Saguaro National Park

Docket No: 15

KENNER WELL #1

Preliminary Docket Information

05-29-1979: water right/source docket information

WATER RESOURCES/WATER RIGHT

DATE: May 29, 1979

WATER RIGHT/SOURCE DOCKET INFORMATION

REGION Western AREA Saguaro National Monument
SITE W.H. Kenner Well No. 1
STATE Arizona COUNTY Pima DOCKET NO. WR #2
LOCATION NW $\frac{1}{4}$ SW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 4, T15S, R16E, G&SRB&M
REGIONAL BASIN Colorado LOCAL BASIN Santa Cruz
ACQUIRED BY Reservation
APPLICATION _____ PERMIT _____ CERTIFICATE _____
ACTION DUE _____ PRIORITY _____ RESERVATION March 1, 1933
QUANTITY -----0----- USE -----0-----
STATUS Inactive SOURCE Groundwater (well)

REMARKS W.H. Kenner Well No 1 lies within Hydrologic Basin Unit. No. 15050302.

NARRATIVE:

Saguaro National Monument consists of two separate areas, designated the Rincon Mountain Unit (the eastern portion) and the Tucson Mountain Unit (the western section). The Rincon Mountain section was established by Presidential proclamation on March 1, 1933. The Tucson Mountain Section was proclaimed on November 15, 1961.

The Kenner Well No. 1, situated in the Rincon Mountain Section of the Monument in the SW $\frac{1}{4}$ of section 4, T15S, R 16E, was originally drilled to a depth of 22 feet "at a date and by person unknown." A special use permit (no. I-33np-289) was issued by the Park Service on July 30, 1951, to W.H. Kenner so that he could deepen the well. According to the conditions attached to that permit, the United States reserved the right to perfect title to all water rights developed under the permit. The permit was renewable annually but was not to extend beyond December 31, 1970, at which time the well and casing would become United States property.

Pursuant to the special use permit, Kenner hired H.R. McDaniel to deepen the well. McDaniel drilled the well to a depth of 76 feet, completing the job on October 1, 1952. According to the REcord of Well filed by the Park Service on November 1, 1952, the water level was found to be 18 feet below land surface datum. The water was used for livestock and wildlife purposes.

As of July 175, the staff at the Monument reported the well to be inactive and there is no evidence that Kenner or any successors are still grazing cattle in the area. There have been no State water rights filings on the Kenner well, but since the Monument was within withdrawn lands at the time of its establishment in 1933, the Reservation Doctrine will apply.

filed
11/2/87

SUPERIOR COURT OF MARICOPA COUNTY, ARIZONA

IN THE MATTER OF THE APPLICATION OF THE UNITED STATES OF AMERICA FOR
RESERVED AND APPROPRIATED WATER RIGHTS IN THE UPPER SANTA CRUZ RIVER
GENERAL ADJUDICATION.

I. Name and address of Applicant:

United States of America
c/o National Park Service
Western Regional Office
P.O. Box 36063
450 Golden Gate Avenue
San Francisco, CA 94102

II. The United States of America hereby claims water rights in those portions of the National Monuments described below which are encompassed by this adjudication. The United States claims reserved rights under the legislation which designates or enlarges the areas known as Saguaro National Monument and Tumacacori National Monument. The United States further claims additional water rights under state law for whatever purposes might have been added by the designation of portions of Saguaro National Monument as wilderness areas.

A. Saguaro National Monument.

1. Reserved Water Rights. (See Exhibits SAGU #1a and #1b.)

- a. Purpose. To secure favorable conditions of water flow; to preserve objects of scientific interest; to secure the benefits of wilderness; and to provide for the administration of and visitation to the monument. (Exhibits SAGU #2, #3, #4, #5, and #6.)
- b. Sources. All surface and ground water sources including rivers, perennial and intermittent streams, springs, seeps, lakes, pools, tinajas, confined and unconfined aquifers and other natural sources of water on and under lands reserved from the public domain.
- c. Locations of Current Diversions and Uses on Reserved Land.

1) Legal description of the current points of diversion

- a) Kenner Well -- NW 1/4 SW 1/4 SW 1/4, Section 4, T 15S, R 16E, G&SRB&M.
- b) Manning Camp Spring -- NE 1/4 SE 1/4 SE 1/4, Section 30, T 14S, R 17E, G&SRB&M.
- c) Madrona Pack Base Well -- NW 1/4 SW 1/4 SE 1/4, Section 4, T 15S, R 17E, G&SRB&M (Registration No. 55-629099).

- d) Tucson Mountain Park Well -- SW 1/4 SW 1/4 SW 1/4, Section 34, T 13S, R 11E, G&SRB&M (Registration No. 55-629094).
 - e) North Slope-Section 25 Well -- NE 1/4 SE 1/4 NW 1/4, Section 25, T 13S, R 11E, G&SRB&M (Registration No. 55-629097).
 - f) Pictured Rocks Road-Section 7 Well -- NE 1/4 SE 1/4 NW 1/4, Section 7, T 13S, R 12E, G&SRB&M (Registration No. 55-629096).
- 2) Legal description of the current places of use. The legal descriptions listed in II.A.1.c.1) represent the places of use for the listed points of diversion.
 - 3) Current purposes of use. The current purposes of use are those identified in II.A.1.a. above.
 - 4) Water requirements. See II.A.1.e. below.
- d. Dates of Priority. (See Exhibits SAGU #1a and #1b.) July 19, 1907, for lands reserved by Presidential Proclamation No. 27 (Exhibit SAGU #2); April 29, 1929, for lands reserved by Recreational Withdrawal No. 21 (Exhibits SAGU #7 and #8); March 1, 1933, for lands reserved by Presidential Proclamation No. 2032 (Exhibit SAGU #3); November 15, 1961, for lands reserved by Presidential Proclamation No. 3439 (Exhibit SAGU #9); October 20, 1976, for lands reserved by the Act of that date (Exhibit SAGU #6); and October 21, 1976, for lands reserved by the Act of that date (Exhibit SAGU #10).
- e. Amount of Water Claimed:
- 1) Surface and ground water (non-consumptive). The United States of America claims, except as provided in subparagraphs 2) and 3) below, the right to that minimum amount of surface and ground water occurring on and under those portions of Saguaro National Monument reserved from the public domain which is necessary to fulfill the purposes described in II.A.1.a. above as follows. The government will (a) at the time of proof present evidence relating to the minimum amount of water necessary to fulfill such purposes, or (b) in the event recognized under state law, seek a decree of an unquantified reserved right, permitting a general right to enjoin users of a junior priority that may adversely affect or injure the purposes of the reservation, or to enjoin users as otherwise permitted under state law.

- 2) Quantifiable present and future administrative uses (consumptive). The United States of America claims the right to divert and use 19 AF/annum from surface and ground water sources for picnic areas, visitor centers, concessions and other visitor-use areas; park administration facilities, shop, maintenance and storage facilities, ranger stations, entrance stations, visitor contact stations, employee residences, and attendant facilities; lawns surrounding park buildings and structures and other public-use areas to offset heavy human impact; construction of roads and trails; revegetation activities; and waste water treatment facilities.
 - 3) Non-quantifiable present and future administrative uses (consumptive). The United States of America claims the right to use non-quantifiable amounts of water for controlling and suppressing wildfire and structural fires.
2. Appropriative Water Rights. The United States of America claims water rights under Arizona state law for beneficial purposes in Saguaro National Monument as follows (see certificates attached).
- a. Red Hills Section 36 Well -- Registration No. 55-629095.
 - b. Lockyer Well -- Registration No. 55-629098.
 - c. CCC Well -- Registration No. 55-629100.
 - d. Freeman Drilled Well -- Registration No. 55-629101.
 - e. Freeman Dug Well -- Registration No. 55-629102.
 - f. Genemata Well -- Registration No. 55-629103.
 - g. Old Superintendent's Well -- Registration No. 55-629104.
 - h. Baker Well #2 (Headquarters Supply Well) -- Registration No. 55-629105.
 - i. Headquarters Well No. 2 -- Registration No. 55-629106.
 - j. Greene Well -- Registration No. 55-629107.

B. Tumacacori National Monument.

1. Appropriative Water Rights. The United States of America claims water rights under Arizona state law for beneficial purposes in Tumacacori National Monument as follows (see certificates attached).

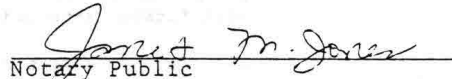

- a. Well No. 1 -- Registration No. 55-629109.
- b. Well No. 2 (Headquarters Well) -- Registration No. 55-629110.
- c. Well No. 3 -- Registration No. 55-629111.

III. Notarized Statement.

I, Patrick Barry, on behalf of the United States of America, National Park Service, the claimant named in this claim, do hereby certify under penalty of perjury, that I have read the information contained and statements made herein and to the best of my knowledge and belief they are true, correct and complete.

APPROVED: (SIGNED) Aug. 3, 1952

Acting Regional
Associate Director, National Park Service.

[In quintuple]

*Sign name or names as written in body of permit; for copartnership, permittees should sign as "Members of firm"; for corporation, the officer authorized to execute contracts, etc., should sign, with title, the sufficiency of such signature being attested by the secretary, with corporate seal, in lieu of witnesses.

16-55908-1

SPECIAL CONDITIONS OF THIS PERMIT

1. Permittee shall exercise this privilege subject to the supervision of the Superintendent of the Park and shall comply with the regulations of the Secretary of the Interior governing the park.
2. Use by the permittee of the land covered hereby is subject to the right of the Director, National Park Service, to establish trails, roads, and other improvements and betterments over, upon, or through said premises, and further to the use by travelers and others of such roads and trails as well as of those already existing.
3. No building or other structure shall be erected under this permit except upon plans and specifications approved by the Director, National Park Service, and the premises and all appurtenances thereto shall be kept in a safe, sanitary, and slightly condition.
4. Permittee shall dispose of brush and other refuse as required by the Superintendent.
5. Permittee shall pay the United States for any damage resulting from this use.
6. Permittee and his employees shall take all reasonable precautions to prevent forest fires and also shall assist the Superintendent to extinguish forest fires in the vicinity of any tract which may be used hereunder, and in the preservation of good order within the metes and bounds of the park.
7. No timber may be cut or destroyed without first obtaining permit therefor from the Director, National Park Service, in writing.
8. This permit may not be transferred or assigned without the consent of the Director, National Park Service, in writing.
9. This permit shall terminate upon the violation of any of the conditions hereof or of any Act of Congress or regulation of the Secretary of the Interior governing the park or anything in it, or at the discretion of the Director, National Park Service.
10. Neither Members of, nor Delegates to Congress, or Resident Commissioners, officers, agents, or employees of the Government shall be admitted to any share or part of this permit or derive, either directly or indirectly, any pecuniary benefit to arise therefrom.
- 11. The United States reserves the right to perfect title to all rights for water which may be developed or used in connection with this permit.**
- 12. All uranium, thorium, and all other materials determined pursuant to section 5 (b) (1) of the Atomic Energy Act of 1946 (60 Stat. 761) to be particularly essential to the production of fissionable material, contained, in whatever concentration, in deposits in the lands covered by this contract are hereby reserved for the use of the United States, together with the rights of the United States through its authorized agents or representatives at any time to enter upon the land and prospect for, mine, and remove the same, making just compensation for any damage or injury occasioned thereby.**
- 13. This permit is automatically renewable annually, not to extend beyond December 31, 1970.**
- 14. Upon the termination of this permit at any time, the well casing installed by the permittee shall be left in place and shall become the property of the United States.**

Memorandum

To: Director

From: Assistant Regional Director

Subject: Pumping test on water well in Section 5, Saguaro National Monument

On February 14 a test was made on the well located in Section 5, T. 15 S., R. 16 E., Saguaro National Monument.

The tests were unsatisfactory and Mr. Carl W. Pistor who ran the test on the well estimated the capacity at a little less than one-half gallon per minute. It was his opinion that the well would be completely dry within a short period of time. A copy of Superintendent King's memorandum of February 15 and a copy of the report on the Freeman well prepared by Mr. Pistor are attached for your files.

FREEMAN WELL

REPORT OF WELL TEST - YOUR ORDER #SAG-25

Test pump Installed:

77½' -2" col. pipe, 1-13/16" cylinder
6" stroke pump jack
1 h. p. gasoline engine.

Well: 78' deep; 8" casing on top; water level 58'.

Pumped twenty minutes at the rate of 3.8 gals. per min.
Then pumping at rate of 1 gal. per min. we pumped
out the well. Running over a longer time, with
pump operating continuously, but no water for
part time, and then water when same raised at
height of cylinder. Estimated capacity a little
less than 1/2 gal. per min. Amounts getting
less as time went on.

My opinion is that this well would be completely
dry within a short time.

Memorandum

To: Regional Director

From: Superintendent, Saguaro

Subject: Pumping Test on Water Well in Section 5

The test made on the well in Section 5, Freeman property, was made on February 14, 1950, and showed only a negligible amount of water.

After pumping down to the bottom of the intake, water will accumulate at the rate of 10 gallons in 45 minutes.

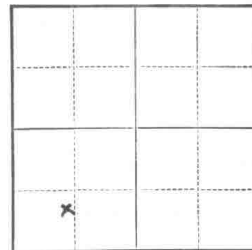

The official report on the tests will probably be received in this office tomorrow, and will be forwarded to your office the next day.

 Nearest P. O. Tucson Direction from P. O. SE
 Distance from P. O. 20 miles; SW $\frac{1}{4}$ sec. 4, T. 15S, R. 16E
 If in city, give street and number _____
2. Owner: NK. National Park Service Address Rt. 8, Box 520, Tucson, Arizona
 Driller: H.R. McDaniel Address Tucson, Arizona
3. Situation: Is well on upland, in valley, or on hillside? Valley
4. Elevation of top of well: 10 ft. above the level of Stream
 (Above or below) (Sea, depot, lake, or stream)
5. Type of well: Bored; kind of drilling rig used Rotary
 (Dug, driven, bored, or drilled) (Solid tool, jetting, rotary, etc.)
6. Depth of well: 76 ft.; year in which well was finished 10/1/52
 Does well enter rock? yes; if so, at what depth? 70 ft.; kind of rock Granite
7. Diameter: At top 8 inches; at bottom 6 inches.
8. Principal water bed: Sand
 (Gravel, sand, clay, or rock. If rock, state kind)
 Depth to principal water bed 18 ft.; thickness of bed 4 ft.
 If other water supplies were found, give depth to each _____
9. Casings: Kind Steel; size 8 in.; length 32 ft.; between depths of _____ and _____ ft.
 Kind Steel; size 6 in.; length 44 ft.; between depths of _____ and _____ ft.
 Kind _____; size _____; length _____ ft.; between depths of _____ and _____ ft.
- Packers (if any): Depth at which packers were used None; kind None
- Screen or Strainer: Was well finished with screen? yes; kind of screen Copper;
 length of screen 18 in. ft.; diameter 1 1/4 in. inches; size of openings 1/8 in.
10. Head: Does well at present overflow without pumping? No; did it overflow when new? No;
 if flowing, give pressure _____ lb. per sq. inch; or height water will rise in a pipe _____ ft. above surface;
 original pressure or head _____; if not flowing, give water level in well _____ ft. below surface.
11. Pump: Is the well pumped? Yes; kind of pump oil bath jack pump;
 size or capacity of pump 400 gal per hour; kind of power Gasoline engine
12. Yield: Natural flow at present (if any) _____ gallons per minute; original flow _____ gallons per minute;
 well has been pumped at 6.6 gallons per minute continuously for 1/2 hours;
 quantity of water ordinarily obtained from well _____ gallons per day.
13. Use: For what purpose is the water used? To water stock and wildlife
14. Quality of the water: Fresh; is there an analysis? No
 (Hard or soft, fresh or salty, etc.)
15. Cost of well, not including pump: \$649.50 Temperature of water Cool ° F.
- Name of person filling blank Samuel A. King
 Date Nov. 1, 1952 Address Saguaro National Monument, Tucson, Arizona
