REMARKS Brandy Creek-Westlake Diversion lies within Hydrologic Basin Unit No. 18020006.

NARRATIVE:

On February 21, 1961, Lewis J. Westlake, Arnold H. Zehnle and Betty Zehnle filed Application No. 20001 to appropriate 0.5 cfs from Brandy Creek year round. This water was to be stored in the Westlake Reservoir and used in a boys camp, fully plumed cabins, and irrigation of a lawn, orchard, garden and shrubbery. Permit No. 13348 was issued on February 26, 1962, for the proposed uses.

On August 21, 1967, Mr. Westlake notified the State Water Rights Board of his sale of "certain properties in Shasta County" to the U.S. and, as a result, ownership of Permit 13348 was transferred to the U.S. and the state records were amended to show this.

On July 3, 1969, Mr. L.J. Mitchell, Superintendent of Whiskeytown, requested revocation of this permit as a result of an inspection by Mr. C.H. Dabney of the State Water Rights Board (it appears that the park was not using this water). On October 14, 1969, the State revoked Permit 13348 (Application 20001).

Memorandum

To: Chief, Division of Water Resources, WASO
From: Supervisory Hydrologist, Division of Water Resources, SSC
Subject: Water rights, Whiskeytown

Enclosed for your information and files are copies of correspondence and forms affecting four water permits at Whiskeytown. The changes are being affected as a result of a recent inspection by Mr. C.H. Dabney of the California State Water Resources Control Board.

Prior to submission of these forms to the State, this office contacted Whiskeytown National Recreation Area concerning Permit No. 13348, Request for Revocation; it was learned that Superintendent L.J. Mitchell and Mr. C.H. Dabney had agreed to revocation, as the permit was originally issued in the name of the previous owner, and the Park is not using the water. They further agreed that should it become necessary to use this source, the Park Service can take appropriate notification action with the State at that time.
