NARRATIVE:		
Lewis J. Westlake and Arnold and Betty Zehnle applied to the State of California on July 2, 1962 (Application No. 20837) to appropriate 15 acre-feet from an unnamed stream tributary to Brandy Creek to be stored in the Westlake Reservoir. The water was to be collected between November 1 and June 1 each year and to be used for domestic homes, cabin sites, a small fishing reservoir and a boys camp. On July 11, 1967m the Westlakes sold their property to the U.S. "together with all water and water rights appurtenant thereto..." including application No. 20837. Mr. Westlake and the Zehnle's later filed a Notice of Assignment to the State Water Rights Board for this application. In 1968 the park obtained a three year extension of time to complete construction. On June 19, 1969, after an inspection made by a Mr. C.H. Dabney of the State Water Rights Board, Mr. L.J. Mitchell, Superintendent of Whiskeytown, filed a request for a license for the above application (Permit No. 13876) for 6.1 acre fee collected between November 1 and June 1 each season and to be used for recreational purposes. On April 9, 1970, the State issued License No. 9292 to the NPS as a result of the above request. The Report of Licensee filed by the Water Resources Division for the years 1970 to 1972 states that the water was used for 6 horses, a fishing pond, fire protection, and for domestic use by five people.

WHIS/WR # 3 Westlake Diversion

WHIS/WR # 4 Brandy Creek - Westlake Diversion

The area in near proximity to these water rights was operated as a horse renting stables. Corals and a large "A" frame house are still present. NPS plans call for the removal of the house in the near future.

Westlake Reservoir is complete with dam and ponded water of approximately 2 acres surface area. Upon inspection it was found that no springs or streams were flowing into the pond, however, discharge through the overflow culvert was estimated at 10 gpm. This outflow is believed to be from ground water recharge.

Nick Reeves, Chief, Environmental Protection Division, informed me that the Westlake - Zehnle property had extended down Brandy Creek for some distance to the northeast - downstream. He stated that no diversionary works were known to exist on Brandy Creek. It therefore appears that the diversion of Brandy Creek water was only planned and never actually initiated. The exact location which was contemplated by the owners is unknown.

No domestic or stock use of water at this time.
