described in detail in the petition filed herein, and which said conveyances are more particularly described as follows:

Warranty deed dated September 22, 1923, filed for record as Instrument No. 269762 in the office of the County Clerk and Recorder of Larimer County, State of Colorado, on April 8, 1924, and recorded in Book 481, page 101 of the public records of said county.

Warranty deed dated May 8, 1924, filed for record as Instrument No. 274366, in the office of the County Clerk and Recorder of Larimer County, State of Colorado, on June 19, 1924, and recorded in Book 481, page 360 of the public records of said county.

Warranty deed dated February 18, 1932, filed for record as Instrument No. 390196, in the office of the County Clerk and Recorder of Larimer County, State of Colorado, on March 15, 1932, and recorded in Book 623, page 424 of the public records of said county.

The Petitioner has made continuous use of the full amount of water authorized to be taken under and by said priorities numbered 57, 58, and 68, except as to Priority Right Number 57. Under said priority right number 57, it has continuously used nine hundred and eighty three one thousandths (0.983) of one cubic foot of water per second upon eleven and eight-tenths (11.8) acres of land. It has not used and is not entitled to use water under said priority right upon any more land than 11.8 acres.

3. The changes in points of diversion sought in the petition to be made will not injuriously affect the rights of any water users in said Water District No. 4.

Authority should, therefore, be granted to the petitioner to make the changes in points of diversion as prayed, but with a proviso and condition that, in taking water from the new points of diversion, the rights of the petitioner to water shall not become superior with respect to the matter of priority to any rights that are now senior thereto. In other words, a condition should be made to the effect that no greater priority right shall be obtained by reason of making a domestic or other use of the water taken from said new points of diversion than such right or rights as are now held in connection with the use of water taken under said adjudicated rights for irrigation purposes.

IT IS THEREFORE ORDERED, ADJUDGED AND DECREED that authority be and the same is hereby granted to the United States of America to make the following changes in points of diversion of a portion of the water authorized to be taken under said priority rights numbered 57, 58 and 68, in Water District No. 4, State of Colorado, the points of diversion, the new use, and the amount of water in both second feet, and acre feet per annum, to be used from both the original and new points of diversion, being stated as follows:

Memorandum

To: Regional Director, Midwest Region
From: Acting Superintendent, Rocky Mountain

Subject: Water rights on Hupps, Beaver, Jones and Horseshoe Ditches

Mr. Melaas' September 12, 1962, memorandum asked for a review of the status of the above water rights and if any of them might be transferred or used by new systems in the same drainage areas.

Docket No. 28, Hupps and Beaver Ditches, indicates that we retained a right to use 2.848 cubic feet per second under this right. It has not been abandoned and is used occasionally to irrigate portions of Beaver Meadows. At this time the ditches and headgates are in need of repair. This water right originally had four cubic feet decreed to it, but in the change in point of diversion made in 1939 by the National Park Service, 1.152 cubic feet of water were transferred to water systems at Forest Inn, Fern Lake, Camp Woods, Glacier Basin, Bear Lake and the Utility Area. Of these, the .081 c.f.s. used at Forest Inn has been abandoned and is available for transfer to other systems. The .081 c.f.s. transferred to Fern Lake is not currently being used but it is our plan to move the pipeline to the Fern Lake patrol cabin when Fern Lake Lodge is torn down in the near future. The .300 c.f.s. of water transferred to Camp Woods is not currently being used, as Camp Woods has been removed. However, our long range planning includes a picnic area in this location and therefore only part of this right is available for transfer to other locations. Water transferred in 1939 to Glacier Basin, Bear Lake and the Utility Area is still in use.

In the same 1939 adjudication .108 c.f.s. of the Jones Ditch water right was transferred to Aspenglen (.064) and the Little Horseshoe Pipeline (.044). The Aspenglen water is being used for the campground but the water at Little Horseshoe has not been used since the Public Health Department declared it unsafe for human consumption at the Little Horseshoe residences. This .044 c.f.s. is available for transfer to the other systems. The remainder of 4.892 c.f.s. of decreed

water left in Jones Ditch is divided between the United States (.875 c.f.s.) and the Town of Estes Park (4.017 c.f.s.). The United States-owned water is allowed to run through the campground in the original Jones Ditch where it helps maintain plant growth in the heart of the campground. The Town of Estes Park is now diverting its share of the water further up in the penstock of the Houdius Cascade Pipeline. Headgate repairs are needed on the Jones Ditch point of diversion. A large share of the .875 c.f.s. owned by the United States would be available for transfer to some other system as .10 c.f.s. would be adequate for the ditch flow through the campground.

Horseshoe Ditch (Docket No. 35) retains a decreed right of 4.633 c.f.s. and is used several times a year to irrigate the meadows in Horseshoe Park. In the 1939 change in point of diversion .367 c.f.s. of the original 5 c.f.s. was transferred to Little Horseshoe, Endovalley Campground, Trail Ridge Road Camp, and Fall River Pass water systems. These are all in use with the exception of Little Horseshoe mentioned above concerning Jones Ditch.

Much of the 4.633 c.f.s. retained in the Horseshoe Ditch right is available for transfer to other systems.

At the time of this writing, there are no new systems in the drainage areas occupied by the Hupps, Beaver, Jones and Horseshoe Ditches which are in need of water right protection which could be gained by transferring parts of the above rights thereto. We are grateful, however, to Mr. Dunn for suggesting this review, as it reminded us of the .081 c.f.s. available for transfer from the abandoned Forest Inn Pipeline and the .189 c.f.s. now in disuse at Little Horseshoe Park residence area.
