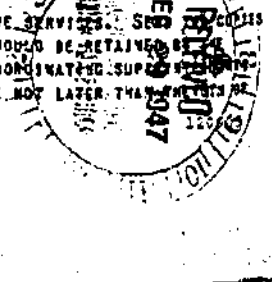
INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.



COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COOPERATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN TWENTY DAYS OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

Chaco Canyon ~~Bloomfield, New Mexico~~ NATIONAL MONUMENT

~~December 24,~~ 19~~47~~

MEMORANDUM for the Regional Director, Region Three,
National Park Service.

There follows the report of activities in Chaco Canyon National Monument for the month of December, 1947.

Chaco Canyon had a total of four visitors this month, who came in one automobile, from the state of New Mexico, who took a trip through the ruins and listened to the museum talk. The Custodian spent a total of seventy-five minutes with them. The weather this month has been unusually cold, see below. As a result, the roads are in poor shape and discourage visitors. However, we have been promised that the road will be graded this week.

The coldest this month was 2 degrees on the 13th of December and the warmest was 57 degrees Fahrenheit on the 29th of November. There was .21 of an inch of precipitation which came on the 2nd of December. This month has averaged almost 10 degrees colder than the same period a year ago.

Several jobs were brought to a conclusion this month, and several other jobs were accomplished.

The sewer line at the Custodian's residence became stopped, but was opened on the last warm day.

Two stop-and-waste valves refused to function and had to be replaced.

One water line, so far this winter, has frozen and is not yet thawed.

The water pump was installed, thanks to Gordon's men, and is operating in excellent fashion.

The main road through the Monument has been graded. It is hoped that they will stay in good shape throughout the winter, for our blade is not heavy enough to do much good on frozen ground.

This month saw the completion of the planting program. More than 1,000 posts were brought in. Most of them were planted to form "living spiders", which retard the rate of flow of the stream in the arroyo. This job was completed with the aid of Custodian Townsend of Aztec Ruins National Monument, near which Monument the posts were obtained and on which Monument the Navajos camped while cutting the posts, and Foreman Roscoe Dudley of Aztec, New Mexico. Soil Conservationist Paul Baloh supervised the work here at Chaco Canyon several days.

After the planting was completed, the men spent several days cutting tamarisk for erosion control work in the spring.

Radio contact with El Morro National Monument has been satisfactory. The colder the weather, the better the reception.

National Park Service visitors were Charlie Steen and Paul Baloh.

The Trader is today having Christmas for the Navajos who traded with him the past year. He gives each man, woman and child, a sack containing an orange, candy, stick candy, all day sucker, chewing gum, peanuts, etc. Then, he contributes the foodstuff for a picnic, where they build a fire, boil coffee and have a feast.

Projects for the ensuing month:- take inventory, try to prevent more pipes from freezing and breaking, hope for a warm January, make plans for next year in the way of ruins talk, new ideas for the museum, roads, buildings, etc.

At the end of the month, there were on hand:-

Free two-fold leaflets describing Chaco Canyon National Monument, approximately..8100
National Park Location Map, Number 6....."..... 322

.....Chaco canyon.....NATIONAL MONUMENT

.....Bloomfield, New Mexico.....

.....December 24..... 19..47

MEMORANDUM for the Custodian,
Chaco Canyon National Monument.

There follows the monthly narrative report of Mobile Unit activities in your area for December, 1947.

Despite what your thermometer says about the cold nights, working conditions have remained very good for this time of year. The cold limits the repair masonry to the amount we can protect from freezing but the days have been clear. Light snow flurries were experienced three days during the month but none has remained on the ground to hinder operations.

The only visitor of note at Chetro Ketl this month has been a large wild cat who apparently inspects the work nightly. After each snow his tracks have been found on the runways leading to the interior rooms.

One cold trip was made to Canyon DeChelly this month in company with Archeologist Steen of the Regional Office. An average of two rough truck trips a week have been made out to Farmington or Aztec hauling the remainder of the cement, coal for the office, reinforcing steel from Aztec Ruins and sand for concrete mortar. This road out north is in deplorable condition and as Steen said it resembles nothing so much as either a lava flow or a Chaco road.

Cleaning of the wood specimines recovered from room 93 is progressing slowly as either foreman Rixey or I find time to work on them. Some material has been packed to send in for identification, it includes: hide, tanned buckskin, cordage, wrapping which we think may be sinew, beans, pumpkin seeds, and some scatological remains.

Some preliminary work has been done on the drainage channel east of Chetro Ketl in the area recommended by Paul Baleh. This preliminary work was done now because this is the one time of the year when soil conditions are perfect up there for operation of the motor grader. Considerable time and money has been saved by opening this ditch with the grader and a small slip instead of waiting till the soil had dried out and the use of horse drawn equipment would have been necessary. This construction will not interfere with the planned building of basket dams or other structures.

A hole at the southeast corner of the ruin, outside and left from the excavations of 1920 has been filled. This is the place that was dammed off during the last flood to prevent water running into the "moat". Also in this area several piles of excavation rubbish were removed.

Within the ruin fill removed from 93 was used to grade up a sunken area in the northwest corner of the plaza. Flood debris taken from a series of three rooms, 52, 55 and 47 is being used as backfill in 36. Surface drainage in 109, an unexcavated room, was corrected and run to the east to prevent water from draining down through a story and a half of fill into 43.

With one exception all repair masonry laid has been on the east side between the high kivas G and H and the damaged area of the north wall. The purpose here has been to provide bracing around the kivas which are badly cracked and to build up support between the kivas and the back wall.

The south walls of 39 and 40 have been brought up in heavily reinforced masonry mortar to midway of the second story. This forms the north enclosure of Kiva G/H and the area between it and the kiva wall is being backfilled.

The eastern enclosure for the kivas is formed by the west wall of 38 which was badly shattered. It has been taken down and relaid with reinforcing tied into the corner of 39 and 40. Continuing this work northward the east and north walls of 39 were brought up to support a half story of overhanging wall and the west wall of 41 was tied in to a large buttress area built under an overhanging section in 44.

In the western section a large U shaped break was filled in the north wall of 61.

In progress at present is the repair of a large break in 43 east. Here a large patch made during the excavation program about 1932 has fallen out. It is roughly the entire width of the wall and some ten feet high.

The sectional steel scaffolding has been in use for some time now. It is light, easily handled and can be assembled very rapidly. The one difficulty with it is its size. It is too long to go into some rooms and too short to provide adequate scaffolding in others. To get maximum use from it we should have a wide variety of the different cross ties which determine the length of the assembly. However it is fine stuff for building heavy runways and photographic towers.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SUBMIT TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. CHIRICAHUA NATIONAL MONUMENT

Dos Cabezos, Arizona,

December 27, 1941

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Chiricahua National Monument for December.

General. The custodian took 3 days sick leave and 3 days annual leave during the period. Operator Marble took 1½ days sick leave and 3½ days annual leave. Propane gas has been short in the local towns and several trips were made in search of it. The Shell Company at Lowell finally received some and notified us. A trip was made immediately to replenish our supply. All of this has somewhat slowed down activities at Chiricahua.

Weather Conditions. Two light snows fell and we have had some extremely cold windy weather. Some of the old timers were heard to remark that they had never seen it so cold this time of the year. Weather records hardly agree with these statements, but it has been cold enough to slow down the travel and freeze some of the plumbing.

Maintenance. Some time was spent thawing out rest room plumbing but nothing serious developed.

Approaches to Monument Area. Approach roads are all remaining in good condition for dirt and gravel roads. Work has started on the grading of State Highway 181 for oiling next spring.

Interpretive Service. Due to shortage of help, sick and annual leave, interpretive service did not receive it's usual attention. 384 visitors were contacted in the museum in 106 parties.

Travel. Travel dropped this month as only 532 visitors were counted. This compares with 890 for November of this year and 712 for December of last year. We are now leading last travel year by only 34 visitors. This drop was probably due to the weather and it is also very likely that all of the visitors were not counted, as considerable of the counting was done in connection with other work and on days off.

~~El Morro~~ NATIONAL MONUMENT

~~Ramah, New Mexico~~

~~December 25,~~ 19~~47~~

MEMORANDUM for the Regional Director, Region Three.

There follows the report of activities in El Morro National Monument for the month of December, 1947.

WEATHER: During the first two weeks of the report period we had abnormally warm weather which brought four days of light rains and snow. Precipitation amounted to .19 inches. Temperatures ranged from a maximum of 54 degrees to a minimum of 4 degess below zero.

TRAVEL: A total of 14 visitors arrived at the Monument in six cars. The 76 percent decrease in travel from the same period last year can be attributed to very poor road conditions, caused by four days of rain and thaw. Six tours of the inscriptions were made by the 14 visitors. One illustrated talk was given to the Gallup Kiwanis Club on December 11th.

APPROACH ROADS: The Indian Service graded the 14 mile stretch between Ramah and the Ramah Day School. This was the first time in two years that a grader has been on this part of the Gallup road. The road to Gamuts was passable only when frozen.

PUBLIC HEALTH: The last report on our water supply showed contamination below the doping tanks and it was found that one of the valves was not closing completly. This valve will be replaced when a new one can brought in from Gallup. Clorination in the meantime is not exact, but from the taste it is certainly sufficient.

GENERAL: Nine days of annual leave were taken to help in the care of the new member of our family. A Navajo squaw would probably have been more efficient help, but none of them wanted to work.

Number of copies of free publications on hand as of the end of December, 1947.

Bates E. Wilson

Bates E. Wilson,
Custodian.

GRAN QUIVIRA

GRAN QUIVIRA, NEW MEXICO

DECEMBER 27 47

MEMORANDUM for the Regional Director, Region Three.

The following is a report of activities at Gran Quivira National Monument for the month of December, 1947.

General. Weather conditions during the Thanksgiving and Christmas holidays were ideal and travel for the month has been well ahead of December of last year. Road conditions throughout the period have been above average.

Weather Conditions. Snow and rain on December 2 and 3 yielded .49 inches of moisture. A storm of blizzard proportions on December 12 added another .05. A low of 7 degrees was recorded on December 13; a high of 61 degrees on December 27.

Special Activities. Mrs. Bowen and I made a "get-acquainted" trip to White Sands National Monument on December 10 and 11. We enjoyed meeting the folks, but were sorry to have missed Custodian Farris who was away at the time.

On December 17 I presented a group of kodachromes and gave a talk on New Mexico's National Park and National Monuments to the Belen Rotary Club.

Maintenance. 8½ miles of telephone line was moved from the highway right-of-way during the month. Work was started December 1 and completed December 26. The Custodian's time on this job totalled 146 hours.

Work on the construction of a 2-wheel trailer on the axle secured from Bandelier National Monument should be completed within a few days.

Several evenings were devoted to a detailed study of the workings of the oil heater.

Approaches to Monument Area. Work on the construction and oiling of 8½ miles on State Highway 10 south from Mountainair toward Gran Quivira began on December 11. C. I. Martin is the contractor.

The State maintainer graded the road from Mountainair to Gran Quivira during the month and it is now in good condition.

Interpretive Service. Absence from the Monument during most of the month cut down on the interpretive service rendered. Ten parties totalling

28 people were conducted through the Mission.

Increase or Decrease in Travel. There were 29 cars and 98 visitors to the Monument during the month. As indicated below this is an increase over December of last year. Cars for the Travel Year exceed last year; however, the visitor figure is slightly lower.

December, 1947	Cars	29	Visitors	98
December, 1946	Cars	19	Visitors	63
Increase or Decrease	Cars	10	Visitors	35
Percent		53%		55%
This Travel Year	Cars	98	Visitors	293
Last Travel Year	Cars	90	Visitors	318
Increase or Decrease	Cars	8	Visitors	-25
Percent	Cars	8.8%	Visitors	-7.8%

In Compliance with FC 601.
Gran Quivira 2-fold Leaflet Issue date-1948 On hand 5400
(Note: 5000 of the above were received during the month.)

William L. Bowon,
Custodian.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.
Talk & kodaslides to Belen Rotary Club on Dec. 17. Low record of contact due to absence while working on telephone line.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended Interpretive Stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, motel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should NOT be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the Superintendent or Custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 10th of the month following that covered by the report.

MEMORANDUM for the Regional Director,
Region Three.

There follows the report of activities in Great Sand Dunes National Monument for December, 1947.

WEATHER. Cold winter weather came to the San Luis Valley, and Alamosa was again the coldest spot in the U.S.A., on December 11, with a minimum temperature of -17 degrees.

The minimum temperature at headquarters registered -13 degrees on the same date. From December 10 to 14, the temperature ranged from -5 to -13.

Snow fell on December 2,3,5,6,9,10,11,12 and 21. The Sangre de Cristo range is covered again with snow, and around headquarters it measured four inches. At present writing, it is about two inches deep. Cold weather has prevented snow from melting and a great deal of fog in the San Luis valley also kept temperatures low.

It is a pleasure to report that the water line did not freeze during this cold snap.

TRAVEL. One hundred sixty-eight visitors in sixty-one cars, visited the Sand Dunes during this report period. Nine states were represented. Three people had lunch in the camp-ground.

INCREASE IN TRAVEL. For December, 1946, 69 cars and 260 visitors.
The cold weather caused the decrease in travel for December, 1947.

ROADS. The approach roads remained in excellent condition, although covered with four inches of snow. At present writing, the weather has warmed up enough during the day to allow snow to melt, and there are only a few sections of the road that still show snow.

COMPLAINTS. None!

N.P.S. VISITORS. Clark Glen Dean and Ranger and Mrs. T.B. Onstott of Bandelier National Monument, paid a too short visit on December 11.

ACTIVITIES. The custodian was on sick and annual leave during the report period.

SPECIAL ACTIVITIES. The stork skidded on the icy sand dunes, making a 3.2 landing. Jenny Anna Sowers arrived forty-five days too soon at the Alamosa

Hospital. Born on December 7, at 5:43 PM., weighin in at four pounds nine and one-fourth ounces.

PUBLICATIONS. There are on hand, 1728 mimeographed informational leaflets.

Ted C. Sowers,
Custodian.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED ON TO HELP INTERPRET THE AREA.

Conducted Trips: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

Talks: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

Attended Interpretive Stations: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS ENQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

Unattended Interpretive Devices: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

Interpretive Activities Outside the Area: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

Column #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

Column #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

Interpretive Activities Outside of the Area ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

Totals: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. Total Attendance SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. [illegible] AND SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Montezuma Castle National Monument
Camp Verde, Arizona

December 24, 1947

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly report of activities at Montezuma Castle National Monument for the month of December 1947.

Visitors this month - 580; travel year - 3124.

Administration Custodian and Mrs. Hastings and the girls began a Christmas vacation the 20th. They intend to return the 31st.

Archaeologist and Mrs. Schroeder and son returned from their vacation to New York the afternoon of the 18th. Al resumed duty the 20th.

Although Archaeologist Schroeder was gone most of the month close watch was kept of the Well. Inspection and patrol trips were made there twelve times during this period.

A trip was made to the county court house in Prescott for information concerning water rights at the Well.

Several trips were made to Cottonwood and Clarkdale for supplies and repairs and to conduct other official business.

Travel has dropped again over the previous month. Cold and stormy weather that made for icy roads on Mingus Mt. and Oak Creek Canyon was undoubtedly responsible. Many of our visitors have commented on the difficulty they have had on the slick roads during the storm.

Weather A snow storm hit the area on the 8th giving the valley considerable moisture. The surrounding high country was covered with a heavy blanket. Over an inch and a quarter of precipitation was received during the month. The low temperature recording for the month was 15° and the high was 74°.

Publicity New three fold informational leaflets of Montezuma Castle were received from the Government printing office. A few requests for folders that have been on hand for some time were filled.

Maintenance Official warning signs were replaced in the Lower Ruins and garage.

A new starter switch was installed in I-13834 and the battery box enlarged to accomodate new oversize battery.

Hydrants and fountains were removed, where not needed, for winter

protection.

The irrigation ditch at Montezuma Well was repaired in several places where it had broken through.

Road signs along the entrance road were spot painted where rust was working on the bullet hole breaks.

Two coats of linseed oil were applied to I-13852 pick-up bed to "set" the wood surface.

Fallen leaves were raked from Castle path.

White flourescent tubes were installed to replace blue ones. We find the white tubes light more quickly and burn more steadily in cold weather. Line starters were also replaced in the flourescent units in the museum display cases.

Equipment A new 8 cubic foot General Electric refrigerator was received from the Arizona Wholesale Supply Co. of Phoenix and installed in Residence 1.

A surplus Kardex File was received from Grand Canyon.

Practically all the wiring assembly in I-13852 was burned out. A short near the generator was apparently responsible. All the wiring and the generator were replaced. We might consider it fortunate the fire didn't destroy the truck and the garage. It was not discovered until most of the damage had been done.

The pick-up bed was removed from I-13852 and new planking installed in place of the old broken and splintered planks.

Another set of shelves was braced and installed in the office to provide more space for the library and storage.

Research The project to bring the Castle museum catalog up to date was continued as time allowed.

Two crania were taken to the Museum of Northern Arizona for photographing. The photographs will accompany Miss Katherine Bartlett's report on the skeletal material of the Castle and Well.

Sanitation The water supply system at the Castle was disinfected with chlorine to eliminate possible dangerous contamination.

Use of Monument Facilities by Public Accurate travel count was recorded for the Castle only as there was no one on duty at the Well most of the month. Visitors at the Castle numbered 580. They came in 179 cars. Tickets were sold to 163 visitors; 5 were issued Complimentary Tickets; and 21 children were admitted without charge.

Contact Time Total contact hours, 83.25; Hastings, 38.00; Leding, 45.25. Fifty nine trips were made through the Castle for 189 people. Three hundred eighty one were contacted in the museum in 80 groups. Forty

Approach road closed due to snow

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO EXCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

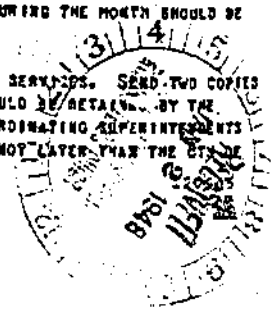
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.



COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAVAJO NATIONAL MONUMENT
TONALEA, ARIZONA

Dec. 25, 1947

MEMORANDUM for the Director, Region Three

There follows a monthly report of activities in this area for the month of December 1947.

WEATHER: Five inches of snow fell on the 2nd, two inches of snow fell on the 9th. Nights have been cold, 6 degrees on the 9th and 11th. Days have warmed to a maximum of 47 degrees on the 19th. In shaded areas the snow stands at 5 inches in depth.

VISITORS: Three parties reached this area totaling six people. Two were bona fide visitors from California who were guided to Betatakin on Christmas Eve by the Custodian.

N.P.S. VISITORS: Mr. and Mrs. Joe Bean of Wupatki on the 19th.

OTHER AGENCY VISITORS: Mr. John Stewart and Mr. Doug. Harrington of USIS on the 17th. Mr. Stewart is in charge of a cooperative (USIS-AAA) project in Klethla Valley. Mr. Harrington is the newly appointed District Supervisor for District #2 with residence in Shonto.

ROADS: The drainage which has given us so much trouble on our approach Road in Klethla Valley is being dammed. The small existing dam is being greatly enlarged at present. They also propose to elevate our road across the Valley same then to serve as a long check dam. These projects are USIS and AAA. These agencies also constructed an air strip in Klethla Valley, less than 50 feet from our approach road. All roads are passable in this area.

PROGRESS REPORT: The 950 gallon hot-water tank was converted to use as an underground gas tank. All fittings were obtained and installed. The tank was given a second impervious coating, the fittings got three coats and buried underground. A concrete base and platform were poured for the pump. This is curing now under a two foot pile of manure to prevent freezing.
A light drill-press was purchased as a Christmas gift to this National Monument. Using the drill press as a router we are completely overhauling our road signs. One new replacement has been routed and one is layed out. Much sign work remains to be done.

EQUIPMENT: On December 19th Joe and Mrs. Bean of Wupatki National Monument hauled out the 5 KW D.C. plant from Walnut Canyon National Monument and returned to Wupatki with one new, crated, 5KW Onan. It is hoped that by installing a radiator on the 5 KW LeRoi plant we will have an excellent standby power plant for our water supply system.

TALKS NO.

3 days were spent on the Annual Inventory of Equipment and the Report of Forest Protection and Building Fire Equipment.

Items not connected with conducted trips

GENERAL: Too much has already been spoken and written about the Starving Navajos. In this area there seems to be only resentment. Their expressed opinion in this locality is that they are better off this year than any previous year. Max Littlesalt stopped in with his family to have lunch here--they were returning from an annual Christmas party at which truck loads of charity clothing are distributed. I asked Max what he was going to do with the clothes. (Often the clothing is worn out or of a type unsuitable for Navajo use. I once saw a white formal gown given to a squaw at one of those functions. Open toed, high heel shoes are not uncommon). Max said he guessed he could use the clothes to make a scarecrow in his cornfield. Well I guess some good comes from these campaigns even if it is only to reduce the fire hazards in the attics of the donors. This, Christmas night, is not the time, nor this the place to tell you what we think of the mass hysteria over the 'starving Navajos'.

The following reports are enclosed and checked for distribution. The copies for the Washington office are enclosed to economize on frank mailings.

Organ Pipe Cactus NATIONAL MONUMENT

Box 38, Ajo, Arizona,

December 25, 19 47

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of December, 1947.

WEATHER

Five rains fell during the first ten days of the month totalling 1.71 inches. Temperature varied this month with heavy north winds bringing in a low of 25 degrees on the tenth. Maximum temperature reached was 74 degrees on the first.

TRAVEL

Travel was normal this month with 7,976 visitors through the area. Contact time was limited to 16 man days due to pressing field duties.

GENERAL

The Soil and Moisture Fencing Project on the southern boundary was completed on the 26th. 7.4 miles was constructed starting where last years job halted and running west to join the west boundary fence. A small gap west of Dowling Well was also breached.

Work continued on the Ranger quarters throughout the month.

The Custodian spent two days in Phoenix procuring supplies and a new motor for the water system.

WILDLIFE

The Fish and Wildlife Service on the adjoining Cabeza-Prieta Refuge reports on the success of their predator-control program for preserving the big horn sheep. They have been shooting and trapping for some time and their latest sheep survey shows a favorable increase according to Mr. Arthur Halloran, Manager of the Reserve.

Reports from local sportsmen are that more deer were taken in the Ajo vicinity this hunting season than ever before in the past ten years. We like to feel that our conservation policy is largely responsible for this condition.

OTHER GOVERNMENT AGENCIES

A representative of the International Boundary Commission made a preliminary survey of the line between the monument's southwest corner and Papago Wells, and reported their plans to construct some 15 or 20 miles of fence. They would join the monument fence and continue west sealing off many if not

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Saguaro National Monument
Tucson, Arizona

December 27, 1947.

MEMORANDUM for the Regional Director,
Region Three.

There follows the monthly NARRATIVE REPORT of activities at Saguaro National Monument for the month of December, 1947.

WEATHER. Precipitation (rain) on November 30, December 1, 2, and 5, totaled less than one inch, raised our 11-months total to only a little over 5 inches. Record cold nights for December occurred on December 9 to 12, inclusive, when daily minimums were between 24 and 28 degrees. Since the 6th, days have been warm and sunny, with a maximum temperature for the month of 79 degrees on December 19.

SPECIAL ACTIVITIES. December 1 - 3, Ranger Wilde accompanied Regional Director Tillotson on a trip to Organ Pipe and Casa Grande. December 4 and 5 the Custodian and Laborer-Leadman Stansberry made a trip to Tonto National Monument to pick up the 1000-barrel tank which was transferred to Saguaro. Maintenanceman Barney was at Casa Grande overnight on the 4th, getting a new front end installed in the Chevrolet pickup.

INSPECTIONS. Regional Director Tillotson made an inspection of portions of the boundaries on November 30. Mr. Ben H. Thompson, Lands Division, was here on December 22, to investigate developments on private lands within the monument.

MAINTENANCE. Most of the work of the 4-5 man crew during the month was on improvement of the 1.3 miles of road between the south boundary and Madrona Ranger Station. While still no boulevard, removal of most of the rocks, and several fills have improved this road a great deal. The two large (1000-barrel) sectional tanks were partially assembled, one at Headquarters, the other at Madrona R.S. A temporary electric fence was erected around the Madrona Canyon area, and the electric unit transferred from Bandelier installed to keep the X-9 cattle from eating all articles of cloth in the vicinity, and to cut down pollution of the creek from which our water is pumped. Ten man-days were spent in installing new water drainage structures at the beginning of the Grass Shack trail. Our horse-trailer, dump-body truck, water pump and engine, and the Chevrolet pickup were taken to Casa Grande for repair. The Loop road is beginning to need maintenance, but this will have to be postponed until arrival of the expected Allis-Chalmers patrol blade.

APPROACH ROADS. The road in from Vail Junction and Highway 80 is in fair condition, since blading by the County late in November. The Broadway approach road is just plain terrible. We are seriously considering a change in routing of visitors via 22nd street, since it is

doubtful if this road will ever again be maintained by the County, and the "Rincon Village" incorporation does not seem to be able to find any funds for road maintenance. However, if we attempt to bring visitors out by way of 22nd Street, any flooding of Pantano wash would close the road. This whole situation is becoming serious, and the roughness of the road is felt to be primarily responsible for our decrease in travel.

TRAVEL AND INTERPRETIVE SERVICES. Visitors to Saguaro totaled 1575 during the month; this is a decrease of 45 persons from the November total, at a time when we have always before had a decided increase. These visitors arrived in 528 cars, and represented 38 states, D.C., Canada, and Switzerland.

Of this number, 453 persons, in 153 parties, stopped at the Headquarters for information; this is a large increase in percentage of persons stopping as compared to total travel. A total of 2558 minutes, or 13.7 minutes per party, was spent in contact work. This average time spent by visitors is also an increase, which is usual during the winter.

PERSONNEL. Mr. William E. Phibbs entered on duty as Laborer November 28; Messrs. Ernest F. Johnson and Robert W. Nivison entered on duty as Laborers on December 1. Mr. Johnson was terminated at his request on December 16. Temporary Ranger Lawrence W. Wilde was appointed to the permanent position, pending establishment of a Civil Service register, effective November 30.

VISITORS. Custodian Homer Hastings, of Montezuma Castle, and his family were in for a trip through the cactus area on December 22.

Dr. and Mrs. Roy Chapman Andrews visited the monument on the 24th. They are spending the winter at a guest ranch near the north boundary.

ACCIDENTS. On December 23, the Chevrolet pickup truck, USDI #I-13824, was involved in an accident. Damage has been estimated at $79.00. A separate report has been mailed to your office.

WILDLIFE. Positive evidence of the presence of two Timber Wolves (Canis sp. - probably rufus) on the monument has been coming in for over a month. Early in December on of the pair was found run over by a car near the I-9 ranch, and the other has been reported by several persons. The Custodian finally shot this animal three miles south of our south boundary, but the wounded animal escaped, and has since been reported again in the same vicinity.

Ranger [illegible] observed a herd of 20 Javelinas along the Loop Road; ten adults, and ten young, estimated at not over three months of age. From all indications the species is still increasing within the area.

PUBLIC HEALTH. Water supply samples from Madrona Creek again were reported unsafe for use. This makes 11 of the past 12 months reports which have been returned as unfit for human use.

Don W. Egermeyer
Custodian.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED ON TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Sunset Crater NATIONAL MONUMENT
Flagstaff, Arizona

December 27, 19 47

MEMORANDUM for the Regional Director, Region Three.

There follows a report of the activities of Sunset Crater National Monument for the month of December, 1947.

Visitors this month: 180 Travel Year to date: 2910

Travel: Snow and rough roads took a heavy toll on travel for the past month. According to the register visitors were present for only 13 days of the month. Actual registration indicates a decrease of 76 % for the same period last year, with only 52 people signing the register compared to 217 a year ago. Periodic snows kept the roads closed for the greater portion of the time.

Weather: Frequent snows with drifting conditions during the first half of December were the rule. Freezing temperatures each night have not allowed for much melting of ice and snow except in the more open and exposed areas.

Roads: The approach and entrance road is very rough with an increasing amount of corduroy. Freezing of the cinder precludes any possibility of road work. At such time as weather permits an attempt will be made to make some badly needed repair. The shelf road at the base of the crater has been blocked with snow most of the month, so that little if any traffic has passed through to the Wupatki back road.

General: Brief inspection trips were made on three occasions during the month. In general the area was clean with no apparent signs of vandalism. At the time of one visit, five cars were parked near the base of the crater, all occupants but one evidently climbing up or descending from the summit.

Tonto National Monument
Roosevelt, Arizona

December 27, 1947

MEMORANDUM for the Regional Director, Region Three.

Following is a report of activities at Tonto National Monument for the month of December, 1947.

Weather. December has had typical southern Arizona winter weather with cool and often freezing nights, and bright, warm days. Diurnal temperature variation is pronounced at this time, often breaching 40 degrees.

Approaches to Monument. The Apache Trail continues in fairly good condition. The Pine-Payson road is reported to be good at present. A trip over the Tonto mile by Ab Sanders, State grader operator, has that road in good shape.

Visitors. This month we had the pleasure of visits from Custodian Eggenhofer and Packer Stansberry from Saguaro, Custodian Hastings and family of Montezuma, and Sam Hofniger and family on behalf of Hopathi.

Trails. As the trail laborer depends on the local school bus for transportation to and from Tonto, it was necessary for him to take a 2-week holiday along with the school here.

Ranger Service. On November 28 Joe Hendricks of Gunnison, Colorado, began his duties as Ranger-archaeologist on an emergency appointment, filling the position left vacant by resignation of Malcolm Ball. He received notice on December 25 that a temporary appointment was approved, so are ready for the heavy travel of the next three months.

Interpretive Service. Of 968 visitors to Tonto, 491 visited the cliff dwelling in 150 parties, and there were 805 museum visitors in 259 groups.

Travel. Travel for December showed a slight increase over November, but was only 968 compared to 1575 for December 1946.

General. The trail to Lower Ruins has been partly resurfaced. Custodian Eggenhofer and Frank Stansberry hauled the water tank to Saguaro. The light plant was connected to the custodian's house by overhead line. The area has been cleaned up so it looks more like a National Monument. The custodian made a trip to Globe with the pickup for gasoline, and several with his personal car for propane and other supplies. The visitors take up most of our time, and will for the next few months.

Charles C. Thorp, Custodian

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

Talks: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

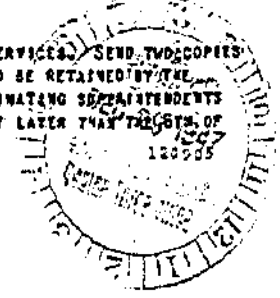
Attended Interpretive Stations: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

Unattended Interpretive Devices: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

Interpretive Activities Outside the Area: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.



Column #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

Column #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

Interpretive Activities Outside of the Area ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

Totals: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. Total Attendance SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES, SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN TENTH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
TUMACACORI NATIONAL MONUMENT
Tumacacori
BOX 2225, TUCSON, ARIZONA

Tumacacori, Arizona

December 27, 1947

MEMORANDUM for the Regional Director,
Region Three.

Follows the monthly narrative report for Tumacacori National Monument for the month of December, 1947:

Weather Conditions: Very dry, with only .32 inch of precipitation. Temperatures ranged from a high of 80 on the 27th and 30th of November to a low of 16 on December 12.

Maintenance: Routine was kept current, and numerous minor repairs made on buildings and equipment. A cold frame (two windows long) was made and installed in the shop yard, for the purpose of forcing flowering plants a little ahead of their normal growing schedule. This should give spring beauty to the patio garden a little earlier than usual.

Interpretive Service: 1138 visitors went on 198 guided trips through the mission and grounds, receiving an average of 34.82 minutes per trip. 2179 visitors saw the museum. 2204 persons received combined information and Interpretation Service.

Increase or Decrease in Travel: Our visitor total of 2245 persons for this month sets a new December travel record for Tumacacori. Highest previous December travel was 2095 for the year 1946. Part of this increase may be accounted for by the fact that a seasonal ranger has been on duty for half the month, during which period it has been possible to get a more accurate record of information seeking museum visitors than before. Actually, fewer visitors went through the mission church on guided trips than did in December of 1946. Part of the increase is undoubtedly genuine reflection of increased travel.

Visitors: December 22 - Custodian and Mrs. Homer Hastings and family, of Montezuma Castle National Monument, arrived to be house guests for several days and learn the advantages of the superior Southern Arizona climate.

Inspections: November 28 - Regional Director Tillotson was in for a half day, part of which time was spent on front line duty helping handle the visitor crowds. He did good work. It was suggested that he submit Forms 57 in duplicate, plus 86, 1-172, 61, et cetera, etc.

November 28 - Chief Clark Castellum was in to audit the books and check and advise in regard to the theft sustained last month.

Museum and Education: A new exhibit was installed in the museum. It occupies an entire small case, and consists of a large photograph of the famous Pete Kitchen, a 45-90 Sharps Rifle he owned, and explanatory captions. Kitchen ranched 14 miles south of Tumacacori during the 1870's, and had many battles with the Apaches. His story is definitely a part of the struggle to establish American civilization of today.

Personnel: Ranger Brewer spent one day on annual leave.
Seasonal Ranger Charles B. Conrad entered on duty December 11.
Custodian Jackson took 18 hours of sick leave.

Community Activity: The Red Cross Standard First Aid Course, which has been being conducted each Wednesday night in the museum lobby, was finished on December 17, with 12 persons qualifying for certificates, including Ranger Brewer, and the custodian and his wife.

The second annual community Christmas ceremony was enacted in front of the mission church. A Santa Claus gave away Christmas stockings to neighborhood children, and coffee and doughnuts to the adults. Costs were met by various adults of the community. Mindful of criticism I received for allowing the ceremony last year, I enjoined all concerned to keep the affair strictly local, with no news or radio publicity. The affair was well attended by children, with a sprinkling of adults. As a community activity it served its purpose very efficiently, and no harm was done to the monument area. This second ceremony was allowed by permission granted from your office.

The year closed with affairs humming at Tumacacori, and the mission building in the best shape the Park Service has ever seen it.

Earl Jackson

Earl Jackson,
Custodian.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

Talks: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

Attended Interpretive Stations: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

Unattended Interpretive Devices: UNDER THIS HEADING SHOULD BE ESTIMATES AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

Interpretive Activities Outside the Area: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM.

Column #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

Column #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

Column #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

Interpretive Activities Outside of the Area ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

Totals: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. Total Attendance SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED AT THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

TUZIGOOT NATIONAL MONUMENT

CLARKDALE, ARIZONA

DECEMBER 26, 1947. 19

MEMORANDUM for the Regional Director, Region Three.

Following is the monthly narrative report for Tuzigoot National Monument for December, 1947.

Travel-Data: Arizona's warm Verde Valley apparently appealed to northern travelers this month. 659 visitors, in 205 cars, and nearly all from the extreme north and northeastern states saw this ancient city. With the exception of 2 or 3 days December has been a very pleasant month.

Guide and Contact Service. Museum, ruins and orientation contacts totaled 1754 for the month. 231 people in 155 parties were shown the museum, and 523 people in 149 parties were conducted through the ruins. Ranger Richert is now on Annual Leave. Interpretive service is not interrupted as the Monument is kept open to the public on the Custodian's lieu days.

Personnel Time. Museum: 60 hours, 25 minutes. Ruins: 53 hours, 15 minutes. Total time for Bright: 65 hours, 25 minutes. For Richert 48 hours, 15 minutes.

Maintenance and Administration. Ranger Richert has taken a month's Annual Leave. He and Mrs. Richert are visiting friends and relatives in Kansas. Through his untiring efforts, Rick managed to keep the Monument open to the public for interpretive service all seven days of the week, during the long period prior to the Custodian's arrival at Tuzigoot. This is a well-earned vacation for Rick.

During the month it was necessary to dig up and clean out a large section of the sewer line leading from the mens rest room, which is located in the rear of the garage building. This section of tile had become completely closed due to root growth. This unit is now operating satisfactory. No other needed maintenance work was done due to heavy interpretive service.

N.P.S. Visitors. Dale King, Custodian Paul Beaubien and Al Whiting on November 27.

Publications. 8950 Tuzigoot Two-fold leaflets and 500 mimeo informational sheets on hand. No oth free or for sale publications on hand at this Mon.

CONDUCTED TALKS

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities in Walnut Canyon National Monument for December, 1947:

Weather. Many stormy days with some sun. Now and then. Nine below was the lowest temperature.

Visitors. Of the 242 total, 138 were contacted, and it is estimated that 75 made the ruins trip unattended.

Activities. Several days of Annual Leave and some Sick Leave by both the Custodian and Ranger, plus two Holidays, slowed progress of the activities other than routine.

A large air compressor (shipping weight, 6,900 lbs) was received from W.A.A. and moved to the monument. The valve springs broke on the 5 KW light plant. These were replaced with new springs, the radiator was taken to Flagstaff for repairs, and the valves ground.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

MEMORANDUM for the Regional Director, Region Three.

DECEMBER - 1947
Visitors 4088 Cars 1170

TRAVEL YEAR TO DATE
Visitors 16987 Cars 4207

Weather conditions have been quite pleasant during this report period. Temperatures have ranged from a low of 7° to high of 67°. Over .40 inches of rain on the 3rd forced us to close the road for a day, and two storms in the mountains virtually stalled all traffic for three days.

Visitation, while under last December, has been steady enough to keep one busy on the checking station through the week with two needed on Sundays. Nightly temperatures of 7° to 12° are more than our two oil stoves can handle and the museum is quite cold early in the forenoon. By noon it is usually comfortable again and visitors go through leisurely. More and more are asking semi-technical questions about the Sands and the Tularosa Basin.

After attempting to find a new underground water storage tank with no success the old one was taken to Alamogordo for cleaning and repair, and is now back in service. After long delay a local firm undertook the the cleaning and repairing of the 1,000 gallon truck tank obtained from the Army last year. It has been treated and is now installed on the Ford truck. The additional capacity of this tank cuts mileage on the water haul in half and will represent a sustantial savings in operation [illegible] it has been necessary to have some work done on the diesel this past week. We should have it back in running order in a day or so.

Cooperation with the White Sands Proving Ground turned into a good headache December 1. A Navy search party tried to enter the Monument for a concentrated search east of U. S. 70. After some discussion they decided against it. On December 8 a V-2 rocket landed four and one-half miles west of the loop drive. The Army, after the missile had been definitely located by planes, requested entrance which was granted. This group was very cooperative and little damage was done the area. Both these incidents have been reported in some detail previously.

Service visitors included Sam and Mrs. Hendricks, Henry Schmidt and family enroute home to Sequoia, and Mr. and Mrs. Bill Bowen from Gran Quivera. Mrs. Way, whose husband was one of the early men at Grand Canyon and Rocky Mountain and a personal friend of Mr. Mather, was in.

2 Monthly Report, Narrative

Very little maintenance work has been done. Harold returned to duty the day after Johnadil went on leave which still leaves one man short as far as repair or maintenance is concerned. Foreman Shepperd took full advantage of the rain to get the clay section of our road into good condition again.

We have been advised by the El Paso Chamber of Commerce that very probably the Across America Travel Service will bring a group through the White Sands early in February. More definite information should be received in the next several days. A request for data on the "White Sands Play Day" has been received from Holiday magazine for inclusion in their calender of events. This requestwas referred to the Play Day Committee of the Alamogordo C. of C.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDED NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

December 27, 19 47

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Wupatki National Monument for the month of December, 1947.

Visitors this month: 115 Travel Year to date: 628

Weather: With the exception of a few days, exceedingly mild winter weather has characterized the month. Temperatures were below freezing every night but the days were quite warm with generally clear and sunny skies. One half inch of rain was the only precipitation recorded.

Roads: The entrance road has been open the entire month. For the most part the back road from Sunset has been closed by snow so that few visitors have attempted that approach.

Travel: Calculated from the registration at both the Citadel and at Wupatki Ruin, the travel for the month is the same as that recorded for December of last year. Although the road is in only fair condition, the continued nice weather accompanied by sunny skies no doubt has helped to induce the occasional visitor to make the trip in this far.

Christmas Party: A Christmas Party for the Navajos was held at Black Falls Trading Post. This was well attended by more than 150 Navajos from this general vicinity. Presents consisted of clothing, food and toys for the children. Primary sponsors were the Kellams of the Black Falls Trading Post, Mrs. A. F. Brandis of Flagstaff and Mr. and Mrs. R. J. Fleming of Santa Barbara, California who arrived with many contributions from that community. NPS personnel assisted on their own time. A most successful and pleasant time was experienced by all.

Cooperating Non-Government Agencies: The Movie, Red Ruins and Black Cinder, made another progressive step with the return of the Flemings for the Christmas Holidays. Artifacts at the Museum of Northern Arizona were filmed. The remaining field shots are those of visitors at the Wupatki Ruin. Rex and Maddy combined this photo jaunt with the distribution of contributions to the Navajo.

Spring Flow: An increased water supply is evidenced by the reading of the Wupatki Spring which is 10% above that of last year, measuring 621 gallons for a 24 hour period. On the other hand Kaiser Spring is producing less than 50% of last years flow for the same period, only 1309 gallons for 24 hours. This loss is quite definitely due to leaks in the intake line.

General: The installation and winterization of the tent house was completed. The ailing refrigerators were repaired and are now in good running order. All fire equipment was completely reconditioned and additional tools added that were obtained through transfer from Grand Canyon surplus. Maintenanceman Bean made a trip to Navajo National Monument with a light plant. The 1940 Chev. Navajo pickup was received to replace I-13369. To place in running order it was necessary to expend $150 for a new rear axle and radiator.

Grazing: Contrary to its usual custom the CO Bar Company has not turned any cattle into the Deep Well area adjoining the Monument. They expect to bring the cattle in next month, so that grazing on the Monument will begin at that time.

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Region Three

Santa Fe, New Mexico

February 6, 1948.

MEMORANDUM for the Regional Director, Region Three.

Following the narrative report for Naturalists of the Southwestern National Monuments for the month of January, 1948:

Staff Activities - General

Naturalist Dale S. King was in the office except for seven days, January 19-25, which were spent at Bandelier.

Archeologist Charlie R. Steen made one field trip early in the month to visit Casa Grande and Gran Quivira.

Administration - Interpretation

Tumacacori exhausted its supply of 2-fold leaflets, and preparation of mimeographed copies was started at Santa Fe.

Reports from the field of estimated needs for sales publications were assembled and forwarded. Since many of the Southwestern National Monuments have no sales or storage facilities for sales literature, our immediate ability to avail ourselves of sales literature is considerably curtailed.

Progress in Exhibit Plans and Projects

Pablita Velarde Hardin entered on duty as Museum Preparator at Bandelier January 19. Naturalist King worked seven days at Bandelier preparing air-brushed backgrounds on which Mrs. Hardin will paint illustrations for case No. 16 which deals with native government in the Rio Grande pueblos. Work was considerably hampered by lack of a museum workroom and heat in the museum itself. When empty case No. 16 was opened after eight years, moisture was discovered to have seeped through the outside wall of the building into the case. The wall was painted with Aquella in an attempt to waterproof the case, which also was thoroughly caulked with commercial caulking compound. King also constructed a wooden terrace for the lower part of the case, and made backgrounds for paintings which will be placed in the case entitled "Seasonal Ceremonies of the Pueblos", No. 18.

Accessions - Other Than Library

Steen cleaned and re-arranged a storage room in the basement of Region Three Office building, and assembled and installed steel shelving which was received during the month. The facilities thus afforded will handle the small collections which are kept here, and will make available space for sales publications of the Southwestern Monuments Association.

Research and Observations

Montezuma Castle received a request from a man who wishes to investigate the bottom of Montezuma Well with diving equipment. The matter was referred to the Museum of Northern Arizona for possible scientific sponsorship of the proposed project.

Correspondence was initiated with the Army to obtain further information on military men whose names are carved on El Morro.

King found no time to accomplish work on the Malakihu report, but several illustrations were received, and an analysis was made on cotton fabrics.

Cooperative Activities

The catalog, "American Men of Science" was furnished with a list of Southwestern Monuments personnel for inclusion in the forthcoming new edition.

Professor Fred Worman and Graduate Student Jack Turney of Adams State College of Alamosa, Colorado, visited the home of Naturalist King on Saturday, January 31, discussing with him and Regional Archeologist Erik K. Reed the question of permits for proposed archeological field school work at Bandelier this forthcoming summer.

Region Three Office Loan Library

Accessions for the month totalled 261, including 11 books, 37 pamphlets and reprints, and 213 periodicals. The large number of periodicals received is due to a figt by a friend of the National Park Service who donated a complete run of "Indians At Work" and, in addition, volumes of The Scientific Monthly and The Journal of Forestry which were donated from another source.

The more important books received were:

Curtin, L. S. M. - Healing Herbs of the Upper Rio Grande
Laboratory of Anthropology, Santa Fe, New Mexico, 1947.

Franciscan Fathers, St. Michaels, Arizona - An Ethnologic Dictionary of the Navaho Language.
Max Breslauer, Leipzig, 1910.

Interdepartmental Advisory Committee on Scientific Personnel for the President's Scientific Research Board - The Scientists as a Government Employee. Mimeographed. September 1947.

Lang, Walter B. (Editor) - The First Overland Mail: Butterfield Trail. 2 volumes. Washington, D. C. 1940 and 1945.

Lips, Julius E. - The Origin of Things
A. A. Wyn, Inc., New York, 1947 (An outline of Anthropology).

Southwestern Monuments Association

Treasurer Allen Vedder left on January 20 for a 5-week trip to southeastern states, and in his absence Executive Secretary King kept routine affairs current.

Twenty-four card dispenser boxes were received from the cabinet maker, and approximately half had been sent to the field by the end of the month. The display case for Association sales publications at Tumacacori was almost completed at the end of the month, and will be shipped to the monument when wiring is installed. Authorization was given to another cabinet maker to complete a second case of the kind which will be sent to White Sands, where display facilities are meager.

Correspondence ensued concerned a proposed sales publication for Carlsbad Caverns National Park. If this project can be completed, sales of the publication by the concessioner there will, it is believed, furnished considerable funds for a proposed Naturalist History Association at that park.

Correspondence with respective custodians indicated that miniature photographic sets should be prepared for Chaco Canyon and Gran Quivira National Monuments. Work on these will have to be postponed indefinitely.

Instruction was given to the Custodian of Tumacacori to prepare a popular manuscript on his personal time for publication to replace the 25-cent booklet which is now on sale there. Supplies of this obsolete booklet are almost exhausted, and it is hoped a new booklet can be published before the next winter heavy travel season.

Photography and Visual Aides

With the employment of Marvin H. Frost, Sr., as seasonal ranger at Saguaro National Monument, Custodian Egermeyer suggested that the monument be furnished with an adequate supply of film so that Mr. Frost's exceptional photographic ability may be utilized to build our files of desert pictures. Some film was ordered through government channels, and additional supplies will be obtained by the Southwestern Monuments Association, if needed.

Wildlife Management

The Custodian at Walnut Canyon was instructed to prepare PCP sheets for two projects to provide permanent water near the rim of Walnut Canyon

to keep the local herd of deer from concentrating along the public highway, where hunting pressure is terrific.

A list of Southwestern National Monument personnel in New Mexico was furnished to the State Game Warden who will issue non-salaried honorary game warden cards.

Ruins Stabilization

Steen visited Casa Grande and Gran Quivira National Monuments to make additional plans for ruins stabilization jobs. A new International dump truck was received for the mobile unit at Chaco Canyon, and a small cement mixer was purchased to be used on various minor jobs throughout the monuments.

Additional correspondence was carried on concerning the problem of attempting to preserve the fresco paintings at Tumacacori. An expert in the east has asked that the custodian prepare an illustrated report of the extent and nature of work required.

Additional consideration was given to the kiva roof at Aztec Ruins National Monument. Timbers of this crib-work structure have rotted and these need replacing unless a decision is made to eliminate this restoration, which, although good interpretively, does conflict with accepted service policy against restorations in place.

Aid to Administrators

Due to illness of a secretary, Naturalist King prepared the condensed report for the Assistant Regional Director.

Projects for February

King hopes to remain in the office for the greater part of the month to handle routine affairs, prepare the first mail brochure for the Southwestern Monuments Association and work on stabilization and archeological reports.

Steen will go to Casa Grande about February 15 to spend about a month on stabilization of Compound A.

Dale S. King,
Naturalist.

Approved for Distribution /s/ John M. Davis, February 6, 1948.
Assistant Regional Director.

cc: Mr. Dodge.
Monument Circulation (2).

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Arches
NATIONAL MONUMENT
Moab, Utah

January 27, 1948

MEMORANDUM FOR the Regional Director, Region Three:

The following is a narrative report for Arches and Natural Bridges National Monuments for the month of January, 1948:

GENERAL: Travel for the month was very slow, due in part to the extremely cold weather and snow. This has been the longest period of continuous below freezing temperatures experienced in Moab for many years.

The custodian was on annual leave for four days during the latter part of December.

WEATHER: Below freezing temperatures were experienced throughout the month, with snow on two occasions. For the last four days a cold north wind has been blowing. The old-timers predicted a thaw about January 25th but it has not arrived to date.

TRAVEL: A total of 32 cars and 87 people visited the area during the month. This about doubles last months travel and is approximately four times that for the same month last year. We had representation from Arkansas, California, Colorado, Idaho, Montana, New York, Utah and Wyoming.

INTERPRETIVE SERVICES: No guided trips were taken during the month. Twelve people were contacted at headquarters and 85 people visited the Windows section unattended.

COOPERATING GOVERNMENTAL AGENCIES: A warning sign, regarding excavation of fossils under the Antiquities Act, has been received from the Bureau of Land Management with a request that it be placed at the site of the Dalton Wells dinosaur deposit. This will be accomplished as soon as the frost leaves the ground so that the necessary excavation can be made.

Road construction by Grand County has progressed very well despite the cold weather and the small construction crew, consisting of a bulldozer operator and a compressor man and driller. The crew returned to work on January 5th, after the holidays. On January 24th I drove the pickup into the Devil's Garden section, the first time a car has been in this area. The road has been completely roughed out to the site of the contemplated parking area. Two more culverts remain to be installed and

considerable drilling and shooting must be done for drainage ditches. Foreman Beeson estimated that this spur would be ready for finishing on January 31st but the cold weather of the last three days will probably prolong this estimate. To date 8.8 miles of road have been constructed. The total length of the Devil's Garden spur is 6.2 miles. Work will be started on the Fiery Furnace and Delicate Arch spurs during the coming month.

PRIVATE LANDS: Secretarial approval has been received for the purchase of the Turnbow property, near Delicate Arch, and final details on the contract will be taken care of during the next two weeks.

ROADS: The approach road into the Windows section has been rough but passable during the entire month. Freezing weather has prevented maintenance by the State but it is hoped that we will get a thaw during the early part of next month so that this road can be placed in better shape.

MAINTENANCE: The 3 kw power unit ceased functioning on December 27th. It was taken to Moab for repairs where it was found that a valve spring had broken. Repairs were completed on January 8th and it was returned to the monument and installed.

NATURAL BRIDGES NATIONAL MONUMENT: No activity at this area during the month due to snow on the approach road.

A radio broadcast over KSL at Salt Lake City on January 26th stated that the Carbon County Chamber of Commerce at Price, Utah had taken exception to the expenditure of money for the construction of a bridge over the Colorado River at Hite, Utah. They stated that the funds necessary for this construction could be better used to replace the present inadequate bridge spanning the river at Moab on US 160. Public sentiment seems to be against the Hite project in this vicinity.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Extremely cold weather had adverse effect on travel.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

Talks: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

Attended Interpretive Stations: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

Unattended Interpretive Devices: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

Interpretive Activities Outside the Area: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

Column #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

Column #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

Interpretive Activities Outside of the Area ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

Totals: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. Total Attendance SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

24 January 1948.

MEMORANDUM for the Regional Director.

There follows the report of activities in Aztec Ruins for January 1948.

WEATHER. Generally excellent with cold clear days and no snow or rain. Travel has done fairly well, but has not come up to expectations even with the fine traveling conditions that have prevailed.

MAINTENANCE. Considerable time and effort have been expended in removing and repairing the domestic water pump and motor, uncovering the water storage tank and exploring for leaks and in repairing worn out plumbing and sink equipment at the residence.

The manholes recently added to the ruins drainage ditch are now complete with new concrete pipe placed into position and manhole covers completing the project.

PERSONNEL. The Custodian began annual leave the 19th January and was relieved by Park Ranger Tom Onstott from Bandelier. We are grateful to the Custodian of Bandelier and others of the Regional Office who made it possible to send Ranger Onstott to Aztec as relief man.

SPECIAL ACTIVITIES. The Custodian presented the colored 16mm Carlsbad Caverns film to the Aztec Parent Teacher's Association. Altho it is a sound film the picture is being presented as a silent and is to our way of thinking a very fine picture depicting the beauties of the "Caverns". We have plans for using the film for the next 2½ months in and around Aztec. The film was shown a second time on the evening of the 20th, to the MIA of the local Mormon Church by Ranger Onstott.

TRAVEL. The 385 visitors to the monument this month made an 80% increase over the same month last year. Twenty-five states were represented in this month's count, but there were no foreign visitors.

Interpretive Services. 286 people in 67 parties went through the ruins, ~~over twice as many as~~ for the same month last year. 385 people in 90 parties visited the museum.

Irving D. Townsend,
Custodian.

BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

January 28, 1948

Memorandum for the Regional Director, Region Three.

There follows a report of the activities at Bandelier National Monument for the month of January, 1948

Weather

In keeping with the cold waves that have been striking other parts of the country the mercury registered 18 degrees below zero the night of January 27 and was the coldest temperature recorded since weather records have been kept at the monument. This followed by one day the third 7 inches or more snow of the winter. A total of 18.5 inches of snow was received during the month.

Special Activities

The Custodian attended a meeting in the Regional Director's office on January 6 with members of the regional office staff and Mr. DiLuzio of the Atomic Energy Commission, Los Alamos, N. Mex. to discuss the right of way for a road through the Otowi section of the monument to serve Los Alamos, connections for power and telephone lines for the monument from Los Alamos lines, and proposed boundary changes to give a common boundary with Atomic Energy Commission lands.

Ranger Onstott attended a meeting of the American Anthropological Society in Albuquerque December 28-30 and the Custodian with Foreman Crem attended the regional archeological meeting in the regional office on December 30.

Roads and Trails

Work was begun the middle of the month on clearing a section of trail just below the lower falls in Frijoles canyon that was blocked by a rock slide several years ago. The removal of the rock was completed but surfacing with dirt and gravel was delayed by the heavy snow at the end of the month. Some work was also accomplished on clearing the trail above the falls of small rocks that have fallen in to it during the winter.

FOR DEFENSE
BUY
UNITED
STATES
SAVINGS
BONDS
AND STAMPS

We were very pleased to receive word that a patrol grader has been awarded to this area from surplus property and that it will be received prior to the heavy travel season. This piece of equipment has been needed since the State stopped maintenance on highway #4 and will enable us to keep the approach road in much better shape.

Slowly melting snow kept the ruins trails in a soft, sloppy, condition during most of the month and made walking somewhat disagreeable for the visitors. Drainage and crowning of the trails will help to improve this condition.

Approaches to Monument Area

It was with a great deal of pleasure that it was learned that the State Highway department has finally received the steel for the Otowi bridge on the Pojaque cutoff and that prospects are good for its early completion by early summer. This will eliminate the last detour on State highway #4.

Interpretation

A total of 48 parties were guided through the ruins during the month and 27 parties were conducted through the museum. In addition there were quite a number of visitors that went through the museum but did not take a ruins trip. The museum was so cold, however, that the visitors did not spend much time there. It would be a distinct advantage to the visitors and to the interpretative program if some heat could be furnished in the museum.

Museum Activities and Exhibits

Mrs. Pablita Velarde Hardin, noted Indian artist from Santa Clara pueblo, began work on exhibits for three of the museum cases on January 19. She will prepare paintings for exhibits on indian government, seasonal ceremonies, and the use of animals. We are indeed fortunate to secure her services at this time and completion of these cases will finish an entire room of exhibits on which she started work in 1939. Naturalist King spent one week in the area outlining the material and information that is to go into the exhibits.

Travel

In spite of inclement weather at the beginning and end of the month travel to the monument showed a marked increase over the same period last year. 378 persons visited the monument which is a 52% increase over January 1947 and gives us a 44% increase with 3510 persons for the travel year.

Ranger Service

Ranger Onstott was detailed to Aztec National Monument on January 18 to act as Custodian during the absence of Custodian Townsend and will return about the middle of February. This puts a strain on the schedule of conducted trips but by the cooperation of other personnel we are able to maintain the high standard for which Bandelier is known.

Building Fire Protection

The quarterly inspection of building fire hazards was conducted by ranger Keefe and a leak was discovered in a connection of the propane gas system in residence #1. This was corrected by the maintenance man as soon as it was reported.

Stabilization

The ruins stabilization crew continued work to the middle of the month when it was necessary to discontinue activities until the weather permits the use of cement. "After" pictures were taken of 12 rooms and "before" pictures were taken of 75 rooms in Tyuonyi ruin. The walls of 75 rooms of tiers 30 through 51 were cleaned in preparation for packing with soil cement which makes a total of 155 rooms that are ready as soon as weather permits.

"Before" pictures were taken of rooms 1 through 211 in the Long House ruin and dry masonry was set on some of the walls and where foundations were showing to a depth of three courses of stone.

Personnel

It was with much regret that we said good by to clerk Glen Bean who transferred as ranger to Organ Pipe Cactus National Monument on January 24. Glen served in this area for a little over a year and his work was outstanding so that he well deserved the promotion to a higher position. The best wishes of the Bandelier staff go with him to his new assignment.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH ROOMS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COOPERATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

CANYON DE CHELLY NATIONAL MONUMENT
CHINLE, ARIZONA

January 26, 1947

MEMORANDUM for the Regional Director, Region three.

The following is a report of activities at Canyon de Chelly National Monument during the month of January, 1948.

Weather

The weatherman was good to us this month and we have had a very mild January with a Maximum temperature of 62 degrees and a minimum of 8 degrees. However as this report is being written we are having the biggest storm and coldest daytime weather in my five years as custodian.

Administration

The Custodian returned to duty from annual leave on January 5. A laborer was hired to take care of the physical improvements and on my return I found everything in good order. Much time was spent in taking care of the office work and correspondence that piled up during my absence. One trip was made to Gallup, New Mexico for supplies.

Maintenance

More material was dumped on the approach road and it was bladed by the Indian Service. The Pump engine was worked over and is still pumping although each time it goes on the blink I wonder if it hasn't given up the ghost. The Gas tank on USI 13719 was removed and various and sundry leaks repaired with solder. Patrols to Antelope and White house were made.

Publicity

The latest advertisement for the Allis-Chalmers Company features a picture of the White House ruin. I ran across this in the last issue of News-week.

Travel

Travel was heavier than any previous January with 48 visitors. A total of 7½ hours was spent in guide work and two and a half hours in orientation talks at Headquarters.

Visitors

Mr Preston Walker, Editor of the Grand Junction Daily Sentinel and an old School day friend of the custodian visited the area with his wife and stayed overnight.

General

Mr. L.H.(Cory) McSparron underwent an other operation for his stomach trouble early in the month and has just returned home. He is still pretty weak but thinks that he will be helped greatly.

NAME Meredith M. Guillet

TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS ENQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COOPERATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

JAN 29 1948

Capulin New Mexico,
January 26, 1948

Memorandum for the Regional Director
Region Three, National Park Service,
Santa Fe New Mexico,

There follows a report of the activities in and around Capulin Mountain National Monument for the month of January. 1948.

Only about seventy five visitors thru the month bringing total visitors to date for the travel year to fifty one hundred seventy five, and the total visitors for the fiscal year to date to twenty four thousand six hundred seventy five.

Weather was fairly nice for the first ten days but since then it has been rather rugged, about twenty inches of snow has fallen and there is now on the ground about ten inches, so far this month we have had five snows from two to six inches each totalling about twenty inches, Cattle men are uneasy and hay is selling for thirty five to forty dollars per ton, this is just about a record all time high, some texas cattle brought in for the winter are not doing so well while the local cattle here in much better condition,

The Custodian has removed the snow from the road on the Monument so many times this winter that he has just about lost heart, It is now too deep to even attempt to remove with the equipment that I now have and think I will beg to the State to give me one round with their heavy equipment, This of course will be several days for the State is real busy right now with troubles of their own removing snow from the principal Highways in this District,

We are planning on getting the gravel spread on the half mile from this Monument to Federal Highway 64, this will give us an all year round road to the Monument, We hope to get this done in the coming month,

Seventeen deer was sighted in the crater a few days ago by some visitors, They appeard to be quite gentle,

Very Respectfully,
Homer J, Farr,
Custodian

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Casa Grande

January 26, 1948

MEMORANDUM for the Regional Director,
Region Three.

There follows the narrative report for Casa Grande National Monument for January, 1948.

General: The winter visitor season is now in full swing with both Tucson and Phoenix outdoing themselves to keep the visitors entertained. Rodeos, horse and greyhound races, are recording record attendances, and payoffs on the betting have been the largest paid out in this section. Water is still a major problem and there is now a move on foot to set up regulations to control it's use. There is a race on between the legislators and the land speculators. The speculators are trying to sink as many wells as possible before the regulations go into use. Coolidge Dam reports the smallest amount of water in reserve at this date since water use was started. Farmers are being warned to plant on basis of present supplies of water and not count on replenishment of the supply later.

Weather: With the exception of the first day of the report period the days were warm, with plenty of sunshine. Maximum temperatures ranged in the high 60's and 70's, and three days the 8, 9, and 10: maximums reached the low 80's. Nights were cold and with the exception of 6, all minimums recorded were below freezing. The low was 20 above registered on the first. Compared to last year the month as a whole was warmer. No precipitation was recorded during the month.

Visitors: January 1948; 5539: January 1947; 4556: Travel year to date 1948; 14,620: Travel year to date 1947; 12,372. The biggest visitor total registered at this monument since the charge was put into affect was put through the turnstiles this month. The biggest month prior to this was Feb. 1947 with 6517. If we get the same per centage of increase that we have been geeting we should have well over 6000 in February. Revenue from ticket sales amounted to $329.10 with 3097 tickets sold. SAW Association sales for the month was $255.10.

Interpretive Services: Of the 5539 visitors to the area, 3706 made the Ruins trip, in 214 trips averaging 51.4 minutes. 3394 made the museum trip in 179 trips averaging 27.4 minutes. Question of the month: "Does a person die when an Indian scalps you?"

Maintenance: Doors and windows in quarters # 2-4 were partly rebuilt and all outside woodwork repainted. The bathroom was given one coat of enamel and the other rooms are being kaltomed. The water pipe on the main line sprung a leak and on digging it out we found that chlorine had eaten through the T joint making it neccessary to replace it. This could mean that we will be having trouble with the rest of the line soon and may require replacement of pipe and valves throughout the system.

Administration & Protection: Architect Saunders was in and checked over the roofing job on the utility area buildings, which was done by the Tucson Roofing Co. The roof has been leaking some and it was decided that part of it was due to faulty workmanship and some of it due to not going far enough with the specifications on the repair work. Two trips were made to the Adamsville Site checking for vandalism. We believe that if this is to be our responsibility, that it should be fenced and posted soon because the present system of protection is not satisfactory.

Trips Taken: Maintenanceman Barnett made one trip to Phoenix to secure materials and parts for repair work on the water line and other systems.

NPS Visitors & Visitors of Note: On Jan. 5, Custodian Egermeyer and Maintenenceman Barney of Saguaro were in to pick up some equipment. Jan. 16 Architect Saunders and his wife were in. Jan. 21, Custodian Supernaugh brought in some equipment to be repaired.

Mechanics Activities: Leave was taken by mechanic Stonehocker through Jan 2, of the report period.The following equipment was worked on and general repairs made to the following.

Area From	Equipment
Big Bend	International Tractor
Saguaro	Road Drag
	Trailer Hitch
	Chevrolet Pickup
Organ Pipe	Ford Pickup

Chaco Canyon NATIONAL MONUMENT

Bloomfield, New Mexico

January 25, 1948

MEMORANDUM for the Regional Director, Region Three,
National Park Service.

There follows the report of activities in Chaco Canyon National Monument for the month of January, 1948.

This month, there were eleven visitors to Chaco Canyon. They came in four automobiles from the states of:- New Mexico - 2 cars, 6 visitors; Nebraska - 1 car, 3 visitors and Washington - 1 car, 2 visitors. All eleven persons took the ruins trip and listened to the museum talk. The visitors formed four parties. The custodian spent five hours and fifty-five minutes with them.

The coldest this month was -10 degrees on January 1, and the warmest was 65 degrees Fahrenheit on the eighth of January. This month, we have had two nights of sub-zero weather and .52 of an inch of moisture as compared with a year ago when there were 10 nights of sub-zero weather (once 24 below), some rain and 13 inches snow.

The Farmington Chamber of Commerce, the Gallup Chamber of Commerce and other interested parties were contacted by various Chaquenos in regard to the roads. As a result, a grader, a dump truck and a crew of men spent four days on the north approach road. It is now in excellent shape. We have promises on the south road.

The Chaco roads were graded by Chaco personnel.

The Custodian attended the meeting of archaeologists at Regional Headquarters, which was held December 30 and 31. From there he took annual leave, and was gone eight days.

Forester Harold Ratcliff was here January 19 through January 22 to determine the possibilities of livestock crossing permits.

The Custodian spent two days with the Operator of the Trading Post in getting the annual financial report straightened out.

The pickup was taken in to Gallup for more adjustments, for it is still within the three month guarantee."

The Trader reports that he is getting more rugs than last month, that trade is holding up well for this time of year, and that he has instituted a bonus system in payment for the Navajo rugs. In each given period, the producer of the rug judged the best will be given a prize or bonus. He has disposed of the jewelry left over from last year, and will get in a new stock for the 1948 year.

At the end of the month, there were on hand:-

Free two-fold leaflets describing Chaco Canyon National Monument, approximately..7940

Chaco Canyon ..... NATIONAL MONUMENT

Bloomfield, New Mexico

January 26 ..... 19 48

MEMORANDUM for the Custodian,
Chaco Canyon National Monument.

Continued cold weather and Navajo Relief have put a stop to laying repair masonry at Chettro Kettle. When the weather slowed this work down we sharply curtailed the size of the crew. Those laid off applied for the Red Cross - Navajo Service Relief. With the forms "Requests for Assistance" circulating, the rest of the men but two promptly quit and applied for aid. The two men still working have also applied for assistance but as it hasn't arrived yet they are still on the job.

Five days, one work week, have been lost to the weather.

One trip was made to Santa Fe to attend meetings of the American Anthropological Association and the Regional Conference.

Papers for Raymond Rixey's appointment to the SP-6 position, Archeological Aide, came through and he entered on duty Dec. 29th. He has been absent on leave without pay since the 16th of this month, called to Raton, New Mexico by serious illness in the family.

The first part of the month was spent continuing the foundation repairs in the east section of Chettro Kettle and replacing one large patch laid about 1932 which has just recently broken out. Since relief we have completed one large set of external braces for a leaning wall, hauled concrete sand from the San Juan, caught up on the reports and forced ourselves into getting out some 20 pages so far, of data for a stabilization manual.

The external braces were set on the south wall of room 57. This wall is 22' long, 11' high and leans slightly more than a foot or over half of the width of the wall. Concealed plate and beam anchors were set in the wall of kiva J and in the juncture of I and J. A continuous plate was run along 57 and tied through the wall to the anchors by means of three turnbuckles. The plate will not be visible to visitors, the anchors are covered and it only remains to conceal the turnbuckles.

For the next month we plan to continue work on the manual, complete some experiments begun last summer on casting lintels, run tests on some waterproofing material and when the weather improves either straighten or apply braces to room 70 E.

Gordon Vivian
Archeologist

* INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICES, TRAILSIDE EXHIBITS, SELF-GUIDED NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA AS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

JAN 19

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

CHIRICAHUA NATIONAL MONUMENT

Dos Cabezos, Arizona,

January 25, 1948.

MEMORANDUM for the Regional Director,
Region Three.

There follows a report of activities at Chiricahua National Monument for January.

General. Ranger Ray Ringenbach arrived January 13, having transferred from Organ Pipe Cactus to fill the permanent ranger position at Chiricahua. Maintenance Man Marble took one days annual leave and ten days sick leave for a minor operation. Custodian Cooke took one days leave for dental treatment. After weathering quite a little sickness for the past three months it now looks as though the maintenance man and custodian can be classed, once more, as able bodied workers. With the permanent ranger position filled again, we now hope to get some work done.

Weather. Two snows fell during the period. One of 10 inches just before New Years Day closed the road for two days. A lighter one fell January 18 but did not seriously effect the road. Total precipitation for the month was 1.36 inches.

Weather records were compiled for 1947 and some interesting facts revealed. The total precipitation for the year was 13.95 inches; the lowest of the eight years on record at Chiricahua. Of this moisture over half, 8.09 inches, fell in August. The first six months of the year had only 2.78 inches of moisture.

Inspections. Architect Saunders and Mrs. Saunders spent part of January 14 at the monument. Some minor questions in regard to the enlargement of the headquarters parking area were ironed out very satisfactorily.

Complaints. One verbal complaint was received by a New York man who got stuck in the snow on New Years Day and blamed the Park Service for not having an notice up that the road was impassable. After considering the fact that the gentleman thought that he was on the through road to Rodeo and that he had quite a little scotch under his belt, the Custodian eased out of the picture and left him to find his way back to New York.

Approaches to Monument Area. The road over the mountains to Rodeo has been closed since the first of the year, and will likely stay closed until towards Spring. All other approach roads remain in fair condition.

Monthly Narrative Report - Chiricahua - January, [illegible]8

Interpretive Service. 646 visitors were contacted in the museum in 163 parties.

Increase in Travel. 781 visitors were recorded at Chiricahua for the month. This compares with 332 for December and 589 for January of last year. Our lead is now 8% over last travel year.

Insect and Tree Diseases. A study of the flat head borer infestation in the Douglas Fir stands has been started by the Custodian and can probably be completed during the next month.

Clair V. Cooke

Clair V. Cooke,
Custodian.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

~~El Morro~~ NATIONAL MONUMENT

Ramah, New Mexico

January 25, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows the report of activities in El Morro National Monument for the month of January, 1948.

WEATHER: For January we have had unusually warm and pleasant weather inspite of a record low for the year of 14 degrees below zero. The maximum temperature stayed above 50 degrees for 17 days and for nine days was above 40 degrees. There were only 5 days when the maximum dropped below 40 degrees. Only five inches of snow fell during three light storms giving us a total precipitation of .30 inches.

APPROACH ROADS: Due to very light snow and unexpected maintenance our roads have been in better shape than any time during the year. However the visitor does not realize this because he hasnt any idea how bad they can be, and the usual complaint about the road is still the first words uttered by every party. The excuse from the State Highway Department for the delay of the survey of Highway #53 is that they are unable to get the necessary Federal Aid. A check with the PRA is being made by the Regional Office to confirm this statement before the local people in area start to blow their tops.

TRAVEL: Travel to the monument came with the pleasant weather. A total of 62 people from 10 different states arrived at the area in 21 cars. Checking the travel reports from 1937 I find that this month's report sets a record for the month of January. Fifty-six people made the tour of the Inscription in 18 trips and the total guide time amounted to 19 hours and 35 minutes. Six people arrived for information only.

RADIO CONTACT: On January 20th. and 21st. very satisfactory contacts with Regional Office KNKO and Bandelier National Monument KNKP were made. On January 25th. KNKP attempted to contact Chaco Canyon National Monument KNKA. Both stations were able to hear each other, but not plainly enough for satisfactory conversation. Another attempt for this contact will be made on January 26th. Communication with the Regional Office for El Morro and Chaco would mean a great deal for our mail service at times reverts back to the Pony Express days.

GENERAL: With the unusually warm weather it was possible to accomplish unheard-of jobs for this time of the year. A gate valve below the doping tanks was replaced , excavating to a depth of four feet and finding no frost. Ground was leveled for the generator house. Four tons of coal were transferred from the outside bin to the cellar bin. One load of wood was cut and hauled. General cleanup of thearea and many other small jobs which normally have to be done in the fall or spring were possible. Two trips to Grants and Gallup for supplies were made and one run to the regional office.

Number of copies of free publications on hand as of the end of January, 1948.

120905

GRAN QUIVIRA

GRAN QUIVIRA, NEW MEXICO

JANUARY 26 48

MEMORANDUM for the Regional Director, Region Three.

The following is a report of activities at Gran Quivira National Monument for the Month of January, 1948.

General. After a snow-bound beginning January turned out to be an unusually warm and pleasant month. Travel was good for January, but confined mostly to local people.

Weather Conditions. A snowstorm of 10½ inches on December 30 brought 0.87 inches of moisture. Roads to Mountainair drifted in and were not reopened until January 5. A high of 62° was recorded on January 8; a low of 10° on January 2, 17 and 20.

Inspections. Two members of the Regional Office personnel visited Gran Quivira this month, Archeologist Steen on January 10 and Architect Saunders and Mrs. Saunders on January 23. Both men brought news of increased activity for this spring. Local residents are pleased with the prospect of temporary employment.

Maintenance. The 2-wheel trailer was completed early in the month and given a coat of green paint. Its use simplifies the hauling of water, flamo, etc. to the area.

A break in the telephone line caused by the December 30th storm was repaired.

A road drag was constructed and the entrance road smoothed up after the storm. The drag is a bit too heavy for the 1937 Ford, but if a heavier truck becomes available later, should enable the Custodian to keep the road in good condition and the growth or weeds down along the shoulders. A new culvert was ordered by the Regional Office to replace the rotten wooden one at the gate which bypasses the cattle guard.

Weeds have now been removed from the ruins. The acquisition of a new weed burner should solve the weed problem in the future. It is a very effective outfit.

During the month the pit toilet was moved to a new location where it can be more readily located by the public.

The old path from the register box up to and over the west wall of the ruin was torn up. Shrubs growing in the ruin will be transplanted to the path and with a little judicious placing of rocks this path should be obliterated next summer. It is the old footpath which was still used by locals to the detriment of the walls they crawled over.

Approaches to Monument Area. Grading, preparatory to oiling, has now been completed on approximately 5 miles of the 8½ planned on Hiway 10 from Mountainair. State road maintenance on the remaining 20 miles didn't amount to much this month.

Interpretive Service. 29 parties totalling 68 people were conducted through the ruins during the month. Average trip time, 50 minutes.

On December 29 a party of 3 from California arrived equipped with a home-made radio detector device to reclaim the Gran Quivira treasure for the Catholic Church (on a percentage basis of course). Unfortunately or otherwise their batteries were dead so that the tons of gold of Gran Quivira remain unmolested. Since they could not return they were kind enough to tell me exactly where to dig. It is a comfort to me to know just where all the gold is buried -- especially with the cost of living rising every day.

Increase or Decrease in Travel. As indicated below travel for January showed an increase over last year. Total cars for the travel year are above last year, but total visitors for the travel year remain behind.

	CARS	VISITORS
January, 1948	31	77
January, 1947	20	72
Increase or Decrease	11	5
Percent	55.00%	6.94%
This travel year	129	370
Last travel year	110	390
Increase or Decrease	19	-20

Region Three.

There follows the report of activities in Great Sand Dunes National Monument for January, 1948.

WEATHER. The old year left us with a cold snap--December 28 registered -7; 29, a -5 and 31, a -1. Winter weather made a come-back during January with night temperature readings of zero to 26 above and daytime readings of 6 to 55 above.

Snow fell on December 30, January 18, 22, 23, 24, 25 and 26. Snow began falling the evening of the 22 and continued off and on during the next four days. There is about ten inches of snow around headquarters with drifts over three feet high in places. A wind of about 40 miles per hour is blowing and as this report is being written, the temperature stands (sits would be a better term) at -4.

Its surprising (to us) to note that all snow has been blown off the road as far as our visibility (500 ft) permits. How the approach road is faring during this storm is unknown.

TRAVEL. One hundred seventy-nine visitors in sixty-six cars, visited the Sand Dunes during this report period. Eleven states were represented. Twelve people had lunch in the picnic areas.

INCREASE IN TRAVEL. Travel increased over last month, due to warmer weather over week-ends. Sunday contact (5 days) amounted to seventy-one visitors.

January, 1947 travel figures show 32 cars and 110 visitors.

ROADS. The state graded the approach road on December 29 and it has remained in excellent shape for the month. At present writing it may be covered with snow and also drifted.

New directional signs have been placed at the junction of Highway 17 by the state and this should increase our travel when the tourist season begins.

The monument road is in good condition, but it is doubtful if a car could now drive down to the lower camp-ground due to accumulated snow on that poor section of the road.

WILDLIFE. Five coyotes, three skunks and one porcupine were seen at headquarters.

ACTIVITIES. Bids were sent out to firms in Alamosa and Monte Vista for oil furnace and linoleum for kitchen and bathroom in custodians residence; and toilets for public restrooms in the checking station. It is doubtful if the large sized oil furnace can be obtained at this time; also there is again a shortage of toilets and it is understood the town of Alamosa could sell 500 over-night if they could be obtained. It is hoped that at least a bid will come thru on the linoleum.

Bids were also issued to Alamosa and Mosca garages for repair on the automotive equipment at Great Sand Dunes.

The Servel propane refrigerator was finally received; it is an eight cubic foot Deluxe model. It weighed 540 pounds and required four men to load it at Mosca and then unload it and place it in the kitchen. Approval must be obtained from the Director's office in order that a propane system may be installed. The garage at present is a mighty fine ice box, but it is hoped that the propane system can be installed at least by spring, as it will be a wonderful treat for us to use such an elegant refrigerator.

The kitchen sink drain became thoroughly stopped up and two days were required to reopen it. The first attempt was made with the garden hose but with no luck. In the past this system had worked out well. An inspection was made via hose and heavy wire of the vent pipe. By poking and prodding, about a pound of putty was pushed down the pipe and then removed by the spoonfulls thru the pipe under the sink. Evidently when the plumbing was put in, whenever a teaspoonfull of putty would have done the job, a handfull was gobbed around the joints. After opening the vent pipe, darkness set in and stopped work. The next day a rush trip was made to Alamosa to buy a 50 foot auger and cleaner to boil out the stoppage. A trial run was made with the auger and then again; the two cans of cleaner were spooned into the pipe and once more the kitchen sink is functioning.

The repaired Ford dump truck was received from the Heide Garage in Mosca. The Dodge 4x2 is to be taken in as soon as weather permits, to install a new left front spring which was made at the Denver Spring Co. This should make a decided improvement in the smoother riding of the pickup.

Routine duties were performed at headquarters; contact duty on Sundays; shoveling snow; hauling fuel oil and gasoline from Alamosa and office work kept current.

A trip was made to Region Three Office on January 15 and 16, my lieu days.

FIRE PREVENTION EQUIPMENT. Two one-gallon CTC extinguishers were received from Zion National Park and were promptly placed in service.

PUBLICATIONS. There are on hand, 1688 mimeographed informational leaflets. A request was answered for 50 leaflets to be sent to the National Automobile Club of Oakland, California.

Fed C. Sowers,
Custodian.

ADDITIONAL WEATHER DATA.

January 26 - The 40 MPH wind blew for 30 hours. Minimum temperature registered -5.

January 27 - Minimum temperature registered -22.

January 28 - Minimum temperature registered -31. Alamosa was again the coldest spot in USA with minimum of -30.

January 29 - Minimum temperature registered -7. State Highway snow plow opened up the approach road from Highway 17 to headquarters.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILITATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NATIONAL PARK SERVICE

Montezuma Castle National Monument
Camp Verde, Arizona

January 24, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly report of activities at Montezuma Castle National Monument for the month of January, 1948.

Visitors this month - 1325; travel year to date - 5242.

Administration The custodian and his family was on annual leave Christmas week for a very enjoyable visit with Custodian Jackson and family at Tumacacori. We also took the opportunity to acquaint our daughters with the monuments enroute.

The 176 franked mailings allowed for the rest of the fiscal year beginning November 1, 1947 imposes a severe limitation. When we subtract those already used and allow for those needed to make remittance from ticket sales, we have left less than two mailings per week. Stamps supplies by Southwestern Monuments Association have enabled us to answer requests for information.

Considerable time was required to secure finger prints and Loyalty data from two Indians hired for four days last August.

Most of January 15 was spent conferring with Architect Saunders on matters pertaining to Montezuma Well.

Archaeologist Schroeder was on duty 12 days at Montezuma Well and was otherwise occupied as follows: On travel status December 27 - 31 to attend archaeological conferences in Albuquerque and Santa Fe; 4 hrs. sick leave January 6 in A.M.; 6½ days working at the Castle.

As this is written Ranger and Mrs. Loding and their daughter are recovering from what appears to have been a case of food poisoning.

Weather The weather has remained ideal for travel with day temperatures ranging in the sixties and nights in the twenties. There has been no moisture of any kind.

Maintenance The water heater in Residnece No. 1 failed and the coil was removed for cleaning.

Redecoration of the kitchen in Residence No. 1 is almost complete.

Our water pump was cleaned, adjusted, and the oil changed.

At Montezuma Well rubbish clean-up was continued with 15 loads taken to the dump. An outhouse near the quarters was torn down, old wagons and broken farm machinery were removed, and the barn area partially cleaned.

Interpretation The museum catalog was checked and all loose pictures re-glued. The rubber cement used on these pictures is unsatisfactory, and dry mounting tissue was used in replacing them. Work was continued to bring our museum catalog record up to date.

Archaeologist Schroeder's article on Montezuma Well is carried in the current issue of Plateau. It is being considered as a reprint for sale.

Fact files at the Well were brought up to date, a few more artifacts were catalogued, and a label was made for the Mesa Verde mummy at the Castle.

Two reels of pictures, "Glimpses of the National Monuments and National Park in Arizona" and "Pima Indian Basketry and Pottery Making" were shown to 750 school children and adults in the Verde Valley. These included schools at Camp Verde, Cottonwood, Clarkdale, and Jerome and the Camp Verde P.T.A.

Protection Cattle have been coming through the water gap at the Well regularly and leaving evidence of their visit around the museum and picnic grounds which are not fenced off from the water gap.

Boundary In rechecking the boundary markers set by Engineer Bradley it was found that the stake and pile of rock set up on the bank of a wash on the southwest corner of the property had been washed away.

Roads Surveyors working on the proposed Black Canyon Highway have located preliminary stakes through a canyon about one mile west of the Well which is the nearest approach of the road. The last location stakes are two miles north of Camp Verde on the east side of the river. Other preliminary stakes pass the Castle entrance.

The county road from McGuireville to the Well is being widened in spots and the bed is being improved.

Use of Monument Facilities By The Public There were 1106 visitors to Montezuma Castle who came in 335 cars and 219 visitors in 67 cars were counted on the 12 days when Schroeder was on duty at the Well. We are unable to make any estimate of visitor use at Montezuma Well when Schroeder is not there because we are out of guide booklets for the trail. When these are available, the number removed from their box gives us some idea of the number of parties who have visited the area.

Schroeder was on duty at the Castle Christmas Day and contacted 14 cars with 54 visitors. Leding on duty at the Castle New Year's Day contacted 16 cars with 50 visitors.

Tickets were sold to 289 visitors, Complimentary Admission Tickets were issued to 29 visitors and 41 children were admitted free.

Contact Time Total contact hours at the Castle - 116; Hastings 49.75; Leding 43.25 and Schroeder 25. Ninety trips were made through the Castle for 360 visitors and 662 visitors were contacted in the museum in 149 groups. One hundred forty-three visitors received information outside the ruins or museum.

Projects for Ensuing Month Paint has been purchased and is to be applied to the house at Montezuma Well both inside and out. A propane system is to be installed there and with the award of contract a septic system installed and other work performed on the quarters. We plan to take our annual inventory and do some redecorating in Residence No. 2.

Homer F. Hastings

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

NAVAJO NATIONAL MONUMENT
TONALEA, ARIZONA

Jan 26, 1948

MEMORANDUM for the Regional Director, Region Three

There follows a monthly report of activities in this area for the month of January 1948.

WEATHER: We believe we have reached something of record with 16 consecutive sunny days in January. To date this year we have recorded only one cloudy and one partly cloudy day. Two inches of snow fell on the 18th and two inches fell last nite, at 2 P.M. it is still snowing. Minimum temperature was 11 degrees and the maximum was a rosy 54 degrees.

ROADS: All approach roads have been open all month. The Indian service blade came in but the road was so deeply frozen that very little earth was moved. On warmer days we gave the entrance road two round-trip treatments with our homemade drag and the surface is smooth.

VISITORS: 20 Visitors arrived at this area in 7 cars but all had purposes other than ruin trips.

PROGRESS REPORT: Concrete forms were removed from the gas pump base and the area was covered with gravel.
Thirty feet of stockade fence was removed and installed where it now permits a roadway to the gas pump in the enlarged utility area.
Faulty bearings on one of the Kohler units were replaced by the Custodian.
Several roadside directional signs were uprooted, brought in, rerouted and repainted as needed and replanted where needed.
Six large junipers have been mortised for additional two post signs.
A lumber bunk was constructed to preserve our preciously salvaged scraps of packing cases, apple boxes and peach lugs which comprise our lumber stock pile.
A belated report on Roads and Trails work progress was furnished your office.
This office also furnished (as far as our authority permits) a revised outline for the Master Plan. It is hoped that a revised edition of our 8 year old plan may be coming soon.

GENERAL: In these times of inflation employees on static Government salaries are familiar with the wolf-at-the-door. Here at Navajo we have a persistent diurnal visitor in coyote clothing. This fellow prowls around the house most of the day. Stares into the windows and some times I think he's hoping we will miss a paycheck and that our check-to-grocer existence will be weakened to make us an easy prey. And what will the one-legged Woodhouse Jay who feeds off our window sill do then?

~~ORGAN PIPE CACTUS~~ NATIONAL MONUMENT

Box 38, Ajo, Arizona

January 25, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of January, 1948.

WEATHER

All month has been very clear and dry. A rain is needed but it looks like a good flower year anyway. A low of 21 on January 1 set a station record. Maximum for the period was 86 on the 9th which is also a record for that date.

TRAVEL

Travel set a record mark this month with 9092 persons through the area. Out of state visitors have increased at a great rate and travel on to the Gulf very heavy with fishing reported good. The proportion of campers to total travel seems to be lower this winter.

GENERAL

All the time that could be spared from maintenance work was spent on contact and keeping office work current.

One trip was made to Chiricahua National Monument with Ranger Ringenbach's furniture.

One day was spent with Architect Saunders checking rehabilitation work.

PERSONNEL

Ranger Ray Ringenbach was transferred to Chiricahua on January 11 and was replaced by Glen Bean on January 24.

The maintenance-man position was filled by Arthur Guinn, formerly with the P.R.A. here on the Organ Pipe highway.

ACCIDENTS

Three highway accidents this month killed two cows and a horse. While we don't like to have to use the signs, a standard "Watch for Cattle" sign was placed at the north entrance.

PUBLICATIONS ON HAND

Informational two-fold pamphlets, English version - 18,700.
" " " Spanish version - 3,400.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Saguaro NATIONAL MONUMENT

Tucson, Arizona.

January 26, 1948.

MEMORANDUM for the Regional Director,
Region Three.

There follows the monthly NARRATIVE REPORT of activities at Saguaro National Monument for the month of January, 1948.

WEATHER. Snow fell at Headquarters on the night of December 30 for the second time in the past nine years. Approximately two inches was measured at Headquarters, with nearly five inches falling at Madrona Ranger Station. The remainder of the month was warm, with temperatures of 80, 83, and 80 degrees on the 7th, 8th, and 9th setting a 57 year record for temperatures in the Tucson vicinity in January. On all of these three days Tucson was the warmest spot in the United States.

INSPECTIONS. Architect Ker Saunders and his wife were in for a half day on the 18th, to look over our roof repair jobs, and obtain information to write up specifications thereon. Bill Supernaugh, of Organ Pipe, was in over the night of the 13th, to pick up the surplus coils from our large water tanks.

MAINTENANCE. Our two new 4000-gallon water tanks are now assembled, and ready to set in place. Water drainage structures were placed on two miles of the Madrona - Grass Shack trail, and tread was repaired on the last one-fourth mile of this section. The Loop road was dragged, and culverts cleaned; however, due to lack of rain and heavy travel, this road is not in the best of condition at present. All outside trim, and all but the two rear windows of the Headquarters building were painted during the month. Our radio antenna masts were reset on concrete bases, and permanent guys installed. The repaired dump truck, horse-trailer, and water pump were brought back from Casa Grande on the 5th, when the Chevrolet pickup was left there for body and frame repairs.

APPROACH ROADS. Terrible!

COOPERATING NON-GOVERNMENT AGENCIES. Mr. J. H. Feth, Geology instructor at the University of Arizona, has done quite a bit of work in connection with mapping the ground-water strata within the west section of the Monument. He, with the approval of Dr. Clark, of the U.S.G.S. for whom the work is being done, has promised us copies of his maps and reports, which should be completed this year.

TRAVEL AND INTERPRETIVE SERVICES. With 3204 visitors, arriving in 930 cars, 54 horses, and one motorcycle, all previous records for January were broken. This almost doubled the December travel, and exceeded that of last January by 948 persons; futhermore, with the exception of one month when travel was estimated, rather than counted, all previous records for any single month have been broken. A total of 1042 persons, in 300 parties, was contacted at Monument Headquarters. This is also a new record, as is the 5070 minutes contact time spent. Our visitors registered from 38 states, Canada, the Canal Zone, Puerto Rico, and France.

EXHIBITS. Planting of a new arboretum of local cactus species and landscaping of the area in front of the Headquarters, started early in the month, is approximately 50% completed. This improvement is drawing much favorable comment and interest from visitors. Work on what we hope will be a rather impressive multiplex display of colored cactus prints is also under way. Both projects should be completed by the end of this month, unless we are overwhelmed with visitors.

PERSONNEL. Mr. Marvin H. Frost, Sr., was appointed to the Temporary Ranger position, effective January 7. Mr. Frost, a resident of Tucson since 1940, is known to many Southwestern Monuments personnel. We believe that this appointment sets some kind of a record, as both of his sons have, in past seasons, also been employed as Seasonal Rangers at other monuments.

Mr. Norvall Bundy entered on duty as Laborer on January 7th; this again brings our trail crew up to four men, as he replaces Mr. Robert Nivison, who has not returned to work since December 27.

PUBLICITY. The Tucson Star has carried one long and two shorter articles on this monument during the month. Also, we had a front-page photograph of the snowfall of December 30 in the same publication. Local radio stations have been most cooperative in helping us to familiarize Tucson residents with road conditions enroute to the monument, and in attempting to stop local filling-station operators from routing visitors to Saguaro via Vail, a practise which has caused much complaint in recent months.

PUBLIC HEALTH. The water supply sample from Madrona Creek on January 1 was again reported unfit for human use. It is very doubtful if there will be any sample taken February 1, unless we receive rain, as the pot-holes in the creek are again dry, and it appears that we must soon begin hauling water again.

Don W. Egermeyer
Custodian.

Sunset Crater NATIONAL MONUMENT

Flagstaff, Arizona

January 31 19 48

MEMORANDUM for the Regional Director, Region Three.

There follows a report of the activities of Sunset Crater National Monument for the month of January, 1948.

Visitors this month: 315 Travel year to date: 3223

Travel: Visitation has held up well in spite of adverse road conditions. 125 visitors registered during January, an increase of 24% over that recorded for the same period a year ago. The remarks taken from the Register indicate that several parties left their cars somewhere between Hiway 89 and the registration area, continuing on foot for the remaining distance. Occasional snows have closed the road, for at least a portion of the month.

Weather: Freezing temperatures during the major portion of each day have been the rule. Periodic snows have blocked roads, particularly during the last half of the month.

General: The approach and entrance road remains very rough. The general appearance of the area has been good with no indication of vandalism noted. The area is surprisingly clean considering the steady flow of travel.

123905

Tonto National Monument
Roosevelt, Arizona

January 29, 1948

MEMORANDUM for the Regional Director, Region Three.

Following is a report of activities at Tonto National Monument for the month of January, 1948.

Weather. A few cold days at the first of the month brought a little snow here, which melted in a short while. Most of the month was bright and warm, but the nights of the 27th and 28th showed a drop to 26°, which froze the water pipes. An immediate, though brief, drop in the travel resulted from the cold.

Approaches to Monument. The Apache Trail is in fair condition, though corrugated in many places. The entrance road is a bit rough, due to lack of maintenance and heavy travel.

Interpretive Service. Of 2618 visitors to Tont in January, 1056 made the climb to the Cliff Dwelling, in 334 parties. As it is impossible to make round trips with all the parties, the Ranger or Custodian remains in the ruins much of the time in the afternoons, conducting tours as the visitors reach the cliff dwelling. 2558 persons visited the museum, unattended much of the time. Due to visitor pressure, no trips are made to the Upper Ruins on Sunday, and very few on week days.

Travel. Travel for January was nearly triple that of December 1947, and set a January record with 2618 visitors as compared with 2122 for January last year. Travel increased greatly during the year-end holidays, and has continued to pour in.

General. Work progresses slowly on the resurfacing of the trail to the Lower Ruins. It is hard to find enough earth among the rocks to work with. A broken spring on the Dodge pick-up was replaced, with Ranger Hendricks doing the work. A broken gas line likewise. We manage to keep it running part of the time. Considerable work has been done around the ravine which serves as a utility area. Due to the travel, and a couple of days when the custodian had the flu, the office work is hard to keep caught up.

Visitors. Miss Shirley Cooke, of Chiricahua, visited a week end at Tonto during the interim between semesters at The University of Arizona.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
TUMACACORI NATIONAL MONUMENT
Tumacacori Box 2225, TUCSON, ARIZONA

Tumacacori, Arizona

January 26, 1948

MEMORANDUM for the Regional Director,
Region Three.

Follows the monthly narrative report for Tumacacori National Monument for the month of January, 1948:

WEATHER CONDITIONS: Severe drouth conditions continue, with only .19 inch of precipitation. Temperatures ranged from minimum of 18 on January 1 to maximum of 83 on January 8,9, and 10. Cattle ranges are in such bad shape cattlemen are having to ship their cattle to winter pasture lands. Wells in Nogales have the lowest winter water level in history.

MAINTENANCE: Routine was kept current, and numerous minor repairs made on buildings and equipment. Pruning was done on the grounds and in the patio garden. Verbenas and Nierembergias were planted. One sizable young mulberry was transplanted from the patio to the grounds. Watering has had to be resumed. Ammonium sulphate has been given in judicious doses to numerous trees and shrubs. Hinges have been installed above museum cases, so that burned out light bulbs can more easily be replaced. Steps in the museum building have been painted white, because so many visitors stumble on steps only two inches high, not seeing them.

MAJOR REPAIR AND REHABILITATION: The interior of the custodian's residence was repainted, and the floors of the living room, dining room, and hallway sanded, shellacked and waxed. Covering of the museum building roof with two new layers of asphalted felt and aluminum paint is almost completed. All this work is being done by a contractor.

INTERPRETIVE SERVICE: 2,089 visitors went on 258 guided trips through the mission and grounds, receiving an average of 37.65 minutes per trip. 3,932 visitors saw the museum. 3,956 persons received combined Information and Interpretation Service.

INCREASE OR DECREASE IN TRAVEL: Our visitor total of 4,065 for this month sets a new travel record for this monument, not only for January, but for all time. Highest previous January brought 2,792 visitors, in 1947. Highest previous month was February, 1947, with 3,481 visitors. (All this shows no reference to the 4,850 attendance in April, 1939, which is the month in which the museum was dedicated, and did not reflect a true travel picture).

The high travel figure for this month is not of great value statistically, because this is the first time the monument has been adequately staffed during a peak travel month. With a seasonal ranger on duty there has been somebody at hand to record many

museum visitors, and consequently to make many more informational contacts, with persons who otherwise could have been in and out unseen.

VISITORS: December 28 - Ken Stott, Jr. Curator of Mammals and Publications, San Diego Zoo.

December 29 - The Brandeis School, from Tucson, with 65 persons.

December 31 - Maintenceman and Mrs. C.D. Barnett, Casa Grande National Monument.

January 5 - Ranger and Mrs. Roland Richert, Tuzigoot National Monument.

January 13 - Bill and Catherine Wilson, of Rainbow Lodge, and formerly Acting Custodian and HCMP of Navajo National Monument.

January 24 - Zachary Gold, well known writer of short stories for the Saturday Evening Post.

INSPECTIONS: January 19 and 20 - Architect Kenneth Saunders went over the repair and rehabilitation program in great deal with the custodian, and checked the work of the contractor.

PUBLICITY: December 28 - Ray Manley and Howard Binney, photographers, were in getting pix for a spread in National Geographic.

January 15 - Barry Goldwater, well known Arizona Sportsman and photographer, was in taking pictures.

GENERAL: Affairs at Tumacacori are going along in good shape, with everything as quiet and restful as Grand Central Station in New York.

Earl Jackson,
Custodian.

TUZIGOOT NATIONAL MONUMENT

CLARKDALE, ARIZONA

JANUARY 26, 1948

MEMORANDUM for the Regional Director, Region Three.

Following is the monthly narrative report for Tuzigoot National Monument for January, 1948.

Travel Data: 1225 persons in 358 parties. Travel this month more than doubled any previous January since Tuzigoot was established. Visitation for January, 1941 was 508 and for 1947 - 580. This visitor year promises to touch 15,000. Fully 90 per cent of all travel is from the north and northeastern states where people and trying to escape to Arizona's milder climate.

Guide and Contact Service: Museum, ruins and orientation contacts totaled 3065 for the month. 1101 people in 298 parties were shown the museum, and 1074 people in 281 parties were conducted through the ruins. The average time spent by each party in the museum receiving an orientation lecture was 22.4 minutes while the average conducted tour through the ruins required 22.3 minutes per party.

Personnel Time: Museum: 110 hours, 35 minutes. Ruins: 104 hours, 50 minutes. Total time for Bright: 165 hours, 25 minutes. For Richert: 50 hours.

N.P.S. Visitors: Tuzigoot welcomed Architect Kenneth M. Saunders on January 14. Fortunately Kenneth arrived at the time the new re-roofing job for the Museum and Garage buildings was underway, and had an opportunity to inspect the materials used while the job was in progress. Ranger and Mrs. James B. Orr from Lava Beds National Monument visited the Monument on January 23.

Maintenance and Administration: The re-roofing of the Museum and Garage buildings, by the Webb Construction Company, Prescott, Arizona, was completed on January 17. Since it has not rained or snowed we have not had an opportunity to test for leakage. However, it appears as though they have done an excellent job. Some work was performed beyond what the contract called for. USDI L-13858 received a left door glass and a new set of water hose. When spare time from interpretive duties would permit Ranger Richert has been placing new descriptive labels inall display cases in the Museum.

Publications: 8950 Tuzigoot two-fold leaflets and 300 mimeo informational sheets on hand. No other free or for sale publications on hand at this Mon.

Custodian.

Walnut Canyon National Monument,
NATIONAL MONUMENT
Flagstaff, Arizona.
January 31, 1948.

MEMORANDUM for the Regional Director, Region Three. 19

There follows a report of activities in Walnut Canyon National Monument for January, 1948:

Weather. One inch of precipitation in the form of snow fell, and there were several nights of just below zero temperatures. Our entrance roads were blocked by snow drifts twice for a few hours only before the County snow plow cleared them.

Total precipitation for Flagstaff in 1947 was 13.13 inches while the 52 year average amounts to 21.17 inches. 1939, with 12.51 inches, is the only one of the past 52 years with less moisture than 1947. The top year was 1905 with 34.33 inches.

Visitors. Of the 434 total, 295 were contacted, and it is estimated that 150 made the ruins trip unattended despite the snow on trail.

Activities Other than Routine. The Custodian was in travel status about 5 days to attend a ruins stabilization meeting in Santa Fe, and he was on leave about 14 days of period. The Ranger reported several days of leave.

Difficulty was experienced with the light plant and the stand-by plant was placed in operation. Some 15 new light fixtures were installed, and a plaster patching job was accomplished in a residence.

Local Forest Service officials were contacted to learn what they know about a central repair shop being built in Flagstaff. This repair shop in under the supervision of their Regional Office, and the facilities will probably be available to NPS areas in this vicinity.

MEMORANDUM for the Regional Director, Region Three.

JANUARY TRAVEL, 1948
Visitors 6325 Cars 1693

1948 TRAVEL YEAR TO DATE
Visitors 21312 Cars 5900

If January is any indication of what we may expect in '48 woe be unto the White Sands. November, December, January, February, and March are our five slowest months, based on previous records. January this year has surpassed any one of these five months in the history of the Monument. It shows a little over 100% increase over last January, which was also a record month since actual travel statistics have been kept.

The Travel Year To Date shows over 3,000 increase and the Fiscal Year To Date shows 11,152 increase over last year, which was the record year at that time.

No doubt much of this increase can be traced directly to the open weather. The month has had but one or two bad days. Temperatures have ranged from 1° above January 1 to 68° on the 18th, with an average afternoon temperature of 53°.

No official trips were made off the Monument. Several patrols were made within the area accompanied by Messrs. Davis, McColm, Kell, and Allsman. The western portion of the Monument was examined in preparation for boundary revision studies. An inspection was made on an application for an airport lease adjoining the Headquarters area to the north and a conference was held with the applicants.

Considerable work is being done by the State on major roads affecting our area. U. S. Highways 380, 54, and 70 are all being improved and repaired which should add materially to our feeder routes.

The open weather has allowed Joe to keep his roads open and in very good condition. The Grazing Service picked up their Power Control Unit recently, having picked up the Carryall several months ago, leaving us with only the 212 road patrol to fight the sand drifts during the windy season.

In sheer desperation we finally started tearing the plaster off our parking area walls, with our own force of course. We have cleared the front wall and will, as we can, catch the others It is a decided improvement but goodness only knows when we can put on new plaster.

WHITE SANDS NATIONAL MONUMENT
ALAMOGORDO, NEW MEXICO

(2) Monthly Narrative Report 26-Jan-1948

The concession is showing a substantial gain. An interesting comparison from the record; In January, 1940 gross receipts were $84.25, in January, 1948 the concession gross will run over $2,000.00.

Museum contacts were normal, limited somewhat by the chill in the lobby. We are heating the museum but an oil stove is not adequate to heat the lobby. We are getting few complaints, however, so guess the public is not too uncomfortable.

Park Service visitors during the month included Messrs. Davis, McColm, Kell, and Allsman from the Regional Office. Mrs. and Mrs. Roland Richart from Tusigoot spent a couple of hours with us and Mr. and Mrs. Irving McNeil, Jr., from Chaco Canyon came up from El Paso where they were visiting.

We dare not venture a guess as to what we might accomplish next month. If the weather holds good visitors willlikely take most of our time. Unfavorable weather will give us a chance to make some repairs to tables and do a little more toward moving into the new picnic area.

We have been informed that during runway construction at the White Sands Proving Ground a quantity of broken pottery and evidences of walls were encountered, indicating occupancy by some ancient civilization. It is not likely we can delay or prevent Army construction to any great extent but I plan to go down, in accordance with instructions from your Office, to inspect the site and secure any artifacts of worth that can be obtained. From reports I have heard no pictures will be possible unless I can prevail on the Army to take them for me.

We are proud of our record for the month and hope we were able to give our visitors a large measure of satisfaction in visiting our National Park Service area.

Johnnie Paris,
Custodian.

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

January 31, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Wupatki National Monument for the month of January, 1948.

Visitors this month: 187 Travel Year to date: 875

Weather: Relatively mild winter weather prevailed during most of the month except for two "cold snaps". The lowest temperature recorded was 8° above and precipitation totaled .04 inches in the form of snow. The outlook for precipitation was optomistic this last fall, but the sudden change in storm patterns brings little hope that the long drought has been relieved.

Roads: The Wupatki entrance road has been open the entire month, although the one from Sunset has been closed. Lack of moisture shows in the condition of the road.

Travel: Visitor use exceeded that for any previous January, showing an increase of 70% over that of last January. Both the travel and fiscal year figures show more than a 30% increase over 1947. Perhaps this will be another record travel year in spite of predictions to the contrary.

NPS Visitors: Architect Saunders, Assistant Regional Director Davis, and Chief Clerk Castellum visited the area during the month. Matters discussed included the Repair and Rehabilitation Program, wage board surveys and general monument problems. It was particularly convenient to have both John Davis and Louis Castellum here at the same time for a discussion of problems. Ranger and Mrs. Orr of Lava Beds National Monument were monument visitors the latter part of the month.

Spring Flow: The flow of the Wupatki Spring increased to 881 gallons per 24 hours compared to 621 for last month. This is a normal increase, but still is only 60% of what is considered normal flow. Heiser Spring on the other hand continues to decrease with 1234 gallons per 24 hours compared to 1309 gallons last month.

Grazing: The C O Bar Cattle Company turned stock in about January 1st. An estimated 275 head is somewhat less than last year but possibly this is due to the fact that more water tanks are distributed over the range to the north of the monument and the cattle have not become accustomed to using the Deep Well tank exclusively.

For the first time in several years we have been having difficulty with cattle drifting in from Joe Kellam's range to water at Heiser Spring. Any where from ten to thirty head have been watering there and continue to return in spite of the efforts on the part of Mr. Kellam to prevent it. It is a situation which we can eliminate only by having the south boundry fenced. These cattle are taking feed which would be used by the Navajo sheep, making our grazing control problem more difficult.

Mr. H. Kirby is hauling water from Heiser Spring for his stock on the Coconino National Forest. Due to the decreased flow he has been allowed only 3600 gallons per week from the spring and has had to haul from other sources. His business is not an economically sound one for this reason.

Personnel: Ranger Upton was on annual leave from the 11th through the 21st. Sick leave totaling 13 days was taken by personnel of this area as a result of the wide spread influenza epidemic.

Special Activities: The custodian attended the Stabilization Conference in the Regional Office on December 30 and 31. One day was also included at the AAAS meetings at Albuquerque, New Mexico.

General: Considerable time was spent repairing light plants. A new 3 KW Onan was set up at Heiser and after 75 hours of operation required new valve springs. Valves were ground and new rings installed. Shortly afterwards the same job was necessary on the 3 KW Onan at the Wupatki residence. It is readily apparent that some of these generators were merely thrown together during the war.

Laying a flagstone floor in the basement and the completion of considerable back office work were the other major accomplishments.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDED NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA AS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NATIONAL PARK SERVICE

Region Three

Santa Fe, New Mexico

March 9, 1948.

MEMORANDUM for the Regional Director, Region Three.

Following is the narrative report for naturalists of the Southwestern National Monuments for the month of February 1948:

Staff Activities - General

Naturalist Dale S. King was in the office during the month.

Archeologist Charlie R. Steen left February 9, visited Tumacacori, Casa Grande, and Saguaro, and started stabilization work at Casa Grande on February 16.

Planning

King participated in discussions on master plans for Wupatki, Sunset Crater, and Walnut Canyon and accomplished some work on the general portions of the written outlines for these monuments.

Research and Observations

Basketry specimens from Nalakihu Ruin on Wupatki National Monument were sent off for identification.

Pictures were received from Miss Katharine Bartlett of the Museum of Northern Arizona of skulls which will appear in a forthcoming report on Montezuma Castle and Montezuma Well.

Region Three Office Loan Library

Accessions for the month totaled 106, consisting of 7 books, 5 reports, 26 pamphlets, and 68 periodicals.

The books were:

Haile, Berard
Head and Face Masks in Navaho Ceremonialism

Howard, George D.
Prehistoric Ceramic Styles of Lowland South America, their Distribution and History.

LaBarre, Weston
The Aymara Indians of the Lake Titicaca Plateau, Bolivia.

Brookman, C. Frank
A Guide to the Mother Lode Country

Lincoln, Frederick C.
Manual for Bird Banders

Caso, Alfonso, etc.
Mascaras Mexicanas

Covarrubias, Miguel, Editor
El Arte Indigena de Norteamerica

Southwestern Monuments Association

Treasurer Alan C. Vedder vacationed from January 20 through February 20, and consequently King spent considerable more time on Association routine than normally. Vedder worked five days and during that time 28 letters, 82 covers, and 23 purchase orders were accomplished. One deposit was made.

King prepared a rough draft of material to be sent to the mailing list in our first mailing. He edited in final form a pamphlet which will be placed on sale at Montezuma Well and put it in the hands of the printers.

Display cases for Tumacacori and White Sands were completed during the month except for installation of wiring and electrical fixtures.

Additional correspondence was carried on with the naturalist at Carlsbad Caverns to continue planning of a booklet which may be printed for that area.

Discouraging news was received from a friend of the Association who had hoped to obtain funds to insure the early publication of a Festschrift volume in honor of a Southwestern scientist. Almost three times as much money must be obtained as now in hand to publish this worthwhile volume.

The Association gave permission to a geologist from California Tech to use three of its Kodachromes in a forthcoming textbook on geology, provided that credit is given to the National Park Service.

Ruins Stabilization

An excellent report on the condition of wall paintings at Tumacacori was received from Custodian Jackson and forwarded to the Director's Office.

Steen started work on Compound A at Casa Grande on February 16, pointing of walls with caliche, after removing the concrete coverings. He

found that use of concrete plaster many years ago was unfortunate, because the original caliche walls have melted away underneath the concrete in many instances. While outlining wall bases and adjusting drainage, he discovered that almost all walls in Compound A are at least three feet thick, rather than being narrower as formerly believed.

Projects for March

King will be in the office most of the month, except for short trips to Bandelier and Albuquerque, will spend considerable time on master plans, and hopes to complete preparing mail material for the Southwestern Monuments Association.

Steen will return to the office from Casa Grande about the middle of the month.

[illegible] DALE S. KING

Dale S. King,
Naturalist.

Approved for Distribution [illegible] MILTON J. [illegible], March 9, 1948.
Acting Associate Regional Director.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Arches
NATIONAL MONUMENT
Moab, Utah

February 25, 48

MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Arches National Monument for the month of February, 1948:

GENERAL: A few visitors entered the area during the month despite poor travel weather. On our one or two warm days several cars visited the Windows section.

WEATHER: Snow fell on January 26th, February 6th, 7th, 10th, 11th, 23rd and 29th with a good rain on February 22nd. Cold winds blew intermittently during the month. Our coldest night for the year occured on January 26th when the thermometer registered zero degrees. The nightly temperature has been down around 15 degrees for practically the entire month.

TRAVEL: A total of 30 cars and 94 people visited the area during the month. This was slightly over our travel for last month and an increase of about one third over February, 1947. Most of the visitors were local people.

INTERPRETIVE SERVICES: Nine parties of 28 people were contacted at headquarters. A total of 83 people visited the Windows section unattended. No contacts were made in the Windows section and no guided trips were taken during the month.

SPECIAL ACTIVITIES: A trip was made to Fruita and Grand Junction, Colorado on February 10th in company with County Commissioner L. L. Taylor to contact Mr. Emmett Klizende regarding the option to purchase the Turnbow property.

COOPERATING GOVERNMENTAL AGENCIES: Very little road work was accomplished by the Grand County construction crew during the month due to unusually cold weather and snow storms. At this writing the roughing out of the Devil's Garden spur has been completed. The grader is working on finishing of the upper end of this spur. The bulldozer is doing some further work on the sand cuts between the Salt Valley Wash and the parking area. One surfacing material site has been designated and a large stockpile has been made. If our clear spring weather continues the bulldozer should start on the Delicate Arch spur about March 1st. Surfacing will probably start

~~continuing~~ about that time. Drifting sand has caused trouble in some of the cuts and they are going to install snow fence at these points to try to eliminate this. They may have to postpone work on the Fiery Furnace and Klondike Bluffs ~~spur~~ as the county equipment will soon be urgently needed on other county roads.

PRIVATE LANDS: The option for the purchase of the Turnbow property has been obtained and approved, thus clearing up the private land problem in this monument.

MAINTENANCE: Our water pump ceased functioning on January 28th. It was [illegible] dismantled on February 18th and it was found that the working valve had become detached from the sucker rod. After removing and replacing the sucker rod twice we finally get it to functioning again and at this writing our storage tanks, 20,000 gallons, are full.

The winds of the last month have removed practically all of the roof covering on the warehouse roof. Temporary repairs have been made over the office portion with the hope that funds will be made available for permanent repairs.

Russell L. Mahan

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

24 February 1948

MEMORANDUM for the Regional Director.

There follows the report of activities in Aztec Ruins for February 1948.

WEATHER. A low of minus 16 with 7 inches of snow was reported for the 15th of Feb. This cold spell slowed travel for three or four days, but with the coming of warmer weather from the 18th on travel increased.

MAINTENANCE. Much time was spent clearing away snow and checking drains when the snow began to melt. The snow and consequent mud held outside maintenance to a minimum.

PERSONNEL. Custodian Townsend is still on annual leave. Ranger Lloyd M. Pierson reported for duty Feb. 5. Ranger Tom Onstott returned to Bandelier, Feb. 13 leaving Ranger Pierson in charge.

SPECIAL ACTIVITIES. Ranger Orm M. Clark gave a showing of the film on National Monuments of the Four Corners to 60 pupils of the local high school Feb. 11.

TRAVEL. There was a decrease in travel this month as compared to that of a year ago this month. 306 visitors were reported for this month compared with 406 a year ago. 14 states and British Columbia were represented in this months 73 cars.

VISITORS. Custodian McNeil and wife of Chaco Canyon; Feb. 6., Al Lancaster of Mesa Verde; Feb. 21 and Jean Pinkley and Phil Van Cleave of Mesa Verde; Feb. 22.

Interpretive Services. 234 people in 43 parties went through the ruins and 306 persons in 57 parties visited the museum.

Lloyd M. Pierson,
Acting Custodian.

In triplicate

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

March 1, 1948

Memorandum for the Regional Director, Region Three.

There follows a report of the activities at Bandelier National Monument for the month of February, 1948.

Weather

The Monument was practically snowed in all of this month and we did not have time to catch our breath after one snow before another one came along. Altogether more than 36 inches of snow and .57 inches of rain were received during the month. The 24 inches of snow received on the 11th. is the heaviest snowfall recorded since weather records have been kept at the Monument. Following the heavy snow temperatures went to 15 degrees below zero and after four days warmed up to -4 below.

Special Activities

The Custodian left for southern New Mexico on the 27th. to interview applicants, for the vacant clerical position, at Albuquerque and Artesia. A stop was made at Carlsbad Caverns National Park enroute.

Inspections

Chief of Development Vint with Associate Regional Director Patraw, and Architects Cornell and Carter made an inspection of the tentatively proposed changes in the approach road on the 22nd. They also looked over the PCP priority list and discussed the need for some additional proposals.

Status of Private Lands

Negotiations were started for the acquisition of a small tract of private land in the Otowi section of the Monument by donation from the Atomic Energy Commission.

Roads and Trails

The heavy snows followed by thaws made a mess of the approach road and kept it virtually impassable except with chains for most of the month.

FOR DEFENSE
BUY
UNITED
STATES
SAVINGS
BONDS
AND STAMPS

The small tricycle grader was not quite up to clearing the ditches or pushing the snow off of the road. The heavy road patrol grader was received on the 24th. but was not in operating condition and will not be so until it has had an overhauling. It is expected that this much needed piece of equipment will be ready for use before the heavy travel season so that the approach road can be placed in good condition.

Received also during the month was an asphalt heater for road patching that will be put in use as soon as weather permits.

Approaches to Monument Area

The State is progressing with the erection of the steel framework of the Otowi bridge and prospects are good for its early completion.

Interpretation

As there were practically no visitors to the area this month the contacts dropped to the lowest for some time. Only 17 parties were guided through the ruins.

Museum Activities and Exhibits

Artist Pablita Velarde Hardin has been working on the completion of the Pueblo government case for the ethnology room of the museum and practically all of the paintings are finished except for those that are to be put on the glass front of the case. Work was started on paintings for the cases on Pueblo religion and seasonal ceremonies.

Travel

Travel was 80% lower this month than that of February last year and only 121 persons came to the Monument. This was due almost entirely to bad roads and cold weather. There were twelve days on which no one visited the Monument and several days on which only one or two cars would get through. This contrasted quite sharply with the fifty percent increase in travel during January.

Visitors

Mr. and Mrs. D. Lynds Blount, Paris, France were visitors to the area on the 8th.

Stabilization

Some work was accomplished during the month on the completion of room sheets for work done on the community house. Bad weather prevented any out side work on the ruins.

(SGD) FRED W. BINNEWIES

Fred W. Binnewies
Custodian

CANYON DE CHELLY NATIONAL MONUMENT
Chinle, Arizona

February 28, 1948

MEMORANDUM for the Regional Director, Region three.

The following is a report of activities at Canyon de Chelly National Monument during February, 1948.

Weather Conditions

The cold wave peevalent thruout the southwest during the early part of the month did not bypass Canyon de Chelly, and we have had thus far the coldest and wettest February in a number of years with the accompanying mud.

Our lowest temperature occurred onFebruary 12, when it registered a -13 degrees and is the lowest registered during my five years as custodian. For five days the maximum temperature did not rise above freezing. Our highest Maximum temperature was 67 degrees on February 21. Moisture has measured .91 inches.

Administration

Patrol trips were taken in both Canyons via Horse. Water is very high for this time of year. Two trips were made to Gallup, New Mexico, one on Febuary 7, and one on Febuary 20. These trips were made for supplies and care and repair of equipment. Considerable time was spent in getting office work and correspondence to date.

Maintenance

Due to wet weather considerable maintainance work was done on the road. Holes were filled and the road was drug to White house during the short period when they were dry enough to work. The pump engine was again worked over. Small repair jobs and redecoration of the Custodians Quarters have been carried on.

On February 20, while taking the Dodge 4x2 USI-31791 into gallup to get a new gas tank installed, The right front spindle of the wheel broke and the wheel came off. Luckily I was driving slowly or it might otherwise have been serious. The Dodge was taken to the Navajo Chevrolet Co. for repair And I returned to Canyon de Chelly with friends.

Publicity

Dr. Earl Morris forwarded me a copy of the February issue of NATURAL HISTORY magazine for February which carries a fine article titled "The Tomb of the Weaver" written by Dr. Morris, and is the story of one of his finds in Canyon del Muerto near Antelope house.

Travel

Two cars of bona fide visitors braved the long muddy drive to Canyon de Chelly and one car of local visitors. Our total of nine visitors fell far below that of previous years but I believe that it was due to road conditions.

General

The Custodian has had the pleasure of being host to Mr. and Mrs. Cecil Hanner of Mesa Verde National Park. They were married in Farmington, New Mexico on February 21. Mrs. Hanner is the former Catherine Dean of Mancos, and is a sister of Mrs. H. Nelson of Mesa Verde National Park, and of my wife. We were sorry that we could not offer them better weather for their honeymoon.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
SOUTHWESTERN NATIONAL MONUMENTS
~~COOLIDGE, ARIZONA~~

Capulin New Mexico,
February, 25, 1948,

Memorandum for the Regional Director
Region Three National Park Service
Santa Fe New Mexico.

There follows a report of the activities in and around Capulin Mountain National Monument for the month of February 1948,

Approximately seventy five visitors to the old Volcano this month bringing all visitors travel year to date to fifty two hundred fifty and those of the fiscal year to date to twenty four thousand seven hundred fifty,

It was planned to have the state place gravel on the entrance road from Highway sixty four to our boundary line this month but the deep snows have prevented the beginning of the work, It is hoped to have this done during March.

Again this month the porcupines have been doing damage to the pinon trees in the Monument, Strict search has been made in and about the timber but so far not one has been located. The snow has been so deep that going is almost impossible,

Weather has been the chief topic of the winter but no one here has been able to get the weather man to do anything about it, He merely lets come what may and then tells us about it. almost four month of solid snow covering the ground this is the longest spell of snow covered ground this country has record of, Today it is raining on top of about six inches of snow but does not seem to melt the snow.

Roads on the Monument remain closed for the upper half, and at this writing there is about five feet on the road along the upper half of the Mountain, There has been no cars to the to this month, They can only go half-way, At this point there is an extra wide place where one can turn around nicely,

Very Respectfully,
Homer J, Farr
Custodian.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

February 25, 1948

MEMORANDUM for the Regional Director,
Region Three.

There follows the narrative report for Casa Grande National Monument for February, 1948.

General: Everything hits at once it seems. Record visitor attendance, stabilization crews with the resulting bookkeeping, request for wage board schedules, and a request for an inventory, are just a few of the things hit during this report period. We tried hard to keep up and feel that we about held our own.

Weather: Variations from a minimum of 19 degrees above to a maximum of 83 were registered during the month..65 inches of rain was measured in the rain gauge. Compared to other years the month was about average in this respect.

Visitors: February 1948 - 5800: February 1947 - 5517: Travel year to date-1948 - 20,420: Travel year to date 1947 - 17,889. All the records since the charge was put into effect went by the boards for the second consecutive month, Revenue from ticket sales amounted to $ 1095.00 with 3650 tickets sold. The biggest day ever recorded, with 453 visitors checked in was February 1. Also the biggest single party, 97 people, was taken through the Ruin.

Interpretive Services: Of the 5800 visitors to the area, 4357 made the Ruins trip in 242 groups, averaging 51 minutes per trip. 4115 made the museum trip in 205 groups averaging 30 minutes per trip. 1443 people visited the area for a quick look but did not make the Ruins trip.

Maintenance: With the exception of the porch, painting was completed on the inside of Quarters 2-4. The sewer field was regraded, leveled, and the weeds removed, so there would be a uniform runoff.

Ruins Stabilization: Archeologist Steen arrived on the Monument Feb. 11, to start the Ruins Stabilization. He lined up a crew of 8 men, and except for an occasional resignation has been keeping them busy. To date the North building drainage ditches have been dug, and gravel and paper place in the ditches. The walls have been cleaned and all refuse removed from the compound. Capping and patching of the walls with caliche has been started.

Administration & Protection: A trip was made to the Adamsville Site with Archeologist Steen, checking over the area for vandalism. A well driller was contacted and from information he gave us, it seems that we will have to lower the sucker rod depth on our well, before irrigation starts, or we will soon be pumping air. G. Fitzpatrick, successful bidder on Invitation # 33-43 for Chevrolet Stake Truck and the Ford with the homemade semi-trailer, removed them from the monument on February 4 & 6.

Trips Taken: February 4 & 5, Mechanic Stonehocker was on a trip to Saguaro National Monument, repairing and bringing in equipment. Feb. 16, he made a trip to Phoenix to pick up repair parts.

Visitors and Visitors of Note: On January 26, Mr. Allen of the Weather Bureau Office, in Los Angeles, was in to check over our rain recording gauge and weather equipment. February 9, Custodian Supernaugh and Manager Bean of Organ Pipe Cactus, were in to pick up some OPC equipment.

Mechanics Activities: General repairs were made to the following equipment:

Area from.	Equipment.
Casa Grande Nat. Mon.	Chevrolet Pickup
Saguaro	Chevrolet Pickup Light Plants
Organ Pipe Cactus	Ford Pickup Road Grader.

Personnel: The Archeologist P-1 Position was filled by Dan Davis. He and his wife Joan arrived on the monument February 1, with Mr. Davis reporting for duty on the third.

Leaves Taken: Mechanic Stonehocker took one day of sick leave on the 9.

A. T. Bicknell,
Custodian.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Chaco Canyon NATIONAL MONUMENT

Bloomfield, New Mexico

February 25, 1948

MEMORANDUM for the Regional Director, Region Three,
National Park Service.

There follows the report of activities in Chaco Canyon National Monument for the month of February, 1948.

Chaco Canyon, this month, had twenty-one visitors, from the states of:- Arizona - 1 car, 3 visitors; Colorado - 1 car, 2 visitors; New Mexico - 5 cars, 15 visitors and Pennsylvania - 1 car, 3 visitors. These people formed six ruins trip parties and five museum parties. The custodian spent nine hours and fifteen minutes with them.

As was October, November and December, this month was unusually cold. The coldest was 16 degrees below Fahrenheit zero on the 29th of January, and the warmest was 62 degrees on the 18th of February. There were four nights of sub-zero weather. There was rain or snow on eight different occasions, which totaled 1.14 inches of moisture.

The State approach road to the north was bladed in the early part of the month as was the Monument road. However, the spring thaw plus the moisture this month has made a quagmire of them. Recently, it took one of the men 5 hours to go to the highway and return. He was not stuck at any time. We have had gasoline ordered for the greater part of the month, but we can not get delivery, and from the way it is snow-raining now, we don't know when we will get delivery. Nevertheless, everyone in the canyon is taking his turn at bat for the roads. Mr. Whiteman, of the Trading Post, is getting the greatest number of hits. Besides attending meetings, and plaguing the Chambers of Commerce, we had a top of column, front page article about the condition of the Chaco roads in the Farmington paper. We are hoping for better road conditions in the future.

A number os small jobs were completed this month. Some of our signs were painted, some oiled. Doors were repaired and rescreened. The exterior of the Office was painted during an interim of the bad weather.

Gate latches were made in our own blacksmith shop, and hinges ordered from a commercial blacksmith shop for our gates. When they are installed, we expect a decrease in the trespassing problem.

The plumbing shop was cleaned and the tools greased. The tools, shovels and others, were cleaned and sharpened for the spring work. The warehouse, oil house and the like were cleaned.

Inventory was taken this month.

The usual routine duties were performed which included aiding persons in stalled and stuck cars.

The Trader reports that though he has received more rugs this month than last, and his total sales stand up well, he has not done as much cash business, and that he is consistently drawing customers from farther and farther away. In preparation for the summer months, he has painted the woodwork in the curio room, and is making arrangements for an entirely new set of picture packets fore sale.

Projects for the ensuing months:- The planting project should be well under way this next month. If the weather ever clears up (we have had four consecutive weeks of inclement weather), we expect to continue repairing the roads, continue with the painting job, initiate repairs on the residence, connect the new water tank and generally get ready for the travel season.

At the endof the month, there were on hand:-

Two-fold leaflets describing Chaco Canyon National Monument, approximately...7440

Chaco Canyon National Monument.

There follows the report of Mobile Unit activities in your area for the month of February, 1948.

We had fully expected and planned to be back at work at Chetro Ketl by the end of this report period but rain, snow and the sloppy condition of the ruin have held us away.

Raymond Rixey returned overdue from leave on February 2nd. He had been caught with his family by the blizzard at Raton, New Mex. One trip was made to the Regional office to take delivery of a new dump truck.

The first two weeks of the report period saw the roads in passable shape and some 10 yards of concrete sand were hauled and stockpiled. The roads have been impassable the past two weeks and the two remaining Navajo have been laid off.

Most of the month has been spent on the stabilization manual. At present we are writing up some experiments conducted last winter on soil-cement.

Drawings were made of a number of the wood items recovered from room 93, Chetro Ketl and these loaned to Dr. Hill at the University for possible identification by several of his Pueblo students and informants. It is hoped that the drawings can be taken to Pueblos where Hill has contacts.

In this same connection one day was spent at the University checking references on ceremonial paraphernalia, altar set-ups etc. Several soil samples made up into cylinders were taken to Albuquerque for tests to determine what happens when soil mortar in ruin walls is baked by various electrical methods. The hope is that it might be possible to burn the clay to brick without discoloring it.

Ray Rixey has worked out a method for casting small concrete poles, lintels etc. He is now in production and is making them for use. He has also made waterproofing tests on porous stone and put in his spare time working on the wood material from room 93.

NATIONAL PARK SERVICE

Chiricahua NATIONAL MONUMENT

Dos Cabezos, Arizona,

February 25 19 48

MEMORANDUM for the Regional Director,
Region Three.

There follows a report of activities at Chiricahua National Monument for February.

General. The Custodian took two days annual leave during the month. Operator Marble returned to work on February 16 having recuperated from an operation performed last month. One day annual leave was taken by Ranger Ringenbach.

One official trip was made into Willcox to pick up propane and kerosene.

Monument signs and markers were repainted, rest room and shower room plumbing repaired and general cleanup in campground and utility areas was accomplished during the month.

Weather. Two and two-hundredths inches of rainfall were recorded for the period. Three inches of snow fell on the tenth at Headquarters, and Massai Pt. and higher elevations were blanketed with snow on the 25th. Temperature went to 8 degrees above, which was the coldest for a number of winters.

Roads and Trails. The road to Massai Pt. was kept open all month though several trips with the dump truck were necessary to break track through the snow and pull out several cars which had slipped into the ditch.

The Custodian and Ranger made a horseback trip over the trail system to acquaint Ranger Ringenbach and to estimate work for the coming months.

Communications. Two trips into Portal were necessary to repair the telephone line. The road over the mountains to Rodeo is still closed and the shortest route to Portal is via Apache Pass, Bowie, and San Simon. This is a lot of miles to travel just to untangle two wires.

Radio contact with Saguaro and Organ Pipe Cactus was discontinued two weeks ago due to battery difficulties.

Approaches to Monument Area. Approach roads into the monument remain in fair condition in spite of the rainy weather. Several visitors did complain, however, of a bad stretch between Elfrida and the monument where the road is undergoing construction.

Interpretive Service. 1,879 visitors were contacted in the museu, the campground, and at Massai Point Orientation Station. Three auto caravan trips and one hiking party were conducted.

On January 29 the Custodian gave an hour illustrated talk at the Gadsden Hotel in Douglas to 150 persons and a thirty minute one at the Silver Spur Guest Ranch to 24 persons on the 8th of February.

Travel. One Keeting bus tour from Douglas was made into the monument on the 13th, and 38 persons of the Tucson Chamber of Commerce Visitor Club visited on the 14th. Total travel for the month was 1,233 persons as compared to 781 for last month and 1,491 of a year ago.

Insect Infestation. Study of the flat head borer infestation in the Douglas Fir stands was completed and reported on.

Clair V. Cooke
Clair V. Cooke,
Custodian.

GRAN QUIVIRA

GRAN QUIVIRA, NEW MEXICO

FEBRUARY 25 48

MEMORANDUM for the Regional Director, Region Three.

The following is a report of activities at Gran Quivira National Monument for the Month of February, 1948.

General. Travel was practically at a stand still this month with only 15 cars, 13 of which were reentries. Of the two first entry cars, one had been stuck and slept out on the way here, waiting for the roads to freeze. The occupants of the second car were very unhappy over the road conditions.

Weather Conditions. This is the big topic for discussion this month. The first blizzard hit on January 27 with 5" on snow and -5° temperature. The power line and telephone line went down and roads were blocked until the 29th, which made for a nice quiet weekend. A rain with 4" of wet snow on Feb. 4 was followed by a second blizzard with 5" of snow and -6° on Feb. 11. More snow arrived today to finish up the month. Moisture for the report period totalled 1.63". This compares very favorably with .13" in February, 1947 and .03" in February, 1946. The bean farmers are beginning to dream of bumper crops.

Special Activities. On Feb. 24 I gave a talk accompanied by slides to the Gran Quivira grade school, covering Grand Canyon and the Indian country.

Maintenance. During the month the pit toilet was refurbished and given a coat of paint inside and out. It now compares very favorably with similar edifices in other areas.

New cupboard doors were built as needed in the kithhen.

High winds on Feb. 23 and 24 knocked out one window in the tool shed and kept the Custodian occupied tying down the roof which threatened to depart with every gust. Since the repair and rehabilitation program calls for a new roof this spring, the work should be greatly simplified. We can cut the wires and the old roof will be out of our way.

One day was spent in helping Mr. McGrady locate and repair the break in the telephone line caused by the storm of Jan. 27.

Repair and Rehabilitation. Plans drawn by Architect Saunders for remodeling the tool room to include a museum and rest rooms were received. When completed Gran Quivira will have a very satisfactory interim set up.

Approaches to Monument Area. Roads to the area have been alternately very bad or impassable throughout the period and are still in that condition. State maintenance is much like the opening days of World War II "too little and too late."

The 1.63" of moisture with freezing and thawing proved too much for the Monument's 3/4 mile of entrance road and the thinggravel coat broke through for practically the whole length. Resultant ruts were too deep to negotiate for several days. However the homemade drag has it back in fair shape now. When the truck is received from Arches, I have made arrangements with the U.S. Forest Service to secure "patching" gravel from the Forest and by next winter should have it back in good shape. The drag is too heavy for the old Ford, hence I will need a new clutch on my next trip to town.

A culvert was received and installed at the cattle guard during the month.

Interpretive Service. 11 parties, 38 people were conducted through the ruins. Average trip time, 37 minutes.

Increase or Decrease in Travel. A big decrease this month due to bad roads.

	CARS	VISITORS
February, 1948	15	38
February, 1947	45	162
Decrease	30	124
Percent Decrease	66.66	76.54
This travel year	144	408
Last travel year	155	552
Decrease	11	144
Percent Decrease	7.09	26.08

In compliance with FO 601. Gran Quivira 2-fold leaflets on hand - 5340.

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
GREAT SAND DUNES NATIONAL MONUMENT
MOSCA, COLORADO.

February 26, 1948.

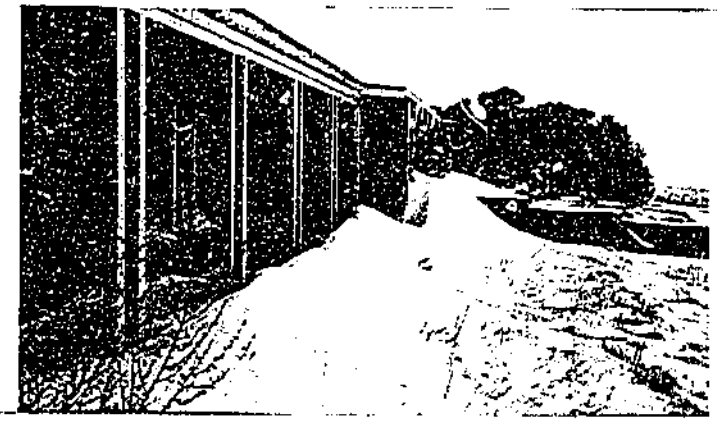
MEMORANDUM for the Regional Director,
Region Three.

There follows the report of activities in Great Sand Dunes National Monument for February, 1948.

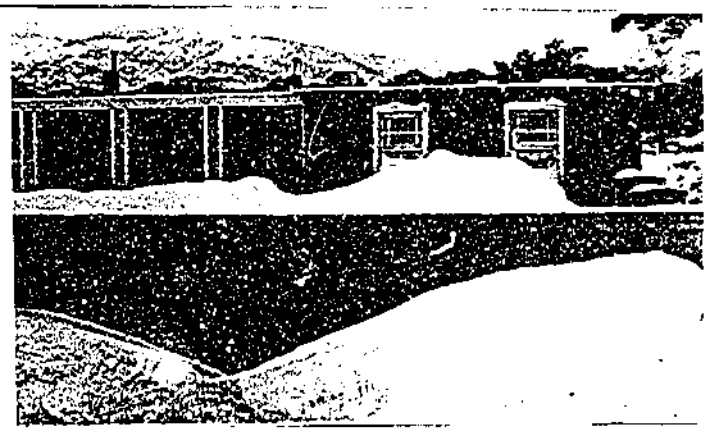
WEATHER. Terrible, simply terrible! Much has been heard about winters in the San Luis Valley - its true and even more so.

A minimum of 31 below zero was registered on January 28, with Alamosa making headlines with a reading of 50 below zero. The mercury thermometer broke at 46 below and an alcohol thermometer was substituted. Life magazine of February 9 also gave Alamosa more publicity.

There were twenty nights during this report period that registered below zero and I mean way below. This leaves only eleven nights with readings above zero, and the highest reading was 28 above on February 20.



The maximum of fifty-six was registered on February 20. There were thirteen days with readings above thirty-two degrees, and eighteen days with readings below freezing.



Snow fell on January 26,27,28,29,30 and 31; February 1,6,7,10,11, 12,19,22,23,24 and 25. An estimated snowfall of twelve inches fell during this report period.

There were nine cloudy days, eighteen partly cloudy and only four clear days.

The three big storms occurred on January 26 and 27; February 10 and 11; and February 22 and 23. These came from the northeast with terrific winds averaging forty miles per hour. The first storm lasted thirty hours; the second for twenty-four hours and the third only fifteen hours.

The wind caused the snow to drift in front of the residence (see pictures) and on the monument road and the approach road. Drifts averaged from four feet at the monument, to seven feet out in the valley floor.

Snow drifts in front of custodian's
residence at Great Sand Dunes

The State Highway snow plow opened the approach road on January 29, February 10 and 15. At present writing the monument road is in excellent condition, but the approach road is muddy and with one bad stretch due to melting snow and no drainage at this one wet spot.

During these storms, the wind blew out the flame in the oil stove which is in the hall. Luckily it did not affect the oil stove in the basement, and by keeping a roaring fire in the living room fireplace, the temperature managed to remain about fifty in the house. Needless to say, we spent our waking hours huddled about the kitchen coal range. The draft control on the hall stove was moved in an attempt to keep the fire going; if another wind storm blows out the flame, a new draft control will be installed.

Snow was blown thru all windows in the residence and newspaper was placed between glass and venetian blinds. Masking tape now replaces paper. It is hoped that the attached pictures show justification for installing storm windows and doors at this area. The wind truely blows, or how else would we have the sand dunes?

On January 29, the water pressure dropped to nearly nothing and our worst fears were true - the water line had again frozen. Its little consolation to report that it isn't the main line of 2800 feet which I had attempted to cover. This time it is the buried pipe between the settling tank and the storage tank. If blue print specifications for a five thousand gallon tank had been built instead of the present tank, which only holds a little over sixteen hundred gallons, we might have had enough water to last until the spring thaw.

Water is now being hauled from Mosca, Colorado in a fifty-five gallon barrel, as it is impossible to obtain water either from Mosca Spring or Mosca Creek due to snow and ice.

TRAVEL. Thirty-five visitors in fourteen cars, visited the Sand Dunes during this report period. Only the State of Colorado was represented. No one was able to drive down to the lower picnic area, because of snow clogged road.

DECREASE IN TRAVEL. Bad weather and bad roads caused the decrease. January, 1947, travel figures show 72 cars and 235 visitors.

ROADS. Monument road to headquarters is in excellent condition; road to lower picnic area in poor condition due to snow. The approach road is bad in stretches due to melting snow drifts.

WILDLIFE. Deer were driven down to areas around headquarters where they were able to feed. Three herds were seen and there were about twenty-five in each group. Five frozen chickadees were found at the back door. Snow drifts along the back patio wall made it possible for the rabbits to enter the yard and feed with the birds.

ACTIVITIES. The entire report period was spent in shoveling snow, hauling water, fuel oil, wood, coal, ashes and garbage.

The windows were sealed with strips of masking tape. The draft control was changed on the hall stove.

The usual office work kept current. The Superintendent's Monthly Narrative Report for August-September, 1947, Region One; August-September, 1947, Region Two and Four; and October-November, 1947, Region Two and Four were received and read with interest.

The Reido Garage at Mosca was awarded the contract for automotive repairs.

PUBLICATIONS. There are on hand, 1688 mimeographed informational leaflets.

Ted C. Sowers,
Custodian.

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Montezuma Castle National Monument
Camp Verde, Arizona

February 24, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly report of activities at Montezuma Castle National Monument for the month of February, 1948.

Visitors this month - 1464 to the Castle and the Well; travel year to date - 6706. Visitors to the Castle were 302 less than the 1417 counted in February, 1947. Considerable cold stormy weather with snow at higher elevations probably accounts for most of this drop. Nevertheless we had three and one-half times as many visitors as the 318 counted in February, 1941.

Weather We have received .87 inches of moisture since last report with a few traces of snow. The minimum temperature was 8° above zero on February 12 and the maximum was 78° on February 21.

Administration Our annual inventory was completed and Board of Survey Reports prepared.

Photographs taken annually to check on re-vegetation of the protected area across from the Castle were taken. A report will be submitted as soon as these are processed.

Hastings was on duty Sunday, February 22, and noone was on duty at the Well.

A contract to complete repair of the quarters at Montezuma Well and install a septic system was awarded to E. Broughton of Cottonwood. Repair of the museum is included.

All the tillable land at Montezuma Well under lease by the Montezuma Dairy has been seeded to oats.

Maintenance and Improvements Our "No Cat and Dog" sign is attached to a false post which looks so secure that visitors jump onto it and get a bad fall. The support for this was altered to make it more secure.

The larger bedroom and the livingroom at Residence No. 2 were redecorated.

Our soda and acid fire extinguishers were discharged and refilled.

The entrance gate was repaired and our general information sign returned to its original base. This sign was removed from its heavy log base when our entrance road was altered and it has since been resting on a temporary base.

Pick-up I-13852 was taken to Prescott for alignment of the front end.

Exterior wood work at the restrooms and all wooden signs in the area of visitor use were given a coat of raw linseed oil.

The residence at Montezuma Well is being made ready for a paint job and improvements of yard and ditches continue. A propane system was installed by the Verde Valley Butane Company.

A new visitor register stand was constructed according to drawing Mont. 2028. It still is in need of staining and weatherproofing and a cement base.

A new wooden sign pointing the direction to Montezuma Castle was placed at McGuireville.

National Park Service Visitors Ranger and Mrs. Jim Orr from Lava Beds National Monument were here January 24.

Assistant Regional Director Davis and Chief Clerk Castellum were here January 29 to discuss administrative problems.

Mr. and Mrs. Lon Garrison and two children and Mr. and Mrs. Hub Chase were here from Grand Canyon on February 22.

Personnel Ranger Leding was on sick leave January 21 through the 25th. Mrs. Leding and their daughter were also sick. Leding was on annual leave a half day on February 14 and all of February 15, 18, and 21.

Archaeologist Schroeder was on annual leave January 30 to look after his sick family ill with a cold.

Publications Sales Receipts on the "Serve Yourself" plan have been showing a considerable shortage which is greater on week ends. On Saturday, February 21, while Archaeologist Schroeder was in the Castle with a party our change box was relieved of about $2.40.

The last copy of "A Visit to Montezuma Castle" by Earl Jackson was sold February 22. This leaves our Pinkley booklets the only information on the Castle offered for sale.

Museum Activities Ranger Leding completed cataloguing a collection of pottery and other artifacts donated to the monument by E. W. Richards of Camp Verde.

At Montezuma Well the project of making out catalogue cards for the archaeological specimens acquired with the property was completed with exception of a few restorable pottery vessels. Specimens numbered include 242.

All specimens have been removed to one of the locked adobe cabins pending repair of the museum.

Work began on a rough draft for a proposed museum display at the Well for an unattended museum. During seasons of heavy travel it is anticipated the man on duty will be busy with visitors at the Well most of the time.

Archaeology In the course of renovating the fields leased by the Montezuma Dairy, a portion of an Indian ditch, similar to that by the museum, but smaller was revealed. The south end of the ditch is located 60 feet within the south edge of the fields near the shed and runs from northeast to southwest. About 20 feet of the ditch was evident, and about another 50 feet can be traced by the occasional showing of chunks of limestone. The top of the ditch was from 6 to 9 inches below the surface.

The pits in the burial grounds were mapped in order to have accurate locations in case some of them are to be backfilled.

Visitors There were 1115 visitors to Montezuma Castle who came in 291 cars and 349 visitors in 113 cars were counted in the 19 days a man was on duty at the Well. Tickets were sold to 283 visitors, 26 children used Complimentary Admission Tickets and 42 children were admitted free.

Contact Time Total contact hours at the Castle- 104.75; Hastings 55.75; Leding 38.50 and Schroeder 10.50. Seventy-seven trips were made through the Castle for 350 visitors and 419 visitors saw the museum in 96 groups. One hundred and fifty-nine visitors received information outside the ruins or museum.

Elmer F. Hastings,
Custodian.

NAVAJO NATIONAL MONUMENT
TONALEA, ARIZONA

Feb. 25, 1948

MEMORANDUM for the Director, Region Three

There follows a report of activities in this area for the month of February 1948.

WEATHER: On two occasions the snow depth has reached 7 inches. Maximum temperature was 53 degrees on the 18th. Minimum temperature 3 degrees below zero on the 12th. Precipitation 1.50 inches. The snow has melted so rapidly that small gully washers arose. While at the pumphouse on the 19th it was estimated that the stream flowing off the bare rocks and passing the pumphouse was 30 times greater that the stream we were pumping.

VISITORS: 5 visitors arrived at this area, all with purposes other than ruin trips.

ROADS: Passable only by cars wearing chains. Deep ruts and mud have made the roads difficult. The snow depth has also impeded travel.

PROGRESS REPORT: Some progress has been made in each of the following: Additional road signs were layed-out, routed, painted, mounted on posts but as yet not installed. Road repair as needed to keep the road passable.

Because of the small size of the residence and the volume of our files it was imperative that something move out. We moved several wheel-barrels of files to the contact station. All files pertaining to the Naturalist Division are now in the contact station.

SPECIAL EVENT: On Feb. 22nd we attended the formal opening of the Guest Ranch at Kayenta. (This is the old Wetherill Colville establishment, now under management of Bennett Hyde).

J.W. Brewer, Jr.,
Custodian

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

~~ORGAN PIPE CACTUS~~ NATIONAL MONUMENT

~~P. O. Box 38, Ajo, Arizona~~

~~February 25~~ 19~~48~~.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of February, 1948.

WEATHER

A new record minimum temperature for Organ Pipe of 18 degrees above zero was twice reached during the month on January 29 and Friday, February 13. Weather for the entire month was below normal in temperature, although a maximum temperature of 85 degrees was recorded on February 17. Travel increased as a result of the cold waves, though, as visitors came our way to escape the even colder weather to the north. 0.12 inches of precipitation fell during the month.

TRAVEL

The total travel this month of 6389 visitors brought the total for the travel year to 38186. Campground use in increasing and we have real need now for some developed area. On February 22, 1025 persons crossed the international line. This is about average for weekend travel which gives some indication of the growing importance of this section.

GENERAL

Contact and interpretation was given all the time which could be spared from other work. Some time was spent to acquaint our new ranger with the area. One trip was made to Casa Grande to pick up the Ford pickup which Gene had overhauled and on to Phoenix to pick up supplies. The inventory was made of non and semi-expendable property and supplies.

REHABILITATION

The electric motor for operating the water pump was installed and put into operation. Work on installation of the tank for the water system was continued.

MAINTENANCE

Minor overhaul of both the 3 KW light plants to replace broken valve springs and to grind valves, work on the S & M Chevrolet pickup to put it

in operating condition awaiting transfer orders from Region Three, continued work on the new residence, and routine odd jobs kept the maintenance man busy during the month. The patrol grader is now ready for us at Casa Grande.

ACCIDENTS

Another cow was killed along the highway just north of headquarters on the night of February 10. Speeding motorists traveling to and from Rocky Point, Mexico continue to find cows quite a traffic hazard.

WILDLIFE AND FLOWERS

Desert flowers are now starting with small poppy displays being most general now. The flower season has been held back by the cold weather but we anticipate a good flowering year. Some moisture still remains from the showers last November.

PROJECTS FOR COMING MONTH

General interpretation and office work will consume a great deal of time in March. We plan to start the revision of the master plan in connection with the anticipated visit of Mr. Vint and Region Three officials. The return of the patrol grader will enable the maintenance man to get at some badly needed road work.

William R. Supernaugh,
Custodian.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Saguaro National Monument
Tucson, Arizona

February 26, 1948

MEMORANDUM for the Regional Director,
Region Three.

There follows the monthly narrative report of activities at Saguaro National Monument for the month of February, 1948.

WEATHER. Temperatures ranged from a low of 18 degrees on the 10th to a high of 80 on the 19th. Precipitation occurred on six days during the month, with two other days being overcast. Four nights brought temperatures below freezing. At the end of the month approximately 16 inches of snow is on the ground on top the Rincons.

SPECIAL ACTIVITIES. Ranger Wilde made a trip to Organ Pipe Cactus on February 18, to obtain sign material given us by Bill Supernaugh.

N.P.S. VISITORS. Charlie Steen was in on the 15th to borrow a back-pack pump for use in the stabilization work at Casa Grande.

MAINTENANCE. Due to the unfavorable weather, little was accomplished on the Madrona - Grass Shack trail; twenty man-days were spent on the tread and water drainage. The 4000-gallon water tank at Madrona was set on concrete bases, primed, painted, connected, and filled. Both of the horse drinking fountains in the Madrona Corral were replaced, the old ones having frozen and burst. The main water line at Madrona also froze, and several sections were replaced between tanks and the residence, and in the pump intake line. Both outdoor toilets at the Headquarters were moved from their old location behind the building to a point east of the parking area, repaired, painted, and reroofed. The Headquarters pump also froze, necessitating minor repairs which could not be accomplished until parts were finally located in Tucson. The new underground 550-gallon gasoline tank was set, and will be put into service as soon as present supplies of gasoline are used so that we may move the pump. The project of constructing and placing new signs within the monument area is complete; we intend now to begin making and setting directional road signs on approach roads.

The Monument Loop Road was dragged after four first and third rainy days, and is in fair condition. However, it cannot be put into first class shape until delivery of the long-awaited motor patrol.

APPROACH ROADS. On February 2, the Pima County District Court ruled that the incorporation of the "Rincon Village" area east of Tucson was unconstitutional. With this ruling, it again becomes possible for the Pima County Highway Department to maintain the section of East Broadway beyond the end of the pavement. After two periods of heavy maintenance, each of nearly a week's work, this stretch is again in fair to good condition for the first time since last May. Thus, one of our worst problems has been solved, with a resultant increase in travel and a decided decrease in complaints.

TRAVEL AND INTERPRETIVE SERVICES. Again this month all previous vistor travel records were broken. A total of 3415 people, from 44 states, D.C., 3 provinces of Canada, England, and South America were counted; these visitors arrived in 1125 cars, 55 horses, two motorcycles, and three bycycles. This is an increase of 211 persons over January's record visitation, and an increase of 563 people, or 19.8%, over February, 1947.

Of the above total, 1639 persons, or 48%, were contacted at the Headquarters. This number, percentage, and the total contact time of 7580 minutes, or an average of 17.0 minutes for each of 435 parties, are likewise new records for this monument. It is believed that improved road conditions, considerable recent local publicity, and the greatly improved appearance of the Headquarters area are responsible for the increase in public informational service, since all our past reports show that only about one-third of the visitors stop at the office. The increased average time spent by most visitors is possible due to improvement of our still inadequate exhibits.

A new, experimental, interpretive device - the guided Auto Caravan - was begun on February 15. New, that is, at Saguaro. In spite of other local activities on that day, 52 people turned out for the trip, which is scheduled for the hours from 2 to 5 P.M. each Sunday during the month, and will continue into March if public response warrants. We intended to begin these trips on the 8th, but inclement weather interfered. On the 22nd, although travel was heavy, not enough people arrived until too late to complete the trip. If successful this year, this activity may be continued on a larger scale next winter, personnel permitting.

EXHIBITS. Work on the new arboretum in the front yard of the Headquarters, is approximately 90% completed. Visitors comment frequently on both its appearance and on its interest. Similarly, frequent compliments are received on the photographic exhibit in the small multiplex on the front porch. This last has proved to be more of a job than we bargained for, as plans for its final content are enlarged weekly. Both color and black and white prints are being used, and we have now decided to include bird subjects, along with cacti, flowering plants, insects, and reptiles. This project, with anticipated revisions, will probably be a continuing and never-ending job, but well worth-while from an interpretative view.

SNM Association sales have been excellent, and may surpass those of last month, our previous record month.

VANDALISM. Without having kept a record of individual instances, we believe this to be the worst travel season the present Custodian has ever seen in respect to instances of wilfull or thoughtless vandalism on the part of visitors, particularly adults. It has become necessary for one man to spend each Sunday afternoon patrolling the Loop Road, in a rather hopeless attempt to stop digging of cacti, smashing and removal of dead Saguaro skeletons, and cutting and initial-carving on trunks of living cacti. Three wood-haulers have been encountered, and relieved of their loads, in the past month. Fires built in impromptu fire-places along the Loop Road, are so frequent that patrols are made each Sunday evening, after five P.M., and often a second patrol after dark.

WATER SUPPLY. Beginning the last Friday in January, it was necessary to again haul water to the Madrona Ranger Station. All of the time of one man was spent on this work, until the creek began flowing again on February 10. A total of 6500 gallons was hauled in this period. At the present time all storage tanks are full, and the creek running in greater volume than it has had in the past 15 months.

PUBLIC HEALTH. No water supply samples was taken this month, as there was no water on February 1. The present storage, except in the new tank, is water from the Tucson supply, so no analysis was deemed necessary.

All but one of the monument employees at the Madrona Canyon area have been ill with colds during the month. Time taken off totaled four days.

REVERSE PROCEDURE. When a man bites a dog, it is always news. Upon the occasion of his visit to Saguaro, last week, Mr. John D. Rockefeller, Jr., expressed his regret that he did not have any book which described and identified the local cactus species. Ranger Frost, who had contacted Mr. and Mrs. Rockefeller, and who had formerly been a neighbor of theirs at Northeast Harbor, Maine, stopped by their hotel on his way home, and left a copy of Dr. Shreve's "Cactus and Its Home" at the desk for Mr. R.

We have been wondering ever since if "Pop" Frost had heard of the incident wherein the late Will Rogers presented John D., Sr. with a dime upon meeting him for the first time.

Don W. Zgenmayer
Custodian.

RECEIVED
MAR 1 1948

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Sunset Crater NATIONAL MONUMENT

Flagstaff, Arizona

February 28 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of the activities of Sunset Crater National Monument for the month of February, 1948.

Visitors this month: 397 Travel year to date: 3620

Travel: Heavy snows have blocked all roads for most of the month. 159 visitors registered in spite of the adverse conditions. This represents a decrease of 22.8 % for the same period a year ago. Total travel estimates are continued on the same basis by adding an additional 60% to the number registered.

Weather: Temperatures have remained near or below the freezing point for the month. Roads were blocked by heavy snows most of the time. Observations made the latter part of February indicate that 3.21 inches of precipitation fell during the past quarter. At the time of this inspection it was estimated that from four to six inches of snow lay on the level.

NPS Visitors: During the latter part of the month Chief of Development Tom Vint, Regional Engineer Lassiter, Regional Architect Cornell and Architect Lovelady visited the area with the intention of inspecting the proposed location of the new entrance road. However deep snow and adverse weather conditions prevented them from accomplishing the study they desired.

Road: The Saginaw Manistee Lumber Company began clearing the entrance and monument road of snow the latter part of the month, preparatory to logging operations to the south and also to the east of Sunset. The deep drifts along the base of the crater have been plowed but the entire road is rough and slippery in spots. No travel has gone through on the Sunset-Wupatki road. It will again be necessary to erect signs closing this portion as soon as the actual logging operations begin, as the presence of logging trucks on the narrow roads creates a hazard to the visitor.

Robert F. Upton
Ranger-in-Charge

Tonto National Monument
Roosevelt , Arizona

February 27, 1948

MEMORANDUM for the Regional Director, Region Three.

Following is a report of activities at Tonto National Monument for the month of February, 1948.

Weather. The first two weeks of February were colder than usual with temperatures down to 20° F, which is enough in this part of Arizona to freeze water lines, which it did. Most of the month has been colder and cloudier than usual, except February 22, which set a heat record in Tucson. On February 23 we had a general dust storm. Roosevelt Lake continues to be very low, with little prospect of its filling this year.

Approaches to Monument. The Apache Trail is in fairly good condition. The Queen Creek Canyon section of Highway 60 is being widened, and cars are held up sometimes several hours for blasting and rock clearing, which affects our travel.

Interpretive Service. With more visitors than last month, it was necessary to declare the Upper Ruin closed, as we cannot give adequate service even then. Without a lot of planning, stabilization and extra personnel to protect the Upper Ruin, it should stay closed.

Travel. 3017 persons in 833 cars visited Tonto in February. 1106 visited the Lower Ruin. While this was an increase of 400 persons over the preceding month, it was about 900 less than February 1947. Cold weather, construction on Highway 60, and the fortunate decision of 101 cars and 4 busses of Dons, not to stop here, account for the difference.

Roads and Trails. The resignation of trail laborer Eugene Cook on February 23 completes the first round of trail repair. The path to the Lower Ruins is in fair condition, but needs a considerable amount of work to bring it up to a high standard.

Roads & Trails, contd. The mile of entrance road is wearing down to the subgrade, with rocks starting to come through. It needs considerable work with equipment that I do not have.

Visitors. Archaeologist Dan Davis & Mrs. Davis from Casa Grande; Ranger Frederick Brueck, Mrs Brueck & son, from Grand Canyon, and Custodian Clair V. Cooke & Mrs Cooke of Chiricahua visited Tonto this month.

General. The State Highway Department offered to replace our signs at the intersections of the Apache Trail with Highway 60 and 80 - 89 with new signs of similar design and wording. As ours are badly beaten up, the custodian was glad to receive that offer. The one new sign here was put up at the Miami junction.

The 3 K.W. plant quit operating, and will be taken to Casa Grande along with the Dodge pickup, which needs brakes repaired and other work.

Several loads of gravel were hauled for the ravine which serves as a utility area. Considerable work has been done on labels for the various desert plants here which interest the visitors considerably.

Visitor contact takes up most of our time, making it difficult to keep up with maintenance and office work at times.

Ranger Hendricks and the Custodian & wife heard a very good lecture on the archaeology of Gila County, by Dr. Deric O'Bryan of Gila Pueblo in Globe.

Tonto National Monument
Roosevelt , Arizona

February 27, 1948

MEMORANDUM for the Regional Director, Region Three.

Following is a report of activities at Tonto National Monument for the month of February, 1948.

Weather. The first two weeks of February were colder than usual with temperatures down to 20° F, which is enough in this part of Arizona to freeze water lines, which it did. Most of the month has been colder and cloudier than usual, except February 22, which set a heat record in Tucson. On February 23 we had a general dust storm. Roosevelt Lake continues to be very low, with little prospect of its filling this year.

Approaches to Monument. The Apache Trail is in fairly good condition. The Queen Creek Canyon section of Highway 60 is being widened, and cars are held up sometimes several hours for blasting and rock clearing, which affects our travel.

Interpretive Service. With more visitors than last month, it was necessary to declare the Upper Ruin closed, as we cannot give adequate service even then. Without a lot of planning, stabilization and extra personnel to protect the Upper Ruin, it should stay closed.

Travel. 3017 persons in 833 cars visited Tonto in February; 1106 visited the Lower Ruin. While this was an increase of 400 persons over the preceding month, it was about 900 less than February 1947. Cold weather, construction on Highway 60, and the fortunate decision of 101 cars and 4 busses of Dons, not to stop here, account for the difference.

Roads and Trails. The resignation of trail laborer Eugene Cook on February 23 completes the first round of trail repair. The path to the Lower Ruins is in fair condition, but needs a considerable amount of work to bring it up to a high standard.

Roads & Trails, contd. The mile of entrance road is wearing down to the subgrade, with rocks starting to come through. It needs considerable work with equipment that I do not have.

Visitors. Archaeologist Dan Davis & Mrs. Davis from Casa Grande; Ranger Frederick Brueck, Mrs Brueck & son, from Grand Canyon, and Custodian Clair V. Cooke & Mrs Cooke of Chiricahua visited Tonto this month.

General. The State Highway Department offered to replace our signs at the intersections of the Apache Trail with Highway 60 and 80 - 89 with new signs of similar design and wording. As ours are badly beaten up, the custodian was glad to receive that offer. The one new sign here was put up at the Miami junction.

The 3 K.W. plant quit operating, and will be taken to Casa Grande along with the Dodge pickup, which needs brakes repaired and other work.

Several loads of gravel were hauled for the ravine which serves as a utility area. Considerable work has been done on labels for the various desert plants here which interest the visitors considerably.

Visitor contact takes up most of our time, making it difficult to keep up with maintenance and office work at times.

TUMACACORI NATIONAL MONUMENT
Tumacacori BOX 2225, TUCSON, ARIZONA

Tumacacori, Arizona

February 25, 1948

MEMORANDUM for the Regional Director,
Region Three.

Follows the monthly narrative report for Tumacacori National Monument for the month of February, 1948:

WEATHER CONDITIONS: The drouth has relented this month, with 1.21 inches precipitation, which is about normal for February. Minimum temperature of 12, on January 29, was unusually low, occurring at the same time that a record low of 6 was recorded in Nogales, 18 miles south. Maximum of 85 occurred on the 17th. Terrific winds, of gale proportion, occurred on the 23rd.

MAINTENANCE: Routine was kept current.

MAJOR REPAIR AND REHABILITATION: The contractor finished covering the museum building roof with two new layers of asphalted felt and aluminum paint. He has done nothing yet on the repair of the museum entrance and its ramp construction.

INTERPRETIVE SERVICE: 2,235 visitors went on 260 guided trips through the mission and grounds, receiving an average of 35.3 minutes per trip. 4,132 visitors saw the museum. 4,154 persons received combined Information and Interpretation Service.

INCREASE OR DECREASE IN TRAVEL: The visitor total of 4,303 persons for this month sets a new all-time record for regular travel. Next highest month was January, 1948, with 4,065 visitors. February 22 was the biggest travel day we have seen here, with 311 visitors, and 152 guide tickets sold.

VISITORS: February 5 - Perry R. Taylor, of the Bureau of the Budget.
February 18 - Father Victor R. Stoner, well known mission history authority.

INSPECTIONS: February 12 - Archaeologist Charlie Steen checked over last season's ruins stabilization work, and approved coming work for next season.

PERSONNEL: Our full staff of two permanents and one seasonal were on duty practically all month. Jackson took 2 hours sick leave, and 8 hours annual leave. Brewer took two hours annual leave.

RED CROSS: The staff took a Standard course in Red Cross First Aid earlier this winter. On February 12 we received full equipment for a Red Cross First Aid Station and installed it. Tumacacori now has the only emergency First Aid station in this county.

PUBLICITY: Nogales and Tucson newspapers gave us good spreads on the January record travel figures (which were mailed out to them under paid postage). Publicity was also given to the installation of the first aid station. In fact, we have no trouble whatever getting newspaper publicity on any information we dish out.

GENERAL: Everything is going along in good condition. It has been a Godsend having a seasonal ranger this winter. I don't know how we ever got along without one before.

TUZIGOOT NATIONAL MONUMENT

CLARKDALE, ARIZ.

FEBRUARY 26, 1948 19

MEMORANDUM for the Regional Director, Region Three.

Following is the monthly narrative report for Tuzigoot National Monument for February, 1948.

Travel Data: Although adverse weather conditions prevailed throughout the month we had the greatest February travel in the history of the monument. 1147 people in 346 parties. The present 1948 travel year promises to pass last years high by several thousand.

Guide and Contact Service: Museum, ruins and orientation contacts totaled 2752 for the month. 1006 people in 265 parties were shown the museum, and 1016 people in 251 parties were conducted through the ruins. The average time spent by each party in the museum was 21.4 minutes while the average conducted tour through the ruins required 20.8 minutes per party.

Personnel Time: Museum: 95 hours, 40 minutes. Ruins: 87 hours, 05 minutes. Total time for Bright: 97 hours, 35 minutes. For Richert: 85 hours, 10 minutes.

N.P.S. Visitors: Tuzigoot welcomed Assistant Regional Director John M. Davis and Chief Clerk Luis Castellum on January 30. We find that periodic visits by the Regional Office Personnel is highly beneficial to the areas concerned.

Special Visitors: On February 1, a caravan of 30 automobiles with 109 people, visited the monument. The party consisted of young people representing 16 nations. This Moral Re-Armament Group, sponsored by the National Committee of Invitation, is presenting, "THE GOOD ROAD" a new musical revue, in various parts of the nation and in foreign countries.

Maintenance and Administration: More sewer line trouble. A section of about 40 feet completely disintegrated due to growth expansion of plant roots which had broken into the line at various places. The entire length has been cleared away and repairs will be made as soon as new tile can be obtained. New nature trail signs were placed along path leading to the ruins describing the common and scientific names of different kinds of cactus. Ranger Richert completed the placing of new descriptive labels in all display cases in the Museum. The annual task of dewooding of rooms in the ruins was started during the latter part of the month.

Publications: 8950 Tuzigoot two-fold leaflets and 50 mimeo informational sheets on hand. No other free or for sale publications on hand at this Monument.

Everett M Bright
Custodian.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Walnut Canyon NATIONAL MONUMENT
Flagstaff, Arizona.

February 28, 1948

MEMORANDUM for the Regional Director, Region Three. 19

There follows a report of activities in Walnut Canyon National Monument for February, 1948:

Weather. With several good snows during period, the City of Flagstaff feels confident of having enough water for the coming year. Fourteen below on the 11th, was our coldest day since 1945.

Visitors. Of the 341 total, 311 werecontacted, and it is estimated that 140 made the ruins trip unattended despite the snow on trails. Our travel-year-to-date figure is running behind last year's because our entance roads are in worse condition from more precipitation.

Inspections. Mr. Davis and Mr. Castellum were here for a full day discussing administrative matters. Mr. Carlson made a brief stop to leave some forestry supplies for Wupatki and Navajo. Mr. Vint, Mr. Cornell, Mr. Lovelady and Mr. Lassiter spent most of a day here going over the PCP for Walnut Canyon, and inspecting the proposed approach road.

Activities. Beyond the routine chores, we have principally been concerned patch plaster and painting the interior of the Custodian's residance. We havent finished but what we have done is OK if we do say so ourselves.

SAM Association. Last month I should have stated how pleased we were to have the Association bind five volumns of the Arizona Highways for our library. Our show case was broken into and looted the morning of Washington's birthday. This is the fourth time we have lost several books. All publications have been removed and will not be displayed until some improvements are made on the case.

February 26, 48

MEMORANDUM for the Regional Director, Region Three.

FEBRUARY TRAVEL - 1948	1948 - TRAVEL YEAR TO DATE
Visitors 4621 Cars 1378	Visitors 25,933 Cars 7,278

February lagged somewhat behind the same month of last year but this is definitely traceable to adverse weather conditions. It was necessary to close the road into the Sands four days and two other days the weather was very bad curtailing travel in any direction. On several days both the states of New Mexico and Texas were requesting all non-essential cars to stay off the highways due to snow, ice, or dust.

A record low for White Sands was reached the night on January 30 when the mercury dropped to minus 3. Just for contrast the high was 74° on February 19. Moisture totaled almost an inch, much of which was snow.

Two official trips were made off the Monument, both to El Paso via the White Sands Proving Ground. Accompanied by Ranger Steel a hurried inspection was made of the ruin sites reported recently. They seem to be typical of the Tularosa Basin, similar sites have been studied for some time.

Museum visitors seemed to have lingered longer than usual and, of course, the regular questions were presented to us in various forms. The "54" Association held their annual convention in Alamogordo and many of the delegates visited the White Sands. It is the hope of the Association to get Highway U. S. 54 paved throughout its entire course. When this is accomplished we should certainly notice a decided increase in visitation.

Heavy winds and storms have proved a nightmare to our road man and it is entirely possible that, unless we can secure equipment or borrow from the Army, our roads will be closed. The small patrol is simply not large enough to carry the spring load by itself.

A start at moving the picnic area has been made - the toilets have been moved and the road blocked leading into the old area. The first Sunday the new public use area was in operation we ran over a thousand visitors. This heavy use quickly brought out several weak points which will be corrected as time permits.

An attempt is being made to repair all our picnic area disposal units. We are trying to get out an inventory, wage scale survey, and numerous odds and ends.

The White Sands Play Day has been set for April 10 and we will be glad again to see it come and go. The Chamber of Commerce and Otero County school officials are looking for the largest crowd in the history of the event.

Concession sales are running a little lower than last February but are still well ahead of former years.

No complaints were received by this office and we will make every attempt to carry on in such a manner as to prevent one.

Johnmill Faris,
Custodian.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

February 28 19 48

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Wupatki National Monument for the month of February, 1948.

Visitors this month: 172 Travel Year to date: 1047

Weather: During the past month the weather was more typical of January with daily temperatures in the forties and fifties, brief snow flurries, and cold winds. Precipitation is still below normal.

Roads: The Wupatki entrance road has been open the entire month. The small amount of precipitation received has settled the dust anyway. The approach from Sunset Crater has been closed.

Travel: Visitation has shown a 26% decrease for the same period of a year ago. This is in keeping with reports of travel in the Flagstaff vicinity which has fallen for the past six weeks. No doubt caused by the general winter weather with its disagreeable traveling conditions. The travel year however shows an increase of 25% over that of last year.

Grazing: The CO Bar cattle, grazing under permit, have not been as numerous as last year, but we are having more difficulty with trespass grazing in the Wupatki Basin. As reported last month, Joe Kellam's cattle have been drifting in to water at Heiser Spring. The maximum number to date has been about seventy-five head. This varies considerably for the owner rounds them up and takes them back on his own range at every opportunity. The only solution to this problem is fencing along our south boundary.

Kirby continues to graze under permit on the Coconino Forest adjoining our south and west boundaries. He has mentioned that this is positively the last year he will be permitted to graze in this area. An interesting observation on grazing in the cinder area came from Mr. Kirby. While there is an excellent stand of grama and gallenta grass forming a dense cover on some of the more consolidated soils, cattle tend to avoid this grass and prefer to browse in the rocky sections and on the hills. It is Kirby's opinion that the grass of the cinder area lacks some essential mineral.

Where his cattle have eaten the grass he does not feel that they are in as good condition as when they feed on similar species outside of the cinder. This interesting observation on cinder ecology should have more study.

Special Activities: Dr. H. S. Colton, Museum of Northern Arizona, planned to visit the monument this month in order to select archeological sites for excavation this summer. Pressure of other work prevented his doing so, but he hopes to have one or two small projects in this area, ones which can be completed and ready for publication by the end of the summer.

What might have been a small "gold mine" for some prehistoric Wupatki trader was reported by one of our Navajos, Julius Chee. A deposit of hematite across the river from Crack-in-the-Rock Ruin was visited and recorded in the files. It consists of large and small nodules of hematite in what is apparently the lower Chinlee formation. Some of it is of excellent quality for making red paint and undoubtedly was utilized by the prehistoric inhabitants of this vicinity.

Spring Flow: Wupatki Spring increased in flow from 881 to 993 gallons per day over the past month, whereas Heiser decreased 98 gallons to 1136 gallons per day. The use of this water by trespass cattle deprives Navajo stock of their water.

NPS Visitors: Regional Engineer Lassiter inspected the proposed water line, spring development and several other projects early in the month, returning again with Chief of Development Tom Vint, Regional Architect Cornell and Architect Lovelady. At the latter inspection the entire time was spent on matters basic to future Master Planing and it is hoped that we can reach final decisions within the relatively near future.

General: The conversion of the "boiler room" in the basement of the proposed public contact building into office space was completed and the moving of the office accomplished at long last. The knocked down water tank, 4000 gallons, was hauled from Grand Canyon and now rests on the cinder slope of Woodhouse Mesa above the residence. Figuring that hauling each piece up through the deep cinders for 100 feet was an awful chore, we brought it down in one single two ton box from the top of the mesa.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill Out Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as Attended Interpretive Stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, motel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

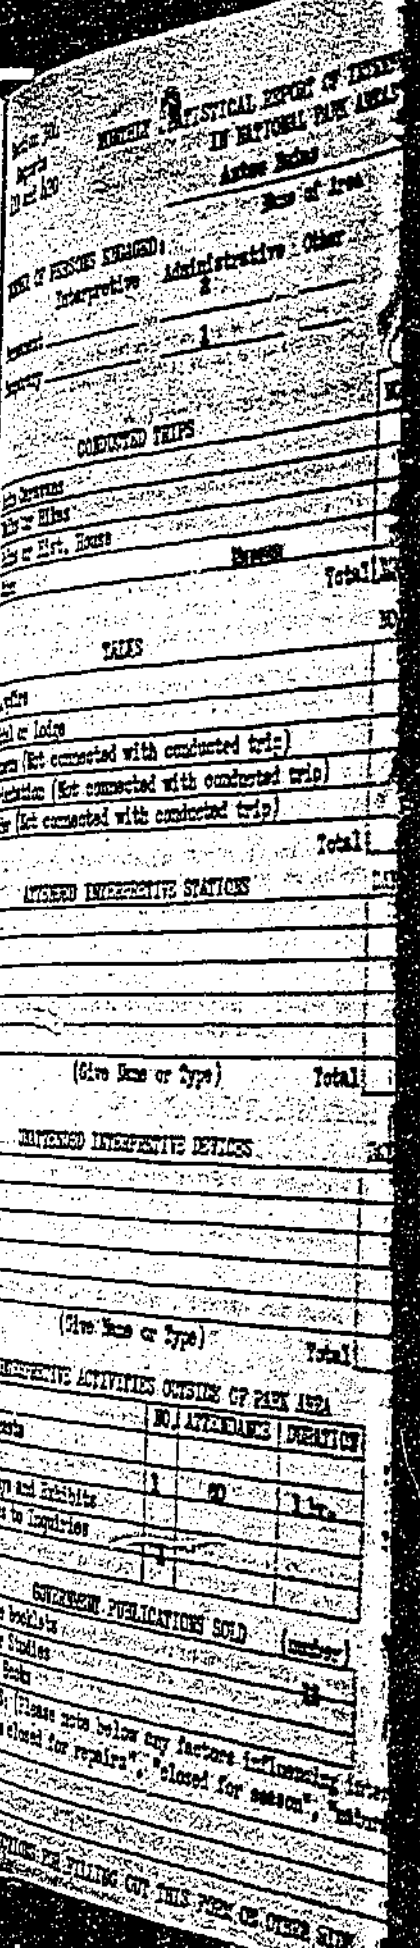
Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.



Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 5th of the month following that covered by the report.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

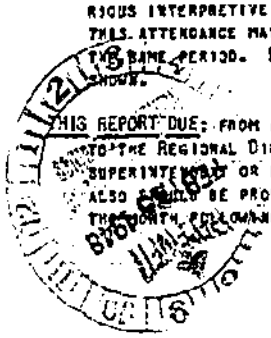
UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.



COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

TITLE ~~Custodian~~

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

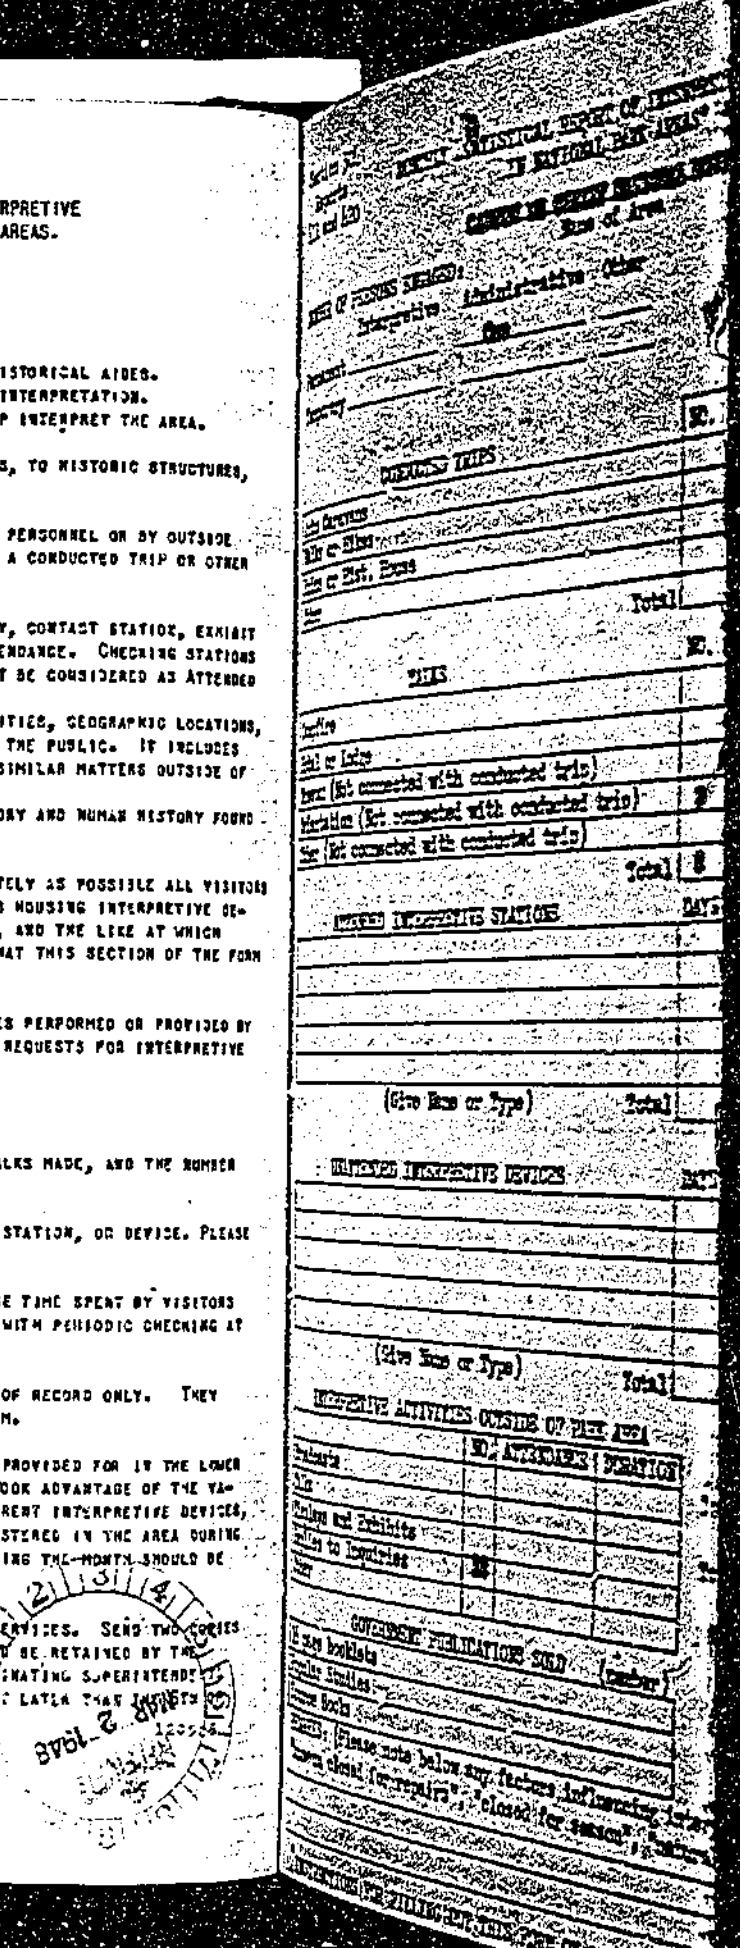
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.



COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN [illegible] THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field o' through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as Attended Interpretive Stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, motel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

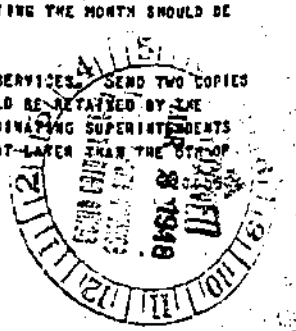
INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.



Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive services, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: from all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 5th of the month following that covered by the report.

TITLE Bates E. Wilson
Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

Talks: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

Attended Interpretive Stations: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

Unattended Interpretive Devices: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

Interpretive Activities Outside the Area: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

Column #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

Column #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

Interpretive Activities Outside of the Area ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

Totals: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. Total Attendance SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE [illegible] FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

* Gran Quivira Grade School.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, motel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive activities outside of the area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 6th of the month following that covered by the report.

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICE. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME Wilson R. Leonard

TITLE Custodian.

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

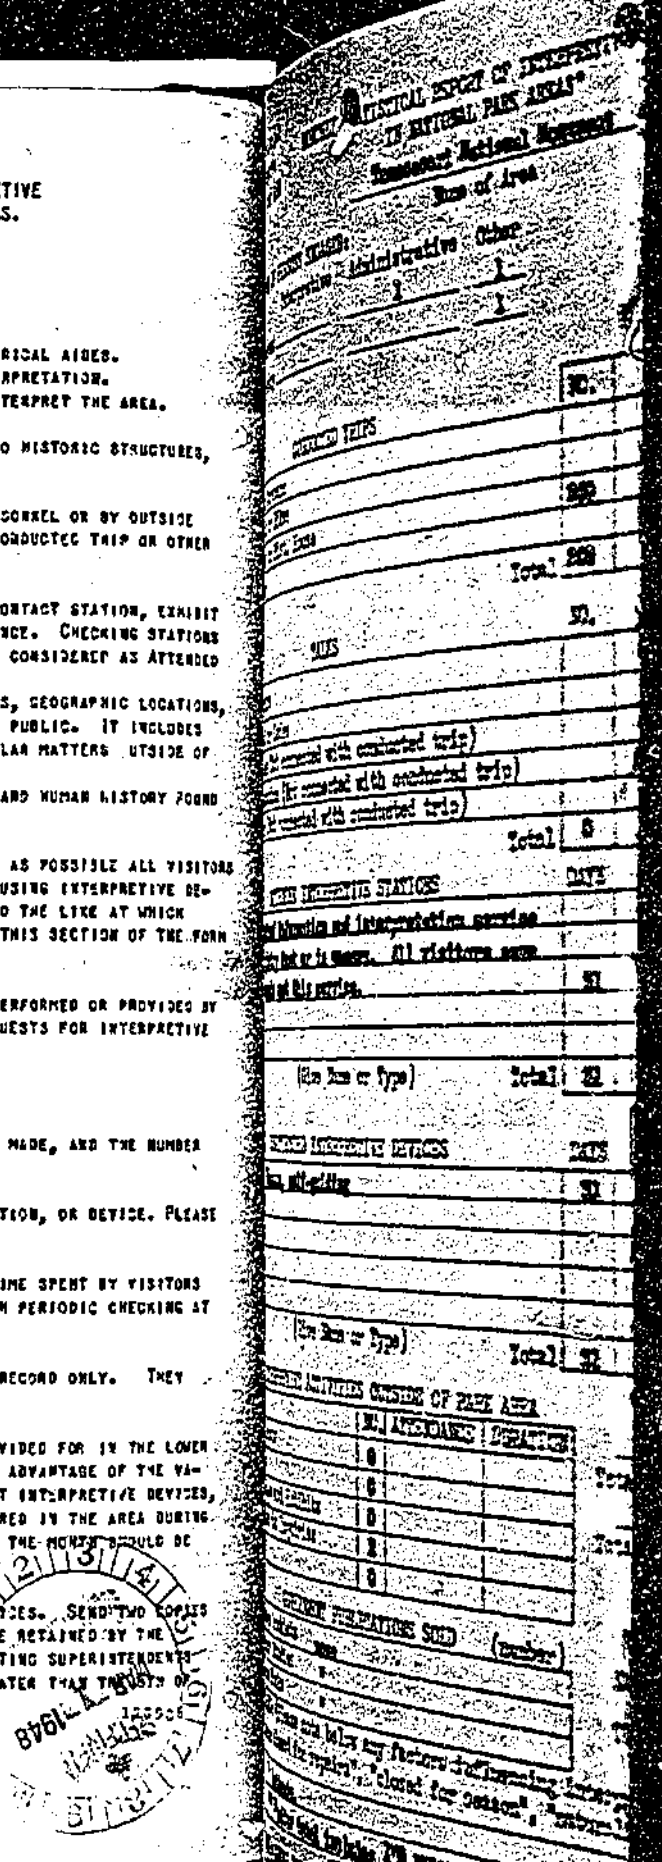
UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.



COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

APR 8 1948

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Region Three

Santa Fe, New Mexico

April 8, 1948.

MEMORANDUM for the Regional Director, Region Three.

Following is the narrative report for naturalists of the Southwestern National Monuments for the month of March 1948:

Staff Activities - General

Naturalist Dale S. King was in the office except for a one day trip to Bandelier March 2 and another to the University of New Mexico March 5.

Archeologist Charlie R. Steen spent the month at Casa Grande National Monument on ruins stabilization activities.

Interpretive Administration

King attended a meeting of instruction in personnel rating methods. He wrote several letters to persons applying for seasonal and permanent positions with the National Park Service.

Planning (Other than Museum)

Statements for the prefaces for the Master Plans of Sunset Crater, Wupatki, and Walnut Canyon National Monuments were prepared in rough draft and sent to the field for suggestions. Fieldmen of the three monuments then prepared the information sections which were edited by King and turned over to the Branch of Plans.

Progress of Exhibit Plans and Projects.

King visited Bandelier National Monument on March 2 and inspected the excellent paintings prepared by Mrs. Pablita Velarde Hardin for the pueblo government case in the museum there. Kodachrome pictures were taken for the Southwestern Monuments Association.

Discussion was held with architects regarding the proposal to rehabilitate a small building at Gran Quivira for use as an interpretive and office station.

Cooperative Activities

Additional progress was made toward obtaining an appointment as collaborator for a noted anthropologist and historian.

Copy negatives were made of a series of photographs by Custodian James Brewer of Navajo showing the steps in construction of a Navajo Hogan, and prints of those copy negatives sent off to Dr. Ruth Underhill of the Education Department of the United States Indian Service. Dr. Underhill plans to use them in a forthcoming publication on the Navajo Indians.

Region Three Office Loan Library

Accessions for the month totalled 102, consisting of 18 books, 3 reports, 51 pamphlets, and 30 periodicals.

King rearranged the current periodical file.

Books received were:

Peterson, Virgil V., ed,
1946 Brand Book. The Westerners

Hellman, Paul I.,
Death on Horseback

Mailo, Berard
Head and Face Masks in Navajo Ceremonialism
Prayer Stick Cutting in Five Night Navajo Ceremonial of the Male Branch of Shootingway
Navaho Sacrificial Figurines

Armstrong, Margaret
Field Book of Western Wild Flowers

Shimkin D. B.
Childhood and Development among the Wind River Shoshone
Wind River Shoshone Ethnogeography

Gifford, E. W.
Californian Shell Artifacts

Young, Stebbins and Hylander
The Human Organism and the World of Life, W. D.
Education Manual EM 496

MacCurdy, George Grant
The Coming of Man

Bean, Robert Bennett
The Races of Man

Greenman, Emerson F.
The Younge Site

Southwestern Monuments Association

Treasurer Alan Vedder worked 22 days, which is the greatest number of any month he had held the position. This was due to increased work, such as preparing purchase orders to stock headquarters for mail sales, checking old invoices and purchase orders, posting journals, checking donations, posting turn-ins, etc. A total of 310 covers were mailed including 21 letters, 78 purchase orders, 1 disbursement, and 2 deposits including 57 items.

Page proof for an Association pamphlet on Montezuma Well was sent to the printer March 22.

Copy was prepared and sent to the printer for the Association's first mailing which is expected fairly early in April.

The Director of the National Park Service accepted the deed for the Hubbard property near Aztec Ruins National Monument, which was tendered to him by this Association.

Display cases were finished for Tumacacori and White Sands, and the former was delivered before the end of the month.

The Association received a donation of 4,750 stencils from a local publisher, and employed a clerk to place these in order.

During the month the Association continued to donate postage so that the Regional Office could answer informational requests and letters of application for employment.

Because the Association will list subscriptions for New Mexico Magazine, the editor kindly placed all of the national monuments in New Mexico on his free mailing list.

Ruins Stabilization

Steen continued work of repointing and capping walls at Casa Grande with caliche. He experienced difficulty in excavating caliche on the monument, but was able to make arrangements to obtain a good supply from the Arizona State Prison in Florence. He expects to complete the Casa Grande work and return to Santa Fe the second week in April.

Aid to Administrators

Regional Archeologist Erik K. Reed and King visited the University of New Mexico March 3, conferring with Anthropologists Hill and Reiter and Comptroller Popejoy regarding the proposed exchange of university lands in Chaco Canyon National Monument. General agreement was reached on most matters, and this long-delayed project appears to have a chance for consummation.

Discussions were had with a salesman for a duplicating machine which perhaps can be purchased for the Regional Office.

Projects for April

King will be in the office on routine matters, including reports, editing, and handling the Association mail.

Steen will return about April 5 and spend most of the month in the office.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Arches
NATIONAL MONUMENT
Moab, Utah

March 27, 48
19

MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Arches National Monument for the month of March, 1948:

GENERAL: Extremely cold and stormy weather has been the rule throughout the month and the travel has been down to a minimum due to snow and slick approach roads. This has been the coldest March this country has experienced for many years.

TRAVEL: A total of 43 cars and 133 people visited the area during the month, with representation from Arizona, California, Colorado, Idaho, Illinois, Michigan, New Mexico and Utah. The bulk of the travel was from Colorado, Idaho and Utah.

INTERPRETIVE SERVICES: Two guided trips were taken during the month into the Devils Garden, Windows and Courthouse Towers sections with 4 people. Twenty six visitors were contacted at headquarters and 17 people in the Windows section. One hundred and sixteen people visited the Windows section unattended. Fourteen requests for information were received and answered during the month.

WEATHER: Snow fell on February 28th and March 2nd, 3rd and 4th with rain on March 19th and 20th. Cold winds blew intermittently all month and freezing temperatures were experienced each night until March 20th.

PRIVATE LANDS: The Abstract of Title and Warranty Deed, covering the purchase of the Turnbow property, was submitted to Regional Office for action.

NATIONAL PARK SERVICE VISITORS: Landscape Architect Alleman of Region Three Office arrived at the monument on March 8th. He spent from the 9th to the 13th on the inspection and alignment of roads being constructed by Grand County and looking over various sites for trail construction in the vicinity of Delicate Arch.

NEWSWORTHY VISITORS: Mr. Jack Breed, photographer from Tucson, Arizona

stopped by on March 11th to advise me that he would pay another visit to Arches during May or June.

Josef Muench, photographer from Santa Barbara, California, visited the area in company with Harry Goulding of Monument Valley on March 13th, 14th, 15th and 16th. He covered the Devils Garden, Delicate Arch, Windows and Courthouse Towers and was so well pleased with the possibilities of the area that he plans to return in April for further work.

GENERAL PUBLICITY: The Utah State Department of Publicity and Industrial Development held a showing of colored movies at Moab on March 24th. Included in one subject "The Crimson Cliffs", were several shots of the features of Arches and Natural Bridges National Monuments, as well as features at Deadhorse Point and Monument Valley. They have 25 duplicates of this picture being shown throughout the United States and it will certainly go far toward publicizing Southeastern Utah.

COOPERATING GOVERNMENTAL AGENCIES: Very little was accomplished on road construction by Grand County during the month. Extremely cold and stormy weather made construction very difficult. About 1 mile of the Delicate Arch spur has been roughed out with the bulldozer leaving approximately 1½ miles yet to be constructed. Most of the heavy dozer work has been done on this spur and the balance should go fast. The grader has the Devils Garden spur in good shape, with the exception of the last 3/4 mile which is in shale and has been to wet to finish. One trip was made by the grader over the portion from the Balanced Rock to the top of the switchbacks and ditching was completed on one side. Surfacing has been stockpiled for use on the Devils Garden spur. The crew left the job on March 13th to accomplish much needed maintenance work on various county roads and it is hoped that they will be available to finish the monument roads by April 5th. It is possible to reach the Turnbow cabin via the new road by using the Salt Valley Wash for part of the distance. The Devils Garden spur is impassable for visitors due to a stretch of about 150 feet of heavy sand that has drifted into one of the cuts. It is hoped that the use of snow fence will eliminate this trouble.

SPECIAL ACTIVITIES: On March 1st I accompanied the three Grand County commissioners on a trip over the new roads being constructed to the various sections of the monument. They were very enthusiastic over the work accomplished to date.

ROADS: The state maintenance crew spent 5 days on the maintenance of the Windows approach road during the month. It was graded on February 27th and 28th, but storms shortly thereafter washed out several short sections and it was in poor condition until March 17th, when they spent three days in putting it back in shape. It is now in fair condition.

MAINTENANCE: Merle E. Winbourn of Moab, Utah was entered on duty as Laborer, Leadman on roads and trails maintenance on March 4th. He was laid off on March 5th, pending approval of employment papers, but hope to have him back on the job April 1st.

The 5 KW power unit ceased functioning again during the month. It was found that two valve springs had broken this time, it seem s to have a weakness for breaking valve springs. It was repaired and again in operation on March 24th.

The water installation at the Windows parking area was opened for the summer on March 26th. The drinking fountain, etc was set-up and the tank filled by hauling water from headquarters.

Funds have been made available for the reroofing of the warehouse. It is hoped that this job can be completed during the coming month.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

24 March 1948

MEMORANDUM for the Regional Director,
Region Three.

There follows the report of activities in Aztec Ruins for March 1948.

WEATHER: The weather has been cold and brusque during most of the month with the last few days temporing toward Spring. Travel has reacted accordingly with a recent increase in visitation.

MAINTENANCE. The clearing of brush around the recently acquired Hubbard Mound has been commenced.

The Chaco Canyon crew has taken all of the usable logs from the roof of the small covered kiva "E" for treatment at Chaco. When the job is completed they will be returned for use at Aztec.

The water system is being worked on during spare time, at the residence, the museum and at the well site. The heating unit on the hotwater tank had become completely filled with lime deposits and was replaced. The waste disposal from the residence was cleaned, the sewer pipes having become completely occluded.

SPECIAL ACTIVITIES. The Custodian presented a talk on the National Park Service, illustrated by the Carlsbad film and the Four Corners film to a local organization March 15. These films are certainly appreciated by all who are able to enjoy them and we wish there were more time, as well as more pictures for presentation.

On a recent day off the Custodian and Mrs. Townsend enjoyed an aerial visit to Hovenweep, Natural Bridges, Monument Valley, Rainbow Bridge, Marble Canyon, Zion National Park, Bryce, Canyon de Chelly and Chaco Canyon. There is ceratinly much rough country one misses(or doesnt miss)while taking this circuit.

TRAVEL. There was a decrease this month of 100 visitors as compared to March 1947. This month we had 330 visitors in 104 cars from 25 states and Hawaii.

VISITORS. H.A. and Mrs. Powers and family, Park Naturalist, Hawaii National Park, visited March 20. They expressed considerable regret at not being able to get into Mesa Verde because of snow, altho they drove up to the entrance.

Interpretative Services. Of the 330 visitors in 89 trips who enjoyed our museum there were 218 in 60 trips conducted thru the ruins.

Irving D. Townsend,
Custodian.

AZTEC

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

March 29, 1948

Memorandum for the Regional Director, Region Three.

There follows a report of the activities at Bandelier National Monument for the month of March, 1948.

Weather

In this year of record weather another one was broken during this month. The low of -6 degrees on the 11th. is the lowest temperature recorded during March since weather records have been kept in this area. The high of 72 degrees on the 23rd. thawed us out some, however, and we began to think that spring might arrive here after all. There was a total of 9.7 inches of snow during the month and 1.23 inches of moisture.

Special Activities

The Custodian continued to spend much of his time in the office on clerical duties. Mr. U. D. Walker, Artesia, N. Mex. was selected to fill the clerks vacancy but he declined after some delay which still leaves us short handed.

Roads and Trails

It was necessary for the maintenance crew to spend a good deal of time on the approach road to keep it passable after the snow started to melt off. Ditches were opened, water was diverted from the road and culverts were opened to help to take care of the runoff. A few windy days helped to dry out the road and by the end of the month it was in fairly good condition.

The section of trail below the lower falls in Frijoles Canyon that was cleared of rock earlier this year was surfaced with dirt and gravel.

Work was begun on the repair of the trail bridges on the trail to Ceremonial Cave. Practically all of the timbers are having to be replaced.

Work had been completed on the overhauling of the diesel patrol grader by the Atomic Energy Commission at Los Alamos, N. Mex. but there will be a delay in puting it in use because of the necessity of ordering some missing parts.

Interpretation

Of the 397 visitors to the Monument, 258 visited the ruins in 54 parties. An average of 70 minutes was spent with each party. A total of 118 persons were guided through the museum and 300 in all visited it but their stay was short due to the cold.

Museum Activities

Mrs. Pablita Velarde Hardin, artist from Santa Clara pueblo, has finished the paintings for the museum case on Indian government and has started on the paintings for the case on Seasonal Ceremonies. Some difficulty was experienced with painting some of the figures on glass but after experimenting with fingernail polish as a base the paint went on successfully.

Photographer Haynes spent one day at the Monument taking color photographs of Mrs. Hardins paintings. Almost without exception they came out very nicely.

Travel

The very poor road conditions during most of the month limited the visitors to 397, which is a little less than half as many as for the same period last year. This reduced the total for the travel year from a decided increase to about the same as last year. However the few good days at the last of the month showed an up surge of visitors that indicates that we will have our hands full as soon as the weather does warm up a little more.

Concessioners

Concessions operator, Mrs. Frey, returned to the Monument and began preparations for opening the Frijoles Canyon Lodge on the first of May. Some consideration was given to opening the coffee shop on week ends during April but this will depend on warm weather since the building is too cold under present temperatures.

Inspections

Archeologist Reed made an inspection of the proposed road location, to be constructed by the Atomic Energy Commission, in Sandia Canyon. No archeological sites were found to be visible on the surface of the ground.

Mr. Jesse Nusbaum, accompanied by Mr. Vas Dias visited the area on the 22nd.

Miscellaneous

Arrangements were completed with the Atomic Energy Commission at Los Alamos to secure six expandable trailers, two of which will come to this area, and four will be distributed to other monument areas. This will improve considerably the housing problem for seasonal personnel.

Fred W. Binnewies
Custodian

CANYON DE CHELLY NATIONAL MONUMENT
Chinle, Arizona

March 26, 1948

MEMORANDUM for the Regional Director, Region three.

The following is a report on activities at Canyon de Chelly National Monument during the month of March, 1948.

General

A resolution adopted by the Navajo Tribal Council on March 20, 1948 to control prices and collect rental fees based on percentages of gross sales is causing considerable furor among the traders and Navajo indians. It will directly affect the operation of our operator at Canyon de Chelly, and indirectly the administration of this National Monument.

Weather

Although only .71 inches of moisture were registered here, the surrounding area received much more. Storms have kept the Canado road in almost impassable condition the early part of the month. Minimum temperatures have averaged lower than normal with a low of 12 degrees. Maximum temperatures were mostly below 45 degrees but have been rising steadily the latter part of the month and have shown a high of 68 degrees.

Administration

A trip was made to Santa Fe to discuss concession affairs on March 24. Eight hours of annual leave were taken in order to accept delivery on a new Chevrolet sedan. A trip was made to Gallup, new mexico on February 26 to return USI- 31791 which had been undergoing repairs.

Maintenance

The bad weather has held up starting minor repairs on quarters but has necessitated considerable work on roads. We have kept them fairly smoth with the old piece of iron we use as a drag and have filled some of the worse holes on our approach. The Indian service grader made one trip over from Chinle. Spring cleanup and checking and repair of tools has been carried on at spare moments.

Travel

Travel figures fell far below those of past years due, in a large part, to the road conditions and disagreeable weather.

Only 25 visitors were counted arriving in six cars. Two parties comprised of eight visitors were conducted to White house overlook. A total of four hours was spent in guide and contact work.

Publicity

I received word from Dr. Thomas B. Noble of Indianapolis that his book titled "Canons and Cliff dweller" would be published this month. He stated that Canyon de Chelly was the central location.

Postal Service

Mrs. Emma Guillet, the wife of the custodian, has assumed the duties of postmistress at Chinle. For the first time in two or three years I can now be confident of receiving my mail before it first makes the rounds of the reservation.

SOUTHWESTERN NATIONAL MONUMENTS
COOLIDGE, ARIZONA

ADDRESS REPLY TO THE SUPERINTENDENT

Capulin, New Mexico
March 31, 1948.

Memorandum for the Regional Director
Region Three National Park Service
Santa Fe, New Mexico

There follows a report of the activities in and around Capulin Mountain National Monument for the month of March, 1948.

Just about one hundred fifty visitors were at the Volcano during March, 1948, bringing the total visitors of the travel year to date to 5,400, and travel for the fiscal year to date to 24,900. There were no special visitors during the month.

Roads on the Monument have been maintained in fair condition up to within one half mile of the top of the volcano, but the last half mile has been covered with from two to six feet of snow almost the entire winter until the last few days. The snow has been melting and the custodian has removed some of it. Only yesterday was the road opened and passable all the way to the top.

The weather, same as last month, has been the chief topic of conversation for the people of the community. 87½ inches of snow has been officially recorded during the past four months, and some traces of rain. A low temperature of 25 degrees below zero was recorded for the first part of this month. Thirty four different days during the past winter the thermometer has been below zero. The lowest reading was in February, 28 degrees below zero. However, spring has arrived all at once, and the snow is all gone except in drifts and we now have a temperature reading, high, 50, low, 24 for the past day or so.

As yet the state has been too busy pushing snow from the main travel arteries to give any attention to the half mile spur between our Monument and Highway 64, but we surely hope to get this graveled during April.

Very respectfully,

Homer J. Farr
Custodian

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

CASA GRANDE NATIONAL MONUMENT

COOLIDGE, ARIZONA

March 25, 1948.

MEMORANDUM for the Regional Director,
Region Three.

There follows the narrative report for Casa Grande National Monument for March, 1948.

General: A new radio station is being built in Coolidge [illegible] should be ready for operation about the first of June. They have been looking for a slogan and someone has suggested "Located near Coolidge, Arizona, the home of the Casa Grande Ruins". With this being sent out over the airways morning and night, it lookslike we are going to get some high pressure advertising, whether we like it or not. With our pump now drawing water from the 140 foot level, instead of the 102 foot level we feel much safer and are'nt worrying too much about running out of water for another year at least.

Weather: A faint hint of what is coming this summer in the way of heat was experienced on the 13th with a temperature of 82 being registered. Low minimum for the month was 24 with a high of 92. .20 inches of rainfall were measured.

Visitors: March 1948-4335 : March 1947- 4193: Travel year to date- 1948 24,775 : Travel year to date- 1947 22,082. This is a drop from February totals but is an increase of 142 over March of Last year. For the tenth consecutive month our records show an increase in travel and for the past three months we have been in the 5000 per month category. Records issued by the Chamber of Commerce indicate that there is now no lack of accomodations for winter visitors and there is a drive on to get the visitors here earlier in the season and to keep them here longer.

Interpretive Services: Of the 4335 visitors to the area, 3112 made the ruins trip in 202 groups, averageing 51 minutes per trip. 2818 made the museum trip in 189 groups averageing 28 minutes per trip. 1243people visited the area for a quick look but did not make the ruins trip.

Maintenance: With the aid of the Indian Service Irrigation crew the suction cylendar on the pump was lowered to 140 feet in the well. 3/5 of the old wooden storage garage was torn down, the lumber and tin cleaned of nails, and piled in the truck ready for moving away. Shutters and windows in quarters # 6-3 and in the pump house were painted. The pressure air line in the pump house was replaced and changes in valve arrangements made. A new twelve drawer work bench was built in the pump house. The barrow pits were cleaned out along the approach road. The boundry fence was checked and "No Hunting" signs were

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

CASA GRANDE NATIONAL MONUMENT

COOLIDGE, ARIZONA

put up. The electric range in quarters 2-4 has been causing much trouble and considerable time is spent keeping it in working order until it can be replaced, the needed parts are unobtainable. The roofs were checked again after the rains and were patched where needed.

Ruins Stabilization: Archaeologist Steen and his crew have almost completed the thick first coat of caliche cap on the walls and have gotten a good start with the last thin coat of caliche which they are painting on with brooms. They were forced to lay off several different days due to the rains but worked the following Saturdays to keep on schedule. They expect to finish up in the first week of April. Laborer Leadman Woodruff had an attack of some type one morning and was off the remainder of the day but has been on the job ever since and feels fine.

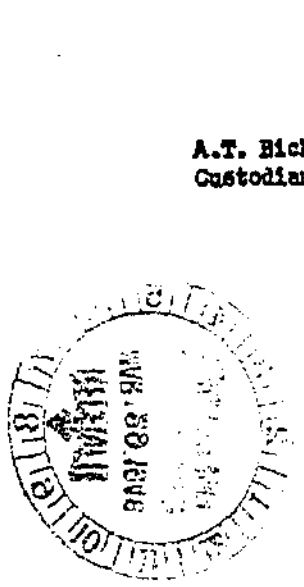
Administration and Protection: Assistant Regional Director Davis and Chief Clerk Castellum were here March 3 to go over administrative matters. Signs were put up at the Adamsville Site for the protection of the area.

Trips Taken: February 25 & 26, Mechanic Stonehocker was at Organ Pipe Cactus National Monument, February 27 and March 5 he was in Phoenix for repair parts. On March 8 Custodian Bicknell went to Tucson to see Mr. J. D. Rockefellow Jr. and on March 13 he went to Phoenix on Monument business.

NPS. Visitors and Visitors of Note: On February 27 Ranger Wilde of Saguaro and Mr. Frost visited the area to pick up equipment. March 3 General Operators Byrum C. Zeller and Marvin O. Boulton of Big Bend picked up the International Tractor. March 8 Custodian and Mrs. Sharpe of Tonto brought in the pickup and light plant for repair.

Mechanics Activities: General Repairs were made to the following equipment:

Area From.	Equipment.
Organ Pipe Cactus	Road Grader
Saguaro	Chevrolet Pickup Light Plant
Casa Grande	Chevrolet Pickup Well Pipe and Repairs
Big Bend	International Tractor
Tonto



UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Chaco Canyon NATIONAL MONUMENT

Bloomfield, New Mexico

March 26, 19 48

MEMORANDUM for the Regional Director, Region Three,
National Park Service.

There follows the report of activities in Chaco Canyon National Monument for the month of March, 1948.

There were no visitors to Chaco Canyon this past month due to the condition of the roads. Old timers state that this past was one of the longest drawn out and wettest winters in their recollection. The roads have been a sea of mud. A trip to the highway took hours instead of minutes. The roads seemed at times as if they had no bottoms. In regard to this, the Farmington Chamber of Commerce and many business men have been kept informed. In part concerning the roads, the Secretary of the Chamber made a trip to Santa Fe and was promised that improvement of the Chaco road situation would be made by the State Highway Department. Therefore, the bad roads of the past winter, may prove a blessing in the long run.

The Custodian took annual leave, expected to be gone about eight days, but unusual weather conditions were encountered, also, sickness in the family. He was gone a total of 22 days!! Gordon Vivian was acting custodian in the interim, and as is usual with Gordon, he made an excellent job of it.

The coldest this month was 9 degrees Fahrenheit on the 12th of March, and the warmest was 68 degrees on the 23rd of the month. The total precipitation was .71 of an inch.

The tree planting program was delayed one week by the condition of the roads. However, in the past few days, the trees have been brought in from Bernalillo, and the planting is underway now.

Several days were spent this month in preparations for the Soil and Moisture program. The truck was put in shape for the trip, the tools were sharpened and the like. Also, several days were spent repairing the roads.

On a number of occasions this month, livestock have been driven off the Monument when they were near the fence. Nevertheless, those on the interior of the area were not driven off because of the lack of a horse.

The Trading Post was repointed. The Operator believes that the job was well worth the money spent for he figures that he will save one fifth to one fourth on his fuel bill. The number of rugs taken in this month nearly doubles that of any month recently. The sales are still holding up, too. He has contacted a Navajo silversmith who is to make jewelry for the Trader this year. If he can arrange it, the Operator wants to place the Navajo working in the store building where the visitors can watch him.

Projects for the ensuing months:- continue the tree planting; begin the painting and building repairs again; get the roads in shape; caulk and connect the water tank and get ready for the summer visitors.

There follows the report of Archaeologist Gordon Vivian.

Irving McNeil, Jr.
Custodian

Chaco Canyon ..... NATIONAL MONUMENT

Bloomfield, New Mexico .....

.....March 28..... 19..48

MEMORANDUM for the Custodian,
Chaco Canyon National Monument.

There follows the report of Mobile Unit activities in your area for the month of March 1948.

This is the year that March came in like January. As a result of continued freezing nights, snow and wet conditions in the ruins, repair was not resumed at Chettro Kettle as planned for the last half of month.

The crew consisted of the archeologist, archeologist aide ande one Navajo employed as needed.

Some of my time was taken up with routine Monument administration during the absence of the Custodian March 2nd to 23rd. Two patrols were made through the central part of the Monument. None to detached sections. One and a half days leave were taken on the 25th and 26th.

Roads were in bad shape most of the time. When they were half passable 12 truck trips were made out -- one to Thoreau in the early part of the month and three later to Gallup to pick up freight and the 200 sacks of cement recently contracted for.

To the north two trips were made to Blanco Post, two trips to Farmington for gasoline which the contractor refused to deliver because of road conditions, one to Durango and Aztec for supplies and freight and three to Aztec to haul all of the roof timbers down here for treatment.

There are 250 timbers from the small Aztec kiva not counting odds and ends, chinking etc. They've been sorted and decayed parts of the usable ones trimmed out. Of the 250 some 185 will be usable when sound portions of the larger pieces are salvaged. Damage to the timbers appears to be about equally divided between decay from moisture and wood borers of some kind.

A vat of barrel halves welded together was constructed in which 2 to 4 logs at a time are being soaked in the Penta Preservative solution. Sixty have been treated to date.

Some progress was made on the manual. Photographs for stabilization records were assembled and a little typing done on duplicate copies of the records. A few more pieces of the wood material from Chettro Kettle were put together and the vegetal material returned from the University of New Mexico was sent off again to Ann Arbor.

A fair supply of concrete lintels for future repair work was cast.

Gordon Vivian
Archeologist

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

CHIRICAHUA NATIONAL MONUMENT

Dos Cabezos, Arizona,

March 26, 1948

MEMORANDUM for the Regional Director, Region Three.

Following is the Monthly Narrative Report of activities at Chiricahua National Monument for March, 1948.

General. The interiors of the three residences were painted, shower room plumbing repaired, campground restocked with fire wood, and routine duties performed during the month. Three official trips were made to Willcox, and one to Rodeo for supplies and freight. One trip was made to Tucson for wage board data and supplies.

Weather. High winds and general cold weather predominated throughout the month. Several light flurries of snow occurred at the higher elevations. Precipitation recorded at headquarters totalled .18 of an inch. Spring water flows on the monument are somewhat better than last year but hardly up to normal. A small stream of water has started flowing past the administrative building in Rhyolite Canyon, where none flowed last year. However two years ago and previous there were good flows of water down this canyon for a couple of months each winter.

Inspections. Assistant Regional Director Davis and Chief Clerk Castellum spent the 17th and 18th discussing Chiricahua's various problems and projects.

Maintenance. Due to freezing and thawing there has been considerable rock fall in the roads and trails. Road maintenance has continued throughout the month. The road has been graded and as much of the rock removed and ditches cleaned as time would allow.

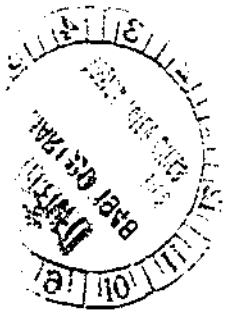
Ten man days were spent on the telephone system brushing out the line toward Portal and repairing minor trouble. We hope to be able to complete the line maintenance both to Portal and Sugal Loaf before fire season rolls around.

Our Jefferson-Travis radio is again in operating condition and contact with Saguaro and Organ Pipe Cactus will be resumed.

Approaches to Park Area. The approach roads are in poor condition this month and several complaints were received. The Douglas approach road is under construction for paving and some ten miles is considered "Dangerous but passable", and the Bowie and Willcox roads need grading

badly. The road over the mountains from Rodeo remains closed and probably will receive no work until sometime in May.

Interpretive Service. 606 persons in 182 parties were contacted in the museum. One auto caravan and two hikes over the trails were conducted.



Travel. Travel fell below that of last year by an even 600 visitors. This is probably due to the poor condition of approach roads and unfavorable weather conditions. Total travel for the month was 839 visitors in 241 cars.

Building Fire Protection. Ten lengths of 1½ inch hose were received and also a fog-nozzil. This hose is to replace our 2½ inch hose which will be shipped to Petrified Forest as soon adapters are received so that the 1½ inch hose will be usable. With this hose distributed to our four fire hydrants we should have quite good building protection.

Water System. The spring reservoir was cleaned out and new screen installed. Meter readings and a study of the water flow in accordance with instructions received from Engineer Lassiter are being continued. Present indications are that the system will take care of all our needs this year. Two Sunday School conventions had to be refused the use of the camp ground last year due to the small flow of water.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

El Morro NATIONAL MONUMENT

Ramah, New Mexico

March 25, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities in El Morro National Monument for the month of March, 1948.

WEATHER: From nine storms during the month we received 31 inches of snow and 1.81 inches of precipitation. Maximum temperature reached 60 degrees and the minimum dropped to 15 degrees below zero.

APPROACH ROADS: Both roads were impassable for tourists during the entire month and even the local gents would not venture forth except on tractors. This Custodian on a return trip from Gallup made a good start on a subway between Ramah and El Morro. There comes a ray of hope for the future, however, from Charlie Carter. Charlie reports that the P.R.A. has received a formal request from the State Highway Dept. for federal aid on the construction of a portion of Highway #53, ie., Ice Caves to the Zuni Reservation line, via El Morro and Ramah, and that they had approved this project.

TRAVEL: No Hey! For the first time in two years we ring up a goose egg visitor count.

RADIO CONTACT: Only two contacts with Chaco Canyon were made this month. Mac has been on annual leave and I spent the last scheduled Sunday in a mud hole. Contact with the Regional Office has been very good and convenient.

GENERAL: A full week was spent in completing a very tardy inventory. Outside of the trips to Gallup for supplies the remaining time was spent in the office on file work.

Number of copies of free publications on hand as of the end of March, 1948.

2-fold Spanish edition	3737
2-fold English edition	565
16-page booklet	7594

Bates E. Wilson, Custodian.

GRAN QUIVIRA

GRAN QUIVIRA, NEW MEXICO

MARCH 25 48

MEMORANDUM for the Regional Director, Region Three.

The following is a report of activities at Gran Quivira National Monument for the Month of March, 1948.

General. March came in like a lion, which was in keeping with the way February departed. Travel was less than 50% of March last year. The road to Mountainair is in good shape now, but the Carrizozo approach around Claunch is practically closed by drifting sand. The last week has brought the first "bona-fide" tourists in some months.

Weather Conditions. Snow on February 26 and 27 and March 1, 3, 4, 9, 10, 11, 15 and 18 totalled 0.84 inches of moisture. I am assured by the local residents that the minimum of zero on March 5 and 1° below on March 11 set new records, or were at least "very unusual".

Special Activities. The custodian was in the Regional Office March 17 & 18 discussing the repair and rehabilitation program and other Monument matters.

Work is underway on a wage-board survey.

FCP sheets and priority lists were revised and submitted.

A 2000 word article on Gran Quivira for possible publication in the New Mexico Magazine was prepared during the month.

Maintenance. Several days were devoted to dragging and filling holes on the entrance road, water and wood were hauled, and the pressure pump cleaned and oiled. New tool racks were constructed in the pump house as there will not be room for them in the present tool house after it is reconverted.

The new 150 gallon water tank transferred from Bandelier was mounted on the trailer.

On March 4 a truck driver, evidently in a hurry, missed the turn at the overpass coming out of Mountainair. Among other things he removed 3 telephone poles. The custodian and Mr. McGrady devoted March 6 to repairing the damage.

Repair and Rehabilitation. Bids are being prepared in the Regional Office for lumber to re-roof the old tool house. Work on repairing the walls and floors should begin shortly after April 1.

Arrangements have been made to have the living room replastered sometime in April.

Approaches to Monument Area. The Mountainair approach was graded on March 9 and 22, and is now in good shape. C. I. Martin, contractor, now has the base coat on approximately 7½ miles of the 8½ under construction. The Carrizozo approach is alternately impassable and nearly so between here and Clanrch due to blowing sand.

The state maintainer made two trips over the Monument entrance road on March 22, which put it in good condition. Such cooperation is appreciated.

Interpretive Service. 13 parties totalling 37 visitors were conducted through the ruins. Average trip time, 41 minutes.

Research and Observations. The Monument bird calendar and files were reactivated March 1. They had lapsed since 1943. Two pairs of Cassin's Purple Finch were observed February 27, a new record for the Monument. Six American Merganser were observed outside the Monument area, a new record for the vicinity.

Increase or Decrease in Travel. Bad weather and roads through March 18 cut the travel to less than one-half of last year's. As indicated below travel for the travel year is also considerably behind 1947.

	CARS	VISITORS
March, 1948	26	74
March, 1947	61	182
Decrease	-35	-108
Percent Decrease	-57.37%	-59.34%
This Travel Year	170	482
Last Travel Year	216	734
Decrease	-46	-252
Percent Decrease	-21.29%	-34.33%

In compliance with FC 601 Gran Quivira 2-fold leaflets on hand, 5300.

MOSCA, COLORADO

March 26, 1948.

MEMORANDUM for the Regional Director,
Region Three.

There follows the report of activities in Great Sand Dunes National Monument for March, 1948.

WEATHER. This has been a long, hard winter and it is hoped that the pleasant weather of the past few days really means that Spring is coming to stay in the San Luis Valley.

The snow gauge at Wolf Creek Pass which measures twelve feet, was for the first time, buried in over this amount of snow. If the snow in the surrounding mountains, should suddenly thaw and pour into the valley, there would be a serious flood condition for both the San Luis valley and the Rio Grande river.

A minimum of 10 below zero was registered on March 11. The maximum of 66 above was reached on March 24.

Snow fell on February 29; March 1,2,3,4,5,8,9,10,15,16,18,21 and 25.

Strong winds blew on February 29; March 1,3,4,6,9,10,14,17,20, 24 and 25.

Our 5th and we hope last severe storm from the northeast occurred on March 3 and 4.

Our good luck piece of last year, Herkimer the chipmunk, showed up on March 19, but todate has not charmed the water line into thawing as he did a year ago.

TRAVEL. One hundred and two visitors in fifty-one cars visited the Sand Dunes during this report period.

Fifty cars came from Colorado; one car from New Mexico. Very few cars ventured down the road to the lower picnic area.

One written request was received and ten informational leaflets were sent to a Kentucky Travel Bureau.

INCREASE IN TRAVEL. Although travel was triple that for last month, it is still very low due to weather and poor roads.

For March 1947, there were 82 cars; 256 visitors.

ROADS. The approach road from Highway 17 is rough and for the most part of the report period, it was wet and muddy. The grader was busy in the lower sections of the road, trying to spread the ponds of water to allow the road to dry for further blading. It is understood more work will be done as soon as conditions permit.

The monument road to headquarters is in good condition todate, due mainly to proper grading and drainage. However, with the strong winds now drying out the road, it won't be long until it is the usual washboard road.

The road to the lower picnic area is very poor with deep ruts and much mud. As soon as conditions permit, the road will be dragged with the state loaned railroad iron drag.

N.P.S. VISITORS. Architect Saunders and Acting Regional Chief of Lands Kell visited the monument on March 3. The weather was very nasty during their visit but it was nice having their company, and we could all suffer together.

Saunders went over furnace installation in the custodian's residence and discussed other repair and rehabilitation projects. This also included the installation of the propane system for the Servel refrigerator.

Kell went over land problems and changes in the boundary.

ACTIVITIES. Usual routine duties of hauling water, fuel oil, gasoline, wood, ashes and garbage. Office matters were kept current.

The 3 KW light plant was repaired at the monument by the Heide Garage. The valves were sticking and the timing was corrected. The plant is again in good working condition.

The Ford dump truck was returned to the Heide Garage in an attempt to try and increase the gasoline consumption.

The Dodge 4x2 was repaired, a new front wheel bearing replaced, grease job and other minor repairs.

The Monte Vista Plumbing and Heating Company was awarded the contract for furnishing and installing the oil furnace in the custodian's residence.

Much time was spent at the Alamosa County Court House on land description in deed books and information obtained for the NPS-L-3 forms for this monument.

A trip was made to Region Three Office on March 22,23 and 24, to discuss monument and administration problems.

PROJECTS FOR ENSUING MONTH. This should be an exciting month if all goes as planned. Installation of the furnace and propane system.

A trip to Saguache to obtain land description for three sections of land in that county to complete the NPS-L-3 forms.

God willing, the water line may thaw and with improvement in the weather, many jobs can be tackled and perhaps completed.

Ted C. Sowers,
Custodian.

NATIONAL PARK SERVICE

Montezuma Castle National Monument
Camp Verde, Arizona

March 24, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly report of activities at Montezuma Castle National Monument for the month of March, 1948.

Visitors this month to Castle and Well - 1589; travel year to date - 8295.

Weather Stormy weather throughout the month has decreased travel. Snow fell on several occassions at Flagstaff and Prescott with snow and rain at the Castle.

Administration Difficulty has been encountered in finding a qualified candidate for our temporary position .

Plans for exhibits in the Montezuma Well museum are being developed. Leaflets for the self-guiding trail at Montezuma Well are needed and are being printed. These are to sell on a serve-yourself basis at five cents each.

Several trips have been made to Montezuma Well to check on remodeling and improvements being installed by contract.

Visitors There were 1172 visitors to Montezuma Castle and 417 to Montezuma Well. Cars counted at the Castle - 346; at Montezuma Well 115. Tickets were sold to 332 visitors; 70 children or Indians were admitted upon payment of tax only and 33 children were admitted free.

Contact Time Total contact hours 137.25. Hastings 82; Leding 55.25. One hundred and eight trips were madd through the Castle for 435 visitors and 476 visitors saw the Castle museum in 98 groups. Visitors who received information outside the ruins or museum totaled 304.

Maintenance A bad break re-opened in the roof of Residence No. 2 and efforts were made to temporarily repair it.

The living room in Residence No. 1 was cleaned and redecorated. Ranger Leding repainted the museum and oiled the floor.

Ladders leading into the Castle were given a coat of raw linseed oil.

Approach Roads The county road from McGuireville to Montezuma Well has been widened and improved including the entrance to the Well.

Construction and Improvements E. C. Broughton, Cottonwood contractor started work at Montezuma Well on March 1. He has reshingled and braced the residence roof, installed new cabinets in the kitchen and built closets in the bedrooms. A new vent in being installed for the fuel oil heater. The museum has been re-roofed and the inside walls re-plastered. The flagstone floor in the museum has been covered with a cement floor and a septic system installed for the residence. As soon as painting the interior is completed, the quarters will be ready for occupancy.

Equipment A heating stove was purchased for use in the residence at Montezuma Well.

Research Sherd collections of archaeological sites at Montezuma Well were completed and the sites were photographed.

Park Service Visitors Custodian and Mrs. Riffey were here from Grand Canyon National Monument.

Regional Architect Saunders checked work at Montezuma Well on March 16.

Protection

Two "No more carving, please" signs were made and posted on the picnic ground to protect our sycamore trees from further depredations.

Vandelism on three wooden signs was investigated and suspected culprits were warned.

Publication Sales Total sales for the quarter was $139.79 and $124.04 was collected. The difference is due to serve-yourself sales' shortages and on one occassion the change box was robbed of its entire contents.

Homer F. Hastings,
Custodian.

NAVAJO NATIONAL MONUMENT
TONALEA, ARIZONA

March 23, 1948

MEMORANDUM for the Director, Region Three

There follows a monthly report of activities in this area for the month of March 1948.

WEATHER: Foul. Since our last report we've recorded precipitation on 15 days. High temperature was 54 degrees on the 15th. Low 4 degrees on the 11th. Total precipitation 1.41 inches. Average snow depth was 8.5 inches on the 10th. Fast thawing and a heavy run-off alternating with snow and freezing kept us wishing for a dog-sled and a rowboat.

VISITORS: 50

VISITORS: 45 Pasadena Boy Scouts arrived in a stake truck on the 22nd. They had come to within two miles of the headquarters area in a 40 passenger motor coach but because of the deeper snow and rutted roads above 6700 feet they abandoned the coach and came in in the stake truck. Because of a shortage of time these fellows elected to see Betatakin from the rim. (The road to Segi Point has not yet been opened.) The Custodian broke trail thru drifts 18-20 inches deep to Betatakin Point. We took along the two new telescopes (1907 U.S.S. Milwaukee). These fine old scopes now telescopes (1907 U.S.S. Milwaukee). These fine old scopes help to bring Betatakin up a lot closer and the cross-hairs can be trained on a feature of special interest such as Kiva, grinding room etc., The field of view is so large that the cross-hairs are needed.

ROADS: Good below 6700 feet. Roughly rutted, partially inundated and strewn with snow-drifts above 6700 feet. We have been dragging the lower roads and as snows run off we come higher up with the drag. The entrance road is smooth except for the home three miles.

CASUALTY REPORT: Three months and 294 gallons after we took delivery of 600 gallons of gasoline our converted water tank was empty! Excavating it today revealed a leak in the man-hole we had worked so hard to seal. It is hoped we can correct this failure with another type gasket.

GENERAL: Correspondence and files are current. Some additional work was accomplished on road signs. Some tattered volumes were rebound for the library. A storage cabinet was built and painted for the service porch. The furnace was dismantled and cleaned thoroly. Tons of snow were shovelled and acre-feet of water diverted from roads and trails.

Two trips are on schedule for East Soel and the season seems to be starting with a bang!

J.W. Brewer, Jr.,
Custodian

NATIONAL PARK SERVICE

~~ORGAN PIPE CACTUS~~ NATIONAL MONUMENT

P. O. Box 38, Ajo, Arizona

March 25, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of March, 1948.

WEATHER

The weather for March has been cooler than normal with a resulting delay in the flower season. Maximum temperature was 80° on March 23 and minimum was 25° on March 6. The total rain was 0.84 inch, 0.51 of which fell on March 18.

GENERAL

Tom Vint of the Director's Office and Messrs. Davis, Cornell, Lassiter, Lovelady, and Castellum of the Region Three Office visited us on March 4 to 6 in connection with future development of the area and revision of the master plan.

Paul Baloh of the Region Three Office inspected the section of boundary fence built last winter and investigated soil conservation problems on March 3 and 4. He then took the Soil and Moisture pickup to Lake Texoma.

Gene Stonehocker brought our patrol grader from Casa Grande on February 25.

TRAVEL AND INTERPRETATION

Travel and interpretive contacts increased considerably with 8692 people visiting the monument. The contact station was manned on only 20 days due to the demands of other work but the number of contacts increased 27%. A large proportion of the travel was from Southern California.

ROADS

G. L. McLane, District Engineer of P.R.A. and Bruce Ellis, County Engineer's Office, made an inspection of the Sonoyta highway with Mr. Vint and Region 3 officials on March 4.

ROADS (continued)

The county has been widening the roadway through dips where loose sand had filled in. A great improvement has been made. A minor accident to an automobile on March 21 due to a bad shoulder in a spot being worked by the county shows that much is still left to do. The county crew has also begun repair of the spots washed most badly by flash floods.

Repair of our patrol grader has enabled the roads and trails man to begin work on patrol roads.

MAINTENANCE

The pump for the well was pulled and repaired on March 15 and 16. Water was hauled from the border for domestic and campground use while the pump was out of commission.

Another valve spring on the 3 KW Onan light plant broke and was replaced.

BOUNDARY

An International Boundary Commission surveying party is camped at Quitobaquito and surveying 11 miles west from our boundary for the new fence. Invitations to bid for this contract on this section have been put out.

PUBLICITY

The influx of Southern California visitors this month came partly as a result of articles about the area and Rocky Point, Mexico appearing in Sunset Magazine and the publications of the California Automobile Association.

Articles by Roscoe Willson of Phoenix appear in the Sunday edition of the Arizona Republic and to date have mentioned the monument and its attractions in each. One article was devoted almost entirely to us.

Publicity about the desert flowers of this area was given by Desert Magazine in an article and by Richfield Oil Co. in their Friday night newscasts.

ACCIDENTS

A truck with shrimp from Rocky Point overturning against a rock out 2 miles north of headquarters and the car leaving the road as a result of a blowout comprises the list of March accidents.

VISITORS

Visitors of note included Dr. Marshall from the Papago Park Cactus Garden at Phoenix and his guest, Dr. Sipe, of Oregon. A party of 30 Stanford University students belonging to the Natural History Club visited us on their way to Rocky Point.

COMMUNICATIONS

The new 50 watt Jefferson-Travis radio was received in apparently good condition. Cursory examination revealed one broken tube.

William R. Supernaugh,
Custodian.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Saguaro National Monument
Tucson, Arizona

March 26, 1948

MEMORANDUM for the Regional Director,
Region Three.

There follows the monthly Narrative Report of activities at Saguaro National Monument for the month of March, 1948.

WEATHER. Temperature range during the month was from 79 degrees on March 24 to 31 degrees on the night of February 29, when snow fell at the monument headquarters for the second time this winter. Precipitation totaling approximately one inch occurred on two other days during the month. Although several days were windy, the month as a whole was less so than any other winter month we recall.

SPECIAL ACTIVITIES. The custodian made one official trip, to Casa Grande on March 24, for the purpose of delivering oak lumber for a new truck rack, and to pick up our overhauled 3-KW light plant.

INSPECTIONS. On March 6, Chief of Planning Vint, Assistant Regional Director Davis, Regional Architect Cornell, Engineer Lassiter, and Architect Lovelady made an extensive examination of boundary problems. March 9 and 10 Mr. Davis returned with Chief Clerk Castellum, to work out plans of operation for the remainder of this fiscal year.

COOPERATING GOVERNMENT AGENCIES. Dr. Lake S. Gill, of the Bureau of Plant Industry, was in briefly on February 26, for work in connection with the bacterial necrosis of the Saguaro cacti.

MAINTENANCE. With the exception of one working day, the trail crew has spent the entire month on the improvement of the Madrona - Grass Shack trail. Present work is almost 3 miles above Madrona, which is about the limit for economical work from that location. Plan is to move the crew to Grass Shack the last week in April, water permitting. Minor repairs were made to the Madrona corrals, and the second water fountain replaced. Completion of the planting in the Headquarters arboretum must await next winter's resting period of the cacti; all scheduled planting for this year is completed. The photographic display on the Headquarters porch is likewise completed, but will no doubt be enlarged slightly as an indefinitely continuing project. Ranger Wilde spent one day in repairing three breaks in the telephone line near Madrona Ranger Station, after which service is again possible in a limited way. Bids for repairs to roofs of the buildings at Madrona were received and distributed; bids will be opened on March 30, and we hope that the work will begin soon after that date, as much property in the barn is being seriously damaged by water leaks. The Loop road was dragged once during the month.

APPROACH ROADS. The Broadway approach road has only been graded once in the past month, and is fairly rough in spots. The Pima County Highway Department has done considerable work on the Vail approach road, widening several blind turns between Headquarters and the Lazy Ves ranch, and eliminating the bad wash just beyond that ranch. However, there have been two very serious accidents at the first turn one mile south of the Monument entrance this past month; one car turned over, and a jeep hit and demolished a large Saguaro when it skidded on the turn. The cactus, which probably weighed two tons or more, came down in a pile, largely on the jeep, and we will never understand why the occupant was not killed. As it was, he suffered serious injuries. Placing of a proper warning sign should eliminate most of the danger at this turn. In all, we know of an even dozen wrecks in the first six miles south of here on the Vail road in the past year.

TRAVEL AND INTERPRETIVE SERVICES. All previous records for March of preceding years were broken when 3329 persons visited Saguaro in this 29-day month. This is the second highest total for a single month, and only 86 people less than last month; it is also the third consecutive month in which all previous records for travel of corresponding months has been broken. These visitors registered from 39 states, Guam, Canada, England, and two parties from Denmark. Increase over March, 1947, amounted to 1050 people, or 46 %.

Of the above totals, 1519 people, in 376 parties, were contacted at Monument Headquarters. Total contact time of 103½ hours for the month is second only to that of last month, the all-time record. Average time for each party contacted was 16.8 minutes, a slight drop from February.

PROTECTION. On March 7, while on patrol, Ranger Wilde arrested four hunters who had killed a javelina some two miles inside the monument boundary. He took them before U. S. Commissioner Thomas H. McKay on the following day; the hearing was continued until the 16th, when the Commissioner held all four for the U. S. District Court, on $200 bail each. Date of trial is uncertain, as the District Judge has been ill for several weeks. Patrols have been made each Sunday this month.

Only one wood-hauler was encountered this month - a decided improvement, and he was stopped just as he was starting to load his truck.

FOREST PROTECTION. The Saguaro Fire Plan was completely re-written, and is being mailed to the Region today, for mimeographing, if approved. All needed supplies and equipment for the fire season in on order as of this date.

PERSONNEL. Ranger Frost took one day sick leave on March 4, and the Custodian was on sick leave the 5th and 6th; old debbil common cold in both instances. Laborer Newell A. Bundy injured his back lifting a rock on the trail the morning of March 8. He was taken to the doctor at once, and finally hospitalized March 10, being released on the 16th. He is still under treatment, and under orders from Dr. Clyne to do no work for at least another week.

A new wage-board survey was completed by Ranger Wilde, and turned over to Chief Clerk Castoldlun on the 10th. Indications are to the effect that our rates are somewhat below those paid in this vicinity, and some adjustment seems justified.

MISCELLANEOUS. With some misgiving, and with considerable regret over leaving old friends in the Southwestern National Monuments, the Egermeyers will be leaving for Lake Texoma on April 6. In the ten years (lacking 25 days) since we first came into the Park Service, and especially since coming to Saguaro in 1939, we have had many and varied experiences, mostly pleasant. We have learned many things, some of them the hard way, as is not unusual in this group of areas, and have made, we hope, many friends. Our sincere hope is that the next ten years will be as productive of service, knowledge, friendships, and enjoyment as have these just past. Our best wishes stay with all the personnel of the Southwestern National Monuments.

Don W. Egermeyer
Don W. Egermeyer
Custodian

and

Ruth Egermeyer
Ruth F. Egermeyer
H.C.W.P.

(After almost five years during which Mrs. Egermeyer has contacted between one-fourth and one-fifth of all visitors to Saguaro, I felt that she was entitled to sign the last report.)

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Sunset Crater NATIONAL MONUMENT

Flagstaff, Arizona

March 31 19 48

MEMORANDUM for the Regional Director, Region Three.

There follows a report of the activities of Sunset Crater National Monument for the month of March, 1948.

Visitors this month: 422 Travel Year to date: 4062

Travel: Visitation for March has shown a decrease of 14 % from that recorded for the same period a year ago, with 264 persons registering throughout the month. Some visitors have been using the Sunset-Wupatki connecting road, particularly during the latter part of the month.

Weather: With the approach of spring and its accompanying warmer days, the snow has melted and only remnants of the larger drifts remain. Most of the flats and the southern and western exposures are again bare.

Roads: The entrance r ad from Highway 89 is in fairly good condition. The Saginaw Manistee Lumber Company has been hauling logs to their mill in Flagstaff over the entrance road. Maintenance on the part of the lumber company, has it in general fair condition. The connecting road with Wupatki is open and is in fair shape for this time of the year.

General: Logging activities, which have been concluded for this year, were concentrated to the south of Sunset this spring. For the most part the loggers used only a portion of the approach road, from which side roads were developed, extending to the south and east of the Monument.

Plans are under way for a Rural Electrification development in the area immediately south and west of Sunset. This survey is in progress at the present time. It will serve users along Highway 89 as far north as the Highway Camp. This would bring electrical facilities to within two miles of Sunset Crater.

Robert F. Upton
Ranger-in-Charge

RECEIVED MAR 29 1948

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Tonto National Monument
NATIONAL MONUMENT
Roosevelt, Arizona

March 25, 1948

MEMORANDUM for the Regional Director, Region Three. 19

Following is a report of activities at Tonto National Monument for March, 1948.

Weather. Much of the month has been cloudy and cold, without resulting in much rainfall, however. It was cold enough to continue to freeze the water pipes. March 23 and 24 were quite warm, with temperature up to about 75°.

Approaches to Monument. The Apache Trail is the same as ever, corrugated in places, but not a bad gravel road.

Inspections. Assistant Regional Director Davis and Chief Clerk Castellum were at Tonto March 2, and spent several hours discussing fiscal and administrative problems with the custodian and ranger.

Archaeologist Steen spent most of a day here, filling out our knowledge of Tonto archaeology and history, and going over museum problems.

Interpretive Service. Visitor contact and interpretation in the Lower Ruins took up most of our time during March, with 960 Ruins visitors out of a total of 2295 for the month.

Travel. 2295 persons in 637 vehicles visited Tonto this month. That compares with 2496 in March 1947. Cold weather, high prices in the Valley, and national unrest contributed to the decrease. The last few warm days showed an increase, with 295 on March 21, a heavy travel day.

Roads & Trails. The State maintenancemen, Ab Sanders, bladed the entrance road last week, and offered to help clear the ditches when we have the roads and trails laborers on the job.

Visitors. Ranger and Mrs. John Riffey from Grand Canyon Monument stopped in a while, and Archaeologist Davis from Casa Grande was in .

General. The Dodge pickup and the 3 KW light plant were taken to the Casa Grande shop. Charlie Steen brought the plant up March 13, and returned the 2 KW plant . The pickup is still in the shop, as some parts were not available locally. The light plants will be re-located by the adobe tool shed, thus making the area quieter at night, and eliminating the makeshift shed by the museum. Contact, reports, and maintenance kept us busy this month, and will do so through April also.

Charles C. Sharp
Custodian.

RECEIVED APR 8 1948

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
TUMACACORI NATIONAL MONUMENT
Tumacacori
BOX 2225, TUCSON, ARIZONA

Tumacacori, Arizona

March 27, 1948

MEMORANDUM for the Regional Director,
Region Three.

Follows the monthly narrative report for Tumacacori National Monument for the month of March, 1948:

WEATHER CONDITIONS: Rain seems to be fairly close to average, with .62 inches since February 24. Maximum temperature of 80 on March 23, with minimum of 17 on March 5. Spring has been delayed with more cold nights than usual. Range is still not up to par, and flower displays are mediocre, but better than last year for the opening period. A temperature range of 50 degrees occurred on March 22.

MAINTENANCE: Routine was kept current. The lobby table came apart, and was put together more securely. One tree was transplanted from the patio garden to the front of the museum building. Considerable flower planting has been done in the patio garden, and quite a bit of irrigation has been necessary on the grounds.

INTERPRETIVE SERVICE: 1,710 visitors went on 248 guided trips through the mission and grounds, receiving an average of 34.45 minutes per trip. 3,152 persons saw the museum. 3,160 persons received combined Information and Interpretation Service.

MUSEUM AND EDUCATION: On February 28 the Custodian presented an illustrated talk on Southern Arizona reptiles to 20 members of the Yale Club in Tucson.

INCREASE OR DECREASE IN TRAVEL: 3,258 visitors came to the monument this month, exceeding by far the highest previous March record of 2,571 for last year.

VISITORS: March 2 - Archaeologist and Mrs. Dan Davis, Casa Grande National Monument.

March 7 - Scottsdale High School Spanish Class of 14 persons.
March 20 - Coolidge High School Spanish Class of 48 persons.

INSPECTIONS: March 8 - Chief of Development Thomas C. Vint, Assistant Regional Director John Davis, Regional Landscape Architect Harvey Cornell, Regional Engineer Lassiter, Architect Lovelady, and Chief Clerk Castellum, gave a thorough inspection to the monument and detailed consideration of its problems.

PUBLICITY: March 13 - Representatives of Reid H. Ray Film Industries were in taking movie shots for one of a series of short playlets which will feature the Tucson region in "Tucson Travels", to be shown in theatres of the middle west.

PERSONNEL: Seasonal Ranger Conrad worked his last duty day February 29. On March 22 Laborer (Intermittent) Ramon Orozco was put to work for a few days to fix up our trails and roadway from the parking to the residences. After the end of the month he will work on Mission stabilization.

COMMUNITY: On February 27 we attended an evening meeting in Nogales which resulted in organization of the Pimeria Alta Historical Society. There were about 30 persons present, and much enthusiasm was shown. The Society wishes to collect historic materials for museum display in Nogales, to write down authentic historic material, and to erect suitable markers to attract tourists to historic spots in the region of Nogales. We injected a caution note into the meeting about increase in vandalism to historic spots if publicity and markers are not accompanied by increased custodial care.

On March 3 we learned to our dismay that the last remnant of original wall of what is believed to be part of the original Spanish presidio at Tubac, historic old town three miles north, had been torn down by the owners and the adobe bricks sold.

On March 10 Weldon Bailey, son of the man who donated part of the lands of Tumacacori National Monument to the government, and for long a rancher in the neighborhood, died of a heart attack.

GENERAL: The monument is ticking along all right, but it keeps us as busy as a one-armed washerwoman without a scrub board. We would have been swamped without a seasonal ranger this winter. We need, badly, for the seasonal ranger job to be at least a five month job, instead of the three months we had this season.

Nothing short of a war or a depression will prevent the increasing flood of visitors to this region from growing. Within a few months a fine paved highway will extend from the border to the famous Mexican fishing resort of Guaymas. The first link of work in the alteration of the Tucson-Nogales highway from a hazardous narrow route to a superhighway has started. Within three years at the most this route will be almost a boulevard.

Earl Jackson,
Custodian

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

TUZIGOOT NATIONAL MONUMENT

CLARKDALE, ARIZONA

MARCH 28, 1948 19....

MEMORANDUM for the Regional Director, Region Three.

Following is the monthly narrative report for Tuzigoot National Monument for March, 1948.

Travel Data: 1389 visitors broke the record for March at Tuzigoot. Past highs were 854 for 1941 and 1055 for 1946. Visitation has been on a steady incline, breaking all previous corresponding months, since the first of the year, and the 1948 travel year promises to set a new high. The above-mentioned 1389 visitors arrived in 420 cars. 22 people walked out to the monument.

Guide and Contact Service: Museum, ruins and orientation contacts totaled 2608 for the month. 1198 people in 362 parties were given an orientation lecture in the museum, and 1058 people in 351 parties were conducted through the ruins. The average time spent by each party in the museum was 22 minutes while the average conducted tour through the ruins required 21 minutes per party. Maximum service was given to the visiting public.

Personnel Time: Museum: 130 hours, 15 minutes. Ruins: 121 hours, 05 minutes. Total time for Bright: 113 hours, 45 minutes. For Richert: 137 hours, 35 minutes.

Special Visitors: On March 23, a group of 27 from the Department of Adult Education, San Jose, California.

Maintenance and Administration: Due to heavy visitation little time can be found to perform maintenance work around the monument. However, Ranger Richert has managed to complete, inbetween parties, the deweeding of all rooms in the ruins and a simonizing and polishing job on our ford pickup 1-13850. The Verde Hardware Company of Cottonwood is still unable to fill the remaining 297 feet due on our order of 2-inch galvanized steel water pipe because of failure of suppliers. However, we do have promise of delivery within the next 30 days. Fortunately no breaks have developed during the past four or five months. To avoid breaks the pressure has been reduced so low that the water is barely pushed to the monument.

Custodian.

Walnut Canyon

Rt.1,Box 400,Flagstaff,Arizona

March 7, 48

MEMORANDUM for the Regional Director,Region Three.

There follows a report of activities in Walnut Canyon National Monument for March 1948:

Weather ;There has been quite a bit of snow during the last month and many of our would-be visitors have,no doubt,been discouraged.This weather caused the roads to be first blocked with snow and then mud. One group of visitors demanded and received "safe escort"back to the highway.

Visitors: 241 visitors entered the Monument and 96 of these were contacted.It is estimated that only 50 people made the trip intothe Canyon.

Activities:The Monument was short handed during the month since Custodian Beambian was called away to Denver for a few days.

A spray gun,belonging to Wupatki,was used to finish painting the Custodians house.Ranger Upton from Wupatki helped for three days on the painting and one day on clean-up etc.

One day was spent looking for a break in the water supply line. Fortunately no break existed.A faulty float valve was responsible for the cutting off of our water.

N.P.S.Visitors:Mr Saunders and wife stopped in the area a short while to deliver the new bids for the museum roof.Ranger and Mrs E.Byrd and Naturalist Don Watson All of Mesa Verde Park were guests this past month at Walnut Canyon.

[illegible] NATIONAL MONUMENT

[illegible], NEW MEXICO

March 22, 48

MEMORANDUM for the Regional Director, Region Three.

MARCH TRAVEL - 1948	1948 - TRAVEL YEAR TO DATE
Visitors 6132 Cars 1675	Visitors 32085 Cars 8953

After falling down last month we can again brag about March, 1948, beating all records. 6,132 visitors in 1,675 cars tops all previous records for March. This record was set in spite of several adverse days when high winds and dust storms reduced visibility to less than a hundred feet. Winds of over 50 miles per hour with gusts as high as 75 miles per hour were recorded at the local air base. This, of course, has its effect on our road and we are barely able to keep them open at all. High for the month was 74° on the 22nd of February and low was 14° March 12.

A couple of trips were made to El Paso for supplies and equipment. One trip was by Ranger Quittum for the purpose of securing a number of truck wheels surplus to Army needs at Fort Bliss. We plan to use these as grills for our picnic area. They are a long way from those designed by our technical branch we had long since reached the point where we had to have something and the approved plan was financially out of the question. Even the wheels, had we been forced to buy them, would have been out of our reach since even junk yard prices are from $4.00 to $12.00 each. The Army gave us 26. By the middle of April we hope to have the picnic area completely made over and, for the first time in Monument history, have facilities somewhere near normal demands. We will have 17 shades with fire grills at each shade, at least ten garbage disposal units, and several tables and grills without shade.

With the visitor flow holding up as high as it is we have simply given up all hopes of catching up on the odd jobs. Two laborers were secured and we can at least see over now. All the plaster has been removed from the Parking Area and Utility Area walls, this has added greatly to their appearance. The old picnic area has been dug out of the drifting sands and moved into the new area. Our old (? 1936 ?) wooden pit toilets have been repaired and are being repainted. Joe has had several days assistance on his work which the several days of high wind make even more necessary. I am trying today to solicit Army help through the loan of heavy equipment in order to get our road to passing width again.

Monthly Narrative Report (2) March 22, 1948

Our museum has functioned in its usual efficient manner. Some repairs to lights during the month resulted in full case lighting again, the first time we have had full efficiency in some time. More museum contacts have been made and a little more time devoted to each group.

The heavy winds and dust storms were responsible for a car accident in which three boys were cut up badly, one also suffering a dislocated shoulder. They were beyond mere first aid and we rushed them on in to the hospital. I assisted the doctor and I guess all three are out and about by now. The car was nearly a total loss.

We are well planned, by various occasions, far past our ability to fully handle with our present staff. Easter Services are planned again this year and already plans are well laid for the largest Play Day ever. The Army is again cooperating with a V-2 Rocket display and the Air Force will exhibit radio controlled missiles, etc. The Governor, State Superintendent of Schools, and other officials have announced their intention to be present.

We had a visit with Region Three officials in the person when Assistant Regional Director Davis and Chief Clerk Castellum came by. We poured our many troubles on their shoulders and it was surprising how, in such a short time, they enabled us to solve so many of our woes.

No complaints were received on either the Service or the Concession.

And, with all these woes, perhaps I better await April when we will have much more cause for crying.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

March 31, 19 48

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Wupatki National Monument for the month of March, 1948.

Visitors this month: 322 Travel Year to date: 1369

Weather: Snow flurries and showers with a total precipitation of .34 inches was recorded for the month. The usual windy days with occasional dust storms remind us that spring is upon us.

Roads: The presence of some moisture has helped to keep the entrance road in fair condition. The approach road from Sunset Crater has been open most of the month, with some cars coming in from that direction.

Travel: Visitation for the past month has shown an increase of 47% over that recorded for March of last year. The travel year indicates a similar increase with 30% more visitors as of this date. With this as an indicator it would appear that another record travel year lies ahead.

Grazing: The grazing of trespass stock has been reduced to a minimum. This was accomplished in part at least, by allowing Mr. Kirby to increase the amount of water hauled from the Heiser Spring so that there was no overflow. This resulted in forcing those cattle that have been straying in from the south to go elsewhere for water. At the same time it has worked a definite hardship on the Navajos who have been accustomed to depending on Heiser as a watering place for their sheep.

Spring Flow: Further development of the Wupatki Spring was completed. This has increased the flow over that of last month by 129 gallons per day. At the same time Heiser Spring has continued to recede until the flow of both springs is now the same. Both springs record 1122 gallons per day.

Spring Development: Work on the Wupatki Spring development was given first priority for the month. The entire trench was opened and the upper portion lowered. With the removal of about 12 cubic yards of sandstone,

shale and clay, it was possible to cut down through several layers of rock, establishing a good grade from the upper end to the settling sump. Good seepage was brought in all along the trench. Six inch, perforated, asphalted pipe was laid in the bottom and was covered with several inches of coarse gravel. This in turn was covered with coarse cinder and then filled in with several feet of clay. A plan was drawn, indicating the location of the line, depth, approximate location of the main seeps and pertinent information. Thanks to Coconino County, who allowed us to rent a compressor for a few days, the job of cutting down through the rock was relatively simple, with the use of one of Walnut Canyon's jack-hammers.

A test hole was also made near the present pump house. It was found that water comes in approximately 3 feet below the level of the present collecting sump, indicating that more water is below our present development. It was also observed that several hundred yards farther up the slope from the present spring, a heavy growth of grass and salt bush persists the year around, no doubt fed by another seep.

Special Activities: What appeared to be a leg bone of a prehistoric mammal was reported recently by one of the neighboring Navajos. It was found partially covered by a sand bar along the margin of the Little Colorado. Tentative identification indicates that it is possibly the tibia of a Mastodon or Mammoth. Although not in evidence at the present time, it would seem likely that other bones may be buried near.

Newsworthy Visitors: Thomas Clements, Professor in Geology of the University of Southern California, was a Wupatki visitor on the 27th. He was accompanied by his class on their geology spring field trip. Professor H. T. Getty, with members of his class in Archeology from the University of Arizona visited Wupatki on the 31st.

General: Rough drafts of the Development Outline for the Master Plan were completed for Wupatki and Sunset Crater. Ranger Upton spent several days the latter part of the month assisting Ranger Aubuchon at Walnut Canyon. Collaborator Buchenberg returned to Wupatki on the 23rd, after spending what he described as a most pleasant winter in Florida with relatives and friends. Buchy seems happy to be back in Arizona and it was good to see him again.

Unusually cold and stormy weather had adverse effect on travels

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

RECEIVED APR 8 1948

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTER OUTSIDE OF THE AREA REGARDING WHICH VISITORS ENQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

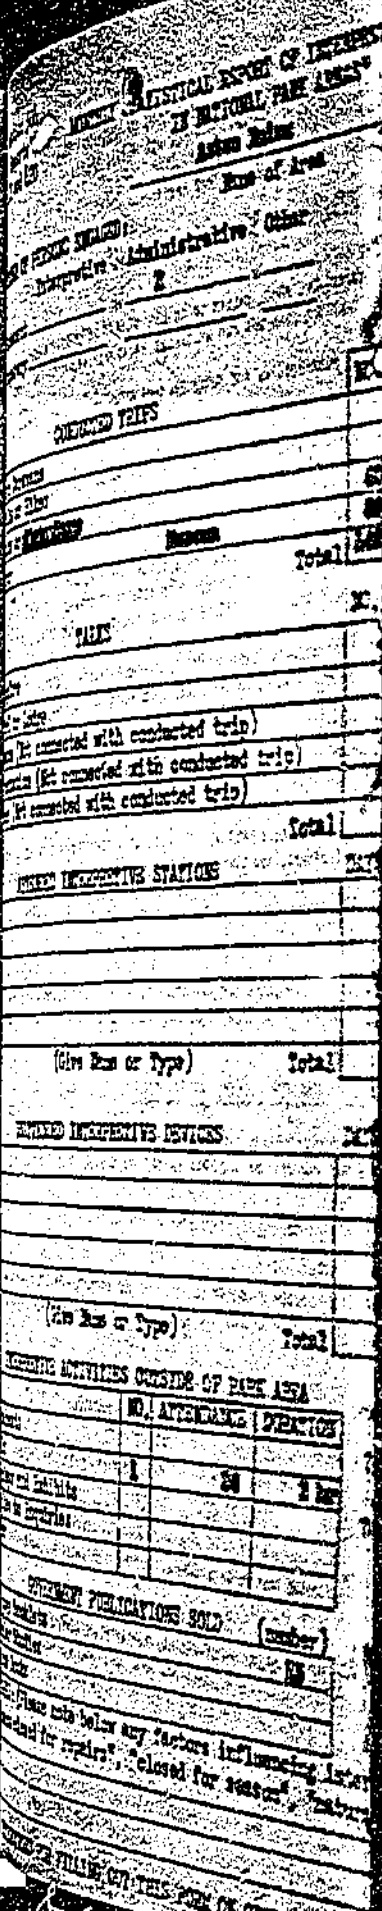
UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.



COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS BY USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR, WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

* An additional 25 people, local residents, here to use telephone or on other business were also contacted.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKINGS AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COOPERATING ASSOCIATIONS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME

TITLE J.M. Brewer, Jr., Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field on through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (museum, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as Attended Interpretive Stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors actually in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the Superintendent or Custodian of the area in which the report originates. Coordinating Superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 6th of the month following that covered by the report.

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, MOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A REPORT BASIS FOR ALL N.P.S. AREAS.

Fill Out Only Those Blocks That Apply

EXPLANATION OF ITEMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR PARK NATURALISTS, HISTORIANS, AND ARCHEOLOGISTS WHERE "ADMINISTRATIVE" ARE SUPERVISORS, SUPERINTENDENTS, ETC., FAILED OR TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED ON TO HELP INTERPRET THE AREA.

Interpretive Duties: Duties connected by N.P.S. personnel in the field of interpretive service, in accordance with the approved objectives of the area.

Talks: "Formal" presentations talks within Service areas presented before groups of Service personnel or by persons employed under Service specifications. Not to include any talks made as part of a conference type of study or interpretive service.

Interpretive Structures: Actual count of persons using the structure (museum, contact station, campground, visitor collections, etc.), count being made by Service personnel if practicable. Personnel stationed in service headquarters or information kiosks other than interpretive service should not be considered as interpretive structures.

INFORMATION is factual matter relating to physical developments, physical facilities, geographic directions, rules and regulations of the area, and the utilization of these facilities by the visitor. It includes data on routes and roads, hotel accommodations, and the like; schedules, and similar matters outside of the area requiring minor personnel effort.

INTERPRETATION is an accurate explanation of the characteristics of natural resources and their relation within the area.

Contacts: Interpretive Services: Count only those which should be considered as interpretive as distinguished from routine service transactions, administrative functions, and incidental, unplanned contacts. Interpretive services, including conducted trips, illustrated talks with audience reaction, and the like at which Service personnel is not in sight. Incidental media will also be kept count that this section of the form does not apply.

Interpretive Activities Outside of the Area: This includes all interpretive activities performed by visitors by Service personnel outside the area. Number of visitors in response to written requests for interpretive data should be included.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column A: Record the number of visits conducted during the month, the number of talks made, and the number of days on which interpretive visitor use activities are open to the public.

Column B: Indicate the total attendance of visitors at each class of trip, talk, structure, or activity. Record total each column in all blocks.

Column C: Show the average number of type of each class of service, or the average time spent by visitors in using each interpretive service. Some types of visitor habits must be made with reasonable accuracy and occasional information.

Interpretive Activities Outside of the Area: Are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Contacts: A contact is considered interpretive when visitors within the area is requested for in the lower right-hand corner. Total attendance shows the actual number of visitors and their attendance at the various interpretive services offered. Since each visitor may use several different interpretive services, his attendance may become a total greater than the number of visitors registered in the area during the same period. For comparison, the total number of visitors in the area during the month should be used.

This report will [illegible] all National Park Service interpretive activities. [illegible] the superintendent or custodian of the area. [illegible] Information concerning [illegible] should be received with [illegible] the following month that covers [illegible]

NAME Everett W. Bright

TITLE ~~Everett W. Bright,~~ Custodian.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS ENQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FO DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME ~~John A. Aubuchon~~
TITLE Acting Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.
~~Only one man on duty, bad weather and road conditions. Approx. 30 people made ruins trip unattended.~~

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as Attended Interpretive Stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, motel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

This report due: from all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 6th of the month following that covered by the report.

Region Three Office—Mr. King			

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Region Three
Santa Fe, New Mexico

May 7, 1948.

MEMORANDUM for the Regional Director, Region Three.

Following is the narrative report for the naturalists of the Southwestern National Monuments for the month of April 1948:

Staff Activities - General

Naturalist Dale S. King was in the office except for a two-day trip to White Sands and Gran Quivira, April 7-8.

Archeologist Charlie R. Steen left Casa Grande on April 1, returning to Santa Fe on the 3rd, via Walnut Canyon.

Public Relations and Extension Services

Several groups of Kodachrome slides were selected and mailed to various educators who requested them for lectures.

A manuscript prepared by Johns Harrington, formerly Temporary Ranger at Grand Canyon, written about Tupatki National Monument, was edited and returned to the author, who will publish it in a trade journal.

Progress of Exhibit Plans and Projects

King had several discussions concerning policy and planning with Mr. Fred Pleasants, formerly of the Peabody Museum of Harvard University. Mr. Pleasants is writing his doctoral dissertation on the function of anthropological exhibits in scientific museums, and is quite interested in museum possibilities in the Southwest.

Accessions - Other than Library

A request was received from a small eastern museum for archeological material to be loaned from the Southwestern National Monuments. This was regretfully refused because of the lack of such material, plus the difficulty of assembling and shipping it.

Research and Observations

King accomplished slightly more than three days of progress on the

archeological excavation report of Halaikihu by working on week-ends.

Several meetings were held and some time spent in preparing advanced committee work for the Northern New Mexico Boy Scouts Plaza Jamboree, for which Xing is Publicity Chairman, and the Region Three staff is providing facilitation.

Region Three Office Loan Library

Library accessions for the month were 18 books, 82 periodicals, and 114 reprints and pamphlets.

Principal books received were:

Chenault, Richard S. — Advertising Layout.
Ronald Press Co., New York, 1946.

Conkling, Roscoe P. and Margaret B. — The Butterfield Overland Mail. Two Volumes and Atlas.
Arthur H. Clark Co., Glendale, 1947.

Follansbee, Robert, and L. R. Sawyer — Floods in Colorado
U. S. Geological Survey, Water Supply Paper 997,
Washington, 1948.

Gladwin, Harold — Men Out of Asia.

Holbrook, Stewart H. — The Story of American Railroads.
The Crown Publishers, New York, 1947.

Hough, Walter — Culture of the Ancient Pueblos of the Upper Gila River Region, New Mexico and Arizona.
Smithsonian Institution, U. S. National Museum, Bulletin 67.
Washington, 1914.

Harriott, Alice — Maria; The Potter of San Ildefonso.
University of Oklahoma Press, Norman, 1948.

Penman, H. Walter — Meet the Natives.
Privately printed, 3rd edition. Denver, 1946.

Santee, Ross — Apache Land.
Charles Scribner's Sons, New York, 1947.

Tanner, Fawn McCorkle — A History of Moab, Utah.
Moab, 1957.

von Hagen, Victor Wolfgang — Maya Explorer. (John Lloyd Stevens and the Lost Cities of Central America and Yucatan)
University of Oklahoma Press, Norman, 1948.

Young, Paul Stanley — Sketches of American Wildlife.
Monumental Press, Baltimore, 1946.

Southwestern Monuments Association

The Executive-Secretary conferred with representatives of Postage Meter and Multigraph companies concerning the possibility of obtaining machines in the future.

Page proofs on material for the mailing list were received from the printer and returned.

An illustrator was interviewed concerning the possibility of preparing improved illustrations for the booklet "Poisonous Dwellers of the Desert." Correspondence was initiated with a cooperating photographer with a view toward obtaining photographs of Indian handicraft to be used in a future publication.

During the month, the Association continued contributing a considerable amount of postage to the Regional Office to answer informational requests.

Treasurer Alan C. Vedder worked every work-day, due to increased activity. Much time was spent on turn-ins, some posting, and about two days receiving and arranging headquarters stocks for mail sales. He made the trip to White Sands and Gran Quivira, and prepared one disbursement and two deposits, which included 45 items.

Ruins Stabilization

The stabilization report on Chettro Kettle for 1947 was received from archeologist Gordon Vivian. It is an excellent job, and Vivian deserves congratulations.

Stoon performed a great deal of work on the stabilization report for Casa Grande, analyzed remaining funds for this fiscal year, and made some changes in allotments to various monuments.

Projects for May

King will be in the office, being occupied the first part of the month with a somewhat large task of issuing the Southwestern Monuments Association's first large-scale mailing. He hopes to spend some time later on museum planning.

Steen will go to Gran Quivira during the second week of the month to survey stabilization needs, and help the custodian in a rehabilitation of an interpretive station. He plans a short trip to Navajo at the end of the month.

(SGD) Dale S. King

Dale S. King,
Naturalist.

NATIONAL MONUMENT
Moab, Utah

April 29, 48

MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Arches and Natural Bridges National Monuments for the month of April, 1948:

GENERAL: Travel showed a substantial increase despite heavy winds and inclement weather. The out-of-state-cars are now becoming more evident and we are looking forward to our big travel year.

WEATHER: The March winds are a month late but are making up for lost time. Extremely high winds were in evidence on numerous occasions during the month and today they snapped off a lombardy poplar tree about 20 feet high at quarters. The first part of the month was unseasonably cold with rain and snow on several occasions but it has become much warmer during the latter part of the month. The Colorado River has been rising rapidly and oldtimers predict the highest water experienced for some years due to heavy snows in the LaSals.

TRAVEL: Our visitor register showed a total of 201 cars and 777 people for the month as compared with 155 people last month and 559 people for April, 1947. Easter Sunday recorded the heaviest daily travel for the monument with 88 cars and 447 people. Most of the travel was from Utah and Colorado but the out-of-state-travel is increasing.

INTERPRETIVE SERVICES: Our contacts increased during the month with 115 people contacted at headquarters and 172 people contacted in the Windows section. Two hikes were taken with parties to Klondike Bluffs and the Devils Garden section. A total of 6 people were included in these parties. Several requests for information were received and answered.

COOPERATING GOVERNMENTAL AGENCIES: Grand County completed the construction of approximately 12 miles of access roads to the Devils Garden and Delicate Arch on April 27th. Funds ran short toward the end of the job and they were not able to do all the surfacing contemplated but it is an excellent road and will certainly make the area more readily accessible to visitors. Mileage and directional signs have been installed. The local Lions club is holding an outing and barbecue in the area on May 8th to

celebrate the completion of this work.

ROADS: The approach road to the Windows section of the monument is in good condition. The State maintenance crew spent two days grading same during the month. Grand County enlarged the Windows parking area with a bulldozer and improved one hazardous curve by drilling and shooting.

TRAILS: The Delicate Arch trail signing and improvement has been completed. A rope handrail has been installed on the approach to the arch thereby improving the hazardous climb to the arch proper.

The Devils Garden trail has been signed from the parking area to Double O Arch and The Dark Angel, a distance of 2 miles. Features along this trail are Tunnel Arch, Pine Tree Arch, Landscape Arch, Wall Arch, Partition Arch, Pin Canyon, Double O Arch and the Dark Angel.

Signs have been completed for the trail and features in the Windows section and we hope to have them in place during the first week in May. Signs have also been mapped out for the Courthouse Towers trail and will try to get them made and in place before our heavy travel starts.

NATIONAL PARK SERVICE VISITORS: Ranger Paul Steel of White Sands National Monument arrived on April 17th to deliver a surplus house trailer assigned to Natural Bridges National Monument. He was shown over a portion of the monument.

MAINTENANCE: Material has been purchased for the reroofing of the warehouse and it is hoped that we will get this job completed the first week in May.

NATURAL BRIDGES NATIONAL MONUMENT: The approach road to this area is still closed by heavy snow. The last report received stated that there were still 5 feet of snow on the Bears Ears on the Elk Mountain and it would probably be May 10th before the road could be opened.

(in trip.)

Russell L. Maban
Custodian

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

24 April 1948

MEMORANDUM for the Regional Director,
Region Three.

There follows the report of activities in Aztec Ruins for April 1948.

WEATHER: Excellent sunshiny days have prevailed, marred only by a few days of storm, yet our travel for the month is 240 less than April last year. Just 0.47 inch precipitation has been recorded which blew in on a few scattered days of high wind.

MAINTENANCE: We have spent considerable time in repair to the storage tanks of the water system and will find it necessary to do more as time allows in May.

The refrigerator motor was removed and repaired.

The residence sewage line was cleaned when all drains became occluded.

The lateral ditch from the main Farmers Ditch canal was cleaned.

Roadside burning of grass and other flammables, to reduce fire danger, was begun.

SPECIAL ACTIVITIES. The Custodian presented illustrated talks to two local county schools and another to the Aztec Parent Teachers Association. The Custodian accompanied Architect, Raymond Lovelady to Farmington, N.M., Cortez and Durango, Colorado to interview building contractors, relative to the proposed construction at Aztec.

TRAVEL. The trend in travel is decidedly down from last year, despite favorable climatic conditions, yet the overall travel year is trailing only by 17 visitors.

There were 584 visitors in 199 cars from 28 states, Brazil and Canada.

INTERPRETIVE SERVICES: There were 413 visitors in 103 trips conducted thru the ruins, and 584 visitors in 166 groups shown thru the museum.

Irving D. Townsend,
Custodian.

APR 26 1948

AZTEC

April 29, 1948

Memorandum: For the Regional Director, Region Three.

There follows a report of the activities at Bandelier National Monument for the month of April, 1948.

WEATHER

Spring weather prevailed for the most part during the month with temperatures ranging from 20 degrees on the first day to 85 degrees on the 17th. Although spring was late this year, the trees had leafed out by the end of the month and some of the flowers were in bloom.

ACTIVITIES

The Custodian attended the Building Fire Control and Forest Protection Conference at Grand Canyon National Park from April 5 to 14. The Conference was very much worth-while and much valuable information was received. Wupatki, Walnut Canyon and Petrified Forest National Monuments were visited en route to and from the Conference.

A trip was made to Albuquerque, New Mexico for the purpose of investigating the possibilities of securing a new stove unit for the lodge kitchen.

NEW CONSTRUCTION

The two expandable house trailers that were purchased from the Atomic Energy Commission at Los Alamos, New Mexico were set up at the edge of the campground in preparation for occupancy by seasonal rangers.

MAINTENANCE

Maintenance-man Valencia spent most of the month working on re-arrangement of the Lodge Kitchen to improve working conditions and to make it safer. The cook stove, steam table and refrigerator were moved to new locations.

The approach road was graded and finally put in fair condition following the spring thaw.

CONCESSIONERS

Mrs. Frey, the operator of Frijoles Canyon Lodge, spent most of the month in getting ready to open by the first of May. However, travel on weekends was sufficient to justify opening the coffee shop earlier and it was opened on the 24th for serving sandwiches and drinks.

INTERPRETATION

Nine hundred fifty visitors were guided through the ruins in 111 parties at an average party time of 71 minutes. With good weather the average time spent with each party increases to some extent.

As the Museum was still uncomfortably cold for a good part of the month, only 30 parties were taken through.

One evening lecture was given during the month in the lobby of the Museum to the senior Boy Scouts of Los Alamos and their guests.

MUSEUM

The Pueblo Government case was completed and installed during April. The new case labels will help it greatly when we get them.

The Pueblo Religion case was dismantled for photographing and reinstalled. It is hoped that this case may be redone soon to make it more understandable.

The Seasonal Ceremonies case is all but complete. Mrs. Pablita Velarde Hardin had to leave because of the shortage of funds, but she took the paintings home with her to finish them on her own time. A gesture which, needless to say, is deeply appreciated.

TRAVEL

This April showed a 23% increase in visitors over last April. Sunday the 18th, was the largest day in the history of the Monument with 539 people coming in between 8 A.M. and 5 P.M. This exceeded by some 35 persons the largest day of last summer. If this is any indication of the coming season, this one will top them all.

VISITORS

Miss Laura Gilpin, photographer and author of the book "The Pueblos," spent a day in the area. She was accompanied by Mr. and Mrs. Paul McPharlin, publishers.

RANGER SERVICE

Ranger Keefe spent the week of the 19th in attendance at a Forest Service Fire Training school near Jemez Springs. It proved to be a very fine school and will materially aid in planning and conducting fire prevention and suppression training for the other employees of this area.

FOREST FIRE PROTECTION

The fire danger began to move upward toward the end of the month and reached the "high" mark during the last few days. Plans are being made to man the lookout station early in May.

A meeting was held in this area on the 27th with representatives of the Forest Service and Atomic Energy Commission at which a co-operative fire detection and suppression agreement was worked out between the three agencies. The meeting was attended by Assistant Regional Forester Ratcliff and Ranger Keefe of the Park Service, Supervisor Flock and Rangers Stephens and Cutler of the Forest Service, and Mr. Bliss, forester for the Atomic Energy Commission.

STABILIZATION

Twenty four and a half days were spent on wall packing in Tyuonyi. Nine man days were spent hauling dirt and materials and the remaining days were spent packing the walls of 30 rooms.

One burial was uncovered in the excavation for dirt for the soil cement. The condition of the bones precluded the removal of the skeleton, so photographs were taken to show as much detail as possible.

PERSONNEL

Mr. Cipriano Ramirez, Albuquerque, New Mexico, entered on duty as clerk on the 13th. He spent two weeks in the Regional Office getting acquainted with his duties. It is with pleasure that we welcome Mr. Ramirez to the Park Service and we hope that he will enjoy his associations.

SIGNED: (SGD) FRED W. BINNEWIES

Fred W. Binnewies, Custodian

Canyon de Chelly National Monument
Chinle, Arizona

April 27, 1948

MEMORANDUM for the Regional Director, Region three.

The following is a report on activities at Canyon de Chelly National Monument during the month of April, 1948.

Weather

April weather was about normal with a Maximum temperature of 84 degrees, and a minimum temperature of 22. There was .60 inches of moisture. After the cold weather of March and February, the late spring was welcome. The Canyons are running higher than normal due to the heavier winter moisture in the higher elevations. Nights have been cool and thawing has not been too rapid. If we get a few warm days and nights, I look for some damage to our soil and moisture work.

Administration

Office work got a little behind while I was working with a crew of Navajo laborers on road, trail, and building repair, but I am rapidly catching up.

Two trips were made to Gallup, New Mexico during the period, one for supplies and equipment, and the other to attend a meeting of the Gallup Chamber of Commerce with custodians Wilson, McNeil, and myself.

Maintenance

A crew of four men were put on helping me with road, trail, and building repair. Due to a more severe winter than normal, much more work was necessary than was anticipated last fall. Outside plastering of quarters and repair of parapets was completed. The trail to White house was worked from top to bottom and is now in excellent condition. Sixty-one dump truck loads of dirt were hauled to fill the worst of the holes in the road. The large cottonwood trees at thunderbird ranch were closely trimmed by the concessioner, and I hauled the branches and logs to reinforce the dam at the mouth of the canyon, and to partially protect some of our plantings. I finally had to hire an additional man who could drive a car as my office work was getting behind.

A new toilet bowl and shower was installed in the trailer house, and it is being remodeled to conform with plans sent from the regional office.

RECEIVED
MAY 4 1948
REGIONAL PARK SERVICE

A cleanup of grounds was made but with the high winds always prevalent during the month it is a continuous job.

Travel

With the exception of two periods during which we had heavy rains, roads have been in fair condition and our travel picked up considerably. We have been falling a little behind last years figures although our Fiscal year to date shows a slight increase.

Visitors

Mr. Ainsworth of the Los Angeles Examiner and an associate were in several days getting material for publication of articles on the Navajo Indian situation. Ranger and Mrs. M.S. Johnstone of Yellowstone National Park also were among the visitors this month.

Cooperating Non-Governmental Agencies

At the request of a committee formed by the Gallup Chamber of Commerce, a meeting was held in Gallup attended by Custodian Wilson of El Morro, McNeil of Chaco Canyon, and myself. This organization proposes to establish daily conducted caravans to the points of interest around Gallup New Mexico. They also plan a local School for members of business organizations and requested our assistance in giving talks or lectures in order to help these members get better acquainted with our areas.

~~MONUMENT, ARIZONA~~ Capulin N.M.

April 27, 1948

Memorandum for the Regional Director,
Region Three, National Park Service,
Santa Fe, New Mexico,

There followsa report of the activities in and around Capulin Mountain National Monument for the Month of April 1948.

Approximately twelve hundred visitors to the Volcano during the Month. This brings the total visitors for the Travel year to date six thousand six hundred and the total visitors for the fiscal year to twenty six thousand one hundred,

Weather,
has been ideal in the vicinity thru the month,with some slight snow and rain. Rather heavy winds have prevailed most of the month but no extremely heavy winds have occured,

Flora and Fauna.
The early flowers are blooming and all grasses and trees are showing a shade of green. The entire vountryhere is blessed with an abundant deep moisture and proppects are very bright for a good season,
Our animals in the Park are in good condition altho I have found two dead deer this spring It is thought likely that there were caught by the coyotes as some damage was done by them all over the country during the big deep snow,

Roads and Trails,
are all open again and are in splendid condition to the top of the Volcano The park road has required considerable attention after the big snows of the winter.

Very Respectfully,
Homer J. Farr,

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

CASA GRANDE NATIONAL MONUMENT

COOLIDGE, ARIZONA

April 25, 1948.

MEMORANDUM for the Regional Director,
Region Three.

There follows the narrative report for Casa Grande National Monument for April, 1948

General: The coming of spring has brought with it the usual increase in temperatures and the decrease in travel. For the first time in many months we have fallen below the same period of a year ago in total number of visitors. The main problem of city folk and farmers alike is the water situation. There are new wells all around us pumping for the first time and it is hard to predict the outcome, it has been reported that the water level in some wells has dropped over five feet just since the new wells started pumping. Coolidge Dam now has 15,000 acre feet of water compared to 6,000 a year ago, but that is just twenty days supply of water more than last year at this time. With the lack of water comes the shortage of electricity and they are asking the public to leave their coolers off several days each week so it promises to be a rough summer for all concerned.

Weather: Summer appears to be just around the corner with the thermometer reading above 95 for ten days in a row, three days above 100 with the highest reading 103. The low minimum was 35 and the high minimum 62. High winds and dust storms have made several of the days disagreeable. There has been no precipitation this month, only one inch has fallen so far in 1948.

Visitors: April 1948- 3238 : April 1947- 3703. Travel year to date 1948-33,013 : Travel year to date 1947- 25,785. This is a drop of 465 from April of last year. Travel has been cut in half since last month but Sundays are still big days with a good turnout, mainly Arizonians.

Interpretive Services: Of the 3238 visitors to the area, 2294 made the ruins trip in 210 groups, averageing 47.5 minutes per trip. 944 people visited the area for a quick look but did not make the ruins trip.

Maintenance: With the help of Steen's stabilization crew the 5 stall wooden garage was reduced to a two stall garage and moved back to the rear area. New screen doors were added and other minor repairs were completed on quarters 3-5. The heating stoves were taken out, cleaned and stored for the summer. The cooler for the museum was rebuilt and mounted. The area around the quarters, museum and picnic area has been completely cleaned up.

Ruins Stabilization: Archeologist Steen and his crew finished putting the caliche cap on the walls and ended operations here on April 1. They did a very good job and the new caliche cap looks much better than the old cement cap. Two of Charlies crew took the dump truck up to Tonto and are now working on the roads and trails there.

Administration and Protection: Two inspection trips were made to the Adamsville site and the warning signs that were put up last month appear to have done their job as there are no new signs of "pot hunting".

Trips Taken: On April 19, Mechanic Stonehocker took a load of lumber which was salvaged from the torn down garages to Organ Pipe Cactus National Monument, returning the next day. On the 21st he went to Phoenix to pick up some repair parts.

N.P.S. Visitors and Visitors of Note: On March 27, Archeologist Hendricks from Tonto was in to get their pick up which was in for repairs. On April 14, Custodian and Mrs. Cooke from Chiricahua were in to get a 3 KW light plant and visited the ruins while theywere in the area. On April 18, Mrs. Hill, wife of Chief Clark Hill, Yosemite N.P. and Miss Heimbeck, visited the ruins. The packer from Saguaro brought in a water pump engine to be repaired on April 21.

Mechanics Activities: General repairs were made to the following equipment:

Area From.	Equipment.
Tonto Nat'l Mon.	Light Plant
Region Three	Condrete Mixer Panel Truck
Saguaro Nat'l Mon.	Ford Stake Truck Water Plant Pump Engine
Casa Grande Nat'l Mon.	Chevrolet Pickup Ford Pickup Autocar Tractor and trailer Kitchen Range for Quarters 5-5
Organ Pipe Cactus Nat'l. Mon.	Lumber and Supplies delivered Electrolux Refrigerator Horse Trailer

Personnel: Park Ranger Schuft was transferred to Lake Texoma Recreation Area on April 5. We are sorry to see Pete go. The ranger position was filled by Park Ranger Armberger who entered on duty April 18. He was accompanied by his wife Gail and their nine month old son Robbie.

Nature Notes: The only cactus to bloom so far on the Monument has been the hedgehog in front of the museum, the ocotillo and creosote bushes are all blooming. The bats are showing a little activity with several hundred less by the ruins every evening.

Leaves Taken: Mechanic Stonehocker took eight hours of annual leave on April 16.

A. T. Bicknell,
Custodian.

DEPOSITORY
APR 28 1948

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

~~Chaco Canyon~~ NATIONAL MONUMENT

~~Bloomfield, New Mexico~~

~~April 25,~~ 1948

MEMORANDUM for the Regional Director, Region Three,
National Park Service.

There follows the report of activities in Chaco Canyon National Monument for the month of April, 1948.

This month, there were 67 visitors came to Chaco Canyon. Of these, there were 63 paid admissions and 4 children less than 12 years of age. They came from the states of:- Colorado - 1 car, 4 visitors; District of Columbia - 1 car, 2 visitors; Iowa - 1 car, 5 visitors; Maryland - 1 car, 2 visitors; Michigan - 1 car, 1 visitor; Montana - 1 car, 2 visitors; New Mexico - 12 cars, 46 visitors; Texas - 1 car, 3 visitors and Utah - 1 car, 2 visitors. These people formed 23 ruins parties with 67 visitors, and 14 museum parties with 39 visitors. Archaeologist Aida Rizzy spent 5 hours and 5 minutes with some of them, and the custodian spent 29 hours and 10 minutes with others.

The approach roads to the Monument have been in good shape for the past few weeks. On Friday, April 9, the Custodian addressed the Directors of the Gallup Chamber of Commerce, at a dinner, regarding, in part, the Chaco roads. Immediate action was taken by the Chamber, and the roads from Gallup have remained in good shape. Incidentally, Custodians Wilson, Guillet and this one, were invited in by the Gallup Chamber of Commerce on April 21, to talk over and discuss with some of the men the problems in enticing those tourists passing through Gallup to stay a while and visit some of the points of interest near the city. It was a profitable meeting. The Gallup Officials have a well laid plan which should increase the visitor travel for these Monuments as well as help Gallup.

The weather this month has been much more pleasant than for the past three or four. The coldest was 16 degrees on the 28th of March, while the warmest was 82 four. The coldest was 16 degrees on the 28th of March, while the warmest was 82 degrees Fahrenheit on the 16th and 17th of April. Rain and/or snow fell on six different days which formed a total precipitation of .79 of an inch.

Various jobs about the Monument were begun, continued or completed. The exterior wood work of the residence, the oil house, the doors on the engine room,

RECEIVED
APR 28 1948
NATIONAL PARK SERVICE

the fuel oil storage room, and the garage, and the two Chic Sales were painted.

Several days were spent on the roads within the Monument. Most of this was grading.

About 14,000 willows were planted in the arroyo for erosion control. This job was completed. Nearly 1,000 were planted last month. Last Friday, Regional Soil Conservationist Balch and the custodian made a short inspection trip. Almost all of these plantings noted at that time were leafing out. Also, a large percentage of the willow post size cuttings set in last fall were leafing out.

Small jobs, such as reroofing part of a cess pool, after collapse, and covering, digging up and cleaning another sewer line; digging up and straightening the support posts under the ramada; cleaning the stable and horse lot; building a drain for the water in the campground; putting the blown-down radio aerial back up and others were done at odd moments.

A start was made on the Flood Diversion Project. Paul Balch went over the ground with Archaeologist Vivian and the custodian. Posts were contracted for and delivery is expected soon.

New hinges for the gates have been delivered but not yet installed.

One trip was made to Aztec and Farmington and two to Gallup.

The detached section on which Pueblo Pintado is located was visited.

National Park Service visitors included Assistant Superintendent and Mrs. Johnson from Yellowstone National Park; Custodian and Mrs. Bowen from Gran Quivira National Monument in on the 5th and 6th; Ranger Steed from White Sands in on the 18th and Paul Balch in on the 22nd through the 24th.

The Trader reports that he has rented his cabins on a number of occasions this month. As the visitor season is getting underway, he has a good stock of rugs on hand and is getting more. Also, for the visitor trade, he is having the local Indians make small looms, about 2 or 3 feet high, with a small rug about half woven in each. They are quite novel, and he is hoping they will sell well.

There follows the report of Archaeologist Gordon Vivian.

Irving McNeil, Jr.
Custodian

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Chaco Canyon ..... NATIONAL MONUMENT

Bloomfield, New Mexico

April 27 ..... 19 48

MEMORANDUM for the Custodian,
Chaco Canyon National Monument.

There follows the report of Mobile Unit activities in your area for the month of April 1948.

With the improvement in weather conditions stabilization work was resumed on March 29th. The crew was started with three men and has been increased at this time to six with an additional three in the offing. Men are a little hard to find right now since this is lambing season and it will be followed by shearing time. Recruiting by the railroads has also increased. The labor supply seems definately lower than it was at this time last year.

Some cleanup was done and minor patches made around Pueblo Bonito in preparation for the visitor season. A new weed burner was tried out and appears very satisfactory on small growth at least.

The repairs made at Bonito included small patches, mainly on the benchs, of in seven kivas, A, C, D, E, H, L and P. Wall patches were made in 332 and 106B where accumulating surface water had washed out a small area. A new ladder was built for visitor traffic on the east side.

In addition to the regular work experiments continued on materials. Two sections of wall were built to test various waterproofing for mortars and a small piece of wall was laid with Aquella treated stone. Archeologist Aide Hixey continued to turn out reinforced concrete lintels and many of these have been incorporated in repair work.

At Chettro Kettle two small patches left unfinished at the start of freezing weather were finished ; one of the doorways on the north and below ground level where flood waters entered was dug out and sealed.

A large buttress section some 12 feet high was completed in the northeast corner of 55 to hold two unsupported wall corners. This included the rebuilding of a doorway in the east wall.

A bulged area in 44 was taken out in sections and rebuilt and a door opening in 53 is in the process of repair now. Also in progress is the

removal and rebuilding of the north wall of Kiva G. This is a major job and will require most of the next month. The wall is one that has settled and moved outward continually since the flood though the water did not reach it. In the thirteen feet of wall that are exposed on the north exterior of the kiva settlement has been three to four inches and outward movement at the top has reached one foot four inches.

Office work in the main has been trying to extract Loyalty Data from the Navajo hired and completion of the stabilization records for 1947 as well as keeping the current records up.

April 26, 1948

MEMORANDUM for the Regional Director,
Region Three.

There follows a report of activities at Chiricahua National Monument for April.

Weather Conditions. Dry and windy. .06 inch of rain fell during the report period.

Special Activities. The Custodian made a trip to Casa Grande National Monument on April 13, 14 and 15, to secure another 3 KW light plant. With two of the 3 KW plants we hope to keep one of them in working order. The 10 KW plant burned more gas than we could afford.

Inspections. Three inspectors, Mr. George R. Bartlett, Mr. Kenneth M. Westerling, and Mr. Walter L. Malone, from the General Accounting Office, Los Angeles, representing the Compotroller General's Office, gave the Chiricahua office an inspection on April 23. Everything was OK we think and hope.

General Publicity. Chiricahua was favored with eight pages of pictures and story in the April issue of the Arizona Highways.

Maintenance. The entire 18 miles of telephone line has been brushed out this spring. This includes the line from Headquarters to Portal and the Massai Point--Sugar Loaf branch. The underground passage where the Sugar Loaf branch goes under the road to join the main line is not working. We expect to replace this in a day or two. Then the whole line should be in good working condition. A new portable telephone has been received and is a great help in checking the telephone line.

A man was hired April 5 to help Marble get caught up on the road and trail maintenence and the enlarging of the parking area. This man lasted 15 working days and another started work today.

New Construction. With the help of a laborer, Operator Marble has accomplished most of the work planned on the enlarging of the parking area, at Headquarters.

Approaches to Monument. Roads are dry and dusty and numerous complaints are received about State Highway 181 where the state is preparing the road for oiling.

Concessioners. The Silver Spur Ranch is changing management again on May 1. While this ranch is not a concessioner, it does furnish meals and lodging to many monument visitors.

Interpretive Services. Six conducted trips with 28 visitors were made. One lantern slide talk to 15 persons was made at the Silver Spur Ranch. 1424 visitors in 344 parties were contacted in the museum.

Travel. 1622 visitors were recorded for this month. This compares with 1579 for April of last year. The travel year is now 6647 as compared with 7244 at this time last year. We hope to catch up with last years travel when the approach road from Douglas is oiled.

Forest Fire Protection. The forest is very dry both on the monument and on the surrounding National Forest Land . The local forest ranger plans on putting on some lookouts on May 3 and we plan on putting Lookout Windes on Sugar Loaf about the same time.

Clair V. Cooke

Clair V. Cooke,
Custodian.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

El Morro NATIONAL MONUMENT

Ramah, New Mexico

April 25, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities in El Morro National Monument for the month of April, 1948.

WEATHER: High winds and overcast skies made this April feel a bit cool although the maximum temperature did reach 80 degrees. A minimum of 10 degrees was recorded. The total precipitation amounted to .70 inches and five inches of snow fell.

TRAVEL: During the first two weeks of the report period we had very few visitors, however, as road conditions improved so did our travel count. From 10 different states, District of Columbia, Sweedan and Holland came 92 visitors in 32 cars and one airplane. The tour of the inscriptions was made by 75 people in 25 trips and the total guide time amounted to 24 hours and 15 minutes. Sixteen lost souls stopped for information.

APPROACH ROADS: Another historical event has occurred,ie., a county grader actually came within two miles of the monument on the Grants road. Both roads are in fair shape now, inspite of the visitor's greeting"Well we made it"!

EDUCATIONAL ACTIVITIES: It is the intention of the Gallup Chamber of Commerce to organize and conduct tours to Canyon de Chelly, Chaco Canyon and El Morro National Monuments this summer and on April 20th. a meeting was attended in Gallup to discuss plans for these tours and also an educational program of informing all hotel personnel, store clerks, filling station attendants, etc. about these areas, so that they can give the tourist correct information. Custodians McNeil and Guillet were present and a tentative schedule for talks and tours was made.

GENERAL: Three days of annual leave was taken on a trip to Santa Fe and two trips to Gallup were made for supplies. Current office work and Project Construction Program revisions have taken up the time when visitors were not around.

Number of Copies of free publications on hand as of the end of April, 1948.

2-fold Spanish edition----------3735

2-fold English edition----------549

16-page booklet----------7502

Bates E. Wilson,
Custodian.

GRAN QUIVIRA

GRAN QUIVIRA, NEW MEXICO

APRIL 25 48

MEMORANDUM for the Regional Director, Region Three.

The following is a report of activities at Gran Quivira for the month of April 1948.

General. April has been a dry month with considerable wind. Travel has picked up, but does not equal that of last year. This is probably due to inaccurate counts while the custodian was away from the area.

Weather Conditions. Dry and warm for the most part with some wind and drifting sand. A total of 0.54 inches of moisture was received during the report period. A maximum of 83° was recorded on April 18; a minimum of 25° on April 2.

Special Activities. On April 5,6,and 7 the Custodian went to Chaco Canyon to exchange the near-exhausted Ford coupe for a 1940 Chevrolet pickup. The Chevrolet is in excellent shape and our full appreciation goes to the McNeils for their hospitality and the 100% overhaul on the Chev.

April 8 to 11 were spent at White Sands assisting in Playday. A gala occasion and quite a contrast to the relative peace and quiet of Gran Quivira.

On April 21 in response to a telephone call from Mr. Davis, I joined Mr. Ratcliff at Encino and accompanied him to Big Bend on a fire call. It was the ideal fire, being under control when we arrived on the morning of the 22d. One day was spent at Big Bend, and I returned to Gran Quivira on the 24th. Contact work and general coordination of the repair and rehabilitation program was handled without a hitch by Mrs. Bowen while I was gone.

Repair and Rehabilitation. Repair was begun on the old custodian's residence on April 14 with four local men. Work has gone very well, but the money has gone faster. The mud chinking was removed and walls pointed inside and out with cement. Work is now progressing on redapping the walls preparatory to placing the plate to tie the roof to. Formerly the roof was held on with wire. Considerable wall had to be torn out and relaid which is time consuming to say the least.

No bids were received for roofing materials; however, I was able to obtain the entire order from the Harkey Lumber Co. at Carrizozo at a 10% discount.

It is hoped that funds can be found to put on the new roof and run a cement floor in all but the restroom section at this time. The restroom floor will have to wait until funds are available for the necessary plumbing connections.

An emergency wage was approved for hiring a plasterer to refinish the living room. Now the plasterer has reneged, and I am trying to locate another one.

Approaches to Monument Area. The Mountainair approach is in average shape, a bit rough but not too discouraging. The 8½ miles under construction is about ready for oil.

Sand has periodically closed Hiway 10 to Claunch. A sign routing people west and north was placed at Claunch on April 13 and has kept some visitors from getting stuck.

Interpretive Service. 36 parties totalling 128 people were guided through the ruins. Average trip time 42 minutes. A considerable part of this was done by Mrs. Bowen during the latter part of the report period.

Research and Observations. First rattlesnake on Easter Sunday, March 28. More since then. The cool weather still has them hunting their holes at night and staying close in the daytime. Ah! the mixed blessings of spring at Gran Quivira.

New bird records for the Monument this month:

Evening Grosbeak	March 26
Ladder-backed Woodpecker	March 27
Spurred Towhee	April 17

Increase or Decrease in Travel. A continued but lesser decrease this month. Since no one was here for 7 days of the report period, it is very possible that enough cars were missed to make up the deficit. A "sing" at the local church on April 4 brought 10 cars and 44 visitors for a "big" day.

	CARS	VISITORS
April 1948	57	174
April 1947	69	220
Decrease	12	46
Percent Decrease	17.39	20.91
This travel year	227	656
Last travel year	285	954
Decrease	58	298
Percent Decrease	20.35	31.24

Visitors. Dr. C. L. Sonnichsen, College of Mines, El Paso, Texas on March 27. Dr. Sonnichsen is gathering material for a book on this region.

Dale King and Mr. & Mrs. Allan Vetter on April 8. Plans for a future museum and interpretive program were discussed.

Ranger Paul Steel, White Sands on April 12. Mr. Steel picked up a stove for Arches which is to be delivered along with a trailer house in the future.

William L. Bowen,
Custodian.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
GREAT SAND DUNES NATIONAL MONUMENT
MOSCA, COLORADO.

April 26, 1948.

MEMORANDUM for the Regional Director,
Region Three.

There follows the report of activities in Great Sand Dunes National Monument for April, 1948.

WEATHER. Spring is trying to return to the San Luis Valley, but is having a hard time overcoming winter.

A minimum of 10 was registered on March 31. The maximum of 76 was reached on April 17.

Snow fell on March 30,31; April 11,12,23,24 and 25. Four inches of snow fell on the 25. Our 6th northeast storm occurred on March 31.

Showers fell on April 21 and 22. There were 11 clear days; 9 partly cloudy days; 11 cloudy days; and strong winds blew on 16 days.

The Medano is running very high and is covering the entire eastern side of the Sand Dunes. The water in the Rio Grande is also at a high level and there is still a threat of flood in the valley.

The Sangre de Cristo range is beautiful with a deep covering of snow. The farmers and ranchers are having great difficulty in planting their crops of potatoes and alfalfa, due to excessive amount of water in the fields.

A Taylor minimum-maximum thermometer was purchased by the custodian for his personal use in recording the weather variations at this area. For a long time correspondence has been carried on with the Denver Weather Bureau in an attempt to obtain a weather station, but this non-cooperating government agency does not believe we need a station here. It might surprise them to know we have had some interesting data recorded on a minimum thermometer bought from the Army Signal Corp.

TRAVEL. Five hundred twenty-one visitors in one hundred forty-five cars visited the Sand Dunes during this report period. Twelve states were represented. Two hundred twenty-six people took advantage of the picnic area. One written request was received for six leaflets.

INCREASE IN TRAVEL. With a change in the weather, travel suddenly spurted to a new high in comparison to last year's travel. For April, 1947, there were 107 cars and 382 visitors.

ROADS. The State graded the approach road on March 27 and April 24. However, due to the last snow storm on the 25, the road became badly rutted in the valley and several heavy trucks were stuck in the mud. Four miles of the approach road needs draining and graveling. There has been some talk of either the state or county doing this work this spring.

Talk has sprung up again about completing the road over Mosca Pass and oiling the approach road to the monument.

The monument road is in excellent condition to headquarters, but the road to the dunes and picnic area is in poor condition.

N.P.S. VISITOR. Architect Saunders was in on April 19, to inspect work started on installing the oil burning furnace.

ACTIVITIES. Usual routine duties of hauling water, fuel oil, gasoline, wood, ashes and garbage. Office matters were kept current.

TRIPS. A trip was made to the Saguache County Court House on land matters for the NPS-L-3 forms for this monument. Data was obtained on the legal description in deed book and page for the following: TWP 41 N, R.12E; T.26S, R.73W and T.25S, R73W of state land. Also data was obtained on land owned by G.L. Zeigler; J.W. Williams and G. White.

A further check was made on boundary lines with W. Williams who made a trip with me to the upper sand dunes, to check on the south boundary of Section 23. The land here is in poor condition due to the encroaching and shifting sands.

A trip was made to Monte Vista for information on the furnace and propane projects at headquarters.

Several trips were made to Alamosa for information on propane installation and the hauling of gasoline, supplies, mail and etc.

INSTALLATION OF FURNACE. Work was began on April 7 in the installing of the 120,000 BTU oil burning furnace. To date almost 80% of the work is completed. Register holes were chipped and chisled for a 16 inch register to the living room; 12 inch to kitchen; 10 inch in both bedrooms; 10 inch to dining room; and 8 inch to bathroom. Cold air ducts were also chisled. Much difficulity was encountered in this work by the thickness of the cement floors which ranged from 10-12 inches. The steel reinforcing rods were another headache and when exposed, were cut by a torch. It is hoped that another week of work will put the furnace into operation.

INSTALLATION OF PROPANE SYSTEM. The propane tanks, copper tubing, valves and other parts were installed and the Servel refrigerator was in operation at noon on April 27. This box will bring us much joy and save us money and also the government in cutting down trips to town for ice and supplies.

WATER SYSTEM. Another song of rejoicing on our part was the thawing of the water line on April 16. The mud and sand, mixed with some water flowed again in the residence. Both tanks were cleaned and the water should clear after more usage. It is hoped that this system can be placed in A-1 condition for next winter.

LIGHT PLANTS. Both plants have been in constant operation for the most part of this report period, to furnish light and power for electric tools needed for the installation of furnace and propane system. No. 2 plant is operated during the day and No. 1 at night. Weekly checkups are made and parts were obtained for the No. 1 plant which has a worn fan pulley and crankdog. This will be installed as soon as time permits. With increased usage of these plants, it was necessary to haul more gasoline since there is no storage facilities at this area.

ELECTRICAL SYSTEM. The system received much abuse due to increased usage and several wall receptacles were damaged. These were shorted and began burning which caused smoked spots on the wall finish. These will be replaced as soon as time permits.

PROJECTS FOR THE ENSUING MONTHS. Completion of the installing of furnace; repairs to light plants; repairs on electrical system; cleanup of basement and house after the furnace is installed; painting walls and floors throughout the residence; obtain revised wage board rates for this area; check all fire fighting equipment; check south boundary;

and repairs on the Dodge 4x2 which needs a master cylinder in order to have brakes and welding done on the tail-gate to hold it in place.

Visitor contect will be done on Sundays as in the past.

Ted C. Sowers,
Custodian.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Montezuma Castle National Monument
Camp Verde, Arizona

April 24, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly report for Montezuma Castle National Monument for the month of April, 1948.

Visitors this month to Castle and Well - 2482; this travel year to date, 10,777. Travel figures from Montezuma Well are incomplete since the employee there spent most of his time getting the quarters ready for occupancy.

Administration Visitor contact has taken most of our time with six to seven hours per day spent on this work. Week days usually bring 50 to 70 visitors and Sundays up to 200. Except on Sunday we offer no guided trip at noon and start the last one for the day at 4:00 P. M. With these restrictions and the limit of 9 visitors per party there are many visitors who are disappointed when they cannot climb into the Castle. Although we have had 5 per cent more visitors to the Castle than the 2003 counted last year, we have had 27 per cent less visitors through the ruins, because then we were offering guided trips at noon and 5:00 to 6:00 P. M.

Office administration and maintenance are being done on a "catch-as-catch-can" basis with employees contributing considerable time before and after hours and on days off.

Our quota of franked mailings was checked and it was discovered that through an error we had exceed the quota of 175 for 7 months by 9. Since that time this custodian has personally paid postage on all pieces of mail sent for three cents.

Bids have been circulated for re-roofing the custodian's residence.

Considerable effort has been spent in locating a candidate for our temporary ranger position. Trips were made to Cottonwood and to Flagstaff and correspondence has finally resulted in the recommendation of W. Wayne Boyle, student at the University of Arizona, Tucson.

Weather The weather has remained unusually cool with recent snow storms in Flagstaff and Prescott. The maximum was 92 degrees and the minimum 30 degrees on the 1st, 12th, and 24th.

Visitors There were 2107 visitors to Montezuma Castle and 375 to Montezuma Well. Cars counted at the Castle - 659; Montezuma Well - 115. Tickets sold at the Castle - 578; tax but no ticket - 36; children who climbed free - 63. We had to disappoint one middle-aged lady with a broken arm who wanted to climb into the Castle. She stated the arm had been broken three weeks and had not kept her from doing anything she wanted to yet but she was informed we could not let a handicapped person climb the ladders.

Contact Time Total contact hours - 193. Hastings - 100.50; Leding 92.50. No contact time was recorded at the Well. One hundred and sixty trips were made through the Castle for 677 visitors and 824 visitors saw the museum in 118 groups. Many visitors were uncounted and unattended in the museum. Five hundred and twenty-two visitors received information outside the ruins or museum.

Maintenance At Montezuma Well the contractor completed his work of remodeling the quarters and museum on March 31 and Archaeologist Schroeder spent most of the month completing work necessary to make the quarters habitable. He is expected to move there April 28 and 29. Connections for the gas range and water heater have been checked and these appliances vented. Difficulty was experienced with the new water pump due to damage from freezing and corrosion from non use for several months. The pump is still not functioning properly.

The modern irrigation ditch at Montezuma Well was cleaned out by the various water users on April 12 and 13.

At Montezuma Castle a new automatic water heater was installed in Residence No. 1. Work was completed in giving all our wooden signs a coat of raw linseed oil.

Newsworthy Visitors Dr. Gotty, Dept. of Anthropology, University of Arizona visited both Montezuma Castle and Montezuma Well.

The custodian spent about three hours on a day off with A. W. Jarrett, Information Specialist, Soil Conservation Service, Albuquerque who wanted pictures of the Castle and the Indians activities in the valley. He plans to tie this in with a project at Cottonwood to completely re-make a delapidated farm in one day to demonstrate conservation practices.

Unusual Activities Flood waters in Beaver Creek stranded Mrs. John Palmquist in a little shack across the creek on the old Davis property. Her husband is a veteran in the hospital and for more than a week we ferried mail and supplies across to her on a wire. This was done after hours and on days off or by the Custodian's family.

Research Paul Spangle and David Goodwin, students at Arizona State College, Flagstaff are continuing their project to collect horbarium specimens at Montezuma Well.

HOMER F. HASTINGS
CUSTODIAN

Homer F. Hastings,
Custodian.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

NAVAJO NATIONAL MONUMENT

TONALEA, ARIZONA

April 25, 1948

MEMORANDUM for the Director, Region Three

There follows a monthly report of activities in this area for the month of April 1948.

VISITORS: 22 visitors reached this area in six cars. Five parties totalling 18 people were guided on Sandal Trail to Betatakin Point. One party of 5 was shown Scaffold House from Segi Point using the telescope. One party to Betatakin and one to Scaffold House and a party of one was guided to Inscription House.

WEATHER: Maximum temperature 76 degrees on the 17th, minimum temperature 19 degrees on the 12th. Snow fell on the 11th and 23rd. A thunder storm occured on the 21st. Total precipitation for the month 0.23 inches. High winds on the 10th 21st and 22nd have made the country quite dry and dusty.

ROADS: The approach road is in better than average condition excepting 100 yards in Klethla Valley. This is impassable for inexperienced drivers. The windblown sand dune has moved directly across the road. Three lengths of drift fence are fighting a loosing battle. (See Co-operating Government Agencies). On April 6, Bob Black, Keith Shepard and I removed three lengths of drift fence from the West side of the Shonto and erected it on the West side of the approach road in Klethla Valley. While working in the Valley we were able to commandeer the USIS road grader to push the sand off the road. Some blow-sand and much dryness has rendered this stretch of road difficult. A sign stating "Shonto Road Is Better" was erected at the junction.

ROADSIDE DIRECTIONAL SIGNS: In addition to the above mentioned sign two new routed signs were placed on the Kayenta Road at the Shonto turn-off. All signs (11) not including Shonto or Headquarters were dyed and repainted. Two signs were moved to better locations.

The large two-post three-panel sign for the Rainbow Bridge turn off (6 miles East of Tonalea) is being painted and is almost ready for installation. Two additional signs are complete and ready for installation. The Headquarters signs are to be dyed and repainted this week.

RECEIVED APR 29 1948

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
NAVAJO NATIONAL MONUMENT
TONALEA, ARIZONA

COOPERATING AGENCIES: The USIS approved our plan to move the drift fence from Shonto (where it was holding no sand) to Klethla Valley. the services of Keith Shepard (Navajo) were furnished by USIS.

MAINTENANCE: Our leaking 950 gallon gas tank was excavated and the gasoline soaked soil seemed to be concentrated below the bottom man-hole. We stretched the excavation large enough to roll the tank a quarter turn and remove the cover plate from the man-hole. The gasket, asphaltum and asbestos, had permitted a capillary action and loss of gasoline. Where to get a gasoline-tight gasket presented us with a problem. We did not wish to rush to town simply to get gasket material and found the problem an interesting test of our ingenuity. Consulting the Book of Formulas we were intrigued by the Chinese Cement Formula. This starts out, " To 37½ parts of beaten Bullocks blood, etc.," We found it easier in the long run to get litharge and glycerine from the Hospital in Tuba City than to find a 'beaten bullock'. (anyway, Ida had asked me to please stop staring at her).

PERSONNEL: We had a nice visit here from former Custodian Bill Wilson on the seventh. Bill brought Kathryn, Sonia, and Lois Lee of Los Angeles.

MUSEUM & RESEARCH: To some interested visitors who wanted to learn about pottery I applied the Tom Sawyer whitewash technique and had them wash the Palmer collection. Demonstrating the method of restoring sherds to vessels I got three broken pots assembled. Some of these broken vessels are ample proof of the damage an amateur can do. Before the balance of the collection can be reassembled the edges must be cleaned of the assorted experimental cement failures. To date alcohol, gasoline, xylol, water and brushing has failed. We are going to try varnish remover.

MISCELLANEOUS: Word has just reached us that the USIS is bulldozing the sand dunes in Klethla Valley.

Late last month we made a four day reconnaisance trip gathering road information enroute to Mesa Verde National Park and Aztec National Monument. We gathered up a worthy load of material and equipment surplus to the needs of Aztec National Monument. Things seemed to be ticking off in fine shape at both of these areas and we were happy to see old friends.

Tomorrow we are making our first trip to Flagstaff since March 3, 1948.

Custodian

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

ORGAN PIPE CACTUS NATIONAL MONUMENT

Box 38, Ajo, Arizona

April 25, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of April, 1948.

WEATHER:

During the middle of the month it seemed that hotweather was upon us when the temperature reached 101 on the 18th but after a few days it cooled to our normal spring temperatures. The minimum for the month was 35 on the first of April. Several days of high winds led us to believe we might have some precipitation but no rain fell during the month. While several days were quite windy for this section and dust filled the air, we did not get the strong storms that have been reported around us. Zero visibility due to dust storms has stopped traffic on some highways for hours at a time and caused numerous accidents through Southern Arizona.

GENERAL:

Administratively the month has been routine with office and contact work keeping one man tied down.

The 4000-gallon tank was assembled and elevated to the platform and given a rust proof coat. It is now ready to be hooked in to our water system.

Three members of the Sierra Club of Southern California, accompanied by Ranger Bean, climbed Montezuma Peak on April 5, and then on April 6 climbed Diaz and Santa Rosa Peaks. They had hoped to get first ascents on these three but a tobacco can was found on Montezuma and a survey station on Santa Rosa; however, Diaz apparently was a first ascent. Register sheets were placed in aluminum tubes on the peaks.

Ranger Bean is spending a week at Saguaro National Monument to assist new personnel in office routine.

Mr. and Mrs. John Sperry and Dr. and Mrs. Melander have been spending their vacations on the monument working moths and flies for the Organ Pipe collection.

RECEIVED
MAY 3 1948

Organ Pipe Cactus National Monument

TRAVEL:

Travel has remained steady with desert flowers bringing a great many people to the area to see the desert in bloom. While annuals have been disappointing, cactus and ocotillo are very good. The campground has continued to be well used during the entire month.

VISITORS:

Visitors to the area include Lon Garrison, John Coon, James Clancy, and John McKee, of Grand Canyon National Park, who camped overnight on their return from a Gulf fishing trip.

Pima County Engineer George Grove paid a visit to the area.

PUBLICITY:

Phelps Dodge Corporation is backing a publicity film of Arizona including its industries and scenic attractions. It is being produced by Atlas Film Company under the direction of Mr. Ward who has his staff on the monument now making his Organ Pipe shots for inclusion in the reel.

COMMUNITY DEVELOPMENT:

While not directly affecting Organ Pipe, new developments are taking place in Ajo which will be a contributing factor for greater use of this area. The Phelps Dodge Corporation has under construction about 200 houses in Ajo and announced this month that five million dollars has been allotted to Ajo for a smelter. A great many improvements are being made by the P.D. Corporation in the New Cornelia mine and it is stated by them that 11 million dollars will be spent in Ajo within the year. This of course will make many modern improvements and considerable increase in population and activities in the vicinity. It will probably bring about the completion of the Tucson-Ajo Highway at an earlier date than would otherwise be expected. There is also a proposal of a Highway from Douglas to Yuma along the International Boundary, passing through Nogales, Sells and Ajo.

William R. Supernaugh,
Custodian.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

SAGUARO NATIONAL MONUMENT
Tucson, Arizona

April 26, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly narrative report of activities at Saguaro National Monument for the month of April, 1948.

Weather

The weather has been pleasant for the most part with a high temperature of 98 degrees registered on April 16. It was reassuring however, to learn that this phenomena was unusual at such an early date. Then on Friday, April 23 a wind storm of considerable velocity blew several tons (estimated) of gravel and sand past the headquarters area, to be deposited in the general direction of the Catalina Mountains.

Special Activities

The custodian made several trips through the Saguaro Forest and elsewhere over the monument to become acquainted with the terrain.

Inspections

Assistant Regional Director John Davis and Land Planner John Kell were at Saguaro over the period April 22 and 23. Mr. Davis went over fiscal and improvement matters and discussed the coming fire season with the custodian. Mr. Kell investigated the status of private lands contained within the boundaries of Saguaro National Monument.

Maintenance

The trail crew has completed repair work on the lower portion of the Madrona - Grass Shack Trail and have located a new base camp below Grass Shack. This should make for more economical operation.

All mules were brought in from the X9 pasture and shod; six are being retained for the pack string based at Madrona Ranger Station and four put in the mountain pasture.

The directional sign (Saguaro) at the Broadway intersection has been repainted and an arrow added. This will assist prospective visitors to the monument considerably.

Saguaro National Monument

Repairs are being made on the headquarters telephone; the hook-switch was faulty and is being replaced. In addition, representatives of the Mountain States Telephone and Telegraph Company have effected necessary repairs on the various hook-up schemes leading into Madrona Ranger Station. There was a heavy ground on the line at that point, due to improperly installed switches. With this improvement , there should be no further difficulty.

The small air cooled engine used to pump water at Madrona Ranger Station was taken to the Park Service Shop at Casa Grande for repairs. It is operating in a satisfactory manner once more.

The contract for repair operations on the various monument buildings was awarded to the Tucson Roofing and Supply Company. It is anticipated that they will commence operations in the near future as the starting date of the contract is April 26.

Travel and Interpretive Service

A total of 2110 persons visited Saguaro during the month. Forty one states were represented and Canada. This is a decrease of 1219 persons or approximately 37% less than last month. Travel figures disclose an increase of 328 persons or 18% over the corresponding month of 1947.

The contact station has been in operation throughout the month and keen interest is shown by visitors in the arboretum and multiplex photograph display. A total of 1119 persons in 345 parties were given interpretive service at headquarters. This amounted to 100½ hours for an average of 17 minutes per party.

Forest Protection

Park Ranger Wilde and Maintenanceman Ollie Barney are beginning repairs on the Madrona Ranger Station - Mica Mountain phone line as of this date.

A temporary fire plan is being formulated for interim use until Regional Forester Carlson can visit the area to make revisions. The custodian expects to appraise the physical aspects of fire protection on the forested area as quickly as possible.

It is contemplated to man the Mica Mountain Lookout Tower on May 1 as previously planned. The lookout will be on duty 7 days per week throughout May.

Visitors

Noteworthy visitors to Saguaro during April were: Mrs. Inez Townsley, wife of the late F. S. Townsley, Chief Ranger, Yosemite National Park for many years; Ranger Merritt Johnson and wife, Yellowstone National Park; Dr. and Mrs. Alfred O. Gross, visiting Saguaro in connection with bird

studies; Dr. W. Taylor Marshall, Curator, Papago State Park Cactus Gardens, Tempe, Arizona; and Mr. and Mrs. H. T. Roberts, Denver, Colorado, working on bird book in collaboration with Clyde Fisher.

Lands

A "for sale" sign has been erected on the land immediately north of headquarters and facing the road. The information reads: 320 acres for sale, $35.00 per acre, R. E. Dunn, c/o Arizona Trust Company, Tucson, Arizona.

Personnel

Ranger Glen Bean was assigned to duty at Saguaro for a week to assist the custodian with general office procedure. Glen has imparted a wealth of information and brought us up to date on fiscal matters. He will be welcomed at any future date.

Ranger Marvin Frost, Sr. took annual leave April 22 and 23 to accompany his son to Los Angeles during the latter's illness.

The newly appointed custodian has found the assignment to Saguaro a most unique and interesting experience and from all indications it will continue to be a source of mental and physical stimulus.

Both Mrs. King and myself are looking forward to becoming acquainted with the southwest and especially the Service areas.

Wildlife

Marvin Frost, Sr. observed a golden eagle feeding on the remains of a jack rabbit about 2 miles south of Madrona Ranger Station, observation date April 20, 1948.

On April 21, Mr. Frost observed a male and female rattlesnake in the act of mating. This is an accurate indication of the mating season.

The first white wing dove was observed on April 14, 1948.

Gambel quail are numerous in the Saguaro Forest and the general vicinity around headquarters.

Sunset Crater National Monument

Flagstaff, Arizona

April 28, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of the activities of Sunset Crater National Monument for the month of April, 1948.

Visitors this month: 1302 Travel Year to date: 5344

Travel: Visitation on the basis of actual registration indicates a decrease of 16% for the same period a year ago, with 521 persons registered compared to 627 for April of last year. Travel year to date shows an increase over last year this time of 40%. A number of visitors have been traveling over the connecting road to Wupatki.

Weather: April is its usual windy month, with few showers. The snow has all melted except for an occasional protected spot.

Roads: The entrance and approach road from Highway 89 is in fair condition. However the continued dry weather with average travel for this time of the year is causing the road to become more rough with many chuck holes. The first week of the month several man days were spent repairing the road through the monument and the connecting road to Wupatki, hauling 54 yards of clay and coarse cinder and filling the worst places. Considerable use is being given the back road, with most of the traffic going from Sunset to Wupatki. The deep cinder is rapidly becoming dry and soft.

General: More information concerning the Rural Electrification Development indicates that the power will be brought even closer to Sunset than was at first anticipated. It is understood that the plan is for the electric power to be brought down to the S. I. Richardson place, which lies in Bonita Park, approximately two miles from the present western boundary. It is also contemplated that a new telephone line will be constructed from Flagstaff out along Highway 89. This will also come down to the Richardson place, thus providing both electricity and telephone within a relatively short distance of the Monument.

On the 26th a house trailer arrived at Sunset Crater. This will provide much more satisfactory and comfortable temporary housing for the personnel. A location was chosen on the west side of the Monument. It will provide greater protection and also will give a shorter approach to Highway 89 over a road relatively free from the deep cinder.

Robert F. Upton
Ranger-in-Charge

Tonto National Monument
Roosevelt, Ariz.

April 26, 1948.

MEMORANDUM for the Regional Director, Region Three.

Following is a report of activities at Tonto National Monument for April, 1948.

Weather. Most of the month has been hot and dry. Temperatures on 3 consecutive days managed to reach the 95 mark, and there were a number of days when the temperature passed 90. Clouds were a rarity, and the hot sun made short work of the annual flowers so that we had a poor display this year. We had our only rain of the month, a very light sprinkle, the afternoon of the 23rd.

Approaches to monument. The Apache Trail is a little rough. The long dry spell has made it difficult for the graders to accomplish much on the hard corrugations.

Interpretive Service.m Visitor contact and interpretation took a little less time this month then last as the travel fall off with the coming of the hot weather. Of the 2174 visitors to Tonto this month only 739 made the climb to the Lower Ruin. No trips were made to the Upper Ruin, and that ruin still remains closed to visitors unaccompanied by a Ranger.

Travel. 2174 persons in 595 vehicles visited Tonto this month. This compares with 1912 persons for the months a year ago. The travel has been very heavy on Sundays and seems to be due to the new Arizonians getting out to see the sights.

Roads and Trails. On April 5, Raymond Frazier and Vestus Roberson entered on duty as the trail crew. They have made a remarkable showing in the short time they have worked. The entrance road has been partially regravelled, the ditches cleaned out, "tire busters" removed, and the most of the mile long road has been raked to remove the coarser gravel. The ruins trail has been reconditioned from the top to the half way point; water breaks have been rebuilt, ditches cleaned out, narrow places widened, and the protruding rocks covered with a new dirt surface. Mention must also be made of the work, amounting to the better part of a working day, done by the State grader-man, Ab Sanders, in cleaning out the ditches and grading the entrance road.

Special Activities. On Sunday, April 11, the Custodian accompanied the Dons Club of Phoenix on a trip to visit a very interesting group of Salado ruins located in the Mazatzal Mts.

Special Activities (contd). The Forest Service sponsored the trip and we cooperated by furnishing our truck and all the archaeological interpretation that we were able. This affair has been covered in a special report to the Director.

Complaints. A stuffy, short-tempered visitor, a W. F.Langton, who introduced and described himself as a very important "press photograher" protested in rather uncouth language when the Ranger refused to drop everything on a busy Sunday afternoon and take him on a specially conducted trip to the Upper Ruins.

Wildlife. One large rattlesnake was killed in front of the Custodian's house. Several Gila monsters have been seen around the houses but have been allowed to go about their business unmolested.

The most interesting sight this month related to the wildlife was the very odd antics employed by a raven in coming after a fruit cake set out for him by the Ranger. The raven spent a full 1½ hours working his way up to the cake, testing everything on his way to make sure that there was no trap. He completely cleared the ground ahead of him, pulling out the grass, throwing aside stones, and spading the ground with his beak. When he finally reached the cake, he cautiously jerked it back onto the cleared area. When nothing happened he tried it again. Not until then did he attempt to take it in his claws and fly away. The entire performance was a most remarkable display of caution and intellect.

A pair of Palmer Thrashers have utilized an old Cactus Wren nest in a cholla alongside the ruin trail. The two blue eggs have hatched into a couple of very hungry babies that keep the parents on the jump.

We are having the usual trouble with people killing the little harmless snakes. So far, two have been found dead along the trail. The idea is ridiculous.

General. Two trips were made into town this month for gasoline and butane.

A NO FIRES sign was installed at the bridge with the hope of preventing a fire in the upper part of the canyon. With the dry conditions and high winds a fire would burn up the canyon before we could raise a hand to stop it.

Rancher Lyal has finished moving the drift fence on the east side of the monument back to the old location. He did most of the work, but we helped whenever we could find the time.

While travel was down this month from last, nearly as much time was spent in contact as before. As much time is taken in conducting a party of 2 thru the ruins as with a party of 20. The travel comes just steady enough to prevent any serious work on needed maintenance.

Charles C. Sharp
Custodian

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Tumacacori National Monument
Tumacacori, Arizona

April 26, 1948.

MEMORANDUM for the Regional Director,
Region Three.

Follows the monthly narrative report for Tumacacori National Monument for the month of April, 1948:

WEATHER CONDITIONS: Extremely dry, with only .01 precipitation. Temperature ranged from a low of 31 on March 27 to 99 on April 16th. April 13th brought an unusually late freeze, at 32 degrees. Range conditions are rapidly deteriorating. Much high wind, and two bad dust storms hit us during the month.

MAINTENANCE: The trail to the mission church was given a coat of pea gravel and rolled. Ground adjoining the northeast side of the museum was graded and trail improved. Holes in the road to the residences were filled with gravel and dirt. The patio garden fish pond was given its annual cleaning out. The safe was moved from the shop up a flight of stairs, across the museum building, and into the office. An excellent incinerator, of adobe, cement capping, pipe grate with removable center bars, was built in the utility area, and reduces fire hazard and objectionable smells. Spring planting was continued in the Patio garden, with one sizable patch of genuine Papago corn planted and well up. Oleanders, which suffered badly from the winter cold, were pruned drastically, and we are now struggling to decide whether the grubs, which have root-cut and killed several shrubs, are to take over the garden, or whether we will continue. We are hard at it, and expect to win a decision.

INTERPRETIVE SERVICE: 1521 visitors went on 201 guided trips through the mission church and grounds, receiving an average of 37.53 minutes per trip. 2395 persons saw the museum, and the same number received combined Information and Interpretation Service.

INCREASE OR DECREASE IN TRAVEL: 2,480 visitors came to the monument this month, compared with 2,080 for April of last year. This figure has been twice exceeded, first by April of 1938 with 2,571 visitors, and by April of 1939, with 4,850 visitors (this last was the month the museum was dedicated).

VISITORS: March 25 - District Ranger and Mrs. Hank Schmidt, of Sequoia National Park.

March 25 - A group of 37 persons from San Jose, California, sponsored by a Jesuit activity.

April 3 - 37 student fliers from Williams Field, Phoenix.

PUBLICITY: April 13 - William F. Langton and Geraldine Hamilton, taking educational movies for the state of Utah.

MAJOR REPAIR AND REHABILITATION: Tucson Roofing and Supply Company finished a contract job here with installation of a 4" high ramp at our museum entrance. This will prevent driving rains from sending pools of water into the museum lobby. (If and when we get rains again).

ROADS: Regional Highway Engineer Sam Hendricks arrived on April 19 to seal coat our badly weathered and pitted parking area and entrance roads. With a crew of four men and rented and borrowed equipment the job was completed on April 25. It looks as though a good workmanlike job has been done.

STABILIZATION OF MISSION CHURCH AND ADJOINING STRUCTURES: On April 15th the stabilization work which was discontinued in November of last year was resumed. The work this month has been on the mortuary chapel, and only one man has been used so far, for a total of 56 man hours this month. We are having to do extremely careful work, removing the inadequate temporary cement-stabilized mud which covered weathered surfaces, and bracing many sections of original plaster which are so ready to fall off that they move under the slightest hand pressure. The weakest sections of old plaster have now been stabilized with this large-scale "dental work" of filling cavities and binding edges. Am putting on another man now, and work on the chapel should go right along.

SOUTHWESTERN MONUMENTS ASSOCIATION: A very ornate and handsome display case for publications was received, stained, and installed in the corner of the lobby. This fits very well with the period furniture already here, and is a credit to the Association.

EXTRA-CURRICULAR: The custodian has almost dislocated an arm patting himself on the back. He gave a couple of evening talks on First Aid to our local and very new Boy Scout troop. The boys then attended a Camporee in Nogales, and stole all the First Aid demonstration honors from the much older and more experienced troops in Nogales!

GENERAL: We have been BUSY. That should be underlined twice. And every time we stick our heads up for air, the mail brings some more government reports to fill out. The monument seems to be ticking along in good order.

Earl Jackson,
Custodian

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

TUZIGOOT NATIONAL MONUMENT

CLARKDALE, ARIZONA

APRIL 25, 1948

MEMORANDUM for the Regional Director, Region Three.

Following is the monthly narrative report for Tuzigoot National Monument for April, 1948.

Travel Data: More people are travelling on the nation's highways than ever before, and the 1727 visitors at Tuzigoot for April exceeded both previous April highs--1296 in 1947 and 896 in 1946. Extremely high winds toward the latter part of the month, which in some sections of the state neared hurricane proportions, greatly inconvenienced visitors due to dense clouds of dust which blew from the smelter tailings pond directly onto the Monument.

Guide and Contact Service: Museum, ruins and orientation contacts totaled 3041 for the month. 1531 people in 507 parties were given an orientation lecture in the museum, and 1494 people in 490 parties were conducted through the ruins. The average time spent by each party in the museum was 21.9 minutes, while the conducted tour required 21.1 minutes per party. Because of a severe back injury incurred while digging a ditch across the Monument approach road for the water line, Custodian Bright is presently on sick leave. Two days were spent by the Acting Custodian repairing leaks in the old pipeline. Our thanks goes to Mrs. Bright, who, with some assistance by Mrs. Richert, assumed a good share of the burden of keeping the museum open and answering questions 8-10 hours a day.

Personnel Time: Museum: 185 hours 25 minutes. Ruins: 172 hours 45 minutes. Total time for Custodian (and Mrs.) Bright: 175 hours 40 minutes. Total time for Archeologist Richert: 162 hours 30 minutes.

NPS Visitor: On April 4, Miss O'Neil from the Region Three Office visited Tuzigoot accompanied by her sister and brother-in-law from Sedona.

Maintenance and Administration: 16½ feet of sewer pipe were installed by Custodian Bright on his lieu days to replace a corresponding section of the sewer line leading from the museum to the septic tank which had broken and clogged due to root growth.

The Verde Hardware Co. has now supplied the Monument with all but four 21 foot sections of water line out of an original order of 1200 feet contracted for nearly two years ago. Custodian Bright again contributed of his lieu day's time to help with the two-man job of digging a ditch across the county road and coupling the pipe. Since traffic had to be detoured around the the project it was decided to do the job in one day, working from early until late. While engaged in digging through the packed gravel road surface which is as hard as asphalt, Custodian Bright suffered a torn muscle or ligament in

Monthly report for Tuzigoot, page 2.

his back. He has since been under the treatment of the Phelps Dodge Company physician. A detailed report of injury is being forwarded your office separately.

Besides handling over 1700 visitors and experiencing all the grief with the water line, it was found possible to complete the following jobs:

1) Oil the large entrance door to the museum including lintels and casement.
2) Re-letter and oil the Monument's "No Cat and Dog" sign.
3) Paint and re-letter a Tuzigoot directional marker on US Highway 89A at Clarkdale.

Items of Local Interest: The economy of this community has apparently received a new lease on life. According to a special press release, Mr. Robert G. Page, President of the Phelps Dodge Corporation, on April 22 told the public lands sub-committee investigating U.S. metal supplies that mining operations at Jerome, on the basis of present operating and price conditions, will continue two years instead of one as previously announced. In the same testimony he declared that Jerome's output could be boosted 5,000,000 pounds a year by treatment of some low grade ore at a copper price of around 30¢ a pound. (The smelter at Clarkdale processes all ore mined at Jerome.) Page's announcement extending the life of Jerome another year was the second time the mine's life had been extended by the Company. Originally it was scheduled to close down last year.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Walnut Canyon ~~National Monument~~ NATIONAL MONUMENT,
Flagstaff, Arizona.

April 27, 1948.

MEMORANDUM for the Regional Director, Region Three. 19

There follows a report of activities in Walnut Canyon National Monument for April, 1948:

Weather. We had many days of heavy wind and a few with enough snow to whiten the ground.

Visitors. We had over a hundred visitors per day when we had good weather, less than thirty per day on some of our stormy days. Of the 1,821 total, 1,477 were contacted, and it is estimated that 1,380 made the ruins trip unattended. There were 86 picnic parties with 122 people.

Naturalist Dodge brought John Z. Doerr in for a very brief inspection of the museum building. Several of the "boys" stopped for a few moments on their way to or from the fire school at Grand Canyon.

Activities. Ranger Anbuehon worked four days at Walnut, attended the fire school at Grand Canyon, kept time for two days on a USFS fire near Sunset Crater and has been on leave the remainder of the month.

The Custodian returned to duty from annual leave April 1, and has been trying to keep the routine chores current since. The meter at the head of Walnut's water line was cleaned when the water line failed. Several contractors were contacted about bidding on our rehabilitation of Admin. Bldg. job. A lot of visitors were contacted at the "Point" when I would rather have been writing to Region about the PCP.

APRIL TRAVEL 1943
Visitors 13,845 Cars 3005

1943 TRAVEL YEAR TO DATE
Visitors 45,710 Cars 11,956

Winds, dust, rain, cold, heat, and lots of people enter into a record breaking April at White Sands. The Easter Service and Play Day both contribute to our total although neither event this year was a record. Our weather went as low as 17 and as high as 94 for the month with little rain mostly only traces. The new picnic area was officially opened this month upon the abandonment of the one used for the past several years. We opened it on an Easter Sunday and it turned out to be a beautiful day with over two thousand people and our new seventeen table area proved the first day to be to small for the use that we may expect of it. Last Sunday we ran throughout the entire day over a thousand and again the area was too small.

As stated in my last months report, I made arrangements to borrow a bulldozer from the Army at the White Sands Proving Grounds and had hopes of getting it prior to Play Day to widen the road all possible for the occasion and we do not have it yet. Likely the winds that have caused us so much trouble are doing likewise to our neighbors. Ranger Steel is away on an assignment in moving some trailer houses to a few of the region areas. This leaves us very short handed and we just let a few things go that he would have done had he been here. Just the loss of one of my men for a few days really shows up in the odd jobs that I never realize they accomplish from day to day. This applies to all of the boys not just any one. I am the only one that can be gone for any length of time and the area not suffer from the absence.

The Easter Service was attended by a little less than four hundred and it was cold , but the balance of the day made up for it and by night we had run over twenty two hundred. Play Day of course was the big event of the month with almost five thousand people. This is not a record but again the winds spoiled the afternoon and many people doubtless would have attended that failed to show up. We were favored this year by a Play Day visit from Mr and Mrs Tillotson, Mr and Mrs Patrew and their family, and Mr and Mrs Charles Watson of Santa Fe. Custodian and Mrs Bowen of Gran Quivera were on hand also and did yeomans service in assisting with the crowds. This is the first time that I can remember Play Day being favored by a visit from one of our Members of the Congress.

Mrs Georgia Lusk attended and gave a brief talk on the day and its potential possibilities. She has for some time been very interested in the event and this year requested that we supply her with information covering the Day. Mr. Tillotson authorized me to supply her office with this information and I wrote a brief letter covering the material she requested. I hope that the Regional Office group will not judge your appreciation of their visit but the attention we gave them. I did not even get to tell Mr and Mrs Patrow goodbye and it seems that I did not get to spend near the time with any of them that I had hoped to. They will have to come back some day other than Play Day and allow us to put out a little of the hospitality that we try to show all of our visitors.

The area has been flooded with photographers. Mr Krouse working on a travel picture was down early for Play Day and several of his pictures appeared in the local papers (El Paso and Alamogordo). Philippe Halsman and his wife from Life magazine were in for two pictures of White Sands to appear in an article to be released later. He took twenty I bet and then complained because the sun insisted on setting leaving him with little light. He expressed a hope that he might be assigned to feature the White Sands similar to the one recently given the Grand Canyon National Park. Numerous other photographers were in including one from the newly organized Las Cruces Tourist Bureau. Dozens of requests are received for information on the sands and I am trying to answer all that I can under postage.

High winds have kept Joe virtually buried in his road. By constant effort we are able to keep a one way road through the dunes, but if for any reason we would be forced to miss a day or two the road would be blocked. I have been wondering all month just how much longer my men and equipment can take the strain. As I mentioned last Sunday we ran over a thousand visitors and the day was quite windy. With crowds of that size we can not give even fair service with our personnel no larger than it is.

The concession shared the same experience that we have in not being able to properly serve all the people as we would like but no complaints were recorded of any nature. For this we are thankful.

But instead of crying over a situation we know you are well aware and are doing all possible to relaive it, I shall conserve my effort and do what I can for the seven or eight thousand that we are expecting next month.

No accidents of any kind were reported for the month of April.

Johnnie Faris
Custodian.

Wupatki National Monument

Flagstaff, Arizona

April 28, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Wupatki National Monument for the month of April, 1948.

Visitors this month: 376 Travel Year to date: 1745

Weather: April brought few showers but lots of wind. Total precipatation of .13 inches was recorded. Winds with accompanying dust storms have been the rule. What moisture there was is rapidly disappearing.

Roads: The entrance road, in fair condition until now, is rapidly drying out and blowing away, leaving the usual heavy corduroy. The deep cinder has become very dry, but in spite of this numerous cars are entering via the Sunset road. During the early part of the month, several days were spent hauling cinder and clay into some of the worst places on the connecting road between Wupatki and Sunset.

Travel: Visitation for April was slightly below that recorded for the same month a year ago. The travel year continues to show an increase over last season of 22%.

Grazing: Practically all of the CO Bar cattle were taken out early in the month. Kirby has discontinued hauling water from Heiser and will be moving his stock out of the Coconino Forest, adjoining our south and west boundaries, in a few days. Joe Kellam has moved his cattle to the summer range, so that we are no longer bothered with trespass stock.

Spring Flow: Wupatki Spring shows a decrease with 1028 gallons per day, compared to 1122 gallons recorded for March. Heiser Spring, on the other hand, had a slight increase of 94 gallons per day over that of last month, which recorded 1216 gallons per day.

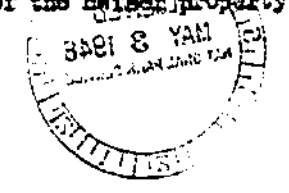
Spring Development: The spring at Heiser was given some badly needed attention the early portion of the month. Free man power was recruited from Emmett Kellam, Kirby and his hired man and numerous neighboring Navajos, all users of the spring. Emmett also contributed a supply of groceries for the noon lunches of the Navajos that worked. The spring was cleaned out, rocked up on the sides and a concrete cover poured. The pipe leading from the spring to the concrete catchment tank was removed and a new pipe installed. The old pipe had almost completely corroded full of scale, so that only a small stream of water could pass through. The remainder was flowing over the old dirt wall and escaping. A new wire fence was erected around the spring, so that straying

stock could not contaminate the water.

Special Activities: The Custodian and Joe Bean attended the Coconino Fire School, which was held during the first week of the month. There was a departure from the usual routine, with more general discussion and less detailed study of fire plans. Greater concentration was given to the organization for large fires and demonstrations of various types of equipment.

Dr. Colton and Miss Katherine Bartlett, of the Museum of Northern Arizona, visited Wupatki on the 22nd and investigated sites in Black Hawk Valley and Crack-in-the-rock areas, to select locations for excavation this summer. Early Pueblo III sites were considered and particularly those Anasazi sites having kivas. They would also like to investigate possible kivas near Crack-in-the-rock. Application for permit will be made shortly.

Ranger Upton made a trip to Tuba City on the 17th, taking Rex Lee, one of the local Navajo children to the hospital.



Cooperative Services: An old burn on O'Leary broke out again on the 22nd. High winds from the south and west for several days, caused particular concern and constituted a definite threat to Wupatki. Had the wind changed it would also have threatened Sunset Crater, which was only a mile or so away. Custodian Jones and Joe Bean with several Navajos joined suppression crews during the high fire danger period.

NPS Visitors: Edward S. Zimmer, Chief, Major Roads Division, Director's Office and Charles D. Carter, Landscape Architect of the Regional Office, stopped for a short time at Wupatki on the 28th, while making an inspection of roads. Custodian F. W. Binnewies and Ranger Aubuchon visited Wupatki on their return from the Fire School at Grand Canyon. Paul Steele, Ranger at White Sands, brought in two house trailers from Bandelier. We were both glad to see Paul and also the house trailers.

Other Visitors: Dr. P. F. Van Doesralt, Mrs. E. Soythouwer, Miss F. Tollenaar, Mr. H. W. E. Croockewit and Dr. C. F. Van Oordt of the Netherlands were here on the 18th. The party, bearing a letter of introduction from the Director, were making a study of the American National Parks.

Publicity: A well written article entitled "Boom Town", featuring Wupatki, written by a former Ranger Harrington, appeared in the May issue of the 'Ford Times'.

General: The outer walls of the Custodian's residence were repaired, plastering those spots where the stucco had fallen off. A new roof of slate paper was placed on the warehouse at Heiser. Two trailers arrived the latter part of the month, one to be used at Wupatki and the other at Sunset Crater. Upton made a trip to Zion Park on the 12th and brought back surplus equipment. A five year lease of the Heiser property was received the early part of the month.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

RECEIVED
MAY 3 1948
NATIONAL PARK CENTRAL

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Motel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

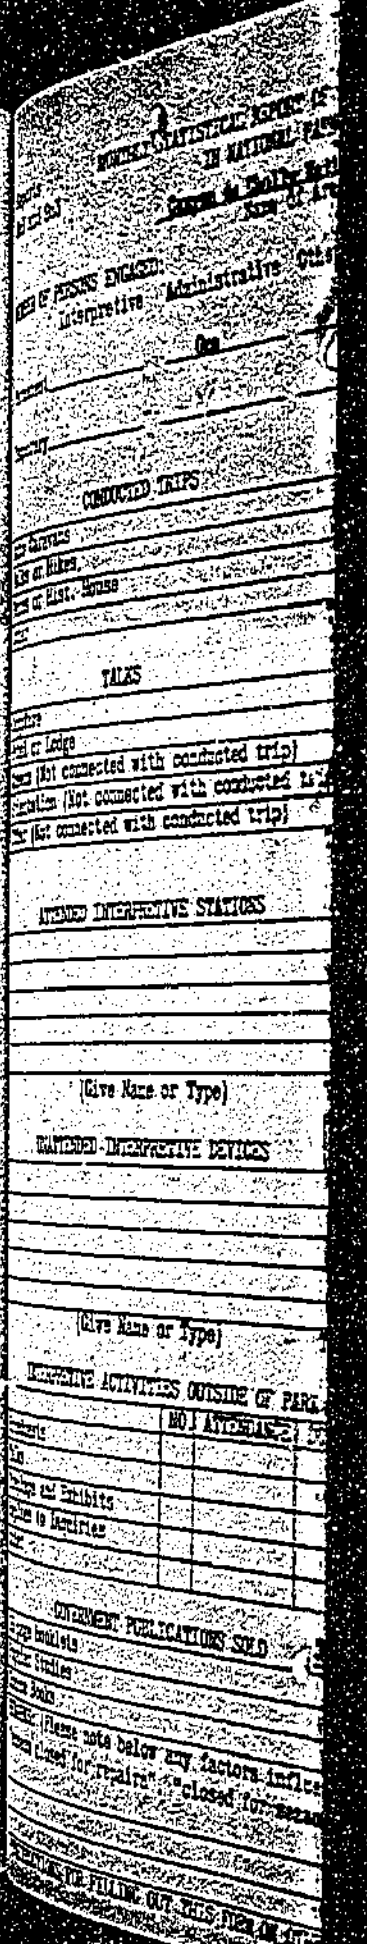
UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.



COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.). count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

[illegible] of interpretive services furnished visitors within the area is provided for in the lower right-hand [illegible]. Attendance shows the actual number of visitors who took advantage of the various interpretive services [illegible]. Each visitor may use several different interpretive devices, this attendance may record a total considerably [illegible] of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as Attended Interpretive Stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

This Report Due: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 5th of the month following that covered by the report.

TITLE Custodian.

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME _____

TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

~~The Montezuma Well Trail was not in use this month, because guide leaflets ordered~~ March 4, 1948 have not been received.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as Attended Interpretive Stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

This report due: from all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in the Regional Director's office not later than the 10th of the month following that covered by the report.

TITLE **Acting Custodian**

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.
Approach road closed due to snow.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

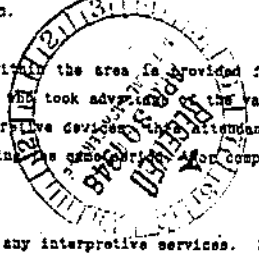
TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM



COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, the attendance may record a total considerably in excess of the visitors registered in the area during the month. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

NAME

TITLE J.W. Brewer, jr.
Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as Attended Interpretive Stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, motel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained in the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 5th of the month following that covered by the report.

TITLE Ranger-in-Charge

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

No personnel in residence during the month.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance will be considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

RECEIVED MAY 3 1946 NATIONAL PARK SERVICE

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME Robert P. Upton

TITLE Acting Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit roces, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, the attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

RECEIVED
MAY 3 1948
NATIONAL PARK SERVICE

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol: 15, Chapters 8 (Report 8m3) and 9 (Report 983).

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Region Three
Santa Fe, New Mexico

June 3, 1948.

MEMORANDUM for the Regional Director, Region Three.

Following is the narrative report for the Naturalists of the Southwestern National Monuments for the month of May 1948:

Staff Activities - General

Naturalist Dale S. King was in the office for the entire month.

Archeologist Charlie R. Steen was in the office except for 5 days spent at Gran Quivira.

Interpretive Administration

Field men were circularized to determine how many needed English two-fold leaflets which are available in the Director's Office.

Public Relations and Extension Services

A letter of introduction to Southwestern National Monuments field men was furnished to Miss Bertha Dutton, Curator of Ethnology at the Museum of New Mexico. Miss Dutton traveled through several of the areas to make preliminary arrangements for a field trip which will be organized to reward outstanding Girl Scouts of the Region for their accomplishments during the year. This plan was inaugurated last year and was very successful.

King spent considerable time as publicity chairman for the annual Boy Scout Plaza Jamboree which was held in Santa Fe May 15. Results were only mediocre, for the event conflicted with the world premier of a motion picture which managed to monopolize most newspaper space.

Progress of Exhibit Plans and Projects

Steen spent 5 days at Gran Quivira working with Custodian Bowen on repair and rehabilitation of an old building which will serve as a stop-gap office and exhibit room.

Label copy for the Native Government case at Bandelier was received from the monument, edited, and forwarded to Washington for printing.

Museum Preparator Pablita Hardin finished the paintings for the Seasonal Ceremonies case at Bandelier, and these were photographed in Kodachrome.

On Monday, May 31, King replaced bulbs in 4 museum cases at Bandelier.

Research and Observations

Some correspondence was had with Student Jack Turney of Adams State College of Alamosa, Colorado. Mr. Turney has completed his master's thesis which is a study of excavated material from Bandelier National Monument, and arrangements were made to duplicate the thesis for the monument and regional libraries.

King accomplished only one half day of additional research of the Nalakihu excavation report, although Steen was able to check and correct the final draft for the survey report which will appear as an appendix.

Region Three Office Loan Library

Accessions for the month totalled 48, consisting of 2 books, 28 pamphlets, and 18 periodicals.

Southwestern Monuments Association

The first major mailing of the Association was mostly accomplished during the month, a project which practically monopolized the time of Naturalist King and the Association employees.

Treasurer Vedder worked 19 days, mostly on the problems involved in the mailing, such as supervision of stuffing envelopes, wrapping packages, and making arrangements with the Post Office. A total of 5,117 envelopes were taken to the Post Office on May 14, and a second batch of 4,588 on May 20. The first three replies arrived May 20, and since then much time has been spent in filling orders.

He made on disbursement and two deposits, and mailed 187 covers, not counting the large mailing broadside, but including 28 letters and 98 purchase orders.

Barbara Vedder worked 112 hours and was in the office 17 days. She spent 3 days at the addressing machine, and 2 days were spent in stuffing envelopes. The rest of the time she spent filing and putting the files and stencils in order. The last few days of the month were spent in taking care of incoming orders and wrapping packages, as well as processing business reply cards.

A numbering machine and a stencil file cabinet with 35 stencil file drawers was received during the month, and the latter was rehabilitated and placed in operation. One of the major processes was complete refilling of stencils by geographic location.

Arrangements were made with other Associations at Zion, Rocky Mountain, and Grand Canyon, to stock their publications which are listed on our list, and are being ordered rather extensively.

Photography and Visual Aides

A total of 51 excellent kodachrome slides were received from Saguaro. These were taken by Seasonal Ranger Marvin Frost, and constitute a valuable addition to our files.

Ruins Stabilization

Steen accomplished routine duties of filing reports and photographs.

Projects for June

King will be in the office most of the month spending some time in supervision of the mailing of an additional 3,000 envelopes for the Southwestern Monuments Association; working with Architect Lovelady on a proposed preliminary plan for a model at Montezuma Castle; completing the museum plan for Walnut Canyon; writing the annual report for the department; etc. If arrangements can be made for lights for Walnut Canyon Museum, King plans to go to that monument late in the month or early in July to make temporary installations in the Museum there.

Steen will be in the office on ruins stabilization recordation and various miscellaneous jobs, going to Navajo for several days late in the month to inspect cliff dwellings there and salvage archeological material now being destroyed by stream erosion.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Arches
NATIONAL MONUMENT
Moab, Utah

May 28, 48

MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Arches National Monument for the month of May, 1948:

GENERAL: The Moab Lions Club held a barbecue at the parking area in the Devils Garden section on May 8th to celebrate the completion of the new roads to Delicate Arch and the Devils Garden. It is estimated that approximately 250 people were in attendance including, representatives from the Utah State Department of Publicity and Industrial Development, Grand County Commissioners and the National Park Service was represented by Mr. Davis and Mr. Kell from Regional Office. Delegations from Monticello, Greenriver and Price, Utah and Grand Junction, Colorado were also in attendance. All present were very much impressed with the new road and the areas made accessible by its construction and also the excellent barbecue which was served.

WEATHER: Rain fell on April 26th and 27th and again on May 27th. High winds have blown intermittently all month. The Colorado River run-off has started and the present water level is the highest it has been in the last four years.

TRAVEL: The travel for the month was again way above normal with 322 cars and 1016 people visiting the area, as compared with 117 cars and 397 people for May 1947. We had representation from 29 states, England, Japan and Sweden.

INTERPRETIVE SERVICES: Our contacts showed a decided increase over the previous month. Two caravan trips were taken with a total of 30 people, 5 guided trips to the various features with 58 people. A total of 183 people were contacted at headquarters and 219 people were contacted in the Windows and Devils Garden sections. There were 797 people that visited the various sections unattended.

NEWSWORTHY VISITORS: Mr. Jack White, staff photographer for the Salt Lake Tribune, visited the area from May 15th to 19th. He covered all areas shooting pictures for the next scenic edition of the Tribune.

Mr. Peter Alt, and party, of the Eastman Kodak Co., Rochester, New York, arrived at the monument on May 27th to shoot colored movies and stills of the area. He hopes to cover all features of the monument.

Word has been received that Mr. Jack Breed will be in on June 1st to cover the area again. He also hopes to get complete coverage on Monument Canyon and Natural Bridges.

PRIVATE LANDS: A trip was made to Sapinero, Colorado on May 26th to contact Mr. Emmett Elizondo on the purchase of the Turnbow Homestead. His signature was obtained on the deed and the voucher for payment. The deed will be recorded and sent to Regional Office for final action.

Mr. J. Fred Pingree of the Utah State Land Board was a visitor at the monument in the last week. He stated that he was making a trip to Washington, D. C. in September and would contact the Bureau of Land Management regarding the status of the exchange of State lands in the monument.

NATIONAL PARK SERVICE VISITORS: Assistant Regional Director Davis, Park Planner Kell and Chief Clerk Castellum arrived on May 6th. Mr. Castellum left the next day but Mr. Davis and Mr. Kell remained until May 9th, attending the Lions Barbecue in the Devils Garden on May 8th.

Forester Carlson and Chief Ranger Wade, from Santa Fe and Mesa Verde, paid us a short visit on May 11th.

RANGER SERVICE: Mr. Thomas Earl Worthington of Nephi, Utah entered on duty as temporary ranger on May 16th, 1948 for the summer season.

PUBLICITY: Word was received that the Desert Magazine plans to run an article on Delicate Arch, by Catherine and Dick Freeman, in an early issue. Information on the new road, etc was furnished at their request.

MAINTENANCE: Under rehabilitation of buildings we accomplished the reroofing of our warehouse and office building and also lined the pump and power unit room with asbestos and sheet rock to reduce our fire hazard and protect the equipment from the ever present sand.

A used pit toilet was purchased during the month and installed in the headquarters area for the convenience of our visitors.

TRAILS: Trails signs were installed on the Windows section trail, white arrows were painted on the slick-rock portions and mounted on posts over the sandy portions of the trail. Name signs were placed

at Cove Arch, Double Arch, Parade of the Elephants, North and South Windows and Turret Arch. This should eliminate considerable complaint regarding our trail in this section.

Signs have been completed for the Courthouse Towers Trail and features and we hope to have them in place shortly after the 1st of June.

ROADS: The State crew spent two days hauling shale to the bad spots on the approach road and at this writing they are grading this road and also the roads within the boundaries of the monument.

Several days were spent by Laborer-Leadman Winbourn hauling shale to rough spots on the road in the monument. Slow and stop signs have been placed at road junctions and rock guardrail has been installed at several points along the loop road in the Devils Garden to keep cars from tearing up the area.

Russell L. Maham

Russell L. Maham
Custodian

(in trip.)

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

MEMORANDUM for the Regional Director, 24 May 1948
Region Three.

There follows the report of activities in Aztec Ruins for May 1943.

WEATHER. Pleasant days with an occasional wind storm have been ours during the month. The weather and the season of the year have brot increased numbers of people to the Ruins.

SPECIAL ACTIVITIES. Messers. Davis, Kell, Castellum and Allen from the Regional Office visited during the month. The Custodian presented a short talk on the NPS, illustrated with colored film, to 125 members of an inter-state conference of the Rebecca Lodge.

INSPECTIONS. Castellum and Allen made an inspection of accounts and sales during the period May 5 to 17, 1948.

MAINTENANCE. Work on construction of a sump to drain our underground water storage, construction of a roof over the excavted area and the installation of a draining system have been completed.

Arrangements have been made to obtain a number of cedar logs for repair to our Kiva "G" in the plaza of the main ruin. The repair work it is expected will be completed by the Chaco stabilization crew during June.

NEW CONSTRUCTION. Bids have been let for the construction of a new residence, which work it is believed will begin in the early part of June by a Farmington, N.M. contractor.

INTERPRETIVE SERVICE. There were 748 visitors in 133 parties guided thru the ruins and 1058 visitors in 202 groups were shown the museum.

INCREASE IN TRAVEL. This month travel has increased approximately 15% over May 1947 with 1058 people in 311 cars from 36 states, Canada, El Salvador, China and Japan. We have enjoyed several school groups from Colorado, Utah and New Mexico.

PROTECTION. A member from one of the school groups entered a room in the ruins and removed an exhibit. Altho there had been another school class present the same day, we felt we knew the offending ones and made a plaster cast of the foot print left in the soft soil of the room from which the object had been removed, and forwarded the cast to the principal of the school for his detection of the guilty party. Apparently he had little difficulty in locating the person responsible, for the artifact was returned quite promptly with due appologies from the entire class.

Irving D. Townsend,
Custodian.

AZTEC

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

May 31, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of the activities at Bandelier National Monument for the month of May, 1948.

WEATHER

Beautiful spring weather prevailed during most of the month with rain occurring only 5 days and amounting to one and fifty-five hundredths inches. Temperatures ranged from 25 degrees on the 8th to 91 degrees on the 16th. The abundant moisture this spring has made the Canyon very beautiful with numerous wild flowers in bloom and the grass and shrubs are putting out a good new growth. The cactus started to bloom during the month and made its usual beautiful display.

MAINTENANCE

The work of reducing the fire hazard in the Lodge kitchen was completed with the exception of the installation of a ventilating fan and the new stove unit. Bids for both stove and the fan were opened on the 20th and we are now waiting delivery of both items.

The improvement of the water intake was completed during the month and consisted of digging out the intake pipe and repacking it with gravel. Both of the comfort stations were repainted on the inside and generally put in good condition.

INTERPRETATION

One talk was given outside of the Monument by the Custodian to 250 students of the Los Alamos Grade School on the geology of the Monument and of the surrounding area. Fourteen members of the Physiography class of the Los Alamos High School were given a talk at the Monument on the Jemez Crater.

Due to the manpower shortage, parties to the ruins on weekends still run far too large with 40 to 50 people making up the groups. They do not get nearly the enjoyment or benefit from the trip that they would if the parties were limited to 30 or less.

In the 13 days that the Fire Lookout was manned, 53 parties of

177 visitors spent an average time of 23 minutes looking over the area and receiving instruction in the operation of the Lookout and the story of Forest Preservation. In this way the Lookout served the dual purpose of contacting visitors and educating the public as well as performing the normal function.

An illustrated film talk on Alaska was given on the night of the 25th by Mr. W. H. Krouse, who was in the Monument for 4 days taking pictures for a travel film of the Southwest.

MUSEUM

The 4 Seasonal Dance and six animal paintings for the Seasonal Ceremonies case in the Museum, were finished by Pablita Velarde Hardin. The dance paintings were finished on donated time by Mrs. Hardin, and the Southwestern Monument Association donated the money for the animal paintings. Labels have been ordered and the case will be installed early in June.

VISITORS

Associate Regional Director Patraw with Messrs. Greenwood and Booher of the Bureau of the Budget, made an inspection of the area on May 1.

Architect Saunders spent May 3rd inspecting the work that was being done on the rehabilitation of the lodge kitchen.

Mr. and Mrs. Werner from Lowell, Massachusetts spent 4 days in the Monument from May 10 to 13 taking pictures.

Mr. W. H. Krouse, Glassboro, New Jersey, who is making a travelogue of the Southwest, spent 4 days in the Monument from May 23 to 26 taking pictures of the important features of Bandelier. New Mexico weather was not very cooperative with Mr. Krouse and it was cloudy during most of the time that he was here.

Other Park Service Officials who visited the Monument during the month were; Regional Engineer Lassiter, Regional Forester Carlson, Assistant Regional Forester Ratcliff, Assistant Forester Walker from the Director's Office and Archaeologist Steen.

STABILIZATION

Laborer Foreman, Sam Orem, received an appointment to Chaco Canyon as Seasonal Ranger, and reported for duty there on the 9th. Romolo Cordero has been appointed Laborer Leadman to assist in supervision of the remaining stabilization of the Big Community House ruin. Three additional laborers were hired from Santa Domingo Pueblo and work is progressing at a fast pace.
Mr. Steen delivered a small cement mixer to the area on the 20th and this has helped to speed up the work to quite an extent.

FOREST PROTECTION

A fire training school was held on the 10th and 11th for all Bandelier personnel including employees of the Concessioner. The instruction included Building Fire Protection, First Aid and Forest Fire Control.

Maintenance-man Valencia took the spray truck to Canyon de Chelly National Monument from the 7th to 13th to spray the trees there to prevent insect damage. The entire campground area in Bandelier was also sprayed with DDT solution to prevent insect damage. A few tent caterpillars were observed during the month on the choke-cherry trees, but the DDT soon made short work of them.

Fire danger has been generally high during most of the month with a few days approaching extreme. However, no fires occurred within the Monument although four were observed in Atomic Energy Commission land north and west of the Monument.

The Bandelier Lookout cooperated with the Forest Service and the Atomic Energy Commission by furnishing bearings and other information on the fires.

WILD LIFE PROTECTION

Fresh beaver cutting on the new dam were found about 3 miles up Frijoles Canyon from the Headquarters area. One dead beaver was found below the falls in the lower part of the Canyon. This seems to be an annual occurrence for one or two of the animals to go over the falls and be killed.

ROADS and TRAILS

The approach road was getting rough toward the last of the month due to rain and lack of grading. Grading of the road was delayed in anticipation of the completion of the overhaul of the big caterpillar-12 grader at Los Alamos. By the end of the month the work on the grader had been completed with the exception of the installation of the cab and a few minor adjustments. It was decided to not wait for the cab but to put the grader in use and the cab can be installed later when it is repaired.

Most of the trails in the Monument have been inspected and some loose rock removed from them. However, a great deal of drainage and improvement needs to be done that will have to be delayed until

additional funds are secured.

Construction was started by the Atomic Energy Commission on the new road that runs through Sandia Canyon on the Otowi section. This road is to provide access to the new Technical area at Los Alamos.

CONCESSIONAIRE

Business at the Frijoles Canyon Lodge was a little disappointing during the month. Even though there was a considerable increase in the visitors for the area, there were fewer lodgings and meals served at the Lodge than for the same period last year. The total was 93 lodgings and 648 meals.

Fred W. Binnewies
Custodian

Canyon de Chelly National Monument
Chinle, Arizona

May 25, 1948

MEMORANDUM for the Regional Director, Region Three.

The following is a report on activities at Canyon de Chelly National Monument during the Month of May, 1948.

Weather

The weatherman passed us up this month as far as moisture was concerned but gave us a bit of wind. The canyon stream continued flowing until May 18th at which date our first trip was made by car. The month has been comparatively warm with a minimum of 90 degrees and a minimum of 19 degrees.

Administration

Annual leave was taken on five days during the month due to the illness and death of my Father in law. Heavy travel coupled with maintenance and repair work left little time for administrative work during office hours but we're gradually catching up.

One trip was made to Gallup, New Mexico to speak to a Chamber of Commerce group, but the trip was in vain other than to pick up needed supplies as the meeting was cancelled after my arrival.

Maintenance

The Navajo Service must have felt sorry for me after watching me trying to drag my road with the old piece of iron I use for this purpose, for they sent over a patrol grader which made one trip from headquarters to Saw mill. Although dusty, our roads are in the best condition they have been for some years.

The trailer house was remodeled to conform with plans and cabinet work installed. This is practically completed. Cleanup work around headquarters was made.

Soil and Moisture.

Repairs were made to the revetment at Antelope house and also to the plantings at both Antelope and White house.

RECEIVED
JUN 1 1948
NATIONAL PARK SERVICE

Insect Infestation

The area of cottonwood trees around headquarters were sprayed with a solution of lead arsenate. Equipment was brought from Bandelier National Monument for this job which was completed in a day and a half. The infestation of the Cottonwood leaf beetle has extended into the canyons beyond the point where we could safely take the heavy equipment and the new plantings are being sprayed by hand to protect them until such time as we can go over the whole infested areas. The equipment was brought in by Tony Valencia who assisted with the spraying

Travel

Although slightly below last years travel, we still show a sizeable increase in or Fiscal year to date. Poor road conditions and the lateness of the season probably account for some of our decrease.

Visitors

Mr. and Mrs. Joseph Ehrench, Jonreed Lauritzen.

Ranger Service

Mr. Richard K. Thomas who was to report for duty as seasonal ranger was offered an opportunity to continue his work with Highlands University and decided not to accept the Ranger job. Regular Conducted tours will be resumed when this or the permanent ranger position is filled.

Meredith M. Guillot
Custodian

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
SOUTHWESTERN NATIONAL MONUMENTS

ADDRESS REPLY TO
THE SUPERINTENDENT

Capulin, N. Mex.
May 27, 1948

Memorandum for the Regional Director
Region Three, National Park Service
Santa Fe, New Mexico

The following is a report of the activities in and around Capulin Mountain National Monument for the month of May, 1948.

There were approximately fifteen hundred visitors to the Volcano during the month, making a total of eight thousand one hundred visitors for the travel year to date and a total of twenty seven thousand six hundred for the fiscal year.

The weather has been cool, with some high winds and about two inches of rainfall reported during the month.

Some of the early flowers are still blooming, trees are all leafed out and the grass is growing fast, due to the good showers. The animals in the Park are in wonderful condition, which is very surprising, considering the hard winter they have just gone through.

The roads and trails are again in top condition, ready for the many expected summer visitors.

Very respectfully,

Homer J. Farr

RECEIVED
MAY 27 1948
NATIONAL PARK SERVICE

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

May 25, 1948.

MEMORANDUM for the Regional Director,
Region Three.

There follows the narrative report for Casa Grande National Monument for May, 1948.

General: The water situation here is still acute and there is no indication of better conditions in the future. New wells are going in all around us and this can only result in further lowering of the water table. In addition to lack of water, cotton farmers were plagued by two rather severe dust storms which removed valuable topsoil from around the young cotton plants. So far the electricity has been adequate and the power has not been turned off for short periods every day as was earlier rumored. What the situation will be after June 1 is another matter.

Weather: Temperatures have been quite comfortable so far but we are expecting the mercury to start soaring at any time now. We had two days with a thermometer reading of 101 which is a slight drop from last month. The high minimum was 73 and the low minimum 44. A dust storm hit us on the 18th making things disagreeable.

Visitors: May 1948 - 2197: May 1947 - 2043. Travel year to date 1948 - 30,210: Travel year to date 1947 - 27,828. This is a gain of 154 over May of last year. Travel is steadily decreasing however, now that hot weather is here.

Interpretive Services: Of the 2197 visitors to the area, 1340 made the ruins trip in 175 groups, averaging 46.5 minutes per trip. 857 people were here for a quick look but did not make the ruins trip.

Administration and Protection: One routine inspection trip was taken to the Adamsville site to check on trespassing and "pot hunting". Five letters requesting information were answered by the custodian. The region put out bids and a purchase order has been received for the purchase of an electric water heater.

NPS. Visitors and Visitors of Note: On May 5, Custodian Supernaugh and Ranger Bean of Organ Pipe Cactus National Monument were in to pick up their horse trailer, bed for a two wheel trailer and a power saw. On May 6, Superintendent H.C. Bryant and Mrs. Bryant stopped in to say hello to

RECEIVED JUN 1 1948 NATIONAL PARK SERVICE

Ranger Arnberger and family. Dr. Bryant was returning from the installation ceremonies of President McCormick at the University of Arizona at Tucson. Mr. J.R. Whitting Jr., husband of Nancy Pinkley Whitting Jr., was here on May 12, to pick up part of her belongings that have been stored here since the Boss's death in 1940. Jimmy Rogers, former CCC guide here at the ruins in 1938-39, paid us a visit on May 22.

Mechanics Activities: General repairs were made to the following equipment:

Area From.	Equipment.
Organ Pipe Cactus Nat'l Mon.	Horse Trailer

Personnel: Archaeologist and Mrs. Dan Davis are the parents of a baby boy born April 28, at Florence. The baby weighed 7 pounds 6 ounces and has been named Daniel Bruce.

Nature Notes: Our desert flora and fauna are really putting on a show for us this month. All of the cacti had a colorful display of blossoms for our visitors but are now through blooming. The giant cactus blossoms are just opening however. The birds in particular have been interesting this month. We have a nest full of four young sparrow hawks in a niche just over the east doorway to the ruins which are beginning to attract attention by the noise they make. A Palmer Thrasher has a nest with a two week old youngster in it in a cholla just in front of the Administration Building. A group of Gilded Flickers have finally left their nest in the giant cactus on the path to the ruins.

Leaves Taken: Maintenance Man C.D. Barnett and wife Betty left April 30, on annual leave. They are going to Iowa to visit relatives.

A.T. Bicknell,
Custodian.

Chaco Canyon National Monument
Bloomfield, New Mexico
May 28, 1948

MEMORANDUM for the Regional Director, Region Three,
National Park Service.

There follows the report of activities in Chaco Canyon National Monument for the month of May, 1948.

There were 112 visitors to Chaco Canyon this past month. They came in 37 automobiles from the states of:- Arizona - 1 car, 2 visitors; California - 6 cars, 14 visitors; Colorado - 11 cars, 38 visitors; Kansas - 1 car, 3 visitors; New Mexico - 11 cars, 42 visitors; New York - 1 car, 2 visitors; Texas - 2 cars, 4 visitors; Virginia - 1 car, 1 visitor, and Washington - 3 cars, 6 visitors. The visitors formed 27 ruins trip parties, 25 museum parties and one information seeking party. Archaeologist Aide Rixey spent 3 hours and 20 minutes guiding part of these visitors, Ranger Sam Orem spent 12 hours guiding others and the custodian spent 22 hours and 30 minutes guiding still others.

The coolest this month was 27 degrees Fahrenheit on the 25th of April and the warmest was 90 degrees on the 16th of May. The total precipitation was .89 of an inch.

The approach roads remained dry, passable, but rough most of the period. However, the last few days have brought rain and slippery roads. Working through the Chamber of Commerce in Farmington, we have definite aid promised us by the State Highway Department for this summer. The Gallup Chamber of Commerce is planning to run regularly-scheduled, sponsored tours to Chaco once each week this summer.

The road job is being pushed to completion before the end of the fiscal year. Several culverts have been placed and the road built over them. The spillway on the south side of the bridge has been built of stone, concrete and several sections of culvert. It functioned satisfactorily after the last rain.

The Soil and Moisture Crew, job 882, have cut down a large number of tamarisk for erosion control work on the mesa. In the 884 job 15, they have been repairing revetments.

Samuel A. Orem reported for duty as temporary ranger on May 10, 1948, and took hold as the veteran he is.

The Padilla family was moved out of the Monument. Of the Navajo families which had at one time lived within the Monument boundaries, this was the last to leave. The moving of this family was accomplished only through the cooperation of every one in the canyon, especially Gordon Vivian.

The well, it was discovered one day, had silted to the top with sand. About 15 man days were spent in digging it out and putting it back in shape.

National Park Service visitors included John Davis, Luis Gastellum and John Zell.

The Trader reports a larger number of overnight visitors. He has finished with wool season, and, incidentally, bought twice the amount he bought last year. He already has a small stock of jewelry on hand for the summer season. Rugs are coming in slowly, due to the planting and shearing season.

Projects for the ensuing months:- finish with the road repairs; wind up the 882 job by placing the tamarisk in strategic spots on the mesa and repair as many more revetments as possible before the end of the fiscal year.

19

MEMORANDUM for the Custodian,
Chaco Canyon National Monument.

There follows the narrative report of Mobile Unit activities in your area during May, 1948.

I spent the first 16 days of the month on a short detail to Grand Canyon National Park in connection with the stabilization of Tusayan Ruin and following that visited Navajo, Wupatki, Walnut Canyon, Tuzigoot and Montezuma Castle National Monuments checking data for the stabilization manual. In my absence Archeologist aide Hixey and Custodian McNeil continued the work of the Mobile Unit.

Progress was excellent though they were hampered both at Chettro Kettle and the flood control channel and revetment by the continued labor shortage. The shortage as noted last month has been more pronounced than it was at this time last year.

The weather has continued favorable though there was one night with below freezing temperatures and as this is written the crews have been laid off due to heavy rains.

Some help was given the custodian this month with crew and trucks in removing the accumulation of Navajo across from the headquarters and in cleaning out the well.

Of the two major jobs undertaken this month the ditch and revetment east of Chettro Kettle is approximately 50 percent completed. A large part of this work was accomplished with the only two men available. The channel there has been rough graded to a width of 15 feet using the motor patrol and a fresno obtained from a local rancher. The trench for the wire basket, slightly over 200 feet in length was done with a small slip and hand finished.

Ninety percent of the posts for the revetment have been hauled and are in place. The wire basket has also been carried this far. Slightly less than half of the rock has been hauled. Heavy sand was encountered in hauling by truck from the nearby talus slopes and so far most of the rock has been hauled from the south gap -- including the hogans, stone house, corrals etc of the family removed there.

The heavy rains of yesterday and today have poured considerable water over the cliff northeast of Chettro Kettle. None has ponded behind the ruin but the heavy runoff down the drain channel partially silted in the lower end of the trench cut to hold the wire basket. It will have to be dug out by hand. No other damage was found and the channel and revetment appear to contain the flood water satisfactorily.

At Chettro Kettle two small jobs were completed before work started on Kiva G — resetting the facing and placing lintels in the lower doorway, 53 E and completing a buttress section at the juncture of 47/52 south.

The entire overhanging north section of Kiva G was removed to the level of the bottom of the bench. It will be recalled that G is the kiva superimposed over the excavated Kiva H and that the bench was rebuilt and supported on planks and pipes at the time of excavation. It overhangs, in this section, some 7 feet of wall in the lower structure.

With the bench removed a large crack was repaired in the 7-foot height of the lower wall. The overhanging bench was rebuilt, supported on sections of rail and steel tie plates. Bench and outter wall are reinforced with heavy steel; the bench has been completed and the wall is 80 percent done.

In the coming month all drainage work will be finished since the crew has been recently increased to five, the south walls of the rooms outside Kiva G will be raised to retain the fill around the kiva and a low section of wall on the north exterior of the site will be raised as bracing for cracked sections there.

Gordon Vivian
Archeologist

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

_____NATIONAL MONUMENT

Chiricahua National Monument
Dos Cabezos, Arizona _____, 19____

May 25, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities in Chiricahua National Monument for May.

Weather Conditions. No rain has fallen since last report. Only .24 inch of moisture has fallen since February. High dry winds have combined with the dry weather to make this a very dusty season.

Maintenance. Several days were spent ironing out difficulties on the Sugar Loaf Lookout telephone line. It is now working satisfactorily. A laborer has been helping Operator Marble on roads and trails. The Headquarters parking lot has been enlarged and the road and trail work is getting fairly well caught up.

Approaches to Monument. State Highway 181 is closed for oiling. This makes it necessary for visitors approaching from the south to go via Rodeo or Willcox. All approach roads are very rough and dusty.

Interpretive Service. Two all day trips were made with well known photographers, Mr. Josef Muench and Mr. Whipple. A two hour field trip was made by Ranger Ringenbach with a group of 33 seventh grade school children. 1,075 visitors in 251 parties were contacted in the museum.

Travel. 1,215 visitors came to Chiricahua this month. This is an increase of 139 over May of 1947. It is thought that travel would be much heavier if one of our main approach roads was not closed for construction.

Forest Fire Protection. Fire Control Aide Windes began work on Sugar Loaf Lookout on May 3. The forest floor is undoubtedly much drier than usual at this time of the year. This combined with continued windy weather makes us hope we don't get any fires before the rainy season.

Special. Funeral Services were held May 9 for Mr. John Ball, Bisbee photographer and friend of the Park Service. Mr. Ball took many pictures Chiricahua in it's early history and was an influence in having the are proclaimed a National Monument. Custodian and Mrs. Cooke attended th eral services. Mr. Ball requested before passing away that his ashe scattered over Chiricahua National Monument.

El Morro NATIONAL MONUMENT

Ramah, New Mexico

May 26, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities in El Morro National Monument for the month of May, 1948.

WEATHER: With only .05 inches of precipitation and high winds most every day, this whole country has become very dry. Maximum temperature reached 84 degrees and the minimum went down to 25 degrees.

TRAVEL: From 18 different states came 208 visitors in 51 cars. The tour of the Inscriptions was made by 199 people and 9 people arrived for information about roads and the whereabouts of local gents.

APPROACH ROADS: Both roads were dry and passable during the entire report period. The survey for improvement of State Highway #53 was started on May 15th., but it is doubtful if actual construction will be started this summer. It is encouraging, however, to see miles of survey stakes.

EDUCATIONAL ACTIVITIES: On May 18th. I attended a dinner and meeting of the business men of Gallup. Details of plans were outlined for their tourist school(training of personnel coming directly in contact with tourists) and establishment of daily conducted tours to El Morro, Chaco Canyon and Canyon de Chelly. On May 19th. I was scheduled to conduct two classes giving correct information about El Morro and Zuni. Both classes were held with an enormous total attendance of five people, so due to this lack of interest the programs to be conducted by Meredith Guillet and Irving McNeil were cancelled. However the Gallup Chamber of Commerce is going ahead with their conducted tours and have engaged a guide.

RADIO CONTACT: Poor with both Chaco Canyon and the Regional Office.

GENERAL: The grass planted by the Motion Picture Co. made a good showing until this dry spell came along, but if it can survive until our summer rains we will have a fair ground cover even around the base of the Rock. The wiring of the Ranger Cabin was started on May 23rd. Both this job and the painting will be completed before May 31st.

Number of copies of free publication on hand as of the end of May, 1948.

Bates E. Wilson
Bates E. Wilson, Custodian

GRAN QUIVIRA

GRAN QUIVIRA, NEW MEXICO

MAY 25 48

MEMORANDUM for the Regional Director, Region Three.

The following is a report of activities at Gran Quivira for the month of May 1948.

General. Continued dry weather is delaying bean planting and worrying the farmers. This does; however, serve to keep the local residents interested in Gran Quivira's repair and rehabilitation program.

Weather Conditions. Dry and windy. Dust storms have been frequent and the farmers are having a hard time holding their fields. There has been only .15 inches of moisture during the report period, .14 of which fell on May 24. A maximum of 87° was recorded on May 22; a minimum of 34° on May 6.

Special Activities. During the month the custodian completed the work attendant to transfering the Special Use Permit, for tying a stub telephone line onto the NPS spur, from Dean Miller to D. B. Chaney.

Inspections. Architect Saunders was here several hours on May 23 going over the repair and rehabilitation program and advising on completion of the job.

Publicity. Wm. H. Krouse visited and photographed Gran Quivira on May 19. Mr. Krouse is preparing a travelogue on New Mexico.

Maintenance. On the 20th and 21st the new weed burner was unlimbered and the entire mission cleaned up. The burner does a much better and faster job than the hoe and rake method formerly used. Approximately 6 gallons of kerosene will do the entire job.

A new radiator was installed on the Chev. pickup.

A new door jamb was installed in the kitchen door to replace a rotten one. Door jambs are meant to be placed first and the house built around them. Since replacing one runs contrary to this formula, certain difficulties were encountered.

Repair and Rehabilitation. The job of repairing the old residence accounted for most of the custodian's time this month. Repair of walls was completed, a new roof put on and cement floors run. Installation of doors, windows, plumbing and wiring, plus a paint job should about finish the project. The $500 allotted for the work was exhausted early in the month and regular accounts had to be used to carry on the job. Charlie

Steen aided materially May 10 to 14 by supplying his services and a cement mixer for running the floors.

Necessary material has been purchased for wiring the building and for roughing-in the rest room plumbing. The plumbing rough-in is held up pending delivery of the fixtures obtained from War Assets at Bruns Hospital.

Approaches to the Monument. The 8½ miles of new oiled road from Mountainair was completed early in the month. The remainder of the road suffers from lack of maintenance.

The Carrizozo approach continues to blow full of sand periodically. This does not hinder local residents too much, but invariably catches a visitor unversed in sand traps.

Interpretive Service. 42 parties totalling 144 people were guided through the ruins. Average trip time 44 minutes.

Increase or Decrease in Travel. The number of cars entering the Monument this month was exactly that of a year ago; however, there were fewer passengers. Travel for the year remains below that of last year.

	CARS	VISITORS
May 1948	66	194
May 1947	66	223
Decrease	0	29

Architect & Mrs. Saunders, Regional Office, May 25
Wm H. Krouse, Travelogues, Glassboro, N.J. May 19.

William L. Bowen,
Custodian.

On the afternoon of May 25 a group of 13 Girl Scouts under the leadership of Mrs. Margaret McDowell of Hot Springs visited the Monument. The girls of Troop 1 Hot Springs had as their guests 8 members of the Senior Scouts of Mexico City. They plan to visit Mesa Verde, Grand Canyon and intermediate points. Mrs. McDowell is the sister of Asst. Supt. Lon Garrison of Grand Canyon.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
GREAT SAND DUNES NATIONAL MONUMENT
MOSCA, COLORADO.

May 27, 1948

MEMORANDUM for the Regional Director,
Region Three.

There follows the report of activities in Great Sand Dunes National Monument for May, 1948.

WEATHER. Most unusual for this time of the year. All cottonwoods and aspen have leafed out, but the grass has not yet turned green. An excessive amount of moisture continues to fall and this in turn has nearly flooded the San Luis Valley. All crops are retarded and there is little prospect for a bumper potato crop.

The Medano is running very high and continues along the eastern edge of the sand dunes as far as the eye can see. Local people make special trips out to see the "disappearing river" which is not living up to its name as was the case last year.

The Farmer-Union Dam is causing much concern as the spill-ways are open and there is the danger of the entire dam going out. The National Guard of Monte Vista was called out to strengthen a dike which protects that town. Vigil is being kept at all bridges crossing the Rio Grande, and the Rio Grande Railroad has a special train on the east side of their railroad bridge in case of flood and the bridge should be damaged or swept away.

A minimum of 27 degrees registered on May 11. The maximum of 80 was reached on May 16.

Snow fell on May 3,9,10,11 and 12. Rain fell on May 17,18,19,20,24 and 25.

There were 16 partly cloudy days, 9 cloudy, 5 clear and 9 days of intense winds.

Snow still covers the Sangre de Cristo Range.

TRAVEL. One thousand two hundred and eleven visitors in two hundred seventy cars visited the Sand Dunes during this report period. Eighteen states were represented. Seven hundred six people took advantage of the

picnic areas and of these, two brave souls camped overnight.

INCREASE IN TRAVEL. Travel is still increasing and reaching a new high for this area. For May, 1947, there were 199 cars and 1065 visitors.

ROADS. The State graded the approach road on April 30 and May 17. The past week has seen much damage done to this road as the water has overflowed ditches and made many long stretches of water, often seeming impassable to those not familiar with the road. The state sent out bull-dozers in an attempt to divert the water and save the road from becoming badly washed and rutted. It was learned at the Heide Garage at Mosca, that he had several calls to bring his tow-truck and extract visitors from their wet, muddy resting place.

The monument road is in excellent condition, with the exception of the road leading to the lower picnic area.

N.P.S. VISITORS. On April 28, Ranger Paul Steel of White Sands National Monument delivered the house trailor, which is now reposing in the headquarter parking area. On May 10, John Davis and John Kell paid a too short visit. On May 18, Kenneth Saunders and wife, came to give the final inspection on the furnace installation.

NEWSWORTHY VISITORS. The Canyon City Trail and Saddle Club and the Alamosa Riding Club with 230 people in attendance brought out 110 horses in trucks. The Western State Geology Class on a field trip with 25 in the group. The Hooper School with a group of 76; La Jara School with 18; and the Mosca School with 20 in the group.

ACTIVITIES. Usual routine duties of hauling gasoline, wood, ashes and garbage. Office matters were kept current.

With the increase in visitor usage, the merry-go-round has started up again in a vain attempt to keep the picnic areas and comfort stations clean. Kleenix rides again!

The house and basement were finally cleared of cement and cement dust. The oil stoves were removed from basement and front hall. The hole where stove pipe entered chimney in the front hall was plastered up. The office also received a thorough clean up job. The electric wall receptacles which were burnt out were replaced with new ones.

Debris was cleaned out of the drains at garage, parking area and front yard. Installed a new water line for visitor use at headquarters. Repaired all garden hoses. Sealed the eight outside vigas of residence with cellulose fiber filler and gave all a coat of linseed oil.

Checked the entire south boundary fence and posted new boundary signs along entire length.

Put up the junction sign for the Blanco road turnoff.

Checked and put into shape all fire tools.

Checked and changed oil in both light plants.

Replaced the master cylinder for brakes on the Dodge 4x2 and had tail-gate welded on.

Purchased paint for walls and floors of residence. Sent out bids for automatic hot water heater.

WILDLIFE. Many deer are to be seen just east of residence and along the woody section of south monument boundary. Our two eagles are back to spend the summer.

Wood tick season is in full swing and visitors are warned to watch for them. We are taking our spotted-fever vaccine shots. Gnats and mosquitos are also getting thick.

PROJECTS FOR ENSUING MONTH. Paint interior residence as time permits; wait for installation of toilets in headquarter public restrooms; repair the generator on the Dodge 4x2, if possible; and continue contact with visitors on Sundays.

Ted C. Sowers,
Custodian.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Montezuma Castle National Monument
Camp Verde, Arizona

May 24, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly report for Montezuma Castle National Monument for the month of May, 1948.

Visitors this month to Castle and Well - 2547; this travel year to date, 13,324. The travel count at Montezuma Well covers only 15 days since Archaeologist Schroeder was occupied with other duties the rest of the month.

Administration Increased visitor travel and administrative duties have kept us very busy this month. Six to seven hours spent each day on visitor contact leaves little time for anything else. Archaeologist Schroeder was moved to the Well on April 28 and 29. A qualified veteran has at last been lined up for our temporary ranger job and is due to report June 8. The application of W. Wayne Boyle was rejected because he is not a veteran.

The increase of 200 franked mailings allowed all monuments will permit us to complete the fiscal year within our quota.

The leased meadow land at Montezuma Well has produced a good crop of forage and the fields are usually dotted with grazing cattle.

Special On May 13, 10:03 P. M. a baby daughter, Christine Ann, 7 lbs. 1 Oz. joined the Schroeder family at the Well. Very considerately she made her approaching arrival known while Mrs. Schroeder was making a routine visit to the hospital.

Weather Unusually cool weather with no moisture has prevailed throughout the month. The maximum temperature was 98 degrees on May 16 and the minimum was 30 degrees on April 24.

Visitors Several bus loads of school children have visited the ruins and picnicked on the area.

On May 2 the Verde Valley Pioneer Association held their semi-annual picnic at the Well. About 200 attended.

There were 1861 visitors to Montezuma Castle and 686 to the Well. Cars counted at the Castle, 619; at Montezuma Well, 221. Tickets sold at the Castle, 530; tax but no ticket, 67; children admitted free, 36; visitors admitted by waiver, 3.

RECEIVED
JUN 1 1948
NATIONAL PARK SERVICE

On May 17 Milo B. Wible, an 86 year-old visitor who couldn't see very well insisted on making the Castle trip against the advice of his son, daughter-in-law, and the custodian.

Contacts Total contact hours, 194: Hastings, 100; Leding, 84; Schroeder 10 at the Castle. One hundred and sixty trips were made through the Castle for 636 visitors and 727 visitors were counted in the museum in 140 groups. 516 visitors received information outside the ruins or museum.

Protection Our annual battle with bats is the Castle has been resumed. Their droppings must be swept up and removed from the inside ladders frequently. On two different occasions visitors have commented that the Castle has an odor like Casa Grande.

The portable "Closed" sign used at our entrance gate disappeared May 16. Time and materials needed to replace it are estimated at about ten dollars.

Schroeder repaired about 100 feet of fence at the northwest corner of the Montezuma Well property.

Fire Protection Dry foxtail in the creek bottom is again presenting a hazard. A 4-gallon decontaminating unit that is being used as a fire extinguisher was chained and padlocked to a tree near the visitor register where it will be handy for use.

Repairs and Construction Painting the interior of the residence at Montezuma Well was completed April 26 and the outside of the house has been given a prime coat except for facings around doors and windows. Wherever the interior of the Montezuma Well museum will not be covered by cases, the walls have been painted.

On May 20 E. G. Broughton, Cottonwood contractor, started to remove the old roof from Residence No. 2 and replace it with a new roof. A layer of earth used for insulation and varying from 4 to 8 inches in thickness has been removed from the old roof. This made a total weight of about 13 tons and the roof had sagged so much that deep pools of water would collect after a rain. The earth is being replaced by Kimsul, a treated wood fiber insulation. This is being covered by framing and a built-up roof.

Interpretation Mimeographed sheets and some very attractive covers for our Sycamore Trail pamphlets have been received. Three transplanted specimens at numbered markers on the trail have been kept alive through the month by carrying water to them.

New guide leaflets for the trail at Montezuma Well have not been received although they have been on order since early in February. Consequently we have had no interpretive facilities to offer at Montezuma Well. We were informed some time ago that the sticker used in making the leaflets had broken down and we are anxiously awaiting its repair because we need the leaflets.

Exhibits have been planned and lumber purchased for cases in the Montezuma Well museum.

Supplies and Equipment A worn out Grunow refrigerator was transferred to Grand Canyon and from Walnut Canyon we received 20 rolls of Kimsul insulation.

Research On May 15 the Museum of Northern Arizona sponsored the investigation of Montezuma Well by a diver, H. J. Charbonneau of Flagstaff. The depth of the Well as 55 feet was confirmed and the inlet was not located. Numerous leeches were encountered below a depth of 30 feet. A complete report of this was submitted separately.

Fauna On May 17 a diamond backed rattle snake was caught on the visitor trail and another near Residence No. 2 on May 21.

National Park Service Visitors Engineers Edward S. Zimmer, Director's Office and Charles D. Carter, Regional Office were here April 29. Mr. Carter made his first trip through the Castle since the catwalks were installed in 1939.

Gordon Vivian arrived the night of May 12 to study completed and needed stabilization at the Castle and the Well.

Custodian Jackson and family arrived May 12 to spend several days fishing and vacationing in the Verde Valley.

Assistant Superintendent Lon Garrison and family from Grand Canyon camped over night on our picnic ground on May 20. Ranger Moore and family were also here from Grand Canyon on May 20.

Dr. Erik Reed visited Montezuma Castle and the Well on May 19 to discuss museum exhibit plans.

In triplicate.

Homer F. Hastings,
Custodian.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Natural Bridges NATIONAL MONUMENT
Blanding, Utah

May 29, 48

MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Natural Bridges National Monument for the month of May, 1948:

GENERAL: The State maintenance crew opened the approach road to the monument on May 8th. Several wet spots along the route made travel hazardous. The road was again graded on May 18th and it is now in good shape.

RANGER SERVICE: John Wiley Redd of Blanding, Utah entered on duty as temporary ranger on May 17th and opened the area for the season.

TRAVEL: A total of 15 cars and 30 people visited the area from May 8th to May 22nd.

ROADS: The portion of the approach road in the monument is rough and it is hoped that sufficient shale can be hauled in the near future to place this in good shape.

TRAILS: A portion of the trail between Kachina Bridge and headquarters has been badly washed out and the balance of the trail needs considerable work. To date we have been unable to hire a laborer to make the necessary repairs but hope this can be accomplished by July 1st.

Russell L. Mahan
Russell L. Mahan
Acting Custodian

(In trip.)

RECEIVED MAY 27 1948 REGIONAL OFFICE

NAVAJO NATIONAL MONUMENT
TONALEA, ARIZONA

May 25, 1948

MEMORANDUM for the Regional Director, Region Three

There follows the narrative report of activities in this area for the month of May 1948.

VISITORS: Only 26 visitors reached this area in 10 cars. N.P.S. Visitors—Gordon Vivian of the Chaco Canyon Stabilization Unit on the 8th and 9th.

WEATHER: Exceedingly dry and dusty with high winds on the 7th, 16th and 19th—only a trace of precipitation recorded on the 18th. Maximum temperature 86 degrees on the 16th, minimum temperature 30 degrees on the 1st.

ROADS: The bad condition of outlying roads is responsible for the light travel to this area. Dust storms, high winds and blown sand have discouraged some visitors. On several days the sand storms were such that cars travelling between Tonalea and Kayenta were using their headlights at noon. A number of cars were stalled overnite near White Mesa wash and remained there until the USIS Road Patrol removed the dunes. The road between Shonto and Betatakin is in better condition than any of the roads in the surrounding area.

ROADSIDE DIRECTIONAL SIGNS: A large two-post four panel road sign was erected at the Rainbow Bridge fork of the Tuba City—Kayenta road. The legend emphasizes the fork North for Rainbow Bridge and Inscription House and East for Navajo National Monument Headquarters or Monument Valley.

The two-post sign in Shonto and all signs at the headquarters area were repainted and relettered. The Register Sign was remounted as well as repainted.

A new single post sign was placed at the approach to Littlesalt Canyon indicating Betatakin two miles.

WATER WORKS: Gordon Vivian helped us diagnose our pumping troubles on the 9th. With Gordon in the tunnel and us at the power house we were able to blame our failure on the motor. On the 16th we placed the standby motor into service and have been pumping efficiently since that date. Today we are packing the faulty motor out of the canyon.

We are rehabilitating the 5000 Watt D.C LeRoi plant transfered from Walnut Canyon National Monument. We will press it into service while the Climax undergoes a complete overhaul.

NAVAJO NATIONAL MONUMENT
TONALEA, ARIZONA

May 26, 1948

page 2

WORKS PROGRESS: After putting 500 gallons of gasoline into the converted water tank (at 11 P.M.) and observing no loss of gasoline after four days--we filled the excavation and re-covered the tank.

MAINTENANCE: The road to Sho-to was dragged twice.

The contact station was cleaned up thoroly and additional artifacts were placed on display as we reorganized part of the miscellaneous uncatalogued collection.

Two picnic tables were re-dyed and insect-proofed.

A new cylinder-head gasket was installed on the in-service Kohler on the 6th.

Kitchen and Service porch walls were washed.

The lawn in the patio was turned over and re-seeded.

Files, correspondence and fiscal matters are current.

GENERAL: With things pretty well caught up around the headquarters area we are going to concentrate on rebuilding the badly eroded foot trail to Betatakin.

If material is available we hope to get the telescopes set up before our next report.

J.W. Brewer, Jr.,
Custodian

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

ORGAN PIPE CACTUS NATIONAL MONUMENT

P. O. Box 38, Ajo, Arizona

May 25 19 48.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of May, 1948.

Weather

The maximum temperature for May was 103 on May 16 and the minimum of 41 occurred on May 3 and 20. No precipitation occurred and relatively clear skies prevailed for the entire month.

Travel

Out-of-state travel has fallen to very little but occasional stop-over of international travel occurs.

General

Most of the time was spent with maintenance and rehabilitation work including work on the water tank and Quonset.

1948 grazing fees were collected from the Grays and remitted.

The custodian made one trip to Tucson for supplies. One trip was made to Coolidge for equipment worked on in the shop.

A call was made on Father Regis at Ajo for information about the Papagos.

Roads

Two flush coats of oil have been made along the Sonoyta highway. Many disgruntled people have complained about the methods of spreading free oil over the entire width of the road. The oil splashed on all cars traveling through the monument for at least two days after each application. A sand coat on top the oil was used outside the monument to prevent the splashing.

Personnel

Ranger Bean returned to duty from Saguaro on April 29.

Wildlife

Antelope have moved in on the east side of the monument and have been seen on the mountain area known as Bull Pasture.

Insects

A caterpillar infestation has taken place on the palo verde and small vegetation. Damage is unknown yet.

William R. Supernaugh,
Custodian.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

SAGUARO NATIONAL MONUMENT
Tucson, Arizona

May 26, 1948.

MEMORANDUM for the Director,
Region Three.

There follows the monthly narrative report of activities at Saguaro National Monument for the month of May, 1948.

General

The weather was moderate during the early part of the month, with rising temperatures about the middle of the month. May 13, marked the turning point with a maximum temperature of 101 degrees at headquarters. With the advent of warmer weather, there has been a perceptible drop in visitor travel.

Many of the Saguaros are now in bloom as well as other species of cacti, the chollas are at their zenith for beauty at this time.

Special Activities

During the period May 3, through May 5, Mr. E. Zimmer of the Directors Office, Mr. Charles Connor of the Regional Office and Mr. Jack Brannon of the Public Roads Administration, made a reconnaissance survey of a proposed road within the monument.

Assistant Regional Forester E. M. Ratcliff was at Saguaro during the period May 27 to May 29, in connection with the fire protection program for the ensuing season.

Maintenance

The trail crew is still employed in relocating and repairing the upper part of the Madrona-Grass Shack Trail. Many tons of rock have been removed in order to establish a proper tread, and make it safer for pack trains. On May 21, we were able to hire three additional laborers for trail work and expect to utilize their services from a base at Grass Shack.

Interpretive Service

We have not been able to devote as much time with visitors as formerly, due to the necessary preparations for the coming fire season. However an effort is made to be available over the week ends, when we usually have a considerable influx of visitors.

C O P Y

RECEIVED MAY 28 1948 NATIONAL PARK SERVICE

Travel

A total of 1,375 persons visited Saguaro during the month. Thirty states were represented and Washington D.C., together with visitors from Hawaii, Canada and Mexico. This is a decrease of 735 persons or approximately 35% less than last month.

Interpretive Service

A total of 432 persons in 136 parties were given interpretive service at headquarters. This amounted to 34 hours for an average of 15 minutes per party.

Forest Protection

Ranger Wilde and Fire Control Aid Newell Bundy, distributed supplies and equipment to the various secondary lookouts during the first week of May. The telephone lines are in working order and the various patrol trails have been cleared of logs.

On May 20, the custodian met with Captain V. J. Zielinski, Post Adjutant, Davis-Monthan Air Base, to discuss the recruitment of personnel in case of forest fires on Saguaro National Monument. Captain Zielinski was most cooperative and agreed to release men for fire suppression duty, whenever their services were needed. They have a duty officer available at all times at their headquarters, who will dispatch the men, when a request is made from this office.

Conditions in the forested area are extremely dry at this time. On May 8, the fire danger percent reached 77, for a classification of "High". Regular daily radio contact has been established with Organ Pipe National Monument and Chiricahua National Monument.

The U. S. Forest Service reported a fire on the Coronado National Forest, on May 17, amounting to 75 acres.

Wildlife

On May 17, Mr. and Mrs. H. T. Lester local residents, observed a mountain lion about one mile south of our headquarters, and not more than seventy five feet from the road. Mr. Lester is a long time resident of this vicinity and I have no doubt but what his observation was correct.

Construction

The barn roof at Madrona Ranger Station was completely repaired on May 18, under terms of the contract with the Tucson Roofing and Supply.

Visitors

Dr. Kearns and Dr. Phillips of the Botany Department, University of Arizona, visited Saguaro on May 9.

Mr. Edwin McPhaul, Assistant Supervisor, Coronado National Forest, May 16.

William Supernaugh, Custodian, Organ Pipe National Monument, May 18.

Mr Joseph Muench, noted photographer, taking photographs of flowering saguaros, May 12.

Ranger Service

Park Ranger Marvin Frost, was terminated on May 5, his services have been sorely missed since that date, as he did an excellent job in the interpretive program.

Sunset Crater NATIONAL MONUMENT

Flagstaff, Arizona

May 28, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Sunset Crater National Monument for the month of May 1948.

Visitors this month: 1960 Travel Year to date: 7304

Travel: On the basis of actual registration travel shows an increase of approximately 20% over this same month last year; a total of 784 persons registered.

Weather: Weather during the past month has been hot and dry with very little precipitation. Roads show very definite effects of this lack of moisture.

Fires: The O'Leary Fire on Coconino National Forest broke out again in the latter part of April. Wind direction was such that it could have entered the Monument, but it was checked in the eraly stages. RoadMaintenanceman Bean assisted on this fire with a small crew of Wupatki Navajos.

On the 16th of May visitors traveling between Sunset Crater and Wupatki stopped for a picnic. Careless handling of their fire burned 25 acres before it was discovered and controlled. Names of persons traveling this road and registering at Wupatki have been furnished the Forest Service.

Personnel: Ranger Bob Euler has been approved for a temporary appointment and will be resident on the area early in June to take the place of Ranger Upton who transferred to Petrified Forest.

Housing: At this writing the trailer house is not quite half completed for occupancy. This will be done early in June.

David J. Jones
In Charge

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Tonto National Monument
Roosevelt, Arizona

May 26, 1948

MEMORANDUM for the Regional Director, Region Three.

Following is the report of activities at Tonto National Monument for May, 1948.

Weather. Daily maximum temperatures averaged 90 - 95° for the month, with nights cooling to 65 - 75°. No rain. The month was bright, dry, and hot.

Approaches to Monument. The Apache Trail was in good condition, the Payson road fair, but rough in spots. The entrance road has considerable loose gravel, needs a rain.

Interpretive Service. Due to Archaeologist Hendricks being on special assignment at Tumacacori, the Monument was on a one-man status most of the month. Slightly over one-third of the visitors made the trip to the Lower Ruins, in small parties. Enough cars came in to take up much of the Custodian's time in visitor contact. Trips to the Ruins were made on more than half of the Custodian's lieu days, and the Museum kept open on all days.

Travel. 937 persons in 276 cars visited Tonto this month, compared with 743 in May last year. Most of the travel is from out of state. Sunday, Mother's Day travel was very light. First thing I ever saw that would keep the people home on Sunday.

Roads and Trails. Road & trail crew Roberson and Frazier completed their assignment on May 13. They reconditioned the Lower Ruins trail (one-half mile) completely, improved and partially resurfaced the entrance road, and helped with a few projects which required more than one man to accomplish. All we need now is a gentle rain and a few grader patrol trips.

Visitors. Mr. & Mrs. C. D. Barnett and party from Casa Grande were in awhile May 24, and visited the cliff dwelling. Miss Bertha Dutton, Curator of Ethnology, Museum of New Mexico, was in on May 24, making arrangements for the Girl Scout tour this summer. Miss Dutton, and the Custodian & wife made an early hike Tuesday morning to look at the Salado hilltop sites in the Four Peaks area.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Fire Danger. Fire danger was high most of the month. "No Fires" and "No Smoking While Traveling" signs were posted. The Custodian helped about 2 hours on a small fire at Roosevelt, the afternoon of May 15.

Ranger Service. Archaeologist Lawrence J. Hendricks resigned as of June 6, to take a job with a State Fish and Wildlife Commission. Mr. Hendricks is a qualified aquatic biologist, and wanted to get into that kind of work.

General. The Annual Report was completed and mailed, as well as a Master Plan Development Outline. The Globe Plumbers came out and began work on bathroom facilities in the rangers quarters. At present the affair is strewn around the quarters waiting a return trip to complete the job.

Charles C. Sharp
Custodian

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

TUMACACORI NATIONAL MONUMENT

Tumacacori, Arizona
May 26, 1948

MEMORANDUM for the Regional Director,
Region Three.

We submit the following narrative report for the month ending May 24th, 1948:

WEATHER CONDITIONS. No precipitation since .01 of an inch of rain fell on March 30th; several days of drying winds during the month have intensified the dry condition of the surrounding range land, and made thorough soaking of planting on the grounds necessary.

The temperature has ranged from 34 degrees on April 25 to 93 degrees on May 15; 19 days during the report period have had a maximum temperature in the 90's.

Judging from the Papago corn we planted in the eastern section of the patio, May has been fine growing weather--if you had enough water. The corn has grown 30 inches in the past month.

INCREASE IN TRAVEL. This May, with travel at 1,756, saw more visitors at Tumacacori than any previous May, an increase of 260 over May of 1947, and of 1,491 over the war-time low (265 visitors in May, 1943).

Out-of-state travel is holding up fairly well, with cars from 38 states and two foreign countries represented; California jumped to its springtime lead; Illinois, Indiana, Michigan, Ohio, and New York continue to account for the bulk of the outstate visitors.

INTERPRETIVE SERVICE. There were 137 guided trips through the mission, for 858 visitors. Information and orientation service was given to 1,715 visitors; 1,698 people saw the mission from the view window, the museum, and the patio garden.

An example of successful interpretation was the senior high school class from the Phoenix Indian School; they almost balked at the class sponsor's idea of interrupting their ditch day trip to Nogales for a visit to an old mission, but became so interested they overstayed the allotted time.

RPS INSPECTIONS AND VISITORS. Edward S. Zimmer and Charles D. Carter visited us on May 2.

Custodian and Mrs. Sam King from Saguaro arrived later on the same afternoon; we're very glad to have them as Park Service neighbors.

Mr. and Mrs. Carroll Barnett from Casa Grande brought friends down on May 22; Barnett was on annual leave, but he donated some time to our water problem (see Water System).

Kenneth M. Saunders arrived (two days ahead of schedule!) on May 25; he inspected the recent installation of butane tank and lines, and gave some help on the problem of stabilizing the mortuary chapel.

PERSONNEL. Custodian Jackson started annual leave May 7; there's been no word so we assume fishing is good along the Verde, and expect him back on duty June 2.

Joe Hendricks came down from Tonto to help run the Monument during Karl's absence; Joe has gotten a fair sampling of the variety in a Ranger's life—from digging ditches, through discouraging treasure hunters, to identifying snails.

STABILIZATION OF MISSION. Two men continued the work of patching the walls of the mortuary chapel (as described in the April Report), and had the first repair coat on about two-thirds of the chapel by May 21. On that date a temporary shut-down was made necessary by lack of funds. Fortunately for the mortuary chapel, whose still-exposed adobe walls were in no condition to stand another July rain, we received word today that we will be able to finish that job, and we were able to get Orozco and Vega back for one more week's work.

CONTRACT INSTALLATION OF BUTANE TANK AND LINES. The Home Gas & Fuel Company of Tucson were awarded this contract. The work was performed on May 12. One section of pipe was left exposed, and there were several details which did not come up to the specification standards, but the workmen were on the job until dark and the system has been operating satisfactorily. Mr. Saunders expressed approval of the job as a whole when he inspected it on May 25.

WATER SYSTEM. The Monument ran out of water on May 21. It now appears that the temporary pump failure was caused by overheating due to very low voltage in the lines that day. We have had water in the pressure tanks since, but are conserving it as much as possible!

For some time we've suspected that the pump is not working efficiently; Mr. Barnett gave some advice on operation and maintenance, but

feels, as we do, that the depth of water in the well may be the chief source of trouble. The lowering of the water table in this vicinity is probably going to force us to have another look at the depth of our well.

MAINTENANCE. Some repairwork was done on both refrigerators during the month. Mr. Noon of Nogales installed the motor in the refrigerator for Residence #1 and the regulator for the refrigerator for Residence #2 (both parts had earlier been taken out for repair); a second trip was made to work on the latter box, which continues to alternately freeze too low and defrost.

Pruning was done on cold-killed plants in the patio, and on mesquite branches that hung too low in the parking area and driveway.

Cleanup was done on the problem area along the south boundary, where oil drums, scrap lumber, and odds and ends had accumulated; six drums were hauled to the dealers in Nogales, arrangements were made with Shell Oil Company to pick up the propane cylinders we will no longer need, wood was piled in one spot, and a good deal of trash was hauled to the adobe pit.

The mission model in the view room got minor repairs, where eager visitors had pulled off doors, seeing if they really worked.

FAUNA. A skirmish with the bats was won by Hendricks when he used an Aerosol bomb on a small crack in the sacristy wall; twenty or more bats were disturbed by the vapor and left there; the crack was sealed with plaster.

Workmen installing the butane tank reported a large rattlesnake disappearing into the brush of the adobe pit; it hasn't been seen since, but we suspect we have a permanent resident there. Two harmless snakes, which the Acting Custodian cannot further identify, have been making themselves at home near the view room and in the cemetery.

A good specimen of scorpion, probably Centruoides, was sent to Dr. Stahnke for plastic mounting; several solpugids have been collected answering Mr. King's request for specimens to use in illustrating "Poisonous Dwellers of the Desert".

Two Arizona Vireos have to date built three nests in the patio, abandoning the first two with eggs in them. The second nest was deserted after what we suspect was a Cowbird laid a large egg in the same nest; that egg and the three Vireo eggs from the abandoned nest are being preserved for identification.

PUBLICITY. Joseph Muench took eight 4x5 color pictures of the mission on May 9. O. Roach, photographer from Denver, spent two hours on the Monument May 14. Three photographers making a movie of Tucson and visi-

nity worked half a day on the Monument on May 21.

Special Activities. With spring, the fraternity of the seekers of Spanish treasure seems to be gathering. There are of course the three permanent camps where earnest people work the year around; there are one or two seasonal excavators; and this month we have talked with a good many newcomers to the field, who have just gotten hold of their old map straight out of the vaults of a monastery in Spain. An encouraging sign, for us, is that most of them seem to feel that the treasure is not near the church; they usually just want to sight from a certain door toward a certain landmark. On the other hand, if our well should need deepening, we might do well to spread word of midnight lights seen in the vicinity of the well; one of our neighbors now had a good well over 100 feet deep on a previously unwatered part of his range, thanks to the perseverance of some people who know where Spaniards fleeing Mexico hurriedly cached their loot.

Sallie Pierce Brewer,
Acting Custodian.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

TUZIGOOT NATIONAL MONUMENT

CLARKDALE, ARIZONA

MAY 26, 1948. 19

MEMORANDUM for the Regional Director, Region Three.

Following is the monthly narrative report for Tuzigoot National Monument for May, 1948.

Visitors this month, 1423: Travel year to date, 9605.

Travel Data: Each month of the present travel year continues to break all visitor records of corresponding monthly highs of 1947. Although the Arizona Immigration Service report a sharp decline in tourist travel, visitation to this area is running 25% greater than any previous record year since the monument was established. Extra hard winds and heavy dust storms, which prevailed thoroughout the first half of the month, failed to dampen the desire of people to see this ancient city.

Guide and Contact Service: Museum, ruins and orientation contacts totaled 2996 for the month. 1240 people in 402 parties were given an orientation lecture in the museum, and 1231 people in 397 parties were conducted through the ruins. The average time spent by each party in the museum was 22 minutes, while the conducted tour through the ruins required 21 minutes per party. Three groups of students totaling 93, from various high schools in Arizona, visited the monument and were given special contact programs designed to carry out the interest of the individual class groups, such as Pueblo art for art classes, geology for geology classes, and Pueblo economy and life in general.

Personnel Time: Museum: 151 hours 35 minutes. Ruins: 139 hours 55 minutes. Total time for Bright: 136 hours 45 minutes. For Richert: 154 hours 45 minutes.

NPS Visitors: Edward S. Zimmer from the Director's Office and Charles Carter, Region Three Office on April 28. Dean Dacey, Ranger, Grand Canyon on April 30. Gordon Vivian, Chaco Canyon, on May 12, and Erik Reed on May 18. Valuable suggestions were given by Erik on museum display rearrangement and the intrepretive culture of the early Verde Valley people.

Maintenance and Administration: Several leaks were repaired on the water line during the month. Our old rusty line does not offer a very encouraging picture nor a pretty one. However, we hope to complete the laying and connecting up of the remaining 1200 feet of new 2-inch galvanized pipe within the next 30 days. The completion of this project will eliminate the most deteriorated section and should help materially our water supply to the monument. Several informational and directional highway signs were relettered and given a coating of linseed oil. Between guided tours Ranger Richert has managed to remove all weeds from the rooms in the ruins.

Edward W. Bright
Custodian.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Report 1ml.

Walnut Canyon National Monument
Flagstaff, Arizona.

May 28, 1948.

MEMORANDUM for the Regional Director, Region Three. 19

Weather. No precipitation and many days of heavy wind. Two pinyons blew down on entrance road, a large Douglas fir came down the cliff to block the ruins trail, light fixtures on Admin. Bldg. porch were damaged, the radio antenna was down twice, one door of Admin, Bldg. was badly damaged, the telephone line was down in several places, etc.

Visitors. Of the 2,169 total, 1,571 were contacted, and it is estimated that 1,526 made the ruins trip unattended. There were 41 picnic parties with 135 people.

Park Service people who were here on official business included Gordon Vivian, Erik Reed, Leland Ramsdell, Raymond Rundell, Charlie Carter, Edward Zimmer, Albert Schroeder, James Clancy, Jimmy Brewer and David Jones.

Activities. The picnic tables have been painted, our fire suppression equipment overhauled, and some repair work done on telephone line in addition to the routine chores.

Our 1934 Ford dump has been put up for sale, and a new International dump is supposedly on its way.

Master Plan & PCP. A new Master Plan was received during month, and several new projects added to the PCP.

Rehabilitation. A contract was awarded for the re-roofing of the Administration Building.

Personnel. Ranger Anbuehon returned to duty from sick leave May 13, and this became a 2-man monument except for twodays he spent at an USFS fire in Kendrick Park.

Last year's seasonal Ranger, Robert H. Viklund, entered on duty as a trail laborer May 24. Six drums of bitumuls have been procured for him to sprinkle on the trails around the parking area.

WHITE SANDS NATIONAL MONUMENT
ALAMOGORDO, NEW MEXICO

May 25, 48

MEMORANDUM for the Regional Director, Region Three.

MAY TRAVEL - 1948	1948 TRAVEL YEAR TO DATE
Visitors 6708 Cars 1699	Visitors 52,672 Cars 15,855

This month does not break all records but is well ahead of last year. Six thousand seven hundred sixtyeight visitors in sixteen hundred ninety nine cars visited the Monument during the hours we were open. A few trial checks show us we are missing a large number who come in after hours but neither funds nor personnel permit spreading out much thinner than we are now. We will start split shifts next month, however, which will help this some.

Heavy winds have prevailed throughout the month and many picnics were ruined as a result. No doubt visitation has been affected some by these storms. Roads have been kept open but in some cases only one way and even this by great effort on the part of my road man.

No official trips were made by the Custodian. Ranger Steel returned from his trip to some of the northern areas and Ranger Chittum immediately left for Pyote, Texas after some more war surplus property. Considerable trouble was experienced on the latter trip and it was necessary to order a trailer tire from Los Angeles with a resultant delay of a few days. Joe Sheppard went down with Harold after the tire was received. Chittum is now on a trip to Taos for the Lions State Convention. Harold works hard in his Lions Club and we were proud he was chosen as a delegate.

Many school groups from points in Texas, New Mexico, Oklahoma, Kansas, Colorado, and Arizona have been in and, of course, all seemed to have a good time. Several scheduled Army picnics have taken place and the New Mexico Public Health Service visited White Sands for the picnic closing their annual meeting.

Seasonal Ranger Schaffner is taking Leave Without Pay this week to complete work for his Master's at New Mexico A. & M. at Las Cruces.

WHITE SANDS NATIONAL MONUMENT
ALAMOGORDO, NEW MEXICO

Monthly Report May 25, 1948
(2)

He will report for the summer stretch next Saturday. Ray assists in our museum contacts and certainly "assists" on questions regarding our plant life. I believe I mentioned before, his thesis for his Master Degree is "Plant Life of the White Sands".

Concession gains continue and, like ourselves, they are confronted with long hours and little help. No complaints have been received in this Office on this, or any other phase of our activity.

We have had several visitors from our own Service. John Doerr of the Washington Office, Matt Hodge and Bennett Dale; Dr. & Mrs. John Noll, Paddy, and Mrs. Zoll's sister; Manny and Elsie Saunders; Carter and Ed Zimmer were in a few minutes; and former ranger and Mrs. Reid of Aztec Ruins.

Surfacing of U. S. 54 from Tularosa to Carrizozo is now virtually completed giving us a paved short cut to Albuquerque and the central part of the state. This should help some on travel too.

Joe Shepperd met with a little trouble in helping Ranger Chittum change a tire on our big trailer. The heavy tire and wheel slipped and caught the end of Joe's little finger between it and the trailer bed so now his little finger on his left hand is truly a "little finger", the tip being donated to the great state of Texas.

Johnnie Paris,
Custodian.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

May 28, 19 48

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Wupatki National Monument for the month of May 1948:

Visitors this month: 448 Travel Year to date: 2193

Weather: The past month has been warm, dry and windy broken only by three days in which any precipitation occurred- a total of .06. The maximum temperature was 92°, the minimum 41°. Fire danger is high.

Roads: The roads, while not acceptable to most visitors, are in fair condition for this time of year. The approach through Sunset Crater is passable, although no traffic is being routed from Wupatki up to Sunset.

Travel: Previous records for the month of May were exceeded and our figures show a 27% increase over last year. Almost half of the Wupatki Ruin visitors come through from Sunset Crater.

Cooperation-Outside Agencies: A total of 89 man hours was spent on fire fighting for Coconino National Forest. The O'leary Basin Fire broke out again the last of April and Maintenanceman Bean assisted along with some of our Navajos. At the request of the Forest Service Custodian Jones and Mr. Bean assisted on the supervision of the Kendrick Park Fire. The disadvantage of this cooperative agreement is that it takes us away from our normal duties, but it does give experience on large fires in varying capacities and provides us with more experienced fire crews among the Wupatki Navajos.

Publicity: Apparently we received a five minute broadcast from KTAR in Phoenix this month over Howard Pyle's program. The Flagstaff station prepared some excellent programs from material furnished them. Considerable newspaper publicity was received prior to the visitors guided by the Cavaliers, a local organization promoting travel to scenic spot of this region.

RECEIVED MAY 28 1948 NATIONAL PARK SERVICE

Personnel: Ranger and Mrs. Bob Upton left on May 17 for Petrified Forest National Monument where Bob takes over the job as Assistant Naturalist. We shall miss Bob on the job and both of them for their friendly way of living.

Bob Euler of Arizona State College is temporarily filling the job at Sunset Crater, having entered on duty the 24th. A graduate student in economics and archeology, Bob is planning to continue his work at the University of New Mexico.

Custodian Jones took one week of annual leave in April to work on the editing of a movie of this area.

Visitors: Eps personnel visiting the area included Gordon Vivian of the Stabilization Unit at Chaco, L. F. Rumsdell of the Director's Office accompanied by Ray Rundell of Grand Canyon. We also had the pleasure of meeting NPS Collaborator and Mrs. Louis B. Lundberg of San Francisco.

Organized groups visiting the area included the Flagstaff Cavaliers and party and fifteen Forestry students from Colorado Aggies.

Grazing: A few of the CO Bar cattle occasionally drift over on our land, but the majority have already been moved to summer range. No difficulty was experienced with Kellams cattle this past month and he has recently moved most of his stock up into higher elevations. Chick Kirby, permittee on Coconino National Forest in this vicinity, has moved all of his stock and very likely will not be back next winter.

Spring Flow:

The flow of Wupatki Spring tumbled this month from 1028 g.p.d. to 421 gallons. As usual Hiener did not show as sharp a decrease, the flow being 1025 g.p.d. compared to 1216 gallons last month.

Activities of Outside Agencies: Applications for archeological excavation permits were received from the Museum of Northern Arizona and forwarded.

General: Rehabilitation of house trailers has been the major interim project of the month. One of our Onan Light Plants has been giving us considerable trouble. Twice during the month it broke valve springs. Repair facilities for automotive equipment provide By the Forest Service Regional Repair Shop in Flagstaff have been very satisfactory to date. It is a convenient and economical arrangement for us.

NAME Russell L. Mahan

TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.) count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

RECEIVED JUN 1 1942 NATIONAL PARK SERVICE

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8mI) and 9 (Report 9mI).

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS ENQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME Meredith M. Cuillet

TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

~~Lack of help and pressure of other duties did not allow for as much interpretive trips as we would have liked. The Custodian was on leave four days.~~

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

RECEIVED MAY 27 1938

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Dates due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8M) and 9 (Report 9M).

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

An additional 43 people, local residents, here to use telephone or on other business were also contacted.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

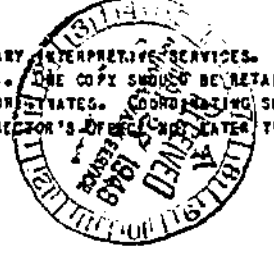
UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.



COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COOPERATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NO LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs" "Closed for season" "Naturalist on sick leave", etc.

Approach road to trail opened on May 6th. Temporary ranger entered on duty May 17, 1949.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

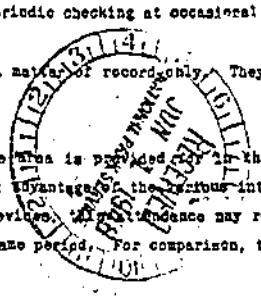
CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, museum collections, etc.). Count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and Tours, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.



INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, the total attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Dates due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

TITLE In Charge

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Ranger on duty as of 24th May when temporary assigned to area. Use of column 1 under Unattended Interpretive Devices not clear- please be more explicit.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. ~~Archaeologist on Temporary Duty Tumacacori May 8 - 30.~~

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR AT AN INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATION, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENT ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME Willis Brewer

TITLE Acting Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

* Estimate.

** Visitor total includes 41 runarounds

* INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS ENQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

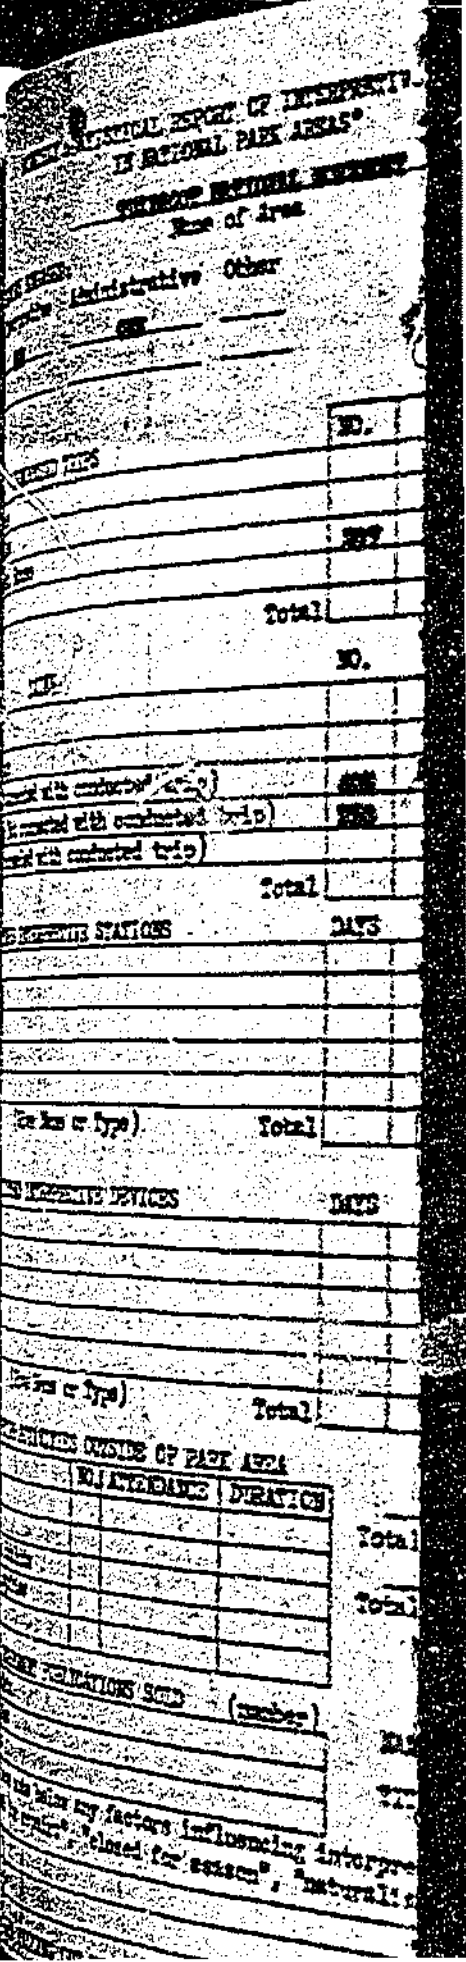
UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.



COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME David J. Jones

TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads. Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, that is, the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

Region Three Office--Mr. King			

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Region Three
Santa Fe, New Mexico

July 8, 1948.

MEMORANDUM for the Regional Director, Region Three.

Following is the narrative report for the naturalists of the Southwestern National Monuments for the month of June 1948:

Staff Activities - General

Naturalist Dale S. King was in the office during the entire month except for a one day trip to Bandelier, June 12.

Archeologist Charlie R. Steen took five days sick leave, made one trip to Bandelier and one to Navajo.

Interpretive Administration

A short descriptive statement was made concerning duties of the P-1 Archeologist at Tonto National Monument.

Several applicants for seasonal employment were interviewed in the office, and some letters written concerning the subject.

Interpretive Overhead

An unusual number of informational requests were answered, including one asking about Spanish Treasure at Tumacacori.

A set of slides were selected for use by the Regional Director in an outside talk.

Planning - Other Than Museum

Master Plans were reviewed and signed for Wupatki and Sunset Crater.

Public Relations and Extensive Services

Several sets of photographs were selected and mailed to authors upon their requests.

Custodians of archeological areas were circularized to instruct them to send kiva stones to La Junta, Colorado, where a boy scout troop

famous for its study of Indian Lore is building a club house in the form of Chaco Canyon's great kivas.

Progress of Exhibit Plans and Projects

King spent considerable time helping in the selection and purchase of fluorescent lighting for the Walnut Canyon Museum, as well as ordering materials for the museum installation there.

One set of printed labels was ordered for Bandelier Museum from the Director's Office, and Architect Raymond Lovelady, working on museum funds, hand lettered a set for another case. Installation of these two last cases will be completed during the first week of July, and will, for the first time, fill the exhibit space in the third room at Bandelier.

Considerable time was spent by King working with Architect Lovelady in completing a proposed plan for a large model to be placed at Montezuma Castle. This plan will be sent to the Director for comments and improvements by the Museum Division early in July.

King re-worked the prospectus and preliminary museum plans for Walnut Canyon which he had begun in 1942. At the end of the month the plan was in the hands of a typist. It will go to the Custodian for review early in July. Architect Lovelady completed the illustrations for the last five of twelve pages.

Research and Observations

Stoan made the trip to Navajo to see whether anything could be done about salvaging prehistoric burials which are washing from the valley fill below Inscription House. During the last ten years the arroyo in Nitsie Canyon has advanced up the canyon more than a mile, and, in front of the ruin, has cut a channel 35 feet deep and 50 feet wide. Most of the cutting was done in the early 1940's and at present the arroyo contains a good stand of cottonwoods, willow, and carrizo. After rains the burials wash from freshly eroded sections of the vertical arroyo walls, but the expense of salvaging the artifacts which remain in the fill would be too great for the National Park Service to attempt at the present time.

An excellent reconnaissance report was received from Dr. D. Elden Beck of Brigham Young University describing a trip made last summer at Arches National Monument. It is unfortunate that there are no available funds to duplicate this report for wide distribution.

Considerable time was spent in assembling equipment to be used by the survey and excavation party from Adams State College, working this summer at Bandelier National Monument. An attempt was made to find bronze markers with which to mark permanently important sites found in the survey.

King spent one half day on the pottery section of the Nalakihu report. The pottery section as well as the bibliography are now typed, and the report probably will be submitted to the Museum of Northern Arizona early in July for printing.

A conference was held with David De Harport of Harvard University, who will work at Canyon de Chelly National Monument under official permit this summer, making an archeological survey there.

Region Three Office Loan Library

Received during the month were 22 books, 40 periodicals, and 46 reprints and leaflets, making a total of 108 accessions.

The more important books received were:

Ashton, Ruth E. - Plants of Rocky Mountain National Park. Government Printing Office, Washington, 1948.

Brockman, C. Frank - Flora of Mount Ranier National Park. Government Printing Office, Washington, 1948.

Cummings, Byron - Kinishba, A Prehistoric Pueblo of the Great Pueblo Period. Hohokam Museums Association and the University of Arizona. Republic and Gazette Printery, Phoenix, 1940.

Foster, George M. - Empire's Children, The People of Tzintzuntzan. Smithsonian Institution, Institute of Social Anthropology, Publication No. 6. Imprenta Nuevo Mundo, S. A., Mexico, 1948.

Fitzpatrick, George (editor) - This is New Mexico The Rydal Press, Santa Fe, 1948.

Gibson, Charles - The Inca Concept of Sovereignty and The Spanish Administration of Peru. The University of Texas Institute of Latin American Studies, Latin American Studies No. 4, Austin, 1948.

Howells, William - The Heathens. Primitive Man and His Religions. Doubleday and Co., Inc., Garden City New York, 1948.

Lillard, Richard G. - The Great Forest, Alfred A. Knopf, New York, 1948.

O'Neale, Lila M. and Bonnie Jean Clark. Textile Periods In Ancient Peru. III: The Gauze Weaves. University of California Publications in American Archaeology and Ethnology, Vol. 40, No. 4, Berkeley and Los Angeles, 1948.

Osborn, Fairfield – Our Plundered Planet
Little, Brown and Co., Boston, 1948.

Steward, Julian H. (editor) – Handbook of South American Indians, Vol. 3, The Tropical Forest Tribes. Smithsonian Institution, Bureau of American Ethnology, Bulletin 143, Washington, 1948.

Wagner, Robert C. – Cultural Geography of the Modern Tarascan Area. Smithsonian Institution, Institute of Cultural Anthropology, Publication No. 7. Government Printing Office, Washington, 1948.

Southwestern Monuments Association

The most important news of the months activities is that receipts from mail sales were considerable, are still coming in, and probably will enable us to expand our mailing list rapidly. Details are given below in the Treasurer's report.

Proclamation No. 2787 by President Truman, May 28, 1948, added to Aztec National Monument the Hubbard Property which was donated by this Association.

An excellent set of photographs taken by William Lippincott, Indian trader at Wide Ruins, Arizona, was received for inclusion in a proposed booklet this Association probably will publish during the autumn months. Also received was the complete manuscript from Arthur Woodward of the Los Angeles Museum.

Correspondence was had with Reverend Victor H. Stoner, of our Board of Directors, concerning a project whereby he will prepare and write a chronology for Tumacacori National Monument.

The full report of Treasurer Alan Vedder follows:

"During the month of June I worked 21 days. Most of the time was spent on filling orders from the mail broadside (we took in 2722 to June 30th), taking care of mail, working on quarterly inventory turn-in from the monuments, and making HQ turn-ins (two), each of which takes a half day due to increase in sales. This month we sent out an additional 2,699 envelopes with our enclosures, including book list, etc. This really completes our first mail broadside, which amounted to 12,527 envelopes. Those working on the mail list or giving advice had a chance to guess how much money we would take in, with the prize a choice of any book we sell. Approximately an advisor won, our Chairman, Mr. Davis.

"Two disbursements were made this month, due to special requests and the fact our fiscal year ends June 30th. Two deposits were made; 325 the fact our fiscal year ends June 30th. Two deposits were made; 325 letters and covers, not including our mail list, sent out, including 75 letters and 84 purchase orders.

"Barbara Vedder worked 68 hours. Her time was spent at the addressograph machine, stuffing envelopes, filing stencils and cards, classifying business reply cards and filing. Also much time spent on wrapping packages and mailing them."

Visitors

Jack Turney, Thomas Onstott, Drs. Herbert E. Gregory and Harry P. Mera, Helmut de Terra, and Chief of Information Herbert Evison.

Ruins Stabilization

Stabilization of Tyuonyi Ruin at Bandelier National Monument was completed at the end of the month. A small crew of Cochiti and Santo Domingo Indians, supervised by Ranger Onstott, have done an excellent job. Work will continue at Bandelier during July to complete stabilization of Long House Ruin.

On the return from Navajo, Steen visited Walnut Canyon and discussed with Custodian Scaubion a ruins stabilization job which will be started this autumn.

Projects for July

King will Leave Santa Fe July 3 to go to Walnut Canyon where he will spend more than a month making a preliminary museum installation and visiting several Arizona monuments on side trips.

Steen will spend most of the month handling office overhead, but will take short trips to Bandelier and Chaco.

Charlie M. Steen,
Archeologist.

Approved for Distribution _____, July 8, 1948.
Acting Regional Director.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Arches
NATIONAL MONUMENT
Moab, Utah

June 27, 1948

MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Arches National Monument for the month of June, 1948:

GENERAL: A trip was made to Wupatki National Monument from June 16th to 18th to pick up a water tank for use at Natural Bridges National Monument. A stop was made at Monument Valley on the return trip.

TRAVEL: Travel to this area again hit an all time monthly high with 423 cars and 1407 people visiting the area. In checking actual daily travel against the registers on several days it was found that we are losing from 35% to 50% of our travel due to non-registration. At present we add 25% to the actual registration for the monthly travel figure. We had 1158 visitors at the Windows section, 314 in the Devils Garden and 107 at Delicate Arch, the figures for the Devils Garden and Delicate Arch are actual register figures.

INTERPRETIVE SERVICES: Our contacts approximately doubled those for May, with 258 people being contacted at headquarters, and 530 people were contacted at the Windows, etc. A total of 877 people visited the area unattended. Three caravans were conducted to the various sections with 14 people and 18 parties with a total of 133 people were conducted through the various sections of the monument.

WEATHER: The weather continues unusually cool for this time of year. Good rains fell on June 2nd, 7th, 11th, 21st and 22nd. The storm of the 21st and 22nd laid a cover of new snow on the LaSal mountains. High winds blew on two occasions during the month.

ROADS: Our roads have been in good shape throughout the month. The state graded all roads, both approach and monument, from June 3rd to 5th and graded the approach road again on June 22nd and 23rd, after our heavy storm on June 21st. This storm washed out several spots on the approach road and also two culverts in the Windows section.

TRAILS: The Courthouse Towers trail was signed during the first part of

of the month. Arrows mark the trail for the entire distance from headquarters and name signs have been placed at all important features. This completes our trail marking program for this year and makes the Windows, Devils Garden, Delicate Arch and Courthouse Towers sections readily available to visitors without a guide.

INSPECTIONS: An inspection was made at Natural Bridges National Monument on June 7th and 8th. All trails were gone over at this time and it was found that the trail from headquarters to Kachina Bridge was badly washed out. It has been impossible to employ labor to improve this condition. The headquarters area was in good shape.

PRIVATE LANDS: All papers have been completed on the purchase of the Turnbow Homestead from Mr. Emmett Elizondo and have been sent to Regional Office for final action.

NATIONAL PARK SERVICE VISITORS: Mr. Jesse Nusbaum of Regional Office, in company with Mr. and Mrs. Wentworth of California, spent May 31st in the monument and made a trip to Grand Point on June 1st.

Richard Sims of Regional Office, with Mr. Philip Ruderer of the Director's office, visited the area on June 15th. A trip was made with them to Gray's Pasture and Grand Point on that date.

Ralph Lazaiter of the Regional Office arrived in Moab on June 20th with his wife and daughter. They were shown over the monument on the 21st and on the 22nd a trip was made to Deadhorse Point with the Lazaiters and Superintendent Reso of Mesa Verde National Park.

NEWSWORTHY VISITORS: Jack Breed of Tucson, Arizona arrived on June 1st. He intended to cover Monument Canyon, The Needles and Natural Bridges but received word that the pictures taken on his Escalante trip, about three weeks duration, had not turned out well, so he returned to Tucson on June 6th to check on this matter. I recently received word that he would return in the near future.

WILDLIFE: A visitor from Salt Lake City reported seeing a female mountain lion, with two cubs, in the Courthouse Towers section on May 30th. Stated he watched them for several minutes with field glasses.

Rattlesnakes seem to be more prevalent this year than they have in the past. Visitors have reported them on two occasions in the Windows section. One was found along the slick-rock trail to Delicate

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

24 June 1948

MEMORANDUM for the Regional Director,
Region Three.

There follows the report of activities in Aztec Ruins for June 1948.

WEATHER. The usual fine weather for this time of year has prevailed, altho rather unusual rainfall has occurred with a total of 1.89 in. Travel has increased quite rapidly and for the fiscal year is some 8% ahead of last year.

MAINTENANCE. Unable to obtain logs for repair to our small kiva in the plaza of the Ruins we have been cutting them ourselves and during the month have cut a sufficient number for this job.

We removed our domestic well pump and motor for repair after it failed due to burning out of field coils. For the interim we are using a rented pump and motor.

INTERPRETIVE SERVICE. There were 1440 visitors guided thru the ruins in 247 parties and 1206 visitors in 203 groups visiting the museum.

MUSEUM ACTIVITIES AND EXHIBITS. Museum cases were cleaned and artifacts requiring it were treated with moth repellent chemicals. Various artifacts were rearranged for better presentation.

VISITORS IN STATE. Travel this month was somewhat disappointing but ran over that of last year with 1206 visitors from 41 states, Alaska, Hawaii, Canada, Japan, Korea, Switzerland, Italy and Brazil in 203 cars.

PERSONNEL. Donald T. Rippey, temporary park ranger, entered on duty for the summer season, June 7. Mr. Rippey is a [illegible] student and [illegible]

Superintendent,

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

July 1, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of the activities at Bandelier Nat'l Monument for the month of June, 1948.

WEATHER

The weather was ideal here in the Monument during the month of June. Fifteen days of the month registered a maximum below 90 degrees. The other fifteen days balanced between 95 and 90.

A cloudburst on the 19th threatened to wipe our roads and trails off the map. A rainfall of .56 was measured that day at Headquarters, but was much heavier along the eastern edge of the Monument. We have enjoyed a few light showers, but, these were so light that they just kept our fire danger between moderate and high.

SPECIAL ACTIVITIES

Maintenanceman Tony Valencia made a trip to Carlsbad Caverns National Park on June 20 for the purpose of spraying DDT on trees and shrubbery there. The work done by Mr. Valencia was highly praised by the Superintendent at Carlsbad Caverns.

COOPERATIVE AGENCIES

The archaeological field school from Adams State Normal of Alamosa, Colorado moved in on the 24th and by the end of the month were well started on their summer program. The excavation of the small pueblo ruin near headquarters, L. A. 217, was started and final details for the survey of the Ramon Vigil Grant were worked out with the Atomic Energy Commission.

ROADS AND TRAILS

Except for the day of the afore-mentioned deluge on the 19th, our roads have been maintained in fairly good condition. The over-sauled grader brought to the Monument this month, is being kept busy by Maintenanceman Wendland, and the only complaints we hear now are mostly about the dusty condition.

UTILITIES

Definite word was received from the Atomic Energy Commission at Los Alamos that they will construct a power and telephone line to within approximately 1½ miles of the headquarters area. By finishing the line we may soon have power and telephone service for which we have been hoping so long. Trouble that developed with the big generator at the end of the month only served to emphasize the need for dependable power.

INTERPRETATION

In spite of the revised schedule of ruins trips including 6 to 7 parties a day instead of the 10 daily last year, there were 166 conducted tours through the ruins. Although the main usage of the Monument is by local people, there were 2513 people through the ruins.

Due to the shortage of personnel, the evening lecture program was not begun, and only one program was given. Some new film was obtained from the Regional Office to be incorporated with some on hand for new talks when the program gets under way.

MUSEUM

The labels for the Seasonal Ceremonies case were received during the month and that case is now all but ready for installation. The label explaining the figures on the glass front of the Pueblo Government case was also received.

TRAVEL

Total visitors for the month of June almost doubled that of May, and was 61% greater than the same month last year. We had a total of 5284 visitors compared to 2957 for last month. This gave us the highest single month in the history of the Monument. Most of our visitors were local, however, we note that as the days go along we are registering more out of state travelers.

CONCESSIONS

Business of Frijoles Canyon Lodge was not as good as was expected and a total of 434 lodgings were reported. This is low in comparison with the number of visitors to the area.

Some difficulty was experienced with the oil water heaters but they have been adjusted temporarily pending the revision of the existing system.

VISITORS

Dr. Helmut De Terra, noted geologist and Archaeologist, visited the Monument on June 23. Dr. De Terra is conducting research on early man under the auspices of the Viking Fund, and his visit to Bandelier National Monument was to secure Kodachromes for assem-

bly in a Southwest Slide Film for educational use.

Mr. and Mrs. Howendobler made Bandelier the 175th. area of the National Park System that they have visited when they spent two days here during this month.

PERSONNEL

Seasonal Ranger Robert Morris reenforced the Protective personnel staff, entering on duty the 19th. "Bob" is an old hand for this area and we were pleased to welcome him back for this season after he had spent the winter in school at Colorado A & M.

We have been having difficulty in finding applicants for the third seasonal ranger position, after three early applicants decided to go back to school, but it is expected that the position will be filled early in July.

MISCELLANEOUS

The Bandelier staff was very pleased to be hosts to about 30 members of the Regional Office, their families and friends, and Chief of Information Herbert Evison, at a buffet supper and an evening of dancing and cards at Frijoles Canyon Lodge on June 12. The event was sponsored by the NPS Womens Club.

Fred W. Binnewies
Custodian

Canyon de Chelly National Monument
Chinle, Arizona

June 28, 1948

MEMORANDUM for the Regional Director, Region three.

The following is a report on activities at Canyon de Chelly National Monument during the month of June, 1948.

Weather

Weather during June was about normal but with slightly more rain fall than usual. Maximum of 94 and a minimum of 48 degrees was registered during the month with .67 inches of rainfall. High winds and dust storms were prevalent throughout the month and were usually followed by light showers. Canyon travel was possible during the greater part of the period but is quite difficult at present.

Administration

Administrative and fiscal matters were taken care of but heavy travel and maintenance work precluded a great deal of time in the office. One trip was made to Gallup, New Mexico on June 8th for supplies and equipment.

Maintenance

Installing of cabinet work and painting in the ranger quarters was practically completed. Cleanup of garages and storage house after the finishing and repair of fire tools etc. was completed.

Repair to the soil and moisture revetment was completed at Antelope House and continued spreading of new plantings against the retainment wall started on.

Trails to the higher ruin area and to the White House were made and the main Channel of Canal Ruin trenched, shovel, etc. Minor repairs were also made to the ruin.

Visitor Protection

Although the headquarters area which was opened to the public a considerable increase in information, the canyon areas are slightly behind schedule and more opening may be necessary. A count of visitors showed considerably less signed the record in the Ranger Service Control 27 which month, in the month for May.

The Navajo Service is taking steps to control this by dusting and thus attempting to save the navajo crops. If the infestation reaches the canyons, controll measures will undoubtedly be taken there also.

Travel

Although slightly below last years monthly travel, we close our Fiscal year with an increase of 343 or alittle over 11 %. Travel year figures continue to show a decrease.

Visitors

Mr. and Mrs. Frank Wentworth conducted by Dr. Jesse L. Nusbaum spent several days at Canyon de Chelly, Dr Nusbaum returning to Santa Fe.

Mr. and Mrs. A.W. Warner, taking pictures and getting material for National Parks Magazine, Mr. Roman Hubbell and Party. Mr. and Mrs. Ray Manly and Clay Lockett and wife of Tucson spent some time in the canyons getting photos for a feature story on Mr. Lockett.

N.P.S. Visitors

Assistant Regional Director Davis, Mrs. Davis and Ann visited the area on June 22 and 23, leaving for Walnut canyon on the 24th. We enjoyed their visit a great deal.

Ranger Service

Mr. Zorro A. Bradley entered on Seasonal duty as Park ranger on June 6. We were glad to see him as we needs his help.

Meredith M.Guillet,
Custodian

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
SOUTHWESTERN NATIONAL MONUMENTS
~~COOLIDGE, ARIZONA~~
Capulin, New Mexico

June 25, 1948

MEMORANDUM for the Regional Director,
Region Three, National Park Service
Santa Fe, New Mexico

There follows the narrative report for Capulin Mountain National Monument for the month of June, 1948.

Visitors: There were three thousand visitors to the Monument during June, exactly doubling the number of visitors of last month. A total of eleven thousand one hundred visitors for the travel year to date and thirty thousand, six hundred for the fiscal year.

Weather: Temperatures have remained low for this time of the year, resulting from the unusual amount of four inches of rainfall which was reported.

Flora and Fauna: The flowers, trees and grass are all beautiful from the heavy rainfall during the month.
Ranger Homer Farr encountered six of his pet deer near the Monument road yesterday.

Roads and Trails: The custodian has been rather busy during the month keeping the roads in good condition, because of the heavy rains.

Approach to Monument Road: On June 24 the new highway marker was erected at the intersection of Monument road and highway 64. The well made and nicely painted marker is quite an attractive addition.

Interpretive Service: On June thirteenth Homer J. Farr went on continuous duty as seasonal Ranger, serving in this capacity Monday through Friday each week, contacting the ~~XXXXXXXXXXXXXX~~ visitors ~~XXXXX~~ personally.

Homer J. Farr
Ranger

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA June 25., 1948.

MEMORANDUM for the Regional Director,
Region Three.

There follows the narrative report for Casa Grande National Monument for June, 1948.

General: The water situation and the heat seem to be the main topics of conversation, and both promise to get much worse. The new Coolidge radio station which we reported would be in operation the first of June, still hasn't gone on the airbut it should in the near future. Our fears of an acute shortage of electricity haven't been realized as yet but there is still a lot of summer left.

Weather: The weather has been getting steadily warmer with over half of the days of June over 100 degrees F. and the others had enough humidity to be uncomfortable. The maximum temperature was 107 with a high minimum of 85 and a low minimum of 51.

Visitors: June 1948 - 1968; June 1947 - 1905. Travel year to date 1948 - 32,154; Travel year to date 1947 - 29,733. This is a gain of 39 over June of last year.

Interpretive Services: Of the 1944 visitors to the area, 1,211 made the ruins trip in 156 groups, averageing 44.7 minutes per trip. 733 people were here for a quick look but did not make the ruins trip.

Administration and protection: The Adamsville site was checked for trespassing and vandalism and the warning signs still appear to be doing their job. Twelve letters requesting information were answered, including one from an amateur falconer who wanted to "quietly remove" our four young sparrow hawks from the nest in the ruins and train them, promising to give them a good home and loving care.

KPS Visitors and Visitors of Note: Regional Architect Saunders was in to check our rehabilitation work. On June 11, Dr. Erik Reed was here with a group of students from Arizona State College at Tempe taking an extended tour of Compounds A, B and the Hohokam Ball Court. On June 2, 56 members of the Maricopa 4-H club, state winner at the Tucson convention visited the ruins. Devereux Butcher, of the National Parks Association visited the ruins, so Casa Grande, one of our better known Monuments may get some mention in the next edition of "Exploring our National Parks and Monuments".

RECEIVED JUN 28 1948

Maintenance: On the night of June 16 our water pump motor burned up. Maintenance man Barnett discovered and extinguished the fire. The fire was apparently caused by the failure of the switches to operate properly. The heaters on the pump switch failed to operate and the thermal switch failed to cut out when the motor overheated. The motor had to be rewound and new switches installed. Recirculator pumps were purchased and installed in all of the coolers. This should cut down our water usage considerably and should help get us through the summer, although the water dropping is due to adjacent irrigation pumps rather than the small amount we use. Mr. Barnett checked the water level and it has dropped 10 feet since March. We still have about 30 feet left to go. Three of the residence roofs were painted and the outside trim and windows on quarters 3-5 were painted. The range in quarters 2-4 was overhauled and all new parts put in.

Mechanics Activities: General repairs were made on the following equipment:

Area Worked.	Equipment.
Casa Grande Nat'l. Mon.	Ford Dump Truck Chevrolet Pick up Building and Shop Maintenance Painting and Repairs of Utility area Water pump and Sewage pump Oil barrel rocker stand Repair roof of quarters 8

Nature Notes: The night blooming cereus bloomed on June 14 and several blossoms were still in good condition at 9:00 the next morning, so they apparently weren't bothered too much by insects.

Leaves Taken: Maintenanceman Barnett returned from annual leave on May 28. Mechanic Stonehocker has been on sick leave since June 23 due to a strained back.

Trips Taken: Mechanic Stonehocker went to Phoenix for pump parts on June 18. Custodian Bicknell went to Phoenix on June 24 for parts for the two tractors.

A.T. Bicknell,
Custodian.

Chaco Canyon National Monument
Bloomfield, New Mexico
June 27, 1943

MEMORANDUM for the Regional Director, Region Three,
National Park Service.

There follows the report of activities in Chaco Canyon National Monument for the month of June, 1943.

There was a total of 220 visitors to Chaco Canyon this past month. They came from the states of:- Arizona - 1 car, 2 visitors; California - 8 cars, 23 visitors; Colorado - 7 cars, 33 visitors; Florida - 1 car, 2 visitors; Indiana - 1 car, 2 visitors; Iowa - 1 car, 4 visitors; Maryland - 1 car, 3 visitors; Massachusetts - 1 car 5 visitors; Michigan - 1 car, 2 visitors; Nebraska - 1 car, 5 visitors; New Mexico - 36 cars, 129 visitors; Ohio - 1 car, 4 visitors; Pennsylvania - 1 car, 1 visitor and Texas - 1 car, 4 visitors. These people formed 51 ruins trips with a total of 235 persons (some Boy Scouts made more than one trip), and 40 museum parties with 179 persons. The time spent with them was divided as follows:- Ranger Orem-- 40 hours, Ranger Matson - 33 hours and 45 minutes and the custodian - 28 hours and 20 minutes.

The coolest this month was 41 degrees on the 5th and the warmest was 95 degrees Fahrenheit on the 10th of the month. There was a total precipitation of 1.10 inches.

The approach roads have remained dry for the greater part of the month. Last week, one of the new graders spent three days on the short stretch between here and Sevan Lakes. We are finally getting some action. Several days ago, a transient grader came by the Monument, and it was found that it was to be here idle for 36 hours. The Trader put his own gas in it, climbed aboard and graded the road out north!

The Monument roads have been worked over by the Soil and Moisture grader and have had other work done upon them. The spillway next to the bridge is working in fine fashion. If it does not rain in the next few days, we will finish the fiscal year with the roads in good shape.

Soil and Moisture job number 882 was continued this month. Several thousand tamarisk were hauled to the mesa and placed in strategic points in an effort to retard erosion.

Some revetments were repaired with the remaining money in Soil and Moisture project 884 job 16.

The Gallup Chamber of Commerce sent the first of its sponsored tours to Chaco yesterday. The Chamber plans to send regular tours throughout the summer.

A fire training program was conducted one morning to acquaint the men with the fire extinguishers, fire tools and fire procedure and prevention. Twenty-four men attended.

Herman D. Monson reported for duty as temporary ranger on June 16. This is his first National Park Service experience. He is working hard and enjoying his work.

No radio contact with El Morro National Monument was made. The aerial broke, so that it was necessary totake down the towers. Before they were replaced, they were painted.

National Park Service visitors included Assistant Regional Director and Mrs. Davis, Superintendent and Mrs. Bryant, Architect and Mrs. Saunders and Dr. Jesse L. Nusbaum.

The 4000 gallon water tank, which was brought in last fall and assembled, was caulked and connected. Nevertheless, many leaks developed, but we are gradually finding them. When we first put the water in, the little Dutch boy who put his finger in the dike would have had a tough time for lack of enough fingers.

The new automatic water heater was installed and is functioning perfectly. The custodian appreciates it, but not nearly so much as the HCNP.

Dr. Paul Reiter, of the University of New Mexico, was out on the 5th and 6th to pick up some equipment from the Summer School for camps being held elsewhere.

The Trader reports th t rugs are coming in very slowly this month, but that his general sales are holding up very well. He proudly states that he has just bought and installed a Security Account Register, which is a better method of keeping books than he has had in the past and it makes for better satisfied customers.

Projects for the ensuing month: find the rest of the leaks in the tank (there are only about 800 bolt holes besides seams, etc!!), finish with the Soil and Moisture jobs. Initiate repairs on the residence and office.

There follows the report of Archaeologist Gordon Vivian.

Irving McNe l, Jr.
Custodian

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

..... NATIONAL MONUMENT
Chaco Canyon National Monument
Bloomfield, New Mexico
June 25, 1948

..... 19.....

MEMORANDUM for the Custodian,
Chaco Canyon National Monument.

There follows the narrative report of Mobile Unit activities in your area during June 1948.

Working conditions have generally remained good except that the sand storms are a little thicker than usual at this time of year. One half day was lost to rain. The squaw dance season is with us again and as was expected a few of the crew have never returned from the first one. The Navajo Police are doing a fine job this year in policing these often drunken brawls and as a result of their good efforts our best truck driver is spending 15 days in the Fort Defiance jail.

All of the bids put out for cement were refused but we have been able to beg enough on the open market to keep the concrete work going. Four trips have been made out to Gallup and Durango for cement and freight. Another trip was made to Farmington to tow the Chevrolet dump truck in for clutch and transmission repairs. An additional four trips were made to the San Juan for sand and gravel and two loads of poles for the revetment east of Chettro Kettle were hauled from Otis.

Raymond Rixey took five days annual leave, May 28th to June 4th. I took one day on the 16th.

The major project of last month, the repair of the north half of Kiva G, was completed during the first week of the report period.

The remainder of this month at Chettro Kettle was spent in the central area of flood damage — where the water entered the ruin through rooms 45 and 46.

The overhanging and broken sections of the long south walls of 36 and 37 , the walls which retain all of the fill against the north half of kivas G and H, were taken down and rebuilt with reinforced horisontal members. Forty two man days were expended here.

The north exterior wall of the ruin where it was reduced below ground level was cleaned up, shattered sections removed and the central part of the break relaid to a level just above the present outside surface. Partition walls of rooms 44,45, 46 were brought up to buttress the repaired section.

All retaining walls and buttress sections are laid in reinforced concrete mortar; those which will recieve less thrust, in soil-bitumen.

In this immediate area there still remain to be laid support sections for the ends of the two and a half story exterior wall, room 46.

FLOOD CONTROL::

The Soil and Moisture job # 16 is being brought to completion. The diversion channel and revetment east of Chettro Kettle, reported some 50 percent complete last month was finished, with an enlarged crew, toward the middle of the month.

The total cut made for the diversion channel was 500 feet in length. It is 19 feet in width with a maximum cut of 2.7 feet. Average cross sectional area is 43.7 square feet.

The rock and wire revetment on the east side of the channel is 260 feet long with a double row of posts every 4 feet. Rock fill between the posts is 3.3 feet wide and total depth of the rock filled basket 4 feet with an average of two thirds of the basket below the channel bottom.

The low area north east of Chettro Kettle where water ponded during the flood was drained with a channel 243 feet in length to empty into the new cut on the east. Most of the material from this work was hauled some 200 feet westward to fill the lowest area of the pond and to build an earth dike between Chettro Kettle and the cliff at the north east corner of the ruin. The dike is completed and is being covered now with rock filled rubble to prevent it from blowing.

Gordon Vivian
Archeologist

CHIRICAHUA NATIONAL MONUMENT
Dos Cabezos, Arizona

June 26, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Chiricahua for June.

Weather Conditions. Weather continues to be dry and windy. .01 inch of rain was recorded on the 8 th. accompanied by our first large scale lightning storm.

Inspections. Forester Ratcliff spent the 25th and 26th of May at Chiricahua inspecting fire fighting equipment.

Maintenance. In addition to our current general maintenance, our 3 KW light plant was overhauled by Operator Marble: the second time in six months. Approach road signs were repainted, several moved, and some replaced. Approximately ten man days were spent on the telephone line, changing the section from Headquarters to Paradise through the heavy timber from a metallic to a grounded line. It is hoped that this experiment will give us good service and prevent the line going out every time a limb or tree falls on it. A new telephone was received and installed in Ranger Ringenbach residence.

Approach Roads. The work on the approach road from Douglas off Highway 666 is progressing rapidly and should officially be opened the latter part of July. Gravel and oil have been laid to a point about 5 miles from the monument boundary, two thirds of which has been totally completed by seal coat and dust palliative. Other entrance roads remain in poor condition, dusty and rough.

Interpretive Service. Thirty three members of the Workshop Group of New Mexico were given a conducted tour of two hour duration on the 15th.

Travel. Travel fell slightly below that of June of 1947 but increased over that of last month. 1,371 visitors overlooked the poor approach roads to enter Chiricahua, 1,190 of whom were given interpretive service.

Forest Fire Protection. 3,000 acres of grassland and chaparral were destroyed by fire on May 27 on Forest Service land located some thirty miles east of the monument boundary. Terrific high winds made control difficult and an estimated 250 fire fighters were employed.

The Custodian spent a half day aiding the Forest Service fight a small lightning fire some 200 yards outside the monument's southeast boundary. Area burned was less than a half acre.

Special Activities. A trip was made to Lordsburg by the Custodian on the 5th for surplus fire extinguishers to be distributed through the Region.

Personnel. Lewis Roscoe Boffacker assumed the temporary ranger duties on June 17. We're glad to have Lew back again this summer.

Water System. Two potential spring sites were cleaned out and flow readings are being taken at the present time.

Clair V. Cooke

Clair V. Cooke,
Custodian.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

~~El Morro~~ NATIONAL MONUMENT

~~Ramah, New Mexico~~

~~July~~ June 26, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities in El Morro National Monument for the month of June, 1948.

WEATHER: The unusual amount of precipitation, 2.95 inches, has brought out an abundance of green grass and flowers and the whole country looks like it normally does in mid-July. Maximum temperature reached 89 degrees and the minimum dropped to a near freezing of 34 degrees.

TRAVEL: For the fiscal year of 1948 there is shown a decrease in travel of 12% and also a decrease of 30% for the travel year to-date. These decreases can be attributed to the very heavy snows which made our roads impassable to most tourists during four months of winter. This month's travel show an increase of two visitors over the same period last year. During the report period, from 21 states and two foreign countries came 361 visitors in 115 cars. The tour of the inscriptions was made 330 people and 11 people came for information only

APPROACH ROADS: Both roads were graded by county and state graders and are in, what we term, excellent condition, although the tourist doesnt agree with us. Line and grade stakes are coming up like asparagus between Ramah and the Ice Caves, but there is no definite dope on when or how much construction will be done this summer.

NPS Visitors: On May 31st. John & Ruth Aubuchan with their daughter and son-in-law arrived and made a flying tour of the inscriptions. We hope next time they come they will have a little more time. Kenney & Elsie Saunders arrived shortly after John & Ruth's departure and I prolonged the inspection of the Rehabilitation project so ~~that~~ we had them trapped for lunch. On June 21st. Mr. & Mrs John Davis and daughter Ann arrived and spent the night, but after the rough treatment they ~~§§§~~ received I dont think they will ever want to return. Mr. Davis suffered a wrenched back, painful insect bites and all spent a sleepless night getting in and out of the rain. We are sorry all this had to happen at El Morro and promise to hide all wheelbarrows, DDT the whole area, and have the weatherman on the ball next time.

PERSONNEL: O n June 14th. Stanley R. Swatzell , entered on duty as Seasonal Ranger. With his help I hope to get all reports in on time for a change.

GENERAL: Besides attacking reports a great deal of outside work has been done, ie. wiring of the Ranger Cabin, pouring of concrete blocks for the two generators, setting one generator and poles plus the s stringing of wire from both houses to generator, cleaning of chlorine tanks and in the middle of all this the custodian found time to take five days annual leave.

Number of copies of free publications on hand as of the end of June, 1948.

2-fold Spanish Edition——————3725

2-fold English Edition——————— 520

Custodian.

RECEIVED
SEP 1 1948

[redacted]

[redacted]

[redacted]

[redacted] from the Regional Director, Region Three.

The following is a report of activities at [redacted] for the month of June, 1948.

General. Rains during late May revived the farmers' hopes for a bumper bean crop. Beans in the vicinity are up and look good. Heavy winds on June 21 "sanded out" several hundred acres around Chamisal, and did some damage in this area.

Weather Conditions. Favorable. Rain for the period totalled 1.87 inches. A maximum of 94° was recorded on June 10 and 17; a minimum of 39° on May 27.

Special Activities. The custodian was in the Regional Office June 8 & 9 discussing Monument business. War Assets plumbing fixtures were picked up at Bruns.

On June 14 & 15 we visited Carlsbad Caverns National Park.

June 20 to 22 to Big Bend National Park on a fire unit.

Maintenance. On May 26-28 a plasterer from Mountainair replastered the living room. It was necessary to remove the plaster down to the scratch coat, as the previous finish coat applied when the house was built, was too soft to hold a refinish.

On June 18 the pin which holds the intake valve on the compound pump broke. This allowed the valve to go inside the cylinder where the piston promptly made a pretzel out of it. On June 19th the custodian spent the day canvassing Albuquerque for new parts, but with no luck as Corbers who formerly handled Witte engines gave up the agency in 1941. An order was forwarded to the factory in Kansas City, but no reply as yet.

On June 14 Ranger Steel, White Sands, delivered the old White Sands contact station to Cran Quivira. This will be converted to a storage shed as soon as possible, and should alleviate some of the present congestion.

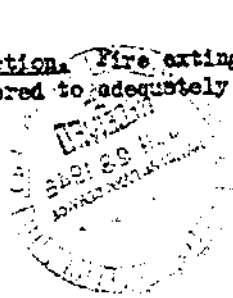
File No. 2.
White Sands National Monument

The same rains that brought the beans up have greatly encouraged the weeds in the Mission, necessitating another burning this month.

Repair and Rehabilitation. Not much was accomplished on repairing the old custodian's residence due to lack of funds and difficulty in securing a plumber. Plumbing rough-in should, however, be completed this week.

Approaches to Monument. Maybe election year has no bearing but the road to Mountainair was graded twice this month. The Carrizozo approach has not been worked but is in fair shape.

Interpretive Service. 51 parties totalling 186 people were guided through the ruins. Average trip time 44 minutes.



Increase or Decrease in Travel. There was a noticeable increase in cars entering the Monument this month as compared to last year; however, they brought only 5 more people. Travel for the year remains below that of last year.

	CARS	VISITORS
June 1948	85	266
June 1947	69	261
Increase	16	5
Percent Increase	23.2	1.9
This Travel Year	378	1116
Last Travel Year	420	1438
Decrease	42	322
Percent Decrease	10.0	22.39

Visitors. Joe & Betty Toulouse on June 20

Forest Fire Protection. A trip to Big Bend on June 20-22. The fire was OK when we arrived.

Building Fire Protection. Fire extinguishers were recharged this month and enough more ordered to adequately protect the buildings.

William L. Bowen,
Custodian.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
GREAT SAND DUNES NATIONAL MONUMENT
MOSCA, COLORADO

June 27, 1948

MEMORANDUM for the Regional Director,
Region Three.

There follows the report of activities in Great Sand Dunes National Monument for June, 1948.

WEATHER. Still remains most unusual for this report period. The grass has finally turned green and all vegetation is thriving with the excessive amount of moisture. The San Luis Valley is still flooded with water, but the flood tension has lessened since the Rio Grande River is lower and within its banks.

The Medano continues to run at its high clip and out-of-state visitors think a bridge should be constructed to allow them to reach the sand dunes with dry feet. However, they are most enthusiastic about the area and the fun they had when they went wading, and come back to headquarters to wash off the accumulation of sand between their toes.

A minimum of 34 degrees was registered on June 20. The maximum of 85 degrees was reached on June 5 and 16. The high minimum was 56 degrees on June 17. The low maximum was 46 on June 19, when a severe hail storm struck and dropped the mercury from 76 to 46 in less than an hour.

Snow fell on June 22, melting immediately at headquarters, but recovering the Sangre de Cristo Range. Rain fell on May 31, June 2,7,11, 19 and 22; hail storms on May 31 and June 19.

There were 9 partly cloudy days, 8 cloudy days and 14 clear days. The wind blew very strong on 9 days.

Too much water is as bad as not enough and we will exchange Colorado rain for Arizona sunshine, (At present).

TRAVEL. One thousand nine hundred fifty-six visitors in four hundred seventy-six cars visited the Sand Dunes during this report period. Thirty states and the District of Columbia were represented. Eight hundred twenty-six people took advantage of our picnic areas and of these, ninety-one people camped over night.

TRAVEL FOR THE FISCAL YEAR. Figures for this fiscal year are much higher than anticipated. 1948: Cars, 3,948; Visitors, 15,989; Visitor days, 24,400. 1947: Cars, 2,496; Visitors, 10,790; Visitor days, 12,831.

DECREASE IN TRAVEL. There is a decrease of twenty-seven visitors in comparison with this report period of a year ago. For June, 1947, there were 427 cars and 1963 visitors. This reduction in visitors was due entirely to the poor condition of the approach roads.

CONTACT. Contact was carried on during week days as work permitted and also on Sundays, as has been the custom.

Three hundred fifty-seven cars were contacted, with a total of one thousand five hundred five visitors. An average time of ten minutes was spent with each contact, amounting to fifty-nine hours and thirty minutes.

ROADS. The approach road was last graded on May 28. The machine broke down and has been ever since in the shop awaiting repairs. Hence the road is, like last year, in very poor condition. The dry sections are full of chuck-holes and the wet sections have bogged down many a car.

One mud hole turned back many visitors, who later returned to the Sand Dunes via the Blanco road. This is rough but passable.

One irrate visitor from Tennessee stormed into the Alamosa Chamber of Commerce and aired his views on the monument approach road. Mr. Wilbur Jonhay wrote of this incident in a letter to me and requested a weekly report on the road condition. This will be done, but how much easier for everyone if the road were repaired and kept at least in fair condition.

The monument road from the entrance sign to headquarters was dragged with the rail-section drag and visitors have commented that the road is good. However, the road to the lower picnic area is in its usual poor condition. A load of gravel was hauled to a bad sandy spot in this area.

Weather has little affect upon our travel, but we know by the number of cars coming in the morning, just how conditions are on the approach road.

WE'RE LUCKY. From an article in the Rocky Mountain News, dated Alamosa, May 25. "A search was launched today for an insane man who tried to parachute over sand dunes near here while on a flight with pilot Norman Kramer. Kramer said the passenger paid a fare from here to Denver Sunday and sat with the pilot. While in mid-air the man attempted to parachute over the sand dunes, Kramer said. He kept his passenger aboard until reaching Pueblo where he made an emergency landing. Police believe the unidentified passenger was an insane man who escaped from Monte Vista."

NEWSWORTHY VISITORS. The Monte Vista Girl Scout Troop of thirty, out for a picnic on May 27. The University of Kansas, Geology Class on field trip with forty members, who camped over night.

COMPLAINTS. Many verbal complaints about road conditions and indirect complaint from visitor to the Alamosa Chamber of Commerce.

Few complaints on lack of public restrooms at headquarters from May 26 to June 7.

WILDLIFE. The tick season seems to be slacking. However, the gnats and mosquitos are steadily increasing. Most wild-life remains under cover. The first Western Tanager ever observed at this area, showed up the morning of June 23.

CORRECT FACTS. A short piece in True Magazine under Truely Yours, sets the facts straight about Michigan's sand dunes and Colorado's sand dunes. Figures supplied by the Washington Office. Oh yes, White Sands is mentioned too.

ARTICLES. Pictures and articles on Great Sand Dunes appeared in the Roto-gravure of the following papers: Milwaukee Journal, Cleveland Plain Dealer, Minneapolis Tribune, Philadelphia Inquirer and the Denver Post.

PUBLICATIONS. The Colorado W.P.A. Guide books were received after being on order for nearly seven months. Eighty copies of Poisonous Dwellers of the Desert were returned to the SNHA Association as they were not selling here, and it was understood other areas were sold out.

BIDS. The Monte Vista Heating Company received the bid to supply this area with an automatic hot water heater. It has not yet been delivered.

Since "There is no hope for the satisfied man", this custodian hopes someday to have an unfreezable water line and the HCWP speaks up for a propane stove. Then Life would be Beautiful!

Bids were sent to twelve prospective bidders in the San Luis Valley for sale of the Dodge 2x4 pickup. Glenn Curtis Chevrolet Co., of Monte Vista was the successful bidder with a price of $527.75. He will probably take possession of the car early in July.

ACTIVITIES. Usual routine duties, including hauling of gasoline, wood, ashes, garbage, and etc. Office matters were kept current.

Weekly check-up made on both light plants. Weekly clean-up of both picnic areas is usually a major day's job, especially when visitors play with the 55 gallon barrels which serve for garbage and debris. One barrel was rolled out into the Medano and "stuff and things" were scattered to---- and gone.

The office windows and doors were painted on the interior.

Several days were spent on road work and painting signs to be placed along road and at picnic areas.

The toilets were installed in the public rest-rooms at headquarters on June 7. The next day was spent in working over the childish plumbing job on the hand bowls. The installation of the toilets, incidentally, was a major job because of the enormous amount of lead that had been used on the stands of the previous bowls. This had to be chisled out carefully.

The storage barrel for the fuel oil for the furnace was placed in the light plant room and hook-up was completed with half inch copper tubing. Furnace was tested and functioned o.k.

The walls of the two bedrooms in the residence received a coat of paint which covered the damage done to walls in the installation of the furnace. The front hall was also painted.

Floors in both bedrooms were painted a tile green which is a decided improvement over "rest-room" gray.

A trip was made to Monte Vista for the extra parts of furnace, such as grates, etc. In case of fuel oil shortage, the furnace can be changed over to coal.

The oil stove in the office was cleaned and repaired after it ceased to function properly.

The settling tank on the water supply system was cleaned again and less sand is caught in the kitchen sink filtering device.

Cleaned and rearranged tool storage shed. The hail storms damaged the paper roof on this shed and it was given a coat of Zone roofing compound.

A coating of Zone was put around the chimneys of the office building in an attempt to stop leaks in the ceiling which occur after heavy rains.

The generator on the Dodge pickup was successfully repaired. This was a lucky break, as there are no longer any such parts on the market.

PROJECTS FOR THE ENSUING MONTH. Continue painting interior of residence as time permits, touch-up painting on exterior woodwork of residence, more road work and continue to contact visitors on Sundays and during week as work and time permits.

Ted C. Sowers,
Custodian.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Montezuma Castle National Monument
Camp Verde, Arizona

June 24, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly report of activities at Montezuma Castle National Monument for the month of June, 1948.

Visitors this month to Castle and Well - 3021. This travel year to date - 16,345.

Administration During the fiscal year we have had 20,437 visitors to Montezuma Castle with 7680 through the Castle. From them we collected $1883.75 in fees and taxes. These figures do not include visitors to Montezuma Well. Travel for the fiscal year is more than 10 per cent above the figure for last year.

Beginning on May 27 and continuing through June 9 we were obliged to discontinue offering a guided trip at 8:00 A. M. Since June 10 with the help of our temporary ranger, we have been able to offer 9 hours of guide service each day including the noon hour and 5:00 to 6:00 P. M.

Ranger Leding was the only employee on duty May 31 which brought more travel than Decoration Day. Numerous visitors turned away disappointed when they could not wait their turn to climb in our parties of 9 visitors per hour.

On June 3 we got an emergency call to send fire fighting equipment to Camp Verde where Barkers store and filling station were being destroyed by fire. Later the same day Mrs. Hastings took some equipment to Camp Verde in our personal car to help suppress a brush fire.

Total book sales for the quarter amounted to $362.60. Total cash collected from these sales amounted to $340.90. Our nature trail booklet has been selling for 5¢. We tell visitors that the booklet is to be used as their guide on the nature trail. They may borrow it or if they wish to take it home, we ask a nickel to cover the cost of printing. Nearly everyone who uses the booklet pays for it.

Personnel Ranger Leding was on sick leave June 3.

Donald P. Jewell, a Navy veteran, reported for duty as temporary ranger June 8. He is a senior student at Arizona State College, Tempe and has had considerable archaeological experience. He quickly learned our routine and has since spent most of his time on visitor contact.

Repairs and Construction On May 20 E. G. Broughton, Cottonwood contractor,

RECEIVED JUL 1 1948 NATIONAL PARK SERVICE

started repair of the roof of the custodian's residence. The old roof and its 15 tons of earth insulation was removed and replaced with treated wood fiber insulation covered with a built-up roof. Work was completed May 26.

On June 1 two Indians were hired to continue roads and trails maintenance. They worked five days at the Castle and one day at the Well but lacked a few days to complete the work undertaken. Mechanical failures of both pick-ups hampered this work.

Fence at the picnic ground was repaired and the chain used at our gate was repainted.

Visitors There were 2387 visitors in 740 cars to Montezuma Castle and 634 visitors in 184 cars to Montezuma Well. The count at Montezuma Well represents 17½ days of contact. Tickets sold at the Castle 760; tax but no tickets, 84; children who climbed free, 98; waiver, 1.

Contacts Total contact hours, 241.50. Hastings, 80.50; Leding, 89.00; Schroeder, 7.00; Jewell, 65.00. One hundred and ninety-five trips were made through the Castle for 960 visitors and 984 visitors were counted in the museum in 173 groups. Visitors who received information outside the ruins or museum totaled 1163.

Publicity An article by Kenneth Cornish featuring Montezuma Castle appeared in the Arizona Times for May 20.

Montezuma's Wonderful Waters was the subject of an article on Montezuma Well by Nat McKelvey in the Ford Times for July, 1948. This article was accompanied by an exceptionally good picture of the Well.

On June 19 the Hastings and Leding families attended a picnic at Flagstaff sponsored by the Museum of Northern Arizona.

On June 1 McKenzie Ward and Harry Peterson took pictures of the Castle as part of a series sponsored by the Phelps Dodge Corporation for the Bureau of Mines.

Custodian and Mrs. Hastings and Ranger and Mrs. Leding participated in an excursion from Clarkdale to Drake and back via Santa Fe Railroad in honor of Howard Pyle, program director of radio station KTAR, Phoenix. Upon their return to Clarkdale all those who had gone on the excursion were interviewed for a wire recording broadcast over Station KTAR on June 23.

National Park Service Visitors Custodian Jackson and family visited this monument and friends in the Verde Valley May 12 to 26th.

Architect Saunders checked our roof repair job on May 28.

The following excerpts have been taken from the report submitted by Archaeologist Schroeder.

Administration. Daily duty was maintained except for five days and as follows: May 24 at Castle; June 12, trip to Cottonwood in A. M. June 21 at Castle.

A supply of printed Montezuma Well Trail Pamphlets and Montezuma Well and Castle postcards were received, and sales were inaugurated June 4.

A register book was started June 5 on the first anniversary of taking up daily duty at the Well.

Museum. In the course of the month the frame and back for the museum exhibit and storage space were constructed, muslin cloth was tacked on for background, and two case tiles were set out. A portion of the exhibit on the geology of the Well has been installed, and it is planned to complete this panel and others next month.

A register and pamphlet stand was constructed and set up by the museum building for use on line days, and three additional signs were carved and set up to aid visitors, particularly on line days.

Publicity. A well written and accurate article on the Well appeared in the June 5 issue of the Verde Independent newspaper covering the Museum of Northern Arizona-sponsored diving project. This article has had its effect in increased travel as is gathered from conversations with visitors.

Research. Mr. A. E. Douglass (ret) of the T.&S.F. & C. S., who was gauging the flow of Beaver Creek, was approached by Ranger Lacey at the Castle with the idea of checking the flow at the outlet of the Well. (The figures have been received and are shown as 1,500,000 gallons per day which may be compared with the 1,555,000 gallons per day determined by a representative of the Salt River Valley Water Users Association in June, 1917.)

One visitor this month remarked that when he had visited the Well in the 1920's, the outlet once had a complete wall with only one small doorway across the entire opening. Others in the past have made similar remarks, and Mr. Breen, editor of the Verde Independent, who is interested in the archaeology of the area, inserted a question in the June 27 issue asking did there is this connection. I had passed this information on to him and expecting to see it in print.

Grant F. Hastings,
Custodian.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Natural Bridges
.....NATIONAL MONUMENT
Blanding, Utah

June 24, 48
.....19.....

MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Natural Bridges National Monument for the month of June, 1948:

GENERAL: One of the most interesting and outstanding landmarks in Southeastern Utah, "The Goblet of Venus", situated on the approach road to Natural Bridges National Monument, fell on June 17th or 18th and is now nothing but a mass of rubble. Ranger Redd investigated and stated that a pine pole was found among the rubble making it look like some visitor had tried to climb to the top of the goblet.

TRAVEL: Travel to this area practically quadrupled that for the same month last year, with 423 visitors as compared 120 visitors for June, 1947. The out-of-state travel is increasing rapidly and many of the visitors came by way of Hite, Utah, now that the new ferry over the Colorado River is in operation.

INTERPRETIVE SERVICES: Of the 423 visitors 361 were contacted at headquarters and received information regarding the trails, etc. Sixty seven people visited during the absence of the ranger. Two trips were taken to the various bridges with a total of 6 people. Two contacts were made with 3 people at Blanding, Utah. The campground was used by a total of 33 people for an overnight stop.

WEATHER: The weather was ideal practically all month. Warm days but the nights were cool. Heavy rains fell on June 21st and 20th which closed travel down for that period.

TRAILS: It has been impossible to hire a laborer on trail maintenance and Ranger Redd has found little time accomplish any of this work due to heavy travel. The trails are still passable and few complaints have been received.

ROADS: The approach road to the monument was in excellent shape during most of the month. The rains of June 20th and 21st caused some damage but the State maintenance crew have again put it in shape.

ACQUISITIONS: A 500 gallon water tank was received from Wupatki National Monument for a water supply. This will replace the two 15 gallon kegs which have been used for the last several years.

INSPECTIONS: An inspection was made at the area on June 7th and 8th and trips were made over all the trails to check on their condition.

MISCELLANEOUS: The maintenance of the road from Hanksville, via Hite, to the monument has been turned over to Stewart Campbell of the Utah Wonderland stages and he made a trip over this road with a trunk type grader during the month and has improved its condition to some extent. This is the first maintenance work that has been performed on this road since 1946.

The Utah Wonderland stages made two trips through the monument with a total of 10 passengers.

Russell L. Mahan

Russell L. Mahan
Acting Custodian

(in trip.)

NAVAJO NATIONAL MONUMENT
TONALEA, ARIZONA

June 25, 1948

MEMORANDUM for the Regional Director, Region Three

There follows the narrative report of activities in this area for the month of June 1948.

WEATHER: Generally, the weather has been more like July than the usual dry June. Maximum temperature was 89 degrees on the 10th. Minimum temperature was 36 on the 22nd. Precipitation totaled 1.07 including .64 on the 2nd. Thunderstorms were recorded on the 11th and 21st, hail on the 22nd.

APPROACH ROADS: All approach roads suffered storm damage from .64 inches of rain on the 2nd. The U.S. Indian Service road patrol came in on the 22nd. We dragged out the high centers on the 23rd and 24th. Roads at this time are in better than average condition.

VISITORS: 115 visitors arrived in 60 automobiles and 3 motorcycles.
N.P.S. Visitors: Former Custodian Bill Wilson and Kathryn visited the area on the 1st to 3rd.
Archeologist Charlie Steen visited this area on the 22nd and made a survey at Inscription House on the 24th and 25th.

NATURALIST ACTIVITY: 152 visitors received Museum and Orientation service.
79 visitors were guided to Sandal Trail in 15 parties.
62 visitors were guided to Betatakin in 8 parties.
46 visitors were guided to Keet Seel in 3 parties.
Three campfire talks were given by the Custodian. The Custodian also arranged to have 11 Navajos sing at the Campfire meeting of 42 members of the Sierra Club. Songs from the Enteh (Squaw Dance) were sung for more than an hour.
The largest horseback party ever to visit Keet Seel was outfitted by our Navajo neighbors. 41 members of the Southern group of the Sierra Club rode to Keet Seel on the 21st. With guides and wranglers the party totaled 45 people, all mounted.
On the 22nd, 21 of the above group rode to Scaffold House while 17 hiked to that fine site.
On the 23rd this party departed for Inscription House enroute to Rainbow Bridge. Archeologist Steen reported a clean area there, with no vandalism apparent. Charlie also picked up a key case and left it at Inscription House Lodge.

[redacted]

[redacted]: The attention this article has been accorded in explaining the storm damage to our roads and tracks and to reconciling the serious task of dismantling this Royal Palace, may leave this plot and marvel at such trappings but has required no pen these roads and tracks into their above practical application.

[redacted]: The May 1945 issue of Desert Magazine carried a complimentary article, entitled "Trail to Inscription Canyon" by [redacted] Richardson.

Recreation Groups of Junior Town Historical Interest very kindly forwarded this issue a copy of Desert Magazine. An article describing Inscription Canyon in this June issue.

[redacted]
Secretary

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

ORGAN PIPE CACTUS NATIONAL MONUMENT

P. O. Box 38, Ajo, Arizona

June 25, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of June, 1948.

Weather

Summer heat has restrained itself thus far to comfortably warm temperatures most of the month with the maximum readings of the thermometer mostly in the nineties. The maximum reached 103 on June 15, though, and the minimum fell to 48 on June 3. The warmest night to date was marked by the minimum of 66 on June 9. Clear skies and no moisture prevailed.

Travel

Visitation to the monument has practically stopped for the summer but international travel through the monument is ahead of that for last year. 7282 passed through the immigration station at the south end of the monument in June 1947 while 8127 passed through in the same period this year. 75045 visitors this travel year is the record to date.

General

Forester Ratcliff visited the monument from May 31 to June 4 on grazing survey and permittee problems.

Survey of the range conditions east of the Ajo Mountains was made in the area on Indian permit.

Work on the Quonset Hut quarters took nearly all the time this month.

Assistance was given Charles E. Shaw of the San Diego Zoo and in return a complete file of reptile pamphlets covering the reptiles of this section was received for the monument library (11 pamphlets).

A dead deer was found near edge of the highway. It had evidently been hit by a car.

Personnel

One day each sick leave was taken by Ranger Bean and Maintenanceman Quinn because of severe colds.

Organ Pipe Cactus N. M.

William R. Supernaugh,

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Saguaro National Monument
Tucson, Arizona

June 26, 1948.

MEMORANDUM for the Regional Director,
Region Three.

Submitted herewith is the monthly report of activities at Saguaro National Monument, for June 1948.

General

The mild temperatures of May were supplanted by higher temperatures during June, on several occasions the temperature at headquarters reached a maximum of 106 degrees. However, during the latter part of the month, high winds have been an influencing factor in bringing more moderate temperatures. On June 6, some .12 of an inch of precipitation was recorded in the forested area on the Rincons, while at headquarters it was estimated at .05 of an inch.

Travel to the monument during June has been greater than anticipated, we are averaging about eleven cars a day, with a good percentage from out of state.

The approach road from Vail Junction was graded during the month, it is much improved at this writing and several visitors have commented on its smoothness.

Special Activities

Mr. Kenneth M. Saunders, Region Three Office, made an inspection of the recently repaired roofs at Madrona Ranger Station and headquarters.

On June 4, the custodian made a trip to the Papago Indian Agency at Sells, to confer with the superintendent, regarding the recruitment of Indians for fire suppression activities.

The custodian spent the period June 11 to June 13 in the forested area, inspecting trails and facilities.

Maintenance

The Tucson Roofing and Supply Company have completed repairs on the various roofs, including the porch roof at headquarters.

New directional signs were fabricated and placed at all intersections, on both the Broadway approach and Vail Roads. We feel that much less difficulty will be experienced by visitors to the monument, with this added convenience.

C O P Y

Forest Protection

As of June 1, the regular program for fire detection and suppression was initiated. Routine patrols have been established and the Mica Mountain Lookout Tower is manned daily from 8 A. M. to 5:30 P.M. We are fortunate in having three competent Fire Control Aids, to carry out the all important work of our fire detection requirements.

On June 6, all employees except the packer and custodian, were assembled at Manning Camp, for a one day fire training program. The school was conducted under the direction of Ranger Wilde and Maintenanceman Ollie O. Barney. Following is a brief outline of the subjects covered:

1. A review and discussion of the Saguaro Fire Plan by Ranger Wilde.
2. A review and discussion of Chapter Seven, Western Fire Fighters Manual, by the three Fire Control Aids.
3. The use and care of equipment by Ollie O. Barney.
4. Practical demonstration of fire tool use, fire line construction, and telephone line repair.
5. Safety factors and proper clothing in relation to fire fighting by Ranger Wilde.
6. Group discussion, question and answer period, on all phases of fire protection.

The .12 inch rainfall on June 6, afforded some reduction in the fire danger, momentarily, but this moisture has since been dissipated due to drying winds.

Considerable difficulty was experienced with two of our radio sets during the month, however, repairs have been effected and they are now working properly.

Wildlife

The parade of birds and small mammals to the water supply in back of headquarters, continues to be an unending source of interest. On several occasions, visitors have had an opportunity to observe Road Runners, Gambel Quail and White-Winged Doves, close at hand, for the first time. Several coveys of quail make daily visits to the water pans.

Visitors

Mr. and Mrs. A. W. Werner, Lowell, Mass., members of the National Parks Association, taking photographs in the interests of the Park Service.

Travel

A total of 896 persons visited Saguaro during the month. Thirty five states were represented and Washington D. C. This is a decrease of 479 persons or approximately 35% less than last month. However, this is an increase of 124 persons over the corresponding month of June 1947, or 16%.

Interpretive Service

It has been possible to afford interpretive service to a good percentage of our visitors, although this activity has been necessarily less than desirable.

A total of 339 persons in 99 parties were given interpretive service at headquarters. This amounted to 22-1/6 hours for an average of 14 minutes per party.

Roads and Trails

The maintenance work and relocation on the Madrona-Grass Shack Trail, has progressed satisfactorily during the month. A total of one hundred and forty-five man days have been expended on this trail, during the last thirty days. The crew now working out from Grass Shack, will be moved this week-end, to a new location at Spud Rock Ranger Station. The water supply at Grass Shack is exhausted. About eight and one half miles of the Madrona-Grass Shack Trail have been worked to date. It is planned to work the lower unfinished portion during the winter months, with regular personnel.

The other trail crew, quartered at Manning Camp, will begin work on the Cow Head Saddle Trail, within the next few days.

Personnel

Howell A. Bundy resigned his position as Fire Control Aid at the close of business, May 31, 1948.

Mr. Jessie C. Hymer resigned his position as Laborer on May 31, 1948.

C O P Y

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

June 28 19 48

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Sunset Crater National Monument for the month of June 1948:

Visitors this month: 4250 Travel Year to date: 11,554

Weather: The month of June was unusually cloudy with occasional light showers which reduced the daily maximum temperatures, but did little to alleviate the fire danger.

Roads: The results of the road work performed this month will not be too apparent until the coming of the rainy season. A total of 135 cubic yards of dirt was hauled onto the soft portions of the entrance road and spread to form a thin layer. The cost of this material was very little in comparison to most of our hauling, since we obtained the dirt from a Highway Department shovel cleaning ditches in Black Bill Park. It will take rain to pack this material to form a solid surface.

Visitor Travel: With a total of 1700 persons registering visitor use increased more than thirty percent over last June. Travel for the fiscal year totaled 20,699, a figure almost double that of last year. Part of this increase reflects our using an additional 50% as the estimated non-registrants during the past fiscal year, but otherwise it is a bona fide increase.

Visitors: NPS visitors included Assistant Regional Director and Mrs. Davis with their daughter Ann and Collaborator E. D. McKee and family. Photographer Joseph Muench and family visited the area to take a few photographs.

Vandalism: Even when personnel is present in the area vandalism goes on at an alarming rate. Everyone seems to want to take away a rock specimen, those making the trip to the top of the crater return with

specimens of the hot springs minerals, flowers and shrubs attract the eager hands of would-be botanists. It seems to be an impossible task for one man to control this situation; one is always saying:"DON'T".

Activities of Outside Agencies:The Atlas Film Corporation had a crew filming Sunset Crater to be used in a Bureau of Mines movie on the Natural resources of Arizona.

Application is being made by the residents of Black Bill Park and other outlying Flagstaff areas for a Rural Electrification Project. This would bring electricity to within at least four miles of this area.

General: Cleanup, trailer rehabilitation, road work has limited visitor contact to week-ends primarily. In spite of our efforts there are complaints on the roads.

David J. Jones
Custodian

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Tonto National Monument
Roosevelt, Arizona

June 26, 1948

MEMORANDUM for the Regional Director, Region Three.

Following is a report of activities at Tonto National Monument for the month of June, 1948.

Weather. Daily maximum temperatures ranged from 90 to 104 degrees, averaging above 95. No rain, as usual. Days are very hot in this canyon. This is the third year of drought in this area.

Approaches to Monument. Same old story. The Apache Trail is in fair condition, the Monument road needs rain & dragging, but most of the visitors say the roads are not bad.

Interpretive Service. The museum has been open all days of the month, but guide service has not been available on part of the Custodian's lieu days, especially when a trip to town for supplies was necessary. Most of the week-day visitors are from out of state, and want to see the Ruins, so that considerable time is required for interpretive service despite the low number of ruins visitors. Six or seven cars of visitors can and often do take up the whole day.

Travel. 960 persons in 271 cars visited Tonto this month, a slight increase over May travel, and about 20% more than June last year. Most cars are from out of state. The visitors do not seem to mind the heat as much as the Custodian does.

Fire Danger. Fire danger ranges from high to extreme during the day, creeping down to moderate at night. Since I would have to help on any big fire in the surrounding Tonto National Forest, I am as jumpy as anyone who really has a fire problem on his area.

Visitors. A Conservation Workshop group from Tempe was in Monday June 21. Tonto Forest Supervisor Jack Lillevig, Mrs. Ruth B. Jones of the USFS Information Service, and B. Ira Judd of Tempe were with the group.

General. The plumbing job was completed by the Globe Plumbers, bringing civilization effective at Tonto. The spring was cleaned out and a new intake screen installed. Visitors, reports, and maintenance took up the Custodian's time for the month.

Charles C. Sharp
Custodian.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Tumacacori National Monument
Tumacacori, Arizona

June 26, 1948.

MEMORANDUM for the Regional Director,
Region Three.

Follows the monthly narrative report for Tumacacori National Monument for the month of June, 1948:

WEATHER CONDITIONS: For a month in which no rain is expected, we were surprised to receive .14 of an inch of rain on June 6. No other moisture fell. Low temperature was 47 degrees on May 27 and 28. High temperature was 105 on June 16. Three days of high winds were experienced.

INCREASE OR DECREASE IN TRAVEL. Our 1,426 visitors this month has been exceeded once, by the figure of 1,429 for June, 1937.

INTERPRETIVE SERVICE. 792 persons went on 150 guided trips through the mission church and grounds, receiving an average of 36 minutes per trip. 1,392 persons saw the museum, and the same number received combined Information and Interpretation service.

VISITORS. June 21 - James M. Robinson and his wife and daughters, from Carlsbad Caverns National Park.

PUBLICITY. June 8 - Albert D. Runkle, photographer, taking pictures for a movie on adobe making, which he hopes to have released through colleges and universities.

PERSONNEL. Custodian Jackson returned to duty from annual leave June 1. On this same day Archaeologist Hendricks from Tonto departed from temporary detail here. Ranger Brewer took two days of annual leave. Per diem laborer Rafael Martinez Vega was terminated from ruins stabilization work COB June 10. Per diem laborer Ramon Sandoval Orozco, on the same work, was terminated 2:00 p.m. June 11.

ACTS OF GOD. A giant spineless cactus, at least 25 years old, located conspicuously on the trail to the mission church, was completely uprooted by high winds June 1 and thrown flat on the ground. There remained nothing that could be done except removal of the corpus delicti with a truck and a somewhat pagan semi-inhumation ritual in another portion of the monument.

INSPECTIONS. Immediately upon the custodian's return to duty from annual leave he was met by General Accounting Office investigators Kenneth M. Westering and George R. Bartlett. They spent about two and a half days here conducting an exhaustive investigation into the

affairs of the monument. This was my first meeting with GAO investigators. While extremely courteous, these gentlemen were the most inquisitive humans I have ever seen. They now know everything about the monument, I think, except that apparently through some oversight they neglected to discover that I have a mole under my left shoulder blade. I believe they have given the monument a good bill of health.

MAINTENANCE. A number of minor plumbing repairs have been made, in the interests of water conservation. The water level in the patio garden fish pond has been raised about an inch with minor alteration of the four drains, to give better coverage to water lilies. The big air pump on our deep well water pump blew a gasket, and after considerable experimenting with homemade gaskets I found they will not stand the pressure. The system is working all right now. Routine maintenance, janitor work, and cleanup, has been kept current.

UTILITIES. We have had a good deal of trouble with a sealed-unit refrigerator in the ranger house. After repairs had been made on it, and it continued to function poorly, we complained to the power company. After a couple of adjustments to the transformer they got the voltage to run between a low of 108 and a high of 128. The refrigerator works better, but there is still some difficulty.

STABILIZATION OF MISSION. 142 man hours of work were expended in completing the scratch coat on the mortuary chapel, and in putting on the finish coat. The laborers were laid off, cleanup done, and stabilization stopped for the balance of the fiscal year because of lack of funds.

North and east sides of the sacristy are all that remain in need of permanent exterior stabilization on the church now, unless an adequate lime plaster preservative is found which can be used to impregnate all original lime surfaces with.

Much stabilization work is needed on remnants of room structures of the old patio area east of the church, but detailed consideration of that problem is for other pages than this.

Earl Jackson,
Custodian

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

TUZIGOOT NATIONAL MONUMENT

CLARKDALE, ARIZONA

JUNE 26, 1948. 19

MEMORANDUM for the Regional Director, Region Three.

Following is the monthly narrative report for Tuzigoot National Monument for June, 1948.

Visitors this month, 1800 Travel year to date, 11,403

Travel Data: This month brought the amazing total of 1800 visitors as compared with 1220 for June of last year. Each month of the current travel year continues to break all previous corresponding highs. More and more people are discovering the varied natural attractions to be seen on Alternate 89A Highway between Flagstaff and Prescott. Although travel in Arizona as a whole, according to the Arizona Port Authorities, is declining, visitation to Tuzigoot consistently shows a sharp increase. The 1800 visitors arrived in 558 cars. There were several loads of school children.

Guide and Contact Service: Museum, ruins and orientation contacts totaled 4560 for the month. 1648 people in 512 parties were shown through and given an orientation lecture in the museum, and 1662 people in 515 parties were conducted through the ruins. The average time spent by each party in the museum was 23 minutes, while the conducted tour through the ruins required 21 minutes per party.

Personnel Time: Museum: 185 hours, 05 minutes. Ruins: 180 hours, 40 minutes. Total time for Bright: 191 hours. For Richert: 174 hours 45 minutes.

NPS Visitors: Kenneth Saunders on May, 29 and Dean Dasey, Grand Canyon, on June 24.

Special Activities: The Custodian was selected by the Clarkdale Fire Dep't., of which he is a member, to serve as delegate to the Arizona State Firemen's Convention at Holbrook. The trip was made on his two day's off.

Southwestern Monuments Association: A "Spot Light" lighting system was recently installed over our publications display case, and as a result, a substantial increase in sales.

Maintenance and Administration: As may be observed from the above-mentioned contact figures we have had little time left for maintenance work. In-between parties, however, Ranger Richert has managed to complete the repainting and relettering of all informational and directional signs on Alternate Highway 89A. Also, the relettering of all monument area informational signs. If contact time permits we propose to complete the laying and connecting-up of new 2-inch pipe through the deteriorated section of the water line from Clarkdale.

Ernest W. Bright

Custodian.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Walnut Canyon National Monument
Flagstaff, Arizona. June 25, 1948.

MEMORANDUM for the Regional Director, Region Three. 19

There follows a report of activities in Walnut Canyon National Monument for June, ~~1947~~ 1948:

Weather. The only precipitation since the snows of March occurred June 6 when we had about .3 of an inch of rain.

Visitors. Of the 4,227 total, 3,909 were contacted, and it is estimated that 3,165 made the ruins trip unattended. There were 39 picnic parties with 591 people. The faculty, with families, from A.S.T.C. formed one large picnic while the largest was by the B.P.O.E. Lodge from Winslow where a state convention of Elks was held.

Inspections. Mr. Saunders was here twice in connection with the rehabilitation projects. Mr. Davis arrived the 24th to discuss many problems. Mr. Ratcliff stopped by to leave some fire extinguishers and prepare a "want list" of fire suppression equipment and supplies.

Rehabilitation Projects. The Admin. Bldg. and the Comfort Station were re-roofed during month. Neither job was entirely satisfactory, and will have to be re-done in part to be accepted.

Roads & Trails. Foreman Bean, of Wupatki, moved to Walnut for a few weeks stay. He, with Walnut's Trail Laborer Viklund, spent a week hauling dirt to cover some of the cinders on the Sunset Crater road. Then weather-proofing some of Walnut's trails began. To date, most of their time has been hauling cinders and preparing the trail for an application of bitumuls.

Cooperating Governmental Agencies. The surrounding National Forest, with two large fires this month and two others earlier, is experiencing their worst fire year since 1922. Ranger Aubuchon has gone to all four of their big fires.

Miscellaneous Activities. With more than 4,000 visitors and almost 600 picnickers, most of our activities have just been the routine chores.

Paul L. Beaubien
Custodian

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

WHITE SANDS NATIONAL MONUMENT

ALAMOGORDO, NEW MEXICO

June 22, 42

MEMORANDUM for the Regional Director, Region Three.

TRAVEL MONTH: June, 1942	TRAVEL YEAR TO DATE: 1942
Visitors 12,203 Cars 3783	Visitors 84,694 Cars 16,455

June, bringing with several recent months, surpasses any previous June in Monument history in total visitation. 12,203 visitors entered the Area during the hours the checking station was open. For the fiscal year just ending we are 15,900 ahead of last year. We felt we were doing good in approaching 100,000 for the fiscal year and now find ourselves 6,000 over our goal.

The weather has been unusually hot with the temperature reaching 108° for a couple of days. Winds have been high for this time of the year but some 2.68 inches of rain helped hold the sands down.

The Custodian took some annual leave early in the month and during a trip to Oklahoma City visited briefly with Superintendent Miller at Platt and Don Eggenger at Lake Texoma. An official trip was made by Ranger Stool to El Paso to pick up a cab for our road patrol, he also made a trip to Grant County with a small house moved by that area. The Custodian made a hurried trip to the Regional Office on concession matters. He was accompanied by Mrs. Tom Charles and her son Earl who operate the White Sands Service Co.

Little time has been available for any phase of our activity other than the checking station and contact work. We entered the split shift a month early and this, of course, cuts down on the hours we can spend on maintenance. We did install a new pump jack at the sands mill replacing one from W. P. A. days. Through the combined efforts of Paul and Jay we now have both comfort stations at Headquarters repainted, and Harold and Joe have repaired most of our screen doors. Picnic area clean up is becoming a major problem with the heavy use it receives. The new and greatly enlarged public use area is filled to capacity nearly every evening.

WHITE SANDS NATIONAL MONUMENT
ALAMOGORDO, NEW MEXICO

(3) Monthly Narrative Report, June 22, 1948

Due to the high winds road work has been heavy and we were fortunate, at times, in keeping our road open at all.

No complaints have been received by this office on any angle. Not even a verbal one among the visitors has been overheard. The concession is also well ahead of last June, about in keeping with the increase in attendance.

Ranger Whitten was elected President of the local Lions Club for the coming year, Ranger Schaffer has just received his Master of Science degree, and Ranger Steel has been offered a promotion by transfer so my force has done well by us in honors conferred. My only contribution has been an admission of age and finally getting glasses fitted. Now if I will break down and get a hearing aid perhaps I can carry on for another year or so.

And, speaking of age, I guess I better ring off and get rested up for the rush of visitors always promised us in July.

Johnnie Faris,
Custodian.

in triplicate

No publications have been printed or processed during June.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

June 28, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Wupatki National Monument for the period of June 1948:

Visitors this month: 830 Travel Year to date: 4999

Weather: Precipitation totaling more than two tenths of an inch and a large proportion of partly cloudy and cloudy days is in sharp contract to the usual clear, hot days of June. One of the Navajos predicts a short summer because he saw a certain seven stars in the sky the other morning. We will go along with him to the extent that this has been an unusual June.

Roads: Lack of adequate precipitation precluded maintenance other than filling holes and soft portions of the road. Although "washboarded", the approaches from both Hiway 89 and Sunset Crater are passable

Travel: Visitor use of this area increased almost 40% over that of last month with 602 persons registering at Wupatki and 228 at the Citadel. If this continues travel will be well above that of last year; it is still averaging thirty percent above. One factor has been the fact that the Sunset Crater approach has been passable at all times.

Special Activities: In cooperation with Arizona State College at Flagstaff a one hour lecture was given on the History and Organization of the National Park Service for the class in Natural Resource Management.

Considerable time had to be spent on the sale of the pickup I-13869 and one trip had to be made to assure the purchaser that the heater was still in the truck. Sale price totaled $225.00 which is about one third of the purchase price in 1937.

Activities of Outside Agencies: The Atlas Film Corporation movie crew spent an afternoon in the area shooting for a movie on the Natural Resources of Arizona for the Bureau of Mines and securing shots of prehistoric beams for use in a movie on the tree ring method.

Cooperation: An Indian Service car returning one of our Navajos from the hospital at Tuba City got stuck in the cinder on a side road in Wupatki Basin. In trying to get out they managed to break the rear axle. The nurses and the driver were driven back to Tuba City in our pickup, as it was on a Saturday and the Indian Service could not furnish a mechanic.

Publicity: The local radio station KNAZ is very much interested in obtaining material for preparing broadcasts on National Park Service areas, particularly of northern Arizona, for their travel promotion program. They were referred to your office for possible use of the articles which appeared in the July 1948 Arizona Highways Magazine. We loaned them the 1938-39 Radio Broadcast Series prepared in the Director's Office, or they want this sort of material for use during the winter months.

Radio Station KTAR in Phoenix was provided with information on Sunset Crater and Wupatki for their summer travel promotion program.

Research: The Museum of Northern Arizona expedition began test excavation of NA 880 in Black Mesa Valley on June 21. Watson Smith of Peabody Museum is in charge assisted by Milton Wetherill, three students and two Hopis. The site is a small lava boulder pueblo of the early PIII period and with predominant Anasazi influence. As yet no evidence of a kiva has been found. They are working in three rooms and trenching in the "courtyard" has revealed what is probably a pithouse.

Collaborator E. D. Bales and his assistant Bob Ellsworth spent the better portion of two days on the paleomagnetism of the Monument, a project which will probably be finished this year. One afternoon was spent with them by the custodian.

Surface Flow: Wupatki spring decreased during the past month a total of 153 gallons per day. The flow is now 202 gallons. Nalser spring also decreased from 1085 to 900 gallons per day.

VIP Visitors: The only VIP visitor this month was Assistant Regional Director Davis and Sunday almost forgot that Inez Baker came in from Arizona to pick up a Kit carpine water tank.

Among the other visitors was Miss Ruth [illegible] a nurse who is on the counselor staff of the Southwest Indians, and Dr. Gladys Reichard, anthropologist from Barnard College.

General: Rehabilitation of house trailers continued to be the major project aside from routine maintenance. The bulk of our time was devoted to visitor contact, as it will be for the rest of the summer. Road signs were replaced and in the past this would have been a major project; now it is only a matter of several hours.

TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service for the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

NAME

TITLE Irving D. Townsend Custodian.

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

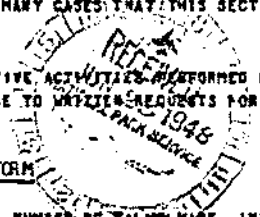
THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES OR OTHER FEATURES OF THE AREA.



TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME ~~Meredith M. Guillet~~

TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of [illegible] in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

RECEIVED JAN 29 '62

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8n3) and 9 (Report 9n3).

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. ONE TO THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

TITLE Irving McNeil, Jr.
Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Approach roads in dry condition, though rough, most of the month.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS ENQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS OR WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as Attended Interpretive Stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic location, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, motel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive services, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 5th of the month following that covered by the report.

The Montezuma Well museum is not yet fully organized.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

TITLE Acting Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

NAME J.W. Brewer, Jr.

TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8mS) and 9 (Report 9mS).

NAME _____
TITLE William R. Supernaugh, Custodian.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Office open only 4 days due to demands of other work.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME **David J. Jones**

TITLE **In Charge**

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Ranger on duty doing part time public contact work.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, Contact Station, exhibit rooms, study collections, etc.). Count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME Earl Jackson

TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

* Estimate

** Visitor total includes 34 run-arounds

All facilities and devices open 31 days.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, visitor rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations engaged in dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT ONE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

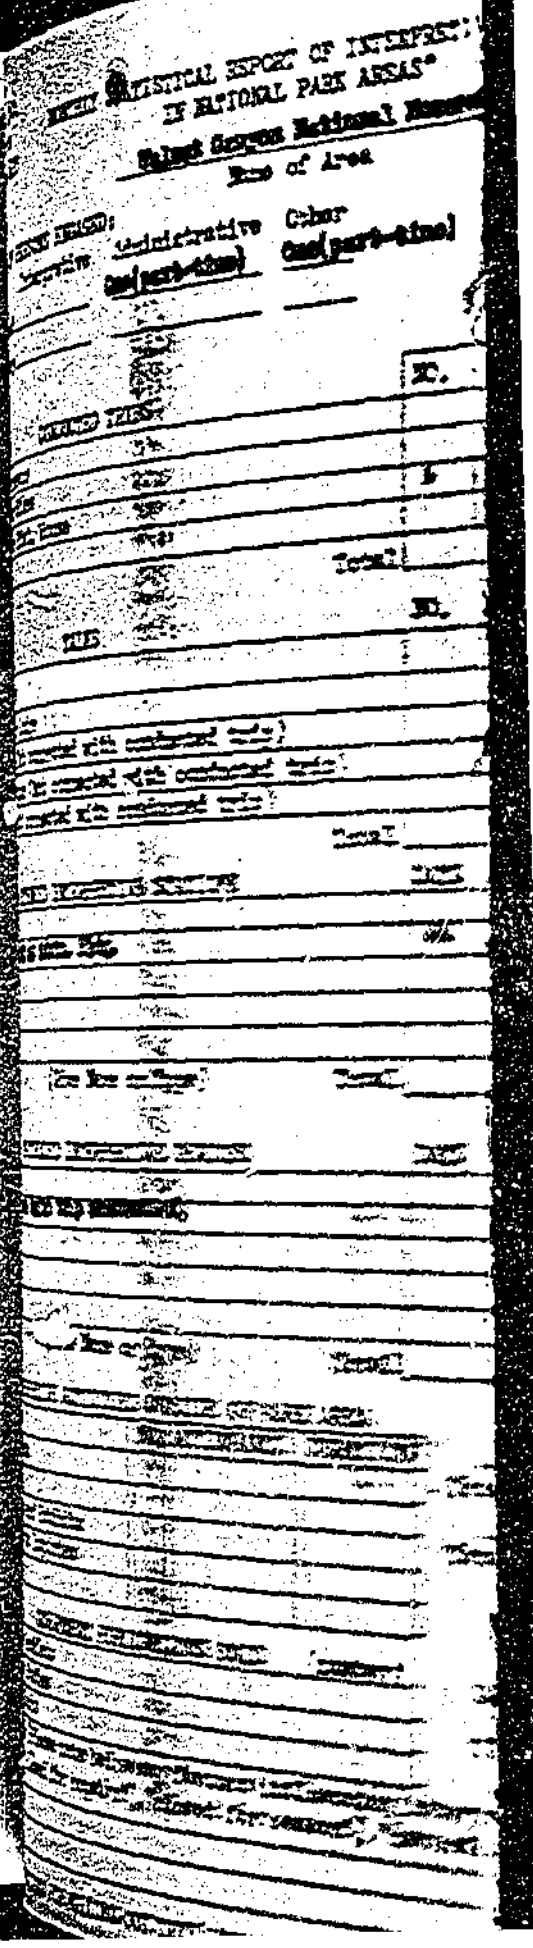
UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.



COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

92 52

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Region Three
Santa Fe, New Mexico

August 2, 1948.

MEMORANDUM for the Regional Director, Region Three.

Following is the narrative report for the Naturalists of the Southwestern National Monuments for the month of July, 1948:

Staff Activities, General

Naturalist Dale S. King left on July 3 for Walnut Canyon National Monument, where he spent the balance of the month preparing exhibits.

Archeologist Charlie R. Steen was in the office the entire month except for two one day trips to Bandelier to look over Ruins Stabilization work and the excavations of Adams State College.

Clerk William G. Carter entered on duty July 12. He is attached to the Ruins Stabilization Mobile Unit and will spend part of his time at Santa Fe and part with the Mobile Unit.

Interpretive Administration

Several two-fold leaflets, slightly revised, were forwarded to the Director to be reprinted.

Arthur Woodward, Los Angeles County Museum, was appointed Collaborator on July 15.

Progress of Exhibit Plans and Projects

King will work at Walnut Canyon until exhibits are completed. Most of his time this month was spent in making the cases water and dust tight. All cases had to be sealed.

Ruins Stabilization

Work continued at Chaco Canyon and Bandelier National Monuments. At the end of the month nearly all the work made necessary by last year's flood at Chetro Kettle had been completed. The Bandelier work was on Long House ruin; this will probably be completed in August.

The report on work done last winter at Casa Grande was completed and the report is ready to be bound. At the request of the Director's

Office, informal bids were asked for the job of binding all Ruins Stabilization reports. The work will probably be done by a local firm.

Region Three Office Loan Library

304 books and pamphlets were catalogued. Library cataloguing, except for a great mass of material in the reprint and pamphlet files, is now current. In connection with the cataloguing the library received a general cleanup and now looks much neater than before.

During July we received 12 books, 47 periodicals, 26 leaflets and pamphlets.

The more important books received were:

Foreman, Grant - Marcy and The Gold Seekers.
University of Oklahoma Press, Norman, 1939.

Foster, Mary L. and George M. - Sierra Popoluca Speech.
Smithsonian Institution, Institute of Social Anthropology, Publication #8, Washington, 1948.

Rister, Carl Coke - Border Captives.
University of Oklahoma Press, Norman, 1940.

Steward, Julian H. (editor) - Handbook of Southamerican Indians, Volume 4, The Circum-Caribbean Tribes.
Bureau of American Ethnology, Bulletin 143.
Washington, 1948.

Wooton, E. O. and Paul C. Standley - Flora of New Mexico
Contributions from the U. S. National Herbarium, Vol. 19.
U. S. National Museum, Washington, 1915.

Visitors

Walter Taylor, Milton Snow, Bertha Dutton and 15 Girl Scouts, J. W. Hendron, William Pearce, Fred Norman, and David de Harpourt.

Southwestern Monuments Association

Treasurer Vedder's report:

"During the month of July I worked 20 days. Two deposits were made and one disbursement. Covers mailed, not including 321 envelopes sent out on our mail list, were 203, which includes 33 letters and 25 purchase orders.

"The executive secretary has been away this month so the treasurer has been carrying on with the assistance of Charlie R. Steen. A check on

outstanding invoices and purchase orders was made. Two days spent making up inventory record for our annual report, and one morning spent with W. C. Neal going over records to begin preparation for the annual audit. Since then I have given every spare moment to posting in the Journals our records for the fiscal year.

"Barbara Vedder worked five days, which were spent on alphabetising and filing cards and stencils; wrapping packages; coding and filing incoming business reply cards; stencilling 821 envelopes and preparing them for the post office and delivering them to the post office."

Projects for August

King will probably spend the entire month at Walnut Canyon; Steen will be in the office most of the time except for short trips to Chaco Canyon and Mandelier.

CHARLIE R. STEEN

Charlie R. Steen,
Acting Park Naturalist.

NATIONAL PARK SERVICE
Arches
NATIONAL MONUMENT
Moab, Utah

July 29, 48

MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Arches National Monument for the month of July, 1948:

TRAVEL: Travel for the month amounted to 499 cars and 1391 people, which was more than double that for the same month last year when we had 195 cars and 611 people. This brings our travel year to date to 5601 people, as compared with the 1947 travel year total of 4702 people, with two months yet to go. Actual registration at the various areas was as follows: Windows - 925 people, Devils Garden - 308 people, and Delicate Arch - 344 people. The bulk of the travel was from states other than Utah and Colorado.

INTERPRETIVE SERVICES: Our contacts were heavy again this month with 866 people being contacted in the monument area and 197 people at headquarters. Twenty seven guided trips were taken with 110 people to the various features of the area and one talk was given before a group of 75 people at the LDS church on "Prehistoric Cultures of Central America." The ranger spent practically the entire month on interpretive work in the scenic areas.

WEATHER: The temperature rose to 102 degrees on one or two occasions during the month and considerable warm weather was experienced. Unseasonal rains, occuring on June 26th and 27th and July 13th, 19th, 20th, 21st, 25th and 28th helped to temper the hot spells. On the whole it was an unusually cool July for this monument.

ROAD AND TRAIL MAINTENANCE: Additional directional arrows were placed on the Devils Garden and Delicate Arch trails after complaints by visitors that they were unable to follow same.

Laborer Leadman Winburn repainted and changed wording of mileage and directional signs at the headquarters and approach road junctions, repaired a 25' break in the retaining wall in the headquarters area to protect our loop road, installed a section of sand fence on dune on the Devils Garden spur, increased the length of two culverts on the new road, hauled shale to rough spots on the Windows section road and cleaned drainage ditches and culverts in preparation for our flash flood period, which will soon be upon us.

No maintenance was performed on the approach road by the State during the month. They have been kept busy on repairs to the main highway. This road is getting rough in spots but is still in fair shape.

PUBLICITY: The June issue of the Ford Times contained an article and pictures "Land of the Arches" by Dick Freeman of Los Angeles, California and the August issue of the Desert Magazine ran an article and pictures on Delicate Arch titled "Utah's Incredible Arch of Stone", by Catherine and Dick Freeman.

INSPECTIONS: Two inspections were made at Natural Bridges National Monument during the month. One in company with Assistant Regional Director Davis on June 30th and July 1st and 2nd. On July 27th and 28th I visited the area with Landscape Architect Paul Thomas and went over possible road construction, etc for the master plan.

RANGER SERVICE: Ranger Worthington made a trip to Natural Bridges National Monument on July 13th and 15th to deliver a 265 gallon water tank for use at that area. The balance of his time during the month was spent on contact work a mi road patrol in the monument area.

ACQUISITIONS: Delivery was received on a 1948 International 1½ ton dump truck on July 14th at Grand Junction, Colorado. This will help to ease our road maintenance problem.

NOTEWORTHY VISITORS: Mr. John Henry Cash, lecturer, of Baltimore Maryland, and his wife visited the area from July 17th to July 22nd. They were accompanied on trips to the Windows, Devils Garden and Delicate Arch sections of the monument and also to Deadhorse Point.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

24 July 1948

MEMORANDUM for the Regional Director,
Region Three.

There follows the report of activities in Aztec Ruins for July 1948.

WEATHER. Pleasantly, warm, dry days with an occasional trace of rain have been rule of the month, resulting in a general increase in the number of our visitors and allowing them fullest appreciation of this area. A great percentage of the visitors are taking their own photographs, some await a brilliant sun others await a cloudy sky and we have been able to please nearly all of them.

MAINTENANCE. After completing the job of cutting logs for the kiva repair we have hauled them to the ruins and have spent odd hours removing the bark, preparing them for installation.

The repaired motor for operation of our domestic pump has been replaced and our water supply is again normal.

Donations. During the month we have accepted as a loan the excellent murray of a Pueblo Indian that has been in the possession of Mr. Wm. Evans of Farmington. Mr. Evans was for a great number of years a trader at Shiprock, N.M. This display will add considerably to the interpretive value of our museum.

VISITORS. Mr. Paul Cozy, California Artist doing work at Mesa Verde, droped in to complete a sketch of the ruins.

INCREASE IN TRAVEL. There has been an approximate 3% increase in travel this year over July 1947, with 2632 visitors in 728 cars from 41 states Hawaii, Canada and England.

INTERPRETIVE SERVICE. Visitors to the ruins totaled 2139 in 285 trips, while there were 2632 visitors in 333 trips shown the museum.

RANGER SERVICE. John F. Turney Alamosa, Colorado and formerly temporary ranger at Bandelier reported for duty vice Lloyd M. Pierson who was transfered to Tonto, July 10.

BUILDING FIRE INSPECTION. The annual report covers this inspection which was completed at the close of the fiscal year.

Irving D. Townsend,
Custodian.

AZTEC

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

August 1, 1946

MEMORANDUM for the Regional Director, Region Three.

There follows a report of the activities at Bandelier National Monument for the month of July, 1946.

WEATHER

Scattered showers that contained 1.41 inches of moisture kept the temperature fairly pleasant during most of the month although the maximum reached 105 degrees on two days. The fire danger reached extreme.

SPECIAL ACTIVITIES

Mr. Willard L. Bradley of the Regional Office Engineering Department came here on July 26 to survey the proposed power line to Bandelier National Monument Headquarters.

An in-service training meeting was held on the 7th for all seasonal employees of the service and concessions. Pertinent information of the Monument and courtesy to the visitors was discussed.

Probably the biggest news of the month for the residents of the Monument was the notice that at long last we will have mail delivery three days a week on Mondays, Wednesdays, and Fridays beginning August 2. The Los Alamos Star Route will be extended to furnish this service.

GENERAL PUBLICITY

The Santa Fe New Mexican and Los Alamos Times carried notices of the weekly schedule of evening talks beginning with the week of July 18.

COMPLAINTS

One verbal complaint was received concerning a chicken dinner that was served to a party from Albuquerque at the Lodge. Some of the party became ill immediately after the dinner. An immediate inspection was made by the custodian of the food being served but nothing out of line could be detected. The chickens had been received the day before and appeared to be perfectly fresh. The only explanation seemed to be that the illness was due to some other cause or that the chickens that the party received were not as fresh as the others.

FOR DEFENSE
BUY UNITED STATES SAVINGS BONDS AND STAMPS

APPROACHES TO THE MONUMENT

The Otowi bridge on the Los Alamos highway, that has been under construction for over a year, was finally completed and will be opened as soon as it passes inspection. This will eliminate a very narrow, unsafe, bridge and rough detour.

It was reported that construction has started on the short cut road from Santa Fe that will connect with the Los Alamos highway at the Otowi bridge. This road will shorten the distance from the Monument to Santa Fe by approximately 12 miles.

CONCESSIONS

Mrs. Frey, the operator of Frijoles Canyon Lodge, reported an increase of nearly 400 lodgings over July of last year, however, the number of meals served decreased.

A new exhaust fan was installed in the kitchen during the month and greatly improved working conditions and removed objectionable odors.

COOPERATING AGENCIES

The Adams State College Field School began a test excavation on a large ruin on Frijoles Mesa. It is too early to make any predictions as to what they might find but the mound is unusually high and has every indication of being a very interesting ruin. Pottery sherds indicate that it is one of the older sites on the Pajarito Plateau.

Work is progressing on the survey of the Ramon Vigil Grant, and the excavation of the small ruin near headquarters, is somewhat ahead of schedule.

INTERPRETIVE

One hundred and sixty six parties were conducted through the ruins at an average time of 76 minutes. Scheduling only seven trips daily, holds the number of parties down but makes for a much more easily followed schedule of additional activities.

On the evening program, a new thing for Bandelier was tried. The stabilization crew of four Pueblo Indians danced five times at the campfire. Three hoop dances and two yehbechi dances were given. Surprisingly enough, although the men are good, the attraction is not as great as anticipated. Altogether, ten campfire programs were given to 461 people and fifteen inside lectures were given to 470 people. A total of twenty four

different talks were given on the twenty five programs, usually two per program.

MUSEUM

The new table for the Pueblo Government case was installed. The case on Seasonal Ceremonies and Symbolism was installed and has been attracting much favorable attention.

TRAVEL

Four thousand three hundred and fifty five (4355) visitors for July showed an unusual trend in travel. June was so much larger than any month in the history of the Monument that it was expected July would be another record breaker. Instead, the same month last year was 9 percent higher and June had 21% more travel. Campground use was good during the month for overnight campers with a total of 698 visitors.

STABILIZATION

One week was spent on weed cutting and trail oiling in the excavated area. Three weeks were spent on packing eroded walls at Long House ruin.

VISITORS

Regional Naturalist Dodge spent the 19th in the area taking pictures and attending the evening lecture program.

Fifteen officials of the Atomic Energy Commission from Washington, New York, Oak Ridge and Los Alamos visited the ruins and had a dinner and dance at the Lodge on the 27th. Charles Campbell, Chief of Industrial Relations and John Macy, Director of AEC personnel at Los Alamos were hosts.

RANGER SERVICE

Winifred Smith, Santa Fe, New Mexico entered on duty as temporary ranger on July 2 and completes the seasonal staff.

FOREST PROTECTION

The fire danger reached "extreme" on a few days during the middle of the month and was generally high except when showers would lower it for a day or two.

Manuel Sanchez, Santa Fe, and Edgar Griffith, Albuquerque, were entered on duty as fire control aides.

BUILDING FIRE PREVENTION

Ranger Keefe, Fire Chief of the Monument, distributed and installed 20 tetrachoride fire extinguishers in the lodge cabins. The monthly inspection for fire hazards was made at the same time but no important deficiencies were noted.

ROADS AND TRAILS

An allotment was received to repair the damage to the trail along the Rio Grande and a crew started to work on the 14th.

INSECT CONTROL

Maintenanceman Valencia gave the trees around the campground area another good spraying with DDT. This was undertaken when the trees started showing signs of infestation by tent caterpillars. Earlier spraying has prevented the caterpillars from starting low down on the trees and they are confined to the tops where it is difficult to reach with the spray.

MISCELLANEOUS

Mr. Diego De Gonzales of Santa Fe brought his "Boys Club" to Frijoles Canyon Lodge on Tuesday, July 27, and his "Charro" guitar players furnished entertainment for the guests during dinner. This was followed by a "square dance" in the Lodge patio.

CANYON DE CHELLY NATIONAL MONUMENT
CHINLE, ARIZONA

July 26, 1948

MEMORANDUM for the Regional Director, Region three.

The following is a report of activities at Canyon de Chelly National Monument during the month of July, 1948.

Weather

For the first time in the past five seasons, the mercury has hovered around 100 degrees for ten days without relief from rain. This is the warmest and dryest of any July registered to date. A total of .42 inches of rain fell in small amounts toward the latter part of the period and although not much moisture hit the headquarters area, the higher sections of the monument have had good rains the last two days. these rains have lowered the general temperature and our minimum temperature was 49 degrees.

Administration

The files were gone over and old material stored in a cabinet constructed for this purpose in the garage. One trip was made to Gallup, New Mexico on July 13, to pick up the new Pump engine, and get a new Starter for the Dodge pickup.

Maintenance

Repairs were made to the Dodge pickup and the gas line and tank removed and thouroughly cleaned. The Ford Dump truck USI-13841 was transferred to El Morro National Monument. Cabinets were constructed for the storing of old files and other material and a new registration desk built for the Office. General cleanup and maintenance work has been carried on as time permitted.

New signs were constructed and installed at the Chinle turn-off as the road thru Chinle has now been closed to traffic. Signs at the gallup and Ganado turn-off were also repainted and installed.

Travel

Travel remains below that of 1947 but has been picking up considerably during the last two weeks. We had 487 visitors this month as compared with 521 in July 1947.

Visitors

Maabon Glenby, Artist and model is again spending the summer here, other visitors included McKenzie Ward and Harry peterson of the Atlas Film Corp. making a picture for the U.S. Bureau of Mines, Norman Little and Family. Mr, Littell is tribal attorney for the Navajos.

Visitors- Cont'd

Elmer Nelson and John Luedtke of the Milwaukee public Museum, and Mr. William lane who flew in by plane accompanied by Dr. Jesse Nusbaum of the Regional Office. Father Edward Riley of Iona.

N.P.S Visitors

Chief ranger Wade and Temporary Ranger Rumburg of Mesa Verde National Park, and Ranger and Mrs. Aubechon of Walnut Canyon National Monument.

Government Publications on hand.

NATIONAL PARK SERVICE
SOUTHWESTERN NATIONAL MONUMENTS
~~COOLIDGE, ARIZONA~~
Capulin, New Mexico

July 25, 1948

MEMORANDUM for the Regional Director,
Region Three, National Park Service
Santa Fe, New Mexico

There follows the narrative report for Capulin Mountain National Monument for the month of July, 1948:

Visitors: There were about six thousand six hundred visitors to Capulin Mountain National Monument during the month of July, making a total of seventeen thousand seven hundred visitors for the travel year, and thirty seven thousand two hundred for the fiscal year.

Weather: Temperatures have been extremely high and very little moisture has been reported during the month.

Flora and Fauna: The Monument has enjoyed a splendid display of wild flowers and wild fruit during the month, and an especially good crop of pinon nuts and acorns appear to be in the making. The deer and other animals in the Park are all faring fine.

Roads and Trails: Roads and trails in the monument area have been kept in perfect condition.

Approach to Monument Road: Last week the State Highway Department gravelled the approach road with cinders from the Volcano. The Ranger found the State crew extremely cooperative and the Park Service appreciates the efforts of Mr. C. O. Erwin in sending the labor and equipment for gravelling this road. They also assisted in gravelling a small portion of the road in the Park. We now have an all-weather road to the top of the Volcano from both Highways 64 and 87, and all effort will be made to keep the road in perfect condition the entire year.

Interpretive Service: Ranger Homer Ferr has been on duty at the Monument the entire month of July, and has found his interpretive services to be more than appreciated by the visitors.

Homer J. Ferr
Ranger

RECEIVED JUL 29 1948 NATIONAL PARK SERVICE

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

July 25, 1948.

MEMORANDUM for the Regional Director,
Region Three.

There follows the narrative report for Casa Grande National Monument for July, 1948.

General: Since about the middle of the month Coolidge Dam has been entirely dry and there is little doubt that the acute water shortage continues to be the main topic of discussion. Our water pump very plainly shows the effect of the dropping water table and we can only pump for short periods. We hope the water holds out for the rest of the summer. All irrigation has been cut to a minimum here on the Monument. According to the latest reports the new Coolidge radio station, KUKY, will definitely be in operation by August 1.

Weather: Hot weather is obviously here to stay for the rest of the summer. Only three days have been below 100 degrees F. The maximum temperature was 113 with a high minimum of 78 and a low minimum of 65. On the evening of the 18th we got .18 inches of rain. Other areas in the vicinity were more fortunate than Coolidge in receiving rain. The road just south of Florence Junction was blocked for a short time due to the heavy rainfall.

Visitors: July 1948 - 1,112: July 1947 - 1,286. Travel year to date 1948 - 33,266: 1947 - 31,019. This is a loss of 174 under July of last year.

Interpretive Service: Of the 1,112 visitors to the area, 594 made the ruins trip in 117 groups averaging 40.8 minutes per trip. 518 people were here for a quick look but did not make the ruins trip.

Administration and Protection: One trip was made to the Adamsville site to c[illegible]ck on "pot hunting" but the warning signs seem to be doing their job. Five requests for information were answered. Much of the Custodians time has been occupied with the preparation of the various reports required at the close of the fiscal year. The 1938 Ford dump truck which had been sold on bids, was picked up by the Sutton Used Car Co. of Phoenix on July 13.

NPS Visitors and Visitors of Note: On July 7, Mr. Davis of the Regional Office paid us a short visit. Naturalist Broderick and family from Petrified Forest were here for a short time on July 10.

Maintenance: Mr. Davis brought us news on July 7 that the shop would be closed on or about September 1 and as a result the utility area is now being given a thorough clean-up.

Mechanick Activities: Repairs were made to the following equipment from the areas listed.

Area From	Equipment
Saguaro National Monument	Refrigerator Light Plants
Organ Pipe Cactus	Tractor
Navajo National Monument	Tractor
Casa Grande National Monument	Annual inventory Packing preparatory to moving.

Personell: Mechanic Stonehocker expects to be transferred to Zion and Bryce Canyon National Park on or about Sept. 1.

Leaves Taken: Mechanic Stonehocker and family left on the 15th and plan to be on annual leave until September 1. Mr. Stonehockers sick leave extended into this period until June 28.

Talks Given: Archeologist Davis gave a talk on July 21 to the local Lions Club. Mr. Davis spoke on guns and he was well received.

A.W. Bicknell,
Custodian.

Chaco Canyon National Monument
Bloomfield, New Mexico
July 25, 1948.

MEMORANDUM for the Regional Director, Region Three,
National Park Service.

There follows the report of activities in Chaco Canyon National Monument for the month of July, 1948.

Chaco Canyon had a total of 210 visitors this month. They came in 65 automobiles from the states of:- Alabama - 1 car, 5 visitors; Arizona - 3 cars, 10 visitors; California - 4 cars, 12 visitors; Colorado - 4 cars, 11 visitors; Delaware - 1 car, 5 visitors; District of Columbia - 1 car, 5 visitors; Florida - 1 car, 3 visitors; Illinois - 1 car, 4 visitors; Kansas - 1 car, 4 visitors; Kentucky - 2 cars, 3 visitors; Michigan - 1 car, 5 visitors; New Mexico - 36 cars, 121 visitors; North Carolina - 1 car, 4 visitors; Oregon - 1 car, 2 visitors; Pennsylvania - 1 car, 2 visitors; Texas - 4 cars, 14 visitors; Utah - 1 car, 2 visitors and Washington - 1 car, 2 visitors. These people formed 47 ruins trips for an average of 84 minutes each and 45 museum parties for an average of 16 minutes each. Total time, Ranger Maxson - 28 hours, Ranger Orem - 33 hours and the custodian 17 hours.

The warmest this month was only 99 degrees Fahrenheit on one day, July 10, and the coolest was 40 degrees on June 28. There was rain on four different occasions which formed a total of .93 of an inch.

The Monument roads have been graded several times, and remain in good shape. The road over the sand dunes had become impassable so was repaired.

Ruins other than those at Headquarters visited this past month include Pueblo Pintado, Kin Kletsin and Kin Kiniola. There was some evidence of pot hunting at one of the ruins. It apparently took place some months ago. We have been in the past and will be in the future ever watchful in order to apprehend such vandals.

Five hundred feet of fence which was down was rebuilt about Pueblo Pintado ruin. Also, other breaks in the fence about the principal part of the Monument were repaired.

The new tank was caulked. Manure was put about the new pipeline (to prevent freezing in winter), and the hole filled with dirt.

One of the sewer lines became stopped which required that it be dug up and placed in another position so that the sewage would flow down and not up!!! The sewage line in the bathroom of the residence required several hours repair also.

All fire extinguishers were checked and refilled.

Ranger Crem has been busily engaged the past several days removing the body of one of the trucks, repairing it and replacing it. It was not wrecked, but because of hauling rocks and other heavy loads, it was just worn out of shape, the braces lost or loose, the bolts gone and the like.

Ranger Marson has been spending all available time working over the files. The summer is about half gone, and he is approximately half through.

The Gallup Chamber of Commerce is succeeding with its sponsored tours. The largest conducted tour to Chaco to date is 21 persons.

Miss Bertha P. Dutton, curator of Ethnology at the State Museum, brought a group of Girl Scouts in here as one stop on a tour of the Southwest. They were here nearly 36 hours, and saw a goodly portion of the Monument.

The only National Park Service visitor was Erik Reed and famil .

Projects for the ensuing months:- paint the floor in the museum, get the mowing project underway, and make repairs on the residence.

There follows the report of Archaeologist Gordon Vivian.

Irving McNeil, Jr.

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

NATIONAL MONUMENT
Chaco Canyon National Monument
Bloomfield, New Mexico
July 27, 1948

. 19.....

MEMORANDUM for the Custodian,
Chaco Canyon National Monument.

There follows the narrative report of Mobile Unit activities in your area during July, 1948.

The stabilization crew was laid off on June 30th at the end of the fiscal year and then recalled for work the second week in July. A series of squaw dances kept the men occupied another week and we didn't get under way untill the 14th.

Incidentally, squaw dances without police supervision are becoming more and more riotous. The last one broke up in a series of drunken brawls before the dancing had gotten well under way. Last month there were police and they went off with some of our best men. This month there were no police and half the crew came back all crippled and hammered up from a week of fighting.

While the men were off I spent a good deal of time taking kodachromes of the painted wood material recovered from Chettro Kettle. Setting this stuff up outside and arranging it requires considerable time. Progress was also made on stabilization records.

Dr. Paul Reiter of the University of New Mexico has just sent us a large piece of painted wood plaque recovered from Chettro Kettle several years ago. This piece came from a nearby room and at the same level as ours and undoubtedly is part of the same set-up.

Raymond Rixey spent the first two weeks of the period repairing another of the large ceiling mats, making additional cast lintels and turning out some samples of colored soil- cement from the soil I picked up at Walnut Canyon.

PUEBLO BONITO

One small but important flood control job was done at Bonito.

A heavy growth of vegetation together with two rock and wire structures had constricted and raised the level of the channel carrying runoff from the cliff behind Bonito. This area was inspected in company with Custodian McNeil after a rain the last of July and it was felt that there was very real danger

of subsequent floods leaving the raised channel and flowing into the north west corner of Pueblo Bonito. As soon as the crew returned to work brush was cleared from this watercourse and several obstructions were removed. If it appears necessary after further rain the arroyo will be cut out with the grader and fresno.

Weeds were cut in the room and plaza areas.

CHETTRO KETTLE:

All emergency repairs have been completed on the eastern half of the flood-damaged area. This is a total of 17 rooms plus Kivas G, H and I.

In completing this in July three large support sections were built in and against the north wall, rooms 45 and 46. Additional walls in 48, 49, 50 which had been left uncompleted during the cold weather last winter were finished and capped. Construction scaffolding was removed and the eastern half cleaned up.

Minor repairs are in progress to complete the emergency work in the west half of the damaged area.

Two major jobs are also in progress. These are outside the area reached by flood waters and are work necessitated by cracking and settling from seepage.

The first of these is Kiva H which was cracked in two with the north half settling outward. The enclosing wall on the north was badly cracked and out of plumb two feet. The top of this 14 foot wall has been removed and is being ~~rebuilt~~ relaid. A shattered portion over the large T doorway is also being rebuilt.

Also in progress is support for a short section of wall resting completely on a large and rotting horizontal log.

The end of this month should see completed all of the repair necessitated by the flood and the crew will be returned to the south row of house rooms and the south east corner of the site where they had started work when the flood struck 11 months ago.

Gordon Vivian
Archeologist

CHIRICAHUA NATIONAL MONUMENT
Dos Cabezos, Arizona

July 26, 1948.

MEMORANDUM for the Regional Director,
Region Three.

There follows a report of activities at Chiricahua for July.

Weather Conditions. Hot, dry weather with occasional lightning storms characterized the first half of July. From July 17 through 25 some rain fell each day although the total rainfall for that period was only 1.59 inches.

Inspections. Acting Associate Regional Director Davis, Mr. Ben Thompson of the Director's office, and Dr. Voorhees of the University of Arizona visited the monument on July 11.

Maintenance. After the first soaking rain Operator Hartle was able to use the grader on the road. As a result, the six miles of main roads in the monument have abandoned the wash-board look. New water heaters were installed in two of the residences. The permanent and temporary rangers have been painting the rest rooms, picnic tables, and buildings in the residential and utility areas. Plans are under way to repaint the shower rooms and laundry room in the campground area.

Approach Roads. Work on the approach road from Highway 666 to the monument has slackened with work at present confined principally to two bridges. It is reported that a lack of funds has delayed the project. Gravel and oil have been laid to within about three miles of the monument boundary. The approach roads from U.S. Highway 80 via Portal and from Willcox and Bowie continue to be rough and are discouraging to the less hardy travelers.

Interpretive Service. Four conducted trips were made during the month, including an early morning party of Mr. C. Edward Goyette of the Tucson Chamber of Commerce.

Travel. Travel fell below that of July, 1947, but showed an increase of 419 over June of this year. A total of 1790 visitors was recorded in the area.

Forest Fire Protection. Although no fires occurred in the monument during July, there were quite a number of lightning-caused fires in the Forest Service areas surrounding the monument. Fire Control Aide

RECEIVED JUL 30 1948 NATIONAL PARK SERVICE

Rinden continues to maintain the fire look-out on Sugar Loaf Mountain.

Museum Activities. Information is being collected on the Pueblo Indians who inhabited several of the valleys of the monument prior to the arrival of the Spanish. Plans are progressing to redesign and supplement the museum case now containing several pieces of Pueblo pottery.

Clair V. Cooke,
Custodian.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

El Morro NATIONAL MONUMENT

Ramah, New Mexico

July 26, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report ofactivities in El Morro National Monument for the month of July, 1948.

WEATHER: This month's precipitation amounted to only .05 inches, which is an unusually small amount for July. Maximum temperature reached 91 degrees and the minimum was 42 degrees.

TRAVEL: The amount of precipitation determines the condition of our roads and the condition of our roads definitely reflects on our travel. During this month, which has been dry, we show an increase in travel of .06 % over the same record period of last year. Of the 448 visitors, arriving in 140 cars and one airplane, 420 made the tour of the inscriptions in 95 conducted trips and 28 people arrived for information only. Total guide time amounted to 103 hours and 30 minutes. These visitors were from 30 different states and two foreign countries.

APPROACH ROADS: Both roads from Gallup and Grants have been passable and not as rough as usual. Mr. Lee Cambell, State Highway Dept. visited the area July 16 th. and from him it was learned that they plan to construct eleven miles of road starting at the northeast corner of the monument and running east toward the Ice Caves. Apparently the original estimate of $8000 per mile was low and the sect now will run twice that much. Any improvement will help, but there will still be a five mile stretch of mud and mal pais.

PUBLIC HEALTH: The report on a sample of water taken June 30th. showed our water supply to be unsafe. There has been no break in the continous chlorination except, after the receipt of the unsafe report, to increase by one half, the dosage. Mr Fred K. Townsend, Sanitarian of District II, recommends that a residual chlorine test be made several times each day and when an ortho-tolidine testing kit is obtained I will make these tests.

NPS VISITORS: On July 11, Dr. Nusbaum and Mr. William H. Lane landed on the emergency airfield and spent an hour on a tour of the Inscriptions. We enjoyed their visit and envied their mode of transportation. El Morro, in an AT-6, is just one hour from Santa Fe.

GENERAL: On July 15th. a Ford Dump truck was transferred to El Morro from Canyon de Chelly and brought to Gallup for repairs. We are at present without transportation except for personal car and certainly appreciate the early transfer of the truck. The electric wiring puzzle of "juice" to the office has finally been solved by Ranger Swatzell. Red's experience as an electritian has certainly been a help to El Morro this year. Visitors have left us little time for anything but routine maintenance jobs.

Number of copies of free publications on hand as of the end of July, 1948.

GRAN QUIVIRA

GRAN QUIVIRA, NEW MEXICO

JULY 25 48

MEMORANDUM for the Regional Director, Region Three.

The following is a report of activities at Gran Quivira for the month of July, 1948.

General. The big news here this month has been the rumored extension of the White Sands bombing range. Farmers and ranchmen to the south and west are unhappy over the proposal. Stories as to the exact location are a bit confused, but the best information to date is that it will corner one mile west of the Village of Gran Quivira, or approximately 1½ miles west of the Mission. While many have felt that an awakening for Gran Quivira was in order, no one to my knowledge had advocated anything as drastic as a bomb.

The Gran Quivira store now has a good stock of groceries for the first time in a year.

Weather Conditions. Rains this month have been spotty with the result that some beans are good, some fair, and some poor. Gran Quivira has received a total of 1.22 inches, mostly in light showers of little benefit to crops. A maximum of 96° was recorded on July 14.

Maintenance. The deep well pump was put back in operation June 29. However, corrosion on the engine head and head bolts makes it difficult to get a seal on the head gasket. A second new gasket has now arrived and may solve the difficulty.

The usual day was spent chasing telephone line trouble.

Repair and Rehabilitation. The following has been accomplished on the repair and rehabilitation of the old custodians residence to provide exhibit room, restrooms, and work shop. On July 1 the plumbing rough-in and connection to water line and sewer line was completed. On July 15 the remainder of the floor was run over the plumbing. All doors and windows are now completed. All exterior and interior woodwork has been painted and a coat of paint is now being applied to the interior walls. If funds become available the entire project can be finished in a short time.

Approaches to the Monument. Several hard showers between here and Mountainair have made sections of the road rough. However, all approaches have been in fair to good shape all month.

RECEIVED JUL 29 1948 REGIONAL PARK SERVICE

Interpretive Service. 62 parties totalling 242 people were guided through the ruins. Average trip time, 40 minutes.

Increase or Decrease in Travel. As indicated below this month shows a slight decline in number of cars and a continued high decline in number of passengers compared with July, 1947. Travel for the first 3 weeks of the report period was very good but fell off atruptly during the last week, probably due to thunder showers which kept travelers on the pavement. 33 out-of-state cars were registered, or 1/3 of the total travel. Texas led with 21 cars.

	CARS	VISITORS
July 1948	100	314
July 1947	109	417
Decrease	9	103
Percent Decrease	8.2	24.7
This travel year	478	1430
Last travel year	529	1855
Decrease	51	425
Percent decrease	9.6	22.9

Visitors. On June 25, Lloyd Mason Smith and party. Mr. Smith is in charge of the Desert Museum, Palm Springs, California.

Forest Fire Protection. On July 5 the custodian assisted in the suppression of a 3½ acre fire on U.S. Forest Service lands in the Gallina Mountains.

William L. Bowen,
Custodian.

(Original received with monthly narrative report from Gran Quivira, July 1948)

Special Activities. Excavations—Ruminations—etc.

Listen, my friends, and you shall hear
of the enormous treasure buried here.
There's so much of it so I've been told
That the rattlesnakes buttons are made of gold.
(I can't verify this — I won't pretend
I'm more concerned with the snake's other end).
Eighteen burro loads and two gold bells
Thats what the ancient map foretells
Buried in haste by some old Don
Who died long since with his bootics on.
But ere he died the tale he told
Verifies the amount of gold.
We know its so, he wouldn't tempt fate
When he had one foot through the pearly gate.
His great-aunt's cousin's uncle's brother
Swore on his death bed to his Mother
Who passed it on to her next of kin
And thats about where we happened in,
The story of course with full directions
Has been put on a map and torn in sections
And scattered at random near and far,
(You can pick one up at any good bar).

One of the best we've heard to date
Is about the shepherd who wouldn't tempt fate.
He knew what was here but had no desire
To raise the ancient spirits' ire.
Until one day he was feeling fine
Fortified with a gallon of wine.
He climbed the hill and carefully scurched
And paced and counted and occasionally lurched
And finally stuck his pick in the ground—
Lo and behold what an awesome sound.
The church bells rang all round and about
And our friend immediately "left out".
But still he swore when slightly drunk
That he found the gold when his pick he sunk.

In '32 they sunk their last shaft
And tunneled the hill both fore and aft,
They had a permit - the last one made
Which gave them permission to use a spade.

C O P Y

When a sealed room they finally found
Buried a long way under ground,
The leader promptly pulled his gun
And shot the one that didn't run.
He would be a millionaire today
If it weren't for that pen in Santa Fe.

Even now the travel reported
Largely consists of tourists assorted
Who come under the heading of old prospectors
Arriving equipped with all sorts of detectors.
They set up their gear in a great hurry
And over the hills they rapidly scurry
In hopes that the treasure so near and so dear
Will be found ere the custodian can appear.
But when they find they cannot dig
Their hearts are usually so big
They show us how their gadget works
With many buzzes, twists, and jerks.
That leaves us with the age old thrill
There must be gold in "that thar hill."

Those events herein related
Are certainly not over stated
And with the spiraling inflation
It really is a consolation
For the two of us to know
The whole hillside is full of dough
So, upon receipt of your permission
(We'll even grant you this condition)
We'll dig it out for half the take
Think of the money <u>you</u> will make!

Respectfully submitted in the hopes you will see
How much better off we all could be.

/s/ Bill
and
Gertrude

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
GREAT SAND DUNES NATIONAL MONUMENT
MOSCA, COLORADO.

July 26, 1948

MEMORANDUM for the Regional Director,
Region Three.

There follows the report of activities in Great Sand Dunes National Monument for July, 1948.

WEATHER. Summer finally arrived in the San Luis Valley. Hay and other crops are coming along fine.

The Rio Grande river continues its course, filled from bank to bank. The Medano is receeding and leaves only wet sand along the eastern edge of the Sand Dunes.

A minimum of 36 degrees was registered on June 29. The maximum of 85 degrees was reached on July 12 and 19. The high minimum was 50 degrees on July 2. The low maximum was 74 degrees on June 28.

Rain fell on June 26,27,28,29; July 4,7,11,18,23 and 24.

There were 16 partly cloudy days, 2 cloudy days and 12 clear days. Strong winds blew on three days.

TRAVEL. Three thousand four hundred and three visitors in seven hundred eighty-four cars visited the Sand Dunes during this report period. Thirty-six states and Alaska were represented. One thousand five hundred forty-eight people took advantage of the picnic areas, and of these sixty-eight camped over night.

One privately owned airplane from Denver landed on the road south of headquarters. The two men then taxied the plane to the contact station and parked it there while they walked and locked the area over. They said the road made an excellent landing field. Luckily the road had been graded the day before.

One written request was received for information regarding the Sand Dunes.

INCREASE IN TRAVEL. In spite of the condition of the approach roads, 666 more visitors entered the area than last year. For July, 1947, there were 609 cars and 2737 visitors.

CONTACT. Contact was carried on during the week days as time and work permitted; on Sundays, as is the custom.

Six hundred fifty-one cars were contacted, with a total of two thousand eight hundred seventy-two visitors. An average time of ten minutes was spent with each contact, amounting to one hundred eight hours and thirty-five minutes.

ROADS. The State graded the approach road on July 3,10,17 and 24. In spite of this, the road was hazardous the entire report period. There were three huge chuck-holes which caused many visitors to raise cain about the road to me and to the Alamosa Chamber of Commerce. On July 23, four truck loads of dirt were hauled to these holes and then the road was graded on July 24. By the afternoon of Sunday, July 25, the road had been so traveled, that the chuck-holes were again in their original condition.

Talk has again sprung up about establishing a drag-line at the gravel pit and to gravel the bad four mile section around San Luis Lake. Sorry, but I'm from Missouri, and seeing is believing. However after reading the June reports, I'm of the opinion that Colorado isn't the only state with poor roads.

On two occasions I had to take the dump truck and pull the cars out of the worst of these chuck-holes.

The water hazards were less this month as the farmers and ranchers were politely asked by the Alamosa County Sheriff to please keep the water in the ditches, not the road.

The monument road is in good condition to headquarters and much work was done, with little results, on the road to the lower picnic area.

NEWSWORTHY VISITORS. July 5 - Jules Levin of M.I.T., who was pictured in both Life and Time magazine. He had a straight A average. Unfortunately I didn't know who he was while he visited and camped over night.

July 5 - Mrs. P.P. Patrew and children, who paid a short visit.

July 11 - Dr. E.B. Renaud, retired head of the Department of Anthropology at the University of Denver.

July 25 - David de Harport, Harvard student who is doing archaeological survey work this summer at Canyon de Chelly National Monument.

FOREST PROTECTION. The 1948 Fire Organization Chart for the Huerfano District of which Great Sand Dunes is a part, was gone over with U.S. Forest Ranger Vinacke, in case it is ever needed.

FIRE PROTECTION. The Annual report of Inspection of Fire Hazards at Great Sand Dunes was submitted.

ACTIVITIES. Very little was accomplished this month, with the great increase in visitation and contact which took up the major working hours.

Usual routine duties, including hauling of coal, wood, ashes and garbage. Office matters were kept current.

Weekly check-up made on both light plants. No.2 light plant was re-timed. Weekly check-up and clean-up of both picnic areas, and daily check-up on public restrooms at the checking station.

Much road work was done on road to the lower picnic area.

A new "STOP" sign was constructed for the lower picnic area. Warning signs were posted on the approach road at the three bad chuck-holes.

George Ziegler trucked three loads of cattle to headquarters, and drove them on up to his place. Saved one day ride thru the monument, and also saved grass.

Removed license plate, decals, tools and heater from the Dodge 4x2 pickup and released it to Glenn Curtis Chevrolet Co., Monte Vista, Colorado on July 10.

PROJECTS FOR THE ENSUING MONTH. Continue painting interior of residence, touch-up painting on exterior woodwork of residence and office, more road work and continue to contact visitors on Sundays and during week days as work and time permits.

Ted C. Bowers,
Custodian.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Montezuma Castle National Monument
Camp Verde, Arizona

July 24, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly report of activities at Montezuma Castle National Monument for the month of July, 1948.

Visitors this month to Castle and Well - 3189. This travel year to date - 19,534.

Administration This month has been taken up with visitor contact, office work, and the most urgent maintenance.

Letters were written to the secretaries of the Chambers of Commerce in each of our neighboring towns to advise them of our guided trips every hour and of the limitation of nine visitors per trip. This letter was run verbatim in a publication circulated by the Verde Valley Chamber of Commerce.

Hastings made one trip to Prescott to discuss with the contractor certain difficulties with the electrical wiring at Montezuma Well.

Ranger Jewell made a trip to Walnut Canyon for two foam type fire extinguishers.

Personnel Ranger Leding took sick leave on July 7, 8, 9, and 10 for treatment of a lame back and was on annual leave on July 11 and 17.

Archaeologist Schroeder took 2 hours annual leave on July 2 and 8 hours sick leave on July 9.

Maintenance and Improvements On June 29 it was necessary to use a 50-foot sewer auger to unplug the lavoratory in the ladie's restroom. About a handful of roots were withdrawn by the auger so we must expect more trouble from this.

A new register stand constructed according to specifications drawn by the Regional Office was put into use July 23.

Protection A Class A fire which covered about four square rods was discovered at 2:05 by a visitor on July 7 near the lower end of the revetment wall in front of the Castle. Apparently it had been started by a smoker using our nature trail. Seven visitors and the custodian's two daughters helped get the fire under control by 2:45 P.M. Since it was in a deep accumulation of drift and duff, it smoldered throughout the night and was not completely extinguished until 3:00 P.M. the next day.

RECEIVED
JUL 29 1948
NATIONAL PARK SERVICE

Two 2½ gal. foam type fire extinguishers reached us through Walnut Canyon from W.A.A. stock.

A section of the iron railing in the Castle was removed from Room 9-2-3 (Pinkley). The welds attaching the railing to the walk had broken loose allowing the rail to become a battering ram against the wall each time it was grasped by a visitor.

Research Passages referring to Montezuma Castle were copied from the books "Some Strange Corners of Our Country" by Lummis and the "U. S. Geological and Geographical Survey of Colorado and Adjacent Territory - 1876" by F. V. Hayden.

Interpretation An Arizona coral snake caught by Howard Wingfield at Camp Verde was donated to our museum collection. Alcohol on some of our snake collection was changed.

Visitors There were 2466 visitors in 694 cars to Montezuma Castle and 725 visitors in 282 cars to Montezuma Well. Tickets sold at the Castle - 796; tax but no ticket - 149; children who climbed free - 156. Travel to Montezuma Castle was 2.7 per cent lower than for the same month last year.

Contacts Total contact hours 262.75. Hastings - 86.75; Leding - 70.50; Jewell - 96.50; Schroeder - 9.00. Two hundred and four trips were made through the Castle for 1097 visitors and 1174 visitors saw the museum in 219 groups. Visitors who received information outside the ruins or museum totaled 1205. At Montezuma Well guide booklets were available to visitors throughout the month and during this time 517 visitors were counted in 15 days of actual contact.

Newsworthy Visitors On June 19 a group of 19 Cavaliers sponsored by the Flagstaff Chamber of Commerce were here under the direction of R. T. Mohns.

July 4 brought a Dorsey Tour including 20 visitors, most of them teachers from West Virginia.

On July 19 the Girl Scout Mobile Camp consisting of 15 girls visited the Castle and the Well and camped over night on Beaver Creek. The group was directed by Miss Bertha Dutton, Curator of Ethnology, Museum of New Mexico.

Sale of Publications, Postcards, etc. Total sales for the month were $115.05 with a loss of $5.60 on our serve-yourself arrangement. Our Kodak Color cards of the Castle and the Well are very popular.

The following excerpts have been taken from the report submitted by Archaeologist Schroeder.

Administration The majority of the month was spent working on the museum exhibit. Cases were varnished, case titles were installed, and the first panel, dealing with the geology of the Well, was completed except for the installation of one specimen. Labeling for the second panel has been completed, though a map and several enlargements are necessary for their installation.

The loss of $1.40 in trail pamphlets and post cards on the first two lieu days of the month necessitated a change in sales and signs. Post cards were no longer placed in the register stand on lieu days and the sign pertaining to pamphlets was reworded. The result has been a loss of $.80 in 30 days.

47 negatives and 31 print file cards of record shots of the Well area were submitted for Regional Office files.

An old Mearns Coyote (canis mearnsi) was found lying on the outlet trail. Close observation revealed she was alive, but blind in one eye and partially so in the other, accounting for her starved condition. She was unable to move, even to obtain water from the ditch, and was put out of her misery.

Roads The wire entrance gate was repaired again this month. Two cars that had stalled on the hill were pulled out with the aid of the truck. In both cases, the cars had been allowed to back down the hill a short distance and were inadvertently guided into loose rock and sand on the side of the road.

Research Louis R. Jurwitz, Section Director of the Weather Bureau requested the reinstatement of a precipitation station at Montezuma Well. The Weather Bureau has a long record from here which had been maintained by the former owners.

Another agricultural outlook has been recorded for our archaeological files.

A check of the bird file reveals a total of 106 species recorded since July, 1947. 12 others, recorded by the Biological Survey of 1916 have not been noted.

Outside Talks A talk on the Archaeology of the Verde Valley was given to a group of 35 at a Kiwanis luncheon in Clarkdale, July 14. A resume of this talk was published in the local Verde Independent issue of July 22.

Homer F. Hastings,
Custodian.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Natural Bridges
NATIONAL MONUMENT
Blanding, Utah

July 30, 48

MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Natural Bridges National Monument for the month of July, 1948:

GENERAL: Ranger Judd made a trip to the former site of the Cahlot of Verne with two FBI investigators on July 7th. They were investigating the possibility of vandalism in connection with its fall.

TRAVEL: Travel to this area showed a decided increase over the same month last year with 93 cars and 327 people as compared with 81 cars and 240 people for last year. This travel included a bus load of Boy Scouts from Salt Lake City bound for Kite for a boat trip down the Colorado River to Lees Ferry and three trips made by the Utah Navajo Land Cruises with 9 passengers. Very few cars are using the White Canyon road.

INTERPRETIVE SERVICES: Two guided trips were taken to the various bridges with four people. Two hundred and 61 people were contacted at headquarters and 66 people visited the area in the absence of the ranger. Fifteen parties of 54 people used the campground for overnight stops.

NATIONAL PARK SERVICE VISITORS: Assistant Regional Director Davis and family in company with the Acting Custodian visited the area on July 1st on an inspection trip.

Landscape Architect Paul Thomas and the Acting Custodian visited the area on July 27th and 28th to check over possible road alignment, etc for the master plan.

Ranger Worthington from Arches National Monument made a trip to the area on July 12th and 13th to deliver a 265 gal. water tank for water storage.

RECEIVED
JUL 27 1948
NATIONAL PARK SERVICE

NOTEWORTHY VISITORS: Mr. John Henry Coon, lecturer from Baltimore, Maryland and wife visited the area on July 24th. Mr. Coon was taken on a horseback trip to all of the bridges by Ranger Redd.

WEATHER: This month has been unusually cool for this time of year. Several good rain storms occured during the month and kept the temperature down.

ROAD AND TRAIL MAINTENANCE: Very little work has been accomplished on trail repair due to heavy visitation. Ranger Redd has tried to repair the worst spots with what spare time was available. Still have had no success in the employment of a laborer to work on trail improvement due to road construction work, etc in the vicinity. The trails are in fair shape and passable.

The State maintenance crew has kept the approach road from Blanding in good shape and the San Juan County grading equipment worked on the White Canyon road from the monument to Hite and it is now in fair shape.

(in trip)

Russell L. Makan
Acting Custodian

NAVAJO NATIONAL MONUMENT
TONALEA, ARIZONA

July 25, 1948

MEMORANDUM for the Regional Director, Region Three

There follows a narrative report of activities in this area for the month of July 1948.

TRAVEL: This months travel curve shows a definite up-do. 118 visitors came to this area in 58 cars. 79 camped overnite for a total of 197 visitor days.
These visitors chose their activites as follows: 16 groups totaling 57 visitors were given the Museum and Orientation treatment, 48 visitors in 18 groups received guidance on Sandal Trail, 54 visitors were guided to Betatakin in 15 groups, 3 visitors were outfitted and guided in two horseback parties to Keet Seel.
With the exception of one party of two that slipped in, around Sandal Trail and out, on a windy day (we didn't hear them) all parties were contacted and guided.

REPORTWORTHY VISITORS: Assistant Regional Director John Davis with Mrs. and Miss Davis on the 26th. Mr. Davis inspected Betatakin on the 26th and Rainbow Bridge on the 28th and 29th returning to Betatakin.

Mr. D. Harrington USIS District Supervisor brought Miss Sheffner and Mr. Brown of the Navajo Mobile X-ray unit on the first.

Mrs. Michael Strauss with sons Mike and Jim on the 11th.

Bert Tallsalt and Navajo Mountain School personnel on the 14th and 15th.

Mr. Horace Boardman and Mr. Charlie Ashcroft of USIS Law and Order on the 14th.

Mr. John Aubachon and Ruth of Walnut Canyon National Monument brought Jack Wade and Joe Rumbergh of Mesa Verde National Park to this area on the 21st.

Personnel from the USIS School at Oraibi visited Betatakin Point on the 24th.

WEATHER: The climate was exceptionally dry, no measurable precipitation was recorded for this month until the 18th. High temperature 100 degrees on the 16th. Minimum temperature 49 degrees on the 20th. 10 Consecutive cloudless days were recorded from the 5th to the 15th.

RECEIVED
AUG 2 1948
NATIONAL PARK SERVICE

(cont)

ROADS: All approach roads have been dry and dusty. The only trouble spot has been the entrance road across Klethla Valley--and that is now in fair shape following the wetting down it got on the 23rd.

EQUIPMENT: A brand new 1½ ton dump truck was brought out to this area on the 20th. This first piece of heavy equipment is a valuable asset in keeping our road passable.

A slightly heavier road drag is being constructed.

Crystals for 6161 kc frequency were received and the M.T.-12 Marine Radio is being tuned to that new frequency.

MAINTENANCE: 18 man days were spent resurfacing the lower 1/3 of the switch-back trail to Betatakin Canyon.

7 man days were spent excavating the septic tank and constructing a new dry-well 5'X8'X5'. The effluent channel had become root-bound causing an artesian leak from the anaerobic side of the tank. This dangerous condition was eliminated by the new piled-rock dry-well. The job is completed and recovered and should withstand about 12 years usage.

PERSONNEL: On July 1, 1948 Mr. Seth Thomas Bigman entered on duty as Temporary Ranger (CPC6). Seth is a full blooded Navajo, a veteran of three years destroyer duty in the Pacific. Born on Paiute Mesa 24 years ago. Whether or not Seth is the first Navajo to become a duly appointed Temporary Ranger, he is certainly winning friends for the National Park Service.

NATIONAL PARK SERVICE

ORGAN PIPE CACTUS NATIONAL MONUMENT

P. O. Box 38, Ajo, Arizona

July 25, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of July, 1948.

Weather

Hot dry weather prevailed during most of July with a maximum of 111 being recorded on July 8th and a minimum of 63 being noted on July 12th. Light rains on July 21 and 22 produced 0.16 inch of precipitation at headquarters and brought cooler weather. Heavy showers fell on the southwest corner of the monument at the same time.

Maintenance

Road maintenance can be carried on to better advantage now that there is some moisture in the ground.

General maintenance carried on in the slow season with work concentrated on completing the Quonset Hut.

Co-operating Government Agencies

We have been informed that the Public Buildings Administration is furnishing three prefabricated houses for Immigration Service employees.

Interpretive Service

Only 40 visitors stopped for service this month. The office has not been kept open due to the small amount of travel.

Travel

There was more travel in July than in June but it consisted mostly of local and international travel.

Accidents

Two automobiles ran off the highway during the month. No one was hurt.

Personnel

Maintenance-man Quinn married Mrs. Mildred Beasley of Ajo on July 18 in Lordsburg, New Mexico.

Organ Pipe Cactus N. M. William R. Supernaugh, Custodian.

RECEIVED JUL 29 1948 NATIONAL PARK SERVICE

Saguaro National Monument
Tucson, Arizona

July 26, 1948.

MEMORANDUM for the Regional Director,
Region Three.

Submitted herewith is the monthly report of activities at Saguaro National Monument, for July 1948.

General.

The " Welcome Stranger " sign was hung out on July 16, when some .95 inch of rain fell on the Rincons, since that time, all of our employees have been wearing smiles. A heavy rainfall over the Rincons, amounting to 4.50 inches occured on July 22, several local people were unable to reach their homes until the run-off had subsided. One lady, a Mrs. Lee Finch of the Day Ranch, was marooned in the middle of a creek just south of the Thunderhead Ranch. Had the water been a little higher, her pick-up truck could easily have been swept down stream. Mrs. Finch was returning to her ranch with supplies and a crate of carrier pigeons, the latter she released, with messages tied to their legs, describing her predicament. The pigeons returned to their home about twenty miles north of Tucson, where Mrs. Finch's soninlaw received the messages. In the mean time, Ranger Wilde and the custodian, had pulled the truck and the lady back to high ground.

One fire resulted from the storm of July 16, which was quickly suppressed on the night of July 18. An interesting sidelight on this fire transpired from an erroneous report circulated by a rancher near Happy Valley, who assured that it was a burning airplane. He received several calls from the Pima County Sheriff's Office and the Highway Patrol. After repeated phone calls and considerable explanation, we were able to convince the authorities that a plane had not crashed on the Rincons.

One party of twelve persons from Benson, Arizona, spent three days camping near Manning Camp. On their return trip down the east side of the mountains, one of the party, a Miss Molly Crow, age 16, was thrown from her horse and slightly injured. The accident occured outside the monument near Mud Springs. However, two of our employees who were off duty at the time, assisted in carrying the girl out to the road. From the information we were able to obtain, she was not injured seriously.

Travel has dropped off sharply during the month, due mostly to the prevailing high temperatures no doubt.

The Broadway approach road has been rather rough during the month, some grading was accomplished, but ridges make their appearance very soon thereafter with use.

Total rainfall on the Rincons to date 7.35 inches.

Special Activities.

Assistant Regional Director John Davis and Special Assistant Ben Thompson, were in Tucson over the period July 7 to 15, in connection with land matters at Saguaro.

Ranger Wilde and the custodian both made trips to Casa Grande during the month, relative to repairs on equipment.

The custodian was in the forested area over July 18 and 19.

Maintenance.

While hauling water to the Madrona Ranger Station, the entire front assembly (Draw bar) on the water-tank trailer collapsed on the road, near the X9 Ranch. It has since been repaired with heavy gauge steel, and is standing up under heavy use.

A pitcher type hand pump and galvanized iron cylinder, were installed in the spring at Manning Camp. The water had become contaminated to such an extent, that it was unfit for human consumption. Since installing the pump, no further difficulty has ensued.

Forest Protection.

One fire occured about one and one-half miles north of the Mica Mountain Lookout, amounting to .2l of an acre. This area is blind to our lookout (Directly) but was reported from the Mt. Bigelow Lookout on the Coronado National Forest. It was gratifying to note how quickly our fire crew responded to the report. The report was received at 8:10 P.M. and in ten minutes, the crew had saddled their horses and were on their way. Ollie Barney went ahead and scouted for the fire, while three of us followed with the pack mule. We arrived at the fire at 9:10 P.M., after having traveled approximately 3.5 miles by trail. This is a good example of being able to take advantage of well cleared trails, while traveling at night.

Wildlife.

Several white-tailed deer were observed in the forested area during the month, two mule deer (does) were seen in the northwest section of the cactus area. Birds, particularly White-Winged Doves and Gambel's Quail are numerous in the desert area. The survival of Gambel's Quail chicks appears to be above average.

Travel.

A total of 517 persons in 165 cars visited Saguaro during the month. Twenty six states were represented and Washington D.C. This is a decrease of 379 persons or approximately, 42 % less than last month. This is also a decrease of 26 persons or .04 % less than for July 1947.

Interpretive Service.

Contact work this month has been spotty, as the custodian was necessarily absent from headquarters on numerous occasions.

A total of 205 persons in 54 parties were given interpretive service at headquarters. This amounted to 14 5/12hours for an average of 16 minutes per party.

Roads and Trails.

The trail crews continue to improve the various trails. Parts of the Happy Valley Trail and Italian Ranch Trail have been worked, also the Telephone Line Trail.

In view of the recent rains, the water situation may improve to such an extent, that we may be able to establish a temporary camp near Happy Valley Saddle. If this proves to be the case, we can accomplish much needed improvements on the trails in that area.

Vandalism.

Several valuable photographs in our multiplex were stolen during the early part of the month. Fortunately, Mr. Marvin Frost had the negatives, so that duplicate prints were made and installed to replace the stolen ones.

Samuel A. King
Custodian

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Sunset Crater NATIONAL MONUMENT

Flagstaff, Arizona

July 26 19 48

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Sunset Crater National Monument for the month of July 1948:

Weather: Rains have been recorded all around the area, but very few of any consequence have fallen in the immediate vicinity. Fire hazard has decreased, but with the onset of lightning storms and not enough rain patrols after each lightning storm are necessary.

Roads: Not enough moisture has fallen to allow us to work the entrance road. It is in very poor shape because of chuck holes and some time has been spent filling holes. Maintenanceman Bean will be able to take care of this situation next month.

Visitor travel: Visitors are estimated at 4207 this past month, bringing the travel year to 15,761. On the basis of actual registration, which was 1683, there was only a slight increase over July 1947 when 1630 persons registered. The condition of the roads undoubtedly affected travel. A total of 250 persons received personal guide service.

Personnel: Temporary Ranger Charles Case Jr. of Long Beach, California, entered on duty July 1. Chuck is an archeologist from the University of New Mexico and is batching in the trailer.

Vandalism: The observation has been made that a number of the visitors come into the area and their main interest is the ice cave. This interest is a practical one; they want the ice for their thermos bottles. Ranger Case reports several instances of this during the month. Perhaps we should remove the mention of the ice cave from our entrance sign.

Maintenance: Signs are being repainted along the highway and those within the area will be done next. Cleanup has been completed, aside from the daily task.

David J. Jones
Custodian

TONTO NATIONAL MONUMENT
ROOSEVELT, ARIZ.

26 July 1948

MEMORANDUM for the Regional Director, Region Three.

Following is a report of activities at Tonto National Monument for the month of July 1948.

Weather. Day time temperatures ranging around the 100° mark with a high of 111 on the 18th. Night time temperatures well up in the 80's. Relief came on the 19th with cloudy skies and some light rains continuing to the present.

Approaches to Monument. Rain and grading have helped both the Apache Trail and the Monument approach so that most of the washboard is gone and there is a good hard packed, smooth surface. State grader-man Ab Sanders graded the monument approach after the first decent rain.

Interpretive Service. The museum has remained open all month but, with the exception of 4 days, there has only been one man on duty. Due to the heat only about a third of the visitors wished to see the lower ruin. With the coming of the rains and consequent cooler weather there are many more hardy souls who wish to make the ruin trek.

Travel. Visitors totaled 567 for the month. About half of the 155 cars were from Arizona. Of the total number of visitors only 202 made the trip to the lower ruins. Travel is down about half from last month and some 200 more than July of 1947.

Fire Danger. Fire danger remained high in spite of some rainfall. Most of the rainfall was spotty and light, barely settling the dust. Added to the previous fire danger was more frequent lightning storms.

Personnel. The Archaeologist position was filled by Lloyd M. Pierson who was transferred from Aztec on the 10th. Custodian Charles C. Sharp commenced his well earned annual leave July 19.

Lloyd M. Pierson,
Acting Custodian.

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Tumacacori National Monument
Tumacacori, Arizona

July 25, 1948.

MEMORANDUM for the Regional Director,
Region Three.

Follows the monthly narrative report for Tumacacori National Monument for the month of July, 1948:

WEATHER CONDITIONS: Severe dsouth conditions prevailed until well past the middle of the month. In the past week this county has received a thorough drenching. Precipitation through July 24 for the month was 2.79 inches. Maximum temperature of 108 degrees came on July 10. Minimum for the month was 53 on June 27 and June 28.

INCREASE OR DECREASE IN TRAVEL: July travel set a new record. Our visitor total of 1190 exceeded the previous July record of 1161 for 1932.

INTERPRETIVE SERVICE: 677 persons went on 139 guided trips through the mission church and grounds, receiving an average of 34.1 minutes per trip. 1,108 persons saw the museum, and 1,123 persons received combined Information and Interpretation Service.

VISITORS: 7 - 20 - Dr. and Mrs. Charles Vaurie, of the American Museum of Natural History, spent an evening and morning making insect collections for their museum.

PUBLICITY: June 28 - C. C. Koch took pictures of the mission for safety program entertainments of Santa Fe Trailways employees.

July 18 - Carl Markwith and Ernest Cottrell took some still shots for use by the National Geographic Magazine.

INSPECTIONS: July 9 - Assistant Regional Director Davis and Special Assistant to the Director Ben Thompson spent a late afternoon and evening with us.

July 21 - Chief Clerk Castellum, on annual leave, spent most of a morning with us, chiefly on fiscal matters.

VANDALISM: On July 15, on the custodian's day off, while Ranger Brewer was at lunch, some person or persons unknown entered the mission church. A large loose piece, consisting of several original bricks and original plaster, which lay on one of the side altars, was maliciously and thoroughly broken up, and one of the original bricks of the altar base was broken up. A piece of original lime plaster in one of the statue niches was broken off and broken into pieces on the floor.

MAINTENANCE: In addition to general maintenance and extensive irrigating, a defective valve on the water fountain was fixed, the museum was light stripped, and with the aid of a hired workman for a day the two new automatic hot water heaters and one new kitchen range were installed and vented.

STABILIZATION: No stabilization work was done on the mission. This work will be deferred until funds become available, except for small jobs as they occur. On a short section of exposed adobe wall which is visible in a trench east of the mission two experimental coats of water proofing solution (Formula 640 of the Raynes Products Company) were applied.

FIRST AID: On July 14 the custodian was called to give artificial respiration to the infant son of Mr. and Mrs. Gene England, who live two miles from here. They had found the two year old son unconscious in a tiny wading pool not over eight inches deep. Artificial respiration was being given when I arrived, and I continued it until the doctor arrived, but it was too late. The child must have been dead when it was lifted from the water.

BOUQUETS: Ranger Brower quoted the following bouquet which she heard from visitors the other day: "The Park Service is to be congratulated on what they do.... so many different types of areas, but always handled so well and with such finesse."

Karl Jackson,
Custodian

TUZIGOOT NATIONAL MONUMENT

CLARKDALE, ARIZONA

JULY 23, 1948, 19

RECEIVED
JUL 28 1948
NATIONAL PARK SERVICE

MEMORANDUM for the Regional Director, Region Three

Following is the monthly narrative report for Tuzigoot National Monument for July, 1948.

Visitors this month, 1814 Travel year to date, 13,217.

Travel Data: 1814 visitors in 542 cars was sufficient to break all previous July highs - - 1361 in 1947 and 1085 in 1941. These hearty people braved the intense heat which prevailed during the first part of the month and the near zero visibility caused by sand and silt blown in from the smelter tailings pond. However, the past week brought light showers and cooler weather and with it a marked increase in travel. California continues to lead all out-of-staters by a large margin.

Guide and Contact Service: Museum, ruins and orientation contacts totaled 4541 for the month, 1643 people in 495 parties were shown through and given an orientation lecture in the museum, and 1648 people in 495 parties were conducted through the ruins. The average time spent by each party in the museum was 22 minutes, while the conducted tour through the ruins required 21 minutes per party.

Personnel Time: Museum: 176 hours, 15 minutes. Ruins: 180 hours. Total contact time for Bright: 184 hours, 35 minutes. For Richert: 162 hours, 05 minutes.

Special Groups: Groups of 30 teachers from the Arkansas State Teachers College on July 11, and Miss Bertha Dutton and her girl scout group on July 19.

Maintenance and Administration. After 16 months of waiting we finally received final delivery of the 2-inch galvanized steel pipe from the contractor, the Verde Valley Hardware Company, which was ordered to replace a 1200 foot deteriorated section of the water line. We hope to be able, if the present heavy contact duty permits, to complete the laying and connecting-up of this line before next report time. During the past month several leaks were repaired. One very severe in which several thousand gallons was lost and required all day to fix. As this report is moving through the typewriter a new leak has developed and more water is being lost. A much needed and appreciated air cooler was installed in the living quarters during the first part of the month. Pictures and negatives recently received from the Regional Office, on stabilization work performed last summer, were filed and annotated.

Custodian.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Walnut Canyon National Monument
Flagstaff, Arizona. July 27, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities in Walnut Canyon National Monument for July, 1948:

Weather. Very dry until we had a light shower on the 23rd followed by a good shower on the 25th. The entrance roads were dusty and deeply corugated until the County began grading with the first precipitation. Tracks beside the entrance roads disclose that many visitors turned around to regain the pavement without reaching the monument.

Visitors. Of the 3,731 total, 3,271 were contacted, and it is estimated that 2,790 made the ruins trip unattended. There were 294 hikers, in 43 parties.

Inspections. Charlie Steen spent part of a day down in Canyon checking our ruins stabilization needs. Dale King arrived on the 4th to finish a report and spend some time on the museum. Mr. Saunders made two trips here to inspect rehabilitation projects. Mr. Carlson stopped twice to leave equipment and inspect an infestation of Ips. Mr. Hendricks spent some time preparing a bitumuls mix for the trails, and checking our roads and trails problems. Ranger Jewell, Montezuma Castle, visited the area while picking up two fire extinguishers. Mr. Davis stopped by to discuss all our problems.

Rehabilitation. The repairs to Comfort Station an Admin. Bldg. were re-done by contractor, and then were accepted.

Roads & Trails. Considerable difficulties were experienced with the construction of all-weather trails, but we have some now - from Comfort Station to Parking Area to Admin. Bldg. We hope they endure. About 50 yds of cinders and 10 of sand were hauled from the vicinity of Sunset Crater for our Roads and Trails projects.

A new 1 1/2 yd dump truck was received during month, and the old 1934 Ford dump released to the highest bidder.

Insect & Tree Diseases. Six Pinyons, blown down earlier this year and found to be loaded with Ips, were removed from near our parking area. Several large pines turning brown may be seen in the distance from the observation porch.

Museum Activities. With a roof now on the exhibit room, an attempt is being made to install some sort of exhibits to permit the use of the room until the time when there are funds for the permanent installation.

Forest Fire Suppression. Fortunately, we have had no fires this year, nor any lightning storms. The USFS Had another large fire. Altogether, Rangers Aubuchon, Viklund and Foreman Bean MNMK spent 65 1/2 hours on this one.

NATIONAL PARK SERVICE

WHITE SANDS NATIONAL MONUMENT
ALAMOGORDO, NEW MEXICO

July 23, 48

MEMORANDUM for the Regional Director, Region Three:

TRAVEL MONTH JULY, 1948 TRAVEL YEAR TO DATE 1948

VISITORS 19,816 CARS 4,399 VISITORS 84,602 CARS 20,052

Every month we know that next month is going to drop off some but next month seems to pick up all the more. Anyway that is true of July 1948, like many others for the year it has broken all records for like months in the history of the monument. This year we did have a special group on the 4th that brought up our attendance.

Conditions for travel I think have been normal. The weather has been hot and dry. Road conditions within the Monument have been bad due to late heavy winds, dry conditions and heavy traffic. Rains last month seem to have improved the range conditions however and the grass seems to be better than for some years past.

An official trip was made by the Custodian to both the White Sands Proving Grounds and Las Cruces in connection with the intention of the Army to enlarge their holdings in this section. The entire monument area in now embraced by the Proving Grounds and several matters must be settled sooner or later in regard to the Special Use Permit now in use by the Army. Ranger Chittum made a trip to El Paso for some parts for water pumps and also the purchase of one new pump.

The transfer of Ranger Steel to Lake Texoma took place the early part of the month. Ranger Schaffner our seasonal for several years has been appointed temporaryly in Steel's position. Delbert Nelson has been given the seasonal position. We are sorry to loose Paul Virginia and the children but know that they will be an asset to Texoma and we were glad to have had them the time we did. Ray is well acquainted with the conditions here and can take over and go right along. Ray received his Masters Degree this spring and was among the four high in the College on his work. We are proud of his accomplishments in his school work and are looking forward to similar trends in his Service work. Ranger Chittum took over as President of the local Lions Club this month, and we are proud of Harold for this recognition of his leadership and ability.

Road work and cleanup has been so heavy the past month that it has been necessary to hire some help for Joe. We also managed to finally patch several places in the recent oiling of our entrance road, but before my blood

pressure gets beyond my control I better get on to some other subject. The Army has given us another half promise of a bull dozer to assist in clearing some of our worst drifts. We are only able to keep a one way passage through a portion of the dune area. If they do get up with a dozer for a few days it will sure help us out.

General drouth conditions seem to exist in many parts of the Southwest and water becomes a problem in many places. We have experienced considerable trouble in Alamogordo with water and our last test showed our water as Unsafe. Additional precautions have been taken at this end of the line to assure our visitors of the safe condition of their drinking water.

No complaints have been received on the Service or Concession. I know that several visitors would like to spend more time with a ranger on occassions but other cars come up and the ranger has to excuse himself. It is possible that the future with provide a Naturalist that can devote his entire time to some of the features of the Monument to which the visitors show an interest but at present to which we can give little attention. Many have expressed their appreciation for the museum and its story, but as complete as it is there still remains questions that must be answered in person.

A small grass fire was extinguished by our men just off the monument. It likely would not have ever reached our boundary but it took only an hour or so to put it out and be sure. It burned over almost two acres along the sands south of our headquarters.

No publications have been printed or processed during July.

John Linwell Laird
Custodian.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

July 26 19 48

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Wupatki National Monument for the month of July 1948:

Weather: The maximum temperatures rose gradually during the month and reached a peak of 102° on the 16th. Since then the rains have begun and the days have cooled considerably. Precipitation totaled 1.14 inches. It is late this year and unevenly distributed.

Roads: The entrance road from Hiway 89 has improved considerably as a result of the rain. The one from Sunset Crater has not received much rain and visitors are being advised not to take it. No maintenance was performed during the month as Joe Bean has been at Walnut Canyon since the latter part of June.

Travel: Visitor use of the area decreased slightly from last month, but is still well above our previous July records. A total of 777 persons visited Citadel and Wupatki Ruin bringing our travel year to 5800. Of the 538 visitors to Wupatki Ruin 475 received guide service. The heat wave early in the month decidedly affected travel.

NPS and Other Visitors: Stu Carlson paid us a visit early in the month to discuss forestry problems and Sam Hendricks during the latter part of the month inspected roads.

Bill and Sally Lippincott of Kin Tiel Trading Post, and formerly of NPS had a showing of Navajo rugs and jewelry at the Museum of Northern Arizona. The work of that vicinity is excellent and the Lippincotts deserve the credit for encouraging the Navajos. The excellence of the rugs has put at least two NPS families in my category- "rug poor".

Other visitors included Dr. Gladys Reichard of Barnard College who helped us work out some of the kinship problems of the Navajos of Wupatki Basin, and Mr. Conrad Geiger of the Long Island State Park Comission.

Special Activities: At the request of the Coconino National Forest Supervisor a revision of their Scenic Log #5 was prepared. A good portion of this guide leaflet pertains to Wupatki and Sunset Crater.

A group of Girl Scouts under the leadership of Dr. Bertha Dutton stayed overnight in the area and visited the NNA archeological excavation, and the major ruins and a Navajo family.

The Navajos took up at least one day. We recruited laborers for the NNA dig and then had a family of Peshlacai relatives moving in on us from the Gray Mountain area. Aside from the fact that we do not want any more families, we definitely do not want any more tubercular people than we already have. There were two children who are in the last stages of tuberculosis. First they moved in with Clyde Peshlacai and then went to the Hal Smith family hogan in the lower Basin to avoid us. They feared that we would make them take the child to the hospital. They finally we back to Gray Mountain.

Protection: S. T. Carlson examined the area near the Second Sink where about two hundred juniper trees are dying and considered it an old burn. When some of the local Navajos were asked about any fires that could have occurred in that locality, one mentioned that he had seen where the fire had burned during the war. He added that it was in the rainy season and a week later you could see only very green grass.

Spring Flow: Dur ng the past month we have had to haul 2500 gallons of water from Wupatki Spring is producing 168 gallons per day compared to 268 last month. By restricting our use we have been able to get along on this, except that there are some leaks in the line which have not been located. Heiser Springs is producing 960 gallons per day; the same as last month.

Research and Observation: The excavation in archeological sites by the Museum of Northern Arizona continued during the month. They are working on small pueblos NA 660, 661, 662 and 618. One day was spent by the group at Crack in the Rock Ruin testing for a kiva and excavating two of the basal rooms. These sites are Anasazi and primarily late pII and early PIII. They will complete their excavations and do some archeological survey. The sites will be backfilled.

Geologist McKee and Dr. H. S. Colton of the NNA visited the Second Sinkhole along the Forest Boundary and contributed basic interpretive data which has been recorded for the fact file. In his spare time between visitor contact Ranger Euler has been cataloguing our fact file according to the Dewey decimal system and adding basic data.

Ranger Euler and Maintenanceman Bean reported some interesting petroglyphs which are textile designs and data on possible prehistoric farming sites which they discovered on days off.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

RECEIVED JUL 23 1946 NATIONAL PARK SERVICE

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3)

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH BUSES, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT EXCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA AS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME Fred W. Binnewies
Fred W. Binnewies
TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as Attended Interpretive Stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, motel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors enquire.

INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the Superintendent or Custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 6th of the month following that covered by the report.

NAME A.T. Sicknell,
TITLE Custodian.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, [illegible], CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*An additional 36 people; local residents, here to use telephone or on other business were also contacted.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical Aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of [illegible] stations and devices open to the public. The number of days the stations and devices were available may be [illegible] under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

TITLE Acting Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device.. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8n3) and 9 (Report 9n3).

NAME J.W. Brewer Jr.

TITLE J.W. Brewer, Jr. Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME
TITLE William R. Supernaugh, Custodian.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill Out Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" personnel are naturalists or ranger naturalists, historians, and historical aides.
"ADMINISTRATIVE" are custodians, superintendents, etc., called on to assist with interpretation.
"OTHER" are rangers, clerical personnel, and the like who may be called in to help interpret the area.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing information rather than interpretive service should not be considered as Attended Interpretive Stations.
Information is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors enquire.
Interpretation is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive services, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be known.

This Report Due: from all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 5th of the month following that covered by the report.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

* Visitor total includes 67 rumerounds.
All facilities and devices open entire month.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

RECEIVED
JUL 28 1948
NATIONAL PARK SERVICE

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report Em3) and 9 (Report Sa3).

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

JUL 28 1948
NATIONAL PARK SERVICE

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel in not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 16, Chapters 8 (Report 8m3) and 9 (Report 9m3).

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8n3) and 9 (Report 9n3).

Region Three Office--Mr. King			

Steen

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Region Three
Santa Fe, New Mexico

September 1, 1948.

MEMORANDUM for the Regional Director, Region Three.

Following is the narrative report for the naturalists of the Southwestern National Monument for the month of August, 1948.

Staff Activities, General

Naturalist Dale S. King spent the entire month at Walnut Canyon National Monument working on temporary exhibits.

Archeologist Charlie R. Steen made trips to Chaco Canyon, Aztec Ruins, Capulin Mountain and Bandelier National Monuments. The trips took a total of seven days travel time; the balance of the month was spent in the office.

Clerk William Carter, of the Mobile Unit, resigned on August 31 to return to school.

Public Relations and Extension Services

Final copies were made of three articles to be published by the New Mexico Magazine. These are the first of a series of articles on New Mexico Park Service areas to be run during the next year by the magazine.

Progress of Exhibit Plans

Naturalist King, at the end of the month, had nearly finished installation of temporary exhibits at Walnut Canyon. Much of his time at Walnut Canyon was spent in making the cases suitable for exhibit purposes.

Labels for Bandelier and Montezuma Castle National Monuments, prepared by the Museum Division, were received and forwarded to the monuments.

Ruins Stabilization

Work at Chetro Kettle ruin, Chaco Canyon National Monument, continued during the month. At Bandelier, the Long House stabilization was completed and, barring future catastrophies, all stabilization at Bandelier is now on an annual maintenance basis.

Research and Observations

The Adams State College Field School finished its summer term at Bandelier on August 26. Rooms and trenches dug at site L. A. 117 (Rainbow House) were backfilled. Mr. Fred Norman, of the school, plans to return shortly to make additional exploratory trenches in, then back fill, the excavations in site L. A. 128, a large black on white site adjacent to the monument.

Visitors

Dr. and Mrs. Tom Noble, Custodian William Supernaugh, Archeologist and Mrs. Dan Davis.

Library Accessions

Library accessions for the month included 4 books, 39 periodicals and 93 reprints and pamphlets.

The more important books were:

Baldwin, Gordon C. - Archeological Surveys and Excavations in the Davis Dam Area. Typescript report, 122 pp. illus, maps, July 29, 1948.

Mohr, Charles E. (editor) - The Caves of Texas. Bulletin Ten, The National Speleological Society, Washington, D. C., 136 pp. illus. (some archeology, and cave zoology).

Projects for September

King will finish at Walnut Canyon early in the month and will return to Santa Fe about September 7. Steen will spend most of the month in the office but plans to make a ruins stabilization planning and inspection trip, accompanied by Archeologist Vivian to Gila Cliff Dwellings, Tumacacori, Casa Grande, Tonto and Walnut Canyon National Monuments late in the month.

Southwestern Monuments Association

During the month of August Treasurer Vedder worked 21 days. Two deposits and one disbursement were made. Covers mailed were 154, including 16 letters and 29 purchase orders.

The executive secretary continued to be away this month so the treasurer with the assistance of Charlie R. Steen, acting executive secretary, carried on the business of the Association. The treasurer was given a raise from $1.25 to $1.45 per hour, retroactive to July 1, 1948, with an undetermined number of days for sick leave and vacation - probably 14 and 23 days respectively.

All extra time this month was spent on the annual report and helping H. C. Neal make the audit. Much time was spent in posting in the various journals, preparing information for Mr. Neal, and making separate statements for the Government, which are included in our annual report. The usual time was spent with visitors, salesmen, etc.

The figures for the audit are completed, and the final draft only awaits the executive secretary's return September 7th, so that the auditor can take up one or two questions with him.

Barbara Vedder worked but 12 hours this month, due to Luis Castellum being unable to spend much time on cutting stencils. Her time was spent on putting kodachrome slides in order; filing cards and coding them; wrapping packages; and typing addresses on cards of names of those persons who have written to the Park Service requesting information.

CHARLIE R. STEEN

Charlie R. Steen,
Acting Park Naturalist.

Approved for Distribution (SGD) JOHN M. DAVIS, September 1, 1948.
Assistant Regional Director.

cc: Mr. Davis (2).
Mr. Dodge (2).

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Arches
.....NATIONAL MONUMENT
Moab, Utah

August 26, 48
..... 19.....

MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Arches National Monument for the month of August, 1948:

GENERAL: The recent additional publicity this monument has received in various magazines, etc has caused our travel to continue to soar. The stock questions from our visitors are, "Why haven't we heard about this monument before", and, "Why dont they build better access roads".

The custodian attended a stock show and barbecue spensored by Chas. Redd, stockman from LaSal, Utah, and held at that place, on the afternoon of August 22nd. There were about 400 people in attendance. An excellent program was held out of doors during the evening.

WEATHER: Rain storms of cloudburst proportions fell on August 4th, 5th and 22nd with showers on August 6th, 12th, 23rd and 24th. Several very warm days were experienced but the intermittent storms kept the weather unusually cool for August.

TRAVEL: Visitors for the month exceeded all previous monthly travel for this area with 599 cars and 1515 people. Our prior record month was June, 1948 with 1497 visitors. This brings our travel year to date to 7116 people as compared with the total 1947 travel year with 4702 people. There was representation from 31 states, District of Columbia and Czechoslovakia.

INTERPRETIVE CONTACTS: Our interpretive contacts in the monument area suffered during the month due to the necessity of spending a good portion of the time on road maintenance in order to keep our roads passable after storms. Despite this fact 309 parties of 635 people were contacted in the various sections and 9 parties containing 78 people were accompanied on trail trips to the various scenic points. A total of 72 parties with 211 people were contacted at headquarters. Our picnic areas and the headquarters area are getting heavy use by campers, who must have some spot to spend the night.

NATIONAL PARK SERVICE VISITORS: Custodian Bowen of Gran Quivira, accompanied by his wife, visited the area during the month to take delivery

on the Arches stake truck for use at his area. He reported that he had trouble with the oil line on his return trip and had to leave the truck at Farmington, New Mexico for repairs.

APPROACH ROADS: The approach road has been in a rough condition practically all month. The heavy storms of August 4th and 5th caused considerable damage and it was not until August 12th that the State was able to grade this portion of the road. It was then too dry to accomplish much. The storm of the 22nd again caused considerable damage and they have been unable to spare their equipment to perform the necessary work. The road is still passable with caution and the visitors are still coming in.

MONUMENT ROADS: The storms of August 4th and 5th washed out two culverts on the Windows section road and made the two crossings of the Salt Valley Wash impassable. It also flooded the Devils Garden parking area. We made temporary repairs and had the roads open by the evening of the 6th. The storm of the 22nd was not as severe and spared our culverts in the Windows Section, the wing walls remained intact but considerable fill was washed out. The Salt Valley Wash crossing near the Turnbow Cabin was badly washed but the road was back in passable shape by noon of the 23rd. Maintenanceman Wilbourn has spent the entire month trying to get the roads back in shape after each storm.

SPECIAL ACTIVITIES: A reconnaissance survey was made of land lines in the vicinity of the Devils Garden, Fiery Furnace and Windows sections to determine additional land needed to include all portions of the Fiery Furnace and our new roads within the boundaries of the monument. This land is included within T24S, R23E, which is being thrown open for homestead entry.

Ranger Worthington and myself tried to check boundaries in the vicinity of Klondike Bluffs on August 4th to determine the location of uranium mines being worked in that section. We could not locate section corners but came to the conclusion that the workings were about one mile west of the boundary in this section. No other evidences of mining have been noted in close proximity to the boundary.

Russell L. Mahan

(in trip.)

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

24 August 1948

MEMORANDUM for the Regional Director,
Region Three.

There follows the report of activities in Aztec Ruins for August 1948.

WEATHER. Continued pleasantly, warm days carried on from July and with them came increased numbers of visitors. We have enjoyed a few August showers which have come in mild proportion and have served to freshen the country side for both the farmer and tourist.

MAINTENANCE. Patched the great kiva roof and checked other roofs in the ruins. Cleaned the usual tourist debris a number of times from ruins and museum area. Attended to some minor trouble with our water system and plumbing, but spent much of our time with the visiting public.

VISITORS. From the Regional Office we had the pleasure of a visit by Charles Chrysler; from Boulder City, Nevada the Chief Clerk and Mrs. Carl Walker and Children of Lake Mead Recreational Area. Rangers Manson, Orem from Chaco, Ranger and Mrs. Tom Onstott from Bandelier and two temporary rangers from Mesa Verde whos names wehave misplaced.

Dr. and Mrs. Earl Morris from Boulder, Colorado have called twice during the month and Dr. Weatherwax, Professor of Botony, University Indiana visited, at which time he gave the rangers and a group of visitors a short lecture on the origin of corn.

INCREASE IN TRAVEL. We have experienced a 10% increase this month over August 1947, which itself was 20% over August 1946. This month there were 3439 visitors in 979 cars from 42 states, Washington, D.C., Hawaii, Canada, Mexico, Belgium, Panama, Sweden and Syria.

INTERPRETIVE SERVICE. There were 2957 visitors in 337 trips shown thru the ruins and 3439 visitors in 418 trips conducted thru the museum.

Ranger Service. John F. Turney reported for duty as temporary ranger early in July, but the call of matrimony and a better paying job in his home town of Alamosa, Colorado took him from us after 3 weeks duty. In his place we obtained the services of a local high school instructor, Boyd Sego, until such time as Tom Onstott can effect a transfer from Bandelier.

Irving U. Townsend,
Custodian.

AZTEC

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO
August 31, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of the activities at Bandelier National Monument for the month of August, 1948.

WEATHER

A rainfall of 2.59 inches for the month of August kept the Monument fairly cool. The nights are beginning to get chilly and some trees are already shedding their leaves. This change from summer to autumn is especially noticeable by the shadows on the canyon walls created by an early setting sun.

SPECIAL ACTIVITIES

Mail delivery to the Monument was established on August 2nd and the service was furnished the residents on Mondays, Wednesdays and Fridays. This service, however, is limited to mail delivery and does not include money order or c.o.d. deliveries.

Five trips to the Regional Office were made by the Custodian on various items but mostly in connection with the proposed power and telephone line.

CONCESSIONS

A new stove unit consisting of an oven and large grill top was installed in the lodge kitchen. This makes the cooking facilities adequate for the present demand. A Bock water heater was also installed in the lodge kiva on the 21st, and is operating very satisfactorily. The installation of the heater eliminated two smaller units and will eliminate a third as soon as pipe connections can be made to some of the cabin units.

The Lodge reported an increase of more than 200 lodgings over August of last year and business is generally good.

RECEIVED
AUG 26 1948
NATIONAL PARK SERVICE

COOPERATING AGENCIES

The Adams State College Field School completed its summer session on the 25th. The excavating that was accomplished at the small ruin near headquarters was back filled to protect it during the winter. Test trenches that were dug in an early site on Frijoles mesa revealed standing walls 67 inches high and possibly located a kiva. Further testing will be necessary to definitely establish if a kiva was located.

STABILIZATION

The stabilization program was completed August 27. This program included the repacking of all exposed walls in Tyuonyi and the Long House, drainage of all open ruins, the remudding of the inner wall of the large kiva, and some necessary ruins trail repair. The work began a year ago, but was discontinued during January, February and March.

VISITORS

Regional Director Tillotson brought eleven members of the Phoenix Committee to the Monument on the 19th. The Committee is composed of all of the Department of Interior Bureau heads in this region.

The Roundup Lodge, Buena Vista, Colorado, brought 108 boys to the Monument for a week of camping on the 9th.

ROADS AND TRAILS

Most of the campground road was given an oil coat to prevent dust from annoying the campers and picnickers. Six hundred gallons of oil were used for the job and approximately 300 gallons are needed to finish it.

The ruins trails were given a dust coat of light oil also, which makes the guided trips more pleasant.

Construction work was started by Wylie Brothers, Construction, on the five miles of the approach road that is to be constructed by the Atomic Energy Commission. It is expected that this work will have some adverse effect on travel to the area until it is completed.

For the first time in many years, the State Highway Department did some grading on highway 4 between the two sections of the Monument.

UTILITIES

The specifications for the proposed power and telephone line, that is to connect with the Atomic Energy Commission

line at Ancho canyon, were completed and a set furnished to the Reynolds Electric Co. for an informal estimate on costs.

Twenty two surplus telephones were secured from the Atomic Energy Commission to be used for spare parts.

FOREST PROTECTION

A fire that was set in three places was discovered by clerk Ramirez in the immediate vicinity of Monument Headquarters within a few minutes after it started. Fortunately the fire only burned some dry grass on the edge of the road and no damage resulted. It was thought that the fire was started by three boys from the Roundup Lodge, Buena Vista, Colorado.

PERSONNEL

Two fire Control Aides, Manuel A. Sanchez and Edward C. Griffith were terminated from duty the last week of the month. The crew was also terminated with the completion of the ruins stabilization project.

MUSEUM

Material for the proposed trash mound case revision was removed from a test pit during the month. The new labels for the Pueblo Government case came in during the last week and will be installed when time permits.

TRAVEL

5361 visitors made August the largest travel month in the history of Bandelier and is a 20% increase over the same month last year. June, which had been the previous largest month, had 5,284 visitors. There were more re-entry cars in June than in August. This figure brings the travel year up to a total of 24,456, which is an increase of 11% over the same period last year. 654 visitors on the 8th also set a record for the greatest number of persons in one day.

INTERPRETATION

Three thousand two hundred and fifty four people visited the ruins this month. More travel seems to be going to Tsankawi since the road sign was put up. The evening program had an attendance of 1100 visitors for the month which is an increase of 20% over last year, and it is gratifying to know that we can give so many people this extra service.

(SGD) FRED W. BINNEWIES

Fred W. Binnewies
Custodian

Canyon de Chelly National Monument
Chinle, Arizona

August 25, 1948

MEMORANDUM for the Regional Director, Region three:

The following is a report on activities at Canyon de Chelly National Monument during the Month of August, 1948.

Weather Conditions

Weather conditions have been ideal for travel and roads have been in fair condition most of the month. Although our rainfall at headquarters has not measured as much as in previous years, it rained almost daily in the surrounding country and we have had comparatively cool weather thru the month. Our maximum temperature was 97 degrees but for the most part they were in the eighties. Or minimum temperature was 48 degrees with most days ranging in the high fifties. Rainfall totaled.1.59 inches.

Administration

Two trips were made to Gallup, New mexico during the month. One to accept delivery on the new Ford dump truck, and one made by ranger Bradley for supplies. Office work and filing has been kept current and a library inventory and rearranging of files has been completed. Four hours of annual leave were taken by the custodian.

Maintenance

Regular maintenance and cleanup work has been carried on as contact work permitted. New sparkplugs, distributor points, wiring, and a new carburetor and speedometer were installed in the Dodge Army pickup. A registration desk was made that also permits display of publications and sales have jumped about a thousand percent. The Indian service grader went over our road with their blade once during the month.

Travel

This month shows a great increase over travel a year ago and is our best August since 1941. Thunderbird ranch reports that it has been their best month in history. A great deal of the increase is due to the fact that good roads and little rainfall have allowed Ceremonial and Snake-dance visitors to make the trip. There were 463 visitors as compared with 268 for August of '47.

Visitors

Dr. and Mrs. Thomas Noble arrived during the month, Mrs. Noble to continue her work in making Navajo portraits, and Dr. Noble to finish work

Visitors (Cont.)

on some manuscripts he is preparing for publication, continue his work in photographing the out-of-the-way sections of the monument, and to present a paper at the annual clinic of the Sage Memorial Hospital.

Doc is one of our firmest friends and his visits are like a shot in the arm.

Other visitors included Director Raoul Walsh and Location manager Russ Saunders of Warner Brothers who visited the area looking for moving picture locations, John Henry Coon, lecturer, J.F.(Buck) Burkhart of the Boy Scout Koshare dancers of LaJunta, Colorado. Joe Hunt of Chicago a noted wood-carver was with him. J.H. McGibbeny and party, and former ranger Quentin Bradley and his family.

Anthropology and Archeology

Mr. David de Harport, working under a Peabody Museum permit has continued his work in site surveying and mapping. He is accomplishing an amazing amount of work. At present he has mapped about six miles of Canyon de Chelly and has 124 sites as compared with Mendeliff's 32.

He has found two types of open Basket-maker sites. One type being fire darkened flake areas in which were found B.M. dart points, the other being slab lined cists without evidence of sherds. He has obtained a wider variety of Basket-maker pictograph motifs and believes there is a possibility of being able to define B.M. petroglyphs. Sherd collections have been made at each site from the surface. No test digging has been made thus far. Several exposed burials were found and removed, the artifacts placed in our collection here.

General

The custodian was called two times during the month to get sick Navajos out of the Canyon, and to the Hospital. One was a year old child and the other a young woman in advanced stages of T.B. Both patients died shortly after reaching the Hospital.

One Squaw dance was held in the Canyon near White-house and Visitors were able to see and hear this ceremony in one of the most spectacular settings.

Publicity

The August issue of Arizona was devoted to this section in general and one article by Jamrod Lauritzen titled Children of the Yellow Twilight was about Canyon de Chelly. Old "Falcon-eye" Guillet hopes he can live up to the publicity given him in this article.

RECEIVED AUG 30 1940 NATIONAL PARK SERVICE

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
SOUTHWESTERN NATIONAL MONUMENTS
~~COOLIDGE, ARIZONA~~
Capulin, New Mexico

August 25, 1948

MEMORANDUM for the Regional Director,
Region Three, National Park Service
Santa Fe, New Mexico

There follows the narrative report for Capulin Mountain National Monument for the month of August, 1948:

Visitors: There were about nine thousand visitors to Capulin Mountain National Monument during the month of August, making a total of twenty six thousand, seven hundred for the travel year, and forty six thousand, two hundred visitors for the fiscal year.

Weather: The weather has been warm all during the month, with occasional showers. Evenings and nights are beginning to feel like fall weather.

Flora and Fauna: The wild flowers and trees have been beautiful all summer, and there are prospects of good pinon and acorn crops for this fall. Deer and other animals in the Park are in good condition.

Roads and Trails: The roads and trails in and around the Monument area are being kept in fine condition.

Information Pamphlets: The last pamphlet on the Volcano was given away in July, but received 2,000 pamphlets the first part of August, and now have about 1,500 on hand.

Interpretive Service: Ranger Homer Farr has been on duty during August, and has contacted approximately one hundred visitors daily.

Approach to Monument Road: The work done on the approach road to the Monument last month by the State Highway crew was a great improvement, and every effort will be made to keep it in good condition.

Homer J. Farr

NATIONAL PARK SERVICE

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

August 25, 1948.

MEMORANDUM for the Regional Director,
Region Three.

There follows the narrative report for Casa Grande National Monument for August, 1948.

General: The acute water shortage has eased up a bit lately and the situation looks somewhat more encouraging. Rainfall in the area has helped to some extent and the canals have been running muddy water for some time. Cotton farmers should soon ease up on irrigation in order to let the cotton mature for picking and this let-up in pumping should have a beneficial effect on the water table. We now feel able to spare a little bit of water for our mesquites and palo-verdes in an effort to keep a few trees green. The new radio station, KUKY, has been in operation this past month. The station is affiliated with the Mutual Broadcasting System. A new Theater has been opened in conjunction with the radio station and the price of admission is now up to 30 cents. At this rate we'll be spending more evenings at home.

Weather: Although temperatures for this month have not been exceptionally high we have had very hot and uncomfortable weather. Due to unusual high humidity many of our days have been very close and muggy. The maximum temperature was 111 with a high minimum of 79 and a low minimum of 67. We recorded .32 inches of rain during the month which was far below what we had hoped for.

Visitors: August 1948 - 1514 : August 1947 - 1717 : Travel year to date 1948 - 34,780 : 1947 - 32,736. This is a loss of 203 people from August of last year.

Interpretive Service: Of the 1514 visitors to the area, 919 made the ruins trip in 134 groups averaging 39.6 minutes per trip. 595 people were here for a quick look but did not make the ruins trip.

Administration and Protection: The Adamsville site was checked for trespassing but things were apparently untouched. Six requests for information were answered and informational material sent out. The inventory has been taken and is almost completely typed up at this time.

NPS Visitors and Visitors of Note: On July 31, Dr. Howard K. Cloyd, Director of the Chicago Academy of Sciences, and Mrs. Cloyd paid us a visit. Custodian Supernaugh and Maintenance Man from Organ Pipe Cactus National Monument were here on August 2, to pick up material and supplies. On August 4, Custodian King of Saguaro returned our light plant and picked up his which had been repaired in our shop. He also picked up a new Wagner motor for his refrigerator and surplus shop material. On August, Mrs. Herbert Maier, wife of Assistant Regional Director Maier of Region 4, was here for a short visit accompanied by Mr. Fred Gibson, Director of the Boyce Thompson Arboretum. Ranger Ray Ringenbach from Chiricahua National Monument was in on the 24th to see about any surplus equipment available for transfer.

Maintenance: We are now engaged in a thorough clean-up and preparation for our heavy travel season which is only a few short months away. The Administration Building has been given a thorough painting on the inside and is now in good shape. The entrance sign was painted and other signs will be painted in the near future. A bedroom floor in quarters 3-5 was given a coat of grey paint. The utility area is now thoroughly cleaned up inside and out.

Personnel: We have received travel orders and confirmation regarding the transfer of Mechanic Stonehocker to Zion and Bryce Canyon National Parks.

Leaves Taken: Mechanic Stonehocker and Archeologist Davis are on annual leave and will be due back on the 31st.

Nature Notes: The reptile life on this monument is extremely cooperative as evidenced by the fact that a red racer obligingly presented himself for inspection during Dr. Cloyd's visit. Dr. and Mrs. Cloyd spent some time in photographing this snake.

Trips Taken: Custodian Bicknell made a trip to Phoenix on the 16th to take care of Monument business. Maintenance Man Barnett made a trip to Organ Pipe Cactus National Monument with a truck load of material.

A.T. Bicknell,
Custodian.

Chaco Canyon National Monument
Bloomfield, New Mexico
August 26, 1948

MEMORANDUM for the Regional Director, Region Three,
National Park Service.

There follows the report of activities in Chaco Canyon National Monument for the month of August, 1948.

There were a total of 310 visitors to Chaco Canyon this month. These people came in 69 automobiles from the states of:- Arizona - 1 car, 4 visitors; California - 12 cars, 29 visitors; Colorado - 5 cars, 13 visitors; Florida - 1 car, 2 visitors; Indiana - 1 car, 4 visitors; Kansas - 3 cars, 11 visitors; Maryland - 2 cars, 13 visitors; Michigan - 1 car, 2 visitors; Missouri - 2 cars, 7 visitors; New Jersey - 2 cars, 6 visitors; New Mexico - 30 cars, 117 visitors; New York - 9 cars, 31 visitors; Oklahoma - 3 cars, 7 visitors; Pennsylvania - 2 cars, 5 visitors and Texas - 15 cars, 39 visitors. Of these persons, 302 took the ruins trip forming a total of 71 trips with an average of 80 minutes per trip, and there were 69 parties, a total of 283 persons, in the museum with an average time of 20 minutes. Total time:- Ranger Kern -- 29 hours and 10 minutes; Ranger Maxson -- 61 hours and 30 minutes and Custodian -- 18 hours and 40 minutes.

The warmest the month was 93 degrees Fahrenheit on the 1st and 17th of the month. Note Casa Grande, Tumacacori at all! It looks as though we will not reach 100 degrees at all this summer! The coolest was 40 degrees on the 25th of August. There was a total precipitation of 1.51 inches.

Outlying ruins visited this month include Kin Ya-a. The fences were in good shape, and there was no evidence of pot hunting.

The rains washed out our roads on a number of occasions. There were two bad breaks but they were both discovered and repaired before any damage was done to any vehicle. The grader has been over the roads several times.

In an effort to determine the best possible fire alarm, we tried first a

triangle, next a piece of railroad iron and then a wagon tire, but all were very indistinct or sounded as if some one were merely hammering when heard even a short distance away.

In odd jobs, a cap for the new tank and a box for the intake were built, one painted and both installed. The sides of the stake truck were painted. The museum floor was enameled. The woodwork in the bathroom of the residence was enameled. A complete new drain board was installed at the sink in the kitchen of the residence. The fence around the principal part of the Monument was repaired in a number of places

Ranger Orem has done most of the outside jobs besides guiding. Ranger Maxson has devoted almost his entire time, except for guiding, working over the files.

National Park Service visitors included Paul Balch and Charlie Steen. Dr. Helmut de Terra spent one day here, and promised to be back. The Prairie Trek Expedition spent one night here.

Dr. Malcolm M. Bissell, formerly Head of the Department of Geography at the University of Southern California was back in the Canyon, intermittently, for nearly two weeks. He was making a study of the Chaco region, and presented the custodian with a statement of the problems in which he is interested. As it will interest others, it is placed in this report.

"1) I have been doing some checking on the prehistoric large community houses of the Chaco Canyon area to complete a study of the factors which influenced the choice of sites for these houses. This study was begun ten years ago while I was a member of the staff of the former research station operated by the School of American Research. A preliminary report on the work was presented before the Association of Pacific Coast Geographers, but the publication of the paper has been delayed pending some final checking in the field.

2) A study of the progress of erosion was begun by the Research Station in 1937. A number of stations were set up a various critical points in the Canyon and on the plateau nearby, and it was planned [illegible]ke photographs from each of these stations every year for an indefinite period. This plan was carried out in 1938, but the project was officially abandoned when the Research Station was transfered to the University of New Mexico. I personally continued it in 1939 and 1940, but have not been at Chaco Canyon since 1940. This year I have checked the old stations and again taken photographs from them.

3) Another project is the problem of the origin of South Pass. I have made some field observations during this visit in 1948 in an attempt to solve this problem, which apparently involves a case of stream capture. Lack of adequate topographic maps is, however, a serious obstacle to physiographic study in the Chaco Canyon".

/s/ Malcolm F. Vissell

Subject for the ensuing months- continue the repair, repointing and annealing of the residence.

MEMORANDUM for the Custodian
Chaco Canyon National Monument

There follows the narrative report of the Mobile Unit activities in your area during the month of August, 1948.

Our principal trouble this month has still been the labor supply — the independently wealthy Navajo. With a steady drain of resignations and lay-offs we have been unable to increase the crew above 11. Added to this are the usual squaw dance troubles and the fact that there's nobody to replace all the men we'd like to fire for being absent half the time. Man Days lost to squaw dances this month were 48.

Cement is still in short supply though we have been able to beg enough barely to keep going.

Charlie Steen arrived on August 5 with Bill Carter who is putting in a month helping us catch up on the clerical work and the stabilization records.

At Chettro Kettle all flood damage work had been completed except two wall support jobs. These are small jobs in man days but will require considerable time.

The first of these is in progress, the replacement of a large horizontal log with a cast concrete log. So far the wall has been jacked up off the log, the log removed, and the negative plaster cast made. The positive cast in concrete will be made and placed back in the wall within the next week.

The major job in winding up the flood damage work was the repair of Kiva N, the "West Tower Kiva", and adjoining room walls.

The kiva was cracked in two on an east-west axis and the north half settled outward. A strip 18 feet long and five feet high was removed in the north exterior wall and relaid in reinforced concrete. The wide cracks at the east and west were cleaned out and reinforced sections rebuilt. Also repaired and capped adjacent to N were 89 north end all four walls of 72.

One other extensive job done bringing to a finish the flood damage work was completion of repairs in the two and a half story room 60. The east wall was run up a story and a half to buttress the north wall of the site; a large patch was made at floor level in the southwest corner, smaller patches in the center of the south wall.

Smaller jobs such as completion of capping, patching doorways, placing cast lintels, etc. were done in rooms 53, 55, 58, 59, 61, and 62.

With the flood damage work well under control regular stabilization was begun in the middle of the month on the south three tiers of rooms in the central house block. This work has consisted in the main of repairing small wall breaks, capping, and repairing mere holes which have developed under the old and often broken 1932 capping. To date five rooms; 27, 28, 31, 32, and 33 have been completed.

Also made this month were partial repairs on the office roof. The center of our roof is 8 inches lower than the sides and this hole had been filled by past tenants with dirt. We got by actual count three large truckloads of dirt and mud off this roof. It was cleaned down to the half rotten boards and a soil-bitumen plate laid. This isn't the best solution, but it was the quickest and the cheapest.

Carter and I spent the most of one day measuring up the repair work to be done on Pueblo Del Arroyo. Carter has this tabulated by class of work and as soon as we get photographs we hope to turn out a small report on it.

Gordon Vivian
Archeologist

CHIRICAHUA NATIONAL MONUMENT
Dos Cabezos, Arizona

August 25, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Chiricahua national Monument for August.

Weather. Good rains have fallen over much of Southeastern Arizona. It appears that the prolonged drouth may be broken over this section, as a whole. Chiricahua has not received its share of these rains. 3.93 inches have fallen since last report. The total for the year is now 10.25, which indicates we will have to hurry to beat last years low record of 13.93.

Inspections. Regional Forester Carlson made a brief inspection of Chiricahua on August 5. Fire equipment was gone over with the Custodian and a trip was made to the lookout with the Ranger.

General Publicity. The Arizona Daily Star gave Chiricahua a page of pictures and story in a Sunday edition. The article left us slightly confused as to whether we were part of the Forest Service or Park Service, but otherwise it was a very good writeup.

Maintenance. Rangers Hingenbach and Hoffacker have spent much of the last month painting. The last of the Headquarters and Camp Ground buildings is almost painted. This is the first outside painting to be done since the winter of 1944 &'45. This painting consisted of linseeding and shingle staining the eaves, gable ends, framing, doors and screens of our rock buildings, as well as considerable interior painting. There is now very little left to do in the way of painting for a couple of years.

Approaches to Monument Area. The rains have settled the dust on the dirt approach roads so that they are somewhat better than in the past. The Douglas-Bisbee Road is oiled to within three miles of the monument and gravel has been strung for oiling on the remaining three miles.

Interpretive Service. Three conducted trips were made. One by Auto, and two on horseback, with a total of 15 visitors. 1452 visitors were contacted in the museum in 309 parties.

Chiricahua, Narrative Report.

Research and Observation. A small rattle snake was placed in our snake box about a month ago by the ranger force. The first attempt to feed him was with a grasshopper, which he consumed. Next a vinegarone, a skink and a mouse were added in the above order. All lived peacefully together for a number of days, but at last the snakes appitite got the best of him and the mouse disappeared. The vinegarone and skink are still living happily (?) with the rattlesnake.

Travel. 1598 visitors arrived at Chiricahua during the month. This is a gain of 141 over August of last year. The trend for about six months has been generally than last year. As the Douglas approach road is nearly all oiled now we think we may gain back some of our losses.

Forest Fire Protection. Rains have brought on a good crop of green annuals and lowered the fire danger. Mr. Windes was taken off of Sugar Loaf Lookout, August 16. The Forest Service had laid off their lookouts over three weeks before that date.

Clair V. Cooke
Clair V. Cooke,
Custodian.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

El Morro NATIONAL MONUMENT

Ramah, New Mexico

August 26, 19 48

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities in El Morro National Monument for the month of August, 1948.

WEATHER: The precipitation of 3.71inches for this August amounts to only half of the same month last year. Maximum temperature reached 89 degrees and the minimum dropped to 44 degrees.

TRAVEL: Inspite of rough and muddy roads we show an increase in travel of 174 percent over the same period last year. This increase is partly due to a record attendance of the Gallup Ceremonial. During the four days over 200 people made the tour of the Inscriptions. For theentire travel month 512 visitors arrived in 171 cars and 480 made the tour of the Inscriptions in 105 guided tours. Total guide time amounted to 111 hours and 45 minutes. Thirty-two people arrived for information about roads and the whereabouts of local people.

APPROACH ROADS: The gallup road, between Ramah and the Monument, and the Grants road, between The Ice Caves and the Monument, have been extremely rough, but passable during the report period. The seven miles of new construction and oil mat, south from Gallup, were completed on August 20th. This improvement gives us a ten mile stetch of pavement and eliminates eight miles of rough and muddy road. No further information on the improvement of Highway #53 has been received.

SPECIAL ACTIVITEIS: Mr. Willard R. Culver, phptographer for the National Geographic Magazine, arrived August 5th. but was unable to photograph due to overcast skies. He returned August 10th., failing to notify me as pre-arranged, to find the Custodian pouring a concrete floor. The delay, caused by a necessary change of clothes, worried him. Clouds threatened the desired light and he had no cast on hand; however by thentime the Custodian had washed off the cement and climbed into uniform a party of tourists appeared, the clouds disappeared, and the day was saved. On August 19th. Mr. Harry Dugen and Mr. E. W. Johnson, photographers for Burto Holmes Travelogue, arrived and spent three hours photographing the Rock and the Inscriptions

PUBLIC HEALTH: After the unsafe report of our water supply a constant check has been made and sofar the tests have shown no contamination. Three feet of filter material was removed from the filter tank and replaced with fresh sand. This helped in eliminating the algae content for three weeks but we now notice a great deal of residue. It looks like during the summer

months atleast six inches of sand will have to be removed each month to eliminate the algae.

GENERAL: One per diem laborer was employed for six days during which time he repaired trails, helped with the pouring of the concrete floor in the generator house, dug a new garbage disposal pit and cleaned the chlorine filter tanks.

Three trips were made to Gallup for supplies on USDI 13841. Ranger Swatzell repainted the exterior of the Ranger cabin with the desired Bondex color. With 111 hours of guiding little time was left for routine chores.

Number ofncopies of free publications on hand as of the end of August, 1948.

2-fold English Edition---------- 500

16- page Booklet----------5511

Bates E. Wilson

Bates E. Wilson,
Custodian.

GRAN QUIVIRA

GRAN QUIVIRA, NEW MEXICO

AUGUST 25 48

MEMORANDUM for the Regional Director, Region Three.

The following is a report of activities at Gran Quivira for the month of August, 1948.

General. August brought more visitors than any other month this year. Weather conditions were near ideal for travel, although too dry for bean farming. The crops are spotty, and the anticipated bumper crop is not going to materialize.

Weather Conditions. There has been sufficient moisture to keep the Monument and surrounding range lands green throughout the month. Rainfall for the period totalled 2.25" with 1.64" falling on August 4. Maximum temperature for the period was 91° recorded on August 20.

Special Activities. August 9-14 were spent on a trip to Arches National Monument to secure the excess stake body truck. As already reported the truck had to be left at Farmington for repairs. I intend to go back after it this weekend.

Inspections. Regional Forester Carlson visited the area on July 28. Mr. Carlson delivered needed fire quipment and answered the numerous questions always awaiting Regional Office Personnel.

Maintenance. A new head gasket was installed on the deep well pump, which seemed to have the desired effect, as the exhaust now comes out of the exhaust pipe instead of the radiator.

August 2 and 3 were spent in burning the weeds out of the Mission.

Repair and Rehabilitation. Painting of the interior walls of the old custodian's residence was completed and the rest room partitions were framed. A work bench was constructed in the work room which is probably the biggest single improvement since we arrived. About all has been accomplished now that can be done without purchase of new building material in the amount of about $300 plus $200 for wages or a total of $500. Above would provide fiber board to complete the restrooms and enclose the ceiling, metal roofing to be laid over the tar paper which ruins our drinking water, lumber to construct minimum display cases for the exhibit room, and wages to install the wiring. Anyone knowing the whereabouts of $500, please note.

Approaches to Monument. Both the Mountainair and Carrizozo approaches have been in good condition throughout the month.

On August 6 the U.S.Forest Service grador worked the 3/4 mile of Monument entrance road. The ditches were pulled, and an excellent job of drainage accomplished.

Cooperating Governmental Agencies. On August 5, R. B. Himes, Range Examiner for the local SCS District, visited the area and spent considerable time examining the vegetative cover. Gran Quivira provides the only sizeable protected area in the locality and is a valuable check plot for the U.S.Forest Service and Soil Conservation Service.

Cooperating Non-governmental Agencies. On August 3 Willard Culver, Staff Photographer for the National Geographic visited the area. As previously reported, the weather failed to cooperate, but we did have a pleasant visit.

Interpretive Service. 103 parties totalling 400 people were guided through the ruins. Average trip time, 48 min. Total contact time, 82½ hours.

Research and Observation. A large buck deer was observed in the ruins on Aug. 17.

Aug. 19 the first "baby" rattler of the season was observed. With nothing to shake but a button, he was nevertheless a pugnacious little fellow.

Increase or Decrease in Travel. As indicated below travel for this month exceeded that of August 1947. However, the main increase was in number of cars, not number of visitors. Of the 133 cars registered 64 were out-of-state and 69 New Mexico. Texas accounted for 30 of the out-of-state cars.

	CARS	VISITORS
August 1948	133	460
August 1947	90	439
Increase	43	21
Percent Increase	47.7	4.8
This Travel Year	611	1890
Last Travel Year	619	2294
Decrease	8	404
Percent Decrease	1.3	17.6

Visitors. July 28. Regional Forester Carlson.
July 28. R. E. Cowles, Herptologist, UCLA.
August 6. Chief Ranger and Mrs. Worley & family, Carlsbad.

William L. Bowen,
Custodian.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
GREAT SAND DUNES NATIONAL MONUMENT
MOSCA, COLORADO.

August 26, 1948.

MEMORANDUM for the Regional Director,
Region Three.

There follows the report of activities in Great Sand Dunes National Monument for August, 1948.

WEATHER. Short summer, wasn't it? The radio (KOA) said this morning, that it was 33 degrees last night at Alamosa.

The minimum of 45 degrees was registered on July 30, August 4 and 22. The maximum of 88 degrees was reached on July 27. The high minimum was 52 degrees on August 19. The low maximum was 70 degrees on August 5.

Showers fell on July 28, 30; August 1, 3, 4, 5, 6, 11, 12, 17, 18, 19 and rain, in goodly proportion, fell on August 21, 22, 23, and 24. A film of snow was visable on Mt. Cleveland on August 24.

The range is very dry and the fire hazard has been high. The Medano has receeded and can no longer be seen from headquarters. Mosca and Morris Gulch springs are also very low and it is hoped that our water supply holds out until more rain replenishes the present supply

There were 14 days of clear weather; 14 partly cloudy days and 3 cloudy days during this report period. A very severe wind storm occurred on August 15.

TRAVEL. Four thousand eight hundred fifty-four visitors in one thousand one hundred forty-five cars visited the Sand Dunes during this report period. Forty-one states and the Persian Gulf were represented. Two thousand six hundred twenty-three people took advantage of the picnic areas, and of these one hundred thirty camped over night.

DECREASE IN TRAVEL. For August, 1947, there were 1181 cars and 6019 visitors. Last year's travel during August was heavily increased due to the Sand Dunes Shrine Ceremonial, which was not held here this year. Our record this month is a very good one since it is strictly based on tourists and local valley people.

CONTACT. Contact was carried on during week days as time and work permitted; on Sundays, as is the custom.

Eight hundred twenty-five cars were contacted with a total of three thousand five hundred eighty-one visitors. An average time of ten minutes was spent with each contact, amounting to one hundred thirty-seven and one-half hours.

Can any one-man area equal or even better this record? Miracles can happen, and its a pleasure to know there are funds for a temporary ranger next year. Two summers at this area are too hectic, and a third without additional help just couldn't be faced.

ROADS. The state graded the approach road on July 31, August 7, 14 and 21. The road still remains in bad shape and as soon as the main chuck-holes are filled by the state highway crew, the heavy traffic has them torn up again in just a few days.

The monument road from the entrance to headquarters is in excellent condition. The road from headquarters to the two picnic areas is in terrible condition inspite of hours of road work and dragging the rail-road irons over the first section to Mosca spring.

When the new grader is received, a great deal can be accomplished on this bad section of road, if we don't have an early winter and the ground remains unfrozen.

NEWSWORTHY VISITORS. The Pueblo Motorcycle Club of twenty-five members made their yearly trip over Mosca Pass, and picnicing at the area.

Two visitors signed the register book as being from the Persian Gulf.

ACTIVITIES. Little was accomplished again this month due to visitation and contact which took up the major working hours.

Usual routine duties of hauling coal, wood, ashes, garbage and supplies were done, as well as trying to keep the administrative and office matters current.

Clean up of both picnic areas was a major chore and becoming more distasteful each time. Clean up of the headquarter restrooms was made easier with the waste receptacles which were received and placed in each room. The paper towel cabinets were also installed, and a new mirrow was hung in the womens to replace the badly broken mirrow there.

Took possession of the new 1948 Ford Dump Truck on July 27, and its a pleasure to haul gasoline and propane tanks in this vehicle.

Minor repairs were also made on the 1938 Ford Dump Truck on August 7, at the Heide Motor Company.

RECEIVED AUG 31 1948 NATIONAL PARK SERVICE

The Monte Vista Heating Company installed the automatic hot water heater on August 2 in the back service porch of the custodian's residence. The HCWP has noticed a considerable lowering in her blood pressure since she doesn't have to battle with the old trash burner in the basement.

The two water tanks, stove and pipe were removed from the basement and the place was thoroughly cleaned.

Repaired the No 2 light plant and installed a new crankdog. Weekly check-up were also made on both light plants.

Much road work, with no visable results, was done by dragging the road from headquarters to Mosca spring. Gravel was hauled for the hill down Mosca creek. No drag-line has yet been set up by the state - just more talk.

Cleaned and checked water supply at Morris Gulch spring. At present writing, its quite low and in my opinion, a very poor set-up for our water supply.

Photographs were taken for submission as illustrations for the trefold leaflet. The manuscript was checked as well as photographs and map for same.

Received a supply of mimeographed informational leaflets from Region Three, and only 220 complete copies could be stapled together.

PROJECTS FOR ENSUING MONTH. After Labor Day, travel should decrease enough to enable me to complete the projects that have been put off all summer. It will be time to get this area ready for winter and to haul in our fuel oil supply as well as gasoline and other supplies. Perhaps time can be found to do the much needed outside painting.

Content work may be cut to Sundays in order to accomplish this work.

Considerable head-scratching and figuring will be done to see if it is at all possible to attend the Conference at Grand Canyon on the fiscal funds allotted to this area.

Ted C. Sowers,
Custodian.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Montezuma Castle National Monument
Camp Verde, Arizona

August 24, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly report of activities at Montezuma Castle National Monument for the month of August, 1948.

Visitors this month to Castle and Well - 4041. This travel year to date - 25,575.

General This month brought 2973 visitors to Montezuma Castle which was 408 more than the highest previous month, August, 1947. All visitors were contacted to learn if they wanted to climb into the Castle or to be told why they must wait if the quota of 9 for that hour was full. This limitation of 9 climbers per hour brings the rangers under constant pressure. A man from the West Coast insists that we stretch the limit for that party to ten because he can not wait for the next trip or a lady from Pawtuckett says that her two children have been studying Indians in school and if we can not take her and the children, will we please take the two children. But the rules say that children who climb must be accompanied by a ranger.

Administration We have done little more than attend to visitor contacts and take care of routine and urgent maintenance.

Trips were made to Montezuma Well on July 25 and August 1, 8, 15, 21, and 22 to check on activities there.

Weather The maximum temperature for the report month was 106° on July 30 and 31. The minimum was 58°. This month brought 1.21 inches of rainfall with all but .10 inches coming during the first week in August.

Personnel Ranger Leding was on sick leave August 18 through August 22 suffering from a cold and sinus attack.

Archaeologist Schroeder took annual leave beginning August 23 to attend the archaeological conference at Point of Pines, Arizona.

Protection All of the monument completely enclosed by fence was patrolled.

Maintenance and Improvements Hastings used two lieu days to lay asphalt tile on the floor of the living room in Residence No. 2. The tile cement which looks like tar is still oozing up between the tile and causing considerable difficulty.

Two new tires were mounted on the pick-up, I-13852.

Fauna Ranger Jewell caught a northern black-tailed rattlesnake entering the men's restroom.

National Park Service Visitors Dale S. King was here July 28.

Sale of Publications, Postcards, etc. The sale of books and pictures grossed $99.55 for the month. There was a shortage of $9.85 on the Serve-Yourself plan leaving $89.70 as the amount collected.

A Kodachrome display rack supplied by Southwestern Monuments Association was received and put in operation.

A rack for displaying business reply cards requesting Southwestern National Monuments literature was received.

Visitors There were 2973 visitors in 832 cars to Montezuma Castle and 1068 visitors in 325 cars to Montezuma Well. Figures for the Well cover 18 days of contact plus count from the registor stand for lieu days. This is a visitor increase of 195 per cent and a car increase of 230 per cent over this month last year.

Contacts Total contact hours 255.50. Hastings - 78.75; Leding - 64.75; Jewell - 94.50; Schroeder - 17.50. Two hundred and thirteen trips were made through the Castle for 1251 visitors and 1221 visitors saw the museum in 279 groups. Visitors who received information outside the ruins or museum totaled 726.

The following excerpts have been taken from the report submitted by Archaeologist Schroeder from Montezuma Well.

Administration Daily duty was maintained except for lieu days and as follows: August 2 and 3 relieved Hastings on annual leave at the Castle; August 13 relieved Leding on annual leave; August 20 and 21 relieved Leding on sick leave; August 23 on annual leave.

The majority of the month was spent on the museum exhibits. Presswood backing for labels were cut out and beveled and labels were applied. Three pieces of decorated pottery were repaired and other specimens were prepared for panel three. The plywood back-ground for this panel was treated with a covering of colored sand to represent the cross-section of the valley, and a map was completed for reference use.

16 print file cards of record shots of features in the area and corresponding negatives were submitted for Region Office files.

Plans for a shed to cover the pump were drawn up and an estimate of material cost was submitted.

A rough map of the museum and quarters area was drawn to locate hidden features such as underground pump conduit, septic tank and drainage field, and plumbing as well and phone and power lines.

A representative collection of pot sherds was assembled and sent to Dr. Jennings as requested by Regional Archaeologist Reed.

A large picture of the Well and one of the Castle was received from Mr. T. J. Junker of Grand Rapids, Michigan, a regular winter visitor.

National Park Service Visitors Dale King came down July 26 to discuss museum exhibits. His helpful suggestions took the "bugs" out of most of our problems.

Leased Land The Montezuma Dairy herd pasturing on the leased land has been suffering from Pink eye this past month, and one calf died from pneumonia. The rains, incidentally, have brought up considerable cover on the unleased portion of the bottomlands.

The Well For awhile it was thought that the water level of the Well was not constant. It was observed to rise approximately one foot this month. However, the ditch was low and investigation revealed that the outlet was partially plugged. Labor supplied by the Watters Ranch, one of the water users, succeeded in dislodging some of the sticks, stones, and weeds that had lodged some five feet inside the outlet on the interior side of the Well. Flow has since been normal.

Bats Since spraying the window casement areas of the house with DDT, a few bats, which hole up between the casement and siding have been found dead on the ground under the windows. Whether these died as a result of receiving a heavy dose at the time of spraying or through later contact is not known.

Undesirable Visitors During my absence the wife encountered a small northern black tail rattlesnake by the front porch of the quarters which was dispatched by Mrs. Hastings who was visiting at the time.

Three days later, while relieving at the Castle, a visitor to the Well killed a diamond back at the museum. Numerous rattlers have been noted in the vicinity since the heavy rains, prior to which none had been reported.

Chamber of Commerce A good portion of a lieu day was taken up guiding Tom Jones through a nearby ruin with a ball court. He is secretary of the local Chamber of Commerce and is playing with the idea of obtaining a permit to have one excavated on private property for purposes of a yearly annual celebration to draw visitors to the valley. The main attraction would be a game played in the court. The chief hitch would be the lack of knowledge pertaining to the game itself.

Homer F. Hastings,
Custodian.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Natural Bridges
NATIONAL MONUMENT
Blanding, Utah

August 28, 48
19

MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Natural Bridges National Monument for the month of August, 1948:

GENERAL: Ranger Rodd reported a trip into upper White Canyon, above Sipapau Bridge, to try to locate Corner No. 3, as shown on Drawing No. NB-NM-5300. He could not locate the corner but stated that he believed that "Sphinx Rock", shown on this map in close proximity to the corner, was actually one abutment of the massive fallen bridge referred to by Dr. Gregory in his San Juan County report. If so, all of the interesting ruins in White Canyon are included in the monument. He also reported finding some very interesting petroglyphs above Sipapau Bridge.

TRAVEL: Travel for the month fell short of the June and July travel with 62 cars and 226 people. This is still heavier than August, 1947 when 166 people visited the area. Our travel year to date totals 1121 visitors compared with the total travel year of 1947 of 972 people. There was representation from 24 states, with Utah accounting for the bulk of the visitors.

INTERPRETIVE SERVICES: Sixty parties of 187 people were contacted at headquarters and 6 parties containing 10 people were accompanied on trail trips to the various features. A total of 49 people visited the area in the absence of the ranger.

APPROACH ROADS: The State maintenance crew graded the road from Blanding prior to August 10th and Ranger Rodd hauled several loads of shale on the hill above headquarters and now has it in good shape.

Regular weekly maintenance trips have been made over the White Canyon road and it is in fair shape for travel.

RECEIVED AUG 31 1948 REGIONAL OFFICE

WEATHER: Heavy rain storms were experienced on two occasions during the month and Armstrong Canyon carried high water on August 8th. Cooler weather has been in evidence during the month.

SIGNS: Two new signs have been placed on the approach road from the White Canyon junction to headquarters and a sign has been installed on the White Canyon road designating the overlook for Kachina Bridge. Blanding approach road signs are being repainted as time permits.

TRAIL MAINTENANCE: The flood in Armstrong Canyon on August 8th caused damage to the trail between headquarters and the Kachina Bridge. Repairs were made on August 9th. Very little time has been available for trail work, due to heavy visitation, but the trails are all in passable shape.

INSPECTIONS: No inspections were made at this area during the month due to press of work at Arches National Monument.

Russell L. Mahan
Acting Custodian

(in trip.)

NAVAJO NATIONAL MONUMENT
TONALEA, ARIZONA

August 26, 1948

MEMORANDUM for the Regional Director, Region Three

There follows a narrative report of activities in this area for the month of August 1948.

TRAVEL: Visitation fell off sharply early in the month due to rains and cloudy weather. Only 62 visitors in 20 cars reached the headquarters area. They chose their activities as follows: 28 visitors in 10 parties were guided to Sandal Trail, 5 parties totaling 17 visittors were guided to Betatakin, one party of two was outfitted and guided horseback to Keet Seel. There were 23 overnite campers. All visitors were contacted and guided.

REPORTWORTHY VISITORS: Mr. and Mrs. Hoffman Birney who know their Roads to Roam spent August 1st on the area.

Grand Canyon National Park Temporary Naturalists Myron Sutton and Harold Asmussen visited here August 5th. We made arrangements for them to get pictures of Navajo home life.

Mrs. Will Rogers, jr., and Mrs. Lisbeth Eubanks camped here on the nite of the 24th.

WEATHER: Precipitation 0.51 on the 4th damaged the entrance road. Total precipitation for the month was only 0.82 inches. Maximum temperature was 91 degrees on the first, minimum temperature was 60 degrees on the 6th.

ROADS: 97 man hours were spent repairing storm damage to the entrance road--a short detour is required ½ mile above Calamity Flat. (I just learned from a party of visitors that the USIS grader is coming in on this road today).

PUBLICITY: Mr. E.T. Scoyen forwarded a copy of the August issue of Southern Sierran. Ruth Aiken describes the Grand Slam trip of the Sierra Club to Navajo and Rainbow Bridge National Monuments.

The August 17th jumbo edition of the Gallup Independent carried our article describing Navajo and Rainbow Bridge National Monuments.

RECEIVED AUG 30 1948 NATIONAL PARK SERVICE

MAINTENANCE: Remodeling of the tool house was completed. Tool racks and a pipe tool shadow-board were installed.

Seth and I were able, in slack moments, to cut and haul some timbers for use in constructing a hogan for seasonal rangers.

EQUIPMENT: Three pulaskis were added to the Building Fire Equipment.

Notice was received that contract for a road patrol grader for this area had been awarded. Delivery is expected within 30 days. With this new piece of equipment it is certain we will be able to keep our entrance road in better condition and show an increase in travel.

MUSEUM ACTIVITIES: 5X7 and 8X8 Kodachromes of Betatakin were furnished for enlargement and use in the Walnut Canyon Museum.

GENERAL: This has been an unusually dry August. Fire hazard is high and the dusty roads are beginning to break up with chuck-holes. Maintenance, policing, correspondence and files are current. We are looking forward to a busy September. One party of ten is expected for the trip to Keet Seel and Betatakin. A trip to Rainbow Bridge National Monument. We hope to get the hogan finished within the month, for seasonal ranger quarters.

If September travel is normal we expect to beat our all time record for the travel year.

J.W. Brewer, jr.,
Custodian

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

ORGAN PIPE CACTUS NATIONAL MONUMENT

P. O. Box 38, Ajo, Arizona

August 25, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of August, 1948.

Weather

Midsummer heat continued throughout the month with an average maximum temperature of 101 and an average minimum of 74. The maximum for the month was 109 on the 17th and the minimum was 66 on August 24. Only 0.40 inch of rain fell at headquarters but heavier showers fell to the north of the monument. The western portion of the area in the vicinity of Cipriano Well is particularly dry.

Maintenance

Heavy showers in the Quitobaquito area the latter part of July enabled us to thoroughly work the roads from Dowling Well to the west boundary. The headquarters area was bladed at the same time.

Wildlife

Pressure is being brought to bear by ranchers upon the Bureau of Animal Industry to kill all cloven-hoofed wild-life crossing the International Boundary as a supposed means of foot-and-mouth disease control. Such a measure is of vital concern to us, particularly since the Desert Bighorn are believed to migrate seasonally from the Ajo, Growler, and Puerto Blanco Mountains in the monument to northern Sonora, Mexico.

Research

Collaborator Max Hensley of the Zoology Department, University of Illinois, arrived July 27 to begin research leading toward his doctor's dissertation. Max has been very helpful in bringing our card files up-to-date in addition to contributing his own observations and work.

Personnel

Ranger Bean was on annual leave August 4 to 10 and spent August 10 to 14 at the Region Three Office helping with the preparation of annual estimates.

Custodian Supernaugh began annual leave on August 20 and will be

gone until September 24. Ann and Billy had preceded Bill to her parents' home near Chicago where they will spend most of their vacation.

General

A petition for a postoffice at the border has been circulated by the residents of the settlement there. The petition requests that the name of "Lukeville" be assigned to the new postoffice if established. San Marcelo (name of the old mission at Sonoyta) or Organ Pipe, Arizona would be more appropriate names.

Erection of the new boundary fence from our southwest corner westward to Davis Canyon is nearing completion.

A kodachrome slide sent us by Mr. Kirkpatrick of the Union Pacific Railroad for identification was recognized as Mexican jumping bean. Mr. Kirkpatrick is a professional lecturer.

Glen T. Bean

Glen T. Bean,
Acting Custodian.

Saguaro National Monument
Tucson, Arizona

August 26, 1948.

MEMORANDUM for the Regional Director,
Region Three.

There follows the report of activities at Saguaro National Monument for the month of August, 1948.

General.

Warm weather has prevailed for the most part in the desert area of the monument, while cool temperatures and intermittant rains have been experienced in the forested area. Repeated thunder showers over the Rincons have brought the seasons rainfall up to a total of 10.93 inches. One storm occured on the evening of August 11, amounting to 1.35 inches of precipitation. Some damage was sustained by the patrol trail, resulting from the heavy run-off.

On August 5, lightning struck a power pole about 1/2 mile from headquarters, completely demolishing it, repairs were effected and service restored in about six hours.

The Pima County Sheriff's Office made another attempt to locate an airplane crash on the east side of the Rincons, without success. One of the deputies who participated in the search, John Anderson, later lost his life in rescuing a boy who was stranded on a ledge in Sabino Canyon, Catalina National Forest.

Many wild flowers are now in bloom in both the forest and desert areas. We have noted with interest that some species are in flower for the second time this year.

Travel to the monument shows a slight increase over last month and a small increase over the corresponding month of 1947.

Special Activities.

Chief Clerk Castellum was at the monument over the period July 30 and 31, reviewing fiscal matters with the custodian.

Regional Forester Carlson was at Saguaro August 6 and 7 in connection with forest protection plans.

Assistant Regional Forester Ratcliff made a visibility study for a proposed lookout on Rincon Peak.

The custodian made two trips to the forested area during the month to inspect trails.

Maintenance.

The loop road has been dragged twice during the month, it is in fair condition, except where it crosses two or three of the washes.

The Craig Ranch Trail was worked from its intersection with the patrol trail, to the intersection of the Spud Rock Trail. The upper part was impassable due to fallen dead trees, these were removed and the tread restored. The Cow-Head Saddle Trail was completely brushed out during the month.

Some damage was sustained by the Manning Camp- Grass Shack Trail as a result of the heavy storm on August 11. While there was no major washout, still a considerable amount of tread materials were lost.

The small addition to the bunk-house has been completed, it is large enough for the refrigerator and a set of shelves.

Approach Roads.

The Broadway approach has been in a bad state of repairs for most of the month, especially in the vicinity of the monument. The heavy shower of August 11 caused considerable damage to the last mile of the road leading to the monument.

Travel and Interpretive Service.

Travel has shown a slight increase over last month, also an increase over the corresponding month of 1947. A total of 669 persons traveling in 202 cars visited Saguaro during the month. Of this total, 286 persons were from Arizona and 383 persons were from other states. 218 persons in 63 parties were contacted for a total of 1120 minutes at monument headquarters.

Visitors.

William H. Carr visited Saguaro on July 28, he will be remembered as the author of " Desert Parade".

Accessions.

We are happy to report that our new electrical refrigerator was received in good condition, and is a welcome addition.

Three 1 quart carbon tetrachloride extinguishers and one 2 1/2 gallon phome type were received, this completes our building fire equipment needs.

Forest Protection.

No fires occured in the forested area during the month, due no doubt to the frequent heavy showers over the area. The burning index has varied from low to medium throughout the month. We hope to conclude the present fire season, with only one reportable fire.

It is planned to terminate the fire control aids and the per-diem laborers on August 31.

Samuel A. King

SUNSET CRATER NATIONAL MONUMENT
Flagstaff, Arizona

August 26, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows the report of activities at Sunset Crater National Monument for the month of August 1948:

Weather: Rain during the first three weeks of the month have been normal and have broken the long dry spell. The sudden spurt in the vegitative growth is particularly noticeable.

Roads: The first rain in months made it possible to work on the roads with a blade and the holes which were so prominent last month have disappeared entirely. The mud hole at the approach to Highway # 89 has been diverted to one side and does not discourage as many people during the rainy period as it did in the past. Three of the local farmers with the help of the Soil Conservation Service have constructed a large dike which will divert the water from the Summit into the cinder pit. This incidentally is of great value to us as it diverts much of the water that formerly covered our road.

Protection: A small fire in the rough lava area of the Monument was discovered on August 6th. Getting to it in its early stages Ranger Case was able to extinguish it in fifteen minutes with the use of a gallon of water.

Travel: Travel this month exceeded all previous records with an estimated visitation of 6510 persons, thus bringing the travel year total to 21,271. Actual registration totalled 2204 and of this number 800 received personal service.

Maintenance: Signs within the area have been repainted and the trailside markers were refinished with some improvement in the text. Cleaning up after visitors still remains one of the biggest chores.

NATIONAL PARK SERVICE

TONTO NATIONAL MONUMENT
ROOSEVELT, ARIZONA

24 Aug. 1948

MEMORANDUM for the Regional Director.

Following is a report of the activities at Tonto National Monument for the month of August 1948.

Weather. Sunshine and dry weather prevailed during the month of August. Temperatures up in the 100's were the rule. There was some rain the end of July and the beginning of August but it was light and infrequent.

Approaches to the Monument. In General roads to the monument are all rough and dusty. Although they are graded quite regularly it does little good because of the lack of rain to settle the dust.

Interpretive service. The museum has been open all month. As the custodian is on annual leave there has only been one man on duty throughout the month, cutting down on contact days.

Travel. There were a total of 633 visitors for the month arriving in 181 cars. Only 232 of the total made the hike to the lower ruins. Most the visitors arrived on the weekends and travel remained light during the week. Two or three good Sundays brought the total up considerably Travel from Arizona was in the majority with the rest coming mainly from the middle west. Travel is greater this month by some 250 than that of a year ago.

Visitors. Regional Forester Carlson and son Lee visited the monument and inspected the fire fighting equipment August 9. Mr. Carlson brought some much needed fire extinguishers.

Personnel. Custodian Sharp is on annual leave. Latest report from him is that he spent the first portion of his leave in cool Colorado.

General. Most of the spare time during the month has been spent in cleaning up and tinkering with the Dodge pick-up. Mr. Carlson warned us on his visit that other areas had been having trouble with their generators, ours must have over hear him for it went out on us the 23'd. The small portable generator has been put into use.

Lloyd M. Pierson
Acting Custodian.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Tumacacori National Monument
Tumacacori, Arizona

August 25, 1948.

MEMORANDUM for the Regional Director,
Region Three.

Follows the monthly narrative report for Tumacacori National Monument for the month of August, 1948:

WEATHER CONDITIONS: 4.68 inches of rain fell, to make a good, wet month. The ranges are now in very good condition, and the country is blooming as it should every summer. Temperatures have ranged from a high of 100 to a low of 61.

INCREASE OR DECREASE IN TRAVEL: August travel records were again shattered, with total of 1042 visitors, compared with the figure of 1502 for the highest previous August, of last year.

INTERPRETIVE SERVICE: 847 persons went on 148 guided trips through the mission church and grounds, receiving an average of 35.06 minutes per trip. 1522 persons saw the museum, and 1551 received combined information and interpretation service.

VISITORS: 7/28 - Mrs. James V. Robbins, wife of Nogales' mayor, and a group of Good Roads Association wives.
7/28 - Gil Proctor, President of the Nogales Chamber of Commerce.
8/4 - Aggie Castellum, wife of Chief Clerk Louis Castellum, of the Region Three Office.
8/8 - Willard R. Culver, National Geographic Society photographer.
8/18 - Dale Nichols, well known artist.
8/20 - Allan Phillips, well known ornithologist, and Gale Monson, Manager of Havasu Lake National Wildlife Refuge.

INSPECTIONS: 8/6 - Regional Forester Carlson, and Custodian Sam King, of Saguaro National Monument.
8/21 - Forester Patcliff and Custodian Sam King.

MUSEUM AND EDUCATION: Long awaited two-fold information leaflets came. It was a disappointment to learn that most of the revised text submitted was discarded, and erroneous old text used almost entirely.

MAINTENANCE: A new record changer was installed for the mass diorama in the museum. A short adobe wall was built against the south boundary to shield unsightly fuel oil drums and wood pile from visitor view. Considerable weeding has been done along trails. Experimental use of 2-4-D on amaranthus weeds along trail, performed about a week ago, looks as though it will be very effective. All roof drains were cleaned. An old flamo cabinet was removed from its nested position in our south

RECEIVED
AUG 27 1948
NATIONAL PARK SERVICE

boundary wall (adobe), and its hole was continued through the wall to form a much needed gate. The cabinet was crated and shipped to Great Sand Dunes National Monument. Routine maintenance was kept current.

ACTS OF GOD: On August 16 a violent windstorm accompanying a heavy rain broke down a huge mesquite which formed an important part of our patio garden.

PERSONNEL: 50 hours of annual leave were taken by Ranger Brewer, 16 by Custodian Jackson. Per Diem laborer (part time) Ramon Orozco entered on duty August 9. WAE Guide Judy England worked one day.

COOPERATING NON GOVERNMENT AGENCIES: Flood water from rains south of our boundary have been cutting under our high adobe wall and doing damage in the monument area. Mr. Hal Prince, Manager of the adjoining Rancho de Tumacacori, was told of our grief. He promptly, ~~sent him~~ at ranch expense, threw up a big earthen dike on his land, south of our wall, which now effectively solves our problem. This was real good neighborliness.

Mr. Al Whiting, a friend of the monument, loaned us an album of recordings of church music, from which we are using a suitable record for the playing of the mass diorama in the museum until records which were ordered long ago arrive.

RESEARCH: Earth moving operations on the Rancho de Tumacacori, just south of the monument, were destroying part of what may be the original mission brick kiln. At our suggestion the work in that particular spot was stopped, and will be held off until it can be established for certain if the kiln is mission period.

GENERAL: The monument is ticking along in good order. Quite a bit of time has been spent by the custodian, as he could snatch it between parties of visitors, to re-write the text material necessary for the next master plan for this area.

Earl Jackson,
Custodian.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

TUZIGOOT NATIONAL MONUMENT

CLARKDALE, ARIZONA

AUGUST 26, 1948 19

MEMORANDUM for the Regional Director, Region Three.

Following is the monthly narrative report for Tuzigoot National Monument for August, 1948.

Visitors this month, 2,458 Travel year to date, 15,675

Travel Data: Travel this month broke all records for any month of any year since the monument was established. August highs - - 2085 in 1947 and 1554 in 1941. The 2458 visitors arrived in 712 cars from all 48 States, Hawaii, Alaska, Canada and Mexico. Moderately cool ideal travel weather, caused by frequent rains, which prevailed throughout the month resulted in an even greater travel of southern Californians into the cool summer vacation spots of central Arizona surrounding Tuzigoot. Since visitation for the current travel year may reach 18,000 there is no question but what the monument is rapidly developing into a major "must be seen" by the traveling public.

Guide and Contact Service: Museum, ruins and orientation contacts totaled 6359 for the month. 2205 people in 648 parties were shown through and given an orientation lecture in the museum, and 2246 people in 655 parties were conducted through the ruins. The average time spent by each party in the museum was 21.5 minutes, while the conducted tour through the ruins required 21 minutes per party. The handling of 2458 visitors, a pipe line project and other maintenance work required the maximum effort of Ranger Richert and myself. By working long hours and at nights, on our day's off, and through the assistance of Mrs. Bright and Mrs. Richert all visitors were contacted and given maximum interpretive service. Some guide service even extended to 9 P.M. at night.

Special Groups: Group of 22 from the Y.M.C.A. in Phoenix on August 2, and another group of 12 from the Mar-Ken School in Hollywood, California on August 19.

Personnel Time: Museum: 231 hours, 50 minutes. Ruins: 226 hours, 30 minutes. Total contact time for Bright: 208 hours, 50 minutes. For Richert: 249 hours, 50 minutes.

N.P.S. Visitors: Ranger and Mrs. Robert Euler from Wapatki Nat'l Mon. on August 6.

Maintenance and Administration: During the past several years tens of thousands of gallons of water were lost. Countless pipe clamps have been used and hundreds of man hours, not to mention wear and tear on nerves, were spent in a seemingly hopeless effort to keep in repair a 1200 foot disintegrated section of the water line serving the monument. Last week we completed the ditching, laying, connecting up and welding of approx. 1200 feet of new 2-inch galvanized pipe to replace this deteriorated section. With the exception of an occasional break in other parts of the line we feel that our water problems may now be held to a minimum. All rooms in the ruins were given a spray of "Weedone" weed killer. We have found this particular weed killer very effective at this area.

Ernest W. Bright
Custodian.

RECEIVED AUG 30 1948 NATIONAL PARK SERVICE

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Walnut Canyon NATIONAL MONUMENT
Flagstaff, Arizona. August 26, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities in Walnut Canyon National Monument for August 1948:

Weather. The kind we like, with numerous showers, no "windy" days or lightning storms. Nearby bean farmers would have liked to have had heavier rains with the showers.

Visitors. This was the heaviest travel month on record, with 4,510 visitors. Four thousand and fifty eight visitors were contacted, and it is estimated that 3,350 made the ruins trip unattended.

Several parties increasing our toual were: Barry Goldwater with a selected group of YMCA boys from the Valley, a Christian Church picnic, one group of N.E.A. teachers on tour, the Bushman family(an old pioneer Mormon family with members all ofer state) picnic, about three large groups from the Southwestern Bible Conference held each year near Flagstaff, a group of boys from the Sundown boy's ranch south of Holbrook, and a picnic for Sears, Roebuck employees and their families. Groups that didnt arrive as expected: one group of NEA teachers, Miss Dutton and her girl scouts and the convention of engineers from 17 western states.

Activities. Except for the most urgent routine chores, the efforts of all were directed toward repairing the exhibit room for the installation of temporary ekhibits. The ceiling above the cases was covered with roofing paper and caulked with compound and bats; the masonite lining of cases removed and the space behind cleaned of accumulated debris; 12 access doors constructed above the cases and the walls replastered; the cases were wired and 13 fluorescent fixtures installed; the case interiors were painted several coats; and, the outside wall of exhibit room uncovered to facilitate waterproofing. After the repair job was well under way, Naturalist King was able to prepare four exhibits and parts of eight others. Four cases of caulking compound were used on cracks and then covered by several hundred feet of screen mould and 1/4 round to insure a gas proof job.

A small bench saw and a small jointer were used to shape some of our rough lumber on hand to save buying too much new building material.

Modern and prehistoric Indian materials were borrowed from the Museum of Northern Arizona.

Paul L. Beaubien

August 24, 1948

MEMORANDUM for the Regional Director, Region Three:

TRAVEL MONTH JULY, 1948		TRAVEL YEAR TO DATE 1948	
Visitors,	20,715	Visitors,	105,817
Cars	4,542	Cars	25,394

We slipped just a little this month and failed to surpass the all time high estimate of August 1938, but we lacked very little and we are far ahead of any like month since travel figures have been kept. A glimpse of the travel year to date will show that we are over twenty thousand ahead of last travel year to date. The year 1948 is some twenty thousand ahead of the 1947 travel year and 1947 was some twenty thousand ahead of 1946, so it seems that we are gaining to the tune of about twenty thousand a year since 1946. Just how much longer we can gain and not bust out at the seams is hard to tell, but the strain is showing in many places and we are faced with the problem of just how to relieve the various danger spots. The picnic area seems to be the most strained area and this as your office knows was virtually doubled this spring. On Sundays and full moon nights all of our tables and any spare that we can put out are full. Conditions have been good for travel and we have had several large party groups, such as 4H clubs, Future Farmers, De Molay and Rainbow girls, Masonic and military. Several official trips were made to Las Cruces the early part of the month to attend the land hearings which has been covered by report to your office by Chief of Lands McCollum. No additional meetings have taken place between the Army and this office although several have been in and we have talked over some of the problems. One that of moving the road block has been remided but I am not sure but that we are worse off than we were in the first place, at least our visitors might be. As it is now the block is east of us but if we just do not see the radio truck go by we do not know for sure that they are firing and as the visitors come out we turn them into the danger area for some thirty miles. This has been called to the attention of the Military and they have promised to give it their attention. It looks like the solution will end up by putting the block right in fron of our area and using our parking area for the overflow of cars caused by the block. This way we can always be aware of a firing and take the precautions accordingly.

Little has been accomplished other than routine but there has been an lot of that. The boys have been able to handle the crowds however and while we have been able to do little else I feel that they have done a job well. There has been no complaints and we have received many verbal compliments on the area and the service given to the visitor.

A feature that is new to us and which seems to have gone over big is an open air initation for the Masons. The order put on a third degree in the heart of the sands and some who were there state that it was one of the most impressive things that they had ever attended. It was one of our full moon nights and the setting should have been perfect. About one hundred seventy five registered for the event and some two hundred attended a picnic just before the meeting. The State 4H clubs met in Cruces and one of their meetings were at the White Sands. While they were rained out and it was cold and windy that evening, a letter from the Extention Director tells me that it was one of the highlights of the entire series of events.

So, we start into the final month of the travel year with a big bang and I expect that we will hold our twenty thousand lead and perhaps even up that a little. Anyway I am sure that we will have all that we can do with just the visitor and our plans for other work will await that time when the visitor lets up a little. We have hopes of getting a clerk some time soon and that should eleminate some of these errors that this clerk is famous for.

Johnnie Daniel
Custodian.

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

August 26, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows the report of activities at Wupatki National Monument for the month of August 1948:

Weather: During the first three weeks of the month scarcely a day passed without precipitation. A total of 2.22 inches has fallen to date, thus producing an excellent stand of grass, increasing our spring flow and bringing relief from the heat in general. Temperatures ranged from a maximum of 95° to a minimum of 59°.

Roads: While the rain made the work possible, we concentrated on our roads above all else. Renting a light blade from a farmer, we were able to blade thirty five miles of road as well as one can with very light equipment. Roads are in better condition than for several years, except for the Wupatki entrance road. This latter road is in heavier material or on bare rock, and we could maintain only certain portions of it.

We are looking forward to receiving the motor patrol within the next month so that our roads can be maintained properly. Even with the patrol our road program will be hampered seriously by the lack of the dirt loader. Fill must be hauled on some sections of the road and under our limited appropriations the hiring of labor is practically prohibitive. Maintenanceman Bean devised a jerry-built loading device but it requires two men to operate. This means that it can be done only when the custodian or ranger can help.

Travel: For the first time in history travel to this area exceeded the thousand mark. Of the 1010 persons who registered, 724 visited Wupatki Ruin and 572 received guide service. This brings our travel yeartotal to 4810. While the road improvement undoubtedly had some effect upon our travel, it is noted that traffic was considerably heavier on the highways this month.

Special Activities: Data was furnished for plans to improve the hot water system in the Custodian's residence and field comment was furnished on the plan prepared in the regional office.

RECEIVED
AUG 26 1948
NATIONAL PARK SERVICE

Dr. Mayer-Smith, a psychiatrist and amateur paleontologist, made a special trip from California to show us a fossil quarry she had discovered on the road to Sunset Crater. Ranger Euler accompanied her to the site which she felt contained the tracks of Chirotherium and the remains of trilobites. Her trilobites were large, as much as ten inches in length. Chirotherium tracks were non-existent. She mistakenly interpreted the mud flows and swirls which are characteristic of the Moenkopi formation in this area.

Considerable correspondence was entered into with Ornithologist Allan Phillips regarding our observation file. Mr. Phillips was very grateful for the bird observation records of this area and plans to use some of this information in his forthcoming book on the birds of Arizona.

Protection: One incident of grazing trespass was discovered this month. The herders of Bert Babbitt's sheep allowed the flocks to pass through the forest fence. The herders were reprimanded and there has been no recurrence.

Nine one-quart carbon-tet fire extinguishers received for Sunset and Wupatki provide much needed building fire protection. First aid kits were purchased for automotive equipment.

Publications: To augment our dwindling supply of Wupatki informational leaflets we received a shipment of five thousand which were being held in the Director's office.

Personnel: Custodian Jones was on sick leave from August 19th through August 27th with a severe attack of laryngitis. This through the burden of contact work during an especially busy period on Ranger Euler.

Spring Flow: Since our last measurement Wupatki spring has more than doubled its flow-508 g.p.d. compared to 160 g.p.d. in July. Heiser spring has increased about ten percent in the same period-1085 g.p.d. compared to 960 g.p.d. in July. It is not unusual for these springs to increase temporarily during the rainy season and then decline again before the normal Fall increase occurs.

Visitors: Among the many visitors to Wupatki were the following: Dr. Gladys Reichard, anthropologist from Barnard College; Dr. L. C. Wyman and Dr. Flora Bailey, biologists from Boston University; Dr. H. L. Stahnke, the scorpion specialist from Arizona State College in Tempe; Eric Douglas of the Denver Art Museum and Lloyd Smith of the Palm Springs Museum; Dr. K. M. Stewart, anthropologist from Arizona State College in Tempe, with a group of sixty-four students. N. P. S. visitors included Ranger Dean Dacey and Temporary Naturalist Jim Hall of Grand Canyon National Park.

Research and Observation: The Museum of Northern Arizona excavation project under the direction of Watson Smith discontinued field work on July 31st. The group is now analysing the data for a final report. Back filling is practically complete and will be finished after September 1.

Naturalist King completed his report on the excavation of Nalakihu and gave a very interesting report of this work at the Museum of Northern Arizona seminar.

Dr. L. C. Wyman and Dr. Flora Bailey came into the area with a large collection of insects and wanted to interview a capable Navaho informant for his knowledge of the insects in the collection. Clyde Pashlacai was willing to assist them. Results of this sampling over the reservation will be published.

During the month Roadrunners have been observed three times. This is a rare bird in this area and has been observed only during late Summer and early Fall. Several ornithologists have urged us to take a specimen but due to its rarity we do not feel it is justified. An Eastern Kingbird was observed at Wupatki Ruin. Only one previous observation is on record for this general area. Apparently it represents an infiltration from the east which is of considerable interest to ornithologists.

Library cataloging project undertaken by Ranger Euler continued during the month and is fifty percent complete at this writing.

TITLE **Custodian**

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

-3-

THE PU[illegible]E OF THIS FORM IS TO SECURE AN ACCURATE RECORD [illegible]NTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic Structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

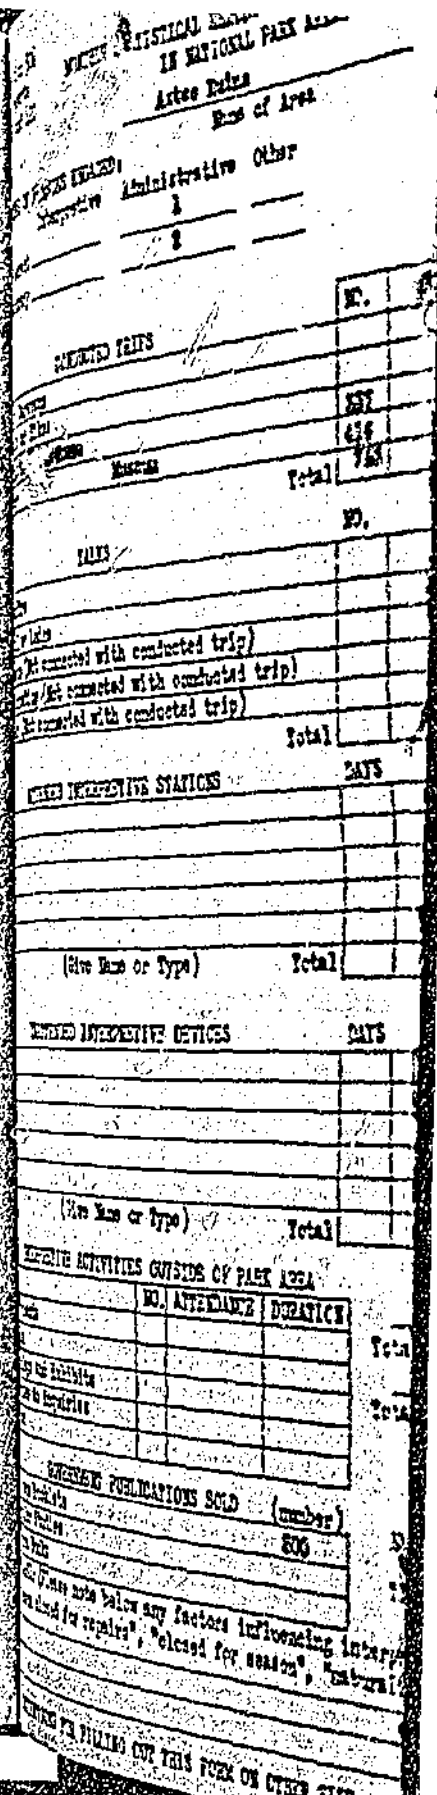
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".



COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

ACCURATE RECORD . NTERPRETIVE

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as Attended Interpretive Stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, motel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 5th of the month following that covered by the report.

THE PUR[illegible] OF THIS FORM IS TO SECURE AN ACCURATE RECORD O[illegible] TERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or othe, features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 6 (Report 6a3) and 9 (Report 9a3).

NAME
TITLE **A.T. Bicknell, Custodian.**

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Archeologist has been on leave from August 9, to August 31, 1948

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED ON TO HELP INTERPRET THE AREA.

Conducted Trips: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

Talks: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

Attended Interpretive Stations: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS ENQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

Unattended Interpretive Devices: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

Interpretive Activities Outside the Area: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

Column #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

Column #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

Interpretive Activities Outside of the Area ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

Totals: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. Total Attendance SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY ACCORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME Irving McNail, Jr.

TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.
Condition of approach roads discouraged visitors.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service Areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

* An additional 32 people, local residents, here to use the telephone or on other business were also contacted.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on cuties and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a figure considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME **Russell L. Mahan**

TITLE **Acting Custodian**

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m1).

NAME **Glen T. Dean,**
TITLE **Acting Custodian.**

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED ON TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME Samuel A. King

TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Custodian necessarily absent from headquarters on numerous occasions.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

NAME ~~Lloyd H Pierson~~
TITLE Acting Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Custodian on annual leave.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME G. A. Johnson
Custodian
TITLE

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.
*Visitor total includes 91 runarounds.
All facilities and devices open entire month. 6 days of annual leave taken by staff.
Reduced number of visitors counted and served.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8n3) and 9 (Report 9n3).

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH MINE, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

Talks: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

Attended Interpretive Stations: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

Unattended Interpretive Devices: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

Interpretive Activities Outside the Area: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

Column #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

Column #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

Interpretive Activities Outside of the Area ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

Totals: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. Total Attendance SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.
