Memorandum

To: All Superintendents, Arizona Areas, Western Region

From: ~~ACTING~~ Regional Director, Western Region

Subject: Arizona Groundwater Management Act, required filings

In compliance with the Arizona Groundwater Management Act of 1980, we are required to register all existing wells within the State on or before June 12, 1982, see enclosure.

The Field Solicitor's Office has advised us that registration of existing wells on National Park Service lands should be made either as a matter of comity, in the case of Federal reserved water rights, or as a matter of compliance with Arizona State law, in the case of Federal non-reserved water rights.

The Division of Water Resources has begun to compile the necessary information for the filings, and in the process may be contacting your offices for further information. They will submit this material to the State.

Information which you feel the Division of Water Resources may not have, concerning recently changed well conditions, pump capacities, etc., should be relayed as soon as possible to the Division of Water Resources at 556-8660.

If you have any questions concerning the well registration requirements, please do not hesitate to contact Mr. Witucki and his staff.

Memorandum

To: Regional Director, Western Region, National Park Service
From: Field Solicitor, San Francisco
Subject: Arizona Groundwater Management Act; Required Filings

This memorandum is a follow-up to several conversations which our office has had with members of your Water Resources Division on compliance with Arizona's Groundwater Management Act (1980). This act requires, inter alia, that all existing wells be registered with the State on or before June 12, 1982. ARS 45-593. While there is a legitimate question as to whether or not this provision applies to wells on Federal lands, the Department has taken the position that as a matter of comity, it will file notices of Federal reserved water rights with appropriate state agencies. See memorandum dated February 29, 1980, from Deputy Solicitor to Assistant Secretaries, Fish and Wildlife and Parks, and Land and Water Resources, "Guidance from the Department of Justice on Water Rights Filings." For Federal non-reserved water rights, the Department has taken the position that there is insufficient legal basis for the assertion of these rights and that State water law, both substantive and procedural, must be followed for claiming or asserting this type of water right. See memorandum dated September 11, 1981, from Solicitor to Secretary, "Non-Reserved Water Rights -- United States Compliance with State Law."

The consequence of the foregoing memoranda is that registration of existing wells on NPS lands should be made with the State before the June 1982 deadline either as a matter of comity or as a matter of procedural and substantive compliance with Arizona State law.

If our office can be of assistance in this matter, please do not hesitate to contact us.

Dear Well Owner:

Arizona's new Groundwater Management Act requires that all existing wells, regardless of size, be registered with the Department of Water Resources by June 14, 1982. An existing well is one that was drilled prior to June 12, 1980, and which has not been abandoned or sealed. Included are wells which were not completed by June 12, 1980, even though a Notice of Intent to Drill was filed with the Department.

For your convenience, enclosed are the registration forms and the information from your well file. If the information is still correct, simply transfer it to the new form. If the information needs to be updated, please do so on these forms. Be sure to file all forms in duplicate so we can return one copy to you.

There is no fee to register "exempt" wells with a pump capacity not exceeding 35 gallons per minute. "Non-exempt" wells, those with a pump capacity greater than 35 gallons per minute, cost \$10 each to register.

If you own additional wells for which we did not provide data, we probably do not have those wells in our records, or they are filed under another name. In the event you no longer own the well, please forward this information to the new owner.

If you have any questions about well registration, feel free to call us at 255-1546. The toll free number in Arizona is 1-800-352-5464.

Thank you for your cooperation.
