Travel: Visitor use increase 12% over the corresponding period for last year, but decreased slightly from last month. A total of 510 persons registered, 366 at Wupatki, 144 at the Citadel. Guide service was provided for 318 at Wupatki.

Special Activities: Plans were made to obtain an option on the Heiser Spring property and Regional Lands Chief McCalm came to Flagstaff for this purpose on the 25th. Unfortunately Mr. John Babbitt was called to Tucson for a Board of Regents meeting and was unable to keep the appointment. At the request of Mr. McCalk an attempt will be made to negotiate an option as soon as Mr. Babbitt returns.

Grazing: Grazing under permit for the season was terminated on the 15th, except for a few strays. It was agreed that the grazing had averaged 200 head per month and settlement is in process. For the next season the fee should be increased from 30¢ to 44¢ per head, as this is the seasonal increase on the nearby Coconino Forest.

Forest Fire Protection: A forest fire training school was held at the Happy Jack Camp on the 5th and 6th by the Coconino National Forest. Planned at the fire guard level and with emphasis upon the control of small fires, it met our fire training needs adequately. Ranger Owen Reynolds spent the full time in attendance, Jones one day.

Visitors: We enjoyed brief visits with the Hastings, Brights and Steve Leding during the month. For the Brights this was their first visit, and we tried to impress them with ruins, since we do not have a museum to show off.

Other visitors this month included Mr and Mrs. R. J. Fleming, the photographer; from Santa Barbara; Mr. and Mrs. Howard K. Gloyd, the herpetologist from the Chicago Academy of Sciences; and Mr. and Mrs. G. S. Greyling from the Transvaal, Union of South Africa.

Spring Flow: Heiser Springs has increased from 3085 to 3456 g.p.d. since last month; Wupatki dropped from 1152 to 785 g.p.d. This is well above the flow records for the corresponding period of the past three years. In the case of Heiser Spring this is more water than it has produced during any month of the past three years and this is supposed to be past the period of heaviest flow.

Research and Observation: A copy of the Stabilization Manual prepared by Gordon Vivian was received for review and will be sent on to Walnut as soon as we get our comments down on paper. Vivian is to be congratulated for doing an excellent job.

Negatives of the petroglyphs at Willow Springs, on the Hppi Salt Trail, were obtained from Platt Cline and sent to your office for prints. These are supposedly the only petroglyphs for which the meaning is known, and the negatives were of exceptionally fine quality.

It was noted early in the month that there were a great number of birds this spring in Wupatki Basin. Then we noticed a large number of small green caterpillars. Now a good many of the Saltbush (Atriplex) have been denuded, or practically so. Specimens of the caterpillar are being sent in for identification and a survey will be made shortly to determine the extent of the infestation.

Road Maintenance: As a result of the storms Maintenanceman Bean was able to blade twelve miles of road and establish drainage that will prevent the water from gullying the middle of the roads. Waterways were reconditioned on the Wupatki entrance road, forty yards of clay hauled to cover rocks and fill in chuck holes. Unless an emergency arises, no additional work will be done the balance of this fiscal year at Wupatki. Maintenanceman Bean is now at Walnut Canyon with all our equipment, having started with the process of moving on the 17th.

David J. Jones
Superintendent

In triplicate.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

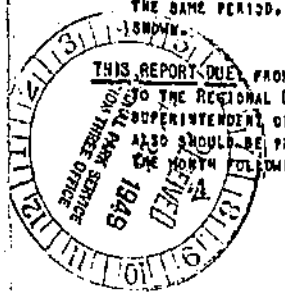
TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATION OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM



COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

INSTRUCTIONS FOR FILLING OUT THIS FORM ON

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help Interpret the Area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the Superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 35, Chapters 8 (Report 8m3) and 9 (Report 9m3).

NAME Fedo.Sowers
TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATION, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USERS EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL BE NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

RECAP: A recapitulation of interpretive services furnished visitors within the area is provided for in the lower right-hand corner of the form. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services rendered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors registered in the area during the month should be shown.

RECEIVED MAY 7 1948 NATIONAL PARK SERVICE REGIONAL THREE OFFICE

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with Instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH ROOMS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE SERVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

On may 19 Ranger Wilde gave a talk on plant and animal life of Saguaro National Monument at regular meeting of Local 80, National Federation Fed. Employes

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

Everett W. Bright,
TITLE Superintendent.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

Museum open only part time due to limited funds for operating light plants.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.). Count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the area period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

NAME Johnnie Faris
TITLE Johnnie Faris, Superintendent.

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS ENQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel Are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of A conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the significations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record [illegible] should not be included in the totals in the lower right-hand corner of the form.

NATIONAL PARK SERVICE
REGION THREE HEADQUARTERS
SEP 27 1949
RECEIVED

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8-N) and 9 (Report 8-M).

July 14, 1949

MEMORANDUM for the Regional Director, Region Three.

The following is the narrative report for the Naturalists of the Southwestern National Monuments for June 1949.

Staff Activities. General

Naturalist Dale S. King was in the office the whole month except for a personal trip to Bandelier June 25 and 26 and a one day trip to Clayton, New Mexico, June 30 and July 1 to make a talk before a Tourist Host School. Steen went to Tucson and Tumacacori June 10 - 18, spending the balance of the month in the office.

Interpretive Administration

King read proof on the 2-fold leaflet on Montezuma Castle and compiled data on needs for informational literature for fiscal years 1950 and 1951. He wrote to chambers of commerce at Alamosa, Colorado and Farmington, New Mexico, concerning their requests for supplies of informational literature. He prepared a justification for interpretive funds for fiscal year 1950.

Progress of Exhibit Plans and Projects

Steen undertook the preparation of a display sherd board for Gran Quivira.

Research and Observations

A scorpion sent in by the superintendent of Chaco Canyon was forwarded to Dr. H. Stahnke who identified it as Vejovis wupatkiensis, a non lethal species recorded hitherto only in Wupatki and Death Valley National Monuments. Steen furnished the staff at Tumacacori with information about excavations of a mescal pit there and King attempted to obtain information for Walnut Canyon concerning the so-called "Sun Symbol" formations in the monument.

Cooperative Activities

Letters of introduction were furnished Miss Bertha Dutton of the Museum of New Mexico for her reconnaissance trip to make arrangements for the annual girl scout tour.

Other letters attempted to obtain a Service speaker from some southern Arizona monument for the program of the Cactus and Succulent Society of America, meeting in Phoenix.

Attendance at the Tourist Host School in Clayton was very meager, again reminding us that these schools must be organized differently in the future before the Service time can be diloted to such endeavors.

Loan Library

Accessions total 108, including 9 books, 55 reports, and 44 periodicals. There were no books important enough to be listed by title.

Southwestern Monuments Association

A new mail book list and a letter describing the organization were prepared and printed. A total of 3,068 envelopes were stuffed and at the end of the month were ready to mail to new names and to the 1,125 persons on the live list. King took the Montezuma Well booklet to the printer and made definite arrangements to purchase seven excellent photographs from Marvin H. Frost of Tucson for improved illustrations in the third edition of "Poisonous Dwellers of the Desert".

Treasurer Vedder left for a vacation of a month June 24 and King made the bank deposit June 30 for the end of the fiscal year.

Although data have not been assembled for the annual report, preliminary figures show that the association again established a satisfactory increase in volume this fiscal year.

Ruins Stabilization

Steen met Mr. R. J. Gettens of the Fogg Museum of Art in Tucson June 10 and Mr. Gettens made a study of the mural decorations at Tumacacori and submitted a report on corrective measures which can be taken to preserve the paint. Steen spent sometime on PCP's including ones for the University ruins to be acquired when the land exchange at Chaco Canyon is consummated. He obtained samples of fungicide to preserve the Chaco mattings which are showing traces of mold.

It was decided to paint, at a cost of approximately $1000.00, the roof over Casa Grande.

King had some correspondence with several superintendents regarding the experimental seeding of grama grass to provide sod in and around prehistoric structures and regarding the use of soil sterilizer on wall tops and in rooms at Aztec Ruins.

Aid to Administrators

King prepared the condensed report for May for Southwestern National Monuments.

Projects for July

King will be in the office a whole month on routine matters.

Steen will go to Canyon de Chelly July 15 for about two months. He will excavate a small eroding site "Place Where the Water Comes Out" and do small stabilization jobs on White House, Antelope House, and Mummy Cave. He will survey general stabilization needs [illegible] canyon.

ARCHES NATIONAL MONUMENT
MOAB, UTAH

July 1, 1949

MEMORANDUM for the Regional Director, Region Three.

There follows the Narrative Report of activities in Arches National Monument for the month of June, 1949.

WEATHER: Rain fell on May 29, June 5, & 23, and enough precipitation was received to keep the spring ground cover very green, inspite of many days of high and dry winds.

TRAVEL: With 2475 visitors in 931 cars our travel records show an increase of 76% over the same period last year and a 67% increase over the 1948 Fiscal Year. This heavy travel is mainly due to the improvement of our road system and the excellent advertising received from National Magazines and the State of Utah.

INTERPRETIVE SERVICE: Contact time amounted to 87 hours in which 1079 visitors received information about the area. Eleven guided trips were made by Ranger Worthington with a total attendance of 54 people. Twelve letters of inquiry were answered.

SPECIAL ACTIVITIES: On June 12 the American Legion, Utah State District No. 5, held a convention in the Devil's Garden. Ranger Worthington did an excellent job and received two written and many verbal compliments on his management of the parking and comfort for the 800 people who attended the convention.

OUTSIDE ACTIVITIES: At the annual election of officers of the Moab Lion's Club, Ranger Worthington was elected secretary of the club.

NPS VISITORS: John Davis arrived on the evening of June 14 and spent all of June 15 in the area going over current problems ie., roads, saddle and pack stock concession, quarters improvement, etc. We certainly appreciate the results of his short visit here. Ranger Worthington and family will soon be able to discard the No 3 tub.

INSPECTIONS: One trip to Natural Bridges was made on June 8 & 9. The tent house quarters was found to be in bad shape, many holes showing through the canvass. We hope to correct this situation before the summer rains start.

PUBLICITY: The Monument and it's Arches have been featured in one magazine and a poster this month. The Double Arch occupied the whole cover of Amerika Illustrated, published for distribution in the Soviet Union, by the State Department. Fisher Bear put out a poster reading "Utah, Renowned for Arches National Monument".

CONCESSIONS: Mr. Ross Musselman, of the 4H Dude Ranch at Monticello has made application for the Pack and saddle stock concession in the monument.

ROADS: The roads in the monument are in much better shape than the entrance road State Highway #63, however we could use a little moisture for blading right now. Maintenanceman Hibbourn spent 10 days spreading shale on the sandy stretches of the road and loaded one State Highway truck for one day with shale for the very rough and sandy places on the entrance road.

MAINTENANCE: The concrete floor of the back porch to be added to the trailer house was poured and water and drain lines set. Due to the heavy travel, the cleanup job put in the monument has turned into a major project.

Bates E. Wilson
Bates E. Wilson,
Superintendent.

NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

MEMORANDUM for the Regional Director. 24 June 1949

There follows the report of activities in Aztec Ruins for June 1949.

WEATHER: Cloudy and quite wet for this season of the year with nearly 2 inches of rainfall. The tourists have not been deterred, but have been coming in ever increasing numbers.

INSPECTIONS. John Davis and Carl Alleman from the Regional Office were in on the 15th to inspect the new residence and the removal of the old one, which latter job is slowly progressing. Plans for landscaping the area after removal of the old residence have been completed.

MAINTENANCE. A large portion of the great kiva roof was recovered with roofing paper as were other rooms in the ruins area.

The county agent's office was contacted regarding the weed removal problem of this area with the result that a considerable amount will be required to cover the cost of control. The area considered included the ruins walls and the first and second story floors which are soil covered and allow the growth of a heavy weed crop. This year's unusual wet Spring has considerably aided this growth,

INTERPRETIVE SERVICES. There were 2096 visitors in 513 groups shown the museum and 1720 of those were taken on guided trips in 224 groups thru the ruins.

INCREASE IN TRAVEL. This June we have had a 29% increase in travel over June 1948 which was itself 63% over June 1947. There were 2,096 visitors in 647 cars from 41 states, Wash. D.C. Canada and France.

VISITORS: Dr. and Mrs. Paul J. Larsen, Director of Sandia and Asso. Director Los Alamos were in on 26 May. Dr. and Mrs. Edgar Johnwick, Senior Medical Officer in Charge Medical Center, Hot Springs, Arkansas visited June 20. Miss. Bertha Dutton visited for a few minutes 22 June to leave her Girl Scout itinerary for coming visits this summer.

Irving D. Townsend,
Superintendent.

AZTEC

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

June 2d, 1949.

Memorandum for the Regional Director, Region Three.

There follows a report of the activities at Bandelier National Monument for the month of June, 1949.

Weather.

An abnormal amount of rain has received during the month with 2.38 inches of moisture as compared with an average 1.14. Thunderstorms occurred on twelve days of the month and the rainfall has made the vegetation unusually green for this time of the year.

Temperatures ranged from 37 on the 12th to 95 on the 16th.

Special Activities.

A meeting was held with a representative of the Atomic Energy Commission concerning directional signs to be located in the Otowi section of the monument. The signs will be constructed by the A. E. C. and placed at approved locations and are for the purpose of directing trucks and workers to the new Los Alamos technical area and White Rock Camp.

Complaints.

Verbal complaints were received from several out-of-state visitors concerning the road signs at the Pojaque junction of highways 4 and 64. Locally the Monument is known as Frijoles Canyon, and state highway signs are so designed, but out-of-state visitors look for signs saying Bandelier. The matter has been taken up with the New Mexico Tourist Bureau and the State Highway Department for correction. We have recommended that the wording Bandelier National Monument (Frijoles Canyon), be used on all directional signs.

Maintenance.

The maintenance man and operator general made a trip to BUYako Texoma on the 20th to pick up property that is being

Bandelier National Monument.

RECEIVED JUN 27 1949 NATIONAL PARK SERVICE RECORDS THESE OFFICE

DEFENSE BUY UNITED STATES SAVINGS BONDS AND STAMPS

transferred to other areas. The stake truck broke down en route and delayed the transportation of some of the material.

The bathroom in residence 4 was repainted and several leaks were patched in roofs on the lodge buildings and residences. The leaks occurred in buildings that have not had new roofs since they were constructed.

Approach Road and Trails.

Work was continued during the month by the contractor on the construction of five miles of the approach road. By the end of the month the final asphalt mat had been completed on approximately three miles.

The operator general was able to grade the road after some of the rains and it is now in the best condition that it has been in for some time. The improved drainage contributes markedly to keeping the road from getting soft in wet weather.

Bad spots in the trail to Upper Crossing were improved and some work was done on the trail to the Rio Grande.

Concessioner.

Business at Frijoles Canyon Lodge was generally poor for the month in spite of the increased travel. More people are camping out and cooking their own meals this year than during the past few years. This seems to be a general trend in the Santa Fe vicinity according to reports by the Chamber of Commerce and the New Mexico Tourist Bureau. The Lodge had 248 lodgings as compared with 394 during June 1948.

Cooperating Non-Government Agencies.

The archeological field school from Adams State College, Alamosa, Colorado moved in to the campground on the 21st for an eight weeks session. Work was started on continuing the excavation of Rainbow House and preparations were made for surveying additional ruins on the Ramon Vigil Grant.

Interpretive Service.

A total of 168 trips were conducted through the ruins that w were attended by 3299 visitors as compared with 166 trips and 2513 visitors last year.

There were 14 evening talks given in the museum lobby to 318 visitors. They were well received and consisted talks not only on Bandelier but on southwestern indians and their customs.

Travel.

All previous travel records for a single day and month were broken during June. The previous largest day was May 22nd of this year with 708 visitors but on June 26th there were 850 visitors c checked in. The total for the month was 6,21 as compared with 5234 for June of last year and 5361 for August 1948 which the previous largest month. This is a 15.8% increase over last year.

The campground continues to be overcrowded on week ends with picnickers doubling up on available space. At one time on the 26th there were 75 cars in the 50 campsites. It was necessary to restrict late visitors and not allow them in to the campground until others had left.

Visitors.

The members of the Southwest Field Committee met in Santa Fe on June 2 and 3 and visited Bandelier on the 4th. Those in the group were M. R. Tillotson, Regional Director, Region Three, National Park Service; Eric Hagberg, Indian Service; John Catlin, Fish and Wildlife Service; Trigg Twitchell, Geological Survey; Foster Morrell, Geological Survey; Donald Burnett, Bureau of Reclamation; Leon Dupuy, Bureau of Mines; C. L. Forsling, Chairman of the Committee; and Irving Fox, Staff Assistant.

Forty two members of the Geological Society of Minnesota visited the area on June 20. They were given a specially conducted tour and spent the night at Frijoles Canyon Loadg.

FOR DEFENSE BUY UNITED STATES SAVINGS BONDS

Mrs. Erna Fergusson, noted writer from Albuquerque, New Mexico, visited the area to gather information for a new book that she is writing.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

Ranger Service.

The seasonal ranger staff composed of S. J. Thomas, Santa Fe, New Mexico; Jack Turney, Alamosa, Colorado; and Gilbert R. Wenger, Denver, Colorado, were on duty most of the month. Two in-service training meetings were held for these men to give them information on Bandelier features, Park Service policies and organization, and conduct toward visitors.

Forest Fire Protection.

A fire control training school was held on June 7 and 8 with Regional Forester Carlson in attendance. The training was given to all personnel, wives, and concession employees. It consisted of forest control, building fire control, safety and first aid.

Insect and Tree Disease.

Two sprayings with DDT were made in the campground area to prevent the start of tent caterpillars. By the end of the month only one tent had been found in the headquarters area so the spraying seems to be having a good effect.

Some defoliation is taking place on the box elders by an insect that appears to be the pine butterfly but only the box elders have been attacked. Specimens of the insect have been sent in for identification. The sprayings reduced the damage but did not entirely eliminate this pest.

Canyon de Chelly National Monument
Chinle, Arizona

June 26, 1949

MEMORANDUM for the Regional Director, Region three.

The following is a report of activities at Canyon de Chelly National Monument during the month of June, 1949.

General

It was with a great deal of regret that we received Regional Director Tillotson's message that weather conditions would not permit the proposed visit of Director Drury, Mrs. Drury, and their son. We hope that the weather man will treat us a little better next time.

Weather Conditions

This month has been much cooler tan usual with maximum temperatures averaging in the middle eighties. The canyon streams, usually dry by June 10, have continued to run until the 26th. This has been due to more moisture than is usual for this period. Our high Maximum was 95 degrees and the low minimum was 39 degrees. A total of 1.13 inches of rainfall was measured at headquarters.

Administration

As usual for this month, all of the work connected with finishing up the Fiscal year with resulting correspondence, reports, etc. One trip was made to Gallup, N. M. to pick up the chain hoist which was left there and to purchase supplies and equipment.

Maintenance

Much of our time, when travel would allow, was spent in needed maintenance work. Roofing repairs were completed, Cleaning of woods and general straightening of camping and headquarters area, laying of flagstone and general care of equipment. Roads bladed from Garcia's store to White house.

Soil and Moisture

Along with general maintenance the soil and moisture project was completed wit repair to the revetment, and the digging and planting of some 7,000 common and peachleaf willow cuttings, and the construction of barbed wire barriers to keep the stock out of our protected areas. The insects were killing the new shoots from the willow post cuttings planted last Fall, so these were sprayed and I believe that we saved most of them.

Insect Infestation

The Cottonwood leaf beetle has reached such damaging proportions that unless we can get a heavy sprayer before Fall most of the trees will be killed. We have sprayed around headquarters with the material on hand but the infestation has reached fifteen or twenty miles up both canyons, and all thru the numerous other canyons and plantings under the supervision of the Indian service. To add to the damage, a grasshopper plague is also damaging Navajo crops all over the area. Cr spraying with arsenate of lead has seemed effective in keeping damage of our plantings at a minimum.

Travel

Travel shows an increase over last year with the Fiscal year to date showing the heaviest year to date. 2,460 visitors.

Visitors

Visitors this month included Rev. Joseph S Laughran, whose father, a lieutenant under Col. Kit Carson lead the advance guard, Company H, 1st New Mexico Volunteers, into the canyon during the Navajo Campaign in 1864.

Service to the Public

Of the 306 visitors tis month, 290 received interpretive services. There were 55 headquarters contacts and ten conducted tours. A total of 46 hours was spent in visitor contacts.

Govt. Publications on hand

Two-fold leaflets..ODC.....7,000.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
SOUTHWESTERN NATIONAL MONUMENTS
~~COOLIDGE, ARIZONA~~
Capulin, New Mexico
June 25, 1949

MEMORANDUM for the Regional Director
Region Three, National Park Service
Santa Fe, New Mexico

There follows the narrative report for Capulin Mountain National Monument for the month of June, 1949:

Visitors: There have been about 3,000 visitors to Capulin Mountain National Monument during the month of June, making a total of twelve thousand three hundred for the travel year and thirty two thousand one hundred visitors for the fiscal year.

Weather: There have been eighteen days of rainy weather during the month of June, and a total of over five inches precipitation. An unusually wet season for this area.

Flora and Fauna: The wild flowers, bluebells, lupines, Indian paint brushes, sweet peas, and all the fruit bearing shrubs are in full bloom. The trees bearing the pinon nuts have a good crop this year, but following the usual pattern, are nearly all blighted. Deer and other wildlife in the Monument area are faring fine, and are not being molested.

Roads and Trails: Roads and trails in the area have been washed out considerably during the month, but with the exception of a couple of days, have been kept filled and smoothed.

Information Pamphlets : About one thousand information pamphlets have been distributed during June. Have about 14,200 now on hand.

Special Visitors: Dr. Nusbaum and party from Highlands University accompanied by several Raton visitors were out to the Monument on June 15, and Mr. John M. Davis, Assistant Regional Director was our very welcome guest on June 19, at which time we discussed several very interesting subjects pertaining to the Monument area.

Very respectfully,

Homer J. Ferr
Ranger

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

June 25, 1949.

MEMORANDUM for the Regional Director,
Region Three.

There follows the narrative report for Casa Grande National Monument for June 1949.

General: It has been a little warm this month but we really have nothing to complain about yet. The cotton crop appears to be doing good and hopes are high for a bumper crop. With the arrival of the cotton choppers the annual hunting season has officially opened with 4 killings in the Coolidge vicinity during the last month. Boys will be boys.

Weather: The unusual weather of last winter is apparently carrying over into this summer. We have had a few rather humid hot days but all in all this has been a very comfortable June. The maximum was 112 with a low maximum of 89 and a minimum of 60. We received .54 inches of rain on the 17th and this was really a welcome sight.

Visitors: June 1949 - 1,785; June 1948 - 1,944; Travel year to date 1949 - 38,947; Travel year to date 1948 - 32,154. The travel for this month shows a drop of 159 visitors from June of last year.

Interpretive Services: Of the 1,785 visitors to the area, 1,074 made the trip to the ruins in 138 groups averaging 50.6 minutes per trip. 711 people were here for a quick look but did not go through the ruins.

U.P.S. Visitors and Visitors of Note:

June 11 - Dr. Erle K. Reed, Region Three Archeologist

June 12 - Mr. Ratcliff of the Region Three Office was in for a short visit.

June 17 - Charlie Steen and Collaborator Githinger.

RECEIVED
JUN 28 1949
NATIONAL PARK SERVICE
REGION THREE OFFICE

Administration and Protection: The Adamsville site was checked for vandalism. Three requests for information were answered. Much time has been devoted to preparing the inventory and it is now practically completed.

Maintenance: The repair work and painting on quarters 5-6 is now finished and these quarters are now in good shape. The sewer line from the rest rooms to the main was cleaned and is now in good condition. The borrow pits along the entrance road were cleaned and graded.

Personnel: Maintenancoman Barnett resigned at the close of business on June 15. Mr. Barnettplans on working in California. We will miss Mr. Barnetts services here as he has been a good worker and has had exceptional talent for the type of work required here.

Leaves Taken: Maintenancoman Barnett took 15 hours sick leave and 8 hours annual leave during the period covered by this report.

Nature Notes: Three of the night blooming cereus plants were in bloom during the night of the 14th. For some time we have been keeping tab on a nest of young sparrow hawks located in the giant cactus along the trail to the ruins. On the morning of June 14, one of the young birds was found caught in one of the cholla cactus. Apparently the bird had made themistake of alighting in the cactus and was impaled on the spines. The bird was released but was injured to the extent that it he was unable to fly. Ranger Armberger took the bird home and nursed it back to health on raw meat and milk from an eyedropper. This is the first time we ever heard of baby birds nursing but this one certainly did.

A.T. Bicknell,
Superintendent.

NATIONAL PARK SERVICE

Chaco Canyon NATIONAL MONUMENT

Bloomfield, New Mexico

June 28, 1949

MEMORANDUM for the Regional Director, Region Three,
National Park Service.

There follows the report of activities in Chaco Canyon National Monument for the month of June, 1949.

There were 304 visitors this month who came in 106 automobiles from the states of:- Alabama - 1 car, 4 visitors; California - 6 cars, 13 visitors; Colorado - 7 cars, 23 visitors; Illinois - 3 cars, 8 visitors; Indiana - 1 car, 3 visitors; Iowa - 1 car, 2 visitors; Massachusetts - 3 cars, 6 visitors; Minnesota - 1 car, 4 visitors; Missouri - 2 cars, 7 visitors; Nevada - 1 car, 2 visitors; New Mexico - 63 cars, 189 visitors; New York - 7 cars, 14 visitors; Ohio - 2 cars, 6 visitors; Oklahoma - 1 car, 1 visitor; Texas - 5 cars, 9 visitors; Utah - 2 cars, 5 visitors and Washington - 2 cars, 9 visitors. There were 71% more automobiles and 38% more visitors than a year ago, and there were 34% more automobiles and 15% more visitors during the 1949 fiscal year as compared to the 1948 fiscal year. These people formed 74 ruins trips with all 304 of them visiting the ruins, and 62 museum parties consisting of 247 visitors. Rangers Mathews spent 85 hours and 10 minutes with them and the superintendent spent 45 hours and 15 minutes.

The warmest this month was 94 degrees Fahrenheit on June 16, and the coolest was 34 degrees on the 2nd. It rained 6 times for a total precipitation of .64 of an inch.

The approach roads have been dry most of the month, and so have remained passable, but rough. The Monument roads are in good shape.

National Park Service visitors included Carl Allomen, J. R. Conn and John Davis from the Regional Office.

This month was filled for the most part, other than guiding visitors, with routine jobs accomplished.

Both light plants broke down this month. One has been repaired and is in operation.

Our most faithful Indian took off for the railroad where he is working as a section hand for higher wages than we can afford.

The concessioner, Mr. Glenn Whitesam, has decided to move out of the Monument, and is making plans to do so.

Projects for the ensuing month:- hope for a continued increase in visitors, haul into the Monument and plant the two tons of seeds which were contracted for this month. And install the refrigerator which should arrive any day.

There follows the report of Archaeologist Gordon Vivian.

19

MEMORANDUM for the Superintendent
Chaco Canyon National Monument.

Following is the report of Mobile Unit activities in your area during June, 1949.

At the end of the last report period we were stabilizing our combination office and shop. Shortage of funds prevented full completion of the work - no glass in the new steel sash, replacement of broken glass, hanging of a new door - but with the replastering and painting done it is a much better place in which to work.

Most of this period has been spent completing the excavation started several years ago on the site of the old CCC camp. Ray Hixey and I have been taking turns on the excavation and alternately revising his Walnut Canyon paper.

The excavations have disclosed two very interesting kiva forms but nothing in the way of material culture. Both the kivas were used in conjunction with a small nine room site - transitional PI/PII, and appear at this writing anyway to have been occupied contemporaneously. One looks like an early Chaco type, 11 feet deep, high narrow bench, sub-floor ventilator etc. The other tends toward the San Juan style: four heavy pilasters, raised masonry deflector and ventilator shaft opening directly in the bench face.

With the excavation nearly completed we are currently making revised PCP sheets for the Monument's stabilization needs and with this out of the way both Ray and I will concentrate on the reports of both his Walnut Canyon work and the present excavation.

Gordon Vivian
Archeologist

CHACO CANYON OFFICE

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Chiricahua National Monument,
Dos Cabezos, Arizona.

June 25, 1949.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Chiricahua National Monument for the month of June.

Weather. Our spring dry spell was broken on June 17th. To date there has been 2.94 inches of rainfall this month. Only one June of the nine others on record exceeded this. In 1940, June rainfall amounted to 3.51 inches. With several days to go we may be able to beat this record.

Special Activities. One June 20 and 21 the Superintendent made a trip to Silver City, New Mexico, to take part in the Conservation Workshop Program which is being conducted by the New Mexico State Teachers College and the Forest Service. A talk and discussions were followed by the showing of lantern slides and movies of the New Mexico areas.

Ranger Ringenbach made a trip to Organ Pipe Cactus to secure their gravel loader for use at Chiricahua for a month.

Inspections. Forester Ratcliff spent the forenoon of June 14 at Chiricahua on a fire protection inspection with the Superintendent.

General Publicity. The Arizona Daily Star of Tucson, and other newspapers published a very good article on Grandma Erickson's 80th birthday, May 24, in which the Wonderland of Rocks played an important part.

Maintenance. The emergency trail and road work is progressing very nicely, but some of the rock slides on the trails still remain to be moved. A gravel loader has been borrowed from Organ Pipe Cactus for a month, so it is hoped the bad spots of the road can be well regraveled.

Approaches to Monument. The dirt roads remain in about their usual rough condition. The oiling of State Highway 181 to the monument boundary seems to have increased travel to the monument some.

Interpretive Services. In addition to the Superintendent's forenoon at the New Mexico State Teachers College the following interpretive services were rendered: 2,055 visitors were contacted in the museum in 449 parties. One all day horseback trip was made with Western Ways photographers and story writers; one four hour hiking trip; two auto caravans; one 1/2 hour lecture to 91 Sunday School Conference visitors; about 75 visitors were

RECEIVED
JUN 30 1949
NATIONAL PARK SERVICE
REGION THREE OFFICE

contacted and given interpretive service at Massai Point.

Concessions. No concessions for meals and lodging at Chiricahua, but the Silver Spur Ranch, that has been feeding monument visitors, has closed. We hope this will be for a short time only as we get inquiries for meals and lodging frequently.

Increase in Travel. Travel this month amounted to 2,235 with 201 extra visitor days. This exceeds May by 802 and June of last year by 864 or 63 %. We are now 1141 ahead of last travel year or 12%, and finished the fiscal year with 15,181, which is 1,285 ahead of the 1948 fiscal year.

Ranger Service. Richard Reynolds, from the University of Arizona, went to work at Chiricahua June 7 as the temporary ranger.

Forest Fire Protection. No fires on the monument since the last report. Recent rains have started the annuals to growing and have relieved the extremely dry conditions. The Superintendent spotted two fires for the Forest Service from the flat country west of the monument.

~~El Morro~~ NATIONAL MONUMENT

~~El Morro, New Mexico~~

June 27, 49

MEMORANDUM for the Regional Director, Region Three

There follows the Monthly Narrative Report for El Morro National Monument covering the report period of June 1949.

Weather: The temperature ranged from a low of 30° to a high of 88° during this month with a bit more than average rain fall.

Inspections: Landscape Architect Carl Alleman, Region Three office, made his first visit to the area June 17. The master plan was checked and several changes were recommended pending intended land acquisition.

Publicity: Two talks were given, one in Gallup and one in Grants, New Mexico, in cooperation with the State Tourist Bureau. The talks were accompanied by slides of the NPS areas in New Mexico.

Approaches to Monument: A representative of the U.S. Bureau of Public Roads made an inspection of the Gallup-El Morro-Grants road and stated that the contract would be let in October for the grading, surfacing and new alignment of the existing road providing the state gasoline tax now in effect is deemed legal.

Cooperating Agencies: The local C.A.A. technician performed a minor miracle of repair to the El Morro radio and put us back on the air again.

Mr. Vidal, State Highway Commissioner of Gallup, New Mexico, has gratuitously offered three or four days use of the state grader and operator to improve the Monument road and parking lot.

The U.S. Weather Bureau, at our request, installed a new instrument shelter and rain gauge and moved the weather station to a more desirable location.

Interpretation and Visitation: The 697 visitors this month were conducted on 120 trips to the Inscriptions. The total visitation for the 1949 F.Y. is 2,690, which is 1,018 more than the 1948 F.Y..

Maintenance: Picnic tables were painted, entrance route signs and trail signs were painted and relettered, new juniper sign posts replaced the rotten pine posts in use, a road sign by the Ice Caves was replaced. The water system filtering tank was given a partial cleaning, sand and weeds were removed from the Inscription trail, the roof of residence No. 2 was altered and made waterproof, the short wave radio installation was made more compact and less of an eyesore and a new storage box for the radio batteries was constructed.

UNITED STATES
DEPARTMENT OF THE INTERIOR

El Morro NATIONAL MONUMENT

El Morro, New Mexico

June 27, 1949

Monthly Narrative report, con.

A much needed vent for the toilet in the ranger cabin was installed and no longer allows sewage water to bubble back into the sinks and bathtub.

The outside woodwork of residence No. 2 and the office was given a coat of linseed oil and the bathroom in residence no. 2 was given three floor coats of Plasti-gleam (lasts 3 to 6 months).

The generator house was fitted with a door and the missing wall boards replaced, a small addition to the generator house was built to house the welding set and make its storage more safe. Some doors were fixed to open and close more easily, the garage was cleaned and items in it stored, boxed and labeled.

The Monuments supply of free printed matter was sorted, counted, bundled and wrapped to keep it clean and the library was inventoried.

Wildlife: Five rattlesnakes that have been haunting the Inscription trail and visitors were disposed of.

Several rabbits, mice and rock squirrels have been found that have died of unknown causes. It is planned to send the remains of one of these animals to the Public Health Service for examination when conditions are suitable to allow a speedy and non-odiferous delivery.

Utilities Service: The construction of the REA power line from Gallup serving this area, has been started and we have been told we may expect power by February 1950.

Personnel: Mr. Harmon Maxson entered on duty as seasonal ranger effective June 6. Mr. Maxson served at Chaco Canyon last year.

Mr. Marion Lambson was hired as laborer June 13. The addition of two men to the force has allowed us to get a number of projects completed this month.

The superintendent was given an honorary membership in the Gallup Chamber of Commerce.

John A. Aubuchon
Superintendent

Gran Quivira National Monument
Gran Quivira, New Mexico

June 25, 1949

MEMORANDUM for the Regional Director, Region Three.

The following is a report of activities at Gran Quivira for the month of June 1949.

General. Good rains during the month have helped the local crop prospects. The wheat looks better than usual and sunflowers and beans are doing well. If it will rain cut the Fourth of July picnic there should be more prosperity hereabouts this fall.

Weather. Good rains and cool weather. A total of 1.52" of precipitation was recorded, the most for one day being .64 on May 21. Rain in varying amounts fell on 14 days of the report period.

Special Activities. On June 3 the superintendent accompanied Charlie Steen to Pueblo Colorado and Pueblo Blanco.

On June 14 and 15 Bertha Dutton of the Museum of New Mexico with Volma Whipple visited the area to make plans for the Girl Scouts summer tour. On July 14 the superintendent guided them to the Seco and Turkey Ridge ruins on the Chupadera.

A PCP for ruins excavation was submitted.

Maintenance. New roofing paper was placed on the garage. The "rustic" porch roof on the residence was covered with sheathing and roofing paper and now has practical as well as esthetic value.

One day was spent in repairing the sacristy door in the new mission.

All brush growing in and around the old mission was removed as well as that along the west wall of the new mission. This work greatly improves the appearance of the grounds. Considerable odd time was spent on the annual battle with the weeds, a project never quite completed.

Exterior woodwork on the exhibit building was given another coat of paint. The hardwater line which froze last winter was dug up and retamped and the drainage away from the pipe was improved.

Approaches to Monument. The Mountainair approach was graded twice this month and is in good condition. No work has been done on the Carrizozo approach, and it is rough and washed in spots.

RECEIVED
JUL 1 1949
NATIONAL PARK SERVICE
REGION THREE

Interpretive Service. 72 parties totaling 261 visitors were guided through the ruins. Average trip tim 50 minutes, total time 60 hours.

Museum Activities and Exhibits. Mr. Steen arrived on June 1 with two exhibit panels which were placed on June 2. This is a big boost for the exhibit room. Plans are for a sherd board and multiplex displays to be added when completed. Local people especially are impressed by the progress, more so, understandably, that visitors who have just seen White Sands or some other better developed museum.

A Kennesaw Mountain-type field desk was completed and will be placed as soon as the paint dries. The next project will be the drafting of a guide leaflet, and the placing of numbered stations to aid the unguided visitor. Incidentially the new field desk worked out very well with minor on-the-spot changes.

Increase in Travel. As indicated below there was a slight increase in travel over the same period last year. Rains no doubt discouraged many visitors. For example there was no one in on Sunday the 19th although Sundays usually average 30-50 visitors.

	CARS	VISITORS
June 1949	92	296
June 1948	85	266
Increase	7	30
Percent Increase	8.2%	11.3%
This Travel Year	480	1391
Last Travel Year	378	1116
Increase	102	275
Percent Increase	27.0%	24.6%

There were 2501 visitors for the fiscal year just ended compared with 2266 for last fiscal year, an increase of just over 10%.

Visitors. June 1-3 Charle Steen, Regional Office
June 6 Johnwill Faris, White Sands
Lillian Bagwell, Sect. Alamagordo Chamber of Commerce.
Lucille Alexander, Otero County Times, Alamagordo
R. L. Mayne, USWB Inspector, Fort Worth, Texas.
June 11 Erna Fergusson, Murder & Mystery in New Mexico, Albuquerque.

Wildlife. Although perhaps ornithologically incompatible, the stork visited the pair of Great Horned Owls on June 4. The twins are being reared in a vago hole in the mission. They are beginning to look like owls now, but upon arrival they resembled a Walt Disney interpretation of a ghost. The visitors enjoy seeing them.

William L. Bowen,
Superintendent.

GREAT SAND DUNES NATIONAL MONUMENT
MOSCA, COLORADO

June 26, 1949

MEMORANDUM for the Regional Director,
Region Three.

There follows the report of activities in Great Sand Dunes National Monument for June, 1949.

WEATHER. Spring ended and summer began with very windy weather. Many showers fell and several good rains.

The minimum of 36 degrees was registered on June 2. The maximum of 96 degrees was reached on June 22. The high minimum was 50 degrees on June 22; and the low maximum was 65 degrees on June 3.

A strong northeast wind blew on June 3,4 and 5, with snow flurries on June 4.

Rain fell on May 28; June 3,6,7,8,9,10,11,12,13 and 19.

During this report period, there were 9 cloudy days; 13 partly cloudy and only 9 cloudy days. There were 13 days with very strong winds.

The Rio Grande River missed flooding the valley by one foot. The radio reported it to be ten feet high and when last seen at the bridge at Alamosa, it was bank to bank and about two feet below the levee.

The Medano is still flowing along the entire eastern edge of the dunes.

TRAVEL. Two thousand seven hundred eighty-two visitors in seven hundred four cars visited the Sand Dunes during this report period. Thirty-nine states were represented, as well as the District of Columbia, Canada and Venezuela. Four written requests were answered.

One thousand seven hundred sixty-four people took advantage of the picnic areas and of these seventy-two camped over night.

INCREASE IN TRAVEL. For June, 1948, there were 476 cars and 1956 visitors. Eight hundred twenty-six more visitors are reported for June, 1949.

Travel for the fiscal year also shows a great increase; 1948 visitor days total 24,400; 1949 visitor days total 28,126.

CONTACT. Contact with visitors was done on Sundays, lieu days and week days as time and work permitted. There were 18 days of contact. Five hundred eighty cars were contacted with a total of two thousand three hundred thirty-six visitors. Average contact time per car amounted to ten minutes.

Total contact time: Sowers, 69 hrs., and 30 mins; Elliott, 27 hrs., and 10 mins.

The Memorial Day week-end brought in a total of five hundred sixty-three visitors who were contacted. Thirty-six campers were at the monument during this week-end.

RANGER SERVICE. Mr. Dean H. Elliott reported for temporary ranger duty on June 5. Mr. Elliott is a veteran and a student at the University of New Mexico.

ORGANIZED VISITORS. The Alamosa High School, Sophomore Class of 60 on a picnic outing - May 27. The University of Colorado, Biology Class of 22 who camped over night - May 28. The Cub Scout Group of Monte Vista with 55 in attendance had a picnic on June 22.

R.P.S. VISITORS. Ranger Glen Bean of Organ Pipe Cactus, paid a too short visit on June 8. Engineer Diehl of Region Three was here on June 13,14,15 and 16. Acting Regional Chief of Land and Recreational Planning, Kell of Region Three was here on June 15. Associate Regional Director Davis inspected this area on June 18.

ROADS. The State graded the approach road from Mosca to headquarters on May 28, June 11 and 26. The State has done much to put this road in better condition. However, at present writing, another section is torn up and is in poor shape. Ranchers have also neglected that they leave water from their ditches run over the road. Many complaints have been received on this part of the road.

MONUMENT ROADS. The monument road from entrance to headquarters is in excellent condition.

Engineer Diehl obtained a dragline and two trucks from the White Construction Co., of Alamosa, who were hired to haul gravel for the road from Mosca Pass picnic area down to the lower picnic area and also gravel the enlarged parking area there. Diehl hired a tractor-bulldozer from the Jones Construction Co., of Alamosa, who enlarged this parking area and then spread the gravel over the area.

Two hundred twenty-eight loads of gravel were hauled, which amounted to nine hundred twelve yards on both road and parking area.

RECEIVED JUN 30 1940 NATIONAL PARK SERVICE REGION THREE OFFICE

This work was done on June 13,14,15 and 16. The result was not as anticipated. The material contained too much sand, and when the allotted money was spent, the road and parking area were too soft to permit cars to drive down to the dunes.

When Mr. Davis inspected the area on June 18, conditions being what they were, more money was allotted to make the road passable. The Jones Construction Co., will do this job on June 27.

PICNIC PARKING AREA. The lower parking area was enlarged to 3/4 of an acre and then covered with gravel. Due to soft spots, it was closed to visitors. An attempt was made to pack this area by N.P.S. grader and loaded dump trucks. Little was accomplished and the jack shaft was snapped on the new Ford dump truck. This piece of equipment will be repaired as soon as parts can be obtained.

WATER SYSTEM. The tractor-bulldozer covered the exposed water line and in places, the line must be buried for twelve feet. It should never freeze, and now we hope it doesn't develop any serious leaks.

RANGER QUARTERS. The house trailer was finally removed from the parking area at headquarters and placed behind the checking station. It required the bulldozer to move it.

The trailer was opened up and temporary foundations hold it up. The sever wind on June 19, knocked down the side walls and nearly blew it away. Ranger Elliott's personal belongings were scattered here and yon. While putting back the side walls, it was noticed that the wood was badly rotted. With much work and money, the trailer can be made livable. At present writing, it isn't worth much.

LAND PROBLEMS. Mr. Kell went over land problems on June 15. He had previously spent days at the Saguache and Alamosa County Court Houses obtaining data.

Plans are being made for land appraisals on private holdings within the monument.

CONCESSION. The Saddle Horse Concession is doing moderately well and those who have rented horses from Mr. Graves, report a very enjoyable ride on gentle horses.

Mr. Graves is having trouble obtaining the proper insurance and correspondence carried on by this office and Mesa Verde reveal that Lloyds of London is the only company considering issuance of this insurance. It seems strange to us that no U.S. Insurance Co., would issue policies, they consider it too great a risk. Tsk! Tsk!

ACTIVITIES. Usual routine activities have been carried on along with all contacting, road building, etc. End of the fiscal year, administrative and office matters were kept current.

Major portion of report period spent on road work; both with the monument grader and the two construction companies.

Considerable time was spent on the orientation of new ranger.

With the great increase in travel, more time is required to clean up the five acres of picnic areas.

Fixed the water tap at both upper and lower picnic area. So much water is being diverted by Mr. Wallington into his ditch, that Mosca Creek is very low and this affects our water supply to some extent at the picnic areas.

A trip was made with Mr. Jack Williams in his jeep, to the top of Medano Pass. A hasty inspection of wood cutting and hauling was made on the Ziegler property and the old Williams property.

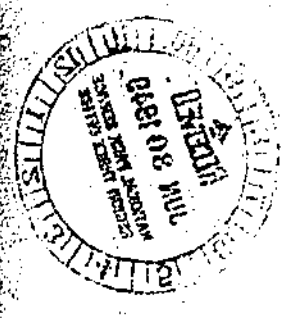
The Williams property within the monument was sold to J.T. Bounsaville.

All automotive equipment was greased and repairs were made on a leaky gasoline line on the old Ford dump truck.

Gasoline, lubricating oil and propane gas were hauled from Alamosa.

Much trouble was encountered with the Parkhurst outfit who are cutting and hauling lumber from the Ziegler property. Their tractor broke loose just below Mosca Spring and tore up the landscape. In getting the tractor back to the truck, more damage was done. Lumber was also scattered all over the area and this was cleaned up by monument personnel.

Three men hired by Parkhurst drove in one evening very drunk. They kicked out the most sober member of the trio and then drove off to town. I drove the man to the Zapata Ranch where he called by phone but could not locate any friend to come and get him. So drove him to Alamosa and on the way, found the other two had driven the truck into the ditch and were there sleeping it off. Water in the ditch was fender high and touching the engine. The Sheriff was contacted and he returned with me and took the men off to jail. Never a dull moment here!



PROJECTS FOR ENSUING MONTH. Finish road work which will start on June 27. Have parking area outlined by rocks and tables removed and placed to better advantage.

Repair pipe at Morris Gulch Spring. Repaint road signs and others at parking area.

If funds become available, to do something with the trailer to make it livable as ranger's quarters.

With this work accomplished, it is hoped that my lieu days may be taken and enjoyed.

Ted C. Sowers,
Superintendent

Montezuma Castle National Monument
Camp Verde, Arizona
June 25, 1949

MEMORANDUM for the Director, Region Three:

Montezuma Castle National Monument submits its monthly report for June 1949.

General Activities: The pressure of travel has left little time for activities other than public contact work. The monument was kept open between the hours of 8:00 a.m. and 6:00 p.m., with tours conducted hourly. On several occasions, to accommodate visitors, it was necessary to conduct two trips within the hour.

Weather: Days have been warm but nights still remain cool. Maximum temperature was recorded on June 15 when the mercury reached 107 degrees. Minimum temperature averaged in the sixties. Showers caused a total precipitation of .45 inches.

Travel: Record travel was experienced this month with 3878 people in 1178 cars to the Castle and 1252 visitors in 403 cars to the Well for a monthly total of 5130 people and 1581 cars. Travel year to date numbers 18355 as compared to 16345 visitors for the corresponding month of last year.

Interpretation: 222 trips conducted 1143 adults and 169 children through the Castle. The largest single day for trips occurred May 29 when 101 people were guided through the ruins. The second largest day was June 19 when 98 visitors climbed the ladders.

To improve interpretation service, Archeologist Schroeder prepared a digest of information pertaining to Montezuma Castle which will be studied by all persons conducting guided tours.

Sketches of a geological block diagram of the Verde Valley have been colored and placed in the museums at the Castle and Well.

Schroeder gave a kodachrome illustrated talk on Montezuma Well to the Clarkdale Kiwanis Club.

Maintenance: At the Castle, all road gutters were cleaned and some brush removed from the shoulders.

Repairs were made to the water pump and to two of the Castle doors.

At the Well museum, cabinet doors and frames were completely revarnished.

RECEIVED JUN 30 1949

Protection: The Building Fire Control Plan for this area was prepared by Ranger Clancy and submitted to Region for approval. The annual report of inspection of fire hazards was also submitted this month.

Wildlife: A pinion jay and a starling were recorded at the Well for the first time. A gray fox was observed on several occasions near the Castle. Bats are again causing a nuisance in some of the Castle rooms.

Public Health: Water samples collected from this area and mailed to the State and Federal laboratories proved entirely satisfactory.

JOHN O. COOK

John O. Cook,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

ARCHES NATIONAL MONUMENT
MOAB, UTAH

July 5, 1949

MEMORANDUM for the Regional Director, Region Three.

The following is the Narrative report for Natural Bridges National Monument for the month of June, 1949.

GENERAL: Due to the heavy snows of the past winter and unseasonable rains in May it was impossible to get into this area until June 2 on which date it was officially opened.

TRAVEL: A total of 130 people visited the area in 45 cars. This count shows a definite decrease from the same period last year, but is understandable because of the road conditions.

INTERPRETATIVE SERVICE: Total contact time amounted to 38 hours, in which 97 people received information about the area. Thirty-six people visited during the absence of the Ranger. The campground was used by 9 people for overnight stops. One party was contacted in Blanding.

WEATHER: The heavy snow fall of last winter had just melted when unseasonable rains brought more precipitation than the soil could hold.

ROADS: The approach road over the mountain from Blanding has been in poor condition during the entire report period, due to heavy rains. The transportation of heavy mining equipment has made deep ruts in the boggy stretches and although the State Highway Department has attempted to repair these holes they can do very little until the ground dries. The Ferry at Hite was taken out by driftwood which closed this approach for over a week.

INSPECTIONS: An inspection was made of the area on June 8 & 9 and in spite of this superintendent's three years of mud driving at El Morro he had to put on chains in the middle of a mud hole. There was not sufficient time to see much of the area, but the grounds and trails that were seen had been put in very good shape by Ranger Redd. The canvass covering the tent house quarters apparently took a beating last winter and will have to be replaced.

MAINTENANCE: All directional and milage road signs were repainted or, where necessary were replaced by new ones. Wire was purchased for the the strengthening of all ladders.

Bates E. Wilson
Bates E. Wilson
Acting Superintendent.

RECEIVED JUN 27 1949 NATIONAL PARK SERVICE REGIONAL OFFICE

NAVAJO NATIONAL MONUMENT
TONALEA, ARIZONA

June 24, 1949

Report 1M1 Report 1M1

MEMORANDUM for the Regional Director, Region Three

There follows the monthly report of activities in this area for the month of June 1949.

VISITORS

111 visitors came to this area in 42 cars and on four horses. These visitors selected their activities as follows: 56 visitors used Sandal Trail in 23 parties, 37 visitors hiked to Betatakin in 11 parties, 4 visitors came horseback from Rainbow Lodge to Keet Seel and Betatakin, 4 visitors climbed to Scaffold House in one party. Only 25 people used the campground. Of interest is the fact that almost half of our travel occurred in the first five days of the report period.

N.P.S. VISITORS

Dr. and Mrs. Bryant of Grand Canyon National Park on the 28th. Former Custodian Bill Wilson on the 19th.

WEATHER

Total precipitation 1.08 inches. Minimum temperature 34 degrees on the 4th, Maximum 89 degrees on the 15th and 16th.

ROADS

Approach roads have reached a new high in smooth surface. (see maintenance)

GEOLOGY

Mr. Clark of the Sinclair Oil Company has informed us that what we are calling NAVAJO sandstone is ENTRADA sandstone, what we call Kayenta is Carmel and what we call Wingate sandstone is really Navajo Sandstone. For authority he sites the 1947 bulletin of the American Petroleum Geology, Tulsa, Oklahoma. If we are making a mistake, along with all geologists , except Baker, Dane and Reeside who wrote the paper, we wish to correct it. We have requested a copy of that bulletin.

MAINTENANCE

Because of the dryness of our road bed little road work could be accomplished until the 26th. The 0.82 inches of rain then settled the dust, washed out four areas and provided moisture enough for blade operation. Four blade applications were required on most of the 16 mile entrance road. A final smoothing with our railroad irons dragged behind the dump truck has put our entrance road in better shape than ever before.

During the 'dry season' we were able to whip all of our equipment into good shape.

The dump truck (I 13803) was repainted a standard highway yellow lacquer--and a very professional looking job it is.

A shovel was mounted on the grader and a bolt operated from inside the cab fastens the right door. A bolt released from inside the cab controls the gas tank cap eliminating another lock. Thus only one lock is required to secure the grader. The door catches had to be worked over because of misfitting the cab.

Schools of instruction were a major item this month. Many lessons were given Bob Black in the safe use of the grader. Seth Bigman has been schooled in operation and maintenance of the dump truck. Both men attended schools of the grease gun, oil can, tire maintenance and repair.

A sign was routed, painted and installed in Betatakin. The legend follows:

NO ONE IS PERMITTED
BEHIND THIS SIGN
IT IS UNLAWFUL TO WALK UPON
PREHISTORIC WALLS OR ROOFS
PENALTY: $500.00 FINE AND
60 DAY IMPRISONMENT

Altho our policy is that there be no unguided or uninstructed visitors to Betatakin there are instances of visitors reaching Betatakin without our knowledge. This is made possible by access from Marsh Pass or as happened this month a horseback party visited Keet Seel and Betatakin before appearing at the headquarters area.

MAINTENANCE (Con't)

The rebound three horse power, dust proof Master Motor was packed horse-back to the tunnel on the 23rd.

The frame work for the redwood tank cover has been finished. Only a lack of funds keeps this project from being completed.

MISCELLANEOUS

On the morning of June 9 at 2 A.M. we were awakened by a light tapping on the bedroom window. Pipeline came in followed by Seth to tell us that Pipeline's mother died in the evening. This called for a pot of coffee by Ida and a fast plan for burial. The first request was for enough lumber to build a pine coffin. We cranked up the light plant and pointed the pickup lights on the lumber stack. (This material, so conspicuously absent, is hard to find even in strong light). By using some of our warped sign material and packing case material we were able to fabricate a box.

While Seth and I were driving nails and Pipeline was sawing cross-cuts Seth put a half-dozen nails into his mouth. Pipeline stopped sawing and told Seth not to put nails that were going into the coffin in his mouth. A few days later I asked Seth, why? He explained that Pipeline told him it was a very bad thing to have his saliva buried in the grave. The same is true of a scratch that might leave a trace of blood or skin on the box. Pipeline wore gloves.

Because a burial near Shonto had recently been disturbed the boys requested the body be placed in the cemetery at Tuba City--so we put the box in the pickup at 6:50 A.M. had some breakfast--and proceeded to Bob Black's hogan where Grandma had died. We arrived just as Bob and his family were leaving in their wagon loaded with all their hoganhold effects.

The pickup was backed up to the hogan door, the box placed in position and Grandma wrapped in a pendleton blanket was placed in the box lined with a sheet provided by Ida.

Since Grandma had died inside the hogan I wondered what would come next. The hogan was a fine large one built by Bob Black and represented many hours of log hauling, ax work, mud mixing and finally many happy hours inside.

June 24, 1949

Report 1141

MISCELLANEOUS (Con't)

The men were gathered in a huddle about 50 feet from the hogan and Seth came out of the group to tell me that they wanted me to burn the hogan and the large pile of trash outside. (The hogan had been thoroly cleaned up and the pile in front was the usual accumulation found inside the hogan). Reluctantly I poured a quart of gasoline on the logs inside the hogan and on the trash pile. With a touch of fire both were burning furiously and the party departed at once.

Pipeline and Dan Begishe then accompanied me to Tuba City cemetery where a grave was dug and the body interred. Our next stop was at the boys dormitory were Pipeline and Danny took a physical and mental cleaning in the shower. We were back in the groove at Betatakin at one P.M.

Grandma's passing has been and will continue to be lamented. She had always been a cheerful old gal in spite of a crippled hip and trashoma. She hobbled on a stout stick and could only dimly see where she was going, seldom complaining and more often joking about the length of time it took her to get from one place to another. She was such a kind one she won't spend much time getting to her 'happy hunting ground' but I'll bet she has a wisecrack when she gets there.

J W Brower Jr

J.W. Brower, Jr.,
Superintendent

NAVAJO NATIONAL MONUMENT

MONTHLY REPORT June 1949

On may 29, 1949 the parking area was again over crowded.

A poncil sketch plan for an enlarged parking area was furnished by Architect Al Kuehl in 1940. The exact location has not been determined.

We are urgently in need of funds to provide ample parking space.

J.W. Brewer, Jr.,
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

ORGAN PIPE CACTUS NATIONAL MONUMENT
P. O. Box 38, Ajo, Arizona

June 25, 1949.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of June, 1949.

Weather.

Uniformly high temperatures prevailed throughout the month to rapidly dry up the range and water holes. The high maximum temperature of 108° was recorded on June 15th and the low of 80° was recorded on June 4th. Only a few drops of rain fell on the evening of June 17th. A daily check of the 11:30 A.M. weather was made from June 8 to 17 for the Weather Bureau.

General.

The superintendent went to Arizona State College at Tempe on June 16th to appear for 2 hours on their conservation workshop.

Inspections.

Forester Batcliff spent June 10 and 11 inspecting the range and consulting with the grazing permittees.

Visitors.

The Copper Toastmasters Club of Ajo held their weekly meeting on the monument on June 21. 88 members and guests enjoyed a slide talk by the superintendent.

Travel.

Travel of 18957 for this month brings the total for the fiscal year to 121615. Travel for the 1948 fiscal year was 94449, giving an increase this year of 27,166.

Research and Observation.

Road patrol was made almost nightly to check reptile movements and species. Two new snake records added for the monument are Thamnophis eques, garter snake; Rhyllorynchus decurtatus nubilis,

cloudy leaf moss; and Leptotyphlops humilis humilis, blind snake. This brings our total to 20 species of snakes.

Personnel.

Maintenanceman Quinn spent May 31 to June 27 on annual leave. Ranger Boom was on leave from June 1 to June 16.

William R. Supernaugh,
Superintendent.

Saguaro National Monument
Tucson, Arizona

June 25, 1949.

MEMORANDUM for the Regional Director,
Region Three.

There follows the monthly report of activities at Saguaro National Monument for the month of June, 1949.

General.

The mild temperatures of May have given way to higher temperatures during June, culminating in a maximum of 106 degrees on June 18 at monument headquarters. The long drouth was broken on June 10 in the forested area when some 36 hundredths of an inch of precipitation fell over the Rincons. Subsequent thunder showers have brought the total rain fall up to .75 of an inch in the forested area. Several lightning strikes were observed by our lookouts on the Rincons but to date no fires have occured.

Travel to Saguaro shows a sharp decline as compared to last month but a substantial increase over the same month a year ago.

The annual Fire Control Training program was held at Manning Camp on June 6 for the benefit of all monument personnel. Assistant Regional Forester H. M. Ratcliff participated as discussion leader on several subjects, with special emphasis on what influences fire behavior which was well received by our field men.

Special Activities.

Assistant Regional Forester Ratcliff spent the period June 7, 8, and 9 at Saguaro participating in the Fire Control Training program at Manning Camp, and inspecting part of the 1943 burn in the forested area.

The superintendent spent three days in the forested area inspecting presuppression activities and maintenance work.

Maintenance.

All necessary materials were finally assembled at Manning Camp to erect the new tent frame for sleeping quarters. Heavy logs were used for the foundation and the job was accomplished in an efficient manner by our trail crew.

A new pit toilet was constructed at Manning Camp as the old one was unsatisfactory from a standpoint of sanitation.

Maintenance. (Cont'd)

Another much needed improvement was accomplished in the form of a concrete floor in the tool storage shed at Manning Camp.

Several breaks in the telephone line (Grounded circuit) were repaired including three breaks in the line between headquarters and Madrona Ranger Station.

Approaches to Park Area.

The Broadway approach was graded once during the month and was in good condition for the most part. A few visitors continue to arrive at Saguaro via the Vail approach but it is generally unpopular due to being very rough.

A field survey party from the Pima County Engineers Office is presently engaged in surveying the proposed new approach road via the Old Spanish Trail.

Interpretive Service.

The interpretive program at headquarters was not constant during the month due to the absence of the superintendent on several occasions.

A total of 475 persons in 140 parties were given interpretive service at headquarters. This amounted to 53½ hours for an average of 14 minutes per party.

Travel.

A total of 1,068 people visited Saguaro during the month. This is a decrease of 49% as compared to last month and an increase of 566 visitors over the corresponding month a year ago.

Roads and Trails.

The patrol loop trail on Mica Mountain was cleared of all down logs.

The Loop Road through the cactus forest will be graded whenever sufficient moisture is present to insure packing after grading, it is in fair condition at this time.

Ranger Service.

Ranger Wilde devoted most of his time to supervising presuppression activities in the forested area, including moving the weather station to a new location and installing a RX lead-in for the fire tower.

Visitors.

Dr. A. D. Bajkov, Biologist, Biloxi, Miss.

Charlie Steen, Regional Office.

Personnel.

Arthur Lopez and Conrad Hernandez entered on duty as Fire Control Aids on June 1. Frank Alonzo entered on duty as trail laborer on the same date.

Fire Control Aid Samuel Oren took sick leave on June 4 and 5 in order to have a cyst removed by a physician in Glendale, Arizona.

NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

June 27, 1949

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Sunset Crater National Monument from information furnished by the ranger-in-charge for the month of June 1949:

Weather: Sunset Crater was not exempt from the unusual weather experienced by the Flagstaff region. Rainfall was considerably above the average and the high winds were not as much in evidence as is usually the case at this time of year.

Roads: Approach roads are in an unusually good condition for June, although washboarded in some sections. Portions of the entrance road were dragged on three occasions when rains made it possible.

Travel: The highest visitor use for the area was recorded this month with an estimated 5540 visitors. Of this total, 931 persons in 180 groups were given interpretive services by the Ranger-in-Charge and 2216 individuals received other interpretive aid. The total visitation figure represents an increase of 60% over last month and 28% over June 1948.

Visitors: Visitors of interest in the area included Mr. Edgar Snow and party, escorted by a member of the Flagstaff Chamber of Commerce. Mr. Snow is a writer for the Saturday Evening Post and was gathering material for future articles on the Flagstaff region. On June 19th a group of 50 students from Arizona State College in Flagstaff visited Sunset Crater on their return from Wupatki National Monument.

Publicity: An interesting photograph by Josef Muench of Sunset Crater, together with a brief article appeared in a recent issue of Ford Times, an interesting travel magazine of national distribution. The Arizona Daily Sun in Flagstaff released an article to the effect that interpretive services were available for the summer travel season and that roads were in good condition. The primary purpose of the article was to inform local businessmen of existing conditions so that they would be able to answer questions of visitors to Flagstaff.

Forest Fire Protection: The Ranger-in-Charge made initial attacks on two small lightning fires on the adjacent Coconino National Forest. A total of 16 hours was thus spent, most of which was overtime paid by the Forest Service under Co-operative agreement.

Research and Observation: The overnight camping problem was alleviated somewhat by advising visitors to camp at the nearby Forest Service Townsend campground set aside for that purpose.

A cave was discovered in the north edge of the Benito Lava Flow and was penetrated to a depth of 50 feet. The entire length of the cave has not yet been explored, but inside were numerous deposits of a white powder. Specimens have been sent in for identification.

Information was obtained concerning the abandoned logging camp site on the north side of Benito flow. Apparently a small community known as the Sunset Logging Camp existed there as early as 1901. More definite information will be gathered as soon as possible.

Equipment: A total of almost two days, throughout the month, was spent in either making emergency repairs or having them done in Flagstaff to the Dodge truck, #18879. This caused a great deal of inconvenience and disrupted normal duties of the Ranger. To put this war surplus equipment in reasonably good condition would require an outlay of approximately $300. Repairs, however, are being kept to a minimum awaiting a replacement for this vehicle.

Maintenance: The work load of the area for this month falls into the following pattern: cleanup - 21½ hours; roads - 14 hours; repainting of signs - 19 hours; rehabilitation of rest rooms - 19 hours; firefighting - 2½ hours regular and 16 hours overtime; visitor contact - 60 hours; truck repairs - 21½ hours; miscellaneous and travel - 20 hours. In addition, 8 days annual leave were taken.

Owen L. Reynolds

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Tonto National Monument
Roosevelt, Arizona

June 25, 1949

MEMORANDUM for the Regional Director, Region Three.

Following is a report of activities at Tonto National Monument for June, 1949.

Upon looking at the report for June last year, I find that I could almost copy it word for word and have it accurate. It is hot here, 95 to 105 degrees, there is only one man on duty, the visitors are rolling in, with the usual 25 to 30 per cent increase per year, and the fire danger is high much of the time. The Conservation Workshop group from Tempe was in again, accompanied by Forest Service men. Most of the time has been taken up by visitors to the Cliff Dwellings despite the relatively small number of such visitors.

Weather. Daily maximum temperatures from 95 to 105 degrees. One good rain, about an inch, received this month, first rain in June in 8 years.

Approaches to Monument. Apache Trail and Monument road were damaged some by the rain, but they are in fair condition.

Interpretive Service. The Museum has been open all month, but unattended much of the time, as someone from almost every party went to the cliff dwelling. During Archaeologist Pierson's absence on leave, guide service has been on a six day a week basis, with the Superintendent contributing the sixth day. Service was not available on one other half day due to a necessary trip to Globe.

Archaeologist Pierson gave a talk to the Rotary Club and to the Ladies Aid Society at Spring Valley, Ill., while on leave, to about 30 persons in each group.

Travel. 1291 visitors in 358 cars came to Tonto this month. This is an increase of about 33% over June last year, and about 16% more than travel last December, the normal travel season.

Record Memorial week-end travel, (about 500 in 2 days) helped increase that number, but there is a consistent average increase also. From the records of the past two years, I believe we will have to regard June as part of our busy travel season, regardless of the weather.

Visitors. Regional Archaeologist Eric Reed. Forester Ratcliffe and son Howard. Operator Marble and family from Chiricahua, and Mr. and Mrs. Lloyd M. Pierson Sr. and daughter Audrey.

General. Office work incident to end of the fiscal year, odd jobs, repair and maintenance, and mostly visitors, took up the month.

Charles C. Sharp
Superintendent

Tonto National Monument
Narrative Report, June 49.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Tumacacori National Monument
Tumacacori, Arizona

June 25, 1949.

MEMORANDUM for the Regional Director,
Region Three.

Follows the monthly narrative report for Tumacacori National Monument for the month of June, 1949:

WEATHER CONDITIONS: Rain fell on June 17 and 20, to the amount of .25. Typical summer rainfall patterns have been reflected by considerable cloudiness of late, and heavy rains at various spots in the surrounding country. This is unusually early for summer rains, which sometimes do not begin until July 20. Maximum temperature of 105 occurred on June 15 and 16, and minimum of 46 on June 4.

INCREASE OR DECREASE IN TRAVEL: Travel records have again been shattered into small pieces. Visitor total of 1,671 persons is 14.5% higher than the highest previous June total, that of 1,429 persons in 1937. However the 1949 Fiscal Year travel total of 24,904 is considerably below the 26,425 total for the 1948 Fiscal Year.

INTERPRETIVE SERVICE: 775 persons went on 141 guided trips through the mission church and grounds, receiving an average of 35.49 minutes per trip. 1,612 persons received combined Information and Interpretation service, and 1,611 saw the museum and patio garden.

VISITORS: 6-27 - Henry Jaasted, a Tucson architect and mission enthusiast. He made a Sonora missions trip with Frank Pinkley in 1921.
6-28 - State Senator Hubert Merryweather and a party of friends.
6-29 - Mr. Laurence M. Klauber, world-famous herpetologist, and his son, spent an hour with us.

INSPECTIONS: June 11 & 12 - Regional Archaeologist Reed was in for an afternoon, night, and morning. During much of this time Ranger Brewer, Dr. Reed and myself were able to have a very intensive brain session over historical research and information leaflet text.
June 12 thru Part of June 15 - Collaborator Rutherford J. Gettens, Chief of Technical Research, Fogg Museum of Art, Harvard University, and Archaeologist Steen of Region Three Office, were in to study the mission. Detail of this in another section.

PUBLICITY: 6-26 - W. F. Langton, who took educational pictures here last year on behalf of the University of Utah, was in again to complete his portion of pictures on Tumacacori.

MAINTENANCE: Our water system pump motor was checked into. The jack was taken down and slide bearings adjusted and crank pin rotated 90 degrees to provide a new wearing surface, and brushes were replaced in the motor. A refrigerator motor, in Residence No. 1, was taken down and a new bearing made for one end of the shaft. Above services were performed by Mr. Harry Lyman.

Tucson Roofing and Supply Company, of Tucson, which firm built the nave roof in 1947, after much prompting sent a man down to make repairs to a leak which had developed at least a year ago. The repair was above the flashing at the north end of the nave, and correction of the leak protects a somewhat weakened adobe arch underneath.

Routine maintenance was taken care off, but there is need for a great deal of other maintenance which we have not succeeded in finding time enough to do. Repairs and new wording were effected on part of our large entrance sign near the museum front door.

MUSEUM AND EDUCATION: An inaccurate label for a gun exhibit in the museum was changed. The mining diorama case has such gross inaccuracies in its old labels (very lengthy and fancy labels) that Ranger Brewer and I opened this case and put a short temporary label in to indicate the error of the rest. We then found the aluminum front frame so badly warped that we almost did not succeed in replacing the glass. To re-write the mining exhibit labels adequately will require a few days of research at the University, which time has not shown itself.

TUMACACORI TREASURE: 6 - 15 - Three more men arrived with an M Scope, to locate the Tumacacori Treasure. It has been approximately six months since another party used an M Scope for the same purpose. This time the "treasure" indications were the same as shown by the M Scope of the earlier party. The man in charge of the machine informed me "There's supposed to be 16 million in gold somewhere on these grounds." I didn't explain to him that 16 million in Spanish gold, giving him only his percentage as treasure trove, considering depreciated specie value, considering income taxes on the find, etc., would leave him only cigarette money, and roll-your-owns, at that. He informed me it would be simple to tear out a big section of old wall of the mortuary chapel and replace the adobe and plaster afterward, and that he is going to post his bond with the government and arrange to go after that treasure. Needless to say, the staff here does not believe there is Spanish gold buried here, and we suspect it would be a long, long time before treasure hunters ever convince the Government, against the weight of logic and reason, that it should let human gophers run amuck here with picks and shovels.

PERSONNEL: A total of 25 hours of annual and sick leave was taken by the staff during the month. W.A.E. Guide Whiting worked a total of 8 hours.

NATURE NOTES: Ranger Brewer reports two California Cuckoos seen on June 23, which is an early recorded observation here for them. Other early observations here have been between June 26 and June 30.

[redacted],
Superintendent.

PROPOSED STABILIZATION WORK IN MISSION: Collaborator Gettens and Archaeologist Steen, assisted by the monument staff as opportunity arose, made a very detailed examination of the plaster and painted surfaces of the church interior. The purpose of the examination was to ascertain if the plastered and painted surfaces could be cleaned and stabilized. While the examination was in progress, minute samples of all colors were taken, so that later Mr. Gettens can analyze them and tell us what pigments were used at Tumacacori.

The conclusions drawn, in Mr. Gettens' written report on his inspection, are too detailed to give here, but essentially they involve:

Removing most of adobe drip, dust and bird droppings from plaster surfaces by careful brushing.

Fixing surfaces lightly with a synthetic resin spray, to prevent chalking of lime surface and falling away of the fugitive pigments.

Pointing broken edges of the plaster.

It was emphasized that fixative should be applied to powdery surfaces, followed immediately by spray of pure thinner, to force fixative into the surface to effect bonding only of the grains and to avoid formation of a continuous film of the plastic at the surface. Continuous film at surface would cause undesirable sheen and might eventually cause peeling.

We have the feeling that Mr. Gettens' inspection trip was very worth while, and that if his recommendations can be carried out in toto the interior of the church will not only have much more stable surface but be infinitely more beautiful to look at.

Earl Jackson,
Superintendent.

TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA.

JUNE 28, 1949

MEMORANDUM for the Regional Director, Region Three.

Following is the monthly narrative report for Tuzigoot National Monument for June, 1949.

Visitors this month - 2210 Travel year to date - 10,698.

Travel Data: 2210 persons in 681 cars. A very decided increase over the previous high corresponding period of 1948, where records show a total of 1800 people in 558 cars. If we are in a so-called recessionary period, and many informed people say we are, no evidence of this situation is shown in the ever increasing volume of tourist - at least it is not evident in this area.

Weather: Generally the entire month of June has been very pleasant. Occasional showers held temperatures down to below normal. In fact it has been quite cool compared with the same month of past years.

Guide and Contact Service: Museum, ruins and Orientation contacts totaled 5505 for the month. 1952 people in 625 parties were shown through and given and orientation lecture in the museum, and 2003 people in 627 parties made the trip through the ruins. Average time spent by each party in the museum was 21 minutes. The ruins required 20 minutes per party.

Personnal Time: Museum: 217 hours, 10 minutes. Ruins: 212 hours. Total time for Bright: 219 hours. For Richert: 210 hours, 20 minutes.

Special Groups: A group of 17 from the Y.M.C.A. at Phoenix on May 29, and 20 Methodist Church High School Students from Los Vegas, Nevada on June 11. Special lectures and tours are always given to young student groups.

Maintenance: Although interpretive service, due to heavy visitation, requires about every minute of our time, Archeologist Richert did manage to clean out all the weeds from the rooms in the ruins. Unusual rains, for this time of the year, caused a tremendous growth of weeds. All rooms now have a very presentable appearance. A new display cabinet was made for Kodachrome slides, and several shipments of SWNM publications were received and checked.

Ernest W. Bright

Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
~~WHITE SANDS~~ NATIONAL PARK SERVICE

Box 231, Alamogordo, New Mexico.

June 23, 1949.

MEMORANDUM for the Regional Director, Region Three.

JUNE TRAVEL, 1949

Visitors, 17,183 Cars, 5,883

TRAVEL YEAR TO DATE

Visitors, 82,556 Cars, 19,971

GENERAL: June has broken even our fondest expectations, in that it has surpassed, by almost 5,000 visitors, any like month in the history of the Monument. Seventeen thousand eight hundred eighty-three visitors, in three thousand eight hundred eighty-three cars, were our guests this past month. Truly, our travel season is in full swing, as the above figures show, and we are grateful to have the additional services of Seasonal Ranger, Delbert Nelson, to help handle the ever increasing visitation.

One rocket landed within our boundaries, and Superintendent Paris and myself went to the point of impact, along with the Army Recovery Unit, and there was no material damage done to the area. The missile was approximately 18 feet long and about 18 inches in diameter. There have been several firings since then but none of the missiles have landed in the Monument. One thing about this firing, you can't call your time your own as they are apt to fire at 4:00 A.M. with no warning except the customary blanket warning for the entire day. Consequently, we have to be on the alert for the Army practically all the time.

Weather conditions have been, more or less, normal for this time of the year. We have had approximately .38 of an inch of rainfall this past month, all of which we are grateful for, but wish that it had been lots more, as range conditions are powder-house dry, and too, we could use it on our clay-topped sections of road.

COMMUNICATIONS: Since we submitted our estimated expenditures for the coming year, we have received notice from the Mountain States Telephone and Telegraph Co. that the telephone rates have been increased to the tune of $12.00 a year for both stations. This, in turn, is going to increase our Communications Estimate when it comes time to allot operating funds.

Superintendent's Narrative - continued.

UTILITIES: Dog Canyon water was checked again on the 18th and found to be flowing approximately 550 gallons per hour.

COMPLAINTS: No complaints of any nature have been received in this office, to speak of, other than the usual complaints about the heat. The temperature has gone up to 102, which is the hottest so far, and higher temperatures are expected.

CONCESSION: Gross receipts for the month were approximately the same as last year at this time, despite the reduction of prices.

PERSONNEL: Superintendent Faris, our Tourist Host School Teacher and Goodwill Ambassador, returned from the trip with an acute stomachs disorder - possibly Ptomaine - that put him in bed for a few days, and now he has had a recurrence of the same malady. At this writing he is well on the road to recovery and will probably be up and around in a day or two.

Delbert Nelson, our Seasonal Ranger last year, has returned to the same position as of June 4. Mr. Nelson was an exceptionally good hand last season, and from all indications, will be better this year, since he has that much more experience in his duties. Incidentally, it is in order to announce that he is getting married, to the girl of his choice, on the 25th of this month. Miss Gibson is a local girl. We all join in wishing them all the success and happiness possible.

Operator Sheppard is recovering nicely from his broken ankle, and will probably be on duty before long. His being off has crimped our style considerably, but we have managed to get along by putting in some long, extra hours and neglecting some of the other work.

Ranger Chittum has been notified of his appointment as Zone Chairman of the Lion's Clubs of Alamogordo, Tularosa, Cloudcroft, Ruidoso, Carrizozo, and Capitan.

Harold J. Chittum,
Acting Sup't.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Walnut Canyon National Monument
Flagstaff, Arizona

June 25, 1949.

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly report of activities at Walnut Canyon National Monument for June, 1949.

Visitors this month, 3366; travel year to date, ~~7724~~ 10,240; total for fiscal year, ~~25,664~~ 81,296.

Weather Cold windy days with more rain than usual slowed visitor travel on some days. The extra moisture brought up quite a crop of weeds, particularly around the parking area.

Administration An unusual event occurred on June 10 when Supt. Jones of Wupatki was awarded a Certificate of Honorable Mention and $100 in cash by the Board of Awards of the Department's Suggestions Committee. Jones' suggestion was that cut out raised letters be used on signs to facilitate their maintenance. The award was made by Supt. Hastings in the presence of interested visitors and Park Service personnel and their families from Wupatki and Walnut Canyon.

All records of expenses during the 1949 fiscal year were checked and estimates prepared for 1950.

The water meters of all permittees were read May 31.

The Army Dodge pick-up was left in Flagstaff over night for repairs to a broken valve spring.

Prospects of getting commercial electric power for this monument by early fall are good. This was promised by the power company in 1947. A recent change in ownership of the company has placed them in a better position to supply this service. Mr. Geo. A. Hill, new business manager of the company, called at the monument on June 24 and made a thorough inspection of needs and existing installations and indicated we could expect service by early fall.

Personnel Robert H. Viklund reported for duty as temporary ranger on June 1. This is Viklund's third summer as Temporary Ranger and he has had additional experience on stabilization and maintenance work.

Maintenance and Improvements The floor of the museum was given two coats of wax, the first time it has ever been waxed.

Ranger Viklund completed painting green woodwork in the lobby and painted window frames. Cement floors in both office and workroom are

being given two coats of a varnish-like floor hardener.

The fuel oil stove at the office was dismantled for cleaning and the chimney cleaned.

All floors in the Superintendent's residence were given two coats of wax.

A small trash burner made from stone was completed. This will hold about three barrels of trash and will help solve the problem of what should be done with papers, etc. that the Forest Service does not want left on our garbage dump.

Advantage was taken of a long rain on June 18 to plant a patch of lawn in front of the Superintendent's residence.

Visitors Travel for the fiscal year was 21,296 which was 683 more than the 20,613 counted last year.

Visitors this month totaled 3366 in 561 cars. Of these 2450 were contacted in 59.4 hours. 921 visitors in 177 parties saw the museum on Sundays, holidays, and other short periods when the light plant was running to illuminate the display cases. 24 picnic parties including 372 visitors used the picnic area.

A bus load of 27 high school seniors from Crane, Texas visited the monument May 29.

On June 13 a class of 25 students studying conservation under the direction of Dr. Agnes Allen were here from Arizona State College, Flagstaff.

A party of 50 students and their families were here from the college on June 19.

On June 1st a party of 240 boys from Boy's State meeting in Flagstaff visited the monument from 6:00 until 9:00 P.M. Most of the boys saw the museum and all went around the ruins trail which we believe establishes a record for the most people seeing the ruins in the least time. Ice-cold pop was served to the entire group by the Flagstaff Chamber of Commerce at the picnic ground.

Also on June 1 a party of 40 sixth grade students and their sponsors from Emerson School, Flagstaff visited the monument.

Fires and Fire Control On June 12 what appeared to be a sizable fire down the Canyon was spotted from The Point. All hands responded but only a cloud of fog was found.

On June 13 Ranger Viklund responded to a call from the Forest Service to help put out a fire near Kellum's Pasture.

On June 14 Ranger Leding and Maintenance man Bean assisted the Forest Service from 1:00 until 9:30 P.M. in controlling a fire on Strawberry Crater.

Two 55 gallon steel drums have been filled with water for fire protection. Each barrel has a cover to keep out litter and wild life and across each cover two buckets full of water are suspended. Both buckets and barrels have been painted with aluminum paint and marked "For Fire Only". One unit was placed on the side of the picnic ground away from the hydrant and the other barrel near the workshop and garage.

Gallon paint buckets were cleaned, painted with aluminum paint, and marked "Please extinguish fires with water". A bucket was left at each of the five fire grates in the picnic area in the hope that visitors will use the water instead of cinders to extinguish their fires. Cinders do not always put out the fire and when mixed with ashes and charcoal, they make quite a mess.

National Park Service Visitors Superintendent Jones and Milton J. McColm from the Regional Office were here May 25. Architect Kenneth Saunders was here May 27. Ranger and Mrs. Richert were here from Tuzigoot on June 9. Paul Thomas and Harold Marsh were here for a short stop on June 9. Supt. and Mrs. Brewer were here from Navajo on June 12 and Engineer Bradley was here June 21.

Former Supt. Darter is attending college in Flagstaff this summer and on visits to the monument has been able to offer helpful information on trails, boundaries, etc.

Roads and Trails Work on our entrance road has been carried on by Maintenance man Joe Bean and Ranger Leding throughout the month. A total of 127 dump truck loads of cinders was spread on our entrance road, utility and service roads. These cinders are hauled from a source about ten miles away and considerable difficulty has been encountered in blasting them loose for loading.

Signs A new directional "Trail To Ruins" sign was placed at the beginning of the loop trail around the "Island".

A new "Water" sign has been prepared and will be placed on the picnic ground.

Two "Trail To Ruins" signs were refinished and the "Road Closed - No Trespassing" sign for the road to the Log Cabin is being refinished.

Southwestern Monuments Association Sales During the quarter just ending $182 was collected from the sale of books, postcards, etc. On June 24 Ranger Leding completed a display rack so that post cards and pictures may be offered on a Self-Serve basis.

Homer F. Hastings,
Superintendent.

RECEIVED
JUN 27 1949
REGIONAL PARK SERVICE
SAN FRANCISCO OFFICE

Wupatki

Flagstaff, Arizona

June 26 49

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Wupatki National Monument for the month of June.

Weather: Unusual weather continued through the month of June. First of all, we have had a total of .66 inches of precipitation compared to a normal for the month of June of .19 inches. This precipitation figure is closely approaching our previous record, set in June 1940, of .73 inches, and exceeds that of the wet year, June 1941 when a total of .40 inches occurred.

Weather Bureau precipitation graphs have always shown Wupatki falling into an area of higher precipitation than our records indicate. They are now realizing this error and will correct it when a full ten year period of observations is complete.

At the request of the Weather Bureau special observations were made at 11:30 A.M. each day, June 8 - 17, as part of an international weather research program.

Roads: All approach roads are passable, but the wash-board condition is the source of an undue amount of oral complaint. As soon as Maintenance Man Bean returns from Walnut Canyon and our rainy season sets in this condition can be alleviated.

Travel: All previous records of travel were broken this month. With a total of 1092 visitors, 768 registered at Wupatki and 324 at the Citadel. This represents an increase of 58% over last month and a 24% increase over June 1948. Our interpretive records, however, which are by no means complete for the travel to Wupatki ruin, show guide service rendered to 826 individuals. This tends to show that our present system of recording total travel results in a figure considerably under the actual visitor use.

Special Activities: At the request of the Army Map Service corrections were made on the Flagstaff sheet of the 1:250,000 scale map series. Prominent

physiographic features and additional place names were suggested for inclusion in the new edition. One copy of the old sheet was placed in our files.

Two outside talks were given during the month. The usual discussion of history and organization of the National Park System was presented to the class in Conservation of Natural Resources at Arizona State College, Flagstaff on June 10th. An illustrated talk on points of interest around Flagstaff, especially NPS areas, was presented to 100 summer school students at the local college on June 17th. The purpose of the latter was to stimulate interest in bus tours sponsored by that institution.

Activities of Outside Agencies: The El Paso Natural Gas Company has been active in this general region during the past month, surveying a final location for the natural gas line from northwestern New Mexico to California. They claim to be north of our boundaries, but this is doubtful. One final location was within the northwest corner of our area and when advised of this fact, they moved it outside by a hundred feet. Apparently they are crossing through the privately owned lands in the vicinity of Crack-in-the-Rock. A field check will be made of this line as soon as possible. If this gas line does go through the monument or to the north of it, the net result of its completion will be to open a road that will make the Crack-in-the-Rock section accessible and we shall have little control over visitors to that section of the monument. From a protection standpoint this is the most serious effect of this project, although there will naturally be considerable scarring of the landscape.

Status of Private Lands: We are pleased to report this month that an option has been obtained from the C O Bar Company for the purchase of the Heiser Springs tract. Negotiation to acquire this land and the water supply therein goes back over a period of ten years with many hours of effort resulting in the accumulation of an unduly thick file of correspondence.

Further inquiry was made on the pending exchange of state owned lands within this area in the hope that negotiations started six years ago could be brought to a conclusion.

Spring Flow: Measurements this month indicate a flow of 702 g.p.d. for Wupatki Spring, which is the highest record for June since 1940. Heiser Spring continued to flow 3,456 g.p.d., the record for any month during the past three years.

Visitors: Among the visitors to Wupatki were Dr. and Mrs. Felix Chayes of the Geophysical Lab, Carnegie Institute, Washington, D. C. Dr. Chayes is a petrologist with an interest in volcanic areas and volunteered to do some analyses of the cinder agglomerate of Wupatki Spring. He was directed to the Museum of Northern Arizona because he might be able to render valuable services in this area. Mr. and Mrs. Conrad P. Geiger of Long Island State

Park Commission was a visitor again this year. Mr. Geiger, an expert model builder, has offered to make us a model of the ball court for a trail side exhibit. He will also do a reconstruction drawing of Wupatki ruin from the overlook. This drawing, together with the Statement of Significance of this area, will be placed along the trail to the ruin to aid visitors in their appreciation of the monument. Other visitors included Supervisor Roland Rotty and party, Coconino National Forest; two exchange students from Switzerland and Sweden who were given special attention; writer Edgar Snow of the Saturday Evening Post, making a preliminary study of potential articles on the Flagstaff region; Superintendent and Mrs. Brewer of Navajo National Monument; Ranger and Mrs. Richert of Tusigoot National Monument; Superintendent Hastings and family of Walnut Canyon National Monument. Special groups included 55 Arizona State College, Flagstaff, students, whose arrival produced a record daily travel on June 19th of 122 visitors.

Publicity: Three press releases on this area, one being prepared by Superintendent Hastings, appeared in The Arizona Daily Sun, Flagstaff. They dealt with the award to Superintendent Jones, the official opening of the summer travel season at Sunset Crater, and the arrival on duty of Ranger Robert Euler. Favorable publicity was also received by Wupatki through a short article issued by the Weather Bureau for The Arizona Republic, Phoenix, concerning Clyde Peshlacai's weather predictions.

Personnel: Robert C. Euler entered on duty as temporary Ranger at Wupatki on June 5th. We are pleased to have Wanda and Bob back with us again this summer after their year at the University of New Mexico where Bob is working towards a Ph. D. in Anthropology. Maintenanceman Bean received notification that he had received an eligible rating for the position of Operator, Light and Heavy Equipment, in the examination given by the Civil Service board at the Navajo Ordnance Depot. From the Board of Awards of Interior's Suggestions Committee Superintendent Jones received an Honorable Mention certificate and was endowed with $100 less withholding tax for his suggestion on the use of cut-out letter signs. Amani Collaborator A. E. Buchenberg is still in Florida and writes that it is unlikely that he will be here this year because of problems arising from the death of his brother-in-law.

Accessions: Thanks to the efforts of Superintendent Aubuchon and the RD a set of 11 Army technical manuals on the various practical arts of maintenance and construction were received from the AGO.

Signs: Scotch-Lite applied by Ranger Euler was found to be in good condition after one year of exposure and still adhering tightly to tempered masonite. This material is certainly better than paint and has promising uses for both regular and cut-out letter signs. Now all we want is a small fund of $25 from either the Regional office of the Director's office to subsidize our experiments.

Equipment: The old Chevrolet pick-up, transferred to us from Navajo National Monument, lacks a functioning transmission and is not considered being worth the necessary repairs.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply.

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shown the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may be considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

RECEIVED
JUL 31 1940
DIVISION OF PARK SERVICE OFFICE

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

RECEIVED JUN 27 1949

Fill Out Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as Attended Interpretive Stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive service. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors' existence in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: from all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinative superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 6th of the month following that covered by the report.

EXPLANATION OF ITEMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical Aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

GUIDED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing information rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Motel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: Is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical Areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors at each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

NAME Clair V. Cook
TITLE Clair V. Cook, Superintendent.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY-COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS ENQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME
John A. Aubuchon
TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.
Seasonal Ranger on duty this month allowing almost 100% visitor contact.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total and enter in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a figure considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT IS: From all National Park Service areas providing any interpretive services. Send two completed to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data are due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report Call) and 9 (Report Call).

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

Talks: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

Attended Interpretive Stations: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS ENQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

Unattended Interpretive Devices: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

Interpretive Activities Outside the Area: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

Column #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

Column #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

Interpretive Activities Outside of the Area ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

Totals: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. Total Attendance SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICE. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

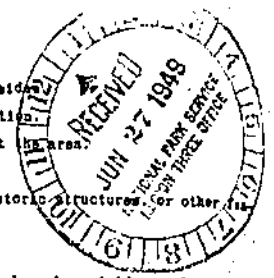
NAME JOHN O. COOK

TITLE Superintendent.



REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill In Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A srmary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF ITEMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, [illegible] column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the Area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LEGACY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

RECEIVED JUN 28 1949 NATIONAL PARK SERVICE REGIONAL OFFICE OFFICE NUMBER 10 SAN FRANCISCO 11, CALIF.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.
Interpretive program at headquarters was not constant as the superintendent was absent on several occasions.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

JUL 27 1949

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave"; etc.
Archaeologist on Annual Leave, Museum maintained part of time, service to Ruins
Six days per week.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

NAME Earl Jackson
~~Earl Jackson~~
TITLE ~~Superintendent~~

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

~~Visitor total includes 69 rea-arounds. 2 2/3 working days were missed, because of annual and sick leave.~~

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

INSTRUCTIONS FOR FILLING OUT THIS FORM O

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical Aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.). count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

August 4, 1949

Memorandum

To: Regional Director, Region Three

From: Park Naturalist

Subject: Narrative report for naturalist work in the Southwestern Monuments Association for July 1949.

Naturalist Dale S. King was in the office the whole month except for July 1 when he visited Capulin Mountain on his return from addressing a tourist host school at Clayton, New Mexico.

Archeologist Charlie R. Steen made one trip, accompanying Regional Archeologist Reed, to Chaco Canyon on July 6 and 7 to inspect recent excavations and to discuss the ruins stabilization program for the current fiscal year. The balance of the month, up to the 15th, was spent in the office, principally on PCP sheets.

Interpretive Administration

King gave orientation talks at the Region Three Office building on July 20 and 25 to groups of 26 girl scout executives and 16 girl scouts on an archeological tour, respectively. He assembled the quarterly reports of free publications on hand and mailed geological cards, kindly furnished by Dr. Reed, for the free files at Organ Pipe Cactus and Chiricahua.

Extremely good news was the notification by memorandum of June 28 that the University lands in Chaco Canyon had been transferred to the government as of January 24, 1949. Solution of this problem of more than 40 years standing will remove some obstructions to the development of one of the finest archeological areas in the country (if and when the service is able to obtain funds).

Progress and Exhibit Plans and Projects

King revised the old Southwestern National Monuments nature trail instructions to place them on a regional basis and prepared a memorandum urging field men to study needs for nature trails in their areas. He sent memorandas to several areas making specific suggestions to be sure that no possibilities are overlooked.

At the suggestion of the Assistant Regional Director, King prepared a memorandum urging that museums receive better maintenance and lighting.

Research and Observations.

Steen found a Folsom point on Highway 60 and reported the location to Archeologist Watson Smith who is excavating for the Peabody museum nearby. King prepared a memorandum recommending that the Bandelier Superintendent and a Ranger be cleared by the Atomic Energy Commission to do survey work on lands controlled by that commission. Another memorandum recommended that the Tumacacori staff be granted a travel order to make a trip apiece to study missions in Sonora.

Ruins Stabilization.

On the 15th Steen left for Canyon de Chelly National Monument to start work on a salvage excavation at a small ruin in Canyon de Chelly. The ruin was rapidly being washed away by the stream. The ruin has been named Tse-ta'a, the Navajo name for the particular rincon in which it is situated.

By the end of the month he had excavated remnants of Navajo corn caches, several rooms built, and/or, used by early Hopis and the remains of a Pueblo III village. At the end of the month he had started to excavate an earlier village which underlies the structure; this is probably a Pueblo II site.

The early digging was easy; the fill was composed of loose sand and rock and the rooms contained little cultural material. The lower levels of the site, however, are filled with compact clay and the rooms are difficult to dig. The work is going along at a much slower pace now.

Loan Library.

Accessions for the month total 93 including 12 books, 5 reports, 37 pamphlets and 29 periodicals. Important titles received during the month are:

Cotner, Thomas Ewing - The Military and Political Career of Jose Joaquin de Herrera, 1792-1854. The University of Texas Press, Austin, 1949.

Hough, Walter - Archeological Field Work in Northeastern Arizona. The Museum-Gates Expedition of 1901. Smithsonian Institution, Washington, Government Printing Office 1903.

Lister, Robert H - Excavations at Cojumatlan, Michoacan, Mexico. University of New Mexico Publications in Anthropology, Albuquerque, 1949.

Beattie, Roderick - The Inverted Mountains: Canyons of the West. The Vanguard Press, Inc. New York. 1948.

Bole, Muriel Sibell - Stampede to Timberline, The Ghost Towns and Mining Camps of Colorado. The University of Colorado, Boulder, Colorado. 1949.

Miss Virginia Mastin has been assigned to the library for 2½ hours each day and accomplished considerable work.

Southwestern Monuments Association

King read the page proof of the Montezuma Well booklet on July 19 and mailed out advance copies July 26.

During the month of June, three deposits and two disbursements were made in order to show a smaller amount of accounts payable in our year end statement June 30th, which we hope will be ready in September. During June 238 covers were mailed, including 37 letters and 62 purchase orders. An extra deposit had to be made to cover a bounced check.

The increase in purchase orders was due to preparation for mailing to the live list of names and to new names accumulated this Spring. Our stock of books was low and we had to replenish it. Barbara Vedder worked 53 hours preparing this mailing of 1,940 covers.

On June 9th the take from the first mailing went over $2,000, with our 330th order. Up to this date the percent return was 1.85%, and the average order was over $6.00.

Much time was spent on posting monument turn-ins; taking inventory of the stock; the usual bank reconciliation, monthly report, posting to journals, follow-up on unpaid invoices, figuring commisions; and strightening the store room in the basement to make room for more books. The treasurer also helped in preparing the envelopes for the mail list so that they would be ready to take to the post office without delay when it was desired that they to sent. The treasurer left Friday June 24th for a vacation.

The treasurer returned July 25th.

The 1,940 mail covers were sent out July 6th, and by the end of the month over $200 had been taken in.

Over 243 covers were mailed, including 34 letters and 26 purchase orders. One deposit and no disbursements were made.

ORPI

The five work days the treasurer had were spent on current mail; bank reconciliation; doing monument turn-ins; going over bills, receipts and purchase orders for past month; and posting new inventory on the warehouse cards.

Technical Aid to Administrators.

King prepared the condensed report for Southwestern National Monuments.

Projects for August.

King will be in the office catching up on a backlog of correspondence and working on revisions of 2-fold leaflets.

Steen will remain at Canyon de Chelly on ruins stabilization.

cc: Mr. Dodge (2)

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

August 3, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Arches

Subject: Monthly Narrative Report

WEATHER: Rain fell on July 3, 4, 9, and 24. All but one storm, on the 9th, brought enough precipitation to run water down the Court House Wash which held up traffic for 3 to 5 hours. Temperatures have been in the 100 range most of the month reaching 106 for a maximum.

TRAVEL: An increase of 69% is shown over the same period last year. However we registered 128 people less than last month.

INTERPRETIVE SERVICE: Contact time amounted to 79 hours in which 1009 visitors received information about the area. Nineteen guided trips were conducted by Rangers Worthington and Reed with a total attendance of 93 people. Eleven letters of inquiry were answered. Five illustrated talks were given by Ranger Worthington and six by Ranger Reed. These talks are given outside, when the weather permits the Rangers each using their own equipment and on their own time. Ranger Worthington gave half a days fire training to 40 Boy Scouts and the Superintendent talked to the same group explaining the aims and activities of the Park Service.

CONCESSIONS: The application of Ross S. Musselman for the Pack and Saddle Stock Concession was submitted for approval.

ROADS: Approach road U 95 has been in poor condition due to the absence of the State blade which has been loaned to an oil surfacing job elsewhere in the state. Fortunately Maintenanceman Winbourn had just finished blading all monument roads and drain ditches when a tandem chain on our grader broke July 15. Only one rain has fallen since that time and it did no damage to the roads.

PERSONNEL: Harry J. Reed entered on duty as Seasonal Ranger July 15th. It is a pleasure to welcome Harry back to the Park Service and especially so at Arches where he served as Ranger before.

ORPI

PUBLICITY: Two pages of the vacation section in the Salt Lake Tribune, July 10, were devoted to a trip through Arches National Monument, featuring a great many pictures and a very good article by Tom Mathews.

GENERAL: A tandem chain on our D 12 Motor Grader broke on July 15. This was the third similar break in six months and we hope to eliminate any more by installing new parts.

The gas range, refrigerator and hotwater heater were installed in the Trailer House thanks to financial aid from the regional Office. The walls and roof were constructed on the service porch.

Ranger Worthington was successful in locating two girls in the Devils Garden who said that they were not lost but just turned around.

Bates E. Wilson

Bates E. Wilson
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

24 July 1949

MEMORANDUM

To: Regional Director, Region Three

From: Superintendent, Aztec Ruins

Subject: Superintendent's monthly narrative report

WEATHER: Beautifull weather generally, with a few cloudy and rainy days. Despite the favorable weather travel has not met expectations and is only slightly above last years for the month.

VISITORS: We have enjoyed several Indian Service and US Forest Service personnel who have visited with friends or relatives. J. P. Thomas, District Ranger, USFS, Monticello, Utah and family; L. Sprague and M. Elnor, USIS, Ft. Defiance, Arizona; U. Swisher, USIS, Shiprock, N.M. with Engineer, Karl M. Fisher USIS.

MAINTENANCE: Much of our endeavor this month has been in aiding and abetting the removal of the old residence. This has now been accomplished and we hope soon to begin landscaping the site.

Unusual runoff water from a cloudburst has filled the lower end of the drainage pipe that runs along the north end of the monument. We are currently working to remove the silt.

INTERPRETIVE SERVICES:

There were 3560 visitors in 368 groups shown the museum and 2123 visitors in 269 trips who were guided thru the ruins.

INCREASE IN TRAVEL:

Travel that we expected to be at least 25% above July last year was only 1% up, with some 6% ahead for the travel year. There were 2560 visitors in 774 cars from 43 states D.C., Cuba, Japan, Hawaii and Denmark.

Irving D. Townsend
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

July 28, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Bandelier

Subject: Monthly Narrative Report, July 1949

Weather

Weather during the month was characterized by numerous thunderstorms that occurred generally in the afternoons. Rain fell on 15 days of the month and amounted to 5.08 inches which is the highest on record for July. The fifteen year average is 1.98 inches and the previous high was 4.51 inches. The wet weather has caused an unusual growth in the vegetation and the flowers have been particularly nice this year.

Temperatures ranged from 97 on the 6th to 50 on the 17th.

Special Activities

The Superintendent discussed the possible improvement of the section of the approach road that runs through the Los Alamos technical area with A. E. C. officials. The possiblity that the road might be closed and access to the Monument would be routed through Los Alamos, as reported last year, now seems to be very remote. It is the current opinion that the road will be left open and will remain the Monument approach road.

Inspections

Regional archeologist Reed spent the 15th in the area inspecting the work that is being done by the Archeological Field School from Adams State College. As a result of this inspection it was decided to construct a shelter over the excavated portion of the Rainbow House rather than to cover the floors of the rooms with cement.

Maintenance

Five thousand cement blocks were obtained from surplus at Los Alamos and were hauled to the area during the month.

RECEIVED JUL 27 1949 NATIONAL PARK SERVICE REGION THREE OFFICE

FOR DEFENSE
BUY UNITED STATES SAVINGS BONDS AND STAMPS

The unusual amount of rain throughout the month caused a heavy weed growth in the ruins and it was necessary to spend some time clearing them. About one half of Tyuonyi was cleared and it is to completed in the near future.

Telephone Line

An additional pole was set for the telephone company on which to string the new telephone line. The line is now within a mile of headquarters and it is expected that it will be completed soon.

Work was began in cooperation with the Forest Service to construct two and one half miles of a grounded telephone line to connect the Forest Service Dome Lookout on to our system. This will be very valuable in giving assistance in locating forest fires.

Approach Road

A heavy rain in the afternoon of July 23 did considerable damage to the approach road approximately ten miles from headquarters. A culvert was washed out and traffic was held up for several hours by the high water.

Concessions

The Frijoles Canyon Lodge reported 234 guests and 429 lodgings for the month. This is a decrease from last year when there were 282 guests and 603 lodgings. It indicates that people are staying a shorter length of time this year.

The Concessioner is still having difficulty with getting a dependable chef for the kitchen. There have been three this month and ten during the season.

Cooperating Non-government Agencies

The Archeological Field School from Adams State College spent most of the month excavating in Rainbow House. Eight rooms have been completed and two of them were found to be very interesting. They had walled in storage bins in the corners and a number of pottery bowls and artifacts were recovered.

The Field School held a barbacue for Service and Concession employees on the 24th.

Interpretive Service

One hundred sixty-one conducted tours with 3499 people were taken through the ruins this month. Thirty evening talks were given in the museum lobby to 863 visitors.

The nature trail was improved and we are receiving much favorable comment on it. Many visitors on the ruins trips will spend an additional one half to one hour along the nature trail.

Museum Activities

Work was begun on cleaning the museum cases and performing some maintenance on them. We expected to have this done earlier in the season but other work prevented it.

Travel

Travel continued to show a considerable increase over any previous years. 5718 visitors for the month was a slight decrease from the June travel, but 31% over July 1948. The decrease under June was due to rain on three weekends that reduced the number of visitors that we would normally expect by approximately twenty percent.

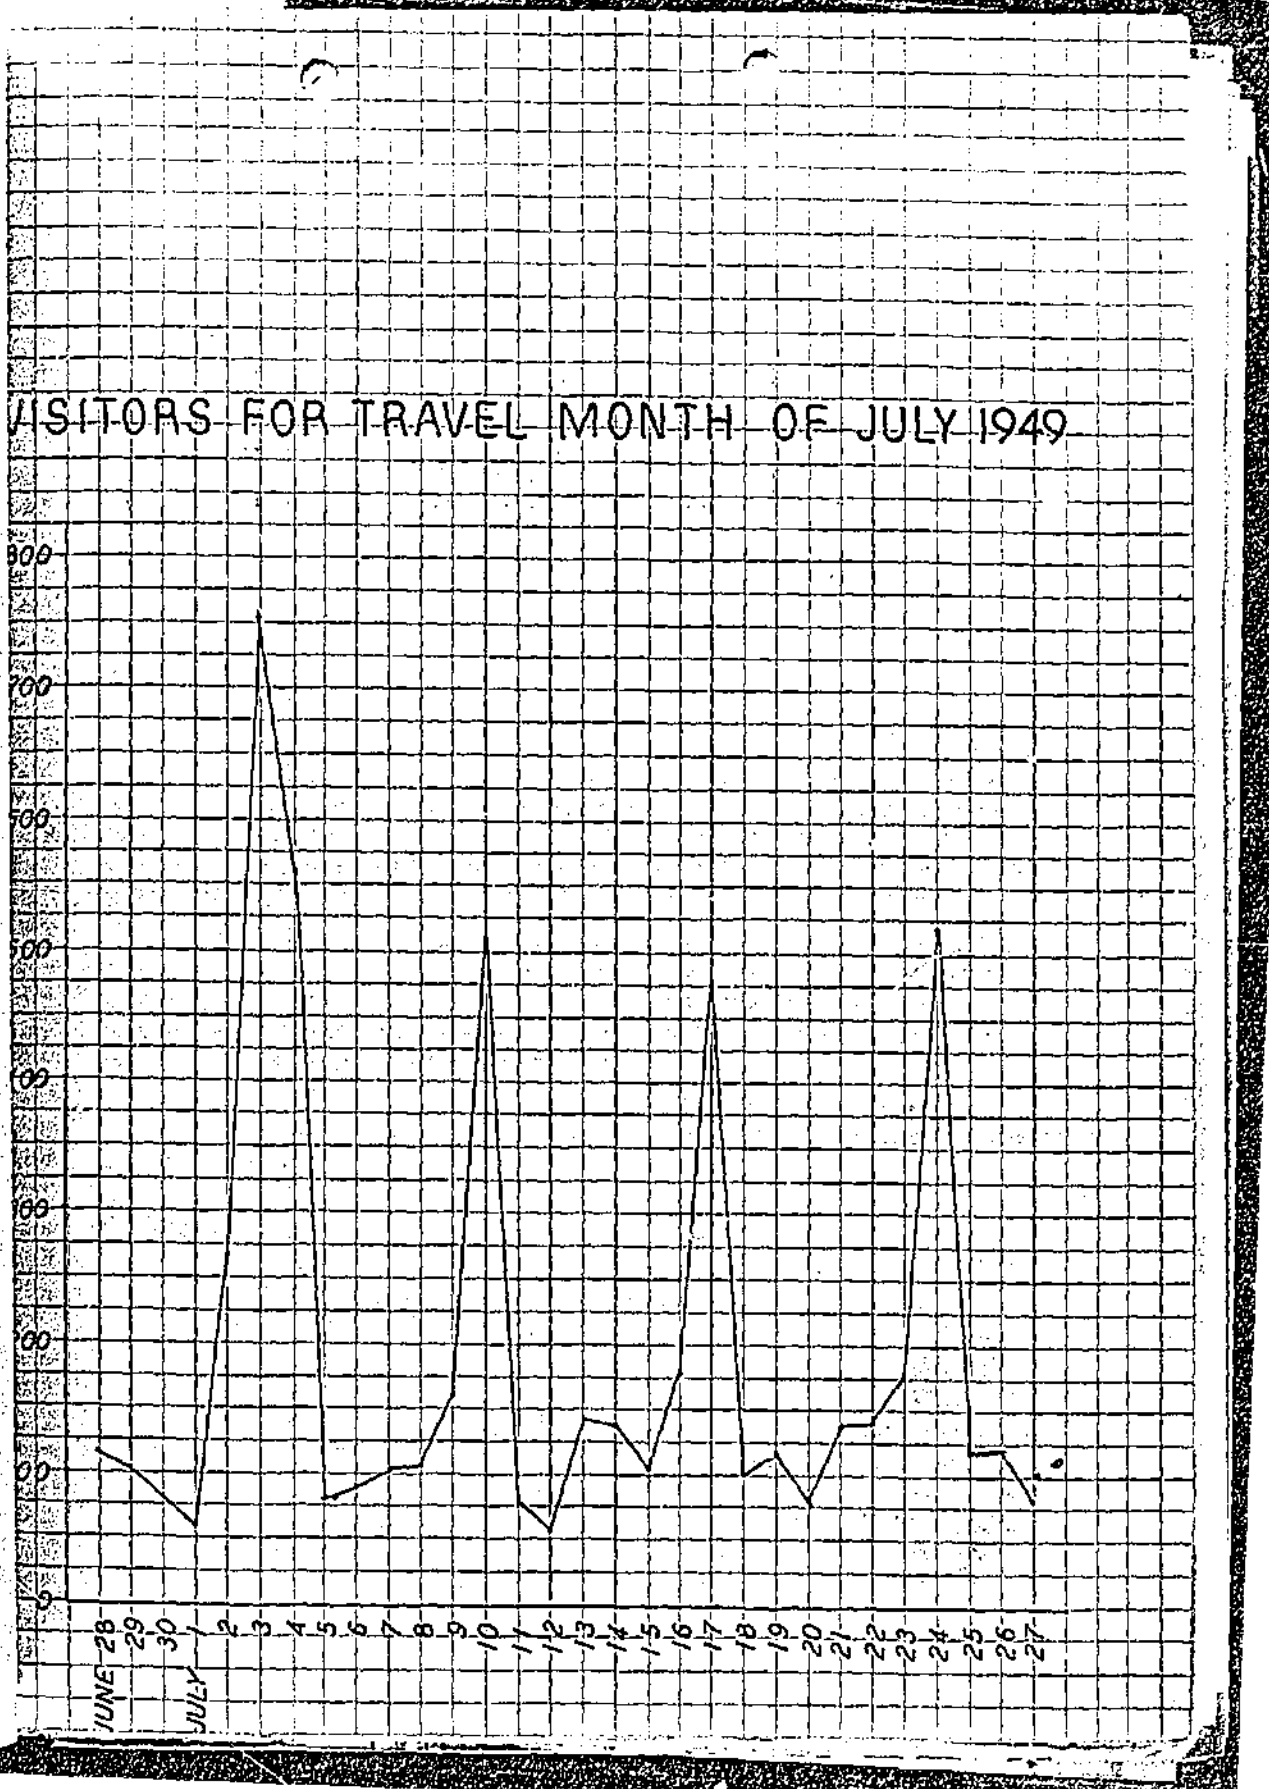
Insect and Tree Deseases

The frequent rains made it impractical to carry on spraying operations with the result thattent caterpillars had begun to make their appearance toward the last of the month. One spraying was performed on the 26th and since it did not rain on the 26th or 27th it should be effective.

Accidents

Ranger McEntyre pulled a ligament in his hip when lifting a stone in to a dump truck. He was off duty for two days with the injury.

Public Health



An epidemic of disentry hit the area on the 18th with most of the people in the campgrounds, lodge and residences being affected. It was reported to the Public Health Service and

Dr. Payne made an inspection on the 20th. The chlorine content of the drinking water was increased since this seemed to be the source of the infection. Drinking water samples have shown no contamination prior to the epidemic however.

Miscellaneous

A rock slide occurred on the 13th on the north side of the canyon between the big kiva and Tyuonyi. Although approximately forty tons of rock fell off of the cliff no damage was done except to a few small juniper trees.

Fred W. Binnewies

Canyon de Chelly National Monument
Chinle, Arizona

July 25, 1949

Memorandum

To: The Regional Director, Region three

From: The Superintendent, Canyon de Chelly National Monument

Subject: Report of activities during July, 1949

Weather Conditions

This month has registered more moisture by far than is normal for July. 1.87 inches in eleven separate showers. The heaviest was 78 hundredths on July 18. There has been even more in surrounding areas and hardly a day has passed that there was not a heavy shower somewhere along the approach road. The unsettled weather had a dampening effect on more than the country. Travel was affected as many would not leave the highway and road conditions were not ideal.

The Canyon bed which usually is too dry for ordinary travel by June 15, has not yet been dry and has been inaccessable to travel much of the time. It has run bank to bank on four occasions and considerable damage was done to Soil and Moisture plantings made in November of 1948 and June of this year.

Although the Maximum temperature is not higher than usual, it stayed at 98 degrees much longer than in the past. The minimum temperature was 50 degrees.

Administration

Office work has been kept current and only consumed a small portion of our time compared to other duties.

Maintenance

The interior of the Superintendents residence was completely redecorated with Kem tone, plaster repairs made, and the floors refinished. Roads have been maintained and graded to White house three times after heavy rains had washed them considerably. The office was redecorated, and general maintenance was taken care of. Wood Carved Warning signs were constructed and placed at White house and Antelope House. New attractive directional signs were placed at Spider rock overlook. Two man days were also spent on SS M repair work at Antelope house. Signs for Bat Canyon trail and the Fluted rock turn off have been constructed but not yet installed.

Travel

Although road and weather conditions were much less conducive to travel, we nevertheless show an increase 60 cars and 12 persons over the corresponding period last year. We had no large groups in busses or trucks but mostly in small groups which accounts for the variation in increase in cars and visitors.

A total of 70 hours was spent in guide and contact time. 18 conducted trips averaging 2½ hours, and the rest in headquarters contacts. We had a total of 498 visitors for the month.

Visitors

Platt H. Cline, Editor of the Coconino Daily Sun, and his family spent two days visiting with the Superintendent. Dr. E. Leslie Eames and party.

N.P.S. Visitors

Assistant Regional Director Davis on July 1 and 2nd. Park Naturalist Don Watson of Mesa Verde, and Sally Brewer of Tumacacori on July 13,18, and 24.

Archeology

Archeologist Charlie R. Steen arrived on July 16 and excavation of the small site in Canyon de Chelly was started on the 18th. Three Navajo laborers are assisting with the work. This is proving to be an interesting site, and from present indications may prove valuable in showing an almost continuous occupation of the canyon as much very early Hopi occupation is evident.

David L. De Harport arrived on July 4, to continue the ruins and site survey initiated last year under the Peabody Museum permit. Most of his work to date has been in rechecking some of the sites in de Chelly.

Soil and Moisture

The living willow spiders placed at Antelope house last Fall went thru a heavy spring run-off and had built up a large silt deposit which was replanted in June. It did not appear that if weather was normal we should lose any of them. On July 4, a cloudburst in the Lukachukais sent a large wall of water down taking out some of the spiders and took out almost all of the plantings made this year. Three more heavy run-offs have occurred and a re-deposit of silt has started.

Capulin, New Mexico

July 25, 1949

MEMORANDUM for the Regional Director
Region Three, National Park Service
Santa Fe, New Mexico

There follows the narrative report for Capulin Mountain National Monument for the month of July, 1949:

Visitors: There have been about 4,500 visitors to Capulin Mountain National Monument during the month of July, making a total of sixteen thousand eight hundred for the travel year, and four thousand five hundred for the fiscal year.

Weather: The first half of the month we had about two inches precipitation, with seven rainy days. The last half of the month has been somewhat dry and cool.

Flora and Fauna: More variety in wild flowers has been evident this year than ever before. Gooseberries, currants and choke cherries can be found in abundance, and although there is a good crop of pinon nuts, they all seem to be blighted.

Roads and Trails: Considerable work has been necessary the past month on the roads because of the heavy showers and increase in travel. However, it is now in good condition with the exception of a few badly washed places on the outside bank.

A new sign of instructions to visitors was erected on top of the volcano about the middle of the month.

Information Pamphlets: About one thousand information pamphlets have been distributed during July. Have about 13,200 now on hand.

Special Visitors: Some of the staff from the National Geographic Magazine and one of the clerks from the Washington office of the Department of Interior were welcome visitors this month.

Very respectfully,

Homer J. Farr
Ranger

NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

July 25, 1949

Memorandum

To: Regional Director, Region Three

From: Casa Grande National Monument

Subject: Monthly narrative report for July 1949

General: This has been a very hot and humid month with most of the days over 100 degrees, which certainly makes our cotton farmers happy. On the 23rd. we had a severe rain, wind and electrical storm with 1.18 inches of rain falling in less than an hour, ending an hour later with a total of 1.23. The desert was a big lake and the water was 6 to 8 inches deep in our residential area. Considerable damage was done to the local power lines and we were without electricity for almost 11 hours. The shoulders of our road washed badly. There was very little damage to the cotton in this area but west of us a hail storm strippod a lot of the fields.

Weather: The high temperature was 118 degrees with a low maximum of 91 and a minimum of 69. The humidity has made this a very uncomfortable month with only four days under 100 degrees. The total rain fall was 1.39 inches.

Visitors: July 1949 - 1,357: July 1948 - 1,112: Travel year to date 1949 - 29,804: Travel year to date 1948 - 33,266. The visitors show a gain this month of 245 over July 1948.

N.P.S. Visitors and Visitors of Note:

July 14 - Architect and Mrs. Kenneth Saunders, Region Three Office
Ranger Glen Bean, Organ Pipe Cactus National Monument
Mr. Max Hensley, who is doing some research work on the birds of Organ Pipe Cactus for his PHD
July 15 - Mr. and Mrs. Lewis T. McKenney, former Custodian of Chaco and Aztec N. M. They plan to live in Tucson.
July 24 - 28 Geography students from North Texas State College

Inspections: Architect Kenneth looked over our work done on buildings including roof maintenance. Three trips were made to the Adamsville Site and evidence of vandalism was not found this month.

Administration and Protection: The property inventory and surveys were completed and submitted. Answered 5 request for information. The stablization work done last spring on Compound B was inspected before and after the storm of the 23rd. The walls that were completed with-stood the rain in excellent condition, but to be certain of the results, will have to wait for the walls to dry out more. The walls that were left only half finished are cracking quite badly. Next years stablization work should be able to save most of this work. Literature on Casa Grande was sent to Superintendent King of Saguaro, to whom we are indebted, for the publicity given this area in a broadcast over KVOA - Tucson.

Maintenance: With-out a maintenanceman and Ranger Arnberger gone most of the month, about all we have been able to use the necessary jobs and keep the museum and administration building presentable. The rubber door seals for the refrigerators arrived and were installed. The toilet in Quarters No. 2-4 gave trouble and was repaired. The heavy rain gave us a good opportunity to check up on our roof work. A few small leaks were found in the utility area but as a whole our roof are in good condition. The bad leak in the roof of Quarters 5-5 had recently been patched so we were a little concerned about it, as the house was completely painted inside last month, but our patching held perfectly. There is quite a back log of maintenance work building up and waiting for the new maintenanceman arrival.

Personnel: Ranger Arnberger was on annual leave in the Flagstaff and Grand Canyon areas from July 1 to the 8th. He was called back from leave to report to the Washington Office to be interviewed by Assist. Sec'y. Warne as a nominee for the Department of the Interior' Management Training Program. He was on travel status from July 10 to the 16th. Took 8 hours of sick leave the 17th and on the 18th went on annual leaveagain and is now in California. Maintenanceman Barnett's annual leave ended July 10 at 5:00 p.m.

Nature Notes: The Compass Cactus on the Monument are in bloom, they are quite early this year. The bats have not made their appearance, they must have heard that we do not have a maintenanceman and decided to help us out. This has been an unusual year for weather, flora and fauna. They early cactus bloomed late and the late cactus are blooming early. No bats and very few Gambel Sparrows, both of which are usually very abundant.

A. T. Bicknell
Superintendent.

NATIONAL PARK SERVICE

Chaco Canyon NATIONAL MONUMENT

Bloomfield, New Mexico

July 28, 19 49

Memorandum

To: Regional Director, Region Three, National Park Service.

From: Superintendent, Chaco Canyon National Monument

Subject: Monthly Narrative Report

A total of 247 persons this month visited Chaco Canyon. There were 13 per cent more people than a year ago this month. They came in 68 automobiles from 20 states. All 247 visitors went through the ruins, and formed 55 parties of 68 minutes average. 216 persons stayed longer and went through the museum, with an average of 22 minutes per party with 46 parties. The ranger spent 60 hours and 20 minutes and the superintendent spent 37 hours and 15 minutes with these people.

There were an unusual number of hot days this month. The thermometer reached 99 degrees Fahrenheit on two occasions. The coolest was 47 degrees. It rained seven times for a total precipitation of 1.65 inches.

The approach roads have been wet and in bad shape a good part of the month, but graders are working today on both the north and south approach roads.

National Park Service visitors included Charlie Steen, Erik Reed, Harry Reed and Tom Onstott.

The new refrigerator arrived and was installed the next day. A 1948 Ford pickup was transfered into the area from Lake Texoma for Soil and Moisture work. A new war surplus two-way radio was transfered into Chaco from the Regional Office. A 1000 gallon fuel tank, surplus to the needs of Lake Texoma was brought in from Gallup this month.

Ranger Mathews tested and checked all fire extinguishers, and made up an excellent fire hazard inspection report.

A deputy sheriff came into the Canyon and asked the superintendent, it was his day off, to accompany him to help locate a man. The superintendent

left at 11:45 a.m. and finally returned to the Canyon at 8:30 a.m. the next morning after being stuck in the mud, etc., but the man was found. On the same night, Gordon Vivian was stuck and Ray Rixey and Tom Mathews came out after us. We all returned to the Canyon about 12:30 a.m., but the superintendent had to go again. He was not stuck that time!

During another rain, the roads washed out severely on the night of the 24th. Gordon Vivian, Ray Rixey, Tom Mathews and the superintendent were out until 11:30 p.m. making temporary repairs. It was a similar cloudburst to that which occurred two years ago, but the ruins excepted this one. We are still working on the roads.

The ton of seeds, which had been contracted for earlier, arrived in nearby towns, was hauled in, and the men are now in the process of planting. Considerable difficulty was encountered because the range grass seeds were so light. It was about like trying to get a bunch of feathers to feed down through a machine. The problem has been whipped now, and the men are going strong.

According to the radio, the final steps have been taken transferring the University of New Mexico lands within Chaco Canyon to the National Park Service, but no official word has been received. Also, the condemnation suit for the Ackerly property is underway.

The Trader is busy building his new store on the outside of the Monument.

There follows the report of Archaeologist Gordon Vivian.

Chaco Canyon National Monument
Bloomfield, New Mexico
July 26, 1949

19

MEMORANDUM for the Superintendent,
Chaco Canyon National Monument.

This is the report of Mobile Unit activities in your area during July, 1949.

There was no stabilization work in progress at the beginning of the fiscal year. We were completing the excavation of the Three C site and working on reports. We began to hire men for stabilization work on the 11th and within the past week the crew has been increased to 14 with work now in full swing at Pueblo Del Arroyo.

Some trouble is had in getting the better class of labor as we are in competition with the railroads whose pay scale is higher than ours. The greatest attraction that the railroads have for the Navajo is that they pay unemployment compensation during the winter months when work is slack. Thus by working during the summer months the men can have a meager but still year-round income. As yet we are still short a truck driver and several of our experienced masons.

The first project completed this month was repair of the exterior drainage northwest of Pueblo Bonito where runoff from the cliff comes close to the ruin. Weeds and new brush were removed from two drainage channels; silt deposits in the channels were dug out and added to the embankment between the cliff and Bonito. The heavy rain, a small cloudburst, on the night of the 24th was easily confined to the cleared drains and no damage resulted.

All of the crew are now engaged in the stabilization of the major ruin of Pueblo Del Arroyo. This is the first comprehensive work that has been done on the site and it was excavated some 30 years ago. Most of it is in deplorable condition. Work was begun on the southwest corner - the area of greatest decay. The rooms here average 2½ stories which requires extensive scaffolding and long hauls of materials. To date support work and patching have been completed in 3 rooms and 4 more are in progress. As noted above we are a little short of experienced men and we are breaking in what appears to be the Navajo zoot suit element.

Ray Rixey is devoting half his time to his Walnut Canyon report and is currently turning out excellent illustrations of the artifact material. He has the textiles on loan from Homer Hastings at Walnut and these are a great help in revising some of his plates.

Arizona Archeological Center Library

Chaco Canyon Nat'l. Mon.

ORPT

Erik Reed and Charlie Steen were overnight visitors on the 6th, coming to deliver a pickup, to inspect the 2 kivas uncovered at the Three C site and to revise the Priority list in consideration of the completed land exchange with the University of New Mexico.

During the next report period all of the crew will remain on Del Arroyo unless we are able to get a good truck driver and a few more men in which case we may begin some clean-up of the Bc 50 and 51 sites. Ray Rixey will continue to devote half his time to the Walnut report. The material to complete repair of the office has been hauled and these repairs will be accomplished some time during the month. As time is available I will work on the Three C report.

Gordon Vivian
Archeologist

Chiricahua National Monument
Dos Cabezas, Arizona

July 26, 1949.

Memorandum

For: Regional Director, Region Three

From: Superintendent, Chiricahua National Monument

Subject: Monthly Narrative Report

Weather Conditions. The rainy season has started early and violently this year. 6.02 inches of rain have fallen so far in July. This has caused several of the creeks across the approach roads to flow to the extent that they were difficult to cross. This, together with the general rainy conditions has undoubtedly slowed down travel.

General Publicity. A photograph of the Mushroom Rock, taken by Western Ways of Tucson, was sold to a syndicate and has been published in about 200 newspapers and other periodicals.

Maintenance. The gravel loader, borrowed from Organ Pipe Cactus, has been kept busy and much work has been done on road surfacing. Trail work is nearing completion and it is not anticipated that the laborer will be needed more than three or four weeks longer.

Approaches to Monument. Rains have made the dirt roads rather bad. Several of the creeks, that are ordinarily dry, have been running considerable water and visitors have frequently drowned their engines in them. This has been happening off and on all of this report period, and naturally slows down the travel.

Concessioners. There are no meal concessions at this monument. The Silver Spur Ranch ordinarily takes care of meals and lodging but has been closed for a month during a change in management. They expect to open again within the next month. Emergencies in the way of meals and lodging have been handled by the Faraway Ranch or by the watchman at the Silver Spur.

Interpretive Service. 1816 visitors were shown through the museum in 409 parties. Requests for conducted tours were nil, probably due to the rainy weather.

Increase in Travel. 2005 people visited Chiricahua this month. This was 230 less than the June travel, but an increase of 318 over July of last year. We are now 1356 ahead of this time last year which shows an increase of 18%.

ORPI

Forest Fire Protection. Fire danger has been running dormant to low all of July. Pete Windes was taken off of Sugar Loaf Lookout on July 17. As we feel there is still time for the weather to turn dry again his appointment has not been terminated but we are carrying him on annual leave and leave without pay until later in the season.

Clair V. Cooke
Clair V. Cooke,
Superintendent.

~~El Morro~~ NATIONAL MONUMENT

~~El Morro, New Mexico~~

August 2, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, El Morro

Subject: July 1949 Monthly Narrative Report

Weather: A high of 90° and a low of 46° made July of '49 unusually cool. The U.S. Weather Bureau installed their automatic rain gauge here during the month of July causing a minor disturbance. Some of the old timers are "dead set" upon having this July a very wet month, however we have had only 2.09 in. of rain. This is .05 more than the last few years average and when one can detect that difference it must be admitted that creaky joints and old corns have some value after all.

Inspections: Assistant Regional Director John Davis was here for a few hours. The time was spent justifying requests for funds and discussing physical improvements.

Approaches to area: Poor at best and the best was seldom. The roads were considered to be in better shape than during previous July. There are two bridges near Ramah that are most unsafe in wet weather but since no one has been injured no repair has been initiated. See attached snap shots.

Interpretation and visitation: There were 514 visitors this month bringing our total for this travel year to 1,919, 544 more than last year at this period. Quite a few of the visitors arrived during the rains and wanted only reassurance, two fold leaflets and to proceed as soon as possible to Highway 66.

General: The filtering material in the water filtering plant was removed and replaced with clean washed gravel and sand. The water doping tanks were cleaned, copper sulphate was placed in the pool to kill the algae. The tool storage shed was cleaned. Some work on trails was done including the routine task of wood killing. The ranger cabin roof was repaired and was made temporarily water proof.

The light plants were given a thorough cleaning and tuned up to match the high quality shingling job given the exterior of the generator house. The foundation of the generator house was sealed with adobe.

One misleading monument sign in Gallup was removed.

The flagstone walk leading to the Superintendent's residence was realigned and set with mortar joints. Several pickup loads of grama grass were transplanted to fill the bare spots caused by old trails

~~El Morro~~ NATIONAL MONUMENT

~~El Morro, New Mexico~~

~~August 2~~ 1940

Monthly Narrative Report con.

A lot of time has been consumed making the current building survey and other routine work. The photographic file was brought up to date and considerable work done on the fact file.

Visitors: Dr. Gladys Reichard of Columbia University was a house guest of the superintendents over the 4th of July weekend.
Ranger Sallie Brewer of Tumacacori was a welcome guest for two days.

Community Activities: One of the local ranchers had a house warming that was one of the best parties we have ever been privileged to attend. The house was duly warmed by over 300 guests, some of whom put on a very good rodeo, softball game and impromtu musical entertainment. Square dancing was enjoyed by many until 4:00 a.m..
The superintendent participated in the two day rodeo sponsored by the Ramah Mormons, in observance of Pioneer Day. Nothing so active as calf roping or bronch riding was undertaken by me: mine a passive role in the festivities as announcer and timekeeper. Only one friend was lost.
Mr. Ashcroft of El Morro is building a new trading post to replace the old one which is on the right of way of the proposed new highway.

John A. Aubuchon
Superintendent

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

El Morro NATIONAL MONUMENT

El Morro, New Mexico

August 2 19 49

Two bridges near Ramah, New Mexico, on the approach road to El Morro National Monument

NATIONAL PARK SERVICE
REGION THREE OFFICE

Gran Quivira National Monument
Gran Quivira, New Mexico

July 25, 1949

To : The Regional Director, Region Three.

From : Superintendent, Gran Quivira National Monument.

Subject: Monthly Narrative Report for July 1949.

General: Continuing rains during July have made local crop prospects the best since 1942. While few millionaires will be made it seems likely that most of the farmers will make a little money this year.

Weather: A total of 4" of rain fell during the report period. Rain in varying amounts fell on 19 days which to say the least is "very unusual."

Special Activities. On July 15 the superintendent attended a meeting in Mountainair at which a Hiway 10 organization was formed. Representatives for all communities from Carrizozo to Highway 66 were elected. The organization is dedicated to the idea that Hiway 10 should be paved from 66 to Carrizozo; however, it will no doubt be some little time before it is accomplished.

During the month a "Torrance County Boosters Club" was also organized for the betterment of roads, tourist travel and etc. The superintendent was elected to represent this community.

General Publicity. The Mountainair Progressive local weekly newspaper is now publishing monthly travel figures for Gran Quivira. This is in line with a certain awakening on the part of Mountainair to the fact that tourists are interested in national monuments, and that tourists are a promising source of revenue now that Highway 66 into Arizona is gaining favor.

Maintenance. A second coat of preservative was put on the residence roof. Weathered plaster was removed from around the bedroom windows and new plaster put on. The frigidaire was rewired to a separate circuit and is now working better. Low voltage during the evening hours had threatened to burn out the starting switch.

The fireplace grill built this spring has been busy most of the summer. One unforseen result is that some visitors think it is too much of an imposition to use the wood already hauled and cut and want to rustle their own to save me trouble.

RECEIVED
AUG 5 1949
NATIONAL PARK SERVICE
REGION THREE OFFICE

Approaches to the Monument. Rains this month have made the approach roads variable, and at the present time they are rough and muddy despite recent grading.

The USForest Service grader pulled the ditches and reworked the entrance road on June 28. Frequent rains have required considerable dragging; however, the drainage is now established and the gutters and culverts are functioning as they should.

Interpretive Service. 96 parties totaling 415 visitors were guided through the ruins. Average trip time 45 minutes; total time, 71½ hrs.

The new field desk was set up during the month.

Increase in Travel. In spite of 19 days with rain and resultant slick roads travel for the month showed a marked increase. Up to the beginning of the rains on the 10th travel was more than double that for the same period last year and would no doubt have held up if the roads had remained good.

	CARS	VISITORS
July 1949	128	443
July 1948	100	314
Increase	28	129
Percent Increase	28.0%	41.1%
This Travel Year	606	1854
Last Travel Year	478	1450
Increase	130	404
Percent Increase	27.2%	28.3%

Visitors. July 21 - Prairie Trek Expedition, Thoreau, New Mexico. 26 in the group. R. D. Olmstead, Leader.

Police Protection. On July 11 Billy Haynes, jail breaker, car thief and etc. who had been hunted for 3 days in the Manzanas stopped at the Gran Quivira store for supplies. Mack Wells, proprietor, recognized him from the radio descriptions and notified me. I called the State Police in Albuquerque and gave them the information. We found then that Haynes had doubled back from Claunch toward Bingham. I called this information in and the State Police were waiting for Haynes when he arrived at Bingham.

Building Fire Protection. All fire extinguishers were recharged during the month.

William L. Bowen,
Superintendent.

RECEIVED 1949

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
GREAT SAND DUNES NATIONAL MONUMENT
MOSCA, COLORADO

July 26, 1949

MEMORANDUM for the Regional Director,
Region Three.

There follows the report of activities in Great Sand Dunes National Monument for July, 1949.

WEATHER. The summer has been very short with many cloudy, cool days and a great amount of rain.

The minimum of 42 degrees was registered on July 1 and 2. The maximum of 85 degrees was reached on July 4. The high minimum was 58 degrees on June 30; and the low maximum was 70 degrees on July 5 and 9.

Very windy days numbered four, and three of these were from the northeast and brought heavy rains.

Rain fell on July 1,3,4,5,6,7,10,11,12,13,14,15,17,18,19,20,21, 22,24 and 25.

During this report period, there were 8 cloudy days; 18 partly cloudy and only 4 clear days.

The Rio Grande River is now down to normal and the Medano continues to flow along the sand dune's eastern edge with flow dependent now on amount of rain falling on Cleveland Peak and Medano Pass. People still wade or jump waves to reach dry sand.

Snow fell on Mount Blanca on July 23, and the three Zapata creeks overflowed and did a little damage to our lesser known south approach road.

TRAVEL. Four thousand eighty-two visitors in nine hundred seventy-six cars visited the Sand Dunes during this report period. Thirty-seven states were represented and also the District of Columbia and Canada. Three written requests were answered.

Two thousand five hundred fifty-five people took advantage of the picnic areas and of these two hundred fifty-seven camped over night.

INCREASE IN TRAVEL. For July, 1948, there were 784 cars and 3403 visitors. Six hundred seventy-nine more visitors are reported for July, 1949.

RECEIVED
JUL 27 1949
NATIONAL PARK SERVICE
REGION THREE OFFICE

ORPI

CONTACT. Contact with visitors was done on Sundays, lieu days and remaining week days as time and work permitted. There were 22 days of contact alone. Eight hundred ninty-nine cars were contacted with a total of three thousand seven hundred thirty-three visitors. Average contact time per car amounted to ten minutes.

Total contact time: Sowers, 86 hours; Elliott, 63 hours and 50 minutes.

The Fourth of July week-end brought in a total of eight hundred twenty-one visitors who were all contacted. There were 46 visitors who camped here during this holiday. Superintendent Sowers was on contact duty on July 4.

NEWSWORTHY VISITORS. June 26, Mr. and Mrs. Frank Cummings of Oakland, California who are good friends of Park Service. Dr. and Mrs. E.B. Renaud, retired head of the Department of Anthropology at the University of Denver. July 2, David deHarport, graduate student of Harvard, who was on his way to Canyon de Chelly National Monument.

July 4, the Prairie Trek Expedition from Missouri, with 26 boys. July 14, the Boy Scout Group from Boulder, Colorado with a group of 35.

ROADS. The State graded the approach road only once during this report period. This was on July 16, and consequently the road is rough. The ranchers continue to neglect their ditches and several sections of road were under water. Many visitors were turned back by these lakes and several hardier souls became stuck when they attempted to drive thru. Luckily the ground is dry and after a couple of days, these lakes dry up and the bottom of the road may be seen.

MONUMENT ROADS. The entrance road from the cattle-guard to headquarters is in good condition.

The Jones Construction Company of Alamosa worked on the road from Mosca Spring to the lower Mosca Creek parking and picnic area, frim June 27 to the 30. With the additional funds allotted to this project, both road and parking area were improved and made safe so that visitors do not get stuck in the sand.

As the attached photographs will show, a great amount of improvement has been made and many people have remarked on this achievement.

RANGER QUARTERS. Ranger Elliott has completed the trench from trailer to the water line. At present he is starting to level off the land and dig the trench necessary for the foundation.

CONCESSION. Mr. Graves is doing very well with his Saddle Horse Concession. Tragedy struck on July 14, when fire consumed their house trailer parked on the Wellington property. The cause of the blaze is unknown and everything was lost before help arrived at the scene.

ACTIVITIES. Usual routine activities have been carried on as well as keeping all administrative and office matters current.

Current travel has kept us busy with contact work and the great amount of cleanup needed at the two picnic areas.

At the beginning of this report period, much road work was done. Large rocks were picked up from the road bed and work started on clean up of shoulders.

Rocks were placed around the parking area in order to outline it and prevent cars from driving too far into soft ground. Todate, no cars have become stuck on either road or parking area. Rains have helped a great deal in packing down loose soil.

More road work was accomplished with the grader on our entrance road, which had gotten several washed spots from heavy rains. The road from headquarters to Mosca Spring was also bladed several times.

Linseed oil was applied to the entrance sign and signs at checking station. All old signs were repainted and new signs constructed and painted. These were posted from headquarters to the lower Mosca Creek parking area.

Four extra picnic tables which were stored at headquarters were hauled to the lower picnic area and placed there. One extra fireplace was also located there. This area is now very short of barrels for garbage containers.

Two new steps were built for the pit toilets at the lower picnic area.

Hauled supplies, propane gas, gravel and the 1,000 gallon underground gasoline tank from Alamosa to headquarters.

Greased all three pieces of automotive equipment and changed oil and gave checkup to both light plants.

The Ford-6 dump truck is back at the Heide Garage for further repairs on the rear-end, and starter. A tooth is broken off one of the spider gears and todate no parts have been located.

ORDI

Was able to check the fence on the west side of the monument by Jeep. It is in very poor condition south of Little Spring Creek. In some places you can drive under the fence, in others you drive over it. A new survey is needed to place this section of fence in a place where it will remain upright and not be affected by dune movement.

TWO-FOLD LEAFLET. The proof for the new Great Sand Dunes 2-fold leaflet was received on July 8, from the Washington Office. It was reviewed and no corrections of errors was necessary. It will be a very good leaflet with fine illustrations and will fill our demand for this much needed leaflet.

LIBRARY ACCESSION. "Stampede To Timberline", by Muriel Sibell Wolle, a book on the Ghost Towns and Mining Camps of Colorado, was received for the monument library.

PROJECTS FOR ENSUING MONTH. Continue road work as needed. Repair pipe at Morris Gulch Spring. Install the new gasoline storage tank. Remove and install the storage fuel oil tank at new location. Build the foundation for the house trailer and hook-up the water system. Continue with contact work and take care of the Shrine Ceremonial which will be held at this area on August 13.

This coming report period will be our highest travel count and our busiest time of the year.

Ted O. Sowers,
Superintendent

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Montezuma Castle National Monument
Camp Verde, Arizona

July 24, 1949

Memorandum

To: Director, Region Three

From: Superintendent, Montezuma Castle

Subject: Monthly narrative report for July 1949

General: As is to be expected this time of year, most of the month was spent in public contact work. Guided trips were conducted through the Castle hourly, with the last trip scheduled for 5:00 p.m. On several occasions such as the Fourth of July weekend and when large groups arrived the schedule was forgotten and as many trips as necessary were made to accommodate all those who wanted to climb the ladders.

Bats are causing considerable nuisance in the Castle rooms by distracting the attention of women and children and by causing an odoriferous atmosphere. Several of the rooms were sprayed thoroughly with fuel oil, but to date little success has been noted.

The accession record was brought up to date with all specimens catalogued and carded. Material has been placed in storage.

Weather: Maximum temperatures turned from warm to hot the latter part of the month when the mercury continued to reach a high from 103 to 110 daily. Although heavy rains have fallen on all sides of the monument, little moisture was recorded here. It was observed that travel figures took a noted drop on those days of extreme heat.

Travel: Travel to his monument continues to increase. 4,181 people in 970 cars came to the Castle and 1345 people in 406 cars saw the Well for an area total of 5,526 visitors and 1376 cars. The largest single day occurred July 4, when 655 people visited the Castle and Well. Second largest day was July 3, with 527 visitors.

Interpretation: There were 222 tipps made to conduct 1511 people through the Castle of which 236 were children. On July 4, 158 visitors were guided through the rooms and on July 3, 107 people climbed the ladders. These two days represent 40 tipps.

- Montezuma Castle -

Eighty of the new Montezuma Well pamphlets were received to augument the dwindling supply of this booklet.

Because of continued excessive losses incurred from the sale of Southwestern Monument Association publications, it has been necessary to eliminate the serve yourself arrangement . To buy a publication, it is now necessary for the visitor to ask an available ranger. This has definitely reduced sales but also has eliminated losses. It is hoped that after Labor Day it will be possible to again return to the original arrangement.

Visitors: On July 1, Ranger & Mrs Leslie Armberger from Casa Grande.

On July 2, Malcom Farmer, Director of the San Diego Museum of Man.

On July 5, Asst. Regional Director John M. Davis, Santa Fe Office

On July 9, Dr. Gooding who aided in the early identification of plants at the Well.

On July 9, a group of thirty students representing the International Quaker Seminar at the Verde Valley School. They were under the supervision of Mr. Walter Taylor and Mr. Fraser.

On July 14, Superintendent Hastings & family from Walnut Canyon.

On July 16, Kenny Saunders, Regional Architect, Santa Fe Office.

On July 17, a group of thirty teachers attending summer school at Flagstaff.

Maintenance & Construction: At the Well, 220 feet of pipe line and a fountain were installed to supply visitors to the museum with drinking water. This fountain has been put to good usage during this hot spell.

Also at the Well, septic tank trouble was again experienced. This trouble is caused by solids forming between the inlet and baffle plate which in turn causes stoppage in the inlet sewer line. This fall it is hoped to remove a part of the baffle plate in an effort to eliminate this aggravating trouble.

A new Servel refrigerator was installed at the Well residence. When the cabinet work was done in the kitchen of this building a space, supposedly large enough for a nine foot refrigerator, was left. This space or opening is three inches too small which means more cabinet alterations.

At the Castle, several pavement breaks were patched. Also, garbage cans which are located in conspicious places were painted.

Protection: On July 14, beehive robbers were found cutting into a large sycamore tree near the campground and about 100 feet inside the monument. They had constructed a scaffold and were in the process of sawing the tree when first noticed. Upon discovery, they were ordered to remove the scaffold and informed that bees and trees were protected in National Monuments as well as other wildlife. No serious damage was done to the tree. Perhaps the only regret is the fact that they were found before it was possible to confiscate the honey.

Research: The U. S. Department of Interior Geological Survey measured the flow of water from Montezuma Well on June 24. It was found to be flowing at a rate of 1,340,000 gallons per 24 hours which was a decrease of 160,000 gallons under last year.

Personnel: Mrs. Clancy, mother of Ranger Clancy, underwent a major operation in the Cottonwood hospital. She is now in Phoenix undergoing further treatment.

Public Health: Water samples collected from the Castle well continue to show negative for B. coli. It is beginning to appear that work done this spring in sealing the well has eliminated contamination.

JOHN O. COOK

John O. Cook,
Superintendent.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

National Monuments

August 8, 1949

Memorandum

To: Regional Director, Region Three

From: Acting Superintendent, Natural Bridges

Subject: Monthly Narrative Report - July 1949 This is correct. 347 visitors in July.

TRAVEL: A new travel record for any single month was set this month by the arrival of (427) visitors in 136 cars. This shows an increase a 64% increase over the same period last year.

INTERPRETIVE SERVICE: Total contact time amounted to 145 hours in which 368 people received information about the area. Sixty-four people visited the area during the Ranger's absence. The campground was used by 80 people for overnight stops. Two parties, five people were contacted in Blanding.

APPROACH ROADS: Both roads were passable o cept for a few hours after heavy showers.

NPS VISITORS: Jesse Nusbaum came in on the 4th. and spent a full day inspecting Moki houses in White Canyon above Sipapu Bridge.

GENERAL: Three days were spent repairing a culvert and cleaning drain ditches on the Headquarters Entrance road. One road sign was reset on Elk Ridge. Two signs were replaced in Armstrong Canyon a and two on the Kachina Bridge trail. All ladders were rewired and made safe for visitor use.

Bates E. Wilson

Bates E. Wilson
Acting Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
NAVAJO NATIONAL MONUMENT
TONALEA, ARIZONA

July 25, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Navajo National Monument

Subject: Report lnl

There follows a narrative report of activities in this area for the month of July 1949.

VISITORS

124 visitors came to this area in 41 private motor vehicles. These visitors selected their activities as follows: 76 visitors used Sandal Trail in 19 parties, 17 visitors were guided to Betatakin in 6 parties, 13 visitors horseb~~a~~cked to Keet Seel in 3 parties, 8 visitors hiked to Scaffold House. 55 visitors in 17 parties were given the vest-pocket museum treatment and 56 visitors used the campground. All visitors to the area were contacted. The general heat wave is blamed for the reduced number of visitors to Betatakin via the canyon trail.

N.P.S. VISITORS

Assistant Regional Director John M. Davis visited this area July 3, 1949. (John recommended a change in our temporary installation of the three burner Butane cooking stove(personal property). This hookup had been done hastily to provide hot coffee for Navajo labor during a rainy spell. A more permanent installation has been made in the approved manner, i.e., piped to outside trailer size tank.)

REPORTWORTHY VISITORS

Miss Irene Hoskins on June 28, formerly of USIS is in this vicinity teaching reading of Navaho language.

WEATHER

Maximum temperature 95 degrees on the 16th, minimum 51 degrees on the 8th. Total precipitation 1.35 inches. Maximum temperatures have ranged from 75 degrees to 95 degrees, Minimum from 51 to 65 degrees.

ROADS

On July 10th while we recorded only .59 inches of rain a cloudburst washed out Mile 4 laterally for 5/8 of a mile. One party of visitors (with trailer) turned back during the cloudburst because of deep running washes. 11 man days were required to make the road passable.

GEOLOGY

After careful study of the September 1947 Bulletin of the American Association of Petroleum Geologists we have decided to call our geologic structure (the Glen Canyon group) Navajo sandstone, Kayenta sandstone and Wingate sandstone as in the past. The confusion in nomenclature arises at Ft. Wingate, type locality for Wingate sandstone, rather than here at Navajo National Monument. Strangely, the type locality for Wingate sandstone is Entrada sandstone and the formation we have long called Wingate here really is Wingate. Our current nomenclature is supported by Mr. Edwin D. McKee.

LIBRARY ACCESSION

September 1947 Bulletin of American Association of Petroleum Geologists was kindly donated by the Southwestern Monuments Association.

PUBLICITY

Desert Magazine August 1948, Indian Country Trek by Morgan Monroe. Page 22. Navajo National Monument acclaimed a "must" on page 27.

MAINTENANCE

31½ man days were expended resurfacing washed out trail to Rainbow Bridge.

22 man days were required on the Betatakin entrance road. Much of this time was spent chipping rock to make wider and safer passage for the grader.

NEW CONSTRUCTION

A vertical conduit radio aerial is being constructed as time from more urgent duty permits.

July 25, 1949

NAV. Report lml Cont.

GENERAL

On July 24 we received notice of allotment for regular APM operations during the 1950 fiscal year.

We were happy to find an increase large enough to inspire a Monument Staff meeting. An open discussion was held to determine exactly how the visitors to this area could be best served, and how the taxpayers money could be spent in the best interest of the taxpayers investment here.

Among the items discussed and approved were a Gha ha' oh (let those guys who always throw in a word or two of French struggle with that one in Navaho) to shade the picnic bench at the contact station, an additional fire grate in the campground, a greasing platform for automotive vehicles (the supports for this rack will come from an abandoned hogan of Bob's nearby), and complete the rehabilation of the hogan-into-bunkhouse for Seasonal Ranger Bigman.

The discussion then, somehow, swung over to a generalization. It was brought out that this area is named Navajo, surrounded by Navajo Reservation and Navaho people and staffed by Navaho men. Hence it became obviously certain that whatever transpires here directly reflects on the Navaho people. We then resolved to serve the visiting public in a manner that will win the approval of the National Park Service and the Navaho people.

We also discussed the possibility of Ranger Bigman using the G.I. Bill of Rights to take schooling in automotive mechanics during the winter. This not with approval and applications are going forward.

Bob Black is showing such promise as an operator of the grader that we are beginning to see bright prospects for our All-Navaho Navajo National Monument.

J.W. Brewer, Jr.,
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

ORGAN PIPE CACTUS NATIONAL MONUMENT

P.O. Box 38, Ajo, Arizona

July 25, 1949.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of July, 1949.

Weather:

While temperatures have been high for the entire month, several cloudy days have given short relief periods. Low for the month was 68 degrees on the 9th, and a maximum of 109 was reached on the 14th. Two rains occurred during the month with .30 inches on the 2nd and .35 on the 23rd. Other small showers have fallen on various places in the area but the desert still is in need of our general summer rains.

MAINTENANCE:

Nearly all time this month has been spent on completing quarters in the quonset to house additional personnel.

APPROACH ROADS:

Construction of the 30-mile section on the Ajo-Tucson road was completed and the contract for oiling was let. With the completion of this before our travel season we will probably have considerable increase in traffic from the Tucson section. It is our understanding that the state will continue construction to complete the entire road through the remaining 28 miles.

TRAVEL:

While travel is very slow at this time of year, a surprising number of visitors have been coming through in spite of the hot weather. We are still getting a few campers and the trend seems to indicate we will eventually have a year round use area.

The Cactus and Succulent Society of America included Organ Pipe in their field trip after the annual convention in Phoenix. They arrived on the evening of the 7th for a lecture and showing of color slides and were given a conducted field trip on the 8th.

The office has not been kept open continually through the month due to the urgent need of all personnel on maintenance. All visitors have been given interpretive service whenever we were able to contact them.

Organ Pipe Cactus N. M.

RESEARCH & OBSERVATION

Since our reptile research is carried on at night we were able to continue this project. Three new species were added to the monument records this month, with identifi[illegible] of the following species:

Desert Boa (Lichanura roseofusca gracia)
Sonoran Coral Snake (Micruroides euryxanthus)
Banded Sand Snake(Chilomeniscus cinctus)

One night during snake patrol a half grown mountain lion was seen crossing the road near the cattle guard.

ACCIDENTS:

Our highway again took its toll July 23 when a car driven by Joe Laborin went out of control 1.3 miles south of headquarters. Mr. Laborin and his wife were both killed instantly and two other passengers were injured. The cause of the accident is not known exactly, however, it is reported that this party was intoxicated when crossing the Border.

PERSONNEL:

Grover E. Steele was assigned to Organ Pipe July 1st as permanent ranger, by transfer from Lake Texoma. He reported for duty July 20th and is a welcome addition to the Organ Pipe staff.

William R. Supernaugh,
Superintendent

SAGUARO NATIONAL MONUMENT
Tucson, Arizona

July 25, 1949

MEMORANDUM for the Regional Director,
Region Three.

There follows the monthly report of activities at Saguaro National Monument for the month of July, 1949.

General.

The past month, with the exception of about a week, has been relatively cool. The high recorded at Mica Mountain was 75 degrees while the high in Tucson was 107 degrees on July 14. Thunder showers over the Rincons dropped a total of 4.67 inches of rain and although many lightning strikes were observed, only two small fires occurred on the 2nd and 3rd causing minor damage.

Considerable damage was sustained by the Madrona-Manning Camp trail as a result of the heavy showers on July 22.

Travel during July has been above expectations and it is thought that possibly the favorable weather was the contributing factor. Travel for this month is well above the same period last year.

Special Activities.

The superintendent made two trips to the forested area inspecting presuppression, suppression, and maintenance work.

Publicity.

The Superintendent was interviewed over station KVOA, Tucson, at 6:15 p.m. July 15, on general information concerning Chiricahua, Tumacacori, Organ Pipe, Saguaro, and Casa Grande. Power failure in the middle of the program necessitated a re-broadcast at 6:45 p.m..

Maintenance.

All trails were cleared of logs during the month. The Douglas trail from Cow Head Saddle to Douglas Camp was thoroughly brushed out.

RECEIVED
JUL 27 1949
NATIONAL PARK SERVICE
REGION THREE OFFICE

At present the crews are cleaning out and widening in places, the loop patrol trail.

One member of the trail crew will be established at Grass Shack July 29 to facilitate trail repairs on the Madrona-Manning Camp trail.

The motor patrol was taken into town on the 15th for repairs.

The interior trim of the office was re-painted during the month as well as a touch-up of some of the signs.

Approaches to Park Area.

The Broadway approach was graded during the month and is in good condition.

The survey party from the Pima County Engineer Office has completed the survey of the proposed new approach road via the Old Spanish Trail.

Cooperating Government Agencies.

Craig Bryan, pathologist, Bureau of Plant Industry, visited the area to observe bacterial action on the Saguaros and to inoculate several Prickly Pear (Opuntia engelmanni) with a fungus growth he had previously obtained from other specimens of this genus within the area. This was more or less an experiment to see if this fungus could be transferred by inserting infected sections into healthy plants.

Donations and Accessions.

Approximately eleven tons of alfalfa hay, and one ton of rolled oats, was received on July 11.

A model 350AT Jefferson-Travis radio was received from Regional Office on July 12 and will be put into operation as soon as the proper antenna can be erected.

Marvin "Pop" Frost donated another fine panoramic view of the cactus forest to the monument. This particular picture has been chosen for exhibition at five photographic shows.

Interpretive Service.

A total of 421 persons in 148 parties were given interpretive

service at headquarters. This amounted to 34 hours for an average of 14 minutes per party.

With the addition of another ranger the interpretive program will be improved due to the presence of a man on duty at the headquarters most of the time. The necessity to close the headquarters, to facilitate other duties, did not allow much lee-way for public contact.

Research and Observation.

A considerable number of Band-Tailed pigeons were observed in the mountainous region during the past month.

The night of July 17 a rather late Night-Blooming Cereus put in its appearance in the arboretum. Several photographs were made of this blossom and then, well after midnight, Ranger Benson clipped this blossom and took it home for further study. The blossom, with a long stem, was placed in a glass of water in the refrigerator to see how long the flower could retain its petals. The flower remained in perfect condition for three days and then the lower petals began to wilt and turn yellow.

Gambles quail appear to be on an increase and several coveys have been observed near the headquarters.

The Mexican Crested Fly-Catcher (Myiarchus tyrannulus nelsoni) have been rather numerous around the headquarters building.

A large Mexican Mule Deer was observed in the cactus forest on July 6.

Increase or Decrease in Travel.

A total of 912 people visited Saguaro during the month. This is a decrease of 27% as compared to last month and an increase of 395 visitors over the corresponding month a year ago.

Visitors.

Barry Goldwater, well known photographer, Phoenix, Arizona.

William Saufly, Phoenix banker, accompanied Mr. Goldwater.

D. Wayne Thompson, Assistant to Dr. Marshall, Desert Botanical Gardens, Tempe, Arizona.

Henry E. Childs, Ornithologist, Rumford, Rhode Island.

Craig Bryan, Pathologist, Bureau of Plant Industry, Tucson, Arizona.

Ranger G. Earl Steel and family, enroute to Organ Pipe Cactus from Lake Texoma Recreational Area.

Ranger Service.

Ranger Wilde devoted most of his time to supervision of fire detection organization and procurement of supplies.

Ranger Benson has spent most of his time at headquarters familiarizing himself with administrative details and conducting interpretive programs. One trip was made to the forested area to become acquainted with this portion of the monument.

Forest Fire Protection.

Periodic patrols will now be necessary along the North boundary after lightning storms due to the abandonment of Mt. Bigelow lookout on July 17.

Deer Head Springs fire on July 2 was caused by lightning, suppressed and report submitted.

Spud Rock #1 fire on July 3 was caused by lightning, suppressed and report submitted.

All the fire tools at Manning Camp have been re-conditioned and re-painted during the past month.

We anticipate installation of the new steel racks at Manning Camp for the storage of fire tools within a week or ten days.

Communication.

The new metallic circuit telephone line to the headquarters area was completed by June 28 but as yet has not been connected. Delay caused by the necessity of raising the cross-arms on power poles for installation to headquarters has hindered operations.

Roads and Trails.

Considerable damage to Madrona-Manning Camp trail, above and

below Grass Shack, due to tremendous volume of water filling water bars and washing out trends. Repairs will be made in August. Additional repairs will also be necessary from Cow Head Saddle to its junction with Madrona-Manning Camp trail.

The loop road through the cactus forest is in fair condition and with the return of the motor grader will be put in better shape.

Personnel.

Ranger Forrest M. Benson, Jr., E.O.D. July 1, via transfer from Lake Texoma Recreational Area. Ranger Benson was lucky in obtaining quarters approximately 4 miles from monument headquarters.

Miscellaneous.

Motor vehicle reports submitted on July 6.

A lightning strike on July 1, to close to the headquarters building for comfort, managed to jar the building enough to turn on one light switch and burn out one receptacle.

Another strike on July 23, burned out the telephone lead-in, and exploding the fuse.

Samuel A. King
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

July 25 19 49

Memorandum

To: The Regional Director, Region Three

From: Ranger in Charge, Sunset Crater

Subject: Monthly Interpretive Report, July 1949.

Weather: Again this month the rainfall was abundant. Most of it fell during the afternoon of July 22nd, with light showers scattered throughout the month. Several nearby farmers reported a considerable amount of water damage to their crops. The temperatures remained low for this time of the year.

Roads: Washboards on the entrance road are plentiful due to the high increase in travel. With the arrival of Maintenanceman Joe Bean and his equipment this situation will be corrected in the near future. On the afternoon of the 22nd we had one small washout near Lenox Crater. This was taken care of in a matter of minutes. The Wupatki approach remains fair at this end.

Travel: Visitors, visitors, and more visitors. That is the situation here. We chalked up 6,727 for the month, an increase of 37% over July 1948. The increase can be accounted for by the increased publicity, the increase in popularity of the Flagstaff Pow-Wow and the cool weather we have had in the area. On July 3rd and 4th alone, more than 900 visitors were in the area. For the month a total of 1840 visitors received guide service with a total of 264 talks.

NPS Visitors: Ranger and Mrs. McClanahan from Petrified Forest were in to visit the area on the 17th en route to the Grand Canyon.

Publicity: The Flagstaff radio station, KVRZ, is broadcasting brief accounts of the monument several times a week on their tourist hour. This broadcast is to be carried throughout the

year.

Interpretation: Among the groups visiting Sunset Crater during the month were 20 teachers travelling on a tour sponsored by the National Education Association, the geology classes of Princeton University and Weber College, Utah. The new interpretive leaflet has been shipped but not received to date.

Research and Observation: Further investigation of the two new lava caves discovered last month was made. One turned out to be small whereas in the other the end is still unknown. The white powder mentioned also last month, which is abundant in the smaller cave, has been identified through the efforts of Dr. L. C. Wynn as being Thenardite, a sodium sulphate.

Equipment: The old Army Dodge kept up its reputation by requiring several minor repairs. Incidentally, this piece of surplus equipment cost the Service 14¢ a mile to operate during the 1949 Fiscal Year.

Road Maintenance: The maintenance of the entrance road got under way on the 15th of the month. Since then the time has been spent cleaning ditches and filling and draining the approach just off of Highway 89 to eliminate the wet weather lake. The Arizona State Highway Department, working nearby, did most of the heavy work with their large equipment; thus saving us both time and money.

Maintenance: Maintenance in the area has been devoted almost entirely to picking up trash and cleaning the restrooms, a never ending job.

(Signed)

Owen L. Reynolds
Ranger in Charge

Through the Superintendent, Wupatki.

In Triplicate.

Sunset Crater
"gn"

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Tonto National Monument
Roosevelt, Arizona

July 27, 1949

Memorandum

To: The Regional Director, Region Three.

From: Superintendent, Tonto National Monument.

Subject: Monthly Narrative Report.

Following is a report of activities at Tonto National Monument for July 1949.

Weather. Many hot days and nights, with temperatures from 86° to 105. Also several cool days due to two good rains and considerable cloudy weather. 2.5 inches rain on July 11, .4 inches July 22.

Approaches to Monument. Fairly good. The rain of July 11 washed the entrance road badly, though it remained passable.

Interpretive Service. Museum open all month. Archaeologist Pierson returned from leave July 9. One day in June and one in July when no guide service available to the cliff dwellings, before Pierson returned.

Travel. July 1947, 362 visitors; 1948, 567; and with 975 this year we again set a record for the month. This is an increase of 71% over July last year. Many of these are out-of-state visitors. Perhaps Southern Arizona will develop into a summer resort area. I hope the rate of increase does not continue unless we get a larger parking area, or next winter will be rough.

Visitors. Ranger & Mrs. Lon Ambsegger from Casa Grande. Mr. & Mrs. Claude Brooks & family of Globe. Mr. Brooks is Manager of the Globe Chamber of Commerce. Mr. & Mrs. Fred Young of La Tuna, Texas visited the Piersons a few days.

Roads & Trails. Some trail work was done to clear the drainage and repair damage by the heavy rains. State Grader Operator Ab. Sanders bladed our washed-out road and helped it greatly, on July 15.

RECEIVED

General. Considerable time was spent on the Building Reports. Archaeologist Pierson completed an information treatise on the Salado Indians, for reference and information for incoming personnel. He also worked out an effective display case of poisonous and terrifying desert dwellers, which has interested our visitors considerably.

Seats and floors of our pioneer rest rooms have been repainted, and a wooden sink built to match the other outdoor facilities. Now we have an open-air washroom. The roof of the trailer quarters was patched after leaking during the heavy rain.

"No smoking while traveling" signs were taken down since the rains lessened the fire danger.

Museum door and window frames and sills have been painted. We hope to paint the ceiling next month.

Charles C. Chary
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Tumacacori National Monument
Tumacacori, Arizona

July 25, 1949

Memorandum:

To: Regional Director, Region Three

From: Superintendent

Subject: Superintendent's Monthly Narrative Report for July, 1949

Weather Conditions: Rains began on the first day of July, which is earlier than usual, and continued in light showers for several days, then broke into a dry spell which threatened to be a minor drouth. This condition broke in the latter third of the month, to bring the total precipitation to 3.28, which is about average for July. Minimum temperature occurred on June 28, with a reading of 53; maximum occurred on July 14, with 105. The Santa Cruz River (we say "river" out of respect for the dear dead past) was in flood for the first time this summer on the night of July 8.

Increase or Decrease in Travel: Visitors totalled 1,567, breaking the previous July record high of 1,180 for 1948 by over 24%. This makes the third straight record-breaking month this year.

Interpretive Service: 647 persons went on 188 guided trips through the mission church and grounds, receiving an average of 35.03 minutes per trip. 1,471 persons received combined Information and Interpretation Service, and 1,441 saw the museum and patio garden.

With surprise we note that, despite highest July travel on record, fewer persons went on guided trips than during the same month last year, although average trip time was a little longer. The same trip attendance trend occurred last month. If your naturalist staff finds the same trend in other areas, it will mean tourists are becoming more frantic to cover extra auto miles per day, hence getting less understanding of areas they glance at rather than see.

Visitors: 7-13 Rancho del Rio Summer Camp, Tucson, brought the largest single group of the month, 38 persons. They visited the museum and garden, but the man in charge would not let them take the time necessary to visit the mission.

Inspections: 7 - 13 - Architect Kenneth Saunders was in, principally to confer with the contractor who is to install a new furnace in the museum building shortly.

Publicity: "Notoriety" would be a better word, in this case. The July issue of "Fate" magazine has an article on page 84 entitled Tumacacori Treasure Legend. This article has a thoroughly garbled historical account of Tumacacori, with directions to the gullible on how to find the $25 millions in treasure, located three miles south of the "old mission ruins" nine miles west of the present Tumacacori. During the month one man from Brooklyn was in to seek that treasure. He was distressed that government experts at Tumacacori knew nothing of existence of an older Tumacacori mission nine miles west of here, and went on foot to personally look for it and the treasure. It is fortunate he did not get lost in the rugged hills and canyons of that area.

Tumacacori Treasure Hunters: A group of men calling themselves the "Santa Cruz Exploration Company", unincorporated, (referred to in last month's report) convinced that $16 million in Spanish gold should be hidden somewhere in the mission grounds, retained a local attorney, Frank J. Barry, to navigate them through the paper procedure necessary to make formal application for permission to dig for treasure here. The application was received in due course and transmitted to the Regional Director. The permit was not granted.

Cooperating Government Agencies: During the month District Soil Conservationist Grant Anderson visited and examined the area, as result of a request we had made to him for a supply of black grama seeds with which to compete against objectionable weed growth which occurs here every summer.

Maintenance: It has been possible to keep current only with urgent maintenance needs, mostly of a routine nature. With the advent of the rainy season a great deal of extra janitor work has been required. A large mesquite in the patio garden split in a fork and required an extensive amputation, because of lack of suitable opposing limbs for guying. Considerable minor pruning has been done. Chordane is being used to cope with the omnipresent ants. The rain guage shelter has been painted. Moss has been siphoned out of the goldfish pond. Rain waters have been controlled by ditching, while the rain was falling, to make maximum possible use of such water for plantings in various parts of the area.

Personnel: Ranger Brewer entered on annual leave July 20, for the balance of the month. W.A.E. Guide Al Whiting worked 25 hours during the month.

Equipment: A new Servel Electrolux refrigerator was received, to replace the very old electric one in Residence No. 1. A new desk lamp was received, so that the superintendent can now have the dubious pleasure of working on government red tape even at night without excessive eye strain.

Nature Observations: Routine nature observations are kept posted to the 5 x 8 cards in our observation file. From time to time something odd emerges. On July 8 we made our first discovery (our youngest son found it) of a Road-runner's nest. It is located in a crotch of a Tamarisk tree on the trail from the museum to the mission, and is the conventional sloppy mixture of sticks which look as though they should fly apart. The nest is about 12 feet above ground, and many visitors have had the pleasure of seeing it pointed out, and of seeing the Road-runner prowling about the grounds when off the nest.

Museum and Education: Time for research is very hard to find. However, one day during the month was spent by Ranger Brewer at the state university gaining additional information about mines and mining, so that we can alter inaccurate mining label texts in the museum as soon as possible.

General: Work was finished on the first Individual Building Report forms for this area. This job required considerable time.

Considerable spare time was used in going through the Ruins Stabilization Manual, to abstract knowledge and gain material for a lecture to be presented here on the evening of July 31 to the Pimeria Alta Historical Society. We have invited the Society to a special meeting here after hours that evening, for a mission tour and illustrated talk afterward.

Business men of the county report tourist dollars are getting increasingly hard to capture. A great many people are on the road, but they are watching their pennies scrupulously. We have seen several parties lately drive into the parking area here, examine our recently revised sign which advises that children 12 years of age and above must pay the adult fee for the guide trip through the mission church, and turn away, definitely because of the cost involved. During summer season, when so many children are travelling with parents in the low income group, the recent lowering of age for non fee exempt children works a hardship on many families.

Earl Jackson,
Superintendent.

TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA.

JULY 26, 1949.

MEMORANDUM for the Regional Director, Region Three.

Following is the monthly narrative report for Tuzigoot National Monument for July, 1949.

Visitors this month-2579 Travel year to date-13,478

Travel Data. Travel this month broke all records for any month of any year since the monument was established. 2579 this month as compared with 1814 for July of 1948. An increase of 42%. With the exception, of the two severe winter months, each month of the current travel year continues to break all previous corresponding highs. The 2579 visitors arrived in 766 cars.

Weather. With the exception of five or six days moderately cool weather, caused by frequent rains, prevailed throughout the month. Ideal for travelers.

Guide and Contact Service. Museum, ruins and orientation contacts totaled 5112 for the month. 2818 people in 708 parties were shown through and given an orientation lecture in the museum, and 2279 people in 694 parties made the trip through the ruins. Average time spent by each party in the museum and ruins-20 mins.

Personnel Time. Museum: 244 hours, 15 minutes. Ruins: Ruins: 232 hours, 10 minutes. Total time for Bright; 264 hours, 10 minutes. For Richert; 212 hrs, 15 mins

N.P.S. Visitors. John Davis on July 5. Ranger Glen Bean, Organ Pipe Cactus National Monument, on July 14. Kenneth Saunders on July 16, and the combined staffs from Montezuma Castle and the Well. These visits are thoroughly appreciated. We only wish they would happen more often.

Odd Notes. Because the museum is normally 10 degrees cooler than the outside, many visitors think the tailings pond from the Smelter, is a bed of ice, which it isn't - causing the building to be ice-conditioned, which it doesn't - Result most are resolved to be comfortable. Psychology!

Maintenance. Interpretive contacts, with the 766 parties visiting the monument, from early morning to late at night, left little time for maintenance work. Only the most urgent has been attended to. Many weeds have been removed from the rooms in the ruins and the immediate surrounding area. Signs within the monument area have been relettered. A detailed report on the condition of the ruins was prepared by Archeologist Richert and submitted to Region Three Office. All drainage ditches were cleaned out. As soon as the present heavy travel season lets up we propose to completely redecorate the museum.

Edward W. Wright
Superintendent.

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Walnut Canyon National Monument
Flagstaff, Arizona

July 25, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Walnut Canyon National Monument

Subject: Monthly Narrative Report, July, 1949

Visitors this month, 4863; travel year to date, 14503.

General This has been a busy month with 532 more visitors than the 3731 counted last July. Since July 8 we have been scheduling 12 hours of contact service each day as requested by Assistant Regional Director John M. Davis. This leaves time for only the most urgent routine maintenance, office administration, and ruins patrol.

The annual all-Indian Pow-wow at Flagstaff on July 2, 3, and 4 brought record-breaking crowds with all reserved seats sold out in advance of each performance. A good many Pow-wow visitors, both Indian and white, came to Walnut Canyon.

Administration A count of visitor arrival per hour was made at Mr. Davis' request. This was conducted from July 8 through 23. It was found that the greatest number of visitors come between 5:00 and 5:00 P.M. while most come between 8:00 and 6:00 P.M. with a few before and after these hours. To keep the museum lighted, the light plant is now operated from 10:00 A.M. to 7:00 P.M. each day. A study was made of gasoline consumption and it was found that we get an average of 1.49 hours per gallon of gas.

A Department of the Interior Century of Conservation poster was received and placed on display at our visitor register stand.

The annual meeting of the Eldon Pipe Line and Water Users Association was attended by the Superintendent and a separate report submitted.

A new Correspondence and Style Handbook was received and its instructions are being placed in effect.

Some difficulty has been experienced with campers along our entrance road. One party neglected a fire which luckily did not spread.

Weather By the end of the first week in July we had received 13.28 inches of rainfall for the calendar year which is exactly the average annual rainfall. All vegetation is looking good with numerous species of plants in bloom. Some time has been spent in controlling weeds and luxuriant plant growth along the visitor trail. Red and yellow prickley pear blossoms have been conspicuous along the visitor trail and in the canyon a few ripe currants are found.

Inspections On July 6 Assistant Regional Director Davis spent all day on the area, and made numerous suggestions for improvement. He made the trip around our visitor trail, inspected quarters, and checked on general administration.

Regional Forester Carlson checked fire prevention needs and equipment on July 9.

Use of Monument by The Public A total of 1187 parties including 4263 visitors came to Walnut Canyon. This is an increase of 14.2 per cent over last July. 3825 visitors were contacted and an estimated 3198 made the trip into the canyon. 2517 saw the museum. There were 65 picnic parties including 428 people.

On July 10 a group of 70 Masons and Eastern Star (colored) and their families from Flagstaff picnicked here and several took the ruins trip.

On July 14 a group of 19 teachers in a party organized by the National Education Association visited the monument.

Several groups of visitors have come from the Bible Conference Grounds near Flagstaff.

Fire Protection On June 18th gallon paint buckets marked "Extinguish Fires With Water" were placed at each of the five cooking grates on our picnic area. This was done to discourage visitors from using cinders to extinguish their fires and is proving quite successful as long as water is kept in the buckets.

Maintenance Temporary repairs were made to the roof of the old mess hall building which serves as a shop.

A broken flagstone in steps leading to the museum was replaced.

Application of two coats of a varnish-like floor hardener to the office floor was completed.

Natural Phenomena On July 3 swarms of winged termites were observed around the quarters and museum building. At the quarters they came up through a crack in the flagstone walk and at the museum from around the base of some bushes and weeds. Specimens were collected for identification and study.

Supplies and Equipment A new Barco gasoline driven jack-hammer was received June 27.

Donations Capt. V. E. Lake (Retd.) from Long Beach, California donated a small collection of artifacts obtained near Indian Wells, Arizona about 40 miles north of Holbrook.

Roads and Trails Our cinder hauling project was concluded July 8 with a total of 196 dump truck loads hauled and spread on our entrance and utility roads. The loader and other equipment was moved to Sunset Crater on July 11 and 12.

Signs Our "Road Closed", "Men", "Women" and "Cat and Dog" signs have been re-habilitated and new "Water" and "No Camping" signs made.

Flora The 142 identified plant specimens in our herbarium have been prepared for shipment to the National Museum for re-checking. Plant collecting is progressing as we have the opportunity with 29 new specimens collected.

Interpretation A study has been made of existing and needed ruins trail markers and various revisions are planned. Efforts are being made to secure material on the local ethnobotany.

Our supply of 2-fold leaflets was exhausted July 24 and we are reduced to using some mimeographed literature that was on hand.

National Park Service Visitors July 2, Train Tippets, Ranger Naturalist and family from Zion. July 9, Mr. and Mrs. Carl Lenhart on their way to a new assignment at Grand Canyon.

Newsworthy Visitors Barry Goldwater, well-known photographer and business-man and his party were here July 19.

As this is written, artist Bill Schemmil from Tucson is conducting an art class on the museum porch with the view of the San Francisco Peaks the principal point of interest.

Southwestern Monument Association Sales The sale of books, post cards, etc. for the month totaled $201.80. Of this amount $157.05 was collected with a loss of $14.75 or 7.5 per cent on Self-Service sales. Packs of 10 Black and white views of Walnut Canyon were placed on sale June 29 and were sold out July 14. Packs of 10 colored views of Grand Canyon or points of interest in Arizona were placed on sale June 29 and were gone July 20.

The SWMA business reply card dispenser was put in use July 16.

In our publications display case a copy of "Arizona's National Monuments" was kept open to the article "A Monument to Vandalism" the article on this monument. This was removed from the case as directed by Mr. Davis.

Homer F. Hastings,
Superintendent.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
White Sands

Report No. 1m1

Box 251, Alamogordo, New Mexico.

July 21, 1949.

MEMORANDUM for the Regional Director, Region Three.

JULY TRAVEL, 1949	TRAVEL YEAR TO DATE
Visitors, 25,136 Cars, 6,491	Visitors, 107,692 Cars, 25,462

GENERAL: Past record-breaking months have all been small stuff compared with our July record. The 25,136 figure for July makes it the largest visitor month in the history of the monument. This is equally true of the 6,491 figure for cars. These travel figures exceed last July (also a record-breaking month) by over 5,000 people, and our travel year to date exceeds last year's record by 25,090 people.

An additional Temporary Ranger will enable us to carry this extra load, but we still are unable to attend to many odds and ends along maintenance lines.

Ranger Chittum made a couple of trips to El Paso for repair materials, and enroute secured the loan of a Caterpillar No. 6 with Dozer from the Proving Grounds. The Dozer was delivered yesterday for a 2-week loan. The weather has been hot and sultry. Spotty rains have helped the vicinity in general, but our clay roads have received very little moisture.

PUBLICITY: The fact that we have received plenty of publicity is evidenced by the more than 8,000 people who visited our area on the 4th of July. The Press throughout this general area carried notices of this affair. Dozens of people expressed their appreciation of the fireworks, and stated their plan to encourage visitation for next year. Several local citizens are working on the possibility of enlarging this event as time goes by, and the group hopes to put on a program to attract twenty to twenty-five thousand. We handled 8,000 as easily, if not easier, than we did 5,000 the previous year, so perhaps we can handle 20,000 with little or no trouble at all.

COMPLAINTS: No written complaints were received in this office on any phase of our unit. We have received several suggestions, not in the nature of complaints, but in the interest of cooperation: Dogs not ~~to be~~ kept on leash, odor from comfort stations in the sands area, etc.

ROADS & TRAILS: Hot and dry weather in our immediate section has made the roads a little rough and dusty. Minor road changes, we feel, have helped our circulation, and the borrowing of a bull dozer from the White Sands Proving Grounds will enable us to catch up on some of the points working into the road bed.

CONCESSION: The White Sands Service Company is forging ahead again after a slight recession last month. This increase is in spite of reduced prices on several items.

RANGER SERVICE: All the Rangers have been on full duty status in handling our crowds. George Hall has been added to the Ranger Force for the months of July and August.

SPECIAL ACTIVITIES: Covered by a special report was the celebration on the 4th of July. This is the second time that a fireworks display has been held. Over 8,000 visitors in over 1,500 cars crowded in for the festivities. The two days preceding the 4th averaged a thousand visitors each.

COOPERATIVE AGENCIES: Mention should be made of the excellent cooperation received from the Alamogordo Police Department, the Alamogordo Fire Department, New Mexico State Police, and the Holloman Air Force Base, for their help on the 4th. Their efforts assisted materially and are sincerely appreciated.

Johnmil Faris,
Superintendent.

JUL 25 1949

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

July 25 19..49

Memorandum

To: The Regional Director, Region Three

From: Superintendent, Wupatki

Subject: Monthly Narrative Report, July 1949.

Weather: So far this month there has been a total of 2.35 inches of precipitation with the maximum for any twenty-four hour period being .88 on July 11th. Precipitation occurred on 15 days and there were only four days with temperatures exceeding 100°. These figures compare with a total precipitation of .66 for last month and 1.61 for July of last year, during which there were nine days with temperatures over 100°. The countryside is quite green as we have already received 5.68 inches of precipitation this calendar year. It is noted that precipitation in Flagstaff is about 25% above the normal quota to date.

Roads: Approach roads are in reasonably good condition although no maintenance work has been performed in this area this month. It is planned to make considerable improvement of the washboard conditions during the coming month and thus relieve ourselves of many visitor complaints.

It is noted that the Board of Supervisors, Coconino County, have petitioned the State to designate the Shultz Pass Road as Highway 89 and thus have the junction within the city of Flagstaff. If this was done it would affect some of our existing roads at Sunset, but it is considered unlikely that the request will be granted.

Travel: Again this month all previous travel records were broken. There was a total of 1217 visitors of whom 804 registered at Wupatki and 413 at the Citadel, representing an increase of 11% over last month and 40% over last year. The fact that the same

56 + 40

RECEIVED
JUL 25 1949
NATIONAL PARK SERVICE
REGION THREE OFFICE

relative increases are shown at Sunset Crater indicates a general upswing in travel on the highways. We had visitors from widely separated points including Alaska, Austria, Canada, Mexico and Switzerland. A total of 813 individuals received guide service at Wupatki Ruin, 90 hours being expended on this phase of activity. It is most apparent that our travel varies inversely with the temperature during the hot season of the year.

Special Activities: A field check was made of the proposed natural gas line mentioned in last months report and full information furnished your office as to how it will affect this area. We also received a visit from Mr. Wiley of the El Paso Natural Gas Company who wanted to obtain information on just how the construction of the line would affect us. Newspaper publicity recently indicated that the FPC had denied the request for construction of this line unless additional gas resources could be proven. Mr. Wiley felt confident that they could show resources to the satisfaction of the FPC.

Status of Private Lands: The option obtained for the purchase of the Heiser property by the United States has been approved by the Director and the basic legal papers have been submitted for examination.

Spring Flow: Due to precipitation this year both Wupatki and Heiser springs are producing about four times as much water as for the same period last year. Measurements are: Heiser - 4114 g.p.d.; Wupatki - 664 g. p. d.

Personnel: Maintenancoman Bean returned from Walnut Canyon and moved equipment to Sunset Crater. Mr. Bean has just received competitive status.

Visitors: NPS visitors included Assistant Regional Director Davis on July 2nd; former Temporary Naturalist W. H. Behle, who was stationed at Grand Canyon and is now teaching at the University of Utah; Fire Guard and Mrs. Paul Spangle and Temporary Ranger Naturalist and Mrs. Zorro Bradley of Grand Canyon National Park.

Other visitors included Mr. Guy D. Haselton, professional photographer from Hollywood; Mr. Hamilton Warren and five students from the Verde Valley School; Photographer Emil Muench and Miss Laughlin of the Public Health Service who will make monthly trips to tend the Wupatki Basin Navahos. Dr. L. F. Wyman and Flora Bailey spent two days in the area furthering the study started last summer of Navaho knowlege of and attitude towards insects.

Equipment: The leader operated only a short time after returning from Walnut Canyon before one of the rear tires blew out. The problem of replacing these tires with one's more suitable for our type of use has been referred to your office. Otherwise all equipment is in good condition and is concentrated on the Sunset end of the road.

Maintenance: The cut out letter signs were repainted this month as we were experiencing difficulty with the paint peeling on the letters. This seems to be a technical difficulty involving the type of paints used and we have received an offer from a visiting Pabco representative to test what they consider to be the most durable outdoor enamel now made. We have confirmed our previous observation that one man can, in one eight hour day, ~~xxx~~ stain and repaint twelve signs along 22 miles of road. A type of Scotchlite new to us was received from Mr. Geiger of the Long Island State Park Commission and will be used in some of our signs.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" Are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each colvan in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (Library, Contact Station, Exhibit Rooms, Study Collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended Interpretive Stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the Superintendent or Custodian of the area in which the report originates. Cooperating Superintendents also should be provided with a copy. Due in the Regional Director's office not later than the 6th of the month following that covered by the report.

TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

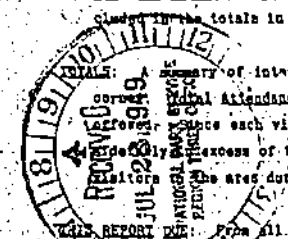
TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.). Count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM



COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included in this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors in the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

NAME Irving McNeil, Jr.

TITLE Superintendant

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.
~~Much rain and approach roads generally in bad shape.~~

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR JUNIOR NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED ON TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT EXCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS ENQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKINGS AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of [illegible] in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks given, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

NAME JOHN O. COOK

TITLE Superintendent.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Call due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel or [illegible] the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each colum in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m2) and 9 (Report 9m1).

NAME William [illegible] Supernaugh
TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME Owen L. Reynolds
TITLE Ranger in Charge

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each colum in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 6m3) and 9 (Report 9m3).

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF ITEMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Motel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data to be in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT IS: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF ITEMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Annual count of persons using the station (Library, Contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing literature rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

ITEM 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

ITEM 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

ITEM 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. TOTAL ATTENDANCE shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

DISTRIBUTION: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 3 (Report 9a3) and 9 (Report 9a5).

September 13, 1949

Memorandum

To: Regional Director, Region Three

From: Naturalist

Subject: Narrative report for naturalist work in the Southwestern National Monuments for August 1949.

Naturalist Dale S. King was in the office the whole month while Archeologist Charlie R. Steen spent the period at Canyon de Chelly.

Interpretive Administration.

An unusual number of informational requests were answered.

Considerable editing occupied most of the month. Included were the Bandelier and Wupatki 2-fold leaflets and trail booklets for Gran Quivira and Saguaro.

Publications on hand and needed were compiled for all areas.

The Superintendent of Tumacacori recommended that a new Spanish 2-fold leaflet be issued and this recommendation was forwarded to the Director.

Suggestions were made to the Montezuma Castle staff concerning further proposed illustrations for the government sales booklet.

Progress and Exhibit Plans and Projects.

Correspondence was had with the Superintendent, Wupatki, concerning proposed nature trails at Wupatki and Sunset Crater. Several library references were furnished to the field including ones on ethnobotany to Walnut Canyon. Another attempt was made to obtain the use of a Hoover label press.

Accessions.

The Superintendent, Aztec Ruins, delivered to the office a peculiar collection of artifacts loaned to his museum. The only known provenience is that they were found near or on Black Mesa, 50 years ago. The material looks Hopi and consists of a non-decorated pot with basket cover, grass anklets, husk skirt and painted gourds. Because of its uncertain origin, the collection probably will not be retained in the National Park Service.

Research and Observations

Proof continues to be received from the printer on the Kalchihu report. It comes in driblets and one week-end was spent reading proof.

Steen spent the entire month excavating Tse-ta's Ruin in Canyon de Chelly. He finished the PIII house while excavating the PII site and at the end of the month was going down to find the floor of a large circular room which may be either PI or Pueblo.

During the last 10 days, he began to find burials averaging about one a day. So far these have been either PIII or PIX. Three double burials have turned up (1) a dog bitch and pup in a PII far pit, (2) a normal burial complete with pottery offerings and (3) double burial, two twisted persons face to face without offerings. No wood or charcoal turned up in the upper levels but some is appearing at lower depths. Superintendent Guillet and Ranger Morris are helping with pottery repair and Mrs. Steen is washing and cataloguing, so overhead work is about current.

Loan Library.

Several letters were written asking for free publications and requesting that the library be placed on mailing lists. A new set of state road maps was obtained.

Accessions for the month total 108, including 9 books, 10 reports, 65 pamphlets, and 26 periodicals. Important titles received were:

Gladwin, Harold Sterling	- Excavations at Snaketown IV
Creer, Leland Hargrave	- The Founding of an Empire
Fosternaier, Clifford P.	- Man Beast Dust
Douglas, Frederic H. & d'Harencourt, Rene	- Indian Art of the United States
Rister, Carl Coke	- Oil! Titan of the Southwest
	- The Westerners Brand Book, 1948, Denver.
Arnold, Chester A.	- An Introduction to Paleobotany
Taylor, Walter W.	- A Study of Archeology

Southwestern Monuments Association.

Folder booklet for the Mission Trail at Gran Quivira was edited and two bids for printing solicited. It went to the printer August 11 and proof was received August 17.

During the month of August two deposits and one disbursement, which was the largest to date, amounting to $1,948, were made by Treasurer Vedder. Covers mailed 247, including 59 letters and 52 purchase orders.

Some time was spent this month in catching up on July mail, and much time was spent on posting monument turn-ins for the June 30th quarter. At the beginning of the month there were quite a few mail orders from our July mailing. Two days were spent on figuring the cost of our inventory as of June 30th for the annual report. A report to the Executive Secretary on the activities of the SNM for June and July was made.

As our purchases and invoices increase, more time is spent on keeping these items in order and making the disbursement. For instance the numerous statements from the publishers have to be checked. The monuments income for the fiscal year ending June 30th was $10,799.78, an increase of $855.23 over the previous year. Headquarters sales showed an increase of 1,493.89 due to mail sales. Follow-up cards were mailed to 12 concerns who are slow in paying their invoices.

The following charts were made for the annual report: donation charts, bank reconciliation, and receipts of cash from areas.

Visitors.

Bella Weitzner of the American Museum of Natural History, Engineer Frank Kitredge, Rangers Leding and Dean and Anthropologist Fred Sloight.

Wild Life Management.

A request was addressed to State Game Warden Barker for his department to stock Scaled quail at Capulin Mountain.

Unusual Activities - Conferences

The Pecos archeological conference was attended August 22 - 24 at the Laboratory of Anthropology. A letter was written refusing permission to an applicant who desired to dig for treasure on Casa Grande National Monument.

Ruins Stabilization.

Major ruins stabilization continued at Chaco Canyon National Monument. Excellent justifications for comprehen[illegible] programs were received from Tumacoot and Gran Quivira.

Projects for September.

King will take several days of annual leave and spend the first part of the month on routine office activities, possibly making short trips to the northern part of the territory during the latter half of the month.

Steen will remain at Canyon de Chelly on salvage excavations and with perhaps some stabilization work late in the month.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

August 27, 1949

Memorandum

To: Regional Director, Region Three.

From: Superintendent, Arches National Monument

Subject: Monthly Narrative Report for the month of August, 1949.

WEATHER: No measurable amount of rain fell during the report period and the hottest weather of the year was experienced from July 29 through August 5. For six straight days the mercury climbed to 100 degrees or over, reaching a maximum of 106 on two of the six days.

TRAVEL: Our travel count shows a decrease of 14 % from last month and this drop we attribute to the very hot weather. Inspite of this drop we still show a 53% increase over the same period last year. A total of 2084 visitors entered the area in 717 cars.

INTERPRETIVE SERVICES: Contact time amounted to 164 hours and 40 minutes, in which 1754 visitors received information about the area. Twelve guided trips were conducted by Rangers Reed and Worthington with a total attendance of 62 people. Twenty illustrated talks were given by Ranger Reed and five by Ranger Worthington. These talks were outside the area and on the Ranger's own time.

ROADS: All roads in the area are in fair condition although we could improve them with the aid of a little moisture. A coating of shale was applied to the sandy stretches between the west boundary and the Balanced Rock.

Proposed Roads: The Moab Lions Club has launched an intensive campaign to seek a federal appropriation for the construction of the proposed entrance road by way of Court House Towers.

CONCESSIONS: Mr. Ross Musselman, who has been issued a temporary permit for the Pack & Saddle Stock Concession, started construction of his temporary headquarters at the Delicate Arch Parking area. He expects to start operation by September 1st.

SPECIAL ACTIVITIES: Dr. J. W. Williams, known locally as Father of Arches National Monument, was honoured by the Moab Lions Club on his 96th. birthday, August 22,

NPS VISITORS: JULY 28 Regional Naturalist, Matt Dodge

August 10 Assistant Chief of Development, Frank A. Kittredge and James R. Lassitor, Regional Engineer.

August 14 Associate Regional Director, Preston P. Patrax.

INSPECTIONS: A trip was made to Natural Bridges National Monument on August 21 and 22 to check on vandalism which occurred August 16.

GENERAL: The roof on the Trailer House service porch was completed and new paper put on half of the old building next to it. After many hours of hard labor by Maintenanceman Winbourn and Ranger Worthington, and a heavy expenditure of Road funds which apparently do not exist, our D-12 Motor Grader was again put in operation on August 8. The homemade universal joint in the hydraulic lift on the Front-End Loader was repaired. Ten days were spent on the well, pulling the sucker rod and fishing for the check valve which had come off. Paper work is still the major project for the Superintendent, who, due to this curse, has not even seen all of his new area.

Bates E. Wilson
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

MEMORANDUM

24 August 1949

To: Regional Director

From: Superintendent, Aztec Ruins

Subject: Superintendent's monthly narrative report

WEATHER. Altho weather has been ideal with many clear warm days and only a few cloudy, rainy ones, our travel for the month has fallen below that of August last year.

VISITORS. Mrs. P.P.Patraw, sister and daughter visited the ruins 25 July. On the 6 August Chief Engineer Kittredge and Regional Engineer Lansiter visited for a short time. Associate Regional Director, P. P. Patraw inspected the monument 11 August.

District Ranger C. C. Elsbee and family from USFS Dulce, visited 7 August. Alfred Borthy and family, USIS, Shiprock with D. E. Southworth also visited on the 7th.

From the Bureau of Mines, Rifle, Colorado the following personnel visited 8 August; R. W. Wood, chemist; Bruce Wood, chemist; J. H. Whitlam, and their families.

Dr. M.H. Trujillo and A. C. Siarus, Laguna USIS visited 9 August. Mr. Lalio Abeita, Supt. water supply Isleta, U.S. I.S. visited 8 August.

From the Public Health Service, Durango, Colorado we enjoyed the visit of Dr. C. A. McIntyre and E. R. McIntosh 12th.

The US Geological Survey was represented by 5 of their personnel who visited 14th, H. L. Cannon, R. H. Kieler, H. H. Studel, J. D. Strobell and H. Ywell.

MAINTENANCE. Our principal effort this month, other than routine, was to remove and clear up the old residence and the area about it. Most of the adobe bricks were removed by hand for reuse, then the remaining portion and foundation was bulldozed away.

An unusual rain and hail storm blocked some of the drains in the ruins which we have been clearing out for the past week.

RECEIVED AUG 31 1949 NATIONAL PARK SERVICE REGIONAL FIELD OFFICE

AZTEC, NEW MEXICO

24 August 1949

PERSONNEL. Tranquilino Griego, former intermittent laborer during the past 5 years at Aztec, entered on duty in the new seasonal laborer position.

INTERPRETIVE SERVICES. There were 3406 visitors in 376 parties shown the museum and 2921 visitors conducted in 289 parties thru the ruins.

DECREASE IN TRAVEL. Our August figures show a decrease of 1% over that of August 1948 with 3406 people from 43 states, D.C., Canada, Hawaii, Okinawa, Prague Czechoslovakia, Turkey and Denmark and Norway.

It was rather interesting to record our first Okinawa license plate on a car driven by Capt. and Mrs. J. H. Hudson who were taking furlough in the States, and who were soon to return to the Island.

PROJECTS FOR SEPTEMBER. Completion of ruins drainage repair, weed control in the ruins and the beginning of the planned landscaping of the new residence. We hope also to have the museum roof repaired.

NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

August 28, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Bandelier

Subject: Monthly Narrative Report, August 1949

Weather

The weather has been very pleasant during most of the month with temperatures averaging between 85 and 92 in the daytime and in the 50s at night. The low was 41 on the 19th and the high 100 on the 20th. Most of the days were partly cloudy and only .67 inches of rain fell as compared with over 5 inches in July.

Special Activities

The Superintendent attended a meeting that was held at Los Alamos with the Chief of Communication of the A. E. C. and a representative of the telephone company concerning telephone service to this area. The line is now completed and a pay station will be connected by the first or second of September. This will give us service over the Mountain States Company lines.

The proposed realignment and construction of the remaining unpaved section of the approach road was discussed with the A. E. C. engineering division and there are no objections to going ahead with plans. A request has been submitted by the Regional Office to the Bureau of Public Roads for a survey of the road.

Inspections

Chief Engineer Frank Kittredge and Regional Engineer Ralph Lassiter visited the area on the third and made a general inspection of roads, trails, water and sewer systems, campground, and buildings.

Assistant Regional Director John Davis made an inspection of the area on the 18th.

Complaints

A verbal complaint was received from a visitor on August 23 because there was no one on hand immediately to check him in and give him information on arrival. The visitor arrived shortly after noon and there was an interval of approximately fifteen minutes that no one was at the office due to the unavoidable absence of one of the temporary rangers. This was later explained to the visitor but he was not entirely satisfied.

Maintenance

The plumbing fixture in the Administration building comfort station became nearly inoperative and since they are obsolete types for which repair parts are unavailable it was necessary to replace them. The maintenance man installed flush valves on the toilets to do away with the old tanks.

Approach Road

A heavy rain late in July damaged the approach road by washing out a culvert and cutting deep ditches along the sides in a number of places. The operator general spent considerable time grading the road and getting it back into shape.

Heavy hauling for an Atomic Energy Commission construction project made the unpaved part of the road very dusty toward the end of the month.

Concessions

Business at Frijoles Canyon Lodge continued to be less than last year. Lodgings were 495 as compared with 877 for August 1948.

The saddle horse concession is doing fairly well and is gaining in popularity as it becomes better known.

Cooperating Non-government Agencies

The Archeological Field School from Adams State College completed its session on the 15th. Due to security restriction by the A. E. C. they were unable to do as much survey work on the Ramon Vigil Grant as originally planned and most of the time was spent on excavating in Rainbow House.

Interpretive Service

A total of 3969 visitors were conducted through the ruins on 175 trips.

Evenings lectures were well attended and 26 were given to 805 visitors.

Travel

Travel continued to show a considerable increase over last year and 6711 visitors for the month is the greatest number for a single month on record. This is an increase of 25 percent over August of last year. Travel for the year so far has now exceeded the 1948 total.

Visitors

100 boys from the Round Up Lodge, Buena Vista, Colorado, spent the week 8 to 12 in the area.

Miss Laura Gilpen, noted photographer and author was a visitor on the 20th. Miss Bertha Dutton, of the Museum of New Mexico, brought two groups of senior girl scouts to the area on the 3rd and 21st.

Mr. Jesse Nusbaum brought Miss Beula Wertzner, secretary of the Department of Anthropology of the American Museum, for a tour of the ruins on the 5th.

Forest Fire Protection

The unusual amount of rain during July has caused the vegetation to stay green longer than usual this year and consequently the fire hazard has been low during most of the season. In spite of sever lightning storms no fires have occurred during the fire season although there were three preseason fires.

Two of the fire guards were released by the middle of the month.

Insect and Tree Deseases

Tent caterpillars were in evidence the first of the month and the campground area was sprayed with DDT on the 15th and 16th. A few are surviving in the tops of the trees where they cannot be roached with the spray but all others were effectively controlled.

Personnel

A son, James Patrick, was born to Ranger and Mrs. James B. McEntyre on August 9. Our congratulations and best wishes to the McEntyres.

Temporary ranger Jack Turney, Alamosa, Colo. was married to Betty Mott, also from Alamosa, on August 22. The wedding was performed in Alamosa and the Bandelier staff wishes them every happiness.

Fred W. Binnewies
Superintendent

Canyon de Chelly National Monument
Chinle, Arizona

August 26, 1949

Memorandum

To: The Regional Director, Region three.

From: The Superintendent, Canyon de Chelly National Monument.

Subject: Narrative report for August, 1949.

The following is a report of activities at Canyon de Chelly National Monument during the month of August, 1949.

Weather Conditions

Weather has been about normal for the month. Our rainfall measuring .84 inches came in six separate showers where generally we will have that much in one hard rain. The higher sections received more, and the canyon streams have ran bank to bank on three separate occasions. Road conditions were not materially effected by the rain. Maximum temperature for the month was 97 degrees. Minimum temperature was 46 degrees.

Administration.

One trip was made to Gallup, New Mexico for supplies and equipment. Reports, Correspondence and urgent office work has been kept current.

Travel

All travel records for this area were broken when 764 persons entered the area. Needless to say, guide and contact work consumed the greater portion of our time. Canyon travel conditions were good and as the Special car operated by Thunderbird Ranch was out of Commission most of the time, we issued many permits for driving personal cars into the Canyon. Both the Intertribal Indian Ceremonial at Gallup, and the two Hopi Snake dances are partly responsible for our travel increase.

Maintenance

The road was graded from headquarters to Spider rock, A tent house was constructed for the occupancy of Archeologist Steen and his family, and general maintenance taken care of as time permitted.

RECEIVED AUG 30 1949 NATIONAL PARK SERVICE REGION THREE OFFICE

Visitors

Visitors this month included the following. Dr. and Mrs T.E. Noble, Dr. Edwin H. Colbert of the American Museum of Natural History and his assistant Richard Van Frank. Dr. and Mrs. Gerhard Baldar, Paleontology Dept., Los Angeles City College. Dr. Louis A. Breternitz, Denver Univ. Mr. Frederico Vidal, formerly Tribal Administrator of the Riffs of Morocco under the Spanish Government who is making a study of American tribal administration under the Office of Indian Affairs. Francis Elmore, former Park Service Employee.

N.P.S. Visitors

Dr. Eric Reed of the Regional Office, Mr. and Mrs Carroll Riley, of Hovenweep National Monument. Mr. and Mrs. Ken Wallace of Mesa Verde National Park.

Archeology

The excavation of the small site in Canyon de Chelly (Tse e-ah) is proceeding rapidly under the direction of Archeologist Steen, and three Navajo laborers.

Government Publications on hand

Two fold leaflets--CDC..... 6,000.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
SOUTHWESTERN NATIONAL MONUMENTS
Capulin, New Mexico
COOLIDGE, ARIZONA

August 25, 1949

MEMORANDUM for the Regional Director
Region Three, National Park Service
Santa Fe, New Mexico

There follows the narrative report for Capulin Mountain National Monument for the month of August, 1949:

Visitors: There have been about 9,300 visitors to Capulin Mountain National Monument during the month of August, making a total of twenty six thousand one hundred for the travel year, and thirteen thousand eight hundred for the fiscal year.

Weather: The first half of the month was somewhat cool, with some showers, but the last part of the month has been hot and dry.

Flora and Fauna: Trees, shrubs and flowers are all in fine condition, as we have had lots of rain during most of the summer. Deer and other animals are about as usual, with some evidence of the work of the porcupines.

Roads and Trails: Roads in the Monument area have had to be dressed twice during the month, and some pick and shovel work has been necessary on the outside of the road up the mountain.

Information pamphlets: About 3,000 pamphlets have been distributed during the month of August. Have about 10,000 now on hand.

Special Visitors: No special visitors during the month, but have had a number of visitors from distant places, including Germany, Norway, Cuba, Canada and Mexico.

Very respectfully,

Homer J. Farr
Ranger

NATIONAL PARK SERVICE
REGION THREE OFFICE

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

August 25, 1949

Memorandum

To: Regional Director, Region Three

From: Casa Grande National Monument

Subject: Monthly narrative report for August 1949

General: Cotton picking has started in the Gila valley and some cotton has even been ginned at this early date. This crop is one of the earliest on record and from most indications a record yield is in the making. The Cotton Growers Association lowered the wage for pickers from $3.00 per hundred pounds to $2.25 and some difficulty may be experienced in recruiting labor as other cotton producing areas are reported to be paying higher wages. Some transient labor, however, has been coming into the valley for quite some time now.

Water Situation: The rapidly lowering water table and the increased pumping operations in this area are producing a serious situation which can no longer be ignored. The San Carlos Water User's Association has three pumps operating in locations just adjacent to our boundary and we have obtained some rather interesting information from the Association records. In addition to the Water User's wells a privately owned deep well was drilled last year just outside our south boundary and almost directly opposite our own pump. The water level, at the time the Water User's wells were drilled about 1934, stood at 38.5 feet in well 29, 45 feet in well 31 and 43.5 feet in well 40. The following table shows the water level at various years and indicates to what extent the water table has dropped in these wells up to the present time:

Well No.	1946	1947	1948	1949
29	86'	82.4'	90'	99.6'
31	78	74.5	90.8	89
40	76	74.6	84.9	89.5

The water level in the well here on the monument, as measured last year, was at a depth of 103 feet. When the other pumps surrounding the monument are operating there is a draw-down of the water table of 30 to 35 feet and this causes our pump to pump air. It has been necessary, throughout

RECEIVED
AUG 26 1949
NATIONAL PARK SERVICE
REGION THREE OFFICE

this summer and part of last summer, to bleed the air from our pressure system several times daily. We hope to be able to connect up with the Coolidge city water supply in the near future but until that is done we will have a progressively serious situation here with regard to water supply.

Weather: Temperatures this month have been somewhat lower than usual for this time of year and the nights have all been quite cool and comfortable. The high temperature was 109 degrees with a low maximum of 94 and a minimum of 78. The total rainfall amounted to .20 inches.

Visitors: August 1949 - 1,630: August 1948 - 1,514: Travel year to date 1949 - 29,934: Travel year to date 1948 - 34,780. The travel this month shows a gain of 116 visitors from August of last year.

Interpretive Service: Of the 1,630 visitors to the area, 909 made the trip to the ruins in 125 groups averaging 53.3 minutes per trip. There were 721 people here for just a quick look who did not go through the ruins.

N.P.S. Visitors and Visitors of Note:

August 18 - Ranger Glen Bean of Organ Pipe Cactus National Monument stopped in on his way to Region Three Headquarters to pick up material for Bandelier and Gran Quivira National Monuments.
August 21 - Group of 13 students of the Department of Anthropology from the University of New Mexico spent the morning here.
August 22 - Mr. Sam Oram of Saguaro National Monument
August 23 - Ranger Glen Bean of Organ Pipe Cactus National Monument.

Administration and Protection: Five requests for information were answered and literature sent as requested. The Superintendent made one trip to Tempe and Mesa, Arizona to interview candidates for the vacant position of maintenanceman at this monument. The Adamsville site was visited and no signs of vandalism were seen. Office work and correspondence has been kept current.

Maintenance: The maintenance work has been slowed up considerably due to the lack of a maintenanceman and the Archeologist being on leave. The museum and administration building has been cleaned regularly and kept in presentable condition. The borrow pits on the entrance road were graded and are in good shape. The Superintendent spent considerable time repairing the lock on the safe and making repairs on the vacuum cleaner. The pottery collection in the museum has been thoroughly cleaned and dusted.

Personnel: Tentative plans have been made for Ranger Arnberger to report to the Washington Office on September 1 to participate in the Department Management Trainging Program. Mr. Arnberger's family will continue to occupy quarters here on the monument and they have recently

NATIONAL PARK SERVICE
REGION THREE OFFICE
AUG 25 1949

moved from quarters 3-5 to quarters 6-3.

Leaves Taken: Archeologist Davis took annual leave starting August 3 and from all reports the Davis family is having a fine vacation at their home in Iowa.

Requests for Information: At 5:00 O'clock in the morning of July 25 the Superintendent was awakened by the telephone only to find that a party wanted to know how to spell the work "caliche". Believe me it was hard to maintain the Park Service tradition of courtesy for that request.

A.T. Bicknell,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Chaco Canyon NATIONAL MONUMENT

Bloomfield, New Mexico

August 26, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Chaco Canyon

Subject: Monthly Narrative Report

This month, Chaco Canyon had 527 visitors who came in 92 automobiles. There were 5 per cent more visitors than last year; thus, each month this summer was better than that last year. All of these persons visited the ruins forming 73 parties of 79 minutes average length. 227 of these visitors, forming 44 parties, stayed to see the museum. The ranger spent exactly 62 hours and the superintendent exactly 52 hours with these people.

The warmest this month, 101 degrees Fahrenheit on the 1st, was the warmest for three years. The coolest was 48 degrees. To this writing, this has been the driest August in 4 years. Only a total of .61 of an inch of moisture for the entire month -- our "rainy" month!

The approach roads have been dry and passable almost the entire month. The Monument roads have somewhat been placed back in service after the gulley washer of last month, but delays by the seed planting and for truck repairs have slowed the work. The essential parts of the roads are in fair shape, and one cattle guard has been cleaned. It is hoped that by next report, the roads will be in good shape.

The seed planting was rushed through in hopes of taking advantage of the August rains. There practically have been none. Hard luck has hounded our steps on this job. We did get the seed in before the heaviest of the three rains, but if it does not rain soon the work and money is apt to go for nil.

Paul Balch, E. N. Kavenagh, Director of Soil Conservation for the Department of the Interior, and others were in on the 1st to inspect the

the oil and moisture work with long range improvements in mind. They had planned to get here at about 1:30 or 2:00 p.m., but did not here about 6:00 p.m. for a very sketchy look.

Associate Regional Director Petrow was in on the 10th and 11th. It was the first time that he had ever visited Chaco. We showed him as much of the area as we could in the short time allowed.

Raymond Mixey, Thomas Mathews and the superintendent took the Park Ranger examination in Gallup on August 15.

In preparation for winter, two of the stoves have been thoroughly cleaned, including the pipes and chimneys.

The drains at Chettro Kettle, completed last year, were cleaned of weeds for the second time this summer. Also, this month, the weeds were cut and seeds planted in Pueblo Bonito. Earlier in the summer, the same was done at Chettro Kettle.

Jesse D. Jennings, formerly with the National Park Service but now with the University of Utah, was in for a brief visit.

Other jobs such as pulling cars and trucks (ours and others) up the steep Chaco hill, aiding the crew of a wrecked, 14 ton truck, hauling in a broken down trailer for a man, and the like were accomplished.

Projects for the ensuing month:- get the 1000 gallon gas tank installed, complete the rock work about the tank (water tank), repair the signs, complete road repairs and batten things down for the winter.

There follows the report of Archaeologist Gordon Vivian.

Irving McNeil, Jr.
Superintendent

NATIONAL PARK SERVICE

Chaco Canyon NATIONAL MONUMENT
Bloomfield, New Mexico
August 26, 1949

19

MEMORANDUM:

To: The Superintendent, Chaco Canyon National Monument

From: Archeologist G. Vivian

SUBJECT: Narrative report for August, 1949

All work this month has been confined to the comprehensive stabilization of Pueblo del Arroyo and the usual maintenance. The projected work on the Bc sites had to be put off due to a plague of squaw dances and the resultant labor shortage. However with the great increase in Navajo unemployment in this area we are rapidly weeding out the habitual squaw dancers and the crew is now 16 fairly steady men.

At del Arroyo approximately 1/3 of the work in the 2½ to 3 story rooms has been completed. The amount of this work that we can keep in progress is limited by the scaffolding we have and the long haul of materials into inner rooms. Work on lower rooms at the edge of the lower central section has been carried on at the same time till there have been completed to date a total of 14 rooms. Four other rooms are in progress.

In addition to the work on the ruin and the frequent hauling of sand and materials the stabilization records are up to date. Ray Rixey has completed the illustrations for the Walnut Canyon report and has recieved an excellent set of prints for them. Photographs for the report have also been selected and are being printed. Descriptions of all cultural material are in rough draft form. The first draft of the entire report should be completed in the coming month.

A supply of ethyl silicate, a product used for hardening stone and masonry units has been recieved. We are in the process of running tests on it and in the near future we will do an experimental wall or two at one of the Bc sites. Though the cost is high it appears to have some value for areas where large amounts of soil mortar are exposed.

Since we have taken over part of the Monument operation, the 7 day a week job of pumping water, the following improvements have been made; one well cleaned out, the water system changed so that water may be taken from the University well in emergencies, a new motor mount made and new bolts and pulleys installed on one pump.

RECEIVED
AUG 29 1949
REGIONAL PARK SERVICE
REGION THREE OFFICE

Roofs on 2 rooms used for cement and material storage were rebuilt and shelves made/tools and small equipment.
for

Mrs. Richard Wetherill who came to the Chaco in the 1890's and whose husband built the first trading post here paid us a visit on the 15th. Though she is now 82 she walked through Pueblo Bonito, Chattro Kettle and Del Arroyo and drove with us to other points in the canyon. She is a mighty spry old lady who is full of interesting tales of the old days in the canyon. As word of her visit got around some of the venerable Navajo who remembered her as children came over to see her.

In the coming month we intend to continue at del Arroyo and if possible get started on Bc 50. Rixey will work half time on the report and I will as usual intend to work on the Three C report and never find time.

Gordon Vivian
Archeologist

Arizona Archeological Center Library

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Chiricahua National Monument
Dos Cabezos, Arizona.

Memorandum August 25, 1949

For: Regional Director, Region Three

From: Ranger, Chiricahua National Monument

Subject: Monthly Narrative Report

Weather. Precipitation slackened somewhat with only 3.73 inches of rainfall being recorded at headquarters. Heavier rains, however, fell in the monument's eastern section and rhyolite canyon is again flowing a goodly stream. Temperatures were normal for August with a maximum of 91° reached on the 19th and a minimum of 51° on the 15th.

Approach Roads. Heavy rains in the vicinity of Dos Cabezos washed out about two miles of road there. Travel was stymied for a day or two while Arizona Highway bulldozers and graders repaired the damage. Travel has been resumed but the road is rough and much of the returning West traffic use Highway 181 through Pierce and Cochise.

Maintenance. Five man days were spent by the Superintendent and Ranger running boundary and posting warning signs.

The macadam walks leading to Headquarter's museum and two residences were rebuilt with flagstone type rock.

Laborer Stansberry was terminated on August 19. The road and trail system is in it's best condition in years.

Operator Marble returned the gravel loader to Organ Pipe Cactus in the early part of the month.

Communications. Radio contact with Santa Fe cleared through once during the month. Regular daily contact with Saguaro and Organ Pipe Cactus continued.

Several man days were expended repairing lightning strikes to the telephone line and brushing out creeping vegetation.

Miscellaneous. Marble & Boys, Cooke, and Ringenbach each contributed one of their liew days to help put on an addition to the local schoolhouse.

N.P.S. Visitors. Ranger Benson and family and Mr. Sam Orem of Saguaro National Monument were in on the 2nd.

RECEIVED AUG 29 1949 NATIONAL PARK SERVICE REGION THREE OFFICE

Interpretive Service. One conducted tour of the trail system was made and 1,339 persons were given interpretive service at the museum

Travel. Visitation dropped slightly below that of a year ago with 1,506 visitors being registered as compared to 1,593. Normal travel during September should put us well over the 15,000 mark for the travel year.

Ray B. Ringenbach,
Park Ranger.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

~~El Morro~~ NATIONAL MONUMENT

El Morro, New Mexico

August 28, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, El Morro

Subject: Monthly Narrative Report for August, 1949

Weather: Most of the mornings were bright and cheery with almost daily showers in the afternoon. The visitors arriving in the AM were in a rush to leave beforethe threatening rains began and the PM visitors wanted to rush on before the rains became worse.

Inspections: Dr. E. Reed, Regional Archeologist, paid a visit to the area and many points concerning interpretation were obtained from him.

Approach Roads: The roads had been in very good condition but due to mud they have been bladed only once or twice. The two bridges near Ramah have not been repaired but at least the State put up warnings. There is little doubt that the State will build the new road from the Ice Caves to Ramah. The bid for construction is to be let September 13 and work started within 10 days thereafter.

Interpretation and Visitation: Our inscription tours were very often cut short by the rain and not infrequently visitors were shown photos of the inscriptions and the history of the Rock explained in the office. The number of visitors arriving at the same time this month was quite unusual. On many occasions there were more than 16 people on a tour. August 14 was the big day at El Morro with 156 people registered. It seemed that people were crawling out from under every tree and shrub. A "Standing Room Only" sign would have been in order for the comfort station. A sizable waiting line formed just outside after each trip. (With the water having the effect it does in August, a major problem could have been caused if the visitors had stayed for more than a few hours.)

RECEIVED AUG 29 1949 NATIONAL PARK SERVICE REGIONAL OFFICE

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

General: The road signs from Gallup to El Morro were given a new coat of paint. One new trail sign was made and put into use. About 200 yards of trail was resurfaced and hard standing was laid in the car port at the ranger cabin.

The flashing on the roof of the superintendent's residence and the office was repaired and made ready for winter. The ranger cabin roof was patched and given a coat of roofing tar. The cabin kitchen was painted. The plaster in the utility hall, superintendent's house, was patched and prepared for painting.

The building survey was completed and sent to the Regional Office and office work kept current. Parts of several days were spent on proposed land acquisition for El Morro. Six and one-half hours spent working on the fact file.

The slow sand filter was partially drained and one more load of clean washed sand placed in it. We received two cubic feet of activated carbon to use in the water system and at present the results are most satisfactory.

Cooperating Agencies: The C.A.A. repaired the El Morro radio but the lack of two tubes of the proper kind caused the radio not to function. The repairman explained that we could receive but by no means could we send until the proper tubes were installed. A trial of the radio a few days ago indicated that he was mistaken. The booming voice of KNJZ could be heard near and far but we could not receive the many messages to "shut up". We hope to be able to join the airways again soon.

Mr. H.E. Barr, Sandia Base, has offered to photograph, at his expense(the Atomic Energy Commission might be persuaded to furnish the film and equipment)the entire mass of writings and carvings at El Morro. Mr. Barr is a capable photographer and has done much the same type photographing before.He enjoyed his visit to El Morro and is willing to do the job for what recognition can be given him. The last word from Mr. Barr indicated that he would arrive here about September 15 and would stay for a period of about 3 weeks.

Special Visitors: Watson Smith and Joe Brew and party, Peabody Museum, were visitors to the area this month. The Peabody "dig" is located about 75 miles south of El Morro.

Naturalist and Mrs. R.F. Upton and Mr. Simon were overnight guests. Mr. Upton spent a few hours taking pictures of inscriptions to complete his series of photographs of the area.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Mr. and Mrs. Munro, free lance writers who have and article on the southwest in a recent issue of Desert Magazine, spent a day and night here gathering material for future use.

Local News: A big squaw dance was held near here recently by the local Navajos. It seems that because of the drinking and fighting at the local squaw dances they have been prohibited for several years in this area.

A Mr. and Mrs. Bose have been hired to teach the local grade school which will begin September 5.

John A. Aubuchon
Superintendent

EL MORRO NATIONAL MONUMENT
EL MORRO, NEW MEXICO

Gran Quivira National Monument
Gran Quivira, New Mexico

August 25, 1949

To : Regional Director, Region Three.

From : Supt., Gran Quivira National Monument.

Subject: Monthly Narrative Report for August, 1949.

General. Rainy weather continued through the first part of August. Local crops are much better than usual. The wildflower display is now at its peak. Needless to say the weeds in and around the mission are also doing very well.

Weather. Showers during the first part of August. Rain totaling 3.52" fell on 10 days. The heaviest amounted to 2.20" which fell in 45 minutes on August 12. The cistern is now full for the first time in several years.

Inspections. On Aug. 1, Mr. Kittredge, Mr. Lansiter and Mr. Saunders spent a few hours at the Monument.

Maintenance. Practically all spare time was spent trying to keep up with the weeds. One day was spent rebuilding a doorway which collapsed after the heavy rain of August 12. The need for additional ruins stabilization and drainage was reported to the Regional Office.

Approaches to the Monument. The approach roads have been rough and muddy throughout much of the report period. Showers fell somewhere between here and Mountainair almost daily and it was impossible for the State maintainer to keep up with the work.

Cooperating Governmental Agencies. On August 9, Mr. Delgado, state employee, replaced the state historical markers pertaining to Gran Quivira National Monument here and at Mountainair. At the request of the superintendent he changed the "State Monument"to read "National Monument".

Interpretive Service. 79 parties totaling 374 visitors were guided through the ruins. Average trip time 50 minutes; total time 66 hours.

Miss Martha Dutton visited the area on July 27 and August 24-25 with two groups of Senior Girl Scouts on their Archeological Field Trip. The second group were taken on a tour of Pueblo Pardo dn the afternoon of August 24. In the evening the superintendent showed a series of kodachromes on Havasu Canyon, Arizona.

RECEIVED
AUG 31 1949
NATIONAL PARK SERVICE
REGION THREE

Museum Activities and Exhibits. During the month a draft of the trail pamphlet for Gran Quivira was submitted. Mr. King is having 2000 copies printed with SWMAssociation funds to retail at 10¢.

Correspondence was carried on with Mr. W. E. Bard of Dallas, Texas regarding the activities of "treasure seekers" at Gran Quivira circa 1840. Mr. Bard forwarded an article on Gran Quivira from the New Orleans Bee published July 17, 1846 which was a new addition to the files. Facts on Gran Quivira may be hard to gather but the "fiction" file continues to grow. In reading Major Carlton's diary covering his visit in December 1853 I note that he removed a "particularly beautiful carved beam". Evidently the NPS should have had their "you can't take it with you" sign up about 100 years sooner.

Decrease in Travel. As shown below, travel for August showed a very slight decrease compared with the same month last year, probably due largely to poor road conditions. Water was sufficiently deep in some of the local "low-spots" that it ran over the floorboards on several cars. This makes for good "local Color" but not for heavy travel. Travel for the year remains ahead of last year.

	CARS	VISITORS
August 1949	121	453
August 1948	133	460

NATIONAL PARK SERVICE
GREAT SAND DUNES NATIONAL MONUMENT
MOSCA, COLORADO

August 26, 1949

Memorandum

To: Regional Director, Region Three.

From: Great Sand Dunes.

Subject: Monthly Narrative Report.

There follows the report of activities in Great Sand Dunes National Monument for August, 1949.

WEATHER. At long last, summer arrived in the San Luis Valley. Temperatures for this report period were in the eighties with the exception of only two days.

The minimum of 42 degrees was registered on August 15. The maximum of 88 degrees was reached on August 23. The high minimum was 54 degrees on July 31; and the low maximum was 72 degrees on August 3.

Only one northeast wind occurred and this blew in a rain on August 1.

Rain fell on August 1,2,3,6,7,8,9,12,16,17 and 24.

During this report period, there were 3 cloudy days; 13 partly cloudy and 15 clear days.

The Medano Creek has ceased flowing and this brought immediate relief from mosquitos.

Snow fell on the high ranges on August 24.

TRAVEL. Six thousand three hundred thirty-four visitors in one thousand four hundred ninety-eight cars visited the Sand Dunes during this report period. Thirty-eight states were represented and also the District of Columbia, Canada and the Canal Zone. One written request was received and answered.

Three thousand nine hundred sixty-five people took advantage of the picnic areas and of these three hundred twelve camped over night.

INCREASE IN TRAVEL. This month broke all records for visitation to this area.

For August, 1948 there were 1145 cars and 4854 visitors.

For August, 1947 there were 1181 cars and 5019 visitors.

This month shows an increase of 1480 visitors over 1948, and 1315 increase over 1947, when the last Shrine Ceremonial was held.

CONTACT. Contact with visitors was done on Sundays, lieu days and during the remaining week days as time and work permitted. There were 23 days of actual contact.

There were one thousand one hundred thirty-nine cars contacted, with visitors numbering five thousand two hundred seventy-three. Contact time averaged ten minutes per car.

Total contact time: Sowers--106 hrs., and 40 mins; Elliott--83 hrs., and 10 mins.

NEWSWORTHY VISITORS. August 4, the Buena Vista Roundup Lodge for boys, 55 in the group had a picnic. August 7, the Blackhawk Hiking Club of Iowa with 31 in the party. Incidentally, the group did not hike to top of dunes. August 7, the Pueblo Motorcycle Club had its annual trip over Mosca Pass. There were 18 motorcycles with 26 riders. August 21, the Boy Scout Club of Handsboro, Mississippi camped over night with 8 in the group. August 13, the Sand Dunes Shrine Club held its Ceremonial with 535 members attending.

N.P.S. VISITORS. August 15, Al Lancaster of Mesa Verde National Park and party. August 19, Associate Regional Director Patraw.

ROADS. The State graded the approach road on July 30, August 6,12 and 13. The road is now rough and dry.

MONUMENT ROAD. The entrance road from the cattle guard to headquarters was graded on several occasions and is at present writing in good condition. Between gradings it becomes quite corrugated due to increase in travel and also dry weather.

The road from headquarters to the Mosca Creek picnic area has been graded and remains in good condition.

The road from this picnic area to the lower Mosca Creek parking and picnic area has not been graded and remains in fair condition. The new road is packing down very well

and more work is necessary in removing large rocks before it can be successfully graded.

This road and parking area has withstood the great increase in travel and not one car has become stuck. This has lifted a great burden from the personnal.

SPECIAL EVENT. The Sand Dunes Shrine Club held its Ceremonial on August 13 at this area. Weather was perfect and the sands were hot. A barbecue was held before the ceremonial. Forty-three novices trod the burning sands and the following may be of interest:

Mr. Jimmie Cockrum, Sheriff, Alamosa County.

Mr. C.D. Feast, Director, Colorado Game-Fish Commission.

Dr. Ira Richardson, President, Adams State College.

Mr. E.B. Nash, Commissioner, Alamosa County.

Mr. Alvin Hewitt, Federal Bureau of Investigation.

The 535 who attended this event arrived in 150 cars and 3 large Rio Grande Buses. Besides this crowd, there were 48 cars and 168 visitors, mostly out-of-state, who did not know of the ceremonial.

CONCESSION. With the increase in travel, the Saddle Horse Concession has also experienced an increase in business. The summer has gone very well for Mr. Graves. The permit will expire on September 30.

FIELD INSPECTION. Associate Regional Director Patraw inspected this area for the first time on August 19. Many problems were discussed during his short visit, and we hope Pat can return for a longer stay on his next inspection.

RANGER QUARTERS. The house trailer now boasts of running water, a propane refrigerator and range. Carl Martley of Monte Vista completed the hook-up of the water system on August 16. He will return the end of August to make a temporary hook-up for the sewer system.

ACTIVITIES. Usual routine activities have been carried on as well as keeping all administrative and office matters current.

Current travel has kept us busy with contact work and the great amount of clean-up needed at the two picnic areas.

Hauled supplies, propane gas, gasoline, cement blocks, lumber, propane range and refrigerator from Alamosa to headquarters.

Placed wood timbers and cement blocks for foundation under trailer.

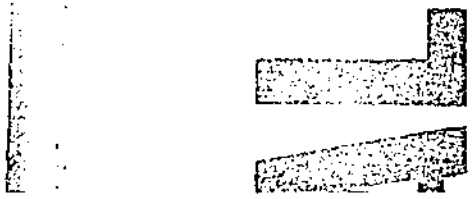
Installed and hooked up both refrigerator and range in trailer.

Installed new shut-off faucets at upper and lower picnic areas.

Filled in trench that was dug for installing water pipe to trailer from main water line.

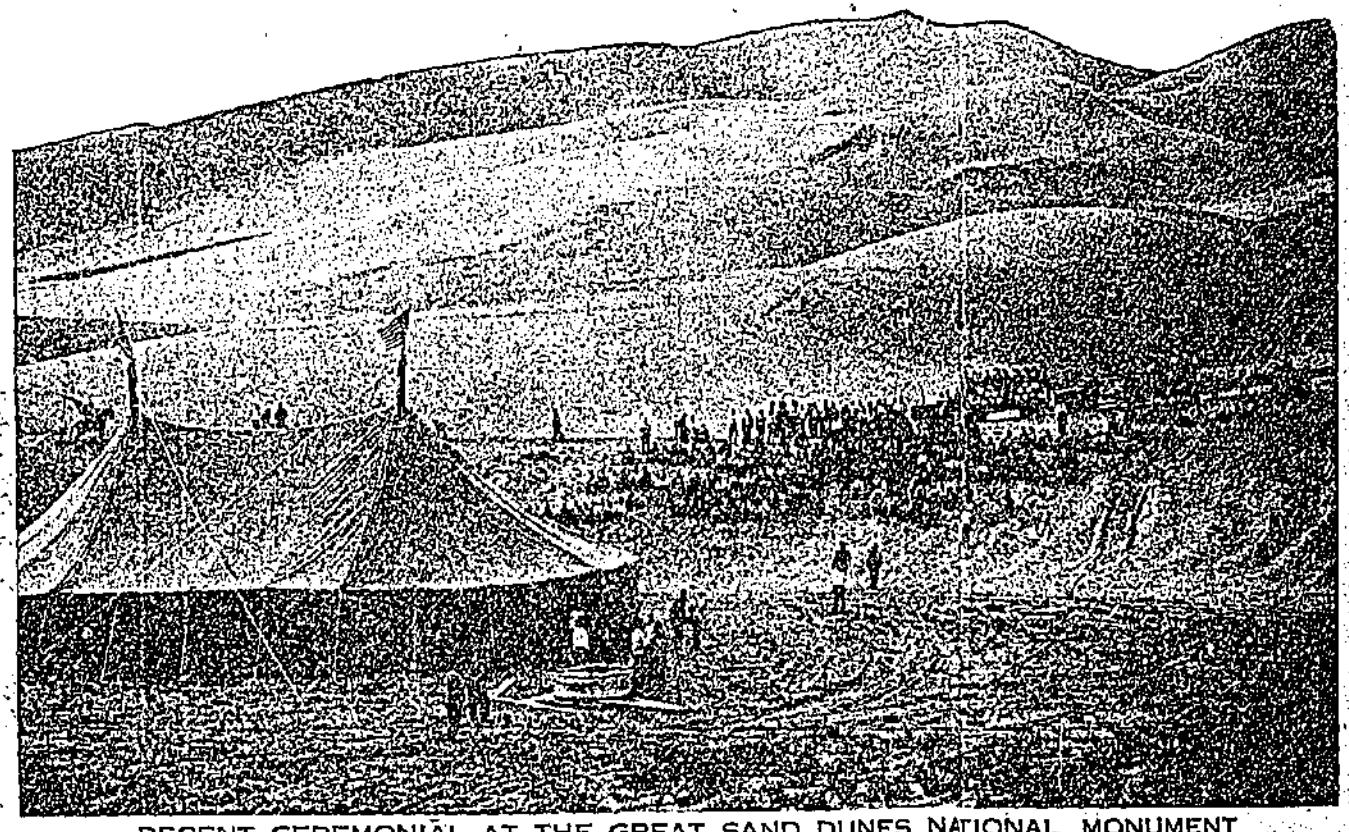
Painted and lettered new STOP sign for checking station.

Graded washed out section of approach road on August 3. Road from headquarters to Mosca Spring was graded early in the morning (5:30 A.M.), August 13 before the arrival of the Shriner's.



Greased and changed oil in motor grader, and gave monthly checkup to both light plants.

The Ford-6 dump truck is still at the Heide Motor Company, as they have been unable to locate the growl in the rear end.



PROJECTS FOR ENSUING MONTH. Continue road work. Relocate and hook-up both gasoline and fuel oil 1,000 gallon tanks. Obtain winter supply of fuel oil for residence. Continue with contact work, Sundays and lieu days and as time allows.

SPECIAL. Superintendent Sowers was appointed Special Deputy Sheriff, of Alamosa County, 1949-1950, by Sheriff Cookrum.

Ted O. Sowers
Superintendent

NATIONAL PARK SERVICE

Montezuma Castle National Monument

Camp Verde, Arizona

August 24, 1949

Memorandum.

To: Director, Region Three

From: Superintendent, Montezuma Castle

Subject: Monthly Narrative Report, August 1949

General: This month brought the usual large numbers of August vacationists, including several groups of summer students and soldiers. It was necessary to schedule several extra guided trips to accommodate members of these larger groups, all of whom wanted to climb the ladders. Despite several days of hot weather almost all schedule trips were made, and were for the most part full parties.

As a result of correspondence between Temporary Ranger Murray and Harold Gunderson, Extension Entomologist, Iowa State College, a mixture of naphthalene flakes and carbon tetrachloride was sprayed on the walls of some of the Castle rooms in an effort to discourage bats. This mixture had no effect on the bats but has improved the odor of the rooms. Mr. Gunderson states, "There is no insecticide that will get rid of bats. Neither will creosote do the job".

On July 26, Mr. E. D. Newcomer, Staff Photographer for the Arizona Republic, spent one evening and night at the monument taking pictures and assembling data for a Sunday feature article on the monuments of the Verde Valley.

Mr. Gene Leslie and a group of photographers representing the Saturday Evening Post arrived July 30 for the purpose of taking pictures in connection with an article featuring Flagstaff and surrounding area.

Information was assembled and submitted to Harold Butcher of Prescott for preparation of a fifteen minute radio program to be presented over station KVOA. The superintendent will go to Prescott on August 31 to participate in this question and answer program which will pertain to Montezuma Castle National Monument.

Letters were prepared and mailed to Russel Shaw and the Arizona Highway Commission calling attention to errors relating to Montezuma Well as appearing in Shaw's Southwest Blue Book and the State road maps.

Archeologist Schroeder gave a talk on the archeology of the Verde Valley, supplemented with Kodachrome slides, at the Clarkdale Rotary Club luncheon. Schroeder also attended the Southwestern Archeological Conference held at Santa Fe August 22, 23 & 24.

Weather: Weather has been changeable with maximum temperatures of 107 and minimum readings of 48. Temperatures dropped and remained below the 100 mark for ten days during the middle of the month, only to rise again to a maximum of 107 for the past few days. Several showers caused a total precipitation of 2.01 inches.

Travel: Travel this month broke all existing records when 4,652 people in 1,219 cars visited the Castle and 1,625 people in 428 cars saw the Well. This makes a total of 6,277 visitors in 1,645 cars to this area, and represents an increase of 2,256 people over the corresponding month of last year. Following a suggestion made by Ranger Clancy to assure a more accurate count of visitors, cars instead of people were counted at the Castle. This was accomplished by placing a two-fold leaflet on the windshield of a car upon its arrival. At the end of the day, the number of leaflets given out were counted and multiplied by the factor 3.5. This method of counting has proved accurate and does give each family a leaflet to which it is entitled. It will, however, be necessary to discontinue the counting of cars in this manner after Labor Day because of the dwindling supply of leaflets.

Interpretation: Another record was also established when 260 trips were made to conduct 1,837 people through the Castle. Approximately 2,250 people saw the museums.

Visitors: On July 26, E. D. Newcomer, Staff Photographer for the Arizona Republic, Phoenix.

On July 30, Gene Leslie, Photographer for the Saturday Evening Post, and Hal Cooley, Secretary for the Flagstaff Chamber of Commerce.

On August 6, Major Grifith and 53 soldiers from Fort Tuthill, Flagstaff.

On August 17, Major Grifith and 35 soldiers from Fort Tuthill, Flagstaff.

On August 17, Dr. John McGregor who just completed summer excavations in Northern Arizona.

On August 18, Dr. Stewart of Arizona State College at Tempe and 27 summer students.

Maintenance & Construction: Alterations to the cabinet work in the kitchen of the Hall residence were made so that the new refrigerator could be set in place.

The drainboards and sink in residence No. 2 were raised to the standard height of 36 inches.

JOHN O. COOK
John O. Cook,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

August 28, 1949

Memorandum

To: Regional Director, Region Three

From: Acting Superintendent, Natural Bridges National Monument

Subject: Monthly Narrative Report

TRAVEL: Again the travel record for any single month was broken by the arrival of 507 visitors in 128 cars. This is an increase of 160% over the same period last year.

INTERPRETIVE SERVICE: Total contact time amounted to 135½ hours in which 415 visitors were given information about the area. During the Ranger's days off, 127 people visited the area. The campground was used by 102 visitors for overnight stops. Four guided trips were made to the three bridges with a total attendance of 18 people.

VANDALISM: On August 16th., while Ranger Redd was in Blanding on his day off, a group of people from Oklahoma scratched their names on the rock wall which runs along the trail below headquarters. They used a space 35 yards long and although they did not carve deeply the removal will be difficult. Upon Ranger Redd's return, the morning of August 17th. he found, in addition to the inscriptions, that someone had rolled a large rock from the top of the cliff east of headquarters onto the ladder leading to the Moqui house in this cliff. Also the condition of the mens toilet was indescribable. Fortunately the inscribers, who we believe did the other damage, were thoughtless enough to put their names and addresses on the register and have been requested by registered mail to have the names removed and the damage repaired.

INSPECTIONS: A trip was made to the area August 21 & 22 to investigate the above mentioned vandalism.

GENERAL: Due to the heavy travel there has been little time for anything but cleanup and contact work.

Bates E. Wilson
Acting Superintendent

NAVAJO NATIONAL MONUMENT
TONALEA, ARIZONA

August 25, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Navajo National Monument

Subject: Report 1m1

There follows a report of activities in this area for the month of August 1949.

VISITORS

102 visitors came to this area in 35 cars. These visitors selected their activities as follows: 39 visitors in 15 parties used Sandal Trail for the inspiring rim view of Betatakin, 52 visitors in 12 parties were guided to Betatakin via the canyon trail, 2 visitors in 2 parties horsebacked to Keet Seel 2 visitors in one party hiked to Scaffold House, 67 visitors received the vest pocket museum treatment and 42 visitors camped overnite.

This travel year finds us establishing a new record for visitation. The record high (1941-530 visitors) was broken on the 12th of August. Total travel as of August 25th was 644 visitors and we still have September's visitors to be added to this travel years statistics.

N.P.S. VISITORS
Bob and Wanda Euler of Wupatki on the 12th and 13th.

OTHER GOVERNMENT AGENCY VISITORS
Dr. and Mrs. Buerger U.S.I.S. on the 31st.

WEATHER

Generally mild days have prevailed this month. Cumulus clouds have been prevalent to the delight of the picture makers. On two occasions cloudbursts flooded the lower roads while little precipitation was recorded at the headquarters area. Maximum temperature was 93 degrees on the 1st and 5th, Minimum 46 degrees on the 11th. Total precipitation .76 inches.

NAV. Report 1m1 Cont.

ROADS

A cloud burst on the 22nd ripped up the entrance road from Mile 7 to Mile 4. 4 man-days were required to make this washed out section passable.

The entire entrance road is passable and in fair shape at this writing.

NEW CONSTRUCTION

A 45 foot vertical aerial was erected and put into service. Reception and broadcast were improved by the new aerial.

Three revetment walls were built at washed out areas on the entrance road. Vertical posts and four foot walls of horizontal logs were used at two of these places and the same treatment, with lesser logs, was used at the third washout. These walls should reduce our road maintenance at these often troublesome washes.

The Navaho hogan near the entrance road was removed and the campsite obliterated. The usable logs were hauled to the utility area where they will be used in the construction of a grease rack.

MAINTENANCE

37 man-days were spent rehabilitating the hogan-to bunk-house.

17 man-days were spent in entrance road maintenance. Campground and general policing is current.

GENERAL Personnel

Last summer Ranger Bigman and Helen Holiday Bigman used the now-dismantled hogan mentioned above. Helen was quite unhappy about the hogan because it was located too close to Betatakin (about a half-mile) where many deadAnasazis are buried. Bob Black and his family had built and occupied the hogan the winter of forty seven. They abandoned it because of night noises and bad luck. The children were sickly and one, Deibah, was severely burned when she fell into the fire. The two old ladies

were bothered more than usual by their trachoma. The hogan just seemed to have a jinx for them. The same jinxes were present when Seth and Helen moved in, they stuck it out most of last summer but Helen grasped the first chance she got to move out. Reluctantly Helen moved back into the hogan this June. Son Pat got sick, then daughter Loraine got sick, then Helen got sick. (Believe me, when I say fear can be a terrible thing). Again everybody moved out to have a sing at Bob Black's hogan.

This condition is not desirable because we like to have our season ranger on the area for 24 hour call.

We asked Seth if Helen would feel that the hogan we are rehabilitating might also be possessed. He was of the opinion that, because it is even closer to Betatakin, Helen would fear it also.

We racked our brains and finally recalled a fragment of a ceremony we witnessed fifteen years ago at Wupatki. Seth asked all the old people around Shonto about this ritual, but none of them knew of it except one old man who heard of there being such a thing but he had never witnessed it.

We decided to ask our old friend Clyde Peshlakai about it. On August 5th we took Seth on an educational tour. Superintendent Jones gave Seth a personnaly conducted tour of Wupatki after which we visited Clyde Peshlakai. The decision we reached was that Clyde would perform the ceremony and Seth would procure the ingredients (turquoise, obsidian, sea-shell, corn pollen from blue-bird feathers and a certain nocturnal insect). The date was set for August 12th and we proceeded to Sunset Crater and Walnut Canyon where Steve Leding furthered Seth's education.

On the evening of the 11th Bob and Wanda Euler kindly brought Clyde to this area on their days off duty. The following day at noon Clyde divided the 'ingredients' into four units, each containing the required items, and tied them up in cotton cloth and then placed each at one of the cardinal directions under the foundation of the hogan.

August 25, 1949

NAV. Report lml Cont.

Upon completion of the rehabilitation of the hogan a two day sing will keep the evil spirits away and insure a happy home.

That evening twelve Naabeeho and six Bilagáana had a wonderful picnic supper in the campgrounds and Helen appears to be greatly relieved.

J.W. Brewer, Jr.,
Superintendent

NATIONAL PARK SERVICE
ORGAN PIPE CACTUS NATIONAL MONUMENT
Ajo, Arizona

August 25, 49.

Memorandum

To: The Regional Director, Region Three

From: Superintendent, Organ Pipe Cactus National Monument

Subject: Monthly Narrative Report for August, 1949.

Weather

August has been very moderate for this area with only 11 days over 100 degrees, a high of 109 being reached on August 2nd. Nights have been cool, reaching a low of 57 degrees on the 11th and 15th. While we have had six showers during the month only a total of .64 inches of rain has fallen. We have not as yet had any of our usual heavy downpours in the area.

General

The name Lukeville was approved by the Post Office Department for the new postoffice at the Sonoyta Gate. The post office was established during July and is now in operation.

Ranger Dean made a trip to Bandelier National Monument to haul surplus supplies and was retained in the Regional office for a week on special detail.

Maintenance

Our showers have been a big benefit in the maintenance of roads, and Quinn now has most of the roads in very good condition.

Travel

Travel has taken its normal drop during August; however, 9991 people have entered the area during the month. We have had a surprising number of out of state visitors in spite of the heat. Cars arrive daily for information and interpretation. Several have taken advantage of the cool evenings for camping on the area.

RECEIVED
AUG 29 1949
NATIONAL PARK SERVICE
REGION THREE OFFICE

Research and Observations

Two bunches of plant specimens were mailed to the National Herbarium for identification. Several new plants have appeared following our summer showers. This year is the first time we have had an opportunity to make research trips in the higher altitudes during the summer.

On two occasions sheep were observed on the upper Alamo and Arch Canyon area. Both lambs and yearlings were seen in the bands, so we are sure now that we are getting an increase in our sheep population with a good lamb survival.

Another new species of snake was added with the finding on two occasions of the tiger rattlesnake(Crotalus tigris). Word has been received from Max Hensley that after laboratory work there will probably be more subspecies than we have originally recorded.

Personnel

The Superintendent will be absent during September on annual leave. Ranger Bean will be Acting Superintendent during this period.

William H. Supernaugh,
Superintendent.

SAGUARO NATIONAL MONUMENT
Tucson, Arizona

August 25, 1949

MEMORANDUM for the Regional Director,
Region Three.

There follows the monthly report of activities at Saguaro National Monument for the month of August, 1949.

General.

The past month has been rather warm with the temperature staying around the 100 degree mark during the day. A total of 2.26 inches of rainfall was recorded in the Rincons. There were three lightning storms but no strikes were observed in the forested area.

Special Activities.

The Superintendent made one trip to the forested area during the month to inspect presuppression and maintenance work.

Assistant Regional Director Davis visited the area from August 26th. While here, Mr. Davis inspected the area and conferred with the Saguaro Land Committee, of the Tucson Chamber of Commerce, regarding Saguaro land problems.

Superintendent King and Assistant Regional Director Davis visited Tumacacori National Monument, and the Mt. Lemon area north of Tucson.

Publicity.

Mr. C. Omera, of the Arizona Daily Star, visited the area on July 31st to obtain material for an article on Saguaro.

The Arizona Daily Citizen carried an article on the meeting between the Saguaro Land Committee, of the Tucson Chamber of Commerce, and National Park Service officials in regards to alienated land within the monument.

Maintenance.

The interior of Manning Camp cabin was painted a light color, and the tent frames at Manning Camp were painted during the past month.

RECEIVED
AUG 31 1949
NATIONAL PARK SERVICE
REGION THREE OFFICE

Hitching posts and saddle racks were installed at Manning Camp.

The trail from Madrona to above Cross Shack was widened and brushed out during the month and water bars repaired.

The grader was repaired and returned to headquarters on the 16th. Laborer-leadman Stansberry graded the road leading into Madrona Ranger Station on the 18th and 19th.

Rehabilitation of the fire patrol trail has been completed and the trail signs made last winter have been placed.

Four days was spent repairing the Spud Rock pasture fence so that government mules can be pastured there after the close of the fire season.

Several information and directional signs were repainted during the month.

Approach to Park Area.

The county grader was in operation the latter part of the month and bladed the Broadway approach road. The road is in fair condition at this time.

Interpretive Service.

A total of 566 persons in 142 parties were given interpretive service at headquarters. This amounted to 37½ hours for an average of 15.7 minutes per party.

Museum Activities and Exhibits.

Twenty-three posts were cut, creosoted, and numbrical signs affixed, to supplement the proposed self-guided nature tour through the cactus area.

A rough draft of the information leaflet to be used on the proposed nature tour was submitted to the Regional Office on August 19 for review.

Research and Observation.

The survival of Gambel Quail chicks seem to be excellent with several coveys noticed in the Madrona area.

Several White-tail does and fawns have been observed on Mica Mt.. They appear to be in excellent condition.

Increase or Decrease in Travel.

A total of 1261 people visited Saguaro during the month. This is a increase of 24% as compared to last month and an increase of 532 visitors over the corresponding month a year ago.

Five parties consisting of eight persons spent fifteen visitor days in the mountainous portion of the monument.

Visitors.

Willis J. Gertsch, Curator of Insects and Spiders, American Museum of Natural History, New York, N.Y.

Mrs. Gertrude Elwin, 161 Pentlog Road, South Wales, England.

Mr. A. Yochelson, Assistant State Land Commissioner, State of Arizona.

Mr. C. Omera, reporter, Arizona Daily Star, Tucson, Arizona.

Miss Marion Woodard, London, England.

University of New Mexico, Archeology and Anthropology Field Trip, fifteen persons.

Ranger Service.

Rangers Benson and Wilde, and Fire Control Aides Lopez and Oram exposed themselves to the Ranger examination on August 15. No predictions as to results can be obtained at this date.

Ranger Wilde has devoted most of his time to the supervision of fire detection organization, procurement of supplies, and construction and repair at Manning Camp.

Ranger Benson has been at headquarters conduction the interpretive program, miscellaneous maintenance and construction, and administrative details. One trip was made to the forested area to obtain photographs.

Forest Fire Protection.

The fire tool racks were completed at Manning Camp during the month.

The fire danger class has varied from dormant to moderate during

the past month and no fires have been reported.

Two fires were observed in the Catalinas by our lookouts and were reported to the Forest Service for action.

We anticipate separating the Fire Control Aides, and one trail laborer, August 31.

The trial fire tool kiosk, made out of surplus tin and poles, was completed at Mica Mountain Tower. If it proves successful during this winter, others will be constructed at the secondary lookouts.

Communication.

The new phone was installed at headquarters on July 27 and has greatly improved communication with Tucson. The new number is 6-0553.

Miscellaneous.

Marvin "Pop" Frost has contributed time and effort in the installation of our nature trail. Mr. Frost has also made several contributions of photographs to our interpretive display during the past month.

Estimates were submitted for maintenance and operation for fiscal year 1951.

Samuel A. King
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Sunset Crater NATIONAL MONUMENT

Flagstaff, Arizona

August 25 19..49

Memorandum

To: Regional Director, Region Three

From: Ranger in Charge, Sunset Crater

Subject: Monthly Narrative Report, August 1949

Weather: The past month was drier than July with cold nights which resulted in one-third of the bean crop of nearby farmers being frost-bitten.

Roads: More complaints than ever before have been received concerning the wash-boarded condition of the entrance road from Highway 89. The majority of these complaints come from people who do not know how to drive wash-board and who will drive it at 10 to 15 miles per hour.

Travel: Visitor travel increased again this month: 34% over August of 1948 and 9% over last month. A total of 2958 persons registered which we estimate represents an actual travel of 7596. Orientation talks were given to 1682 people, the average time spent on this phase of activity being 13 minutes. Other interpretive aids were used by 2068 persons.

Interpretation: A nature walk exhibiting many features of vulcanism and ecology was surveyed with Regional Naturalist Dodge and Superintendent Jones. When put into effect this will aid materially in reducing the concentration of visitors in the parking area and certainlly will give a better impression of this area.

Protection: Lightning strikes were observed in the area on three occasions, but fortunately no fires resulted. One fire was surpressed on the Coconino National Forest on the 14th. Acreage estimated at 1/10 acre. Approximate location five miles north on Wupatki road.

RECEIVED AUG 29 1949

Wildlife: The carcass of one doe was found within the boundary and one buck just outside. Both had apparently been killed during the hunting season last year.

Visitor Use: The following groups were in the area during the month: Prairie Trek Expedition of 29 from St. Louis, Mo.; 25 RAF cadets; 36 RCAF cadets; 24 touring teachers from the NEA; and 85 persons from the Southwest Bible Conference in Flagstaff.

NPS Visitors: Among the NPS visitors this past month were District Ranger Pete Shuft of Grand Canyon and Regional Naturalist Dodge.

Activities of Outside Agencies: The Arizona Power Company will complete this fall a power line at least to the Highway Camp at the summit; commercial power will thus be available within 2½ miles of our proposed headquarters area.

Personnel: Ranger Owen Reynolds is resigning effective August 31st.

General: A much needed supply of two-fold leaflets was received this month. General cleanup of the area and the restrooms took no inconsiderable amount of time as usual.

Owen L. Reynolds
Ranger-in-Charge

Through Superintendent Wupatki

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Tonto National Monument
Roosevelt, Arizona

August 25, 1949

Memorandum

To: The Regional Director, Region Three

From: Superintendent, Tonto

Subject: Narrative report for month of August, 1949

Weather. A fairly dry August, with about 1 inch of rain in occasional showers that sometimes cooled off the place. Relatively cool nights August 8 to 18, but hot again since. "No Smoking While Traveling" signs up again, due dry ground cover.

Approaches to Monument. Rough again, due to dry weather.

Travel. About 21% above August last year, with 844 visitors this August. With 16,474 for the travel year to date, we have already set a record despite bad weather in January.

Interpretive Services. Enough of our visitors made the trip to the ruins to give us 2 or 3 hikes up the hill every day, regardless of the heat. Tonto is finally a year round area, though I dont know why, as there are so many cool mountains near this hot valley.

Visitors. Sam Orem of Saguaro, and the New Mexico University field trip of 13 archaeologists, including Robert (Jake) Drake, conchologist.

General. The pickup was in the Stuart Onan garage twice, to have carburetor repaired, and connecting rods tightened.

Kalsomining the Museum ceiling is under way, and the walls will be painted with Kemtone. Window frames are repainted. The service porch and bathroom of 3-2 are being painted, and aluminum sheeting installed around the shower to preserve the plastered walls.

All power plants are in running order for the first time in months, after we received a shipment of Onan gaskets. Advise setting valves on Onans with good clearance, to get longer operation between overhauls.

Special. Archaeologist Pierson is on the trail of aerial photos of Tonto and environs, taken by the Forest Service. Will be able to get coverage of surrounding area, also a set of immediate area for reference of Branch of Plans & Design, and will try to have these before the end of September.

NATIONAL PARK SERVICE
TUMACACORI NATIONAL MONUMENT

Tumacacori, Arizona
August 25, 1949

To: Regional Director, Region Three

From: Acting Superintendent

Subject: Monthly Narrative Report for August, 1949

Weather Conditions: Ordinarily, August is a month of daily afternoon coulds, thunder and lightning, and rain either here or within the visible horizon. This August, our rain all fell during the first eight days of the month, followed by twelve cloudless days without even distent thunder storms. The rainy period ended with .9 of an inch of precipitation on August 8, and one of the biggest floods I've seen in the Santa Cruz. This run-off carried an unusual amount of debris, much of it large trees under-cut from the river banks; one large green tree took out the new foot bridge about a mile downstream from the Monument; the Amado bridge was weakened and one support almost washed away. The change both in location of flood channel and type of material forming the stream bed is noticeable all along the river below the mouth of the Sonoita (from which drainage most of the run-off originated).

By August 9 the ground was thoroughly soaked, and range grass and plants made some good growth; the following dry spell has caused the grass to go to seed, and the green is already going from the hills.

Precipitation for the month totaled 2.39 inches. (For the past four years, the highest August total was 3.64 for 1948, and the lowest was 1.89 for 1947.)

Maximum temperature for the period was 102; there were four days with temperatures over 100. Following the rainy spell there were eleven nights with temperatures in the 50's; minimum temperature was 53.

Travel: Travel continues to break records for our so-called "slack season"; 1,767 people visited the area, making it the highest August total since 1930 (when our visitor records begin). The second highest August travel was 1,648 in 1948.

Only one large group was registered--26 University of Arizona graduate students on July 30.

Personnel: Ranger Brewer returned from annual leave on August 3; Superintendent Jackson left for a month's vacation the evening of August 4. WAE Guide Whiting has been on duty four to five days a

RECEIVED

NATIONAL PARK SERVICE
REGION THREE OFFICE

week during the report period. Laborer Ramon Orozco entered on duty August 1.

Interpretative Services: It is in time spent on interpretation that the fallacy of planning on a genuine slack season at Tumacacori is shown. Total travel is way below our peak months, and only 764 visitors went through the mission; but there were 143 trips, an average of 4.6 tours a day.

1,618 visitors received information and interpretation services; 1,623 people saw the museum and patio garden.

The trend noted in the July report continues; over half of our visitors don't take time for the mission trip. Part of the reason can be the weather; on hot days the museum and patio garden look much more attractive to a weary tourist than a hot walk to the church. But lack of time is the chief reason; people are hurrying down to the border to get a glimpse of Old Mexico. Actually, there couldn't be a better way of getting a quick background for understanding northwestern Mexico than a visit to the Tumacacori mission church and museum--a fact our interpretive program might stress when the paved road is completed to Guaymas and more of our visitors are headed for something besides a glimpse at a border town.

Stabilization of mission church: The church is in generally good shape for the present, awaiting the stabilization and plaster-cleaning program planned for this fall. Al Whiting reported a small fall of mortar from between the bricks of the vaulting over the sacristy, after the rainy spell early in the month; this may mean that water is seeping into the sacristy roof, and adds that area to spots-to-be-checked. A coating of adobe was put over the exposed upper surface of the excavated wall east of the church, to give some protection from rain.

One major problem in stabilization is the preservation of the thin coat of very smooth plaster that lined the canales of the church; only two canales retain the original finish, and that is badly pitted from lichen action. On Mr. Hawley's recommendation we are experimenting with solutions of copper sulphate, to kill the lichen.

The shipment of tubular steel scaffolding, ordered for the job of cleaning the interior plaster of the church, was received at the Monument on August 18th (after a trip to Nogales to get one bundle shipped there, and a trip to Amado to arrange for a local trucker to haul the 1339 pounds of scaffolding that had been unloaded at Amado).

Museum and Education: Mr. Hawley, now doing chemical analysis with the U.S. Bureau of Mines in Tucson called on August 14, and was given samples of the black material which was embedded, with red brick fragments, in the exterior plaster of the church and cemetery wall, as a spot decoration. This black material has often been called slag,

but matches pieces of over-fired brick so well in general appearance that we have been more inclined to think that it was obtained from reject bricks from the mission kiln. The problem of determining the origin of slag-like material, so often found around mission sites, is part of the research on the larger problem of the existence of Spanish mines in this vicinity. Having seen this material result from kilning operation in this region, we are very skeptical of the presence of "slag" constituting proof of mining operations.

Taking advantage of Al Whiting's familiarity with anthropological material and museum cataloguing techniques, we gave him the spare-time project of making an inventory of museum accessions and of sorting and organizing our storage collections. It was a job that badly needed doing, and should be completed by another week. We have 420 catalogued objects, including five loan collections. At the beginning of the job a quick check showed catalogue cards for 104 objects which did not seem to be physically present; Al reports that after excavating among storage boxes and delving into secret tunnels and hidden passageways behind museum exhibits, the list of missing objects has been whittled down to 53 (and most of these are manos and small bits of copper, which we suspect may be in a yet-undiscovered cache). In his search, he found at least 35 objects which should be catalogued. Of course, provenience is unknown on most of these uncatalogued objects, but once they are catalogued there is, at least, a record of them and we may be able to get more information on them. The bulk of our storage collection is housed in the shop; there, one new shelf was built, material was sorted, and all perishable artifacts put into one of the metal specimen cases. Some mouse damage was discovered among the early 20th century Papago baskets stored in the shop.

Physical Plant: The installation of the new oil furnace in the museum basement was completed on August 4 by the contractor, Don Means of Tucson. The old furnace was taken away by the contractor on the same day. On the 23rd one of Means' men returned to insulate the flues with asbestos covering.

The new Servel regrigerator for Res. #1 was installed, and on August 8 the faulty thermostat of the new box was replaced. This installation was by the Home Gas & Fuel Company of Tucson.

Maintenance for most of the month consisted of routine cleaning and minor repairs; at the end of the month the annual job of applying linseed oil to all woodwork was begun, with all exposed wood treated to date.

Grounds and Patio Garden: The seeding of Black Grama grass was begun August 1 and finished August 4. Areas seeded were: west of the museum-mission trail for about 100 feet; east of the trail to the warehouse; east of museum to Res. #1; ruined quadrangle east of the mission. After the rains of the first part of the month the weeds grew fast in most of these areas; on the 17th and 18th the weeds were scythed and left on the ground for a mulch. However the continued lack

of moisture since the 9th has probably been fatal to any grass seeds that did sprout.

While the ground was wet enough a great deal weeding was done by pulling them up along the trails, in the patio, and around the mission. After the ground became too dry to let the roots go, the tallest growth was scythed, beginning where the weeds were most unsightly and most in the way. There is still plenty of scything to be done.

Patio work this month has combined jobs ordinarily spread out over the year; besides weeding, insect control, cultivating, and clean-up, the long dry spell has made deep irrigation necessary, and the problem of saving the mesquites has made pruning necessary. Last month's report mentioned the splitting of a large mesquite in the patio. Since then two more large branches have split from the trunk. The olives and mesquites are the only large trees in the patio, and are very necessary both to its charm and its ecology. We can see now that bad balance was the cause of branches splitting from the trunk; over the years branches had been cut when they grew too far out over a walk, and overcrowding by newer planting had prevented the tree from making a natural recovery of balance. The pruning done this month was only that necessary right now to save the trees (cutting off of heavily-laden ends of branches bearing mesquite beans, pruning longest branches, and cutting back shrubs that were preventing balanced growth of the trees); this winter a thorough pruning job should be done, with an eye to restoring natural balance to all large planting. A gopher was trapped in the patio this month, with a trap borrowed from a neighbor. Gophers, squirrels, and ground squirrels have been getting very thick on the grounds, but we declared instant war when one invaded the patio.

Wildlife: There is one tragedy and one new family to report under this heading. A dead road-runner was found on August 8th, evidently dead for more than a day or two; cause of death was undetermined. No doubt it was one of the pair whose nest was reported in July. The young were in the nest (four of them) on the 4th; later inspection proved the nest empty, and we hope the young were able to take care of themselves before the parent died.

Skunks regularly raid the garbage can at Res. #2; on the 12th we watched a mother Hog-Nosed skunk teach her brood of five babies the technique: you push the lid a few inches to one side, and crawl in and look around; then you crawl out (maybe the can falls over while you do this, but that just makes it easier to explore the contents); the children seemed to be apt pupils and none of them were disturbed by a human audience about 3 feet away. When the lesson was over and the inedible remnants scattered a bit, all six of them left across the back stoop, walking slowly with tails high but very friendly.

The absence of bats should really headline this report. We notice

that Casa Grande thought last month the bats might be staying away because they were short a maintenance man, and wonder if our bats could have heard that a project to screen the mission is afoot. Whatever the cause (and we have no doubt it is temporary), for the first time in six summers here there has been no bat activity in the mission. The absence of guano was first noted on July 6th; no bats were heard in the church until August 18th; for the past few days one bat has been roosting in the museum arcade, and several have been heard in the mission; but daily sweeping of the mission has not yet had to be resumed.

NPS Visitors: Mr. Davis and Mr. King (of the Saguaro Kings) were in on August 3; we were glad Mr. Davis could work in some time here on his Saguaro trip.

General: The Tumacacori meeting of the Pimeria Alta Historical Society, mentioned in the July report, was postponed because of conflicting dates with a convention in Nogales and absence of many members on vacations.

Two acquisitions were made to our library: the George Parker Winship work on the Coronado Expedition (BAE, 14th annual report), a donation from Southwestern Monuments Association; and two "Greater Registers of Santa Cruz County, Territory of Arizona", for 1902 and 1904, the gift of Mrs. Ada Jones, County Recorder.

Treasure hunters in the hills west of the mission are getting along well; judging from results, the idea seems to be to hunt treasure and only a few itinerants are discouraged at not finding it. The regulars may have had a few reinforcements; one man came here from the Superstitions, reporting that he was getting out of there, there was always some shooting, but it had gotten worse the last few summers. The only new development we know of is the appearance of a light, or lights, seen from the Dio Volente camp, nearly every evening (unless there is lightening, when these lights don't appear). The lights seem to be in the general vicinity of the mission, their estimated speed is two miles a minute, they sometimes revolve and make patterns, they are much more regular in showing themselves than the "flying saucers" recently reported by reputable Nogales citizens. As far as we know, only the treasure hunters have seen our lights.

Sallie Brewer

Sallie Brewer,
Acting Superintendent.

TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA.

AUGUST 26, 1949.

MEMORANDUM for the Regional Director, Region Three.

Following is the monthly narrative report for Tuzigoot National Monument for August, 1949.

Visitors this month - 3011 Travel year to date - 16,489.

Travel Data: Travel this month set a new high for any month of any year ~~since~~ since the monument was established. 3011 compared with 2438 for August of 1948. The 3011 visitors arrived in 857 cars. With the constant increase in population, more automobiles in use and the urgent desire to see our Parks and Monuments, it is very clear that within five or ten years we are all going to have quite a job on our hands. This is the first time in the monument's history the 3000 mark has been broken during any one month.

Weather. Unusually dry and hot for this time of the year. Rainfall much below normal. Only two light showers during the month.

Guide and Contact Service. Museum, ruins and orientation contacts totaled 6861 for the month. 2592 people in 757 parties were shown through and given an orientation lecture in the museum, and 2639 people in 770 parties made the trip through the ruins. Average time spent by each party in the museum was 20 minutes. The ruins required 20 minutes per party.

Personnel Time. Museum: 262 hours, 35 minutes. Ruins: 257 hours, 35 minutes. Total time for Bright: 227 hours, 10 minutes. For Richert: 293 hours.

Noteworthy Visitors: August 27, Mr. Everett Newcomer, photographer and feature writer for THE ARIZONA REPUBLIC, Phoenix. He took pictures of the Supt., museum exhibits, and the ruins, and compiled information on the Monument for a story to be released in a future Sunday Supplement Section.

August 3. Mr. J. H. Bannan, Bureau of Public Roads Administration, Phoenix, who studied and discussed our Master Plans relating to the proposed entrance road.

August 19. MacDonald Carey, Actor, accompanied by three technicians and photographers, who are on location near Sedona filming a picture entitled "The Bowie Knife."

August 20. Mr. and Mrs. A. D. Haworth and Son. Mr. Haworth is Associate Editor of THE DESERT magazine.

Special Groups. Student groups from three state teacher's colleges, all Kansas schools, visited during the month, and were given special talks and guided tours of the ruins by the Supt. and Arch. Each group comprised 30 students and teachers, traveled by chartered bus, maintained prearranged itineraries and schedules.

RECEIVED AUG 29 1949 NATIONAL PARK SERVICE REGION THREE

CONTINUED FROM PAGE 1.

August 6. Fort Hays State Teachers College, Hays, Kansas.
August 8. Emporia " " " , Emporia, Kansas.
August 15. Pittsburg " " " , Pittsburg, Kansas.

Maintenance and Projects. Excessive visitor use, a deteriorating sewer line, and low water pressure combined to clog the Monument's entire sewage system. Coming at the peak of visitor travel, it was necessary to hire a plumber with specialized tools. On August 18, he, and Arch. Richert dug for half a day when they encountered the clogged line leading from the Museum to a point where it is joined by a line from the Quarters before going to the sewer. (No plans showing this junction are on file, so extra digging was required). Faulty, broken, and clogged lines were removed and replaced with 16 feet of Orangeburg tile. Drawings of the line have been made for future reference and added to the fact file. Using a Wrico lettering set, we made new labels for three museum exhibits. New signs and price tags were also made for the SWMA sales display, in addition to other informational signs in the museum. Considerable time was spent the early part of the month in hoeing weeds in room floors of the ruins.

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Walnut Canyon National Monument
Flagstaff, Arizona

August 25, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Walnut Canyon National Monument

Subject: Monthly Narrative Report, August, 1949

Visitors this month, 4186; travel year to date, 18689.

General Twelve hours of contact servi e was maintained each day through the report month. This left little time for anything other than routine activities.

Administration On August 7 and 8 Ranger Leding made a trip to Santa Fe to bring back a Ford pick-up transferred here from Lake Texoma. Our old Army Dodge pick-up was transferred to Wupatki in exchange for theirs which will be held as a trade-in.

Ranger Leding took the Park Ranger examination on August 15.

Two trips were made to the Arizona Power Company office to check on the assurance that we would get commercial power by early fall. Nothing definite has been learned to date except that work is under way to extend power lines in this vicinity.

Weather Rain during the second week in August reduced travel for a few days. On the nights of August 15 and 16 the temperature dropped below freezing and farmers along the highway found their fields of beans and corn severely damaged or completely ruined.

Use of Monument by the Public This month brought 4186 visitors in 1178 parties. Visitors contacted numbered 4072 in 1143 groups for a total of a 122 hours. An estimated 3140 persons made part or all of the trail trip into the canyon. Parties visiting the museum numbered 928 for 3417 persons. 497 people in 96 groups used the picnic area.

The National Education Association brought its second organized tour in for the season. A group of thirty came in on the 11th.

Roads and Trails A drag was borrowed from Wupatki and used with doubtful success on our entrance road. We are in need of some hand work on this road but have not been advised that any funds are available.

RECEIVED AUG 29 1949 NATIONAL PARK SERVICE REGION THREE

Meteor Crater On July 28th the Flagstaff Chamber of Commerce passed a resolution urging that Meteor Crater be made a national or state monument and on August 16 the resolution was rescinded. Richard W. Barringer, representing the Standard Iron Company owners, pointed out why he felt the Crater was administered more satisfactorily under private ownership.

Maintenance Numbered tacks were attached to the 24 air vent and meter boxes along the water line. This will aid in positive identification of any particular box along the line. A narrative description of the location of each box was prepared.

A broken window in the ladies' rest room was repaired.

Southwestern Monument Association Sales We have been unable to secure new shipments of the most popular items sold here which has reduced our sales considerably. From a back-order of several months we received 100 packs of black and white pictures of Walnut Canyon and these were gone in less than ten days.

The book ARIZONA'S NATIONAL MONUMENTS open to the article "A Monument to Vandalism" has been returned to the publications case as directed by Ass't. Reg. Director Davis.

Interpretation Our supply of two-fold leaflets ran out July 25 and we began passing out mimeographed information leaflets from a stock on hand. These ran low August 14 and since that time we have been giving leaflets only to those who made special inquiry about them. A new supply of two-fold leaflets was shipped out of Washington Aug. 12 but these have not arrived.

The possibilities of a nature trail extending east from the museum along the north rim of the canyon have been studied and several suggestions tabulated.

Pressed herbarium specimens totaling 142 were shipped to the National Museum, Washington, D. C. for re-checking the identifications.

Copies of the books ETHNOBOTANY OF THE HOPI and ETHNOBOTANY OF THE NAVAJO have been received and will be used to work out some statements about plants along the "Island" trail.

It has been necessary to remove the glass from several museum cases for replacing burned out fluorescent tubes. The cases have service panels above them but the lights are suspended in such a way that the service panels are not satisfactory.

An article about our museum exhibits was prepared by Ranger Loding for consideration by The Arizona Daily Sun.

Artist Paul Coze visited the monument to discuss water color paintings from which post card copies would be made for sale. Mr. Coze would concentrate on aspects which cannot be photographed.

A part of the Wetherill collection of pottery from the Kayenta area was transferred here from Mesa Verde where it had been kept for many years.

A file has been started for our museum cases. Each case has a card on which we intend to enter all the data that can be gathered about the exhibits in that case.

A Zenichrome picture of Tonto Ruins was received and will be used in one of our museum cases.

Protection Two ladders to be used in fire protection at the quarters were completed.

A 15 lb. carbon dioxide fire extinguisher and a 1 qt. carbon tetrachloride extinguisher were transferred to us from the Regional Office.

Sup't. Hastings made a trip across Walnut Canyon on August 18 to check on the possibility of cross canyon communication by aid of a megaphone. This was found fairly successful until it became windy.

Supplies and Equipment A large anvil and a heavy duty chain hoist were transferred here from the Regional Office.

Signs Our entrance sign has been given two coats of linseed oil and the letters re-painted.

The monument approach sign on old Highway 66 was removed and is being refinished for use on the new highway.

National Park Service and other Visitors Superintendent and Mrs. Brewer and Navajo Ranger Seth Bigman from Navajo National Monument.

Regional Forester Carlson was here on July 30.

Former Sup't. George W. Baxter took this Superintendent to some cloth signs placed in 1945 along the approximate east boundary line of this monument. Some of the signs are still in fair condition.

Sup't. and Mrs. Sharp were here from Tonto.

Architect and Mrs. Saunders and Mrs. Richardson and daughter were here briefly.

Chief Ranger C. J. Merriman and family were here from Natchez Trace.

Ranger Pete Schuft and party were here August 18.

Lewis T. McKinney, former Superintendent of Chaco Canyon and Arches visited here on August 19. He now resides in Prescott.

Homer F. Hastings
Superintendent

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
White Sands

Box 231, Alamogordo, New Mexico.

August 25, 1949.

Memorandum

To: Regional Director, Region Three

From: Superintendent, White Sands

Subject: Monthly Narrative Report

AUGUST TRAVEL, 1949 — TRAVEL YEAR TO DATE

Visitors, 22,773 Cars, 5,151 — Visitors, 130,485 Cars, 30,545

GENERAL

Good weather, plenty of publicity, and lots of friends have sent our figures soaring again, surpassing any like month since we began recording travel figures.

Twenty-two thousand seven hundred and seventy-three visitors in five thousand one hundred and fifty-one cars passed through our gates during the hours we were at the checking station. We are already almost ten thousand ahead of our entire 1948 travel year, and a good month yet to go, so we should exceed last travel year by some twenty to twenty-five thousand visitors.

Ranger Chittum and I made a trip to El Paso for some supplies, and while there we attended to other matters dealing with the monument.

PUBLICITY

Several press notices were noted during the month on our increase in travel. Several papers, too, carried the notice of Invitation to bid on the concession at White Sands, and a couple of large picnic groups had a big write-up in the Las Cruces and El Paso press; in particular was the State 4-H Club annual meeting at Las Cruces, which held a big supper and initiation at White Sands.

RECEIVED AUG 30 1949

COMPLAINTS

Believe it or not, we have had several people complain because we did not charge more for admission into the area but, with little effort on our part, these complaints were readily taken care of. No complaints were received on the White Sands Service Company.

ROADS & TRAILS

Joe and Harold have been working almost steadily on the roads all month. A dozer borrowed from the White Sands Proving Grounds enabled us to clear out several of our big cuts and we also changed about a mile of road while we had the machine. This will relieve us of several large dunes that would soon cause trouble. We very much appreciate the use of this piece of equipment, and it did assist us materially.

RANGER SERVICE

All the boys have been on full duty and, of late, we have attempted to keep a ranger attending the museum for interpretive purposes and to assist visitors in the headquarters area. The checking station man has little time to answer the many questions asked during August. Rangers Chittum and Nelson took the Ranger's Examination in Las Cruces on August 16.

COOPERATING AGENCIES

A conference was held in Alamogordo, with city officials, in connection with the supplying of water by Alamogordo to this monument. The Holloman Air Base has offered to assist in every way possible to enable us to secure, through them, both water and electric power.

OFFICIAL VISITORS

Mr. and Mrs. Doty, of Washington and from Secretary Chapman's office, stopped in for a few minutes. We had hoped to have Mr. and Mrs. Northrupt and family but they must have changed their minds, or if they did come by we did not know of it.

Visitors from the Region included John Davis, Mr. & Mrs. Lessiter, Kenny Saunders, and with Ralph was Mr. Kittredge from the Washington Office. Mr. Charles Chrisler was in the area but I missed seeing him. George Thompson of the State Tourist Bureau was in taking pictures for Joe Bursey.

Next month, of course, will slow down a lot right after Labor Day, but we have a lot of outside work to do and, since my crew will start taking vacations soon, we will be minus a regular employee all the time. We are looking forward to the final month of the travel year holding up well, and putting us well ahead of our banner year just past.

Johnwill Faris,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

August 25, 19 49

Memorandum

To: Regional Director, Region Three

From: Superintendent, Wupatki

Subject: Monthly Narrative Report, August 1949

Weather: Precipitation is below normal for this month, the effect being particularly noticeable in the delayed development of the vegetation. Total rainfall is 1.62 inches so far this month compared to 2.22 for the same period last year and 2.35 for last month. Rain fell on eight days and on only two days did the temperature reach 100°.

Roads: All approach roads are in relatively good condition, although the spotty character of the rainfall has influenced road maintenance within the area and the approach from Sunset Crater. In the Greater Arizona Clinic report on Coconino County particular mention was made of the inadequate road system in Wupatki National Monument as being a detriment to the tourist income for this region.

Travel: Under present travel conditions it is impossible to present adequate service to our visitors and protection to our ruins with a staff of only two men. We are positive that our travel figures do not reflect actual visitation; many of our visitors do not register. If we are to maintain our present standard of service it is essential that we have one additional temporary ranger during the heavy travel season.

According to our figures there was a total visitation of 1195 persons of whom 833 registered at Wupatki and 362 at the Citadel. A total of 815 individuals received guide service at Wupatki in 157 groups for an average time of 55 minutes per group. Travel represents an 18% increase over the same period last year.

Special Activities: One day was spent going over possible routes for roads within the area with Landscape Architect Carter and a BPR representative. While it would be impossible, within fund limitations, to keep the entire entrance road within NPS lands a route was chosen which meets specifications and is the most desirable from an administrative standpoint. One day was also spent with Regional Naturalist Dodge at Sunset Crater relative to the proposed nature trail and other problems of that area. Among other things we have studied and adopted the pertinent portions of the new Correspondence Manual.

Status of Private Lands: All field action pertaining to the acquisition of the Heiser Springs property has been completed and we are awaiting a decision of the Washington Office regarding the acceptability of the title and deed forms.

Communication: With the near completion of frequency change and repair of radios we have spent considerable time corresponding about and attempting to set up a vertical aerial. The forty foot one has proven too difficult for us to install and we shall content ourselves with the thirty foot variety.

Spring Flow: Our springs are producing more water than at any previous August reading. Heiser measures 3627 g. p. d. and Wupatki 467 g. p. d. This decrease from last month is seasonal fluctuation.

Visitors: NPS visitors to the area include Landscape Architect Carter, Rangers Leding and Schroeder of Walnut Canyon and Montezuma Castle, Superintendent Sharpe of Tonto and Superintendent Hastings of Walnut Canyon, Superintendent Brower and Temporary Ranger Seth Bigman of Navajo National Monument, and Temporary Rangers Bob Vicklund and Dave Goodwin.

Other visitors included Dr. Gladys Reichard, who is continuing her Navaho studies; Mr. Edgar Snow and Photographer Gene Lester of the Saturday Evening Post, who are gathering information for a "Cities of America" article on the Flagstaff vicinity.

Navahos: The rains have made it possible for the Navahos to be grazing their sheep outside the boundaries. Clyde Peshlacai has been taking care of the sheep purchased by Trader Emmett Kellam on lands to the south of us.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

RECEIVED
AUG 29 1949
NATIONAL PARK SERVICE
REGION THREE OFFICE

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF [illegible] INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

DEFINITION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical Aides.

"ADMINISTRATIVE" are Rangers, Superintendents, etc., called on to assist with interpretation.

"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, or Museum interiors, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers using Service arrangements. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, museum station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispersing literature rather than interpretive service should not be considered as attended interpretive stations.

INTERPRETIVE SERVICE: Any factual matter relative to physical development, physical facilities, geographic limitations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, travel accommodations, lodge and camping accommodations, and similar matters outside of the area requesting which visitors inquire.

NATURAL HISTORY: As an example or illustration of the ramifications of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits, information stations, and overlooks, wayside shelters housing interpretive devices, roadside exhibits, self-guiding nature trails and auto tourist routes, and the like at which Service Personnel is not on duty. Entered blank will mean in any cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

NUMBER: 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

NUMBER: 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

DURATION: 3 Shows the AVERAGE amount of time of each class of Service, or the approximate amount of time spent by visitors in using each interpretive device. Some study of visitor habits must be made with personal observation at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form and the number of activities only. They should not be included in the totals in the lower right-hand corner of the form.

REMARKS: A summary of interpretive services furnished visitors within the area should be given on the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

WHERE REPORT SENT: From all National Park Service areas providing any interpretive services. Send one copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating representatives also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 10, Chapters 4 (Report Data) and 5 (Report Dates).

RECEIVED
AUG 29 1949
NATIONAL PARK SERVICE
REGIONAL OFFICE

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical Aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were open may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, and device listed in each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at choosing intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field on foreign areas, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (museum, contact station, museum rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing information rather than interpretive service should not be considered as attended Interpretive Stations.

Information is factual matter relative to physical developments, physical facilities, geographic location, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

Interpretation is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visits using exhibits-in-place, orientation stations, and overlooks, wayside exhibits, museum interpretive services, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed by individual Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Also total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checkups at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area as provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive services, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

This report due: from all National Park Service areas furnishing any interpretive services. Send to Chief to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the person originates. Cooperating superintendents also should be provided with a copy. One to the Regional Director's office and when [illegible] the month following that covered by the report.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, or historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (library, contact station, exhibit room, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing information rather than interpretive service should not be considered as attended interpretive stations.

INTERPRETION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ASSISTANCE RENDERED OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

SUGGESTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total and enter in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at convenient intervals.

INTERPRETIVE ASSISTANCE RENDERED OUTSIDE THE AREA are included on this form as a matter of general interest only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this figure will probably record a total considerably in excess of the visitors registered in the area during the same period. However, the total number of visitors to the area during the month should be shown.

WHERE SENT: From all National Park Service areas providing any interpretive services, send one copy to the Regional Director who will forward one to the Director. One copy should be retained by the Superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Dispose of in accordance with instructions in Administrative Manual, Vol. 10, Chapters 2 (Report Mail) and 3 (Report Sch...

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

GUIDED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service Areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDANCE AT INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing literature rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, ruins and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical Areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Duly due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report #43) and 9 (Report #41).

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

RECEIVED
AUG 21 1949
ATTORNEYS, SERVICE FORUM TRUSTEES OF

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.). Count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8n3) and 9 (Report 9n3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS ENQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

RECEIVED
SEP 1 1949
NATIONAL PARK SERVICE
REGIONAL OFFICE
SAN FRANCISCO

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME JOHN O. COOK

TITLE Superintendent.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like, who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checks at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For publication, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 9aX) and 9 (Report 9aJ).

It includes data on routes and rates, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report Em3) and 9 (Report 9m3).

NATIONAL PARK SERVICE
REGIONAL OFFICE

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

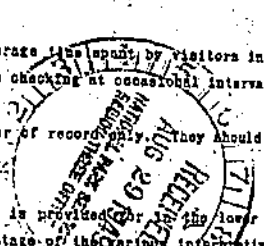
CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.



INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill Out Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" personnel are naturalists or ranger naturalists, historians, and historical aides.
"ADMINISTRATIVE" are custodians, superintendents, etc., called on to assist with interpretation.
"OTHER" are rangers, clerical personnel, and the like who may be called in to help interpret the area.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as Attended Interpretive Stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the Superintendent or Custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 5th of the month following that covered by the report.

"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

NAME R. S. Kelly

TITLE ~~Ranger~~

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

~~The museum was kept open between the hours of 10:00 a.m. and 7:00 p.m. each day and lighted with power from our own portable light plants.~~

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURP[illegible] OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF [illegible]ERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers with Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.). Count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Record the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive services, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9. (Report 9m3).

NATIONAL PARK SERVICE

ARCHES NATIONAL MONUMENT
MOAB, UTAH

September 27 , 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Arches National Monument

Subject: Monthly Narrative Report for the month of September, 1949

WEATHER: One rain storm occurred on September 13 and with it came a definite relief from an exceedingly hot spell. Maximum temperature went to 99 degrees and the minimum dropped to 54 degrees, giving us cool nights for the last two weeks.

TRAVEL: Our travel figures for the month show a 7% decrease from last month, but our annual count of 13,282 people gives us a 56% increase over the 1948 travel year. A total of 1888 people visited the monument in 559 cars, from 35 states and 9 foreign countries, during this report period.

INTERPRETIVE SERVICES: Contact tips amounted to 166 hours and 50 minutes, in which 1458 people received information about the area. Eight guided trips were conducted by Rangers Reed and Worthington with a total attendance of 36 people. Six illustrated talks were given by Ranger Reed and one by Ranger Worthington. These talks were outside the area on the Rangers' own time.

ROADS: The one rain on September 13 enabled Maintenancemen Winburn to blade all the roads in the area. However more moisture is needed to put them in top shape. He spent 76 hours blading and applying shale to the sandy part of the roads. Steel guard posts with reflectors have been placed at the ends of all narrow culverts.

CONCESSIONS: Mr. Ross Musselman started operation of his saddle horse concession on September 3 and reports, todate, the renting of 77 horses. With advertising and operation during the heavy travel season he believes it will be a paying proposition.

SPECIAL ACTIVITIES: On September 24 Mr. Wilson McCarthy, President of the Denver & Rio Grande Railroad, and thirteen members of the Board of Directors were served lunch at the Balanced Rock. After lunch the party was taken on a tour, via car, of the monument, stopping at the three parking areas. In their schedule there was not sufficient time allowed to see the area except from a car; however they seemed very impressed with what they did see and many expressed the desire to return when they had more time. From the monument they were taken to Dead Horse Point where they enjoyed the spectacular scenery and a supper of beef steak and sourdough biscuits. The next day they continued on to San Juan County and Monument Valley.

BOUNDARIES: A meeting of the District Advisory Board at Moab was attended on September 12 by Forester Ratcliff, Ranger Worthington and Superintendent Wilson for the purpose of working out a solution to the Paxton Grazing problem. Six members of the Board were present and the BLM was represented by District Grazier Warren Gray and Kent Johnson. Mr. Paxton did not attend the meeting, although he had been notified well in advance by both Superintendent Wilson and Kent Johnson BLM. Little progress was made as the Board was definitely reluctant to make any commitments without Mr. Paxton being present. At the suggestion of the Board, that there might be some good grazing land within the north boundary which could be eliminated from the area without endangering any natural features, we agreed to investigate this possibility. This investigation was started on September 16, but we were unable to accurately locate the boundary line. On September 22 Ranger Worthington and I located our boundary on the NE Corner of Sec. 26, T 23S , R 21 E. From this point we will ride the entire North boundary and be able to submit an accurate and complete report on our findings.

NPS VISITORS & INSPECTIONS: Forester Harold M. Ratcliff arrived the evening of September 11 to attend the Advisory Board meeting on the 12th. September 13,14 and 15 were spent with Mr. Ratcliff inspecting forest fire danger at Natural Bridges National Monument.

VANDALISM: Ranger Harry Reed apprehended a party of four who scratched their names on a rock at the Windows Section. The Thorough but tactful lesson on "where not to write your names in an NPS area" was driven home by the long hour they spent in removing their names.

GENERAL: The electric wiring of the addition to the Trailer House was completed. The two windows on the porch of the Trailer House were set and the bathroom floor and partition finished. Flues and furnace in the Superintendent's Residence were cleaned made ready for winter use.

Bates E. Wilson
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

24 Sept 1949

MEMORANDUM

To: Regional Director, Region Three

From: Superintendent, Aztec Ruins

Subject: Superintendent's monthly narrative report

WEATHER: General weather and travel conditions for the month have been quite nearly perfect. Our travel, however, has been below that of September last year, altho only slightly.

SPECIAL ACTIVITIES: Wayne E. Borth and Howard E. Davis, Office of Investigations, General Accounting Office, Washington, D.C. inspected the area Sept 20, going over accounts and inventories.

PLANS, MAPS AND SURVEYS: With the completion of the new residence and landscaping of the residential area, we are currently revising our master plan in the Region Three Office.

MAINTENANCE: The installation of three, four foot fluorescent lights in the museum was completed and has added much to the pleasantness of the rearranged museum.

Poison grain was placed within the ruins as a part of our rodent control program.

Laying of sidewalks from the new residence to garage was started and will be completed before the first of October.

Damaged pipes which were rusted and cracked in the connections between the gas pump and storage tank, and which had allowed the loss of some gasoline over a period of a number of months, were replaced Sept 22.

NEW CONSTRUCTION: Work in constructing a yard wall and the laying of sidewalks in the residential area is 3/4 complete.

DONATIONS-LOANS: A loan of rather unusual and quite interesting Indian "medicine" paraphernalia was made to this museum for possible display, by Mrs. James Cunningham, Farmington, N.M.

INTERPRETIVE SERVICES: There were 2,059 visitors in 271 parties shown the museum and 1,711 visitors in 192 groups conducted thru the ruins.

AZTEC

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

MUSEUM EXHIBITS: We have rearranged the exhibits in several of our museum cases, and some of the cases have been relocated in our floor plan, following the plan worked out with the Regional Technicians about a year ago.

DECREASE IN TRAVEL: September 1949 shows a decrease of about 1% in travel over September 1948, however for the travel year which has just ended, our travel is up approximately 4%.

This month we have had 2,059 visitors in 645 cars from 39 states, Wash. D.C., Canada, Cuba, England, Holland, France and Palestine.

RANGER SERVICE: Temporary ranger, Donald T. Rippey completed his appointment Sept 18. His two temporary appointments at Aztec have been exceptionally well carried out and we feel it a considerable loss, knowing that he will not be back.

PROJECTS FOR OCTOBER: Completion of residential landscaping, repair museum-administration building roof and other roofs in the ruins area.

Irving D. Townsend
Superintendent

in triplicate

AZTEC

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

September 28, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Bandelier

Subject: Monthly Narrative Report, September, 1949

Weather

The weather throughout the month has been generally pleasant with a few hot days. The hottest day was 95 degrees on the 3rd and the coolest was 38 degrees on the 21st.

.75 inches of rain fell during the month with the result that the roads and trails were very dry and dusty most of the time.

Special Activities

With the termination of the temporary rangers after Labor Day it became necessary for the Superintendent and Clerk to assist with guiding the tours through the ruins. This interfers with administrative work but is necessary until we can have additional personnel.

Inspections

Assistant Regional Director Davis and Regional Chief of Concessions Lloyd visited the area on the 28th to discuss the general operation of Frijoles Canyon Lodge with the concessioner and the Superintendent. We are particularly interested in increasing the volume of business handled by the Lodge by improvement of signs, stimulation of information, and improvement of services.

Maintenance

The sewer line to the comfort station stopped up twice during the month and it was necessary to open it up at several places in order to clean out roots that were causing the stoppage.

The installation of the sink in the dormitory was completed and linoleum was laid in the bathroom of residence two.

DEFENSE BUY UNITED STATES SAVINGS BONDS REGULARLY

The screens at the office were cleaned and repainted.

The weeds in the ruins that have been such a problem since August were finally cleaned out. Gramma grass seed is on hand to plant in the ruins but dry weather has made it inadvisable to attempt it at present.

Approach Road and Trails

Some work was done on the approach road at the first of the month but dry weather made it very dusty most of the time. Heavy hauling for an Atomic Energy Commission construction project contributed to the generally poor condition of the road.

The drainage was improved on the ruins trail and weeds were cleared along the edges. The trail to Corral Hill was also improved at some bad spots.

Concessions

The concessioner reported more guests for September this year than last but fewer lodgings. There were 201 guests as compared with 164 and 352 lodgings as compared with 419 for September, 1948. The Lodge will close on the 30th of September this year.

The saddle horse concession had reasonably good business during the month and will remain until October 3rd.

Interpretive Service

2543 visitors were conducted through the ruins on 156 trips. This a little more than half of the total visitors for the month and indicates that many visitors were picnickers.

Seven informal talks were given during the month but it was not possible to continue them after the temporary rangers were terminated.

Travel

Travel to the area continued to show about the same increase as during July and August. There were 4810 visitors as compared with 3616 for September, 1948, which is a 33 percent increase.

RECEIVED
OCT 3 1949
NATIONAL PARK SERVICE
REGIONAL FIELD OFFICE

Total visitors for the travel year were 34,321 as compared with 28,072 for the 1948 travel year. This is by far the greatest travel for year in the history of the Monument.

Visitors

Visitors included the following persons:

Mr. Long, Director of the Museum of New Mexico on September 4

John Kell, Regional Lands Division, and Robert Ludden, Directors Office, September 12.

Professor Dunham, University of Rochester, spent the 22nd and 23rd in the area studying obsidian as a possible source of material for scientific mirrors.

Mr. and Mrs. Northington, Superintendent of Fredricksburg National Military Park, September 25.

Wildlife

More wild turkeys have been seen in and near the area this fall than for the past several years. A flock of twelve have been ranging about halfway between headquarters and Ceremonial Cave during most of the month. At least three flocks have been seen just out side of the boundaries along the approach road.

Insect and Tree Deseases

Dr. Milford, Bureau of Entomology and Plant Quarantine, made an inspection for forest insects in Frijoles Canyon on the 15th. The only serious infestation is the tent caterpillar and no indication of beetles were found in the pines.

Miscellaneous

The Mountain States Telephone Company connected a line in to the area on the 6th and we now have a telephone that we can hear over. Service on the Forest Service line to Espanola will be discontinued on October 1. It was necessary to continue the use of this line through September for Frijoles Canyon Lodge.

Fred W. Binnewies
Superintendent

Canyon de Chelly National Monument
Chinle, Arizona

September 26, 1949

Memorandum

To: The Regional Director, Region three

From: The Superintendent, Canyon de Chelly National Monument

Subject: Report of Activities during September, 1949

Weather Conditions

Weather conditions were about normal for the month with .75 inches of moisture. The maximum temperature was 94 degrees and the minimum was 38.

Administration

Building reports were completed and submitted and office work is current.

Maintenance

General maintenance of buildings and grounds has been carried on as time permitted. The roads to White house and Spider-rock were maintained and improved after they had been damaged some by rains. Two days were spent in working the White house trail. The Superintendent and Ranger Morris also assisted Archeologist Steen in pottery repair, etc.

Travel

The travel year has closed showing a great increase over any previous year. 2,219 persons visited the Monument this year as compared with 2,458 in 1948, and 2638 in 1940 which had previously been our highest figure. This is an increase of over 25 percent over last year and 6 percent over 1940.

Visitors

Visitors this month included Mr. Oden Hulsenkramer of Santa Fe, Mr. Charles Collier, brother of former commissioner of Indian affairs John Collier. Dr. and Mrs Tom Noble, Jr. of Indianapolis.

N.P.S. Visitors

Mrs. and Mr. O. P. Northington of Fredericksburg Va.

Interpretation

Practically every visitor was contacted this month and a total of 55 hours was spent in guide and contact work. The excavation of Tsetaŝah has proven an interesting feature to those who have made the Canyon trip.

Archeology

Archeologist Steen completed the excavation of TseTA'ah on September 24 and material was packed and loaded for shipment to Santa Fe for Storage. Mr. Steen will now start on Stabilization work at the White House ruin.

Dr. Thomas Noble while here devoted a great deal of time photographing the excavation of Tse Ta'ah and artifacts with some of his special lenses and equipment. He has sent a very fine group of projection slides. He also left a very fine Nicer tape recorder for our use in recording things of interest and working out lectures to go with projection slides.

SOUTHWESTERN NATIONAL MONUMENTS
COOLIDGE, ARIZONA
CAPULIN MOUNTAIN NATIONAL MONUMENT
September 25, 1949

MEMORANDUM for the Regional Director
Region Three, National Park Service
Santa Fe, New Mexico

There follows the narrative report for Capulin Mountain National Monument for the month of September, 1949:

Visitors: There have been about 3,000 visitors to Capulin Mountain National Monument during the month of September, making a total of twenty nine thousand one hundred for the travel year, and sixteen thousand eight hundred visitors for the fiscal year.

Weather: The weather during the month has been unusually warm and dry, except for very cool nights. No frost has been noticed as yet.

Flora and Fauna: Have seen very few deer in the Monument area lately, but owing to the splendid season we have had for grass and shrubs, it is likely that they are staying more in the foothills. Am positive that they have not been molested by poachers.

Roads and Trails: Roads in the area have been dressed five times during the month, and with the exception of a few outside washes and a little broken crust, the roads are in good condition.

Information Pamphlets: About 1,000 pamphlets have been distributed during September. Have about 9,200 on hand now.

Special Visitors: Mr. P. P. Patrow, Assistant Regional Director, was a welcome guest, making his first visit to this Monument this month. Mr. Patrow and the Ranger spent some time in the Monument area, and hiking around the rim. While here, Mr. Patrow gave the Ranger some splendid advice which was greatly appreciated. Hope he can visit us again soon.

Two of the boys from the Soil Conservation Service called on the Ranger and asked permission to use a plot of ground 36 inches square inside the Monument area, as a comparison with a like amount under heavy grazing outside the area. Permission to do this was granted.

Very respectfully,

Homer J. Farr
Ranger

CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

September 25, 1949.

Memorandum

To: Regional Director, Region Three

From: Casa Grande National Monument

Subject: Monthly narrative report for September, 1949

General: Cotton picking has been going on in full force this last month and should be a good crop in spite of some heavy rains in the vicinity. Because of the rain the cotton did drop a value and some fields were washed out quite badly and the fields were too wet to pick for several days. The cotton pickers in the Salt River Valley have been on strike for higher wages but there has been no trouble down here, they did raise the pay from $1.25 to $2.50 per hundred pounds, it doesnt make much difference what you pay them as they will only work long enough to buy a sack of beans and a bottle of whiskey and then quit, half the time they forget about the beans. The Coolidge Boosters, the local softball team won the state softball tournament which was played in Coolidge and then went out to the coast but were eliminated after three games.

Water Situation: Now that the cotton is ready to pick, all the big irrigation pumps have shut down so maybe our well will pick up a little water without it being pumped out from under us. All reports indicate that next years cotton acreage will be cut around a third which should cut down the pumping and ease the situation a little but they'll just plant something else and keep right on pumping.

Weather: The days are still hot but it's been cooling off nice at night and blankets are needed every night. The maximum was 110 and the low maximum was 85 and the minimum was 59. The total rainfall amounted to 1.06 inches.

Visitors: September 1949 - 1,395; September 1948 - 1,179: this is a gain of 216 over September of last year. This winds up our 1949 Travel Year with a total of 31,529 people which is a drop of 4,600 from the 1948 Travel Year of 35,929. For the last few months the travel has been running steadily higher than a year ago so if we have a mild winter the 1950 Travel Year should surpass the 1949 Travel Year.

Interpretive Service: Of the 1,395 visitors to the area, 868 made the trip to the ruins in 138 groups averaging 45.5 minutes per trip. There were 507 people here for a quick look did not go through the ruins.

N.P.S. Visitors and Visitors of Note:

August 25 - Mr. Sam Hendricks, Region Three Office
September 28 - Mr. and Mrs Daniel Otto photographed the ruins for magazine FORD TIMES.

Administration and Protection: Eight requests for information were answered and literature sent as requested. The Adamsville site was checked for vandalism but no evidence of any was found. Office work has been kept current.

Maintenance: With the arrival of the new maintenanceman we have really gone to town on cleanup and maintenance as there was quite a backlog of jobs that had accumulated in the 2½ months that we were without a maintenanceman. The museum, administration building and surrounding grounds received top priority to ready them for the coming heavy travel season. Besides the general clean up there were numerous other odd jobs both big and little: the fuel pump was replaced on the ford pickup; the hydraulic door stop on the womens rest room was repaired; the toilet in quarters # 2 was repaired; the roofs all checked after a rain and no new leaks found and all patches put on in July have held, several potential leaks on quarters # 4 were repaired and the drains cleaned; we are starting to repair the picnic tables - new bolts, sanding; filler and painting - five of the ten tables are about finished and we will have all of them in good condition by the time it is cool enough for picnics. There is still quite a bit of work to do but we have put a good big dent in it in the 25 days that our maintenanceman has been with us.

Personnel: Ranger Arnberger left for Washington on September 9 to attend the Department Management Training Program. Mr. Sam Orem entered on duty at 8:00 AM September 8 as seasonal Ranger and will be here until October 10 when Superintendent Bicknell's leave expires. Mr. Paul Donham entered on duty at 8:00AM on September 1 filling the vacancy left by Carroll Barnett as maintenanceman. We are glad to have a maintenanceman again as the heavy travel season is about here and we will have to devote all of our time to the visitors.

Leave: Archeologist Davis returned from leave on August 29, and reported for work August 30. Superintendent Bicknell went on annual leave Sept. 1 and is spending most of it here in the desert.

Daniel E. Davis,
Acting Superintendent.

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Chaco Canyon NATIONAL MONUMENT

Bloomfield, New Mexico

September 28, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Chaco Canyon

Subject: Monthly Narrative Report

Chaco Canyon finished the travel year with flying colors. 183 persons visited the area this month. This is 9 per cent more than a year ago. Total for the travel year is 1372, which is 12 per cent greater than the preceeding year!! Of the 183, all went through the ruins, forming 50 parties, and 182 formed 38 parties and took time to see the museum. The ranger spent 60 hours and 55 minutes and the superintendent spent 23 hours with these people.

The warmest this month was 93 degrees Fahrenheit on the 1st and 8th: the coolest was 38 degrees on the 21st. It rained three times for a total precipitation of 0.47 of an inch. This last helped some after the dry August.

The approach roads have remained dry, most of the month, but very rough. The visitors have consistently complained about them. The Monument roads have been graded, but the tractor is too light to be very effective, and the hill is in a deplorable state. We have not been asked to pull any one up this month, but we have seen tracks where the cars have made it part way up, then backed down for another try. Also, we have found where visitors have used rocks to scotch their cars. The hill is getting so it washes down to bare rock several times during a season. It is an 18 per cent grade!

The 1000 gallon gasoline tank was installed below ground. The pipes (four of them) were connected. The tank did not leak, and all pipes functioned perfectly, except one — the surplus return pipe. It leaked a drop or two each time the gas ran through it. We have used litharge and tried other measures, but it still leaks. A minor matter which will be fixed in a few days.

The small, 550 gallon gasoline tank was removed, and placed in the oil storage shed. Fuel oil was delivered on the same trip as the gasoline and placed in the container. We got immediate delivery when we ordered the gasoline and fuel oil (formed a full truck load and one contractor had both contracts) and we expect better cooperation from the oil companies now that they can bring more than the 550 gallons in one load to this isolated spot.

Both light plants have been out of order this month. One, however, is being brought in today, repaired, and it is hoped that it will last a while.

More preparations for winter have been made. The stove and flue in the Office have been thoroughly cleaned. The sewer lines at the residence were opened, cleaned with a rod and closed again.

The ranger and superintendent visited Kin-kle-tzin ruin, found no evidence of vandalism and the fence in good shape.

We had a visit from O. F. Northington, Superintendent of Fredericksburg and Spotsylvania, Virginia. He seemed to enjoy Chaco, and we hope that he will return. Herbert E. Kahler and Erik Reed were in for a brief visit. Dale King paid us a short visit, and helped straighten some of our museum, fact file and observation record tangles. Joseph Thoms who surveyed Natural Bridges National Monument more than 40 years ago was in, and gave us some interesting archaeological information. Also, Mrs. Eleanor Walters, who was a tutor for the Wetherill children here in the Canyon about 1908-10, told us some interesting tales. Howard N. Davis and Wayne E. Barth, from the General Accounting Office, spent most of one day here.

Projects for the ensuing month:- complete the rock work about the water tank, repair the signs, and start the Soil and Moisture fall program.

There follows the report of Archaeologist Gordon Vivian.

Irving McNeil, Jr.
Superintendent

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Chaco Canyon National Monument
Bloomfield, New Mexico
September 26, 1949

MEMORANDUM for the Superintendent, Chaco Canyon National Monument

This is the report of Mobile Unit activities in your area during September 1949.

With continued dry weather and the men staying on the job(since we have been laying them off for a week for an unexplained absence) good progress has been made both at the major project of Pueblo del Arroyo and in the maintenance work at Chettro Kettle. Some work has also been done at Be 50 on an intermittent basis.

Stabilization of del ~~Xxxxxx~~ Arroyo is continuing along the west and middle portions of the central house block. This is an area of 1½ story roomsand superimposed kivas with 3 additional kivas on the east side at plaza level. The entire area was in generally bad condition due to no drainage and the washing of debris from higher levels down into the kivas.

The most extensive work was done on kivas D and E. In addition 12 rooms were stabilized and this includes drainage correction as well as patching and support work.

While cleaning out debris to reach the bottom of a break in room 50 the skeletons of a dog, a parrot and 2 turkeys were uncovered. Though there were no offerings these appear to be definate burials since they were well articulated and the dog appeared to have been covered with a pile of loose rock. Ray Rixey cleaned photographed and removed them .

Three men have spent most of the month at Chettro Kettle in maintenance and completing several small jobs that were left last year. It will require most of the coming month to complete this work. If time allows we will also begin repair of the great kiva which has remained untouched since the end of the University work in 1934. The main wall is in good condition but the floor features and antechamber are poor. Since the drainage work in 1947 there has been no flooding of the kiva from water gathered in the plaza and it is expected that repairs made now will be permanent.

The work at Be 50 has been carried on only as extra men and a truck are available. So far it has been confined to backfilling a large trench immediately against the west side of the ruin and starting to backfill a huge sump left at the south. Wall repairs will not be attempted until the drainage is completed.

During the month the 2 kivas at the 3C site were backfilled.

In addition to the usual chores which include pumping the Monument water Don Hartle and Art Werito have hauled 9 tons of cement, 1 ton of lime and 1 load of lumber from town. They also brought in 6 loads of concrete sand and put a new ceiling in the office. In his spare time Don has started to restore some of the pottery which has been on hand for a while.

On the 19th Ray Rixey was converted from temporary to competitive status in his position of SP-6.

Ray has spent most of his time out on the various jobs while I have been checking over his Walnut Canyon report, keeping up the stabilization records and taking photographs.

In the coming month we plan to continue of the present basis with perhaps more time spent on the Bc 50 and 51 sites.

Gordon Vivian
Archeologist

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Chiricahua National Monument
Dos Cabezos, Arizona

Memorandum

September 25, 1949

To: Regional Director, Region Three

From: Superintendent, Chiricahua National Monument

Subject: Monthly Narrative Report

Weather Conditions. Lightning storms have slowed down some. Several quite gentle rains fell during the period and on the whole the weather has been quite nice.

Inspections. Engineer Hendricks made a short visit to Chiricahua August 30. An inspection was made of roads and trails and cost accounting was discussed.

Maintenance. The badly worn oil walk around Headquarters was replaced with flat rock and cement. Also included were walks to each of the three residences, the administration building and Headquarters rest rooms. All of the force helped some with this work.

Boundary Marking by the rangers and Superintendent has continued when time could be spared.

Approaches to Monument. Approach roads have remained in fair condition with the exception of the Bowie road. A heavy rain washed this road badly through Apache Pass and some difficulty was experienced in traveling over it.

Concessioners. No concessions for meals and lodging at Chiricahua. The Silver Spur Guest Ranch, on private land within the Monument boundaries, has again re-opened under new management. This provides a place for monument visitors to secure meals and lodging. The new management seem to be very capable, congenial people. LIFE photographers covered their trip to the ranch from St. Louis, Mo., and took some pictures on the monument while here. It is too early to know if the pictures will get into LIFE or not.

Interpretive Service. 1,432 visitors were shown around the museum in 321 parties. Two conducted trips were made with photographers, and others.

Museum Activities and Exhibits. Several excellent pictures of Chiricahua scenes were received from Mr. Roy A. Whipple, famous photographer. These are 16 x 20 inch pictures and they will be framed for hanging in the museum.

Ranger Service. Temporary Ranger Reynolds returned to the University of Arizona, where he is majoring in Anthropology. He took the ranger examination while here, and, like others, reported it to be pretty tough.

Clair V. Cooke

Clair V. Cooke,
Superintendent.

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
ElMorro

El Morro, New Mexico

Sept, 26 49

Memorandum

To: Regional Director, Region Three

From: Superintendent, El Morro

Subject: Monthly Narrative Report for September, 1949

Weather: On the 13th we received .85 inches of rain in just less than an hours time. The rest of the month we enjoyed clear, cool September weather.

Inspections: Dr. Erik Reed, Regional Archeologist, and H. Kahler, Assistant Chief Historian, were in the area the 21st. Much information was obtained from Dr. Reed concerning the interpretive program at El Morro.

Approach Roads: Some improvements on the bridges just east of Ramah, New Mexico, have been made by the State Highway Commission and the steep hill in the same vicinity is being cut down. The contract has been awarded for the construction of the road near the Ice Caves to the boundary of the Monument. The contractor has had a survey crew on the job for a few days recently and dirt will be moved any time now. Mr. Vidal, State Highway Commissioner announced that plans are under way for surfacing with oil the presently unsurfaced section of road north of the Zuni reservation toward Gallup. This will mean an additional 13 miles of good road leading to Gallup.

Interpretation and Visitation: The usual drop in visitation was noted soon after Labor Day but the nice weather of September has been favorable to travel.

General: Some additional wiring was installed in both residences. The clothes closet in the ranger cabin was lined with Celotex and all house holes were closed with plaster. Two days spent on maintenance of the light plants. One new highway sign was painted and installed. Some work was done on the trail leading to the mesa. One day was spent working on the Dodge pickup. A sheet steel floor (discarded water tank) was put in the coal house and the front of the house boarded against the weather. A thoroughly clogged sink drain in the superintendent's residence was cleaned.

RECEIVED SEP 27 1949 NATIONAL PARK SERVICE

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

El Morro National Monument

The Superintendent made a rush trip to Walnut Canyon "a su ocasta" to pick up a few items needed at El Morro.Much time has been spent on the El Morro land acquisition project.44½ hours overtime was spent on the fact file by all Monument personnel.

Cooperating Government Agencies: The C.A.A. put the Monument radio in working order and prescribed a change in antenna which seems to be working very well. The final thread of red tape was cut thus allowing El Morro to pick up as soon as possible, the 1,000 feet of underground cable not being used at the emergency air strip near here.

Special Visitors: Ex-senator Gottlieb was here on the 18th. Mr. Gottlieb is entitled to a major share of the credit for gettingroads built into El Morro.

Mr. King, a C.A.A. inspector, has been a frequent visitor during the month.

Mrs. E. Z. Vogt, wife of former Superintendent of this area, and son and family were welcome guests during this report period. Dr. Vogt is doing a study of social relations in this vicinity.

Personnel: Mr. Harmon D. Maxson was terminated September 12 and returned to the University at Albuquerque.

John A. Aubuchon
Superintendent

RECEIVED
OCT 1949
NATIONAL PARK SERVICE
REGIONAL OFFICE

Gran Quivira National Monument
Gran Quivira, New Mexico

Sept. 26, 1949

To : Regional Director, Region Three.

From : Superintendent, Gran Quivira

Subject: Monthly Narrative Report for September, 1949.

General. Bean harvest is now in full swing with much better yields than in previous years. Sunflowers are ripening but will not be harvested until after the first freeze.

Weather. Fall has very definitely arrived. Rainfall for the report period totaled 1.71".

Special Activities. On Sept. 12 the superintendent made a trip to the Regional Office to discuss monument business.

The superintendent visited Wupatki and Sunset Crater National Monuments from Sept. 19 to 25 inclusive.

General Publicity. An article on Gran Quivira prepared by the superintendent was published in the special "Bean Festival" edition of the MOUNTAINAIR PROGRESSIVE.

Maintenance. The entrance sign was repainted and relettered during the month.

Approaches to Monument. The Mountainair approach has been in good condition for the last 5 weeks. The Carrizozo approach is in fair condition. The Forest Service graded the entrance road on Aug. 26.

Interpretive Service. 74 parties totaling 305 visitors were guided through the ruins. Average trip time 47 minutes; total time, 58½ hours.

Self-guide Trail. During the month the new trail pamphlets were received and on September 17 the trail was staked out and put in operation. The superintendent has been absent for most of the time since then and has had little opportunity to study visitor reaction. The few reports I have are good. Unfortunately the pay-and-take system during my absence showed about 50% take and no pay which is not good. However I anticipate that a concentrated dose of "local education" will improve this situation.

RECEIVED OCT 3 1949 REGIONAL FIELD OFFICE

Increase in Travel. The travel year just ended shows a gratifying increase over last year. The bulk of this increase came from Albuquerque, Belen, Socorro and Carrizozo and should continue. More cooperation on the part of Mountainair business men was noted but much remains to be done to eliminate the "pile-of-rocks-on-a-hill" attitude. Correspondence between the Torrance County Boosters Club and the State regarding the transfer of Abo and Quarai to the Service was forwarded to the Regional Office. This indicates an awakening to the value of the National Park Service in administering such areas and regardless of the final outcome, provides a lever for better local support.

	CARS	VISITORS
September 1949	106	352
September 1948	104	336
Increase	2	16
Percent Increase	1.9%	4.7%
This Travel Year	835	2639
Last Travel Year	715	2226
Increase	120	413
Percent Increase	16.8%	18.5%

Wildlife. This has been a good year at Gran Quivira and the bountifulness of nature is now reflected in the increasing numbers of rattlesnakes returning to winter quarters. One can now stumble over one or two and up per day with no trouble whatever.

The following incidents this month may explain why the superintendent buys aspirin by the gross. Having conducted a party through the ruins, we returned to the parking area. One of the women stepped back to line up a picture of the group. While she was busily looking in the camera finder the superintendent was a bit disconcerted to note that she was standing directly astride a rattlesnake stretched full length in the sun. Any thing I could think of to say seemed superfluous. The lady took her picture, looked down - saw the snake - remarked quite calmly, "Oh, there's a snake - Its a rattlesnake isn't it? - My, its pretty." Very calmly stepped over it and that was that, except that it took some little time to pick up and redistribute the 5 pairs of eyes which had popped out and were rolling around the parking area.

On another day the superintendent went down the ladder into the pump well - having of course looked but not well enough. When I hit the floor about 3" from one he sounded off. I am wondering now if there is any future for a person who can climb 30 feet past the top of a ladder.

William L. Bowen,
Superintendent.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
GREAT SAND DUNES NATIONAL MONUMENT
MOSCA, COLORADO

September 26, 1949

Memorandum

To: Regional Director, Region Three.

From: Great Sand Dunes

Subject: Monthly Narrative Report

There follows the report of activities in Great Sand Dunes National Monument for September, 1949.

WEATHER. Ideal Indian Summer is being enjoyed by the entire San Luis Valley. Temperatures have ranged from high 70's to low 80's. The skies are beautifully blue and the aspen are golden splashes on the higher ranges.

The minimum of 39 degrees was registered on September 14 and 21. The maximum of 86 degrees was reached on September 3. The high minimum was 50 degrees on August 28. The low maximum was 70 on September 10.

There were 10 windy days and all came from the northeast.

Rain fell on August 26,31; September 3,9,11 and 13.

During this report period, there were 3 cloudy days; 15 partly cloudy and 13 clear days.

The entire valley and mountain ranges are very dry from lack of moisture. Snow has fallen on the high peaks, but soon melted.

TRAVEL. Three thousand nine hundred and fifteen visitors in nine hundred thirty-nine cars visited the Sand Dunes during this report period. Thirty-eight states were represented and also the District of Columbia. Two written requests were answered.

Two thousand two hundred and eighty-six people took advantage of the picnic areas and of these one hundred forty-eight camped over night.

INCREASE IN TRAVEL. For September, 1948 there were 627 cars and 2,502 visitors. There is an increase of 1,413 visitors for September 1949.

TRAVEL YEAR DATA. Figures for the travel year 1949, show 5,494 cars; 22,237 visitors; 35,135 visitor days. For 1948, there were 4,030 cars; 16,311 visitors and 23,931 visitor days. This years travel was increased by 5,926 visitors.

CONTACT. Contact with visitors was done on Sundays, lieu days and week days as time and work permitted. There were 15 days of actual contact.

There were two thousand five hundred and ninety five visitors contacted in five hundred eighty-three cars. Contact time averaged ten minutes per car.

Total contact time amounted to 97 hours. Sowers - 52 hours; Elliott - 45 hours and 10 mins.

LABOR DAY WEEK-END. Over the three day holiday, there were 238 cars and 1,037 visitors to this area. There were 76 campers. Ranger Elliott remained on duty on Labor Day and contacted 323 visitors in 80 cars.

NEWSWORTHY VISITORS. August 28, the Boy Scouts of Blanca, Colo., with eleven in the group who camped over night. August 30, the Boy Scouts of Aledo, Texas, with ten camping over night.

September 9, the U.S. Geo., Survey with twenty in the group. September 10, Gil R. Wanger, Ranger, Bandelier National Monument. September 11, two Sunday School groups; Hooper had fifty in the picnic party and Mosca had forty in their picnic group.

ROADS. The approach road from Mosca to our entrance has not been graded since August 13, and is of course, rough and corrugated.

MONUMENT ROAD. The monument entrance road and road to the picnic areas has been graded on several occasions, but because of the lack of necessary moisture, these roads are corrugated too. Visitors however, comment on the difference in size of corrugation when they cross the monument cattle-guard.

CONCESSION. Mr. A.W. Graves removed his horses on September 25, because of drop in travel and his own increase of work with Forest Service. His permit was until September 30, but with only one or two parties renting horses a day, it became advantageous to close the concession.

...is first year at this area, showed how a horse concession was needed and used by the public. Our next interest should be directed to a concession who could furnish the public with soft drinks, sandwiches and post-cards. Many people stop at the checking station and think that the Superintendents residence is a lodge.

TERMINATION OF RANGER. Dean H. Elliott was terminated on September 10, at 5 P.M. He has returned to classes at the University of New Mexico.

TWO-FOLD LEAFLETS. Ten thousand copies of the new 2-fold Great Sand Dunes leaflet were received on September 3 from the Director's Office. These are most welcome and should any area need a few for library or distribution, please write this office and supply will be sent.

Two hundred copies were sent to Region Three and fifty copies to Mesa Verde National Park. A supply of the Mesa Verde leaflets were requested, but only ONE copy was received by this office.

APPRAISAL OF LAND. On August 27, Mr. C.L. Shakespeare of Alamosa, Colorado, made the appraisal of the Wellington, Ziegler, Shockey and Williams property within Great Sand Dunes. Mr. Shakespeare is in the process of preparing the final report for Region Three.

fine thing No?

ACTIVITIES. Usual routine activities have been carried on as well as keeping all administrative and office matters current.

During the first part of this report period, current travel has kept us busy with contact work and the great amount of clean-up needed at the two picnic areas.

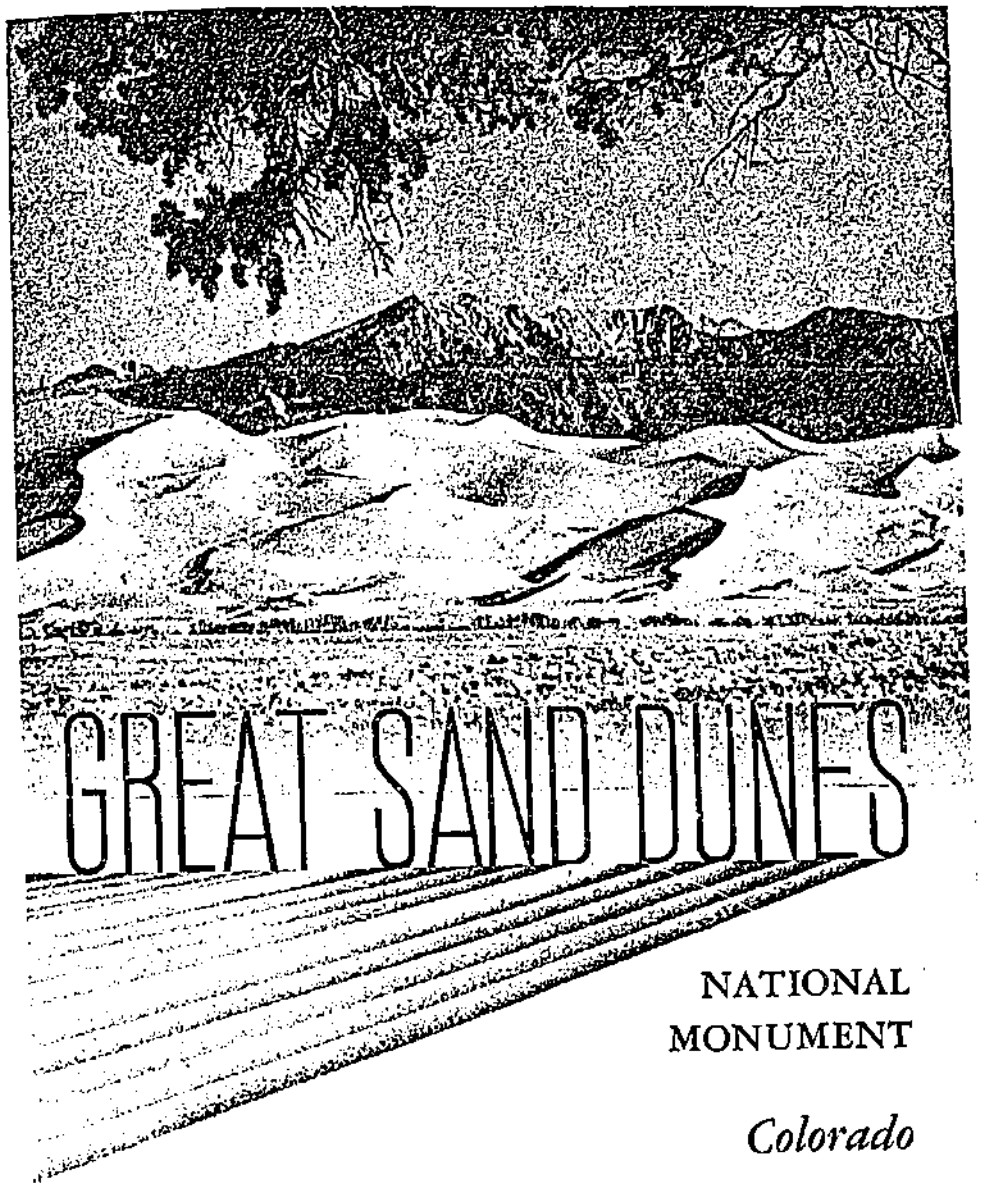
Hauled supplies, propane gas, more cinder blocks for house trailer and the winters supply of fireplace wood from Saw Mill Gulch.

Completed the temporary hook-up for the sewer system on house trailer. Gave area around trailer a general clean-up, and stacked all lumber in orderly pile.

Much road work, grading and removing large rocks from entire road system within the monument.

Trip was made to Monte Vista and Alamosa on Wage Board Rates for the hiring of labor at this area.

Also gave house trailer roof a coat of tar and paper on the seams, extra braces on foundation, 1x12" boards inside and out along bottom of trailer, along with wooden strips along sides and top, new stove pipe and draft control on oil heater, and started to place 5" galvanized tin strips on edge of roof to keep water off of trailer.



Hauled 1,000 gallon gasoline tank from Heide Motor Co., after it was tested for leaks. Placed this tank along with the 1,000 gallon fuel oil tank in hole on north side garage. This was quite a chore for two men, two dump trucks, chains and timbers. They are in place and ready for hook-up. This will eliminate the hauling and handling of these fuels, and more room will be had in the garage where barrels are now stored.

The new Ford dump truck was obtained from the Heide Motor Co., after a starter and spider gear installed, but still have the growl.

Gave propane gas cabinet a coat of Adobe Brown paint to blend in with building. General clean-up of tool shed and checked fire tools for winter.

PROJECTS FOR ENSUING MONTH. Be on duty October 15 to 30 during hunting season to warn all visitors of no hunting in this area. Continue road work and hope for some moisture. Complete hook-up on both tanks with pumps, and continue with contact work, Sundays and lieu days as time allows.

Ted C. Sowers,
Superintendent

GREAT SAND DUNES

NATIONAL
MONUMENT

Arizona Archeological Center Library

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Montezuma Castle National Monument
Camp Verde, Arizona

September 28, 1949

Memorandum

To: Regional Director

From: Superintendent, Montezuma Castle

Subject: Monthly Narrative Report, September 1949

Weather: Weather has been unusally warm for this time of year. Maximum temperature occurred September 22 when the mercury reached 104 degrees. Two heavy rains caused a total precipitation of 1.81 inches. On September 15 one inch of rain fell in twenty minutes, causing some damage to roads and trails.

Special Activities: On August 30, the superintendent made a trip to Prescott for the purpose of appearing on a fifteen minute radio program pertaining to Montezuma Castle National Monument.

Travel: Travel to this area is holding up remarkably well. 3843 people in 1244 cars visited the Castle and 1073 people in 341 cars saw the Well. This makes a total of 4916 people and 1585 cars to this monument, and represents an increase of 2320 people over the corresponding month of last year.

Interpretation: Despite the hot weather, 200 trips were made to conduct 1257 people through the Castle. This is a fifty per cent increase over the number of visitors who climbed the ladders last September.

The final draft of the Montezuma Castle booklet was rechecked and a few minor suggestions made. Research data maps were also submitted to Region for possible use in illustrating this booklet.

New room numbers based on the probable order of construction were assigned to the Castle and the fact file cards arranged accordingly.

Visitors: On August 28, a group of 13 archeological students from the University of New Mexico.

On September 17, John C. Knox, U. S. Game Management Agent, U. S. Fish and Wildlife Service, Phoenix.

On September 19, Ranger L. Mitchell & family, Lake Mead.

RECEIVED SEP 30 1949 NATIONAL PARK SERVICE REGIONAL OFFICE

Visitors, continued: On September 23, Mr. & Mrs. Auburn Anderson and children.

During the month, E. Hart, Guy Mays, Minor McPherson and families, from Grand Canyon.

Maintenance & Construction: On September 15, Mr. Davis started plowing the leased field at the Well in preparation to converting it all to permanent pasture.

Also at the Well, alterations were made to the septic tank so that the inlet can be cleaned without removing the cover.

Several directional signs were made and installed along the Sycamore Trail.

Personnel: Temporary Ranger Murray was terminated at the close of business September 17. As a result, the number of guided trips has been reduced to seven per day.

Ranger Clancy has been off duty the last two days with a sprained ankle.

NATIONAL PARK SERVICE

Natural Bridges National Monument

September 27, 1949

MEMORANDUM

To: Regional Director, Region Three

From: Acting Superintendent, Natural Bridges National Monument

Subject: Monthly Narrative Report for the month of September, 1949

TRAVEL: With the arrival of 420 visitors in 115 cars, travel for this period shows an increase of 60% over the same period last year. The annual travel count of 1609 people shows an increase of 16% over t the 1948 travel year.

INTERPRETIVE SERVICE: Total contact time amounted to 105 hours, in which 869 visitors were given information about the area. The campground was used by 46people for a total of 12 days on overnight stays. Three guided trips were made by Ranger Rodd with a total attendance of 10 people.

VANDALISM: Arrangements have been made by the parties who wrote their names on the rock wall near headquarters to have the carvings removed. It was found that they were not responsible for the broken ladder and other damage. A new protection-to-the-area sign has been placed at the head of the trail at headquarters.

INSPECTIONS: An inspection of the area was made on September 13, 14 & 15 in connection with Mr. Ratcliff's inspection of forest fire hazards. Mr. Ratcliff, Ranger Rodd and Superintendent Wilson rode for one full day checking the vegetation cover. Mr. Ratcliff suggested that a five-man fire tool unit be placed in the area.

PUBLIC HEALTH: A test of a tank of water from Maverick Springs showed it was contaminated and Ranger Rodd has since been hauling water from Kigalia Ranger Station.

GENERAL: One heavy rain washed out most of the trails in the two canyons and there has only been time to repair the impassable places.

Superintendent (Acting)

NAVAJO NATIONAL MONUMENT
TONALEA, ARIZONA

September 26, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Navajo National Monument

Subject: Report Iml

There follows a report of activities in this area for the month of September 1949.

VISITORS

126 visitors arrived at this area in 45 cars. They selected their activities as follows: 89 visitors, in 29 parties, used Sandal Trail for that inspiring rim view of Betatakin. 27 visitors took the healthful invigorating outdoor hike to Betatakin via the canyon trail in 8 guided parties. Five visitors horse-backed to Keet Seel in three guided parties. 87 people received the vest-pocket museum treatment in 30 parties. 72 visitors camped overnite. All visitors to this area were contacted.

N.P.S. VISITORS
Supt. and Mrs. Oscar P. Worthington, Jr., Fredericksburg National Cemetery on the 9th.

Paul and Elsie Spangle, Grand Canyon National Park on the 24th and 25th.

ANNUAL TRAVEL

Navajo National Monument had 770 visitors this travel year breaking all preceding records. 1,038 Visitor Days topped all records and presents a more accurate picture of travel as related to ranger/interpretive time. Last years travel totaled 505 visitors and 676 visitor days.

Rainbow Bridge National Monument.
484 visitors signed the register at Rainbow Bridge. 192 visitors reached the Bridge mulback, 247 hiked up from the Colorado River and only 45 hiked in on the mule trail from Rainbow Lodge. This is a decrease in travel from last years 572 registrants.

WEATHER

Days have been warm, nites getting cooler. Sunny days prevailed. Precipitation 0.52 inches total--on the 9th,10th and 13th. High temperature was 91 degrees recorded on the 1st, low temperature was 45 degrees recorded on the 9th.

ROADS

Approach roads have been in better than average condition thru the month. (see maintenance)

INSPECTION

Routine inspection and collection of annual travel statistics were performed at Rainbow Bridge National Monument Sept. 18, 1949. No new evidence of vandalism was observed.

The rebound register is handsome and back in service with the loose sheets that served while the register was being rebound reinserted in their proper places.

The trip this year was made via Marble Canyon Lodge and the Colorado River. The trip from the Lodge to Aztec/Forbidding/ Forbidden Canyon was made in Art Greene's excellent air propelled boat the "TSEH NA NI AH GO ATIN" (The trail to the rock that goes over). The 68 miles upstream was accomplished in six hours. Considerably less time than it took us to hike the 12 miles to and from the Bridge.

On the return trip we hiked up to the Crossing-of the Fathers and observed among other things Jeep tracks left by Jack Breed.

Joe and Joyce Muench, Mr. and Mrs. Wheeler Chase of Pasadena, Calif. were shipmates, Art Greene (Admiral) and Earl Johnson (Pilot) completed the party.

MAINTENANCE

Routine maintenance, campground policing, foot trails, etc., is current.

The winters supply of firewood was hauled and cut by Ranger Bigman at times when we had no visitors on the area.

A thirty foot retaining wall was constructed in Mile 5 reaching a height of 5 feet in the wash. This replaces an old retaining wall that rotted and washed out. The new log wall was erected 10 feet west of the old wall maintaining a straight line road right-of-way. 5 yards of fill were required.

Work progressed, as time permitted, on the rehabilitation of the hogan.

MAV. Report 1ml Con't.

PUBLICITY

The August issue of Arizona Highways carried Joyce Munch's article describing the boat trip from Marble Canyon Lodge to Aztec Canyon and thence by foot to Rainbow Bridge.

Preliminary work was started on the proposed two-fold leaflet for Rainbow Bridge National Monument. A map was prepared, photos selected and research for the text is underway.

GENERAL

Pinyon nut crop is a bumper. We expect a large invasion of nut picking families. The crop looks larger than the last good year, 1937, and almost 80% of the trees are bearing in this area. It's a cinch that the nuts that are not gathered will exceed the crop of any average year and that nature will retain her delicate balance. Rather than attempting a "Pinyon Picker Patrol", we prefer to let 'em have 'em.

PROJECTS FOR THE ENSUING MONTH

Additional work of rehabilitation on the hogan will be undertaken.

Coal (8 tons) will be hauled from the Kayenta mine.

Road and trail work will continue.

J.W. Brewer, Jr.,
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

ORGAN PIPE CACTUS NATIONAL MONUMENT
P. O. Box 38, Ajo, Arizona

September 25, 1949.

Memorandum

To: Regional Director, Region Three

From: Acting Superintendent, Organ Pipe Cactus

Subject: Monthly Narrative Report

There follows a report of activities for Organ Pipe Cactus National Monument for the month of September, 1949.

Weather

Midsummer heat continued through September with the maximum temperature for the report period being a 110 recorded on August 31. The minimum was 68 on September 15 and 16. Numerous heavy but spotty showers fell throughout the month to cause heavy damage to the boundary fence and roads in some places. 1.03 inches of rain fell at headquarters.

Special Activities

Senator McFarland and Congressman Patten of Arizona have corresponded with the Washington Office indicating that they are giving consideration to proposed legislation to change the status and name of Organ Pipe Cactus National Monument to Arizona Desert National Park.

Inspection of the water tanks built for the use of bighorn sheep on the Cabeza Prieta Wildlife Refuge by the Fish and Wildlife Service was made by Ranger Bean on a trip with Ace Kempton. The general plan used in the Cabeza Prieta, Bunkhorn, and Heart Tanks will be applicable to any tanks we might build in the higher ranges to catch the natural runoff to provide more sheep water.

Inspections

Highway Engineer Sam Hendricks of the Regional Office inspected roads and trails on August 27 and 28.

Status of Private Lands

Authority has been received from the Washington Office to

negotiate with Mrs. Birdie Del Miller for her Wall's Well property. The Indian Service has agreed to buy that portion of her land within the Papago Reservation if we are able to reach agreement with her. A Region Three representative is scheduled to visit here in October to conduct negotiations.

Co-operating Governmental Agencies

The Bureau of Animal Industry has begun preliminary work on a patrol road to be located on the neutral strip along the International Boundary from Lukeville to the mountains on the east. Their operator is doing a nice job and has disturbed only a minimum amount of vegetation.

A good well with over 40 feet of water has been put down in the southeast corner of the Cabeza Prieta Wildlife Refuge by Jim Havens. The well is located only about 100 yards from our west boundary and the International Boundary.

Increase in Travel

Visitors for the travel year 1949 increased 20,621 over the previous year. Overnight camping almost doubled from 1302 visitor days in 1948 to 2472 this year in spite of the absence of facilities and developed areas.

Visitors

Noteworthy and welcome visitors to our parched desert during the month were Ranger Forrest Benson of Saguaro National Monument, Highway Engineer Sam Hendricks of Region Three, and Dr. S. Charles Kendeigh of the University of Illinois. Dr. Kendeigh, major professor of Collaborator Max Hensley, visited us August 26, 27, 28 to check the areas used by Max for research.

Maintenance

Heavy showers between Lukeville and Quitobaquito washed the road quite badly but provided enough moisture so that Art Guinn has now put the road in the best shape I've ever seen it. One of the same showers just north of the monument took out over a quarter of a mile of fence next to the Bates Well cattleguard. The fence was rebuilt by force account with materials already on hand.

Personnel

Superintendent Supernaugh left on annual leave on August 31 with his family. Most of their vacation will be spent with Ann's folks just north of Chicago.

Notice was received from the Washington Office of the reallocation of the superintendent's position to a CAF-9.

General

The school situation at Lukeville has been front page news most of the month as the local residents found it necessary to hire a lawyer and obtain a court order before the county superintendent of schools would make provisions for the education of the school children. Mrs. Bean is now in the process of establishing a school district and Lukeville residents have made arrangements for a teacher and school building. School will begin as soon as a school board can be legally elected. Art Quinn's three children will attend school at Lukeville this year.

Heavy showers caused the Sonoyta River to rise and traffic to Sonoyta and Rocky Point was cut off for a week except for emergency entries allowed through the border at Quitobaquito along the old Sonoyta-Punta Penasco road. We have received an unconfirmed report that the earthfill dams on the river on the Colaya Ranch were washed out.

Glen T. Bean
Acting Superintendent

SAGUARO NATIONAL MONUMENT
Tucson, Arizona

September 25, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Saguaro

Subject: Monthly Report, September 1949.

There follows the monthly report of activities at Saguaro National Monument for the month of September, 1949.

General.

The early part of the month was rather devoid of all forms of precipitation and the fire danger was of threatening nature. Heavy rains during the latter portion of the month, although lowering the fire danger, managed to create havoc with our roads and trails. Extensive damage was sustained by the monument roads and trails due to the heavy rainfall of September 13, reported by a rancher on our north boundary to be 2½ inches.

The cactus forest road has been repaired and Maintenanceman Barney and Laborer-Leadman Stansberry have been assigned to trail repairs above Madrona Ranger Station to supplement Laborer Western who is working on the upper portion of this trail.

Three prisoners escaped from the Catalina Federal Prison Camp, two on September 1, and one on September 15. Ranger Benson assisted Federal guards in locating roads and trails within monument boundaries. This area is in direct line of the escape route and the last eleven escapees have passed within a quarter mile of monument headquarters. We were unsuccessful in apprehending the escaped prisoners.

Phone installed in Ranger Bensons' residence on August 31. The number is 5-2095.

Several lightning storms during the month resulted in one small fire on September 9 that was controlled with minor damage.

An increase in out-of-state visitations may be a harbinger of the coming winter months.

RECEIVED
SEP 28 1949

Travel figures for the 1949 travel year exceeds any travel year previously recorded at Saguaro National Monument.

Special Activities.

Superintendent King made two trips to the forested area during the month to inspect trail repairs and fire protection activities.

Ranger Benson made one trip to the forested area during the month to scout for possible fires.

Ranger Benson made an official trip to Casa Grande National Monument on August 28 to secure equipment transferred from other areas via the Regional office.

Ranger Benson made an un-official trip to Organ Pipe National Monument to acquaint himself with that area so as to render better interpretive service to southwestern visitors. It is Ranger Bensons' opinion that better interpretive service could be rendered to the public if it were possible for the interpretive staffs be given the opportunity to visit other areas in a more or less official capacity, and therefore supplementing their knowledge, while not making the employee bear the full expense of such trips.

[illegible]ions.

Regional Highway Engineer Hendricks visited the area August 29 and 30 to inspect roads and other facilities.

Status of Private Lands.

Superintendent King contacted Mr. Goyette, of the Tucson Chamber of Commerce, in regards to the Saguaro Land Committee. Mr. Goyette informed Superintendent King that most of the members of that committee were on vacation but that a meeting would be held in the near future to instigate action on the matter of land problems at Saguaro.

Maintenance.

Superintendent King and Ranger Wilde repaired the telephone line into Tucson by placing a new cable under the railroad tracks at Esmond.

Minor repairs to the grader were effected and the loop road graded during the month. All arroyos had to have new material dragged in, and had it not been for the Grader the repairs to this road after the very heavy rainfall of September 13 would have entailed many hours of hand labor.

Laborer Western was moved from Grass Shack to Manning Camp on September 8 to effect repairs on the Manning Camp-Grass Shack trail.

Laborer Frank E. Alonso was terminated on August 31.

The road into Madrona Ranger Station has been worked almost to the gate by hand and a considerable improvement has been accomplished.

Approaches to Park Area.

The Broadway approach road was in terrible condition after the heavy rains of September 13. At this writing repairs have been made to Monument headquarters but the continuation of the road to Madrona and Vail remains in poor condition.

Cooperating Non-Government Agencies.

Dr. Alice Boyle, Pathologist, University of Arizona, has made several trips to the area to obtain insect specimens and to inoculate diseased plants with penicillin. Our large Cristate near the loop road is beyond medical aid but Dr. Boyle believes she has saved the large Cristate near the Trading Post, south of monument headquarters.

Donations and Accessions.

Five hundred fifty gallons of gasoline was received on September 8.

Water cooler, electrically operated gasoline pump, and one scoop shovel received August 29, via transfer of property.

Seven tons of alfalfa hay and two tons of rolled oats acquired on September 15.

Three 11 x 14 photographs of Saguaros and related species were received September 8 by donation from Mr. Roy A. Whipple of Chicago, Illinois.

Interpretive Service.

A total of 486 persons in 130 parties were given interpretive service at headquarters. This amounted to 37½ hours for an average of 17 minutes per party.

Museum Activities and Exhibits.

The rough draft of the informational leaflet to be used on the

proposed nature trail was approved by the Regional office and further work has been delayed on this project pending receipt of the geological text to be submitted by Dr. Edward McKee.

Research and Observation.

Visitors reported 7 Javelinas, 3 adults and 4 young, observed in foothill region of cactus forest on August 27.

Numerous band-tailed pigeons were observed between Manning Camp and Happy Valley Saddle on September 10.

Increase or Decrease in Travel.

A total of 1016 people visited Saguaro during the month. This is a decrease of 15% as compared to last month and an increase of 449 visitors over the corresponding month a year ago.

Visitors.

August 26 - Ignacio J. Castro, Assistant Superintendent, Hawaii National Park.

August 28 - W. Goodpaster, Wildlife photographer, Cincinnati, Ohio.

August 29 - Regional Highway Engineer Hendricks.

September 9 - Mrs. G. Orbn and Mrs. A. Rhylebert, Leige, Belgium.

September 17 - Superintendent and Mrs. O. F. Northington, Jr., Fredericksburg National Military Park, Fredericksburg, Virginia.

September 17 - Mr. and Mrs. V. A. Acheson, Caracas, Venzuela.

Ranger Service.

Rangers Wilde and Benson Completed inventory at Madrona Ranger Station on September 13.

Ranger Wilde entered on military leave, September 16 to 30 inclusive. He will be on annual leave during the month of October and expects to visit his parents in Brigham City, Utah.

Forest Fire Protection.

Samuel A. Orem, Arthur C. Lopez, and Conrad Hernandez, Fire

Control Aides, were terminated on August 31.

Happy Valley Ridge Fire #1 reported by Laborer Western at 4:15 p.m. September 9. Laborer Western left immediately for fire and Ranger Wilds was dispatched from Madrona Ranger Station. Heavy clouds moving in over mountain area reduced visibility to zero and prevented location of fire until 9:30 a.m., September 10. Fire of .04 acres controlled with minor damage at 3:30 p.m. September 10.

The fire caches at the secondary lookouts were brought into Manning Camp, the tools sharpened, painted, and stored for the winter.

The weather station was dismantled and stored, and new wiring (BX) installed on the fire tower for the telephone line.

Grazing.

Nine head of government mules and one government horse are being pastured at Spud Rock. Two mules were put there August 15, and seven head on September 8. So far this year 149 grazing days have been utilized out of the Spud Rock pasture.

Miscellaneous.

We regret to report the death of the Mother of Seasonal Ranger Marvin H. Frost on August 23. Mr. Frosts Mother was the daughter of Marvin Hughit, President and Director of the Northwestern Railroad for many years. Mrs. Frost had resided the past number of years at Lake Forest, Illinois.

Samuel A. King.
Superintendent

RECEIVED
SEP 27 1949

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

September 28 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Wupatki

Subject: Monthly Narrative Report, Sunset Crater, September 1949

Roads: Road conditions have improved considerably during the past month with the hauling of clay over the rocky portions of the entrance road and blading when weather permitted. Complaints are forthcoming continually concerning the road, because it is not possible to eliminate the washboard for any period of time. We are now experimenting with a soil pulverizer that has been loaned to us for this purpose.

Travel: Visitor use increased again this month. A total of 1724 persons in 657 groups registered which we estimate represents an actual travel of 4310. This compares with 3817 for the same period last year and 7395 for last month. Due to lack of personnel on duty contact work suffered, and only 371 persons were contacted. Ranger Euler and Superintendent Jones shared the contact work here over the Labor Day period.

Personnel: Temporary Ranger Bob Viklund entered on duty September 15 from his previous assignment at Walnut Canyon. Ranger Owen Reynolds resigned effective August 30.

General: Visitor contact and cleanup work continues to be the primary duty of the ranger. An aerial meeting specifications has been erected and we expect to test for radio contact within a week. PCP program for Sunset Crater has been revised and we intend to visit the possible spring site reported by Joe Bean.

Visitors: Superintendent-elect Bowen was shown over the area and problems and procedures discussed with him. Dr. H. S. Colton and Major L. F. Brady of the Museum of Northern Arizona visited the area on September 15th to go over the proposed nature trail.

David J. Jones
Superintendent

In triplicate

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Tonto National Monument
Roosevelt, Arizona

September 25, 1949

Memorandum

To: The Regional Director, Region Three

From: Superintendent, Tonto

Subject: Narrative Report for Month of September, 1949.

Weather. Fairly hot month, many days 95 to 100 degrees. One good rain of 1.70 inches September 13 & 14.

Roads & Trails. State Highway Maintenance man Ab Sanders graded the entrance road September 3. The hard rain of September 13 promptly washed it out again, and it is now quite rough. Drainage on the ruins trail has been kept clear, but more extensive work waits for cool weather and a road & trail employee.

Travel. 915 visitors for September compare with 592 for same month last year. 300 came in over the Labor Day weekend. A record was set for the 1949 Travel Year with 17,387 visitors as of c.o.b. on September 25.

The summer off-season travel was considerably heavier than ever before.

Museum. The museum interior has been completely repainted, and will be in good shape for awhile. Archaeologist Pierson made a 35mm slide display frame in a window pane, which has increased sales considerably. He is at work on two textile display cases to be mounted on the wall. This will enable us to get out the better textile specimens now in storage.

Accidents. Tonto's first recorded auto accident occurred on September 4 when brakes failed on a visitor's old car and it overshot the terrace, falling into a 20-foot deep ravine. One man was slightly bruised. Very fortunate that no one was in the way. A separate report was sent in on this. Superintendents pictures on this lost due to faulty camera.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Visitors. Misses Mae and Evelyn Sharp, sisters of Supt. Sharp. Supt. and Mrs. O. F. Worthington, of Fredericksburg & Spottsylvania NMP. Dr. Marshall of the Desert Botanical Gardens, Phoenix.

General. No word from aerial photos from US Forest Service, which I had hoped to send in to assist in Master Plan revision.

The building reports were sent in without folders for 3 small buildings, as the deadline was near.

Some painting was done on Residence 2-2. Work on the pickup and Onan plants took up some time. Either of us can now overhaul an Onan plant with his head in a barrel.

Charles C. Sharp
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Tumacacori National Monument
Tumacacori, Arizona

September 25, 1949

Memorandum

To: Regional Director

From: Superintendent

Subject: Superintendent's Monthly Narrative Report for September, 1949

Weather Conditions: The month has been hot, and a little drier than usual. One of the worst mid-summer drouths in many years broke in the first week of September, and a total of 1.58 inches of rain has fallen since then. Temperatures ranged from a maximum of 107 on August 31 and September 1 to a minimum of 58 on September 24. It should be pointed out that the drouth, which commenced the second week in August, was a very spotty manifestation, and slightly higher elevations within ten miles of here received ample rainfall, in some cases.

Increase or Decrease in Travel: Visitors totalled 1,685, arriving in 459 motor vehicles. This visitor total breaks the previous September record high of 1,393 in 1946 by over 17%. This also constitutes the fifth straight record breaking month of the year. Despite this, our 1949 travel year total was only 25,720 visitors, as against 26,766 for the previous year, or a drop of nearly 4%.

Interpretive Service: 738 persons went on 138 guided trips through the mission church and grounds, receiving an average of 35.6 minutes per trip. 1,568 persons received combined Information and Interpretation Service, and 1,566 saw the museum and patio garden.

Visitors: September 1 - Mr. and Mrs. Noo Wheat. He is a professor of anthropology at the University of Arizona.

September 5 - A Catholic young people's group of 35. From Phoenix, they had been to Hermosillo, Sonora, and had planned a dinner and dance the night before. They said they were scared out by Red demonstrations in Hermosillo, with a mob of at least 1000 in the streets near their hotel, and fires burning on surrounding hills. So they pulled out of the city in a hurry, under cover of darkness, and their driver went the first two hours without lights. Later reports from Sonora indicated the youngsters had gotten a little over-excited.

September 10 - A group of 25, mostly children, from the Brandeis School, in Tucson.

September 17 - Superintendent and Mrs. Oscar F. Northington, Jr., of Fredericksburg and Spotsylvania County Battlefields Memorial National Military Park and Fredericksburg National Cemetery.

RECEIVED
SEP 28 1949

Publicity: September 12 - Mr. and Mrs. Dan Otts were visitors. He is a free-lance photographer who sells to the Ford Times, and took a number of pictorial shots while here.

Museum and Education: For a long time we have been aware that our museum lobby did not look as inviting to the visitors as it should, having a somewhat bare and forbidding appearance. Prior to departure on annual leave last month I asked Ranger Brewer and WAE Guide Alfred Whiting to cook up something different for the lobby, so that upon my return I could, after an absence of several weeks, more or less approximate the reaction a tourist might have upon first viewing the place. Upon my return I found a vast improvement in the lobby. By shifting a large painting of the mission from the north lobby wall to the east wall, in a position which had been occupied by three colorless photographic studies of the mission, and by digging out two large statues and an old crucifix from a dark hole behind a museum case (where they had been for no telling how many years) and placing the statues on the two bookcases, with the crucifix on the wall between, they had made the lobby look much warmer, wider, and inviting. The photographic studies, which depicted the mission church at different stages in its history, now hang on a wall of the view room, where they fit to definite advantage with the scale model of the church in enabling a more effective gambit to the mission trip talk.

All available research time this month was spent by Ranger Brewer and myself in studying and abstracting data from the book length master thesis of Doris Bents, entitled "A History of Tubac." This was obtained on loan for us from the University of Arizona library by Regional Archaeologist Reed. The opus contains a prodigious amount of historical material pertinent to this area, and while there was much of Miss Bents' source material with which we were acquainted, there was also a lot we had never found the opportunity or the time to get into. The abstracted data, of course, becomes a part of our permanent 5" x 8" Fact File card system.

The superintendent received a very innocent looking little note from a Nogales man who is doing a bit of historical research. There were only about four questions, but to answer them intelligently required a 1,500 word historical document! I hope he uses all the data he received, for it would be a shame to waste all that display of erudition.

Personnel: During the month WAE Guide Alfred Whiting worked 8 days. Ranger Brewer took 4 hours of sick leave. Superintendent Jackson took 7 days of annual leave, and 2 days and 1 hour of sick leave. Maintenance Laborer Ramon Orozco worked 21 days during the month.

Maintenance: Building maintenance included completion of linseed oil application to exteriors of rest rooms, gates, the rest of the administration building, Residence No. 1, the garage, the sacristy doors of the mission church, repainting the drinking fountain and its inset, and applying Horn Ducorex by brush to the floors of the Kino and View Rooms and floor of the South Arcade of the museum building. Walls and ceilings of the two arcades of the museum building were brushed and cleaned.

The scale model of the mission church in the View room was scrubbed and cleaned. In the church itself the too-narrow-for-safety steps which lead from the sacristy to the cemetery entrance were widened with more bricks set in cement.

Other maintenance included much weeding and cleanup along the parking area road and walkway and the trail to the mission and grounds. Considerable irrigating was done. One of our highway approach signs had been almost knocked down and had to be taken up and straightened out, re-painted and re-lettered, and a post replaced.

General: After having been absent from the state for a month on annual leave, and crossing the continent in that time, it was refreshing to get back to this region where the skies are really blue and one can breathe air unmixed with fog, smog, and factory fumes. It was depressing to find this district so brown and dead looking from the drouth. The monument looked in good condition, save for one area - the residence area. Here some more trees were dying (several have died in the last four years) and I found the general appearance of the grounds around Residence No. 1 was bad. This area, which is too clearly visible from the ruins trail, is, I am convinced, one of the most poorly landscaped jobs I have ever seen. In fact, I don't think a landscape architect has ever been assigned the task of planning an effective and usable vegetative screen around this residence. Now that we have a maintenance man for this monument I intend to see to the improvement of this sorest looking spot on the monument this winter.

Earl Jackson,
Superintendent

TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA.

September 26, 1949.

Memorandum

To: Regional Director, Region Three

From: Superintendent, Tuzigoot National Monument

Subject: Monthly narrative report for September 1949

Visitors this month - 2640 — 1949 Travel Year Total-19,129
Visitors a year ago - 1659 — 1948 Travel Year Total-17,514

Travel Data and Trends: Once again we come to the end of another travel year, and, like other areas no doubt, we find that a figure has been reached to break all previous records. Although travel this year amounted to only Approx. 8.4% greater than the previous high - it is significant due to the fact that for two months during the past unusually severe winter travel was held-down to a bare trinkel. The total number of visitors this month exceeds the previous corresponding high of 1948 by 48.6%. The 19,120 visitors this year arrived in 5995 cars.

Weather: Outside of a few hot days during the first part of the month, ideal traveling weather prevailed - which accounts in-part for the marked increase in visitation.

Guide and Contact Service: Museum, ruins and orientation contacts totaled 2640 for the month. 2500 people in 732 parties were shown through and given an orientation lecture in the museum, and 2267 people in 689 parties made the trip trough the ruins. The average time spent by each party in the museum was 20 minutes - ruins 20 minutes. The 19,129 visitors we received at Tuzigoot during the past year were all contacted and given maximum interpretive service.

Personel Time: Museum: 240 hours, 55 minutes. Ruins: 229 hours, 40 minutes. Total contact time for Bright: 268 hours, 40 minutes. For Richert: 213 hours, 55 minutes.

Noteworthy Visitor: August 25, Dr. E. H. Spicer, University of Arizona, Tucson. Dr. Spicer showed more than passing interest since it was he and Louis Caywood who excavated Tuzigoot in 1933-34.

Special Groups: Two student groups visited during the month. One of 11 from the University of New Mexico, and a group of 4th graders from Clarkdale A party of 115 men, women and children, members of the Railroad Club of Southern California, visited on August 28. Avid photographic fans, the members of the party took pictures of everything from scenery to native inhabitants human and animal. Taking the railroad as far as they could, they rode the Verde Valley Mix down the precipitous, twisting, tunneled route from Drake to Clarkdale, where they were met by 26 local cars and a bus and brought out to the monument for a lecture and tour of the home of the ancient

TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA.

CONTINUED FROM PAGE ONE.

Indians. All groups were given special talks and guided tours by the Supt. and Arch.

Maintenance: Many new labels were made for museum exhibits by the use of a Brice lettering set borrowed from Montezuma Well. We have found that these new labels have greatly improved the interpretive picture of Tuzigoot and the surrounding area. Due to unusually heavy travel we were unable to perform little maintenance work on buildings, grounds, etc. However, just as soon as a slowing-down of visitation appears we propose to completely redecorate the museum, complete nature trail signs and many other much needed projects.

Everett W. Bright

Everett W. Bright,
Superintendent.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Walnut Canyon National Monument
Flagstaff, Arizona

September 25, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Walnut Canyon

Subject: Monthly Narrative Report, September, 1949

Visitors this month, 3039; travel year to date, 21,779

General Travel figures for the year are 913 short of the 22,692 visitors counted last year. However this is considered a good record since the severe winter reduced the travel count in January to 62 and in February to 3 visitors.

Administration No progress can be reported on the project to secure commercial power for Walnut Canyon. The power company's proposed agreement under which we would get the power has not been received.

On August 26 Supt. and Mrs. Hastings in company with former Supt. and Mrs. Geo. W. Baxter visited what is shown on Bureau of American Ethnology Report 104 as the Second Fort, about one and one-half miles down Walnut Canyon from the museum. The few ruins found at this site are quite inaccessible.

On August 26 our schedule of 12 hours contact service each day was reduced to 11 and on September 12 further reduced to 8 except for Sundays. Efforts are made to provide longer contact service as needed.

School started August 31. Our attempts to get the school bus to come by Walnut Canyon were unsuccessful so the Hastings girls drive their car four miles to the paved road where they catch the school bus.

A 30 ft. vertical antenna was erected on the corner of the museum-office building and we expect to get our radio in operation in the near future. The old radio antenna towers near the shop were removed.

Use of Monument By The Public There were 3090 visitors who came in 974 cars. 2928 visitors were contacted in a total of 95 hours. It is estimated that 2163 visitors made the trip around the "Island" to the ruins.

Twenty-four Shriners and their families from Winslow picnicked on the area.

Thirteen students of archaeology from the University of New Mexico visited this area on August 30.

Water System The sump at the head of the Walnut Canyon water line was cleaned and drained.

Mr. J. A. Kollam made an unauthorized extension of his water line from a stock watering tank to a new residence. The job was completed in short order with the pipe in use before the extension was discovered. It has been recommended that the permit for this tap be discontinued next year.

Signs Our east entrance sign was re-set after being removed from old Highway 66.

Improvements The garage was re-arranged to provide for coal storage space in the center with space to park cars on either side.

Donations Five of the black and white pictures by Roy A. Whipple listed in Memorandum 49-62 were received for use in our lobby and museum. These views are Rainbow Bridge; Deserted (Picnic Area - Madera Canyon); Golden Aspen Trail, North Rim, Grand Canyon; Montezuma Castle; White Sands Shadows. Frames have been made and glass purchased for these attractive pictures.

Publications A shipment of 15,000 2-fold Walnut Canyon leaflets was received September 1. These were most welcome since our old supply ran out July 25.

A new supply of the mimeographed "Island Trail" leaflets was received. The supply of these has also been exhausted.

Research A shipment of genus and species folders for herbarium specimens was received and will be used as soon as our identified specimens are returned from the National Museum. Occassional plant collecting has continued with 52 specimens added this summer.

Newsworthy Visitors Major L. F. Brady, Geologist at the Museum of Northern Arizona, was here checking on geological specimens.

Ranger and Mrs. Grover E. Steele and family were here from Organ Pipe Cactus National Monument.

Ranger and Mrs. Ealy from Great Smoky Mountains National Park were here September 7.

Supt. and Mrs. Aubuchon were here September 8.

Homer F. Hastings
Superintendent

ACCIDENTS

As far as we know, the travel year has been very successful, in that no serious accidents occurred within our boundaries to mar the record travel.

We answered one call for first aid the other day when an automobile containing five men overturned a few miles south of our headquarters. They were rushed to the hospital at the Air Base where they were retained for treatment. Three of them had to remain for further treatment and the other two were released at once. All were doing very well the last I heard.

COMPLAINTS

No written complaints were received, nor were any verbal complaints of any nature received. Minor complaints, such as no sun for pictures, too much light for pictures, too much wind, not enough picnic tables, etc., but nearly in every case it was more of a suggestion than criticism.

WEATHER CONDITIONS

Weather has been, on the whole, good. Considerable rain has given everything a nice verdant foliage and, while we have had a few hot days this month, the whole has been very comfortable.

VITAL STATISTICS

Ranger Schaffner's wife stole the show this month with a brand new baby girl. Sarah Elaine was born September 17 and tipped the scales at 7 lbs. 4 oz. Vera and the baby are expected home soon and are getting along fine. Ray is taking a portion of his vacation in order to recuperate from the ordeal.

RANGER FORCE

Temporary Rangers Nelson and Hall both gave us very good service during the summer, and it is their type of service that makes it possible to please all of our visitors. We lost both of them the early part of the month; Hall returning to Alamogordo High School to his teaching duties, and Nelson returning to his studies.

CONCESSION

The Concessioner is showing a slight gain over previous like periods. Speaking of concessions, bids were sent out on the White Sands Concession and, while we received several requests for information, we only received one bid, and that from the present owners.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
White Sands

Box 231, Alamogordo, New Mexico

September 22, 1949

Memorandum

To: The Regional Director, Region Three

From: The Superintendent, White Sands

Subject: Superintendent's Monthly Narrative Report

SEPTEMBER TRAVEL, 1949		TRAVEL YEAR TO DATE	
Visitors, 13,696	Cars, 4,480	Visitors, 149,161	Cars, 35,023

GENERAL

The 1949 travel year is well above all past years, and is almost 30,000 ahead of last year which, until now, was our banner year. Nearly 150,000 visitors have passed through our gates and, had we any way to account for the visitors who go in after hours, our number would be well over 160,000. September travel has exceeded, by 3,000, our banner month a year ago. No official trips of an administrative nature were made. A trip was made on my day off, with Ranger Chittum, for some materials in El Paso.

We have been able to keep up with all phases of the area. Cleanup was a major operation with the increased crowds, but the extra temporary made it possible to keep up. We lost both temporary men the early part of the month. However, the Rangers and Frank and Joe are all well able to take up any slack, and we have gotten along fine. Several jobs which we had hoped to get done will wait, but still hope to catch up this winter.

We are taking our Diesel Electric Plant to El Paso for an overhaul, using the old Kohler in the meantime. It is almost inadequate for the heavy load it has to carry. Plans are to get Frank a place to live in soon and we are working over the Laundry room with that objective in mind. Maybe we will present it to him for Christmas.

SPECIAL ACTIVITIES

The monument entered a booth at the Otero County Fair, but was not able to get off with any ribbons.

VISITORS

Sam Hendricks was in for a few minutes and went over our Roads and Trails accounting.

Superintendent and Mrs. Bill Bowen spent a few minutes with us recently.

Superintendent and Mrs. Irving McNeil stopped by and greatly enjoyed the area.

Superintendent and Mrs. Earl Jackson were in for a quick look.

We are proud to have these folks stop in, and they all have a standing invitation to return.

Johnwill Faris.

Johnwill Faris,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

.....Wupatki..... NATIONAL MONUMENT

...Flagstaff, Arizona.....

.....September 26..... 1949...

Memorandum

To: Regional Director, Region Three

From: Superintendent, Wupatki

Subject: Monthly Narrative Report, September 1949

Weather: Total precipitation for this month was .73 inches which is just about normal. The rainfall pattern of the entire summer was upset. With a long dry spell during most of August the flora did not develop. Following this came a wet period which brought the rainfall to normal and resulted in a late growth which will continue unless we have an early fall. The seed crop will, of course, be sub-normal. The Salt Bush which was denuded by insects in May has recovered its foliage but produced few seeds.

Roads: Roads within the monument are in relatively good condition as a result of the fine-blading done in dry weather and normal blading as precipitation conditions permitted.

Seal coating of Highway 89 from near our entrance to the summit is virtually complete and is an alleviation of the situation that resulted from last winter's heavy snows.

Travel: Travel remained heavy throughout the Labor Day period but has been spotty ever since. According to the figures taken from our registers there were 861 visitors; 609 at Wupatki ruin and 252 at the Citadel. Guide service was rendered to 598 persons at Wupatki ruin in 130 trips. Actually we spent an average of 38.1 minutes per trip. We realize, of course, that we did not contact all but 11 visitors who came to Wupatki which is what our figures would lead one to believe. It is safe to estimate that we missed at least 150 people, but these are visitors we lose every month because of an inadequate system of registration. Our 861 visitors compares with 1195 for last month and 643 for September 1948.

Special Activities: With the pending departure of Superintendent Jones considerable time was spent briefing Ranger Euler on various matters and procedures. Superintendent-elect Bill and Trudy Bowen were subjected to an intense, and sometimes fast and furious, five day indoctrination on the problems and points of interest of this area and Sunset Crater. A fifteen minute radio program at which Jones and Euler were interviewed on Wupatki-Sunset Crater by Hal Cooley of the local Chamber of Commerce was broadcast over KVRZ on September 14th. Among other special activities was continued preparation of the nature trail for Sunset, revision of the PCP program for Sunset Crater and Wupatki, filing system partially revised, agreement with your office on the procedures for handling any future negotiations for a natural gas line right of way, and continuation of the co-operative precipitation study with the Museum of Northern Arizona.

Status of Private Lands: From correspondence received in this office we know that action is continuing in a routine manner with regard to the Heiser Springs acquisition.

Activities of Outside Agencies: Field reaction to the proposed Bureau of Reclamation's request for a withdrawal of lands near the Little Colorado River was furnished at your request.

Communication: We have finally succeeded in getting the 30 foot vertical aerial in place over the basement-office and expect to have radio communication within one week.

Spring Flow: The flow of Heiser Spring was the same as last month, 3027 g. p. d. and that of Wupatki Spring 379 g. p. d. During the briefing of Bowen and Euler a visit was made to Bean Spring, a seep near the old forest cabin above Wupatki Spring. This has been dubbed in honor of its discoverer, Joe Bean, and development, if money is ever available, might augment our limited supply. Undoubtedly arrangements could be made with the Forest Service concerning the water right. It was impossible to visit the potential spring which Joe Bean has also reported to the west of the proposed development sight at Sunset Crater.

Visitors: NPS visitors included Mr. and Mrs. Tillotson and Mr. and Mrs. Patraw whom we regretted missing on the day we had our radio broadcast, the Garrison's and the Chases's from the Grand Canyon, Ranger and Mrs. Dewey Baly of Great Smoky Mountains National Park, Ranger and Mrs. G. Steele of Organ Pipe Cactus, Ranger Iverson of Zion and Superintendent and Mrs. Hastings of Walnut Canyon. Dr. J. D. Jennings and family, Department of Anthropology, University of Utah paid us a pleasant visit also.

Personnel: Bob Euler entered on duty as Park Ranger, DAF-5, temporary indefinite effective September 11th. Ranger Owen Reynolds resigned as of August 30th. Temporary Ranger Bob Viklund was transferred to Sunset Crater from Walnut Canyon on September 15th.

Navahos: The Wupatki Basin Navahos, the Smiths, Lees and Littlefats, all came up for a mutton and ice cream social in the ceremonial hogan area. This would be what you'd call a sending off party for the Joneses and a welcoming group for the Bowens. Anyway it provided Bill with an opportunity of meeting them all at once and us a chance to reiterate the policy we have followed in the past. Even Janie enjoyed gnawing on a mutton bone with all the rest of the little kids.

Equipment: Road maintenance activities also included replacing tires on the shoval loader, esperimentation with a spil pulverizer (on loan) to remove washboard at Sunset, placing of new tires on the dump truck. It was overlooked last month that the old Sunset Crater Dodge was traded for the one from Walnut Canyon. A motor was purchased and installed on the drill press.

General: This is probably the last monthly report that we shall prepare at Wupatki before leaving for San Juan National Historic Site. It is hard to leave country and people to whom one is so firmly attached. We have thoroughly enjoyed working with so many fine National Park Service people and we are sure that our work in the Southwestern Monuments will be the outstanding memory of our career. As someone said, "We shall miss you more than you realize."

David J. Jones
Superintendent

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner of the form. Attendance shows the actual number of visitors who took advantage of the various interpretive services furnished. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "Naturalist on sick leave", etc.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (Library, check station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as Attended Interpretive Stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic location, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, motel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION is an accurate explanation of the manifestations of natural history and human history within the area.

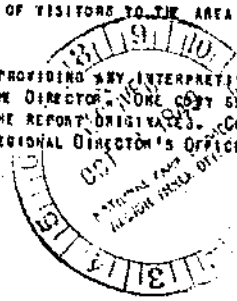
Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitor use exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or prepared by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.



Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance should the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

This Report Due: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the Superintendent or Custodian of the area in which the report originates. Coordinating Superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 5th of the month following that covered by the report.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8s3) and 9 (Report 9s3).

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 13, Chapters 8 (Report 8a3) and 9 (Report 9a3).

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total end column in all blocks.

COLUMN 3 Shows the EXACT amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors in the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of those facilities by the public. It includes data on routes and trails, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class or trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. This due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9a1).

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended Interpretive Stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive services, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the Superintendent or Custodian of the area in which the report originates. Coordinating Superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 5th of the month following that covered by the report.

NAME JOHN O. COOK
TITLE Superintendent.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Motel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service Personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with Instructions in Administrative Manual, Vol. 16, Chapters 8 (Report 8m3) and 9 (Report 9-3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Junior Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations. INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, road and trail regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire. INTERPRETATION: Is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside museums, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Many areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in accordance with instructions in Administrative Manual, Vol. 13, Chapters 8 (Report 8m3) and 9 (Report 9m3).

NAME Glen T. Bean
TITLE Acting Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

All personnel occupied with field work; superintendent on annual leave after 9/30/49.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES OR OTHER FEATURES OF THE AREA.

Talks: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

Attended Interpretive Stations: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATIONS, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATION, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS ENQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

Unattended Interpretive Devices: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

Interpretive Activities Outside the Area: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PREPARED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

Column #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

Column #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

Interpretive Activities Outside of the Area ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

Totals: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME

TITLE

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Interpretive service at headquarters was constant during the month.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing information rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and rates, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Many areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in accordance with instructions in Administrative Manual, Vol. 16, Chapters 8 (Report 8n3) and 9 (Report 9n3).

TITLE Archaeologist.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF [illegible] SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

DEFINITIONS OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 6m3) and 9 (Report 9m3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED ON TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic location, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitor using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive services, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive services, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE FROM ALL National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the Superintendent or Custodian of the area in which the report originates. Coordinating Superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 5th of the month following that covered by the report.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

The museum was kept open 10:00 A.M. to 7:00 P.M. until Sept. 13 when the hours were reduced to 5:00 P.M, except Sundays when longer service is maintained.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply.

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing information rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and rates. Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand border. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT ONE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Reports are due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8-3) and 9 (Report 9m3).

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

ARCHES NATIONAL MONUMENT
MOAB, UTAH

October 27, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Arches National Monument

Subject: Monthly Narrative Report for the month of October, 1949

TRAVEL: The 15% decrease from the same period last year is possibly due to the heavy rain and snow received over all this part of the country last week. A total of 596 people visited the monument in 216 cars during this report period.

WEATHER: We have enjoyed warm sunny days and cool nights until winter dropped suddenly out of the sky on October 17 in the form of cold rain and snow which raised the Colorado River two feet at the Moab Bridge. Court House Wash ran for three days making it necessary to close the entrance road. One visitor who didnt believe in signs sank deep in the quicksand and abandoned his car when the water started running in the window.

INTERPRETIVE SERVICES: Contact time amounted to 31 hours and 10 minutes inwhich 262 people received information about the area. Three guided trips were conducted by Ranger Worthington with a total attendance of 17 people.

CONCESSIONS: Mr. Ross S. Musselman discontinued his operations of the saddle horse concession for the season on October 12.

NPS VISITORS: October 7, Harlod M. Ratcliff enroute to Santa Fe.
October 22, John H. Diehl enroute to Colorado N. MM
October 22 & 23 Russ. Mahan on unofficial business of procuring his Buck. Successful with a five point weighing over 250lbs.

ROADS: All monument roads were in excellent condition until the storms of last week washed out the arroyo crossings. All were repaired on October 20. The entrance road, State Road #95 was closed for three days due to the heavy flow of Court House Wash. Since the storm the State has not been able to put a blade on this road and although it is passable it is very rough.

BOUNDARIES & GRAZING: The entire north boundary was ridden on October 2 & 3 by Ranger Worthington and Superintendent Wilson to determine if any grazing land, within the boundary, could be eliminated without endangering any natural features. It was found that the line runs entirely over Slick Rock and consequently the grazing value is nil. This was reported to the District Advisory Board at a meeting held October 12. Mr. Ratcliff called on Mr. Frank Paxton in Montrose, Colorado to discuss his grazing problem. Mr. Paxton agreed to the monument extension provided he be given a ten-year permit to graze the portion of his present allotment that would be included within the boundaries of the monument.

SPECIAL VISITORS: Mr. John Ford, motion picture director for Argosy Productions, arrived in Moab October 4 to look over a location for the making of a picture in this area. He and his business manager, Mr. Farrell spent three days around Moab and were shown through the monument. They said that their biggest problem would be making a choice of scenery and not finding it. One or two shotswill be made in the monument.

GENERAL: All personnel of this area were sucessful Nimrods bringing home the bacon to those hungry faces. A bonspool was du g walled and covered for the Trailer House Ranger Quarters. All motor equipment was serviced for winter weather.

Bates E. Wilson

Bates E. Wilson,
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

24 October 1949

Memorandum

To: Regional Director, Regiona Three

From: Superintendent, Azteo Ruins

Subject: Superintendent's Monthly Narrative Report

WEATHER: Our rather beautiful Fall weather was jarred by the season's first frost on the 10th with a minimum temperature of 25 above, then we had some snow, sleet and rain with a low of 17 degrees. Our total precipitation for the month was a little more than ½ inch. Travel is way down, but not because of the weather.

MAINTENANCE: The sidewalks at the new residence were completed and the wall inclosing the area from the garage to the residence is about done.

The museum-administration roof was given temporary treatment pending funds for the proper repair job which must now be again postponed until Spring. The last two storms have not produced any leaks.

With the arrival of snow and winter weather our seal-coating of the parking area may have to be completed in the Spring, altho we had made all preparations for the job.

Our rodent control program with the use of poison grain is working nicely, altho at this date the squirrels have disappeared for the winter within the ruins.

The residence-utility yard area was covered with 2 inches of gravel which we hope will allow us to travel over this mire without the necessity of chains during the coming winter months.

The office interiors of the administration building are undergoing a wire brush scrubbing, washing and repainting.

INTERPRETIVE SERVICES: There were 558 visitors in 113 parties conducted thru the ruins and 917 visitors in 210 parties shown thru the museum.

DECREASE IN TRAVEL: About 20% fewer people visited this area than were here a year ago during October. We enjoyed 917 visitors in 318 cars from 36 states, Washington, D.C., Alaska, Brazil,

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

Canada, Columbia, Denmark and Switzerland.

PERSONNEL: Park Ranger, Tom Onstott was forced to move to Farmington upon the expiration of his lease, there being no available rentals in Aztec, altho he spent some time living in the local hotel while casting about for a house.

Tom is now commanding officer of the National Guard in this area and is doing an excellent piece of work in this field.

The Superintendent is doing his bit in local affairs as president of the Aztec Parent Teachers Association.

PROJECTS FOR NOVEMBER: Weather permiting, we shall do as much as possible in stabilization work upon the ruins walls, capping cracks and resetting fallen stones, and some repair to roof structures.

Irving D. Townsend
Superintendent

2ND ANNUAL VISIT DURING AUGUST 1949

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

October 28, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Bandelier

Subject: Monthly Narrative Report, October, 1949

Weather

Typical beautiful fall weather with clear or partly cloudy days and cool nights has prevailed during the entire month with the result that travel has continued to be better than average. Only .12 inches of moisture was received on three days and temperatures ranged from 84 degrees on the 3rd to 16 degrees on the 21st.

Special Activities

Three conferences were held in the Regional Office concerning the reconstruction of one vehicle and five trail bridges. Plans for the vehicle bridge were approved by the last of the month.

One trip was made to Albuquerque, New Mexico to contract various firms for janitor and other supplies.

Inspections

Engineer Richardson and Architect Carter made an inspection of the vehicle and trail bridges, that are to be reconstructed, on October 11. The present bridges are of log construction and it is proposed to replace them with stone and concrete structures that will be more permanent. A multiplate arch will be used on the vehicle bridge and concrete slabs on the trail bridges.

Complaints

A number of verbal complaints were received during the month to the effect that visitors could not obtain information concerning Bandelier from the Santa Fe Chamber of Commerce. A letter

REFERENCE
BUY UNITED STATES SAVINGS BONDS REGULARLY

to the Secretary of the Chamber brought a vigorous denial and it is believed that the visitors may have been mistaken in the identity of the office at which they applied for information.

Maintenance

The maintenance man spent considerable time on repairing roofs and doing preventative maintenance prior to cold weather. All canales were given a coat of asphalt to prevent leaks from developing later on. Roofing paper was replaced on the stable where several had leaks had developed.

Some time was spent trying to locate trouble on the underground telephone cable from the warehouse to the residences. The grounded system works all right but there is a ground in the cable that prevents the new metallic line to Los Alamos from operating. It appears to be necessary to replace approximately two hundred feet of the cable.

Approach Road

The road crew spent most of the month improving the drainage on the approach road and preparing it for winter. The dry weather has kept it very dusty and difficult to work but by the end of the month the ditches had been cleaned, holes filled with gravel, culverts opened, and rock hauled for a retaining wall.

Concessions

Two conferences were held with the Concessioner, Regional Chief of Concessions, Assistant Regional Director and Superintendent to discuss sub-concessions for the saddle horse operation and dining room. It is the desire of the concessioner to sub-lease both of these operations and it was decided to hold this in abeyance until after the Regional Directors Conference in November.

Interpretive Service

1017 visitors were conducted through the ruins on 110 tours that averaged 72 minutes each.

Travel

The pleasant weather made travel continue to be better than last year by 51%. A total of 2085 visitors came to the area this year as compared with 1378 for October 1948.

Visitors

H. L. Standley, noted photographer from Colorado Springs, Colorado and Carl Blaurock, mountaineer from Denver, Colorado were visitors on the 3rd.

Chief Ranger and Mrs. Loy B. Morley, Carlsbad Caverns National Park, October 23.

Mrs. Lloyd and daughter, wife of Regional Chief of C Concessioners James Lloyd, October 28.

Building Fire Protection

A building fire drill and inspection of fire hazards was held on October 13. The hose cart was taken to the residence farthest from the utility area and the water was turned on in 2 minutes and 50 seconds after the alarm was sounded.

Fred W. Binnewies
Superintendent

Canyon de Chelly National Monument
Chinle, Arizona

October 27, 1949

Memorandum

To: The Regional Director, Region Three

From: The Acting Superintendent, Canyon de Chelly Nat'l. Monument

Subject: Report of activities during October, 1949

Weather Conditions

The maximum temperature for the month was 81 and the minimum was 28. High winds, sandstorms, rain, snow and warm sunny days prevailed. Rainfall measured 1.28 inches and the total snow measured 2 inches.

Administration

The Superintendent entered on annual leave status on October 3. Office work is current and several letters of inquery about Canyon de Chelly National Monument were answered.

Archaeology

Archaeologist Steen completed the stabilization of the White House Ruin on October 4. He spent the remainder of his time here completing the cataloguing and the photos of the artifacts from the Tsoia'ah ruin excavation. He departed on October 11 for Tumacacori National Monument.

Maintenance

The winter supply of wood has been hauled. The 1000 gal. storage tank obtained from Bandelier National Monument has been placed on a rock and cement stand. The road between headquarters and Garcia's Trading Post was graded and one trip was made to the White House turn-off with the road maintainer.

General

There is an abundant crop of [illegible] in this area this year. Lamb buying ended and it is believed that the traders will do better than they have in the past years.

The Thunderbird Ranch has closed its accommodations for the season. However, meals and lodging is available at the Goverment Club in Chinle.

Travel

This months travel is slightly lower than a year ago, however the travel this fiscal year to date has increased about 20 percent over last year.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
SOUTHWESTERN NATIONAL MONUMENTS
CAPULIN MOUNTAIN NATIONAL MONUMENT
CAPULIN, NEW MEXICO
October 28, 1949

MEMORANDUM for the Regional Director
Region Three, National Park Service
Santa Fe, New Mexico

There follows the narrative report for Capulin Mountain National Monument for the month of October, 1949:

Visitors: There were about 2,400 visitors to Capulin Mountain National Monument during the month of October, making a total of two thousand four hundred for the travel year and nineteen thousand two hundred visitors for the fiscal year.

Weather: Weather during the month has been generally dry and windy with only slight precipitation.

Flora and Fauna: The deer are returning to the Monument area from the surrounding foothills. Other wildlife is faring fine. Trees and shrubs are beginning to take on their winter colors, and grass is very dry in the area.

Roads, Trails, Picnic Areas: Roads and trails have been maintained and are in fine condition. Several loads of fine cinders have been hauled and spread in an area about 15 feet in diameter around the fireplaces in the picnic area. The extra amount of tall grass, weeds and foliage has caused a very great fire hazard, and also, it has been noted that some campers have made small improvised fireplaces in the area. These have been completely demolished and covered over, so as to leave as little trace as possible so that it will not be a temptation to others to do likewise. We hope that there will be no more fires built in the area, except in the designated fireplaces.

Information pamphlets: About 500 information pamphlets have been distributed to visitors during the month. Have about 8,700 on hand at the present time.

Special Visitors: Have had no special visitors during the month of October.

Very respectfully,

Homer J. Farr
Superintendent

CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

October 25, 1949.

Memorandum

To: Regional Director, Region Three

From: Casa Grande National Monument

Subject: Monthly Narrative Report for October, 1949

General: While cotton picking continues at top speed, the growers are still looking for more pickers, some relief was received with the arrival of four mechanical pickers. These seem to do a very good job on most of the cotton. This Transit labor and early arriving winter visitors have greatly increased our travel. Things are humming around Coolidge now in preparation for the Junior Chamber of Commerce rodeo being held October 29th and 30th. The old yellow passenger bus from Yellowstone Park, a familiar sight to me, is busy covering the streets picking up victims for the kangaroo courts. The Salt Marsh Caterpillars have reached an epidemic stage this year, in many places the highways and ground is black with them. Here on the monument they quite bad, collecting by the hundreds in front of the museum. Some of the salt bushes are loaded down with the feeding worms.

Weather: It was still hot at the start of this period but the cold wave that came down from the north broke the heat and it was really cold (for this country) for several days with frost two nights. Now the weather is ideal, the kind of weather that makes it worthwhile to put up with the long hot summer for. The maximum was 103 with a low maximum of 84 and a minimum of 28. We had two rains totaling .03 inches. The cool weather from October 8 on has greatly increased our travel.

Visitors: October 1949 - 2,319; October 1948 - 1,948: this is a gain of 371 over October of last year and is a gain of 235 over October , 1947 - our all time record year. Travel Year to date 1950-2,319; Travel Year to date 1949 - 1,948.

Interpretive Service: Of the 2,319 visitors to the area, 1,525 made the trip to the ruins in 158 groups averaging 44.4 min. per trip. 794 people were here for a quick look but did not make the ruins trip.

OCT 27 1949
NATIONAL PARK SERVICE
SAN FRANCISCO OFFICE

N.P.S. Visitors and Visitors of Note:

October 5 - 21 grade school students from Kennelworth School.
" " " - 37 grade school students from Red Rock, Arizona.
October 6 - Mrs. Anya Seton Chare, daughter of Ernest Thompson Seton, visited the ruins. She is gathering material for a novel on the pre-historic indians. From what we could gather it is to deal with a group of cliff dwellers to the north called the HOHOKAM and their troubles with the Apaches (This should be of great help to Dr. Reed in his placement of the Apache in the southwest). We'll probably have to completely revise our interpretive program when novel comes out. We tried our best to straighten her out so it may not be too bad. She wanted a good quiet cliff ruin to meditate in so we recommended the upper ruin at Tonto.
October 7 - 175 grade school children from Coolidge.
October 18 - 41 Seventh day Adventists held a meeting and picnic in the pinnic area.
October 23 - 57 soldiers from Williams Field were shown the ruins and had a pinnic, courtesy of the U.S.O.

Administration and Protection: Six requests for information were answered and literature sent as requested. The Adamsville Site was checked for vandalism and no new signs of pot hunting found.

Maintenance: Five of our pinnic tables have been refinished and are in use again, the other five are in the process and will be finished before too long as our weather is nice enough for pionics now. The heating stoves were cleaned and installed in the residences for the coming winter. The whole residential and museum area has been given a thorough clean up. Superintendent Bicknell installed a new thermostat in one of the refrigerators. A new stove pipe was installed in the chimney of quarters 2-4 as the old pipe had rusted out.

Personnel: Seasonal Ranger Sam Orem terminated his tour of duty here at the COB October 11 and immediately reported to Tonto for road and trail work there. Everyone on the monument enjoyed having Mr. Orem here and we were highly pleased with his work here. We hope to have the pleasure of working with Sam again. We are still short handed, only two of us, and our heavy travel is starting and this promises to be the biggest year ever if the weather stays nice.

Leave: Superintendent Bicknell returned from annual leave on October 10. Most of his leave was spent in this visinity with the exception of a few days in the mountains around Lakeside.

A. T. Bicknell,
Superintendent.

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Chaco Canyon NATIONAL MONUMENT

Bloomfield, New Mexico

October 30, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Chaco Canyon

Subject: Monthly Narrative Report

Chaco Canyon is starting strong this travel year. Though the weather has not been the best, the visitors came in to the tune of 150 per cent greater than last year this month. 100 in all. Of these, 86 took a trip through the ruins, and formed 28 parties. 28 parties, atotal of 85 persons, visited the museum. The ranger spent 20 hours and 30 minutes and the superintendent spent 30 hours and 25 minutes with these people.

The warmest this month was 86 degrees Fahrenheit on October 4, and the coolest was 14 degrees on the 21 and 22nd. Precipitation fell on 5 occasions totaling .31 of an inch.

The approach roads have remained dry most of the month. The south approach road is in very poor shape. Almost every visitor coming in over the road complains about it. The Monument roads have been graded this month, but still need lots of attention. As is usually the case, we have had to take our trucks and pull cars up the 16 per cent grade. If just this hill were plated, it would help matters considerably.

The leak in the gas storage tank line was repaired and the tank covered.

The drainage near the top of the well was rerouted so that the surface water would not flow into the well, and a new roof was placed on the well.

The big news this month is that the concessioner has moved out --- lock, stock and barrel. This is one severe headache that has been eliminated, as all of you who have concessioners know.

On October 1, a Mr. Mathews, no relation to our ranger, took a complete tour through the ruins, which is considered quite a feat in view of the fact that the man is 89 years young.

There are several coveys of about 20 to 25 quail which water regularly at the metate just outside of the office. The antelope ground squirrels, other birds and rabbits water there also. Two bob-cats were seen on the Monument this month, and a bull snake, a fine specimen about three feet long, was seen October 27, even though the thermometer had hit 14 degrees twice!

Roscoe Dudley was signed up as foreman for the Soil and Moisture program this fall. The S and M pickup truck was turned over to him and he has already begun work. A crew of Indians were contacted, signed up, and have put in a day or two of labor already. They plan to go in on the river to cut willow posts on the 31st. Several trips were made to town in order to get the two S & M trucks in repair, and to contact and employ Mr. Dudley.

There follows the report of Archaeologist Gordon Vivian.

Irving McNeil, Jr.
Superintendent

RECEIVED
OCT 31 1949
NATIONAL PARK SERVICE
REGION THREE OFFICE

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Chaco Canyon National Monument
Bloomfield, New Mexico
October 25, 1949

MEMORANDUM for the Superintendent, Chaco Canyon National Monument.

This is the narrative report of Mobile Unit activities in your area during October, 1949.

Working conditions have remained excellent this month; most of the time it has been shirtsleeve weather though we did lose one half day to a small blizzard. Several man days were also lost to a Yebechi dance . Since we also went to this sing we were chagrined the next morning to find that a few of the faithful had insisted on coming back to work and we had to stay up with them all day after only a couple hours sleep.

The crew has averaged 13 men and most of the month they have been on three jobs; maintenance at Chetro Ketl, some drainage and experimental wall repair at Bc-50 with the main group at Pueblo del Arroyo.

At Chetro Ketl some of the old capping laid on kiva walls in 1920 was partly removed and repaired, a buttress section was laid against a broken doorway, three small wall breaks were filled and one large break not included in the 1948 work was cleaned out in preparation for support by an integral member.

We had started to take care of some of the worst drainage problems at Bc-50 before the rainy season caused more extensive damage. When it became evident that there wasn't going to be any rainy season we stopped work on the drainage and began a small scale and cautious wall stabilization program using soil-cement. We've had a great deal of trouble with this; masons who have been working at Chetro Ketl and del Arroyo think Bc-50 should be repaired in the style they are accustomed to. The best results have come from breaking in new men who have never worked with the fine masonry in the big sites.

To date 4 rooms have been completed and work is in progress on 2 more. The large amount of drainage and backfilling of the huge sump on the north edge of the site will be held in abeyance till colder weather puts a stop to the wall stabilization.

At Pueblo del Arroyo stabilization of the central or western wing is very nearly complete. Three of the large kivas which extend below plaza level have been finished as have 4 additional rooms. In these 7 structures extensive wall repairs were necessary due to washing from higher levels and the work was combined with drainage and grading.

RECEIVED OCT 31 1949 NATIONAL PARK SERVICE

Work is starting now on the wall which limits the west side of the plaza and retains fill around the structures in the west wing.

During the month Ray Rixey took 5 days annual leave. Prior to this he completed the archeological report on his work at Walnut Canyon, some 90 pages, and it has been sent to Region for comment and final typing.

As long as the weather remains good we will continue with the present program, maintenance, a small amount of wall stabilization at Bc-50 and the major part of the crew at del Arroyo.

Gordon Vivian
Archeologist

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Chiricahua National Monument
Dos Cabezas, Arizona

October 25, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Chiricahua

Subject: Monthly Narrative Report

General. Superintendent Cooke was on leave September 26 to October 10, visiting his 91 year old mother who was in a Yakima, Washington hospital, with a fractured hip. After recovering from the initial shock, she has been getting along nicely. Cooke made an overnight stop at Boulder City on the way home, where he thoroughly enjoyed being shown some of the recreational area by Assistant Chief Ranger Brown. Ranger Ringenbach received a long expected call to take some military training through the month of October. He is now Captain Ringenbach of Fort Ord, California. From Fort Ord, Mr. Ringenbach expects to go direct to Santa Fe to attend the personnel instruction course.

Weather. Some good showers have fallen during the month, and we have had some raw windy weather. So far this year we have had a total of 24.12 inches of precipitation. Records have been kept for ten years at Chiricahua and this is 1.39 ahead of any previous record. If the rains continue to the end of 1949 this should be a record year by a big margin.

General Publicity. The Silver Spur Ranch, which furnishes meals and lodging to Chiricahua visitors, was pictured in Life, October 24. The Wonderland of Rocks got mentioned once. As a result several visitors are known to have come to Chiricahua and the ranch.

Approaches to Monument. The paved road, State Highway 181, is in good condition. The three dirt approach roads are all very passable and average as good as at any time of the year.

Interpretive Service. This service has been neglected some due to the large amount of leave taken by the ranger and superintendent. One hike of one hour was made with three visitors. 1,111 visitors were contacted in the museum in 278 parties.

Museum Activities and Exhibits. A number of excellent 16 x 20 inch pictures of Chiricahua were received from Mr. Roy A Whipple, famous photographer. These are being framed and worked into our museum exhibits. Ranger Ringenbach spent a day showing Mr. Whipple around the monument when he was here last year.

Increase in Travel. This first month of the travel year brought 1361 visitors. This compares with 1040 for October of 1948 or an increase of 31%.

Clair V. Cooke

Clair V. Cooke
Superintendent

El Morro

El Morro, New Mexico

October 25 49

Memorandum

To: Regional Director

From: Superintendent, El Morro National Monument

Subject: Report 1m1, Monthly Narrative Report for October, 1949

Weather: We have had pleasant weather this month with only two light snows. One night the temperature dropped to 11° above zero but that is not unusual for this time of year.

Inspections: Mr. Borth and Mr. Davis, General Accounting Office, inspected (and I hope approved) the area and records October 5. Archeologist Steen and family were visitors to the Monument for a short while the 12th. Foot file cards and interpretation were discussed.

Approach Roads: Work on the road leading east from El Morro toward the Ice Caves has been started. Most of the right of way has been cleared in preparation for hauling fill and making cuts. This may not sound exciting to those unacquainted with El Morro but the 12 miles of new road being constructed constitutes a major development to this district.

Visitation and Interpretation: Only 212 visitors this month and most of them in a hurry.

General: The winter wood supply was cut and stacked, the coal supply hauled and stored. The comfort station was drained for the winter. The plumbing and heating men from Gallup finally came to El Morro and repaired the hot air furnace. It is quite pleasant to be warm and not choking with coal smoke at the same time. Four old but usable tires were received from Wupatki and put into immediate service on our dump truck. The kitchen and bathroom in the ranger cabin and the entrance hall in the superintendent's residence were painted. The window screens were removed and replaced by storm windows. The area vehicles and light plants were made ready for winter operation.

One morning was spent taking pictures to accompany the land appraisal report. Mr. Sprecher from Gallup, who made the appraisal spent one day at the Monument.

Another full day and a healthy portion of my 101 accounts were spent rejuvenating the new Dodge pickup. There are three new ½ ton Dodge pickups in this vicinity and all have started to disintegrate - rear fenders and load bed ripping and breaking apart.

Visitors of Note: Ranger and Mrs. Evan Byrd of Mesa Verde made a flying trip to El Morro.

Mr. Ramon Edmunson, Harvard graduate working on his Ph D has visited the area several times this month and since he needs a place to work and live has consented to care for the Monument during the superintendent's absence.

Research: 19 tentative identifications of names on the Rock, have been made, all members of the California Volunteers who were stationed at Ft. Wingate between 1861 and 1867.

Local Information: Mr. and Mrs. Bose, local school teachers, have moved into the ranger cabin for the winter.

The new editor of the Grants weekly Beacon was a visitor to the area early this fall and has become one of our more ardent supporters. She was so enthused with El Morro that she now heads the obituary column "Paso por aqui".

John A. Aubuchon
Superintendent

Gran Quivira National Monument
Gran Quivira, New Mexico

Oct. 25, 1949

To : Regional Director, Region Three.

From : Superintendent, Gran Quivira.

Subject: Monthly Narrative Report for October 1949.

General. October has brought a mixture of all types of fall weather. Local harvests have been delayed by rain and wind with resultant loss to the farmers. However, there is more prosperity evident this year than for some years past.

Weather. Moisture of various kinds totaling 1.83" was recorded on 13 days. A minimum temperature of 26° was recorded on October 20.

On the evening of Sept. 30 Gran Quivira and vicinity received what the local people say was the most severe hail storm since '32. Hail stones from 1" to 1½" were plentiful. The storm knocked 30 holes in the new roof which was placed on the residence last spring, and other buildings suffered in proportion. All damage was repaired on Oct. 1 and 2; however, my estimate of 7 years freedom from roofing troubles appears too high.

Special Activities. The superintendent spent 1 day gathering data for the annual Wage Board Survey.

General Publicity. The superintendent disclaims any responsibility for the attached clipping from the Mountainair Progressive, for Oct. 21. No doubt the clipping indicates something, but I am not sure what. Since the new improvements listed include the "caretaker's home" and a "900 ft. well" it would seem that visits by the local reporter are rather infrequent.

Maintenance. Two days were devoted to roof patching as previously noted. The "rustic" touch returned on Oct. 24 when the restrooms were drained and winterized and the pit toilet refurbished for winter. The stuffing box on the deep well was repacked.

Approaches to the Monument. The Mountainair approach continues good, with the Carrizozo approach rough.

Interpretive Service. 61 parties toteling 218 visitors were guided through the ruins. Average trip time 43 minutes; total time, 43 3/4 hrs.

Increase in Travel. Travel for October showed a definite increase as indicated below.

	CARS	VISITORS
October 1949	90	260
October 1948	65	195
Increase	25	65
Percent Increase	38.5%	33.3%

Added Unofficial. (Engineers please note). The local people have always disbelieved the theory that the Indians here secured their water from the intermittent lake 3/4 mile away at the foot of the mesa. They insist that there was once a spring near the Mission. Conjecture on such may have contributed to a dream on the part of one of the local men in which he "saw" the location of the ancient spring. Now dreams are powerful stuff, but still in all some verification is usually necessary in this day and age. Accordingly the services of another local resident of some ability as a "water-witch" were secured. Lo and behold when the "dreamer" took the "witcher" to the spot the forked stick verified the dream.

However, the witcher was, by the standards of this community, a rank amateur in that, while he can tell where he can not tell how deep. Therefore the services of one more proficient were secured. The second man again verified the location, and with a 3 foot piece of wire was able to establish the depth at 21 feet.

Anyone who feels like laughing might consider the well we have -- 900 feet to obtain the present supply of diluted nitric acid.

One question however is bothering me. How does one prepare a PCP and list the results of a dream verified by a witch as a justification?

If further data is desired I can for $15 obtain the ultimate in professional circles here. Again before you laugh, I might say that this man has a long record of "hits" and his consultation before drilling is started is S.O.P. here.

William L. Bowen,
Superintendent.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

GREAT SAND DUNES NATIONAL MONUMENT
MOSCA, COLORADO

October 26, 1949

Memorandum

To: Regional Director, Region Three

From: Great Sand Dunes

Subject: Monthly Narrative Report

WEATHER. Beautiful fall days with a nip in the air and possible warning of much colder weather and winter closing down.

The minimum of 18 degrees was registered on October 22. The maximum of 79 degrees was reached on September 28. The high minimum was 47 degrees on September 29 and 30. The low maximum was 36 degrees on October 23.

There were 14 windy days and a strong northeast wind blew on September 26, October 13, 19 and 23.

Rain fell on September 28 and 29. Snow fell on October 9,17,19,20 and 23.

During this report period, there were 14 clear days, 9 partly cloudy and 7 cloudy days.

The Sangre de Cristo Range is snow-capped and this ideal weather has permitted the deer to remain at a high elevation.

TRAVEL. One thousand three hundred ninety-one visitors in three hundred ninety-four cars visited the Sand Dunes during this report period. Twenty-six states were represented as well as Australia and India. Two written requests were answered.

Seven hundred sixteen visitors took advantage of the picnic areas and of these, twenty people camped over night. The camping season is now over.

INCREASE IN TRAVEL. For October 1948, there were 325 cars and 1277 visitors. This months travel was increased by 114 visitors.

CONTACT. Contact with visitors was done on Sundays and during the hunting season, October 15 thru 25. There were 14 days of actual contact

There were one thousand twenty-four visitors contacted in two hundred seventy-six cars. Contact time averaged 15 minutes per car.

Contact time amounted to 69 hours for the Superintendent.

N.P.S. VISITORS. October 24, Superintendent C. Sharp and wife, her father and sister made a too short visit and picked up the old Ford dump truck for transfer to Tonto National Monument.

ROADS. The State graded the approach road from Mosca to our entrance on October 14 and 22. This has greatly improved the road and should enable it to withstand winter snow and slush.

MONUMENT ROADS. The monument road system has been graded twice and is in fair condition. More moisture is needed to do a good job.

HUNTING SEASON. The Colorado hunting season opened on October 15 and will close on the 30.

Contact has been and will be made every day until the season is over. On lieu days - "I'm just donating my time."

Todate one hundred and six hunters have entered the area. The majority turn around as they do not have the necessary jeep or horses to get them into the high country. Those who are prepared return very disappointed as they do not run into the deer they know are there. Todate only eight deer have been killed and these were taken high on Medano Pass and on the other side of Mosca Pass.

Only five more days to go - and then the chain block at the checking station can be put away for another year.

The Zapata Ranch south of us, has kept men posted for hunters and todate has not run into the trouble they experienced last year.

ACTIVITIES. Usual routine activities have been carried on as well as keeping all administrative and office matters current.

Hauled gasoline and supplies from Alamosa.

Thoroughly cleaned picnic areas and hauled away garbage and trash. The water was shut off and taps were removed from both upper and lower areas. The pit toilets were checked and lime was

thrown in and this puts the picnic areas in readiness for winter.

Painted and installed a "No Hunting" sign at the entrance of the monument for the 1949 hunting season. This sign will remain the entire year since it also advises visitors of no wood-hauling, use of firearms and no grazing.

Repainted the warning sign for "no driving in sand" which is located at the lower Mosca Creek picnic area.

Prestone was placed in all automotive equipment. Changed oil in all equipment and air compressor for winter use.

Checked the 1938 Ford dump truck and had battery recharged for transfer to Tonto National Monument. Superintendent Sharp checked tools, etc., when he took truck on October 24.

Some work was accomplished on the trailer. Finally completed placing tin strips around roof to carry off water and keep sides dry. Placed more cement blocks around south and west side for foundation. Shut off water and hooked up oil stove in case heat is needed for working in cold weather.

A general cleanup was given around headquarters area, garage and light plant room.

All rock and dirt was removed from parking area and shoveled back into the hole which contains the two 1,000 gallon tanks.

PROJECTS FOR ENSUING MONTH. Complete hook-up on the 1,000 gallon fuel oil tank and fill the tank for winter use.

Do more shovel work and cover up these tanks. Also hope to fill the gasoline tank and use the hand pump until another system is worked out.

Shut off water in confort stations and get area ready for winter.

Do more work on trailer to get it ready for winter. Plan on bracing the roof to withstand weight of snow as roof has little or no pitch for this part of the country.

Make plans for annual leave before the year is over, and continue with contact work as time allows.

Ted C. Sowers,
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Montezuma Castle National Monument
Camp Verde, Arizona

October 25, 1949

Memorandum

To: Regional Director

From: Superintendent, Montezuma Castle

Subject: Monthly Narrative Report, October 1949

Weather: Weather has been unusually wet and cold for this time of year. Rain fall for the past thirty days totaled 2.5 inches, with 1.81 inches falling between October 16 and 19. Temperatures ranged from a maximum of 85 degrees to a minimum of 25 degrees. The first frost of the season occurred on October 20 when the mercury fell to 27 degrees.

Travel: With the exception of a few rainy days, travel has remained steady throughout the month. 1,972 people in 732 cars visited the Castle and 928 people in 265 cars saw the Well. This makes a total of 2,900 visitors in 997 cars to this monument as compared with 2,527 visitors for last year. Although no official figures were kept, it was observed that approximately eighty per cent of the cars came from California.

For the travel year ending last month, 35,074 people visited this monument which represents an increase of 8,904 people or 34 per cent over last year. From this number, 8,856 people saw the Well as compared with 5,333 in 1948. Also, 9,157 persons climbed the ladders to the Castle which amounts to an increase of 1,500 or twenty per cent over last year.

Interpretation: From one to seven trips were made daily during the month for a total of 135 trips which conducted 840 people through the Castle. All visitors to the Castle saw the museum and 577 people received interpretive service at the Well.

Publicity: A full page containing pictures and information on Tuzigoot and Montezuma Castle national monuments appeared in the Sunday, October 9, edition of the Arizona Republic. This spread was entitled "Valley of Yesterday" and mentioned the fact that the fall of the year was an ideal time to visit these areas.

Letters giving annual travel information were mailed to The Arizona Daily Sun, Flagstaff; The Verde Valley Independent, Cottonwood;

and the Arizona Republic, Phoenix. All of these newspapers printed the information.

Visitors: On September 25, the Verde Valley Pioneer Association held its semi-annual picnic at the Well with 163 people attending.

On September 26, 17 students from the Verde Valley School.

On October 5, Alexandre de Manziarly of Los Angeles, Consul General for the Republic of France, and Paul Coze of Pasadena, artist, noted for his paintings of Southwestern Indian Tribes.

On October 14, Sanitary Inspector Neel and wife from Grand Canyon.

On October 15, 33 students from the Grand Canyon College at Prescott.

On October 23, Assistant Superintendent Garrison and family from Grand Canyon.

During the month, Superintendent and Mrs. Wright, and Archeologist Richert and wife from Tuzigoot.

Construction & Maintenance: At the Castle, the roof to the shed housing the water pump was repapered and the campground water line drained.

At the Well, several windows in the quarters were calked, and drainage ditches in the museum area cleaned out. Also, at the Well, the leased fields have been completely bordered and seeded and the crop of permanent pasture is already up in the west field. Mr. Davis is now replacing old and broken fence along the north edge of the field.

Roads & Trails: Considerable road work was accomplished during the month with the removal of several pickup loads of debris and silt from the parking area and with the cleaning of all drainage ditches. Material removed was used for repairing the washed out sections of the campground road. Pavement breaks and ravelled edges were also repaired at the entrance Y and the directional signs rearranged at this point. Recent rains, however, have again caused some damage to the campground road.

Several loads of broken branches and other dead and down material were removed from along the Castle trail and hauled to the

public campground for use as fire wood.

At the Well, the county grader operator graded the approach road to the well proper and will later grade the picnic ground road. Also, a ditch was dug to divert drainage away from the service road.

Mr. E. Garrison, supervisor for Yavapai County, was contacted relative to securing oil and equipment for the oiling of the Castle trail. It is hoped that arrangements can be made whereby the county will furnish men and equipment for this job.

Personnel: Archeologist Shhroeder took ten days of annual leave during the month and enjoyed a trip to the west coast.

Miscellaneous: The arrival of fall has brought an increase in community activities. Montezuma Castle, through the effort of its ladies, has contributed its share toward the success of these functions. Rena Clancy presented several dances at a recent home talent show, proceeds from which went to the Cancer Fund. Ella Schroeder has been busy discharging her duties as president of the Verde Valley Garden Club, and Bee Cock headed a successful rally day program sponsored by the Camp Verde Community Church.

Southwestern Monuments Association: The first quarter inventory was taken covering SWMA publications. Collections from sales totaled $492.10, an increase of $126.83 over the corresponding three months of last year. Sales for this past month have been exceptionally good.

JOHN O. COCK
John O. Cook

Natural Bridges National Monument

October 26,1949

Memorandum

To: Regional Director, Region Three

From: Acting Superintendent, Natural Bridges.

Subject: Monthly Narrative Report for the month of October 1949.

TRAVEL: A steady increase in travel was shown throughout the 1948 travel year and a good start has been made for the 1949 travel year with 93 visitors arriving in 32 cars, inspite of ten days of snow and rain.

INTERPRETIVE SERVICES: Total contact time amounted to 45 hours in which the 93 visitors were given information about the area. The campground was used by 22 people for a total of 9 days on overnight stays. One guided trip was made by Ranger Redd with one visitor.

PERSONNEL: Temporary Ranger Redd was terminated October 15 and reemployed as laborer Leadman to work on trails.

CONSTRUCTION: What remained of the canvass was removed from the Ranger quarters and replaced by a permanent roof. This work was done October 14 thru October 17.

NPS VISITORS: Jesse L. Nusbaum arrived on September 25 and spent a full week making an archeological investigation in the area. According to reports from Ranger Redd there were many interesting finds made. Maintenanceman Winbourn and Superintendent Wilson arrived the night of October 14 and spent three days constructing a permanent roof on the Ranger quarters.

SERVICE TO PUBLIC: Everything seemed to be natural on September 25 even flares seen by lost visitors. A visitor who spent the night of September 25 in White Canyon after losing his way, which is natural, finally found the trail and returned to headquarters at 7 AM the next morning. He said that he had seen Ranger Redd's flares but was unable to figure out which way to go. The flares turned out to be lightening which naturally confused the visitor and Ranger Redd was naturally sleepy after hunting for him most of the night.

Bates E. Wilson
Acting Superintendent

NAVAJO NATIONAL MONUMENT
TONALEA, ARIZONA

October 26, 1949

To: Director

From: Superintendent, Navajo National Monument

Subject: Report 1m1

There follows a narrative report of activities in this area for the month of October 1949.

GENERAL

All travel records for the month of October were broken. We had visitors on the area every day from September 26th to the 15th of October. A sudden rush of heavy winter stopped all traffic on the 16th. Numerous trees were broken by heavy snow and wind.

VISITORS

76 visitors came to this area in 32 cars. 39 camped over nite accounting for 115 visitor days. These visitors selected their activities as follows: 40 visitors used Sandal Trail in 17 parties, 26 visitors hiked to Betatakin in 8 parties, 7 visitors went to Keet Seel in 3 parties, 4 visitors to Scaffold House in 2 parties. 46 visitors in 17 parties were given the vest-pocket museum treatment. All visitors to the area were contacted.

OFFICIAL VISITORS

Mr. Jack Rogers and Mr. Kilgore of the U.S.I.S., S&M on the 6th. The superintendent was at Keet Seel, Mr. Rogers returned on the 10th.

Messrs. King, Taylor(Smithsonian Institute) and Wetherill (Museum of Northern Arizona) on the 6th, 7th, 8th 9th. These visitors inspected Scaffold House, Keet Seel, Turkey House, Turkey Cave, Twin Caves and Bat Woman House.

DISTRESSED VISITORS

The heavy snow storm trapped a family of Navaho pinyon pickers in the high country. We clothed some and fed these people whose car had suffered a cracked engine block. The superintendent bladed the snow off the road and towed the car and family to the Shonto junction on the 21st in connection with our regular mail trip.

ROADS

Roads were good until the 16th. Heavy rain and snow have rendered the roads impassable except for experienced travellers with chains.

WEATHER

Minimum temperature on the 20th was 14 degrees. Maximum temperature on the 3rd, 4th and 5th was 77 degrees. Total precipitation was 2.11 inches--consisting mostly of snow. A 90 degree solar halo was observed the morning of the 14th.

MAINTENANCE

High winds on the 8th ripped the roofing paper off the tool shed. New paper has been hauled out and will be applied as soon as this report is finished.

Six combustion engines (Dodge, International Dump, Gelion Grader, two Kohlers and the Climax water pump generator) were winterized with Prestone and light crankcase oil.

Roads were cleared of snow and drainage ditches opened.

Sandal Trail received surface and drainage repairs.

Tools for the Barco hammer were hauled out (about ½ ton) from Walnut Canyon National Monument.

Out-lying unprotected water lines were drained.

Coal was hauled from the Kayenta Coal Mine. At least one more load is required. The furnace in Residence #1 was placed in operation on October 20th.

WILDLIFE OF UNUSUAL INTEREST

On October 15, 1949 a mountain lion was shot by Jim Black three miles south of Betatakin on the Navajo Reservation. Photos are attached.

SPECIAL REPORT

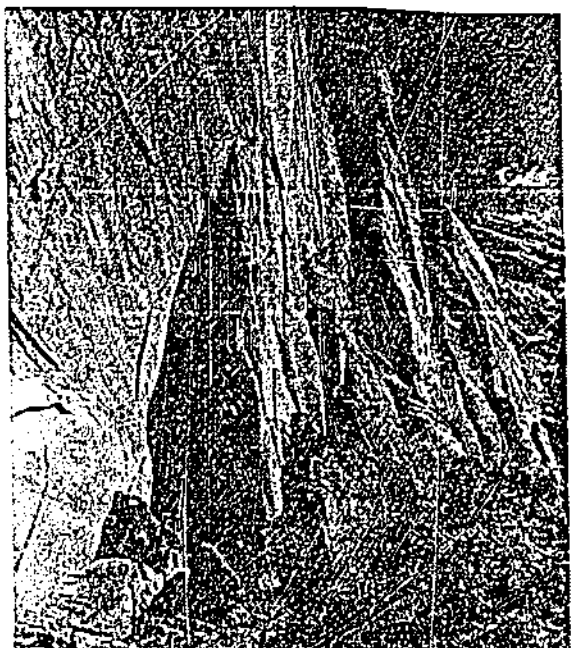
A pictorial plea to have Scaffold House Pueblo restored to this national monument appends this report.

J.W. Brewer, Jr.
Superintendent

On October 13, 1949 Jim Black (center, lower photograph) shot this mountain lion, 3 miles south of Betatakin on the Navajo Reservation. Using a .22 rifle at 15 yards range the bullet pierced one of the lions eyes. The skin is to be tanned for ceremonial use and the claws have already been removed for the same purpose.

(L to R) Bob Black, Jim Black (intermittent laborers at Navajo National Monument) and Herbert Laughter, son-in-law of Pipeline, eating boiled lion meat. It is a Navaho belief that eating lion meat gives strength. It is my belief that anyone who can eat 12 year old cat doesn't need additional strength.

A SPECIAL REPORT



SCAFFOLD HOUSE
PUEBLO

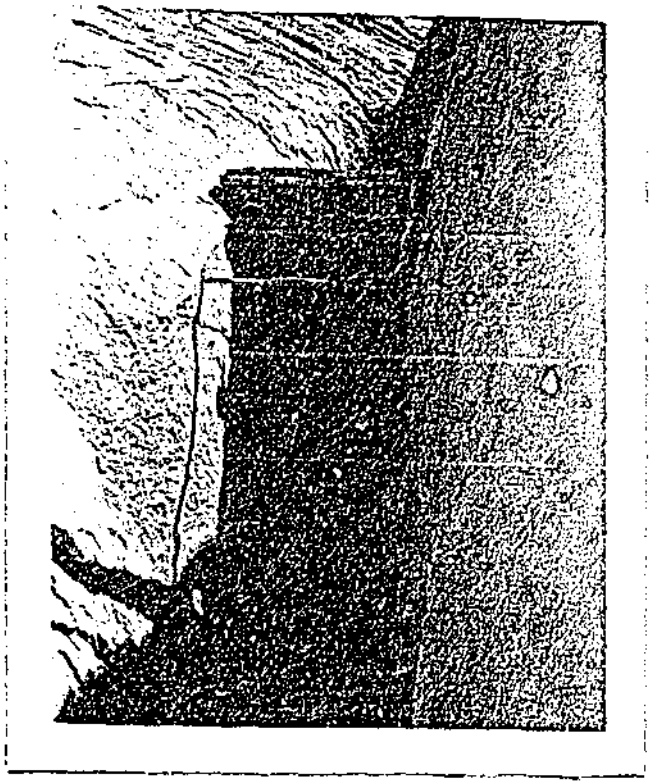
NAVAJO NATIONAL MONUMENT

SCAFFOLD HOUSE, once a part of NAVAJO NATIONAL MONUMENT (March 20, 1909) was inadvertently excluded in the second proclamation (March 14, 1912). About sixty basal rooms are indicated in this pueblo. These are not included in the pictures because of their similarity to other prehistoric pueblo sites. These photographs are used to show the outstanding feature from which Scaffold House Pueblo gets its name.

NAVAJO NATIONAL MONUMENT

SCAFFOLD HOUSE

What prehistoric aerialists these Anasazi must have been to conceive and construct this immense platform. A citadel group is perched on the rocks to the right of the scaffold.



NAVAJO NATIONAL MONUMENT

SCAFFOLD HOUSE

Human spiders? Or is this an early "Bailey Bridge" technique?

Scaffold House is only three miles north of Betatakin and could be included in the horseback trip to Keet Seel.

SCAFFOLD HOUSE

On March 16, 1912 this outstanding example of prehistoric engineering was "given back to the Indians".

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

ORGAN PIPE CACTUS

AJO, ARIZONA

October 25 49

Memorandum

To: Regional Director, Region Three

From: Superintendent, Organ Pipe Cactus National Monument

Subject: Monthly Narrative Report

There follows a report of activities for Organ Pipe Cactus for the month of October 1949.

Weather

The last of the summer heat was on October 4 when the high of 101 was reached. It has since then cooled to our usual pleasant fall weather. One night of record cold occured on the 20th with a low of 34 accompanied with a light frost.

Three small showers fell1 with a total of .53 inches of rain. The showers this summer have been very spotty and we are still in very much need of a good general rainfall.

Special Activities

After a conference with the Indian Service an approach was made by Mr. Kell for the purchase of the Miller property. It was soon found that our limited funds would not be enough to even carry on bargaining for the property.

A school district was formed by the Lukeville and vicinity residents with boundries following those of the Monument. An application for a schoolhouse site was received to locate the building on Monument lands. Conformation was received by radio and the building is now being moved. A school of 22 is now being temporarily held in one of the Luke apartments.

Arizona Archaeological Center Library

General

The highlight of the period was the introduction in Congress of H. R. 6234 by Representative Patten to change this area from a Monument to Arizona Desert National Park. This has stirred up considerable intrest locajy both pro and con.

Nearly all local oppsition is by those who would do away with the area entirely so that they could hunt and graze the areas. While we are remaining entirely nutural in the proposal it is giving us an opertunity to point out a great many facts conserning the Service which most local people have missunderstood.

Co-operating Governmental Agencies

The Bureau of Animal Industry is constructing a patrol road within the 60 foot nutural strip along the International Line, from the Customs house east to the foot of the Ajo Mts. This will give us a good patrol road into our east section and will allow us to obliterate our present old truck trails.

Road Maintenance

Through the co-operation of the rangers and maintenenceman we have been able to spread approximately 600 cu. yds. of wash gravel on the beat out sections of some of our patrol roads. This work will be carried on as time permits until we have our roads in first class shape.

Travel

Our winter travel season is starting with the snow falling in the northern areas. Several of our regular campers are arriving to enjoy our sunshine. Indications though the state point to a peak travel year.

Research

A peccary was killed on the highway Oct. 15th. All weights measurements and information was recorded before disposal.

A report by Max Hensley on our snake reserch carried on last summer indicates 24 species and two sub-species of snakes on the Monument. Two of these are new U. S. records.

Personnel

The Superintendent returned from annual leave Oct 8.

Ranger Bean will be absent from duty attending the In-Service training Conference from Oct 31 to Nov. 8.

SAGUARO NATIONAL MONUMENT
Tucson, Arizona

October 25, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Saguaro

Subject: Monthly Report, October 1949.

There follows the monthly report of activities at Saguaro National Monument for the month of October, 1949.

General.

Very little rainfall during the month, accompanied by drying winds, increased the fire hazard in the forested area. Only one lightning storm occurred on the 3rd, and luckily no strikes or fires werereported. Two inches of snow in the forested area on October 9 vanished, leaving a very small amount of moisture.

A flash flood in the vicinity of Madrona Ranger Station on the 5th did considerable damage to the roads in that area.

The weather turned off cool on the 15th and several cold snaps have been the result. Visitors of course, make the usual comment on this type of weather on the desert. The low recorded in Tucson was 38 degrees.

The Annual Wildlife Census Report, and Annual Travel Report was submitted this past month.

Prestone has been added to all equipment during the past month to prepare for the forthcoming winter.

Special Activities

Superintendent King and Ranger Benson, attended the meeting of the Saguaro Land Committee on October 4. A special report on this meeting was submitted to the Regional Director on October 5.

Messrs. John Kell and Charles Carter were in the area October 22 to confer with the Superintendent on Saguaro land problems.

The Superintendent accompanied officials of the U. S. Forest Service on a range inspection trip over the southern portion of the X-9 allotment on October 7. He also accompanied members of the above agency over the Pantano allotment on October 20.

Forage grasses on the X-9 allotment were found to be lush and no indication of excessive use was noted. The Pantano allotment is in fair to good condition, but the tremendous amount of annals (Lachugilla), and other factors, renders it far less desirable as a forage agen. Studies being conducted by the Forest Service on various allotments are being made to determine what portions of the range are not utilized by stock and reducing the allotments to that extent.

Ranger Benson to forested area October 13 - 15 inclusive for survey of insect damage for annual insect report.

Boundary Changes

The Saguaro Land Committee forwarded a resolution to the Regional Director requesting boundary revisions at Saguaro to facilitate settlement of Saguaro land problems.

Status of Private Lands

Mr. Thomas Ige has practically completed construction of a small residence in Section 8, T14S, R16 E. This house is in the northwest corner of the monument and within the proclaimed boundaries.

General Publicity

Travel figures at Saguaro for the travel year 1949 were released to the local newspapers on September 25.

Maintenance

The Madrenna-Manning Camp trail has but a few more days labor to complete renovation. The trail was raked, water bars replaced, and the trail re-routed in certain bad spots during the past month. Laborer Western has been working down from the top while Maintenanceman Barney and Laborer-Leadman Stansberry have worked up from the bottom. Considerable labor has been expended in reconditioning this trail but it is in the best condition it has been for quite some time.

Cooperating Government Agencies

Craig Bryan, Pathologist, Bureau of Plant Industry, was in the area to inspect experimental inoculations of opuntia engelmanni.

Cooperating Non-Government Agencies

Dr. Alice Boyle, Pathologist, University of Arizona, made several trips into the cactus forest to inspect experimental inoculations of diseased Saguaros, and to obtain insect specimens.

Donations and Accessions

The water cooler received via transfer of property from Casa Grande was converted into a drinking fountain and installed during the past month. This will terminate the "hot water" complaint we often hear during the summer months.

Interpretive Services

A total of 879 persons in 230 parties were given interpretive service at headquarters. This amounted to 97 hours for an average of 12 minutes per party.

Museum Activities and Exhibits

Several transplants to the arboretum of specimens of ocotillo, fish-hook cactus, and creosote bush were made during the past month.

Dr. Edward McKee visited the area to obtain current data for his geology contribution to the nature trail pamphlet proposed at Saguaro.

Research and Observation

Four javelinas and one half-grown mountain lion was observed by visitors to the cactus forest on the 2nd.

Two Saguaro blossoms observed on the 10th, and three plants observed in flower on the 11th.

Increase or Decrease in Travel

A total of 1,437 people visited Saguaro during the month. This is an increase of 42 % as compared to last month and an increase of 649 visitors over the corresponding month a year ago.

October 16 was an unusually busy Sunday with 188 visitors to the Cactus Forest.

Visitors

October 4 - Dr. Taylor Marshall, Director, Desert Botanical Gardens, Tempe, Arizona.

October 4 - Craig Bryan, Pathologist, Bureau of Plant Industry, Tucson, Arizona

- Dr. Marvin Fowler

October 6 - Miss Heide Hisegg, Rapperswil, Switzerland

October 7 - Mr. & Mrs. Paul Seibel, Lancaster, Pa.. Mrs. Seibel formerly with the Washington office, National Park Service.

October 13 - Ira B. Lykes, Superintendent, Prince William Forest Park, Triangle, Va., accompanied by Mrs. Lykes, and Mr. & Mrs. I. B. Lykes, Sr.

October 15 - Mrs. Regra Lowe, Australia

October 21 - Mrs. Charles T. Lill, President, Washington Cactus and Succulent Society. (Washington State)

October 22 - Messrs. John Kell, and Charles Carter, Region Three Office, Santo Fe.

Ranger Service

Ranger Wilde has been on annual and military leave the past month.

Ranger Benson completed annual insect survey October 12 - 15.

Wildlife Activities

A report received via Regional Office from the Arizona Fish & Game Commission in regards to proposed Rincon - Tanque Verde Game Management Unit was a subject of a special report to the Regional Director.

Forest Fire Protection

Due to limited rainfall and drying winds the fire hazard in the forested area has been relatively high this past month.

Insects and Tree Diseases

A survey was made of the forested area October 12 - 15 by Ranger Benson to determine status of insects. A number of Dendroctonus and Ips were encountered but of endemic proportions. This survey subject of special report.

Personnel

Laborer Western will be terminated the 28th of this month.

Maintenancemen Barney took annual leave on the 5, 6, 7, and 10, for the purpose of pursuing the elusive deer in the Kaibab Forest. Mr. Barney returned without a trophy.

Superintendent King managed a day of annual leave on the 16th.

Ranger Benson was the victim of the first cold snap and had to use a day of sick leave on the 21st to snap back to normal.

Ranger Wilde has been on military and annual leave the past month.

Samuel A. King
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Sunset Crater NATIONAL MONUMENT

Flagstaff, Arizona

October 25, 1949

Memorandum

To: Regional Director, Region Three

From: Park Ranger, Wupatki

Subject: Monthly Narrative Report, Sunset Crater, October 1949

Roads: Many rocky portions of the approach road have been eliminated by placing clay over them but many sections of the road are badly wash boarded. This ranger had an opportunity to work with the road man on this and it was noted, during periods of moderate travel, the wash board reappeared within one hour after it had been bladed out.

Travel: Visitor use at Sunset Crater decreased this month. An estimated 1800 persons visited the area; this figure compares with 2268 for October 1948 and 4310 for last month. Only 141 persons were contacted this month and this low figure is due to the fact that Ranger Viklund closed the area for the winter on October 12th.

Personnel: On October 12th Ranger Viklund moved from Sunset to Wupatki for a few days winding up matters pertaining to the former area.

Visitors: On October 26th Administrative Assistant Joe Lucero of the Coconino National Forest visited the area with the new Assistant Supervisor of that forest, Mr. Rea.

General: Prior to the closing of the area radio contact was attempted several times with no apparent success. The monument was completely cleaned up, all equipment moved to Wupatki and the trailer residence closed for winter prior to October 15th.

Wildlife: Several red foxes have been noticed around the crater recently by personnel coming down through the area at night.

Robert C. Euler
Robert C. Euler
Park Ranger

In triplicate.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

TONTO NATIONAL MONUMENT
ROOSEVELT, ARIZONA.

25 October 1949

Memorandum

To: The Regional Director; Region Three.

From: Acting Superintendent, Tonto.

Subject: Narrative Report for the month of October, 1949.

Weather: Rains have broken the summer heat and temperatures of near freezing have been recorded some evenings. The Sierra Ancha have had quite a bit of snow. We received a good soaking rain the 18th and 19th. Fall has come to Tonto.

Roads and Trails: Approach roads were in poor shape the first portion of the month due to the grader breaking down and the lack of rain, but with the coming of the rains the roads are in excellent shape. Ab. Sanders, State Highway Maintenance man, kindly worked our entrance road over on the 3d. Sam Orem has been doing a fine job on the ruins trail and has about half of it smoothed out and drainage ditches cut. Sam also cleaned out the cattle guard and took the rattles out of it.

Travel. Travel during the month of Oct brought 1,101 visitors as compared with 915 for Sept. and 953 a year ago.

Museum: The textile display cases were hung on the wall and have gained quite a bit of visitor attention. Plans are under way for better labeling and rearrangement of the museum cases.

Personnel: Samuel A. Orem entered on duty as Labor-Leadman on October 13. We are more than pleased to have Sam back with us.

Visitors: Mr. Beach and daughter Bernice spent several days with Supt. and Mrs. Sharp. Lt. and Mrs. Les Mische visited the Piersons Oct. 4-7. Tanner Tours brought a group of 63 Santa Fe RR. tour party people in on the 15th. The 11 tour cars practically filled the parking area.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

General: Copy for the new plant labels was prepared and sent off so that we may eventually improve on our nature study area. PCP forms for archaeological research were made up during the month. One of the great events in Tonto history seems to be in the process of materializing, i.e., the grading down of the parking area. In preparation for this event the oil storage tank has been moved to the tenthouse area and plans are being made to move the picnic table and water fountain now on the parking terrace. Residence 2-B has a new coat of paint on the outside and on the kitchen ceiling. No hunting signs were placed on the boundry fence in anticipation of the coming quail, javelina and deer hunting session. Supt. and Mrs. Sharp left the 21st for Altamona and Santa Fe to pick up the Great Sand Dunes dump truck and visit the Regional office.

Lloyd M. Pierson.
Acting Superintendent.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Tumacacori National Monument
Tumacacori, Arizona

October 25, 1949

Memorandum

To: Regional Director

From: Superintendent

Subject: Superintendent's Monthly Narrative Report for October, 1949

Weather Conditions: Temperature ranged from a maximum of 98 on September 28 to a minimum of 28 on October 21. First frost of the season occurred on October 10, which is quite early. Precipitation of .55 of an inch for the month was about half of the average over the past 10 years.

Increase or Decrease in Travel: Visitors totalled 1,653, arriving in 501 motor vehicles. This visitor total breaks the previous October record high of 1,545 in 1948, and constituted the sixth straight record breaking month of the year.

Interpretive Service: 754 persons went on 151 guided trips through the mission church and grounds, receiving an average of 35.82 minutes per trip. 1,585 persons received combined Information and Interpretation Service, and 1,580 saw the museum and patio garden. Although there were fewer visitors than in September, more persons went through the mission church, on more guided trips, and spent more time per trip. Visitor interest is definitely picking itself up from the customary summer doldrums.

Visitors: October 9 - Mr. and Mrs. Lonnie Fuller. He was formerly with N.P.S., in charge of Denison Dam and Lake Texoma.

October 12 - Technical Sergeant Philip Johnston. He is the man who taught the Marines how to use the Navajo tongue for the unbreakable secret code which the Japs apparently never deciphered.

October 13 - Trent E. Sanford, author of "Spanish Architecture of Mexico," now gathering material for a book on Southwestern Spanish architecture.

October 15 - Will H. Towles, founder of National Photographic School in Washington, D. C.

October 16 - Charles B. Maguire, a Tucson landscape architect, formerly with N.P.S. on the H.A.B.S.

October 19 - Milan Art Studios, of Tucson, brought a group of 27 art students to sketch on the grounds.

October 22 - Rufus K. Wyllys, Head of the history department, Arizona State Teachers College, Tempe, and author of "The

French in Sonora."

October 22 - The Potter School for Girls, Tucson, Arizona, brought a group of 16.

Inspections: October 18 - Park Planner John Kell and Landscape Architect Charles D. Carter arrived late in the afternoon. After a conference on how the State's proposed widening of its highway past the mission would restrict the existing parking area, Mr. Kell went on to Organ Pipe Cactus National Monument. Mr. Carter remained here the 19th, 20th, and most of the 21st, on assignment to work out with us details of what our future planting program should be.

Publicity: Nogales newspapers, as usual, are giving us good publicity. On the occasion of our annual travel release, the Nogales Daily Herald topped the story with a large pictorial spread of Tumacacori Mission Church.

In addition, Betty Jackson, wife of the superintendent, has recently become a paid correspondent to cover Santa Cruz Valley news for the Nogales International, thus ensuring even minor news coverage for the vicinity, through the medium of a lively weekly paper.

Museum and Education: Additional research, for the purpose of bringing up-to-date text matter for revision of labels in the mining case in the museum, was done. Assistance from Regional Archaeologist Reed, reference work at the University of Arizona Library by Ranger Brewer, plus much study of local text matter and inquiry by her of mining men of this region, have enabled us to get a mining text which should be adequate for a considerable time.

Part of the educational work for the month consisted of a lengthy reply to a New York man who wrote he had been referred to us by the National Geographic Society in his quest for "information concerning the lost mission treasures in the mines of Tumacacori." Debunking a lot of these vapors about Tumacacori mission mines is a sizeable portion of our interpretive needs.

A preliminary report on chemical composition of pigments used in decoration of the church interior, has been found of value in our interpretation. This study was done by Collaborator Rutherford J. Gettens, of the Fogg Museum of Art, Harvard University. During the month two additional small samples of colored plaster were taken in the church and sent to Mr. Gettens for analysis.

Personnel: W.A.E. Guide Alfred F. Whiting resigned to accept other employment. Resignation date was effective COB September 18.

Planning: Proposed Development Program sheets for fiscal years 1951, 1952 and 1953 were prepared and submitted to your office.

Three days were spent with Landscape Architect Carter in intensive study of planting needs here, resulting in a set of detailed recommendations by him which should make it possible for us to

do our patio garden and grounds landscaping in a very efficient manner for several years to come.

Mission Stabilization: Archaeologist Charlie Steen, accompanied by Mrs. Steen and the children, arrived on October 15. Since then he has been engaged in cleaning and stabilizing inside plaster surfaces of the mission church walls. By carefully brushing away the dust and dirt accumulation of over a hundred years from the plaster, then applying a spray coat of vinyl acetate, he is brightening up the drab interior of the venerable old building, and uncovering interesting new traces of decoration and incised lines which were not previously visible. The spray is intended to stabilize painted decorations, and to a lesser extent to stabilize the thin brush wash on the walls.

Maintenance: Routine maintenance was kept current. Heaters were installed in the residences for the winter. In the museum building a coat of Ducorex was applied to the lobby floor and to the north arcade of the building. Lobby furniture was waxed. Patch plastering, in preparation for painting, was done on the building. Two coats of Bondex have been applied to about half of the museum cornice so far. A good deal of brushing with a steel brush was done on more of the museum building walls, in preparation for application of Bondex.

Minor carpentering repairs were made to a door and screen on Residence No. 2, and a heavy louvred grill at the bottom of the furnace room door in the museum was replaced by hardware cloth, to allow more air for the furnace. A door-sized hole was put through the north wall of the adobe garage, and a frame and door were installed here, to provide outside entrance to the side-arm water heater for the laundry tubs.

Nature: On October 17 a 13 inch Coral Snake was captured in the mission cemetery, and in a glass prison in the office it has provided much interest to visitors, many of whom have never seen a "real" Coral Snake.

With reference to the bat nuisance in several of our areas, the following experience offers a possibility: Several weeks ago several bats were found roosting in two corners of a museum arcade, clinging to the plaster wall and board ceiling. I put some of the commercial wood preservative known as "Woodtox" or "Woodhealth" into a can, dipped a brush into it and applied a liberal brushing to the affected areas. Several weeks have passed, and no bats have been seen roosting there. Presumably the peculiar and somewhat strong odor of this poisonous chemical lingers after drying, and either kills the bat odor which helps attract other bats, or is repulsive to bats, or both. The liquid is almost clear, and leaves no perceptible stain. I recommend further experimental use of the stuff as a bat repellant.

Community Relations: On October 14 the superintendent attended a business meeting of the Pimeria Alta Historical Society in Nogales. Considerable discussion was had on proposed visits to historic sites in the region, and in the course of this Tumacacori and the National Park Service as locally represented were commented on a number of times. I believe our ideas were very well received. The group thanked the National Park Service for the invitation to be our guests at a special meeting at Tumacacori, and will probably have such meeting when weather warms up in the Spring.

A Standard Course in Red Cross First Aid is now being held, mgs. Evening meetings three times a week are held in the lobby of our museum building, and we are gratified at the number of local people who are taking this course.

The Boy Scout program is again going actively ahead in this community. The superintendent has been asked to coordinate scout activities and programs for the valley, and at the present time is attempting to do this as well as substitute as Scoutmaster for Troop 68 until a permanent one can be found.

Earl Jackson

Earl Jackson
Superintendent

TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA.

October 26, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Tusigoot National Monument

Subject: Monthly narrative report for October, 1949

Travel Data and Trends: The first month of the new 1950 travel year starts off with a 9% increase in visitors over the same period for last year. 1672 this month compared with 1521 for the corresponding period of 1948. The 1672 sightseers arrived in 592 cars. All of which points to another new record-breaker for the coming year. In the "old-days" we could look forward to a let-up in travel during the winter months, with the thought of accomplishing needed maintenance work - all or much of this is being changed. Interpretive services now require full time the year round.

Guide and Contact Service: Museum, ruins and orientation contacts totaled 3605 for the month. 1341 people in 511 parties were shown through and given an orientation lecture in the museum, and 1264 people in 508 parties made the trip through the ruins. The average time spent by each party in the museum was 20 minutes-ruins 20 minutes. All visitors arriving at Tusigoot were contacted and given maximum interpretive service.

Arch. Richert proposes to attend the Personnel Instruction Course to be held in Santa Fe during the first part of November. However, the monument will be open for business, as usual, all days of the week. It is not only our policy to try to give all comers a complete authentic story of Tusigoot - but to send 'em away with smiles on their faces and songs in their hearts.

Personal Time: Museum: 172 hours, 25 minutes. Ruins: 170 hours, 15 minutes. Total contact for Bright: 158 hours, 50 minutes. For Richert: 203 hours, 50 minutes.

Publicity: On August 27, Mr Everett Newcomer, photographer and feature writer for THE ARIZONA REPUBLIC visited the monument and took pictures of museum exhibits, and the ruins, and compiled information on the area for a story to be released in a future Sunday Supplement Section. The delightful result of this visit appeared in the Sunday, October 9, issue.

- Cont. on page 2 -

TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA.

October 28, 1949

Cont. from page 1.

N.P.S.Visitor: Charley Steen and family on October 14.

Maintenance and Administration: All weeds have been removed from the floors of of the ruins and the immediate surrounding area. Old 1-18868 (Ford Pickup) has been winterized as far as is possible to winterize a car so advanced in years - by cleaning and flushing radiator, adding antifreeze, removing and cleaning spark plugs, checking lights, brakes, etc.

New easy-to-read labels have been made and placed in all museum exhibits, and it gratifying to note that the interpretive intent of this display has been tly enhanced.

Everett W. Bright,
Superintendent.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Walnut Canyon National Monument
Flagstaff, Arizona

October 25, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Walnut Canyon

Subject: Monthly Narrative Report, October, 1949

Visitors this month, 1455; travel year to date, 1455

Weather Hard rains, high wind, and an early snow storm reduced travel in October. During the report month temperatures dropped to 5° above zero and there was a total of 6.9 inches of snow recorded by the Weather Bureau in Flagstaff.

Administration Considerable time was spent assembling materials for a Park Service booth at the Coconino County Fair in Flagstaff - the first in 19 years. Booths were prepared by the Forest Service, Girl Scouts, and various 4-H clubs but no livestock or advertising booths were admitted. The National Park Service booth featured Walnut Canyon, Wupatki, Sunset Crater and Navajo National Monuments and Grand Canyon National Park. During the exhibit hours an attendent was kept in the Park Service booth to answer questions and distribute literature. It is estimated that at least 5000 visitors attended the fair and saw this exhibit.

An agreement under which Walnut Canyon would get commercial power has been offered by the power company and we are hoping to get the power before the end of the year if weather permits.

On September 29 a farewell party for Superintendent and Mrs. Jones of Wupatki was given by the Walnut Canyon and Wupatki personnel and Mr. and Mrs. Platt Cline of the Coconino Daily Sun.

Use of Monument By The Public There were 1455 visitors who came in 524 cars. 1194 visitors were contacted in a total of 42 hours. It is estimated that 873 visitors made the trip around the "Island" to the ruins.

A party of 70 members of the Social Science Club of Arizona State College picnicked here October 5.

The museum was kept open only on Sundays. It was visited by 158 groups totaling 534 visitors.

Communication Systems About three man-days were spent in locating a short circuit in the telephone line and in making minor repairs. To locate the trouble it was finally necessary to borrow a test set from the Forest Service.

Approximately eight man-days were spent on the radio system. A trip was made to Grand Canyon to bring back the sets which had been altered to operate on the 3235 and 5150 frequencies and to be briefed in their operation. With our 30 ft. vertical antenna rigged according to specifications we could not contact Sunset Crater or Wupatki although we could talk to Santa Fe and have messages for Wupatki relayed through Saguaro.

The antenna towers once used at the Superintendent's residence were removed and at the suggestion of a local technician who takes care of the sherriff's office and State Police radios, a horizontal antenna 186 ft. long was rigged. However the technician is now on vacation and we have not been able to make use of the horizontal antenna.

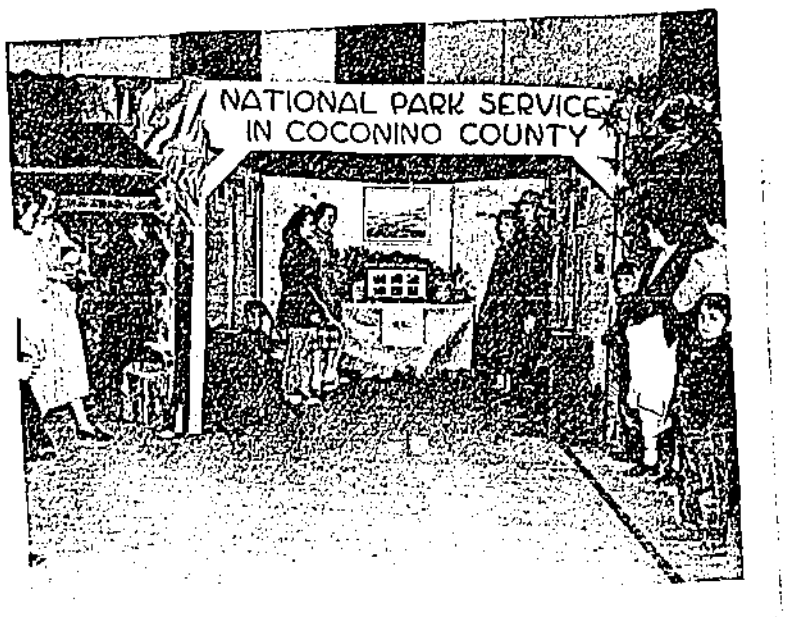
Maintenance The flues were cleaned and the furnaces adjusted at both residences. A soot clean-out door was installed in the Superintendent's residence in an opening that apparently had been obstructed since the house was completed.

A new fuel pump was installed on the Ford-pick-up and both trucks and the light plants were winter-proofed with anti-freeze. One light plant was completely dismantled to determine the cause of a knock.

Our 30 tons of coal began to arrive October 12 from mines near Kayenta, Arizona about 150 miles distant. About 25 tons have been delivered to date.

A long break in the roofing paper on the museum porch was repaired.

All outside water taps were turned off at the stop-and-waste valves.



Fire Protection Our fire protection barrels and water buckets were emptied as were the foam-type extinguishers.

National Park Service Visitors Dale S. King and Dr. Walter Taylor were here October 4 to deliver some sherd boxes. Supt. and Mrs. Bright were here from Tuzigoot on the same date.

Supt. and Mrs. Brewer were here to pick up Barco tools and other supplies.

Ranger and Mrs. Euler were here from Wupatki.

Homer F. Hastings

Box 251, Alamogordo, New Mexico

October 21, 1949

Memorandum

To: The Regional Director, Region Three

From: The Superintendent, White Sands

Subject: Superintendent's Monthly Narrative Report No. 1m1

OCTOBER TRAVEL, 1949	TRAVEL YEAR TO DATE
Visitors, 9,141 Cars, 2,361	Visitors, 9,141 Cars, 2,361

GENERAL: This month commences the 1950 Travel Year, and we have made a good start, with 9,141 people in 1,692 cars. Visitation this month, as compared with the same period last year, shows an increase of 1,175 people and 204 cars.

The Superintendent has returned from a ten day automobile trip which took him through Texas, Oklahoma, and Kansas. The purpose of the trip was sightseeing. Though the affairs of the Monument were in capable hands during his absence, we are somewhat relieved to have him back.

WEATHER CONDITIONS: The weather has taken a sudden change, indicating unfavorable periods ahead. We have had several windstorms which didn't help our tourist trade very much, and we were also favored with .38 of an inch of rain recently which no doubt was welcomed by the ranchers in this vicinity.

NEW CONSTRUCTION: Ranger Chittum is doing a very remarkable job in altering the Laundry into living quarters for the Clerk. It is remarkable in that his many and varied duties prevent him from directing all his attention to that job alone. However, we still have hopes of getting it done by Christmas.

CONCESSION: Mr. James V. Lloyd, Regional Chief of Concessions, was in for a very interesting half day. With the Superintendent, he went over concession development and possible expansion plans for additional service in the peak season. These were the chief topics discussed.

We were glad to have Jimmy with us, and will be glad to have him back at his convenience.

COMPLAINTS: No complaints have been directed tothis office, either on our facilities, services, or Concession.

VISITORS: We were pleased by a visit from Mr. James V. Lloyd, Regional Chief of Concessions, on the 20th. Different phases of the Concession were discussed, including future development and expansion.

ACCIDENTS: Only one minor accident occurred this month - that of one party of visitors side-swiping another party on the entrance road to the Monument. This was reported by letter on the 11th.

Johnmill Faris,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

October 25, 1949.

Memorandum

To: Regional Director, Region Three

From: Park Ranger, Wupatki

Subject: Monthly Narrative Report, Wupatki, October 1949

Weather: The main item of interest concerning the weather this month is that it was the coldest October on record for Wupatki. Maximum temperature was 86° on the 1st and 2nd, and minimum was 26° on the 21st. This is the first notation of freezing temperatures for this area during the month of October. Precipitation was somewhat above normal with .76 inches compared to .39 inches for October 1948.

Roads: Roads within the monument are badly wash boarded in some sections and dusty all along, but, on the whole, quite passable. The approach road from Sunset Crater is getting very rocky at many points.

Travel: Travel, as is usual at this time of year, has dropped off considerably. 328 visitors registered at Wupatki Ruin and 203 at Citadel Ruin for a total of 531. Of this number 227 received guide service at Wupatki in 58 trips through the ruin. A total of 30 minutes was spent on each trip. A year ago the total registration for both Wupatki and the Citadel was only 497, while last month 861 individuals registered.

Communication: Our attempts to make good radio contact with other areas present a rather sad story. So far the only contact worthy of being called such has been with Saguaro National Monument. We hope that by this time next month the situation will be rectified.

Spring Flow: The flow at Heiser Spring has increased from last month's 3927 g. p. d. to 4320 g. p. d. at this writing. Data concerning Wupatki Spring will be included in next month's report as it is not available at present.

Visitors: This morning we had a nice visit with Adm. Asst. Joe Lucero of the Coconino National Forest and the new Asst. Supervisor of that forest.

Mr. Rea.

Equipment: Road maintenance equipment has been completely gone over and prepared for winter; fire extinguishers are being placed in freeze proof boxes; stop and drain valves placed on outside hydrants; weather-stripping installed where needed; and——well, you're all familiar with what has to be done to make a monument ready for winter.

Personnel: Yesterday evening Davy, Corky and Janie Jones left Wupatki for Santa Fe, Washington, Richmond and, finally, their new assignment at San Juan NHS, Puerto Rico. Those of us here at Wupatki wish them "buenos suerte" and the best of everything on the new job.

Temporary Ranger Bob Viklund was terminated on October 24th, but he'll return shortly to help with some stabilization work on the monument.

Maybe I should add a post-script under "Personnel" that this is Ranger Eulers first attempt at writing monthly reports, but we'll just let it go at that.

Robert C. Euler

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Region Three
Santa Fe, New Mexico

November 15, 1949

Memorandum

To: Regional Director, Region Three

From: Naturalist

Subject: Narrative report for naturalist work in the Southwestern National Monuments for October 1949.

Naturalist Dale S. King visited Walnut Canyon and Wupatki briefly on the 4th and 5th, respectively, spent the 6th - 8th at Navajo and stopped by Canyon de Chelly on the 8th on the return trip to Santa Fe.

Archeologist Charlie R. Steen finished his work at Canyon de Chelly during the first 10 days of the month, departing on the 11th to El Morro, Montezuma Castle, and Tuzigoot, on his way to Tumacacori, which he reached October 17th.

Interpretive Administration

King at Navajo rode to Scaffold House, West Seel, Turkey Cove, Rat Woman House and Twin Caves, all of which he saw for the first time, and looked over Superintendent Brewer's clever handling of interpretive exhibits in exceedingly cramped and primitive quarters. It is felt strongly that Scaffold House should once again be included in the monument.

A terrific dust storm prevented any sight-seeing at Canyon de Chelly but the multiplex display was seen for the first time and King again was impressed by the urgent need for adequate storage for the rather large archeological collection which has accumulated at the monument.

He prepared an outline and statement for a half hour training conference talk on manuscript preparation. He also made arrangements for Archeologist R. Gordon Vivian to travel to Santa Fe and present the ruins stabilization topic.

The rough draft for an interpretive statement for Aztec Ruins was asked for and received.

Some letters were written to start arrangements for a possible training course in desert ecology at the Desert Botanical Gardens near Phoenix for personnel of southern monuments.

Announcement of the Junior Professional Assistant examination was mimeographed and sent to the field.

The revised manuscript for the Montezuma Castle handbook was transmitted to the Director as was the re-submission of the Tumacacori 6-fold leaflet text.

Several sets of photographs showing inadequate facilities in monuments in Arizona were furnished a newspaper editor, who plans an article outlining needed facilities in national park and monument areas in Arizona.

A complete set of George Grant's photographs of Arizona and Sonora missions was ordered from the Washington Office for the files at Tumacacori. This will be paid for from naturalist funds.

One letter was written to continue the collaborator work by Brigham Young University at Arches.

Progress of Exhibit Plans and Projects

Arrangements were completed to have trail labels made by Yosemite for Tonto.

The Superintendent, Tonto, reported several museum exhibit improvements in preparation for heavy winter travel season.

The famous statement by Charles Lummis was photostated for display in the El Morro register stand.

A memorandum was written describing needed improvements in museum ventilation and heating at Aztec Ruins, Walnut Canyon, and Bandelier.

Accessions Other Than Library

A new LeRoy lettering set was purchased out of naturalist funds for use in preparing labels for the field and at Santa Fe.

Research and Observations

The Holakihu index was completed October first and final proof was read October 10.

RCP's for future archeological research at Tonto were received and returned to the field for minor corrections.

Steen completed the drawings, catalog, and other minor finishing jobs of the Tse'ta-a excavations.

Loan Library

Accessions total 180, including 10 books, 85 reports, 34 pamphlets and 51 periodicals.

The more important books received were:

Profitable Direct Mail Methods - by Robert Stone

Handbook of South American Indians - editor Julian H. Steward

Utah Historical Quarterly, Utah State Historical Society

Life History of North American Thrushes, Kinglets, and their Allies - by Arthur C. Bent

Personal Character and Cultural Milieu - compiled by Douglas G. Haring

Excavations on Upper Matecumbe Key, Fla. - John M. Goggin & Frank M. Sommer III.

Manganese Resources of the Artillery Mts. Region Mohave Co. Arizona - S. G. Lasky & B. M. Webber

Cochise and Mogollon Sites Pine Lawn Valley Western New Mexico - Paul S. Martin, John B. Rinaldo, Ernst Antevs

The Archaeology of Central Calif. 1. The Early Horizon - Robert F. Heizer

The Rio Grande River of Destiny - by Laura Gilpin

Miss Betty Wolf continued the revision of Bibliography cards for Southwestern National Monuments.

Several free publications were ordered and obtained. An unusual number of loans were given to the field.

An out of print book was obtained from the University of New Mexico library on inter-library loan and an old picture copied for the Tumacacori historical files.

Several pages of photographs were furnished to authors for proposed articles for various publications.

Southwestern Monuments Association

King talked to two artists, who proposed illustrations for possible future booklets, and wrote one letter to an author who plans to publish privately a booklet on Saguaros. He received additional pictures to improve illustrations for the forthcoming third edition of "Poisonous Dwellers of the Desert". He sent a complimentary copy of

"Arizona's National Monuments" to an editor who had published a fine photographic spread on the Verde Valley monuments in the Arizona Republic.

During the month of October two deposits and one disbursement were made by Treasurer Tedder. The number of covers mailed was 208, including 24 letters and 43 purchase orders.

More time was spent this month with Mr. Neal, the auditor, who informed us that the audit is complete and that we shall receive it in a few days. After taking care of the dayly mail most of the time was spent on posting the monument turn-ins for the Sept. 30th quarter to our warehouse cards, making corrections, and ordering new stock. Other routine work was done as sending out follow-ups on outstanding invoices, figuring amount due Mr. Underhill on "First Penthouse Dwellers of America," and posting in journals.

One session with Mr. Neal helped the Treasurer to streamline the monthly disbursement, which has grown so large that it was taking a day and a half to do. For the first time since the treasurer started working no time was taken off.

Reports and Memoranda

The usual reports were submitted as well as the Wild Life census f9s4.

Unusual Activities - conferences

It was pleasant to visit with the various field men who attended the Region Three personnel training course. Several of the men were house guests and considerable interpretive business was transacted incidentally.

Ruins Stabilization

Steen completed a small stabilization job at White House Ruin early in the month and inspected Tuzigoot and Montezuma Castle. He reported Tuzigoot Ruin to be exceptionally tidy -- there is a little rock fall, but nothing seriously wrong. Except for a minor patching, there is no wall which will not stand until the Mobile Unit moves to the Flagstaff district in a year or two.

Between the 17th and 31st, he cleaned and treated the plaster on the east side of the cave of Tumacacori Mission. He hired one helper part time until the 31st, but will use him full time during November.

King planned with Superintendent Jones of Tupatki the removal of old restoration work on Nalakihu Ruin and the stabilization of aboriginal walls. He corresponded with Steen and the Superintendent of Aztec regarding the small emergency job there.

Distribution of sherd storage boxes was continued to several monuments.

A memorandum was written recommending the attendance of Archeologist Aid Reymond Hixey at the course in museum technique methods, inasmuch as in his stabilization work he uses many parallel or similar techniques.

Technical Aid to Administrators

A discussion was had with Superintendent Jones of Hupatki regarding the most desirable location of a gas line which will come across or near the monument.

Five justifications for raises in grade for field men were read and edited in an attempt to improve them.

Projects For December

King will take a little time off for duck and deer hunting, prepare the Christmas book list for mailing by the Southwestern Monuments Association, and probably compile the Association's annual report if the routine desk load is not too heavy.

Steen will continue work on the Tumacacori, mural decorations.

Santa Fe, New Mexico

October 12, 1949

Memorandum

To: Regional Director, Region Three

From: Naturalist

Subject: Narrative report for naturalist work in the Southwestern National Monuments for September 1949

Naturalist Dale S. King was in the office except for a field trip to Chaco Canyon and Aztec Ruins National Monuments, September 16 - 19.

Archeologist Charlie R. Steen continued his work at Canyon de Chelly.

Interpretive Administration.

The usual number of informational requests were handled, including one for a bibliography for the Southwestern National Monuments. There was considerable correspondence concerning the revision of 2-fold leaflets for Bandelier, Tumacacori and Pupathi and concerning the policy of distributing supplies of leaflets to Chambers of Commerce and other organizations.

An appraisal form was filled out for the interpretive program at Chaco Canyon.

Received and reviewed was a manuscript by Archeologist Al Schroeder "Prehistoric Indian Farming in the Verde Valley." A job description was revised and a justification prepared in an attempt to change the grade of a field man.

Considerable work was done on the bibliographical card file for the monuments and the library pamphlet file was shifted to obtain more space.

Progress of Exhibit Plans and Projects.

The current museum display revision at Aztec Ruins was inspected and found to be progressing satisfactorily.

Correspondence continued to obtain aluminum trail labels for Tonto.

The annual reminder was sent to southern monuments to place their exhibits in readiness for the heavy winter season.

Three backlog museum preparation projects were proposed for possible work by the Washington museum libraries -- reconstruction models for Gran Quivira and Casa Grande and a food exhibit for Walnut Canyon.

Research and Observation.

David De Harport of Harvard University visited the office and reported that he has now recorded a total of between 190 and 195 prehistoric sites in Canyon de Chelly. Enlargements of his record photographs will be made in Santa Fe for the Regional Office and for the monument.

Editing of page proof continued on the Malakihu report.

Superintendents were asked to prepare PCP forms for archeological research projects at Canyon de Chelly, Chaco Canyon, Tonto, Walnut Canyon and Wupatki.

A book was received from the University of New Mexico on interlibrary loan so that an old photograph of Tumacacori could be copied for record purposes.

Steen worked at Tse-Ta'a until September 23. At that time he had completed the excavations of the section of the ruin which he had blocked out. The excavated ruin is some 200' long, was anywhere from 4' to 20' wide and the fill from the top of the mound to sterile clay and sand varied from 12 to 16 feet. The site contained everything from modern Navajo through Basketmaker III. Nothing was omitted. Statistics: 41 structures of various sorts, 20 burials.

He has left the ruin as a supplementary exhibit. Exposed are a portion of a Pueblo III kiva, a portion of a Pueblo II kiva, two Pueblo II rooms, a room which is probably PI and two BM pit houses, plus an odd assortment of cists and fireplaces which were found in the lowest stratum. With the back dirt tossed out in front of the ruin and with moderate protection from rain most of this ruin should last for several years. One Basketmaker pithouse is subject to wash from a small waterfall.

Cooperative Activities

Dr. Theodore Dunham, University of Rochester, visited the office seeking information on deposits of obsidian which would yield nodules of from 10 to 30" in diameter for possible grinding into optical mirrors for the Navy and for scientific institutions. Letters were written to Bandelier and to the Museum of Northern Arizona to obtain information for Dr. Dunham.

Loan Library.

Accessions total 75 including 8 books, 16 reports, 19 pamphlets, and 32 periodicals.

Several letters were written to obtain free publications. The more important titles received were:

An Analysis of Material Taken From Group E - Bandelier--
by John Francis Turney

Water Levels & Artesian Pressure in Observation Wells in the United States in 1945 - Part 6. Southwestern States and Territory of Hawaii

The Rivers of America - The Colorado
by Frank Waters

The American Guide
edited by H. G. Alsberg

Sun Chief
edited by Leo W. Simmons

Dezba
by Gladys A. Reichard

King sent sample copies of the Montezuma Well and the Gran Quivira trail leaflets to the Director who sent commendations to the respective authors. He discussed a proposed series of booklets with an author who has been writing on Big Bend, sent invitations to bid on the third printing of "Poisonous Dwellers of the Desert" to six printers, had correspondence regarding a proposed printing of a color map of Indian tribes in Arizona, and entered into correspondence regarding a 15% discount on photographic equipment for the Petrified Forest.

During the month of September three deposits (special one for Bandelier) and one disbursement, the largest to date, were made by Treasurer Vedder. The number of covers mailed was 159, including 88 letters and 26 purchase orders. A good part of this month he spent working on the annual report and annual audit. Two visits were made to the auditor, who should make his report by the middle of next month. It appears that the Association made about the same net gain as last year--small.

Another mailing was sent out, 1693 envelopes, our latest mail broadside. This makes a grand total of 21,469 first mailings, plus 1,139 second mailings to the live list. Barbara Vedder worked 48½ hours preparing this mailing, filling the business reply cards, and putting the stencils in order.

Reports and Memoranda.

The annual Wildlife Census reports were assembled.

Instructions were sent to the Mobile Unit regarding the preparation of captions and negatives for stabilization reports which will henceforward be processed on ad-type photographic paper.

Ruins Stabilization.

King looked over the excellent work being done by the Mobile Unit on Pueblo del Arroyo and the small sites on former University lands across the canyon. He continued correspondence regarding the attempt to grow native grass to stabilize certain areas in ruins.

Three thousand storage boxes of three sizes for potsherds, bone and stone were purchased, and distribution is being made to field areas so that our permanent storage will be more efficiently handled.

Steen started work at White House Ruin September 26. The season is so late that he could do only the most urgently needed jobs there before leaving for Tumacacori where he will work on the mural decorations.

Projects for October

King will make a short field trip to Navajo and Canyon de Chelly National Monuments, spend the middle of the month in catching up desk work, and possibly visit some Arizona areas late in the period.

Steen will leave Canyon de Chelly about October 15, work one day with the Superintendent, El Morro, on the fact file there, pick up supplies at Montezuma Castle, estimate stabilization needs at Tuzigoot and spend the rest of the month at Tumacacori.

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPO[illegible]F THIS FORM IS TO SECURE AN ACCURATE RECORD OF [illegible]RPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads. Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: Is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of days museum stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a1).

TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS INSIDE THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLACE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE SERVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SUBMIT COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COOPERATING SUPERINTENDENTS ALSO SHALL BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

Only two men have been on duty this month. Bicknell returned to duty from annual leave October 10, relieving Sam Cross, Temp. Ranger. Ranger Armbruster in Washington attending the Department Management Training Program.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical Areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.)
Roads dry and passable, but approach roads very rough.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA. This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be tabulated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of Unattended stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

NAME

~~Superintendent~~
TITLE

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH AREAS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, PORTABLE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE SERVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5th OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME JOHN O COOK

TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical Aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.). Count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and trails, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill Out Only Those Blocks That Apply

Explanation of Terms Used

"INTERPRETIVE" personnel are naturalists or rangers naturalists, historians, and historical aides. "ADMINISTRATIVE" are superintendents, superintendents, etc., called on to assist with interpretation. "OTHER" are rangers, clerical personnel, and the like who may be called in to help interpret the area.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through areas, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended Interpretive Stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Check this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

Instructions for Filling Out the Form

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive service. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to The Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 5th of the month following that covered by the report.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF [illegible]IPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIC FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or sites of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be included.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be shown under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total all column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Reports due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 9m3) and 9 (Report 9m3).

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF ITEMS USED

"Interpretive" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical Aides. "Administrative" are Custodians, Superintendents, etc., called on to assist with interpretation. "Other" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic Structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Visitors Attended Stations: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or artificial counters rather than interpretive service should not be considered as attended interpretive stations.

Facilities is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, local accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

Administration is an accurate explanation of the manifestations of Natural History and Human History found within the area.

Visitors Contacted Outside: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, roadside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical Areas will find in many cases that this section of the form does not apply.

Attendance Developed Through the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to visitor requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Block 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "Remarks".

Block 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total and enter in all blocks.

Block 3 Shows the average amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Attendance Outside Areas of the Park are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

Send Copies To: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in whom the report originates. Coordinating superintendents also should be provided with a copy. This is in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report Call) and 9 (Report Call

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, museum collection, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing information rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service Areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in accordance with Instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m1).

NAME Everett W. Bright
TITLE Everett W. Bright, Superintendent.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE MATERIALS, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5th OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

FOR [illegible] THIS FORM IS TO INSURE AN ACCURATE RECORD OF [illegible]
SERVICE FURNISHED VISITORS IN A UNIFORM MANNER FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical Aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called on to help interpret the area.

GUIDED TRIPS. Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

TALKS. Regularly scheduled talks within Service areas presented either by Service Personnel or by outside sponsors under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS. Actual count of persons using the station (Library, contact station, exhibit room, museum, reflections, etc.). Count being made by Service personnel in attendance. Checking stations or stations having a [illegible] rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and conditions, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Museum areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES CARRIED OUT BY: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be entered under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES CARRIED OUT BY THE AREA are included on this form as a matter of record only. They should not be totaled in the totals in the lower right-hand corner of the form.

SUMMARY: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total substantially in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

FILE COPIES ONLY: Form all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Report is in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a) and 9 (Report 9a).

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, museum collections, etc.). Count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. This is due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report Ex5) and 9 (Report Ex5)

NATIONAL PARK SERVICE

November 27, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Arches

Subject: Monthly Narrative Report for the month of November, 1949

WEATHER: During the entire report period we have enjoyed warm sunny days. Nights have been cold, but the minimum temperature has not gone much below freezing.

TRAVEL: The dry warm weather brought 806 visitors in 137 cars into the area. This count shows an increase of 10% over the same period last year.

INTERPRETIVE SERVICES: Contact time amounted to 10½ hours in which 71 visitors received information about the area. Four guided trips were conducted by Ranger Worthington with a total attendance of 19 people.

NPS VISITORS: October 29 &30: Chief of Development Thomas C. Vint and Regional Landscape Architect, Harvey Cornell. November 11: Chief Ranger Jack Wade, Electrician Don C. McNeil, Rangers Monte E. Fitch and McLain all of Mesa Verde.

ROADS: After the heavy precipitation at the end of last months report period, Maintenanceman Winbourn was able to repair all washouts and blade all monument roads into good shape before any frost set in. One dangerously narrow culvert was extended and fill placed giving normal width. The State maintenance crew filled washouts and bladed the entrance road #95 during the first week in November.

SPECIAL ACTIVITIES: I was absent from the area for two weeks attending the Personnel Instruction Course in Santa Fe. The whole course was extremely interesting and instructive, but the absorbtion of all the information along with Santa Fe's unlimited hospitality was a little more than this country boy from Utah could take.

GENERAL: With the professional advice of Don McNeil, of Mesa Verde we finally installed our radio aerial properly. However we may have to call on Don again to ferret out some other bugs in our set. Three days were spent stringing a new telephone line from headquarters to Court House Wash. We are now ready for the new dial system which will probably be put in during December.

AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

24 November 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Aztec Ruins

Subject: Superintendent's Monthly Narrative Report

WEATHER: Splendid during the entire month with clear cold nights, with bright sun during the daytime and marred only by rainfall on the first day of the report period and a little more on the 11 Nov, the day that Mesa Verde seal-coated our parking area. Our low temperature was 14 above zero.

MAINTENANCE: Of first importance was the splendid cooperation from Mesa Verde National Park, who sent their road crew down here and treated the surface of our parking area with road oil and stone chips.

Considerable minor work has been done in ruins stabilization, in the repairing of the tops of ruins walls to prevent seepage during the winter snow fall.

We have also worked hard and long at the task of opening the clogged drainage pipe that runs the entire length of the monument. We were able to complete the cleaning and flushing of all of this line except approximately 125 feet. For this last portion of pipe we shall be required to call in a commercial concern with power equipment.

VISITORS: Paul Baloh has been twice during his supervising of soil and moisture control work in Cahoo Canyon and Canyon de Chelly. Others from Chaco Canyon have dropped in when they were up this way.

Messrs. Davis, Bennett and Alleman were in 21 Nov and inspected the various buildings and landscaping problems.

INTERPRETIVE SERVICES: There were 461 visitors in 66 parties conducted thru the ruins and 690 visitors were shown thru the museum.

INCREASE IN TRAVEL: We were pleasantly surprised with an approximate 24% increase in travel this month over last, with 690 visitors in 214 cars from 29 states, Canada, France and Mexico.

Irving D. Townsend
Superintendent

AZTEC

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

November 28, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Bandelier

Subject: Monthly Narrative Report for November, 1949

Weather

The weather has been unusually nice all during the month with clear, bright days and cool nights. Only a trace of moisture was received one day and temperatures ranged from 78° on the 19th to 1[illegible] the 22nd, with the average around 70° during the day and 25° at night.

Special Activities

The Superintendent attended part of the Region Three Personnel Instruction Meeting that was held in Santa Fe from October 31 to November 8, and gave a talk on In-Service Training to the group on November 1. The trainees visited Bandelier on the 6th and were given a tour of the ruins, had a picnic lunch in the campground, and discussed master plans and development in the afternoon.

A meeting was held with representatives of the Atomic Energy Commission Engineering Division at Las Alamos concerning maintenance on the approach road from White Rock camp to the checking station. It was agreed that the A. E. C. would deliver 1,000 yards of gravel to the road and that we would take care of the distribution and grading.

Inspections

We were fortunate in having a number of official visitors during the month. Mrs. J. A. Maulding Director of Personnel for the Interior Department accompanied by Archeologist Nusbaum made an inspection of the area on November 2.

Chief of Development Vint and Assistant Chief Consul Lee accompanied by Architect Carter visited Bandelier on the 4th and inspected some of the buildings, roads, and trails.

FOR DEFENSE
BUY UNITED STATES SAVINGS BONDS AND STAMPS

Director Drury, Chief Naturalist Doerr, and Assistant Chief Consul Lee accompanied by Assistant Regional Director Davis made an inspection of the area on November 8. Some very constructive suggestions concerning the museum were made by Mr. Doerr.

General Publicity

One picture and a very interesting statement on Bandelier was included in an article "Adobe New Mexico" that was published in the December issue of the National Geographic Magazine.

Maintenance

The work that was started last month to water proof the roofs, and prepare them for winter, by putting a fresh application of asphalt around canales and on cracks was completed this month.

A new underground telephone cable was installed between the warehouse and residences that improved our telephone system considerably by eliminating a good deal of noise on the grounded line.

New Construction

The excavating for the footings for the multi-plate arch for the new campground bridge was completed and a quantity of rock hauled for the retaining walls. We have not yet received the plans for the footings but the sand, gravel, and cement are on hand so that they can be poured as soon as the detailed plans are received.

Interpretive Service

844 visitors were conducted through the ruins on a total of 90 trips that averaged 75 minutes each.

Some adverse comments were made by visitors on the dusty condition of the ruins trails but we expect to correct this by application of some light oil in the near furture.

Travel

Travel continued to be unusually heavy for thistime of the year which was probably due to a large extent to the pleasant weather. There were 1852 visitors as compared with 566 for November of last year which is a 227% increase.

Visitors

In addition to the official visitors reported under "Inspections" the following persons came to the area during the month:

U. S. Consul and Mrs. Blanchard from Mexico City November 3.

Congressmen O'Neil, Pennsylvania, D'Ewart, Montana, Poulson, California, and Region Naturalist Dodge on November 11.

Assistant Regional Director John Davis with concessioners from Shenandoah and Lassen National Parks, November 11.

Associate Regional Director H. Maier, Region Four, and Associate Regional Director E. Cox, Region One, on November 13.

Mr. and Mrs. Ansel Hall, concessioner at Mesa Verde National Park, November 14.

Wildlife

The big game hunting season was open from November 10 to 24 and it was necessary for most of the staff to assist with protection patrols.

Generally below average hunting in the Northcentral parts of the state brought an increased number of hunters in to areas along the Monument boundaries and it was necessary to maintain intensive patrols to prevent violations of regulations. The Los Alamos radio station cooperated by announcing that the Monument was closed to hunting and giving information on the location of the boundaries.

Forest Fire Protection

The lack of moisture for the past two months has increased the fire danger to the point that it was thought advisable to caution visitors to be careful with smoking and campfires. Visitors from California are particularly fire conscious and often ask if it is permissible to smoke in the area.

(SGD) FRED W. BINNEWIES

Fred W. Binnewies
Superintendent

Canyon de Chelly National Monument
Chinle, Arizona

November 26, 1949

Memorandum

For: The Regional Director, Region three

From: The Superintendent, Canyon de Chelly National Monument

Subject: Report of Activities during the month of November, 1949

Weather Conditions

The weather for the month has been about normal with days clear and crisp. The minimum temperature was 13 degrees and the Maximum was 70. Only a trace of moisture was recorded during the Month.

Administration

Ranger Morris started on annual leave November 9 and has been away thruout the balance of the period. Exhibit D of the Project priority proposal was compiled and submitted. Annual inventory of equipment has been taken and equipment records and cards brought up to date. Office work is almost current. Pressure of other duties necessitated letting the filing get behind.

Superintendent Guillet returned from annual leave October 31, and much time was spent in taking care of the office work and correspondence that piled up during his absence.

Maintenance

General straightening up and improving the appearance of the headquarters area. Improving oil storage facilities, and getting things ready for the winter months.

Soil and Moisture

Bank protection and Erosion control work was started at Antelope house on November 15. Four loads of Willow post cuttings were received prior to that date and hauled to White house and Antelope house. A crew of four laborers and one leadman is being used.

Travel

Travel for the month remains well above that of previous years with 86 visiting the area in 37 cars.

RECEIVED DEC 1 1949 NATIONAL PARK SERVICE REGION THREE OFFICE

N.P.S. Visitors

October 31... Chief of Development Tom C Vint and Regional landscape Architect Harvey Cornell.
Nov. 10 and 11.. Regional Soil Conservationist Paul Balch.
Nov. 4-5 ... Mr. and Mrs. Cecil Hanner enroute to Grand Canyon

Publicity

The Rotogravure Section of The Denver Post featured a full page photograph of the Window in October. This picture was taken by David de Harport. The November 13 issue of the Post featured a number of pictures taken by Charlie Wunder of Monarch Airlines

Publications

A visitor loaned the Monument a copy of Out West magazine published in June 1907. This issue featured an article by Charles F Lummis titled "The Swallows Nest People" and deals with the Archaeological expedition of the Southwest Association the previous year. It also contains early photographs of the Canyon ruins.

General

The Navajos are still gathering pinon nuts as the weather has been ideal and no moisture. There is a good crop and the Indians are getting from 12 to 15 cents a pound at the trading posts.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
SOUTHWESTERN NATIONAL MONUMENTS
CAPULIN MOUNTAIN NATIONAL MONUMENT
COOLIDGE, ARIZONA

November 25, 1949

MEMORANDUM for the Regional Director
Region Three, National Park Service
Santa Fe, New Mexico

There follows the narrative report for Capulin Mountain National Monument for the month of November, 1949:

Visitors: There were approximately fifteen hundred visitors to Capulin Mountain National Monument during the month of November, making a total of three thousand nine hundred for the travel year, and twenty thousand, seven hundred visitors for the fiscal year.

Weather: The weather has been very dry and extremely warm and pleasant for this time of the year. So far only a light blanket of snow has fallen.

Flora and Fauna: Evidences of a great number of deer have been noted recently. Probably taking refuge in the Monument area during the hunting season. Porcupines are stripping the bark from a number of the nicest trees on the approach road. Vegetation is in fair condition considering the lack of moisture during the month

Roads, Trails, Picnic Areas and Signs: The sign at the parking area on top of the Monument has been removed and stored for the winter. This sign read that the Ranger was on duty at certain hours and on certain days. The sign was in place until October 19, which was the termination of Ranger duty. Roads and trails have been kept in good condition

Information pamphlets: About one hundred information pamphlets have been given to visitors during the month. Now have about 8,600 pamphlets on hand.

Special Visitors: To my knowledge there have been no special visitors to the Monument during the month of November.

Very respectfully

Homer J. Farr
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

November 25, 1949.

Memorandum

To: Regional Director, Region Three

From: Casa Grande National Monument

Subject: Monthly Narrative Report for November, 1949

General: The cotton picking is still going strong with 60 mechanical pickers and 18,000 people picking in this area. The payroll for the pickers amounts to over a half million dollars a week here in the Gila Valley and over $4,000,000 has been paid to pickers this fall, most of it ending up in the tills of the local saloons. All business has been good but it is off a little from last year. Tourist travel prospects are a little better this year then last. All of the motels are full every night and the guest ranches in the vicinity are booked solid for the winter. So if we dont have a cold winter like last year, we should have a lot of visitors to the ruins.

Weather: With the exception of a little wind, you couldnt ask for nicer weather. It has been warm but not hot and the sun has been out every day. The maximum was 94 with a low maximum of 66 and a minimum of 34. .35 inches of rain fell during the month.

Visitors: November - 1949 - 3,049; 1948 - 2,777: this is a gain of 272 over November of last year. Travel year to date 1950 - 5,368; last year to date - 4,725.

Interpretive Service: Of the 3,049 visitors to the area, 2,075 made the trip to the ruins in 159 groups averaging 53 minutes per trip. 1,924 people were here for a quick look but did not visit the ruins.

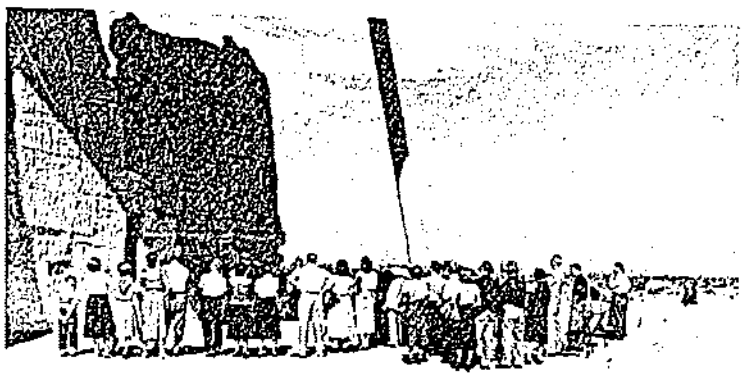
N.P.S. Visitors and Visitors of note:

November 8 - Art Woodward and wife of the Los Angeles County Museums, he had been judging Indian artifacts at the Arizona State Fair.
November 9 - The Superintendent and Ranger from Organ Pipe Cactus stopped by on their way to Phoenix.
November 15 - Regional Director and Mrs. Tomlinson, Region IV, visited the ruins.
November 16 - 50 grade school children and teachers from Phoenix.
November 18 - Mr. James Lloyd, Reg. III, with Representitive Petersons Congressional Party.

November 20 - The Phoenix Don's Club with 326 guests.
" " " " - 100 members of the Coolidge Chamber of Commerce, square dancers, cowboy band, Lions Club etc.
" " " " - 125 members of a Luthern Church organization.

Phoenix Don's Make Annual Trek to Casa Grande: On November 20 the Don's Club escorted 326 visitors to the ruins. There are only two of us here, since Ranger Arnberger is in Washington for special training, and had it not been for the help of the Don's, the Arizona Highway Patrol and the Coolidge Chamber of Commerce, it would have been impossible to handle the crowds and give satisfactory interpretive service at the same time. We managed to get them all, plus quite a few tourists not connected with the Dons, through the ruins in four groups of about 20 each, which is way too many people to crowd into the small rooms of the ruins, and most of the people miss a great deal when they are jammed into the small (10' X 24') rooms. The Coolidge Chamber of Commerce was on hand with coffee and entertainment in the picnic grounds which helped a lot in giving the swarm of people something to do while waiting to go to the ruins. They had a good cowboy band and gave some very good square dance exibitions by the Circle C square dance club of Coolidge. During the stay of the Don's they gave away 850 cups of free coffee. Most of the visitors and the Coolidge people brought picnic lunches and although we had table space for 150 picnickers many ate on the ground and ate in shifts. A Coolidge ribbon with a picture of the ruins was pinned on the visitors and radio station KUKY of Coolidge was on hand with their wire recorder interviewing the visitors. Stan Davis of Lollengard Specialty Co. helped us out by taking photographs of the crowd and the Casa Grande Camera Club took some air photos. Parking was one of our biggest problems; there were several dozen Coolidge cars parked in the employees parking lot in back and cars lined the narrow road back to it, the visitors parking lot was completely filled with over 80 cars and a big bus and there were over a dozen cars lined up along the entrance road. The congestion was added to by the arrival of 125 members of a Luthern Church group, who also went through the ruins. Altogether we had 724 people in 250 cars on the monument that day which was, as far as we know, the largest crowd to visit the area in one day, with the possible exception of the old pagent which they held in the 1920s which was a different type affair.

The night of the 20th, a woman called the Superintendent and reported that her 15 year old daughter was missing and was last seen walking back to Coolidge from the ruins that afternoon. With the State Police we checked all the buildings, the area along the road for tracks and along the irrigation canal in back for signs of her. It turned out that some people she knew had picked her up and they had driven up to Tempe for the afternoon and evening and failed to notify her parents.



Administration and Protection: Seven requests for information were answered and literature sent as requested. The Adamsville site was checked for vandalism. Office work has been kept current.

Maintenance: Heating stoves were installed in the office and museum. The fire places in the picnic area were all repaired and the grates were all straightened out. The remaining 5 picnic tables were painted and are now in use in the picnic grounds. The patio gate at quarters 2-4 was rebuilt. The recirculators were removed from the coolers for cleaning and repair. Broken windows were replaced in garage and residences where needed. The clean up of the grounds has been kept current.

Personnel: With Ranger Armberger attending the Departments Management Training Programs, we are working with just two men but Dennis Murray, seasonal at Montezuma Castle last summer, will report for duty any day now to bring us up to full strength.

Nature Notes: The plague of Salt Marsh Caterpillars ended as abruptly as it started. They did very little damage here on the monument but they did clean off a lot of flower and vegetable gardens in Coolidge. They were all moving east and piled up in the west room of the ruins by the hundreds.

A. T. Bicknell,
Superintendent.

A party of about 80 people going through the ruins. This is a part of the Don's group. This is a lot of people to squeeze into a 10' X 24' room and give a satisfactory interp re-tation of the ruins.

A part of the crowd in the picnic grounds during the visit of the Phoenix Don's.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Chaco Canyon NATIONAL MONUMENT

Bloomfield, New Mexico

November 30, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Chaco Canyon

Subject: Monthly Narrative Report

Chaco Canyon, again this month, is well up on visitor count. We have had 90 visitors which is 106 per cent more than a year ago this month. We have had more visitors the first two months of this travel year than we had the first six months of last travel year. Of these 90 visitors, 79 took a trip through the ruins, forming 23 parties, and 84 stayed to see the museum, forming 26 parties. The ranger spent 15 hours and 45 minutes, and the superintendent spent 23 hours and 35 minutes with these people.

The weather this month has been nearly ideal. The highest recorded was 74 degrees Fahrenheit; the coolest was 13 degrees. The days have been warm and clear and the nights cool. There have been lots of picnic parties in our picnic area.

The approach roads have remained dry and passable this month, but the hill on the Monument is in about as bad shape as it has been in a very long time. Visitors are dubious about getting back up it, they have to back down and get another start often, and ask for us to help them up with our trucks. The dirt on the hill is a fine powder. To put more dirt or gravel on it would make it practically impassable.

The Soil and Moisture program has moved along nicely. The men went to the San Juan and Animas Rivers and cut enough willow posts for Canyon de Chelly and Chaco Canyon. Ranger Mathews made the first trip over to Canyon de Chelly, but the truck driver made the other trips satisfactorily alone. There remains three loads of posts yet to be brought into our Canyon by the truck driver. The other men are busily engaged planting those that have already been brought in. As a part of the job, we brought in a truck load of one-and-one-eighth inch cable, unloaded it and unwound it. There were two rolls: the

estimate on the larger one was 6000 pounds. The efficiency of the crew, while on the river, was due in large measure to Foreman Roscoe Dudley and also to Superintendent Townsend and his staff on whose monument the men were camped.

Our new radio aerial is up, the radio is connected and the battery charged, but we can get nary a peep out of it. A CAA technician has promised t[illegible] to our aid.

A member of the State Health Department came out to Chaco Canyon, upon request, and checked the water. It was found to be unsafe. He is coming again to make recommendations to better the water situation.

The outlying ruin of Kiminiola was inspected. The fence was down and there had been some grazing on this detached section. There was no sign of vandalism, and the fence was repaired.

National Park Service visitors included:- Sam Hendricks, C. F. Whitworth, Paul Balch, John Davis, Lyle L. Bennett, Carl Allemon and Fred Kinsewics and family. Two Soil Conservation officials, Mr. R. Mc[illegible]well and Mr. Thatcher, from Farmington were in to aid us on the Soil and Moisture program.

This next month:- We hope to keep the record by doubling last Decem er's total number of visitors. We plan to plant some 100 cylders and have the Soil and Moisture program nearly completed.

There follows the report by Archaeologist Gordon Vivian.

NATIONAL PARK SERVICE

Chaco Canyon National Monument
Bloomfield, New Mexico
November 28, 1949

Memorandum for the Superintendent, Chaco Canyon National Monument.

This is the narrative report of Mobile Unit activities in your area during November 1949.

Unseasonably fine weather has let us continue with the comprehensive stabilization of sites Bc-50 and Pueblo del Arroyo somewhat past the time when we expected to be reduced to backfilling and drainage work. As it now appears we may be able to continue with the present program and crew of 15 men for at least another month. There have been times in the Chaco when an open winter permitted year-round repair work and this may be another such year.

Intermittent maintenance work has been continued at Chettro Kettle as men and a truck are available. This past month it has been confined to the southeast, partially excavated area. One integral member was constructed in an arch, 2 small buttresses were laid and some vertical capping and support work were done in unexcavated rooms.

Ray Rixey has made good progress at Bc-50 with a small crew and he has the stabilization there almost completed, having finished 20 rooms and 3½ kivas. The rooms are all small and the kivas had been either backfilled with dump from the room excavations or cut in the search for lower structures. The kivas have not been re-excavated but enough of the dump has been removed to show their location, the upper 3 to 4 courses of stone only, and the adjoining area graded. Grading and backfilling of the area immediately against the site has been completed; there remains to be done the backfilling of the large pit on the north and reinforcement of the dike between the ruin and the talus slope on the south.

At Pueblo del Arroyo to date 45 rooms and 6 kivas have been completed. This takes in all of the west exterior rooms that were excavated and all of the central house block. It makes up about two thirds of the excavated part of the site. There remain 28 excavated rooms in the south wing and some 18 unexcavated rooms with fragments of standing wall in the north wing yet to be stabilized. Since we have taken off enough men to do the work at Bc-50 progress has not been as rapid as anticipated here but the sad condition of Bc-50 and the good progress made there has justified this move.

Ray Rixey has directed the work most of the month since I took 8 days annual leave, made 1 trip to Santa Fe in connection with the personnel

training course and 1 trip to Wupatki National Monument to help Superintendent Bowen start stabilization at Nalakihu.

In the coming month Bc-50 should be completed and the men working there will be returned to del Arroyo. In the advent of colder weather we will begin backfilling and grading operations at Bc-51 but no wall repairs will be made there this winter.

NATIONAL PARK SERVICE

Chiricahua National Monument
Dos Cabezos, Arizona.

November 25, 1949.

Memorandum

To: Regional Director, Region Three.

From: Superintendent, Chiricahua

Subject: Monthly Narrative Report

Weather. Precipitation has let up some with only .07 of an inch falling during the report period. The weather as a whole has been ideal, only two nights being recorded below freezing. A low of 21 degrees on the 12th and a high of 74 degrees on the 20th were recorded.

V.P.S. and Other Visitors. Mr. & Mrs. Demeroy, Washington, D.C., and Mr. & Mrs. Tomlinson, San Francisco, visited on the 14th.

Mr. & Mrs. Martin W. Krause, Publisher & Editor of the Arizona Guide, on the 25th.

Personnel. Ranger Ringenbach returned to duty on the 15th ("fogged up and fagged out") after four weeks of military school and two weeks of Personnel Instruction at Region Three.

The Superintendent spent several days in Tucson undergoinga physical checkup.

Maintenance. The Massai Point highway was graded once during the month and borrow ditches and culverts cleaned out. Two man days were spent on the light plants; magneto trouble. Valve difficulties have lessened now that we are using white gas and an additive, "Pyroil A".

Interpretive Service. Visitor contacts numbered 1,132. Most of these contacts were at the museum. The American Pediatric Society, 34 persons, was conducted over the trails on a 1½ hour hike, and one auto caravan with four persons conducted over the road system in the monument.

Travel. Continued to increase with 1,381 persons being registered. This is an increase of 387 over that of a year ago.

RECEIVED
DEC 2 1949
NATIONAL PARK SERVICE
REGION THREE OFFICE

Approach Roads. With out-of-State travel again starting, the approach road from Rodeo is getting quite a bit of use. The Willcox approach is quite dusty and some visitors have commented on it.

Clair V. Cooke,
Superintendent.

El Morro, New Mexico

November 28,1949

Memorandum

To :Regional Director,Region Three

From :Superintendent,El Morro National Monument

Subject :Report 1m1,Monthly Narrative Report for November,1949

Weather: We had one light snow this month with the days being quite warm for this time of the year.

Approach Roads: Much work has been done on the road leading east from the Monument. It is a thrill to see such a long talked about project nearing completion.

General:There were 189 visitors this month bringing the travel for this F.Y. up to 2,074.

Mr. Edmonson did a very good job as caretaker for the area during the month of November.The Superintendent was on leave and in attendance at the Personnel Instruction Course held in Santa Fe during the period covered by this report.

John A. Aubuchon
Superintendent

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
GREAT SAND DUNES NATIONAL MONUMENT
MOSCA, COLORADO

November 22, 1949

Memorandum

To: Regional Director, Region Three

From: Great Sand Dunes

Subject: Monthly Narrative Report

GENERAL. Superintendent on annual leave from November 23 thru December 31.

WEATHER. We have been enjoying wonderful weather - too good, as we fear a very cold winter when it does arrive. Hope we do not again see 50 degree below.

The minimum of 8 degrees was registered on November 12. The maximum of 64 degrees was reached on November 2 and 7. The high minimum was 28 degrees on October 26, November 9,10,11 and 24. The low maximum was 40 degrees on October 30 and November 11.

There were 6 windy days with 3 of these from the northeast.

Snow fell on October 30 and November 11. Three inches covered the ground on the 11.

During this report period, there were 21 clear days, 1 partly cloudy and 7 cloudy days.

Very little snow can be seen on the Sangre de Cristo Range and todate no snow has fallen in the valley. Everything is extremely dry and moisture is badly needed for the crop of winter wheat.

TRAVEL. Six hundred and thirty-eight visitors in one hundred seventy-two cars visited the Sand Dunes during this report period. Nineteen states were represented. Extremely heavy travel occurred on Sundays. Three days show no visitors to the area. Two hundred and three people took advantage of the picnic areas.

RECEIVED NOV 24 1949

INCREASE IN TRAVEL. For November 1948, there were 89 cars and 264 visitors. This months travel was increased by 374 visitors. Good weather explains this large increase.

CONTACT. Contact with visitors was done on Sundays and during the hunting season, October 26 thru 30. There were 7 days of actual contact.

There were five hundred and twelve visitors contacted in one hundred twenty-seven cars. Contact time averaged 15 minutes per car.

Contact time amounted to 31 hours and 45 minutes for the Superintendent.

N.P.S. VISITORS. Mr. John Kell on land problems, November 15.

ROADS. The State graded the approach road from Mosca to our entrance on October 29; November 12 and 19. This work has greatly improved the condition of this stretch of road.

MONUMENT ROADS. The monument road from the cattle-guard to the lower Medano Creek picnic area has been graded on several occasions and is now in good condition.

HUNTING SEASON. At the end of the hunting season October 30, 145 hunters were checked at this area, and only 12 deer were killed in this vicinity. All were taken outside monument boundaries, and entailed a great amount of walking. Three were bucks and the remaining 9 were does; none of the animals were large.

PUBLICITY. A beautiful full-page picture of the Sand Dunes appeared on the front page of the Denver Post Rotogravure section, dated November 13. This same paper also contained good pictures of Canyon de Chelly.

SPECIAL ACTIVITIES. On November 7, a talk was given to the Mosca, Hooper and Moffat Service League at Mosca. A series of 150 slides were shown to thirty members after a banquet. These slides were on the Southwestern National Monuments.

ACTIVITIES. Usual routine activities have been carried on as well as keeping all administrative and office matters current.

Several trips were made to Alamosa to haul gasoline and propane gas tanks.

ACTIVITIES. Have completed the hook-up from the 1,000 gallon fuel oil tank to the storage barrel in the light plant room, using 3/4" copper tubing and fittings.

Am now trying to locate a hand pump to finish this project - but with little success, and no doubt will have to install an electric motor and pump to do this job.

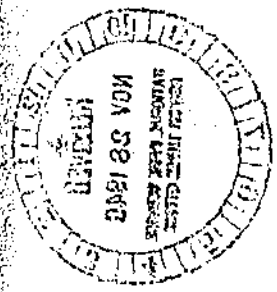
Took delivery of 1,000 gallons of fuel oil, so at least we have the oil on the monument.

Changed oil in the hydraulic system of motor grader, and also in both light plants. Both units were given annual check-up and grease job.

Took delivery of five tires and tubes (larger size) for pickup and had them mounted. Also obtained a antifreeze tester for automotive equipment at this area.

Cleaned and checked all picnic areas and hauled garbage.

Shut off water and drained toilet bowls and tanks in comfort stations at headquarters for the winter.



Checked water system at spring and covered lower over-flow pipe on storage tank.

Took annual inventory of all property on the monument and put all fire fighting equipment in storage for the winter.

PROJECT FOR ENSUING MONTH. So long boys, will see you next year, after my 26 days of annual leave.

SEASON'S GREETINGS

NATIONAL PARK SERVICE
Montezuma Castle National Monument
Camp Verde, Arizona

November 26, 1949

Memorandum

To: Regional Director

From: Superintendent, Montezuma Castle

Subject: Monthly Narrative Report, November 1949

Weather: Weather has been ideal this past month with clear, sunny days and comfortably cool nights. Maximum temperatures have averaged in the seventies and minimum readings were about 32 degrees. One rain on November 11 caused four tenths precipitation for the month.

Travel: Perfect weather has caused travel to hold up well for this time of year. 1480 people in 544 cars visited the Castle and 496 people in 160 cars saw the Well for a total 1976 visitors and 704 cars to the monument.

Interpretation: 122 trips were made to conduct 478 people through the Castle and 1400 visitors saw the museum. At the Well 175 people received interpretation service.

Visitors: On November 7, Associate Director Demaray and Regional Director Tomilson visited the Castle and Well.

On November 14, Mr. J. V. Lloyd and a Congressional Party representing the Public Lands Committee were met at Sedona and escorted to the Castle where they were given a short talk and saw the museum. Shortage to time caused this group to miss the Well.

Special Activities: Superintendent Cook spent from October 31 to November 9 in the Regional Office attending the Personnel Training Course which was presented by the service.

Archeologist Schroeder gave talks on the Story of the Indians in the Verde Valley to 23 students and faculty members at the Verde Valley School, and to 225 high school students and adults at the Camp Verde High School. Both talks were illustrated with colored slides.

Memorandum

To: Regional Director, Region Three

From: Acting Superintendent, Natural Bridges.

Subject: Monthly Narrative Report for the month of November, 1949

TRAVEL: Twenty one visitors in eight cars visited the area up to November 8 on which date the area was closed for the winter. Laborer Leadman Redd was busy working on trails away from headquarters and consequently no contacts were made.

GENERAL: Two heavy snow storms made it impossible to get the 30 foot ladder poles to be used on the trail down to Katchina Bridge. However a connecting trail was worked out from the first bluff to the present horse trail. The newly constructed or reconstructed cabin was given a coat of paint inside and out. All equipment was hauled to Blanding and is being stored at Mr. Redd's residence until such time as personnel from Mesa can go down to get it. The area was closed on November 8 for the winter.

Bates B. Wilson

Bates B. Wilson
Acting Superintendent.

NAVAJO NATIONAL MONUMENT
TONALEA, ARIZONA

November 25, 1949

To: Director

From: Superintendent, Navajo

Subject: Report 1nl

There follows a narrative report of activities in this area for the month of November 1949. The Monthly Travel Report and the Monthly Statistical Report of Interpretive Services for the same period are enclosed.

VISITORS

Travel continued to break all established records. 38 visitors arrived at this area in 15 cars. Three camped over nite accounting for 61 visitor days. These visitors selected their activities as follows: 18 visitors took Sandal Trail to Betatakin Point for the rim view in nine parties, one party of three was guided over the canyon trail to Betatakin. Nineteen visitors got the vest-pocket museum treatment in nine parties.

N.P.S. VISITORS

Mr. and Mrs. Joe Dean of Kayenta came in on a social call on the 6th. We got Joe to instruct us on the operation of the Zaroo Hammer.

Richard H. Robinson of Grand Canyon National Park arrived here on the 8th. We were sorry to miss him but we were away on sick leave.

Kathryn and Bill Wilson, former Custodian of Navajo and now of Rainbow Lodge, for Thanksgiving dinner.

ROADS

Three visitors from Utah reported our entrance road as "the best road they used since leaving the pa[illegible] at Monticello". Not bad.

WEATHER

A heavy-snow fall on the 10th caused damage to a great number of trees. It's difficult to look in any direction without seeing fallen branches.

Temperatures have been unusually mild. Our furnace has been out for the last two weeks, the fireplace furnishing enough heat in the morning and evening.

Maximum temperature was 68 on the 4th. Minimum 20 degrees-7th 7—14th. Precipitation .62 inches.

MAINTENANCE

The roof of the work-shop was repapered and tarred. The garage and tool house were given a new application of earth.

The entrance road was bladed and dragged until we attained a road superior to any of the feeder roads.

Much hauling was accomplished this month; three tons of coal, four yards of building sand, pipe, sign lumber and building lumber, L.P. gas, and some new household furniture. On the coal and sand trips we dragged our railroad-iron grader along and effected a saving in time and money.

Trail work was accomplished at the head of Canyon Trail to Betatakin.

The Baron harrow was put to work on the rough bare rock road areas with great success.

Two loads of wood chips were hauled to the Shonto dugway. Wood chips, mixed with sand, is the best chuck-hole filler we have found. Altho this short section of rough road is not designated we feel that since Shonto is our closest mail, phone and emergency contact, the road should be kept passable.

POP

The POP program for this area was mailed late, but we hope not much late. We gave the preliminary instructions as much study as our July travel would permit and noted that final action depended upon receipt of Exhibit B. The follow-up on Sept. 8th again instructed Superintendents to retain their lists until Exhibit B "Program Amounts by Areas" is received. We have not yet received Exhibit B but in response to a radio message we hurriedly did what we hope was wanted.

PROJECTS FOR ENSUING MONTH

Trail work to Betatakin Point and further work on the Canyon Trail and Road work on the bare rock areas as weather permits. Annual Leave is planned for the period Dec. 11th to mid-January. All monthly, semi-annual and quarterly reports will be completed and submitted before our departure.

J.W. Brewer jr.

J.W. Brewer, Jr.,
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
ORGAN PIPE CACTUS NATIONAL MONUMENT
P. O. Box 38, Ajo, Arizona

November 26, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Organ Pipe Cactus

Subject: Monthly Narrative Report

There follows a report of activities for Organ Pipe Cactus National Monument for the month of November, 1949.

Weather

Uniformly warm fall weather prevailed throughout the month with the maximum temperature of 91 occurring consecutively on November 2, 3, 4, and 5 and the minimum of 41 coming on November 7, 19, and 20. Only 0.27 inch of rain fell on November 11.

Special Activities

Chief of Information Evison was met in Gila Bend by the superintendent on November 18 and one day was spent on the monument on official inspection. He was taken to Tucson by Ranger Bean on the following day.

One trip was made to Phoenix to secure tractor tires.

Bids were placed for materials for fencing the north and west boundaries.

Approaches to Monument

Approximately 25 miles of the new construction on State Highway 86, Tucson to Ajo road, is completed. This section will probably be finished by January 1 and should increase travel from Tucson to the monument.

Co-operating Government Agencies

Permit was granted District 57 for a school site on monument land at Lukeville. An army barracks was moved to the site and is under conversion to a school building.

Travel

Out of state travel has slowed somewhat after an early start last month. Campers, however, are coming earlier this year for extended stays.

Accident

One fatal highway accident occurred on October 30 five miles north of headquarters.

The highway patrol has now placed patrol cars over this road on weekends and it is now hoped that our accident occurrence will lessen.

William R. Supernaugh
Superintendent

NOV 30 1942

SAGUARO NATIONAL MONUMENT
Tucson, Arizona

November 25, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Saguaro

Subject: Monthly Report, November 1949

There follows the monthly report of activities at Saguaro National Monument for the month of November, 1949.

General

November has proven to be most delightful from a standpoint of weather, with warm balmy days and cool nights. One small rain during the past month deposited .12 inches of precipitation in the desert area. The forested area has had several snowfalls during the month but no means are now available to determine amount of precipitation in this area.

Travel figures for the month show a slight increase as compared to the same month last year.

Three more escaped prisoners from the Catalina Federal prison passed through Saguaro on October 26.

Winds up to 30 m.p.h. on October 30 did minor damage to the Giant Saguaro within the monument. Some Saguaros were blown down but these generally were previously infected by bacteria.

The large Cristate, adjacent to the Loop Road in the Cactus Forest, succumbed to the ravages of disease and fell during the night of November 8. Thus, we lost one of the interesting specimens of Saguaro found in the monument.

Special Activities

Associate Director Demaray and Regional Director Tomlinson visited area on November 14, and made trip through Cactus Forest.

Superintendent Errol Jackson and wife, Tumacacori National Monument, visited area on November 17.

Superintendent King made a trip to the forested area on October 26 to supervise closing of Manning Camp and removal of trail crews for the winter months.

Superintendent King accompanied Chief of Information Evison on inspection trip to Tumacacori National Monument on November 19.

Ranger Benson attended meeting of Saguaro Forest Association on November 20. This meeting was called to discuss prospects of the new approach road to the Monument entrance. However, due to small attendance meeting was adjourned.

The Superintendent was afforded the opportunity to attend the Personnel Instruction Course held at Santa Fe over the period October 31 - November 8. The entire course proved interesting and a comprehensive knowledge of Service policy and procedures was obtained by the trainees.

A recent inspection of the southern part of Section 5 discloses a tremendous number of Indian pictographs on the crest of the lower portion of the Tanque Verde Mountain. These pictographs would undoubtedly prove to be a source of real interest to monument visitors if they could be made available under proper protection. However, we are not giving the area any publicity as it would only tend to invite vandalism under the present circumstances.

Inspections

Associate Director Demaray inspected proposed boundary reduction on November 17 & 21, as proposed by the Saguaro Land Committee of the Tucson Chamber of Commerce.

Mr. Herbert Evison, Chief of Information, visited Saguaro November 20 to inspect area and contributed many worth while comments relative to the interpretive program at Saguaro.

Investigation of Boundary Changes

The Saguaro Land Committee, of the Tucson Chamber of Commerce, presented a boundary revision proposal to the National Park Service on November 8. This proposal would delete the northern sections of the Cactus Forest now in private ownership, and might facilitate a settlement of Saguaro land problems.

Maintenance

A considerable amount of time was spent this past month on the Cactus Forest loop road, grading the surface and restoration of

road shoulders that were damaged as a result of the heavy rains this past summer. The loop road is in excellent condition at this time.

Laborer-Leadman Stansberry replaced broken drive shaft on the Chevrolet pickup during the past month.

Approaches to Park Area

The Broadway approach road was graded twice during the past month but at present is in very poor condition.

Cooperating Non-Government Agencies

Dr. Alice Boyle, Pathologist, University of Arizona, visited area on November 3 to ascertain wind damage to Saguaros due to high winds on October 30. No major damages sustained but few diseased plants blown to ground.

Donations and Accessions

Six excellent framed photographs (16 X 20), depicting flora and fauna of Saguaro National Monument were loaned by Marvin "Pop" Frost for display in our office. The many fine photographs and many, many, hours of donated time is greatly appreciated by this office.

Interpretive Services

A total of 684 persons in 260 parties were given interpretive service at headquarters. This amounted to 642 hours for an average of 14.8 minutes per party.

Marvin "Pop" Frost gave a illustrated lecture on Saguaro to approximately 90 people of the Congregational Church of Tucson, on November 18.

Museum Activities and Exhibits

Several transplants of cacti were made during the past month and new Saguaro cross-sections were placed in the arboretum.

Research and Observation

Laborer-Leadman Stansberry observed a Desert Bob-cat adjacent to our south boundary, near south gate, on November 9. The animal appeared to be in very good condition.

Javelinas visited the headquarters garbage cans on two occasions during the past month, and managed to create havoc with sanitation in that immediate vicinity.

Increase or Decrease in Travel

A total of 1077 people visited Saguaro during the month. This is an increase of 446 visitors as compared to last month and an increase of 5 visitors over the corresponding month a year ago.

Visitors

October 28 - Ranger Glenn Bean, Organ Pipe Cactus National Monument.

November 1 - Charlotte Bjornson, Copenhagen, Denmark.

November 3 - Dr. Alice Boyle, Pathologist, University of Arizona, Tucson, Arizona.

November 6 - Mr. & Mrs. J. H. Hadfield, Rockville Center, New York. Mr. Hadfield is associated with former Director Horace M. Albright.

November 10- Mr. Al Vechelson, Assistant State Land Commissioner, Phoenix, Arizona.

November 12- E.A. Wright, formerly with Region II office, National Park Service, Omaha, Nebraska.

November 14- Associate Director Demaray and Regional Director Tomlinson.

November 17- Mr. and Mrs. Kirsten, Ostergourd, Denmark.
Mr. Henry Amidsen, Denmark.
Superintendent and Mrs. Earl Jackson, Tumacacori National Monument, Tumacacori, Arizona.
Associate Director Demaray, Washington, D.C.

November 19- President John A. Hanna and 7 members of faculty, Michigan State College, Lansing, Michigan.

November 20- Mr. Herbert Evison, Chief of Information, Washington, D.C.

November 21- Associate Director Demaray, Washington, D.C.

Ranger Service

Ranger Wilde returned from annual leave and E.O.D. November 4.

Ranger Wilde to forested area on November 4 to take remaining stock to Spud Rock pasture. Plans are to bring all stock down to the X-9 ranch the 1st of December.

Rangers Wilde and Benson completed inventory during the past month.

Deer season on Whitetails (October 28 - November 13) and on Mule deer (November 10 - 13) closed during the past month with many boundary patrols made by Rangers Wilde and Benson. To our knowledge no violations occurred in the monument area and from all reports no bucks were taken in the areas adjacent to our boundaries. The deer population adjacent to and within the monument is at a very low ebb, with very few bucks observed during the past year.

Personnel

Laborer Irvin Western was terminated October 28.

Miscellaneous

The X-9 ranch held its fall round-up the latter part of October and cattle appeared to be in much better condition than last year. The X-9 has a grazing allotment in the southern portion of the monument and in this area the grasses are in very good condition.

A total of $7.00 was contributed to the Community Chest by members of this organization during the past month.

William L. Bowen
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Tonto National Monument
Roosevelt, Arizona

Memorandum

November 28, 1949

To: Regional Director, Region Three

From: Superintendent, Tonto

Subject: Narrative Report, Tonto, November 1949.

Weather. Wonderful, nearly all month. Temperature from 60 to 70 degrees, with most days sunny. One small rain. Fair Tonto is at it's best this time of year.

Roads & trails. Sam Orem finished reworking surface and drainage of the Lower Ruins trail. Considerable odd jobs on the entrance road have been done. Picks, shovels and bars were resharpened by Sam Orem, expert blacksmith. Not much heavy road work has been done, pending details of an agreement with the State Highway engineers, and enough rain to accomplish some work on the road.

Travel. 1346 visitors this November compared to 1068 November last year reflects the usual 30% increase per month here. Thanksgiving was a 4-day week end as far as travel was concerned.

Visitors.

Woody Spires, former Tonto ranger.
Dan Davis, Casa Grande Archaeologist.
Supt. Cal Miller of Platt National Park, for a brief visit.
Congressmen Murdock of Arizona and Toby Morris of Oklahoma.
Supt. & Mrs. Hastings and daughters of Walnut Canyon were here over the Thanksgiving holidays.

Special Activities. The superintendent made a tentative agreement with Engineer Holland of the State Highway Department, to pay grader and operator costs for occasional road work by Ab Sanders. Details and a report will be sent in soon. This will put us all in the clear on the occasional grading and ditch clearing done by Mr. Sanders.

RECEIVED
DEC 1 1949
NATIONAL PARK SERVICE
REGIONAL OFFICE

General work. A new piston was installed in the 1-cyl. light plant. For a time we have all three plants able to run. White gasoline recently bought may cut down maintenance on the plants.

The Cooper water line was drained before the first freeze this year. The drinking fountain and tables have been moved from the terrace to the museum area to get more parking room and prepare for the grading job.

The dump truck has been painted a lovely Highway Yellow, with considerable time used in preparation, to get a good paint job. We are proud of this vehicle now, due to the work of Master Painters Orem and Pierson.

The annual inventory was sent in.

Public Relations and Social Activities. Tonto has not been dull this month. The natives held a turkey shoot, in which Mrs. Sharp, "Eagle-Eye", won a turkey. The Monument staff was all represented, and the rest of us have good alibis.

Archaeologist Pierson was set upon after a dance at Roosevelt by two characters, one drunk, whom he battled valiantly for about 20 minutes without help. Our neighbors at the dance were alerted and made a flying trip to Roosevelt to rescue him. They told me the other guys looked worse. I missed this by coming home too early, and was mad all day Sunday after hearing the details. We are waiting for a Roosevelt theater ribbon and combat pay. Who said that archaeology was a dry and dusty pursuit?

The Battle of Roosevelt assumed a more serious aspect when Ed Cox, Forest Service permittee, cafe and cabin camp operator at Roosevelt, publicly threatened to kill Ab Sanders at 5:30 on November 4. Two sheriffs deputies came out from Globe to forestall that. This is merely the latest of a long series of offenses perpetrated by Cox. He is now, of course, out on bond, with a trial pending for December 7. He is also the enemy now of all the people here who have finally petitioned for a Forest Service investigation, and of witnesses for the pending trial. These include all or part of the entire Tonto staff. A separate report was sent in on this.

Charles C. Sharp
Superintendent.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Tumacacori National Monument
Tumacacori, Arizona

November 26, 1949

Memorandum

To: Regional Director

From: Superintendent

Subject: Superintendent's Monthly Narrative Report for November, 1949

Weather Conditions: Temperature ranged from a maximum of 88 on the 5th and 25th to a minimum of 25 on the 10th. Most of the month has been delightfully warm, and the skies have been clear. It has been by far the warmest November in our four years of record-keeping here. Precipitation for the month was .01 of an inch, which is a little low, compared to the November average of .40 for the past 11 years in this district.

Increase in Travel: Visitors totalled 8,076, arriving in 819 motor vehicles. This visitor total breaks the previous November record high of 1,819 in 1946, and constitutes the seventh straight recording breaking month of the year.

Interpretive Service: 943 persons went on 173 guided trips through the mission church and grounds, receiving an average of 37.37 minutes per trip. This trip time is the highest average since April, of 1948. Long average trip times usually mean (a) high visitor interest, (b) warm, lazy weather, (c) a rising stock market, (d) extra inspirational pep in members of the guiding force, or a combination of two or more of the above factors.

1,922 persons received combined Information and Interpretation Service, and 1,949 saw the museum and patio garden.

Visitors: October 26 - Elias Venizes, a Greek hero and author.
October 29 - Theodore E. Nichols, acting head of the University of Arizona history department.
November 5 - A group of 28 Phoenix young people, sponsored by the Y.M.C.A.
November 7 - Colonel and Mrs. D. P. Yeuell. He is Senior Army Instructor of Arizona's National Guard.
November 10 - Mr. and Mrs. Art Woodward. He is with the Los Angeles Museum, and is a well-known authority on customs and costumes of the Spanish Southwest.
November 15 - Regional Director and Mrs. O. A. Tomlinson, of Region Four.

November 19 - Herbert Evison, Chief of Information of the National Park Service, and Superintendent Sam King, of Saguaro National Monument.

November 20 - Associate Director and Mrs. A. E. Demaray, of the National Park Service, and their daughter, and Superintendent and Mrs. Sam King, and daughter, of Saguaro National Monument.

November 21 - Congressman Toby Morris, 6th Congressional District, Oklahoma, Chairman of the sub-committee on Indian Affairs of the Committee on Public Lands, U. S. House of Representatives.

November 24 - Miss Grace Sparkes, widely known former secretary of the Yavapai County Chamber of Commerce, now retired to a ranching life in the Huachuca Mountains of Southeastern Arizona.

Inspections: Mr. Evison's visit of the 19th was his first opportunity to see this area. We were pleased that he was able to spend several hours here, and to go through the mission church on trips guided on one occasion by Ranger Brewer and on another guided by Sup't Jackson. It is to the advantage of the Service that all visiting officials get as comprehensive an idea of how interpretation is carried on in detail as possible.

On the following day it was also our pleasure to have Mr. and Mrs. Demaray accompany a guided party through the church. The Demarays have been here several times, and I think have always gone through the mission church with one of the guided groups.

Superintendent King "Cactus Pete of the Saguaro Patch", who accompanied the above officials, has been here often enough in his informal capacity of greater and "Emcee" to Park Service people visiting southern Arizona that he could almost be called an "Inspector without Portfolio." His visits are always welcome.

Publicity: As usual, local newspaper coverage of monthly travel data is good. In addition, a brief news item which we released to Nogales papers on November 1 regarding the cleaning and stabilizing work being done in the mission church by Archaeologist Steen was picked up by other Southern Arizona papers, and was broadcast as a news item over Radio Station KTAR, of Phoenix.

Museum and Education: Art Woodward, of the Los Angeles Museum, spent a part of two days here, giving us some gratis expert information on a number of museum items on which we did not have too much data. Information he gave us was put in our fact file cards. The famous Tumacacori "candlesticks" which were given to the museum several years ago by Mrs. Jennie H. Boulding, turned out to be, not candlesticks at all, but morteritos (little mortars) such as were used for exploding charges of gunpowder in religious festivals of the mission period. New text has since been made up for this exhibit.

Completely re-written text matter for the Mines and Mining exhibit case of the museum was forwarded to the Regional Office, with the request that it be checked and lettered on suitable sized sheets for installation in the case.

In the summer of 1949 a study of pigments and interior plaster materials of the mission church was begun by Rutherford J. Gettens, Chief of Technical Research, Fogg Museum of Art, Cambridge, Massachusetts. He was under appointment as a collaborator for the purpose of making this study. Many samples were taken at the time of his visit, for later analysis and identification through microscopic and microchemical methods. Mr. Gettens' final report on this study has been written, and we now have a file copy. We consider this report of great value, and the first really intensive study of the old pigments that has ever been made. Needless to say, this knowledge helps us a great deal in giving more intelligent interpretation to our visitors.

Mission Stabilization: Archaeologist Charlie R. Steen, with one laborer assistant, continues the task started in October, of cleaning dirt and stains from original plaster inside the mission church, and then spraying the cleaned surfaces with vinyl acetate to stabilize the surfaces and "fix" the pigmented decorations. All upper level cleaning and spraying work in the nave has been finished, and the work in the sanctuary is about 1/5th complete.

Maintenance: Application of bondex to the cornice of the museum building was completed. Most of the two-coat bondex job on the west wall of the museum and rest rooms is finished. Minor plumbing repairs were effected in Residence No. 1. Clean-up was done in the shop. 10% DDT powder was applied to rodent runways near the decrepit old building we use for a warehouse, but so far without apparent results. We still get fleas every time we work around the old building. Dead weeds were raked and burned in the cemetery and part of the area east of the mission church. Routine clean-up was kept current. A path was made through old weed growth from the ruins trail to a spot where a very fine photograph can be made of the church.

Personnel: Laborer Ramon Orozco was terminated October 28, then re-hired to assist Archaeologist Steen on the mission job. On November 14 Fred Jenness was entered on duty in a 30 day emergency appointment in the newly established position of Maintenanceman, pending decision by the U. S. Civil Service Commission as to whether or not it will establish a register for this district.

Auto Accident: On the morning of November 8, just west of our south entrance on the main highway, occurred a two car collision which practically demolished both cars, yet killed nobody. A tourist coming into our parking area from the south was a little slow giving a right-hand turn signal. A car following too close behind had poor brakes, and swerved left, heading straight into the radiator of a south-bound car. One car was turned almost completely around on the road, the other was

about-faced and plunged off the highway through a neighbor's fence. Of the six persons and one dog involved all suffered from shock, and the woman received five broken ribs and a severe laceration over the left temple. Since the accident occurred practically at our front door, and since we conduct the only Red Cross First Aid Station in the county, we naturally took charge. First Aid was given, an ambulance and the Highway Patrol were summoned, the injured were hauled away to the hospital in Nogales, a wrecker removed the wrecked car from the highway, and life resumed its normal tone in the neighborhood. Hours afterward, the injured dog, scared and lost, took possession of our garage. Finally we were able to approach it, and finding its injuries superficial, were able to nurse it back to health. Two weeks later, the owners, on the mend again, took the dog and departed.

This accident made us grateful we were in process of a refresher course in First Aid, which was being given three nights a week in the lobby of the museum building. The knowledge recently received in the class helped us, as well as the neighbor First Aiders who aided us in caring for the injured.

Auto accidents occur with appalling frequency on the Tucson-Nogales highway, and there have been several near accidents in front of the mission parking area, because of erratic driving on the part of tourists who are about to turn into the parking area, or who hesitate just to think about turning in. We have written the County Maintenance Foreman of the state highway department to ask that warning signs be placed on the highway to the north and south of the congested area of Tumacacori.

Community Relations: Boy Scouts of the valley continue to meet, now at the home of the superintendent, who acts as their Scoutmaster. The Red Cross First Aid class which Ranger Brewer and Sup't Jackson were taking has finished.

On October 28 we attended an evening lecture sponsored by the Pimeria Alta Historical Society, in Nogales. Speaker of the evening was the Reverend Victor R. Stoner, a Catholic priest who has attained some fame in southern Arizona as a historian and speaker, and who has often assisted us in getting more accurate data about mission history. He talked on highlights of mission history in Pimeria Alta, and delivered what was a pretty good talk, except for making a pretty sharp jab at the National Park Service a time or two. His Park Service comments were not directed at the Service or staff as locally represented, but what he considered the Service's dereliction in not seeing to it that the old mission at Awatobi was preserved, was rather pungently put.

Earl Jackson
Superintendent

TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA.

November 26, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Tuzigoot National Monument

Subject: Monthly narrative report for November, 1949.

Travel Data and Trends: Visitors this month totaled 1176 compared with 938 for November, 1948. Although, only two months of the current travel year has passed- we find that travel is running Approx. 13% over the corresponding period of last year. It all shapes up as another record breaking year. The 1176 people arrived in 414 cars. As usual California leads all other states.

Weather: With the exception of two cold days - The month has been very pleasant and warm. A light snow appeared on the top of Mingus Mountain during the latter part of October.

Guide and Contact Service: Museum, ruins and orientation contacts totaled 2750 for the month. 1021 people in 368 parties were given orientation lectures in the museum, and 978 people in 352 parties made the trip through the ruins. Average time spent by each party in the museum was 20 minutes - ruins 20 minutes.

Personnel Time: Museum: 124 hours, 20 minutes. Ruins: 118 hours, 30 minutes. Total contact time for Bright: 162 hours, 20 minutes. For Righert: 80 hours, 30 Minutes.

Maintenance: Working, between-parties, over a period of sixteen days we finally managed to completely redecorate the museum. Although, patches of paint have been added from time to time, this is the first time in ten years, according to available records, that a complete new paint job, from end to end, has been accomplished. The completion of the former darkened walls have changed considerably, and the casual complimentary remarks made by visitors have been most gratifying.

New bronze screen wire is now being installed on the windows of the museum to replace the old deteriorated wire which was placed there 14 years ago when the building was built. This project will continue on into next month.

Everett W. Bright

Everett W. Bright,
Superintendent.

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Walnut Canyon National Monument
Flagstaff, Arizona

November 23, 1949

Memorandum

To: Regional Director, Region Three

From: Ranger, Walnut Canyon

Subject: Monthly Narrative Report, November, 1949

Visitors this month, 1143; travel year to date, 2598

Weather November has given us exceptionally fine weather for this time of year. Sunny days and comparatively mild nights have been common. A short storm brought us rain and a four inch snow on the afternoon and night of November 10.

Administration Power line construction materials on hand at Walnut Canyon were checked and discussed with Engineer J. H. Conn on October 26 and 27. A survey was made, a list prepared, and a report written concerning materials and work needed to complete the electrical installations after the power line is brought into the monument.

Several contacts were made with Arizona Power Corporation officials regarding the construction agreement on our proposed power line. A conference was held with them in Cottonwood on November 23 to discuss various terms for an agreement between the Power Co. and the United States.

The annual physical inventory of non and semi-expendable equipment was made and equipment surveys made.

Water permittees on our water line were contacted regarding renewal of permits for 1950.

A trip was made to Grand Canyon to return an $80.00 oil painting borrowed from the artist Ethel Blanding. Grand Canyon secured the painting for use at the N.P.S. exhibit at the Coconino County Fair at Flagstaff.

Use of Monument by the Public November brought us 1143 visitors in 395 cars. Twenty seven hours were devoted to the interpretation of the area to 775 persons. An estimated 685 persons made the "Island" trail trip.

Because of sporadic travel the museum was kept open during

brisk travel periods only. Visitors in the museum numbered 283 in 71 groups.

There were 26 picnic parties of 133 persons.

Protection Patrols were made daily during the deer hunting season of October 28 through November 15. Hunters were contacted near the monument frequently.

New "no hunting" and "boundary" signs were put up along the boundaries.

A check for possible insect infestation in the monument forest was made on the 2nd of November. Oscar McClure, District Ranger of the surrounding forest district, assisted with this.

Maintenance Both electric power plants were checked and adjusted.

The comfort station heating stove was cleaned and replaced.

Our scarcely existent west boundary fence was given considerable patching. It is now, once again, a four wire fence of a sort.

Improvements The telephone was removed from the front porch of No.2 residence and installed inside in the hallway.

A "package" box was put up at the monument entrance to facilitate delivery of mail.

Additional vents were cut into the walls of the comfort station between the heater room and both the male and female side. This, we hope, will facilitate the circulation of warm air.

A door was made and installed in one of the doorways of the power house. This to help retain the heat and protect the power plants.

Roads and Trails Two tons of cement sand were hauled and stock-piled in preparation for work to be done on the trail from the museum to the "Island" saddle.

Visitors Ranger and Mrs. Euler came in on November 3.

On November 14 Mr. James Lloyd came in with Arizona Congressman Murdock and party of 14 congressmen. A short informal description and explanation of Walnut Canyon was given them. Time permitted them a very short visit.

Archaeologist and Mrs. Richert in on November 17.

Gordon Vivian in on November 18 to inspect ruins stabilization work completed last fall.

Superintendent Bowen on November 23.

R. S. Leding

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
White Sands

Box 231, Alamogordo, New Mexico

November 21, 1949

Memorandum

To: The Regional Director, Region Three

From: The Superintendent, White Sands

Subject: Superintendent's Monthly Narrative, Report No. 1m1

NOVEMBER TRAVEL, 1949		TRAVEL YEAR TO DATE	
Visitors, 8529	Cars, 2320	Visitors, 17670	Cars, 4681

GENERAL

November, 1949, has exceeded any like month, and has exceeded our largest November by over 2000 visitors and 550 cars. Snow flurries in the northern regions have a lot to do with heavier travel in this southern region. A couple of trips were made to El Paso in connection with supplies and repairs to our Diesel Plant.

WEATHER

Our blustering weather of last month has settled now, and the past few weeks have been ideal warm days and cold nights. The snappy weather certainly cuts the length of time that the visitor spends in our area. However, they all seem to enjoy the time they do spend.

SPECIAL ACTIVITIES

The Alamogordo Chamber of Commerce joined with other Chambers of Commerce in this section in celebrating the reopening of the tunnel on State Highway No. 83, between Alamogordo and Cloudcroft, connecting the Tularosa Basin with the Pecos Valley. Forest Service, Public Roads Administration, and Park Service officials have been asked to attend the affair. Both Superintendent Libby, of Carlsbad, and myself are scheduled for a few words. I have hopes of talking our Regional Naturalist into attending this event.

PUBLIC SERVICES

No complaints are being received on our Service Operator but his space is not large enough for the crowds that visit. Mr. Charles was called for Federal Jury duty in Albuquerque and Mr. Shepperd is holding down the operations. Mrs. Tom Charles comes out on Sundays to help out.

INCREASES OR DECREASES IN TRAVEL

Over 2000 thousand gain over any like month is not to be taken lightly, especially in the face of annual leaves, etc. being taken in fall and winter months, supposedly because our traffic allows for fewer personnel.

VISITORS

One of our outstanding visitors for the month was Mr. John Phillips, of Banning, California. Mr. and Mrs. Phillips were in as our guests the afternoon of November 7. Mr. Phillips showed a keen interest in our area and is on our Appropriations Committee in the House.

A group from the South Dakota School of Mines was in on the 9th. Also on the 9th, a group of the Southwestern Geological Society was in. Ross Maxwell addressed the group in El Paso on the geology of the Big Bend area. W. W. Jarvis, of Los Angeles, color specialist, was in and gave us several interesting comments on our building color scheme, etc. From Region Three we had Helen Remley and some friends and we have, as yet, not received any explanation from Blanche Story as to just how she missed White Sands.

RANGER SERVICE

Both rangers have been active in routine duties and visitor contacts.

ACCIDENTS

Our first aid station treated a smashed finger on a little girl; nothing serious, just nicked a little in closing a car door.

PUBLIC HEALTH

Little Philip Schaffner underwent an operation, a tonsillectomy, on November 17 and is getting along fine according to latest reports.

INSPECTIONS

No especial inspections were made to remote areas. A Highland University student, Mr. James Young, is doing some research work and has made several trips into some of our more less-visited sections and has given us reports on these areas.

PLANS, MAPS, AND SURVEYS

We managed to go over all of our PCP forms and get out a new Priority List in accordance with the new instructions. I think it will make it much easier to keep up with all phases of work and so far like it much better than the old method.

PUBLICITY

Our heavy increase in travel, step up of building contracts, etc., at both Holloman Air Base and White Sands Proving Grounds, all help to keep the area before the general public. I hope our Service can see the handwriting on the wall as indicated by all this Army expansion on both sides of us and make an attempt to provide a program elastic enough to take care of the additional load it will likely throw on us. Over 500 houses under contract within 35 miles of White Sands will mean that we will have to furnish recreational facilities to a large number of these families.

COMPLAINTS

This office has received no complaints on any phase of our unit. Our visitors are all very gracious in their praise of the area and, in fact, of our entire Service.

MAINTENANCE

This season requires little maintenance on our roads, and while it is necessary to work our roads, they present no problem. Regular Fall checks on stoves, flues, etc., have taken place, and we find everything in pretty good shape.

APPROACHES TO PARK AREA

The tunnel on State Highway No. 83, between Alamogordo and Cloudcroft, is being reopened next week, after having been closed all summer for repairs. This is fast becoming a major artery for east-west travel, and will, when finished, provide one of our best feeder routes for White Sands-Carlsbad traffic and vice versa.

MISCELLANEOUS

Joe Shepperd and Harold Chittum have taken several days off during hunting season, but, as yet, no deer or turkey have shown up at White Sands.

Frank and Faris both are depending on home folks or friends in distant points for their turkey dinner. Frank in Tucson and myself with former rangers Upton and Stoel, now at Petrified Forest.

Rockets keep us on our toes, and the schedule for December is even more intense. The National Geographic Society was in on one firing on the 18th.

Johnwill Faris,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

November 26, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Wupatki

Subject: Monthly Narrative Report, Wupatki, November 1949

Weather: The weather at Wupatki has been nearly ideal for the report period. A maximum of 72° was recorded on November 7 and a minimum of 30° on November 12. Precipitation amounted to .15" on November 10.

Status of Private Lands: The Superintendent met in Flagstaff with John and Paul Babbitt on November 21 and 23 on matters relating to the acquisition of the Heiser Spring property. Considerable progress was made and it is hoped the corrected papers can be forwarded within a few days.

Activities of Outside Agencies: Copies of correspondence between the Regional Office and the O O Bar Cattle Company regarding the right-of-way through their private lands for the proposed El Paso Natural Gas Company pipe line have been received.

Communication: Radio communication remains non-existant. At present the set is in Flagstaff for repair.

Maintenance: Routine maintenance was kept current. Joe Benn overhauled the Onan light plant at Heiser Spring during the month, and it is now working very well after a lapse of several months.

The kitchen of the Superintendent's residence was given a coat of paint.

Ruins Stabilization: Gordon Vivian arrived at Wupatki on the evening of November 15 and spent two days lining out the stabilization project on Nalakihu. Former temporary ranger Bob Viklund will handle the project.

Roads: Monument roads are extremely dusty at the present time, with the customary wash-board. Joe Bean has spent much of his time hauling shale on the Doney Crater hill and that section of the road should be much improved.

Interpretive Service: 186 visitors in 63 parties were conducted through Wupatki Ruin. Average trip time 35 minutes. Total guide time 36½ hours.

General: The Superintendent arrived at Wupatki on November 12. Ranger Bob Euler had everything under control and is to be commended for his work "between superintendents."

Travel: Travel for the month showed a slight increase over that of last year. 218 visitors registered at Wupatki and 75 at the Citadel for a total of 293.

	Cars	Visitors
November 1949	98	293
November 1948	95	286
Increase	3	7
% Increase	3.2	2.4
This travel year	275	824
Last travel year	264	783
Increase	11	41
% Increase	4.3	5.2

Spring Flow: Heiser and Wupatki Springs both show an increase this month. Heiser is flowing 4800 g. p. d. and Wupatki 691 g. p. d. The report for Wupatki Spring for October, which was omitted last month, was 540 g. p. d.

William L. Bowen
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Region Three
Santa Fe, New Mexico

December 2, 1949

Memorandum

To: Regional Director, Region Three

From: Naturalist

Subject: Narrative report for naturalist work in the Southwestern National Monuments for November 1949.

Naturalist Dale S. King spent the month in Santa Fe and Archeologist Charlie R. Steen at Tumacacori.

Interpretive Administration

King answered the usual number of informational and technical requests and transmitted publicity clippings to the Director. He learned that the Montezuma Castle handbook manuscript has been approved as satisfactory. It was returned for the preparation of a revised dummy. The usual amount of overhead was handled on 2-fold leaflet preparation.

He wrote a memorandum expediting the preparation of a proposed trail booklet to be printed by the Southwestern Monuments Association and made several corrections on commercial travel literature and one on an erroneous radio talk.

Planning -- Other Than Museum

A conference was attended concerning the master plan for Chaco Canyon. It was pleasing to learn that the consensus is to place headquarters near the proposed new road across the canyon north of Fajada Butte. This will clear the modern developments out of the concentration area of ruins and will allow for interpretive caravans and outpost rangers.

Progress of Exhibit Plans and Projects

At the request of the Bandelier Superintendent, a proposal was submitted to Washington for the preparation of a relief model.

Accessions -- Other Than Library

A new LeRoy lettering set was purchased with Association funds and loaned immediately to Casa Grande for label printing in preparation for their heavy travel season.

Montezuma Castle submitted an excellent duplicate museum catalog of artifacts at the Montezuma Castle. This will be held in the regional office for safe keeping.

Research and Observations

Received on November 9 were our 330 copies of Museum of Northern Arizona Bulletin #23, Nalakihu, Excavations at a Pueblo III site on Wupatki National Monument, by Dale S. King. This long deferred publication completes a C.W.A. project which was carried on in 1933 and 1934. The publication has 183 pages, 81 plates, 17 tables and tipped-in survey map. It includes the following appendices: Measurements of walls in Nalakihu, Measurements of doorways in Nalakihu, Measurements of holes and pits, Report on Vegetal Material, by Volney H. Jones, Archeological Survey, Citadel District, by Charlie R. Steen, Report of Surveyor, by Robert Harris, List of Sites.

One half of the cost is born by the Museum of Northern Arizona and the other half by the author personally.

Cooperative Activities

Pictures showing needed facilities at Navajo National Monument were sent to the Sunday Editor of the Arizona Republic for possible use in a feature story.

Loan Library

Accessions for the month total 102 including 16 books, 25 reports, 14 pamphlets and 46 periodicals.

Several maps and books were written for and received. The Washington office was queried about the possibility of using some funds for binding periodicals and some important publications. Several continuing subscriptions were renewed and a memorandum was sent to the field urging increased use of loan privilodges. The more important books received were:

The Alfred I. Barton Collection of Southwestern Textiles
by H. P. Mera

Social Structure, by George P. Murdock

Handbook of South American Indians, Editor, Steward

The Westerners Brand Book, Edited by Rabney Otis Collins

They Came Here First, by D'Arcy McNickle

The Desert People, by Alice Joseph, M.D.
Rosamond B. Spicer
Jane Chesky

Flora of Utah and Nevada, by Tidestrom

Plant Succession and Indicators, by Frederick E. Clements

Texas Almanac and State Industrial Guide
Dallas Morning News

Anthropological Records, The Archaeology of Central Calif.
by Robert F. Heizer

Woody - Plant Seed Manual, by Forest Service

American Planning and Civic Annual, edited by
Harlean James

Utah Historical Quarterly, Exploration of the Colorado
River and the High Plateau of Utah
Utah State Historical Society

First Families of the Southwest, published by
Fred Harvey

They Would Rule the Valley, by Senator Sheridan Downey

Come Unto Me, by Charles Franklin Parker

Southwestern Monuments Association

King revised the pictures and corrected the text of "Poisonous Dwellers of the Desert" for the third edition and sent it to the printers. He prepared an expanded book and slide sales list for mailing, consulted with an illustrator and three authors concerning the preparation of three proposed booklets on the plants of the southwest, and reviewed an outline by an author who proposes a booklet on the Havasupai Indians. A request from a sister Association for us to handle their bookkeeping was regretfully refused for the time being because of lack of sufficient funds.

During the month of November the usual two deposits and one disbursement were made by treasurer Vedder. The number of covers mailed was 270, including 70 cards to members regarding Nalakihu. There were 32 letters and 60 purchase orders due to increasing headquarters stock of books in preparation for our second mailing to all names received to this date.

The annual report from the auditors was received. The continued growth of the Association is shown by an increase of $840 in sales of publications and a net gain for the year in the high three figures. Donations of $653 were made during the year. This last figure is cost value of books; the retail price would be at least a third higher. Accounts payable dropped $1465, but there were still $2647 bills payable as of June 30, 1949, which is the reason why we are trying to limit ourselves to a three months supply of inventory instead of a year.

Barbara Vedder 16½ hours in preparing for the second broadside to the entire mail list. This broadside should go out about the eighth of December.

The shipment of Nalakihu was received November 9th and immediately mailed cards to our members announcing its publication.

Visitors

King enjoyed interesting and fruitful conferences with John Doerr and Herbert Evanson during their recent visit to the regional office.

Unusual Activities -- Conferences

King presented the topic of "Manuscript Preparation" November 4 in the Personnel Instruction Course.

Ruins Stabilization

An excellent report was received from Montezuma Castle detailing observations on damage by visitors during the past year. Fortunately, this damage is estimated to be minor. Information from the Superintendent, Tumacacori, on a possible bat repellent was distributed to other areas experiencing difficulties with these animals.

Steen finished work in the nave at Tumacacori and started in the sanctuary; the latter is a little more than one half completed. Until this past week the job has turned up little in the way of design or decoration which was not known before. Just at present, however, the staging is set up over the main altar and wall end paint details show a number of hitherto unnoticed points concerning the reredos. This wall was evidently a lot more fancy than has been thought.

The work in the sanctuary goes slowly because of all the small designs on the walls.

Technical Aid to Administrators

A conference discussing the problems to be created by the proposed gas line across Aupatki National Monument was attended.

Projects for December

King will remain in the office working on the Association Christmas mailing and annual report, preparation of 2-fold leaflets and other routine.

Steen will return the latter part of the month and start catching up accumulated stabilization reports.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURP[illegible]OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF [illegible]ERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and rates, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably [illegible] person of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8n3) and 9 (Report 9n3).

THE PURPOS[illegible] THIS FORM IS TO SECURE AN ACCURATE RECORD OF [illegible]PRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. NAME Fred M. Kinnaday
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFICALLY ROUTED AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REVISED MAY 1949.

TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical Aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Motel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.
Ranger Arnberger in Washington attending the Departments Management Training Program

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.). Count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE.
Please read them carefully.

NAME
TITLE

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

NAME Tod C. Sowers

TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Superintendent on annual leave November 23,24 and 25.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE [illegible] OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

JOHN O. COOK
NAME

TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 2 (Report 8m3) and 9 (Report 9m3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

Talks: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

Attended Interpretive Stations: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

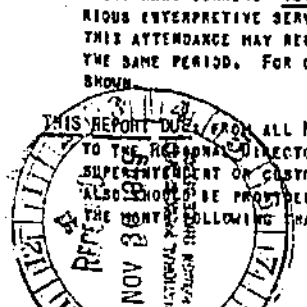
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS ENQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

Unattended Interpretive Devices: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

Interpretive Activities Outside the Area: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM



Column #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

Column #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

Column #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

Interpretive Activities Outside of the Area ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

Totals: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. Total Attendance SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

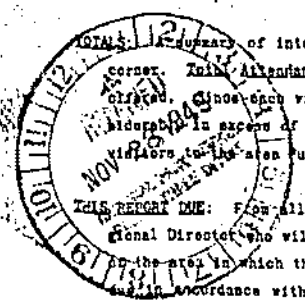
TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, sixty collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM



COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may exceed a total consideration in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data used in accordance with Instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical Aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.). Count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

TITLE Everett W. Bright, Superintendent.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical Aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the Area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.). Count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical development, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical Areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all Interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
ARCHES NATIONAL MONUMENT
MOAB, UTAH

December 28, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Arches National Monument

Subject: Monthly Narrative Report for the month of December, 1949.

WEATHER: Stormy weather prevailed most of the month and three definite snow storms covered the ground at headquarters. Four inches fell in the monument at the Balanced Rock. Maximum temperature reached 61 degrees and the minimum went down to 12 degrees.

TRAVEL: The decrease of 129 % from last month's travel can be attributed to heavy snow falls on the approach roads into this section of Utah. Inspite of this drop in travel we still show a 56 % increase over the same period last year. During this December report period 135 people visited the area in 49 cars from 13 different states.

INTERPRETIVE SERVICES: Very little time was spent in contact work as other duties took the time of both Ranger Warthington and myself. Twenty eight visitors were contacted and the total contact time amounted to two hours and thirty minutes.

Roads: Aided by just enough precipitation, Maintenanceman Winbourn was able to maintain ditches , shoulders and surface of all monument roads. With this work done for the winter he will be able to concentrate on placing shale and gravel where they are most needed.

GRAZING: With the termination of Mr. James S. Westwood's grazing permit there has developed a difficult trespass problem. A report on this problem has been submitted to the Regional Office.

BOUNDARY EXTENSION: A copy of a resolution, passed by the District Advisory Board was finally received and forwarded to the Regional Offices along with my comments on the requests of the Board.

Publicity: Mr. Ray Garner, noted photographer and mountain climber returned to Moab for the showing of his pictures of the Arches and surrounding country. His show was sponsored by the Moab Lions Club and attended by a crowd of over 300. The pictures were excellent and give this area a big boost.

LOCAL ACTIVITIES: Director John Ford finished the filming of "Wagon Master" on December 5. A great many local people workrd as extras, including Ranger Worthington's wife Jessie and daughters Joyce and Alice. No scenes were made intthe Monument as they were able to get all the spectacular scenery they wanted in the Professor Valley location, 15 miles above Moab on the Colorado. A Christmas benefit show, sponsored by the Lions Club, was put on by the Argosy Company. The show ran two nights with capacity houses and netted the Lions Club over $600 which was used for the children's Christmas party, long to be remembered. Mr. Ford intends to return in the spring to make another picture.

GENERAL: Office work has taken up most of my time and although Ranger Worthington made five patrols in the monument and spent two days determining the location of a new mine near our south boundary(Klondike Bluff Section) he has helped a great deal with the chore of filing. A picture has just been received from the unfortunate owner of the car which was caught in Court House Wash last October. This is only one justification for a new approach road.

Memorandum

To: Regional Director, Region Three

From: Superintendent Aztec Ruins

Subject: Superintendent's Monthly Narrative Report

WEATHER: Cold and windy with a low of minus 3 degrees. On several occasions the maximum did not rise out of the twenties. The inclement weather, with drifting snow and sub-freezing temperatures, plus the Christmas season, have lowered our visitation considerably.

MAINTENANCE: Cleaning of our drainage ditch was completed. An extra section of pipe was placed on a low manhole and banking of other manholes was done in an effort to prevent further flooding by flash floods.

With the advent of cold weather, numerous long(10 to 15 ft) cracks have developed in our roof over the great kiva. We have been laying new strips of roofing paper over the cracked portions.

INTERPRETIVE SERVICE: There were 315 visitors conducted in 78 trips thru the museum and 163 of these were guided thru the ruins in 32 trips.

MUSEUM EXHIBITS: We are gradually rearranging our cases for better visitor use as planned with the aid of the Regional Office.

DECREASE IN TRAVEL: About 10% fewer visitors this December than last, with 315 people in 101 cars from 16 states and Alaska.

VISITORS: Superintendent Rose and H. Nelson were in to inspect the seal-coating job done by their crew on our parking area. The Mesa Verde crew did a fine job of it.

Gordon Vivian, Field Archeologist, was in to inspect the horde of pot sherds in hand in Aztec storage. Thousands of nidividual sherds were handled and segregated.

PUBLIC HEALTHE: The Aztec water supply was tested, bacteriologically, and found to be satisfactory by the State Health Department.

BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

December 28, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Bandelier

Subject: Monthly Narrative Report for December, 1949

Weather

The weather was cool and clear during the first part of the month until the 12th, when a cold wave sent the temperature to 1 degree below zero and gave us our first snow of the season. The remainder of the month was generally cold with three inches of snow on the 20th, and a low of minus 4 on the 23rd.

Special Activities

The Superintendent went to Santa Fe on three occasions for conferences with the concessioner on rates for 1950 and the possibility of sub-leasing the dining room facilities.

General Publicity

The December issue of the "Ford Times" carried an interesting article on Bandelier that has already been responsible for bringing some visitors to the area. The article was prepared by J. W. Hendron, a former archeologist foreman in the monument and who is now with the New Mexico Tourist Bureau.

New Construction

The excavating was completed and forms installed for the footings on the multi-plate arch bridge that is being constructed in the campground. Cold weather prevented pouring the concrete and the project may have to be delayed until Spring.

DEFENSE
BUY

REGULARLY

Approach Road

The Atomic Energy Commission furnished 1800 tons of base course gravel for the bad spots on the approach road. This improved the road considerably and will reduce dust pockets and muddy stretches. The Operator General used our grader to spread the gravel and the road was in very good condition at the end of the month.

Concessioner

The conferences with the Concessioner concerning the operation of the dining facilities resulted in Mrs. Frey hiring the managers of La Cocina resteurant in Santa Fe to manage the Lodge kitchen next season. It is planned to operate the facilities for seven or eight months instead of five as at present and provide this additional service for the visitors. The cabins, however, will be open for only five months.

Interpretative Service

A total of 185 visitors were conducted on 31 trips through the ruins during the month. Due to the cold weather there were a few days on which no visitors came to the monument.

Museum Activities

One of the interesting features of the trip through the Long House ruin was a bunch of arrows that had apparently been shot into a small hole some fifty feet up in the cliff. Almost the entire bundle, about thirty shafts in all, fell out of the hole on the 11th, and were recovered to add to the museum collection. Several of the shafts were tipped with pieces of corn cob. No complete arrows were recovered but they consisted mainly of from 8 to 16 inches of the tips.

Travel

The cold weather reduced travel materially but it was still slightly better than last year. There were a total of 411 visitors as compared with 391 for December 1948. The total for the travel year so far is more than 2,000 ahead of last year.

Visitors

Assistant Superintendent and Mrs. Chester A. Thomas, Zion National Park, were visitors on the 14th. Mr. Thomas was formerly the Custodian of this area.

Wildlife

A flock of 25 to 30 wild turkeys have been seen near headquarters during the month. These are the first turkeys that have been in Frijoles Canyon for several years and indicates that they are probably increasing after having been depleted during the years from 1943 to 1947.

Canyon de Chelly National Monument

December 27, 1949

Memorandum

To: The Regional Director, Region three

From: The Superintendent, Canyon de Chelly

Subject: Report of Activities at Canyon de Chelly National Monument during December, 1949

Weather Conditions

Cold weather came a little earlier than usual this year. The temperature began dropping December 11 and on the thirteenth it reached our low of -2 degrees. Most of the days were clear and crisp with stiff breezes. The maximum temperature was 60 degrees on the sixth and seventh, but after that it has not risen above 41 degrees. Road conditions have been good thruout the month.

Administration

Administrative duties have been kept current, Inventories completed and submitted.

One trip was made to Gallup, New Mexico for supplies. Considerable time was spent on the filing system.

Maintenance

A maintenance man, David German, has been placed in the vacant position, and with Ranger Morris working with him, much has been accomplished. The Soil and moisture project was completed. Winter supply of wood sawed in the Soil and moisture project was completed. Winter supply of wood sawed in lengths and stacked. Tools and equipment worked over. Sand hauled for the driveways and parking area in order to hold down the mud. Considerable dirt was hauled on the road. Oil storage tanks were painted, and general maintenance work.

Travel

Good road conditions permitted quite a number of visitors to see the canyon this month. It shows a considerable increase in travel over previous Decembers. There were 60 visitors in 19 cars.

Visitors

The Verde Valley School of Sedona, Arizona under the direction of Mr. Hamilton Warren visited the area on December 6 and 7.

General

There being very little snow, some of the Navajo are still bringing in pinon nuts. The price they get averages around .12 cents a pound.

We also would like to add that we wish everyone a happy and successful new year.

December 26, 1949

MEMORANDUM for the Regional Director
Region Three, National Park Service
Santa Fe, New Mexico

There follows the narrative report for Capulin Mountain National Monument for the month of December, 1949:

Visitors: There were about nine hundred visitors to Capulin Mountain National Monument during the month of December, making a total of four thousand eight hundred for the travel year and twenty one thousand six hundred visitors for the fiscal year.

Weather: The weather has been very warm and pleasant for this time of the year, with practically no moisture. A skiff of snow gave us a hint of a "white" Christmas.

Flora and Fauna: The deer and other animals in the area are in fine condition. Trees and bushes and grass are beginning to need moisture.

Roads and Trails: The roads and trails are in good condition. The road has just recently been dressed and fallen rocks cleared out.

Information pamphlets: About fifty information pamphlets have been distributed during the month. Have about 8,550 now on hand.

Special Visitors: To my knowledge there have been no special visitors during the month.

Very respectfully,

Homer J. Farr
Superintendent

December 23, 1949

Memorandum

To: Regional Director, Region Three

From: Casa Grande National Monument

Subject: Monthly Narrative Report for December, 1949

General: Most of the cotton is picked in the valley but there is still a little clean -up work to do.. Eloy, the little town south of us a few miles, is still having its "Men for Breakfast" with shootings and knifings a commonplace occurence. The governor of Arizona gave the sheriff an ultimatum to clean it up or he would put the town under marshall law. Someone cut down on a deputy and filled his car full of holes, but he was uninjured. It is probably far in the lead of any town in the country in per capita killings. Coolidge and Casa Grande have their share but nothin like Eloy. Travel has tapered off slightly which is to be expected just before Christmas as most people want to be home over the holidays.

Weather: We have had a little of everything this month: warm balmy days in the upper eighties, rain, hail, a snow flurry and high winds. The last half of this period has been cold and disagreeable. The maximum was 87 with a low maximum of 41 and a minimum of 22. 1.18 inches of rain this month, and the staggering total of 7.54 inches for the whole year.

Visitors: December - 1949- 2949; 1948 - 2798: this is a 151 gain of ~~197~~ over December of last year. Travel year to date 1950- 8,517; last year to date - 7,517.

Interpretive Service: Of the 2,949 visitors to the area 1,942 made the trip to the ruins in 177 groups averaging 46.5 minutes per trip. The above groups spent an average of 21 minutes in the museum. There were 1,007 visitors who took a quick look but did not visit the ruins.

N.P.S. and Visitors of Note:

December 13 - Superintendent Supernaugh and Ranger Bean, Organ Pipe Cactus were in and picked up the stake truck.
December 14 - 75 students and teachers from the Florence grade school.

December 14 - Mr. and Mrs. George Bailey, Yosemite National Park.
December 18 - The Mesa Chamber of Commerce Travelcade, their first adventure of this kind, were here with 175 of their winter visitors. They also went through the Florence State Prison.
December 22 - Superintendent and Mrs. Wainwright and daughter from Lehma Cave National Monument spent about an hour with us. He called our attention that we had not included Lehman Cave in our Region Three Area display, if you have a picture of the Cave please send it to us.

Administration and Protection: Right request for information were answered. Most office work is up to date. The Adamsville site was checked three times this month for vandalism.

Maintenance: Quarters No. 3-5 was made ready for Ranger Dennis M. Murray, stove installed, water pipe to sink replaced, some plaster patching done, and screen and window repairs made. The bathroom in Quarters 3-3 was spot plastered and repainted with two coats. The borrowpit on the service road cleared and shoulders repaired. The paint locker was cleaned and checked.

Personnel: Dennis Murfey, seasonal ranger, arrived on November 27 and reported for duty on the 28th. We are very happy to have Dennis with us, especially with the heavy travel season starting.

Nature Notes: The Gambel Sparrows are missing again this year from the monument although they are out in the desert in their normal strength. Last year we had very few of these sparrows that ordinarily are here in large numbers.

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Chiricahua National Monument
Dos Cabezas, Arizona

December 27, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Chiricahua

Subject: Monthly Narrative Report

Weather Conditions. Excellent fall weather prevailed until December 10. Beginning on that date we had three days of rain and snow, totalling 1.03 inches of precipitation. Weather has continued cold and unsettled since then.

Inspections. Assistant Regional Director Davis spent the afternoon and evening of December 9 at Chiricahua on a general inspection and discussion of monument matters.

Plans Maps and Surveys. Three men from the Geological Survey are working on a topographical survey of Chiricahua and the surrounding area. They report that the previous N.P.S. bench marks tie in within 2 or 3 feet of their survey, which is considered close enough.

Interpretive Service. The superintendent took 5 girl scouts on a 1 hour interpretive hike. The ranger spent ½ hour on an interpretive auto trip. 573 visitors received interpretive services in the museum, in a total of 154 parties.

Travel. 668 visitors came to Chiricahua this December. This is 102 less than December, 1948. However our travel year total of 5390 is 28% ahead of this time last year.

N.P.S. Area Names. We were pleased to note the discussion in the minutes of the Regional Director's Conference, in regard to condensing and changing the names of areas in the system. We favor Mr. Tillotson's suggestion of four divisions with "National Park" attached to each one. All monument employees have, at times, grown tired of explaining that the monument is not a big granite block in honor of something or other. Not that we blame the visitors: Webster gives them plenty of backing. A word is useful only to the extent that it conveys the proper meaning to the other person. Practically all U. S. citizens have a fair idea of what National Parks are. Why not use descriptive names that would let them know that the National Park areas are part of the National Park System?

NATIONAL PARK SERVICE

Chaco Canyon NATIONAL MONUMENT

Bloomfield, New Mexico

December 28, 19 49

Memorandum

To: Regional Director, Region Three

From: Superintendent, Chaco Canyon

Subject: Monthly Narrative Report

The visitors came in to Chaco Canyon this month 200 per cent greater than a year ago. Only 21 visitors in all, but for the third consecutive month we have had better than 100 per cent increase. We have had far more this travel year than we had last travel year by the end of April!! It is hoped that the rate of increase will continue. It depends a great deal upon what kind of winter and spring we have. So far, though a few cold nights, it has been open weather.

We have had five crisp nights of zero or sub-zero weather with the coolest only a minus 7: the highest recorded was a warm 68 degrees Fahrenheit. There have been a few snow flurries, but only 0.06 of an inch of moisture.

The approach roads have remained in fair shape, and the Monument roads, except for the hill, have been in passable shape. The hill is still giving us trouble. Again, this month, visitors have particularly asked that one of our trucks go to the hill to help them up. It is hoped that the hill will not remain in such bad shape, though, for Superintendent Rose and Road Maintenancemen H. Nelson from Mesa Verde National Park were in on the 14th to look over the hill with a view to putting it in A-1 shape with the Mesa Verde equipment.

Each fall as feed gets scarce outside and in spite of what we do a few head of horses seem to appear on the Monument. Many of the men who work here ride their horses to work and it is often difficult to distinguish, until, as last month, there are a goodly number. This year, some changes were made. The fence was repaired in several places, and with the help of Gordon Vivian and Ray Rixey some of the wells which had been welded on the north cattle guard were taken off with a torch. It makes the automobile crossing a little rough, but the horses don't cross it anymore. Also, a fence, without gates, was constructed across the spring canyon to prevent liv stock from entering on the Monument. That 16 head were driven off.

The Soil and Moisture crew are doing very well. They have finished hauling from Aztec and have planted most of the posts, but as they are a small crew they will have lots of wiring, cable, revetment and other work to do in January. That the good weather has held on so long has been of benefit to the work.

The greatest bit of news that we have had ina long time is that we made a creditable grade on the Ranger Examination. Ever since the summer of 1937, we have been trying to make the grade. We have passed other Civil Service Examinations but they were always invalid, somehow, as far as helping us with the job was concerned.

The scores of quail, many rabbits and antelope ground squirrels stopped watering at the metate back of the office with the first snowfall. Now, they are all over the Monument. One is apt to flush a covey almost anywhere.

This next month:- We hope that we will again double the number of visitors that we had in the same period last year. The Soil and Moisture program will continue.

There follows the report of Archaeologist Gordon Vivian.

Irving McNeil, Jr.
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Chaco Canyon National Monument
Bloomfield, New Mexico
December 27, 1949

Memorandum

To: The Superintendent, Chaco Canyon

From: Archeologist Gordon Vivian

Subject: Mobile Unit narrative report for December, 1949

The comprehensive stabilization of site Bc-50 was completed early in the month. This is one of the former University of New Mexico ruins which came under the jurisdiction of the Park Service as the result of the recent land exchange. A small crew has been employed there since mid September under the direct supervision of Ray Rixey. A total of 24 rooms and the top courses of 4 backfilled kivas have been stabilized. All of the repair work was laid in colored soil cement. In addition to the work on the exposed rooms extensive backfilling of trenches, sumps and pits was required; the adjoining area was graded and a dike was built to divert run-off from the talus slope to the south.

Completion of this site directly across the canyon from a group of major ruins adds a valuable exhibit to the chronological sequence in the interpretive story of the Monument.

Through the first two weeks of the report period the major portion of the program was concentrated at Pueblo del Arroyo. This was curtailed by a sudden cold spell. The past two weeks the size of the crew has been cut down and they have been employed on drainage and related stabilization jobs.

Seventy one man days were spent at del Arroyo completing the last 4 rooms in the central wing, cleaning up the plaza and removing all equipment and materials around to the south wing. Repair of the first 3 rooms in the south wing was under way when stopped by the weather.

The recently abandoned concession building stands on the southeast corner of del Arroyo and 4 man days and 1 truck day were spent cleaning up the accumulation of bottles, ashes, cans, old clothing and other litter that slovenly housekeepers since the early 1900's had thrown into the brush covering this side of the ruin.

When work was stopped at del Arroyo 7 man days were used in maintenance at Pueblo Bonito - removing and burning thistles and trash from the west side and removing windblown deposits from drainage outside the northwest corner.

Related stabilization and drainage work has been started at site Bc-51 - a larger ruin in the same general area as Bc-50. No wall repair is contemplated this winter. Bc-51 is a third larger than 50, is more scattered and is cut by the same type of trenching and exploratory digging.

In grading the area to the west it was found that some of the trenching had cut a roughly circular structure of adobe turtlebacks over horizontal slabs. This structure though close to the surface appears to be a pit house without bench to which are attached small storage cysts of the same construction. This is a unique layout; the trench was backfilled but the pit structure left open to be protected with stabilized turtlebacks.

Among odds and ends also accomplished this period : a series of panoramic photos of the proposed headquarters site were taken for the landscape division; the plan of the Three-C site was finished and prints were recieved; the water pump was taken in for overhaul returned and installed; one half day was spent by Ray Rixey and myself remodeling the cattleguard on the north entrance road so that stock could no longer walk across it; in response to a request by T.L. Smiley of the Tree Ring Laboratory at the U of Arizona Ranger Matthews and I located certain beams in Pueblo Bonito which were cut by Earl Morris in 1922;(this beam data was apparently requested of Smiley by N.M. Judd) panoramic photos of the irrigation works at Penasco Blanco were taken and roughly assembled; one fullday was spent at Aztec Ruins helping Ranger Onstott determine what could be salvaged from some 60 cement sacks and 12 apple boxes of sherds put in the basement there from the 1921 - 1922 excavations. Only about half of the material was gone through. Representative samples and material to which data were attached were salvaged. The great bulk of this material was unwashed sherds with no data whatsoever accompanying them. That they were dug in 1921/1922 was infered from the pieces of The Toledo Blade bearing the above dates found in some of the bags and boxes.

Archeologist

El Morro

El Morro, New Mexico

December 26 49

Memorandum

To: Regional Director, Region Three

From: Superintendent, El Morro

Subject: Report 1a1, Monthly Narrative Report for December, 1949

Weather: There has been snow on the ground most of the month and the temperature has gone to a low of 14° degrees.

Visitation: Only 81 visitors made it to the area this month and all of them were here before the 7th of December.

General: The drains at the ranger cabin had to be cleaned and most of the month was spent on paper work and such demanding tasks as hauling out ashes and hauling in wood and coal, and shoveling snow.

The road construction work has been halted since the 13th and will not be resumed until spring.

The superintendent took 3 days sick leave to have some dental work done.

Special Visitors: Miss Bertha Dutton, Museum of Anthropology, Santa Fe, New Mexico.

Mr. Harmon D. Maxson, student at U. of N.M., Albuquerque, and previously employed at Chaco Canyon and El Morro.

John A. Aubuchon
Superintendent

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
GREAT SAND DUNES NATIONAL MONUMENT
MOSCA, COLORADO

January 2, 1950

Memorandum

To: Regional Director, Region Three

From: Great Sand Dunes

Subject: Monthly Narrative Report

GENERAL. Superintendent on annual leave during December.

WEATHER. A very mild winter - so far.

The minimum of -12 degrees was registered on December 13. The maximum of 62 degrees was reached on November 26 and 27. The high minimum was 30 degrees on December 10. The low maximum was 20 degrees on December 11.

Snow fell on December 9,10,11,17,18,20 and 21.

During this report period, there were 19 clear days, 2 partly cloudy and 9 cloudy days, with 13 windy days.

TRAVEL. Five hundred and thirty-one visitors in one hundred fifty-three cars visited the Sand Dunes during this report period. Twenty-one states were represented. Seven days show no visitors to the area. One hundred and ten people took advantage of the picnic areas and of these, three people camped over night

INCREASE IN TRAVEL. For December 1948, there were 54 cars and 174 visitors. This months travel was increased by 357 visitors. Good weather explains this large increase.

ACTIVITIES. No activities during the month, as the Superintendent was on annual leave.

Ted C. Sowers,
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Montezuma Castle National Monument
Camp Verde, Arizona

December 26, 1949

Memorandum

To: Regional Director

From: Superintendent, Montezuma Castle

Subject: Monthly Narrative Report, December 1949

Weather: Winter made its first appearance on December 10, covering the ground with one inch of snow. The mercury dropped to ten degrees on December 12 for the season's low, and days although for the most part clear have remained cold.

Travel: Weather conditions as of December 10 have caused travel to take a decided drop. Maximum travel occurred November 27 when 102 people were counted and there were two days of no visitors. For the month, 771 people in 262 cars visited the Castle and 204 people in 74 cars saw the Well. This makes a total of 975 visitors to this area as compared to 598 for the corresponding month of last year.

Interpretation: Sixty trips were made to conduct 245 people through the Castle, and 500 visitors enjoyed the Sycamore Trail. All visitors to the Castle saw the museum while at the Well 82 people received interpretive service.

Visitors: On December 1, Assistant Regional Director Davis for the purpose of discussing monument problems.

During the month, Howard Stricklan & family, Hub & Ruby Chase, Jim & Margaret Eden, Clifford Flynn, Mack Neal Paul Spangle and Ernst Christenson, all from Grand Canyon. (See Wildlife)

Construction & Maintenance: The cesspool serving the Castle residences finally stopped functioning after ten years of service. After efforts to divert the sewage effluent to a drainage field proved unsatisfactory, it was decided to dig a new cesspool. At present, the new hole is down eight feet or about two thirds completed.

Advantage was taken of the decrease in conducted tours to install new rungs in the ladder connecting the fourth and fifth floors of the Castle.

The Well area was given a thorough cleaning.

Wildlife: Cold weather has caused the arrival of ducks and geese to the Valley. This years season for waterfowl extends from November 18 to January 6.

Numerous quail and rabbits have been observed on the monument this past month.

Miscellaneous: The annual inventory was completed and approved by the Regional Office.

Fact file cards and observation records were brought up to date.

Two loads of wood were hauled down from the Stonemand Lake area and sawed up for use in the fireplaces.

The south and east boundary fences were patrolled and found in good condition.

It has been possible this past month for employees to use most of their excess annual leave.

John O. Cook
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
NAVAJO NATIONAL MONUMENT
TONALEA, ARIZONA

December 8, 1949

To: Director

From: Superintendent, Navajo

Subject: Report Inl

There follows a narrative report of activities in this area for the month of December 1949. The Monthly Travel Report, Monthly Report of Interpretive Services, Penalty Indices Destroyed Report and the Annual Inventory are enclosed.

VISITORS

28 visitors came to this area in ten cars. They selected their activity as follows: one party of six was guided to Betatakin, 9 people in three parties used Sandal Trail to Betatakin Point for the rim view. Six people in four parties got the orientation and vest-pocket museum treatment. There were no overnite campers.

On the nite of the 6th the population of Kayenta invaded here, arriving with a pre-cooked surprise dinner. The party included Rev. and Mrs. McGaffin, the Hydes, the Harringtons, the Pattersons and the Boyles, all of Kayenta. A swell time was had.

ROADS

Monument roads continue to be better than the feeder roads.

WEATHER

Typical winter resort weather has prevailed the first part of December—sunshiny, almost warm, days with cool nights. Maximum temperature was 55 degrees on the 4th, minimum 27 degrees on the 6th and no precipitation.

SCUTTLEBUTT

We hear that Mr. Frank Wright of Blanding, longtime boatman of Norman Nevill's, has made a bid for the Colorado River, Mexican Hat-to-Lees Ferry, boat business and that a Mr. Riggs of Grand Junction has purchased Mexican Hat Lodge.

LIBRARY ACCESSIONS

The Agricultural and Hunting Methods of the Navaho Indian. W.W. Hill, 1938. Donated by the SWK Library Association.

Nalakihu by Dale S. King, 1949. Donated by the Museum of Northern Arizona. This excellent publication seems to be worth the wait.

NEW CONSTRUCTION

The one-and-one quarter inch pipeline to the tool house was excavated. The trench was deepened into the stone by use of the Barco Gasoline Hammer. The pipe was replaced at a depth of thirty inches. This line was then extended toward the hogan being rehabilitated.

At the gasoline pump we installed a T and a five foot line to the gas pump base. A stop-and-waste valve was used and water is now available at this point year-round. A stand pipe with hose bib and a hose rack were set in concrete and an 18 inch buttress was constructed at the end of the base.

MAINTENANCE

Some surfacing was done on the road to Negi Point and on Canyon trail.

The hatches are battened down for our annual leave.

STATUS OF FAR-FLUNG PROPERTY

The Galion Grader is parked at Bob Black's hogan in readiness for snow removal. The International dump truck is stored in Shonto ready to mush in over deep snow. The Hallicrafter SW radio is undergoing adjustment by Mr. Cobb of the Coconino County Sheriffs Office and the typewriter is being cleaned and repaired by Friends of Flagstaff. The Dodge pickup is at Knob Hill Ranger Station (Central Repair Shop) for certain designated repairs. Everything will be ready to roar when we return from leave.

GENERAL

As the year draws to a close we look back and believe it was a good one. Travel was more than 20% greater than in any other year. Our roads and trails have been better than ever before. Nature helped our soildand moisture conservation. Less soil left here this year then any year in the past ten, and range conditions have been better, covering the same period. We got our first record of mountain lion crossing the area. A fine share of new equipment was greatly appreciated.

On the whole a good year our 15th with the National Park Service and happy to be.

J.W. Brewer, Jr.,
Superintendent

ORGAN PIPE CACTUS NATIONAL MONUMENT

P. O. Box 38, Ajo, Arizona

December 25, 49

Memorandum

To: Regional Director, Region Three

From: Superintendent, Organ Pipe Cactus

Subject: Monthly Narrative Report

There follows a report of activities for Organ Pipe Cactus National Monument for the month of December, 1949.

Weather

Our exceptionally nice Fall weather continued during the first part of the month, but on the 15th a low of 26 degrees was recorded and we have had several cool days . High for the period was 82 on the 4th. One and a half inches of rain fell on December 9 and 10, with .09 again on the 20th, so we are now looking forward to a good desert condition as soon as the weather warms up. The most snow we have ever seen here was in the air December 11th, but melted as fast as it fell.

Special Activities

A trip was made to Coolidge on December 13th to pick up the stake truck for use on the fence project. The Superintendent and Ranger Bean made the trip.

Our surplus worn-out Kohler light plant and old gasoline engine were sold by bid and released December 10th.

The Superintendent and both rangers and families attended a dinner for Senator Hayden in Ajo on the evening of December 8th.

Inspections

An inspection trip was made by Mr. John Davis on the 3rd and 4th, and he was shown over the area by the superintendent.

NEW Construction

Contract to furnish material for 15 miles of fence was let to Albert Steinfeld of Tucson. We are ready to start construction as soon as the material arrives.

Travel

Travel has slowed somewhat with the disagreeable weather but is expected to be heavy after the Holidays. Campers have been increasing this year with 468 camper days recorded for the month. The travel through the area this month was 2,715 more than in December, 1948, and the travel year to date shows an increase of 5,046 over the same period in 1948. This indicates we are really going to be busy at the peak of our season.

Personnel

Ranger Steele went on annual leave December 13th to use up his leave before the end of the year.

Visitors

Noteworthy visitors to the area were Craig Bryan, Bureau of Plant Industry, who was making observations on the cacti diseases, and Dr. Peak and Mr. Robison of the Bureau of Animal Industry.

William R. Supernaugh
Superintendent

SAGUARO NATIONAL MONUMENT
Tucson, Arizona

December 25, 1949

Memorandum

To: Regional Director, Region Three

From: Acting Superintendent, Saguaro

Subject: Monthly Report, December 1949

There follows the monthly report of activities at Saguaro National Monument for the month of December, 1949.

General

Weather during the past month was rather pleasant up to the latter part when winter weather set in and a low of 28 degrees recorded in Tucson on December 20. Snow and rain prevailed all day the 20th and the plants were covered with a mantle of snow the morning of the 21st.

A lightning storm November 30 necessitated sending a man to the top of Rincon Mountain to scan for possible fires. No fires reported although up to that time the forested area was still relatively dry.

High winds on the 10th did no noticeable damage to the plants in the cactus forest.

Special Activities

Assistant Regional Director Davis inspected alienated lands proposed for acquisition December 5 - 8.

Maintenance

Ranger Wilde repainted interior of Madrona Ranger Station..

A 5000 gallon water storage tank, on concrete base, was erected at Madrona Ranger Station during the past month.

The electric gasoline pump was repaired, painted, and put into operation during the past month.

Approaches to Park Area

The black-topping of the Broadway approach road to Saguaro was stalemated by the filing of two protests by private landowners against the project.

The Broadway approach road was bladed twice during the past month and is in fair condition at the present time.

Concessionaires

Mr. Ted Shaeffer, Manager, 49'er Ranch, requested special use permit for the purpose of utilizing Monument area for camping and trail rides.

Donations and Accessions

To correct an error in last months report, Mr. Marvin H. Frost donated the six excellent framed photographs to Saguaro rather than "loaned".

Mr. Marvin H. Frost donated another fine 11 x 14 photograph of an unusual cristate located in Section 5 that has an arm growing out of the lower portion of the cristate fan.

Interpretive Service

A total of 778 persons in 270 parties were given interpretive service at headquarters. This amounted to 83 hours for an average of 18 minutes per party.

Museum Activities and Exhibits

Two thousand copies of the "Cactus Forest Trail" leaflet were mimeographed on the 14th, with the cooperation of the Tucson Chamber of Commerce. With the installation of the remaining markers and guides, the trail will be inaugurated January 1, 1950.

Research and Observation

One large Blacktail buck observed in southwest section of monument on December 5.

One Blacktail buck observed in Cactus Forest on December 23.

Javelinas are becoming quite numerous and large numbers of visitors are reporting observations.

Increase or Decrease in Travel

A total of 1769 people visited Saguaro during the month. This is an of 108 visitors as compared to last month. and an of 144 visitors over the corresponding month a year ago.

Visitors

November 26 - 18 members of the Agriculture Club, Tucson High School, hiked from Madrona Ranger Station to Grane Shack.

November 27 - Mr. & Mrs. F. A. Prussee, Penticton, British Columbia.

November 29 - Joseph Muench, photographer, 839 Mission Canyon, Santa Barbara, California.
- Mr. Merle J. Colko, Picture Editor, American Airlines, La Guardia Field, New York.

December 2 - Mr. & Mrs. G. H. Ogburn, Thermopolis, Wyoming. Seasonal employee at Yellowstone National Park.
- Frank H. Letl, Museum Preparator, Colossal Cave, Vail, Arizona

December 3 - Dr. Edward McKee, Geologist, University of Arizona.
- John R. Schmidgal, photographer, Los Angelas, California.

December 4 - Chief Justice William O. Douglas, Washington, D. C.

December 8 - Chief Justice William O. Douglas and wife, Washington, D. C.

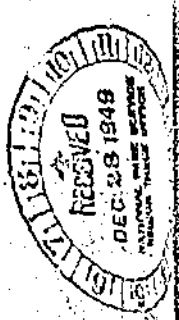
December 12 - Mrs. William O. Douglas (wife of Chief Justice) accompanied by Dr. James Yen, Chungking, China, and Mr. Abe Fortus, Washington, D. C.
- Ranger Grover H. Steele and family, Organ Pipe Cactus National Monument.

Superintendent King escorted Chief Justice and Mrs. Douglas through the Cactus Forest on December 8. Mr. Douglas was rather intrigued by the area as will be noticeable in the "visitor" record showing either he or his wife returning three times in a very short period.

Ranger Service

Ranger Forrest M. Benson, Jr., received notice from the Civil Service Commission that he had successfully passed the Ranger examination given last August.

Personnel



Superintendent King on annual leave December 15 - 31.

Miscellaneous

Ranger Wildes' youngest son was taken to the hospital December 5-6 with a serious bronchial infection. At this writing "Ronny" is well on the road to recovery.

Twelve head of stock was brought down from the Spud Rock pasture and placed on winter X-9 range the 16th.

Forrest M. Benson, Jr.
Acting Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

December 26, 19 49

Memorandum

To: Regional Director, Region Three

From: Acting Superintendent, Wupatki

Subject: Monthly Narrative Report, Sunset Crater National Monument, December 1949

Travel: An estimated total of 400 visitors were at Sunset Crater from November 28th to December 15th when the road became blocked by deep snow drifts. This figure compares with 1250 visitors during November 1949 and 130 visitors for December 1947. No figures are available for December 1948 because the area was inaccessible.

Visitors: Ranger and Mrs. Richert of Tuzigoot on November 28th.

General: The area was visited by Ranger Euler during the early part of December and a half day was spent on cleanup. On December 21 the same ranger, accompanied by Laborer Viklund (who was on a day off) made a "forced entry" via jeep through three foot snow drifts to take a visitor count. On the return trip to Wupatki the jeep and passengers became stuck in a rather deep drift and a rather cold night (4° below zero) was spent by all concerned until aid arrived about 6 A.M. the next morning.

TONTO NATIONAL MONUMENT
ROOSEVELT, ARIZONA

26 December 1949

Memorandum

To: Regional Director, Region Three.

From: Acting Superintendent, Tonto.

Subject: Narrative Report, Tonto, December 1949.

Weather. Bah! Humbug! Rain, sleet, snow and hail on the 10th and 11th. Temperatures in the middle 20's during the evenings most of the month. This won't sound bad back in northern New Mexico but after one has boiled all his blood out with the summer's 120 temperatures down here this weather is as bad as 30 below.

Roads and Trails. The State Highway Maintenance man, Ab Sanders graded the entrance road on the 29th of November. Ben Orem has been stockpiling gravel to be packed up on the ruins trail at a later date. Some work has been put on brushing out the sides of the road and trail. A guard rail to be placed at the bridge is in the process of erection. All approach roads and the entrance roads are in poor shape due to the recent spell of weather.

Travel. 1153 visitors this month as compared with 1109 a year ago. The bad weather slowed travel some but there is a definite increase trend in travel.

Museum. During the worst of the weather (Dec. 9- 11) the museum cases were opened up and repainted. White and pale green were the basic colors used. The exhibits were rearranged in a more logical and (we hope) a more presentable manner. A few cases are short on labels and these will be completed later.

Publicity. The December issue of Arizona Highways carried a full page picture of the Lower Ruin and a nice compliment to the NPS in general.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Visitors.

Dec. 7 Mr. and Mrs. Stanley Vivian, parents of Gordon Vivian, Archaeologist.
Dec. 8 John Davis, Assistant Regional Director.
Dec. 9 Weldon Heald, writer and photographer, and Frank Learest.
Dec. 11 A party of 50 Shell Oil Co. technicians from all over the world
Dec. 20 Profs. Kenneth Stewart and A.D. McVay of Arizona State College, Tempe; Don Jewell, former temporary ranger at Montezuma Castle; and Supt. Max Wainwright of Lehman Caves Natl. Mon.

Personnel. Samuel A. Orem entered on duty as temporary ranger Dec. 14. Supt. and Mrs. Sharp left on annual leave Dec. 12. Supt. Sharps mother was taken ill at the family home in Nebraska, necessitating the trip. The Sharps plan to return the 27th.

Special Activities. Supt and Mrs. Sharp accompanied Forest Ranger Pomeroy of Roosevelt on a trek up into the Superstition Wilderness Area Dec. 2 and 3. The object of the trip was to look into some cliff dwellings known to be in the area. Only some of the ruins were found but a return trip is planned.

General. Orem moved the mail this Subs to a new locale. Tonto now has a two way radio, brought to us by John Davis, only trouble is, our radio knowledge is limited, so until we get someone out here to install it for us our sweet voices will not waft out on the airwaves.

** Seasons Greetings ****

Lloyd N Pierson
Acting Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Tumacacori National Monument
Tumacacori, Arizona

December 28, 1949.

Memorandum

To: Regional Director

From: Superintendent

Subject: Superintendent's Monthly Narrative Report for December, 1949

Weather Conditions: Temperature ranged from a maximum of 88 on November 25 through a minimum of 14 on December 21. Precipitation for the month was higher than usual for this time of the year, with 1.68". On December 20th we had heavy snowfall during the afternoon, which measured 2.7" inches deep at 6:00 p.m.

Increase in Travel: Visitors totalled 2,301, arriving in 670 motor vehicles. This visitor total breaks the previous December record high of 2,245 in 1947, and constitutes the eighth straight record breaking month of the year.

Interpretive Service: 835 persons went on 146 guided trips through the mission church and grounds, receiving an average of 38.6 minutes per trip. 2,066 persons received combined Information and Interpretation service, and 2,158 saw the museum and patio garden.

In addition, the superintendent delivered a lecture at the University of Arizona on December 16 to a history class. This was a 50 minute talk, attended by 65 people. The subject was history of Tumacacori through the close of the Mission period.

Visitors: 11 - 28 - "Pop" and Mrs. Frost, of Saguaro National Monument.

12 - 3 - A Florence, Arizona, Union High School bus with 22 high school football players.

12 - 15 - Professor and Mrs. Jose Corona. He is Director of the Regional Museum of Nayarit and Colima, Tepic, Mexico.

12 - 24 - Superintendent and Mrs. Max Wainright, of Lehman Caves National Monument.

Inspections: On December 5 Assistant Regional Director John Davis, in Tucson on other business, dropped down and spent three hours with us.

Publicity: On December 19 photographers for the Jam Handy Organization, Inc., of Hollywood, were in taking movie shots for proposed inclusion in an educational film "Along the Santa Cruz Trail," to be part

of the "Roads to Romance Series".

Museum and Education: New text was installed in the museum case which houses the "morteritos", described in last month's report. One very unsatisfactory and makeshift exhibit on the capture of Hawikuh by Coronado's expedition, was removed.

Archaeologist Steen consulted with us on needed changes and improvements in the museum exhibits, with result that a preliminary outline of what the museum should have to make it as functional as was originally intended, was drawn up. Mr. Steen will confer further with members of your staff on these recommendations.

Corrugated paper storage boxes for our study collection were partially assembled and the long task of correctly labelling all artifact material and getting it in the boxes was begun.

Maintenance: Routine maintenance was kept current, and headway was made on our backlog of maintenance needs which had awaited arrival of a maintenance man. Some additional planting was done in the patio garden in anticipation of late winter, and four young trees were planted adjacent to trails. Sandex painting on the west of the museum and rest rooms was finished. A stoppage in the waste pipe leading from our shop sink to the sewer line required a lot of work to cope with, but is now satisfactory. A large compost pit, just north of our "warehouse" was dug, and is in process of being gradually filled with dead weeds and leaves. A water heater in the northwest corner of the garage was reinstalled, and most of the cement and adobe wall to separate that corner from the rest of the garage, has been finished. The gas range in Residence No. 1 developed a leak, and had to be entirely taken apart and cleaned and re-assembled. A thorough cleanup was done in the shop, and some shelving altered to make for better storage. Pruning is being done on our huge Tamarisk trees south of the mission church. Their tops are dead, partly from winter kill and from work of the Red-naped Sapsucker, and all the dead parts are being taken out.

The annual equipment inventory was performed, submitted to your office, and approved.

Mission Stabilization: Archaeologist Charlie R. Steen completed the cleaning and vinyl-acetate spraying of remaining plaster surfaces on the interior of the sanctuary, nave, and baptistry of the church. He stated the sooted and begrimed interior of the sacristy would be a practical impossibility to clean. His laborer, Ramon S. Orozco, spent about four days in exterior patch-plastering on weathered holes in the walls of the church and mortuary chapel.

Directly south of the westernmost of the two "roservoirs" which front the mission church, Mr. Steen had a trench dug. A few inches below present ground surface of a low mound he found a considerable area of very poorly consolidated lime and gravel, and two low piles of fired-brick

dust. It is his opinion this may be where the mission builders were mixing their lime mortar, and where they had a stock pile of fired bricks. He is reporting in greater detail on this separately, at later date.

Personnel: Archaeologist Steen left Tumacacori for Santa Fe on December 17. Laborer Ramon Orozco was terminated from his employment on December 16. Maintenanceman Fred M. Jenness has received a second temporary appointment pending clarification of his civil service status.

William C. Bullard, Jr. entered on duty as winter seasonal park ranger on December 1, and he and his wife, Joan, are living in their trailer house back of the residence area.

Ranger Sallie Brewer spent five days during the month on annual leave.

Research: Former W.A.E. Guide Alfred F. Whiting recently obtained in Hermosillo the loan of an original manuscript which covers a census made at Tumacacori in 1796. He copied the manuscript, and gave us a copy. He is in process of getting a professor of Spanish at the University of Arizona to translate the paper for us. There will be more about this paper at a later date. It appears to us to be a highly valuable addition to our records, and we are very grateful to Mr. Whiting for his cooperation.

Cooperating Agencies: In compliance with a request made by us last month, the State Highway Department has placed signs on the highway to the north and south of the monument area, reading "Slow, Park Entrance." It is hoped these signs will cut down some of the hazardous speeding which has occurred past this area.

General: The annual Christmas Eve party, held on the mission grounds by the community to provide Christmas stockings and a sure-nuff Santa Claus for the younger children, was again a success.

State Senator Hubert Merryweather, chairman of Greater Arizona, Inc., which holds several economic clinics in the state each year, has appointed Superintendent Jackson, and Dr. H. C. Bryant, of Grand Canyon National Park, to the Scenic and Historic Markers committee of this group.

The monument seems to be humming along nicely, and we are all as busy as can be, and expecting to be even busier.

Happy New Year!

Earl Jackson
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA

DECEMBER 26, 1949

Memorandum

To: Regional Director, Region Three

From: Acting Superintendent, Tuzigoot National Monument

Subject: Monthly Narrative Report for December 1949

Travel Data and Trends: Travel for the month totaled 679 compared with 603 for the corresponding period last year, thus showing a slight increase of 76 in visitor count. On Dec. 10, rather heavy snows blanketed the higher elevations (above 4500 ft.), while the valleys received light flurries. During the latter part of the month, motorists to the northern and north-eastern portions of the state were cautioned to include tire chains with their equipment because roads in some sections were icy and dangerous. This warning, sounded by the Arizona Highway Patrol, put a damper on many would-be tourists, especially those from the Phoenix-Tucson area.

Weather: The following temperature readings were recorded by, and compiled from the Cottonwood High School Weather Bureau, an official reporting station: maximum - 74°, on Dec. 1; minimum - 17°, Dec. 12. Total precipitation: .46 inches.

Guide and Contact Service: Despite the decrease in travel from last month, demands for contact work showed that an average of 20 minutes was spent with 246 parties comprising 719 people in the museum, and 21 minutes with 240 parties of 702 people on tours of the ruins.

Personnel Time: Museum: 86 hours, 50 minutes. Ruins: 84 hours. Total contact time for Superintendent Bright: 86 hours; for Archeologist Richert, 84 hours, 50 minutes.

Maintenance: Owing to the sharp but anticipated seasonal decrease in visitor travel, we were able to complete the installation of new wire screens on windows of the museum. Simultaneously with the removal of screens, new putty was placed along window sashes where old putty had cracked and sloughed due to weathering.

Another project - painting the museum floor - is highly necessary and desirable at this time, but will not be started until we are certain that the expense can be met with our current allotment.

Roads and Trails: Twice during the month the county grader operator bladed

RECEIVED JAN 3 1950 REGIONAL OFFICE NATIONAL PARK SERVICE

TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA

Monthly Narrative Report for December 1949 (cont. from Page 1.)

the two-mile county road from Clarkdale as well as the short entrance road and parking area within the monument. We spent two days burning weeds along the approach road - dense masses of Russian Thistle which were piled up at intervals by the grader along the shoulders and right-of-way.

Publications: A shipment of 10,000 twefold leaflets on Tuzigoot were received during the month from the Government Printing Office through the Information Division. They came at a fortunate time as our supply was nearly exhausted.

Special Visitors: On November 29, Mr. L. R. Jurwitz, US Weather Bureau, Phoenix, Ariz., was an interested and interesting visitor.

On December 1, Mr. John Davis paid us an enjoyable courtesy call while enroute to Prescott for a meeting with officials of the Arizona Power Co. concerning proposed installation of a power line at Walnut Canyon.

On December 16 and 22 respectively, we welcomed inter monument visits by the John Cooks of Montezuma Castle and the Al Schroeders of Montezuma Well.

Personnel: Superintendent Bright is taking some "use-it-or-lose-it" annual leave (to borrow an apt phrase from the Nat Dodge's unique Christmas Letter), most of which he and Mrs. Bright will probably spend in this vicinity with perhaps a few short excursions in the state.

Season's Greetings: The personnel at Tuzigoot join in extending their best wishes to all for a very happy and successful New Year.

Roland Richert

Roland Richert,
Acting Superintendent.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Walnut Canyon National Monument
Flagstaff, Arizona

December 26, 1949

Memorandum

To: Regional Director, Region Three

From: Superintendent, Walnut Canyon

Subject: Monthly Narrative Report, December, 1949

Visitors this month, 376; travel year to date, 2974

Weather Through the end of November and early December fine weather was enjoyed. Heavy storms on December 10 and 20 brought snow which still lies to a depth of about eight inches on fields and woodlands but the highways are free of snow. The minimum temperature was reported at 12 degrees below zero. This winter weather brought its chores of snow shoveling, starting balky motors, etc. Roads except part of our utility loop have been kept open by the County snow plow.

Administration Superintendent Hastings was on annual leave beginning December 4 and Acting Superintendent Leding spent most of his time on routine duties and matters pertaining to the installation of commercial power or in keeping our power plants operating. Plans have now been approved and a purchase order written to cover construction of about three-fourths mile of spur line into this monument. To supply Walnut Canyon and other customers the power company has to under-build eight miles of line on the poles carrying the high voltage line from Flagstaff to Winslow. The accumulated snow makes extension of the line difficult and any more snow will probably suspend the project until spring.

Assistant Regional Director Davis arrived on November 29 and on November 30 met with power company officials to discuss installation problems.

Ranger Leding spent several hours with radio technician Cobb in re-tuning our radio from a vertical to a horizontal antenna in the hope that we can communicate with Hopatki when their set is operating again.

Further contact was made with permittees on the Walnut Canyon water line regarding renewal of their permits for 1950.

Personnel Ranger Leding left with his family of December 22 to spend Christmas at the home of his parents in Las Cruces, New Mexico.

Received DEC 29 1949 NATIONAL PARK SERVICE

On December 9, Joanne, daughter of Supt. and Mrs. Hastings surprised her parents by marrying James C. Foster, Jr. of Flagstaff and Shreveport, Louisiana.

Use Of Monument Facilities by The Public There were 376 visitors who came in 140 cars. This is a drop of 233 visitors from the number counted last December which was reported as clear, dry, and cold until December 23. Contacts were made with 288 visitors in 102 parties. The museum remained closed most of the month but it was seen by 87 visitors in 28 groups. It is estimated that 188 visitors made the trip to the ruins before December 10. Since that time snow and ice on the trail has discouraged all but a very few from taking the trip.

There were 4 picnic parties including 21 visitors.

National Park Service Visitors Ranger and Mrs. Richert and Mr. Richert's parents were visitors on November 28.

Joe and Mrs. Bean from Wupatki were here on December 4.

Supt. and Mrs. Bright spent Christmas with the Hastings family.

Electric Light Plants Our two 3 KVH Onan light plants have claimed more than their share of attention this month. Needed reconditioning of both units has been deferred in anticipation of our getting commercial power. This month it was necessary to install new brushes in our No. 1 plant and now the No. 2 plant can be started only by drawing power from the No. 1 plant to operate a Rube Goldberg starting device using our portable electric grinder. On December 12 neither plant would start but this difficulty was overcome the next day. We make no attempt to start the plants in the morning, but instead we rely on kerosene or gasoline lights or candles.

Roads and Trails From November 28 through December 8 two laborers were hired for roads and trails work. Coarse rocks etc. were removed from our entrance road, parking area, and utility road and weeds were removed from along the visitor trail. The coarse material was dumped in low spots on the picnic area service road and the road to the trash dump.

Homer F. Hastings
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
White Sands

Box 231, Alamogordo, New Mexico

December 21, 1949

Memorandum

To: The Regional Director, Region Three

From: The Superintendent, White Sands

Subject: Superintendent's Monthly Narrative, Report No. 1m1

DECEMBER TRAVEL, 1949	TRAVEL YEAR TO DATE
Visitors, 6,001 Cars, 1,566	Visitors, 27,671 Cars, 6,247

GENERAL

December, with its 6,001 visitors, in 1,566 cars, is again a record December in our history. Our weather has been reasonably mild, with only a couple of snow falls in the mountains, which had much effect on our travel. At this writing, a storm is in progress in the mountain areas, which will likely cause an increased drop in our travel.

Both good and bad luck visited us this month. Bad, in that we, apparently, are losing one of our rangers, some serious trouble with our Motor Grader, and minor troubles with our generating Plant. Good luck, in that December finds us with a Maintenance Man for the buildings. This eliminates a need of long standing, and he shall be put to good use.

One official trip was made to El Paso in connection with the delivery of our Grader for repairs.

WEATHER

On the whole, clear and cold. Two nights, with the temperature 7° above zero, cut down on our fuel supply, and one wonders what happened to all the heat of last July and August. No snow to speak of at the Monument, although Alamogordo has had a couple of storms in which snow covered the ground. Freezing weather is bringing much moisture to the surface and our roads in the sands are often slushy.

INSPECTIONS

John Davis and Natt Dodge were in from the Regional Office and spent a little time with us. We hope several matters were straightened out and, of course, we are always glad to have any of our officials stop by the White Sands. No monument inspections were made, other than routine trips into the picnic and loop drive areas.

PLANS, MAPS, & SURVEYS

Several days have been spent in going over old maps, checking over old plans, etc., in an attempt to get them into a more efficient form for ready accessibility.

PUBLICITY

Joseph and Joyce Muench were in for pictures, as was Mr. Lollesgards of Tucson, Arizona. All these persons represent potential publicity of the best type.

COMPLAINTS

None on either our Service or the Concession.

MAINTENANCE

Already, with our new Maintenanceman on the job but three days, we have several month's work outlined for him. One of the first jobs will be an effort to repair some of our most dilapidated walls in an attempt to stem off complete disintegration until funds are available for more thorough restoration.

We had a clogged drain cause us considerable trouble with our Auto Patrol. Just to what extent we don't know, as yet, but it is a major damage at least.

APPROACHES TO MONUMENT

On two separate occasions, both the east and west approaches on U.S. 70 were blocked for a few hours with snow and ice. Even these blockades of short duration take their toll on visitor traffic.

PUBLIC SERVICE

The White Sands Service Co. reports their sales far below last December, in spite of over 1,200 gain in visitation. It just seems that people are not spending the money they did a year ago. Our Southwestern Monuments Association sales seem to be doing a little better, but this is probably due to a Christmas Card which we did not carry last year. A couple of stormy Sundays cut into these sales, too.

IMPORTANT VISITORS

Both John Davis and Natt Dodge paid us an official visit recently. "Slim" Retcliff was in with his mother and father for a few minutes, seeing the sights. I missed "Slim", for which I am sorry. Joyce and Joseph Muench of California were in with a Beverly Liggett, whose father, I understand, is a good friend of Director Drury. Mr. C.W. Botkin of the New Mexico A. & M. was in with Mr. J. M. Webber of the Department of Agriculture on a study of our yuccas. Dr. Webber states that the White Sands yucca possesses characteristics not found in any other yucca he has yet encountered, and he is very interested in making further studies.

Frank had a brother and wife, sister and brother drop in for a visit. A beautiful girl named Toni was also in the group. We may hear more of Toni at a later date.

ACCIDENTS

Ranger Chittum has a light infection from a skinned finger, which required a physician's attention some time after the accident.

VITAL STATISTICS

Joe and Ima Sheppard are the proud grandparents of a baby boy born to their daughter Frances a couple of weeks ago. Joe is practicing walking the floor at night in anticipation of a visit by said granddaughter in the near future.

PERSONNEL

I went to introduce to the Service Mr. and Mrs. S. Bill Hensloe. Bill is our new Building Maintenanceman. Millie runs a dress shop in Alamogordo. Bill and Millie have just completed a new home in Alamogordo, so Bill came to us with a lot of fresh building experience. We welcome the Hensloe's to our little circle and to the Service.

1949 — 1950

The year 1949 has been one of our very best. 1950 promises to be even better. We look back on 1949 with a great deal of pride, and look forward to 1950 with considerable optimism.

Johnwill Faris,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

December 26, 1949

Memorandum

To: Regional Director, Region Three

From: Acting Superintendent, Wupatki

Subject: Monthly Narrative Report, Wupatki National Monument, December 1949

Weather: After last month's wonderfully mild weather the prolonged cold spell this month has been a bit disagreeable. A maximum of 63° was recorded on December 1 and a minimum of 4° on December 12. A total of .45 inches of precipitation fell in the form of rain, snow, hail and sleet.

Activities of Outside Agencies: Babbitts began drilling for water this month on Antelope Mesa, in the SW quarter of Section 31, T26N, R10E, just north of the monument boundary; the southern boundary of Section 31 is on the northern boundary of the monument. So far drillers are down 184 feet in solid Kaibab limestone after drilling approximately three weeks.

The Fish and Wildlife Service of the Department of Interior has just completed the placing of coyote poision in every township in Coconino County. Unfortunately this means that the poison meat has been placed on Forest Service lands adjacent to our boundaries which includes portions of our approach roads both from Highway 89 and Sunset Crater. One deposit of this meat was placed within 10 yards of our boundary just west of Wupatki Ruin. Every effort is being made to caution visitors against letting pets out of cars along this road.

Grazing: The C O Bar Cattle Company opened their tanks on North Mesa and at Deep Well during the early part of December and a large number of cattle are now grazing in those areas. A count will be made by the Acting Superintendent sometime during the next week.

Ruin Stabilization: Work on Nalakihu Ruin by Laborer Viklund has been at a minimum this month due to freezing weather.

Trespass: On December 14th nine head of trespass cattle owned by Joe Kellam were found near Heiser Spring. Later that day Mr. Kellam removed these cattle and said that he would make every effort to hold this trespass to a minimum this year.

Since the opening of the rabbit hunting season early this month at least a dozen parties of hunters have been warned and asked to leave the monument by the Acting Superintendent. Temporary cloth signs have been posted in more conspicuous locations on our boundaries.

Roads: All approach roads are in fairly good condition although very dusty. The rain and snow did not alleviate this condition. Maintenanceman Bean has spent the major portion of his time hauling and blading when weather permitted. There will be no travel between Wupatki and Sunset Crater on that road due to snow in the higher elevations.

NPS Visitors: Assistant Regional Director Davis on November 30th.

NPS Personnel: Superintendent Soren took annual leave beginning December 3rd and is expected back shortly after the first of the year.

Publications: Proof of the Wupatki two-fold informational leaflet was received from the Washington Office. We hope that the new supply will be forthcoming shortly as our present supply is quite low.

Interpretive Service: A total of 87 visitors in 28 parties were conducted through Wupatki Ruin. Average trip time was 26 minutes.

Travel: 120 visitors registered at Wupatki Ruin and 49 at the Citadel for a total of 169. This is a slight increase over December 1948 when 154 persons visited the monument. Last month there were 295 visitors.

Spring Flow: Both Wupatki and Heiser Springs show increases this month. Wupatki Spring is flowing 839 g. p. d. compared with 691 last month. Heiser Spring is flowing 5762 g. p. d. compared with 4500 last month.

Maintenance and Equipment: A great deal of time was spent on maintenance work this month. All vehicles were greased and as usual a multitude of minor repairs made to them.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Region Three
Santa Fe, New Mexico

January 9, 1950

Memorandum

To: Regional Director, Region Three

From: Naturalist

Subject: Narrative report for interpretive work in the Southwestern National Monuments for December 1949.

Naturalist Dale S. King spent the month in Santa Fe. Archeologist Charlie M. Steen worked at Tumacacori until December 17, when he returned to Santa Fe.

Interpretive Administration

Regional Archeologist Erik K. Reed revised the dummy for the Montezuma Castle sales booklet and forwarded it to the Director.

Naturalist King issued annual reminders to the field to prepare biographical and chronicle cards for their fact files. He obtained an old issue of the National Geographic magazine for the historical files of Navajo. He prepared for the Director a popular summary of development outlined for Organ Pipe Cactus and prepared a draft stating the needs for interpretation in the Southwestern National Monuments.

Planning - Other Than Museum

Publication costs were revised on PCP forms for archeological work at Tonto. Sometime was spent on statements of significance submitted by Saguaro, Aztec Ruins and Bandelier.

Progress of Exhibit Plans and Projects

A motor with gear reduction was transferred from Tumacacori to White Sands for the blowing sands exhibit. An excellent revised label was received from Tumacacori for the mining exhibit and it was suggested that the superintendent prepare PCP's to complete and revise all exhibits there.

Saguaro submitted an excellent Cactus Forest Trail leaflet which was mimeographed by the Tucson Chamber of Commerce. Metal trail labels were prepared by Yosemite for Tonto.

Naturalist King and Superintendent Bowen discussed and made arrangements for two and perhaps three self guiding trails at Sunset Crater and Wupatki. Any expenses will have to be born by the Naturalist .103 account because Wupatki has insufficient funds.

Accessions Other Than Library.

A stock of Duco cement was received and is available for distribution to the field.

Additional letters were written in the attempt to obtain alcohol for preservation of specimens in the field.

Research and Observations

Several hundred Leica negatives were received from Archeologist David DeHarport recording sites found in his survey of Canyon de Chelly. Enlargements will be made to file at Canyon de Chelly and here.

Cooperative Activities

A letter was written to Chaco Canyon asking for a restoration drawing of Pueblo Bonito to be used by Devereaux Butcher of the National Parks Association in the forthcoming book on archeological and historical areas.

Loan Library

Accessions total 98, including 11 books, 20 pamphlets and 69 periodicals. In addition, 15 volumes of Condor were kindly donated by Miss Mildred Kellogg of Berkley, Calif., through Superintendent Harold Bryant of Grand Canyon. Also the Southwestern Monuments Association donated copies of the Museums Journal published in England for the years 1943 - 1945. This came about in an interesting way. Lady Ingram of Driffield Manor, Cirencester, England, wished to order $16.00 worth of Association publications but money cannot be sent out of England. The Association suggested that she buy $16.00 worth of Museums Journals to continue our subscription which was interrupted by the war and we would send her the desired books. The transaction was completed and both Lady Ingram and the library were benefited.

Several letters were written to obtain maps and books for the loan library and for field branches.

One letter was written to a person who intends to donate a set of National Geographics from 1914 to the present year.

Five copies of Prehistoric Southwesterners from Basket Maker to Pueblo by Charles Amsden were purchased from naturalist .10B funds for Canyon de Chelly, Aztec Ruins, Chaco Canyon, Navajo and Walnut Canyon.

Important books received were:

Woody Plant Seed Manual - Prepared by the Forest Service, U. S. Dept. of Agriculture.

Prehistoric Southwesterners from Basketmaker to Pueblo - Amsden, Charles Avery

Coronado: Knight of Pueblos and Plains - Bolton, Herbert Eugene

Report to The Congress - Hoover, Herbert

Nalekihu - King, Dale S.

Artillery Through the Ages - Manucy, Albert

Coyote Mus[illegible] - McAllester, David P.

Studies on Bats and Bat Parasites - Ryberg, Olaf

Pfefferkorn's Description of Sonora - Treutlein, Theodore E.

Southwestern Monuments Association

The page proof was received on December 8 for the third edition of "Poisonous Dwellers of the Desert." The finished copies were delivered on December 27. The edition is considerably improved in its illustrations and the printer did an excellent and rapid job.

Eight large Kodachromes of Bandelier were sent to the author for use in a proposed article.

A proposed series of booklets by Wolfgang Van Hagen were discussed in correspondance with Chief of Information Evison.

A letter was written by request of the Eastern National Parks and Monuments Association describing our method of selling color slides by mail.

The proof on our next catalog was received from the printer on December 3. This will be mailed in January.

Executive Secretary King prepared the annual report in readiness for final mimeographing.

During the month of December the usual two deposits and one disbursement were made by treasurer Vedder. The number of covers mailed was 166, including 35 letters and 36 purchase orders.

For the first time the association had a book display at headquarters. A selection was made as there was not enough room to show all the books, and they were exhibited from Dec. 7th to Dec. 23rd, in Dr. Nusbaum's entrance room. A total of $105.88 was sold. We hope to do this once a year, so that the employees at Region III Office will know what books we have available.

Some time was spent on finishing up certain reports for our annual fiscal year-end report for June 30th. This should be completed during January when we shall have a meeting of directors. Additional time was spent on posting in journals; posting quarterly turn-ins; making trips to town for deposits, supplies, and mail proof; putting our storeroom for books in order as it had to be rearranged due to the large number of new books we have added to our list; bring books up stairs for the show and returning them; and sending out follow-ups on unpaid invoices.

Ruins Stabilization

Steen finished the job of cleaning wall plaster and murals at Tumacacori Mission.

King furnished wall profiles of Kuiskihu to the Superintendent of Rupatki.

Projects for January

King will be in the office working on the Association annual report and mailing and regular naturalist routine. Steen will be in the office except for 3 days during which he will pick up archeological materials at Canyon de Chelly, take them to the Museum of Northern Arizona for identification, then meet architect Saunders and go with him to Casa Grande and Tumacacori. At Casa Grande they will help issue specifications for the painting of the shelter. At Tumacacori they will make measurements and plans for a method of cleaning window openings in the large mission.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical Aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

GUIDED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTAL INTERPRETIVE SERVICES: The total interpretive services furnished visitors within the area is provided for in the lower right-hand corner of the form. Total attendance shows the actual number of visitors who took advantage of the various interpretive services furnished. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

DISTRIBUTION: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Distribute in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a1) and 9 (Report 9a1).

NAME Edna M. Townsend
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKERS AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

NAME
TITLE

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE MEDIA, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR SERVICES BY SERVICE PERSONNEL OUTSIDE THE AREA.

RECEIVED
JUL 29 1949
NATIONAL PARK SERVICE
FIELD TRIPS OFFICE

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS GIVEN, AND THE HOURS OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLACE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE ENCLOSED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PREPARED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REVISED MAY 1949.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

RECEIVED
DEC 30 1948
NATIONAL PARK SERVICE
REGION THREE OFFICE

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (library, contact station, exhibit rooms, study collections, etc.); count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

NAME
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, BUS, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE SERVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE WILL RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. COPIES OF REPORT TO BE RETAINED IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

NAME Irving McNeil, Jr.

TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

NAME
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, RR; OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS, INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PREPARED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

RECEIVED DEC 30 1949 NATIONAL PARK SERVICE REGIONAL THREE OFFICE

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS GIVEN, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).
