

Dockets 4 and 5 - Well registrations 55-633157 and 55-633158 were withdrawn on June 8, 1995 (letter to ADWR) because they were duplicate registrations filed by CORO and the Western Region. Remove stock as a beneficial use on 39-11130 E and F. 39-003608 was withdrawn by the Baumkirchner's on July 1, 1995. Amend NPS SOC 39-11130F (Baumkirchner #3) completion date to 1932 (from 1969).

Docket 0006 - Withdraw 55-642742. Duplicate registration from NPS and FS. SOC 39-8264 withdrawn by Order dated June 2, 1995. Assign 36-11163 to NPS from FS.

Docket 0007 - Withdraw 55-633159 for Coronado Well #4. Duplicate registration filed by CORO and Western Region.

Docket 0008 - Withdraw SOC 39-1130H per instructions from Alberti on Sept. 27, 200 - well collapsed and dry at 21 ft. Incorrect legal - no need to amend because withdrawing claim.

Docket 0009 - Withdraw SOC 39-8265 per instructions from Alberti on Jan 29, 2002 - well never found by NPS. Has Lone Mtn. Ranch withdrawn their claim (39-003748)?

Docket 0010 - Withdraw 55-633156. Duplicate registration filed by CORO and Western Region. Change legal to SWSWNW (BCC) 18 (24S21E).

Docket 0011 - Assign well registration (55-629658) to NPS. Change legal to NWSWSW 13 (24S20E).

Docket 0012 - Withdraw SOC 39-11-13637 per instructions from Alberti on Jan 29, 2002 - well may have been nine shaft which was plugged before acquisition by NPS.

Docket 0013 - Withdraw SOC 39-11130D. Not found by NPS on May 2, 1995 or Jan 29, 2002. Alberti recommends withdrawal on Jan 29, 2002.

Docket 0014 - Change uses to park administration, stock, wildlife, and fire suppression in docket and amend individual claims as necessary.

Docket 0015 - Amend SOC 39-004344 - change purpose from irrigation and stockwater to wildlife for 1 AFY. Amend maximum capacity from 15 to 1 AFY. Amend 38-64702 - change capacity from 15 to 1 AFY and quantity from 30-40 to 1 AFY.

Docket 0019 - Withdraw 55-649479 - Dry! Amend Richards' SOC 39004343 dropping well from claim.

Docket 0020 - Withdraw 55-649478 - Dry! Amend Richards' SOC 39004343 dropping well from claim.

Amend Richard's SOC 39-004343 for Montezuma Ranch well's (13 wells) and SOC 39-0004344 for the stockpond. Completed by letter to ADWR on December 5, 2002.

Do we withdraw 36 claims on 0001, 0002, 0003 when surface water rights recognized as reserved right? When?

Correct addresses on all claims/registrations.

Lone Mountain Ranch - claims of concern in park (55-612472 and 55-612487).

13 ORDER AND PARTIAL DECREE OF
STIPULATED WATER RIGHTS IN THE
14 SAN PEDRO RIVER WATERSHED FOR
THE CORONADO NATIONAL MEMORIAL

15 This matter came before the Court on the Final Hydrographic Survey Report for the San Pedro
16 River Watershed (1991) ("San Pedro HSR") and objections to that report; consideration of the San
17 Pedro HSR and objections were referred to Special Master John E. Thorson and, subsequently, to
18 Special Master George A. Schade, Jr.; the Special Masters organized and conducted proceedings in
19 Contested Cases Nos. W1-11-556 and W1-11-1132 involving the water rights of the United States of
20 America appurtenant to the Coronado National Memorial, a federal reservation of land within the San
21 Pedro River Watershed administered by the United States Department of the Interior, National Park
22 Service; certain parties in both contested cases having reached stipulations that were filed on March
23 19, 1996, and on May 2, 2003, as to the water rights in one stockpond, three springs, and twenty wells,
24 to be decreed for the Coronado National Memorial; Special Master Thorson having accepted the

1 stipulation filed on March 19, 1996, and Special Master Schade having accepted the stipulation filed
2 on May 2, 2003; Special Master Schade having filed a report with the Clerk of the Court on May 15,
3 2003, recommending the approval of both stipulated agreements and abstracts of water rights and
4 having served the involved parties and all persons listed on the Gila River Adjudication Court-
5 Approved Mailing List; the Special Master having given claimants in the Gila River Adjudication,
6 pursuant to A.R.S. § 45-257(A)(2), a period of 180 days, or until November 12, 2003, to file an
7 objection to the report, and until December 8, 2003, to file responses to the objections; the Bella Vista
8 Water Company, Inc. and Pueblo Del Sol Water Company (the "Water Companies") having filed an
9 objection; the United States having filed a response; and the Court having considered the report and
10 the objection and being fully advised;

11 THE COURT FINDS that notice of the Special Master's report was given as required by law
12 and prior orders of this Court; the period allowed for filing objections to the Special Master's report
13 was as required by A.R.S. § 45-257(A)(2); the period for filing objections to the report has passed; and
14 the stipulated agreements and abstracts of proposed water rights for the United States of America
15 within the Coronado National Memorial should be approved.

16 THE COURT ADJUDICATES AND DECREES the water rights of the United States of
17 America for the Coronado National Memorial as set forth in the twenty-four abstracts of water rights
18 stipulated by the parties and described in Special Master Schade's report of May 15, 2003.

19 IT IS ORDERED that the twenty-four abstracts of water rights shall be incorporated in the
20 tabulations or lists of all water rights and their relative priorities on the Gila River system and source
21 in the form that the Court shall determine, pursuant to A.R.S. § 45-257(B)(2), to be most appropriate.

22 IT IS FURTHER ORDERED that the dismissals of Statements of Claimant Nos. 39-8265, 39-
23 11130(D), 39-11130(H), and 39-13637 are accepted.

24 IT IS FURTHER ORDERED overruling the objection of the Water Companies.

Subject New Water Use Summons from ADWR

Hi Brad,

ADWR returned my call today regarding the new use summons you received. As you know, there is no new use of water, since the Tank Well replaced the damaged Headquarters Well. Because there is no new use, no new statement of claimant is required. However, ADWR recommended that the NPS file an amendment to the existing statement of claimant to keep ADWR informed about which well is being used and which one is not.

I will prepare an amendment to the statement of claimant. ADWR stated that there is no deadline for the amendment.

GENERAL INFORMATION

You are being served with the enclosed New Use Summons because the records of the Arizona Department of Water Resources indicate that you may have initiated a new use of water between January 1, 2009 and December 31, 2009. This is an important legal document regarding the use of water on your property. Please read it carefully.

The enclosed documents describe how the use of water on your property may be affected by an on-going court proceeding known as the Gila River Adjudication. The adjudication is a comprehensive court proceeding to determine the nature, extent and relative priority of rights to use water in the Gila River System and Source.

As described in the enclosed documents, claims to water rights may be asserted by filing a statement of claimant form with the Arizona Department of Water Resources. The enclosed summons and brochure provide information regarding the forms, the filing fee, when and where to file, and the impact of failing to file. These documents also provide other important information regarding the adjudication.

If you have any questions regarding this process, please contact the Arizona Department of Water Resources. The Department may be reached by phone at 1-866-246-1414, or by mail at the following address:

TO: ALL WATER CLAIMANTS IN THE GILA RIVER SYSTEM AND SOURCE

PLEASE BE ADVISED that a general adjudication of water rights is in progress for the area in which you use water or claim water rights. The adjudication is a comprehensive court proceeding to determine the nature, extent and relative priority of rights to use water in the Gila River system and source.

YOU ARE HEREBY SUMMONED and required to appear and to assert any claims to water you may have in the Gila River system and source by filing the appropriate court-approved form. All rights to use water appropriable under section 45-141, ARIZONA REVISED STATUTES, and water subject to claims based upon federal law, will be determined pursuant to section 45-251 *et seq.*, ARIZONA REVISED STATUTES.

Filing Forms. Claims to water rights may be asserted by filing the appropriate court-approved statement of claimant form with the Arizona Department of Water Resources, which has been authorized by the Superior Court to receive claims. There are four court-approved statement of claimant forms: an irrigation water rights form, a stockpond water rights form, a domestic water rights form, and a form for other water rights. You may obtain the form(s) you need for filing your claim(s) from the Arizona Department of Water Resources. All groundwater users should file the appropriate statement of claimant form for their groundwater use to defend their use in the event other claimants assert that groundwater is appropriable under section 45-141, ARIZONA REVISED STATUTES, or is subject to claims based upon federal law.

Filing Fee. The filing fee for an individual is twenty dollars. The filing fee for a corporation, municipal corporation, the state or any political subdivision, or an association or partnership, is two cents for every acre-foot of water claimed, or twenty dollars, whichever is greater. The filing fee should be paid by check or money order made payable to the order of the "Arizona Department of Water Resources." The Court or Special Master will not consider your claim unless the filing fees for the claim have been paid.

1 When and Where to File. Under section 45-254(A), ARIZONA REVISED
2 STATUTES, all statements of claimant must be filed with the Arizona Department of Water
3 Resources at 3550 North Central Avenue, Phoenix, Arizona 85012-2105, within ninety days of
4 the service of this summons unless an extension of time is granted by the Court. Section
45-254(E) describes under what circumstances statements of claimant may be filed after this
ninety-day period.

5 Failure to File. According to section 45-254(F), "[A]ny potential claimant who is
6 properly served and who failed to file a statement of claimant as prescribed by this article for
7 any water right...is barred and estopped from subsequently asserting any right that was
previously acquired on the river system and source...and forfeits any rights to the use of water
in the river system and source that were not included in a properly filed statement of claimant."

8 Previous Filings with ADWR are Not Claims in the Adjudication. You may lose the
9 right to use the water of the Gila River system and source if you fail to file a statement of
10 claimant with the Arizona Department of Water Resources. This may happen even though you
have received a permit, certificate or other approval from the Arizona Department of Water
Resources.

11 A Statement of Claimant is Not Permission to Use Water. You do not obtain a right to
12 use water by filing a statement of claimant form. Rights to use water must be acquired in
13 accordance with state or federal law. In many cases, you cannot initiate a new or increased use
under state law until the appropriate permit, certificate or other approval has been received
from the Arizona Department of Water Resources.

14 Address and Ownership Changes. After you have filed a statement of claimant in this
15 adjudication, you must notify the Arizona Department of Water Resources of any of the
16 following changes in, or concerning, your statement of claimant: (1) a change in your address,
17 (2) an assignment of your statement of claimant to another person, (3) a transfer to another
18 person of all or part of the land for which a water right has been claimed, and (4) a transfer to
another person of all or part of the water right claimed, if the claimed water right has been
severed and transferred to another parcel of land. Notice of any of the changes identified in this
paragraph must be filed with the Arizona Department of Water Resources within thirty (30)
19 days of the change using a form approved by the Court. This form is available from the
Arizona Department of Water Resources.

20
21 GIVEN UNDER MY HAND AND SEAL of the Superior Court of the State of Arizona

From: Paul Christensen, Hydrologist, Water Rights Branch

Subject: New Well at Coronado National Memorial
Water Tank Well

The construction of the Water Tank Well was completed 22 Dec 2008. The Driller Report and Well Log was received by the Arizona Department of Water Resources (ADWR) 24 Feb 2009. The Pump Installation Completion Report was received 27 Feb 2009. The Well Registration No. for the Water Tank Well is 55-909747.

The water rights have been decreed for Coronado National Memorial. On 20 Feb 2004 an order and partial decree of stipulated water rights in the San Pedro Watershed for Coronado National Memorial was signed by the Judge of the Superior Court. The Special Master's report to the Court on the same issue was signed 15 May 2003.

The water-right abstract for the headquarters well, Statement of Claimant No. 39011130(G), indicates that the point of diversion is "SWSWNW Sec. 18, T24S, R21E and within exterior boundary of Coronado National Memorial." The well registration number for the headquarters well is 55-629139.

Both wells will be used to provide water to facilities in the headquarters area of the Memorial.

The question arose whether the NPS needs to provide additional information to or make a request of ADWR or the Superior Court regarding the new well. Solicitor, Peter Fahmy, recommended that no action be taken because (1) the new well lies within the exterior boundaries of the memorial, and (2) the water rights for the Memorial have been determined. Thus, the Water Rights Branch will take no action.

THIS AUTHORIZATION EXPIRES AT MIDNIGHT ON THE DAY OF **9/16/2009**

THE DRILLER MUST FILE A WELL DRILLER REPORT AND WELL LOG WITHIN 30 DAYS OF COMPLETION OF DRILLING

This drilling or abandonment authority was granted based upon the certifications made by the above-named Driller in the notice of intent to drill or abandon. Those certifications, along with any variances granted, are listed below. By drilling or abandoning the well pursuant to this authorization, the above-named driller acknowledges the accuracy of the driller certifications. If the certifications are in error, this authorization is invalid and driller must contact the Department of Water Resource's NOI Section in writing at the address above to correct.

Variance(s) Granted To Driller: **None**

Certification(s) Made By Driller:

- ☒ By checking this box, I certify that I have all necessary Registrar of Contractor (ROC) licenses in all necessary license categories for this drilling or abandonment project and that those licenses are current.
- ☒ By checking this box, I certify that the proposed well site is not within 100 feet of any septic tank system, sewage disposal area, landfill, hazardous waste facility, storage area of hazardous materials or petroleum storage areas and tanks.
- ☒ By checking this box, I certify that the proposed well's water use meets the criteria of domestic purposes as outlined in the A.R.S. §45-454 and that the water will be used solely for domestic purposes.
- ☒ By checking this box, I certify that this NOI application is not an application to replace, deepen, or modify an existing well.
- ☒ By checking this box, I certify that I have been authorized by the above-named well owner to submit this Notice of Intent on the well owner's behalf.
- ☒ By checking this box, I certify that the information above is complete and correct, and that the well shall be drilled or abandoned in compliance with all pertinent statutes and rules, including any special standards that may be required to protect the aquifer or other water sources.

☒ By checking this box, I understand that the Authorization to drill this well DOES NOT constitute or guarantee an approval to use the well for the purpose of withdrawing groundwater for transportation to an Active Management Area (AMA) pursuant to A.R.S. § 45-552, 45-553, 45-554 or 45-555(A) without official prior approval from the Department.

Registration No. 55-909747

File No.D(24-21)18 BAC

Dear Applicant:

Enclosed is a copy of the Notice of Intent to Drill, Deepen, Replace or Modify a Well ("NOI") which you recently filed with this Department pursuant to A.R.S. § 45-596. This is to inform you that the Department has approved the NOI and has mailed (or otherwise provided) a drilling card authorizing the drilling of the well to the well driller identified in the NOI. The driller may not begin drilling until he has received the drilling card, which he must keep in his possession at the well site during drilling. **PLEASE NOTE:** The Authorization to drill this well **DOES NOT constitute or guarantee an approval to use the well for the purpose of withdrawing groundwater for transportation to an Active Management Area (AMA)** pursuant to A.R.S. § 45-552, 45-553, 45-554 or 45-555(A). Groundwater **may not** be withdrawn from this well for these transportation purposes **without official prior approval from the Department**. Please contact the office in the AMA where the groundwater is to be transported to determine what additional forms are needed and for more information on this process.

Well drilling activities must be completed within one year after the date the NOI was filed with the Department. If drilling is not completed within one year, you must file a new NOI before proceeding with further drilling. If in the course of drilling the well, it is determined that the well cannot be successfully completed as initially intended (dry hole, cave in, lost tools, etc.), the well must be properly abandoned and a Well Abandonment Completion Report filed as required by A.A.C. R12-15-816(F).

If you change drillers, you must notify the Department of the new driller's identity. Please ensure that the new driller is licensed by the Department to drill the type of well you require. A new driller may not begin drilling until he receives a new drilling card from the Department. If you are drilling a new or replacement well and it is necessary to change the location of the well, you may not proceed with drilling until you file a new NOI with the Department and the Department issues an amended drilling card to the driller. If county approval was required for the original well site plan (this applies to domestic wells on parcels that are five acres or less), you must submit a new well site plan with the new well location to your local county health authority for approval prior to filing the new NOI with the Department.

A.R.S. § 45-600 requires the registered well owner to complete and file a Pump Installation Completion Report form (DWR form 55-56) within 30 days after the installation of pumping equipment. A form is enclosed for your use. Also enclosed is a well owner's guide that provides useful information and advice concerning your upcoming well construction project. A.R.S. § 45-600 also requires the driller to file a complete and accurate Well Drillers Report and Well Log (DWR form 55-55) within 30 days after completion of drilling. That form was mailed to your driller with the drilling card. You should insist and ensure that all of the required forms are accurately completed and timely filed with the Department.

Please be advised that A.R.S. § 45-593(C) requires the person to whom a well is registered to notify the Department of a change in ownership of the well and/or information pertaining to the physical characteristics of the well in order to keep this well registration file current and accurate. Any change in well information or a request to change well driller must be filed on a Request to Change Well Information form (DWR form 55-71A) that may be downloaded

from the ADWR Internet website at
http://www.azwater.gov/dwr/Content/Find_by_Category/Permits_Forms_Applications/default.htm.

This matter came before the Court on the Final Hydrographic Survey Report for the San Pedro River Watershed (1991) ("San Pedro HSR") and objections to that report; consideration of the San Pedro HSR and objections were referred to Special Master John E. Thorson and, subsequently, to Special Master George A. Schade, Jr.; the Special Masters organized and conducted proceedings in Contested Cases Nos. W1-11-556 and W1-11-1132 involving the water rights of the United States of America appurtenant to the Coronado National Memorial, a federal reservation of land within the San Pedro River Watershed administered by the United States Department of the Interior, National Park Service; certain parties in both contested cases having reached stipulations that were filed on March 19, 1996,

and on May 2, 2003, as to the water rights in one stockpond, three springs, and twenty wells, to be decreed for the Coronado National Memorial; Special Master Thorson having accepted the stipulation filed on March 19, 1996, and Special Master Schade having accepted the stipulation filed on May 2, 2003; Special Master Schade having filed a report with the Clerk of the Court on May 15, 2003, recommending the approval of both stipulated agreements and abstracts of water rights and having served the involved parties and all persons listed on the Gila River Adjudication Court-Approved Mailing List; the Special Master having given claimants in the Gila River Adjudication, pursuant to A.R.S. § 45-257(A)(2), a period of 180 days, or until November 12, 2003, to file an objection to the report, and until December 8, 2003, to file responses to the objections; the Bella Vista Water Company, Inc. and Pueblo Del Sol Water Company (the "Water Companies") having filed an objection; the United States having filed a response; and the Court having considered the report and the objection and being fully advised;

THE COURT FINDS that notice of the Special Master's report was given as required by law and prior orders of this Court; the period allowed for filing objections to the Special Master's report was as required by A.R.S. § 45-257(A)(2); the period for filing objections to the report has passed; and the stipulated agreements and abstracts of proposed water rights for the United

States of America within the Coronado National Memorial should be approved.

THE COURT ADJUDICATES AND DECREES the water rights of the United States of America for the Coronado National Memorial as set forth in the twenty-four abstracts of water rights stipulated by the parties and described in Special Master Schade's report of May 15, 2003.

IT IS ORDERED that the twenty-four abstracts of water rights shall be incorporated in the tabulations or lists of all water rights and their relative priorities on the Gila River system and source in the form that the Court shall determine, pursuant to A.R.S. § 45-257(B)(2), to be most appropriate.

IT IS FURTHER ORDERED that the dismissals of Statements of Claimant Nos. 39-8265, 39-11130(D), 39-11130(H), and 39-13637 are accepted.

IT IS FURTHER ORDERED overruling the objection of the Water Companies.

PARTIAL REPORT OF THE SPECIAL
MASTER ON CLAIMS ADJUDICATED IN
THE SAN PEDRO RIVER WATERSHED

CONTESTED CASE NAME: *In re Coronado National Memorial.*

HSR INVOLVED: San Pedro River Watershed Hydrographic Survey Report.

DESCRIPTIVE SUMMARY: The Special Master files a partial report on water rights of the United States within the Coronado National Memorial (National Park Service) which have been settled by stipulation and moves the Superior Court to approve the report and enter a partial decree in the San Pedro River Watershed adjudicating these rights. Objections to this report must be filed with the Clerk of the Superior Court on or before **November 12, 2003**. Responses to the objections shall be filed by **December 8, 2003**. A hearing on any objections will be held at a time and place to be set by the Superior Court.

NUMBER OF PAGES: 9; Appendix A - 23 pgs; Appendix B - 34 pgs; Appendix C - 2 pgs; Appendix D - 4 pgs; Total 72 pgs.

DATE OF FILING: Original delivered to the Clerk of the Court on May 15, 2003.

1 **I. INTRODUCTION**

2 These contested cases involve water right claims of the United States within the Coronado
3 National Memorial, a federal reservation of land in the San Pedro River Watershed administered
4 the United States Department of the Interior, National Park Service.¹ Each case was organized during
5 the normal course of the adjudication of the San Pedro River Watershed. The cases address
6 objections filed to the water right claims within the Coronado National Memorial² reported in
7 Final San Pedro River Watershed Hydrographic Survey Report (1991) ("San Pedro HSR").

8 All the parties in each case entered into stipulated agreements, which include abstracts
9 proposed water right for the claims of the United States. The United States and the objectors have
10 mutually resolved these contested cases.

11 A.R.S. § 45-257(A)(2) states that. "[t]he master shall...[f]or all determination
12 recommendations,...prepare and file with the court a report in accordance with rule 53(g) of the
13 Arizona rules of civil procedure, which shall contain those determinations, recommendations,...
14 This report recommends that the Superior Court approve stipulated determinations of the water right
15 of the United States within the Coronado National Memorial and enter a partial decree in the San
16 Pedro River Watershed adjudication.³

17 **II. STIPULATION ACCEPTED ON MARCH 26, 1996, BY SPECIAL MASTER THORSON**

18 On March 26, 1996, Special Master Thorson accepted a stipulation filed by the parties
19 March 19, 1996, in Contested Case No. W1-11-556. A copy of the stipulation is in Appendix A. 1
20

21 ¹ The original pleadings and orders are available at the office of the Clerk of the Maricopa County Superior
22 Court, 601 West Jackson Street, Phoenix, Arizona 85003, under the docket of Contested Case No. W1-11-556.

23 ² The water right claims in Contested Case No. W1-11-1132 are for a private land inholding that the United
24 States acquired in 2001 which is now part of the Coronado National Memorial.

³ This procedure is similar to the one the Superior Court used in the partial decree entered in *In re Sagua
National Monument (Rincon Mountain Unit)* (July 11, 2001), which is available online
<www.supreme.state.az.us/wm/> on the *Gila River Adjudication* (Judge Eddward P. Ballinger, Jr.) page.

1 stipulation contained abstracts of proposed water rights for three springs and ten wells ("underground
2 water"). This was the first of two stipulations filed regarding the Coronado National Memorial.

3 Special Master Thorson found that the agreement was fair and just and had been entered into
4 in good faith, and he ruled that the abstracts would be held for inclusion in the first appropriate
5 catalog or report of water uses for the San Pedro River Watershed. But on June 3, 1996, upon the
6 United States' unopposed motion, he stayed "all further proceedings in regard to the definition of the
7 attributes of the wells" for which abstracts had been submitted with the stipulation accepted on
8 March 26, 1996."⁴ The stay was to last until after the resolution of Interlocutory Review Issues Nos.
9 2, 4, and 5, which were then before the Arizona Supreme Court, or further order of the Court. Neither
10 the motion to stay nor Special Master Thorson's order included the three springs.

11 This case remained in abeyance until September 19, 2001, when Special Master Schade
12 requested a report from the parties regarding the progress of negotiations. The parties filed reports on
13 December 21, 2001, June 28, 2002, and December 30, 2002. A status conference was set on May 5,
14 2003, but that conference was vacated when the parties filed a second stipulated agreement.

15 The second stipulation, filed on May 2, 2003, contained abstracts of proposed water rights or
16 withdrawals for the same wells for which abstracts were filed on March 19, 1996. The new abstracts
17 are discussed in the next section. A copy of the stipulation is in Appendix B. Special Master Schade
18 accepted the second stipulation on May 6, 2003.

19 The second stipulation did not contain new or modified abstracts for the three springs that
20 were included in the stipulation accepted on March 26, 1996.⁵ There have been no indications that
21 the abstracts for the three springs that Special Master Thorson accepted on March 26, 1996, are no
22

⁴ Minute Entry 1 (June 3, 1996).

⁵ The springs are *Joe's Spring No. 3* (Appendix 1 of the May 19, 1996, stipulation), *Tunnel Mine Spring* (Appendix 2 *id.*), and *Brown Allotment Spring* (Appendix 3 *id.*). See San Pedro HSR Watershed File Report ("WFR") No. 111-23-016, vol. 3 at 2-238 and vol. 1 at 5-431-435 (National Park Service).

1 longer valid. In the status report filed on December 21, 2001, the United States stated that three of
2 the parties "have acknowledged the continued validity of the abstracts for the three springs."⁶

3 On May 13, 2003, the Special Master received a copy of a letter dated May 7, 2003, sent by
4 the National Park Service to the Arizona Department of Water Resources ("ADWR"). The letter
5 submitted various amendments and withdrawals of statements of claimant and well registrations in
6 accord with the stipulated abstracts contained in the second stipulation.

7 One amendment related to Tunnel Mine Spring. The United States requested to amend the
8 legal descriptions of Tunnel Mine Spring and of the place of use to the South East (SE) North West
9 (NW) South East (SE), Section 11, Township 24 South, Range 20 East, G&SRB&M. The letter
10 indicated that the statement of claimant for Tunnel Mine Spring is 39-11130(B), but according to the
11 records in the case file, the statement of claimant for this spring is 39-11129(B). Statement of
12 Claimant No. 39-11130(B) is described in the second stipulation as being for Brown Allotment Well.

13 In the order of May 6, 2003, accepting the stipulation, Special Master Schade stated that he
14 would include the stipulation and abstracts for the three springs in the partial report he would file
15 with the Superior Court. The Special Master finds that the abstracts for the three springs that Special
16 Master Thorson accepted on March 26, 1996, including the amendments to Tunnel Mine Spring, are
17 valid and should be included in this report for the Superior Court's consideration.

18 **III. STIPULATION ACCEPTED ON MAY 6, 2003, BY SPECIAL MASTER SCHADE**

19 The stipulation accepted on May 6, 2003, addressed twenty-five water right claims (24 claims
20 involve wells and one a stockpond). It contained abstracts of proposed water rights for twenty-one
21 claims and listed four statements of claimant that the United States will withdraw within sixty days
22 after the Superior Court approves the stipulation.

23 ⁶ Status Report 2 (December 21, 2001). The parties were ASARCO Incorporated, Gila River Indian
24 Community, and Salt River Project.

1 The stipulation covered eleven claims that are part of Contested Case No. W1-11-556
 2 (including the four claims to be withdrawn) and fourteen claims that are part of Contested Case No.
 3 W1-11-1132. The stipulation filed on May 2, 2003, contained abstracts of proposed water rights or
 4 withdrawals for the same wells or groundwater claims for which abstracts were submitted with the
 5 stipulation accepted on March 26, 1996. The Special Master finds that the abstracts of water rights
 6 for the wells or groundwater claims included in the stipulation accepted on March 26, 1996, were
 7 amended and superseded by new abstracts contained in the stipulation accepted on May 6, 2003.

8 In 2001, the United States acquired a private land inholding and the water right claims
 9 appurtenant to the land. The determinations of those claims and objections were docketed in
 10 Contested Case No. W1-11-1132. A case initiation order has not been filed in that case, but the
 11 United States and the objectors reached an agreement and submitted abstracts for the claims in that
 12 case. The abstracts of water rights for that contested case are for one stockpond and thirteen wells.⁷

13 The following are the abstracts that the Special Master recommends that the Court approve:

14 1. Contested Case No. W1-11-556. Stipulation accepted by Special Master Thorson on March
 15 26, 1996: Statements of Claimant Nos. 39-11129(A), 39-11129(B) (as amended), and 39-11130(A)
 16 for three springs tributary to Montezuma Canyon Wash described in footnote 4.

17 2. Contested Case No. W1-11-556. Stipulation accepted by Special Master Schade on May 6,
 18 2003: Statements of Claimant Nos. 39-11130(B) (the first two abstracts relate to the same registered
 19 well); 39-11130(C), 39-11130(E); 39-11130(F); 39-11130(G); and 39-13636 for six registered wells.

20 3. Contested Case No. W1-11-1132. Stipulation accepted by Special Master Schade on May
 21 6, 2003: Statements of Claimant Nos. 39-4343(A) through 39-4343(M), inclusive, for thirteen
 22 registered wells, and 39-4344 for one stockpond.⁸

23 ⁷ See San Pedro HSR WFR No. 111-23-DCC-001, vol. 3 at 2-272 (Richards, Richard B.).

24 ⁸ Although not included in the abstract, Montezuma Pond was registered as Stockpond No. 38-64702. *Id.*

1 The United States agreed to withdraw Statements of Claimant Nos. 39-8265, 39-11130(D),
 2 39-11130(H), and 39-13637 involving four wells no longer in use (Contested Case No. W1-11-556
 3 In its May 7, 2003, letter to ADWR, the United States withdrew these four claims.

4 **IV. SPECIAL PROCEDURAL ORDER PROVIDING FOR THE APPROVAL OF**
 5 **FEDERAL WATER RIGHTS SETTLEMENTS, INCLUDING THOSE OF INDIAN TRIBES**

6 Special proceedings to consider both stipulations and the abstracts are not warranted under
 7 the Arizona Supreme Court's Special Procedural Order Providing for the Approval of Federal Water
 8 Rights Settlements, Including Those of Indian Tribes (1991)⁹ for the reasons that the settlement of
 9 these claims was reached in the normal course of the adjudication of the San Pedro River Watershed,
 10 and there are no special circumstances preventing the Superior Court from considering the settlement
 11 agreements in the normal course of the adjudication.

12 These claims were settled following the preparation of the San Pedro HSR, the filing of
 13 objections to the HSR, the organization of contested cases, and the completion of negotiations begun
 14 in 1995. Special proceedings are warranted when "[t]here are special circumstances preventing the
 15 consideration of the settlement agreement in the normal course of the adjudication."¹⁰ There has been
 16 no showing of special circumstances that would prevent the Court from considering these agreements
 17 in the normal course of the adjudication.

18 **V. TIME TO FILE OBJECTIONS**

19 A.R.S. § 45-257(A)(2) provides in pertinent part that when the Special Master submits a
 20 report to the Superior Court in accordance with Rule 53(g), Ariz. R. Civ. P., "[i]f the report covers an
 21 entire...federal reservation, each claimant may file with the court written objections to the report
 22 within one hundred eighty days of the date on which the report was filed with the court."

23 ⁹ The Special Procedural Order (May 16, 1991) is available online at <www.supreme.state.az.us/wm/> on the
 24 *Arizona Supreme Court: Decisions and Orders* page.

¹⁰ *Id.* at ¶ A(5).

1 The San Pedro HSR describes the United States' water right claims within the Coronado
2 National Memorial in WFRs Nos. 111-23-016 and 111-23-DCC-001. WFR No. 111-23-DCC-001
3 reports the water right claims within the private land inholding acquired by the United States in 2001.
4 All of the abstracts, whose approval is recommended in this report, are for claims reported in both
5 WFRs. Because the abstracts pertain to an entire federal reservation, the 180-day period specified by
6 A.R.S. § 45-257(A)(2) should be provided for filing objections to this report.

7 **VI. RECOMMENDATIONS**

8 The Special Master recommends that the Superior Court:

9 1. Find that notice of this report was given as required by law, and the time allowed for
10 claimants to file objections to the report was as required by law.

11 2. Find that the stipulated agreements of the parties and the abstracts of proposed water
12 rights for the United States within the Coronado National Memorial should be approved.

13 3. Adjudicate and decree the water rights of the United States within the Coronado
14 National Memorial as set forth in the twenty-four abstracts of water rights stipulated by the parties,
15 including amendments, as described in this report.

16 4. Order that the twenty-four stipulated abstracts shall be incorporated in the tabulations
17 or lists of all water rights and their relative priorities on the Gila River system and source in the form
18 that the Court shall determine, pursuant to A.R.S. § 45-257(B)(2), to be most appropriate.

19 **VII. SUBMISSION AND AVAILABILITY OF REPORT**

20 This report will be filed with the Clerk of the Maricopa Court Superior Court. A copy of the
21 report will be mailed to all the parties in both contested cases and to all persons listed on the Gila
22 River Adjudication Court-Approved Mailing List. An electronic copy will be posted on the Special
23
24

1 Master's Web site (<<http://www.supreme.state.az.us/wm/>>) on the *Gila River Adjudication (In re*
 2 *Coronado National Memorial)* page.

3 **VIII. MOTION FOR APPROVAL OF THE SPECIAL MASTER'S PARTIAL REPORT**

4 The Special Master recommends that the Superior Court approve the stipulation and the
 5 abstracts of water rights for the three springs accepted by Special Master Thorson on March 26,
 6 1996, including amendments, and approve the stipulation and abstracts of water rights accepted by
 7 Special Master Schade on May 6, 2003. The Special Master moves the Superior Court, under A.R.S.
 8 § 45-257(B) and Rule 53(h), Ariz. R. Civ. P., to adopt the recommendations contained in this report
 9 and adjudicate the water rights proposed for the Coronado National Memorial in a partial decree in
 10 the San Pedro River Watershed adjudication. A proposed Order and Partial Decree of Stipulated
 11 Water Rights in the San Pedro River Watershed for the Coronado National Memorial is in Appendix
 12 C.

13 **IX. NOTICE OF SUBSEQUENT PROCEEDINGS**

14 Any claimant in the Gila River Adjudication may file a written objection to this report on or
 15 before **Wednesday, November 12, 2003**. Responses to objections shall be filed by **Monday,**
 16 **December 8, 2003**. Objections and responses must be filed with the Clerk of the Maricopa County
 17 Superior Court, 601 West Jackson Street, Phoenix, Arizona 85003, Attn: Water Case. Copies of
 18 objections and responses must be served personally or by mail on all persons listed on the Court-
 19 approved mailing list for this matter that is contained in Appendix D.

20 The hearing on the Special Master's motion to approve the report and any objections to the
 21 report will be taken up as ordered by the Superior Court. Rule 53(h), Ariz. R. Civ. P., provides that
 22 "[t]he court after hearing may adopt the report or modify it or may reject it in whole or in part or may
 23 receive further evidence or may recommit it with instructions."

Claimant United States of America and Objectors Gila River Indian Community and Silas Kisto, Salt River Project, San Carlos Apache Tribe, Asarco Incorporated, Phelps Dodge

Stipulation
Civil No. W1-11-556

1 Corporation and Magma Copper Co., by and through their
2 undersigned attorneys stipulate and agree as follows:

3 1. This case is a consolidation of various water
4 rights claimed for the Coronado National Memorial. The
5 claims consolidated herein include claims to springs and
6 surface water rights and claims to groundwater.

7 2. Claim Nos. 39-11129(A), 39-11129(B), and 39-
8 11130(A) are claims to springs which both arise and
9 terminate on the Coronado National Memorial. Abstracts
10 setting forth the elements of each of these claims are set
11 forth in Appendices 1, 2, and 3 attached hereto, and
12 incorporated herein by reference. The parties hereto
13 stipulate and agree to entry of decrees for these claims on
14 terms no less restrictive than those set forth in the
15 attached abstracts. Claim Nos. 39-8152 and
16 39-8208 are duplicative of Claim Nos. 39-11129(A) and
17 39-11130(A), and are withdrawn.

18 3. Claim Nos. 39-11130(D), 39-11130(E), 30-11130(F),
19 39-13636 and 39-13637 are all claims to groundwater which
20 are founded on state law based rights to withdraw
21 groundwater. These wells were purchased by the United
22 States together with the overlying land, and have been
23 dedicated to Park Service purposes. None of these wells are
24 within the "Subflow" zone as it is currently identified in
25 the Gila River adjudication. To the extent that the right
26 to withdraw groundwater from these wells is based on State

1 law, they are not currently subject to adjudication in the
2 Gila River Adjudication. However, until issues regarding
3 the extent to which wells located outside the "Subflow"
4 zone, but hydrologically connected to the San Pedro River
5 system, are resolved by the appellate courts, the parties
6 agree that any attempts to define the specific attributes of
7 the rights should be stayed. Partial Abstracts setting
8 forth the known attributes of each of those claims are
9 attached hereto as Appendices 4, 5, 6, 7 and 8.

10 4. Claim Nos. 39-8265, 39-11130(B), 39-11130(C), 39-
11 11130(G), and 39-11130(H) are all claims based on an
12 assertion of federal reserved water rights to groundwater.
13 The general issue of whether or not a federal reserved right
14 to groundwater exists is currently on appeal before the
15 Arizona Supreme Court. Until the issue of the existence of
16 federal reserved water rights to groundwater is resolved by
17 the appellate courts, the parties agree that any attempts to
18 define the specific attributes of the rights should be
19 stayed. Partial Abstracts setting forth the known attributes
20 of each of those claims are attached hereto as Appendices 9,
21 10, 11, 12, and 13.

22 5. The objectors agree to the United States filing a
23 Motion to Stay All Proceedings in regard to the definition
24 of the attributes of the wells identified in Paragraphs 3
25 and 4 above until after the appellate court resolution of
26 Interlocutory Review Issue Nos. 2, 4 and 5. The parties

1 agree that the Abstracts for the wells described in
2 Paragraphs 3 and 4 above shall be discarded in the event the
3 court is finally determined not to have jurisdiction or a
4 legal basis for each right not found to exist. If it is
5 determined that the court does have jurisdiction and a legal
6 basis for each right is found to exist, the parties will
7 attempt to stipulate to the attributes identified in
8 Paragraphs 3 and 4 above or to litigate those attributes if
9 no agreement can be reached.

10 6. This Stipulation is the result of negotiation.
11 None of the legal issues regarding the bases or attributes
12 of the water rights involved in this matter have been
13 briefed or tried. The parties agree that this stipulation
14 shall have no precedential effect in this or any other
15 pending or future general stream adjudication or case.

Stipulation
Civil Nos. W1-11-556 & W1-11-1132

Yavapai Apache Tribe, City of Phoenix, ASARCO Incorporated, Phelps Dodge Corporation, and BHP Copper Co., by and through their undersigned attorneys stipulate and agree as follows:

1. Claim Nos. 39-11130(B), 39-11130(C), 39-11130(E), 39-11130(F), 39-11130(G), 39-13636, 39-4343(A), 39-4343(B), 39-4343(C), 39-4343(D), 39-4343(E), 39-4343(F), 39-4343(G), 39-4343(H), 39-4343(I), 39-4343(J), 39-4343(K), 39-4343(L), and 39-4343(M) are claims to wells located within Coronado National Memorial. Abstracts setting forth the elements of each of these claims are set forth in Appendices 1 through 21 attached hereto and incorporated herein by reference. The parties hereto stipulate and agree to entry of a decree for these claims on the terms set forth in the attached abstracts. The National Park Service reserves the right to challenge and/or appeal the imposition by ADWR or a court of competent jurisdiction of attributes less favorable to the National Park Service than those set forth in the attached abstracts. The other signatories reserve the right to challenge and/or appeal the imposition by ADWR or a court of competent jurisdiction of attributes more favorable to the National Park Service than those set forth in the attached abstracts.

2. Claim No. 39-4344 is a claim to a stockpond located within Coronado National Memorial. An abstract setting forth the elements of this claim is set forth in Appendix 21 attached hereto and incorporated herein by reference. The parties hereto stipulate and agree to entry of a decree for this claim on the

terms set forth in the attached abstract. The National Park Service reserves the right to challenge and/or appeal the imposition by ADWR or a court of competent jurisdiction of attributes less favorable to the National Park Service than those set forth in the attached abstract. The other signatories reserve the right to challenge and/or appeal the imposition by ADWR or a court of competent jurisdiction of attributes more favorable to the National Park Service than those set forth in the attached abstract.

3. The National Park Service filed Claim Nos. 39-11130(H) (Forest Service Well), 39-08265 (Hazel Well), 39-13637 (Sparks #2 Well), and 39-11130(D) (Zaleski Well) for Coronado National Memorial. These wells are no longer in use. The United States agrees to submit a letter to the Arizona Department of Water Resources withdrawing these claims 60 days after the approval of this Stipulation by the Decree Court.

4. This Stipulation is the result of negotiation. None of the legal issues regarding the bases or attributes of the water rights involved in this matter have been briefed or tried. The parties agree that this stipulation shall have no precedential effect in this or any other pending or future general stream adjudication or case.

5. The parties agree to bear their own costs and attorneys' fees in connection with this matter.

In witness whereof, the parties have executed this
Stipulation as of the dates written below.

IN THE SUPERIOR COURT OF THE STATE OF ARIZONA
IN AND FOR THE COUNTY OF MARICOPA

IN RE THE GENERAL ADJUDICATION OF
ALL RIGHTS TO USE WATER IN THE GILA
RIVER SYSTEM AND SOURCE

W-1 (Salt)
W-2 (Verde)
W-3 (Upper Gila)
W-4 (San Pedro)
Consolidated

ORDER AND PARTIAL DECREE OF
STIPULATED WATER RIGHTS IN
THE SAN PEDRO RIVER WATERSHED
FOR THE CORONADO NATIONAL
MEMORIAL

This matter came before the Court on the Final Hydrographic Survey Report for the San Pedro River Watershed (1991) ("San Pedro HSR") and objections to that report; consideration of the San Pedro HSR and objections were referred to Special Master John E. Thorson and, subsequently, to Special Master George A. Schade, Jr.; the Special Masters organized and conducted proceedings in Contested Cases Nos. W1-11-556 and W1-11-1132 involving the water rights of the United States of America appurtenant to the Coronado National Memorial, a federal reservation of land within the San Pedro River Watershed administered by the United States Department of the Interior, National Park Service; the parties in both contested cases having reached stipulations that were filed on March 19, 1996, and on May 2, 2003, as to the water rights in one stockpond, three springs, and twenty wells, to be decreed for the Coronado National Memorial; Special Master Thorson having accepted the stipulation filed on March 19, 1996, and Special Master Schade having accepted the stipulation filed on May 2, 2003; Special Master Schade having filed a report with the Clerk of the Court on May 15, 2003, recommending the approval of both stipulated agreements and abstracts of water rights and having served the involved parties and all persons listed on the Gila River Adjudication Court-Approved Mailing

List; the Special Master having given claimants in the Gila River Adjudication, pursuant to A.R.S. § 45-257(A)(2), a period of 180 days, or until November 12, 2003, to file an objection to the report, and until December 8, 2003, to file responses to the objections; no objections or responses having been filed to the Special Master's report; and the Court having considered the report and being fully advised;

THE COURT FINDS that notice of the Special Master's report was given as required by law and prior orders of this Court; the period allowed for filing objections to the Special Master's report was as required by A.R.S. § 45-257(A)(2); the period for filing objections to the report has passed; no objections were filed; and the stipulated agreements and abstracts of proposed water rights for the United States of America within the Coronado National Memorial should be approved.

THE COURT ADJUDICATES AND DECREES the water rights of the United States of America for the Coronado National Memorial as set forth in the twenty-four abstracts of water rights stipulated by the parties and described in Special Master Schade's report of May 15, 2003.

IT IS ORDERED that the twenty-four abstracts of water rights shall be incorporated in the tabulations or lists of all water rights and their relative priorities on the Gila River system and source in the form that the Court shall determine, pursuant to A.R.S. § 45-257(B)(2), to be most appropriate.

IT IS FURTHER ORDERED that the dismissals of Statements of Claimant Nos. 39-8265, 39-11130(D), 39-11130(H), and 39-13637 are accepted.

DATED this _____ day of _____, 2003.

EDDWARD P. BALLINGER, JR.
Judge of the Superior Court

Explanatory

Quantifiable present and future administrative uses (consumptive) are claimed. The United States of America claims the right to divert and use 6 acre-feet per annum (Jan 1, through Dec. 31) from the Headquarters Well (Well Registration No. 55-629139) located in the NW1/4, SW1/4, NW1/4, Sec. 18, T24S, R21E, G&SRB&M and other surface and ground water sources on reserved lands for picnic areas, visitor centers, concessions and other visitor-use areas; park administration facilities, ranger stations, entrance stations, visitor contact stations, employee residences, and attendant facilities; lawns surrounding park buildings and structures and other public-use areas to offset heavy human impact; and waste water treatment facilities.

Non-quantifiable present and future administrative uses (consumptive) are also claimed. The United States of America claims the right to use non-quantifiable amounts of water for, but not limited to, controlling and suppressing wildfire and structural fires; construction of roads and trails; and revegetation activities necessary to maintain (or return) watersheds at (or to) their natural condition.
