Attended Interpretive Stations: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended Interpretive Stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, motel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: from all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the Superintendent or Custodian of the area in which the report originates. Coordinating Superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the ... the month following that covered by the report.

~~Custodian on sick leave for one week. Regular personnel engaged in road work for one week.~~

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT SENT: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a1).

NATIONAL PARK SERVICE
Region Three
Santa Fe, New Mexico

October 6, 1948.

MEMORANDUM for the Regional Director, Region Three.

Following is the narrative report for the Naturalists of the Southwestern National Monuments for September 1948.

Staff Activities, General

Naturalist Dale S. King completed the temporary museum installations at Walnut Canyon National Monument Sunday, September 5, and returned to duty at Santa Fe, September 7, remaining in the office the rest of the month except for a one-day trip to Bandelier.

Archaeologist Charlie R. Steen made two one-day trips to Albuquerque, spent most of the month in the office, but left on September 30 for a ten-day swing through Chaco Canyon, Gila Cliff Dwellings, Tumacacori, Saguaro, Casa Grande, Tonto, and Walnut Canyon.

Interpretive Administration

Steen spent considerable time cleaning up and re-arranging ruins stabilization and Southwestern Monuments Association storage space.

Public Relations and Extension Services

Photographs of textiles from Montezuma Castle were furnished to a student upon request.

Progress of Exhibit Plans and Projects

Twelve museum cases at Walnut Canyon were rehabilitated and placed in readiness for the installation of temporary exhibits, which were finished September 5. See the monthly report of the Custodian for details.

After returning to Santa Fe, King corresponded with various persons concerning plans for breather tubes for the cases, arrangements for obtaining Zuni Indian artifacts on loan for display, initiating arrangements for transfer of specimens from the National Museum to Walnut Canyon, and obtaining approval of the Director for loan material from artists Jay Datus and Ralph Peter, etc. Seventeen photographs of Walnut Canyon were obtained from Photographer Stan Davis of Lollesgard Specialty Company, enlarged, mounted, and shipped to Walnut Canyon to complete two displays there.

A large aerial map of Montezuma Well was received, and will be mounted early next month for display at the exhibits which Archeologist Schroeder is preparing there.

Some time was spent consulting with Museum Curator Macy to arrange a priority for museum planning projects during the rest of the fiscal year.

Accessions (Other than Library)

Steen obtained from surplus three Multiplex display units, which were assigned to Gran Quivira, Great Sand Dunes, and Wupatki.

Research and Observations

Archeologist David de Harport of Harvard University visited the office and reported the discovery and mapping of 140 prehistoric sites at Canyon de Chelly during the summer. They arranged in time from Basket Maker II through Pueblo III.

Loan Library

Steen kept cataloging work current, and reports the accessioning of 77 items, including nine books, 37 pamphlets, and 31 periodicals.

More important books received are:

Jennings, Jesse D. -- "Plainsmen of the Past"
Department of the Interior, National Park Service,
Region Two, Omaha, Nebraska. 79 pp. mimeographed.

de Mello-Leitao, C. - "Escorpios Sul-Americanos"
Vol. XL, Arquivos do Museu Nacional, Rio de Janeiro, 1945.

Mills, Harlow B. -- "Bugs, Birds, and Blizzards in Yellowstone"
Collegiate Press, Inc., Ames, Iowa, 1957.

Schmidt, Martin F. (Editor) -- "General George Crook, His Autobiography"
University of Oklahoma Press, Norman, Oklahoma, 1946.

Southwestern Monuments Association

Headquarters' sales publications were re-arranged, and a new counter installed in the mail sales-room.

A corrected copy and seven new illustrations for "Poisonous Dwellers of the Desert" were mailed September 27 to the printer for a second printing

of 10,000 copies. The first edition of 10,000 copies has been almost completely exhausted in about ten months.

During the month of September, Treasurer Vedder worked 21 days. Two deposits and one disbursement were made. Covers mailed were 190, including 38 letters and 34 purchase orders. This does not include 583 envelopes sent out on our mailing list, which brings the total to 13,436.

Considerable time was spent on cleaning up the room which is now to be used for the mailing, and the store-room downstairs. The Treasurer is now attempting to keep the books (journals and ledgers) up-to-date, and thus all spare moments are being spent on posting. Also, the last few days of the month were spent on the turn-ins from the Monuments and posting in the warehouse cards. Some time was spent on such items as figuring withholding taxes, social security taxes, arranging kodachromes in sets, working on the annual report, preparing envelopes for our mail list, and sending out check-ups on unpaid invoices.

Ruins Stabilization

Steen kept stabilization photographs and records current, mailed memoranda to the field notifying Custodians of allotments for the year, and obtained 60 tarpaulins in Albuquerque. The latter are used to cover fresh mortar and concrete work during inclement weather.

The stabilization of Chettro Kettle at Chaco Canyon was almost complete at the end of the month.

Projects for October

King will spend most of the month in the office on routine matters, with the possible exception of a field trip with Messrs. Lee, Reed, and Evison through the Flagstaff monuments and Canyon de Chelly, beginning on October 9. He will meet Naturalist Doerr in Albuquerque on October 8 for a half-day of discussion.

Steen will return about the 10th, but will leave almost immediately for Gran Quivira to get a sizable ruins stabilization project under way there.

Dale S. King,
Naturalist.

APPROVED FOR DISTRIBUTION

HARVEY H. CORNELL

Acting Regional Director.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Arches
.....NATIONAL MONUMENT
Moab, Utah

September 26, 48
..... 19.....

MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Arches National Monument for the month of September, 1948:

GENERAL: The travel year of 1948 proved to be a banner year for Arches National Monument with 8,520 visitors as compared with 4,702 visitors for the year of 1947. We had representation from 41 states, Alaska, Canada, England, Sweden, China , France, Italy and Norway.

WEATHER: Extremely hot weather was experienced night and day during the first part of the month. A gentle rain occured on September 15th which improved conditions causing much cooler nights even though the days continued extremely warm. At this writing our fall winds have begun and it looks like cooler weather is just around the corner.

TRAVEL: Our travel for the month was excellent with 577 cars and 1404 people. This is the third highest travel month on record for this monument. We ha d representation from 29 states, Canada and Norway.

INTERPRETIVE SERVICES: The interpretive services continued heavy with 241 parties containing 760 people being contacted in the various sections of the monument and 67 parties of 174 people were contacted at headquarters. Guided trips were taken with 5 parties of 28 people over the trails of the area. Ranger Worthington spent the entire month in the monument area on interpretive work, with the custodian furnishing relief while the ranger was off duty.

INSPECTIONS: An inspection was made at Natural Bridges National Monument on September 12th and 13th to check on monument boundaries, etc.

ROADS: Maintenanceman Winbourn spent the entire month hauling shale, etc to bad spots on the roads in the monument. These roads are now in fair shape but the approach road is in very poor condition due to the fact that the State is short of both personnel and equipment to perform the necessary maintenance on this road.

ACCIDENTS: Mr. Oras Krumbolts, professor at the Arizona State College,

Tempe, Arizona fell while climbing to the top of Wall Arch in the Devil's Garden section on September 1st. The accident occured at 9:30 a. m. and we did not get him to the hospital at Moab, Utah until 4:15 p. m. Mr. Krumboltz weighed 200 pounds and it was necessary to carry him 1½ miles on a stretcher. He suffered a fractured pelvic bone and multiple bruises and abrasions. He fell about 30 feet to the slick-rock below the arch and was very lucky in not receiving more serious injuries. He was removed to Phoenix, Arizona on September and I have had no report on his condition since that time.

NATIONAL PARK SERVICE VISITORS: Superintendent Rose and family from Mesa Verde National Park stopped by on two occasions during the month.

Naturalist Phillip Van Cleave of Mesa Verde National Park was a visitor on September 8th, as was Chief Clerk Arthur Gilmore from Lake Texoma Recreational Area.

Museum Curator William Macy from Region Three office visited the area from September 17th to 21st, in company with Mrs. Macy. They visited the various sections of the monument and various phases of the interpretive portion of the master plan were discussed.

(In trip.)

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

24 Sept 1948

MEMORANDUM for the Regional Director,
Region Three, National Park Service. Report 1ml

There follows the report of activities in Aztec Ruins for September 1948.

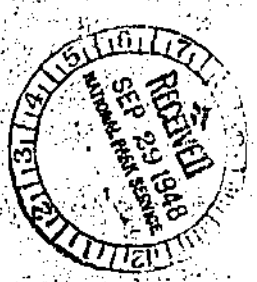
WEATHER. Quite fine weather has prevailed with only portions of a few days that may have marred perfect traveling days. Visitors have increased in number by 3% this month over Sept 1947 and for the travel year some 7%.

MAINTENANCE. Checking for leaks and the making of repairs has been started on the roofs of the ruins and the museum building. Reroofing of the great kiva and the museum building will be necessary before many more months go by. With the slack in travel we are now able to begin our wood clearing program from the ruins structures.

NEW CONSTRUCTION. Work started on the Aztec residence. Foundations have been laid and the cement block walls are taking shape. One week's work has been completed.

DONATIONS AND ACCESSIONS. Thanks to the Regional Office, this area has received an additional 16mm film for use in our public contact work outside the area.

INTERPRETIVE SERVICE. There were1627 visitors conducted in 229 tours thru the ruins, and 2075 visitors in 319 parties shown the museum.



INCREASE IN TRAVEL. Visitation to the area for the month has increased slightly more than 3% with 2075 people from 41 states and Wash. DC., and several foreign countries. They arrived in 654 automobiles. For the travel year there have been 14,378 visitors in 4373 cars, which is an increase a little greater than 7% for the 1947 travel year.

VISITORS. Architects Lovelady and Saunders were in regarding the construction of the new residence. Mr. and Mrs. Macy from the Regional Office visited the 23rd.

Ranger Service. Thomas B. Onstott, Park Ranger, transferred from Bandelier and entered on duty this area 8 Sept.

ACTIVITIES FOR OCTOBER. Complete cleaning of drains and roof repair ih the ruins and museum, complete wood removal in and about the ruins, and clean and repair tools.

Irving D. Townsend,
Custodian.

AZTEC

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO
September 30, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of the activities at Bandelier National Monument for the month of September, 1948.

WEATHER

The weather during September has been nearly ideal for visitors, with temperatures averaging in the 80's during the day and in the 40's at night. The highest temperature was 103 on the 2nd., but cool weather followed immediately afterward. Rain fell on only two days during the month and amounted to .75 inches.

INSPECTIONS

Assistant Regional Director Davis spent the 16th and 17th making a general inspection of the area and discussing administrative problems with the Custodian.

Archeologist Reed and Naturalist King inspected the test pit and trenching that was done by the Adams State Field School in a large ruin near the monument.

SPECIAL ACTIVITIES

The Custodian attended a meeting at Los Alamos to discuss the maintenance of State Route 4 for the coming winter. The Atomic Energy Commission called the meeting and representatives of the State Highway and Forest Service also attended. The AEC will furnish 300 tons of gravel to the Park Service to be spread on the bad spots in the road from the end of the new construction to the Monument. They will also assist with the maintenance of the entire road from the Otowi section to Post 11.

DEFENSE
BUY
UNITED STATES SAVINGS BONDS

APPROACHES TO MONUMENT

Work was started by Wylie Brothers Construction Co. on the

construction of five miles of the approach road from the junction with the Los Alamos highway in the Otowi section to the White Rock Construction camp location. The road will be a high standard type and will shorten the amount of dirt road to the Monument to about 8 miles.

TRAILS

The reconstruction of the trail along the Rio Grande river that was washed out last spring was nearly completed. It is estimated that one week more will put the trail in good shape.

POWER AND TELEPHONE LINE

Work was started on the construction of the 1½ miles of power and telephone line that is to connect with the AEC line at Ancho Canyon. After investigating the possibilities of contracting for the construction of the line, it was found to be more economical to do it with our own crew. The poles were contracted for and will be delivered early in October. Construction of the AEC part of the line was started by the Reynolds Electric Co. of Santa Fe,

CONCESSIONS

The Lodge reported better business by almost 100 lodgings this september than last year. Most of this came the first half of the month, however, and the road construction caused a sharp drop toward the last of the month. The number of meals served continue to be less than last year.

The riding concessions was not successful this year due to general lack of interest and it was closed after Labor Day.

INTERPRETIVE SERVICE

1487 visitors were conducted through the ruins on 123 trips.

The evening lecture program was continued until the 12th of September with 6 programs and an attendance of 110 persons.

TRAVEL

A total of 3616 persons visited the area during the month which is a 30% increase over last year. Labor Day coming as late as it did probably had some effect on the increase.

The travel year ended with 28,072 visitors as compared with 23,857 for 1947 which is a 17.6 increase. There are indications, however, that this may be a peak and that travel in general is tending to level off.

VISITORS

Mr. Robert Lister, and his wife spent the day in the area on the 8th. Mr. Lister was formerly an archeologist with the CCC in this area.

Mr. Dugan and Mr. Johnson, photographers for Burton Holms travelogues, spent two days in the area taking pictures in connection with a travelogue of New Mexico.

Mr. and Mrs. Frederick Cornelisson spent four days in the area. Mr. Cornelisson is on the United Nations staff from Holland and Mrs. Cornelisson is employed in the archeological department of the Museum of Natural History of New York.

RANGER FORCE

Ranger Tom Onstott was transferred to Aztec Ruins on the 7th and James B. McEntyre, Alamosa, Colorado was appointed to fill the vacancy. Mr. McEntyre is a veteran and was student assistant to Professor Worman at the Adams State Field School this summer. We wish to welcome him, his wife, and three children to the Park Service and hope that they find it enjoyable.

Ranger Onstott did an outstanding job in developing the interpretive program for this area and we wish him further success at Aztec.

Temporary Ranger Morris continued on duty after Onstott was transferred but the others were terminated on the 7th. Ranger Thomas will continue as WAE Guide on weekends until October.

WILDLIFE

Four bull elk were seen in Alamo Canyon by members of the trail crew. These are the first elk to have been seen on the Monument and are probably some of the ones that were stocked in the Jemez Mountains by the State Game Department.

BUILDING FIRE PROTECTION

A regular building fire brigade drill was held on the 22nd. Some instruction in the use of the equipment was given to new laborers.

A fire inspection was made of all buildings and propane installations were tested for leaks.

Work was started on the draft of a Building Fire Control Plan for the area to be used for the information of all employees.

INSECT AND TREE DISEASES

Tent caterpillars came out of their webs and were a nusiance most of the month. It was noticed that trees that had been virtually stripped of their leaves by the caterpillars were puting out new ones toward the last of the month. The caterpillars were noticeably fewer than last year due to spraying with DDT instead of an arsenic solution. The main damage was to trees that could not be reached with the sprayer and the tops of trees that were too high to spray.

(SGD) FRED W. BINNEWIES

Fred W. Binnewies
Custodian

Canyon de Chelly National Monument
Chinle, Arizona

September 26, 1948

MEMORANDUM for the Regional Director, Region three.

The following is a report on activities at Canyon de Chelly National Monument during the month of September, 1948.

Weather

The rains that usually come in late August and early September missed us this month and as a result it has been much dryer than normal. We had a total of only .24 inches of moisture. Temperatures were about normal with a high of 99 degrees and a low of 38 degrees.

Administration

Windsor Pictures Inc. working out of R.K.O.-Pathe studios of Culver City California spent a week in the area filming scenes for their forthcoming production "Wagon a Man's a Man". Three days were spent on actual filming operations in the canyon but the company made their headquarters at Thunderbird ranch. Permit, Bond, and other matters connected with this work was handled and all work in the canyons was observed by the custodian.

Maintenance

Seven loads of gravel were hauled filling holes in the road to White house. The approach east of Garcias Store was worked by the Indian Service and is in the best shape it has been. The New Pump engine was installed in the pump house and general maintenance and cleanup work carried on thru the month.

Travel

Although travel this month was above that of a year ago, the travel year ends with only a very small increase over last year. 2,239 visitors this year compared with 2,232 last year. Our Fiscal year to date shows a sizeable increase.

Visitors

Stars on location with the Movie Company were Rory Calhoun, Guy Madison, Johnny Sands, Carol Mathews, Iron-eyes Cody, Director Jack Bawlins, Producer Julian Lesser, and Assistant director Clem Beauchamp.

Ranger Service

Seasonal Ranger Zorro A Bradley was terminated and left to resume his studies at New Mexico university on September 1.

Archeology

Mr. David de Harport terminated his summers work on the site survey of the canyons on September 6. He accomplished an amazing amount of work and will return next season to continue.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
SOUTHWESTERN NATIONAL MONUMENTS
~~CORONADO, ARIZONA~~
Capulin, New Mexico

September 25, 1948

MEMORANDUM for the Regional Director
Region Three, National Park Service
Santa Fe, New Mexico

There follows the narrative report for Capulin Mountain National Monument for the month of September, 1948:

Visitors: There were about four thousand two hundred visitors to Capulin Mountain National Monument during the month of September, making a total of thirty thousand, nine hundred for the travel year and nineteen thousand, eight hundred visitors for the fiscal year.

Weather: Weather in this vicinity has been extremely warm and dry with about one inch of rain reported during the entire month of September.

Flora and Fauna: As a rule the pinon trees bear a large crop of nuts about once in every seven years, and from all appearances, this is the year. There is also a plentiful crop of bootes (acorns) and more wild cherries than have ever been noticed in the area before. Wildlife, as usual is in good condition, and an unusual number of gray squirrelshave been seen.

Roads and Trails: The roads and trails in and around the Monument are in splendid condition.

Information Pamphlets: Have distributed about 500 of the information pamphlets, and have about 1,000 on hand now.

Interpretive Services: Ranger Homer Farr, on duty in the Monument area has contacted about 30 visitors daily.

Approach to Monument Road: The approach road to the Monument is in excellent condition.

Homer J. Farr
Ranger

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

September 25, 1948.

MEMORANDUM for the Regional Director,
Region Three.

There follows the narrative report for Casa Grande National Monument for September 1948.

General: Cotton picking has been going on now for about two weeks and from all reports this year's crop is going to be one of the best. Pumping for irrigation purposes has slowed down a great deal and the water situation should show definite improvement. This has been another dry month as only a trace of rain was recorded on the 15th. The lack of moisture is very noticeable in its effect on the desert vegetation here on the monument. With the exception of a few mesquite trees, which have been watered, there isn't a green plant on the area. The leaves on the saltbush are so dry that they fall when toughed. The strike of petroleum workers in California had us worried for a few days for fear that a serious gasoline shortage would result but so far we have had no difficulty.

Weather: The maximum temperature was 114 with a high minimum of 78 and a low minimum of 54. The nights are wonderful for sleeping now. A trace of rain was recorded on the morning of the 15th.

Visitors: September 1948 - 1179: September 1947 - 1680: This represents a loss of 501 people from September of last year. The number of visitors for this travel year was 55,929. The end of the 1947 travel year found us with a total of 54,416 visitors. This is a gain of 1,513 visitors over the 1947 travel year. There has been a very definite trend lately for travel to level off and we feel that this trend will continue in the coming months.

Interpretive Service: Of the 1179 visitors to the area, 705 made the ruins trip in 128 groups averaging 41.4 minutes per trip. 474 people were here for a quick look but did not make the trip to the ruins.

Administration and Protection: The Adamsville Site was checked for signs of "pot hunting" but the warning signs seem to be doing the job. Mine requests for information were answered and informational material was sent as requested. Office work and correspondence was kept current.

NPS Visitors and Visitors of Note: On August 28, Dr. O'Brien of Gila Pueblo and Dr. and Mrs. F.D. McCown of the University of California visited the area after attending the Point of Pines Conference. On September 9, Ranger Bean of Organ Pipe Cactus National Monument was in to return the bench saw and pick up their Case tractor. Archeologist and Mrs. Pierson of Tonto National Monument spent the 22nd and 23rd with Archeologist Davis and family. They took a new water heater and a power plant back to Tonto with them.

Maintenance: Minor repairs were made on quarters 3-5 and 4-4. Baseboards were painted in quarters 6-3. Storage cases for study skins and artifacts were painted. The various signs are now being repainted in preparation for our heavy travel this winter. Some items of heavy equipment in the utility area have been moved and rearranged.

Personnel: Mechanic Stonehocker was transferred to Zion and Bryce Canyon National Parks on September 1. Mrs. Stonehocker and the children are remaining in Coolidge so that Mrs. Stonehocker may continue teaching and the children may go on in school.

Leaves Taken: Custodian Bicknell went on annual leave on September 4, and will return to duty October 1. Ranger Arnberger is serving as Acting Custodian during Mr. Bicknell's absence.

Nature Notes: A ringtail was observed in the ruins for about four days during the middle of the month. Many of our visitors were quite fortunate to see this interesting animal. Snakes (racers) have been very abundant in the ruins this month searching for unwary bats.

Trips Taken: Custodian Bicknell was called in to the Regional Office for two days in the early part of the month to go over administrative matters.

Leslie P. Arnberger,
Acting Custodian.

Chaco Canyon NATIONAL MONUMENT

~~Bloomfield, New Mexico~~

~~September 23,~~ 19.48

MEMORANDUM for the Regional Director, Region Three,
National Park Service.

There follows the report of activities in Chaco Canyon National Monument for the month of September, 1949.

Chaco Canyon had 173 visitors this month. They came in 62 automobiles from the states of:- Arizona - 2 cars, 5 visitors; California - 8 cars, 19 visitors; Colorado - 9 cars, 24 visitors; Connecticut - 1 car, 1 visitor; Florida - 1 car, 2 visitors; Illinois - 4 cars, 12 visitors; Iowa - 3 cars, 5 visitors; Kansas - 1 car, 1 visitor; Michigan - 1 car, 2 visitors; Missouri - 1 car, 2 visitors; New Mexico - 24 cars, 82 visitors; New York - 2 cars, 4 visitors; Ohio - 1 car, 2 visitors; Texas - 3 cars, 8 visitors and Wisconsin - 1 car, 4 visitors. 144 of these visitors took a trip through the ruins and formed 42 parties with an average time of 82 minutes. 161 of them visited the museum and formed 43 parties with an average time of 18 minutes. Total time:- Ranger Maxson - 8 hours, 15 minutes; Ranger Orem - 29 hours and 10 minutes, and the custodian - 33 hours.

The thermometer climbed to 99 degrees on two days, the first and second of September, for the warmest of the month. 37 degrees Fahrenheit was the coolest on the 12th of the month. There was .44 of an inch of moisture.

The news this month is that the north approach road has been put back on State Maintenance. This may be only an election reminder, but we were so informed and as proof the grader spent several days on the road. It has remained in good shape.

The Monument roads were graded, and loose rocks taken out of them. They, too, are in good shape.

Ranger Maxson finished the filing system and went off duty the 30th of August. We appreciated his hard, earnest work, and were sorry to see him leave.

Ranger Orem spent several days repairing fences on the north, south and west sides of the Monument.

The fire place in the back bedroom of the residence which had a chimney about four square feet in cross section, has been changed with five sections of flue liner. The rest of the hole was filled in with soil, rock and cement. It ought to draw much better now.

The roof of the residence was worked over completely. Generous application of asphalt, new slate roofing and flashing cloth ought to stop the leaks. The canales which froze every winter and prevented the water from running out were opened. Inside, the kitchen woodwork was sandpapered and re-enameled.

Visitors included Al Lancaster, Tommy Unstott, Dr. J. O. Brew, Director of the Peabody Museum and Dr. A. M. Bailey, Director of the Denver Museum.

There follows the report of Archaeologist Gordon Vivian.

....., 19.....

MEMORANDUM for the Custodian,
Chaco Canyon National Monument.

Following is the report of Mobile Unit activities in your area during September 1948.

Everything is ready to divide the Unit up and move it early in October. Raymond Rixey with his family will go to Walnut Canyon to work there till colder weather and I will go to Gran Quivera. Further repairs were made this month to the shop roof here to provide safe storage for equipment that will not be taken to these other jobs.

CHETTRO KETTLE

SUPPORT:

We completed making a large cast concrete log to replace a rotting horizontal timber in the west wall of room 57. The cast log was put in place early in the month, loose masonry around it tightened up and jacks and timbers supporting the upper half of the wall removed.

A part of the original timber was hidden by a thin veneer of masonry and when I replaced the cast log I put this thin veneer back. The only criticism so far has been from Rixey who objects to having part of his excellent cast covered up.

An extensive support job was done in Rm. 1 in the southeast corner. During the excavations in 1920 a doorway there had been repaired by means of a true arch and this arch had caused a lot of comment by visitors. Since it was now breaking down and the wall above it cracking it was removed and the area repaired. Some 7 feet of wall above the arch was held with jacks and timbers while repairs were being made.

Two integral members were constructed over large breaks near the base of walls. One was x in Rm. 53 where all but the lower quarter of a doorway had fallen. The other in Rm. 121 where a break in the facing had progressed half way through the wall.

RECEIVED SEP 27 1948 NATIONAL PARK SERVICE

PATCHING & DRAINAGE;

Major work was done on 4 kivas in the southeast plaza, Nos. A, B, D, and E. These kivas have been excavated for 28 years and were in very bad

condition. Most of the damage had come from surface water washing out sections of the wall. Repairs included raising the tops of the walls and grading the adjoining area.

CAPPING AND MINOR REPAIRS:

Capping and patching of small breaks with soil-bitumen continued in the south tier of the central house block. This work was slowed for a time by slow delivery of the bitumuls. Finished this month were 6 rooms;: 18, 20, 21, 26, 29 and 30. With good luck the entire block should be completed next week.

IN PROGRESS:

Scheduled for completion next week is a support job in Rm. 70 involving a beam and reinforced section for a 12 foot strip of wall now resting precariously on an exposed horizontal keg.

Gordon Vivian
Archeologist

NATIONAL MONUMENT
Chiricahua National Monument,
Dos Cabezos, Ariz.

September 25, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Chiricahua for September.

Weather. Weather was generally fair. Two or three lightning storms occurred on or near the Monument. One rain of .87 inches fell during the night of September 18. Other rains were very light showers.

Maintenance. Two days time was spent on the telephone. The repeating coil burned out and we now have it working again with a coil borrowed from the Forest Service. A new coil has been ordered.

Additional data is being collected on water flow from Bonita Spring. Our pipe line after the spring rains usually flows to capacity. Due to the light rainfall this season it is now flowing less than half of its capacity of 10½ gallons per minute.

Interpretive Service. Ranger Ringenbach showed one auto load of 5 visitors around the monument. The Custodian and Mrs. Cooke accompanied Chuck Abbott and Mrs. Abbott(Esther Henderson), photographers, on a nine hour horseback trip. Some very good pictures were secured. 1,504 visitors in 319 parties were contacted in the museum.

Increase in Travel. 1,512 visitors came to Chiricahua this month. This compares with 1,108 for September of last year but leaves us 607 short of the total for last travel year. The loss in travel occurred during the months when the approach road from Douglas and Bisbee was torn up preparatory to oiling.

Visitors. Esther Henderson and Chuck Abbott, well known outdoor photographers, spent two days on the monument.

Ranger Service. Temporary Ranger Hoffacker left September 12 to return to school. He is taking post graduate work at the Fletcher School of Law and Diplomacy in Boston prior to entering the Diplomatic Service.

Forest Fire Protection. No fires have occurred on the monument. One lightning fire of 285 acres burned on the National Forest about ten miles from the monument boundary.

NATIONAL PARK SERVICE

.....NATIONAL MONUMENT

Accidents. A car load of seven people drove off the road on the wrong side, rolled down a seven foot bank and landed wrong side up. No one was hurt. The car was going uphill in the steepest part of Bonita Canyon and apparently was going quite slowly. The accident seems to have been caused by the driver looking too long at the rocks. The Chiricahua force went out after supper and helped a wrecker get the car back on the road. The car returned to Bisbee on its own power.

..... NATIONAL MONUMENT
El Morro

Ramah, New Mexico

..... 19.....
September 26, 48

MEMORANDUM for the Regional Director, Region Three.

There follows the report of activities in El Morro National Monument for the month of September, 1948.

WEATHER: Eight days of above 90 degrees temperature is unusual for El Morro and to record a maximum of 97 degrees on August 28th. establishes a new record. We also recorded a chilly 34 degrees for minimum on September 23rd. The very dry spell was broken on September 18th. & 19th. , at which time we received .91 inches of rain. It came too late to do the bean crop much good.

TRAVEL: In line with the dry weather(passable roads) we show an increase in travel of 141 per-cent over the same period last year and an increase of 13 percent over the 1947 travel year. The total for the month amounted to 325 visitors, arriving in 111 cars. The tour of the Inscriptions was made by 287 people in 55 guided tours. The guide time amounted to 58 hours and 30 minutes. Thirty eight people arrived for information only or with only five minutes to see "The Inscription".

APPROACH ROADS: Dry and passable. On September 20th. the Indian Service bladed the road between Ramah and the airport which was a great help while hauling coal. No new construction has been started on the Grants Road.

GENERAL: A trip to White Sands National Monument was made on September 6th. thru 9th. to obtain surplus property stored there. Enough property was found to justify the trip and I enjoyed seeing that interesting area. Eleven tons of coal were hauled and unloaded in the bins. The furnace were cleaned and made ready for winter operation. The standby generator was moved and set on block in the generator house. Lead-in power line was run to the office. Outside fixtures were purchased and installed. Three trips to Gallup were made for supplies and repairs on dump truck.

Number of copies of free publications on hand as of the end of August, 1948

2-fold Spanish Edition----------3650

Eaton E. Wilson, Custodian.

RECEIVED SEP 29 1948 NATIONAL PARK SERVICE

GRAN QUIVIRA

GRAN QUIVIRA, NEW MEXICO

SEPTEMBER 25 48

MEMORANDUM for the Regional Director, Region Three.

The following is a report of activities at Gran Quivira for the month of September 1948.

General. The local bean harvest is now approximately 60% completed. Yields are averaging 2 to 3 sacks per acre, about enough to pay expenses.

Weather Conditions. Dry throughout the report period, only .21 inches of rain being recorded. Maximum temperature was 95° recorded on Sept. 1.

Special Activities. On Aug. 28 the custodian went to Farmington, and brought back the stake body truck transferred from Arches.

Sept. 9 and 10 were spent in Santa Fe discussing Monument business. On Sept. 15 another trip was made to Santa Fe in the stake body truck, and a load of war surplus counters was brought back.

Inspections. Gordon Vivian was in from Chaco Canyon on Sept. 6 to size up the repair job on San Buenaventura Mission to be started next month.

On Sept. 21 John Davis accompanied by Mrs. Davis visited the area.

Maintenance. With the receipt of the stake truck the annual fall business of hauling wood and water got under way. The 550 gallon water tank was taken to Mountainair and repaired and certainly improves the water hauling situation.

Repair and Rehabilitation. Bids were advertised during the month for metal roofing and interior wallboard for the old custodians residence. Harkey Lumber Company, Carrizozo was the low bidder. Material for the ruins stabilization program was included on the same bid. To date two loads have been hauled from Carrizozo and two more should put all material needed for both projects on the ground

Charlie Steen secured some excellent wooden counters from war surplus, which can be converted into museum cases for the exhibit room.

Ruins Stabilization. 200 sacks of cement and lumber for scaffolding and tent frame are being hauled from Carrizozo.

Approaches to Monument. Entrance roads have been average this month. They are washboarded, but nothing can be done about that until there is enough moisture to allow the grader to operate.

Interpretive Service. 63 parties totalling 230 people were guided through the ruin. Average trip time 43 minutes. Total contact time, 43 3/4 hours.

Increase of Decrease in Travel. Travel for the month exceeded that of last September as indicated below. The travel year finishes slightly ahead in number of cars but substantially behind in number of visitors. Of the 104 cars registered this month, 43 were from out-of-state.

	CARS	VISITORS
September 1948	104	336

Custodian.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
GREAT SAND DUNES NATIONAL MONUMENT
MOSCA, COLORADO

September 26, 1948

MEMORANDUM for the Regional Director,
Region Three.

There follows the report of activities in Great Sand Dunes National Monument for September, 1948.

WEATHER. Indian summer returned for over two weeks and it was very enjoyable. Fall is definitely here now and its cloudy and chilly.

The minimum of 32 degrees was registered on September 23. The maximum of 86 degrees was reached on August 31. The high minimum was 51 degrees on September 1 and 4. The low maximum was 74 degrees on September 8.

Showers fell on August 30 and 31; September 2. Actual rain fell on September 25. Strong winds blew on August 8 and September 22.

There were 23 clear days; 4 partly cloudy and 4 cloudy days during this report period.

The range remains very dry and the water supply at the two springs are low. Moisture would be welcome throughout the valley.

Aspen trees at the 9,000 foot level have turned to brillant yellow and gives the Sangre de Cristo a striking appearance. Snow flurry on the range the night of September 25.

TRAVEL. Two thousand five hundred two visitors in six hundred twenty-seven cars visited the Sand Dunes during this report period. Thirty-three states and Canada were represented. One thousand one hundred ninety-eight people took advantage of the picnic areas, and of these one hundred forty-six camped over night.

A total of seven hundred thirty-one visitors in one hundred sixty-five cars came to this area on the last of the three big weekends, September 4,5 and 6.

Three written requests were received and answered.

DECREASE IN TRAVEL. For September, 1947, there were six hundred eighty-four cars and two thousand six hundred eighty-one visitors. There were one hundred seventy-nine more people in that period, than there were for September, 1948.

TRAVEL YEAR DATA. Figures for the travel year, 1948, show 4,030 cars; 16,311 visitors; 23,931 visitor days. For 1947, 3,596 cars; 15,212 visitors; 23,323 visitor days. This years travel increased by 1,099 visitors.

CONTACT. Contact was carried on during week days as time and work permitted, and on Sundays as is the custom.

Four hundred seventy-six cars were contacted with a total of two thousand four visitors. An average time of ten minutes was spent with each contact, amounting to seventy-nine and one-half hours.

ROADS. The State graded the approach road from Mesca to headquarters on August 28, September 4,11,18 and 25. It is so dry that the grader can accomplish very little towards improving the road. The chuck-holes remain and grow worse each day.

This custodian constructed four warning signs which were placed at the most dangerous chuck-holes, but they did not last long, as visitors used them to help extract themselves from the holes.

The monument road is in good condition, although a little corrugated.

The road to the lower picnic area is still in its usual very poor condition. Much road work has been done on this section, and four loads of dirt and rock have been hauled to the Mesca Creek hill.

Will be happy to receive the new grader and hope our weather continues mild but bestowes on us, the much needed moisture.

N.P.S. VISITORS. Custodian and Mrs. Charles Sharp of Tonto National Monument and sister May, were very welcome guests on September 2.

NEWSWORTHY VISITORS. Laura Gilpin, noted photographer, camped over night on September 23. She was photographing the Sand Dunes for inclusion in the new book she is planning on the Rio Grande River.

Dr. Lloyd Shaw and sixty girls from the Cheyenne Mountain School, Colorado Springs, camped over night on September 25.

PUBLICITY. Articles on the Sand Dunes appeared in the July Christian Science Monitor; The Shamrock Magazine for August; and the September issue of Rocky Mountain News. The Shamrock was illustrated by a photograph of the Shrine Ceremonial of last year. Rocky Mountain News carried a four page article, beautifully illustrated by Winter Prather, in five striking black and white photographs.

ACTIVITIES. Usual routine duties of hauling, cleaning picnic areas and comfort stations, and trying to keep office and administrative matters current.

The weekly check-up on the light plants was made and a new valve spring was installed on No. 1 plant.

More road work was accomplished from headquarters to Mosca Spring. Four loads of dirt and rock were spread on the Mosca Creek hill.

A supply of mimeographed informational leaflets were received from Region Three and this completed the previous supply. Five hundred copies were stapled and sent to the Alamosa Chamber of Commerce for distribution to tourists and interested people.

The manuscript for the new two-fold leaflet, maps and additional photographs were returned to Region Three Office with corrections and suggestions.

Received the propane cabinet from Tumacacori National Monument; two fire extinguishers for the new pickup and grader; and also four gallons of prestone, which will be stretched to the limit to protect the various equipment which will need maximum protection in this cold area.

A trip was made to Saguache and Alamosa County Courthouses in connection with the land status of private inholdings within Great Sand Dunes National Monument.

Several trips were made to Alamosa to haul gasoline and propane gas tanks

The windows on the south and west sides of the residence received their yearly coat of paint. Windows and eaves of the office were also painted.

Fittings were obtained to complete the work needed to make the 950-gallon tank into a storage tank for fuel oil. The tank was pushed into a more suitable situation by truck, in order to install pipe and have oil flow into the barrel in the light plant room.

Reflectors were placed on the new Ford dump truck. The old dump truck is to be stored here and will be placed under the pinon trees in back of the residence.

Two new Forest Service maps were received from Supervisor Snow, Monte Vista; folders containing the rules and regulations on hunting were received from the Colorado Fish and Wildlife Service.

PROJECTS FOR THE ENSUING MONTH. After attending the Park Service Conference at Grand Canyon, the hunting season will open and much time will be spent on patrol.

Hope to be able to stretch the house paint to include porch pillars and eaves of the residence. Complete the work on the 950-gallon storage tank. Complete some minor jobs necessary to winter-proof the area, and then it may be possible to relax and enjoy the well-earned annual leave planned to be taken in November.

Ted C. Bowers,
Custodian.

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Montezuma Castle National Monument
Camp Verde, Arizona

September 24, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly report of activities at Montezuma Castle National Monument for the month of September, 1848.

Visitors this month to Castle and Well - 2596. This travel year to date - 26,171.

General There was a sharp decline in travel after Labor Day. Part of this may be attributed to the strike of oil refinery employees on the West Coast and the threatened gasoline shortage in Arizona.

Administration Trips were made to Mont. Well on August 25 and September 2, 4, and 18.

Since September 18 we are scheduling only seven guided trips through the Castle each day except on Sundays when there are nine. The first trip begins at 9:00 a. m. and the last not later than 4:20 p. m. There is no trip at 12:00 noon.

A start was made to prepare cards for accumulated books and pamphlets in the office library.

Personnel Ranger Donald P. Jewell's temporary appointment was terminated Sep't. 18.

Leave was taken during the month as follows: Jewell - 1 day annual; Leding - 2 days sick and 3 days annual; Hastings - 3½ days annual; Schroeder - 3 days sick and 2½ days annual.

Interpretation A supply of museum labels was received from the Museum Laboratory in Washington. Several of the labels were soiled or smeared.

Plans for a large scale model of the Castle were studied. It is planned this model would be used to explain the Castle if guided trips are discontinued.

Protection Wire cloth boundary and no hunting signs were mounted on wooden back boards and posted along our boundaries.

Visitors This month brought a total of 2044 visitors to the Castle in 636 cars and 552 visitors to the Well in 221 cars. Well figures are based on 8 days actual contact and estimates made from a count of register names.

RECEIVED
OCT 1 1948
NATIONAL PARK SERVICE

On August 24 we had 44 visitors from the Tonto Rim Nature Session sponsored by Arizona State College of Tempe. On the same day there were 40 visitors from the Twenty-First Annual Convention of the Association of Western State Engineers meeting in Flagstaff.

Contacts Total contact time at Castle - 209.50 hours. Hastings - 58.25; Loding - 58.25; Jewell - 69.50; Schroeder - 23.50.

Eight hundred and fourteen visitors were guided through the Castle ruins in 171 trips. One thousand and ninety were given interpretive attention in the museum in 280 groups and 738 received service aside from the museum and ruins trips.

Publications Sales Total SWNA sales for the quarter amounted to $400.42. Of this amount $366.17 was collected leaving a shortage of $34.25 on the "serv-ur-self" arrangement for low-priced publications and post cards.

A shipment of 997 photo packs was received from Lollesgard Specialty Company. These consist of 10 selected views and retail for 25¢ per set.

The following was taken from the report submitted by Archaeologist Schroeder for Montezuma Well.

Administation Daily duty was maintained except for lieu days and as follows: 2½ days annual leave; 3 days sick leave; ½ day on travel status; 6½ days relieving at Castle.

Annual leave was taken to attend the Southwestern Archaeological Conference at Point of Pines where a report was made on the local ball court tested last spring, and another was given on the relationship of Verde Valley archaeology to that of the Salt River Valley and modern Pima.

Roads Two laborers were obtained for three days to work on the roads which are now in fair shape. Eighteen pick-up loads alone were required to fill in ruts on the hill approach to the parking area.

Quarters One lieu day was spent with the aid of Ranger Jewell on his lieu day and a half day from Custodian Hastings in cleaning out the septic tank lead in pipe. Investigation revealed the tank was reversed when installed and arrangements have been made to correct this.

Work was started on a barrel rack one form having been built; also on a pump shed the fram of which has been completed except for a portion of the roof.

A short in a faulty switch in the museum was located and will be corrected by the contractor.

Wind Damage Heavy gusts of wind during four afternoons blew down several large cottonwood limbs around the picnic area. One limb was over 25 feet long and two fell directly on the fence allowing cattle to get out of the pasture.

fall ladders and pruning equipment will have to be obtained in order to remove many rotten limbs which are a definite hazard.

Museum Panel three is now complete except for a few items which will be taken care of this month. A large map being reproduced in the Regional Office will complete panel two this coming month.

Research Paul Spangle returned from his summer's work at Grand Canyon to continue his study and collection of plants in the area. Myron Sutton is replacing David Goodwin as collaborator with Spangle in this work. Spangle reports 108 species have been identified to date.

The first record of a water ousel at the Well was made and one Ariz. Gray Fox was also noted for the first time thanks to the curiosity of a 2½ year old, my son, who called it a cat.

Link Smith, original owner of the Well, pointed out the spot where a rock fall covered up a cave west of the outlet cave in the Well. In 1877 he had entered this cave with his brother and had gone into three rooms where respect for a rattlesnake turned them back. According to a man in Camp Verde there are 16 rooms in the cave. Smith thought the rock fall occurred after 1900.

Newsworthy Visitors Aug. 28 - Malcolm Farmer, Director of the San Diego Museum of Man, and Dr. Spencer Rogers of San Diego State.

Homer F. Hastings,
Custodian.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Arches
.....NATIONAL MONUMENT
Moab, Utah

September 27, 48
..... 19....

MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Natural Bridges National Monument for the month of September, 1948:

GENERAL: The travel year of 1948 has recorded the heaviest travel ever experienced at this monument. There were 1587 visitors during this period as compared with the heaviest previous travel year of 1939 when 1044 people visited the area.

INSPECTIONS: An inspection was made at this area on September 12th and 13th at which time trails, etc were checked over and an investigation was made of boundaries.

WEATHER: Warm weather has been experienced during most of the month with only one light rain during this time. Nights became cooler for the latter part of the month.

TRAVEL: A total of 92 parties containing 266 people visited the area during the month as compared with 216 for September, 1947 and 226 for August, 1948. There was representation from 20 states, Alaska, Canada and England. There were only four days during the month on which no visitors arrived, probably due to threatening weather.

INTERPRETIVE SERVICES: Eighty parties containing 218 people were contacted at headquarters and 11 parties contining 46 people visited the area during the absence of the ranger. Trips were made to all three bridges with 3 parties consisting of 6 people and short hikes were made to Owachomo Bridge and from the White Canyon road to Kachina Bridge with several parties.

ROADS: The approach road to the monument, from Cottonwood Wash to the Park Canyon junction, is in very poor shape due to operation of logging trucks between Blanding and the Elk Mountain. Lack of moisture has made it impossible for the State to perform the necessary maintenance.

The White Canyon road is getting regular maintenance and numerous cars are travelling this route.

RECEIVED
SEP 29 1948
NATIONAL PARK SERVICE

Page 2, N. B. Narr. Rpt., Sept., 1943.

TRAILS: Ranger Redd has completed the repainting of arrows on the trail from headquarters to Sipapau Bridge during the month. All ladders were checked on the recent inspection and found to be in a safe condition.

BOUNDARIES: A reconnaisance survey was made with Ranger Redd to try to locate the monument corners set up by Douglas's survey of 1908. Corner No. 1 is accessible from headquarters but Corner No. 2, on the north rim of White Canyon near its junction with Armstrong Canyon and Corner No. 3, on the north rim of White Canyon above Sipapau Bridge, cannot be reached without a long trip to gain access to the rim of the canyon. These two corners were located approximately and the large fallen arch or bridge, mentioned by Dr. H. E. Gregory in his San Juan County report, was located near the boundary in White Canyon. The interesting ruins in upper White Canyon were also investigated.

VANDALISM: Ranger Redd reported the names of Carl and Edith Evans carved on the rock along the trail between headquarters and Owachomo Bridge. Upon checking the register it was found that this party was from Bancroft, Idaho. A letter was written to them requesting that they make arrangements to have same removed. A recent reply stated that they were sorry for their actions and that arrangements were being made to have them removed. The following is quoted from their letter, "Thanking you kindly I assure you that our respect for all nature has improved."

RECEIVED
SEP 29 1943

NAVAJO NATIONAL MONUMENT
TONALEA, ARIZONA

Sept. 24, 1948

MEMORANDUM for the Regional Director, Region Three

There follows a narrative report of activities in this area for the month of September 1948.

TRAVEL

65 visitors reached this area in 22 cars. They chose their activities as follows: 38 visitors in 15 parties walked around Sandal Trail for the rim view of Betatakin, 24 visitors in 7 parties hiked down to Betatakin, 42 visitors were given Museum and Orientation treatment. All visitors to the area were contacted and received guidance.

ROADS

All roads suffered storm damage on the 16th when 0.64 inches of rain fell rapidly. The approach road to the 16 mile entrance sign has been dragged four times. Wood chips and sand were hauled to refill washed out gullies and at present the entrance road is in better than average condition.

WEATHER

Precipation for the month was 0.69 inches. Maximum temperature was 96 degrees on the 1st. Minimum temperature was 40 degrees on the 23rd. A 45 degree halo was observed at 11:45 A.M. on the 1st.

PUBLICITY

A radio script "The Dead Cities" was prepared by Mr. Toney Richardson for broadcast on station KNRZ at 1900 on the 24th of September. The dead cities described are Betatakin, Keet Seel and Inscription House, all of this area. A copy of the script is being forwarded under separate memorandum.

Eleven negatives were forwarded to your office for use by Sunset Magazine. The theme being "Bottlenecks" we submitted views of our inadequate toilet facilities, the line-up at our only water tap, congestion at the parking area, poor roads, and the too small museum/contact station.

The new two-fold leaflets for this area and Saguaro are not all they could have been.

RECEIVED
SEP 29 1948
NATIONAL PARK SERVICE

ACCESSION and DONATION

Duplicates of eight 2X2 Kodachromes were donated to this area by the Southwestern Monuments Library Association. This is a valued addition to our inadequate slide library.

EQUIPMENT

A 1/3 hp compressor was purchased during the month. This turned out to be an excellent piece of small inexpensive machinery. In addition to keeping our 18 pneumatic tires properly inflated the compressor delivers enough air for continuous operation of a spray paint gun.

MAINTENANCE

The following items were cleaned and repainted during the month:

2 Kohler Light Plants.
1 55 gallon gasoline tank.
1 Gasoline pump.
1 5 gallon gasoline can.
4 Blitz cans.
2 Fire extinguishers.
3 Refuse cans.
2 Metal tool boxes.
1 Safety gasoline can.
2 Fire buckets.
1 SWMLA card dispenser.

The roof on the power/tool house was given a treatment with bitumals to stop leaks. No leaks were observed on the 16th when 0.64 inches ran off the roof.

Two roadside signs are in the process of manufacture for Wupatki/Sunset Crater National Monuments.

INSPECTIONS

Inspection was made at Rainbow Bridge National Monument on the 17th and 18th. The annual travel figures were totalled and forwarded by air mail to the Director.

The registrations at the piton were moved to the cylinder on top of the bridge. 44 visitors had registered this travel year on top of the bridge.

VANDALISM: "DISTING (sp?) 47" occurs in white paint on the canyon wall about 1/8 mile below the bridge. No similiar name could be found in the register book.

Sept. 24, 1948

INSPECTIONS (con't)

Because of it's bad state of repair the register book was brought back from the bridge. Page 155 was carefully extracted and left for visitors to sign in the absence of the book. We are forwarding the tattered book to your office for rebinding with the request that glued tabs be bound between pages 154 and 157 so that page 155-156 can be glued into it's proper place and keep the record chronolgically continuous.

PERSONNEL

Tempenary Ranger Seth T. Bigman terminates on the 30th.

The following reports are attached or have gone forward as indicated:

Quarterly report of Free Government Publications was forwarded on the 15th. Annual Travel Reports for Navajo and Rainbow Bridge National Monuments to the Director by air mail on the 25th.
Monthly travel report.
Monthly penalty indicies report.
Monthly Statistical Report of Interpretive Services.
Monthly report of still no printing facilities at Navajo National Monument (11ml).
Annual Animal Census Report.
Quarterly statement of mailings.
Annual Report of Motor Vehicles (7a3).
Certificate of Compliance with Sec. 305 of Penalty Mailing Act.
Report of Penalty Indicia Material Destroyed.

NATIONAL PARK SERVICE

ORGAN PIPE CACTUS NATIONAL MONUMENT

P. O. Box 58, Ajo, Arizona

September 25, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of September, 1948.

Weather

The summer warm spell of forty two continuous days with a maximum temperature from 100 to 111 degrees was broken on September 12 when 99 degrees was recorded. A maximum of 89 and minimum of 57 on September 24 marked the coolest day to date. .5 inch of rain fell on August 20 and 31 but only .09 fell at headquarters in September. The monument as a whole is parched but the desert between Bowling Well and Quitobaquito has received more rain and wild life and cattle look better in that area.

Fences

The boundary fence from our southwest corner to Davis Canyon was completed on September 23, 1948. The International Boundary Commission is now in the process of issuing invitations to bid on an additional 11 miles from Davis Canyon westward. The materials for the fence will be hauled on either the Bates Well road through the monument or from the Ajo-Sonoyta highway through Quitobaquito.

Co-operating Government Agencies

The Bureau of Animal Industry is now hauling water to their Davis Canyon camp from Quitobaquito instead of Bates Well. This means a saving of about 20 miles a trip.

Maintenance

Showers on the southwestern part of the area enabled us to work the Quitobaquito road again. The showers on August 27 caused the washes to run considerably but the road is in very good condition now.

Routine maintenance and continued work on the Quonset hut kept us busy the remainder of the month.

Organ Pipe Cactus National Monument

Personnel

The custodian returned from five weeks annual leave on September 25.

General

Maintenance man Quinn and Ranger Bean hauled the Case tractor from the shop at Casa Grande on September 9.

The cows passing through the headquarters area have evidently built up an immunity to electric shock or (more likely) are so hungry that they feel no pain. At any rate the electric fence around our hay has lost some of its effectiveness and we had to work over the fence.

Wildlife

A mule deer buck failed to clear the boundary fence just west of Quitobaquito and killed himself in the struggle to get loose. The Bureau of Animal Industry men burned him and will submit photographs and a copy of their report.

William R. Supernaugh,
Custodian.

RECEIVED

NATIONAL PARK SERVICE

Saguaro National Monument
Tucson, Arizona

September 26, 1948.

MEMORANDUM for the Regional Director,
Region Three.

There follows the monthly report of activities at Saguaro National Monument for the month of September, 1948.

General.

Hot dry weather prevailed during the first half of September, this condition was altered on September 15, when light general rains fell. On September 19, a torrential rain storm occured over the headquarters area, amounting to an estimated .75 of an inch of rain.

Visitation to the monument for the month was limited, as the combination of high temperatures and rough roads was not conducive to travel. The first four miles of the Broadway Approach Road (after leaving the pavement) was very rough, due to excessive use by heavy trucks. While it was graded regularly, the smoothness soon disappeared from the impact of heavy vehicles.

The dove hunting season opened on adjoining lands on September 1, most of the shooting has been confined to the roads, no hunters entered monument lands to our knowledge. It is apparent that most of the hunters suffer from " cushionitis ", they hunt mostly from the running boards of their cars.

High winds during September 14 and 15 caused a great many trees to fall in the forested area, several fell across the telephone line, breaking it in a number of places. These breaks were repaired and the line restored to service on the 18th.

Special Activities.

The custodian attended a Rotary luncheon on September 8, in Tucson, as the guest of Mr. C. Edgar Goyette, Manager of the Tucson Chamber of Commerce.

Status of Private Lands.

Mr. Tom Williamson of Tucson, made an appraisal of eighty acres of alienated lands within the proposed boundaries of Saguaro National Monument, copies of his report were forwarded to the Regional Director.

RECEIVED
SEP 29 1948
NATIONAL PARK SERVICE

Complaints.

The only complaints made by visitors to this area, were relative to the rough condition of the approach roads.

Maintenance.

Messrs. Barney and Steamberry have made complete repairs of all pack saddles and riding equipment, also stored them for winter.

A much needed paint job was accomplished on the steps of the Mica Mountain Fire Tower, the interior of the lookout was also painted.

The work of brushing out the Madrona & Happy Valley Saddle Trail was initiated about the middle of the month, we anticipate completion of this project within two or three weeks.

In addition to repairs made on the mountain telephone line, four man-days were expended on the metallic circuit between Madrona and the railroad.

Travel and Interpretive Service.

Travel to the monument showed a downward trend for the month. A total of 557 visitors arriving in 200 cars were registered for September, twenty three states were represented. The custodian was absent from headquarters on numerous occasions, so that many of our visitors were not contacted. Some 181 persons in 68 parties were given interpretive service at headquarters for an average of 19 minutes per party.

Visitors.

September 12, Dr. J. Bryan McCormick, President, University of Arizona, accompanied by Mrs. McCormick, made a trip through the cactus area.

September 22, Mr. and Mrs. James Grey, long time residents of Hetch Hetchy in Yosemite National Park.

Ranger Service.

Ranger Ide made a patrol trip to Manning Camp and vicinity over the period September 11 and 12, he found all caches intact and buildings in order.

Arrangements have been made for Marvin H. Frost Sr. to serve as Acting Custodian at Saguaro, during the time the custodian will be absent, attending the forthcoming National Park Service conference.

New boundary signs were put up around the cactus area and along the south boundary.

Ranger Service (Cont'd.)

Ranger Wilde and the custodian were in the forested area over the period September 17 and 18, making repairs on the telephone line. Regular patrols were also made to scan the area for fires, although thunder showers had occured, no fires were started.

Personnel.

Fire Control Aids, Rex E. McPhaul, Conrad P. Hernandez and Arthur Lopez, were terminated on August 31. Trail Laborers, James Young, Edward Lopez and Marica Wallmark. were also terminated on the above date.

Maintenanceman Ollie O. Darney, is taking annual leave from September 20, through 26.

Ranger Wilde is to report for two weeks active military duty, starting October 4, 1948.

Accessions.

Four truck tires were received during the month, two each were installed on the dump and stke trucks. Two tires and tubes were also received for our wheelbarrows.

One government riding saddle was converted from 3/4 to a full double rig, making it serviceable for use on steep trails.

A spark-plug type tire pump, was purchased for use at Madrona Ranger Station.

SUNSET CRATER ..... NATIONAL MONUMENT

Flagstaff, Arizona

September 26, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows the report of activities at Sunset Crater National Monument for the month of September 1948:

Weather: Following a period of hot weather early in the month, typical fall weather has prevailed. Precipitation was sub-normal and thus increased the fire hazard.

Roads: The condition of the approach from Highway 89 rapidly deteriorated due to lack of moisture; "chuck-holes" are appearing again and visitors are complaining of the "wash-board" in our cinder boulevard.

Travel: Visitor use increased 50% over September of last year bringing the travel year total to an estimated 25,088. This figure is based upon the estimate that only 40% of the visitors register and represents an actual increase of 15% in the travel year figure on the basis of actual registration. Visitors registering totalled 1527; visitors receiving personal contact, 900.

Protection: Ranger Euler, while on special duty at Sunset, discovered a fire on the Coconino Forest, September 6th. A man-caused fire, it was handled efficiently and effectively by Bob with the help of Ranger Case until the arrival of a Forest Service crew.

Personnel: Ranger Charles Case Jr. was terminated on September 12th to return to school.

Maintenance: Several signs were repainted, the register box refinished and general cleanup carried on.

Tonto National Monument
Roosevelt, Arizona

September 25, 1948

MEMORANDUM for the Regional Director, Region Three.

Following is a report of activities at Tonto National Monument for the month of September 1948.

Weather. About 1/2 inch of rain fell the night of Sept. 15. Days average up to 90 -95°, nights down to 65-70°. It is slowly cooling off here, and is not too bad now.

Approaches to Monument. The entrance road is a little rough. After seeing state and county approach roads to several Monuments, the Apache Trail does not look so bad.

Interpretive Service. The museum was open all month.

Travel. Travel is still light due to hot weather. 599 visitors came to Tonto in September, of them 188 made the ruins trip, in small parties.

Personnel. Custodian Sharp returned from annual leave September 5, at 6:00 p.m.

General. The custodian wants to state here his appreciation of National Park Service hospitality at Petrified Forest, Mesa Verde, Black Canyon of the Gunnison, the Colorado National Monument, Great Sand Dunes, and Bandelier. We were glad to be able to stop in at Region Three Headquarters again, and fortunate to attend the NPS Fiesta Party. Also appreciated is the work of Archaeologist and Mrs. Pierson in holding Tonto together while we were away.

Maintenance. The lovely new butane stove (which Pierson & Forest Ranger Pomeroy & his crew carried into the house while we were absent), was installed, and works excellently. The hot water heater was brought up from the warehouse at Casa Grande. A nearly new Onan 3 KW light plant was installed and is still running. Either there is a secret technique of operating these, or they are not designed properly, as the valves stick frequently on all I ever heard of. Interiors of the 2 pit toilets have been painted a beautiful ivory, with silver gray floors. When we get the forest green on the outside, these will be among the most elegant primitive facilities in the Southwest. The Dodge pickup "Old Mechanic's Friend", was in the garage 3 times for brake repair and they still do not hold.

Water breaks on the ruins trail were cleaned out before the rain, and the trail is in good shape.

Charles C. Sharp
Custodian

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Tumacacori National Monument
Tumacacori, Arizona

September 26, 1948.

MEMORANDUM for the Regional Director,
Region Three.

Follows the monthly narrative report for Tumacacori National Monument for the month of September, 1948:

WEATHER CONDITIONS: .77 inches of rain fell. Maximum temperature was 105 on September 3 and 4, minimum was 51 on September 28. This summer has been a joke, as far as rainfall is concerned. We had one good month of rains, August, and since then the country is trying to dry up and blow away.

INCREASE OR DECREASE IN TRAVEL: Our visitor total of 1,369 persons has been once exceeded, by the September figure of 1,393 for 1946.

INTERPRETIVE SERVICE: 614 persons went on 121 guided trips through the mission church and grounds, receiving an average of 34.65 minutes per trip. 1,337 persons saw the museum, and 1,338 received combined information and interpretation service.

VISITORS: August 29 - The Phoenix Gazette on a carrier outing sent a group of 25 newsboys and 11 adults, to form a lively and interested group.

MUSEUM AND EDUCATION: Father Sylvio Ross, of the Sacred Heart Church, Nogales, upon learning we needed new records for our mass diorama in the museum obtained a very fine album of records containing a High Mass quite suitable for use here. These were purchased from him, but a lot of careful search on his part was gratis.

A large photo of Tumacacori, taken in the 1880's, donated by Father Victor Stoner, was framed and hung in the lobby.

MAINTENANCE: Routine maintenance, with irrigating and some weeding, was kept current. A folding table was installed on a wall of the ranger house kitchen. A new pressure valve was installed on our water pressure tanks, and an automatic air volume control was installed. Antiquated water closet valves in our comfort station were replaced by modern ones, which can be replaced in whole or in part as need arises. Large CO2 fire extinguishers were installed in the residences. Thorough cleanup was given to the "ware-house". Creosotes on our parking area which have died were removed. A Hall's Honeysuckle was planted in the patio garden. Considerable time was spent in re-wiring several light banks in the [illegible]um. A surplus Flamo cabinet was crated and sent to Great Sand Dunes National Monument. About a day was spent chasing evusive leaks in the south end of the sacristy roof and seal-coating the affected surface area with lime mortar.

PERSONNEL: 13 days and 3 hours were worked this month by per diem laborer Orozco. 6 days of annual leave were taken by Ranger Brewer. 10 hours of sick leave were taken by Custodian Jackson for dental work. NAE Guide Judy England worked 2 days.

GENERAL: The de-valuation of the Mexican peso has adversely affected border business. Business men are wearing long faces in both Nogales, Sonora and Nogales, Arizona. Tourist traffic is in the doldrums, and probably will remain so until the hot and dry weather cracks. Produce farmers in the valley have practically gone out of the business in the last two years, and quite a lot of emphasis has taken place locally on more stable crops like cotton.

The monument is ticking along all right, but has been giving at the achas lately, requiring more maintenance than usual.

A wise man said that if you haven't anything to say, don't say it. Good bye for this month.

Earl Jackson,
Custodian

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

TUZIGOOT NATIONAL MONUMENT

CLARKDALE, ARIZONA

SEPTEMBER 26, 1948 19

MEMORANDUM for the Regional Director, Region Three.

Following is the monthly narrative report for Tuzigoot National Monument for September, 1948.

Visitors this month - 1839
Visitors a year ago - 1830

1948 Travel Year Total - 17,514
1947 Travel Year Total - 13,885

Travel Data and Trends: It will be noted from the figures above that travel for this month exceeded that of a year ago by just 9 persons. Before Labor Day, all indications pointed to a 2,000 plus figure, but after the Holiday travel dropped abnormally which we believe can be attributed at least in part to oil strikes in the Pacific Coast refineries affecting supplies in five Western states. In view of the fact that the oil companies are shipping in large quantities of gasoline from Texas and Oklahoma, thereby allaying any stringent shortages to motorists and would-be-tourists, it is possible that travel is tending to level off. Whether or not this is a definite trend should be clearly demonstrated within the next few months. The total number of visitors for the 1948 Travel Year exceeds 1947 by 26%.

Guide and Contact Service: Museum, ruins and orientation contacts totaled 4654 for the month. 1628 people in 540 parties were shown through and given an orientation lecture in the museum, and 1606 people in 540 parties were conducted through the ruins. The average time spent by each party in the museum was 21 minutes, while the conducted tour through the ruins required 20 minutes per party.

Personnel Time: Museum: 187 hours, 10 minutes. Ruins: 183 hours, 10 minutes. Total contact time for Bright: 172 hours, 20 minutes. For Richert: 198 hours.

Special Visitors: Malcolm Farmer, San Diego Museum of Man, and Spencer Rogers, San Diego State College, on August 28; Al Schroeder, Archeologist, and Don Jewell, Seasonal Ranger, Montezuma Castle, on September 1.

Ruins Stabilization: Heavy run-off from rains in August caused damage to the west walls in Rooms 4 and 10 of Unit VI. The wall in Room 4 was repaired by Archeologist Richert on September 15, and Room 10 will be repaired next month. Unit VI comprises a cluster of 18 rooms at the base of the hill on the east side, and is not visited by the usual visitor.

Maintenance and Administration: The water pipeline caused trouble only once during the month when an old clamp gave way. This was repaired by the Custodian. Slight improvement has been noted in the quality of water subsequent to the laying of the new pipe. Cement mortar was placed in cracks caused by weathering of the flag stone walk leading from the museum to the ruins. A new heavy duty battery was purchased for the Govt.truck.

Usual and Unusual: It appears that NPS women will have a heavy hand in guiding the destiny of the Clarkdale Garden Club for 1948. Mrs. Richert (Tuz), Mrs. Hastings and

RECEIVED
SEP 29 1948
NATIONAL PARK SERVICE

Mrs. Schroeder (Montezuma Castle) were elected President, Vice-President and Program Committee Chairman respectively, during a recent business meeting of their organization. Congratulations to these women on this signal honor!

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Walnut Canyon National Monument
Flagstaff, Arizona.

September 26, 1948.

MEMORANDUM for the Regional Director, Region Three. 19

There follows a report of activities in Walnut Canyon National Monument for September, 1948:

Weather. We had two stormy days with a little precipitation and ten windy days with lots of dust during period. Farmers report meager crops this year.

Visitors. Travel dropped sharply with Labor Day. Some of the decrease could be attributed to seasonal trend and some to gasoline rationing because of strikes in refineries on coast.

Of the 2,815 total, 2,533 were contacted, and it is estimated that 2,125 made the ruins trip unattended. Two hundred and fourteen picnickers in 21 parties used the picnic area.

Activities. Our efforts have principally been expended on the museum and most of our routine projects are far behind schedule. The north wall of the museum, outside, has been exposed, water-proofed and recovered.

Inspections. Lyle Bennett came out one night to check our problems with artificial light until 11:00 p.m. He returned a few days later to inspect more of our needs.

Museum Activities. We replaced the last case front over the temporary exhibits at 5:45 p.m.; Sept. 5, Dale King had packed and gone by 6:15 p.m. that day; and, the museum was opened by 9:30 a.m. the next day. Travel dropped 75 % shortly thereafter. (But I dont think the museum had anything to do with the travel drop).

Jay Datus, whose murals in the State Capital in Phoenix have made him famous, stopped in Flagstaff for a week to paint a fine picture for the Walnut Museum. There just couldnt be a finer painting in any museum in the Southwest.

Mr. Ralph Peter, with the Coconino Nat'l Forest, spent quite a bit of time painting and installing a fine exhibit illustrating why the cliff-dwelling Indians chose this place to live.

The Museum of Northern Arizona loaned numerous prehistoric artifacts and examples of modern Hopi handicraft.

Mr. H. O. Bjerg, A. S. C. C. at Flagstaff, donated a handsome Sunset Red bowl.

Research and Observation. Late one evening, Dale King, the Aubuchons and I visited two small sites on monument having pottery dating back to the 700's (Lino Gray, Honani Tooled, Kana-a B/W, Rio de Flag Brown)

Personnel. Seasonal Ranger Viklund was terminated from active duty September 3, C.O.B. Park Ranger Aubuchon took 8 1/2 days of annual leave beginning September 15, to visit the North Rim, Zion, Bryce, the Hopi country, Canon de Chelly and Mesa Verde.

September 22 48

MEMORANDUM for the Regional Director, Region Three.

SEPTEMBER TRAVEL, 1948	1948 TRAVEL YEAR TO DATE
Visitors 15,464 Cars 3,709	Visitors 120,781 Cars 29,103

Figures do not lie but this office certainly lied about our figures last month. I stated that we were gaining 20,000 each year which, as stated, is not true. We have averaged a gain in excess of 20,000 over a four-year period, but not 20,000 each year. My apologies to the statisticians for this misstatement of facts.

This month shows 15,464 visitors in 3,709 cars. Our travel year to date shows 120,781 visitors in 29,103 cars; ten thousand in excess of our all-time count estimated in 1938. Over 22,000 in excess of last year; an all-time high since actual count. This increase has over-taxed our facilities and one hundred thousand is just about all our present set-up can possibly handle with reasonable efficiency. Hundreds of visitors would have appreciated additional service and facilities but were in sympathy with the circumstances and not one written complaint and only minor verbal manifestations of the crowded conditions were heard.

Weather conditions have been good for travel and, on the whole, the month has been dry and a higher maximum than normal. Our nights are cool. In fact, only a night or so ago the temperature reached a low of 36°.

No official trips were made off the monument. Visitor contacts and routine work in connection with our visitors kept all hands busy. Our seasonal ranger, Delbert Nelson, returned to school the middle of the month and, while our visitors always drop off some after Labor Day, the loss of an extra man gives us little relief.

We have, for the first time in several years, widened our road through the dune area to the point where we feel reasonably safe for some time to come. A dozer promised us last March by the Army was obtained for a few days this month and while it was only promised us for a week, we have had it almost three and have used it continuously every day. I am taking some pictures for future use.

We are making some of the cuts larger than we would under normal circumstances but, not knowing when we may get another dozer, we felt we had better allow a little margin. One vertical cut of about fifteen feet is quite impressive and several pictures have been taken by tourists of their cars in this cut. Many intend to pass it off as a snow scene.

We mentioned last month the Army moving its block east of our area and the problem of visitors coming out of the Sands and possibly going into the danger area from our headquarters. The Army has changed it again and the east block now is directly in front of our headquarters and our parking area can serve as an over-flow if traffic piles up too much on the highway. This location is ideal for us since we are always aware of the exact time the road is blocked and can clear our Sands area at the same time. So the Army is again in our good graces after loaning us a big "D-7" for three weeks and then changing the block.

In addition to all the duties connected with the regular routine, the boys answered the plea of the Otero County Fair Association and White Sands entered a booth at the County Fair. We won a white ribbon for booths in the Educational Class. Rangers Chittum and Schaffner did most of the work and we all chipped in for the expenses. Anyway, we are proud of the ribbon and only wish we could have given it a little more time.

Another need of long standing that has been accomplished this month was that of securing a boy for our clerk position. Frank L. Cota of Tucson, Arizona is holding down that berth now and promises to set a pace for the field. He is taking a-hold in grand style and after a short time we want to send him up to Louie and let him put on the finishing touches. Frank is a grand boy and one we are proud to have join our staff.

Sam Hendricks and Herb. Richardson of the Regional Office were in for a few minutes and we went over several of our problems. We are always glad to have any of the boys stop in with us and, as persistent as Sam is, sooner or later he may have me partially convinced that our recent road job was not an entire flop.

No complaints have been received by this office on our concession. It too, I think, is ahead of any past records.

The White Sands has not printed nor processed any publications during the month. Having broken all previous records we will start out the next travel year with the hopes of breaking even more records.

Johnwill Faris,
Custodian.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

WUPATKI NATIONAL MONUMENT

Flagstaff, Arizona

September 26, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows the report of activities at Wupatki National Monument for the month of September 1948:

Weather: Seasonable weather prevailed, except for a heat wave during the first week when temperatures went above one hundred degrees. Precipitation was limited to less than one half inch. Apparently the heat wave, coming during a period of peak rainfall, upset the normal rainfall pattern. The range is in excellent condition. Fire hazard, however, will increase from now until the arrival of the winter snows.

Roads: Approach roads are only in fair condition - "wash-boarded" and dusty. Two miles of road were bladed when rainfall made it possible. Damage caused by cloudbursts in August was repaired and the filling of "soft spots" continues. The approach from Sunset Crater is in fair condition, but holes are developing where the cinder is particularly loose. All signs were repainted, using a white paint instead of the aluminum which had a tendency to flake off.

Travel: This travel year ended with an increase over 1947 of almost 28%. Providing services to the public and protection for the area was, at times, more than enough for two men. The effect of the gas shortage on the west coast was noticeable although there was a slight increase this month over last year. Of the 643 persons who registered, 416 visited Wupatki Ruin and 370 received guide service.

Spring Flow: A measurement on Wupatki Spring is not available for this report and it will be recorded next month. The flow from this spring has decreased as is to be expected. Heiser Spring, on the other hand, has the same flow as in August: 1085 g.p.d.

Special Activities: Data on the use of the reflecting material "Scotchlite" for signs was received from the manufacturer and the Long Island State Park Commission, and was forwarded to the Regional Director.

Visitors: Among the visitors to Wupatki during this past month were: Mr. and Mrs. Odd Halseth of Pueblo Grande Museum, Phoenix; Rangers Ledding

and Jewell of Montezuma Castle National Monument; Ranger Chet Miller and family of Lake Mead Recreational Area; and Mr. and Mrs. Ralph Anderson and daughter of Yosemite National Park.

Maintenance: The greater portion of spare time from visitor contact was confined to maintenance work during the month. The Windcharger was moved to Heiser where it will be more effective in charging radio batteries, one light plant was overhauled, fire tools put in shape for the fall season, and a fire tool box remodeled to better meet our needs. The entrance marker signs were repainted, a tedious task when compared to painting the raised letter signs.

Public Health: All employees and their families along with the Clyde Peshlakai took advantage of the mobile X-Ray unit being in Flagstaff and had chest pictures taken. Clyde Peshlakai was particularly impressed with the fact that it required such a short time to take the picture of his chest - much faster than most visitors can take the "outside" of him.

Safety: During the past two months seven rattlers have been found around the quarters at Heiser Spring. Aside from the danger, it was rather nerve-wracking to have them so handy. To discourage these characters weeds in the vicinity of the quarters were removed. Apparently there is a fair concentration of rattlers in that vicinity. In pre-war times we noticed this but attributed it to the presence of the CCC camp attracting an abnormal small mammal population upon which the rattlers fed.

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Entrance Amphitheatre Under Repair

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PU[illegible]/E OF THIS FORM IS TO SECURE AN ACCURATE RECORD [illegible] NTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with in[illegible]pretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors at each interpretive device. Some study of visitor habits must be made with periodic checking at occasional [illegible] intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 6 (Report 8m3) and 9 (Report 8m3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO EXCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

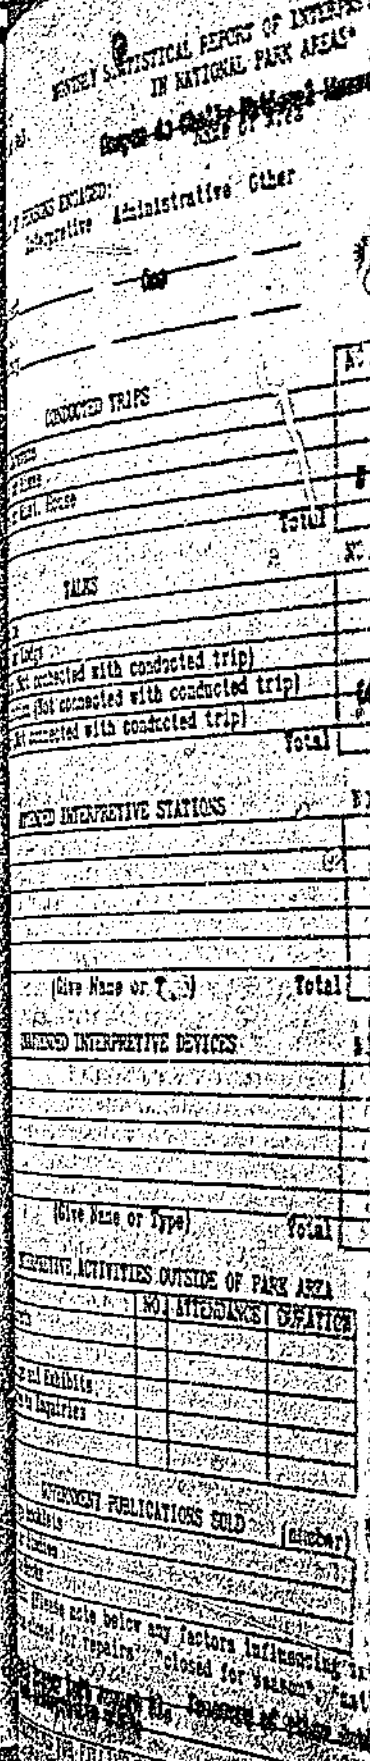
UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.



COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 8m3).

TITLE **Acting Custodian.**

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Custodian on annual leave from Sept. 4 to Oct 1.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

TITLE Custodian

REMARKS: [Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may (record totals) considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 1C, Chapters 8 (Report 8m3) and 9 (Report 9a3).

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH AIDES, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS ENQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYS & SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO TOUR ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

TITLE Acting Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

Earl Jackson,
TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

* Visitor total includes 51 run-arounds.
Facilities and devices open entire month; trouble with wiring in museum kept many visitors from seeing all cases lighted.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

NAME Paul L. Beaubien

TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Museum with temporary exhibits, opened Labor Day, the last heavy travel day of season.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES, SENT TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Region Three
Santa Fe, New Mexico

November 5, 1948.

MEMORANDUM for the Regional Director, Region Three.

Following is the narrative report for the Naturalists of the Southwestern National Monuments for October 1948.

Staff Activities, General

Naturalist Dale S. King conferred with Chief Naturalist Doerr at Albuquerque the evening of October 8 and morning of the 9th. He was in the office during the remainder of the month except for seven days' sick leave and two days' annual leave.

Archeologist Charlie R. Steen returned to Santa Fe, October 9, from a trip to Gila Cliff Dwellings, Tumacacori, Saguaro, Casa Grande, Tonto, Walnut Canyon, and Chaco. He made a short trip to Gran Quivira on October 21 and 22.

Interpretive Administration

A request from the Director's Office for preparation of a popular booklet on Montezuma Castle was forwarded to the field area. Arrangements were made to transfer to surplus publications display cases to monuments having need for them.

Revisions and corrections of the twofold leaflet for Navajo were forwarded to Washington. Notification was sent several monuments that surplus twofold leaflets can be obtained from the Director's Office.

Extention Services

A set of slides depicting Lower Sonoran plants was furnished to a botanist in Holland for a talk before an international botanical meeting there.

Progress of Exhibit Plans and Projects

Word was received from the Superintendent at Aztec Ruins that the local staff can undertake the project for revising museum exhibit sequence and office placement there.

Some discussion was had with Regional Architect Bennett concerning plans for the eventual museum at Montezuma Castle.

Accessions (Other than Library)

Several routine letters were written to acknowledge and record specimens and paintings which last summer were loaned to Walnut Canyon Museum.

Research and Observations

Several letters were written in response to a request from the Director to attempt to find someone who might prepare a geological manuscript on Chiricahua.

Loan Library

Accessions for the month were 14 books, 31 pamphlets, and 47 periodicals, totalling 92.

The more important books received are:

American Association for the Advancement of Science; Summarized Proceedings and Directory of Members. Washington, D.C. 1948.

Bent, Arthur Cleveland -- "Life Histories of North American Nuthat es, Wrens, Thrashers and Their Allies." U. S. National Museum, Bulletin 195. Smithsonian Institution, Washington, D.C. 1948.

Marriott, Alice -- "Indians on Horseback." Thomas Y. Crowell Co., New York, 1948 (General description of Plains Indian life for juveniles).

McNichols, Charles L. -- "Crazy Weather." Macmillan Co., New York, 1944 (Interesting novel with good Mohave ethnology).

Shimkin, D. B. -- "Childhood and Development Among the Wind River Shoshone." Anthropological Records 5:5. University of California Press, Berkeley and Los Angeles, 1947.

-- "Wind River Shoshone Ethnography." Anthropological Records 14. University of California Press, Berkeley and Los Angeles, 1947.

Scholes, Walter V. -- "The Diego Ramirez Visita." The University of Missouri Studies, Vol. XX, No. 4, Columbia, 1946.

Young, Robert W. and William Morgan -- "The Navaho Language." Education Division, U. S. Indian Service, n.p., n.d.

Southwestern Monuments Association

Corrected page-proofs for the second printing of "Poisonous Dwellers of the Desert" were returned to the printer on October 20.

During the month of October, the usual two deposits and one disbursement were made. Covers mailed were 142, including 28 letters and 23 purchase orders. This does not include 852 envelopes sent out on our mailing list, which brings the total to 14,268.

For the first time, the Treasurer had to pay a withholding tax, and some time has been spent in figuring that and making a report to the Internal Revenue regarding Social Security. We shall hear in the next 90 days whether the Association comes under the Social Security Act. A ruling is to be handed down from Washington. Considerable time was spent on posting in warehouse cards from the quarterly turn-ins from the Superintendents, posting in Journals, moving furniture, and transferring files to new and better cabinets, etc.

Barbara Veddor worked 52 hours during the month preparing stencils for the Addressograph machine, running the machine, and preparing the envelopes for mailing. Also she transferred our master file of cards into a new cabinet.

Visitors

Visitors included Archeologist Watson Smith, who excavated on Wupatki last summer, of the Peabody Museum; H. E. Rothrock, formerly of this Service and now with the Geological Survey, who plans with Superintendent Maxwell a publication on Big Bend National Park; and Photographer Fred Clark of the Indian Service regarding possible collaboration and preparation of colored movies.

Wildlife Management

Word was received from the Director that supersonics will provide no answer to the bat problem at Tumacacori and Montezuma Castle. The Superintendent at Tumacacori pointed out that we still must keep searching for an adequate repellent.

Unusual Activities

Conferences. King met Chief Naturalist Doerr between planes at Albuquerque and enjoyed a very pleasant and instructive visit.

Ruins Stabilization

Steen was in the field from September 30 to October 9 with Archeologist Gordon Vivian of the Mobile Unit. They visited Gila Cliff Dwellings, Tumacacori,

Saguaro, Casa Grande, Tonto, Walnut Canyon, and Chaco Canyon National Monuments.

In general, ruins at the monuments visited are in fair shape. At Gila Cliff Dwellings the Forest Service has moved the Wilderness Area fence from Copperas Flat to the West Fork of the Gila; the fence is now about a quarter mile below the mouth of Cliff Dwelling Canyon. Some work is needed at the cliff dwellings; several wall footings are so badly broken that the walls are endangered, and two of the great arch-like breaks in the walls are cracking and are likely to fall. It is planned to do the necessary stabilization in the spring of 1949.

Except for a little plastering, which Superintendent Jackson is having done, there is little to do at Tumacacori until Mr. Gettens, of the Fogg Museum of Art, arrives. At Tonto, rodents are digging in the fill of both ruins. The damage to prehistoric floors in several rooms has been extensive. The men stationed at the monument will attempt to control the rodents in and near the ruins.

During the month the technical staff of the Mobile Unit left Chaco Canyon; Archeologist Vivian went to Gran Quivira to work until cold weather, and Archeologist Aide Rixey went to Walnut Canyon.

Technical Aid to Administrators

Several letters were written to applicants for National Park Service positions, and additional information for his Form 57 was requested of Collaborator Arthur Woodward.

Projects for November

King will finish the final draft of the preliminary plan for museum exhibits at Walnut Canyon, prepare the annual report of the Southwestern Monuments Association, and attempt to catch up on routine desk matters.

Steen will spend considerable time assembling and collating ruins stabilization reports, and will visit Gran Quivira and Walnut Canyon re ruins stabilization affairs.

Dale S. King,
Naturalist.

APPROVED FOR DISTRIBUTION:

M. R. TILLOTSON
Regional Director

November 8, 1948.

cc: Mr. Davis (2),
Mr. Dodge (2).

Arches

Moab, Utah

October 26, 48

MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Arches National Monument for the month of October, 1948:

GENERAL: The superintendent was absent from the monument a good portion of the month. From October 2nd to 9th a trip was made to Grand Canyon to attend the Service conference, from October 15th to October 18th on a deer hunting trip, and from October 20th to 23rd in Salt Lake City, Utah on official business.

Ranger Worthington and Maintenanceman Winbourn made a trip to Natural Bridges National Monument on October 11th and 12th to close the area for the season. All equipment was returned to Arches and the area was put in shape for the winter.

WEATHER: Our fall weather has arrived with warm days and cool nights. Two good rain storms occured during the month and we experienced two days of heavy wind. The fall colors in the Moab Valley and on the La Sal mountains are excellent.

TRAVEL: Travel for the month totalled 274 cars and 683 people. This is less than half that for the month of September but shows a good increase over October, 1947 when 463 visitors entered the area. Our out of state travel fell off considerably but we still had representation from 30 states, Canada and Holland.

INTERPRETIVE SERVICES: Regular daily contact work, in the monument area, was discontinued on October 9th, due to decrease in travel and is now carried on only intermittently. A total of 56 parties containing 167 people were contacted in the various sections of the monument and 34 parties containing 74 people were contacted at headquarters. Eight parties of 42 people were accompanied on hikes over the various trails in the area.

NATIONAL PARK SERVICE VISITORS: Senior Archaeologist Nusbaum and family visited the area on October 12th and a meeting was held with State Senator Mitchell Melich and County Commissioner L. L. Taylor at which problems concerning Arches were discussed.

MAINTENANCE: A heavy shortage of gasoline last month necessitated the excavation of our gasoline storage tank and it was found to be badly pitted and evidently leaking in numerous spots. A request has been made for the purchase of a new tank.

Trouble was experienced with both our 3 KW and 10 KW power units during the month. The 10 KW plant is now functioning OK but the 3 KW is still acting up and will be taken to Moab for repairs.

Work has been started on the installation of the surplus army house trailer to be used as quarters for the permanent ranger. A cellar has been dug and lined and a rock foundation is being built on which the trailer will be placed. By working during our spare time we hope to have this job completed during the winter.

PERSONNEL: Temporary Ranger V. Earl Worthington entered on duty on permanent status on October 5, 1948.

Approval has been received for the employment of a permanent maintenanceman and we hope to have this position filled in the very near future.

ACQUISITIONS: Delivery was made today on a surplus Caterpillar power grader assigned to this area. It looks good to see something on the job which will help us on our road maintenance problem.

LANDS: I attended a meeting of the Utah State Land Board in Salt Lake City, Utah on October 21st to discuss with them gas and oil leases on State lands within the boundaries of the monument. The Board was very understanding and cooperative and stated that leases approved on lands within the monument would be cancelled. A check-up was also made on the status of applications for exchange of State lands within the monument and it was found that this exchange was progressing as rapidly as could be expected.

APPROACH ROADS: The approach road to the monument is in poor shape due due to lack of State personnel and equipment to properly maintain this road. It is hoped that men and equipment will be available in the near future to put this road back in shape.

While in Salt Lake City I contacted Chief Engineer McCleary of the Utah State Road Commission and discussed with him the condition of this road. He advised me that a reconnaissance survey would be made of this section in the very near future and an estimate submitted for the cost of improvement of same. He stated that funds would probably be made available in the spring to accomplish this work.

MONUMENT ROADS: The roads within the monument are in fair shape due to the diligence of our maintenancemen but lack of sufficient moisture and equipment has made it impossible to improve them greatly. Now that we have a power grader we are looking forward to our first fall storm so that we can really put them in first class shape.

INVESTIGATIONS: An investigation was made at the drilling site of the Pure Oil Company well east of Salt Valley and about 1½ miles north of the boundary in the Devils Garden section. It was found that they were drilling in the northeast corner of Section 2, T 25S, R 20 E. The State had inadvertently issued a gas and oil permit in 1943 on Section 16, T 25 S, R 21 E and this lease is now a part of the permit under which the Pure Oil Company is working. This matter was brought to the attention of the representative of the company now on the job. The derrick is erected and they are ready to start operations as soon as water is developed. Trouble was experienced in drilling for water at the drill site and they are now working about 1/4 mile below the site in Little Valley. The hole was down 150 feet and they are experiencing trouble with crevices similar to that found at the oil well site.

24 October 1948

MEMORANDUM for the Regional Director,
Region Three, National Park Service.

Report Iml

There follows the report of activities in Aztec Ruins for October 1948.

WEATHER. Fine, clear days have prevailed, interrupted by 5 days of cloudy weather when scattered showers brot 0.48 inch total rainfall. Travel has been very good, considerably over a year ago at this time.

MAINTENANCE. Some difficulty has been experienced with our domestic water pump motor, but we believe we now have it in good running order. With the coming of winter snows we are repairing roofs in the ruins and the administrations buildings. Frost proofing of outside faucets and pipes is being completed.

NEW CONSTRUCTION. The residence building is about ¾ complete, with walls up, under floor piping laid, cement sub-floor in, roof currently being laid.

INTERPRETIVE SERVICE. There were 862 visitors in 152 guided trips thru the ruins and 1136 visitors in 229 trips conducted thru the museum.

INCREASE IN TRAVEL. Approximately 18% increase over October 1947, with 1136 visitors in 372 cars from 36 states, Alaska, Hawaii, Puerto Rico, Canada and England.

VISITORS. From the Regional Office, either on visit or on inspection were Architect Saunders and Engineer Lassiter, the latter with Chief Engineer Kittredge from the Washington Office. From the field we have enjoyed, Supt's. Sowers, Miller, Binnewies, Naturalist Don Watson from Mesa Verde with Ranger Bob Walker, and Ranger and Mrs. Lindsey and son from Hawaii, and Archeologist Gordon Vivian from Chaco Canyon.

PERSONNEL. Ranger Tom Onstott has just effected a move from the Aztec Hotel, where he and Mrs. Onstott have been living during the past month, to a private residence. Supt. Irving D. Townsend during the week Oct 3 to 9 inclusive was in travel status in attendance at the Superintendent's and Custodian's conference at Grand Canyon. Having barely become acquainted with the wonders of the Canyon we are returning on annual leave to enjoy a week of leisure in November.

Irving D. Townsend,
Superintendent.

BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO
October 31, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of the activities at Bandelier National Monument for the month of October, 1948.

WEATHER

During October we have had typically beautiful New Mexico weather with the exception of two or three days. Temperatures have ranged from a low of 23 on the 17th to 82 on the 14th. Rainfall amounted to .42 inches.

SPECIAL ACTIVITIES

The Superintendent attended the Park Service Conference at Grand Canyon from the 4th to 6th. It was a very fine conference and many interesting points were discussed. Of course, one of the biggest values of such a conference is the chance to renew acquaintances and to meet officials of other areas that would otherwise be only names.

The decision at the Conference to change the title of Custodian to Superintendent was received with a great deal of enthusiasm. It will help to relieve the confusion that exists as to what Monuments are. Many visitors expected a custodian to have charge of some sort of structure or building and are amazed, in many cases, to find a natural area instead.

APPROACHES to MONUMENT

The construction of the approach road from the Otowi Section-Los Alamos Junction, to White Rock Construction Camp is progressing rapidly. New concrete bridges that replaced the water culverts of the old road, are now receiving their finishing touches, all sub grading has been completed, and gravel is being spread on the surface of the road.

Final arrangements were made for the AEC to deliver 300 tons

of gravel on the road from the end of the new construction to the Monument checking station. We will use our grader to spread the gravel.

POWER and TELEPHONE LINES

All of the holes were completed for the power line and poles were distributed to them; then, the AEC notified us that we would have to relocate about half of the line. Mr. Bradley spent three days on the new location and by the end of the month most of the holes were redug.

CONCESSIONS

The Lodge was officially closed for the winter on October 2nd. Mrs. Frey, Lodge Operator, had all blankets, sheets, pillows, etc., stored away with moth balls, and advised us that she was leaving the canyon and would not return until next spring, when the Lodge will reopen again. The closing of the Lodge earlier than usual this year was approved due to the decrease in business caused by the construction work on the approach road.

TRAVEL

Travel this month was 36% under the total visitors for October last year. Much of this decline in travel to the Monument can be attributed to the rough condition of the approach road that is under construction.

VISITORS

Mr. Robert Polk, Life Photographer, and Mr. Joseph Muench, photographer for several well known magazines, visited the Monument and took pictures of Tyuonyi, Sunhouse, and Longhouse Ruins. Draftsman Raymond Lovelady of the Regional Office, Mrs. Lovelady and guests, visited the Monument on the 9th. Mrs. Patraw and her guests were also here on the 19th.

RANGER FORCE

WAE Guide, Simon Joseph Thomas, was furloughed from duty on the 10th, and will be off until next spring.

BUILDING FIRE PROTECTION

A building fire control plan was prepared during the month. Twelve copies of the plan were made and issued to Monument personnel. The plan provides for fire prevention, pre-suppression, and, suppression duties for all personnel stationed at Bandelier Nat'l Monument. It explaines the location and purpose of all fire suppression equipment and for its proper use during fire drills or actual fires.

(SGD) FRED W. BINNEWIES
Fred W. Binnewies
Superintendent

Canyon de Chelly National Monument
Chinle, Arizona

October 26,1940

MEMORANDUM for the Regional Director, Region three.

The following is a report of activities at Canyon de Chelly National Monument for the month of October, 1940.

General

This month will be remembered as that during which the National Park Service Conference was held at Grand Canyon National Park, and was attended by the Custodian of this National Monument. Every subject discussed was of interest and a great deal of helpful knowledge and information was gained. I am grateful for the opportunity to meet both the personnel of other regions and of the Director's office, as well as the chance to meet and become better acquainted with the other Southwestern Monuments Custodians.

Although I approve the action of changing our administrative titles from Custodian to Superintendent, there is also a certain amount of regret at losing a name.

Weather Conditions

Temperatures and rainfall have been about normal with a maximum of 80 degrees and a minimum of 25 degrees. Rainfall measured .53 inches. It seems that the Fall coloring of the leaves has been more vivid and beautiful than ever before and has enhanced the natural beauty of the canyons. Roads have been in fair condition thruout the Month.

Administration

The Custodian attended the conference of National Park Service officials at Grand Canyon National Park from October 3 to 8. Office work fell a little behind during my absence but is now current.

Maintenance

With the filling of the Park ranger position here, the need for storage space was acute and work was done repairing the old storage began originally constructed for this purpose. Two Navajo laborers were hired and a new dirt roof was put on as well as re-chinking the logs. Our winter supply of wood has been hauled and general battening/down of the hatches in preparation for winter. New wiring was made to Ranger quarters, and an enclosed porch was built for storage of washing machines, etc.

Visitors

Travel, although considerably more than last year, is still below the figures of 1946. This is partly due to the closing of concession operations. There were 109 visitors in 67 cars.

N.P.S. Visitors

Although Park Personal travelling to and from the Conference bypassed Canyon de Chelly for the most part, we were honored to have Regional director Tom Allen, Mrs. Sexton, Mrs. Allen and Miss Zimmerman who accompanied Regional Director and Mrs Tillotson on an inspection of this Area.

I also greatly enjoyed the visit of Chief of Information Herb. Evison, Chief Historian Lee, and Dr. Eric Reed. Their advice and information will help greatly in future administration.

Dr. Endersbee, of the Office of Land Utilization, Chief Engineer Frank Kittredge, and Paul Dalck visited the area on October 13, and 14. Inspections were made of Soil and Moisture work in the Canyons.
Dr. And Mrs. Harold Briant of Grand Canyon Visited here on the 25th.

Ranger Service

Mr. Robert L. Morris was appointed to fill the Park ranger vacancy at this Monument. Mr. Morris arrived on October 1, and assumed active duty October third. Bob is known to many Park people as he has served two seasons at Dandelion National Monument as a Temporary Ranger.

NATIONAL PARK SERVICE
SOUTHWESTERN NATIONAL MONUMENTS
~~COOLIDGE, ARIZONA~~
Capulin, New Mexico

October 25, 1948

MEMORANDUM for the Regional Director
Region Three, National Park Service
Santa Fe, New Mexico

There follows the narrative report for Capulin Mountain National Monument for the month of October, 1948:

Visitors: There were about three thousand six hundred visitors to Capulin Mountain National Monument during the month of October, ~~[illegible]~~, and twenty three thousand four hundred visitors for the fiscal year.

Weather: The weather has been ideally warm and mild with about one and one half inches of rain reported during the month, with no snowfall as yet.

Flora and Fauna: Wildlife within the Monument area is thriving, with an unusually good crop of wild berries, acorns and pinon nuts.

Roads and Trails: Roads and trails in and around the Monument have been kept in excellent condition, with the help of a good one inch rain last week.

Information Pamphlets: Have detributed about three hundred information pamphlets, and have about seven hundred on hand now.

Interpretive Services: Ranger Homer Farr, on duty in the Monument area, except for a brief leave, has contacted about twenty five visitors daily.

Approach to Monument Road: The approach road to the Monument is in good condition.

Homer J. Farr
Ranger

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

October 25, 1948.

MEMORANDUM for the Regional Director,
Region Three.

There follows the narrative report for Casa Grande National Monument for October 1948.

General: Cotton picking has reached its peak this month and reports indicate a good crop. Shortage of labor for picking has been quite acute and local farmers have had difficulty in recruiting the necessary manpower. A Saturday night in Coolidge now is really an experience for the streets are jammed with farm workers. We had one fairly good rain of .48 inches and fortunately this did not damage the cotton crop. Unfortunately, however, this was not nearly enough moisture to appreciably ease the water shortage. The vegetation on the Monument is in better shape than a month ago but there is still no abundance of really green leaves. The Coolidge Jr. Chamber of Commerce is putting on a rodeo on October 30 and 31, and western wearing apparel is now much in evidence.

Weather: The maximum temperature was 102 with a high minimum of 75 and a low minimum of 47. We recorded .48 inches of rain during the month and this is somewhat better than in previous months. Two days of high winds and dust were very disagreeable. The last 4 or 5 days have been rather windy also.

Visitors: October 1948 - 1,948: October 1947 - 2,084: This represents a loss of 136 people from October of last year. The number of visitors for this travel year is 1,948. Travel to the area on Sundays is getting heavy enough to give us a hint of what lies ahead in the busy winter season.

Interpretive Service: Of the 1,948 visitors to the area, 1,308 made the ruins trip in 171 groups averaging 43.4 minutes per trip. 640 people were here for a quick look but did not make the trip to the ruins. These figures indicate a gain of 104 people going through the ruins over October of last year.

Administration and Protection: One trip was made to the Adamsville site to check on trespassing but there were no signs of "pot hunting".

Six requests for information were answered and office work and correspondance was kept current.

N.P.S. Visitors and Visitors of Note: On October 1, Associate Regional Director Cox and Mrs. Cox and Assistant Regional Director Lisle and Mrs. Lisle from Region I were our guests for a short time. Superintendent and Mrs. J.C. Spotts of Jefferson National Expansion Memorial at St. Louis, Missouri, paid us a short visit late in the afternoon of October 1. Archeologists Charlie Steen and Gordon Vivian came in on October 5, and stayed over until the 6th. While they were here they checked over previous ruins stabalization work and made plans for more stabalization work here this winter. The United States Navy Band visited the area on October 6, but they didn't have time to go through the ruins. On October 10, we were pleased to have Superintendent and Mrs. J. Walter Coleman of Gettysburg National Military Park and Superintendent and Mrs. O.F. Northington Jr. of Fredricksburg National Military Park, as our guests. Regional Naturalist Natt Dodge and Museum Curator Macy were here on October 12 and their visit was very helpful to the personnel at this Monument. On October 22, E.B. Sayles, Archeologist from the Arizona State Museum and Dr. Stephen Borsaggi of the Hungarian National Museum were here for a short visit. Ranger Fred Brueck, his wife and baby from Grand Canyon National Park were here on October 24.

Maintenance: The old washing machine that we have been using for many years has apparently been doomed to the junk pile for some time now. Maintenance Man Barnett took the machine apart recently and turned out new replacement parts on the lathe. Barnett has done a good job of repair on the washing machine and we hope that it will give us a few more years of service. The Maintenance Man has nearly finished building an all steel low bed trailer for use in clean up and maintenance work on the monument. The shop and shop equipment is proving to be very useful to to us in many respects. A few broken window panes have been replaced and some of the drains on the houses have been cemented. A general clean-up was made on the grounds and also the sewer field in addition to routine maintenance work.

Personnel: Archeologist Davis has been converted from temporary to probational status.

Leaves Taken: Custodian Bicknell returned to duty on October 1, after an enjoyable period on annual leave. Ranger Arnberger took 5 hours annual leave to attend the funeral of his Grandfather on October 2.

Nature Notes: With the advent of cooler weather, our bat problem is now almost nonexistent. Even though the bats themselves are gone their odor lingers on and this offends the delicate noses of some of our visitors.

Trips Taken: Custodian Bicknell left the afternoon of October 2, to attend the Park Service Conference at Grand Canyon and he returned on the 10th. This conference proved to be an interesting and stimulating meeting.

A.T. Bicknell,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Chaco Canyon NATIONAL MONUMENT

Bloomfield, New Mexico

October 27, 1948

MEMORANDUM for the Regional Director, Region Three,
National Park Service.

There follows the report of activities in Chaco Canyon National Monument for the month of October, 1948.

There were 40 persons came to Chaco Canyon during this past month. They came in 18 automobiles from the states of:- California - 2 cars, 5 visitors; Colorado - 2 cars, 5 visitors; Louisiana - 1 car, 2 visitors; New Mexico - 10 cars, 22 visitors; Pennsylvania - 1 car, 2 visitors and Texas - 2 cars, 4 visitors. Of these visitors, 29 took a trip through the ruins forming 11 parties for an average of 100 minutes (mild fall days bring longer parties) and 30 of them stayed in the museum in 10 parties for an average of 17 minutes. Total time: Ranger Iron - 8 hours, 10 minutes, Superintendent - 12 hours, 55 minutes.

The coolest this month was 24 degrees on the 26th of October, the warmest was 87 degrees Fahrenheit on the 9th and there was a total precipitation of .49 of an inch.

The Monument roads were graded, loose rocks thrown out and they remain in good shape.

The outside rock work on the water tank was about one fourth completed.

Some time was spent repairing fence.

The superintendent spent almost exactly one week to the minute away from the Monument for the Conference at Grand Canyon National Park. At the meeting, it was good to see old friends, meet new ones, but especially it was good to learn that others are harrassed with the same sort of problems we have.

Within 30 minutes after returning from the Conference, the superintendent took annual leave for a week and went to see his new son (8 lbs. 11 ozs.) who arrived in Shawnee, Oklahoma. Mother and son are doing well.

Ranger Crew went off duty as ranger October 10, but continued on as foreman of the Soil and Moisture crew. Archaeologist Aide Ribay left during the conference, and Archaeologist Gordon Vivian left October 20, 1948.

The Soil and Moisture Program is progressing rapidly. The brush has to be placed to prevent erosion on the mesa and the men are now working on a revetment in the wash.

Visitors included Charlie Steen, Paul Reich, William Anderson, Frank Kittredge and Ralph Lassiter.

Projects for the ensuing month - continue with the Soil and Moisture program, finish the work on the inside of the residence and batten down things for the winter.

Irving McNeil, Jr.
Superintendent

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

CHIRICAHUA NATIONAL MONUMENT
Dos Cabezas, Arizona.

October 25, 1943.

MEMORANDUM for the Regional Director, Region Three.

Following is a report of activities at Chiricahua for October.

Weather Conditions. Weather has remained dry with but two rainy days during the report period.

Special Activities. Mrs Cooke and I made the trip to the N. P. S. Conference and were accompanied by Superintendent and Mrs. Sharp from Tonto to Grand Canyon and return. In addition to much that we learned it was very stimulating, not in an alcoholic way, to meet our fellow workers and learn of their areas and problems.

Inspections. Museum Curator William Macy did several days work at Chiricahua, assisted by Ranger Ringenbach. Plans were made for future museum exhibits. Naturalist Natt Dodge and Mrs. Dodge also paid us a brief visit during the same period. I regretted being absent, at the N. P. S. Conference during their visit, but with many others can report an excellent meeting at Grand Canyon.

Maintenance. Tops of our 25 camp tables were rapidly coming loose, and all have been bolted fast. An oil line was laid from the central tank to Ranger Ringenbach's residence.

Approaches to Monument. Approach roads are probably in a little better than average condition.

Interpretive Service. Three trips were made with monument visitors. Two of these were to show visiting Park Service personnel around the monument, and one was made with an outside party. 518 visitors in 216 parties were contacted in the museum.

Travel. 1040 visitors came to Chiricahua this month. This starts the travel year 38% ahead of the 751 visitors we had in October of last year.

Visitors. Superintendent and Mrs. Julian C. Spotts of Jefferson National Expansion Memorial paid us a visit on their way to the Grand Canyon Conference. We also enjoyed an overnight visit from Ranger Brueck, Mrs. Brueck and son of Grand Canyon.

Clair V. Cooke

Clair V. Cooke,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

El Morro NATIONAL MONUMENT

Ramah, New Mexico

October 25, 19 48

MEMORANDUM for the Regional Director, Region Three.

There follows the report of activities in El Morro National Monument for the month of October, 1948.

WEATHER: Precipitation during the report period amounted to 1.85 inches. Maximum temperature reached 81 degrees on October 4 and the minimum dropped to 18 degrees on October 23.

APPROACH ROADS: Four days of rain, September 27 through 30, made both approach roads a bit difficult to navigate and although they are now dry it is hard to recognize them as roads. No blading has been done during the report period, except in the Zuni Reservation.

TRAVEL: With approximately the same amount of precipitation as the same period last year we show an increase in travel of 67 %. A total of 147 people visited the area in 46 cars from 13 different states. The tour of the Inscriptions was made by 125 people in 20 conducted tours.

NPS VISITORS: On October 2 Mr. & Mrs Demaray and Mr. Mrs Allen, on their way to the NPS Conference, braved our mud holes to visit the area. I am still looking for the spare tire cover they lost between here and Ramah and wondering to what use a Navajo would put it. We enjoyed their visit although road conditions made it a very hurried one.

SPECIAL ACTIVITIES: The Superintendent attended the NPS Conference which was not only interesting and instructive but very enjoyable. The chance to know and talk with those with whom we work makes the whole job more interesting.

PERSONNEL: Temporary Ranger Stanley R. Swatzell was terminated on September 29. Cecil Barnes was on duty four hours a day during the Supt. absence.

ACTS OF GOD: On October 14 a trip to Gallup was made by the Superintendent, leaving the HSWP and 10 month old baby incharge of the area. At 5 PM a bolt of lightening struck the roof of the house jumping from the falshing to the metal lath in the wall and from there to anything containing metal ie., radio, telephone wire and battery charger. It came out of the wall along the telephone line, breaking three holes in the plaster the size

of a half dollar and burned the line in three places. The telephone was not damaged, the extent of damaged to the radio has not been determined yet, but the battery charger is a molten mass of metal. The house immediatly filled with smoke and Edie went into action with a carbon tet extinguisher cooling off the battery charger. Not knowing what else might be on fire she decided that there was a definite need for help for she had visions of fires breaking out all over the house. The only transportation was the dump truck, which she had never driven, but made it to the trading post in record time, driving with one hand and holding daughter Cindy with the other. She returned with the Trader, Mr. Ashcroft and three other men to find the house filled with smoke but not in flames as she expected. Had she not been in the house I am afraid we would be living in a tent or hogen. The concussion also broke a six inch rafter in the livingroom.

GENERAL: Erection of the generator house was completed. Two loads of wood were hauled and the remaining time spent in the office and contacting visitors.

Number of copies of free publications onnhand as of the end of Octob -er , 1948.

RECEIVED
OCT 28 1948
NATIONAL PARK SERVICE
REGIONAL OFFICE III

Gran Quivira

Gran Quivira, New Mexico

Oct. 25 48

MEMORANDUM for the Regional Director, Region Three.

The following is a report of activities at Gran Quivira for the month of October 1948.

General. With the Superintendent's Conference, the repair and rehabilitation program, and preparation for the ruins stabilization program, October has been busy at Gran Quivira. Weather conditions have been ideal and since the bean harvest is about over the labor supply has been good.

Weather Conditions. 1.38" of moisture was received during the report period. A high of 79° was recorded on October 13 followed by a cold snap that brought a low of 27° on the 17th.

Special Activities. High spot of the month was the Superintendent's Conference at Grand Canyon October 4-8. Many old acquaintences were renewed and more new ones made.

Inspections. Matt Dodge and William Macy from the Regional Office visited the area on October 5 to review museum and exhibit needs.

Maintenance. The Chevrolet stake truck was taken to Mountainair for a needed valve-grinding and motor tune-up job, and is now in excellent condition.

Repair and Rehabilitation. The past two weeks have seen the near completion of work on the old custodian's residence. A new sheet metal roof was put on, the building was wired, the ceiling and partitions closed with celotex and the plumbing fixtures installed and hooked up. The later job was handled by a plumber from Carrizozo. Hooking up of the power is now awaiting receipt of a breaker switch box ordered from Albuquerque.

A second-hand wood range was obtained locally and installed, as it is planned to use the exhibit room as quarters for Gordon Vivian this fall.

There remains the improvising of exhibit cases and preparation of exhibits in order to have the exhibit room ready for next summer's visitors.

RECEIVED
OCT 28 1948
NATIONAL PARK SERVICE
REGIONAL OFFICE 3

The old White Sands contact station was placed on a foundation and "repaired and rehabilitated." Tool racks were constructed and now the fire tools are segregated. This building greatly alleviates the storage problem here.

Ruins Stabilization. Hauling of cement and other building materials from Carrizozo was completed early in the report period. Mr. Vivian brought in two loads from Chaco Canyon on Oct. 18 and 20, and Mr. Steen, a load from the Regional Office on Oct. 21. Mr. Vivian arrived to begin work on Oct. 25.

Approaches to Monument. Until the next storm the approach roads are now better than they have been during the past year.

Interpretive Service. 35 parties totaling 136 people were guided through the ruin. Average trip time 45 minutes. Total contact time 26½ hours.

Increase in Travel. The abrupt drop in travel came as usual this month. However visitation was well ahead of October of last year. This was due largely to a "Sing" at the local church on Oct. 24 which brought 73 visitors to the ruin. This is the largest single day since I have been here.

	CARS	VISITORS
October 1948	65	195
October 1947	38	113
Increase	27	82
Percent Increase	71%	72.5%

Figures for the travel year are the same as those above.

NATIONAL PARK SERVICE

.....NATIONAL MONUMENT

Gran Quivera National Monument
Gran Quivera, New Mexico.....
October 26, 1948

..... 19.....

MEMORANDUM for the Superintendent,
Gran Quivera National Monument.

Following is a report of Mobile Unit activities during October 1948. These activities consisted mainly of travel and of dividing the Unit, moving part to Walnut Canyon and the rest to Gran Quivera.

From September 30th through October 8 I accompanied Archeologist Charlie Steen on a field trip through Gila Cliff Dwellings, Tumacacori, Saguaro, Casa Grande, Tonto and Walnut Canyon National Monuments.

Until my return Archeologist Aide Rixey worked at Chettro Kettle in Chaco Canyon, completing capping of the central house group and repairing foundations in the southeast corner of the site. This work in the latter area was not entirely completed but it was discontinued as of the 8th.

From the 12th through the 14th we moved Rixey to Walnut Canyon where he has begun stabilization of the cliff ruins.

During the week of the 17th I took one day annual leave and spent the rest of the time making two trips from Chaco here with materials, equipment and personal effects.

Bill Bowen had a crew of five men lined up and work was started Monday afternoon, the 25th, cleaning up around the north side of the Mission and hauling materials.

Gordon Vivian
Archeologist

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
GREAT SAND DUNES NATIONAL MONUMENT
MOSCA, COLORADO.

October 26, 1948

MEMORANDUM for the Regional Director,
Region Three.

There follows the report of activities in Great Sand Dunes National Monument for October, 1948.

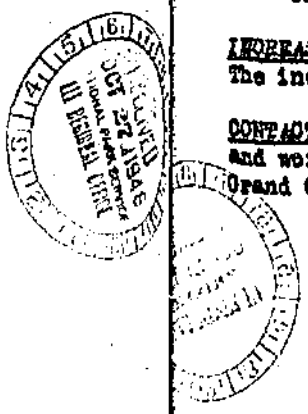
WEATHER. Typical fall days for Colorado and very enjoyable.

The minimum of 18 degrees was registered on October 25. The maximum of 78 degrees was reached on September 27 and October 9. The high minimum was 42 degrees on October 4. The low maximum was 50 degrees on October 20.

Rain fell on September 27 and 28; October 5,14 and 19. Traces of snow occurred on September 26 and 30, and October 20. A very strong northeast wind blew in on October 16.

There were 18 clear days; 5 partly cloudy and 7 cloudy days during this report period.

The Sangre de Cristo range wears a cap of snow and all aspen leaves have been blown from the trees. The cottonwood trees along the Medano have turned and are now losing their leaves.



What moisture has fallen has improved the two springs somewhat. All crops in the valley were gathered in time and without threats of spoilage by rain or severely freezing weather.

TRAVEL. One thousand two hundred seventy-seven visitors in three hundred twenty-five cars visited the Sand Dunes during this report period. Twenty-four states were represented, as well as Hawaii, Canada, England, Brazil and Bermuda. Six hundred eighty-two people took advantage of the picnic areas. The camping season is over.

One request for information was received and answered.

INCREASE IN TRAVEL. For October, 1947 there were 267 cars and 951 visitors. The increase in visitation is due to pinon nut pickers and deer hunters.

CONTACT. Contact with visitors was done on Sundays and week days as time and work permitted. No contact was done while attending the conference at Grand Canyon National Park.

One hundred nineteen cars were contacted, with a total of five hundred sixty visitors. Contact time amounted to 20 hours.

NEWSWORTHY VISITORS. October 6, Wm (Uncle Bill) Baker and wife; his son Al and wife; both Archaeologists of Oklahoma. October 14, Josef Muench, noted photographer. October 15, Adams State College, Outing Club, with 67 in party, out for an evening picnic party.

ROADS. The state graded the approach road from Mosca to headquarters on October 2,9 and 23.

The state is also doing some work on this section of road. The poor four miles stretch east of San Luis Lake is being raised. Adobe is being obtained by drag-line and then hauled to road and spread by grader. At present it is rough and work is going slowly. It is understood that gravel will be spread this spring after the adobe settles. We are hopeful of the road freezing after grading and while in a somewhat smooth stage. If not, it will be like Chaco roads.

The monument road is in good condition, but too dry for all corrugations to be ironed out. The lower picnic road is in its usual poor shape, as work does not improve it much. Hope is still high that the new motor grader may be received in time to do some work before freezing weather sets in.

CONFERENCE. This Superintendent attended the National Park Service Conference at Grand Canyon National Park, and was gone from this area from October 2 to 10.

The conference was very worthwhile and a great deal of pleasure was had in meeting so many men from other Regions, and from the daily meetings. Hope it can be done again!

ACTIVITIES. Usual routine duties of checking light plants, hauling, cleaning picnic areas and comfort stations, and trying to keep office and administrative matters current.

Wood was hauled for fireplace at residence, and wood chopped for cook stove. Propane gas tanks, gasoline and coal were also hauled from Alamosa.

Installed new sign at lower picnic area and reset the old sign. The new warning sign has red letters and is twice as large as the old one---- BUT---can people read? NO! They still continue to drive between the two signs out into the sand. A real barricade is the only answer left to combat this problem.

The 950-gallon storage tank temporarily connected by pipe and angles and connected to a 55-gallon drum in the light plant room. Now oil can be easily obtained from storage tank to drum to furnace in basement of residence. It was filled with fuel oil and all leaks were stopped. The furnace has been running often and todate has proved very satisfactory.

A gun was taken from a visitor who was shooting away at something (he said a can) just a few hundred yards south of headquarters.

Transferred the tent fly to Aztec Ruins, where in turn it will be transferred to Ruin Stabilization.

A crate was constructed for the oil stove which was then hauled to Alamosa on its way by transfer to Big Bend National Park. This now leaves this area destitute for lumber.

During deer hunting season (October 15 to 31) a chain has been placed across the road at headquarters to warn all visitors of no hunting in this area. Patrol of the road south of headquarters has been undertaken twice a day. Luckily the deer are still high in the mountains and our nearest neighbors, the Zapata Ranch, have had men posted with shotguns to drive off all hunters. Hunters all complain that "it ain't what it used to be around these parts."

Had gasoline filter installed on Ford dump truck, also greased and oil changed, and a new drain cock installed on radiator to insure prestone staying where it belongs.

Three new license plates were received from Casa Grande National Monument, and one was placed on the dump truck. Am now waiting for new pickup and grader.

Received the Instruction Manual and Repair Parts List; Owners Manual and Parts Catalog for the Galion No.402 Motor Patrol. May be able to understand operation when the grader is received.

PROJECTS FOR RESUING MONTH. Expect to be on annual leave during month of November.

Ted C. Sowers,
Superintendent

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Montezuma Castle National Monument
Camp Verde, Arizona

October 24, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly report of activities at Montezuma Castle National Monument for the month of October, 1948.

General This has been a busy month with more than 10 per cent increase in Castle travel over last October. The Custodian (Superintendent after the Grand Canyon conference) was gone for a week and during that time the monument's water system broke down.

Administration On September 24 Col. A. L. Dopmeyer, Senior Sanitary Engineer of the Public Health Service was contacted in Flagstaff and brought to Montezuma Castle to inspect the water and sewer systems. Some helpful suggestions for improving the monument's water system were received.

Superintendent and Mrs. Hastings in company with Superintendent and Mrs. Bright attended the Park Service conference at Grand Canyon October 4th to 9th.

Maintenance Our water pump broke down October 6 and Ranger Leding secured the services of a pump repairman from Cottonwood to make repairs.

The pick-up was winter-proofed with Prestone and a stove set up in the office.

Visitors There were 1683 visitors to Montezuma Castle, an increase of 10.4 percent over last October. One of our biggest problems is how to accomodate the increasing number of visitors when only nine per hour can be guided through the Castle. Castle visitors came in 570 cars. There were 644 visitors in 243 cars to Montezuma Well, an increase in visitors of 43 per cent and cars of 73 percent over this month last year. Well figures are based on 16½ days actual contact and count of registrations on other days.

Contacts One hundred and thirty four trips were made through the Castle for 661 visitors and 799 people saw the museum in 163 groups. Five hundred and thirty nine visitors received information outside the ruins or museum. Total contact time at Castle, 169.75 hours. Hastings, 60.60; Leding, 91.25, Schroeder, 18.00.

National Park Service Conference Visitors The following visited Montezuma Castle National Monument on their way to or from the NPS Conference at Grand Canyon.

On October 2, Sup't. and Mrs. Clarence Johnson and daughter from Chalmette National Historical Park.

On October 3, Associate Regional Director and Mrs. Cox and Assistant Regional Director and Mrs. Lisle of Region One. Sup't. J. C. Spotts of Jefferson National Expansion Memorial.

On October 9, Sup't. and Mrs. Earl Jackson of Tumacacori National Monument and Sup't. Sam King of Saguaro National Monument. Sup't. and Mrs. J. W. Coleman of Gettysburg National Military Park and Sup't. and Mrs. O. F. Northington of Fredricksburg Memorial National Military Park.

On October 10, Sup't. F. S. Ronalds of Morristown Nat'l. Historical Park; Chief of Information, Herbert Evison of the Director's Office; Chief Historian, Ronald F. Lee of the Director's Office; Regional Archaeologist, Erik Reed of Region Three.

Naturalist Natt Dodge and wife and William E. Macy visited the Well October 13. Their arrival was after 5:00 P.M. and they did not drop down to the house to make their presence known. Perhaps they visualized 1001 questions pertaining to the museum and decided to move on.

The following excerpts were taken from Archaeologist Schroeder's report from Montezuma Well.

Administration Daily duty was maintained except for liew days and four days spent relieving employees at the Castle.

The majority of thermonth was spent on "winterizing" projects, which was cause for the lack of contacts during the month. The pump shed was completed; insulation was laid down in the attic of the quarters; one foundation wall of the oil rack was poured; a small temporary bridge was erected over the irrigation ditch to the quarters for oil service, etc; and the museum stove was cleaned out and set up.

The septic tank failed again and its faulty operation was corrected by the contractor who turned the tank around into its proper position.

One-half day was spent obtaining supplies in Cottonwood.

Heavy winds continued to blow down large branches from the trees in the picnic and barn areas. One fell into the ditch in such a manner to form a dam causing some overflow. It was removed with the aid of the truck.

Records A map of the burial ground and another of the quarters area showing hidden and other installations were drawn up in finished form.

New bird observations for the area include the Sage Thrasher, Virginia Rail, and Mallard.

Visitors The Verde Valley Pioneer Association's semi-annual picnic was held at the picnic grounds October 3. 127 attended. Attendance was halved by a similar picnic which was revived a few years ago under the old tree at Middle Verde where the first church service was held in the valley.

National Park Service visitors to Montezuma Well have been included with those listed elsewhere.

R. S. Leding,
Acting Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Arches
NATIONAL MONUMENT
Moab, Utah

October 26, 1949

MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Natural Bridges National Monument for the month of October, 1949:

GENERAL: This monument was officially closed for the season on October 12th, at which time Temporary Ranger Redd was terminated and all equipment, etc was moved to Arches for the winter.

WEATHER: The weather to October 12th was as a general rule pleasantly warm during the day with cool nights. Heavy rains fell on September 28th and October 4th which caused slippery roads and cut down on the visitation.

TRAVEL AND INTERPRETIVE SERVICES: A total of 31 cars and 81 people visited the area prior to October 12th. Of these, 26 parties of 62 people were contacted at headquarters and 6 parties of 19 people visited the area in the absence of the ranger. One party of two people were conducted on a tour of the three bridges and 8 parties containing 16 people were contacted at Blanding. Travel was estimated for the balance of the month at 16 cars and 49 people making a total of 47 cars and 130 people.

ROADS: The storm of October 4th made the approach road dangerous and it was not until October [illegible] that visitors were again able to gain access to the area. Logging operations are still having an adverse effect on this road. The White Canyon road is in fair shape and travel is still coming by this route.

TRAILS: All trails are in passable shape and well marked for any travel that arrives before the Elk Mountain road is snowed in.

Acting Superintendent

(in trip.)

NAVAJO NATIONAL MONUMENT
TONALEA, ARIZONA

Oct. 25, 1948

MEMORANDUM for the Regional Director, Region Three

There follows a narrative report of activities in this area for the month of October 1948.

PUBLIC TRAVEL

40 visitors reached this area in 18 cars. They chose their activities as follows: 25 visitors in 11 parties walked Sandal Trail to Betatakin Point for the rim view, 14 visitors in 6 parties hiked to Betatakin, 24 visitors in 8 groups were given the combined Museum and Orientation treatment. All visitors to the area were contacted and received guidance.

N.P.S. VISITORS

Supt. Budlong of Scotts Bluff and Chief Ranger Hershler of Rocky Mountain National Park with Mrs. Hershler visited this area enroute from the Superintendents Conference on the 9th. Messrs. Evison, Lee and Reed made a hurried but complete-on-the-mesa visit on the 11th. These fellows looked over the rim to Betatakin and Scaffold House, gave a brief glance at our brief museum, the utility area, the Water Pumphouse, campground and residence area.

REPORTWORTHY VISITOR

Josef Muench, noted Western photographer took some more pictures on the 23rd.

ROADS

Approach roads are in better than average condition.

WEATHER

Days have been largely pleasant, nites are getting chilly. The first freeze occured during our absence to the Superintendents Conference. Maximum temperature was 70 degrees on the 14th, minimum temperature was 32 degrees on three nites. Precipitation totalled 0.81 inches.

October 25, 1948

MAINTENANCE

Dodge pickup 31794 was changed from it's green, red, yellow, black and chromium color scheme to regulation black. All accessories, shovel, axe, tool box and mounts were also sprayed black.
The tool-house floor was given a bitumels treatment.
Furnace flues were cleaned and checked for operation.

PROJECTS FOR ENSUING MONTH

Repaint the dump truck I 31803 regulation yellow.
The material, conduit and cable, are on hand to install underground wires from the tool/power house to residence #1, and completion of trench and connection will be accomplished.

Further decentralization of our files and records will be undertaken. One 4 drawer filing cabinet in the residence cannot indefinitely accommodate the growing files. All Naturalist files are being moved to the Contact Station and all photographic files have been assembled in the bedroom--the maintenance, equipment and supply record will be moved to the tool-house.

GENERAL

We believe the Superintendents Conference was a complete success and that we benefited beyond our expectations. This was our first chance to meet many an old timer in the service and our first meeting with some of the Directors staff.

J.W. Brower, jr.,
Supt.

ORGAN PIPE CACTUS NATIONAL MONUMENT

P. O. Box 38, Ajo, Arizona

October 24, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of October, 1948.

Weather

A surprise rain of 2.10 inches fell over the entire monument on September 16, 17 and 18. The rain, unusual for this time of year, was absorbed as it fell and there was very little runoff so plants are looking much better.

Special Activities

The superintendent attended the National Park Service conference at the Grand Canyon on October 4 to 8. A trip was also made to Phoenix for supplies on October 15.

Inspections

Regional Naturalist Dodge and Museum Curator Macy visited the area on October 11 and 12 in connection with interpretation.

Master Plan

Information for revision of the interpretive section of the master plan was forwarded to the Region Naturalist.

Travel

The visitor season is starting and we have a greater demand for information and interpretation.

Co-operating Government Agencies

Materials are on the ground for 11 more miles of border fence from Davis Canyon westward.

The sheriff's office in Ajo has been reorganized and more co-operation from them seems assured.

RECEIVED
OCT 26 1948
NATIONAL PARK SERVICE
III REGIONAL OFFICE

The customs office at the border now has one more man who works mainly on the admission of fish and shrimp from Punto Penasco.

Private Development

The Organ Pipe Cafe and Buffet has opened for business on the Luke property at the border.

William R. Supernaugh,
Superintendent.

Saguaro National Monument
Tucson, Arizona

October 26, 1948.

MEMORANDUM for the Regional Director,
Region Three.

Submitted herewith is the monthly report of activities at Saguaro National Monument for October, 1948.

General.

The weather during October was generally warm until the 18th, when heavy rains fell amounting to one and one-half inches of precipitation. At this writing the day time temperatures are pleasant, the maximum is seldom over eighty degrees. Winter visitors to Tucson are arriving daily, and a decided up swing in travel to Saguaro has been reflected.

Mr. Packard, the new owner of the X9 Ranch, has removed the extra telephone from our circuit, this has resulted in improving communications on the entire circuit.

Special Activities.

The Superintendent attended the Park Service Conference at Grand Canyon over the period October 4 to 7 inclusive. It is quite certain that all in attendance, returned to their areas with a better administrative perspective.

Inspections.

Associate Director A. E. Demaray, spent October 14 inspecting the monument and conferring with the superintendent on matters pertaining to Saguaro.

Visitors.

Superintendent Julian C. Spotts and Mrs. Spotts, Jefferson National Expansion Memorial, St. Louis, Mo.

Ranger Frederick Brueck and Family, Grand Canyon National Park, Arizona.

Maintenance.

The work of brushing out the Madrona-Happy Valley Saddle Trail is progressing as time and available personnel permits.

The loop road through the cactus area was dragged once during the month, it is in fair condition except where it crosses the stream beds.

Strong winds caused several dead trees to fall across the pasture fence at Spud Rock, allowing the stock to get out. The fence was repaired and the mules returned to the pasture.

The Approach road from Broadway was graded once during October, it is in better condition than it has been all summer. No grading was accomplished on the Vail approach, it is rough and not very popular with monument visitors.

A rumor has been circulating to the effect that a new approach road to Saguaro was contemplated. The Pima County Engineer was contacted to verify this report. He informed the writer that no formal plans had been accomplished, it was merely being discussed. He agreed to inform this office whenever definite plans envelope.

Increase or Decrease in Travel.

Travel to the monument shows an increase of 320 persons over September, an increase of 56 %. A total of 887 visitors arriving in 300 cars, were registered for October, thirty three states and Norway were represented.

Interpretive Service.

328 people in 109 parties were given interpretive service at headquarters, for a total of 2090 minutes or an average of 19 minutes per party.

Marvin H. Frost Sr. gave an excellent talk on Saguaro National Monument, illustrated with kodachrome slides, at the regular meeting of the Tucson Natural History Association, on October 13, 1948.

Ranger Service.

Seasonal Ranger Marvin H. Frost Sr. entered on duty October 5, to serve during the absence of both Ranger Wilde and the superintendent.

Ranger Wilde was ordered to active duty with the U. S. Air Force over the period October 4 to 16 inclusive.

Personnel.

Maintenanceman Ollie O. Barney Jr. was on annual leave from October 8 to 17 inclusive.

Radio.

Weekly radio schedules are now in effect with Organ Pipe Cactus and Chiricahua National Monuments. Broadcast time is at 2 A. M. Sunday, this schedule will be in effect during the winter months.

Samuel A. King
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Sunset Crater NATIONAL MONUMENT

Flagstaff, Arizona

September 28 19 46

MEMORANDUM for the Regional Director, Region Three.

There follows a report of the activities of Sunset Crater National Monument for the month of October 1948:

Weather: Weather the past month has been typical for October with minimum temperatures dropping below the freezing point and several days of precipitation in the form of rain.

Roads: Condition of the entrance road from Highway 89 has neither improved nor deteriorated particularly over last month. We are anxiously awaiting the arrival of the motor patrol in order to put this road in shape to be packed by winter snows. The bulk of the comments on the register sheets complain of road conditions.

Travel: Visitor use increased 12% over October of last year, the number of visitors actually registering being 915 which is considered to be only 40% of the total travel. The only personal contact provided at Sunset this month was on October 3rd when Ranger Euler went up to orient visiting "brass-hats."

NPS Visitors: En Route to the Conference at Grand Canyon quite a number of NPS personnel and their families visited Sunset Crater -- see list in the Wupatki report. Official inspections were made by the following: Director & Mrs. Newton B. Drury following the Conference; Chief Historian R. P. Lee and Chief of Information Evison, accompanied by Erik Reed; Regional Naturalist Dodge and Museum Planner Macy looked over the proposed development site and the area in general, the primary purpose of this trip being orientation for Mr. Macy.

David J. Jones
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

TONTO NATIONAL MONUMENT
ROOSEVELT, ARIZONA.

October 25, 1948

MEMORANDUM for the Regional Director, Region Three.

Following is a report of activities at Tonto National Monument for the month of October, 1948.

Weather. With rain on October 18- 19, the summer broke, and Roosevelt Lake is livable again. Temperatures 50 - 80 diurnal range.

Approaches to Monument. On October 1, State Highway Grader Operator Ab Sanders bladed the entrance road, putting it in good condition.

Interpretive Service. Museum was open all month despite absence of the superintendent at the Conference.

Travel. Up more than 40% from October last year, with 953 visitors in 268 vehicles this month. If that is a trend, Tonto will be very busy from now on.

Publicity. Tonto has a good picture and a well written paragraph in the new Globe leaflet put out by the Chamber of Commerce. The Superintendent gave the Chamber of Commerce a large Kodachrome of the Lower Ruins, as well as a supply of 2-fold leaflets.

Conference. Custodian and Mrs. Charles C. Sharp left Tonto October 3 for the National Park Service Conference at Grand Canyon, and Superintendent and Mrs. Sharp returned October 9. On duty Oct. 10. I think I learned quite a bit at the Canyon, both curricular and extra-curricular.

Visitors. Regional Naturalist Natt Dodge, Mrs. Dodge, and Museum Curator Macy. Supt. Clarence Johnson, Mrs. Johnson and daughter from Chalmette Nat'l Historical Park. Supt. J. C. Spotts, of Jefferson Nat'l Expansion Memorial. Archaeologists Charlie Steen and Gordon Vivian. Supt. Clair V. Cooke and Mrs. Cooke, of Chiricahua.

Power Plants. Archaeologist Pierson has discovered by the empirical method that an occasional slug of Comite or Sears Motor Tune will keep the 3 K.W. Onan plants operating much longer between overhauls. This may be useful in other areas, if there is anything you haven't tried.

Charles C. Sharp
Superintendent.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Tumacacori National Monument
Tumacacori, Arizona

October 25, 1948.

MEMORANDUM for the Regional Director,
Region Three.

WEATHER CONDITIONS: 2.54 inches of rain fell. This would have done a great deal of good to vegetation in this region if the rain had been well distributed throughout the month. As it was, most of the water fell in one two-day period late in September. Temperatures ranged from minimum of 41 on October 16 to maximum of 95 on September 26 and October 3.

INCREASE OR DECREASE IN TRAVEL: October visitors numbered 1545, the highest October count on record. Highest previous October was for 1946, with 1503 visitors.

INTERPRETIVE SERVICE: 696 persons went on 137 guided trips through the mission church and grounds, receiving an average of 34.96 minutes per trip. 1,472 persons saw the museum, and 1,482 received combined information and interpretation service.

VISITORS: 10-1 - Sup't and Mrs. Julian C. Spotts, Jefferson Expansion Memorial.

10-2 - G. F. Schuessler, Administrative Analyst, Bureau of the Budget.

10-14 - Mary L. Greene, of Old Custom House, Monterey. She is an old friend of Mr. Drury's.

10-16 - Bernarr Bates, Travel Editor, Sunset Magazine.

10-21 - Mr. and Mrs. Trent E. Sanford, especially interested. He is author of "The Story of Architecture in Mexico."

10-22 - Ranger and Mrs. Fred R. Brucok, Grand Canyon National Park.

10-23 - 43 girls and 3 nuns from St. Joseph's Academy, Tucson, were unusually interested visitors.

INSPECTIONS: 10-4 Archaeologist Steen, of the Regional Office, and Archaeological Foreman Vivian, were in for examination of stabilization work.

10-10 Regional Naturalist and Mrs. Natt Dodge brought Museum Curator Macey in to acquaint him further with SW museums.

MAINTENANCE: Plumbing fixtures in Residence No. 2 were partially renovated and leaks stopped. Old linoleum was taken up and new linoleum

laid in this room. The new linoleum was varnished, and the walls and ceiling re-painted. A SW Monuments Association surplus glass display case was crated and sent to Gran Quivira National Monument. The incinerator was cleaned. An overload in one museum exhibit room's lights was solved by wiring in an extra circuit. Routine maintenance was kept current.

PERSONNEL: During Custodian's absence at Park Service conference at Grand Canyon, Per Diem guide Judy England worked two and a half days.

NATURE: First recorded observations on the monument for the following birds were made: Rocky Mountain Nuthatch, Lewis Woodpecker, and Sage Thrasher.

Karl Jackson,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

TUZIGOOT NATIONAL MONUMENT

CLARKDALE, ARIZONA

OCTOBER 20, 1948. 19

MEMORANDUM for the Regional Director, Region Three.

Following is the monthly narrative report for Tuzigoot National Monument for October, 1948.

Visitors this month - 1621 Travel year to date, - 1621

Travel Data and Trends: If the first month of the current travel year is an indication of what we may expect during the coming year, 1949 promises to be another record breaker. 1621 visitors arrived in 536 cars this month compared with 1211 in 420 cars for October of 1947. California continues to lead the parade. However, visitors from the north and northeastern states are arriving in increasing numbers, apparently in an effort to avoid the approaching winter months.

Guide and Contact Service: Museum, ruins and orientation contacts totaled 3613 for the month. 1297 people in 474 parties were shown through and given an orientation lecture in the museum, and 1281 people in 463 parties were conducted through the ruins. The average time spent by each party in the museum was 22 minutes, while the tour through the ruins required 21 minutes per party.

Personnel Time: 170 hours, 45 minutes. Ruins: 162 hours, 05 minutes. Total contact time for Bright: 150 hours, 55 minutes. For Richert: 161 hours, 55 minutes.

N.P.S. Visitors: We are pleased to have had the following visitors during the past month. Mr. and Mrs. J. Walter Coleman, Gettysburg Nat'l. Mil. Park. Mr. and Mrs. Elbert Cox, Region One Office. Mr. Herbert Evison, Director's Office. Mr. Ronald F. Lee, Director's Office. Mr. and Mrs. E. M. Lisle, Region One Office. Mr. and Mrs. Ross A. Maxwell, Big Bend National Park. Mr. and Mrs. Oscar F. Worthington, Fredericksburg Nat'l. Mil. Park. Mr. Francis S. Ronalds, Morristown Nat'l. Hist. Park. Mr. and Mrs. George H. Shelly, Big Bend Nat'l. Park. Mr. and Mrs. Julian C. Spotts, Jefferson Nat'l. Exp. Mem.

Maintenance and Administration: Water pipeline trouble is getting to be an old and worn-out story. But nevertheless, it continues to break. We lost over 33,000 gallons through four severe leaks during the past 30 days. One of which required all day to locate and fix. The brakes and lights on the Gov't. truck received a complete overhauling and is now safe for driving. Work has been started to cover the 1200 feet of new 2-inch water line to prevent freezing. All 2-1/2 gallon soda and acid fire extinguishers have been emptied, cleaned and refilled.

Edmund W. Wright
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Walnut Canyon National Monument
Flagstaff, Arizona. October 28, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities in Walnut Canyon National Monument for October, 1948:

Weather. Mild and dry. Only two days with slight precipitation.

Visitors. Of the 1,731 total, 1,571 were contacted, and it is estimated that 1,280 made the ruins trip unattended. Attesting to the mild weather for this time of year, 20 parties, or 190 people, used the picnic area.

Park Service people here to see area or check various projects included: Al Bicknell, Fred Binnewies, Perry Brown, Walter Coleman, John Davis, Matt Dodge, Director Drury, George Emery, Herbert Evison, Mr. Fetherstone, Malcolm Gardner, Russell Gibbs, Merodith Guillet, Hubert Gurney, Clarence Johnson, Ronald Lee, Donald Libby, William Macy, Ross Maxwell, Ethel Meinzer, Oscar Northington, P.P. Patnaw, MEX Erik Reed, Francis Ronalds, Bob Rose, George Sholly, Ted Sowers, Charlie Steen, Regional Director Tillotson, Irving Townsend, Gordon Vivian and Alvina Zimmerman.

Activities. The Custodian spent about a week attending the Nat'l Park Service Conference at Grand Canyon. Gordon Vivian and Charlie Steen were here to initiate a ruins stabilization project under the supervision of Archeologist Aida Raymond Rixey. Most of our efforts have been directed in "catching-up" on the routine chores neglected while helping with the installation of the museum last summer. Nothing was done to improve museum; in fact, it was closed several days when it appeared there would be few visiotrs

Wildlife. Four turkey hens were observed in road about 100 yards south of the residences, October 7. For the first time in three or four years, we have some pinyon nuts and acorns to attract turkeys. I have seen few deer this year in contrast to all the other years I've spent here.

Paul L. Beaubien
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Walnut Canyon NATIONAL MONUMENT

Flagstaff, Arizona

October, 25 1948

Here follows the monthly report of the Stabilization (mobile) unit:

Two Navajo's from Wupatki Nat'l Mon. reported for work to the superintendent here on the sixth of the month. The following day Robert Vicklund; who has served as seasonal ranger and laborer at Walnut; reported to duty. Tools and equipment were located and hauled to the old cabin, which will afford a good storage house.

A pack trail was started from the cabin and joined the tourist trail at the west end of the Island. A total of nineteen and a half man days were utilized to construct this 4,713 feet of pack trail.

The Navajo's horses are being used to pack equipment and supplies to unit 739 which is approximately the middle of the "Island".

One and a half hours are required to make a complete pack trip. Due to the scant amount of water the horses were able to pack in; we decided to lower hose over the cliff. We are now able to store nearly three hundred gallons of water in a half hour at the same level as the trail. This cuts packing distance to a third or less of the original.

Stabilization work on the eight room unit of 739 is going along nicely. This unit 739 corresponds to paragraph number four in the mimeographed trail leaflet.

October 25, 1943

MEMORANDUM for the Regional Director, Region Three.

OCTOBER TRAVEL, 1943	1943 TRAVEL YEAR TO DATE
Visitors - 7,966 Cars - 2,027	Visitors - 7,966 Cars - 2,027

Some time I hope to be able to begin my report with a sentence other than, "This month breaks all records", but I cannot this time. Again October leads all like months in our history by almost twelve hundred visitors. Our fiscal year to date is over sixteen thousand visitors ahead of last fiscal year to date, and so it goes. I can only repeat that I marvel that our facilities hold up and give warning that some of the seams are going to split sooner or later. Our power and water, of course, are the most urgent worries and neither our water system nor our electric system is ample for the strain we are putting them to.

Our 7,966 visitors came in 2,027 cars and of that number, fourteen hundred eighty-eight were first-entry cars. Weather conditions have been good on the whole, with a touch of Fall in the air and especially cool nights. Over one inch of rain has aided in the cool touch.

The main official trip of the month was, of course, the Superintendent's Conference held at the Grand Canyon National Park. A splendid conference was attended and it is hoped that many gainful points were brought home. These conferences are always full of subjects vital to our administration and then too, full of inspiration as we mingle with other service men. Another trip was made to Las Cruces on land matters. Little can be gained on land status matters in either Otero or Dona Ana counties since our area is completely within the rocket research lands and the counties merely mark the entire area "Bombing Range".

Several measurements have been taken on the Dog Canyon water flow and it seems to have reached its low early in September since an increase is noted in our later tests.

Little work on the outside has been accomplished. Several pieces of equipment have been "winterized" and the boys have set up a couple of stoves in our lobby and museum in anticipation of some cold weather.

The rains have given us a chance to get our clay roads in good shape and the use of the Army dozer has our dump road in good shape. A noticeable decrease has been noticed in our late evening picnic groups.

Concession activities have been almost in line with our visitor increase and no complaints have been received. Mr. and Mrs. Ward Charles have just returned from a vacation-business trip to Alaska.

So again, with all records broken, we will undertake another month and wonder what November has in store. If all goes well, I hope to get in several days annual leave in November and Ranger Chittum is taking some leave in December to visit sunny California.

Johnwill Faris,
Custodian.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

From October 26, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows the report of activities at Wupatki National Monument for the month of October 1948:

Weather: Seasonable October weather has been the rule, with maximum temperatures ranging in the high 70's and low 80's. Precipitation however has amounted to only .35 inches.

Roads: The fifteen mile approach road from Highway 89 is badly "wash-boarded" along many stretches and continues to be quite dusty. The approach from Sunset Crater is beginning to get some good sized holes in it and sharp rocks are more apparent. Filling of holes and rock removal continues.

Travel: Of the 497 visitors who registered, 307 visited Wupatki Ruin and 260 received guide service. Travel this month was 31% above that of October 1947. It is entirely possible that, as our roads become better, winter and off-season travel will not drop off as it has in past years.

Spring Flow: The measurement for Wupatki spring, which includes both September and October, is 288 g. p. d., a decrease from the last measurement. Kaiser spring is now flowing 1200 g. p. d., an increase of 115 g. p. d. over September.

Special Activities: Some time was spent quelling difficulties between Clyde Peshlacai and Julius Choo, Navajos, and both were warned not to cause any more trouble. Local Navajo labor was supplied for the stabilization work at Walnut Canyon. The annual fall inspection of fire hazards was completed. The Superintendent and family attended the NPS Conference at Grand Canyon during the first week in October. On October 9th several hours were spent with Archeologist Reed, Chief Historian Lee, Chief of Information Evison, and Supt. Ronalds of Morristown, N. J. going over the area, discussing the master plans, interpretation and public relations. It was Mr. Ronalds first visit to Wupatki and we welcomed the opportunity to show him our part of the country.

Visitors: A great number of NPS personnel visited both Wupatki and Sunset Crater this month, many of whom were en route to the Conference at Grand Canyon. Since there were so many, it is possible that inadvertently we have omitted the names of some, but those who did register were: B. T. Campbell and party, Blue Ridge Parkway; Mr. & Mrs. Walter Coleman, Gettysburg; Mr. & Mrs. O. P. Northington, Jr., Fredricksburg NMP; Mr. & Mrs. George Sholly, Big Bend; Mr. & Mrs Rose A. Maxwell, Big Bend; Mr. & Mrs. H. O. Sanborne, Mammoth Cave; Mr. & Mrs. R. Taylor Hoskins, Mammoth Cave; Mr. & Mrs. E. M. Lisle, Region I; Mr. & Mrs. Elbert Cox, Region I; Mr. & Mrs. Malcolm Gardner and family, Natchez Trace Parkway; Mr. & Mrs. Irving Townsend, Aztec Ruins; Ted C. Sowers, Great Sand Dunes; Mr. & Mrs. H. A. Gurney, Appomattox Court House; Mr. & Mrs. George F. Emery, Petersburg NMP; Mr. & Mrs. Clarence Johnson and daughter, Chalmette NHP; Ronald F. Lee, Chief Historian; Francis S. Ronalds, Morristown, N. J.; Herbert Evison, Chief of Information; Mr. & Mrs. A. E. Demary, Associate Director; R. Rixey and family, Chaco Canyon; Mr. & Mrs. Tom Allen, Region I; Mr. & Mrs. Baker, Region II; Mr. & Mrs. N. H. Foster, Statue of Liberty; Mr. Jim Myers, Manassas Battlefield; Archeologist Reed, Region III; Thomas C. Vint, Chief of Development; Gordon Heaton, temporary ranger at Bryce Canyon; Mr. Jones, a concessions consultant; and Guide and Mrs. Featherstone, Carlsbad Caverns.

Vandalism: At Nalakihu Ruin one of the underground pits in the ruin was uncovered by a visitor---very probably this same person took one of the lava metates which disappeared this month. Continually the evidence of increasing vandalism shows up and it can be controlled only by the presence of personnel. Stationing a ranger at the Citadel involves a considerable expense, but with more than 5600 persons passing this spot every year it is a question of preserving it or letting it deteriorate.

Research and Observation: A letter from Dr. H. L. Stahnke of the Arizona State College, Tempe, Scorpion Laboratory, reveals that a specimen of V. Wupatkiensis was recently sent to him by L. F. Keller, Naturalist at Death Valley National Monument, California; also a specimen of Hadrurus spadix, the giant hairy scorpion found around Wupatki. One scorpion, collected by Ranger Euler, turned out to be of the species, V. aquilonis, one of the new species named by Dr. Stahnke in 1939, and of which he had only two specimens. The specimens from which the original description was made were taken 37 miles south of the Grand Canyon on State Highway 64.

Maintenance: A large amount of time was spent in renovating the trailer residence at Heiser Spring. New wiring was installed, cabinets and shelving rebuilt, and a new interior paint job is partially complete at this writing. Our trucks and light plants were "winterized" and one 3 k.w. plant was overhauled. One refrigerator at Heiser Spring was repaired. The old CCC barracks, now being used as a warehouse, was completely cleaned up and weeds surrounding it were cut back, all to lessen the fire danger there. Ranger Euler completed the task of cataloging the library.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PU[illegible]E OF THIS FORM IS TO SECURE AN ACCURATE RECORD [illegible]NTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a figure considerably in excess of the visitors registered in the area during the same period. For comparison, the [illegible] visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

TITLE Irving D. Townsend, Superintendent.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ... NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

Talks: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

Attended Interpretive Stations: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS ENQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

Unattended Interpretive Devices: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

Interpretive Activities Outside the Area: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

Column #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

Column #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

Interpretive Activities Outside of the Area ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

Totals: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. Total Attendance SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND ONE COPY TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENT ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE ... OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing only INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads. Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a figure considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report Em3) and 9 (Report Em5).

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

NAME A.T. Bickmell,
TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

* INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

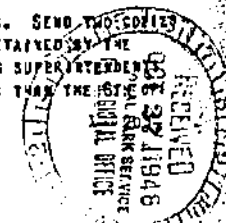
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.



COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENT ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic Structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.). Count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

NAME **Ted O. Sowers**
TITLE **Superintendent**

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO OBTAIN AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS OF A UNIFORM BASIS FOR ALL NPS AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE THOSE ENGAGED ON PROGRAMS DESIGNED TO INFORM VISITORS OF THE SIGNIFICANCE OF THE AREA'S NATURAL, HISTORICAL, AND RECREATIONAL RESOURCES. "ADMINISTRATIVE" ARE CONCERNED WITH PERSONNEL, FINANCE, PROPERTY OR SUPPLY MANAGEMENT. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED ON TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: THOSE CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR BY MOTOR VEHICLE, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALK GIVEN AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE SERVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (EXHIBIT, INFORMATION, REGISTER, SOUND, STUDY COLLECTIONS, ETC.). COUNT MUST BE MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, ECONOMIC ACTIVITIES, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROADS AND TRAILS, VISITOR ACCOMMODATIONS, BUS AND BOAT SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA'S INTERPRETIVE PROGRAM WITHIN VISITORS CIRCLES.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES (WHICH THIS MEANS NO/SHOULD BE DETERMINED AS ACCURATELY AS POSSIBLE AND INCLUDES EXHIBITS, LABELS, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS INCLUDING INTERPRETIVE MATERIAL, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL ALSO INCLUDE ESTIMATES OF THE NUMBER OF VISITORS WHO USED, BUT DID NOT ENROLL.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE OF THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE DISTRIBUTED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. A CAREFUL STUDY OF VISITOR HABITS MUST BE MADE (WITH THE PERIODIC CHECKING AT OCCASIONAL INTERVALS).

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE ENTERED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FOR NUMBER VISITORS WITH WITHIN AREA BY PROVIDED OF IN THE MONTH REPORTED—LOWER RIGHT CORNER. "TOTAL ATTENDANCE" SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE KNOWN.

THIS REPORT ARE FROM ALL NATIONAL PARK SERVICE AREAS PROVIDED BY INTERPRETIVE SERVICES. SEND THE COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE COPY TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED AT THE SUPERINTENDENT'S HEADQUARTERS OR HEADQUARTERS AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENT SHOULD BE PROVIDED WITH A COPY. ISSUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE TENTH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

ATE RECORD OF INTERPRETIVE

NAME Russell L. Nelson

TITLE Acting Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Area officially closed for season on October 15, 1963.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

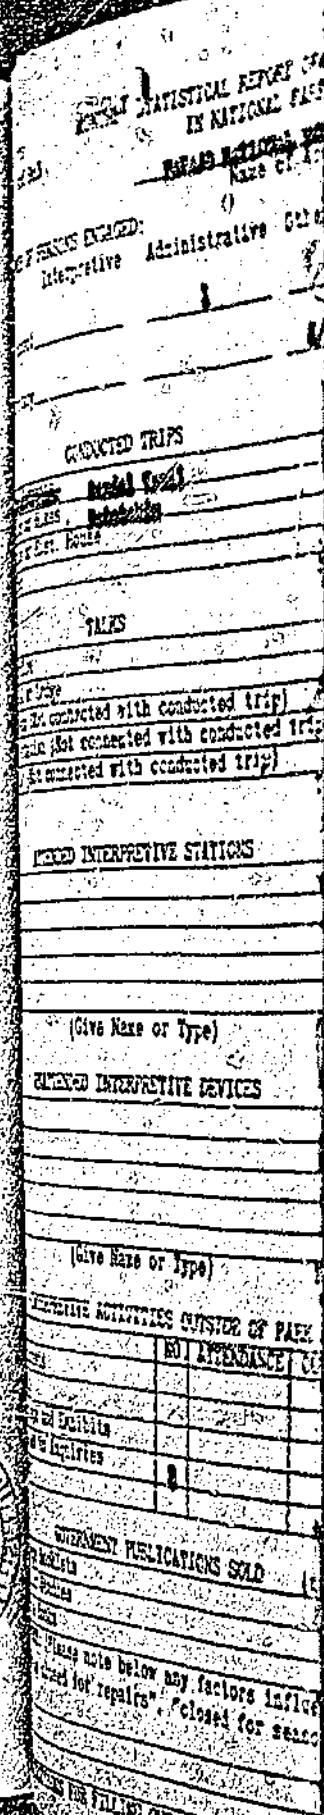
UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.



COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m1).

NAME _____

TITLE William R. Supernaugh, Superintendent.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Office open only 4 days due to demands of other work.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES OFFERING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

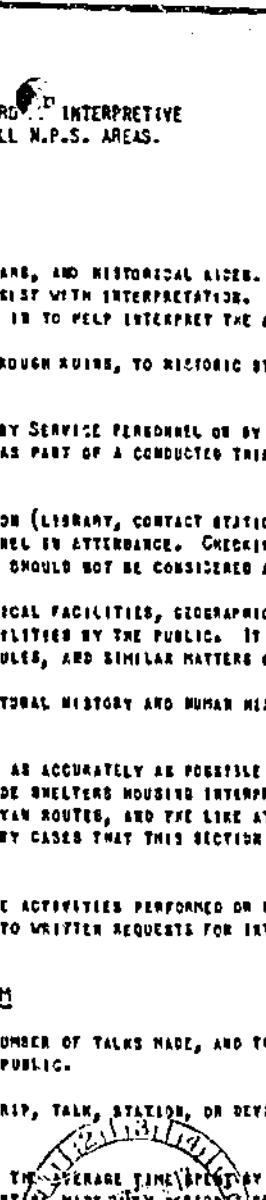
UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.



COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.
Seasonal Ranger Frost on duty October 5 to 12 inclusive.
Ranger Wilde on duty several days when Superintendent absent.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

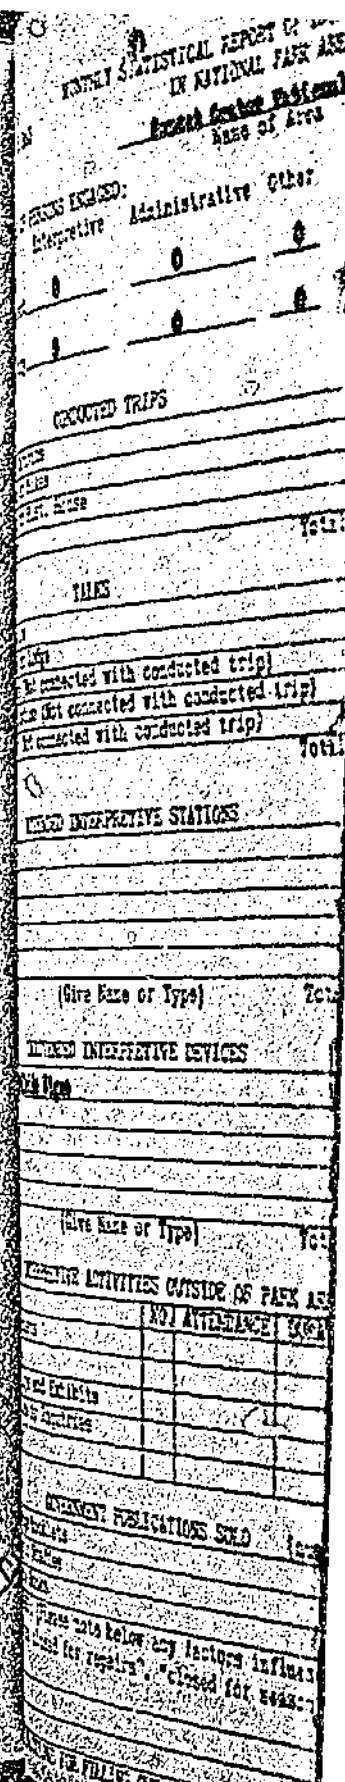
ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".



COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT ONE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a1).

NAME Lloyd E Pierson
TITLE Archeologist.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

OCT 27 1948

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the [illegible] corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS ENQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

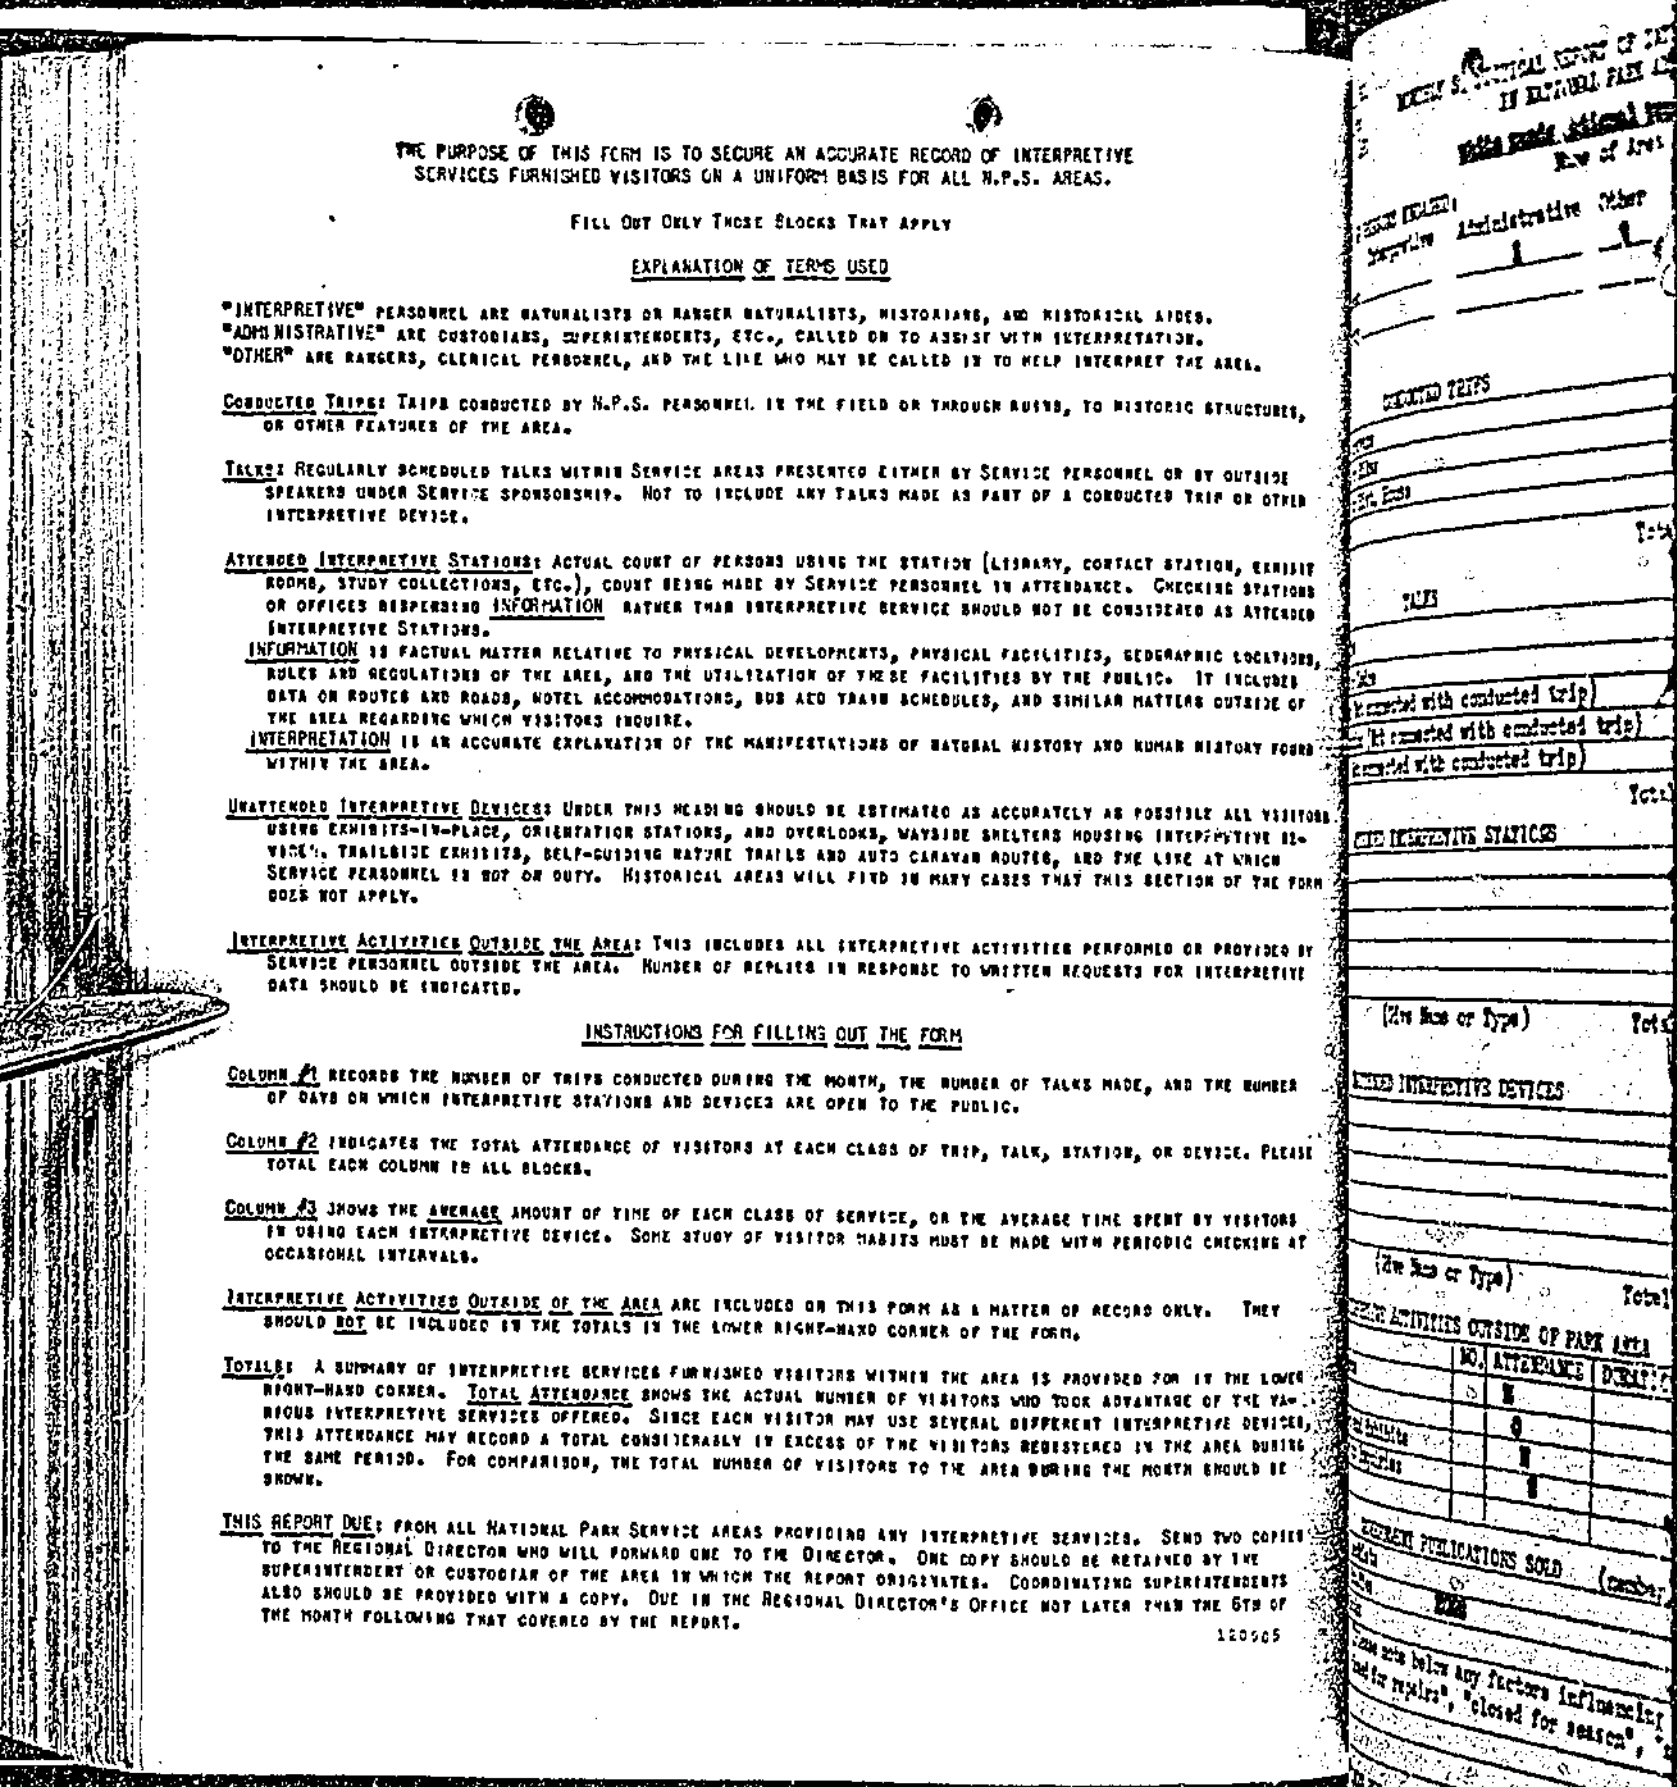
UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.



COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

Superintendent at NPS Conference for one week.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service Personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. (Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report Ss3) and 9 (Report Ss3).

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Region Three
Santa Fe, New Mexico

December 9, 1948.

MEMORANDUM for the Regional Director, Region Three.

Following is the narrative report for the Naturalists of the Southwestern National Monuments for November 1948.

Staff Activities, General

Naturalist Dale S. King was in the office the whole month except for several days of annual leave.

Archeologist Charlie R. Steen visited Walnut Canyon, Tusigoot, Montezuma Castle, Aztec Ruins, and Great Sand Dunes in connection with ruins stabilization and other activities.

Interpretive Administration

An unusual number of informational requests was answered.

Requests for an additional supply of informational folders were made to the Director's Office for Canyon de Chelly and Gran Quivira.

Biographical data on the late Superintendent Frank Pinkley were furnished to the Director's Office for the Mather Collection.

Corrected copy for the twofold leaflet for Casa Grande was forwarded to the Director, and correspondence ensued regarding the Walnut Canyon leaflet.

Correspondence was had with the Director concerning the binding of the registry book for Rainbow Bridge.

Progress of Exhibit Plans and Projects

Steen collected materials for temporary exhibits in the exhibit room at Gran Quivira. These were old photographs, maps, plans, and excavation notes from Service files and from the Museum of New Mexico. It is hoped that a complete set of photographs of the Salinas missions, taken by Lummis in the 1890's, can be obtained from the Southwest Museum.

The preliminary exhibit plan for Walnut Canyon museum was typed in final draft during the month.

Accessions (Other than Library)

Routine submission was made of loan forms for artifacts and paintings on loan at Walnut Canyon.

Cooperative Activities

Additional correspondence was had with the Geology Department at the University of Arizona to interest a geologist in work at Chiricahua.

Region Three Office Loan Library

Accessions for the month totalled 67, including 10 books, 17 pamphlets, and 40 periodicals. The more important books received are:

Beard, Ward P. -- "Teaching Conservation." American Forestry Association, Washington D. C., 1948.

Burgh, Robert F. and Charles R. Scoggin and others. -- "The Archeology of Castle Park, Dinosaur National Monument." University of Colorado Studies, Series in Anthropology No. 2. University of Colorado Press, Boulder, 1948.

Collingwood, G. H. and Warren D. Brush -- "Knowing Your Trees." American Forestry Association, Washington, D. C., 1947.

Ewers, John C. -- "Gustavus Sohon's Portraits of Flathead and Pend d'Oreille Indians, 1854." Smithsonian Miscellaneous Collections, Volume 110, No. 7. Washington, 1948.

Turney, Omar A. -- "Prehistoric Irrigation in Arizona." Arizona State Historian, Phoenix, 1929.

Wedel, Waldo R. -- "Prehistory and the Missouri Valley Development Program." Smithsonian Miscellaneous Collections, Vol. III, No. 2, Washington, 1948.

Southwestern Monuments Association

Executive Secretary King continued work on the annual report, which will be issued in December. He corresponded with the Superintendent at Casa Grande concerning a popular publication for that area.

Two quotations from printers were received by the Museum of Northern Arizona for the proposed printing of "Halakihu" by Dale S. King. These were unexpectedly high, $1,800 and $2,400, respectively. The third quotation is being solicited in the hopes that the bulletin can be published jointly by the Museum of Northern Arizona and the Association.

The Executive Secretary corresponded with Anthropologist Al Whiting of Tumacacori, Arizona, concerning the possible printing of three articles on Hopi Indians. He also corresponded with anthropological writer Hal Cooley of Flagstaff in regard to the possible printing of four booklets on the Indians and ruins of Arizona and New Mexico.

Stoon made a pencilled sketch of a proposed register and publications display case for Tom'o. It is hoped the Regional architects can prepare a plan in the near future for this badly needed piece of furniture.

Treasurer Vedder made the usual two bank deposits and one disbursement. He mailed 198 covers, including 35 letters and 23 purchase orders. This does not include 2,489 envelopes sent out on the mailing list, which brings the grand total to 16,756.

In addition to taking care of routine mail, Treasurer Vedder spent some time posting in journals; gave figures to the Executive Secretary for the annual report; did two headquarters turn-insand posted them; made up a sheet to be stencilled for headquarters turn-ins; checked old purchase orders and sent out follow-ups on unpaid invoices; figured amount of commission due Ray B. Barr on books he has sold since July 1947; and posted several monument turn-ins.

Barbara Vedder worked 52 hours during the month, spending most of her time filing cards and stencils and sending out three new mailings. She also put some of the correspondance files in order and wrapped some packages on our mail orders.

Photographs and Visual Aids

An excellent set of color slides were received from Archeologist Watson Smith of Peabody Museum, Harvard. These show excavations made last summer at Awatobi. They will be divided between the monument and the Regional files.

Ruins Stabilization

Work at Walnut Canyon continued during the month, and Archeologist Aide Hixey will probably be able to work until the second week in December. Archeologist Vivian was forced to shut down the job at Gran Quivira because of bad weather and undependable labor. After December 1, Vivian will come to Santa Fe for approximately three months to work on the Ruins Stabilization Manual.

Technical Aid to Administrators

Several letters were written to applicants for positions in the Service. One letter was written concerning the proposed transfer and promotion of Superintendent Paul Beaubien to Region Two as a P-3 Archeologist.

Information concerning the lightning strike at El Morro was sent to the Director for possible use in "Inside Interior."

Projects for December

Archeologist Steen and Archeologist Vivian will move stabilization equipment from Gran Quivira to Santa Fe for storage, and will spend the remainder of the month in the office.

King will be in the office, completing the Walnut museum plan and the Association's annual report and working on routine matters.

(SGD) DALE S. KING

Dale S. King,
Naturalist.

APPROVED FOR DISTRIBUTION:

/s/ A. E. DAVIS

Regional Director

December 9, 1948.

cc: Mr. Davis (2).
Mr. Dodge (2).

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Arches National Monument
Moab, Utah

November 23, 1948

MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Arches and Natural Bridges National Monuments for the month of November, 1948:

GENERAL: The superintendent was absent from the monument from November 15th through November 16th on a deer hunting trip in the Indian Creek country. He was successful in obtaining additional meat for the larder.

TRAVEL AND INTERPRETIVE SERVICES: Travel for the month fell considerably below that for last month, with 99 cars and 278 people as compared with 274 cars and 683 people for last month and 69 cars and 185 people for November, 1947. We had representation from 17 states and the Union of South Africa, with the bulk of the travel coming from Utah and Colorado. Contact and interpretive work was carried on intermittently during the month with 3 guided trips in various sections of the monument with 24 people. One illustrated talk was given at headquarters to a group of 8 interested visitors. Contacts in the various sections totalled 12 parties and 37 visitors. Contacts in the various sections totalled 12 parties and 37 people and 10 parties of 32 people were contacted at headquarters.

WEATHER: Our winter weather arrived about mid-month and the latter part of the month has seen freezing temperatures each night with cooler days. Rain fell on October 27th, 28th, 30th and November 10th with our first snow of the winter on November 18th and 19th. About 1" fell but melted rapidly except on the shady side hills.

MAINTENANCE: On November 17th a heavy truck with a high load tore out two sections of our telephone line where it crosses US 160 opposite headquarters. It was necessary for us to install two new poles to raise the line in the clear over the highway and one pole was replaced in the headquarters area.

The surplus army house trailer has been placed on a rock foundation and we are ready to start with repairs and remodeling, if and when funds are made available.

BOUNDARIES: Contemplated boundary revisions have been discussed with local people to get their reaction to various proposed changes, and all sentiment seems to be favorable.

PERSONNEL: Merle E. Winbourn, employed for the last several months as truck driver, entered on duty in the new position of maintenanceman on November 10th.

MONUMENT ROADS: Maintenanceman Winbourn spent the entire month grading the roads in the monument. The 12 miles of new road to the Devils Garden and Delicate Arch has been ditched, etc and is in good shape for the winter. Work is now being performed on the Windows road and another two weeks should see this road ready for winter weather, thanks to the Caterpillar power grader recently received.

APPROACH ROADS: The State has been unable to accomplish any work on U-95 during the month and it is in poor shape but passable. Have hopes that they will get something done on this during the coming month, if we do not have a heavy freeze.

VISITORS: Hobart Brownell of Hollywood, California, shooting scenic color movies for the Standard Oil Company on the State of Utah, was in this vicinity from October 31st to November 6th shooting the Arches and surrounding scenery. He was very enthusiastic about the possibilities in this country.

William H. Lane of Leominster, Massachussetts flew in to Moab on November 1st and was shown over the monument during the a. m. of November 2nd, as per arrangements made over the telephone with Mr. Musbaum. During the p. m. of the 2nd he took me on a flight over the monument, Fisher Towers and on to Delta, Colorado and return. This was my first flight over this country and it was very spectacular and thrilling. He left the evening of the 2nd for Capitol Reef National Monument.

O. A. Roach, photographer from Lakewood, Colorado visited the monument on November 2nd and 3rd. He was taking 5 x 10 color shots for the Denver and Rio Grande R. R. Co.

GRAZING: Ranger Worthington made three patrols into the various sections of the monument to check on activities of various stockmen along the boundary of the monument. Only one herd of sheep were in evidence in the vicinity of the monument at that time.

NATURAL BRIDGES NATIONAL MONUMENT: No inspection was made at this area during the month due to press of other work. John Wiley Redd advised me that 91 people had visited the area from October 12th, the official closing date, to November 7th. It was estimated that 27 cars and 75 people visited the area during November. The approach road is still passable, with caution, and evidently a few hardy visitors are still driving to the area. I hope to make one last inspection trip shortly after December 1st, weather permitting.

Russell L. Mahan

Russell L. Mahan
Superintendent

(in trip.)

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

24 Nov 1948

MEMORANDUM for the Regional Director,
Region Three, National Park Service. Report Inl

There follows the report of activities in Aztec Ruins for Nov 1948.

Weather. The latter part of October was stormy and wet, with 1.34 inches of rain fall and melted snow. November has been cold and generally clear with a low of 6 above. Snows in the Rockies have discouraged travel to the Ruins and the cold weather here has played its part.

INSPECTIONS. Architect Loveladv inspected the new construction of the residence on the 9th. Paul Baloh with Sam Crow arrived 15th to locate a camp site for the Soil and Moisture tree cutting crew. Charlie Steen inspected our current ruins stabilization work on 20th, while enroute to Great Sand Dunes.

PUBLICITY. We have received copies of an article in the Oct 24, 1948 Chicago Tribune, concerning the Aztec Ruins, one of which came from Ranger Pierson, Tonto.

The annual news item required by the American Automobile Assoc. was forwarded to that office with copies to Regional Office.

MAINTENANCE. We are carrying on a minor ruins stabilization job necessitated by the development of leaking roofs and walls that have fallen away in places, because of freezing weather.

NEW CONSTRUCTION. The residence building is about 60% complete with current effort being expended in plastering ceilings and walls.

COOPERATING NON-GOVERNMENTAL AGENCIES. The local county road supervisor was contacted regarding the paved road leading to the Ruins with subsequent repairs being made to the road surface.

INTERPRETIVE SERVICE. There were 524 visitors in 119 parties conducted thru the museum and 348 of these were taken in 68 trips thru the ruins.

DECREASE IN TRAVEL. There has been a falling off in travel of approximately 6% this month over a year ago with 524 people in 169 cars from 30 states and Australia.

PERSONNEL. The Superintendent was on annual leave during the first week of the month and enjoyed a little more of the South Rim of the Canyon.

Irving D. Townsend,
Superintendent.

AZTEC

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

November 28, 1948

Memorandum for the Regional Director, Region Three.

There follows a report of the activities at Bandelier National Monument for the month of November, 1948.

Weather

The weather has been very dry all month with only a trace of moisture in the form of a few snow flakes on the 17th. and 26th. Temperatures have been generally cold with a high of 69 degrees on the 3rd. and a low of 8 degrees on the 23rd. The averages have been from 15 to 25 degrees at night and from 45 to 60 during the day. Picnickers continued to use the campground until the middle of the month when the sun went out of sight so early behind the Canyon rim that they have almost entirely stopped coming.

Special Activities

The Superintendent made frequent inspections of the road construction work in the Otowi section to check on conformance of the contractors with special conditions that were included in the permits to construct the roads. An inspection was made with Architect Carter of the denuded area in Sandia Canyon that was reported last month and the Regional Office has requested the AEC to repair the damage.

Maintenance

Maintenance man Valencia has spent most of his time during the month between the power line, power plants, and work on the automotive equipment. Several of our trucks are getting run down at the heels and we are making an effort to many of the minor items that have been neglected under the pressure of repair and rehabilitation work.

New Construction

All of the poles for the power line have been set and the wire strung over them ready for tying in. The transformers, disconnect switches, and lightning arresters were installed and the line should

FOR DEFENSE
BUY
UNITED STATES SAVINGS BONDS AND STAMPS

be completed in another two weeks. We are in hopes that the AEC will complete their section of the line so that we can have power by Christmas. Mr. McNeil, Mesa Verde National Park spent one week assisting with the construction of the line and will return to complete the job as soon as some additional supplies are received.

Approach Road

The contractor on the five miles of the approach road that is under construction has completed all of the coarse gravel base for the road and has packed fine gravel on about four miles. All of the bridge structures have been completed and the cattle guard has been installed at the boundary of the Otowi section. As soon as the fine gravel course is completed work will stop for the winter and the asphalt mat will be laid next spring.

450 tons of gravel were delivered by the Atomic Energy Commission to bad spots on the approach road from Pajarito canyon to the checking station. We used our grader to spread the gravel and generally get the road in condition for the winter. The dry weather throughtout the month has prevented much grading but some of the ditches were opened and drainage improved.

Interpretive Service

327 visitors were conducted through the ruins in 52 groups. The trips averaged 70 minutes long in spite of cold weather and the desire of many visitors to get back to the highway before dark.

Travel

Travel continued to show a decrease as compared with the same period last year. 566 visitors came in to the area which is 23% under last November. While the road construction has had some affect on visitation reports from surrounding communities indicate that travel in general is less than it was a year ago.

Ranger Service

The rangers had their hands full during the hunting season maintaining patrols to prevent poaching on monument lands. The Otowi section is particularly vulnerable and daily patrols were necessary. Four "No Hunting" signs were placed on roads leading in to that section and they helped to inform hunters as to the location of the Monument boundaries. In spite of these precautions one deer was found to have been killed in the Otowi section but no information concerning the violation was obtained.

Wildlife

A flock of about 40 wild turkeys was seen in Capulin Canyon and another of about 25 birds was seen near Corral hill. These are the largest flocks of turkeys that have been seen for several years.

Building Fire Protection

A meeting was held with all personnel to discuss the new Building Fire Control Plan, to insure that everyone is familiar with the details of the plan and the general organization of the fire brigade.

Accidents

While returning from Santa Fe with a load of electrical supplies on the 18th, the Superintendent had a collision with a 2½ ton truck driven by Alfred Tafoya, Alcalde, N. Mex. The accident occurred on a sharp curve in Ancho canyon when Mr. Tafoya cut the curve in taking a run at the hill. It is estimated that $150 to $200 damage was done to the government pickup and there was no damage to the other truck.

Miscellaneous

It's a girl at the Superintendents house as of the 10th. She was born at the Los Alamos hospital and has been named Carolyn Ruth. She weighed 7 lbs. 5 oz. and has brown hair. Other vital statistics will be furnished at a later date.

Personnel

Cipriano Ramirez, clerk, resigned his position on the 19th. Since we did not have housing for his family he was forced to keep them in Albuquerque and commute on week ends. This arrangement was highly unsatisfactory and a considerable expense so Mr. Ramirez accepted a position in Albuquerque, in order to be with his family. Similar difficulties may be experienced with other persons who may fill this position unless more adequate housing can be provided.

(SGD) FRED W. BINNEWIES

Fred W. Binnewies
Superintendent

Canyon de Chelly National Monument
Chinle, Arizona

November 25, 1948

MEMORANDUM for the Regional Director, Region three.

The following is the report on activities at Canyon de Chelly National Monument for the month of November, 1948.

Weather Conditions

The weather has been about normal as far as temperatures are concerned, but not quite as cold as last year. Our minimum was 10 degrees and our maximum was 73 degrees.

We had considerably more moisture, mostly in the form of rain, with one light snow flurry on November 17. The total precipitation for the month was 2.42 inches, of which over 2 inches fell in one storm the early part of the period.

Administration

Office work is current and some time has been spent on bringing our files to date. Four hours of annual leave was taken by the Superintendent on November 12, and he entered on annual leave status November 22.

One trip was made to Gallup, New Mexico for Norco Gas and supplies.

Maintenance

Two Navajo laborers were used in getting in and sawing up around six or seven cords of wood for winter use in the fire places. Gravel was hauled and placed in the worst road spots and around headquarters were needed. A new storage cabinet was built in the East garage and general maintenance and small repairs made to buildings and equipment.

During the luch hour on November 18, a gust of wind blew the draft shut in the office fire place. When the Superintendent returned to his office duties he found a black layer of smoke and soot completly covering the walls, ceiling and furniture. No damage was done, however exposed books and papers are rather dingy appearing. Steps have been taken to prevent this from happening again. A great deal of time was spent in clean up and redecorating the office.

Soil and Moisture

We received our first load of Peach Leaf Willows on November 20 and a second load on November 23. Five Navajos are doing the work at Antelope House and a minimum of work will be done at White House. The work is

RECEIVED
NOV 30 1948
NATIONAL PARK SERVICE
FIELD SERVICE DIV.

progressing quite rapidly and is nearly complete at Antelope House.

Travel

The travel this month is slightly higher than a year ago. There is a considerable increase in this travel year to date and also in this fisical year to date over that of last year. The road conditions are good.

Visitors

Mr. Paul Balch visited Canyon de Chelly this month to outline the Soil and Moisture work that is now in progress.

Publicity

Information was sent to Joseph Miller for travel data. There is an article on Three Turkey House by John Henry Coon in the Natural History Magazine for October.

General

Lamb buying ended in this section with most traders taking a loss. Although the Pinon Crop was pretty good over parts of the reservation it was light in this area.

Robert L. Morris
Robert L. Morris
Acting Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
SOUTHWESTERN NATIONAL MONUMENTS
~~COOLIDGE, ARIZONA~~
Capulin, New Mexico

November 25, 1948

MEMORANDUM for the Regional Director
Region Three, National Park Service
Santa Fe, New Mexico

There follows the narrative report for Capulin Mountain National Monument for the month of November, 1948:

Visitors: There were about twelve hundred visitors to Capulin Mountain National Monumnt during the month of November, making a total of forty eight hundred for the travel year and twenty four thousand six hundred for the fiscal year.

Weather: The weather has been fairly warm and dry during the entire month except for a strong wind andlight snow which came on the eighteenth.

Flora and Fauna: Wildlife in the Monument area is thriving with an abundant crop of pinons and acorns.

Roads and Trails: All roads and trails in the Monument area and approach roads are in excellent condition.

Information Phamphlets: Have distributed no pamphlets this month and still have about seven hundred on hand.

Special Visitor: The highlight of this month was a visit from Assistant Regional Director John Davis, who came over for a three-day deer hunt, which, by the way, was very successful. We camped out and the first night John was compelled to sleep with his socks on, but the next day Bob Hoke arrived with bedding reinforcements. John is a good scout to be out with, and surprised us all with his cooking and dish-washing ability. Know he must be about four inches shorter in stature now from the amount of walking he did. Hope he enjoyed that trip just half as much as I did.

Homer J. Farr
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

November 25, 1948.

MEMORANDUM for the Regional Director,
Region Three.

There follows the narrative report for Casa Grande National Monument for November 1948.

General: Cotton picking is still going on and should continue until about the first of the year. There is now plenty of picking labor available. Senator Ferguson, Republican of Michigan, who is investigating the water situation in Arizona stopped in at the ruins and the water shortage is still acute in this area. Our travel has fallen off considerably from November, 1947, and will continue this way according to many people engaged in the tourist trades. The manager of one of the better Phoenix resort hotels made the statement that they were going to have to work for the tourists dollar this year. There are many vacancies this year whereas last year was booked solid. So it appears that travel this year will be much lighter than last year, although the local resorts and ranches in the Coolidge vicinity are booked solid for all season.

Weather: Variations from a minimum of 21 degrees above to a maximum of 90 were registered during the month. .36 inches of rain fell the night of October 31. This has been weather that any Chamber of Commerce would be proud to own, only one cloudy day all month and very little wind.

Visitors: November 1948 - 2777: November 1947 - 3536: this is a drop of 759 from November of last year. This travel year 4725.

Interpretive Service: Of the 2777 visitors to the area, 1862 made the ruins trip in 179 groups averaging 50.9 minutes per trip. 915 people were here for a quick look but did not make the trip to the ruins.

Administration and Protection: A trip was made to Adamsville to check on vandalism. Seven requests for information were answered. Office work and correspondence were kept current.

Phoenix Dons Make Annual Trek To Casa Grande: On November 21, the Dons Club of Phoenix paid us their annual visit with 160 guests. With the assistance of the Dons, we were able to handle the crowd very nicely. This whole group plus some Coolidge visitors were shown the ruins in two trips. The Coolidge Chamber of Commerce served coffee to everyone and

RECEIVED
NOV 29 1948
NATIONAL PARK SERVICE

dinner music in the form of a four piece Papago bandthat played in the picnic grounds during the picnic lunch. All of the picnic tables were filled and many people from Coolidge, grought card tables but there were still many people eating on the ground. There were about 80 members and families from the Coolidge Chamber of Commerce present who welcomed and pinned a Coolidge ribbon with a picture of the Ruins on all of the visitors. Radio station KCKY of Coolidge was on hand with a wire recorder and interviewed many people and this was rebroadcast at noon when everyone was eating lunch. 462 people in 173 cars visited the area that day. In spite of the crowds, nothing but compliments were received. Superintendent Bicknell made a trip to Phoenix the night of November 18, with members of the Coolidge Chamber of Commerce to meet with the Dons regarding the trek and these advance preparations aided greatly in handling the large crowds.

N.P.S. Visitors and Visitors of Note:

October 25 - Superintendent Sam King of Saguaro National Monumenti in to pick up some equipment.
October 27 - U.S. Representative and Mrs. Lea of California.
October 30 - J. Frank Dobie and Mrs. Dobie, well known author of Folk and buried treasure tales. Formerly associated with the University of Texas.
November 3 - Superintendent Sharp of Tonto National Monument in to exchange their old truck for our Chevrolet Pick up.
November 4 - Col. Florence A. Blanchfield, U.S.A.Ret. Retired head of the Army Nurse Corps, First woman to be made a Col. in the United States Army.
November 14- The Altrusia Clubs of Southern Arizona held a meeting and picnic with 67 ladies present.
November 15-Ranger Wilde of Saguaro in to pick up some poles.
November 17- Senator and Mrs. Homer Ferguson of Michigan with Mr. and Mrs. John Jacobs of Phoenix.

Maintenance: The old Dodge Army truck from Tonto was worked over and put into working order, and several attachments were made to use with the truck: A drag for the sewer field and a drag grader for cleaning and leveling the bbarrow pits, this barrow pit drag will do in two hours the work that the maintenancemen spent 10 days on last spring when doing it by hand. General maintenance and the grounds clean up have been kept up to date.

Leaves Taken: Superintendent Bicknell was on annual leave from Oct. 27 to November 6. Maintenanceman Barnett took 8 hours of annual leave on November 14.

A. T. Bicknell,
Superintendent.

NOV 30 1946
NATIONAL PARK SERVICE
REGION THREE OFFICE

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

~~Chaco Canyon~~ NATIONAL MONUMENT

~~Bloomfield, New Mexico~~

November 25, 1940

MEMORANDUM for the Regional Director, Region Three,
National Park Service.

There follows the report of activities in Chaco Canyon National Monument for the month of November, 1940.

This month, 44 persons visited the Monument. They came from the states and the foreign country of: Colorado - 2 cars, 5 visitors; Massachusetts - 1 car, 2 visitors; Michigan - 1 car, 2 visitors; New Mexico - 10 cars, 32 visitors and Panama - 1 car, 3 visitors. 41 of these persons took a trip through the ruins, forming 12 parties with an average of 85 minutes each. 36 persons formed 11 museum parties of 16 minutes average. Total time spent with the visitors - 19 hours and 55 minutes.

Sixty-seven degrees was the warmest on the 16th of the month and seven degrees Fahrenheit was the coolest night on the 19th. Rain and a little snow fell which formed a total precipitation of 1.42 inches.

Two weeks of steady work have been devoted to the roads. They are at present in much better shape than they have been in a long time, but much more work is required.

The outside pipes about the place have been winterproofed, and in the ranger's quarters the hot water tank and heater, flush box, bowl and others were all drained to prevent freezing. All radiators and including the light plant are good for 30 below zero.

Routine jobs such as greasing the trucks and tractor, constructing a box for the back end of the pickup, putting a preservative stain on the roofs of the rest rooms and others were accomplished.

In the way of repair and rehabilitation work, the interior walls of the

RECEIVED
NOV 30 1940
NATIONAL PARK SERVICE
REGION THREE OFFICE

National Archeological Data Records

residence were patched, sized and the living room, dining room, the hall, both bedrooms and the bathroom were rekalsomined. The floor in the bathroom was re-enameled.

The rabbits are still plentiful as are the antelope ground squirrels and quail. Coyotes can often be heard howling at night, and one was seen at high noon in the campground on the 19th.

The Soil and Moisture crew, under the able direction of Foreman Sam Green, have finished a revetment, gone to the river and cut and trucked two loads of willow posts to Canyon de Chelly and are now hauling others in here for planting. Paul Reich directed the work for several days and was in to Chin o twice.

Projects for the ensuing month:- complete the Soil and Moisture job and complete more road work.

Irving McNeil, Jr.
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

CHIRICAHUA NATIONAL MONUMENT
Dos Cabezos, Arizona

November 30, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Chiricahua National Monument for November.

Weather. 1.68 inches of rain fell during the last week in October and none during the November period. Cold nights and chilling winds have prevailed and low temperature of 17 degrees was reached on the 19th.

Maintenance. Work on the Bonita Canyon road continued during the month. Borrow ditches were cleaned and surplus gravel was used to widen portions of the Sugar-loaf Parking Area. Five man days were used to completely overhaul the 32V light plants; oil rings and valves were installed and the magnetos repaired and cleaned. Several days were spent brushing out the telephone line and installing a new repeating coil. The old entrance road into the Silver Spur Guest Ranch was blocked with several loads of rock and gravel and signs changed accordingly. Rest room and campground maintenance continued as usual.

Approach Roads. Word has been received that the completion of the last three miles of approach road up to the monument boundary will be held up until Spring of next year. This three mile strip has been widened and gravelled but lacks oiling and dust cover.

The south entrance road into the Silver Spur ranch has been closed and all traffic must now pass Headquarters and enter from the east.

Protection. Horseback and truck patrol of the area was conducted throughout the entire hunting season. Forty-two hunters were contacted, most of them in camps near the fringes of the monument, and acquainted with the boundary lines.

General. Several trips were made into Willcox during the month to obtain propane but local shipments have been held up and it was necessary to make a trip into Bisbee for gas. 500 lbs. were secured, enough we hope to carry us another month.

The Superintendent took five days annual leave, Ranger Ringenbach one day, and Operator Marble a day and a half.

NATIONAL PARK SERVICE
RECEIVED
DEC 29 1948

Travel. Travel continued to increase in spite of the adverse weather. 974 persons visited Chiricahua this month as compared to 890 for November of a year ago.

Interpretive Service. One auto caravan to Massai Point was made. Twenty three members of the Boy Scout Troop No. 11, State Industrial School for Boys at Ft. Grant, visited on the 25th and were taken on a short nature hike through the campground area. 783 persons were given interpretive service at the museum.

NATIONAL PARK SERVICE

El Morro NATIONAL MONUMENT

Ramah, New Mexico

November 26, 19 48

MEMORANDUM for the Regional Director, Region Three.

There follows the report of activities in El Morro National Monument for the month of November, 1948/

WEATHER: Although the maximum temperature reached 62 degrees on November 16th. and there were only two days on which we received precipitation, it has been a cold windy month. We recorded a minimum of zero on November 19th.

APPROACH ROADS: Both roads have been dry and passable although quite rough for the first 16 miles in either direction from the monument.

TRAVEL: Inspite of better road conditions our travel this month shows a decrease of 39% from the same period last year. Cold and windy weather account for most of this decrease although the Gallup Chamber of Commerce reports a very low tourist travel.

SPECIAL ACTIVITIES: The Superintendent took three days annual leave for the express purpose of filling the family larder with fresh meat, but failed miserably, although he saw three nice bucks. For the first four days of the season he cooperated with the State Game Department by checking licenses in this area.

PERSONNEL: Cecil Barnes was on duty four hours a day during the Superintendent's absence. The HSWP contacted the visitors.

GENERAL: Four days were spent on a trip to Santa Fe where problems concerning Master Plans, Land Acquisition, Water System, Radio, etc. were discussed, not ot mention the usual shower of questions for Duis. Prices of material and labor were obtained for the repair job on the residence and the sealing of the trails. When labor becomes available(beans gathered & pinons picked) these jobs will be started. The water filter tank was heavily doped and drained in an attempt to clear the algae and I believe after the doping tanks are thoroughly cleaned again ### we will notice a great difference. Atleast it may change the color of our water.

Number of copies of free publications on hand as of the end of November, 1948.

Bates E. Wilson

Bates E. Wilson, Superintendent

GRAN QUIVIRA, NEW MEXICO

NOVEMBER 26 48

MEMORANDUM for the Regional Director, Region Three.

The following is a report of activities at Gran Quivira for the month of November 1946.

General. November has been a cold, fair month with double last year's travel. Road conditions have been good for this time of year.

Weather Conditions. It has been a very dry month. Total precipitation measured 0.43", the last falling on Nov. 4. Maximum temperature recorded was 66° on Nov. 14; Minimum, 12° on the 19th.

Special Activities. On Nov. 9 the superintendent gave an illustrated talk on the Park and Monuments of New Mexico to a group of 29 G.I. Agriculture Students at Mountainair.

Maintenance. A new top was constructed for the pit housing the deep well pump. One day was spent in probing the ailments of the deep well pump engine.

The annual property inventory was completed during the month.

Repair and Rehabilitation. The electrical hook-up of the renovated exhibit and restroom building was completed early in the report period. The exhibit room served as quarters for Mr. Vivian while he was here.

Ruins Stabilization. Most of the report period has been occupied with the ruins stabilization program. Unfortunately the deer hunt, fall crops, funerals, and inertia prevented my obtaining or keeping an adequate labor supply. From this experience it would seem that if such work is carried on in the future it would be advisable to import a crew.

Gordon Vivian's report on the work accomplished is attached.

Approaches to Monument. Good.

Interpretive Service. 37 parties totaling 131 people were guided through the ruins. Average trip time, 39 Min.; Total time, 24 1/3 hr. The average trip time dropped considerably this month. The November breezes around the ruins are not conducive to loitering.

RECEIVED Nov 29 1946 NATIONAL PARK SERVICE REGIONAL OFFICE THREE

Increase in Travel. Travel this month was more than double that of November last year. Good weather was a contributing factor.

NATIONAL PARK SERVICE

..... NATIONAL MONUMENT
Gran Quivira National Monument
Gran Quivira, New Mexico
November 24, 1948
..... 19.....

MEMORANDUM for the Superintendent,
Gran Quivira National Monument.

There follows the report of Mobile Unit activities in your area during November 1948.

As of today stabilization of the Mission is being terminated; materials and equipment are being readied for transfer to the Region for storage.

Reasons for the early termination of the work are an unsatisfactory labor supply and increasingly cold weather which not only makes work difficult but makes it almost impossible to protect masonry from freezing.

During the month a total of 8 men were hired. From these we recieved 44 Man Days of labor. Six Man Days were lost to the weather and 43 M.D. were lost to the hunting season, to farm chores such as picking sunflowers and oth er thin excuses. These totals do not include 22 additional M.D. lost to resignations after the first week.

The steadiest labor supply was furnished by Supt. Bill Bowen who has donated 17 days at hard labor.since we'vebeen here - 4 more then the best hired hand.

All work was confined to the north wall of the Mission, west of the Baptistry. Approximately one half of this north wall has been completed. Repairs were made to both the interior and exterior of the wall and all repair has been finished with a heavy, reinforced concrete capping.

Gordon Vivian
Archeologist

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
GREAT SAND DUNES NATIONAL MONUMENT
MOSCA, COLORADO

November 28, 1948.

MEMORANDUM for the Regional Director,
Region Three.

There follows the report of activities in Great Sand Dunes National Monument for November, 1948.

GENERAL. Superintendent on annual leave from November 1 thru December 6.

WEATHER. Winter is definitely here at Great Sand Dunes and the San Luis Valley.

The minimum of -3 degrees was registered on November 19. The maximum of 63 degrees was reached on October 26. The high minimum was 30 degrees on October 28 and 31; November 1,4 and 7. The low maximum was 22 degrees on November 8.

Snow fell on October 28 and 31; November 8,17,20,21 and 25. Strong winds on November 7,8,11,17 and 24.

There were 18 clear days; 2 partly cloudy and 10 cloudy days during this report period.

TRAVEL. Two hundred and sixty-four visitors in eighty-nine cars visited the Sand Dunes during this report period. Twelve states were represented. Twenty-seven people took advantage of the picnic areas. Seven days show no visitors to this area.

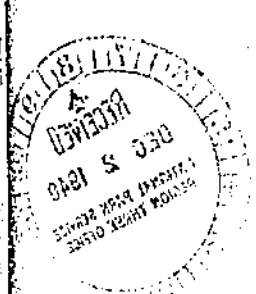
DECREASE IN TRAVEL. For November, 1947 there were 124 cars and 399 visitors. This drop is due to cold and bad weather.

CONTACT. Contact with visitors was done only four days, as the Superintendent was on annual leave. Thirty-four cars were contacted, with a total of seventy-three visitors. Contact time amounted to six hours.

ROADS. The State graded the approach road from Mosca to headquarters on November 6 and 20.

N.P.S. VISITORS. Architect Saunders, October 29, on Repair-Rehabilitation Program. Archaeologist Steen, November 20, on Interpretation Program.

ACTIVITIES. Usual routine duties of checking light plants, hauling, cleaning picnic areas and comfort stations, and trying to keep office and administrative matters current.



Drained all outside faucets, restrooms and hose at headquarters, also faucet at lower picnic area.

Built two inside covers for the water storage tanks, and placed sacks of straw between covers to help prevent freezing.

The No.1 light plant was torn down, as again it is valve spring trouble.

Mr. George Ziegler removed his cattle from his land through this area on November 1.

Ted C. Sowers,
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Montezuma Castle National Monument
Camp Verde, Arizona

November 24, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly report of activities at Montezuma Castle National Monument for the month of November, 1948.

Visitors this month to Castle and Well - 1439; travel year to date - 3766.

Administration The Superintendent was on annual leave October 25 through November 13 except October 27 and lieu days.

On October 27 Col. A. E. Dopmeyer, Senior Sanitary Engineer of The Public Health Service and Harry S. Jordan, Acting State Sanitary Engineer visited the monument to consider our problem of contaminated water. It was found that the sewer from the office and museum building runs very close to the well. Certain recommendations to alter the sewer system were made and improvements on the well suggested.

A key rack to facilitate segregation of our keys was made.

Some work was done on transferring our Fact File to a Cardex case.

Our system of keeping SWNMA sales records was revised.

Ranger Leding was the only one on duty Armstice Day. Travel was fairly heavy with six trips through the Castle.

Our annual inventory has been started. The check-up is complete and the report of inventory will soon be submitted.

Weather The weather has remained so dry it has caused considerable concern in Arizona. During November there has been no precipitation at this monument and little anywhere in the State.

Maintenance A new lock was installed on the of door.

One trip was made to the pine forest near Apache Maid Ranger Station for fire place wood on November 17.

Visitors There were 1173 visitors to Montezuma Castle who came in 396 cars and 266 visitors in 123 cars to Montezuma Well. Visitors to Montezuma Castle show an increase of 15 per cent over last November and at Montezuma Well a visitor decrease of 23 per cent but a car increase of 6 per cent.

RECEIVED DEC 2 NATIONAL PARK SERVICE REGION THREE

Visitor decline is probably partially due to incomplete registration per car on days when there is no one on duty .

Contacts One hundred and ten trips were made through the Castle for 399 visitors. 568 visitors in 165 groups saw the museum. 240 visitors received information outside the ruins or museum. Total contact time 144.25 hours. Hastings - 30.75; Leding - 80.50; Schroeder - 17.00.

Of 81 visitors contacted at Montezuma Well, 25 visited the museum.

Publications Sales During the month a total of $54.25 was collected. There was a shortage of $6.80 on our "Serve-Your-Self" sales.

The following excerpts were taken from Archaeologist Schroeder's report from Montezuma Well.

Administration Daily duty was maintained except for liou days and as follows: 6 days [illegible] Moved Hastings on annual leave at the Castle.

The majority of the work this month kept me away from the museum resulting in low contacts. In addition two trips were made to the Castle to obtain supplies, one to Cottonwood, and one to Camp Verde to obtain the truck which was undergoing repairs.

Maintanance The following projects were completed, a heater was installed in the quarters; the cement oil rack base was completed and the gravity oil feed to the quarters' stove installed; a cement step was poured for the front porch of the quarters and one was repaired on the back porch; garage doors were made for the car stall between two cabins; a portion of the roof of Cabin 4 was covered with scrap roofing tin; a second coat of paint was put on the house with the exception of the window trim; the pump house was given a second coat of paint; a portion of an old oil drum stand was repaired and set up and several low hanging limbs were pruned in the service drive area.

The fence was patrolled to find all breaks through which cattle might enter.Chief weakness is a stretch of about 100 yards where no fence exists along the bank of Beaver Creek.

Records Some progress was made on typing up duplicate cards for Regional Office files.

New bird observations from the area include the Rocky Mountain Creeper and Sora.

Visitors NPS - Charlie Steen delivered the large areal photograph prepared at the Regional Office for the Well exhibit during my absence on Nov. 17.

Don Jewell, former seasonal ranger at the Castle, dropped in for a brief visit on his return from deer hunting October 31.

Prof. Beaver, Paul Spangle, and Kyron Sutton came down from Flagstaff October 31 to make additional collections for their plant study.

The general science class of the new Verde Valley School visited the Well November 6.

Charles Van Gorder, local Soil Conservation Service Director came to the Well November 12 and gave much needed instruction pertaining to the preservation and pruning of our large trees in the picnic and quarters areas. He further stated that the pruning of the large cottonwoods would require a crew, tall ladders and lots of rope.

Hal Cooley, working on Yavapai County publicity, visited the Well November 16 to check on photographic possibilities.

Homer F. Hastings,
Superintendent.

NAVAJO NATIONAL MONUMENT
TONALEA, ARIZONA

Nov. 25, 1948

MEMORANDUM for the Regional Director, Region Three

There follows the monthly narrative report of activities in this area for the month of November 1948.

PUBLIC TRAVEL

32 visitors arrived at this area in 12 cars. 8 parties used Sandal trail and no other activity was selected.

OTHER GOVERNMENT AGENCY VISITORS

Mrs. Lizbeth Zubenka of USIS on the 25th.
Mr. Loomis and Mr. Bannion of USGS on the 16th.
Mr. and Mrs. Baird of Bureau of Reclamation on the 16th.

WEATHER

The weather has not been conducive to travel. Days have been cold and cloudy. Maximum temperature 57 degrees on the first. Minimum temperature 12 degrees on the 19th. Light snowfall on the 17th and 21st. Total precipitation 0.15 inches.

ROADS

Roads are generally as last reported, better than average. 6 man days were spent on the road to the Water pump Power House to insure a safe trip out for the Climax power unit.

MAINTENANCE

This has been a month of time consuming minor maintenance items.

Leaks sprung in the gasoline line from tank to pump--in the gas line from tube to cook stove. The Kohler swooned. The above mentioned have all been returned to serviceable condition. The gas tank (950 gallon) ran dry when our records showed a 110 gallon balance. Suspecting the man-hole previously reported we sunk an exploratory shaft down to the bottom of the tank--no leak. Suspecting a seam-leak we widened the shaft until the entire tank was exposed--no leak. We finally found the culprit in the shape of a 90 degree ell in the bottom of the pump. Finding some rust spots on the tank we rolled it over, wire brushed and repainted it. A faulty 90 degree check valve was removed and a 1¼" foot-valve was installed inside the tank. The unsightly, unsafe power line from tool house to residence #1 was removed and a heavier multiple cable was installed in 1¼" conduit and placed underground. Only our inability to obtain the conduit at an earlier date had prevented this proper installation.

RECEIVED
NOV 29 1948
NATIONAL PARK SERVICE
REGION THREE OFFICE

MAINTENANCE (con't)

The 5000 Watt LeRoi plant was reassembled and is ready to serve. This plant was picked off the Walnut Canyon survey. We added a radiator from Bandelier and a gas tank that was once a kerosene tank on our refrigerator. The unit is mounted on three wheels we picked up at Wupatki and is ready to roll down to the power house or where needed.

The Climax water pumping power unit was dismantled and is going to Central Warehouse Repair (USFS) Shop on our next trip to Flagstaff. It is now crated to the bed of the pickup.

Two tons of coal were hauled from the Cow Springs Coal mine.

The chronic congestion in the furnace flueway relieved on the 18th. Removal of pipes etc., to get the soot cleaned out is a six hour job and must be performed monthly.

After 13 months fiddle-faddle with our short wave radio we took the bull by the horns. (All of this delay was not the contractors fault, we contributed when the wave length was to be changed from 3025 to 5160 Ke.) The contractor had farmed the job out to a repair man who finally admitted he could not handle the job. I hauled the set back to the contractor (the firm had changed hands since the order was placed) and proposed that we stay with it until it worked. He called in a radio expert and we started testing circuits at 4:30 P.M.--at 5:10 A.M. the receiver was working and we quit--a new antenna relay is indicated. Those bulls have slippery horns.

WILDLIFE

We have a very interesting letter from Mr. J.T. Howell of the California Academy of Sciences. Two new botanical species were collected--CAREX SPECUICOLA and NAMA RETROSUM at Inscription House. Determinations were made by Dr. J.H. Kearney. On Nov. 21st Loppy returned. Loppy was practically a resident all last winter. He's a coyote whose right ear is split longitudinally which makes him easily recognizable. The ear flops hence the nomenclature.

GENERAL

The hatches are battened down for the winter and everything has the best protection we have to offer it.

Soon we take off for Organ Pipe Cactus National Monument and then to California for a tonsillectomy.

Adios Amigos

J.W. Brewer, jr.,
Supt.

UNITED STATES
DEPARTMENT OF THE INTERIOR
ORGAN PIPE NATIONAL PARK SERVICE
P. O. Box 38, Ajo, Arizona

November 26, 1946.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of November, 1946.

WEATHER

Typical fall weather has been the order all month with clear warm days and cool nights. High for the month was 82 on the 16th, with a low of 31 on the 24th. No rain fell during the report period.

GENERAL

The month was routine with usual labor work and interpretive service.

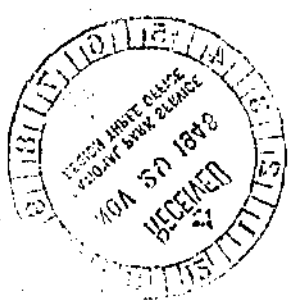
MINING

A company headed by Mr. James Matteo of Tucson has begun work on the old prospect known as the Milton Mine. It is his intention to ship some of the copper ore to determine if it is a paying proposition. While the ore here is fairly high grade, it contains a considerable amount of aluminum and most smelters will not handle it. As yet we are not too much worried about this becoming a large operation but are watching for any developments.

PERSONNEL

Mr. John Rasmussen of Hawthorne, California, has accepted the seasonal ranger position, beginning January 1. All veteran applications were contacted and none found who would wait for the position to open.

MAINTENANCE



One apartment was completed in the quonset and Maintenanceman Quinn moved in on November 26.

TRAVEL

November was one of the lightest travel months for some time, due to the Ajo Mine working 28 days per month, which cuts down most all local travel.

Out of State visitors are increasing regularly and we look forward to a busy interpretive program for the rest of the season.

William R. Supernaugh,
Superintendent.

Saguaro National Monument
Tucson, Arizona

November 25, 1948.

MEMORANDUM for the Regional Director,
Region Three.

There follows the monthly report of activities at Saguaro National Monument for the month of November, 1948.

General.

The month of November was pleasant from the standpoint of weather, the day-time temperatures were warm and the nights cool. Six inches of snow fell at Manning Camp on the night of October 30.

Visitation is increasing daily, with a heavy influx over the week ends.

Several groups of veterans from the U. S. Veterans Hospital in Tucson, visited Saguaro under the auspices of the American Red Cross.

Some one hundred fifty geology students from the University of Arizona made field trips to Saguaro during the month, to study the various rock formations. The classes were conducted under the general direction of Dr. Eddie McKee, Geology Department, University of Arizona.

The deer season terminated with no infractions of the regulations, at least to our knowledge. Many hunters inquired at headquarters and Madrona Ranger Station, as to exact location of monument boundaries. A warning notice was published in the Arizona Daily Star, prior to the deer season, informing the public that hunting was not permitted on lands in Saguaro National Monument, it was apparently effective.

Messrs. C. Bryan and R. E. Millenbaugh of the Forest Pathology Division, Bureau of Plant Industry, made checks on the mortality of Saguaro plants in Section 20. A separate report was submitted to the Regional Office on their findings. Dr. Marvin Fowler, Pathologist, of the same agency, is making a study of buried Saguaro tissue, to determine whether or not the bacterium is still active after being covered with dirt for several years.

Special Activities.

The superintendent attended a meeting of the special committee formed to determine the possibilities of acquiring alienated lands within the present boundaries of the monument. The meeting was held in the Chamber of Commerce building, with Mr. George Chambers, General Manager of the Tucson Newspapers Inc., acting as chairman.

NATIONAL PARK SERVICE
NATIONAL PARKS SERVICE
REGION THREE OFFICE
RECEIVED
NOV 29 1948

Water Supply.

Due to lack of moisture in Chimmea Creek, the water supply (in tanks) at Madrona Ranger Station is nearing depletion. It is hoped that storms will occur in time to forstall the necessity of hauling water with the trailor tank.

Maintenance.

The work of brushing out the Madrona-Happy Valley Trail was completed, this trail as a whole is in fair condition only. Our two-man crew is now engaged in completing the repair work on the lower portion of the Madrona-Grass Shack Trail. One man day was spent repairing the telephone line between Madrona Ranger Station and the Lazy V Ranch.

Cooperating Non-Government Agencies.

Dr. Alice Boyle, Pathologist, University of Arizona, making continued studies of the bacteria necrosis in the cactus area.

Accessions.

A new engine was installed in our Army type dump truck, this was a much needed improvement, as it was impossible to operate it properly with the old motor.

Interpretive Services.

With the increase in travel, more time was devoted to interpretive work, the appreciation on the part of visitors for the interpretive services is most gratifying. A total of 630 people in 190 parties were given interpretive service at headquarters, for an average of 17 minutes per party.

Research and Observations.

Ranger Wilde reported seeing a javalina (Peccary) on the upper Loop road on November 5. Many tracks have also been observed in this general vicinity. One group of five mule deer (does) were seen about one half mile west of Observatory Hill.

Increase or Decrease in Travel

Travel has shown a substantial gain over last month, and an increase of approximately 110 % over the same month for 1947. A total of 1874 persons in 488 cars visited Saguaro during the month. Total visitors for the travel year 1948, 2761

DEPARTMENT OF THE INTERIOR
UNITED STATES
PARK SERVICE

Visitors.

Dr. Homer LeRoy Shantz, former president of the University of Arizona, Santa Barbara, California.

Dr. W. G. Solhiem, Botony Department, University of Wyoming.

Dr. T. V. Veerhies, Biologist, University of Arizona.

K. C. McCarter, former landscape architect in the Regional Directors Office, Region One, Richmond, V.

Donald McLean, former seasonal ranger, Grand Canyon National Park.

Publicity

The Saguaro land problem was given considerable publicity in the Arizona Daily Star on several occasions. With the exception of one or two statements in the articles, they were generally favorable. Mr. George Chambers, Manager of the Tucson Newspapers Inc., has indicated that better general publicity for Saguaro is forthcoming.

Personnel.

Maintenanceman Ollie O. Barney took four hours sick leave on November 5. Labor-Leadman Frank Stansberry took annual leave on November 10 and 12. Ranger Lawrence Wilde took annual leave on November 21.

Miscellaneous.

Employees of Saguaro National Monument contributed $8.00 to the Community Chest Campaign in Tucson.

Samuel A. King
Superintendent

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Sunset Crater NATIONAL MONUMENT
Flagstaff, Arizona

November 26, 1948

MEMORANDUM for the Regional Director, Region Three.

Following is a report of activities at Sunset Crater National Monument for the month of November, 1948:

Weather: Freezing weather has prevailed most of the month at night with a few brief snow flurries. The prevailing clear weather, however, has attracted many visitors to the area.

Roads: The entrance road is in fair condition aside from the "washboard" and we had hope to christen the new patrol on this section of the loop before winter set in. The patrol will have to hurry to do any good before spring.

Travel: Travel decreased somewhat from that of last year, or at least fewer registered. During the month 512 persons registered and the total travel is estimated to have been 1280. Only 40 of these visitor were contacted by personnel temporarily on duty in the area.

Protection: The deer hunting season brought a lot of travel through the Monument in the morning and evening, but without personnel no patrol can be maintained. The danger lies not in the killing of any deer, who are rare transients, but in the decimation of small resident wildlife by unhappy or unsuccessful hunters.

Maintenance Clean-up, that never ending task at Sunset, got the best of us this month without our ranger.

David J. Jones
In Charge.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Tonto National Monument
Roosevelt, Arizona

November 30, 1948

MEMORANDUM for the Regional Director, Region Three.

Following is a report of activities at Tonto National Monument for the month of November, 1948.

Weather. Mostly bright days, temperature 30 - 60 degrees diurnal range ; cold during last week of November.

Approaches to Monument. During the last rain, all three graders on the Roosevelt,- Globe section of Apache Trail were broken down. Result was rough roads. State of Arizona needs equipment about as badly as the Park Service does. Road & Trail-man Constable is working over the entrance road with pick, shovel, and wheelbarrow.

Travel. Up slightly from November last year, with 1068 visitors in 308 cars and 14 tour cars.

Visitors. Archaeologist Don Davis of Casa Grande. Ted Bayles of the U. of Arizona & Dr. Stephan Borhegyi from Hungarian National Museum , Budapest. Mr.& Mrs. Frank Hayne, former Carlsbad guides, and still friends of the Park Service. Mr. & Mrs. Fred Young & Miss Mildred Dean of La Tuna, Tex, family of Mrs. Pierson.

General. We accomplished the following, along with visitor contact: Rebuilt tent house. Traded pickup with Casa Grande (am grateful for their cooperation in letting us have their good Chevy pickup). Issued invitations to bid to five Butane companies. Only response so far was from Matlock of Globe, who inspected the area. Re-arranged the office & have much more space. Received instruction books from Onan Co., who stated " Mr. Pierson, it is normal to have to remove the cylinder heads on these small generating plants quite often." We have a normal plant. Constable built good tool racks in the adobe shed, re-worked the ruins trail, and is working on the road. Inventory was made, is being mailed today.

Charles C. Sharp
Superintendent.

RECEIVED DEC 2 1948 NATIONAL PARK SERVICE REGION THREE OFFICE

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Tumacacori National Monument
Tumacacori, Arizona

November 27, 1948.

MEMORANDUM for the Regional Director,
Region Three.

WEATHER CONDITIONS: No precipitation whatever. This is considered rather dry for November. Temperatures ranged from a minimum of 16, on November 9, to high of 84 on October 28. We have had a large share of cold biting north winds.

INCREASE OR DECREASE IN TRAVEL: November visitors numbered 1,577, which is a sharp decrease below November for the past three years. The figure contrasts with the record November for 1946, which brought 1,819 visitors. No apparent cause for the travel drop has come to light.

INTERPRETIVE SERVICE: 807 persons went on 165 guided trips through the mission church and grounds, receiving an average of 36.84 minutes per trip. 1,510 persons saw the museum, and 1,499 received combined information and interpretation service.

VISITORS: 10-30 - K. B. Sayles, Curator, Arizona State Museum; and Dr. Stephen F. Borhegyi, Ass. Curator, Hungarian National Museum.

11-5 - Superintendent Sam King, of Saguaro National Monument, with house guests.

11-13 - C. C. McCarter, retired Landscape Architect who used to work for Tom Vint.

11-16 - Governor and Mrs. Thomas E. Dewey and family, of the state of New York. Mr. Dewey's mother was with the party, and eight other persons, mostly of the governor's staff.

11-16 Ranger and Mrs. L. Arnberger, of Casa Grande National Monument.

MAINTENANCE: A physical plant 11 years old develops progressively more aches and pains which need maintenance attention. Despite a larger AP&M allotment for this year than last, maintenance costs have been so high that it was not feasible to employ any per diem labor this month. We have spent a good deal of time on the annual summer's end project of raking and burning great quantities of weeds. A painter re-painted the ranger house kitchen. Repairs were effected to plumbing in the comfort station. Heaters were set up again for winter, and the museum furnace was tinkered with. Weatherstripping was done on museum doors, and minor carpentry repairs done on one residence. Wiring troubles in the museum were coped with. Some winter blooming annuals were planted in the patio garden. A surplus typewriter was crated and shipped to the Bureau of Federal Supply.

RECEIVED
DEC 2 1948
NATIONAL PARK SERVICE
REGION THREE OFFICE

RED CROSS FIRST AID: On November 9 the superintendent received a first aid call to the house of the Cardials, across the street from the museum. The man of the house had driven a pick point into his foot, and took it for granted I was a doctor as well as a first aider. The call was of value principally in that it was possible to convince him he should go into town to see a doctor and get anti-tetanus shots.

PERSONNEL: Ranger Brewer took 3 hours annual leave, 4 hours sick leave. Superintendent Jackson took one hour annual leave and two hours sick leave.

PUBLICITY: The two Nogales newspapers have on file with us requests for monthly travel figures, and for any news of particular significance. Regularly they enthusiastically give Tumacacori its full share of news space. The visit of Governor Dewey and party was the subject of a big front page story in the Nogales Herald, Nogales' only daily. While the story was mainly of the visit of this party to Nogales, their visit to Tumacacori en route to Nogales was well reported, near the head of the story.

TUMACACORI TREASURE: Another treasure hunter has approached us, this time in what is apparently a public spirited mood. He merely wishes to bring his metal detector, which he says is essentially what the Army used for detecting land mines, and go about over the mission grounds with it, in hopes of locating the "mythical" escape tunnel of the missionaries, and possibly the bells of Tumacacori. Permission has been granted to scour the grounds with the detector, but the gentleman has been unconditionally informed that I have no authority to let him sink a shovel into the ground. It would be interesting, of course, if the metal detector made it possible for us to stake out the location of one or more of the long lost Tumacacori bells.

In connection with the Tumacacori bells, referred to by a traveler in 1849 as being still at the church, but not referred to in writing by later travelers, a local citizen of good standing (name withheld) advises that a friend of his in Sonora (name withheld) has one of the Tumacacori bells, and that when he dies the bell will be given to the Tumacacori Museum. My name cannot be withheld!

Earl Jackson

Earl Jackson,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA

NOVEMBER 26, 1948 19

MEMORANDUM for the Regional Director, Region Three.

Following is the monthly narrative report for Tuzigoot National Monument for November, 1948.

Visitors this month - 935 Travel year to date - 2459

Travel Data and Trends: Travel so far this year is running about 17% over the corresponding period of last year and it begins to shape up as another record breaking travel year. California leads by far all other out-of-staters. Increased travel was due partly to ideal weather. November started warm and grew progressively cooler with clear brisk days. No precipitation of any nature during the month.

Guide and Contact Service: Museum, ruins and orientation contacts totaled 2094. 791 people in 300 parties were shown through and given an orientation lecture in the museum, and 783 people in 295 parties were conducted through the ruins. the average time spent by each party in the museum was 22 minutes, while the tour through the ruins required 21 minutes per party. Ranger Richert is now on Annual Leave. Interpretive service is not interrupted as the monument is kept open to the public all days of the week by the Superintendent.

Personnel Time: Museum: 107 hours, 25 minutes. Ruins: 102 hours, 40 minutes. Total contact time for Bright: 155 hours, 40 minutes. For Richert: 54 hours, 25 minutes.

N.P.S. Visitors: We are pleased to have Archeologist Charlie R. Steen pay us a visit on November 16, and his helpful suggestions on ruins stabilization were well received. Also, Ranger and Mrs. Pierson from Tonto National Monument on October 28.

Maintenance and Administration: Ranger Richert has taken a month's Annual Leave. He and Mrs. Richert left by car for Kansas on November 13, where they plan to visit friends and relatives. The 1000 foot section of new 2-inch water line was covered during the month to prevent freezing - thanks to the assistance of the County road grader which happened along at the right time. The living room of the living quarters has been completely redecorated.

Everett M. Bright
Superintendent.

RECEIVED NOV 30 1948 NATIONAL PARK SERVICE REGION THREE

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Walnut Canyon National Monument
Flagstaff, Arizona.

November 28, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities in Walnut Canyon National Monument for November, 1948:

Weather. Dry and cold, with some windy days.

Visitors. Of the 929 total, 743 were contacted at the Admin. Bldg., and it is estimated that 695 made the ruins trip unattended. Many of these on ruins trip received information from the stabilization crew. There were few pichickers.

Inspections. Charlie Steen spent some time here checking the ruins stabilization project. Engineers Sam Hendricks and H. Cameron stopped by on the 18th, and John Davis arrived on the 23rd.

Museum. Because our travel has dropped so low, we only had the light plant running nine days. Next month, we expect to keep the museum open only on Sundays and holidays.

Mr. Stan Davis, of the Lollesgard Specialty Co., spent more than a day here taking pictures which he can use in the museum.

Activities. Some annual leave was taken by the regular employees, and little was accomplished beyond the routine duties. Considerable time was spent repairing light plants, and a beginning made on the annual inventory. Because of winter weather, outside water lines were turned off and drained; the fire suppression tools prepared for winter; the screen doors removed and stored; numerous windows caulked; the stoves overhauled and placed in use;more than 80 tons of coal stored in garage and the bins of the residences filled; etc.

A minimum of time was expended patroling the boundaries during deer season(There were reports of several bucks being shot near our fences).

With clear weather, the stabilization project is making good progress. It is expected that this work will continue until Dec. 11.

Paul L. Beaubien
Superintendent

RECEIVED
DEC 1 1948
NATIONAL PARK SERVICE
REGION THREE OFFICE

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Walnut Canyon National Monument
Flagstaff, Arizona.

November 26, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows a monthly report of the ruins stabilization project at Walnut Canyon National Monument for November, 1948:

Good weather and a good crew have enabled us to proceed beyond our expectations. The nine-room house unit, N. A. 739, located on the south end of "Island", was completed November 19. A total of 110 man-days and six pack horse days were required. The total cost of materials and labor amounted to $1,316.75.

The next unit, N. A. 741, consisting of three rooms, has been completed, and work is progressing rapidly on unit N. A. 742, a six-room unit in very bad condition. With the exception of three standing, but badly disintegrated, partitional walls, the unitnis a total ruin. Numerous "pot-hunting"holes tell a mute story. A dynamite detonator was found in the foundation of one wall which leads one to believe that "pot-robbers" would stop at nothing to obtain their coveted loot.

After weathering a few insulting remarks from "THAT" type of tourist, we have taken great pains to show them the results of ruthless vandalism. We attempt to tell every visitor on trail that we are doing stabilization and not restoration, and that our project is necessary because of selfish digging in the past.

The poor pack rat's ears must have fairly blazed with the numerous insults we have cast upon them, but after cleaning out a few of the nests within the walls, locating spindel whorls, sandals, basketry, and pieces of cotton cloth,we have begun to look forward to more rat nests. Several complete pots of various shapes and kinds have been added to the take.

We hope to eventually have enough archeological material to make a good display in the museum here. Such an exhibit should prove a boon to the exhibits, as so little material is available that actually came from this canyon.

If good weather prevails, (it is snowing now), we hope to complete the two remaining units on trail on the west side of "Island". I believe this could be accomplished in not more than three more weeks.

November 24, 1948 19

MEMORANDUM for the Regional Director, Region Three.

NOVEMBER TRAVEL, 1948 — Visitors - 6,420 Cars - 1,760

1949 TRAVEL YEAR TO DATE — Visitors - 14,388 Cars - 3,777

Well, January report, 1948, I was crying because we were showing eleven thousand one hundred thirty-two visitor gain over the last fiscal year or the seven month period. So far this fiscal year and in five months we show a gain over last year (our largest) of eighteen thousand one hundred thirty-two. November alone has a gain of over fourteen hundred and a gain that large on an off season month is noticeable. Weather in the immediate vicinity has been good but, some extremes north and east have cut into the regular traffic flow on the main highways. Brisk nights make us appreciate the warm sun of our midday.

One official trip was made to El Paso in connection with arrangements for hosting Army Officials. I was accompanied in El Paso by Slim Radcliff from the Regional Office and Chief Ranger George Sholly of Big Bend National Park. A portion of one morning was spent in leading a group of Army men into an impact area of a V-2 Rocket. On Thursday, November 18, a V-2 Rocket landed within a half mile of our loop drive. Of course, no one is allowed in the area during firing and so no material damage was done but, even ten miles from headquarters is plenty close. I was very much surprised in that virtually no impression whatever was made in the dune. One, several years ago, made a hole some fifteen or twenty feet across and almost as deep over on our flats, but this one Thursday didn't make a trench or hole six inches deep. It must have just glided to a gradual stop.

The Army spent considerable time explaining to me that in directing them to the missile I would have to accompany them in Army vehicles since it would be impossible to get an ordinary car to it.

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

White Sands NATIONAL MONUMENT

Box 231, Alamogordo, New Mexico

November 24, 1948 19

Narrative - continued

I begged permission to use our Service vehicle and spent a third of the morning waiting for the Army jeeps. Nothing takes the place of experience in driving the dunes.

Through a small allotment of funds we were able to hire a painter to do some painting on the administration and museum buildings. It sure did improve the looks of the place and too, some of the wood was reaching the point where it was drying and cracking something terrible. The funds were not ample to do all we wished and as a result of what we have done, it will be necessary for my ranger to put some time in painting the woodwork on our rest rooms and odds and ends for which we did not have money to have done.

Our force has had little time for any work other than that connected with over six thousand visitors. I was off part of the month too, on vacation and Ranger Chittum and Operator Sheppard will both be off part of December on annual leave.

Bob and Bea Upton from Petrified Forest were in for a few days and of course we always enjoy Bob and Bea. Regardless of where they may go or how long they will be gone, they still belong to White Sands. This is true also of Paul and Virginia, George and Manice, etc. Any and all are always welcome for as long as they can stay at White Sands. Much of our present growth and popularity can be traced directly to their efforts.

White Sands entered into the final foot-ball game of the season between Alamogordo and Tularosa (the big game of the year) when the trophy was awarded. The Lions Club gave a trophy for the winning team, and the team winning three years keeps the trophy. Ranger Chittum, as Lions President, made the award this year before one of the largest crowds in local football history.

NATIONAL PARK SERVICE

White Sands NATIONAL MONUMENT

November 24, 1948 19

Narrative - continued

Our Clerk, Frank Cota spent a week in Santa Fe going over some of the many details involved in our keeping up the clerical end of the work. Frank is doing a bang-up job and I have no fear of our clerical work lagging as long as we can keep Frank. His big trouble is in getting me to get some of the data, etc. for reports to him. We are very fortunate in getting a good Clerk and we serve notice on all of you to watch Frank and in a few years we will find him in one of our biggest jobs.

Since all the store windows, newspapers, etc. are filling with Christmas suggestions I guess it is appropriate at this time for The White Sands National Monument personnel to express to the entire Park Service our sincere wishes for a most Merry Christmas and a Happy and Prosperous New Year.

NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

28 November 19 40

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Wupatki National Monument for the month of November 1948:

Weather: The weather of the past month has been reasonably pleasant, encouraging travel and not hindering work projects. First killing frost on November 6 and no precipitation. Minimum temperature was 16°.

Roads: Fair condition. Maintenance consisted of making small fills and removing some of the rocks. Much more remains to be done in this respect but we were rather holding out for our motor patrol. Date for delivery was November 2, but no word from contractor as yet. The Case tractor with loader attachment was brought in from Zion on the 23rd. This will make an ideal piece of equipment as soon as we receive a replacement pin for the bucket shovel. Emergency repairs to cattle guard.

Travel: Of the 286 visitors to Wupatki during the past month, 200 registered at Wupatki Ruin. This represents approximately a 30% increase over travel of last November. Only 50 visitors received guide service because of our other activities and the ranger position being vacant until late in the month.

Special Activities: Land status investigation was made during the month of alienated lands, all data on file checked and a status map completed which should make future investigations simple without alienating the affections of the local abstract company. Labor was recruited in the locality for labor at Walnut Canyon. Platt Cline, Editor of Arizona Daily Sun accompanied us on an inspection of the Monument and saw many of our problems at first hand. I rather suspect, from talking with Platt, that Herb Evison had something to do with arousing his interest.

Activities of Outside Agencies: Mr. C. O. Walker of the El Paso Natural Gas Co., El Paso Texas, requested permission to make surveys of possible locations for the natural gas line from the San Juan Oil Fields.

RECEIVED NOV 26 1948 NATIONAL PARK SERVICE REGION THREE OFFICE

Personnel: Owen L. Reynolds entered on duty November 23 to fill the position vacated by Robert Upton last spring. Owen has had one summer here at Wupatki several years ago and will make an excellent man for the job.

We regretted losing the Eulers, but Bob was rated ineligible by the Director's Office for permanent appointment. They left for Santa Fe on the first where Bob will remain until the second semester starts at the University of New Mexico.

Visitors: During the past month we have enjoyed visits from the Rixeys who are temporarily on duty at Walnut Canyon, the Brewers of Navajo, and Gene Stonhooker of Zion-Bryce NP. A visit from John Davis on his return to Santa Fe was too short to be enjoyed. Mr. Alva A. Simpson and Kenneth A. Keeny of the Forest Service came in to look over the ruins. Mr. Simpson has working with a good many NPS men and is an enthusiastic booster for us.

Grazing: Somehow or another we missed (so far) having 1700 head of sheep grazing just to the south of us. Bert Babbitt intended to use Coyote Spring and his range lands south of Heiser this winter, but nothing has happened to date. We do not want to be chasing white men's sheep all winter too.

John Babbitt of the CO Bar Company wanted to turn in some cattle on the Spider Web range several miles north of the Monument. Since there was the possibility of their drifting onto the Monument, he discussed the matter with us. It was agreed to try it on an experimental basis and if too many drifted across they would be removed. The drifting has been at a minimum to date.

Signs: Two routed signs received from Navajo were not mentioned last month. We wanted to experiment with the maintenance time required for the Navajo- routed letters compared to cut-out letters. One of our road arrows was covered with Scotch-lite reflectorizing material as an experiment in weathering.

Spring Flow: All on the increase: Wupatki 455 gpd compared to 285 last month; Heiser 1761 gpd compared to 1200 in October.

Public Health: The results of the X-Ray service offered by the State show no T. B. in any of our personnel or families and none in the Clyde Peshlakai family.

Maintenance and Const: Trailer into living quarters was big job of month, overhauled two Onans, worked on water pump, hauled winter wood.

David J. Jones

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.
No regular interpretive and contact work carried on during month.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

RECEIVED DEC 2 1948 NATIONAL PARK SERVICE

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS ENQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LINE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

[illegible] of this form as an indication of accurate visitor [illegible]
[illegible] visitors in a visiting party for [illegible]

Fill in only those items that apply

[illegible]

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians and Historical Aides
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation
"OTHER" are Rangers, Clerical Personnel, and the like who may be called on to help interpret the area.

Conducted Trips - Trips conducted by N.P.S. personnel in the field or through rooms or exhibit structures, or other features of the area.

Talks - Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive service

Attended Interpretive Visitors - Actual count of persons using the exhibit, library, contact station, exhibit room, study collections, etc., count being made by Service personnel in attendance. Checking stations or visitors registering in [illegible] rather than interpretive service should not be considered as attended interpretive stations.

Information - Factual matter relative to physical developments, personal facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, local accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

Interpretation - Is an accurate explanation of the significances of Natural History and Human History found within the area.

Unattended Interpretive Service - Under this heading should be estimated as accurately as possible all visitors using exhibits-displays, orientation stations, and overlooks, wayside shelters bearing interpretive devices, trailside exhibits, self-guiding nature trails and auto nature routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Within the Area - This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies to requests or written requests for interpretive data should be indicated.

Instructions for Filling in the Form

Column 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and services open to the public. The number of days the stations and services were available may be indicated under "REMARKS".

Column 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column 3 Shows the ACTUAL amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Within the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

Who Should Use: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 10, Chapters 8 (Report Call) and 9 (Report Due).

NAME
TITLE A.T. Bicknell, ~~Superintendent~~

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Superintendent on leave from October 27, to November 6, 1948.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH EXHIBITS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

Talks: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

Attended Interpretive Stations: ACTUAL COUNT OF PERSONS VISIT THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

Unattended Interpretive Devices: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, OBSERVATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS CONTAINING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

Interpretive Activities Outside the Area: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

Column #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL PLACES.

Column #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT SEASONAL INTERVALS.

Interpretive activities Outside of the Area ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

Totals: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. Total Attendance SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED BY THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED IN THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COOPERATING GOVERNMENT AGENCIES SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

During the absence of the Superintendent visitors were contacted by the MAINT which accounts for the small number of guided tours.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15: Chapters 8 (Report 8a3) and 9 (Report 9a3).

REMARKS: (Please note below any factors influencing interpretive service, such as "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Superintendent on annual leave beginning November 1 thru December 6

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as Attended Interpretive Stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors enquire.

INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

This Report Due: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 6th of the month following that covered by the report.

TITLE Ranger.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

~~The Museum at the Castle, both nature trails, and guide service were available to the public every day for this report month. (31 days)~~

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical development, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Motel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a).

NAME William R. Supernaw
TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Personel required for general maintenance work several days per month.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERVISORS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH BUSES, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

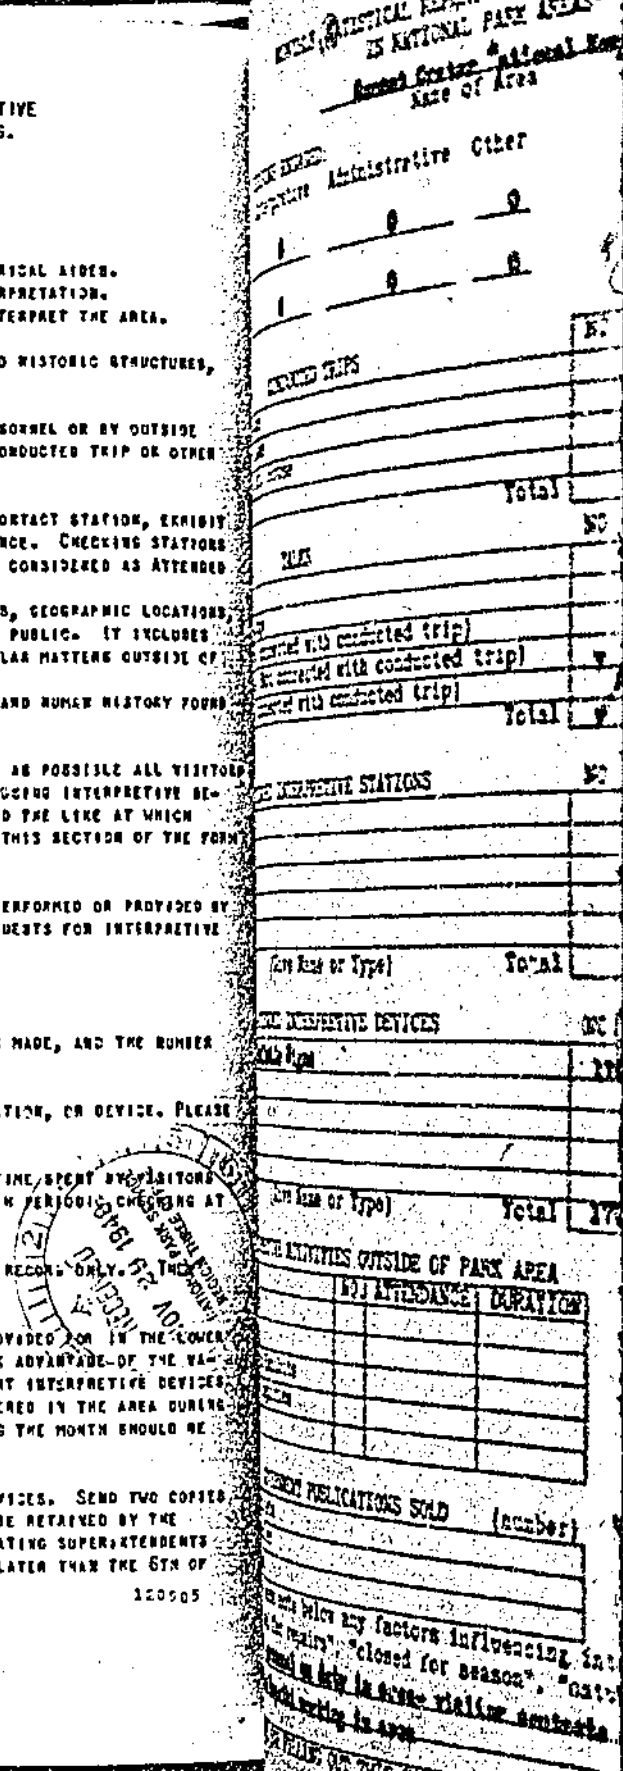
UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.



COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the Area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

NAME: Lloyd B. Pierson
TITLE: Naturalist

REMARKS (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "Naturalist on sick leave", etc.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED ON TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

* Visitor total includes 67 run-arounds

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8e3) and 9 (Report 9e3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND [illegible]DS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING [illegible]CH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each colum in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

Region Three
Santa Fe, New Mexico

January 7, 1949.

MEMORANDUM for the Regional Director, Region Three.

Following is the narrative report for the Naturalists of the Southwestern national monuments for December 1948.

Staff Activities, General

Naturalist Dale S. King was in the office except for several days of sick leave.

Archeologist Charlie R. Steen made one trip to Gran Quivira to help Archeologist Gordon Vivian move ruins stabilization equipment to Santa Fe.

Interpretive Administration

A rough draft of a proposed mimeographed trail leaflet for Walnut Canyon was received from Superintendent Beaubien. Ranger Onstott of Aztec Ruins transmitted three manuscripts of articles prepared by temporary personnel at Bandelier from their evening talks. It is possible that these articles may be edited and turned over to the Southwestern Monuments Association for possible publication as sales informational items. The Superintendent of Montezuma Castle submitted a portion of the manuscript for a popular booklet on the area, which will be printed by the Government Printing Office.

Memoranda were sent the field to remind them to prepare fact-file cards for their chronicle and personnel sections.

Additional correspondence was had in an attempt to obtain metal trail labels for Tonto.

Public Relations

Steen sent information on Kayenta kivas to Archeologist Terah Smiley at the University of Arizona.

Progress of Exhibit Plans and Projects

The preliminary museum exhibit plan for Walnut Canyon was transmitted to the Director on December 15. Preparation of the prospectus will be deferred until this plan has received corrections and criticisms.

Accessions (Other than Library)

Steen borrowed and copied photographs, maps, and excavation notes for work done by the New Mexico State Museum at Gran Quivira. These materials are being added to the Gran Quivira files, and will be used for installing temporary exhibits at the small exhibit room at the monument.

With Archeologist Vivian, he also went to the State Museum files and borrowed about 50 old photographs of Chaco Canyon ruins.

Mrs. Richard Wetherill of Albuquerque donated a small album of Chaco Canyon photos. These were by the late Charles Lummis. Prints of photos taken of the Salinas Missions by Lummis were also donated by the Southwest Museum at Los Angeles.

Another donation was that of about a dozen objects (cotton and yucca cord textiles, fragments of baskets, etc.) collected at Montezuma Castle many years ago by the late Grenville Goodwin.

Loan Library

Accessions for the month totalled 61, including 10 books; 19 pamphlets; 32 periodicals.

Steen spent considerable time cataloguing 35 books and making a good start on bibliographical search of references to national monuments and pertinent subjects in our accumulated periodicals.

The more important books received were:

Braidwood, Robert J. -- Prehistoric Men. Chicago Natural History Museum, Popular Series, Anthropology, Number 37. Chicago, 1948.

Gayton, A. H. -- Yokuts and Western Mono Ethnography. Anthropological Records, Vol. 10, No. 1. University of California Press, Berkeley and Los Angeles, 1948.

Haley, J. Evetts -- Jeff Milton: A Good Man With A Gun. University of Oklahoma Press, Norman, 1948.

Herskovits, Melville J. -- Man and His Works. Alfred A. Knopf, New York, 1948.

Kroeber, Alfred L. -- Seven Mohave Myths. Anthropological Records, Vol. XI, No. 1. University of California Press, Berkeley and Los Angeles, 1948.

Lauritzen, Jonreed -- Song Before Sunrise (Fiction). Doubleday and

Co., Inc. Garden City, New York, 1948.

Morgan, Dale L. (editor) -- The Exploration of the Colorado River in 1869. Utah State Historical Society, Salt Lake City, Utah. Utah Historical Quarterly, Vol. 15, Nos. 1, 2, 3, and 4. 1947.

Phillips, George H., and others -- Forest Trees of Oklahoma. Division of Forestry, Oklahoma Planning and Resources Boards. Oklahoma City, 1939.

Southwestern Monuments Association

Executive Secretary King completed the annual report with the exception of having it typed. He talked to Federal and state officials about liability of the Association to pay social security taxes. He corresponded with the Public Buildings Service concerning nine copies of "Arizona's National Monuments" which were ruined by a leaking roof; with Casa Grande about the trial installation of an automatic post-card dispensing machine; with author Harold Cooley of Flagstaff concerning outlines on four projected books on Indians and ruins of New Mexico and Arizona; and with the University of Arizona concerning the re-publishing of "Tree Rings and Chronology."

William Lippincott of Wide Ruins submitted 20 more excellent photographs and 18 beautiful Kodachromes for possible illustrations in our next Popular Series publication, tentatively entitled "Treasures of the Indian Southwest."

Treasurer Alan Vedder made the usual two deposits and one disbursement. The month was not as active as previous ones. Covers mailed were 176, including 34 letters and 15 purchase orders. This does not include 859 envelopes sent out on our mailing list, which brings the total to 17,615.

In addition to taking care of routine mail, time was spent on posting in journals, filling back-orders of "Poisonous Dwellers of the Desert," posting purchase orders in the inventory book, posting turn-ins, comparing Meston and Thomas kodachromes, and figuring calendar year end royalties on Paul Thomas' kodachromes, Nancy M. Pinkley's booklets, Underhill's "Penthouse," and withholding tax. Because of lack of work, six days were taken off.

Barbara Vedder worked 26½ hours during the beginning of the month when the 859 envelopes were sent out. Her time was spent in preparing these envelopes and putting the stencils in the master file.

Photography and Visual Aids

A print showing the Padre Kino diorama was furnished to a person who stated that this view epitomized the Southwest in his mind better than any other exhibit he has seen. Twenty-three kodachrome slides were furnished to Chiricahua, and various photographs of National Park Service subjects to the Southwest Museum at Los Angeles.

The proposed movie reel for Montezuma Castle was deferred until sufficient funds and a professional photographer are available.

Visitors

Ranger Callie Brewer of Tumacacori visiting New Mexico churches on annual leave, and Naturalist Don Watson on annual leave.

Wildlife Management

A letter was addressed to Biologist Donald Spencer of the Fish and Wildlife Service, acquainting him with our problem of attempting to eliminate bats from several structures in monuments.

Ruins Stabilizations

Correspondence was had with a potential collaborator who may visit Tumacacori in the spring to study the problem of preserving wall paintings and plaster there.

Stabilization records on Hovenweep National Monument were forwarded to Mesa Verde.

Arrangements were furthered to record interior photographs of Montezuma Castle sometime this spring.

Archeologist Vivian reported on December 6, and spent the rest of the month writing the stabilization manual.

Projects for January

Naturalist King will be in the office on routine matters.

Archeologist Steen will work in the office on stabilization records and the library, except for short trips to Aztec Ruins to survey stabilization needs of prehistoric roofs in the East Pueblo, and to Walnut Canyon to pick up equipment and complete the project there.

Archeologist Vivian will spend the month here, continuing the preparation of the manual.

Dale S. King,
Naturalist.

APPROVED FOR DISTRIBUTION:

Regional Director January ___, 1949.

cc: Mr. Davis (2).
Mr. Dodge (2).

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Arches National Monument
Moab, Utah

December 28, 1948

MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Arches and Natural Bridges National Monuments for the month of December, 1948:

GENERAL: The superintendent was absent on annual leave from November 24th to 28th and was on annual leave again from December 6th to date but was present at the monument during this time.

Ranger Worthington was on leave from December 23rd to 27th inc.

WEATHER: During the first part of the month snow fell in most parts of Utah but none in the vicinity of this monument. Freezing temperatures occured nightly until December 10th, at which time a "chinook" wind set in and it warmed up considerably. Snow fell on December 23rd and 27th, leaving about 3 inches of snow on the ground at headquarters and 4 to 8 inches in the monument proper. Our coldest temperature for the month, 12 degrees above zero, occured on Christmas Eve.

TRAVEL: Cold and stormy weather throughout Utah and adjoining states caused our travel to drop off considerably, with only 30 cars and 85 people visiting the area. We had representation from 15 states, Canada and Switzerland. Our interpretive contacts during the month were negligible.

MONUMENT ROADS: The heavy maintenance of our roads, ditching and preparing for winter, was completed on December 3rd. The roads from Balanced Rock to the Devils Garden and Delicate Arch were in excellent shape, but the Windows road was sandy and soft but passable. The storms of December 23rd and 27th closed the approach road to travel. Snow removal on monument roads was started on December 27th and is continuing at this writing. We hope to have the road open to visitors by tonight, December 28th.

APPROACH ROADS: U-93 has been in fair shape during the month but needs considerable maintenance work. The state crews have been busy on the other roads in the state system and have been unable to accomplish any work on this section of road.

GRAZING: Ranger Worthington has made boundary patrols intermittently during the month and has found no evidence of trespass by stock grazing along the boundaries.

The grazing permit of James Westwood of Moab, Utah is due to terminate on December 31, 1948 but all phases of this matter have not been straightened out to the satisfaction of all concerned. We hope to have this matter ironed out in the not too distant future.

MAINTENANCE: A new 1600 gallon gasoline storage tank was purchased during the month and installation has been completed. A trip was made to Salt Lake City, Utah on December 14th to obtain this tank.

Our 5 KW light plant again ceased functioning on December 16th due to broken valve springs. This is getting to be a monthly occurence. New valves and springs will be installed and we will hope for the best.

Work is at a standstill on the trailer house quarters for the ranger due to lack of funds.

Our water pumping system quit on December 16th due to a broken bearing casting on the pump jack. Have written the manufacturer regarding replacement but have heard nothing regarding same. Our storage tanks were practically full at the time of the breakdown so we will not suffer for lack of water for some time.

NATIONAL PARK SERVICE VISITORS: Assistant Regional Director Davis visited the area on December 9th on an inspection trip and various administrative problems were discussed with him. He stopped by again on the evening of December 17th, enroute to Washington due to the serious illness of his father.

Superintendent Guillet of Canyon De Chelly and Ranger Guillet from Colorado stopped by on December 24th to say "hello" but this superintendent was absent from the monument and was sorry to miss them.

NATURAL BRIDGES NATIONAL MONUMENT: This monument is closed for the winter due to snow on the approach road from Blanding, Utah.

Russell L. Mahan
Superintendent

(in trip.)

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

MEMORANDUM for the Regional Director. 29 December 1948

There follows the report of activities in Aztec Ruins for Dec 1948.

WEATHER. Altho much of the time this month has been quite cold, with lows to zero and several days when it did not get up to freezing, and we have had nearly all the weather man could think up with snow, sleet, hail and rain, yet we have enjoyed a 20% increase in travel.

INSPECTIONS. Regional Architect Saunders inspected the new construction on Dec 1 and 10. Asst. Reg. Director John Davis was in Dec 7.

MAINTENANCE. We have painted a large portion of the great kiva roof with an asphalt preservative, checked and patched the museum roof and continued minor repairs to the ruins walls and roofs. The former boundary fence that ran between the north boundary and the newly acquired Hubbard Mound has been removed and we are now in the process of erecting it along the west boundary of the Mound.

NEW CONSTRUCTION. The new residence building is about 85% complete. Interior decorating, floor coverings and cabinet work being nearly finished. Plumbing and electric fixtures will next be placed.

Interpretive Services. There were 241 visitors in 68 groups shown thru the museum, of these 177 were taken in guided parties thru the ruins.

INCREASE IN TRAVEL. A decided increase in travel this month with 20% greater number of people than visited in December 1947. There were 341 people in 104 cars from 22 states, China and Switzerland.

PERSONNEL. Ranger Cantett and the boys have both enjoyed a few days annual leave during the month.

PROPOSED WORK FOR JANUARY. Completion of boundary fence erection. Repair to roof covers. Moving household goods to new residence.

Irving J. Tolmie,
SUPERINTENDENT.

IJT:ELP

AZTEC

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

December 28, 1948

Memorandum for the Regional Director, Region Three

There follows a report of the activities at Bandelier National Monument for the month of December, 1948.

Weather

The weather this month has been characterized by clear, cold, days and nights until the last of the month. Temperatures ranged from 5 degrees above zero on the fifth to 60 degrees on the eleventh. No moisture was received until the last of the month when two inches of snow fell on Christmas day followed by a day of misty rain. This settled the dust on the approach road and enabled us to grade it for the first time in several weeks.

Special Activities

Inspections were continued of the road construction work in the Otowi section. The area that was stripped of trees and grass, in Sandia Canyon, has been replanted by the contractor in accordance with the plan furnished by the regional office. It will be some time before the scar is obliterated but the planting will materially hasten the reforestation.

New Construction

The power line bringing power from Los Alamos is finally completed and we can say good by to the power plants with no regrets. At the final inspection it was found necessary to move three disconnect switches to another pole which took an additional half day but the line was energized on the 28th. General Operator Woodland and Labor Leadman Pino deserve much credit for the successful construction of the line. Only one minor accident occurred during the construction when one of the laborers stepped too close to another man who was using an ax to do some clearing. Practically all other activities were stopped this month and all of our efforts were put in to getting the line finished by the end of the month.

FOR DEFENSE
BUY
UNITED STATES SAVINGS BONDS AND STAMPS

Approach Road

The approach road was graded and placed in good shape after some

moisture was received toward the last of the month.

The contractor on the five miles of the approach road that is under construction has completed all of the work that can be done until spring. The gravel base was finished and an oil dust coat was put on the road to hold it this winter. The final matte will be laid when the weather is warm enough.

Interpretive Service

250 visitors were conducted through the ruins in 44 groups. There were many days on which only one trip would be taken but only two days on which there were no trips.

The museum was so cold that very few visitors went through it and fluctuating lights cut their stay rather short. With dependable power it is expected that the museum will be used more and visitors will get more enjoyment and information from it.

Travel

The slump in percentage of visitors that has occurred for the past two months took a turn for the better this month when it went to the plus rather than the minus side. A total of 391 visitors is an increase of 5% over the same month last year. This is probably due to the improved condition of the approach road and the good weather.

Visitors

Part of the Congressional Committee that was investigating expenditures at Los Alamos visited the area after completing their hearings. Chairman Snyder, W. Va., Doug Alcock, and Miss Boyer made up the party.

Mr. and Mrs. A. J. Merrill, an artist from Taos, N. Mex. visited the area on the 16th. to make some pencil sketches.

Ranger Service

Ranger Keefe was on leave from the 11th. for the remainder of the month. Ranger McIntyre worked on the inventory most of the time that he was not conducting visitors through the ruins.

Miscellaneous

The Superintendent spent a great deal of his time on clerical duties but word was received that Mr. Larry Smith, Santa Fe, will report for duty early in January to fill the clerks vacancy.

O

HAPPY NEW YEAR

Fred W. Binnewies
Superintendent

Canyon de Chelly National Monument
Chinle, Arizona

December 27, 1948

MEMORANDUM for the Regional Director, Region Three.

The following is the report on activities at Canyon de Chelly National Monument for the month of December, 1948.

Weather Conditions

Weather conditions have been about normal with perhaps a few more balmy days than ordinary. Moisture for the month measured .95 inches. Maximum temperatures ranged mostly above 48°, the highest being 62° on the 12th and 13th. Minimum temperatures for the most part were around 20°, the low being 7° on November 30th.

Maintenance

A new Gallion Auto Patrol Grader was delivered in Gallop on December 1st and brought out to Canyon de Chelly December 5th. The soil and moisture crew was kept on for a week and gravel was hauled on our road between the boundry and headquarters. Approximately 45 loads of gravel were hauled and the road was widened and worked with the maintainer to the White House overlook. Minor electrical repairs were made in the lines and switches in the Superintendents and Rangers quarters. Repairs were made to the hogan and a new and better skylight constructed. A new fire tool rack was built and the fire tools were painted with rust preventive and stored in the hogan. Routine chores such as greasing and washing equipment were also carried out.

Soil and Moisture

The soil and moisture project was finished December 3rd. The completion report for this work was submitted. Currently we are working on the master plan for soil and moisture work in the canyon.

Administration

Annual leave was taken November 26th thru the 30th and the Superintendent entered on annual leave status again on December 20th in order to use leave that would otherwise be lost. Two days of this were spent in the regional office going over business with the various regional offices. Although on annual leave the Superintendent is remaining in the area and taking care of more important administrative work. A complete inventory of equipment has been taken. A two day trip was made to Gallop, New Mexico by the Superintendent and Ranger to bring back the Auto Patrol Grader.

Travel

Travel continues well ahead of last year on all counts. There were 14 this month as compared with 14 last year. This travel year to date shows an increase of 52 visitors and the fiscal year to date shows an increase of 318 over last year.

Visitors

Dr. Alfred Livingston Jr. of the Geology Dept. of Los Angeles City College.

Concessions

Mr. L. H. Mc Sparron, operator of Thunderbird Ranch, has been considering selling out and has refused to renew his contract with the National Park Service. Details have been reported.

Meredith M. Guillot
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
SOUTHWESTERN NATIONAL MONUMENTS
~~COOLIDGE, ARIZONA~~
Capulin, New Mexico

December 27, 1948

MEMORANDUM for the Regional Director

Region Three, National Park Service
Santa Fe, New Mexico

There follows the narrative report for Capulin Mountain National Monument for the month of December, 1948:

Visitors: There were about six hundred visitors to Capulin Mountain National Monument during the month of December, making a total of five thousand four hundred for the travel year and twenty five thousand two hundred for the fiscal year.

Weather: The weather has been exceptionally dry with average temperatures for this time of the year.

Flora and Fauna: Fewer deer than usual have been observed in the Monument area, with other wildlife thriving. Vegetation so far has not been noticeably affected by the dry weather.

Roads and Trails: The roads and trails in the Monument area and approcah roads have been kept in good condition throughout the month of December.

Information Pamphlets: No pamphlets have been distributed this month. Have about seven hundred on hand.

Very truly yours,

Homer J. Farr
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

December 25, 1948.

MEMORANDUM for the Regional Director,
Region Three.

There follows the narrative report for Casa Grande National Monument for December 1948.

General: Most of the cotton is now picked and many of the fields are being prepaired for next years crops. The recent rains, then, did no damage to the cotton and did a great deal of good in helping to ready the fields for the next planting. The desert vegetation has also received much benefit from the rain. The usual pre-Christmas lull was noticed in our travel this month as well as the general trend downward of the last few months. The Tucson Chamber of Commerce made the statement that tourists were a little slow in arriving this year and that 5,169 fewer passenger cars entered the state in October of this year than last. They lay this to the election and to the fairly mild fall weather in the east this year. They expect a good season this year once it gets under way.

Weather: With the exception of a few bad days and some cold nights, we have had fairly nice weather. The maximum temperature was 79 with a low maximum of 57 and a minimum of 18. We had a total precipitation of .38 of an inch of rain and this was certainly a welcome sight.

Visitors: December 1948 - 2792: December 1947 - 3461: This is a drop of 669 people from December of last year. This travel year to date shows a total of 7517 visitors.

Interpretive Service: Of the 2792 visitors to the area, 1765 made the trip to the ruins in 163 groups averaging 51.3 minutes per trip. 1024 people were here for a quick look but did not make the trip to the ruins.

Administration and Protection: A trip was made to Adamsville to check on vandalism. Four requests for information were answered and office work was kept current.

N.P.S. Visitors and Visitors of Note:

December 9, - Senator and Mrs. McFarland (Arizona) brought Senator and Mrs. Kilgore of West Virginia to see the Ruins.

December 11, - Superintendent and Mrs. Smith of Zion and Bryce Canyon National Parks.

December 11, - Mr. and Mrs. Arthur Woodward of the Los Angeles County Museum. Mr. Woodward directed the excavation work on Compound F and the Grewe Site.

December 11, - Mr. and Mrs. Antonio R. Martin. Mr. Martin is Spanish Vice-Consul at San Francisco.

Maintenance: All roofs in the front area were checked and repairs were made when needed. The ceilings in the kitchen and bathroom of quarters 5-5 were tied up and the guest room was painted. The borrow pits along the approach road were graded and are now in good shape. Some work was done on the sewer field. Several creosote bushes were transplanted along the approach road to cover up a few bare spots.

Nature Notes: As yet the Gambel sparrows have failed to make their appearance on the monument this year. This may be due to the extremely dry weather which was thought to have been responsible for their scarcity during the winter of 39 - 40. There were a few on the monument that winter but we havent seen a one this winter.

A.T. Bicknell,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

~~Chaco Canyon~~ NATIONAL MONUMENT

Bloomfield, New Mexico

December 24, 1948

MEMORANDUM for the Regional Director, Region Three,
National Park Service.

There follows the report of activities in Chaco Canyon National Monument for the month of December, 1948.

There were only seven visitors to Chaco Canyon this month. They came in three automobiles from the state of New Mexico. All seven took a trip through the ruins. They came in three parties, and two of the parties spent a little time in the museum. Total time spent with the visitors was three hours and forty-five minutes.

The warmest this month was 62 degrees Fahrenheit on December 13, and the coolest was 4 degrees on the 28th of November. There was a trace of snow on two occasions. The weather for the period was delightfully warm, and a good part of it was the men in their shirt sleeves -- good old Indian summer.

The approach roads are both in excellent shape. This month, the grader from San Juan County came out and spent several days on the road, and the McKinley County road was graded. The Monument roads are also in good shape.

Despite chemicals and the plumber's friend, the sewer pipes really stopped. It was necessary to borrow, in Farmington, a long rod, dig a hole about four by four by five, get under the house, cut with a hacksaw two holes in two different cast iron pipes, clean the pipes, repair the holes in the pipes, cover the holes and return the rod. The stopper end all nearly goes down the drain now!

The Soil and Moisture Crew finished on the river (cut more than 500 post size willows for Canyon de Chelly, and more than 1000 for Chaco), returned to the Canyon, planted the willows on seventy-five spiders in the wash, and are now working on the large revetment.

Foreman Samuel Crem left on December 10, for Tonto National Monument. The Soil and Moisture crew has needed a good foreman for several years -- a man who could be with the crew on the river and out here also. Sam seemed to fill the bill.

The Treder in working over his inventory and reports that he believes that this year, 1948, is going to be the best year he has had yet.

All trucks and the light plant needed repairs during the past thirty days, which necessitated several trips to town. The repair trips were scheduled to coincide with other business, so as few as possible were made.

Routine jobs, such as getting Indian livestock off the Monument, keeping the picnic grounds and ruins policed and free of dry weeds, contacting the special use permitee concerning next year's permit, checking the cattle as they passed through the Monument as to time and number, oiling and greasing equipment, and the like, were accomplished.

Projects for next month:- complete the soil and Moisture revetment, accomplish some road work and take down the Padilla's fence.

Irving McNeil, Jr.
Superintendent

NATIONAL PARK SERVICE

CHIRICAHUA NATIONAL MONUMENT
Dos Cabezos, Arizona

December 28, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Chiricahua National Monument for December.

General. The Superintendent took seven and one half days leave at various times during the month, thereby reducing the annual leave he will lose to three days.

Weather Conditions. Weather dry with some wind and cold nights through most of the month. The first rain worth mentioning started the morning of December 22. The rainy spell continued until December 27 and a total of 2.44 inches of rail fell. Weather has cleared now so no more rain is expected for the rest of the year. If this prophesy is correct this will be the driest year of the nine on record at Chiricahua, with 15.21 inches of precipitation. Last year will be second driest with 15.93 inches.

Approaches to Monument Area. Approach roads remained in fair condition through most of the month. The dirt and gravel roads are now very wet and muddy from the recent rains.

Interpretive Service. One conducted horseback trip to the Heart of Rocks and two conducted auto trips were made by Ranger Ringenbach. 641 visitors were contacted in the museum in 166 parties.

Increase in Travel. 770 visitors were recorded in December. This compares with 532 for December of 1947. Travel to date this travel year is 2784 as compared with 2173 for this time last year. This shows an increase of 44% for the month and 28% for the travel year.

Insect and tree diseases. Some time has been spent by the Superintendent checking the flathead beetle infestations in the Douglas fir. Another days work remains to be done before the report is submitted. An abnormal number of each species of the conifers seem to be dying. These are scattered throughout the entire monument area and it is thought this is due to the dry weather of the past two years. The Chihuahua pine seem to be hit the hardest. One Chihuahua pine in the Superintendents yard started to fade but was revived by watering throughout the summer and fall.

Clair V. Cooke,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

El Morro NATIONAL MONUMENT

Ramah, New Mexico

December 26, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities in El Morro National Monument for the month of December, 1948.

WEATHER: Although we had a white Christmas this was about the only precipitation received. The total amounted .51 of an inch. Maximum temperature reached 59 degrees and the minimum dropped to 5 degrees below zero.

APPROACH ROADS: Until December 22 both roads were in excellent condition, having received maintenance from the State and Indian Service. However, after the storm of rain and snow on the 22nd.) both roads looked quite natural with ruts and mudholes.

TRAVEL: Due to the excellent road conditions our travel increased 3.06 percent over the same period last year. This sounds like a great many visitors, but last December's count was almost nil (14). Sixtyfour visitors, from six different states arrived at the area in 21 cars. Thirtythree made the tour of the Inscriptions. Twentyfive were contacted by the HSWP, during the Superintendent's absence and six arrived for information only.

INTERPRETIVE ACTIVITIES: On December 6 a talk was given to the Grants Chamber of Commerce, in connection with the proposed and still-hoped-for road construction. The Paricutin Volcano film was shown in Ramah on December 4.

NPS VISITORS: The 3KW Onan light plant, transferred to Petrified Forest, was picked up on December 4 by Ranger McClanahan who was accompanied by Mrs McClanahan and Harry Linder.

GENERAL: Four loads of wood were hauled and now that snow has started t to fly and pinon picking is out I might be able to hire a Navajo to cut wood for me. Two gate valves were dug out and replacedabove the doping tanks, the tanks cleaned, and again we have clear water. The reports on samples sent in for analysis have been safe. Three trips to Gallup were made for supplies and material.

Bates E. Wilson,
Superintendent.

GRAN QUIVIRA NATIONAL MONUMENT
GRAN QUIVIRA, NEW MEXICO

Dec. 26, 1948

MEMORANDUM for the Regional Director, Region Three.

The following is a report of activities at Gran Quivira for the month of December 1948.

General. A combination of dry weather and high winds threatened to remove this part of New Mexico through the month of December. Winter wheat and range lands have suffered badly, bean fields in the area look like the dust bowl in 1934. Four inches of snow on Dec. 25 & 26 provided a white Christmas and some badly needed moisture.

Weather. There was no measurable moisture from Nov. 4 to Dec. 25. High winds during this period were very hard on the farm and range lands. Maximum temperature for the period was 62° on Dec. 12; minimum 6° on Nov. 28.

Inspections. On Dec. 6 Erik Reed and Charlie Steen accompanied Mr. Vivian to the Monument and inspected the ruins stabilization work. They took a load of Mobile Unit equipment back to Santa Fe with them. Mr. Vivian finished removing the equipment on Dec. 13.

Maintenance. All signs around the parking area and ruins were restained and relettered during the month.

The Chevrolet pickup was in the garage in Mountainair for the first 15 days of December. Some 60,000 miles of Class B roads had loosened the front end until the radiator would no longer stay put. Considerable welding and bracing should hold it for a while.

While Gordon Vivian's dump truck was available 4 loads of gravel were stockpiled for use on the entrance road when the spring thaws arrive.

Repair and Rehabilitation. No progress was made this month; however, it is planned to start the construction of the museum cases shortly after the First of the year. Mr. Steen brought down an excess bookcase from Santa Fe which will make a nice addition to the museum furnishings.

Arizona Archeological Center Library

Approaches to Monument. The Mountainair approach road has been in good shape up to the storm on Christmas day. The road from Gran Quivira to Claunch has been impassable to nearly so for the past 15 days due to drifting sand.

Interpretive Service. 26 parties totaling 87 people were guided through the ruins. Average trip time, 37 min.

Increase in Travel. Travel for the month of December shows a slight increase over that of December 1947. This is due largely to the very open winter we have had to date.

	CARS	VISITORS
December 1948	41	106
December 1947	29	98
Increase	12	8
Percent Increase	41.4%	8.2%
This Travel Year	169	474
Last Travel Year	98	293
Increase	71	181
Percent Increase	72.5%	61.8%

Visitors. Dec. 6. Mr.& Mrs. Gordon Vivian, Erik Reed and Charlie Steen from the Regional Office.

William L. Bowen,
Superintendent.

GREAT SAND DUNES NATIONAL MONUMENT
MOSCA, COLORADO

December 26, 1948

MEMORANDUM for the Regional Director,
Region Three.

There follows the report of activities in Great Sand Dunes National Monument for December, 1948.

WEATHER. Winter has not yet arrived as the water line has not frozen.

The minimum of 6 below zero was registered on November 28. The maximum of 50 degrees was reached on December 13. The high minimum was 33 on December 23. The low maximum was 26 degrees on December 7.

Snow fell on November 27; December 4,6,11,18,23 and 25. Strong winds blew on December 3,4,12,14,15,17,18,21,22 and 23.

There were 15 clear days; 4 partly cloudy and 11 cloudy days during this report period.

The Sangre de Cristo range is heavily covered with snow and the valley proper has received very little moisture. Rain fell in Alamosa on December 23, which natives considered unusual.

TRAVEL. One hundred seventy-four visitors in fifty-four cars visited the Sand Dunes during this report period. Eight states were represented. Two people took advantage (?) of the picnic areas. Twelve days show no visitors to this area. Two requests for information were received and answered.

DECREASE IN TRAVEL. For December, 1947 there were 61 cars and 198 visitors.

CONTACT. Contact with visitors was done on only two Sundays; seventeen cars were contacted, with a total of seventy-eight visitors. Contact time amounted to three hours, ten minutes.

ROADS. The state graded the approach road from Mosca to headquarters on December 11. It is in good condition. The monument road from headquarters to the Sand Dunes is rough and corrugated.

LANDS. Obtained a certified copy of the Mortgage release of Linger Brothers, relating to property at Great Sand Dunes.

Contacted two appraisers in Alamosa in connection with the land acquisition program at Great Sand Dunes.

WATER RIGHTS. Much correspondence was done in regards to the Wellington water rights at Great Sand Dunes, on the status of the Mosca Ditch in relation to his water rights.

PERMITS. Contacted J.W. Williams concerning his Special Use Permit for movement of cattle through Great Sand Dunes.

ACTIVITIES. Usual routine duties of checking light plants, hauling, and trying to keep office and administrative matters current.

Took delivery of the Galion No. 402, Motor Patrol Grader on December 1.

Took delivery of the Roper gas range for residence on December 12.

Installed gas range in residence.

Cleaned light plant room for storage of coal-wood stove.

Replaced valve spring in No. 2 light plant. Repairs made on No. 1 plant, but still not in operating condition.

Hauled two tanks of propane gas. Also hauled two barrels of white gasoline for light plants.

MONUMENT LIBRARY. Obtained through the Southwest Monument Association book "Knowing Your Trees", for library at Great Sand Dunes.

Ted C. Sowars,
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Montezuma Castle National Monument
Camp Verde, Arizona

December 24, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly report of activities at Montezuma Castle National Monument for the month of December, 1948.

Visitors this month to Castle and Well - 898; travel year to date - 4864.

General Travel is sporadic with up to six trips through the Castle in one day and perhaps only one or two trips the next. However we guided 284 people in 83 trips this month and 189 people in 59 trips in December, 1947. We make a good many trips for only one or two visitors which consumes amost as much time as though we had larger groups.

Weather Our long drouth has been broken with .13 of an inch of rain on December 15 and 16 and more than an inch in the last thirty-six hours.

Administration The lease on tillable land at Montezuma Well was renewed in favor of the Montezuma Dairy Company of Camp Verde.

Considerable time was spent assembling material and writing copy for a booklet on this monument to be published by the Government Printing Office. This booklet will be one of the first group of a series in a new format which will replace the current 16 page publications. Such a booklet is needed for this monument since the reprint of Earl Jackson's article in Arizona Highways Magazine has long been exhausted, and the booklet "Montezuma's Castle" by Frank Pinkley carries some obsolete and inaccurate information.

A routine has been established to submit water samples to the Federal Laboratory of the Public Health Service in San Francisco each Friday, and to the State Laboratory in Phoenix as often as sample bottles are received. Some tests show that our water is still potentially unsafe.

Maintenance All hydrants and drinking fountains were removed or protected from freezing.

Weeds around the entrance were cut and burned.

The small bedroom in Residence No. 2 was redecorated and an attempt made to repair damage done to the wall several months ago by a leaky roof.

Rocks and litter were cleaned from the trail between our register stand and the Castle ladders.

Personnel Hastings was on annual leave December 15 and 16 and took two hours of annual leave on December 5.

Leding was on sick leave December 8 through 12 suffering from a wisdom tooth extraction. On December 19 he entered on annual leave to continue through January 12.

Schroeder was on annual leave December 3 through December 7.

Visitors There were 684 visitors to Montezuma Castle in 218 cars and 214 visitors to Montezuma Well in 84 cars. Travel is up more than 10 per cent over last December although travel trends generally are reported to be down. Tickets sold, 227; tax but no ticket, 36; children who climbed free, 21.

Contacts Two hundred and eighty-four people were guided through the Castle in 83 groups. In the museum there were 338 visitors in 92 groups. Total contact hours at Castle: Hastings, 56.00; Leding, 43.50; Schroeder, 5.50.

Newsworthy Visitors Rubinoff, the violinist, gave a concert in Cottonwood on Thanksgiving Day, November 25 and he and Mrs. Rubinoff and their son visited the Castle on November 26.

Accessions Archaeologist Schroeder secured from the Soil Conservation Service in Cottonwood a good aerial photograph showing this monument and surrounding area. This clearly shows the relationship of approach roads, etc. to the topography.

Southwestern Monument Association Sales Total sales for the quarter amounted to $241.55. Total cash received $221.70 leaving a shortage of $19.85 from our "Serve-Yourself" sales. The largest single item was our colored (Kodachrome reproduction) cards which produced $35.50 and the 25¢ photo packs which produced $34.75. The booklet on Montezuma Well which sells for 5¢ produced $24.00

The following excerpts were taken from Archaeologist Schroeder's report from Montezuma Well.

Administration Daily duty was maintained except for lieu days and as follows: 6 days annual leave; worked at Castle December 10 and 11 replacing Leding on sick leave.

The following was accomplished this month: The exterior trim on the quarters was painted to complete the second coat of the house. Doors and windows were weatherstripped.

The aerial photograph of Montezuma Well and vicinity for the museum exhibit, received the latter part of last month, was installed to complete the second panel. Press-wood backing was cut and put on all labels in the first panel. The three temporary panels are now finished and plans for the fourth are in the offing.

The road approach signs were given a coat of linseed oil and the letters will be repainted in cream to be in keeping with the Forest Service signs which are being changed this month. The Forest Service is supplying the paint.

An estimate was made of the lumber required to complete the museum storage cases.

A draft on "Montezuma Well" and "The Indians of the Verde Valley" was prepared and submitted for the proposed booklet on Montezuma Castle.

Records New bird observations for the area include the Crissel Thrasher, Ruddy Duck, Canvass-back, and Townsend's Solitaire.

A visitor who had been on a road survey through this area in 1910 stated that the collapsed one room structure in the flats southwest of the Well was standing 4 to 5 feet and had a small doorway facing the Well at that time. He also provided information concerning that portion of the ditch now covered by the county road, data for which may be in the files of the Arizona Highway Department.

The completion of the first full calendar year of duty at the Well is marked with many nice memories, a few bruises, a flitting acquaintenance with 129 species of birds, the notation of 23 Indian structures, a few encounters with rattlers, near misses with skunks, and a cold war with a variety of insects. Many nice people have come to visit the area. Those who had been here prior to its acquisition were happy to see it in Park Service hands and some liked the idea of seeing exhibits staring them in the face instead of a bunch of pots. WE're looking forward to the New Year with the inevitable new problems and wish to convey wishes of a Happy and Eventful New Year to all.

Homer F. Hastings,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
ORGAN PIPE CACTUS NATIONAL MONUMENT
P. O. Box 38, Ajo, Arizona

December 26, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of December, 1948.

Weather

The holiday season was ushered in by 0.95 inch of rain falling slowly on December 18, 22, and 23. This precipitation enhances our chances of a bumper flower crop next spring. The maximum temperature was 77 on December 9 and the mercury fell to a minimum of 27 on December 21.

Approach Roads

The Pima County Supervisors have just announced that invitations to bid will soon be issued for beginning the construction of 30 miles of paved highway from the west Papago Reservation boundary toward Sells. The construction of this section of road will leave only 30 miles of unimproved road on the road to Tucson via Sells.

Fences

The contract for the 11 miles of border fence from Davis Canyon westward has been let to Ray Trappman of Douglas who intends to begin work on January 6.

Mining

The company working on the Milton Mine prospect has taken out their air compressor and stopped activity for the time being, but we have not been informed of their future plans.

Accidents

A dispute over the right of way between a cow and a motorist about 5 miles north of headquarters resulted in the untimely death of the cow on December 24, 1948 A.D.

Organ Pipe Cactus National Monument

Personnel

John R. Rasmussen entered on duty as seasonal ranger on December 11. His help will enable us to contact many more visitors.

Jimmy Brewer, superintendent of Navajo National Monument, arrived at Organ Pipe Cactus earlier in the month to help us during the rush season although he is now in California for a tonsillectomy.

Travel

Although the genuine tourist travel has increased considerably, our total travel has decreased due to the new schedule at the Ajo Mine which provides only two days off every four weeks and due to the decreased fishing resulting from the loss by fire of the pier at Rocky Point.

William R. Supernaugh,
Superintendent.

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Saguaro National Monument
Tucson, Arizona

December 26, 1948.

MEMORANDUM for the Regional Director,
Region Three.

There follows the monthly report of activities at Saguaro National Monument for the month of December, 1948.

Weather.

The month of December has been pleasant from a weatherman's standpoint. The temperature during the month fluctuated between a daytime high of 77° F. and a night-time low of 19° F. A total precipitation of one and forty hundreths inches fell during the month. Very little snow has fallen on the mountains so far this year.

Special Activity.

For the third time since July the Sheriff's office has reported a plane down on the Rincon Mountains. All three were false alarms. The last report came on Friday, December 17th. The entire day was spent searching the north side of Mica Mountain, without success.

Inspection.

Mr. Homer Bundy, a member of the Saguaro Land Committee, spent a day on the area in the company of the Superintendent, familiarizing himself with the Monument and the land problems.

Water Supply.

Four thousand gallons of water was hauled from Tucson to Madrona Ranger Station to replenish the depleted water supply during the first week of December. We hope the present stormy weather will end our water problem.

Maintenance.

A week's general clean-up program at headquarters was instigated during the first week in December while the Maintenance-man was hauling water to Madrona.

The cattle guard at the entrance to the Monument has been cleaned out.

RECEIVED
DEC 30 1948
NATIONAL PARK SERVICE
REGION THREE OFFICE

Maintenance (continued).

Our two-man crew spent the rest of the month repairing the lower portion of the Madrona-Cross Shack trail.

The loop road has been dragged twice during the month. We are still hopefully awaiting our long over-due road maintainer.

Interpretive Services.

A slight increase in interpretive service was attained during December. A total of 641 people in 205 parties were given interpretive service at Monument headquarters, for an average of sixteen minutes per party.

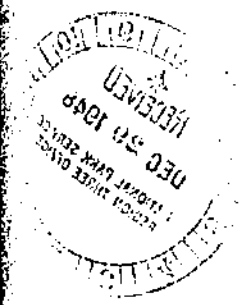
Increase or Decrease in Travel.

Travel has shown a decrease of 249 people over last month but an increase of fifty people over December of 1947. A total of 1,625 persons in 534 cars visited Saguaro during the month. Total visitors for the travel year 1949, 4,386.

Visitors.

Mr. Eugene Dream, former Ranger at Yosemite National Park.

Hank Duffield, former employee of Saguaro was here for a short visit.



Publicity.

An excellent article on Saguaro National Monument and the Saguaro cactus appeared in the December issue of Arizona Highways.

Personnel.

Superintendent King took annual leave starting December sixth and expects to return about December thirty-first. He and his family are visiting in California.

Laborer-leadman Frank Stansberry took annual leave on December 13th, 14th, and 15th.

Lawrence D. Wildo, Jr.
Acting Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Wupatki NATIONAL MONUMENT
Flagstaff, Arizona

December 26 19 48

MEMORANDUM for the Regional Director, Region Three.

Following is a report of activity at Sunset Crater National Monument for the month of December 1948:

Weather: Temperatures were down below freezing every night and snow fell early and late in the month, closing the roads to traffic on the 25th. The quarterly reading of the rain gage at Sunset shows a total of 3.13 inches of precipitation for the months of September, October and November. This is only four tenths of an inch below last year.

Roads: The entire entrance road was bladed and put in shape so that it could be worked easily when the moisture permits. The entrance off of U.S. Highway 89 is much improved, the water holes having been filled and drained. In the spring it is expected that we can make the final improvements that will make for a much better road. Lack of moisture does not permit this being done now.

Travel: No count could be taken at this time, because of the heavy snowfall. Maintenanceman Bean reports heavy use of the road during the month.

Observations: One buck was observed just north of the crater on the road at 10:00 AM December 14. Three does were seen near the west boundary at the same time-approximately.

Maintenance: One fairly thorough cleanup was accomplished during the month, the trailer inspected and checked for vandalism.

David J. Jones

RECEIVED DEC 30

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Tonto National Monument
Roosevelt, Arizona

December 31, 1941

MEMORANDUM for the National Director, Region Three.

Following is the report of activities at Tonto National Monument for December, 1941.

Weather. Normal average temperatures prevailed during the month, with no freezing or near nights. At 6:00 o'clock on the morning of the 1st a heavy rain started, with one day break on Dec. 2, it still continued on the 28th. Roosevelt Lake has risen over 5 feet, it still raining. This will make excellent water conditions for irrigation.

Maintenance of Equipment. Generally, this period has been a busy one for the Monument Staff. Work was started on the Lower Trail and the Cliff Dwelling Trail was completed.

Interpretation. Travel was very light. On Sunday, December 7th, a total of 5 visitors registered. Of the group, 4 were from Globe, Arizona, and the other from Phoenix. Two of the Globe visitors were children. Due to the fact that the Cliff Dwelling Trail was not completed, no visitors were taken into the ruin. Two visitors were taken to the Lower Ruin.

Protection. Protection was maintained by the Custodian and Ranger. Due to the fact that the Cliff Dwelling Trail was not completed, no visitors were taken into the ruin. Two visitors were taken to the Lower Ruin.

Personnel. Mr. Lyle Bennett, Custodian, left on November 30th, to accept a position with the Soil Conservation Service. Mr. Bennett was employed on April 1, 1941, as Custodian. Mr. Bennett was employed on April 1, 1941, as Custodian. Mr. Bennett was employed on April 1, 1941, as Custodian.

Maintenance. The entire monument was kept in a clean and orderly condition during the month. All trails were kept clear of debris and rocks. The Cliff Dwelling Trail was completed on December 15th. The Lower Trail was completed on December 20th. The Lower Trail was completed on December 20th.

Miscellaneous. A temporary radio was installed in the Custodian's office on December 15th. The radio was installed by the Custodian. The radio was installed by the Custodian. The radio was installed by the Custodian.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Roads & Trails. Road man Constable worked over the shoulders and ditches of the entrance road with rake & shovel, made great improvement. He put up a new gate at entrance of Lower Ruins trail. With a forge borrowed from the Forest Service, Constable sharpened and tempered all the picks and bars. Also put up hand-tool boards in the adobe shed, and built a new set of plank steps from the parking terrace down to the Museum. Considerable other maintenance work was done also, including installation of a hydrant and sink in the tent house.

Wildlife. One small bobcat was annihileted by the Superintendent when he mistook it for a feral tomcat which has been visiting the canyon. Another small bobcat is sighted regularly around the Headquarters area. A great horned owl was seen one night near the parking area.

General. State Highway Cooperator Mr. Sanders came in to tell us that he had a gravel loader available for awhile if we could get a dump truck. This last rain will make some road repair necessary. Civilization crept closer to Monto, as we installed a light in the office. Pierson and Orem made an erosion survey of the Monument, and Orem filled out the maps called for in connection with Soil and Moisture information. Pierson has been working over the fact files, and incorporating materiel sent by Archaeologist Steen. One Onan plant is now running excellently, after a determined session with the superintendent.

Charles C. Sharp
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Tumacacori National Monument
Tumacacori, Arizona

December 26, 1948.

MEMORANDUM for the Regional Director,
Region Three.

WEATHER CONDITIONS: The drouth relented a little, with .72 inches of precipitation, roughly an average rainfall for December. Temperatures ranged from minimum of 16 on December 5 to 77 on the 10th, 12th and 13th. We have had 13 cloudy days, but very little of the expected biting north winds.

INCREASE OR DECREASE IN TRAVEL: December visitors numbered 2,136, which number has been exceeded only once, by the December figure of 2,245 for 1947. This continues the slump which began in November, and we have every reason to believe it reflects a general slight decrease in tourist activity for southern Arizona.

INTERPRETIVE SERVICE: 1,109 persons went on 190 guided trips through the mission church and grounds, receiving an average of 34.44 minutes per trip. 2,061 persons saw the museum, and 2,072 received combined information and interpretation service.

VISITORS: 11-27 - Sup't Sam King and family, of Saguaro National Monument.
12-6 - Franciscan Fathers Bonaventura and John Joseph spent several hours here. Bonaventura is considerable of an authority on mission history.
12-10 - Sup't and Mrs. Charles J. Smith, of Zion and Bryce.
12-12 - Mayor and Mrs. James V. Robbins, of Nogales, Arizona.

MAINTENANCE: Routine maintenance and cleanup kept current. Considerable trouble has been had with the large oil furnace in the museum building, which necessitated a lot of tinkering, and repair to the furnace controller. A sewer line stoppage too remote from an outlet for our 25 foot plumber's worm to reach, required services of a plumber to break the line and clean it. It was then discovered that one part of the original sewer tile did not have enough grade, and will probably clog again. Display shelves were made and installed in the SHMA case. Museum furniture was waxed. Several of our trees were treated with ammonia phosphate, and some manure was hauled for the garden. The annual equipment inventory was made.

PERSONNEL: James R. Walker entered on duty as seasonal ranger on November 29. With considerable previous seasonal experience in other areas, he fell readily and easily into our procedure. Ranger Brewer spent 13½ days of the month on annual leave.

RECEIVED
DEC 29 1948
NATIONAL PARK SERVICE
REGION THREE OFFICE

RESEARCH: A few months ago the owner of the ranch just south of our area was moving some earth from a low mound for purposes of making a dike as flood protection, and ran into a lot of old fired bricks, jumbling them up pretty badly. When we saw this we asked them if, in the interest of history, they would defer more removal from the particular spot until we might have a chance to learn if the bricks could be part of the mission brick kiln. This they obligingly did, and Jim Castellum, foreman of the ranch, has been making inquiry among spanish speaking old timers for us. Most of the old people know nothing about the brick structure, but the very elderly Mrs. Tomas Alegria, a member of the Mendez family which once homesteaded this area, states that as far back as she can remember the structure was regarded, not as brick kiln, but as a furnace. This would evidently be for copper ore. Inspection of the bricks shows that many have a glazed appearance, with a greenish stain in places. I am still not completely content with the furnace theory, but could not establish an additional use without quite a bit of excavation work. We are indebted to Mr. Castellum for the time he has spent on these various inquiries, mostly to persons who speak no English.

FIRST AID: On November 30 the little Casanova girl from across the road almost cut off the end of one of her fingers in a closing car door. So we tied the fleshy end of the finger in place and sent her in to a doctor with her father. The finger was sewed back together, and it was healing nicely, at last report. So, little by little, our Red Cross station here earns its keep.

SPECIAL OCCURRENCES: The annual community Christmas tree party was held on the mission grounds in front of the mission church. This is a strictly local affair, so that Santa Claus can give Christmas stockings to children of Tumacacori, Tubac, and Amado. The party is financed by voluntary subscription to a Christmas tree kitty, and is staged after closing hours, and cleanup is done before opening time on Christmas day. This year 250 Christmas stockings were given out, with adults standing around drinking coffee and eating doughnuts and remembering the good old days, while Santa brought cheer to the young.

Long after the Christmas party for the kids was over, and Bob Walker was down at the Jackson house helping us savor the mellow attitude which precedes Kris Kringle's acrobatic descent through the six inch throat of the fire place chimney, we were startled at the sound of gun fire on the mission grounds! Fearing that some drunk or nut was loose, we cautioned my wife and kids to douse the house lights, and Bob and I conducted a search of the grounds. Our military forces might not have given complete approval to our stealth technique, but at least our search was thorough. And when we were through we realized that this was only one of numerous occasions in which I have been fooled by echoes of gun fire and celebration from the neighborhood of the cantina across the wall.

Earl Jackson,
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

.....TUZIGOOT..... NATIONAL MONUMENT

..... CLARKDALE, ARIZONA

..... DECEMBER 26, 1940 , 19

MEMORANDUM for the Regional Director, Region Three.

Following is the monthly narrative report for Tuzigoot National Monument for December, 1940.

Travel Data and Trends: Despite some indications of a slowdown in the business world, Tuzigoot travel continues above par, showing an increase of 22% over the corresponding period last year. The Immigration Service, however, reports a decrease of travel through ports of entry in Northern Arizona and that a seasonal shift of heavier travel through southern ports is underway.

Weather: The end of Arizona's 50-day drought occurred on December 17 when widespread snow flurries blanketed mountainous elevations above 6,000 feet and rains fell in the valleys. Precipitation also fell during a 24-hour period during December 22-23 bringing relief to the Verde Valley of one of the longest fall droughts on record.

Guide and Contact Service: Museum, ruins and orientation contacts totaled 1169. 706 people in 242 parties were shown through and given an orientation lecture in the museum, and 675 people in 225 parties were conducted through the ruins. The average time spent by each party in the museum and ruins was 21 minutes. Supt. Bright is now on Annual Leave; interpretive service is not interrupted as the Monument is kept open to the public every day of the week by the Acting Supt.

Personnel Time: Museum: 64 hours, 25 minutes. Ruins: 75 hours, 14 minutes. Total contact time for Bright: 112 hours, 10 minutes. For Richart: 41 hours, 10 minutes.

Visitors: Hal Cooley, anthropological writer, working on Yavapai County publicity, visited Tuzigoot December 13 to take pictures of the ruins and flash-bulb shots of the museum interior.

Maintenance and Administration: Supt. Bright commenced 14 days Annual Leave on December 12, during part of which period he and Mrs. Bright took a "postman's holiday" visiting Tonto National Monument for the first time. The Acting Supt. and wife returned from a month's Annual Leave spent with friends and relatives in blizzard-swept Kansas. During our absence, Supt. Bright completely redecorated the kitchen and living room of the Gov't. quarters, and refinished the kitchen sink drainboard with red marlite trimmed in chrome metal. Both jobs were urgently needed. Another project high on the priority list, for which we are hoping funds can be allotted, is painting the museum.

We are pleased to report the receipt of 12 metal nature trail signs, bearing common and scientific names of Arizona cacti, acquired by Supt. Bright through Supt. Sharp of Tonto. These have been mounted on metal stakes in front of our cactus specimens along the flagstone walk leading from the museum to the ruins, and are drawing considerable attention from visitors.

Quarterly reports are being prepared, and SWMA inventory has been made.

A binder for the Administrative Manual was sent to Grand Canyon as requested by Procurement Officer Rittase. Originally, Tuzigoot received one more binder than ordered and Grand Canyon one less, hence the adjustment.

Some progress was made on Fact File records and revision of museum labels.

Museum windows, nearly opaque as result of tailing's pond dust mixed with rain striking them, were washed and sills cleaned.

Cooperative Project: At the request of Regional Archeologist Reed, a fair-sized sampling of typical potsherds of this area are being collected from Tuzigoot and two nearby Sinagua sites outside Monument boundaries. These are being washed, labeled as to type and provenience, and will be shipped to Dr. Karl Schmitt, Department of Anthropology, University of Oklahoma, where they will be used for classroom and museum purposes. We hope to inveigle Al Schroeder, Montezuma Well, into corroborating and assisting in our identifications.

Outside Activities: For our Annual Leave trip, Supt. Hastings, Montezuma Castle, kindly offered the use of his projector and a choice group of Southwestern Kodachrome slides - to regale the home folks. We know that through his generosity a few score Kansans were made Park Service conscious and eager to see first-hand the colorful areas depicted.

Season's Greetings: Tuzigoot extends best wishes for a very happy New Year to all officers and fellow-employees in the Service who read this report.

Roland Richert.

Roland Richert,
Acting Superintendent.

RECEIVED DEC 28 1948

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Walnut Canyon National Monument,
Flagstaff, Arizona.

December 28, 1943.

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly narrative report of Walnut Canyon National Monument for December, 1943:

Weather. Clear, dry and cold until a storm, beginning Dec. 23, brought about two inches of precipitation in the form of snow and rain.

Inspections. Kenny Saunders was in to supervise the purchasing of paint for the interior of the Administration Building.

Interpretation. Of the 644 visitors, 609 were contacted at the Admin. Bldg., and it is estimated that 422 made the ruins trip unattended.

Museum Activities and Exhibits. Enlarged pictures of Walnut Canyon views were used to fill one of the empty exhibit cases. Some of the labels were changed, and some of the more interesting artifacts recently recovered from the stabilization project were added to the exhibits. The wick insulation for the 12 case fronts was installed during month. The light plant was kept running for the museum on only a few peak days or when we were working in the exhibit room.

Since our recent snow, we have noticed one leak in the new roof over office, and some of the large pasteboard labels in the north bank of cases seem to be swelling as if they were absorbing moisture from some source.

Copy for a nature trail guide leaflet was submitted during month.

Activities. Mostly routine chores such as keeping light plant running, providing fuel for the various heating units, etc. All but one laborer was released from the ruins stabilization project at noon, December 8. This one laborer remained a few days to carry out of the canyon the last of the artifacts; to do quite a bit of cleanup around the repaired dwellings and the Indian laborer's camps; to number the rooms permanently; and, to store the artifacts.

An automatic water heater has just been installed in the ranger's residence, but for reasons unknown as yet, has not produced anything but tepid water.

Navajo's patrol grader arrived in Flagstaff, and was stored at Walnut Canyon.

Paul L. Beaubien
Superintendent

..... White Sands ..NATIONAL MONUMENT

Box 251, Alamogordo, New Mexico.

December 21, 1948. 19

MEMORANDUM for the Regional Director, Region Three.

DECEMBER TRAVEL, 1948		1948 TRAVEL, YEAR TO DATE	
Visitor - 4,883	Cars - 1,264	Visitor - 10,200	Cars - 6,151

Being favored with ideal weather for the major portion of the month, our visitor traffic is again the largest for any other December in our history.

A trip was made to El Paso to take the tires of our auto patrol for recapping. We also contacted the Caterpillar people for an estimate on repairs to our "Cat".

Last month I wrote of a V-2 rocket landing within one half mile of our loop drive or about nine miles from headquarters. Well, this month another one landed about three miles from headquarters with small fragments (about the size of a desk top) as close as one quarter mile from the residential area. One nice thing about White Sands - never a dull moment. Our staff, as well as perhaps a hundred or so visitors, hold here at the road block, got quite a kick out of the missile; from the vapor trail at the start to the time of the landing. No correction was noted since the westward leaned some four miles further north and west. Again no large hole resulted from the impact. The ground was hardly scratched, the missile just rolled over like a leaf drifting downwind. We had a lot of truck tracks into the impact area.

Our little cog-pulling jobs were carried out; especially the rest rooms. All screens will be painted as soon as we can get to them this winter. In short, we do little outside of visitor contact and cleanup.

We had hoped to make a detailed survey of our area for the Soil & Moisture project, but have not been able to do so as. Our report will be based on patrols over the past several years.

Engineer Hendricks and Louie were in for a few minutes but I missed both of them. I am sorry I was not in and hope both will be back soon for me to argue with them.

In closing this final report for the year of 1948, I want to take this opportunity to once more express my appreciation for the cooperation received from the Washington and Regional Offices, and, lastly, my own crew. Each one has given cheerfully of whatever was necessary to do the job we have to do. Without this type of cooperation, we could not look back over the trials, pleasures, and labors of the year and say, "well done". To a splendid crew, from top to bottom, my sincere appreciation.

We start the New Year with a real challenge and hope we can fare as well as we have in 1948.

Best wishes to all.

Johnwill Furis,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

December 28 19 40

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Wupatki National Monument during the month of December 1940:

Weather: Definitely a cold winter month with a total precipitation of .58 confined to the early and latter part of the month. Minimum temperature of 10° and snowfall of one inch.

Rain gage readings at the end of November for both the Citadel and Wupatki show that this is the dryest fall on our records. This off-quarter reading for the months of September, October and November showed a total of 1.07" at Citadel and .70 at Wupatki.

Roads: With the receipt of our motor grader the first real improvement on the road since last summer could be accomplished. The primary effort was on the Sunset approach so that winter snows could pack the surface, and freezing weather has slowed operations at this end. One cattleguard near Wupatki Ruin was removed, as it has been impossible to obtain rails to make repairs.

Travel: Of the 188 Monument visitors during the past month 95 registered at Wupatki Ruin. This is an increase of 85% over travel of last December. Thirty two visitors in twenty parties received guided service.

Special Activities: Land problems required attention again this month. A listing of qualified appraisers was furnished your office with regard to possible purchase of the Heisor's Spring property. A news release was prepared with photographs regarding road improvements and need for funds, using the receipt of our new equipment for the story vehicle. Photographs were obtained and will be furnished to the Director's Office for the budget hearings. A small party was held on Christmas for the Navajo children of Wupatki Basin.

New Equipment: Two motor graders, Galion 104, were received for Wupatki and Navajo. The latter was stored at Walnut pending the return of Superintendent Brewer from his winter in the south. The one for Wupatki was put to good use.

Activities of Outside Agencies: A survey crew of the El Paso Natural Gas Company has been working in and around the Monument for the past month. Their survey of the best location runs through the Monument, but it is possible for them to go to the south or the north. There is the possibility that they will make an effort to go through Section 29 R 10E, T20N, a privately owned section in the connecting strip with Crack-in-the-Rock.

Visitors: Our most distinguished visitor of the month was none other than Sally Brewer, who was on her first visit to the old stamping grounds in six years. She renewed her acquaintance with many of the Navajos in Wupatki Basin, and is afraid that most of them think she is now a missionary. The only word we found that would explain Tumacacori was "Jesus-b'gan" and Sally is sure they do not understand that it is an old church.

Mr. and Mrs. Ken Saunders paid us a visit to discuss some of our architectural problems. We enjoyed and profited from them. L. F. Allen of Zion-Bryce NP registered at the Citadel.

Grazing: The CO Bar Company opened up the Deep Well Tank and the one on North Mesa on December 20, thus allowing the cattle to graze on the Monument. As mentioned in last month's report, they had opened some of their tanks to the north of the Monument. Some drifting occurred, but it was of a minor nature and sporadic.

Spring Flow: In spite of the dry fall our spring flows are better than the past two years. Heiser increased about 500 gallons to a daily flow of 2273. Wupatki Spring increased 200 gallons to 864 this month.

Public Health: Water of Heiser and Wupatki Springs was sent to the Arizona State Lab and showed a negative count.

Maintenance and Construction: The trailer house for the Ranger has been completed and while it is an interesting experience to chalk up along with all of the others, we say never again in the nar future anyway. Rangers and superintendents are not the most skilled carpenters plumbers and so forth and one can make the damdest mistakes.

David J. Jones
Superintendent

RECEIVED DEC 30 1948 NATIONAL PARK SERVICE REGIONAL OFFICE

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

RECEIVED DEC 30 1948 NATIONAL PARK SERVICE REGION THREE OFFICE

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9x3).

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENT ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL AREAS.

Fill in Only Those Blocks That Apply

RECEIVED DEC 27 1948 NATIONAL PARK SERVICE

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8n3) and 9 (Report 9n3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH BUSES, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS ENQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This included all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

NAME Tod C. Cowers

TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

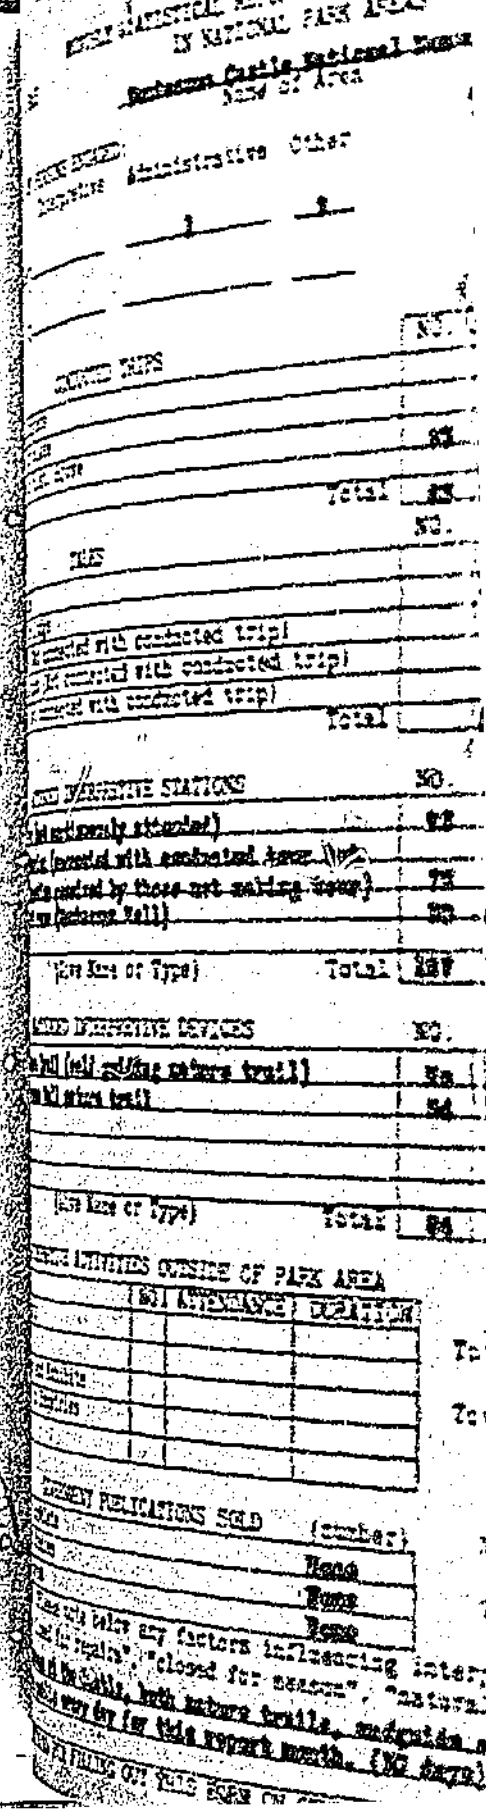
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.



COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.). Count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Personnel required for general maintenance work several days per month.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

REMARKS: (Please note below any factors influencing interpretive service, such as "Museum closed for repairs", "Closed for season", "Curtailed on sick leave", etc.

*INSTRUCTIONS FOR PREPARING THIS MONTHLY REPORT OF PARK AREA, please read from cover

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the stations (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9a3).

Museum unattended 1 day. Two rainy days lowered travel.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

RECEIVED DEC 27 1948 NATIONAL PARK SERVICE (THREE OFFICE)

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETATIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time or each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Arizona Archeological Center Library

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 16, Chapters 8 (Report 8m3) and 9 (Report 9m3).

February 4, 1949.

MEMORANDUM for the Regional Director, Region Three.

Following is the narrative report for the Naturalists of the Southwestern national monuments for January 1949.

Staff Activities, General

Naturalist Dale S. King and Archeologist Gordon Vivian were in the office during the month.

Archeologist Charlie R. Steen made an inspection trip to Aztec Ruins and Walnut Canyon.

Interpretive Administration

King accomplished preliminary editing of a manuscript prepared by the Montezuma Castle staff for a proposed 50-page government booklet.

Steen wrote one letter dealing with correct designations for the various excavated ruins of Casa Grande.

Public Relations

Photographs of Montezuma Castle and Well were furnished author Nell Murbarger for an article she hopes to publish on that monument.

Suggested news story was furnished to the Superintendent, Aztec Ruins for release to clear up conflicting press reports on the addition of the Hubbard Mound to the monument.

Progress of Exhibit Plans and Projects

Museum Curator Macy prepared two excellent sketches of proposed exhibits in wayside displays at Arches.

The preliminary exhibit plan for Walnut Canyon was returned from the Director, but the detailed comments by the Museum Division were misplaced and did not arrive with the plan.

A plan for proposed revision of the pueblo religion case at Bandelier was received from Ranger Onstott and forwarded to the monument for action. Some

Aztec

correspondence passed with Casa Grande and Tonto regarding improvements in multiplex exhibits and museum labels, respectively.

Loan Library

The library catalogue was kept current. Accessions were 37 books, 34 pamphlets, and 49 periodicals. The more important books received were:

Boas, Franz (editor) - General Anthropology. War Department Education Manual-EM 226. Published for U. S. Armed Forces Institute by D. C. Heath and Co. 1944; (same content as the 1938 edition.)

Bolton, Herbert E. - The Spanish Borderlands. Yale University Press, New Haven, 1921.

Brodie, Fawn M. - No Man Knows My History. Alfred A. Knopf, New York, 1946. (Biography of Joseph Smith.)

Bureau of American Ethnology, Smithsonian Institution, Washington, D.C. The following Annual Reports:

1st - 1879-80.
Powell - Evolution of Language.
Powell - Mythology of North American Indians.
Powell - Limitations of Anthropologic Data.
Yarrow - Mortuary Customs, North American Indians.
Mallery - Sign Language.

5th - 1883-84.
Mathews - The Mountain Chant.
Stevenson - Religious Life of the Zuni Child.

6th - 1884-85.
Holmes - Textile Art.

10th - 1888-89.
Mallery - Picture Writing of North American Indians.

11th - 1889-90.
Stevenson - The Sia.

13th - 1891-92.
Mindeleff, Cosmos - Aboriginal Remains in Verde Valley.
Mindeleff, C. - Casa Grande Ruin.
Cushing - Zuni Creation Myths.

15th - 1893-94.
Fewkes - Tusayan Katcinas.
Mindeleff - Repair of Casa Grande Ruin.

16th - 1894-95.
Mindeleff - Cliff Ruins of Canyon de Chelly.
Fewkes - Tusayan Snake Ceremonies.

17th (part 2) - 1895-96.
Mindeleff - Navajo Houses.
Fewkes - Expedition to Arizona in 1895.

18th - 1896-97.
Royce - Indian Land Cessions in the U. S.

19th (part 2) - 1897-98.
Fewkes - Tusayan Migration Traditions.
Fewkes - Tusayan Flute and Snake Ceremonies.

21st - 1899-1900.
Fewkes - Hopi Katcinas.

Colby and Foster - Economic Geography. War Department Education Manual EM 222. USAFI, 1944.

Eickmeyer, Carl - Over The Great Navajo Trail. J. J. Little and Co., New York, 1900.

Geiser, Samuel Wood - Naturalists of the Frontier. Southern Methodist University Press, Dallas, 1948.

Jones, Clarence F. - Economic Geography. War Department Education Manual EM-230. USAFI, 1944.

Nute, Grace Lee - The Voyageurs Highway. Minnesota Historical Society, St. Paul, 1945. (Fur Trade.)

Ogburn, W. F. and M. F. Nimkoff - Sociology (2 volumes). War Department Education Manual 260. USAFI, 1940.

Romer, Alfred S. - Vertebrate Paleontology. University of Chicago Press, Chicago, 1947.

Smithsonian Institution, Annual Report, 1947, Washington, 1948.

Southwestern Monuments Association

King discussed with several persons the possibility of obtaining an underwriter for the Cummings Festschrift volume. He spent a day of personal time editing manuscripts and obtained one informal quotation from a printer. He edited and sent to the "New Mexico Magazine" an article by Matt Dodge on White Sands National Monument -- another step in the project of compiling a book on New Mexico parks and monuments.

He corresponded with Naturalist Gale of Carlsbad regarding cooperation in obtaining a geological study there this summer, and he corresponded with Dr. Colton, Museum of Northern Arizona, in furthering the publication of the Halakihu report on Hupatki.

Treasurer Vedder made three deposits, due to an extra deposit being made the first few days of the month to cover checks that were drawn for special purposes. One disbursement was made, plus the few checks at the beginning of the month. This month was more active, with 213 covers mailed, including 38 letters and 28 purchase orders.

Much time was spent by Treasurer Vedder on posting inventory turn-ins from the monuments, and writing to the monuments about differences which show up on the control cards. Some time was spent on making the quarterly report and the year-end report to the Collector of Internal Revenue on the withholding tax, plus other quarterly and year-end statements in regard to royalties, etc., which is paid at that time. He collated the annual report, which was stencilled, and made a few minor corrections in it. Some work was done on the bookkeeping. The second edition of "Poisonous Dwellers of the Desert" arrived January 12. Two thousand copies, out of 10,000, were delivered to the Association, 6,000 to Lollesgard Specialty Co., and the rest were sent direct to the Monuments. Thus, back-orders of "Poisonous Dwellers" were filled. Mr. Vedder also coded and filed business reply cards that had been accumulating, and follow-ups were sent on unpaid invoices. Some filing work was done on bringing the files up to date.

Barbara Vedder worked only three hours, doing routine work on the file of stencils, checking new names for the file, etc. There was no mailing of the mail list this month.

Photography and Visual Aids

King furnished Curriculum Films 38 archeological and ethnological color slides with captions for possible inclusion in educational film strips. He also furnished more than 100 slides on general Park Service subjects to Dr. D. H. Laurason of Chatham, Ontario, Canada, for use in a public lecture program.

Visitors

Superintendant Faris, Archeologist and Mrs. Beaubien, and Ranger Leding and father.

Wildlife Management

Wildlife conservation activity reports from the field were consolidated, edited, and forwarded to the Director.

Ruins Stabilization

Steen inspected the East Pueblo at Aztec Ruins, and found original roofs recently cracked and in danger of collapse. They will have to be braced and some of the over-burden removed.

At Walnut Canyon, it was impossible to inspect the recently completed work of the Mobile Unit because of heavy snows.

Vivian completed a 250-page rough draft of the Stabilization Manual.

Archeologist Aide Raymond Rixey submitted a fine report on the Walnut Canyon work, and is now engaged in preparing an archeological report on artifacts found incidental to the stabilization work.

Projects for February

King will remain in the office except for a short trip to Aztec Ruins on museum matters.

Steen will leave about February 7 for a two to three-weeks' trip to Canyon de Chelly, Walnut Canyon, Casa Grande, Tumacacori, Tonto, and Montezuma Castle.

Vivian will make a short trip, taking equipment to Casa Grande about February 9, and will spend the remainder of the month on a report of excavations before the war of a small ruin at Chaco Canyon.

Mr. Dodge (2).

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Arches National Monument
Moab, Utah

January 27, 1949

MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Arches and Natural Bridges National Monuments for the month of January, 1949:

ARCHES NATIONAL MONUMENT

GENERAL: Grand County cannot boast a mild winter climate for this year as temperatures ranging from zero to 16 degrees above have been the rule throughout the month. In addition heavy snows have occured on several occasions during the month, making travel hazardous.

The superintendent made an official trip to Grand Junction, Colorado on January 19th regarding repairs to the water pumping system.

WEATHER: Temperatures, as stated above, have ranged from zero to 12 degrees above with very few days of thawing during the month. The January thaw that the oldtimers talk about has not materialized to date. Snow fell intermittently all month causing hazardous road conditions on all highways. At this writing we have approximately 4 inches of snow at headquarters with from 12 inches to 16 inches of snow in the outlying sections, and it is snowing again.

TRAVEL: Unusual weather conditions still prevail throughout Utah and adjoining states and travel has fallen to zero. US highways 160 and 6-50 have been closed on several occasions during the month, due to drifting snow, and the monument roads were in poor shape all month. Only two cars and four people were able to get into the area during this time and contact work was nil. No visitors entered the monument from December 30th to date.

MONUMENT ROADS: Roads throughout the monument have been open and closed intermittently during the month but very slick during times that they were passable. Due to the breakdown of our motor grader we have had to depend on the State maintenance crew to help us out. They made two trips over the road during the month with their snowplow to remove drifted snow. At this writing our grader is again in operation and the maintenance man and ranger are working on snow removal.

APPROACH ROADS: As with the monument roads, the approach road has been closed

a good part of the month due to unusually heavy snowfall for this country. The State made two trips over same with a snowplow, when time could be spared from snow removal on the highway. At this writing the approach road is open but monuments roads closed due to drifted snow.

MAINTENANCE: Our Caterpillar 12 motor grader ceased functioning on December 28th, 1948 due to transmission trouble. A serviceman from Salt Lake City completed repairs on same on January 21, 1949 and we hope it will now keep going for the balance of the winter. We were without its services during the heavy storms which occured all during the month.

Repairs were completed to the pump jack on our water pumping system and it was back in operation on January 25th, 1949.

SIGNS: Ranger Worthington spent most of the month working on signs and Maintenanceman Kinbourn worked on the same project when not busy on grader repairs. All existing signs are being repainted and new signs carved and painted for use on roads and trails. If this stormy weather continues we should have our area well signed.

GRAZING: Regular trips have been made to the various sections of the monument to check on grazing and no evidence of trespass have been found on monument lands. Stockmen are having trouble in getting feed to some of the stock in various sections but conditions are much better here than they are in the western part of Utah.

NATURAL BRIDGES NATIONAL MONUMENT.

GENERAL: This area is closed for the winter due to impassable approach roads. From the amount of snowfall this country is receiving it will probably be June 1st or later before the approach road over the Elk Mountain will be open to travel for visitors.

(in trip.)

Russell L. Maharn
Superintendent

RECEIVED JAN 31 1949

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

24 January 1949

MEMORANDUM for the Regional Director.

There follows the report of activities in Aztec Ruins for Jan 1949.

WEATHER. Like most of the areas in this section of the country we have had our share of winter with 2½ feet of snow for this report period, considerable rain, hail, sleet and a wide variety of wind storms. Our lowest temperature at the Ruins was minus 21 on which day it was minus 17 at 8: 0'clock. Other sections close by reported temperatures as low as 35 below.

Travel has been greatly discouraged by the weather and we have had a considerable falling off in the numbers visiting the ruins.

INSPECTIONS. Charlie Steen inspected the East Ruins 13 January for needs of stabilization.

MAINTENANCE. Our roof problems continue increasing. Great cracks in the Large Kiva roof have appeared, some 10 to 12 feet in length. The museum roof leaks in numerous places. We are constantly repairing them until the time that we may relay the entire roof coverings.

Snow removal, from the various roofs, has taken up a considerable amount of time. After each new snowfall we have cleaned the snow from each of the roofs.

NEW CONSTRUCTION. The newly constructed residence building is about ready for occupancy. All that remains is the installation of the electrical fixtures, some of which have not been available.

INTERPRETIVE SERVICES. There were 206 visitors in 69 groups shown the museum and 95 of these enjoyed the ruins in 18 conducted trips.

Decrease in Travel. A pronounced decrease of 46.6% this month over January 1948 with 206 visitors from 19 states and Canada. The current travel year remains 3% ahead of last year at this time.

SPECIAL ACTIVITIES. Ranger Gustott presented two illustrated lectures to the Aztec High School history classes.

Proposed Activities for Feb. Completion of the boundary fence which was held up by weather this month; considerable repair to roofs.

Irving D. Townsend.
Superintendent.

AZTE

RECEIVED
JAN 31 1949
NATIONAL PARK SERVICE
REGION THREE OFFICE

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

January 28, 1949

Memorandum for the Regional Director, Region Three

There follows a report of the activities at Bandelier National Monument for the month of January, 1949.

Weather

We did not experience any of the sever cold and snow that was received in other sections of the country but there was enough to snow us in for a few days and to reduce precipitation to the lowest figure in many months. 21.5 inches of snow fell during the month and there were 10 inches on the ground at the close. Temperatures ranged from 13 degrees below zero on the 5th. to 50 above on the 14th.

Special Activities

The Superintendent spent most of the month in the office performing clerical duties since we have not been able to fill the clerks vacancy to date. All correspondence and reports were brought up to date and put in good order. Considerable time was spent in going over the files and improving their arrangement. The rangers assisted with much of this work.

Maintenance

Weather stripping was placed around doors and windows of the residences and office. The savings in heat was immediately noticed when one employee reported that he had to turn his heating stove down about one third from its usual position.

The shop was repainted and most of the tools were reconditioned and repainted. Some work was done on rearranging the warehouse in preparation for painting it.

Power Line

We had borrowed transformers from the AEC to install on our power line in order to get it in operation when the electricity was turned on the the AEC section of the line. The transformers that we had on order were received and installed on the first of January and the borrowed ones were returned. The only thing left to do is to install

DEFENSE BUY UNITED STATES SAVINGS BONDS AND STAMPS

suspension insulators on one pole when they are received.

The rate for electricity was set at .02 per KWH by the AEC which is very reasonable and will result in a considerable savings over our former power expenses.

It is a real source of satisfaction to know that we will have dependable power and that we will not have to spend many of our days off working on power plants. The museum is much more attractive now with steady lights but it is one of our heaviest loads. As soon as money can be secured to install fluorescent fixtures we will be able to effect a savings in the museum operation.

Approaches to the Monument

The heavy patrol grader was put to good use this month to keep the approach road clear of snow. One round trip was generally all that was necessary where we could not do as good a job in two with the former small maintainer.

The AEC has been removing the snow from the section of Highway 4 from the checking station to Post 11 which allows visitors from Los Alamos to use this road to get to the Monument.

Interpretive Service

Ruins trips were the lowest for many months with only 22 trips and 113 visitors. A number of visitors drove in to the Monument but decided against taking a ruins trip because of the cold weather.

Travel

Cold, snowy, weather during most of the month reduced travel to the lowest since February 1948. There were six days at the last of the month on which no visitors came to the area. Total visitors were 160 which is 40percent of the same month last year.

Wildlife

Two wildlife counts were made during the month and it is especially gratifying to know that there is a noticable increase in the numbers of wild turkeys. One flock of about 25 and another of about 40 birds were found on the mesa just to the south of headquarters.

Building Fire Protection

Spark arrestors were constructed from hardware cloth and installed on the fireplace chimneys of the residences and museum lobby.

A fire alarm bell was installed at the residences to supplement the siren at the utility area. It is a 110 volt bell that was secured from surplus property at Los Alamos.

Signs

Much of the time of the Operator General and Laborer was spent on reconditioning signs and constructing three new ones for road intersections. The new signs were placed at the intersections of Sandia Canyon, Pajarito Canyon, and Frijoles Mesa roads with the approach road.

A number of antiquities act signs were mounted to be placed at several of the ruins in the Otowi section. A plastical covering was placed over the cloth sign to give it more protection. After giving them a trial we will report on whether or not this is successful in making the signs last longer.

Miscellaneous

Ranger Joe Keefe spent Christmas in North Dakota and was fortunate in making the return trip between blizzards so that he did not experience any difficulty. He had to make one detour of about two hundred miles in order to miss bad roads but other than that had a very pleasant trip.

(SGD) FRED W. BINNEWIES
Fred W. Binnewies
Superintendent

Canyon de Chelly National Monument
Chinle, Arizona

January 25, 1949

MEMORANDUM for the Regional Director, Region three.

The following is a report of activities at Canyon de Chelly National Monument during the month of January, 1949

Weather

The blizzards which raged on all sides of us this month did not leave Canyon de Chelly untouched although we did have milder weather than many places of supposedly better climate. Snowfall for the area was about normal but came in small quantities over a longer period which made the weather seem worse than in past years. The minimum temperature registered was - 9 degrees on two nights. Our maximum was 52 degrees and was only two degrees lower than that of Los Angeles the same day. Surrounding areas have been hit harder and road conditions are not too good. The road from St.Michaels to Ganado was closed by drifts for one day.

Administration

Inventories were completed and submitted and other office work kept current. Ranger Morris has spent much time on arranging or re-typing our fact file and doing some research work on subject matter which was sketchy. In accordance with Regional Office instructions, a file history of the area is being made not only of the past year, but of all past years since the administration of the area was assumed by the National Park Service. Maps, and a report on soil and moisture conditions were also made and submitted.

Maintenance.

Roads have been graded from Garcia's store to White house over-look and snow, when in sufficient quantities to warrant, was removed in order to keep down the mud. One connection in our waterline rusted out and some time was spent in repairing this. One trip was made to Gallup, New Mexico for supplies.

Travel

Road and travel conditions were not conducive to sight seeing during the month but twelve hardy souls arrived and kept us from drawing a blank. This is somewhat below the forty-eight who arrived last year when we had a spell of spring-like weather.

Visitors

Dr. and Mrs. Thomas B. Noble Jr. arrived on January 8 and will remain until February unless the weather discourages them. Mrs. Noble is continuing her portrait work of the Navajos and Doc. is recording Navajo chants, prayers, etc. He is also working on manuscripts and I am collaborating with him on a history of Canyon de Chelly.

Concession Operations

The contract with Thunderbird ranch to operate guest facilities was not renewed due to particular circumstances whic have already been reported. A new contract authorizing only the transportation of visitors into the canyon has been made. Thunderbird ranch will operate under Indian Service permit.

Law Enforcement

Thru information reaching this office, some relatively few employees of the Indian Service were proposing pot-hunting expeditions on Reservation lands. I prepared memorandums to the supervisors outlining the provisions of the Antiquities Act and requested their cooperation in advising their employees of this act and the penalties for violation.

Archeology

A copy of the report of Mr. David de Harport on the work completed last summer on the Archeological survey was received.

During soil and moisture conservation work, The Indian Service turned up an old Navajo Bean Pot, which was turned in at the office by Soil Conservationist Roberts.

General

An omission from last months report was the death of Tuly Bia, a medicine man who has long been a friend of Park Service employees here. Tuly worked for us on many occasions. His death was due to Heart failure while working at Saw mill and will be regretted by former custodians who knew him.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
SOUTHWESTERN NATIONAL MONUMENTS
COOLIDGE, ARIZONA

January 25, 1949

MEMORANDUM for the Regional Director
Region Three, National Park Service
Santa Fe, New Mexico

There follows the narrative report for Capulin Mountain National Monument for the month of January, 1949:

Visitors: There were about four hundred and fifty visitors to Capulin Mountain National Monument during the month of January, making a total of five thousand eight hundred and fifty for the travel year and twenty five thousand six hundred and fifty for the fiscal year.

Weather: Weather has been unusually dry and cold, with a low of 4 degrees below zero, and about 55 degrees high.

Flora and Fauna: Deer and other wildlife seems to be in good condition. Trees and other vegetation is about as usual.

Roads and Trails: Roads and trails in and around the Monument area have been kept in top condition. The road to the top of the Volcano has been kept open the entire time, so far.

Information Pamphlets: No information pamphlets have been distributed this month, and have about seven hundred on hand at present.

Superintendent

RECEIVED
JAN 27 1949
NATIONAL PARK SERVICE
REGION THREE OFFICE

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

January 28, 1949.

MEMORANDUM for the Regional Director,
Region Three.

There follows the narrative report for Casa Grande National Monument for January 1949.

General: No doubt the readers of our monthly report are getting tired of reading about the water situation that we have to contend with here. This month, however, has brought us some rain and the prospects for more rain in the immediate future continue to look bright so perhaps we can slack off a bit on our continual worrying about the shortage of water for a few months. Of course with the advent of summer our worries will no doubt start anew. This winter has so far not been conducive for tourist travel. From the vacancy and summer rate signs that are displayed at tourist hotels in Tucson and Phoenix it would seem that many tourist court operators are in the depths of despair. The Phoenix Chamber of Commerce informed us in a recent letter that there were 1,458 fewer cars entering the state in November 1948 than for the same month of 1947. It was estimated that travel for December 1948 would be 11,926 cars below that of December 1947. From all indications it would seem that this trend is continuing into January.

Weather: The weather, from the viewpoint of the visitor, has been bad but from the viewpoint of the farmers and residents, I am sure that the rain and cloudy weather would be considered a blessing. The maximum temperature was 71 with a low maximum of 40 and a minimum of 18. We have had a total precipitation of .64 inches so far this month and rain continues to fall as this report is being written. About a week ago we found that the moisture had penetrated to a depth of about 18 inches into the ground.

Visitors: January 1949 - 3897: January 1948 - 5539: This is a drop of 1642 people from January of last year. This travel year to date shows a total of 11,414 visitors. Another factor, besides the general slowing up of travel, that is affecting our number of visitors is the new road between Phoenix and Tucson via Rivers and Casa Grande. People taking this road bypass the entrance of our monument.

Interpretive Service: Of the 3897 visitors to the area, 2796 made the trip to the ruins in 191 groups averaging 52.2 minutes per trip. 1101 people were here for a quick look but did not make the trip to the ruins. On January 22, we had three special groups through the ruins as follows:

Boy Scout Troop from Mesa, Arizona. Group of 18 scouts.

Group of 18 youngsters and 5 adults from the Pentecostal Church in Jesus Name of Phoenix, Arizona.

Party of 37 youngsters from the Glendale Grammer School of Glendale, Arizona.

Administration and Protection: The Adamsville site was again checked for signs of vandalism and office work was kept current. Ten requests for information have been answered and literature sent as requested.

N.P.S. Visitors and Visitors of Note:

January 4, - Mr and Mrs. J.H. (Hal) Donahey. Mr. Donahey, former cartoonist with the Cleveland Plain Dealer, claims to have excavated the piece of clay containing the fingerprints which we have in the museum.

January 10, - Dr. H.S. Colton of the Museum of Northern Arizona and Miss Katherine Bartlett, curator of anthropology, at the Museum.

January 11, - Superintendent and Mrs. Bright of Wuxigoot National Monument.

January 18, - Assistant Regional Director John M. Davis and Mr. McCo[illegible] of the Regional office were here for a short time.

January 14, - Chief Ranger Sholly of Big Bend National Park was here for a short visit.

January 19, - Mr. Norwil Bryant, wife and son, were visitors here. Mr. Bryant is the son of Superintendent H.C. Bryant of Grand Canyon National Park.

January 21, - Mr. Louis R. Jurwitz of the Weather Bureau in Phoenix was here to check on the operation of our cooperative weather station.

Maintenance: Work this month has consisted largely of routine matters such as road repair and the repairing of a few minor roof leaks on the quarters.

Leaves Taken: Maintenance Man Barnett has been on annual leave since the afternoon of January 10. Mrs. Barnett's Father passed away and they

returned to Iowa for the funeral. Ranger Arnberger took 7 hours of annual leave on January 14.

Nature Notes: The Gambel sparrows are still conspicuous by thier absence. The number of birds on the monument this winter is considerably less than in past years. It may be possible that the long period of dry weather has lessened the normal seed and food supply. We have seen a few phainopeplas lately.

A.T. Bicknell,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Chaco Canyon NATIONAL MONUMENT

Bloomfield, New Mexico

January 27, 1949

MEMORANDUM for the Regional Director, Region Three,
National Park Service.

There follows the report of activities in Chaco Canyon National Monument for the month of January, 1949.

Seven hardy souls came to visit this area this month. They came in two automobiles from the states of New Mexico - 1 car, 3 visitors and Utah - 1 car, 4 visitors. All seven took a trip through the ruins. The superintendent spent a total of four and one half hours with these people.

The coolest registered this month while the superintendent was here was 4 degrees Fahrenheit on January 19, and the warmest was 55 degrees on January 13. The total precipitation was .21 of an inch. There were cooler days, undoubtedly warmer days, and more precipitation occurred while the superintendent was absent.

The south approach road to the Monument has been in good condition, but during the thaw at the early part of the month several trucks wallowed through the north approach road and then the road froze -- thus a very rough road. The state grader has been over the north road this week, but the Trader came in last night and reported that it took almost exactly three hours to come the 23 miles. Most of the distance was covered in Compound gear. Judging by time elapsed and gear used, the road is just about 3/4 as bad condition as it was last March!

The Monument roads have remained in fair shape. The tractor is laid up awaiting tubes which have been ordered many weeks. In the meantime, the north cattle guard was cleaned during one of the thaws. As it was cleaned to a depth of several feet lower than the superintendent has ever seen it, it may deter a few head of livestock from crossing it. Gravel has been placed on the road from just beyond the bend south of the bridge up nearly to the Headquarters entrance sign. This has been a bad spot for a long time.

The Padilla fence was taken down and stored.

The oil and Moisture revetment has been completed, and the crew has stopped work.

All trucks and the tractor were greased. Two new 10 ply tires were installed on one of the trucks.

On January 17, a neighboring rancher allegedly attacked an Indian with a 30-30 on the Monument and severely beat the Indian. The FBI is investigating. The rancher was accompanied by a posse.

The Superintendent was away from the Monument from December 23, 1948, through January 6, 1949, and took one day annual leave on January 22, 1949.

A large covey of quail have been near Headquarters all winter. The rabbits are plentiful. Twice, in broad daylight, a bob-cat was seen between the residence and the office. Each time, he just gamboled away - in no hurry at all.

The Trader this month reports business about as usual, and states that he is getting in a stock of rugs from the local Navajos for sale to the tourists next summer. During the month, he painted the wood work in the store.

Projects for the ensuing month:- complete the short stretch of graveling, blade the roads when the tubes arrive and repair fences.

Irving McNeil, Jr.
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

CHIRICAHUA NATIONAL MONUMENT
Dos Cabezas, Arizona

January 25, 1949.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Chiricahua National Monument for January.

Weather Conditions. All of this months report could well be condensed under weather, as all activities have been pretty much controlled by the weather. 8.32 inches of moisture has been recorded since December 22. Much of this has been rain but snow lay on the ground to a depth of 16 inches on January 17 with drifts up to 3 or 4 feet deep in the roads. The upper two miles of the monument road was closed by snow January 17 to 24. Operator Marble succeeded in opening it yesterday, January 24, but as this is being written four inches of snow has fallen in the last two hours and more is coming fast. During this period the thermometer registered 1 below one night and got down close to zero several other nights.

While the weather has caused us some extra work and reduced travel, it has raised our spirits in other ways. On January 14 a big clear trout stream (minus the trout) began flowing down Rhyolite Canyon past the administrative building. Bonita Canyon is also flowing a big stream. As we get our water supply from Bonita, our water worries should be solved for another year. We feel we can again encourage the use of the camp ground by large groups such as Sunday School conferences and not worry about running out of water.

Inspections. Regional Director Tillotson spent the afternoon of January 21 at Chiricahua and continued on to Tucson the morning of January 22.

General Publicity. A friend just mailed us a page from Buick Magazine, November issue, containing a very good article, with pictures, on Chiricahua by Weldon Heald. We shall try to get some more of the magazines for the Regional Office and our files.

At the request of the Gadsden Hotel management in Douglas, a lantern slide talk is to be given there April 4.

Maintenance. All hands have spent considerable time attempting to keep the road open, shoveling snow around headquarters, and keeping the rest room plumbing thawed out. So far we have got by without any breakage in the plumbing. Some large boulders fell into the road and were broken by blasting and removed by Operator Marble.

JAN 31 1949
NATIONAL PARK SERVICE
REGION THREE OFFICE

A Approaches to Monument Area. All approach roads have been and still are in bad condition; the dirt roads being much the worst. The road over the mountain to Cave Creek and Rodeo has been closed for about a month.

Interpretive Services. 248 visitors in 74 parties were contacted in the museum. Cars could not get all the way to Massai Point during the last ten days of the period so this cut down on the visits to the orientation station. Due to the weather no conducted trips were made.

Travel. Due, undoubtedly, to the weather we took a licking on travel this month. 483 visitors came to see Chiricahua. This is a loss of 138 from January, 1949 but still leaves us 285 ahead of last travel year at this time.

Clair V. Cooke
Clair V. Cooke,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

El Morro NATIONAL MONUMENT

Ramah, New Mexico

January 26, 1949

MEMORANDUM for the Regional Director, Region Three.

There follows the report of activities in El Morro National Monument for the month of January, 1949.

WEATHER: A total of 11½ inches of snow fell during the report period and the precipitation amounted to .78 inches. The heaviest fall was on January 20, 7 inches. Four nights in a row of subzero temperatures(Jan.3-14, Jan.4-21, Jan. 5-22, Jan. 5-16) froze a water line 2½ feet underground. Maximum temperature reached 52 degrees on January 14.

APPROACH ROADS: Rough, but passable when frozen. Impassable with the slightest thaw. The plans for the improvement of Highway #53 were shown to the Superintendent on January 7, in Santa Fe. Looks like something is really going to be done, but we still wont believe it until we see some equipment moving dirt.

TRAVEL: Only 17 people in 5 cars visited the area. Four of these people arrived for road information. Seven made the tour of the Inscriptions and the remaining six were contacted by the HSMP during the Superintendent's absence.

GENEARL: A trip to the Regional Office was made on January 4, returning January 9. Upon my return from Santa Fe I found that during the four days of sub zero weather the frost had penetrated to a depth of 2½ feet and froze the water line to the Ranger Cabin. Three days were spent digging and thawing out the line. The line is now wrapped with insulation and has an 18" covering of cinders. One load of coal was hauled during the hard freeze. Two trips to Gallup were made for supplies and material. The remaining time, outside of regular chores, has been spent in the office.

Bates E. Wilson,
Superintendent.

GRAN QUIVIRA NATIONAL MONUMENT
GRAN QUIVIRA, NEW MEXICO

Jan 25, 1949

MEMORANDUM for the Regional Director, Region Three.

The following is a report of activities at Gran Quivira for the month of January 1949.

General. In common with the rest of the nation, the main topic this month is weather. We have had a little of everything, most of it bad.

Weather. Two blizzards, four days of fog and glaze and everything in between. The ice storm of Jan. 10-11-12 broke down the power lines, and we were out of power for most of 5 days. This has a certain nuisance value, overcome by a Coleman lantern and the old oaken bucket - the bedroom pinchhitting as an icebox. Total moisture received was low, totaling only 1.44" for the report period. A high wind on Jan. 22 brought the customary sandstorm. Low for the month was -2° on Jan. 4.

Maintenance. The Chevrolet pickup developed more trouble this month requiring a new throwout bearing, light switch, and master cylinder repair kit. A little more of this will call for either a deficiency appropriation or a new bicycle.

The cold spell of Jan. 4 froze up the soft water pressure pump. Unfortunately it didn't do a complete job, as it froze only the pressure line to the automatic switch with the result that the pump turned on but wouldn't turn off. Consequently the pump ran beautifully, but forced all the water out into the sump through the relief valve which does not have a return pipe to the cistern as recommended by the manufacturer. Result: one slightly disgruntled and very wet superintendent bailing vigorously. A kerosene lantern was purchased and placed in the sump and seems to provide sufficient warmth to solve the problem.

Repair and Rehabilitation. During the month the surplus counter supplied by Mr. Steen was remade into a very satisfactory museum case at a cost of about $23 for materials, mostly glass and hardware. A stand was refurbished for the SWM publications display case. Material left over was made into a cupboard in the ladies restroom to store janitor supplies.

It now remains to cover the exhibit room floor with linoleum and to prepare museum exhibits.

RECEIVED JAN 31 1949 NATIONAL PARK SERVICE RECORDS UNIT

Approaches to Monument. Questionable most of the month but completely closed for only 1 day. At present they are very rough.

The entrance road was dragged twice during the month and 4 pickup loads of gravel added to the soft spots. It is temporarily in good condition.

Interpretive Service. 9 parties totaling 32 people were guided through the ruins. Average trip time, 26 minutes.

Increase or Decrease in Travel. Travel for January shows a decrease over last year; however, travel for the year is still ahead.

	CARS	VISITORS
January 1949	20	51
January 1948	31	77
Decrease	- 11	- 26
Percent Decrease	-35.5%	-33.8%
This Travel Year	189	525
Last Travel Year	129	370
Increase	60	155
Percent Increase	46.5%	41.9%

William L. Bowen,
Superintendent.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
GREAT SAND DUNES NATIONAL MONUMENT
MOSCA, COLORADO

January 26, 1949

MEMORANDUM for the Regional Director,
Region Three.

There follows the report of activities in Great Sand Dunes National Monument for January, 1949.

WEATHER. Winter has finally arrived - the water line has frozen.

The minimum of 13 below zero was registered on January 5. The maximum of 44 degrees was reached on January 14. The high minimum was 26 on January 14, and the low maximum was 5 degrees on January 3.

Snow fell on December 31, January 1,2,3,4,9,13,16,17 and 24. Strong winds blew on eight days and two of these blows were cold northeast winds, January 5 and 16. There were 12 days when the temperature did not reach 32 degrees F during the day.

There were 12 clear days; 9 partly cloudy and 10 cloudy days during this report period.

The San Luis Valley is enjoying a mild winter in comparison with last year and the blizzard conditions in the eastern high western plains. Alamosa had a low of 35 below on January 5.

The Sangre de Cristo Range has more snow than last year, although the valley proper has had little snow fall. Natives have their fingers crossed and hope this will continue to be a mild winter.

On January 22, a report of 97 inches of snow on Wolf Creek Pass was heard on the radio; the Pass was then reported closed on January 23 and opened to traffic late on the 24.

TRAVEL. One hundred twenty visitors in forty-one cars visited the Sand Dunes during this report period. Nine states were represented. One person from Pennsylvania took advantage of the picnic area. Fourteen days show no visitation to the area.

DECREASE IN TRAVEL. For January, 1948 there were 66 cars and 179 visitors.

CONTACT. Contact with visitors was done on five Sundays; 20 cars were contacted, with a total of 62 visitors. Contact time amounted to one hour, twenty minutes.

ROADS. The State approach has not been graded since December 11, and is therefore in very rough condition. The monument road from the entrance to headquarters and then on to the picnic areas is also rough and corrugated.

WILDLIFE. Three coyotes hang around headquarters with one female considered more of a pet. Picture of same attached.

On January 16, two full grown bobcats were playing with Junior in a pinon pine, 200 feet south from the house when the pet coyote showed up. One cat climbed to top of tree and the other took up a similar perch in a nearby tree - while Junior meanwhile found shelter in a hollow in the trunk of the pinon. The coyote had a good sniffing bout until we arrived to investigate. All that could be seen of Junior Bobcat was one eye peeping from the hollow. Papa, or perhaps it was Mama, was on guard above our heads. Unhappily it was too dark to take a picture. It was a cute family scene until the coyote ruined it.

Deer have been seen in the meadow below Mosca Creek. Birds are returning now for handouts.

RANG REPORT. The three maps and narrative description were submitted on the Master Plan for S&MO work at this area.

FOREST FIRE REPORT. No forest fires were reported as in or near Great Sand Dunes during the 1948 calendar year.

PUBLICITY. Received an article, for reviewing, from Mr. E.W. Morrill, Editorial Department of the Buick Magazine. It was entitled "Sands of San Luis Valley", by Jack Zehrt and will appear in the May issue of the magazine. Minor corrections were made by this office.

A beautiful air view of the Sand Dunes appeared in the Denver Post of January 2, 1949.

ACTIVITIES. A Happy New Year - Phooey!

Its happened three years in a row - the freezing of this monuments water supply to the residence on January 13 of this year. The first year it was the main 2800 feet of line. This matter was somewhat corrected as during the second year, this section held and it was the line between the two tanks that froze.

This third year it appears that the trouble lies in both lines. Snow is too deep in the trench to locate any break in the 2800 feet of line. The settling tank is full of lovely unfrozen water, but the storage tank is only half full and water is barely trickling into this tank.

During the first year freeze-up, water was hauled in milk cans, the second year, a fifty-five gallon barrel was obtained; the third year, another barrel was bought as well as a pump for the removal of water from the barrel.

Since there will be no hopes of receiving enough money to properly install this water system, it is hoped that conditions may be improved for next year's freeze-up, by installing a large enough tank and water pump in back of the residence to pull us through this unpleasant period.

This year water is being hauled from the Zapata Ranch, six miles south of headquarters. Too bad somebody didn't use their head when they planned the water system at this area. The house was built first and then the water question came up. The well at the Zapata Ranch is twelve feet to water.

However, on the bright side, we have an oil furnace to keep up warm, a propane ice-box instead of garage and a propane stove to heat the laundry water. Pity the poor stove, its rapidly losing its school-girl complexion - in other words, the enamel is wearing thin around the burners.

A great deal of time has been spent on the 3KW light plants. In the December narrative reports, it was noticed that other areas were also having trouble. The No. 1 plant is still not in operation - believe its the timing, but have not hit upon the right combination as yet. The No. 2 plant is a hoodoo - the valve springs are always breaking. Replaced 2 springs on January 10, and ten days later, two springs broke, one of which was the one installed on the 10. This is a nasty job and am wondering how many Superintendents would give Onan & Sons a favorable testimony on their product?

Randolfar, how about sending out a list of your surplus light plants, now that you are a "civilized" area and hooked up to the main line?

Took delivery of the new Dodge ½-ton pickup on January 5. This equipment is becoming rapidly broken in on hauling water. Had heater, flare box, reflectors and fire extinguisher installed.

A short extension was placed on the vent valve on rear-end of the new Ford dump truck in order to correct the leakage of grease from the rear housing.

The battery of the old Ford dump truck was given a slow recharge in anticipation of its delivery, sometime in the future, to Tonto.

The new motor patrol sits proudly in the parking area, unable to move. Its too cold to break the paint job and properly grease this piece of equipment. Its about 52 days to spring, they say, and then the

roads can get their shoulders trimmed. Three locks were purchased to lock up the patrol.

The annual physical inventory was taken of all property at Great Sand Dunes.

Cleaned snow from the front of the garage only four time this month - low record.

Sent series of personal negatives to Regional Naturalist Dodge for inclusion in monument files, if they are deemed worthy.

Believe a grazing permit should be issued to J.E. Williams, as he has been asked on three occassions to remove his horses from the monument - no results.

Wood-haulers are working on both Williams and Ziegler private lands on the north of the monument boundary. Quite a bit of timber is being cut and hauled out. This is also hard on the roads, and both parties have been warned to drive slowly and carefully when on the monument road.

Received and reviewed the following narrative reports: Region One, May, June and July, 1948. Region Two, May, June and July, 1948. Region Three, June, 1948 and Region Four, May and July, 1948. Also, Southeastern National Monuments narrative report for November and December, 1948.

Office work was kept current on Sundays when visitors were contacted, as well as other routine duties.

Propane gas, white gasoline and other materials were hauled during the month.

Hauling was reduced to garbage - until the water line froze. One month was ideal - when everything was under control - So, as they say - "When Winter Comes, Can Spring Be Far Behind?"

Ted C. Sowers,
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Montezuma Castle National Monument
Camp Verde, Arizona

January 24, 1949.

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly report of activities at Montezuma Castle National Monument for the month of January, 1949.

Visitors this month to Castle and Well - 671; travel year to date - 5235.

Weather Continuous stormy weather beginning January 9 has almost eliminated visitors to this monument. Roads into the Verde Valley from both Flagstaff and Prescott have been dangerous and passable only with chains. For short periods the roads have been reported closed. Snow has fallen at this monument at different times and as this is written there are over five and one-half inches on the ground with more falling. The total moisture recorded is 1.68 inches not counting today's storm. One carload of visitors reported that a deep mud hole deterred them from reaching Montezuma Well and some unsurfaced roads in the vicinity have become almost impassable.

Administration Stormy weather and reduced travel has allowed us to catch up some on long delayed photographic filing, research reading, etc.

Only one man was on duty at Montezuma Castle and no one at Montezuma Well on December 25 and on the afternoon of January 1. The monument was closed the morning of January 1.

Quarterly and annual reports were completed and considerable time was spent on maps and data requested by the Regional Soil Conservationist.

We completed the material being prepared for a booklet on this monument to be published by the Government Printing Office.

Maintenance A leak which developed in the roof of Residence No. 1 was temporarily repaired, and the drainboard and cabinet tops in that building were sanded and varnished.

All fire extinguishers were checked and the soda and acid extinguishers refilled.

The restrooms have been cleaned for repainting upon the return of fair weather.

Lumber was purchased for constructing shelving on the back porch at Residence No. 1 and in the museum at Montezuma Well.

A burated faucet at the corner of the garage was replaced. This was the only damage sustained from prolonged cold weather although numerous water pipes and pumps in the valley were frozen.

Visitors Travel until the weather turned stormy was normal. There were 141 visitors to Montezuma Well in 46 cars and 430 visitors to Montezuma Castle in 113 cars. Tickets sold, 107; tax but no ticket, 6; children who climbed free, 14. We have now been advised that children of 12 years and over will be charged the adult rate, except for uniform special provisions for free admission to organized groups of children 18 years of age or under.

Contacts One hundred and twenty-seven visitors were guided through the Castle in 74 groups; 269 visitors saw the museum in 70 groups; 51 visitors received information outside the ruins or museum. Contact time, Hastings, 32.50 hours; Leding, 4.50 hours; Schroeder, 14.50 hours; total 51.50 hours.

N P S Visitors Assistant Regional Director Davis arrived between snow storms on January 16. Several administrative details were discussed and a visit was made to Montezuma Well.

Publicity The most popular view of the Castle was used by Selna's Stores in Cottonwood, Clarkdale, and Jerome on their calendar for 1949. Three of these calendars were sent to the Regional Office.

It was reported that before Christmas a discussion of Montezuma Well was used on the Know Your America program over Radio Station WJR, Detroit.

On January 9 CommanderScott again included Montezuma Castle and the Well on his Romance of the Highways program for Greyhound Bus.

Interpretation All of the thirty-three stakes on our Sycamore Trail were replaced. These are wooden stakes made from 2x2 lumber beveled to hold a 3 x 4 inch piece of plywood. On this is painted a number which corresponds to a paragraph in our trail booklet. New stakes were used throughout and each stake was given two coats of paint.

Wildlife Observations Three raccoons were seen on the pavement about half way up our entrance hill on the night of January 1. Although their tracks are common, this is the first observation recorded in our files.

Southwestern Monument Association Sales Total sales for the month, $31.00. Total cash received, $29.30 leaving a shortage of $1.70 on our "Serve-Your-self" plan.

The following excerpts were taken from Archaeologist Schroeder's report from Montezuma Well.

Administration Daily duty was maintained except on Mon days and as follows; worked at the Castle 6½ days, ½ day holiday, 1 day annual leave.

Several days of snow (about 4 inches one night) and rain mixed with intermittent sunshine kept the county road in a sloppy state. As a result

we had 12 days without travel. For three days visitors had to walk to the Well as the hill was too slick for driving.

The majority of the month was spent working in the museum. Plans for the fourth exhibit panel were roughed out. Additional color was added to the first panel by painting the borders of some of the sketches. Shelving was installed beneath exhibit panels 1 and 2, and the outer paneling was finished. One door has been made leaving three to complete the project. Bid forms were received for wrecking three buildings on the area and two prospective bidders were taken through the buildings. A third was brought over by Supt. Hastings on my lieu day.

A copy of the preliminary report on the plant survey was received from Paul Spangle and Myron Sutton with a request for comments. Minor corrections, such as mileage statements, Indian occupation dates, etc., were made and the copy was returned. The report well illustrates the abundance and variety of plants here, 60 families and 169 species being represented in this preliminary survey. We shall look forward to the publication of their worthy report.

Aid was given the county road grader operator whose truck slid off the road 14 miles north of here. He hiked through 11 miles of snow and obtained a ride to the Well. He was taken to his McGuireville headquarters.

Records A new bird for the area, the Gray-headed Junco, was observed to be fairly common this month. Spurred Towhees were exceptionally numerous since the snow fall. Coyotes have been fairly active along the creek having been heard and seen several times.

The chronicle card for 1948 was made out and other informational material that had been gathered was written up and placed in the fact files. About one-fifth of the duplicate set of catalogue cards was completed. Sherd collections from the Well sites were analyzed, accessioned, and catalogued.

Visitors January 6 - Director V. Fleming & wife from Hollywood. We regret to report his death about an hour later at a local guest ranch.

January 14 - Roland Richert and wife from Flagstaff. Rick brought some sherds which he planned to send off in answer to a request, and others were added from our collection to fill in the gaps.

January 16 - Assistant Regional Director Davis came through during our bad spell of weather.

Homer F. Hastings,
Superintendent.

ORPE

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
ORGAN PIPE CACTUS

P.O. Box 38, Ajo, Arizona

January 25, 49.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of January, 1949.

Weather

We have been without our famed Arizona sunshine most of the month. A total of 1.28 inches of rain fell on eight days and still raining as this report is being written. More cold days occurred during the month than ever before experienced, with a low of 20 on January 4, which caused considerable damage to plants as freezing temperature was reached early in the evening. High for the month was 65 degrees on January 1.

This is the first time we have ever had a freeze that broke pipes, but repairs were necessary to the water system.

Protection

With additional personnel this month, we were able to make more patrols than formerly when all time was needed for contact duty.

Master Plan

The Soil & Moisture section was prepared for the master plan and colored map submitted.

The Forestry & Interpretive sections have been received and are now being reviewed.

Personnel

J. W. Brewer returned to Organ Pipe for duty January 1, and then began annual leave January 16, for a trip through Mexico.

Accidents

The Ajo-Sonoyta bus overturned just outside the monument boundary on the night of December 28. The driver swerved to avoid hitting a cow and a wheel caught in the soft shoulder causing the bus to go out of control. Although 22 passengers were in the bus, it seems only two were injured seriously enough to be hospitalized.

One other wreck occured on the monument but details were not available.

Travel

Storms throughout the state have slowed up normal travel but we have still had a good increase in out-of-state visitors.

Organ Pipe Cactus National Monument
Ajo, Arizona

We have had crowded conditions all month in our undeveloped camp area, with an average of 12 campers per night all month.

William E. Supernaugh,
Superintendent.

ORPE

RECEIVED
JAN 28 1949
FIELD SERVICE
DENVER OFFICE

Saguaro National Monument
Tucson, Arizona

January 25, 1949.

MEMORANDUM for the Regional Director,
Region Three.

There follows the monthly narrative report of activities at Saguaro National Monument for January, 1949.

General.

Travel to Saguaro National Monument for January, 1949, shows a decline over the corresponding month of 1948. This drop in travel is attributed to the unprecedented cold weather, prevalent for most of the month. Then too, tourist travel to southern Arizona is estimated to be about 25% less than last year. It was interesting to note however that some 177 persons visited Saguaro on Sunday January 16, attracted by a 3 inch snow fall in the Cactus Forest.

Weather.

Several snow storms covered the entire area from the desert to the top of the Rincons, varying in depth from three inches at headquarters to an estimated eighteen inches at Mica Mountain. The lowest minimum temperature recorded at headquarters occured on January 4, when the mercury dropped to fourteen degrees at 7 A. M. Water pipes at both Madrona Ranger Station and headquarters were frozen. No damage was sustained at headquarters, but several pipes were broken at Madrona. We were fortunate in having sufficient salvage materials to make effective repairs of the water system.

Inspections made in the cactus area, discloses no indication of damage to the cacti by low temperatures.

Special Activities.

Assistant Regional Director John Davis and Regional Chief of Land Planning Milton McColm, accompanied by Superintendent King, conferred with Dr. J. Byron McCormick relative to the Saguaro land problem.

Regional Director Tillotson made a general inspection of Saguaro on Sunday January 23, administrative matters were also discussed with the superintendent.

General Publicity.

Saguaro National Monument was given some good publicity in the December issue (1948) of Arizona Highways.

The Tucson Chamber of Commerce is currently distributing an information leaflet containing excellent information on Saguaro, together with a fine picture taken in the Cactus Forest. More than one half of the space on the last page is given to the article and the picture. This is tangible evidence of the real interest in Saguaro by the Tucson Chamber of Commerce.

Maintenance.

The Loop Road was dragged twice during the month, it is in fair to good condition.

New Construction.

The construction of a much needed blacksmith shop at Madrona Ranger Station was initiated during the month. Materials for the sides and roof (corrugated iron) were salvaged from a previous structure. With both the Maintenanceman and Packer engaged in the construction, we anticipate completion by the middle of February.

Approaches to Park Area.

The Broadway approach was graded once during the month, but remains generally rough. No grading was accomplished on the Vail approach, it is very rough all the way to headquarters.

State, County, or Municipal Legislation.

Authorization to create improvement districts in the vicinity of Saguaro National Monument, will be introduced in the current session of the Arizona State Legislature, by Representative James N. Ewing of Tucson. Copies of the proposed act were forwarded to the Regional Director. The residents of this vicinity are anxious to petition for paved roads, but the proposed act must become law before their desires can be entertained.

Accessions.

A three burner gas stove (propane) with oven attached was transfered from Tumacacori National Monument, for use in the bunk-house at Madrona Ranger Station.

Accessions (cont'd)

On January 18, we received the Model 402 Gelion Motor Grader purchased from Hilton's Inc., Las Vegas New Mexico. We have not been able to use it as yet, because the heater hose was cut through by rubbing on the multiple drive pulley. The vendor has been informed and we expect to receive a replacement hose in the near future.

A 38 caliber revolver was received from the Regional Office.

Interpretive Services.

A total of 1225 people in 347 parties were given interpretive service at headquarters, for an average of 15 minutes per party.

Two cross sections of a Giant Saguaro plant were cut from a wind thrown plant for display purposes at headquarters. This manner of showing the plant construction to our visitors has proven effective and interesting.

The Superintendent gave a 15 minute talk over Station KVOA in Tucson, on January 21, describing plants and animals of Saguaro National Monument. The program was sponsored by the Pima County Board of Education, for the benefit of grammar school students.

Increase or Decrease in Travel.

Travel has shown an increase of 335 persons over last month, but a decrease of 1254 persons over the corresponding month of 1948. A total of 1250 persons in 298 cars visited Saguaro During the month. Total visitors for the 1949 travel year, 6336.

Visitors.

Chief Clerk Luis Castellum, January 1, 1949.

Miss Carey M. Stein, former employee in the Director's Office, January 14, 1949.

Sam Oram, Ranger, Tonto National Monument, January 21, 1949.

Personnel.

Marvin H. Frost Sr. entered on duty as Park Ranger, January 9, 1949. Ranger Frost has been assigned to interpretive work at headquarters. Mr. Frost is well qualified for this work and we welcom him to the staff.

Samuel A. King
Superintendent

Sunset Crater NATIONAL MONUMENT

Flagstaff, Arizona

January 26, 1949.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Sunset Crater National Monument during the month of January 1949:

Weather: The heavy snowfall has closed the area during the entire month. Since December 24, according to the Weather Bureau, a total of 7'10" of snow has fallen. This exceeds the record of any previous thirty day period. At one period of several hours the rate of snowfall exceeded that of any record in the entire Southwest. The State Highway Division working out of Flagstaff has eighteen plows and four motor patrols working on a 24 hour basis. Several times during the storm Highway 89 has been closed for as long as ten hours by drifting snow in the vicinity of Black Hill and Doney Parks.

David J. Jones
David J. Jones
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Tonto National Monument
Roosevelt, Arizona

January 26, 1949

MEMORANDUM for the Regional Director, Region Three.

Following is a report of activities at Tonto National Monument for the month of January, 1949.

Weather. With great pleasure, I report that the rain which began on December 22 has never stopped. Well, for a day or two, but we have had about 10 inches of rain in 34 days. The lake has risen some 50 feet, and there is nearly enough snow in the mountains to fill it. The natives are cautiously hopeful. Have had a bad freeze which put the Cooper water line out of service.

Approaches to Monument. Muddy. Most of Apache Trail is good gravel, but the ten miles near Tonto are a bit slippery. Some gravel has been hauled on the entrance road.

Interpretation. Museum open all month. Several trips made to the Upper Ruins, considerable museum contact made due to having 2 men on every day. A few more plants were labeled.

Travel. The rain and bad roads were the cause of a considerable decrease in travel. Only 1373 visitors came in January 1949, compared to 2618 this month last year. While travel to the Valley is less this year, we believe that the weather is almost wholly responsible for the decrease.

Visitors. Archaeologist Dan Davis and family from Casa Grande. Assistant Regional Director Davis and Regional Chief of Lands McColm. Mr. & Mrs. Jh. Jager Gerlings, Museum Curator, Amsterdam, Holland. Mr. Robert Drake, US Geological Survey, Albuquerque.

General. Road man Constable hauled gravel on the worst places on the entrance road. Principal job this month was repairing pipe lines, and sign manufacture. The set of branding irons from Casa Grande makes good incised letters, and was used quite a bit. Museum labels were worked out and copy sent to Museum Curator Sayy. Pierson did quite a little research on plant identification for labels to be made. Rain has delayed the start of the propane installation job.

Charles C. Sharp
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Tumacacori National Monument
Tumacacori, Arizona

January 25, 1949.

MEMORANDUM for the Regional Director,
Region Three.

WEATHER CONDITIONS: The drouth ended very enthusiastically, shortly after Christmas, with the heaviest January rains in a number of years. Precipitation was 2.16". Light snow fell here, and heavy snows in many parts of southern Arizona. Slow, soaking rains fell on several occasions, doing great benefit to the parched earth, and the Santa Cruz actually had running water in it for two days. It looks as though this district may have a beautiful Spring time for the first time in several years.

With the moisture came many cloudy and windy days. Temperatures dropped to 11 degrees on the nights of January 4 and 5. This may be a record low for the past 35 year period. Maximum was 66 degrees, on December 31 and January 11.

The cold weather was very rough on some of our pear cactus. Two giant specimens of Indian Fig (presumably Opuntia ficus indica) on the mission trail lost so many lobes from freezing that it required a full load for the pickup truck to haul the dead matter away.

INCREASE OR DECREASE IN TRAVEL: January visitors numbered 2,537, which number has been exceeded twice previously, and is a sharp drop below the 4,065 visitors for January of 1948. While bad weather unquestionably has materially lowered our travel, the fact still remains that not as many tourists are on Southern Arizona roads as were last winter.

INTERPRETIVE SERVICE: 1,478 persons went on 229 guided trips through the mission church and grounds, receiving an average of 31 minutes per trip. 2,498 persons saw the museum, and the same number received combined information and interpretation service.

VISITORS: 12-28-48 - Junior High Followship group of Presbyterian Church, El Centro, California, brought 30 people, including 18 children.
Construction & Maintenance Foreman and Mrs. Hub. Chase, of Grand Canyon National Park, with Hub's parents. Hub started his Park Service career at the same place I did, and it was a real pleasure to see him and Ruby again.
1-2-49 - Superintendent Johnwill Faris, of White Sands.
1-10-49 - Superintendent and Mrs. Everett Bright, of Tuzigoot.
1-12-49 - Superintendent Cactus Pete (excuse me), I mean Samuel King, of Saguaro National Monument.
1-15-49 - A school group of 25 from Benson, Arizona.
1-23-49 - Park Naturalist Don Watson, of Mesa Verde National Park.
L. R. Jurwitz, Weather Bureau head for state of Arizona.
Engineer and Mrs. C. Londa, of the Direccion Nacional

RECEIVED JAN 31 1949 NATIONAL PARK SERVICE REGION THREE OFFICE

Caminos, for Mexico. He is in charge of the highway construction from Nogales to Guaymas, and reports that 22 kilometers of the Hermosillo-Guaymas section already is oiled. He expects the oiling on that link to be completed in February.

INSPECTIONS: 12-29-48 Chief Clerk Luis A. Castellum was in on annual leave for 2½ hours, but in that time we went over the Tumacacori books again and discussed fiscal problems.

1-14-49 Assistant Regional Director Davis and Regional Chief of Land and Recreational Planning Milton McColm were in for a good part of the morning, and a pleasant visit was combined with discussion of monument affairs in general.

MUSEUM AND EDUCATION: During some of the excessively cold weather it was actually possible to do some research in mission history, making more headway with our chronology and digesting some of the previously half-masticated bits of knowledge. This work, of course, aids our permanent fact file, but also materially helps the interpretation to the visitors. Pressure of business here for a long time had made it very difficult to settle on any research problem for a long enough period to really concentrate on it.

MAINTENANCE: Routine maintenance was kept current. Two shade trees near the superintendent's residence, which had died of Texas root rot, were pulled down and disposed of. The sign at our entrance door was repainted. Frozen cactus was cleaned up from mission trail. Most of the maintenance time has been spent in the patio garden. Manure has been hauled and spread, ammonium phosphate and soil sulphur has been spread. Levelling, trenching, and pruning have been done. A sick apricot tree was removed, the hole cleaned out and deepened, and a new tree planted there. The garden work is not finished, but the end for this season is in sight.

PERSONNEL: Ranger Brewer took six days of annual leave. Ranger Walker took one day of annual leave. The staff has taken a total of 13 hours of sick leave during the month.

BOUQUETS: A visitor took pains to specially compliment us on our clean comfort stations. We have never taken a count, but we venture the opinion that a far higher percentage of the travelling public visits our rest rooms than any other feature of the monument.

TREASURE: K. E. Schuman, of Tucson, brought down an M Scope one day. He explained that it works on the same principle as mine detectors, using reflection of sound waves. He went through the mission and grounds, and in many places found some indication of metal underground, and in several spots were found massive indications. He did not pretend to state that treasure was in such spots, but had no doubt ample metal of some sort could be found in them.

GENERAL: Superintendent San King of Saguaro came down one day and took some of our surplus property, consisting of a Hodgewood 3 burner hot plate with oven, a Fisco cabinet and regulator, and a large wooden warning sign.

A great deal of trouble has been experienced here lately with electric fixtures. Several months ago low voltage and high amperage caused a refrigerator to fail. After the power company boosted the voltage output on the transformer the refrigerator functioned satisfactorily. Then recently we have had an unprecedented number of light bulbs burn out in the museum cases. While urging a lethargic Utilities company to squeeze our voltage a little lower we have been out considerable expense on bulb replacements. In a set of exhibits designed for about 150 light bulbs, the majority of which cost 75¢ each to replace, we really run into a sizable annual investment in [illegible] bulbs, even under normal voltage. The utilities manager has promised to have the transformer re-adjusted very soon.

Earl Jackson
Superintendent.

[illegible] Headlong by hay shows sledge-hammer like climatical blows have seriously curtailed travel. However, 411 hearty souls did manage to tunnel their way to this ancient city. Visitation for January, 1948 was 1135. Quite a drop.

Guide and Custodial Service: Museum, ruins and orientation contacts totaled 965. 176 people in 10 parties were shown through and given an orientation lecture in the museum, and 289 people in 21 parties were conducted through the ruins. The average time spent by each party in the museum and ruins was 21.6 minutes.

Museum Time: Museum, 31 hours, 40 minutes. Ruins: 32 hours, 35 minutes. Total Visitor Time for Month: 14 hours, 40 minutes. Per Visitor, 43 hours, 55 minutes.

V.I.P. Visitors: Verigood welcomed Aubrey, Regional Director who came during the month. His helpful suggestions were well received and we plan to put them to use as more often.

Maintenance and Administration: No month could be considered complete and well rounded without our chronic annoyance - the water pipe line. Harpies presented us here by letting a sizeably continuous flow of water run from point unknown the night of January 2-3. The movement was without power for 10 days. On the afternoon of January 13, the line finally thawed out and with much a series of badly ruptured pipes. Five major splits have been welded and all is back to normal for the time being. The lull in travel enabled us to complete the work started idea of redecorating the office room and the two rest rooms. If funds permit we hope to paint the museum sometime in the near future. Archeologist Richert did an excellent job, donated top recommendation in collecting a fair-sized sampling of typical potsherds from Snaketown and Los Hornos Ringos sites. All of which were labeled as to type and provenance and shipped to Dr. Emil Haury, Department of Anthropology, University of Arizona, where they will be used for classroom and museum purposes.

Ronald W. Bright
Superintendent.

TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA.

JANUARY 26, 1949.

MEMORANDUM for the Regional Director, Region Three.

Following is the monthly narrative report for Tuzigoot National Monument for January, 1949.

Weather: Winter slammed the weather-groggy Verde Valley and surrounding area with repeated crippling climatic punchesthroughout the entire month. Previous "severe" winters now seem like little more than dress rehearsals. During the past decade or two, when snow, sleet and cold paralized other sections of the country, we felt quite snug in our warm sun-baked valley where visitors came by the thousands to rest and relax. It's a different picture now, and at this moment great quantities of snow is still being dumped on already impassable roads. All of which make us more isolated than we were.

Travel Data: Needless to say these sledge-hammer like climatical blows have seriously curtailed travel. However, 418 hearty souls did manage to tunnel their way to this ancient city. Visitation for January, 1948 was 1225. Quite a drop.

Guide and Contact Service: Museum, ruins and orientation contacts totaled 842. 314 pepope in 68 parties were shown through and given an orientation lecture in the museum, and 528 people in 91 parties were conducted through the ruins. The average time spent by each party in the museum and ruins was 21.5 minutes.

Personnel Time: Museum: 31 hours, 40 minutes. Ruins: 32 hours, 35 minutes. Total contact time for Bright: 14 hours, 40 minutes. For Richert: 49 hours, 35 minutes.

E.P.S. Visitors: Tuzigoot welcomed Ass't. Regional Director John Davis during the month. His helpful suggestions were well received and we wish it were possible for John to see us more often.

Maintenance and Administration: No month could be considered complete and well rounded without our chronic annoyance - the water pipe line. Despite precaution taken by letting a sizeable continuous flow of water the line froze solid on the night of January 2-3. The monument was without water for 10 days. On the afternoon of January 13, the line finally thawed-out and with this event a series of badly ruptured pipes. Five major splits have been welded and all is back to normal for the time being. The lull in travel enabled us to complete the much needed jobs of redecorating the office room and the two rest rooms. If funds permit we hope to paint the museum sometime in the near future. Archeologist Richert did an excellent job, deserves top commendation in collecting a fair-sized sampling of typical potsherds from Tuzigoot and two nearby Sinagua cites. All of which were labeled as to type and provenience and shipped to Dr. Karl Schmitt, Department of Anthropology, University of Oklahoma, where they will be used for classroom and museum purposes.

Gerald M. Bright
Superintendent.

ORPE

Walnut Canyon National Monument
Flagstaff, Arizona

January 26, 1949

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly narrative report for Walnut Canyon National Monument for January, 1949:

Weather. This has been a record winter in the Flagstaff area. Not since 1895 has there been so much snow. We are now bearing up under about five feet of it on the level. The official tabulation has registered 100.4 inches since the first day of January and snow is still falling.

Special Activities. Superintendent and Mrs. Paul Beaubien left Walnut Canyon January 15 for Omaha, Nebraska. The Beaubiens left between snow storms and their household effects are still here. It has been impossible for a moving van to come in and pick up their property.

Inspection. Archeologist Steen was here the 15th and until noon the 16th. Mr. John Davis visited the area on the 18th.

Interpretation. There were only 62 people visiting the area during this report period and 41 of these were contacted. A few were able to make at least part of the ruins trip. The remainder were satisfied to look from the administration building or as in the case of two parties, had gotten stuck in the snow and were only interested in getting back to civilization, as they put it.

Wildlife. A flock of 6 wild turkeys were observed on and near the Monument the 5th and 6th of January.

Activities. Some time was spent with Superintendent Beaubien going over administrative details before he left.

Archeologist Aide Rixey returned from leave on the 5th of January and has been finishing his ruins report, archeological report, cataloging artifacts and shoveling snow.

The leak in the administration building has gotten progressively worse and as suggested by Mr. Davis that portion of the leaky roof has been kept clean of snow. Rock salt has been used to keep the drains from freezing with ice and allowing water to stand on the flat roof. So far this seems to be of great help.

Superintendent Brewer's dump truck was sent to Wupatki National Monument as suggested by Superintendent Jones. This area has no covered storage space available and parking it outside would Illadvised in this weather.

Joe Bean of Wupatki came to Walnut on the 21st to break a road into the old log cabin. The Coconino County snowplow had twice previously tried to break the road but Bean and his 4x4 dump truck was needed for the job.

The comfort station and the unoccupied Superintendent's residence were drained and the water shut off.

ORPE

Walnut Canyon National Monument monthly narrative report continued:

The roof supports in the old CCC mess hall were bent out of line by the weight of snow on the roof. The roof has been cleared of snow but the building is still so out of line that doors will not close.

The Navajo Monument patrol grader has been most valuable in snow removal but we are soon going to have no place to push the snow.

Four days during this period no mail was received due to road conditions.

Cooperating Agencies. Coconino National Forest Service donated an old set of chains that were cut up and made to fit the 11.00x24 inch grader tires. Coconino County road men have done a splendid job of keeping us plowed out.

Accessions. The Southwestern Monuments Association donated to Walnut library 27 BAE reports and other books of historical or scientific value.

John A. Aubuchon
Park Ranger

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

White Sands NATIONAL MONUMENT

Box 231, Alamogordo, New Mexico

January 21, 1949. 19

MEMORANDUM for the Regional Director, Region Three.

JANUARY TRAVEL, 1949	1949 TRAVEL YEAR TO DATE
Visitor - 4,731 Cars - 1,274	Visitor - 24,060 Cars - 6,405

We stated in January, 1948, that our big increase in travel was undoubtedly due to the open weather for the period, and we can likewise state that our decrease in travel for January, 1949, is also due to the weather, in that some of the country's record weather has been experienced this past month. The White Sands National Monument had seven and one quarter inches of snow in one storm. The minimum temperatures dropped to seven below zero and the highways from every direction were blocked for short intervals on several occasions. We feel very fortunate in view of this extreme weather to have had 4,731 visitors in 1,274 cars during the month. Even at this writing our roads are in a deplorable state due to freezing and thawing conditions, prohibiting any work while frozen and being entirely too slushy while thawing.

One official trip was made to Santa Fe, regarding road equipment, and we are very pleased with the adjustments made by your office. A trip was made by Ranger Chittum to El Paso to secure our tractor tires which had been in the shop for recapping. During the time we had been without these tires we took out the old Wehr and attempted to keep up our roads with it, but its age has exceeded its usefulness and our efforts have met with little success. Considerable difficulty has resulted from the low temperatures, in that our non-portable water lines have frozen on two different occasions and necessitated the expert attention of Ranger Chittum with his acetylene torch to put them back in serviceable condition. These same temperatures have necessitated an increase in our wood consumption by the fireplaces in the administration building.

In the early part of the month we noticed rather queer expressions on the faces of our visitors upon being told to drive all the way into the area, and noticed a rather apologetic note in their request for admission.

RECEIVED JAN 31 1949 NATIONAL PARK SERVICE REGION THREE OFFICE

IRPE

Superintendent's Narrative report - continued.

These expressions were soon explained upon our next trip to Alamogordo in viewing a large sign about one quarter mile from our headquarters which, in glaring colors, bore this legend, more or less: "UNITED STATES ARMY ROCKET RANGE - NO LOITERING OR CAMPING FOR THE NEXT 40 MILES - BY ORDER OF THE C. O." It just so happened that the night following our discovery of this sign, a Captain from the Proving Grounds brought a delegate to the United Nations from France to our area and we, in a kidding manner, spoke of being unable to allow him to loiter, due to a sign a short distance from our Headquarters. He took it all in a good nature and assured us that the sign was one for general use and would be placed at a point between our headquarters and the rocket firing range and not between our headquarters and Alamogordo. This was done the following day for which we are very grateful.

Ranger Schaffner, Vera and Phillip, have just returned from a trip to Oklahoma and Kansas and seem very happy to be back in the mild climate which I have been criticizing so severely. On a personal trip of a very short duration I had the pleasure of visiting Tumacacori National Monument and enjoying again the able presentation of the Monument's features by Superintendent Jackson. It was especially noticeable in that on the same trip I visited San Xavier Mission and while every effort was made to interpret the features of the attraction to me, it lacked the polish and coverage noticed at Tumacacori.

We were able to submit to your office the past month, our Soil and Moisture Map for our Master Plan. We do regret not being able to have given the whole matter more study than was possible under the circumstances. We shall make an effort to secure data to make this map more in keeping with actual conditions as they exist.

The Concession figures show a corresponding drop in volume over previous months which likewise is directly traceable to the weather. Having experienced our share of bad weather, we are looking forward to some of our normal balmy days during which we will be able to catch up on some of our road maintenance as well as our visitor count.

Johnwill Faris,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

January 26, 1949

MEMORANDUM for the Regional Director, Region Three.

Following is a report of activities at Wupatki National Monument for the month of January 1949:

Weather: New records were set for the month of January with a total snowfall of 14.5" and precipitation of 1.22". Not only is this a record for the Month of January, but any winter month on record. Maximum snow on the ground at any one time was 7" at Wupatki and 10" at the Citadel. Maximum temperature: 51°; minimum: -2°.

Roads: While the roads have been passable to date, we may some trouble if the winds drift the snow. Very few visitors attempt getting off the main highway. As for road improvement, our work has been confined to five miles in the Wupatki Basin section where the snow has melted sooner and less difficulty experienced with frozen ground. There has been a period of 8 days without snow on the ground.

Travel: The total travel for the Monument was 19 this month, six of them registering at Wupatki. No six received guide service.

Accessions: One new Dodge pickup- I-31816- was received in Flagstaff. It is an excellent piece of equipment, except that the rear end is very light and skids considerably in snow and cinder unless it is heavily loaded. Notification was received of the awards for two water heaters, but delivery has not been taken due to bad weather conditions in Flagstaff.

NPS Visitors: Assistant Regional Director John Davis was in Flagstaff on the 19th and we combined our trip to town with other business to meet him.

Spring Flow: Wupatki Spring has increased in flow another 200 gallons this month, bring the measurement to 854 gpd. Holder Spring has increased 195 gallons, the measurement being 2468 gpd.

Grazing: Again this winter we are having difficulty with trespass of cattle belonging to Joe Kellam. As many as fifty head have been at Heiner and wander to Wupatki Ruin in search of water.

Personnel: Maintenanceman Bean spent two days getting into Walnut Canyon, opening their roads within the Monument, servicing and checking over the patrol. Most of one day was spent near the Summit of Hiway 89 waiting for the road to be opened.

Old friends are like favorite pipes and well worn hats. You certainly regret giving them up. We felt a keen sense of loss when Lois and Paul Beaubien took departure of Walnut Canyon. During the past ten years we have had many pleasant associations, but we are glad to see them go to a better job.

Maintenance: The cold weather brought its share of extra maintenance We experienced considerable difficulty starting trucks and heavy equipment, keeping batteries charged and mechanical difficulty with parts which broke during the cold weather operation. The water pump froze because of a leaking check valve on the line. This was replaced and one drain valve in the pump replaced with a plug to insure more complete draining. To get it out of the cold weather storage at Walnut Canyon the Navajo dump truck was brought out here for storage. The roof leaks on the Wupatki residence and there is a leak we finally located in the hot water line.

MARKS: (Please note below any factors influencing interpretive service, such as: seum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Heavy snows and cold weather made monument roads very hazardous. Extremely bad weather in Utah and surrounding states cut travel to practically zero.

NSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

RECEIVED JAN 31 1949 NATIONAL PARK SERVICE REGION THREE OFFICE

THE P[illegible]SE OF THIS FORM IS TO SECURE AN ACCURATE RECORD INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and road conditions, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total all column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Reports due in accordance with instructions in Administrative Manual, Vol. 16, Chapters 8 (Report No3) and 9 (Report No

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill Out Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended Interpretive Stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitor using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive services, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area as provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive services, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be known.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 5th of the month following that covered by the report.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

Talks: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

Attended Interpretive Stations: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

Unattended Interpretive Devices: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

Interpretive Activities Outside the Area: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PRODUCED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 INCLUDES THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

Column #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

Column #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

Interpretive Activities Outside of the Area ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

Totals: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. Total Attendance SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND THIS COPY TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH DAY OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF ITEMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 6 (Report 6m3) and 9 (Report 9a3).

NAME Irving McNeil, Jr.

TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as Attended Interpretive Stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the AVERAGE amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should NOT be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: from all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 6th of the month following that covered by the report.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as Attended Interpretive Stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors enquire.

INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive services, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only and should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive services this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 5th of the month following that covered by the report.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service Areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical Areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. This due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

NAME Ted C. Sowers
TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION is an accurate explanation of the man-estations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area as provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: from all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 5th of the month following that covered by the report.

NAME Homer P. Hastings

TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

The museum at the Castle, both nature trails, and guide service were available every day for this report month (31 days).

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

... Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.). count being made by Service personnel in attendance. Checking stations or offices dispensing information rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be entered under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device ... column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

* INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

Talks: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

Attended Interpretive Stations: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATION OR OFFICER DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

Unattended Interpretive Devices: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

Interpretive Activities Outside the Area: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

Column #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. TOTAL TOTAL EACH COLUMN IN ALL BLOCKS.

Column #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKS AT OCCASIONAL INTERVALS.

Interpretive Activities Outside of the Area ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

Totals: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. Total Attendance SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE SERVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. ONE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME

TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Marvin H. Frost Sr. entered on duty as Park Ranger January 9, assigned full time to interpretive service.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called in to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing information rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report Symbol) and 9 (Report Symbol)

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF ITEMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing information rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. This is due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a1) and 9 (Report 9a1).

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH MUSEUMS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

Talks: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

Attended Interpretive Stations: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

Unattended Interpretive Devices: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

Interpretive Activities Outside the Area: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

Column #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

Column #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

Interpretive Activities Outside of the Area ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

Totals: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. Total Attendance SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

Earl Jackson
TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Visitor total includes 39 run-arounds.
Rangers took 7 days annual Leave.
Weather very bad this month, with adverse effect on travel and trip time.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic Structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

WHO REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Duly due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9m3).

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE P[illegible]E OF THIS FORM IS TO SECURE AN ACCURATE RECORD [illegible] INTERPRETIVE SERVIC[illegible] FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9a1).

NATIONAL PARK SERVICE
Region Three
Santa Fe, New Mexico

March 8, 1949.

MEMORANDUM for the Regional Director, Region Three.

Following is the narrative report for the Naturalists of the Southwestern National Monuments for February 1949.

Staff Activities, General

Naturalist Dale S. King was in the office until February 28, when he departed on a short trip to Aztec Ruins and other national monuments.

Archeologist Charlie R. Steen was in the field from February 7 until February 22. He visited Walnut Canyon, Casa Grande, Tumacacori, Saguaro, and Tonto.

Archeologist Gordon K. Vivian was in the office except from February 9 to 15 which was spent moving Archeologist Aid Raymond Rixey and Mobile Unit equipment from Walnut Canyon to Casa Grande.

Interpretive Administration

Some correspondence was had with Montezuma Castle regarding an improvement in the method of filling out the Monthly Statistical Report of Interpretive Contacts and also with Grand Canyon to receive comments on the desired distribution of the proposed separates of several chapters of the Colorado River Basin report.

Public Relations and Extension Services

Correspondence was had with the Superintendent of White Sands relating to the preparation of a proposed article for National Motorist magazine.

A series of photographs of Tuzigoot were sent to Natural History magazine for a forthcoming article.

Progress of Exhibit Plans and Projects

Comments by the Museum Division were received on the Walnut Canyon prospectus and preliminary exhibit plan.

King conferred with the staff at Aztec Ruins concerning a major rearrangement of exhibit, office, work, and storage space there. He approved the

excellent suggestions and plans the staff had made, and it is hoped the considerable revision will be effected prior to the onset of heavy summer travel. It is encouraging to have improvements made at this monument where the incomplete museum has remained in such stagnant condition for so long.

Research and Conservations

A memorandum was addressed to the Director asking for a small item of bibliographical research to determine if the Whipple Survey visited Montezuma Castle, as is now stated in the master plan for that area.

Dr. Colton of the Museum of Northern Arizona obtained a satisfactory quotation for photolithoprinting regarding the archeological report on Kolakihu, which will be Bulletin No. 23 of that institution. He transmitted the manuscript to author King because most of the plates must be revised in view of this changed method of printing. King accomplished several days' work on the report during week-ends.

An archeological report by Raymond Rixey was completed and received. This is on finds incidental to the recent stabilization of ruins at Walnut Canyon.

Vivian's time which was not given to the stabilization manual was used in working up data from the 1939 excavations at Chaco Canyon.

Cooperative Activities

King and Regional Archeologist Reed interviewed Professor Fred Norman of Adams State College, and Ranger Jim McIntyre on February 11 concerning the archeological survey and excavation program which Adams State plans next summer, using Bandelier National Monument as a base of operations. Information was sent Mr. Norman about ground plans of the Otowi Ruin, sherds from which are being studied by Mr. Norman and his students of the Colorado institution.

Loan Library

Accessions for the month totalled 113, consisting of 10 books, 56 periodicals, and 47 pamphlets.

Vivian borrowed from the University of New Mexico a file of photographs taken by the late George Pepper at Chaco Canyon during 1898-99 and at nearly all modern pueblos. We are attempting to locate and borrow the negatives.

Southwestern Monuments Association

The Association donated 76 Kodachrome duplicates to El Morro. King had conversations with Harvey Heston of El Paso regarding Kodachrome duplicates,

and with Mr. Pulsipher of the Inter-Mountain Tourist Supply regarding future printing of color miniature sets and post-cards. He wrote two letters in a continuing attempt to obtain financing for the Cummings volume.

The staff at Bandelier very kindly completed the manufacture of two large cases for address stencils. Each of these holds 100 drawers.

The Association received official exemption for the purpose of Federal employment taxes.

Treasurer Vedder made two deposits and one disbursement. He mailed 141 covers, including 29 letters and 15 purchase orders. This is the smallest number of purchase orders for many months.

February, besides being short, was quiet, and the treasurer took off some time, when not trying to put Bandelier National Monument in good shape as far as their Southwestern Monuments Association stock is concerned. As for the mailing list, 201 additional envelopes were sent out on February 4, bringing the total to 17,816. Rydal Press finished binding 1,060 Arizona's National Monuments, and when these were delivered, the treasurer had to spend some time rearranging the basement to make room for them. The rest of the time he spent on mail and the usual routine work.

Barbara Vedder worked 11 hours, getting out the last mailing, filing, etc.

Ruins Stabilization

Montezuma Castle plans a permanent record book showing photographs of the Castle taken at frequent intervals, possibly each year.

Some correspondence was had with Collaborator Rutherford J. Gettens in line with his request for plaster specimens from Tumacacori Mission.

Hood and King read and performed rough editing on the draft of the stabilization manual prepared by Vivian.

The principal purpose of Stein's trip was to move Mobile Unit equipment from Walnut Canyon to Casa Grande. At Roosevelt, Arizona, however, the fine Thompson Collection of Apache baskets was photographed.

Vivian completed the stabilization manual draft and set it up for final typing. He spent some time in selecting photographs for illustrations and in having these processed.

Rixey reported from Casa Grande that he had difficulty finding a good grade of caliche, but is now getting satisfactory material from a State Highway Department pit south of Randolph, Arizona.

On the last day of the month, Miss Betty Knopf entered on duty to type the stabilization manual.

Technical Aid to Administraters

Steen prepared for the Regional Director a memorandum giving information relative to the preparation of a master plan for Natural Bridges.

Projects for March

King will work on routine projects, and prepare the Kalakihu report for submission to the printer. He may visit several southern Arizona areas in company with Regional Archeologist Hoed late in the month.

Steen will prepare a few labels for Tonto Museum, catch up routine library and stabilization maintenance, and initial work on Gran Quivira exhibits in the latter part of the month.

Vivian will continue to assemble the stabilization manual and write the report on 1939 excavations at Chaco Canyon.

Mr. Dodge (2).

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Arches National Monument
Moab, Utah

February 25, 1949

MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Arches National for the month of February, 1949:

GENERAL: The superintendent's wife had a very narrow escape on February 19th while on a trip to Moab in her car. Rocks loosened by thawing weather rolled on to the highway in front of the car causing a tire to blow out. She lost control of the car, which tore out two guard rail posts and ran off the road. Luckily it was a low fill over which the car plunged and it did not turn over. She was badly shaken up but otherwise OK. Major repairs were necessary on the car.

WEATHER: For the first three weeks of the month the highest recorded temperature was 49 degrees, with an average high of 35 degrees. The lowest temperature recorded was 2 degrees below zero with an average of 10 degrees above for the three week period. During the last week the expected thaw has finally arrived with warm days, and nights just below freezing. Before it was snow that made our roads impassable but now it is mud from the melting snow. Snow fell on four occasions during the month. At this writing all the snow has disappeared in the headquarters area but there is still approximately eight inches of snow in the monument proper.

TRAVEL: No visitors made the trip into the scenic portions of the monument during the month due to hazardous roads. All highways in the vicinity were hazardous or closed intermittently during this time, due to drifting snow. At Monticello, Utah the snow was piled eight and ten feet deep and between Monticello and Dove Creek, Colorado some of the drifts were piled as high as the telephone wires. Most of the travel in this section had to be conveyed. US 6 & 50 was closed intermittently at Soldier Summit and Price Canyon on the west and near Cisco and Harley Dome on the east.

MONUMENT ROADS: Roads throughout the area were passable most of the month but were hazardous due to packed and drifting snow. At this writing the snow is melting rapidly and the shale portions of the road are very slick and dangerous. If this warm weather continues the snow should be gone within a week and we can then proceed with our spring maintenance work. The State removed drifts with their snowplow on two occasions during the month.

APPROACH ROAD: This road was passable but hazardous during the major part of the month due to snow. During the last week it has become one big mudhole and will be in this condition until all of the snow has melted. The State maintenance crew removed the snow on two occasions during the month.

SIGNS: Our sign project was completed during the month. New signs have been completed for various points along the roads and trails and will be installed when our roads dry out.

REHABILITATION OF BUILDINGS: Funds were made available during the month for the rehabilitation of the surplus army trailer for use as quarters for the ranger. Repairs were made to broken panels, both inside and out, the roof was repaired and at this writing the interior painting is practically complete. A propane range, refrigerator, and water heater are being ordered and we hope during the coming month to complete an addition to these quarters and install water and sewer systems.

MAINTENANCE: Our motor grader again ceased operation on January 31st, while engaged in snow removal. Broken drive chains on one side of the tandem drive caused our trouble. We were able to salvage one chain and purchased one new one. Repairs were completed on February 4th.

The Dodge Army truck quit running on February 9th, while on an inspection trip in the monument. It was towed to headquarters and found that distributer points were faulty. This shortcoming was corrected and it is in operation again.

COOPERATING GOVERNMENTAL AGENCIES: At the request of the Bureau of Land Management, Maintenanceman Winbourn worked for four days with the grader, February 12th to 15th, inc., on emergency snow removal on outlying roads for the benefit of stockmen, whose stock was isolated due to drifting snow. Most of the work was performed on the road to Deadhorse Point, between US 160 and Big Flat.

GRAZING: No horseback patrols were made during the month but inspection trips made over the road showed no evidence of trespass. A rough check was made during the month on the cattle of J. S. Westwood grazing in the area and approximately 100 head were counted. All of these had to be fed due to unusual winter conditions.

LANDS: Notification was received during the month from the Utah State Land Board that all gas and oil leases, previously granted on State lands within the boundaries of the monument, had been cancelled.

NATURAL BRIDGES NATIONAL MONUMENT. John Wiley Redd of Blanding was a visitor at Arches National Monument on February 23rd and stated that reports are that there are eight feet of snow on the level on the Elk Mountain. It has also been reported that the Vanadium Corporation of America is intending to open the road in the near future for access to the new mill they are installing on the Colorado River, across from Hite. This may make this monument accessible at an earlier date than usual this year but it will still be some time before the road would be safe for visitor travel.

Russell L. Maban
Superintendent

(in trip.)

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

24 February 1949

MEMORANDUM for the Regional Director.

There follows the report of activities in Aztec Ruins for Feb 1949.

WEATHER. The last 4 days of the report period have been splendid, clear days and brot a high temperature of 61. The rest of the month we have had all kinds of weather with a foot and a half of snow, hail, sleet and winds when it dropped to a low of minus 13.

With the warm, clear days travel immediately picked up, but we are far below last years travel figures for this period.

INSPECTIONS. Feb 1, Architect Saunders inspected the construction of the new residence. The building is practically completed and ready for occupancy. A few minor paint jobs remain incomplete.

PLANS, MAPS. Designation of roads, parking areas and route numbers was prepared by the Regional Office for this area.

GENERAL PUBLICITY. An article was prepared for the Durango, Colorado Herald-Democrat for publication in their Spring rotogravure, "Playland Edition".

MAINTENANCE. The unusual amount of snow fall has kept us busy clearing off the various roofs in the ruins and on the museum building.

NEW CONSTRUCTION. The residence will have been completed and occupied by March 1.

Interpretive Services. There were 83 visitors taken in 16 trips thru the ruins and 182 visitors in 45 parties were shown the museum.

Decrease inTravel. This month, like last month, was approximately 47% below the travel for the same period last year. We had 182 visitors from 18 states and Germany arriving in 49 cars.

PROPOSED ACTIVITIES FOR MARCH. Freezing weather and snow prevented completion of the erection of our boundary fence, which we shall complete with good weather.

Irving D. Townsend,
Superintendent.

AZTEC

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

February 28, 1949

Memorandum for the Regional Director, Region Three

There follows a report of the activities at Bandelier National Monument for the month of February, 1949.

Weather

The weather has been generally mild during most of the month which caused most of the snow to melt and kept the roads in muddy condition most of the time. The warm sunshine brought visitors in to the area as soon as the roads were passable. Temperatures ranged from minus one on the 10th, to sixty five on the 23rd. Snow occurred on only three days and amounted to .31 inches of moisture.

An unusual storm occurred on the 25th. when there was snow, rain, lightning and thunder, and snow pellets about the size of marbles fell at intervals during the morning.

Special Activities

The Superintendent continued to spend much of his time in the office on clerical duties since the clerks position is still unfilled. The rangers have been a great deal of assistance in keeping the work current.

Several trips were made to Los Alamos in connection with securing surplus property. A new pre-dishwashing unit was obtained for the Lodge which will eliminate the necessity of installing a third sink to conform with Department of Health regulations.

Maintenance

Maintenance man Valencia spent most of the month working on replastering and repainting the office and comfort stations. Most of the mud plaster in the offices was replaced with hard plaster that will be much more durable.

The six by six and dump trucks were repaired and placed in running order in preparation for their use on the roads this spring.

DEFENSE BUY UNITED STATES SAVINGS BONDS AND STAMPS

Approaches to the Monument

The approach road was generally soft and muddy during most of the month due to thawing weather. The Operator general used the grader to good effect in improving the drainage and by the end of the month the road was drying out and in fair condition.

The gravel furnished by the Atomic Energy Commission last fall that was spread on bad spots in the road was too small to be of much value and the road is very much in need of coarse gravel over much of the distance. The drainage that was made possible by the use of the large grader has prevented the road from getting as bad as it was last year, however.

Interpretive Service

Twenty six parties with one hundred and twenty visitors were conducted through the ruins during the month. With warmer weather the museum received more use and seventeen groups of visitors were given short orientation talks on it.

Cooperating Agencies

Two file cases were constructed for the Southwestern Monuments Association during the month. They were made of ply wood and will hold 100 small drawers each.

Travel

In contrast with last month when we had only 40% of the travel for a year ago this month increased to 113% over last February. There was a total of 258 visitors as compared with 121 for last year.

Although the snow did not completely melt out of the picnic area there were a number of groups that made use of it and there were two groups of overnight campers.

Forest Fire Protection

The Forest Fire Suppression Plan was revised and brought up to date. This included revision of the Step-up Plan also.

Training

In-Service training meeting for all employees were started this month and will continue during March. The meetings are held once a week at the Superintendents residence. Topics discussed this month were the Park Service Conference at Grand Canyon and fire training.

Fred M. Binnewies
Superintendent

Canyon de Chelly National Monument
Chinle Arizona

February 25, 1949

MEMORANDUM for the Regional Director, Region three.

The following is a report of activities at Canyon de Chelly National Monument during the month of February, 1948.

General

Although much publicity was given the plight of the Navajo and his herds during the present hard winter, there was little suffering or loss in this particular area. Some hay and supplies were dropped around the head of Canyon del Muerto but the greater part of the relief work was carried on in the Shonto, Kayenta, Tuba City, and Navajo mountain areas. Indian Service personnel from all over the reservation were called to assist in hauling supplies and breaking roads into the snowbound districts.

Weather

The "Grandaddy" of all winters has now wrapped his frigid robes about him and stolen silently away like a thief in the night. Considering his treatment of other areas, he was not too hard on Canyon de Chelly. At no time did we have more than four inches of snow on the ground at headquarters, but there was more than two feet in the Spider rock, and upper del Muerto areas. Moisture at headquarters measured only .52 inches, but by going five miles in any direction you could have found much more than that at any time. I would estimate that the upper sections had more than three inches.

Neither our moisture nr temperatures indicate that this month was more severe than other years. We had .91 inches in 1948, a low of -15 and a high of 67 degrees. This year our low temperature was -10 degrees and our high was 59. Our problems will start when the unprecidented amount of snow in the higher elevations melts and begins to run off.

Maintenance

Snow was removed from our roads and the approach has been kept in good condition. with the coming of good weather cleanup work and repair and repainting of signs, roadwork, and repair to the dam at the mouth of the canyon has been carried on.

Administration

Administrative duties were kept current, a wage board survey was made for this area. A file history of the area was brought up to date by ranger Morris.

Travel

As far as bona fide travel was concerned we drew a blank this month for the first February in years.

Visitors

Dr. Thomas B. Noble remained in the area until February 5 when he left for California. While he was here, we were able to get into the Spider rock and other areas, where he obtained some spectacular Winter pictures which, to my knowledge, are the first to have been taken. He was also able to do a great deal in his research into Navajo healing ceremonies and was able to record many of the Chants. He was able to see much of the medicine mans healing paraphernelia, but was forbidden to photograph much of it.

Soil and Moisture

Navajo Indians who have farms in the canyon are taking down their fences to keep them from being carried away by expected high water. Although we have a five foot dam at the mouth of the canyon, it has been lowered in spots by navajo travel passing over it. At present we are thinning out some of the cottonwood plantings near headquarters and tying the whole trees along the inside of the dam as a preventative or protective measure. I have hired one navajo and team to start building up the low places with a slip as soft sand does not permit us to use the dump truck.

Nature Observation

Huge flocks of horned larks have been staying near the roads during the heavy snow. Meadow larks, Red winged blackbirds, and robins have all been observed during the month. Ranger Morris has spent some time working on nature observation files and getting it in order. We anticipate being able to get more complete records during the coming year.

Meredith M. Guillet
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
SOUTHWESTERN NATIONAL MONUMENTS
COOLIDGE, ARIZONA

February 25, 1949

MEMORANDUM for the Regional Director
Region Three, National Park Service
Santa Fe, New Mexico

There follows the narrative report for Capulin Mountain National Monument for the month of February, 1949:

Visitors: There were about three hundred visitors to Capulin Mountain National Monument during the month of February, making a total of six thousand, one hundred and fifty for the travel year and twenty five thousand, nine hundred and fifty for the fiscal year.

Weather: The weather has been extremely warm and dry during the month, with no snowfall recorded. The past week has been very much like our usual summer weather, with warm days and cool nights.

Flora and Fauna: Wildlife in the Monument area seems to be thriving. Trees and vegetation could use more moisture to develop into their full beauty.

Roads and Trails: The roads and trails in the area have been kept in splendid condition throughout the entire winter, as there has not been enough snow to block the road.

Information Pamphlets: No information pamphlets have been distributed this month. Have about seven hundred on hand at the present time.

Homer J. Farr
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

February 25, 1949.

MEMORANDUM for the Regional Director,
Region Three.

There follows the narrative report for Casa Grande National Monument for February 1949.

General: This month has satisfied both the farmer and the visitor, we have had rain and the dams are much fuller than last year which should ease the water situation for the farmers, and most of the month has been warm and sunny which pleased the tourists. With the return of the sun, the disposition of the visitors from the north has improved considerably, and the travel has increased from last month.

Weather: The first few days of this period remained cold and we had .70 inches of rain. Most of the month has been almost hot, a welcome change after the relatively severe winter. The maximum was 83 with a low maximum of 49 and a minimum of 25.

Visitors: February 1949 - 4764: February 1948 - 5800: this is a drop of 1035 people from February of last year. Travel year to date 1949 - 16,179: travel year to date 1948 - 20,420.

Interpretive Services: Of the 4735 visitors to the area, 3449 made the trip to the ruinsin 208 groups averaging 54.1 minutesper trip. 1316 people were known for a quick look but did not make the ruins trip.

NPS Visitors and Visitors of Note:
February 11, Charlie Steen, Gordon Vivian and son, And Raymond Rixey and family arrived to start the stabilization of Compound B.

February 17, Associate Regional Director Patraw was in and spent about three hours.

February 18, Supt. Supernaugh and Maintenance man were in to pick up the front end loader and other supplies.

February 22, Odd Halseth, director of Pueblo Grande, Phoenix, was in.

February 23, Ranger and Mrs Wm. Guillet and Daughter and Mr. Guillets mother visited the ruins, Mr. Guilletmis stationed at Colorado National Monument.

Administration and Protection: The Adamsville site was checked with Charlie Steen. Eleven requests for information were answered. Office work has been kept current.

Maintenance: The Front end loader was mounted on the tractor belonging to Navajo National Monument. The whole area was given a general cleanup. The maintenance man worked with the stabilization crew for several days. Some patch work was done on quarters 5-5 preparatory to painting.

Nature Notes: The Palmer Thrashers are back again in the Chollas in front of the Museum and are starting their nest building activities. The smaller lizards and a few insects are beginning to stir now that the weather has warmed up. There have been a few Gambel Sparrows but not in the numbers of previous years.

There follows the Stabilization Report of Archeologist Aid Riney.

A. T. Bicknell,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

February 25, 1949.

MEMORANDUM for the Regional Director,
Region Three.

There follows the narrative report of the Mobile Stabilization Unit for February 1949:

The five man crew hired on the morning of February 16, 1949 started removing the old concrete capping from the walls of Compound B. Most of the capping was used to fill the abandoned well in the plaza of the living quarters, which was somewhat of a hazard.

A couple of days were spent with Archeologist Steen hunting for suitable caliche deposits. The old caliche pit south of the utility area, here on the monument, was finally decided upon. However, this caliche proved unsatisfactory and we are now getting it just south of Randolph.

A well preserved floor level was noticed in one room in the south-east corner of Compound B. Earth fill was removed, and the floor swept revealing some peat impressions. A small shaft sunk in the north-east corner of the room revealed four consecutive floor levels.

Next week should see us well on our way to pouring caliche on the prepared walls.

Raymond Rixey,

Archeologist Aide.

NATIONAL PARK SERVICE

Chaco Canyon NATIONAL MONUMENT

Bloomfield, New Mexico

February 24, 1949

MEMORANDUM for the Regional Director, Region Three,
National Park Service.

There follows the report of activities in Chaco Canyon National Monument for the month of February, 1949.

There were no visitors to Chaco Canyon this past month. There was too much cold weather, too much snow and the roads were not good!!!!

The coldest this month was 15 degrees below zero Fahrenheit. There were six nights with sub-zero weather. The warmest was 61 degrees on the 22nd and 23rd of February. There was a total precipitation of .53 of an inch. The Chaco Arroyo has been running several feet deep for several days.

The approach roads are in poor shape, but there is not much can be done about them until they dry somewhat. The Monument roads have been dragged and are in good shape.

The Padilla fence and posts were taken to the Padilla place of abode. Finis on that chapter, it is hoped.

A good deal of time has been spent on the Monument fence. As many as 22 separate breaks have been repaired in one day.

The pump house has been repaired, and the walls plastered with cement. Also, an entire new door, door facing and lock arrangement have been built to conform with the State Sanitary regulations.

The rancher who allegedly beat the Indian last month had a preliminary hearing which this superintendent was requested to attend. After the hearing, the rancher was bound over to Federal Court.

Projects for the ensuing month:- Continue repairing fence, blade the roads when the tractor tubes arrive and start the Soil and Moisture tree planting project.

Irving McNeil, Jr.
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Chiricahua National Monument
Dos Cabezos, Arizona.

February 25, 1949.

...ORANDUM for the Regional Director, Region Three.

There follows a report of activities at Chiricahua National Monument February.

Weather. Fourteen inches of snow fell during the first two weeks of e report period followed by 1.67 inches of rain. Total precipitation the month was 3.29 inches. Temperatures ranged from a low of 18 degrees the 16th to a maximum high of 70 degrees reached on the 23rd. The gen- l weather and moisture received, while not conducive to visitor travel, greatly aided monument vegetation. Bonita and Rhyolite canyon streams ...ue to flow and with a normal amount of precipitation during March we ...ld have running water for several more months.

General Publicity. Several pictures of Chiricahua's rocks appeared in booklet, "Tucson's 1949 Rodeo". News releases concerning travel sta- ...ion, road conditions etc. were published in Tucson, Douglas and Lorde- ...g newspapers.

Inspections and Visitors. Messrs. Patrew and Kell were in for a brief ...it on the 10th. Mr. Zeal Borem of Los Angeles and Mr. Louis B. Jurwitz Phoenix, U.S. Weather Bureau representatives, inspected the weather ...tion on January 27th. Rangers Glen Bean of Organ Pipe Cactus and Sam ...m, Tonto, visited on the 22nd.

General. Superintendent Cooke was on annual leave from February 21 27 visiting in New Mexico.

Five skunks, who had taken up housekeeping underneath the Superinten- ...ts residence, were live trapped and removed. The maximum amount of in- ...venience was had by all concerned.

Water System. Both water reservoir tanks went dry during the early ...k of the month - reason unknown. Tanks were checked, pipe line and plumb- ... fixtures examined, inflow of water measured, but no discrepancies were ...nd. The tanks were cleaned and within a week had refilled to their max- ...m capacity. A continous check on the tanks since finds them both full ...h considerable overflow. ???

Maintenance. The road to Massai Point was closed to travel for approx- ...tely ten days during the heavy snow and rain period. Fallen boulders ...e dynamited to movable size and removed and the worst of the drainage ...ches cleaned.

One hundred boundary signs were made and painted and ten new approach road signs were placed toward Willcox and Douglas. Rest room plumbing repairs were made, both 3 KVA light plants were overhauled, and the campground was thoroughly cleaned.

Interpretive Service. One lantern slide talk was given at the Gadsden Hotel in Douglas to 75 persons and one conducted trip to Massai Point and vicinity was made. 549 persons were given interpretive service at the museum.

Travel. Adverse weather and poor approach roads cut travel down below normal again this month. 686 persons visited as compared to 1233 of a year ago.

Submitted for the Regional Director, Region Three.

There follows the report of activity [illegible] for the month of February, 1949.

Roy B. Ringenbach,
Park Ranger.

WEATHER: A total of 19 inches of snow fell during the report period and the precipitation amounted to .56 inches. Maximum temperatures climbed to 64 degrees and the minimum dropped to 16 degrees below zero. A pack of very warm weather brought a definite touch of spring, but morning hard weather & RC knots we have not discovered the Douglas yet.

TRAVEL: Although travel for the month was almost nil we did show an increase over the same period last year, by one visitor. Only two cars(both Jeeps) arrived bringing a total of five visitors, well equipped with skis and snow shoes. Both parties were Govt. employees, Forest Service and C.A.

ROAD WORK: During the week of warm weather all work on the level stretches, filling the middle-of-the-road lakes with water and dressing all the rough spots of the ground. Our only mail delivery in a week was made via snowshoe.

MAINTENANCE: The interior walls of dining & living room, Supts. Residence, were given two coats of Wall Tone. Some minor repairs were [illegible]. An unsuccessful attempt was made to secure the services of an expert [illegible] plumber. I think he was afraid he would have to spend a few days during the physical inventory, which as usual was left [illegible]. Some repairs were made to the [illegible] and material made ready for [illegible] garage and the storage of supplies and material made [illegible].

[illegible]: The biggest project of the month was in the office taking out the inventory and rehabilitating the files. It required surprise me to find [illegible] from Casa Grande in 1944. One trip to Albuquerque and San Isabel was made to obtain up-to-date data on lands adjacent to El Morro and interview a [illegible] for General Ranger. The new Dodge pickup was taken to Dallas for [illegible] general servicing and checkup. An appointment to give a talk to the [illegible] of C was cancelled because of impassable roads.

Bates B. Wilson, Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

NATIONAL MONUMENT
El Morro

Hamah, New Mexico

February 26, 49

MEMORANDUM for the Regional Director, Region Three.

There follows the report of activities in El Morro National Monument for the month of February , 1949.

WEATHER: A total of 19 inches of snow fell during the report period and the precipitation amounted to .94 inches. Maximum temperature reached 54 degrees and the minimum dropped to 14 degrees below zero. A week of very warm weather brought a definite touch of spring, but knowing March weather at El Morro we have not discarded the longies yet.

TRAVEL: Although travel for the month was almost nil we did show an increase over the same period last year, by one visitor. Only two cars(both Jeeps) arrived bringing a total of five visitors, well equipped with skiis and snow shoes. Both parties were Govt. employees, Forest Service and CAA.

APPROACH ROADS: During the week of warm weather all snow on the level melted, filling the middle-of-the-road lakes with water and drawing all the frost out of the ground. Our only mail delivery in a week was made via horseback.

MAINTENANCE: The interior walls of dining & livingroom, Supt's. Residence, were given two coats of Wall Tone. Four window panes were replaced. An unsuccesful attempt was made to secure the services of an expert floor finisher. I think he was afraid he would have to spend the winter. During the physical inventory, which as usual was late, tools and toolroom were put in order. An attempt was made to squeeze the new pickup in the garage but the storage of supplies and material made this impossible.

GENERAL: The biggest project of the month was in the office getting out the inventory and rehabilitating the files. It wouldnt surprise me to find a memo from Onate in them. One trip to Albuquerque and Los Lunas was made to obtain up-todate data on lands adjacent to El Morro and interview a prospect for Seasonal Ranger. The new Dodge pickup was taken to Gallup for it's second servicing and checkup. An appointment to give a talk to the Grants C of C was cancelled because of impassable roads.

Eaton E. Wilson, Superintendent

Gran Quivira National Monument
Gran Quivira, New Mexico

Feb. 25, 1949

MEMORANDUM for the Regional Director, Region Three.

The following is a report of activities at Gran Quivira for the month of February 1949.

General. Severe winter storms continued to score near misses on Gran Quivira, and to date this has been a very open winter. The perennial optimism of the farmers is beginning to assert itself. A general change over from beans to sunflowers appears to be developing, spurred by a high demand for sunflower oil by paint manufacturers and the oleomargarine industry.

Personnel. The appointment of Lois Lee to the Janitor position.

Weather. Threatening but not materializing most of the time. Total moisture amounted to .85 inches. Low for the period was -6° on Jan. 30. A high of 65° was recorded on Feb. 22.

Maintenance. The tool shed converted from the White Sands contact station was given a coat of paint. Considerable time was devoted to repacking and repairing the soft water and hard water pumps. Continued cold with no snow cover froze the hard water system on Feb. 3 for the first time since it was installed. After several ineffectual attempts to thaw it out with the weed burner the job was left up to nature and finally accomplished on Feb. 17.

Asphalt tile for the museum floor was ordered and should be received this week. As soon as it is laid the museum will be ready to move into.

Approaches to the Monument. Fair throughout the period. The State maintainer has been much more active this winter and has kept the Mountainair approach in as good condition as possible for the winter months.

Interpretive Service. 12 parties totaling 38 visitors were guided through the ruins. Average trip time 51 minutes.

Increase in Travel. Travel for February was about double that for the same period last year, due to better road conditions.

	CARS	VISITORS
February 1949	33	72
February 1948	15	38
Increase	18	34
Percent Increase	120%	89.4%
This Travel Year	222	597
Last Travel Year	144	408
Increase	78	189
Percent Increase	54.1%	46.3%

Wildlife. On Feb. 3 a Western Horned Owl was discovered roosting on the woodpile. A rather formidable looking fellow he was approached with some caution. However he proved to be as gentle as a kitten and posed for a number of pictures. He allowed us to pick him up and carry him around without offering any objection. Apparently healthy, he went about his business as soon as it got dark.

Our one roadrunner died either from old age or cold weather or both.

Personnel. The appointment of Lois Kite to the Janitor position, CPC-3, WAE, was made effective Jan. 1, 1949. Mr. Kite was formerly employed as caretaker during the war and as Laborer (intermittent) since that time.

William L. Bowen,
Superintendent.

GREAT SAND DUNES NATIONAL MONUMENT
MOSCA, COLORADO

February 26, 1949

MEMORANDUM for the Regional Director,
Region Three.

There follows the report of activities in Great Sand Dunes National Monument for February, 1949.

WEATHER. The San Luis Valley has experienced a mild and balmy winter, in comparison with other parts of the West and Southwest. We trust that nobody in Region Three suffered any undue hardships or great inconvience during this winter of the great snow and cold.

The minimum of 10 below zero was registered on January 29. The maximum of 52 degrees was reached on February 23. The high minimum was 29 on February 12. The low maximum was 8 on January 28.

Snow fell on January 27 and 28; February 8,12,13,24 and 25. Quite a thunderstorm accompanied the snow of February 25. Winds blew on January 28; February 2,3,4,5,7,11,12,13 and 14. A cold northeast wind blew on January 28 for twenty-four hours and accounted for our lowest minimum temperature.

Winter was mild in comparison to last year, when there were 20 nights with readings below zero; this year there were only 9 nights below zero.

During this report period there were 15 clear days; 10 partly cloudy and 6 cloudy days.

The Sangre de Cristo Range is still heavily covered with snow, while the San Luis Valley is extremely dry. There will be plenty of irrigation water this year and also high threat of a serious flood of the Rio Grande River. The Medano is now running, but has not reached the monument's northern boundary.

TRAVEL. Two hundred ninety-five visitors in one hundred twenty-six cars visited the Sand Dunes during this report period. Six states were represented. Eight days show no visitation to the area. Two written requests were answered.

INCREASE IN TRAVEL. For February, 1948 there were 14 cars and 35 visitors.

CONTACT. Contact with visitors was done on four Sundays; 42 cars were contacted, with a total of 137 visitors. Contact time amounted to seven hours.

ROADS. The State approach road was graded on January 23, and is now in a very rough condition. The monument road from entrance to picnic areas and Sand Dunes is also rough and corrugated.

WILDLIFE. Wood-haulers reported two mountain lions taking a stroll on the northeast side of the sand dunes.

One bobcat seen at the back of the Superintendent's residence, and deer can be seen at Morris Gulch, as well as coyotes around headquarters and south approach road.

GRADER. One warm day allowed for the proper greasing of this piece of equipment. The oil was changed to 10 weight. Had to solder a small leak in radiator to stop leakage of prestone. Tried out the grader by pushing snow off the road to Mosca Creek and had a piece of welding break, which rendered the blade useless, so this was immediately repaired. After repairs, the road from headquarters to Mosca Spring was graded and some of the corrugations removed.

LIGHT PLANTS. The No. 1 plant was repaired at Heide Garage and is now operating satisfactorily. The No. 2 plant broke down and is now at the garage being repaired

PROPANE STOVE. After working and tinkering for a month with the kitchen range trying to obtain a decent flame upon which something could be properly cooked, contacted the Geo. Roper Corp., and asked for further instructions. They replied that instead of a propane stove, a natural gas stove had been shipped. Too bad that contractors and bidders can't read. The Roper Co., kindly sent the proper orifices without charge, and after installing them, the stove performs very well and there has been a noticeable saving in propane gas consumption.

ACTIVITIES. Usual routine duties of hauling water, gasoline and propane gas; checking light plant and keeping office work current on Sundays when visitors were contacted.

Considerable time was spent in snow removal around headquarters, in order that cars might get in and out of the garage. Transfered a set of 7.50 x 16 tire chains to Region Three. Obtained chains for the Dodge pickup and were put to use.

List of used equipment was sent to bidders and the Valley Auto Wrecking Co., was the high bidder on the grader, lawn mower, two stoves and light plant. These have been removed from the monument and more storage space is now available

The Heide Motor Co., at Mosca was awarded the contract for automotive repairs.

A trip was made to the upper Madera with Mr. H.W. Shockey, and the saw-mill run by H. Parkhurst on the Ziegler property was looked over. A great amount of big timber in being cut and hauled from both the Williams and Ziegler property.

Helped visitor stop gasoline tank leak which was quite serious, so that he could make it back to Mesa to have it repaired.

Received and reviewed the Naturalist Monthly Report, Region Three, October, 1948. Preliminary Museum Exhibit Plan, Walnut Canyon National Monument. The Monthly Narrative Reports, Region Four, June, 1948; Region Three, July, 1948 and Region Three, August, 1948. Report on "The National Park Service" by Director Drury.

Next month - SPRING - we hope - and the thawing of the water line!

Ted C. Sowers,
Superintendent

Montezuma Castle NationalMonument
Camp Verde, Arizona

February 24, 1949.

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly report of activities at Montezuma Castle National Monument for the month of February, 1949.

Visitors this month to Castle and Well - 432; travel year to date - 5567.

General This month brought the most snow and cold and the least visitors in several years. There were four days with no visitors which is unusual for this monument. Considerable time was spent shoveling snow from the roofs of quarters and from the trails. We had difficulty with mud in front of the garage where there was a graveled surface which we thought was dependable. A great many trees and bushes were broken by the wet snow and wildlife suffered. The water line into Residence No. 1 froze twice and was dug out for thawing. Although a fire was kept day and night in the office, a water heater in this building froze. Resultant leaks in the connecting pipes and in the tank were repaired.

Weather At least a foot of snow fell beginning January 24 but the greatest depth recorded was five and one-half inches. On January 30 the temperature dropped to 3 degrees above zero, the coldest recorded at this monument.

Administration Considerable time was spent revising our P C P records.

Fence line pictures and other pictures needed to complete our records were printed by Leding.

All instructions for the disposal of old records were carefully studied and we find most of them do not apply.

Hastings was the only employee on duty February 22.

Three trips were made to Montezuma Well. On February 20 the ditch was overflowing in several places and some of the water was turned into the creek. The level of water in the creek appears to be higher than usual with more water in the outlet ditch. A device was planned for getting an approximate check on any fluctuations in water level.

Autobiographical cards for each employee and a chronology card for 1948 were added to the Fact File.

Maintenance and Improvements Storage cabinets were constructed on the back porch of Residence No. 1. These were painted and new screen was added to the back door.

The shower stall at Residence No. 2 was repainted.

Acid was flushed through the water heater at the office. This must be used to heat water for laundrying since there are no laundrying facilities in the residences.

All woodwork and window frames in the living room and hall and some on the back porch of Residence No. 1 was repainted.

Five loads of gravel were hauled and spread on the area in front of the garage.

Protection All fence on the north side of Beaver Creek and the new section across from the Castle was patrolled. Numerous limbs broken by snow and one large walnut tree were removed. Record pictures of vegetative recovery along the new fence across from the Castle were taken. These are made annually.

Visitors There were 98 visitors in 27 cars to Montezuma Well and 584 visitors in 84 cars to Montezuma Castle. Tickets sold, 80; tax only, none; children who climbed free, 5.

Contacts There were 28 trips through the Castle for 95 visitors; 223 visitors saw the museum in 44 groups; 56 visitors received information outside the ruins or museum. Total contact hours 42.50. Hastings, 19.35; Loding, 20.75; Schroeder, 2.50.

Interpretation Limbs and trees broken by snow and blocking the nature trail in three places were removed.

Work progressed on photograph filing.

It was found possible to follow a somewhat hazardous trail from the Lower Ruins to ruins around a bend in the cliff a short distance down the creek. This had been considered impossible but on February 7 the route was pointed out by Wilson Beschor, an Indian who said that as a child he and others had used this trail.

The following is Archaeologist Schroeder's report from Montezuma Well.

Administration Daily duty was maintained except for lieu days and as follows: Feb. 6 relieved at the Castle; Feb. 15, to Cottonwood and the Castle for supplies; and 2 hours annual leave.

Snow in the early part of the month made our roads impassable unless chains were used. For three days the mail did not get through and we could not get out. A power failure for 8 hours during this stretch caused

little inconvenience. Local ranchers had some losses with their cattle pasturing on Mogollon Rim and were aided with hay lift operations.

The majority of the month was spent working in the museum. Storage cabinets and shelving were installed under the exhibit panels, 3 doors remaining to complete the project. Pottery which had been stored in the cabins, was placed in the completed cabinets and their location was noted on the catalog cards.

A portion of the ceiling in the living room in the quarters which had warped up opening a gap of ¼ to ⅜" during the wet weather, was nailed down and repaired, and a stove pipe shield was installed on the residence heater.

The county grader came in and graded the area in front of the museum and the entrance road which had been churned up considerably during wet weather.

Records Sketches on duplicate catalogue cards were completed and typing will continue as time allows. The accession book was brought up to date with the addition of accession 2 and 3, and the museum catalogue book has been completed except for a portion of accession 1.

A reference to Montezuma Well called to our attention by Miss Katherine Bartlett of the Museum of Northern Arizona was added to our file (Lumis, Charles, "Montezuma's Well" in Land of Sunshine, 1897.)

The following birds were observed for the first time in the area - Olive-backed Thrush, Horned Lark, Red-backed Junco, Long-crested Jay, White Fronted Geese, and Wilson's Snipe.

Donation Mr. and Mrs. Frank Commisky of Cottonwood, Arizona donated six Walnut Black-on-white pottery vessels which were uncovered in leveling operations on Dr. Creighton's ranch on Oak Creek. They were associated with a burial of a woman about 40 years of age. One vessel was an effigy pitcher which is rather rare in this area. Lime encrustation was removed, the vessels were repaired, and the accession was catalogued and stored.

Buildings The contract to remove various outbuildings was awarded to Mr. Blevins of Camp Verde. To date the barn and chicken coop have been completely dismantled and partially hauled off.

Research Paul Spangle brought down the plants collected over the past year in the survey of the area. All are mounted, labeled and in genus folders. Included also is his field note book. He expects to send down the final report shortly.

Two archaeological sites have been added to our records. One is a sherd area and a roasting pit in the flat and the other a cave site. Both appear to belong to the pre 1100 period with some 1100 to 1500 A.D. occupation being evident in the cave.

Homer F. Hastings,
Superintendent.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

ORGAN PIPE CACTUS NATIONAL MONUMENT

P. O. Box 38, Ajo, Arizona

February 25, 1949.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of February, 1949.

Weather

The subnormal cold weather of January which continued through the first week of February has abated somewhat and plant life has started anew. Only 0.03 inch of precipitation fell on February 13 but some moisture remains in the ground from the January rains. The low for the month was 25 on February 1 and the maximum was 88 on February 22.

Special Activities

Joe Wagoner, Range Supervisor, United States Indian Service, and Tommy Segundo, President of the Papago Tribal Council, visited the area to confer on mutual land problems.

Private Lands

The monument boundary line through the Miller property was surveyed to confirm the location of the buildings just outside the monument line.

The Bureau of Animal Industry is clearing a landing strip on the Luke property for the use of their light patrol planes.

A postal inspector made a survey of mail service to the border. The results of his inspection are not yet known.

Research

Collaborator Max Hensley of the University of Illinois will arrive about the first of March to resume his ecological study.

Permits

The signed wall permit was received from the permittee and for-

Equipment

The front end loader for the Case tractor was hauled from Casa Grande National Monument. This will enable us to do a much better job of road maintenance.

Increase in Travel

Travel increased from 8569 in February, 1948, to 10621 this year in spite of the cold weather and general decrease in tourist travel throughout Arizona. The increase in camping on the monument from 230 visitor days to 627 visitor days was even more remarkable. Such an increase emphasizes our need of a developed area for camping use.

General

A measles epidemic is sweeping the Ajo schools. Both Quinn children have had the measles to date--the rest of us are waiting.

William R. Supernaugh,
Superintendent.

RECEIVED
FEB 28 1948
NATIONAL PARK SERVICE
REGION THREE OFFICE

Saguaro National Monument
Tucson, Arizona

February 25, 1949.

MEMORANDUM for the Regional Director,
Region Three.

There follows the monthly narrative report of activities at Saguaro National Monument for February, 1949.

General.

The early part of February was generally cold with intermittant snow showers, from about the middle of the month on, progressively warmer weather prevailed, reaching a maximum of 78 degrees on February 22.

Travel to southern Arizona has taken a decided up swing and appears to be back to normal for this season of the year. Accommodations in Tucson are more difficult to secure as compared to last month. This general increase in travel is reflected in our travel figures also, with a substantial increase over last month and corresponding month of 1948.

Special Activities.

Messrs. Patrus and Koll accompanied by the superintendent, attended a meeting in the State Land Office on February 15 to discuss the Saguaro land problem with State, University, and Forest Service officials. Dr. Stanley, representing the University of Arizona, set forth the requirements of the University amounting to at least one township, suitable for the practice of animal husbandry experiments. Additional meetings will be held on a regional level between Park Service and Forest Service officers, to further determine the possibility of a land exchange.

Status of Private Lands.

During a recent conversation with Mrs. Madeline P. Trego, owner of the E½ of the NW¼ Section 8, in the northwest corner of the monument, Mrs. Trego indicated that she intended to live there indefinitely and was not offering the property for sale.

Maintenance.

The Loop road through the Cactus Forest was completely graded with the new Galion Motor Grader. It is in good condition at this writing and should improve with each grading, especially when the road becomes " grader wise ". A considerable amount of raking was necessary to remove the loose rocks after the grading was accomplished. The road into Madrona Ranger Station was also graded, a much needed improvement, as some of

Maintenance.(Continued)

the gullies were almost impassable.

Mr. Ed Knapp, Pima County Maintenancoman, rendered valuable assistance, instructing Messrs. Barney and Stansberry in the proper use of the grader, prior to its actual use on the road.

Some difficulty was experienced with the grader, resulting from faulty parts. However, Mr. R. F. Price, factory representative, made an inspection of the unit and agreed to replace the various parts without cost to the government.

All warning signs on the loop road were repainted and new posts installed where needed.

Construction.

Construction work on the blacksmith shop at Madrona Ranger Station is progressing as time permits.

The parking area at headquarters was enlarged to a capacity of twenty five cars, a much needed improvement in order to accommodate peak crowds on week ends.

Cooperating Government Agencies.

Mr. C. Bryan of the Forest Pathology Division, Bureau of Plant Industry, made an inspection of Saguaro plants to determine possible damage by frost. Mr. Bryan stated that it was too early to make an accurate determination. It has been noted that a considerable number of plants have acquired a discoloration (brown) during the last thirty days.

Cooperating Non-Government Agencies.

Mr. Albert Yocholson, Assistant State Land Commissioner, visited here on February 11 to inspect State lands in Saguaro National, relative to our land problem.

Accessions.

A glass display case was received from Natod National Monument for use in augmenting our limited facilities for display purposes.

A new pump and engine were purchased for use at Madrona Ranger Station, as the old ones were beyond repair.

Interpretive Service.

A total of 1007 people in 551 parties were given interpretive service at headquarters, for an average of 12 minutes per party.

Ranger Frost gave a lecture illustrated with Kodachrome slides on plants and animals of Saguaro National Monument, on January 26 at the Wrights Town Grammar School. There were 62 youngsters in attendance and reports indicate that he was well received.

Increase or Decrease in Travel.

Travel shows an increase of 1023 persons over last month, and an increase of 406 persons over the corresponding month of 1948. A total of 2922 persons in 1136 cars visited Saguaro during the month. Total visitors for the travel year, 10,158.

Observations.

Visitors have repeatedly reported seeing javelinas along the upper part of the loop road, the groups varied from two to twenty in number.

Birds are numerous at headquarters, including, cactus wren, desert sparrow, Palmer Thrasher, House Finch, Gila Woodpecker, and one Ladder-backed Woodpecker was observed.

The Arizona round-tailed squirrel and the Harris ground squirrel, both made their reappearance on February 20.

Coyotes have been observed in the cactus area almost daily.

Visitors.

Mr. Albert Yochelson, Assistant State Land Commissioner, Feb. 11.

Messrs. Petrow and Kell, February 18, 1949.

Rangers Sam Oren and Glen Bean, February 21.

Charlie Stoen, February 17.

Samuel A. King
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Tuzigoot NATIONAL MONUMENT
Flagstaff, Arizona
February 26, 1949

MEMORANDUM for the Regional Director, Region Three.

Following is a report of activities affecting Sunset Crater National Monument during the month of February 1949:

Weather: The weather has kept the Monument closed during the entire month with snow blocking both entrances. Observations from Hiway 89 reveal that it is melting on the exposed slopes of the crater. If no more snow occurs within the next few weeks, the roads will be opened.

Accessions: Some excellent black and white photographs of the Mexican volcano, Paracutin, were received from Tad Nichols of Tucson, Arizona. Since so many of the Sunset visitors have either been to or heard of Paracutin, these shots will be interesting comparative material for interpretive use.

David J. Jones
Superintendent

Ranger Service. It will be possible to keep the ranger force on duty through March, but water for the first time since the war, we have been able to give adequate service to the visitors and protection to the Monument.

Visitors. Mr. Walter W. Dunmire of the Region Department of Conservation, expert photographer.

Miscellaneous. Since the Monument has been closed to visitors because of the snow, Ranger Jim Nichols has been making a complete check of the roads, trails, and boundaries, with considerable success.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Tonto National Monument
Roosevelt, Arizona

February 25, 1949

MEMORANDUM for the Regional Director, Region Three.

Following is a report of activities at Tonto National Monument for the month of February, 1949.

Weather. The celebrated winter rains stopped the night of Feb. 15, and it has been bright and warm here since then. Roosevelt Lake is still rising, but needs the big melt-water runoff to fill it.

Approaches to Monument. In good condition at present.

Interpretation. Museum open all month. Three NPS movie reels were shown to Roosevelt School and community, with commentary by Archaeologist Pierson on the Pima Indian potter reel, and by Supt. Sharp on the Carlsbad Caverns reel. All of Monument staff attended all the movies, as they were shown at night.

Travel. 2625 visitors in 687 cars rolled in. Most of that was in the last two weeks, as continued rains cut down travel first half of the month. The parking area was often inadequate even on week days, as indeed it has been since the war. These overstuffed, super-wide new cars require a third more room. We still have a Model T parking area.

Ranger Service. It will be possible to keep Seasonal Ranger Sam Crew on duty through March, for which we are thankful. This winter for the first time since the war, we have been able to give adequate service to the visitors and protection to the Monument.

Visitors. Mr. Walter E. Hastings of the Michigan Department of Conservation, expert photographer.

Archaeologist Steen was in for a pleasant two days, to discuss interpretation of the area, inspect the ruins, and to photograph the fine Apache basket collection at Frazier's store.

Roads & Trails. Road & trail Laborer Constable was terminated as of February 16. He has done a lot of excellent work here on the entrance road and ruins trail, has re-graveled the parking area and some of the road, built new set of steps from museum up to parking space, and has helped get the Monument in better shape.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Propane System. Installed this month, accepted, and CRO & invoices sent in. Still to be installed is copper tubing in each house. System is working well, and propane is considerably cheaper in bulk.

General. This winter all the existing signs were re-worked, and a lot of new ones made. Good visitor control and information are effected by the gate and signs at start of Ruins trail. Ranger Orem's skill with the branding irons paid off on sign manufacture.

The 1-cylinder light plant was torn down, rings installed, rod tightened.

Water samples were sent to the State Health Department, and tests showed no contamination.

We hope we have secured a good series of pictures showing the overcrowded parking area. Will send these in when developed.

Charles C. Sharp
Superintendent

RECEIVED

NATIONAL PARK SERVICE

Tumacacori National Monument
Tumacacori, Arizona

February 26, 1949.

MEMORANDUM for the Regional Director,
Region Three.

WEATHER CONDITIONS: Precipitation for the month was 1.27 inches, which appears to be about normal. Snow fell heavily the morning of January 25, and again lightly on February 14, but stayed on the ground only a very short time. Temperature ranged from a low of 19 on January 31 to a high of 81 on February 28. Weather was rugged the early part of the month, with a lot of beautiful and warm weather the last two weeks. This late February warmth is forcing budding on many plants, which will be set back undoubtedly by late freezes.

INCREASE OR DECREASE IN TRAVEL: February visitors numbered 5,720, which number has been exceeded only once for this period, by the 4,303 total for February, 1948. Visitors arrived in 1079 cars. Our biggest day so far this year was February 28, when there were 258 visitors, and 189 guide tickets sold. Weather alone cannot be considered responsible for the consistent travel drop of this year.

INTERPRETIVE SERVICE: 1,977 persons went on 247 guided trips through the mission church and grounds, receiving an average of 34.4 minutes per trip. 3,892 persons saw the museum and patio garden, and 3,639 persons received combined information and interpretation service.

VISITORS: January 30 - Frank Barry, Jr., County Attorney, Santa Cruz County.

February 13 - Ansel Hall, formerly with the National Park Service.

February 21 - Hurlstone Fairchild, widely known artist, also fraternity brother of M. R. Tillotson.

PUBLICITY: A newspaper clipping from the Chicago Tribune was sent us, and gave really a very accurate description of Tumacacori National Monument.

On January 30 Dale Nichols, well known artist, and his art class, which studies at nearby Tubac, were on the grounds while Western Ways photographers were taking numerous photos of them with the mission in the background. This was for newspaper publicity.

INSPECTIONS: February 16 - Archaeologist Charlie Steen, examining stabilization needs.

February 18 - Associate Regional Director Patraw and Park Planner Kell, both on their first visit to this area.

MUSEUM AND EDUCATION: Press of travel made time for very little research this month. Stakes for plant labels were made, by using 3/4" dowel pins,

RECEIVED
FEB 28 1949
NATIONAL PARK SERVICE
REGION THREE OFFICE

soaked in Wood Health, sharpened at one end, sawed to half thickness at the other. To these were tacked 3x5" strips cut from tin cans, curved over forward at top and bottom, into which can be slid 3x5" plant labels.

MAINTENANCE: More manure was hauled and spread, and a fairly sizable stock pile set up. A number of Desert Bromes were dug up from along state highway right-of-way and planted on our grounds. One Chinaberry tree was planted SW of Superintendent's residence. More cleanup was done on cactus plants which died down badly during the January cold. Our south entrance gate was repaired. Heating stoves were cleaned. Refrigerator repairs had to be accomplished on the motor of the refrigerator in Residence No. 1.

NATURE: On February 7, after a considerable period of inactivity, bats again held a conference in the sacristy of the church. Since then they have been out several times again. Our experience here has been definite proof that some bats must hibernate here during cold weather, coming out on exceptionally warm nights at any time of winter.

Even wild mustard, one of our hardiest winter annuals, were killed by excessive cold this winter.

First blossoms noted on the monument this year were the Jasmines, which opened on February 23.

GENERAL: While there is not a wide variety of things to report this month, we have not been asleep. Our heaviest travel month of the year always gives us little opportunity to do anything else besides the all-important visitor contact and guide work. General tone of visitor interest has been good. Fortunately, only a fairly small percentage of visitors is like the following couple, man and wife, which arrived the other day:

Wife (on arrival at registry desk, 10 minutes after time for a trip):Can we just walk around and see things?

Ranger: I can take you on one of our guided trips now, if you'd like. It's a little after trip time, so the trip will be a little shorter than some.

Wife: Oh, we haven't much time.

Husband: We'd like the short trip.

Ranger: All right. It takes about 30 minutes.

Wife (to Husband): Oh dear! Can we waste that much time?

Husband: (expansively) Why, of course! Let's do it!

Karl Jackson,
Superintendent.

TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA.

February 25, 1949.

MEMORANDUM for the Regional Director, Region Three.

Following is the monthly narrative report for Tuzigoot National Monument for February, 1949.

Weather: After experiencing the most severe winter in recorded history the latter part of February finally leveled off into the ideal high sixties. Needless-to-say this is a welcome change. However, elevations at 6000 feet and up are still deeply covered with snow and the run-off, for irrigation purposes, is the heaviest in years.

Travel Data: The last few warm days are beginning to show its effect. A few people are now starting to move around again, not many, but some. Visitors to the monument this month totaled 300 as compared with 1147 for February of 1948. The picture may change shortly though - we are receiving an unusual large number of letters from potential visitors requesting information on Tuzigoot and the surrounding area.

Guide and Contact Service: Museum, ruins and orientation contacts totaled 752. 245 people in 78 parties were shown through and given an orientation lecture in the museum, and 227 people in 72 parties were conducted through the ruins. The average time spent by each party in the museum was 22 minutes. The ruins required 21 minutes per party. All visitors were contacted regardless of the hour of their arrival.

Personnel Time: Museum; 28 hours, 25 minutes. Ruins; 28 hours, 05 minutes. Total contact time for Bright; 27 hours, 55 minutes. For Richert; 26 hours, 35 minutes.

Maintenance and Administration: The continued lull in travel has permitted us to complete many needed jobs before the summer rush begins. Of course, several days were spent during the first part of the month shoveling tons of snow from the roofs of all buildings, opening up a path to the ruins and trying to make the entrance road passable. Archeologist Richert spent some time repairing and strengthing large ollas and pottery bowls on open display in the museum. These articles receive rough treatment by small children and require constant periodic attention. Additional redecorating in the living quarters museum interior has been done, and minor repairs to walls of the ruins has been made.

Everett N. Bright
Superintendent.

Walnut Canyon National Monument
Flagstaff, Arizona

February 28, 1949

MEMORANDUM for the Regional Director, Region Three

There follows the monthly narrative report from Walnut Canyon National Monument for February 1949.

Weather. There has been no snowfall since the 13th and only 16 of the former 104 inches of snow remains. The once snow blocked roads are now equally hazardous due to the mud and slush caused by the last two weeks warm, sunny days. On the 7th of this month all four main roads leading into Flagstaff were blocked with drifted snow. This condition prevailed for about five hours.

Special Activities. Archeologists Stoen and Vivian arrived at Walnut Canyon on the 9th to assist moving Archeologist Aide Rixey to Casa Grande National Monument. They left this area the afternoon of the 10th.

Interpretation. There was one party of three visitors to the Monument during the time covered by this report. The ranger received information on the pitfalls of life in exchange for information relating to the pitfalls of traveling off main roads without chains when there is roughly 5 feet of snow on the ground. (This while digging them out.)

Activities. New thermostat installed in hot water heater with very good results, part of two consecutive days was spent thawing frozen water pipes at the Administration Building, a trip to Hupatki was made to deliver the Walnut short wave radio to Superintendent Jones who will take all our radios to Grand Canyon for conversion to the new frequency, one more door closer was installed in the Administration Building, remaining time was spent on routine office work and shoveling snow.

Wildlife. On Feruary 11 a "Weasel" sent by the State Game and Fish Commission, traversed the Monument and surrounding area scattering oats for the wild turkey.

NPS Visitors. Naturalist Don Watson of Mesa Verde National Park, Naturalist Robert Upton and wife of Petrified Forest, Superintendent Hastings and wife, Ranger and Mrs. Loding of Montezuma Castle and Janie Jones, accompanied by Superintendent and Mrs. David Jones of Hupatki.

John A. Aubuchon, Park Ranger

White Sands

Box 251, Alamogordo, New Mexico.

February 25, 1949.

MEMORANDUM for the Regional Director, Region Three.

FEBRUARY TRAVEL, 1949	1949 TRAVEL YEAR TO DATE
Visitors - 5,438 Cars - 1,654	Visitors - 29,492 Cars - 7,939

February started out slow and it looked as though we might record a new low but a late spurt brought us ahead of last year and almost to an all-time record February. Our count for the month was 5,438 visitors in 1,654 cars.

On several occasions the highway over the mountains has been snow blocked for a few hours only but these blockades sure show up on our daily travel. On one occasion the White Sands had a total of 7½" of snow in one fall. Quite a depth for us, but it was all gone in just a few hours.

One official trip was made to Albuquerque to confer with government agencies and the War Department regarding the desire of the Army to secure a large tract of land in this section for rocket purposes. I was accompanied at the conference by Mr. McColm of the Regional Office. A couple of trips were also made to El Paso for material and equipment needs.

Unusual weather conditions have made our road work a little heavy and the work shows little result. Freezing at night is causing upheavals in the road bed which creates a rough bed in spite of work done on it.

The Concession shows gains and losses along with our travel figures and are about equal to similar periods over past years.

Ranger Schaffner has taken the opportunity of transplanting several of our most common plants to the patio where we can show them to the visitors requesting information on our plant life.

Plans are already being made for Play Day with the addition, this year, of the Relay Races. Plans are also being formulated by the Chamber of Commerce for the Fourth of July. It is hoped, by them, to make this even bigger than last year. If it is much bigger I don't know what we will do to handle all the people.

We hope to be able to keep our roads clear of sand this year in advance of the heavy winds. I will let you know later of our success along this line.

Conditions seem to be tightening up among many lines and the visitors, in several instances, speak of taking some leave while they still have a little money left.

Next month we hope to prepare for Play Day which will be on April 9 this year. We have also agreed to fix up an area for the races. This will consist merely of dragging one of our larger flats to rid it of depressions which might hinder the contestants.

Bandelier has come to our aid twice the past month and supplied us with permits. If we don't get ours pretty soon we will sure hit Bandelier hard because when our travel really increases it will make quite a dent in their permit supply. However, we will attempt to hold on as best we can until ours arrive.

Johnmill Faris,
Superintendent.

NATIONAL PARK SERVICE
REGION THREE OFFICE

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

February 26 19 49

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Wupatki National Monument for the month of February 1949:

Weather: Snow lay on the ground until the middle of the month. Freezing temperatures during the day prevailed until the 15th. Maximum temperature 59°, minimum 2°. Snow 2.8". Precipitation 0.19". Most of the moisture from the snows this winter penetrated the ground, as high winds were not too frequent. Difficulty from drifting was encountered on our roads and hiway 89 was completely blocked on several occasions.

The Weather Bureau has announced the selection of Wupatki to provide them with the new weekly weather report starting in March. Since they are attempting to get stations every 1500 sq. miles, the honor is highly dubious-- they could not get anyone else out here. Besides, it just means more paper work.

Roads: Except during the period of winds, our roads were kept open. Two days were required for snow removal in drifted sections. The break in the weather brought considerable mud, which is drying now. The approach from Sunset Crater is closed. The new surfacing job on Hiway 89 suffered a good deal of damage from the winter and will probably require a new top coat again this summer.

Travel: Visitors are just reappearing; our first one since December 29 came in on February 20. Total visitors: 11 with nine registering at Wupatki Ruin and 2 at the Citadel. All received guide service. The local merchants have all been complaining about lack of business. It is only at times like this that they fully appreciate the trade they get from the tourists. According to one report from the Standard Oil Company, they look forward to a slow tourist year.

Status of Private Lands: The appraisal of Heiser's Spring by E. C. Crossbeck of Kaibab National Forest is well under way. The cooperation of the Forest Service in this respect is greatly appreciated, as they are not idle this winter, by any means. The previously selected appraiser could not do the job, because of pressing personal business.

RECEIVED
FEB 28 1949
NATIONAL PARK SERVICE
REGION THREE OFFICE

Special Activities: One trip was made by Jones to take the radios to the Grand Canyon for a frequency change. Ranger Owen Reynolds worked up a convenient diary form which we are using

Grazing: The grazing pattern has been unusual this winter. The CO Bar Company turned in about 200 head December 20. With the arrival of snow early in January the cattle drifted north, practically abandoning the southern part of CO Bar range. The Cedar Spring pipeline has been frozen and no water was available at Deep Well Tank until February 15. Since then there have been approximately 150 head on the Monument.

Trespass cattle bothered us most of the month in Wupatki Basin: fifty head of Joe Kellams cattle. He stated that he was making every effort to round them up, but is notorious for turning his stock onto other ranges than his own. Rumor has it that he recently received two loads of alfalfa hay from Storm Relief. Anyway he has taken most of them back to his range, perhaps to feed them. The trespass cattle are using range that is already being fully utilized by Navajo sheep.

Protection: Considerable difficulty was experienced during the heavy snows with the woodcutters, primarily Navajos. They came into the area because there was less snow and our roads were open. None were caught in the act, but several were warned. This type of patrol was not necessary as soon as the roads elsewhere had thawed somewhat. We see that even Grand Canyon had this difficulty.

Activities of Outside Agencies: The oil drilling just North of the Spider Web Ranch was abandoned this month and the rig moved to Snowflake, Arizona. The strata of expected oil yielded only traces of natural gas. Former Park Naturalist McKee had predicted that if oil was found, it would be only a small amount.

Accessions: To date three plastic mounted scorpions have been received from Dr. H. L. Stahnke: Vejovis wupatkiensis, Hadrurus spadix and a specimen of the deadly Centruroides sculpturatus for comparison.

Observations and Research: Snows drove the antelope down from the higher elevations with interesting results. They were very common along the West side of Hiway 89, were frequently observed in bands up to 14 along our roads, and have been reported from Cameron and the Painted Desert. The Navajos enjoyed a change in mutton diet. Some feeding was attempted by the Arizona State Game Commission, but it is understood that this was not too successful. The antelope preferred natural vegetation and would not eat when corraled or sectioned off.

The latest copy of Plateau contains a preliminary report of the Black Hawk Valley archeological excavation conducted on the Monument by the Museum of Northern Arizona last summer. It is understood that the final report is nearing completion.

Mr. Robert C. Euler, who worked as a temporary ranger here last summer, has finished his report on an economic report of the Navajos of Wupatki Basin, and will soon send us a copy.

The Museum of Northern Arizona has planned extensive work this year in the Flagstaff area: on early pottery or pre-pottery sites of the Verde and what might be "pure" Cohonina sites near Red Butte. They also have plans for work near Prescott and Petrified Forest.

NPS Visitors: The Aubuchons from Walnut Canyon paid us a visit this month to bring the short wave set. Apparently Regional Forest Carlson did not have on his web feet the day he passed by.

Personnel: We now have a ranger who is a qualified fire chief. Owen Reynolds received notice that he had passed the fire chief course conducted by the Arizona State Firemen's Association. He took this exam prior to entering the Service and in conjunction with his fire fighting supply business.

Jones received a request from the Coconino Forest to assist them in organizing and conducting a fire training course for potential emergency fire fighters among the Navajo and Hopi.

Moe Bean was on sick leave for two days this month after severe weather exposure.

Spring Flow: Wupatki Spring increased again this month bringing the flow to 909 gpd. Heiser remained the same as last month: 2468 gpd.

Road Maintenance: In spite of mud and frozen ground hampering the work in places three miles of road were shaped and drained, 34 cu yds of material hauled, two days spent on draining a low section near the Citadel. The new patrol is doing fine and holding up well to date. On heavy work it has required about 1½ gallons per operation hour.

General Maintenance: With considerable effort on the part of all of us and lot of time the leak in the hot water line was repaired by Owen, after Jones gave up. Two hot water heaters were installed, the one at Wupatki has a faulty thermocouple which is to be replaced. The leaks in the roof of the Wupatki residence became progressively worse with the freezing and thawing action this month. New ones appeared over the garages.

David J. Jones
Superintendent

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.). Count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9a1-

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS BY A INTERPRETIVE STAFF FOR ALL PARK AREAS.

Fill Out Only Those Blocks That Apply.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR PARKED RANGERS/NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERVISORS, SECRETARIES, MAINTENANCEMEN, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE CHIEF WHO MAY BE CALLED ON TO HELP INTERPRET THE AREA.

Conducted Trips: Those conducted by S.P.S. personnel to the field to explain views, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside interests under Service sponsorship. Not to include any talks made as part of a conducted trip or other entertainment of service.

Attended Interpretive Stations: Actual count of persons using the station (Ranger, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or services supplying information rather than interpretive service should not be considered as attended interpretive services.

Information is factual matter relative to physical development, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

Interpretation is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimates as accurately as possible all visitors using exhibits-in-place, wayside exhibits and overlooks, wayside exhibits utilizing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should NOT be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. *Total Attendance* shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Copy to be supplied to the Regional Director who will forward one to the Director. One copy should be retained by the Superintendent or Custodian of the area in which the report originates. Coordinating Superintendent also should be provided with a copy. Due in the Regional Director's Office not later than the 5th of the month following that covered by the report.

NATIONAL PARK SERVICE
REGION IV

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to Assist with Interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of Interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 10, Chapters 8 (Report 803) and 9 (Report 804).

DEFINITION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Junior Naturalists, Historians, and Historical Aides.
"SUPERVISORY" are Superintendents, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS. Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

TALKS. Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service supervision. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the visitor Library, contact stations, exhibit rooms, film auditoriums, etc.). Count being made by Service personnel in attendance. Checking stations or stations designated as UNATTENDED should show that interpretive service should not be considered as attended interpretive stations.

EXPLANATORY is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and trail, hotel accommodations, bus and truck schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETIVE is an accurate explanation of the significance of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using museum-in-the-open, information stations, and exhibits, exclusive shelters housing interpretive devices. Exhibits which, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Rangers alone will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

LINE 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

LINE 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Parenthetical and subject in all Blocks.

LINE 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in each interpretive device. Some study of visitor habits must be made with periodic checking at stations.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

REMARKS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may exceed a total comparatively in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. This is done in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 9m3) and 9 (Report 9m3).

TITLE Park Ranger

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, ROADSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR FURNISHED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME Homer L. Hastings

TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical Areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 5 (Report 8a3) and 9 (Report 8a3).

No travel to area due to heavy snow on approach roads.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total this column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT IS: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8x3) and 9 (Report 9x3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as Attended Interpretive Stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

This Report Due: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 6th of the month following that covered by the report.

NAME Samuel A Kerr
TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave" etc.
Ranger Frost gave a lecture at the Wrights Town school illustrated with Kodachrome slides. 63 in addendance.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations. INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire. INTERPRETATION is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 10, Chapters 8 (Report 8m3) and 9 (Report 9m3).

_____ Total Number Visitors to Area

NAME David J. Jones

TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors in the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9a1).

NAME Lloyd M. Pierson
TITLE Archaeologist.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.
Visitor total includes 81 run-arounds.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical Areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 803) and 9 (Report 903).

TITLE Park Ranger

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic location, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m1).

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR JUNIOR NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED ON TO HELP INTERPRET THE AREA.

Conducted Trips: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

Talks: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE SERVICE.

Attended Interpretive Stations: ACTUAL COUNT OF PERSONS USING THE STATION (MUSEUM, CONTACT STATION, BENEFIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

Unattended Interpretive Devices: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE RATE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

Interpretive Activities Outside the Area: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

Column #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

Column #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

Interpretive Activities Outside of the Area ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

Totals: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. Total Attendance SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE SERVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE KNOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED AT THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS OF [illegible] SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE [illegible] OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NATIONAL PARK SERVICE

Region Three
Santa Fe, New Mexico

April 6, 1949

MEMORANDUM for the Regional Director, Region Three.

Following is the narrative report for the Naturalists of the Southwestern National Monuments for March 1949.

Staff Activities, General

Naturalist King visited Arches and Mesa Verde through March 4, spending the rest of the month in the office.

Archeologist Steen made two short trips to Bandelier and Gran Quivira while Archeologist Vivian was in the office for a month except for a short trip to Chaco Canyon.

Interpretive Administration

Editorial work was done on the manuscript for the Montezuma Castle 55-page booklet and the Capulin Mountain two fold leaflet.

One memorandum was written discussing the policy of including certain material in the White Sands fact file.

Several letters of application for employment were answered and a conference on efficiency ratings attended.

Public Relations and Extension Services

Due to pressure of work no attempt was made to undertake the writing of an article on White Sands for the National Motorists magazine. It is hoped that this article can be prepared locally.

Progress of Exhibit Plans and Projects

Metal Cactus labels were furnished for Saguaro, hand lettered case labels for Tonto and plexiglas sheets for exhibits in the Casa Grande multiplex.

The staff at Aztec were authorized to go ahead with their excellent plan program for rearrangement in the museum. The rearrangement will give more office space and a more efficient work room.

Mesa Verde National Park transferred a collection of prehistoric pottery from the Wetherill collection. This came from the Kayenta region but many specimens are of types suitable for display at Walnut Canyon where they will be held until such time as Navajo National Monument has a museum. Steen travelled to Gran Quivira to make preliminary plans for exhibits. At Mountainair he looked at two collections of artifacts, both from the vicinity of Mountainair. The owner of one collection is anxious to give it to the National Park Service but wishes that the collection be kept intact. However, the bulk of the collection is not pertenent to any National Park Service area.

Accessions Other Than Library

Commercial firms were asked for quotations on cardboard shard boxes for our study collections.

Research and Observations

Montezuma Castle forwarded a copy of a good report on the botany of Montezuma well written by Messrs. Spangle and Sutton of Arizona State College at Flagstaff.

Mostly during weekends King continued revision of the plates of the Kolokihu report with the help of enlargements made by Photographer Glen Haynes. King rewrote the section on a cremation burial.

Loan Library

Accessions totalled 103, including 16 books, 44 pamphlets and 43 periodicals. The most important books are:

Gabel, Norman E. - A Comparative Racial Study of the Papago.
University of New Mexico Publications in Anthropology,
Number 4, Albuquerque, 1949

Hockett, Homer C. - Introduction to Research in American History.
2nd edition. The Macmillan Co., New York, 1949

Lister, Robert H. - Excavations at Cojumatlan, Michoacan, Mexico
University of New Mexico Publications in Anthropology,
Number 5. Albuquerque, 1949

de Terra, Helmut, and others - Tepexpan Man.
Viking Fund Publications in Anthropology, Number 11.
New York, 1949

Southwestern Monuments Association

King prepared a memorandum asking transferring superintendents to inventory and check association stock at the time of transfer. He talked with a representative of the Intermountain Tourist Supply regarding publication of color

miniature sets and other color printing.

During the month of March, Alan Vedder worked only about 17 full days due to lack of work. He only had five days left of annual leave, so that it would be used up before the fiscal year end, and there will be no carry over. No other paid employee worked for the SWMA this month.

Two deposits and one disbursement were made. This month 180 covers were mailed, including 40 letters and 25 purchase orders.

Two new stencil cabinets arrived, having been made at Bandelier National Monument. Also this month the Bandelier turn-in was straightened out. Outside of taking care of mail the rest of the time was spent on the usual, i.e., turn-ins, checking old invoices and sending out notices they are unpaid, posting, etc.

Visitors

Steen drove Frederick Douglas of the Denver museum and Mr. Anderson of the Ethnographic museum, Stockholm, Sweden, to Bandelier and Santa Clara and San Ildefonso Pueblos, on March 5.

Among others who visited the office were J. Leslie Puff of the Gallup Independent, Dr's. Arnold Withers of the University of Denver and Fred Dawson of the University of Colorado and Superintendents Wilson and Sharp.

Ruins Stabilization

Steen inspected Tyuonyi ruin at Bandelier to see how last year's stabilization measures are holding out.

Vivian finished the ruins stabilization manual. The final pages are now being typed and the report will be assembled within a few days. He also did much work on the excavation report of a small site excavated in Chaco Canyon in 1939.

Technical Aid to Administrators

The interpretive portion of the job description for the superintendent of Walnut Canyon was rewritten for the personnel section.

Projects for April

King hopes to finish the manuscripts of Nalakihu and the Montezuma Castle booklet, and possibly will make trips to White Sands and the southern Arizona area.

Steen will make short trips to Aztec and Gran Quivira and will split his time between stabilization and museum preparation activities. Vivian will go to Aztec ruins on April 5 for two months of stabilization work there.

SIGNED

Dale S. King,
Naturalist.

APPROVED FOR DISTRIBUTION:

DSKing:ja

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Arches National Monument
Moab, Utah

March 28, 1949

MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Arches National Monument for the Month of March, 1949:

GENERAL: This superintendent recently received word of the approval of his transfer to Colorado National Monument. It is with regret that he leaves the Southwestern National Monuments organization after eight interesting and enjoyable years and wants to thank all with whom he came in contact for their splendid cooperation. ADIOS.

The interesting, but not too well known "Mastadon" petroglyph, which was situated about 4 miles below Moab on the Colorado River, is no more. First reports were that someone had used an explosive on the cliff on which it was carved but further investigation proved that the natural forces of erosion caused the collapse.

WEATHER: Rains fell on March 7th, 8th, 20th, 22nd, 23rd, 27th and 28th, with a wet snow accompanying the rain of the 28th. High winds blew on one or two occasions but our March winds did not materialize.

TRAVEL: Travel picked up again this month after two months of extreme weather which kept all but essential travel off the highways. A total of 89 cars and 201 people entered the area during the month. Travel represented 15 states, Canada, Venezuela and South Africa. Interpretive contacts were nil due to press of other work.

REHABILITATION OF BUILDINGS: Repair work on trailer quarters for the ranger was completed during the month so that it is now liveable, after a fashion. The interior painting was completed, approximately 225 feet of water line was laid and a power line strung. Ranger Worthington moved in on March 15th and 16th.

NATIONAL PARK SERVICE VISITORS: Naturalist King visited the area on March 1st and 2nd and discussed our needs for interpretive devices.

Engineer Bradley and Mr. Kell arrived on March 15th for a survey of the boundary in the Dry Mesa section. Mr. Kell left on the 18th but Mr. Bradley is still carrying on.

The new superintendent for Arches, Bates Wilson of El

Merro, arrived on the morning of the 28th to spend a few days getting acquainted with the area and its problems. He will return for permanent duty on April 20th.

ROADS: Maintenanceman Winbourn spent seven days giving the monument roads their spring face-lifting and at this writing they are in excellent condition. The moisture from recent rains has helped to pack sandy portions and they should be in good shape the balance of the season.

MAINTENANCE: Repairs were made to the motor grader during the month. Two new [illegible] wheels and drive spindles were replaced to put the machine in good order, we hope.

Water lines at the Windows parking area were opened on March 10th and water was hauled from Moab to the storage tanks.

SIGNS: A new trail sign was installed at the Windows parking area giving trail distances to the various features of the section. Warning signs regarding vandalism were set up in the parking areas at the Windows, Devils Garden and Delicate Arch. The trails in all sections are now well marked and all signs in good condition for the coming season.

SURVEYS: Engineer Bradley carried on the survey of the boundary in the Dry Mesa section from March 15th to 18th with the help of Mr. Kell and Worthington, Winbourn and myself alternating as helpers. On the 21st we checked section corners on the proposed extension on the west boundary while Worthington trucked horses to Turnbow cabin for use by the party on the Dry Mesa survey. Mr. Bradley became sick on the 21st and was indisposed until the 25th at which time the Dry Mesa survey was again taken up. This job was completed on the 25th and the west boundary survey will be carried on next week.

GRAZING: Ranger Worthington and myself spent two days riding the west and south boundaries with Ross and Rusty Musselman, who are taking over the B of L. M. grazing allotment along the monument in the Windows and Courthouse Towers sections. They have purchased the Pack Creek ranches from EDD Provensha and plan on operating a guest ranch and pack and saddle trips.

No regular boundary patrols were made in the Devils Garden and Delicate Arch sections due to press of other work.

Russell L. Mahan
Superintendent.

(in trips)

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

24 March 1949

MEMORANDUM for the Regional Director
Region Three, National Park Service.

There follows the report of activities in Aztec Ruins for March 1949.

WEATHER. Like March weather we have had some snow, sleet and rain with more or less blustery days thruout the month, however the temperatures have climbed upward to a high of 74, likewise our travel has climbed to approximately 20% above the same period last year.

INSPECTIONS. Dale King was in March 1, and went over our museum plan in detail regarding the rearrangement of display cases and prezentation of of displays.

PUBLICITY. The Department's open house was advertised over the San Juan Basin area by KIUP radio in Durango, Colorado and was a news item in the one daily paper serving this area, also in Durango. No visitation resulted from this advertising.

MAINTENANCE. Leaking roof covers continue to be our greatest concern with snow removal required after each snowfall.

The domestic water system tanks were drained and cared for to create sufficient air pressure for the smooth operation of the pump.

INTERPRETAVE SERVICE. There were 299 visitors in 62 parties conducted thru the ruins and 426 visitors in 106 parties were shown the museum.

Two lectures on the Indian of the Southwest were presented to two History classes of the Aztec City Schools by Park Ranger Tom Onstott. These lectures were illustrated by kodaslides.

INCREASE IN TRAVEL. Nearly 20% increase with 426 visitors in 140 cars from 27 states and Italy. This is quite a sharp upturn in travel from the previous 2 months which were some 40% below the travel of Jan and Feb 1948.

PROPOSED ACTIVITIES FOR APRIL. Because of our complete attention to the museum change-over this month we have been unable to get at our boundary fence which we hope to erect during April

Irving D. Townsend,
Superintendent.

AZTEC

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

March 28, 1949

Memorandum for the Regional Director, Region Three

There follows a report of the activities at Bandelier National Monument for the month of March, 1949.

Weather

The weather has been nearly ideal during most of the month with temperatures in the twenties at night and in the sixties during the day. The highest temperature was 72 degrees on the 19th, and the lowest was 18 degrees on the 27th. Only .13 inches of moisture was received during the month which left the roads in generally good condition.

Special Activities

An "Open House" was held on the 3rd, in celebration of the 100Th anniversary of the founding of the Department of the Interior. Coffee and doughnuts were served to visitors and a short talk was given on the high points of the Interior Department with particular emphasis on the National Park Service.

Maintenance

The refinishing of the office was completed during the first part of the month. This included replastering, painting, and sanding and varnishing the floors.

The comfort stations at both the administration building and campgrounds were repainted and made ready for summer use.

A new pre-dishwasher, that was secured from surplus at Los Alamos, was installed in the Lodge kitchen and the walk-in ice box was partitioned to provide storage for items that it is desirable to keep locked. A new hood for the new stove unit in the Lodge kitchen was installed to provide a vent for fumes.

Approach road

The good weather during most of the month made it possible for the operator general to grade the approach road and put it in good condition. A stopped up culvert was dug out and cleaned and considerable work was done to improve the drainage along the road.

U.S. DEFENSE BUY UNITED STATES SAVINGS BONDS

An "A" frame was constructed on the front of the winch truck which proved a valuable aid to the small crew in moving heavy culverts and rocks.

Interpretive Service

759 visitors were conducted through the ruins on 75 trips and 30 groups were given additional information in the museum. Warmer weather greatly increased the use of the museum although it was still chilly.

Ranger McEntyre spent considerable time during the month on material for training the temporary rangers when they report for duty and assembling material for the evening lecture program.

Travel

The good weather caused a considerable upsurge in travel with 1408 visitors coming to the area as compared with 397 for March, 1948. This is a 252% increase and puts the total for the travel year some 230 visitors over the same period last year.

The picnic area came in for a good deal of use and there were several overnight campers in the campground.

Visitors

Chief Clerk Castellum with Mr. J. L. Stamp, U. S. Civil Service Commission inspected the area on the 17th.

Chief Auditor Carl Nowak and Auditor James Carpenter, with their wives, paid an unofficial visit to the area on the 27th.

Archeologist Charlie Steen accompanied Dr. Douglas, Denver Museum, and Swedish archeologist Anderson on a tour of the Monument on the 5th.

Foreign visitors included Mr. and Mrs. Armand Circey, Quebec, Canada, and Mr. and Mrs. Thor Heyerdahl, Oslo, Norway, with Mr. and Mrs. G. A. Treschow, Larvik, Norway.

Building Fire Protection

All soda acid and foam type fire extinguishers were tested and refilled during the month and a building fire drill was held on the 15th. The equipment was manned and water was turned on in two minutes after the alarm was sounded. The drill was primarily for practice in the use of hand signals.

In-Service-Training

In-Service-Training meetings were continued through the month and

emphasis was placed on general Park Service policies as they affected the Monument and a discussion of Building Fire Protection. One of the meetings was combined with a staff meeting for the discussion of general problems and work to be accomplished before the heavy travel season.

Trails

The ruins trails were cleaned up and smoothed in preparation for oiling with a light oil to hold down the dust. The ladders leading to Ceremonial Cave were repaired and many of the rungs were replaced.

Miscellaneous

While writing this report more than five inches of snow has fallen in less than two hours. Where is that nice spring weather that we were bragging about! Unusual records. A rain or melt of real warm water would precipitate a flood. Rainfall during the month totaled 2.48 inches. Grass is getting green and flowers are beginning to leaf out in many places.

Fred W. Binnewies
Superintendent

Administration

Eight days of annual leave were taken by the Superintendent due to the death of his father and serious illness of his mother.

Maintenance

Signs were repainted and the large sign at Garcia's store painted and brought to headquarters for repainting and installing after road changes are made at the junction. Work has progressed on the roads as weather permitted. The parking area has been straightened and curbing placed. Repairs were finished on the dam at the mouth of the canyon.

Protection

Inspection was made of the Spider rock area, and a patrol was made to three turkey hunts and other sites as well as a reconnaissance of this canyon to check for antiquities and violations. A trip was also made into the "Red rock" area south of Rito Frijoles for the same purpose.

Travel

Travel figures remain well above last year, though we had a check in February. This month we had 67 visitors register as in 1939.

Visitors

A group of 24 children and their teacher from the Santa Fe Valley School at Solana Ardenzo camped two nights in the area and were given campfire lectures by the Superintendent and Ranger Morris.

Canyon de Chelly National Monument
Chinle, Arizona

March 25, 1949

MEMORANDUM for the Regional Director, Region three.

The following is a report of activities at Canyon de Chelly National Monument during the month of March, 1949.

Weather Conditions

Weather has been about normal for the month with a maximum temperature of 74 degrees and a minimum of 16. Cold nights have thus far kept the canyon streams within their channels and the expected high waters are being taken care of by gradual run-off. A rain or stretch of real warm weather would precipitate a flood. Rainfall during the month totaled .56 inch. Grass is getting green and bushes are beginning to leaf on the sunny slopes.

Administration

Eight days of annual leave were taken by the Superintendent due to the death of his father and serious illness of his mother.

Maintenance

Signs were repainted and the large sign at Garcia's store removed and brought to headquarters for repainting and installing after road changes are made at the junction. Work has progressed on the roads as weather permitted. The parking area has been straightened and curbing placed. repairs were finished on the dam at the mouth of the canyon.

Protection

Inspection was made of the Spider rock area, and a patrol trip was made to Three turkey house and other sites as well as a reconnaisance of slim canyon to check for antiquities act violations. A trip was also made into the "Red rock" area south of Many Farms for the same purpose.

Travel

Travel figures remain well above 1948 even though we drew a blank in February. This month we had 69 visitors coming in 19 cars.

Visitors

A group of 24 children and their instructors from the Verde Valley School at Sedona Arizona camped two nights in the area and were given campfire lectures by the Superintendent and Ranger Morris.

General

The Navajo Indians have nominated two candidates for the office of tribal delegate from this district. For the first time, a "Canyon" Navajo has been nominated. He is Joe M. Carroll, a good man and a firm friend of the National Park Service. We hope he is chosen.

March 28, 1940

Information for the Regional Director
Region Three, National P[illegible] Meredith M. Guillot
Santa Fe, New Mexico Superintendent

There follows the narrative report for Canyon de Chelly National Monument for the month of March, 1940:

Visitors. There were about four hundred and sixty visitors to Canyon de Chelly National Monument during the month of March, making a total of six thousand six hundred for the travel year ending June 30, one thousand four hundred visitors for the fiscal year.

Weather. As it has been during the entire winter, the month of March has been extremely warm and very dry, with only about .75 precipitations. March winds started in a little late in the month, but at this writing are going strong.

Flora and Fauna. The mild winter has been fine for the deer and other animals. The vegetation, as a result, is in good condition, but should have more moisture than we usually get.

Roads and Trails. Roads and trails have been kept in good condition for the entire winter.

Information Pamphlets. No information pamphlets have been distributed during March. Still have about seven hundred on hand.

Very respectfully,

Hayes S. Kerr
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
SOUTHWESTERN NATIONAL MONUMENTS
~~COOLIDGE, ARIZONA~~
Capulin, New Mexico

March 25, 1949

MEMORANDUM for the Regional Director
Region Three, National Park Service
Santa Fe, New Mexico

There follows the narrative report for Capulin Mountain National Monument for the month of March, 1949:

Visitors: There were about four hundred and fifty visitors to Capulin Mountain National Monument during the month of March, making a total of six thousand six hundred for the travel year and twenty six thousand four hundred visitors for the fiscal year.

Weather: As it has been during the entire winter, the month of March has been extremely warm and very dry, with only about .75 precipitation. March winds started in a little late in the month, but at this writing are going strong.

Flora and Fauna: The mild winter has been fine for the deer and other animals. The vegetation so far, is in good condition, but should have more moisture bef re summer weather.

Roads and Trails: Roads and trails have been kept in top condition for the entire winter.

Information pamphlets: No information pamphlets have been distributed during March. Still have about seven hundred on hand.

Very respectfully,

Homer J. Farr
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

March 25, 1949.

MEMORANDUM for the Regional Director,
Region Three.

There follows the narrative report for Casa Grande National Monument for March 1949.

General: The weather this month has been delightful and the desert flowers are beginning to put in their appearance. We have heard many comments from our visitors regarding the display of California Poppies on Picacho Peaks. Very few cactus are in bloom yet but next month should find them in full flower. The desert is really quite attractive this year due to recent rains and warm weather.

Weather: Almost without exception, the days have been perfect during March. The maximum was 87 with a low maximum of 65 and a minimum of 31. Only 3 days had a maximum temperature under 70. We had .37 inches of rain.

Visitors: March 1949 - 3361: March 1948 - 4333: This is a drop of 99% from March of last year. Travel year to date 1949 - 19,540: Travel year to date 1949 - 24,775.

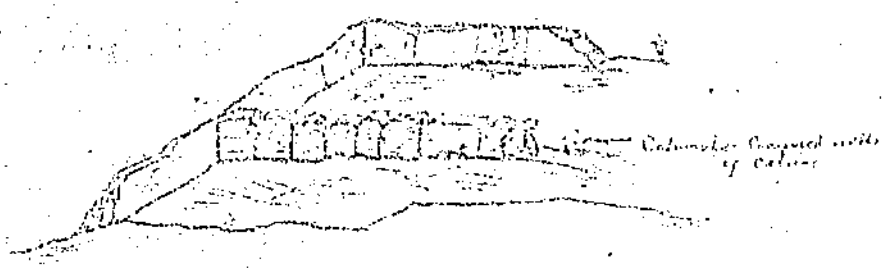
Interpretive Services: Of the 3361 visitors to the area, 2331 made the trip to the ruins in 193 groups averaging 65.6 minutes per trip. 1030 people were here for a quick look but did not go through the ruins.

N.P.S. Visitors and Visitors of Note:

February 28 - Mr. and Mrs. D.M. Coughlan of Demarest, N.J. These people are friends of Mr. Drury's.
March 1 - Mr. Merlin L. Payne and Mr. Duncan Howeth of Grand Canyon were here to pick up the Auto-Car and trailer for Grand Canyon National Park.
March 4 - Dr. Emil Haury of the University of Arizona and a group of archeology students were here for a short visit.
March 11 - Ranger Sam Orem of Tonto National Monument.
March 25 - Archeologist and Mrs. Schroeder of Montezuma Well.

RECEIVED MAR 28 1949 REGIONAL PARK SERVICE REGION THREE OFFICE

Administration and Protection: Some time was spent by the Superintendent in securing data on prevailing wage rates for the wage board. Ten requests for information were answered and office work has been kept current.



Museum Activities: We have just started on a project of preparing display panels for our multiplex unit. The first panel has been completed and it features pictures and a location map of the various Park Service areas of New Mexico. The next panel will be devoted to the parks and monuments of Arizona.

Maintenance: The maintenance man spent several days in overhauling equipment for the stabilization unit. Some work was done on getting the coolers ready for operation this coming summer.

Nature Notes: A pair of Brown Thrashers are nesting in one of the Ohollas in front of the museum and in a short time the young birds should provide another feature of interest for our visitors.

An interesting construction method was noted upon viewing the outer side of Compound "D". Evidently a very heavy log was employed to offset the pressure exerted by the prehistoric masons. Variation

A.T. Bicknell,
Superintendent.

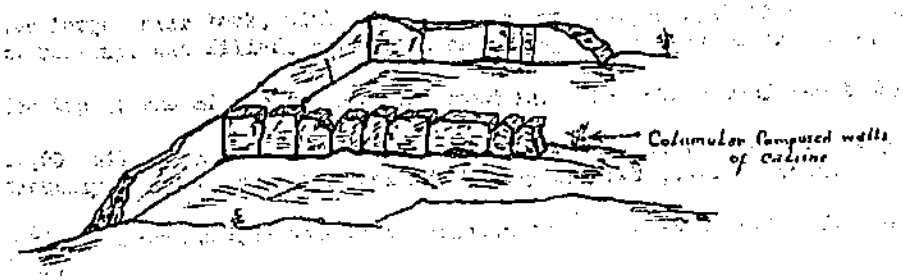
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

March, 25, 1949

MEMORANDUM for the regional Director:
Region Three



There follows the narrative report for the mobile stabilization unit for March, 1949.

The stabilization project at Compound "B" has been moving along about as fast as could be expected. Several of the experiments with caliche have proven unsatisfactory, yet the elimination of these have finally yielded a satesfactory method. We are now able to completely cover about fifty yards of wall per day. The average wall is three feet high, and two to four feet thick. This requires a considerable amount of caliche.

Approximately half of the compound walls have been stabilized, and the remainder should not require more than three more weeks.

An interesting construction method was noted when cleaning the outer walls of compound "B". Evidently a very heavy ;cr aged;batch of caliche was utilized by the prehistoric masons. Verticle columns of caliche measuring three and a half feet long; two feet thick; andthree feet high were set up side by side. Some m exceptional columns were over six feet long. The walls; thus constructed; had many joints or faults yet have withstood the erosional elements for a good many years.

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Chaco Canyon NATIONAL MONUMENT

Bloomfield, New Mexico

March 26, 1942

MEMORANDUM for the Regional Director, Region Three,
National Park Service.

There follows the report of activities in Chaco Canyon National Monument for the month of March, 1942.

Although the approach roads have been in poor shape most of the month, 19 visitors came into the area. They came from:- California - 1 car, 2 visitors, and New Mexico - 4 cars, 17 visitors. Four ruins trips were made with a total of 19 visitors; and four parties, a total of 15 persons, spent some time in the museum. The superintendent spent 6 hours and 5 minutes with these people.

The coolest recorded this month was 13 degrees on the 9th of the month, and the warmest was 75 degrees Fahrenheit on the 19th of March. There was a total precipitation of .26 of an inch.

The north approach road has been rough but passable throughout the month. The south approach road, now on regular maintenance, was bladed this week. The monument roads are in goodshape. The road at the bottom of the hill was widened by a couple of transient 14 ton caterpillar bulldozers. Also, they rebuilt a dike (to protect the road) about 800 yards long and cleaned and deepened a trench about 25 feet wide and 200 yards long. Further, the upper crossing was put in repair so that it is hoped that one will not slide off in a deep hole in wet weather.

The large water tank, with warm weather, was coated with "fish oil" to prevent rusting, was filled, presented no leaks, and is now in full use.

The top of one of the cess pools caved in. The entire roof had to be rebuilt.

15,000 willow plants were brought in on the 16th of the month. They have exceptionally large roots. The men are busily engaged planting them.

National Park Service visitors included John M. Davis, Gordon Vivian and Irik Read.

The Trader reports that he has installed new modern bathroom fixtures in

his residence, has repainted the kitchen and dining rooms, has installed a new stove in the kitchen, and has bought and installed a new gas pump to replace the one loaned to him by the gasoline company.

Projects for the ensuing month:- finish the planting, do some soil erosion control work on the mesa and hope that the permanent ranger reports for duty for the month of March.

Irving McNeil, Jr.
Superintendent

Weather. Precipitation moved off to the east of us in late March, with a return to the weather of January and February. Irrigation of 80 degrees was needed on the 19th and 20th. Snow fell on the 25th. Most of the rest of Christopher's public has waited and hopefully and hoping storms continue to run.

Inspections & Visitors. Assistant Director Coleman and Regional Director Tillotson inspected the area on the 25th. Mr. Walton Smith, artist, who has painted several giant murals on Christopher, visited on February 14. Mr. Mackenzie, Highway Engineer, inspected the road and trail system on the 26th.

Insect Pine Infestation. Considerable time was spent working over the fire plan for the coming year. Report will be submitted following further gathering of data.

Communications. Radio contact with Segrave and Pecan Pipe Station has been established for several weeks pending completion of the installation of crystals and coil in the conversion of the set from the 6370 kc to the 5400 kc lookup.

Maintenance. An unusual amount of rock has fallen into the roads and trails. Four large rocks on the Pipeline horse trails require blasting.

About March 6, as the snow was melting rapidly, a rock cliff fell over the Pipeline trail to the lookout. Much work and blasting will be required to build a new trail through this rock, so that we can get a horse to the fire lookout with supplies. We were grateful to receive a small additional allotment to hire a man to help handle clean off the trails. We hope to secure a little more money to overcome this lack "act of God".

Improvements & Equipment. Snow has melted off the cave construction tool enough that work here could be resumed in for a week. Other equipment needs are in fair condition.

Special Activities. March 3, Anniversary of the Interior Department, was given notice in local papers and over three radio networks in the vicinity. No special guide service was provided on the monument on this day as there were sixty persons.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Chiricahua National Monument
Dos Cabezas, Arizona.

March 25, 1949.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Chiricahua National Monument for the month of March.

Weather. Precipitation eased off to .84 of an inch this month, quite a contrast to the weather of January and February. A maximum temperature reading of 80 degrees was reached on the 19th and a minimum of 24 degrees on the 27th. Much of the snow on Chiricahua's peaks has melted and Rhyolite and Bonita Canyon streams continue to run.

Inspections & Visitors. Assistant Director Tolson and Regional Director Tillotson inspected the area on the 25th. Mr. Weldon Heald, writer, who has published several short articles on Chiricahua, visited on February 26. Mr. Sam Hendricks, Highway Engineer, inspected the road and trail system on the 22nd.

Forest Fire Protection. Considerable time was spent working over the fire plan for the coming year. Report will be submitted following further gathering of data.

Communications. Radio contact with Saguaro and Organ Pipe Cactus has been curtailed for several weeks pending completion of the installation of crystals and coil in the conversion of the set from the 2770 kc to the 2150 kc hookup.

Maintenance. An unusual amount of rock has fallen into the roads and trails. Four large rocks on the visitor horse trails require blasting.

About March 8, as the snow was melting rapidly, a rock cliff fell over the Sugar Loaf trail to the Lookout. Much work and blasting will be required to build a new trail through this rock, so that we can get a burro to the fire lookout with supplies. We were grateful to receive a small additional allotment to hire a man to help Marble clean off the trails. We hope to secure a little more money to overcome this last "Act of God-?".

Approaches to Monument. Snow has melted off the Cave Creek-Rodeo road enough that cars have been traveling it for a week. Other approach roads are in fair condition.

Special Publicity. March 3, Anniversary of the Interior Department, was given notice in local papers and over three radio networks in the vicinity. Special guide service was provided at the monument on this day to more than sixty persons.

Travel. Clear weather again brought in heavy visitation. 1,324 persons in 333 cars entered the area as compared to 838 for March, 1947. Travel to date shows an increase of 8% over that of last year.

Interpretation. Two auto caravan trips with 10 persons for three hours and one nature hike with 35 persons for two hours were conducted this month. 1,183 persons were contacted at the museum and approximately 100 were given additional interpretation at Massai Point.

Clair V. Cooke,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

El Morro NATIONAL MONUMENT

Ramah, New Mexico

March 26, 19 49

MEMORANDUM for the Regional Director, Region Three.

There follows the report of activities in El Morro National Monument for the month of March, 1949.

WEATHER: Except for a few raw, windy days we have enjoyed some very pleasant spring weather for El Morro. The maximum temperature reached 61 degrees and the minimum dropped no lower than 9 degrees above zero. Only 5½ inches of snow fell and the precipitation amounted to .55 of an inch.

TRAVEL: After registering a goose egg for the same period last year, we are proud to report that 52 visitors arrived during this March Travel Month. Ten people made the conducted tour of the inscriptions. Six arrived for information only and 33 were contacted by the HSEP during the Superintendent's many absences. Three visitors arrived on March 19 in two airplanes. The first plane, a BT-13, made a forced landing just north of the monument boundary. The metal tip and three inches of wood parted company with the propeller at 9000 feet. The vibration was so great that the pilot [illegible] to land without power and consequently he had very little choice of landing strips. Why he didnt blow a tire in that field of malpais is still a mystery. A new prop was flown in from Kingman by a BT-19, landing on the El Morro Emergency field. Hotel accomadation being a little rough at El Morro, we had three guests for the night, and the next morning witnessed an exciting take off from a pile of malpais.

INTERPRETIVE SERVICES: Two illustrated talks of El Morro & The Paricutin Volcano were given to the El Morro School and the Community of La Mance.

APPROACH ROADS: Both roads have been passable since March 5, although t the "Thaw Ruts" are frightening to the out-of-state visitor.

Preliminary work has started on the road improvement east of the monument, with the road-line soil tests and location of surface material completed. I am afraid I wont be here to see the actual construction begin, but fromthese early signs of activity I feel that this road will finally be improved this summer.

GENERAL: This month has been a busy one, mainly with the job of bringing everything in the office up to date. Inspite of the disposal of a great many useless papers the one cabinet file couldnt take it and it was necessary to make a trip to Santa Fe to get another cabinet. With the snow melting very rapidly the spring cleanup of the grounds is almost complete. Two coats of enamel were put on the woodwork of the kitchen.

Next week we welcome John and Ruth Aubuchon to El Morro and we hope that they enjoy their tour of duty here as much as we have. As time draws nearer to our leaving the "Rock", we think of many pleasant things we will miss, but the problem of raising a family so far from school and doctors has made our transfer necessary. However we are looking forward to the move and will probably have the same affection for, and pride in, Arches, weve had at El Morro. Buena Suerte!

Bates K. Wilson
Superintendent.

Gran Quivira National Monument
Gran Quivira, New Mexico

March 25, 1949

MEMORANDUM for the Regional Director, Region Three.

The following is a report of activities at Gran Quivira for the month of March 1949.

General. Favorable weather conditions this month coupled with good entrance roads have lead to good Sunday travel to the area. Visitors from Belen, Socorro and Carrizozo are more numerous than at this time last year. Sandstorms on March 23 and 25 were the first for the spring and will discourage visitors over the Carrizozo approach.

Weather. Very good most of the month. Total moisture amounted to .58 inches. High temperature for the period was 71° on the 19th.

Special Activities. On March 16 the superintendent contacted several pump supply houses in Albuquerque to obtain a preliminary estimate for changing the deep well from the present gasoline motor to an automatic electric motor. The necessity of using a single-phase motor on REA power causes a considerable increase in the cost of the 5-hp motor. Information gathered will be incorporated into a PCP sheet as soon as additional information requested from the Myers Pump Co. is received.

On Feb. 28 the superintendent and Rev. Chaney contacted Dick Jarrett, local rancher, regarding the installation of a telephone in Rev. Chaney's residence. Due to the present state of confusion regarding the status of the line no decision could be reached.

Inspections. Mr. Davis spent several hours in the area on Feb. 14 reviewing administrative matters, and inspecting the work accomplished since his last visit.

Maintenance. Considerable touch-up painting was accomplished on buildings during the unprecedented lull in the March winds.

A coat of Kem-Tone was applied to the living room and hall of the residence. Results were very satisfactory.

Both the pickup and the stake body trucks required a trip to the garage. It was found necessary to reline the brakes on the stake truck. New king pins and rear brake cylinder were put on the pickup.

Repair and Rehabilitation. The floor of the exhibit room was covered with asphalt tile. This completed the work on the building which is fortunate as it also completed the repair and rehabilitation funds.

Approaches to Monument. Both approach roads were in fair to good condition throughout the month, with the exception of March 1 to 4, when a snow storm made them virtually impassable.

Interpretive Service. 28 parties totaling 95 visitors were guide through the ruins, average trip time 37 min.

Increase in Travel. Good roads and pleasant Sundays gave this month a big increase over the same period last year. Approximately 1/4 of the visitors were from out-of-state.

	CARS	VISITORS
March 1949	47	128
March 1948	26	74
Increase	21	54
Percent Increase	80.8%	72.9%
This Travel Year	269	725
Last Travel Year	170	482
Increase	99	243
Percent Increase	58.2%	50.4%

Forest Fire Protection and Building Fire Protection. During the month the superintendent prepared and submitted Forest Fire and Building Fire Control Plans.

William L. Bowen,
Superintendent.

GREAT SAND DUNES NATIONAL MONUMENT
MOSCA, COLORADO

March 26, 1949

MEMORANDUM for the Regional Director,
Region Three.

There follows the report of activities in Great Sand Dunes National Monument for March, 1949.

WEATHER. Spring is trying to reach the San Luis Valley, but for every two nice days, there appears one day of winter to set everything back. Spring will be officially recognized at this area when the water line thaws. Chipmunks, birds, bees and flies do not necessarily mean anything, at least not Spring.

The minimum of 12 degrees was registered on March 14. The maximum of 66 degrees was reached on March 19. The high minimum was 35 on March 20. The low maximum was 30 on February 26.

Snow fell on February 26,27,28; March 1,7,8,13,17,20,23,24 and 25. Winds blew very strongly on February 26 and 27; March 11,14,19,22 and 23.

During this report period there were 11 cloudy days; 4 partly cloudy and 13 clear days.

Herkimer the chipmunk made his earliest appearance (in 3 years) on March 5.

TRAVEL. Four hundred twenty visitors in one hundred sixteen cars visited the Sand Dunes during this report period. Ten states and Switzerland were represented. Eleven days show no visitors to the area. Two written requests were answered. Extremely heavy travel occurred on Sundays. One hundred twenty people took advantage of the picnic areas.

INCREASE IN TRAVEL. For March, 1948 there were 61 cars and 102 visitors.

CONTACT. Contact with visitors was done on four Sundays; 85 cars were contacted, with a total of 350 visitors. Contact time amounted to fourteen hours, ten minutes.

ROADS. The approach road was graded to the headquarters area, by the State grader on March 5. It remained in good condition for several days, and then frost bubbles appeared and are now good-sized chuckholes.

The road from Mosca Spring to the lower picnic area is rough; the monument approach road is in good condition.

GRADER. Several warm days allowed the Superintendent to try out his new "toy". However, it was necessary to have the gear shift lever ball properly welded at the Heide garage, in order that he might be able to shift gears to move the grader. A few pointers were learned from the man operating the State grader and then some ditching was accomplished between headquarters and Mosca spring.

Learning by doing, is usually the best way, but often it takes a long time. More road work will be done as soon as weather again permits.

LIGHT PLANTS. The No.2 plant was repaired and is in operation again. Both plants are functioning satisfactorily.

ACTIVITIES. Usual routine duties, hauling water, propane gas, white gasoline and snow removal (10 days), keeping office matters current and contact on Sundays, kept the Superintendent busy this report period.

Cleaned the picnic area after heavy visitation and after one early picnic by the Antonito School with 35 children.

Worked on the water system and cleaned out all silt in the lower tank. Put new faucet seats in all hot and cold faucets in residence in preparation for long awaited flow of water. At least its a forward step.

Replaced faucet on Mosca spring water tap and replaced the drain valve on lower picnic area water supply.

Refinished the speed limit signs on monument approach road.

Contacted Mr. A.W. Graves of Monte Vista, who is interested in obtaining a horse concession permit at this area. This matter is still pending.

Mr. Jack Williams removed his horses from the monument on March 15, but at this writing they are back again.

Sent to the Automobile Club of Southern California, information regarding recreation, camping and picnicking facilities at this area.

Received and reviewed the Naturalist Monthly Report, Region Three, November, 1948.

PROJECTS FOR ENSUING MONTH. Correct and make suggestions on a photostat copy of the latest map on this area to be used on the next informational circular, which was received from Acting Chief of Lands and Recreational Planning Richey, Directors Office.

Hope for decent weather to thaw water line and make possible more road work being accomplished.

Ted C. Sowers,
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Montezuma Castle National Monument
Camp Verde, Arizona

March 24, 1949.

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly report of activities at Montezuma Castle National Monument for the month of March, 1949.

Visitors this month to Castle and Well - 1437; travel year to date - 7104.

Weather Beginning on March 1 this monument was one of the cooperative stations selected to report weather dataweekly. Maximum and minimum temperatures and the amount of precipitation is reported as formerly and the new forms provide space for recording the hours precipitation was observed and the effect of weather on crops, farm operations, etc.

Administration A supply of yellow 5¢ theater type tickets have been received. These are to be used in collecting the 5¢ tax from children between the ages of 12 and 18 years in educational groups when fees are waived. They will replace the complimentary Admission forms 10-724 which had to be filled out with a carbon copy each time a 5¢ tax collection is made.

Personnel The transfer of Superintendent Hastings to Walnut Canyon National Monument will become effective April 11 and that of Ranger Leding to the same area a few weeks later. Hastings will be replaced by Sanitary Engineer John O. Cook from Grand Canyon and Leding by Warehousman-Truck Driver James N. Clancy from Grand Canyon.

Hastings received a renewal of his First Aid Instructor's card as a result of classes taught at Camp Verde beginning in November.

Castle Store On March 2 Superintendent Earl Jackson began selling the furniture and fixtures from the Castle Store. The building was sold to Mr. N. W. Wingfield of Camp Verde who sold it to Mr. James Reeves. The building is to be torn down and the site restored to its original appearance by May 1. Operation of the Castle Store was terminated in August, 1942 and since that time the building has deteriorated considerably.

Repairs and Improvements Two laborers were hired to assist in repairing damage to our roads and trails from last winter's severe weather. One barrel of bitumuls was used but part of the work is unsatisfactory, perhaps because it is still too cold for the tar to stick properly. Another barrel of bitumuls is being ordered to complete the work.

Paul Watts, the local road supervisor for Yavapai County extended

splendid cooperation in supplying eight dump truck loads of gravel. Two were used on the trail in front of the Castle and the others on the residence and picnic ground road. The County then sent in a maintainer to spread the gravel and grade all of our dirt roads.

A coating of raw linseed oil was given to the Castle ladders and to all wooden signs on the area.

Visitors There were 308 visitors in 120 cars to Montezuma Well and 1049 visitors in 303 cars to Montezuma Castle. Tickets sold, 307; tax only, 21; children who climbed free, 23.

Contacts There were 82 trips through the Castle for 351 visitors; 505 visitors saw the museum in 125 groups; 211 visitors received information outside the ruins or museum. Total contact hours 110; Hastings 34; Leding, 43; Schroeder, 33 at the Castle.

Accessions Two old rifles were given to the monument by Superintendent Earl Jackson. These had been in the Castle Store for several years. One is a breech-loading Winchester, Model 1870 that was found in a trapper's cabin in the Doctor Rock Country, Del Norte County, California. The other is a lever action Winchester, model 1876. This donation is thoroughly appreciated.

Publications Word was received that work on the 32 - 48 page booklet on this monument was to be resumed and must be expedited with the addition of 3,375 to 7,375 words. By using the most of four days considerable material was added to that previously submitted.

Museum Exhibits Two 6 by 9 inch pictures of the Castle in a single frame have been placed in the museum. The pictures were taken from approximately the same angle, one in 1902 and the other in 1948. They are intended to help visitors understand how little the Castle has been altered by repairs.

The following is Archeologist Schroeder's report from Montezuma Well.

Administration Daily duty was maintained except for lieu days and as follows: 8⅛ days at the Castle and 1½ days of annual leave.

The area underwent a spring check-up. All signs were given a coat of linseed oil, a break in the fence was repaired, fallen limbs were cleared off the picnic ground, 600 feet of dangling wire leading to the old cabins were taken down, loose trail signs were reset, fuel oil was removed from the museum heater, and attempts were made to repair bad leaks in the ditch.

The septic tank failed again this month. The drainage field was dug up and it was found that two pipes were placed by the contractor so that the ends emptied into the old limestone Indian ditch, and the third pipe was on an up hill grade so that water could not escape anywhere. Two laborers were hired and the pipes were pulled up and cleaned out. Gravel was set in under the pipes and large pits were dug at the pipe ends and filled with gravel to aid absorption. Pipes were relaid on a down grade and covered. No trouble since.

All cabinet work and shelving in the museum was completed. Sanding and varnishing remain. The old hose was tested for fire purposes and two ~~two~~ 25 foot lengths were found with many leaks.

Outside aid. Those farmers who use water from the Well spent two days cleaning out the ditch and repairing remaining leaks. The telephone company pulled up a wire which tore loose from an insulator last month. The county graded the road from the museum to the Well parking area, its first renovation in years. The leased land was seeded with oats and is beginning to take on a green cover.

Mr. Blevins has completed dismantling and hauling off the buildings according to the contract awarded him. He has one more load of clean up which he will haul off this month.

Talks Two talks were given, one to a group of students at the Verde Valley School at Sedona on the geology of the Verde Valley and another at the Clarkdale Garden Club on plants of Montezuma Well which was illustrated with kodachrome slides.

Visitors Dick Shutler and Bill Adams, who are excavating a possible early man site south of Sedona under the Museum of Northern Arizona, visited the Well March 11.

Paul Spangle brought down the final report on the plant survey on his visit of March 13.

H. Charbonneau, the diver who made the descent into the Well last year, dropped in for a visit March 20.

Homer F. Hastings,
Superintendent.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

ORGAN PIPE CACTUS NATIONAL MONUMENT
P. O. Box 38, Ajo, Arizona

March 25, 1949.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of March, 1949.

Weather

March weather was normal with no precipitation recorded, a 32 minimum temperature on March 24, and a maximum of 89 on March 18. The soil dried out considerably and the wild flower display is being curtailed accordingly.

Special Activities

Clarence Aldous, Biologist, Fish and Wildlife Service, spent February 28 to March 15 conducting observations in Organ Pipe and the Cabeza Prieta Refuge on wildlife migration studies. Several days were spent by the superintendent and Ranger Bean in the field with him.

March 18 and 19 were spent with Engineer Hendricks of the Regional Office going over road maintenance work and future trail work.

Superintendent and Bean were able to make several exploration trips this month into little known areas of the monument.

Research and Observations

During the field trips little wildlife was sighted but sign indicates a very gratifying number of bighorn sheep on all our mountain ranges.

Peccaries were sighted several times and there is an abundance of tracks over all the monument.

Valuable bird information is being gathered by Collaborator Max Hensley in his research work.

Mail Facilities

Notice of an examination for a Postmaster at Lukeville has been given by the Postoffice Department.

Travel

March 20 was the largest travel day ever recorded when 1712 persons crossed the International Border.

Equipment

Three car radios were received from Olympic National Park but the usefulness is still in doubt until they can be checked. It is hoped we will be able to make at least one from the three so we may talk to headquarters when in trouble in the field.

William R. Supernaugh,
Superintendent.

Saguaro National Monument

March 25, 1949.

MEMORANDUM for the Regional Director,
Region Three.

There follows the monthly narrative report of activities at Saguaro National Monument for March, 1949.

General.

Ideal weather conditions prevailed during most of March, with the exception of one or two days when fresh to strong wind occured. Minimum temperatures stayed well above freezing and maximum temperatures varied from the middle 70's to 80's. Light precipitation amounting to less than .01 of an inch of rain fell on March 18. Travel was rather brisk during the early part of the month, but tapered off from about the 15th to date. This decline in travel is thought to be partly the result of large crowds being attracted to big league baseball games, held at Randolph Park in Tucson.

The wildflower display has been less than was anticipated so far, several annuals have made their appearance that were not in evidence last year. The best wildflower display in this general vicinity has been reported near Pinacho Peak on Highway 84, where many acres of poppies in profusion are outstanding.

Some 168 persons visited Saguaro on March 3, " Open house day ", in commemoration of the 100th Anniversary of the Interior Department. Travel for the day was stimulated by spot announcements on Radio KVOA and news releases in the local papers.

Special Activities.

The superintendent made an inspection trip to Manning Camp on March 11. The Madrona-Manning Camp Trail is in good condition for the most part and entirely free of snow. An attempt was made to ride over to Spud Rock Ranger Station, but we encountered 3 to 4 foot snow drifts on the north slopes and had to turn back.

Inspections.

Mr. Sam Hendricks, Regional Highway Engineer, inspected roads and trails March 20 and 21. Mr. Hendricks made several recommendations relative to road and trail maintenance, to further improve their appearance and drainage efficiency.

General Publicity.

Newspaper clippings of an article appearing in the March 13 issue of the Arizona Daily Star, relative in part to Saguaro, were forwarded to the Regional Director.

Maintenance.

Maintenance work on the lower part of the Madrona-Grass Shack Trail was resumed during the latter part of the month. This work involves some relocation so that we may not be able to complete it, until additional trail laborers are employed in May.

New Construction.

The blacksmith shop at Madrona Ranger Station was completed on March 17. Messrs. Stansberry and Barney did a credible job of construction in view of the fact that most of the materials used were salvage. The forge, anvil, tools, and work bench are now under cover, a much needed improvement and will make for greater efficiency in future operations.

Roads.

The Broadway approach road was graded once during the month, it is in fair condition at this writing.

The Loop Road through the Cactus Forest is in good condition for the most part, as a result of grading during February.

New signs were made and installed around the Loop Road, designating it as a "One Way Road". This reduces the possibility of accidents and has resulted in much favorable comment by numerous visitors.

Cooperating Non-Government Agencies.

Dr. Alice Boyle, Patholigist, member of the faculty University of Arizona, inspected the Saguaro stand on March 17. Dr. Boyle expressed the opinion that no serious damage was sustained by the Saguaros, resulting from freezing temperatures in January. Several plants inspected had vertical splits along the ridges, but were in the process of healing by exudation of plant liquids. Dr. Boyle also contributed three, nine year old Saguaro seedlings for use in the arboretum. These plants are approximately six inches high and were grown in the green house at the University.

Cooperating Government Agencies.

Milo S. James and M. R. Isaacson of the Soil Conservation Service, made an inspection of soil and moisture conditions in the cactus area, for comparative analysis of studies being made in this general vicinity.

Interpretive Services.

A total of 1827 people in 583 parties were given interpretive services at headquarters, for an average of 14 minutes per party.

In addition to the regular daily interpretive services given at headquarters, Ranger M. H. Frost Sr. gave two lectures illustrated with kodachrome slides on March 9 for school groups. One at the Roosevelt School with 60 in attendance and the other at the Ritchie School (all Indian) with 100 in attendance. Special interpretive services were also provided at headquarters for some 54 youngsters from the Jefferson School.

Exhibits.

New labels furnished by the Regional Office were received and installed in the arboretum. These labels are large enough to be read at some distance, so that our visitors are able identify the plants without stepping inside the perimeter; a real improvement.

Increase Or Decrease in Travel.

Travel shows a decrease of 833 persons as compared to last month, also a decrease of 359 persons compared to the corresponding month of 1948. A total of 2990 persons in 943 cars visited Saguaro during the month. Total visitors for the travel year, 15,149

Observations.

An Arizona Porcupine (Erethizon epixanthum couesi Mearns) was observed near the upper part of the Loop Road on March 3, this appears to be the first observation record for the monument at this elevation.

Forest Fire Protection.

The fire plan and the step-up plan were revised for the 1949 fire season, they will be submitted to the Regional Director for approval within the next week.

Deaths.

The entire community was saddened by the death of Dr. Charles Voorhies, eminent scientist and long time member of the faculty at the University of Arizona. Dr. Voorhies was considered a good friend of the Park Service, having contributed a wealth of material in the field of wildlife conservation. The Park Service was represented at his funeral in Tucson, by Ranger Marvin H. Frost Sr., who attended in uniform.

Wupatki

Flagstaff, Arizona

March 26 49

MEMORANDUM for the Regional Director, Region Three.

Following is a report of activities affecting Sunset Crater National Monument during the month of March 1949:

Weather: Weather for the most part was clear although temperatures were not high enough to melt the snow drifts layed down by the heavy storms of last winter. An attempt was made to reach the monument from the Wupatki road only to be stopped by snow drifts several miles from the monument boundary. Observations reveal that the monument will be open to travel within a few days, providing we have no more snow.

David J. Jones
David J. Jones
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Tonto National Monument
Roosevelt, Arizona

March 25, 1949

MEMORANDUM for the Regional Director, Region Three.

Following is a report of activities at Tonto National Monument for the month of March, 1949.

Weather. Bright and warm most of the month. Up to 80° at noon March 19. Cold again 23 - 24 -25. Rain on 25th.

Approaches to Monument. Same as ever. The Arizona State-wide Highway Planning Committee recommends paving entire Apache Trail. As the Highway Department is to open bids March 29 for paving 6 miles beginning at Apache Junction, this has gone past the discussion stage. Special reports on this have been mailed.

Interpretation. Museum open all month. Interior Department Open House activities were on a local scale. We rounded up some of our neighbors who had not been up for years. The local school, 23 pupils, 2 teachers and 6 or 8 parents had a picnic here and a good trip through the cliff dwellings as a group.

The Dons Club of Phoenix made their annual trek up the Apache Trail, with about 500 visitors. Since all these could not possibly park on our terrace (especially on a busy Sunday), a planned trip to Tonto was cancelled. The Superintendent met the group at Roosevelt and gave them a brief talk on the Salado Indians, over the Dons' P. A. system. A separate report on this was submitted.

The Big Bend movie reels were shown to Roosevelt community. The Park Service and the Forest Service here have cooperated with the school to show movies about every 2 weeks this winter, which efforts have been well received. The Tonto staff and families attended nearly all of the movies.

Travel. 2696 visitors in 749 cars and 40 tour cars came to Tonto this month. This exceeds February travel this year, and is an all time record for March. March 1948 had 2295 visitors. Reports of decreased travel in the Phoenix-Tucson area had led us to expect fewer people here, but we actually had about 16% more than a year ago.

Ranger Service. Seasonal Ranger Sam Oren was transferred to Laborer-leadman as of March 21, due to running out of funds in the seasonal ranger allotment.

RECEIVED
MAR 28 1949
NATIONAL PARK SERVICE
REGION THREE OFFICE

Visitors. Archaeologist Aide Ray Rixey and family, from Casa Grande. Mr. Alden Dow, architect from Midland, Michigan, who is here to design a Civic Center for Phoenix.

Propane System. Installation of copper tubing in the houses, for the propane system, was completed and accepted as of March 17, 40.

Wildlife. The first Gila Monster was seen on March 18, a bit early. Lizards are out. A gray fox was sighted on the entrance road. The beginning of a fine wildflower season is apparent, with California poppies, Desert Hyacinth, Lupine and Larkspur blooming, and many cactus budding. The Hooded Oriole has returned. A Palmers Thrasher has hatched out 2 young already. It must be spring.

General. Sam Orem is progressing with the job of lowering and covering the water line between the spring and the houses. This was the source of our celebrated hot water drinking fountain.

Supt. and Mrs. Sharp will be in Denver the first two or three weeks of April, as it is necessary for Mrs. Sharp to have a mastoid operation very soon. Am glad that Sam Orem will be able to stay on during my absence, as reports from Phoenix indicate heavy travel for April, with many requests for reservations coming in to resorts there.

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Tumacacori National Monument
Tumacacori, Arizona

March 26, 1949.

MEMORANDUM for the Regional Director,
Region Three.

Follows the monthly narrative report for Tumacacori National Monument for the month of March, 1949:

WEATHER CONDITIONS: The month was quite dry, with only .08 of an inch precipitation. The earth is very dry, and winter predictions of a "good Spring", based on heavy January rainfall, have tapered off into a pessimistic silence. Irrigation has been necessary now for several weeks.

INCREASE OR DECREASE IN TRAVEL: Visitors numbered 8,983, which figure has been exceeded once, by the March, 1948 total of 9,258. Visitors arrived in 845 cars.

INTERPRETIVE SERVICE: 1389 persons went on 223 guided trips through the mission church and grounds, receiving an average of 34.7 minutes per trip. 2,813 persons received combined information and interpretation service, and 2,806 saw the museum and patio garden.

VISITORS: March 1 - Mr. and Mrs. R. M. Craven, friends of the NPS. He is a well known artist.
March 5 - Sup't and Mrs. Sam King, of Saguaro, and friends.
March 8 - Frederick Simpich, Ass't. Editor, Nat'l Geographic.
March 17 - Rancho del Rio Guest Ranch, of Tucson, Brought 56.
March 22 - John N. Brennan, Manager, Department of Labor, Arizona Industrial Commission.

PUBLICITY: On March 24 E.S. Newcomer, photographer, and Charles Griff, reporter, for the Arizona Republic, were in getting pix and data for an "Ambos Nogales" news story which will include Tumacacori.
The National Geographic may use some shots of Tumacacori for inclusion in a story on Sonora, to be written by Frederick Simpich.

MUSEUM AND EDUCATION: A considerable number of 3 x 5" plant labels were typed up, dipped in spar varnish, dried, then mounted in metal holders on wooden stakes, for identifying various plants to the visitors. The labels looked all right until after a rain came, then curled like autumn leaves. They are not supposed to curl, after the spar varnish treatment. If by any chance some other monument superintendent happens to read this, and knows how to keep my plant labels from curling, I would be grateful to have him drop me a line of instruction.

MAINTENANCE: Aside from routine maintenance, most of the spare labor time was spent on further rehabilitating and conditioning our winter-

ravaged patio garden and other plantings. Sandy river soil was hauled, mixed with Grade A pasturized and well-seasoned horse manure, sufficiently pulverized to provide a palatable food for the plants, and applied in many places where needed. Trees in need of a judicious shot in the arm were dosed with ammonium phosphate. More thinning was done, and some more desert plants were planted. The incinerator was repaired. Guns belonging to the museum and stored in the shop were cleaned and oiled. Re-arrangement was affected in the trailside exhibit of milling stones. The pick-up truck was cleaned and given two gleaming coats of paint.

UTILITIES: There was one day of almost complete power failure, in which we ran out of water and museum lights. Voltage fluctuation for some time has caused trouble in the operation of one of our refrigerators. We are assured by the Citizens Utilities Company of Nogales that when their new power plant is completed, in May or June, we should have more stable power current.

VANDALISM: Late in the afternoon of Sunday, March 13, a crowd of persons who had attended a rodeo at Kinsleya, 18 miles north, terminated their celebration at the saloon across the road from the mission. While we were closing our books for the day, the superintendent became suspicious that all may not have been well (there is something like a sixth sense which warns an old line custodian when something may be wrong), and went out for one of our frequent extra prowls of the mission church and grounds. Here he encountered several of the festive drunks who had climbed over our boundary wall and had gone through the mission unescorted. They were admonished, instructed, and chased off the area. Later search revealed several new initials on some of our walls. While in this case it is not possible to swear that the initials were made on this particular occasion, it is almost certain they were.

Such vandalism is particularly troublesome, because the gravity of such offenses is not great enough to warrant expense and time and trouble involved in court action, yet inevitably contributes to deterioration of our area. Court action, whether successful or not, is of little satisfaction, because the damage has already been done. We need, either a well trained and hard-boiled dog to patrol grounds, or money to hire a well muscled bouncer on particularly festive rodeo Sundays to patrol grounds between 5:30 p.m. and midnight.

RED CROSS FIRST AID: Santa Cruz County's only Red Cross First Aid Station, located here at the monument, was used twice this month. A young man while visiting the church became faint and required aromatic stimulant. A neighbor ran her thumb into a power saw and had to be temporarily fixed up.

PERSONNEL: Seasonal Ranger James R. Walker ended his period of active duty at noon, March 20, after a very satisfactory period of service. W.A.E. Guide Juliet Kibbey England worked 6 hours. Ranger Brewer took 8 hours of sick leave. Sup't. Jackson took 34 hours of annual leave for a personal business trip to Montezuma Castle National Monument.

EXTRA CURRICULAR ACTIVITY: Ranger Brewer is taking one of the evening courses in Red Cross Home Nursing, being given at the Tubac School House, three miles from here.

Sup't. Jackson has been up to his ears in Boy Scouting for the last three months, spending about half of his evenings on it. The local Troop and Pack Committee designated him again as Cubmaster in January, and he took over the Cub Scouts of the district on an experimental basis. Previous cubbing attempts with Den Mothers did not succeed, so now the Cubmaster runs the Pack on a weekly meeting basis. Meetings are at night, in the district school house at Calabasas, five miles away, and are held at the same time as the Boy Scout meetings, which are under direction of Scoutmaster Alfred Whiting, who is known to many Park Service people of Arizona. Aided by about three very helpful committee members we are running the most active Scout and Cub outfit in the county. If our definitely unusual Cub Scout organization structure continues to succeed as well as it is now doing, we may quite possibly receive some national Scouting publicity.

Earl Jackson

Earl Jackson,
Superintendent.

TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA.

March 26, 1949.

MEMORANDUM for the Regional Director, Region Three.

Following in the monthly narrative report for Tuzigoot National Monument for March, 1949.

Travel Data: After being "shutin" for the past two months, due to the severe winter, a sharp increase in travel is noted. Visitors to the monument this month totaled 1100. This figure, however, is slightly under the corresponding period for 1948, which was 1359. The 1100 people arrived in 337 cars. 28 people walked out to the monument.

Weather: March, of course, brought with it the usual hard winds, and, as a result, dust and silt from the adjacent smelter tailings pond is on the move again. Visibility at times is reduced to an almost zero. Tuzigoot perched on top of a hill, like it is, catches every type of wind there is to be had.

Guide and Contact Service: Museum, ruins and orientation contacts totaled 2414 for the month. 986 people in 290 parties were shown around and given an orientation lecture in the museum, and 968 people in 295 parties made the trip through the ruins. Average time for each party in the museum was 22 minutes, while the ruins trip required 21 minutes per party.

Personnel Time: Museum: 104 hours, 30 minutes. Ruins: 101 hours, 30 minutes. Total time for Bright: 111 hours. For Richert: 90 hours.

N.P.S. Visitors: Messrs. Cornell, Bennett, Lassiter and Thomas on March 25, and Ina Hendricks on March 16.

Maintenance: Considerable work has been done repairing the walk-way to the ruins and trails in the ruins area. Minor repairs were made on the walls and they are now in very good condition. These are, more or less, continuous projects, and the work is done as time permits. A fresh coating of linseed oil was applied to all outside woodwork on the administration and quarters building. We are happy to report - no breaks on the water line during the past month.

Everett W. Bright
Superintendent.

Walnut Canyon National Monument
Flagstaff, Arizona

March 25, 1949

MEMORANDUM for the Regional Director, Region Three.

This constitutes the monthly narrative report of activities for March 1949, at Walnut Canyon National Monument, Flagstaff, Arizona.

WEATHER. We have been blessed this past month with warm spring days, with the exception of the week beginning the 20th. From the 20th through the 25th we had cold winds and snow flurries.

INSPECTIONS. Highway Engineer S.D. Hendricks inspected roads, trails and equipment on the 15th.

GENERAL PUBLICITY. The local newspaper, on March 5, carried a very pleasing editorial on NPS areas in northern Arizona. The editorial was prompted by the celebration of the 100th anniversary of the Department of the Interior. I feel that the poor response to our Open House was due to bad weather and roads.

COOPERATING H.M GOVERNMENT AGENCIES. The Coconino County grader operator, who handles the maintenance on our county approach roads, paid us a social visit. Fortunately for us he brought his equipment along and graded our roads as a parting gesture.

TRAVEL. The count of visitors for this past month was 310 people which is 69 more than we had in March last year. Our fiscal year travel is up 2,339 visitors over the same period last year.

RESEARCH. A specimen of wood taken from one of the ruins stabilized last fall, has been tentatively classified as Engelman Spruce (Picea engelmannii) and dated 1071 - 1256. These data were furnished by Dr. Edmund Schulman, University of Arizona Tree Ring Laboratory.

WILDLIFE. Wood haulers from Flagstaff were heard firing rifles in the vicinity of Walnut Canyon and it was believed they had their sights on some of the wild turkey ranging the woods. Some patroling was done by me and by the state game warden.

A set of tracks leading from the entrance road into the Canyon were found and indicate to me and local persons the presence of a lion. Plaster casts were made of some of the tracks and may be seen at my home (for the benefit of the skeptical). The tracks measured 4 inches by 4½ inches.

Walnut Canyon National Monument report for March continued:

GENERAL. The exhibit room was painted and cleaned. The floor still lacks beauty since no satisfactory floor cleaner can be found locally.

The comfort station was opened, painted, the water turned on again, and generally prepared for summer use. It is gratifying to receive compliments on what was for a time an eyesore.

Maintenanceman Joe Bean came to Walnut Canyon on the 16th to grade our roads but was not able to accomplish much since the ground was still frozen in most places. The county grader saved him a return trip.

One trip was made to Wupatki to confer with Superintendent Jones as to the use of his stake truck for an impending move.

NPS VISITORS. Maintenanceman Troy J. Strickland and family of Petrified Forest National Monument visited the area.

John A. Aubuchon
Park Ranger

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
White Sands

Box 231, Alamogordo, New Mexico.

March 25, 1949.

MEMORANDUM for the Regional Director, Region Three.

MARCH TRAVEL, 1949		1949 TRAVEL YEAR TO DATE	
Visitors, 8,577	Cars, 2,266	Visitors, 38,075	Cars, 10,205

After falling down last month we can brag about March, 1949 beating all records; 8,577 visitors in 2,266 cars tops all previous records for March. This record was achieved in spite of several adverse days when high winds and dust storms reduced visibility t. less than 100 feet.

With the exception of figures, the above paragraph is identical with my March, 1948 report, but, in spite of March, 1948 breaking all past records, March this year topped last March by almost 2,500 visitors. Our weather has been typical of the season and our Spring winds are playing havoc with our roads.

Ranger Chittum made an official trip to El Paso with a small motor and, en-route, attempted to secure some galvanized sheet iron for our picnic shades and also some additional wheels for fire grills. We were not entirely successful but do have hopes of doing good later on.

Two films were shown at the Holloman Air Base on the National Monuments of Arizona and New Mexico. About 600 persons attended the two showings. The films were also shown at the local schools to about 400 students.

Our museum is getting it's usual praise and this was called especially to our attention by the Open House and our special register. Many verbal compliments were received on various phases of our unit.

Plans are in full swing for Play Day and we are having Easter Services as well so our April travel should jump up considerably.

Superintendent's Narrative - continued

We were very pleased to have a long visit from John Davis, Assistant Regional Director. This is one of the few times that we have been able to spend some time with Mr. Davis and go over our area problems and we did appreciate his spending that time with us.

The Concession, this month, does not show as much gain in sales as represented in increased travel. Sales seem to be for smaller amounts.

With slightly over two weeks until Play Day, no doubt exists as to what we will be doing the next couple of weeks.

We want to express our sincere appreciation to the Regional Office in securing for us a D-12 for our road work. This additional size will enable us to increase the efficiency of our work on the roads. Especially during windy seasons when the sand is moving. Now, when we get our Bull Doser, we should be well fixed on road equipment.

The LIFE MAGAZINE carried a half-page picture of the White Sands which I guess is good publicity, but the picture, and even the description, did not do the area justice. The March issue of NEW MEXICO MAGAZINE carried a nice article on Tularosa Basin entitled "Tularosa Basin is a Museum", and frequent reference was made to our museum and it's advantages in telling the story of the Sands.

As a final paragraph to this March report, I want to express my gratitude for being allowed to remain in the Southwest National Monuments for a twenty-year period. On March 31 I will have completed twenty most pleasant years, during which I have met many most interesting people. I only hope that my past twenty years will enable me to put in another twenty years of profitable service to a wonderful division of our Government - The National Park Service.

Johnwill Faris,
Superintendent.

Wupatki

Flagstaff, Arizona

March 26 49

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Wupatki National Monument for the month of March 1949:

Weather: Precipitation is below normal with a total of only .15 inches this month. Spring winds are drying out the soil rapidly. In general, the weather has been reasonably warm with occasional flurries of snow. Mar[illegible] temperautre 75°; minimum 26°.

Roads: The approach from Hiway 89 has been passable the entire month and is in reasonably good shape at this writing. The one from Sunset Crater is still closed by snow.

Travel: Spring is in the air and visitors are gradually increasing in number. At Wupatki 110 registered; at Citadel 81. Visitors receiving guide service totaled 78. Service stations report business is slow and that the proportion of out-of-state cars is low. This condition is reflected in our travel figures which were only slightly more than half of March 1948.

Status of Private Lands: The Geiser Spring appraisal was submitted by Mr. E. C. Crossbeck, Kaibab National Forest, and further action rests with your office. Again we have an example of the cooperative attitude of the Forest Service. Forest Supervisor Lessel refused to bill us for Mr. Crossbeck's services and said: "It is our feeling that this is a matter of cooperation between our two services working side by side. If we can't help each other once in a while, then there is surely something wrong with our system."

Publicity: Excellent publicity, particularly an editorial in the Arizona Daily Sun, occasioned the 100th anniversary of the Department. Our "open house" activity had no response from visitors. Perhaps it was partly due to the weather.

Grazing: Trespass cattle owned by Joe Kellam were removed by him and have given us little trouble , since he took them to the headquarters.

Research and Observation: A BM III pottery cache was discovered in the Lower Deadman drainage by a Navajo girl, Susie Lee. This is the second report of this culture within the Monument. Partially exposed underneath an overhanging ledge were fragments of a basket, Lino Grey olla, Lino Black on Gray bowl and a Mogollon smudged bowl. Our search revealed no indication of a site, but the cache could easily have been made by one of the previously reported Black Falls Basketmaker residents, only two miles away. The site has been designated NA 4311. Pottery was identified by Dr. H. S. Colton.

NPS Visitors: Mr. Sam Hendricks of the Regional Office was in to inspect road maintenance on the 15th. We had the opportunity to discuss our problems with him and go over the work done to date. Acting Superintendent and Mrs. Aubuchon of Wal ut Canyon paid us a brief visit on the 19th.

Dr and Mrs Colton, accompanied by Katahrine Bartlett, were out on the 20th of February to visit Black Falls Trading Post. The Museum is planning an exhibit of Western Navajo rugs later in August. Carleton Wilder, a former NPS man, is now a field director in the Red Cross working out of Reno, Nevada. He is in the Navajo reservation on special assignment and dropped by to spend the night with us.

Personnel: Mr. Robert C. Euler who worked here last year as temporary ranger has applied for the job again this summer. We shall be pleased to have him and Wanda back with us again.

Spring Flow: Again the spring flows increased with Wupatki Spring at 1200 gpd and Weiser at 2880.

Road Maintenance: It seems as though we go from one extreme to another on road conditions. Most of this month it has been dry and difficult to hold a road surface. Dust holes appeared and are being covered with cinder. A surplus roller was obtained from Grand Canyon and has been useful in packing the surface following any precipitation. The first nine miles of the entrance road are in very good shape, except for a few spots that require fill. Difficulty has been experienced with the wartime 6 ply tires originally furnished with the loader. Fabric would break under the additional weight- they were repalced with 10 ply tires

General: The faulty hot water heater thermocouple was replaced, the old Servel in the ranger quarters required a new thermostat. General cleanup was continued. Revision of files is going ahead as time is available.

Protection: The exis ting cooperative fire fighting agreement with the Coconino has been revised and was submitted for approval.

David J. Jones
Superintendent

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9c3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL PARK AREAS.

FILL OUT ONLY THOSE ITEMS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR PARK RANGERS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CHARGE OF OR CONNECTED WITH INTERPRETIVE.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND ALL LAW AND ORDER OFFICERS IN THE AREA INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD TO VARIOUS POINTS, TO ILLUSTRATE GEOLOGY, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE SERVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL CENTER OF PERSONAL CONTACT FOR SERVICE (MUSEUM, VISITORS CENTER, RANGER STATION, ENTRANCE STATION, ETC.), EITHER FIXED HERE BY SERVICE PERSONNEL OR VOLUNTEERED. INCLUDE ONLY STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE. SHOULD NOT BE CONFUSED WITH UNATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATION, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, GAS AND TRADE CONCESSIONS, AND SIMILAR MATTERS RELATIVE TO THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE SIGNIFICANCE OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND INVENTORIED, SERVICE OPERATED, OUTDOOR INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IT MOST CONVENIENT THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN INQUIRIES FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND SERVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH GROUP OF TRIPS, TALKS, STATION, OR SERVICE. FOOT TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH GROUP OF SERVICE, OR THE AVERAGE TIME SPENT BY A VISITOR IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE BEFORE ACCURATE ESTIMATES CAN BE OBTAINED AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS OBTAINED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK INTERPRETIVE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE NUMBER OF VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT GOES FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND THE ORIGINAL TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA TO WHICH THE REPORT ORIGINATES. CONSOLIDATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Approach roads in poor shape.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical Aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers with Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the significant presentations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL BY ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICES, TRAILSIDE EXHIBITS, SELF-GUIDED NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME Homer R. Hastings

TITLE Supt

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3)

NAME
TITLE William R. Supernaugh, Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED ON TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKERS AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA AS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT-OR-CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Submit due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 9a3) and 9 (Report 9a5).

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be included under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 16, Chapters 8 (Report 8m3) and 9 (Report 9m3).

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand blocks. Column 2 Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total greater than the number of visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8n3) and 9 (Report 9n3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m1).

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended Interpretive Stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic location, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, motel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors enquire.

INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitor using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive services, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or produced by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area as provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the Superintendent or Custodian of the area in which the report originates. Coordinating Superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 6th of the month following that covered by the report.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

Talks: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

Attended Interpretive Stations: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

Unattended Interpretive Devices: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE NOTICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

Interpretive Activities Outside the Area: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR RENDERED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

Column #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLACE TOTAL EACH COLUMN IN ALL BLOCKS.

Column #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

Interpretive Activities Outside of the Area ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

Totals: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. Total Attendance SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA WITHIN THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENT ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON MOTELS AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE RULE DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE TOTAL OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE SERVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6th OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME Homer J. Farr

TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing information rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and trails, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: Is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Reports are due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 833) and 9 (Report 933).

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

RECEIVED APR 27 1954 NATIONAL PARK SERVICE FIELD SERVICE

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of those facilities by the public. It includes data on routes and roads. Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and trails, Motel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors at each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Reports due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8s3) and 9 (Report 9m3).

Most parties were contacted by the family of Supt. Wilson, only those parties coming to the area since the 19 th have been met by the present Supt.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing information only, than interpretive service should not be considered an attended interpretive station.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors at each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS ENQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides..
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. This is due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

Talks: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

Attended Interpretive Stations: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

Unattended Interpretive Devices: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITING WHERE EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

Interpretive Activities Outside the Area: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

Column #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

Column #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

Interpretive Activities Outside of the Area ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

Totals: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. Total Attendance SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: Is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. This is due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

NAME David J. Jones

TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

Museum open to public only partt time due to limited funds for operating light plant.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

POSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the Area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical Areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8A) and 9 (Report 9A).

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

Conducted Trips: Trips conducted by N.P.S. personnel in the field or through ruins, to historic structures, or other features of the area.

Talks: Regularly scheduled talks within Service areas presented either by Service personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

Attended Interpretive Stations: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended Interpretive Stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION is an accurate explanation of the manifestations of natural history and human history found within the area.

Unattended Interpretive Devices: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

Interpretive Activities Outside the Area: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING OUT THE FORM

Column #1 records the number of trips conducted during the month, the number of talks made, and the number of days on which interpretive stations and devices are open to the public.

Column #2 indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in the blocks.

Column #3 shows the average amount of time of each class of service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

Interpretive Activities Outside of the Area are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

Totals: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the Superintendent or Custodian of the area in which the report originates. Coordinating Superintendents also should be provided with a copy. Due in the Regional Director's Office not later than the 6th of the month following that covered by the report.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Region Three
Santa Fe, New Mexico

May 9, 1949.

MEMORANDUM for the Regional Director, Region Three.

The following is the narrative report for the Naturalists of the Southwestern National Monuments for April 1949.

Staff Activities, General

Naturalist Dale S. King and Archaeologist Charlie R. Steen both were in the office for the month except that each took a one-day trip to Bandelier.

Interpretive Administration

King spent considerable time in editing and preparing for the printer a 42-page sales booklet for Montezuma Castle, which will be printed through the Director's Information Division at the Government Printing Office. This new series will replace the old 16-page booklets. The manuscript was finished on April 26, and illustrations and dummy in preparation at the end of the month ready for forwarding early in May. He also read proof on twofold leaflets for Saguaro and Arches, and re-submitted revisions for the Walnut Canyon twofold. He facilitated arrangements to have 2,500 twofold leaflets sent from the Director's Office to Tumacacori, and answered several requests for detailed information concerning Inscription House, Kcat Seel, and several other outlying areas.

Progress of Exhibit Plans and Projects

King forwarded to the field requests for PCP sheets on the following subjects: improvements of museum case lighting at Aztec Ruins, and preparation of a large wayside model of Montezuma Castle. He prepared a memorandum for the Regional Director, asking that small amounts be permanently set up in the .103 accounts for museum improvement and maintenance at Casa Grande, Aztec, Gran Quivira, Bandelier, Montezuma Castle, and Well, and Tonto. He corresponded with the Superintendents at Casa Grande regarding a proposal to perform museum improvement next autumn. He again renewed an old project of attempting to obtain casts, now stored in an eastern museum, of the stone lions at Bandelier.

Steen completed preliminary sketches of temporary exhibits for Gran Quivira. He hopes to complete the exhibits during May and install them.

Research and Observations

On Saturdays and Sundays, King revised the section on the cremation burial for the Kalakihu report, necessitating a change in most of the footnotes, read copy on the appendices, and rough-drafted a new section, suggested by Regional Archeologist Reed, for the summary and conclusions. It is hoped that this report, after so long a delay, can be sent to the printer in May.

King forwarded to the field requests for PCP sheets for archeological exploration projects at Aztec Ruins, Montezuma Well, Gran Quivira, Bandelier, Canyon de Chelly, and Walnut Canyon.

Word was received from the Tree Ring Laboratory at the University of Arizona that a piece of wood from the Walnut Canyon stabilization activities last winter has been dated at 1256 A.D. -- probably the latest date thus far received from the area.

A kit for the preparation of birds and mammal skins was transferred to Canyon de Chelly for use in accumulating study collections.

Stoen spent one day at Bandelier with Ranger Jim McEntyre in facilitation of McEntyre's archeological survey of the Otowi section.

Cooperative Activities

Stoen sent a selection of photographs of Tumacacori Museum exhibits to the National Geographic Magazine for their use in preparation of a forthcoming article on the monument.

Loan Library

Accessions for the month totalled 119, including 14 books, 49 pamphlets, and 56 periodicals. The more important books received were:

Creer, Leland Hargrave -- The Founding of an Empire. (Sub-title: The Exploration and Colonization of Utah, 1776-1856). Bookcraft, Salt Lake City, Utah, 1947.

Honigmann, John J. -- Culture and Ethnos of Kaska Society. Yale University Publications in Anthropology, No. 40. Yale University Press, New Haven, 1949.

Lavender, David -- The Big Divide (The Rocky Mountains from Yellowstone to Santa Fe) Doubleday and Co., Inc., Garden City, New York, 1949

Leighton, Alexander H. and Dorothea C. -- Gregorio, The Hand Trembler. Papers of the Peabody Museum of American Archaeology and Ethnology, Vol. XL, No. 1. Reports of the Ramah Project, Paper #1. Cambridge, 1949.

Palmer, E. Laurence -- Fieldbook of Natural History. Whittlesey House, McGraw-Hill Book Co., New York, 1949.

Quaife, Milo Milton (editor) -- The Southwestern Expedition of Zebulon M. Pike. The Lakeside Press, Chicago, 1925.

Southwestern Monuments Association

King talked to representatives of Sawyer's and the Southwest Post Card Company regarding plans to manufacture View-Master reels for Bandelier and Kodachrome post cards for various subjects.

He corresponded with Montezuma Castle, promising to issue a second edition of the Montezuma Well pamphlet (4,000 copies) by July 15.

Treasurer Vedder made two deposits and one disbursement, and mailed 165 covers, including 19 letters and 37 purchase orders. The increase in purchase orders -- 24 over last month -- is due to the quarterly inventory turn-ins received in April, at which time, requests for more books on low items are made. He spent much time posting inventory onto warehouse cards from the quarterly turn-ins, writing the superintendents regarding the turn-ins, and ordering.

On April 4, we obtained our own mail box at the Post Office. The number is 2011.

Visitors

Naturalist Harold Brodrick, Archeologist Joan Pinkley, Superintendent Sam King, Chief Ranger George Sholly, Dr. Verne Ray of the Anthropology Department of the University of Washington (whom King accompanied on a short trip to Bandelier and the University of New Mexico), and Mr. Norman B. Smith, influential in the preservation of historic sites near Providence, Rhode Island.

Wildlife Management

King forwarded to Organ Pipe Cactus a memorandum requesting preparation of PCP sheets to justify funds for developing several sources of water near the south boundary of the monument to prevent animals from leaving the area for the Sonoita River during dry seasons.

Conferences

Several discussions were had to arrive at a decision regarding roofing of the small kiva at Aztec Ruins. It is the consensus of Messrs. Reed, King, and Steen that no roof reconstruction should be installed until sufficient funds are available to consider the advisability of erecting a full-scale replica off site.

Ruins Stabilization

The Ruins Stabilization Manual, mostly by Gordon Vivian but with some additions by Reed and Steen, was assembled April 7. It reaches the respectful proportions of 267 pages of text and illustrations. It was circulated to the field and sent to the Director on April 13.

Stabilization at Casa Grande was terminated on April 8, due to lack of funds, and Archeologist Aid Rixey was moving equipment to Chaco Canyon at the end of the month.

Memoranda were written to Aztec, Bandelier, and Chaco Canyon, and Tumacacori, asking the Superintendents to initiate seeding operations this spring to attempt to obtain a grass sod in and around prehistoric and historic structures to reduce weed-chopping, provide a better landscape, and for preservation purposes.

Technical Aid to Administrators

One memorandum was drafted, refusing permission to a person who wished to harvest 50,000 pounds of saguaro fruit from Saguaro National Monument. Another memorandum was written to a Collaborator, requesting additional personal data.

Rating sheets were prepared on Rixey, Vivian, and Steen.

Projects for May

King will finish the Montezuma Castle booklet, prepare the Departmental and Southwestern National Monuments condensed reports,

attempt to send the Kalaidhu report to the printer (if typing can be completed), take two days of annual leave to facilitate photography of Santa Clara pottery-making and Pueblo life for the Southwestern Monuments Association, and may be able to break loose late in the month for a proposed swing through Arizona monuments.

Steen will spend practically the whole month on the preparation of a temporary exhibit for Gran Quivira.

SIGNED

Dale S. King,
Naturalist.

APPROVED FOR DISTRIBUTION:

SIGNED May 10, 1940.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Arches National Monument
Moab, Utah.

April 29, 1949

MEMORANDUM for the Regional Director, Region Three.

There follows a Narrative Report of activities in Arches National Monument for the month of April, 1949.

GENERAL: On April 11 Russell Mahan left for permanent duty as Superintendent of Colorado National Monument, leaving Ranger Earl Werthington incharge of this area. On April 19 I arrived from El Morro and am just recovering from the confusion and headache of moving.

WEATHER: Cold rain fell for a solid week, March 27 through April 2, and during the latter part of April we have had three days of high winds. For these thick-blooded guys from El Morro the weather seems quite hot at present, but I understand that it is not unusual.

TRAVEL: An all-time record for anysingle travel month was set during this reprot period bythe arrival of 1617 visitors in 539 cars. Twenty-six states, Alaska, Cuba and Canada were represenbed. The The heaviest travel for one day occurred on Easter Sunday when 798 people spent the day in the area.

INTERPRETIVE SERVICE: Contact time amounted to 30 hours in which 510 visitors were given information about the area by Ranger Werthington.

GRAZING: Apparently the Westwood grazing problem has been settled, which, thanks to Russell Mahan, is a great load off my mind.

SPECIAL ACTIVITIES: A Firefighters Training Meeting for Grand and SanJuan counties was attended April 22 by Ranger Werthington and this Superintendent. On April 26, I accompanied a group of Moab businessmen and Grand County officials to Crescent Junction, where we met StateOfficials and located sites for two large signs(10'X 40') on US Highway #50. The signs are to be placed on each side of the junction of US #160 & US #50 and will direct traffic into the Arches and Moab areas.

NATIONAL PARK SERVICE
ARCHES NATIONAL MONUMENT

NEWSWORTHY VISITORS: Jack Breed of Tucson Arizona, prominent writer and photographer, arrived April 22 to photograph Monument Canyon. He was packed in by Roy Holycak, local cattleman, and accompanied by Bill Lane of Boston Mass, Russell Mahan, Colorado Nat'l. Monument, and Earl Worthington, Arches National Monument. Extensive preparation were made for the trip by packtrain and the trip into the canyon was a rough one. However on the bench above Monument Canyon the party worked out a small landing strip on which two local pilots from Moab landed Piper Cubs April 25. [illegible] by the generally bright and warm days have been at [illegible] a slight recession [illegible] and warm days have been at [illegible]

NPS VISITORS: Willard Bradley, completing work on Boundary Survey. Bill Bowen, Gran Quivira. Unofficial visit. I missed him both at Headquarters and in the Monument. Russell Mahan. Unofficial visit. Accompanying Jack Breed on Monument Canyon trip. Corralled him in the office for half a day.

CONSTRUCTION. Work [illegible] on our boundary [illegible] and the removal and transplanting of shrubbery Bates B. Wilson, [illegible] considerable increase in visitation Superintendent. of proper protect has not allowed us to do as much as anticipated toward the "Park like" development of this area.

Continued handling of our building contractor is gradually bringing about the completion of small jobs left incomplete in the construction residence.

[illegible] VISITATION. Gordon Vivian, archeologist, with a small crew, have been busy in the Moab Basin repairing walls and pruning natural flow structures that have begun to fall away. A separate report is

Arches National Monument

submitted by Vivian.

INTERPRETIVE SERVICES. There were 549 visitors in 61 parties conducted thru the Park and 600 visitors in 172 parties shown thru the museum.

One lecture was presented by Ranger Olcott to a group of 50 members of the District Home Demonstration Women's Federated Clubs visiting Moab Conference at Arches National Park was used to illustrate the 45 minute lecture.

VISITORS IN TRAVEL. There were 881 more people this April than last, [illegible] 880 who traveled in 208 cars from 27 states, D.C., Alaska, Canada, Canal Zone, Denmark and England. With [illegible] 200 more April days ahead of last year we are anticipating a very heavy increase in visitation this summer. We hope we may have the personnel to handle it properly.

Irving F. Tennant,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

25 April 1949

MEMORANDUM for the Regional Director,
Region Three, National Park Service.

There follows the report of activities in Aztec Ruins for April 1949.

WEATHER. This and travel have been going hand in hand, both getting better. The generally bright and warm days have brot an increase in April's visitation of 32% above April of last year. We have had only a slight amount of precipitation and the temperature reached a high of 85.

INSPECTIONS. Carl Alleman, Architect, visited the area April 4-5, and completed plans for rearrangement of shrubbery in the museum area and at the residential area. Dr. Nusbaum was in Saturday 16th to inspect various Pueblo artifacts in storage.

MAINTENANCE. Some work on our boundary fence was done, but the removal and transplanting of shrubbery has taken much of our time. The considerable increase in visitation and the absence of Ranger Onstott has not allowed us to do as much as anticipated toward the "face lifting" of this area.

Continued heckling of our building contractor is gradually bringing about the completion of small jobs left incomplete in the recently constructed residence.

RUINS STABILIZATION. Gordon Vivian, archeologist, with a small crew, have been busy in the East Ruins repairing walls and proping second floor structures that have begun to fall away. A separate report is attached as submitted by Vivian.

INTERPRETIVE SERVICES. There were 548 visitors in 91 parties conducted thru the ruins and 868 visitors in 172 parties shown thru the museum.

One lecture was presented by Ranger Onstott to a group of 85 members of the District Home Demonstration Women's Federated Clubs while in State Conference at Aztec. Colored film was used to illustrate the 45 minute lecture.

INCREASE IN TRAVEL. There were 281 more people this April than last, totalling 868 who arrived in 235 cars from 27 states, D.C., Alaska, Canada, Canal Zone, Denmark and England. With March 20% and April 32% ahead of last year we are anticipating a very heavy increase in visitation this summer. We hope we may have the man-power to handle it properly.

Irving D. Townsend,
Superintendent.

Aztec Ruins ~~National Monument~~ NATIONAL MONUMENT
Aztec, New Mexico
April 25, 1949 ..... 19....

MEMORANDUM for the Superintendent,
Aztec Ruins National Monument.

Following is the narrative report of Mobile Unit activities in your area during the past two weeks.

Archeologist Steen and I arrived at the Monument on the morning of the 6th. Steen left the next day on the 7th and I began to set up a camp which was occupied Saturday the 9th. The following Monday, the 11th, we began limited stabilization of the unexcavated East Ruin with 3 laborers.

The purpose of this stabilization on the East Ruin is to preserve the ceilings in numerous below ground open rooms. Many of the larger ceiling beams are broken due to excessive weight of the overburden while almost as much damage has been caused by pot-hunters either in breaking through walls which support these ceiling beams or sawing off portions of the beams themselves.

The following conditions were found and progress made to date:

P-1. A large room with 5 sets of ceilings beams arranged in groups of 3. A small amount of debris was removed and supports placed under the 2 worst breaks. Both supports are set on small concrete bases. One support contains a permanently installed jack.

P-2. A small room with one central viga in excellent condition. The north wall, under one end of the viga, had been broken out by pot-hunters. The viga and ceiling settled and the room three quarters filled with debris.

The overburden has been removed and the debris inside the room partially cleared to allow working space. Temporary jacks are in place and the ceiling raised to near its original level. Permanent supports will be put in place and the broken wall repaired shortly.

P-3. An adjoining room. Here one third of the central beam had been sawed off and removed. The ceiling settled till one side of it rested on debris which had come through the broken east wall. Half of the north wall of the below surface room had been broken out to gain access.

The ceiling was temporarily supported and the overburden removed. Following this the ceiling was raised to near its original level and most of the debris inthe lower room taken out. One permanant support has been set in place and 2 more are being made. The broken north and east walls have also been repaired. Material is on order for a protective covering for these adjoining rooms, P-2 and P-3 and this will be put in place as soon as it is recieved.

Gordon Vivian
Archeologist

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

April 29, 1949

Memorandum for the Regional Director, Region Three

There follows a report of the activities at Bandelier National Monument for the month of April, 1949.

Weather

Winter had a last fling early in the month with 3 inches of snow falling on the first and 5 inches on the tenth. Temperatures ranged from 10 above zero on the second to 85 degrees on the twenty third. The bad weather with resulting poor roads reduced travel during the first of the month but it picked up rapidly with the better weather after the tenth.

Special Activities

The Superintendent attended the Inter-Regional Fire Control Training Conference at Grand Canyon from April 4 to 8. It was a very fine conference and many specific recommendations were decided on for the general improvement of National Park Service fire control.

Maintenance

The painting of the comfort stations was completed during the month and they are ready for the summer season.

A pre-dishwasher, that was acquired from surplus at Los Alamos, was installed in the Lodge kitchen. It is to take the place of a third sink as required by the Public Health Service. The water was turned on in the cabins in preparation for opening them on the first of May and vents were installed on the kitchen ranges to remove fumes and grease vapors. The dining room patio was painted and white stripes were painted on steps in the patios and dining room to provide better visibility.

All of the trucks that were received from army surplus were repainted dark green which improves their general appearance considerably.

Approach Road

Poor weather during the first part of the month made the approach road rough and soft in spots. As soon as it dried out sufficiently it

FOR DEFENSE BUY UNITED STATES SAVINGS BONDS AND STAMPS

was graded, the ditches were cleaned, culverts opened and it was put in generally good condition.

The heavy Caterpillar no. 12 grader was traded to Grand Canyon for a smaller Caterpillar no. 212 unit. The lighter grader seems to be adequate for our use although heavy ditching and scarifying will be a little slower.

Trails

The ruins trails were worked over and smoothed in preparation for summer use. Several rungs in ladders used to provide access to some of the ruins were replaced and a dangerous narrow spot in the trail along the cliffs was widened by cementing in some flag stones.

Concessioner

Mrs. Frey, the manager of Frijoles Canyon Lodge, returned to the canyon the last part of the month and got the lodge ready for opening on May 1. She was able to accommodate a few visitors on week ends by serving sandwiches and coffee to those who came to the area without a lunch.

Interpretive Service

87 conducted tours that were attended by 1049 visitors were taken through the ruins during the month. Other contacts brought the total receiving interpretive service to 1668 for the month.

A special program of motion pictures and a short talk was given to more than 300 boy scouts and leaders on the evening of April 23.

Travel

Travel was down a little from April of last year due to the bad weather during the first of the month. A total of 2213 visitors came to the area as compared with 2471 for April, 1948.

The northern Rio Grande districts of the Boy Scouts held a Cliff-dwellers Pow Wow in the area on the 22 and 23. It was attended by over 300 scouts, senior scouts, and leaders.

Visitors

NPS visitors included Frank Childs, Regional Forester, Region Two; Fred Arnold, Regional Forester, Region One; Charles Humberger, Chief Ranger, Isle Royal NP; and Ernie Field, Asst. Chief Ranger, Rocky Mt. National Park.

Forest Fire Protection

Lightning storms started three fires in the Monument, two of which occurred on the 18th, and one on the 27th. All of the fires were one tree in size and two of them were rained out after crews had started to them. The fire on the 27th. was in the edge of the blow-down area and caused considerable concern due to a moderately strong wind but fortunately a rain stopped it before it could gain any headway.

The following is a report of activities at Canyon de Chelly National Monument during April, 1940.

Fred W. Binnewies

Fred W. Binnewies
Superintendent

Weather Conditions

April this year has been a beauty. [illegible] have passed us by so far and most of the days have been [illegible]. During the period to the 15th we had a high temperature of 86 degrees on the 26th and a low of 20 degrees on March 30. The water in the streams is running high but due to cool nights in the higher country the runoff has been more gradual than expected. The crest of the current has not yet been reached and water has almost reached the level of the approach road near Garcia's store.

Administration

One trip was made to Gallup for supplies. Administrative duties are current although failing to overtake backlog.

Maintenance

A greater part of the time of both the Superintendent and field ranger has been spent in maintenance work. The roads have been graded and graded from headquarters to Spider rock. Water house trail has been worked and repaired from top to bottom. Ditch, and culverts have been repaired at headquarters, work has progressed on several new steps, one deck of entrance has been placed on the Ruin house, and general maintenance of equipment and structural improvements.

Roads and Trails

[illegible] the new planting at Tsile house on the trail crew under the supervision of Ranger Harris was put to work there. Large cottonwood trees which were being removed from the Garcia field were used to [illegible] in diverting the channel and preventing more wash [illegible] Only slight damage has been done at Antelope house but work will be undertaken there when practicable.

Travel

Travel has been a little heavier than usual though each of the

Canyon de Chelly National Monument
Chinle Arizona

April 25, 1949

MEMORANDUM for the Regional Director, Region three

The following is a report of activities at Canyon de Chelly National Monument during April, 1949.

Weather Conditions

April this year has been a beautiful month. The high winds have passed us up so far and most of the days have been nice. During the period we had a high temperature of 86 degrees on the 24th and a low of 20 degrees on March 30. The water in the canyons is running high but due to cool nights in the higher country the runoff has been more gradual than expected. The crest of the run-off has not yet been reached and water has almost reached the level of the approach road near Garcia's store.

Administration

One trip was made to Gallup for supplies. Administrative duties are current although filing is getting behind.

Maintenance

A greater part of the time of both the Superintendent and Park ranger has been spent in maintenance work. The roads have been worked and graded from headquarters to Spider rock. White house trail has been worked and repaired from top to bottom. Doors, and screens have been repaired at headquarters, work has progressed on several new signs, one coat of outside paint has been given the ranger quarters. New heavy screen has been installed on the Pump house, and general maintenance of equipment and physical improvements.

Soil and Moisture

High water began damaging the new plantings at White house so the trail crew under the supervision of Ranger Morris was put to work there. Large Cottonwood trees which were being removed from Joe Carrolls field were used and have worked wonders in diverting the channel and protecting work done last fall. Only slight damage has been done at Antelope house but work will be undertaken there when practicable.

Travel

Travel has been a little heavier than usual though much of the

RECEIVED
MAY 2 1949
NATIONAL PARK SERVICE
REGION THREE OFFICE

area has been inaccessable. Practically all interpretive work has been in headquarters contacts. Roads have been good which helps boost travel.

General

Joe M. Carroll, who we work as an intermittant laborer was elected as delegate to the tribal council from this district by an overwhelming vote. This is the first time a "Canyon" Navajo has been chosen and Joe is a good man as well as a friend of the Park service.

Fire Protection

On April 12, the Superintendent attended a meeting of cooperatives at Keams Canyon with Personnel representing the Indian Service and Forest Service.

Visitors

Twenty six members of the Geology Department from Nebraska University.

Government Publications

2-fold leaflets...CIU....7, 675
Map Folder #2, 6.....75

Visitors: There have about 1,200 visitors to Petrified Mountain National Monument during the month of April, making a total of seven thousand eight hundred for the travel year and twenty seven thousand six hundred visitors for the fiscal year.

Meredith M. Guillot
Superintendent

Weather: Typical mild spring weather prevailed during the month, with some wind and about one half inch of precipitation, including light snow and rain, has been recorded.

Plant and Animal: The amaranus, our true harbingers of summer weather are in full bloom now, and the hillsides are covered with them. Deer and other wildlife in the Monument area are in fine condition, but are managing to keep fairly well out of sight so far this spring.

Roads and Trails: Roads and trails are in excellent condition now, for the many expected summer visitors.

Information Pamphlets: No information pamphlets have been distributed during the month of April. Have about seven hundred on hand.

Very respectfully,

Superintendent

Homer J. Farr
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

April 25, 1949.

MEMORANDUM for the Regional Director,
Region Three.

There follows the narrative report for Casa Grande National Monument for April 1949:

General: Most of the visitors are now complaining of the heat and although we tell them that they haven't seen anything yet we've been getting a little warm ourselves lately. The cactus are all late in blooming, presumably due to the harsh winter and this has disappointed a good many people who came down just for the cactus display. Predictions were for the best flower display since the spring of 1941. The irrigation pumps are now pumping day and night but there shouldn't be the acute water shortage that we had last summer. Due to the better water prospects every bit of land is under cultivation and this will be detrimental to the water situation.

Weather: This month has produced a great variation in temperatures from rather cold weather in the early part of April to good hot summer weather at the present time. The maximum was 102 with a low maximum of 55 and a minimum of 31. We had .18 inches of rain.

Visitors: April 1949 - 3683: April 1948 - 3238: Travel year to date 1949 - 23,223: Travel year to date 1948 - 23,013. This month shows a gain of 445 people over April of last year. This is the first month of 1949 to show a gain over last year. We have had an increase of school groups this year and this largely accounts for this month's heavier travel.

Interpretive Services: Of the 3683 visitors to the area, 2616 made the trip to the ruins in 196 groups averaging 52.8 minutes per trip. 1067 people were here for a quick look but did not go through the ruins.

N.P.S. Visitors and Visitors of Note:

March 26 - Assistant Chief Ranger and Mrs. Leon Evans of Yellowstone National Park.

RECEIVED
APR 28 1949
NATIONAL PARK SERVICE
REGION THREE

March 30 - Assistant Director Tolson and Regional Director Tillotson.

April 8 - Dr. and Mrs. F. W. Hodge, Director of the Southwest Museum.

April 10 - Assistant Regional Director Davis and Chief Clerk Castellum.

April 11 - Group of 25 High School students from Casa Grande, Arizona.

April 16 - Mechanic D. B. Howeth of Grand Canyon National Park was in to pick up a bituminous kettle.

April 18 - Mr. and Mrs. Seidenfeder of the Danish diplomatic service.

April 21 - Group of 27 8th grade students from Phoenix, Arizona.

April 22 - Group of 37 members of the L.D.S. Church from Salt Lake City, Utah, were here in a chartered bus. Our local radio station, KUKY, interviewed some of these people and a wire recording was later broadcast from the station.

April 23 - A Unitarian Church group from Phoenix, Tucson and the vicinity held a picnic and meeting in the picnic grounds.

April 24 - Group of 15 Future Homemakers of America from Yuma, Arizona.

Administration and Protection: Adamsville ruin was inspected for vandalism. Six requests for information were answered. A surplus adding machine was received from Lake Mead Recreational Area and was immediately assigned to Tumacacori National Monument at the request of the Regional Office.

Museum Activities: Work is progressing slowly but steadily on the preparation of display panels for our multiplex unit. The panels being prepared now will feature the National Parks and Monuments of the Southwest.

Maintenance: The maintenance man was in the hospital for 15 days so little has been done. The Superintendent, ranger and archeologist kept the area well policed and in good condition during his absence. Since the maintenance man returned to duty he has repaired the Arches tractor and made repairs on the sewer pump. Further work was done on the coolers in preparation for summer weather.

Ruins Stabilization: The stabilization work was forced to shut down on April 8, due to lack of funds. We feel that they accomplished a great deal and that stabilization technique of caliche ruins has been furthered considerably through the experiments of Mr. Rixey.

It is regretable that the money ran out when they were so near completion. Archeologist Aide Rixey stayed on another week and did some needed repair work on Compound A, such as installing tile drains through some of the walls and re-capping a couple of bad spots. The Rixeys left here April 19, to return to Chaco Canyon National Monument via Walnut Canyon.

Nature Notes: So far the bats have not made their appearance in the numbers that we had expected. Bat flights have been rather sporadic with only small numbers leaving the ruins. The bats will probably be back in full force though before long. Various birds such as the Pallor Thrasher, Western Mourning Dove and Cactus Wren are nesting on the Monument. Only a few of the cactus in front of the Administration Building have bloomed so far but the prospects look good.

A.T. Bickmell,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Chaco Canyon NATIONAL MONUMENT

Bloomfield, New Mexico

April 28, 19 49

MEMORANDUM for the Regional Director, Region Three,
National Park Service.

There follows the report of activities in Chaco Canyon National Monument for the month of April, 1949.

There were 56 visitors who came into the area this month. They came in 23 automobiles from the states and province of:- California - 1 car, 2 visitors; Colorado - 3 cars, 7 visitors; Illinois - 2 cars, 4 visitors; Massachusetts - 1 car, 2 visitors; Minnesota - 1 car, 2 visitors; New Jersey - 1 car, 2 visitors; New Mexico - 12 cars, 34 visitors, Pennsylvania - 1 car, 2 visitors and Quebec - 1 car, 1 visitor. All 56 took a trip through the ruins, and formed 23 parties. 19 groups, 48 persons in all, stayed in the museum a while. The superintendent spent a total of 35 hours and 55 minutes with these people.

Except for April Fool's Day, when we awoke to find a foot of snow on the ground, the weather has been very agreeable. The warmest was 94 degrees Fahrenheit on the 23rd of the month, and the coolest was 20 degrees on April 15th. There was a total of 1.05 inches of precipitation.

The water connections, cut off and covered for the winter, have been connected and opened.

The north approach road has been graded by the county, and is in good shape. Nearly all of the Monument roads have been graded, the rocks taken out, and are in good shape too.

Since the 16th of March, through the courtesy of the Soil and Moisture Division, 15,000 peachleaf willows and 25,000 sand bar willows have been planted. As the crew finished the job, they were terminated. However, on the mesa, the tractor driver is cutting small diversion dams.

One light plant was in town for repairs. Before it could be repaired, the other one broke down and had to be taken to town for repairs. This time, the pulley wheel pin was broken into small bits, but before it was completely lost, it pretty thoroughly chewed up the drive shaft.

A new roof was put on one of the residences.

National Park Service visitors included Gordon Vivian. Archeologist Aide Riney returned to the Canyon on April 21, but has now returned to Arizona for another load of materials.

Projects for the ensuing month:- finish the job on the hill, hope the permanent ranger arrives and get things squared off for the summer season.

Irving McNeil, Jr.
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Chiricahua National Monument,
Dos Cabezos, Arizona.

April 25, 1949.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Chiricahua National Monument for the month of April, 1949.

Weather. .91 of an inch of moisture was received and most of that fell in the first ten days of the report period. An inch and a half of snow was received on the 1st followed by high winds and slight precipitation. Maximum temperature of 88 degrees was received on the 25th and a low of 24 degrees recorded for March 30.

Communications. The Travis-Jefferson radio set which has been in Tucson for installation of crystals and general maintenance was returned this week and contact with Saguaro and Organ Pipe will be resumed.

Approaches to Monument. The State of Arizona has again resumed work on the oiling of Highway 181. This four mile stretch from the monument boundary to the Willcox-Douglas junction was carried over from last year's program and will be completed in about ten days.

The Forest Service made their annual grader trip this month and the Cave Creek-Rodeo approach road is again opened to travel.

Pipe line construction on the Bowie approach road is nearing completion and normal travel is expected soon.

Maintenance. One laborer worked throughout the month on the monument trails and on Bonita highway and one trip with the grader was made over the complete road system. The diesel grader was received from White Sands during the month and should be a big help.

Personnel. Ranger Ringenbach was on annual leave from April 4 to 24 during Mrs. Ringenbach's hospitilization for appendicitis.

Superintendent Cooke entered on sick leave on April 14. He also had his appendix removed in an emergency operation and is reported as doing fine.

Travel. Total number of visitors to area were 1,460. This is a slight decrease as compared to April, 1948, but travel to date continues in excess of 1948 figures.

Inspections. Mr. Davis and Mr. Castellum were in on the 16th for a short visit to establish wage board schedules, etc.

Interpretive Services. 1,303 persons were contacted at the museum during the month. Operator-General Marble filled in during the absence of the regular interpretive staff.

Forest Fire Protection. We plan to send up the fire lookout about May 7. The forest service has scheduled their lookouts for May 1.

Roy B. Ringenbach,
Park Ranger.

El Morro

Ramah, New Mexico

April 26 49

MEMORANDUM for the Regional Director, Region Three

The following is the monthly narrative report for April, 1949, from El Morro National Monument, Ramah, New Mexico.

WEATHER: Maximum temperature reached 80° on the 23rd and the minimum for this report period was 13° on March 27. Six and one half inches of snow fell during this period amounting to .63 inches of moisture. The weather through the 17th was windy and cold but since then has been very pleasant.

TRAVEL: Visitation amounted to 121 people traveling in 39 cars. All visitors were contacted but only a few took the regular guided trip. Most of those taking the tours were guided by Mrs. Wilson or Tug Wilson, Mr. Wilson being quite busy packing and the present superintendent unpacking.

APPROACH ROADS: Roads were bladed by US Indian Service April 7th and 8th from Ramah to El Morro store and the spur road to the Monument. I supposed this grading happened frequently but Superintendent Wilson was quite jubilant since grading of the above roads has been done only once during his three year stay at El Morro.

MAINTENANCE: Office walls painted and floors waxed, magneto on standby generator repaired, woodwork and floors of superintendent's residence scrubbed.

PERSONNEL: Superintendent Bates E. Wilson transferred to Arches National Monument, leaving El Morro the 18th of April. John A. Aubuchon arrived the 19th to take his place.

NPS VISITORS: Ranger and Mrs. Owen Reynolds andson of Wupatki National Monument - the Reynolds moved my household effects from Walnut Canyon. Seasonal Ranger Robert Viklund of Walnut Canyon came along for the ride but was promptly put to work helping the Aubuchons unpack and get settled.

John A. Aubuchon
Superintendent

Gran Quivira National Monument
Gran Quivira, New Mexico

April 30,1949

MEMORANDUM for the Regional Director, Region Three.

The following is a report of activities at Gran Quivira for the month of April 1949.

General. Late spring storms have greatly improved the moisture content of the farm lands. High winds were much less frequent than last year.

Weather. Total moisture amounted to 1.07". High temperature for the period was 83° on April 26.

Special Activities. The superintendent was on special duty at White Sands for Playday on April 9.

The superintendent was on annual leave April 12-29. While enroute we visited Mesa Verde National Park and Arches and Colorado National Monuments.

Inspections. Mr. Patraw and Mr. Suazo of the Regional Office visited the area on April 8 while enroute to the White Sands Playday.

Approaches to the Monument. At the present time approach roads are in good condition.

Interpretive Service. 14 parties totaling 49 visitors were guided through the ruins. Average trip time, 39 minutes.

Museum Activities & Exhibits. Temporary exhibits have been placed in the exhibit room, utilizing the meager materials at hand. Public reaction, especially among the local people, has been good.

Mr. Steen visited the area on April 1 and drafted plans for exhibits to be prepared in the Regional Office. It is planned to have these ready and in place at an early date. Mr. Steen took 20 sacks of cement and the Mobile Unit stove back to Santa Fe when he returned.

Decrease in Travel. The decrease in travel this month was due to several factors. First, March 27, April 3 and April 10, the first three Sundays were stormy. This cut out the Sunday travel which at this season accounts for about 90% of the visitors. Second, the Superintendent was away from the area most of the month and the visitor count was taken from the register.

	CARS	VISITORS
April 1949	32	111
April 1948	57	174
Decrease	25	63
Percent Decrease	43.8%	36.2%
This Travel Year	301	836
Last Travel Year	227	656
Increase	74	180
Percent Increase	32.6%	27.4%

Wildlife. The rattlesnakes made their scheduled appearance during the month.

Cedar Waxwings have been much in evidence around the watering pans this spring.

William L. Bowen,
Superintendent.

GREAT SAND DUNES NATIONAL MONUMENT
MOSCA, COLORADO.

April 26, 1949

MEMORANDUM for the Regional Director,
Region Three.

There follows the report of activities in Great Sand Dunes National Monument for April, 1949.

WEATHER. Spring is here! The water line thawed on April 6.

The minimum of 12 degrees was registered on April 4. The maximum of 78 degrees was reached on April 26. The high minimum was 39 degrees on April 18; and the low maximum was 25 degrees on March 29.

Snow fell on March 26,28,29,30 and 31; April 1,2,3,8,9,10 and 14. Rain fell on April 18,19 and 20. There were nine very windy days and seven of these came from the northeast.

During this report period there were 14 cloudy days; 4 partly cloudy and 13 clear days.

The San Luis Valley is again flooded with water and as last year, the Rio Grande river threatens to flood.

The Medano creek was viewable from headquarters on April 17, and at present writing has reached the lower picnic area.

TRAVEL. Eight hundred sixty-nine visitors in two hundred eighteen cars visited the Sand Dunes during this report period. Eighteen states were represented, as well as the District of Columbia, Canada and Alaska. Nine days show no visitors to this area. Three written requests were answered. Five hundred and five people took advantage of the picnic areas and of these eight visitors camped over night.

INCREASE IN TRAVEL. For April 1948, there were 145 cars and 531 visitors.

CONTACT. Contact with visitors was done on five Sundays and during the week as work permitted. One hundred sixty-nine cars were contacted, with a total of seven hundred forty-one visitors. Contact time amounted to twenty-eight hours and ten minutes.

NEIGHBORLY VISITORS. Thirty-five pupils of the Saguache School, 7th Grade, came out for a picnic outing.

Twenty students of the University of Nebraska, Geology Department Field School, spent one day at this area.

Mr. Wilbur B. Foshay of the Alamosa Chamber of Commerce came out to the Dunes - his first visit in ten years. When asked about road conditions, had no comment.

ROADS. The approach road from Mosca to headquarters was graded by the State on April 9 and 23. The section of road between Mosca and San Luis Lake is in poor condition because of ranchers digging and enlarging ditches along the road. When they have finished their work, it will be possible for the State to properly grade the road. The road, at present, is in fair condition.

The monument approach road to headquarters is in excellent condition. The road to Mosca spring is in fair condition and some work was accomplished on the road to the lower picnic area.

WATER SYSTEM. Tinkered with water system, but it took a spell of warm weather to thaw the line. The usual flow of mud and water went thru the pipes of the residence. We think three winters of frozen water lines is the limit and certainly hope funds can be found to remedy this intolerable situation.

CONCESSION. Mr. A.W. Graves, Monte Vista, Colorado was authorized to carry on a Saddle Horse Concession from June 1, to September 30, 1949 at Great Sand Dunes.

GENERAL. Many planes have been flying over this area in search of the missing plane and pilot, John Reaves of Denver.

An unusual patch of snow on a hill to the east of headquarters, aroused the curiosity of the Superintendent and he spent an afternoon (lieu day) finding out it was snow instead of crashed plane. He was glad he had his three spotted fever shots as the woods are loaded with ticks this year.

ACTIVITIES. Usual routine duties of hauling supplies, five days of snow removal around headquarters, cleaning up acres and acres of picnic areas, contacting visitors and keeping office matters current on Sundays.

Corrected map of area to be used for informational leaflet and sent latest Colorado State Highway Map to Acting Chief of Lands and Planning Richey.

Worked on POP sheets and have corrections to make on others.

Gave dining room second coat of paint on ceiling and walls.

Partly covered the hot water pipes in basement with asbestos paper.

Ordered Prestone for next winter in hopes it would arrive in time.

Worked on road from Mosca Spring to lower picnic area. This is slow work because of the great number of large rocks in the road bed. In time, it may turn out to be a fairly decent road.

The HSWP spent eight days at the Alamosa Community Hospital for shots, rest and diet.

Received and reviewed the Monthly Narrative Report, Region One, August and September, 1948; Region Two, August and September, 1948; Region Three, September, 1948; Region Four, August, 1948. Naturalist Monthly Report, Region Three, September and December, 1948. The Conference on National Park Service, Archaeologists at Director's Office, November, 1948. Southwestern National Monuments Report, Region Three, February, 1949.

PROJECTS FOR ENSUING MONTH. Contact the State Highway Department in regards to hauling gravel to lower picnic area and moving the house trailer behind headquarters for ranger's quarters.

Accomplish more road work and contact visitors on Sundays.

Ted O. Sowers,
Superintendent

Montezuma Castle National Monument
Camp Verde, Arizona
April 24, 1949

MEMORANDUM for the Director, Region Three:

Montezuma Castle National Monument submits its monthly narrative report for April 1949.

Special Activities: With the exception of public contact work, most of the month was spent in preparation for personnel transfers effecting this area. Ledding spent the week of April 3-9 at Walnut Canyon relieving Aubuchon. During this period of time, Cook arrived for special duty and training at Montezuma Castle. Hastings then transferred permanently to Walnut Canyon on April 11, with Cook reporting for duty to Montezuma Castle April 12. Ledding moved to Walnut Canyon April 19, and Clancy transferred from Grand Canyon the same day.

While on annual leave in the southern part of the State, Archaeologist Schroeder gave a talk on Montezuma Well to a seminar in the Department of Anthropology at the University of Arizona.

Proposed changes for a new printing of the Montezuma Well trail pamphlet were submitted along with a line drawing of a burial and a diagrammatic map of the Verde Valley.

Considerable cataloging of recent accessions and specimens was accomplished during the month.

Weather: Mild weather prevailed throughout the month with several light showers causing a total precipitation of 1.02 inches. Maximum temperature 89 (April 21). Minimum temperature 25 (March 30).

Travel: The arrival of mild spring weather and Easter vacation week caused a definite increase in travel for this month. There were 2,109 visitors in 636 cars to Montezuma Castle and 576 visitors in 186 cars to Montezuma Well for a monthly total of 2,684 people and 821 cars. 649 adults and 83 children climbed the ladders to the Castle. The total figure of 2,684 visitors as compared with 2,482 visitors for April 1948 represents an increase of approximately 8 per cent.

Official Visitors: Mr. Tillotson and Mr. Tolson on April 1; Mr. Davis on April 18 to talk over monument problems with the superintendent; Messrs. Cornell, Bennett, Thomas and Lassitor on March 24 in regards to water system and future plans and designs.

Visitors: March 27, a group of seven people representing the Jam Handy Organization of Detroit, Mich. arrived at the monument for

the purpose of making professional pictures of the castle. April 4, ten boys from the Horton School, Clearmont, Calif. were conducted through the castle. April 18, Malcolm Farmer, Director of the San Diego Museum of Man payed a visit to the Well and castle. April 16, Dr. Stewart, professor of Anthropology at Arizona State College, Tempe visited the Well. Schroeder spent part of one morning showing Dr. Stewart some of the nearby ruins. April 9, Dr. Haury, Director of the Arizona State Museum made his first visit to the monument.

Maintenance: Mr. James Reeves of Camp Verde finished razing the old castle store which was located along the trail to the castle. Considerable landscaping will have to be done where this store once stood.

At the Well, spring clean-up was completed and cabinet doors for the museum storage were sanded and prepared for varnishing.

Wildlife: Two new birds were recorded at the Well; they are the Yellow-headed Blackbird and Scott's Oriole. Campers at the Castle reported seeing a beaver a short distance from the campground.

Public Health: Three samples of drinking water were submitted at intervals during the month to the U. S. Public Health Service laboratory in San Francisco for bacteriological analyses; all of these samples proved entirely satisfactory. Two samples were also mailed to the Arizona State laboratory in Phoenix. From the ten portions tested of these samples, three portions proved positive for bacteria.

John O. Cook,
Superintendent.

NAVAJO NATIONAL MONUMENT
TONALEA, ARIZONA

April 25, 1949

MEMORANDUM for the Regional Director, Region Three

There follows the monthly narrative report of activities in this area for the month of April 1949.

PUBLIC TRAVEL

60 visitors in 20 cars. 38 visitors in 9 parties elected Sandal Trail for their view of Betatakin, 30 visitors in seven parties were guided to Betatakin. 12.6 hours were spent in Museum and Orientation contacts. 15 people camped overnite.

REPORTWORTHY VISITORS

N.P.S. Messrs. Dean and Bruesk of Grand Canyon National Park to Betatakin on the 11th thence to Rainbow Bridge.
Mr. Carleton Wilder (Red Cross Navajo Relief) formerly N.P.S. ranger at Grand Canyon and Saguaro National Monument visited here on the 12th and again on the 24th.
Mr. and Mrs. Faber, incumbent teachers at the Shonto USIS boarding school, on the 22th and 24th.
Capt. and Mrs. F. Williams of Standard Oil Co. Safety division.

WEATHER

Fair weather has prevailed. A few cloudy days and light precipitation on the 19th, 20th and 23rd. Maximum temperature was 81 degrees on the 24th, slightly higher than usual at this time. Minimum was 31 degrees on the 15th. Total precipitation 0.02.

ROADS

Roads are in better than average condition after some repair to the damage done by heavy snows and the spring run-off. All roadside directional signs are in fair shape.

NEW IMPROVEMENTS

RADIO

The DT-12 Hallicrafter Marine radiotape placed in operation on the 8th. Contact with Santa Fe, Bandelier National Monument and Grand Canyon National Park has been maintained since that date. We are operating on 5150 Kc at 50 watts output. More accurate directional beaming of the aerial may produce stronger transmission to Santa Fe and a change is contemplated.

April 25, 1949

NEW IMPROVEMENTS (con't)
The Gallon Road grader is enroute from Walnut Canyon National Monument to Navajo National Monument today. Mr. Joe Bean of Hopatki has been assigned the transport job.

ROUTINE MAINTENANCE
Re-opening this area involved roof and plumbing repairs, butane readjustments, Kohler light-plant service, window washing, floor waxing and thoro cleaning of chimney flues. Campground benches and disposal cans were set up and comfort stations cleaned.
A new plunger-leather was installed on the Wayne gasoline pump.
A new cover was made of Masonite for the registry books.
The wooden wall on the South side of Residence #1 was repaired. The stripping had curled in many places from the effect of deep snows.
The Climax power plant, overhauled by the Central Repair Shop of the National Forest Service, was hauled out on the 20th, repainted on the 23rd and snaked into the power house on the 24th. The pump was serviced same day and we pumped 1500 gallons of water. (When we write 'the pump was serviced same day' it looks so simple one would hardly believe it requires three miles by car and three miles of foot work to get 8 quarts of oil into the pump).

GENERAL
We would like to take this opportunity to express our thanks to all concerned in making our winter assignment possible and so pleasant. We enjoyed the hospitality at Organ Pipe Cactus National Monument and feel that our time there was well spent.

J.W. Brewer, Jr.

J.W. Brewer, Jr.,
Supt.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Organ Pipe Cactus

P. O. Box 38, Ajo, Arizona

April 25, 1949

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of April, 1949.

Weather

The minimums for the period was 37 on April 2, but the average nights are now in the 50's. High for the period was 98 on the 22nd with the days giving warning of the hot weather to come. Travel is falling off. March 31 and April 1 gave us .55 inch rainfall which was badly needed. With the hot, windy days now things are drying rapidly.

Special Activities

We welcomed the visit of Assistant Director Tolman and Regional Director Tillotson this month. Two days, March 28 and 29, were spent showing them around the area and discussing problems.

Assistant Regional Director Davis and Chief Clerk Castellum made an inspection trip to the area April 11. This gave them a chance to see us at our busiest season.

With the slowing up of travel and by drafting the Superintendent's wife for museum contact duty, we were able to get in one camp trip. An exploratory trip was made into the Arch Canyon and Bull Pasture areas and we were really struck with the outstanding scenery of these canyon areas. Even we have not fully realized before some of the attractions we have in the monument.

The "desert peaks" section of the Sierra Club of California visited Organ Pipe on their annual Easter trip. All assistance possible was given the 62 members present to enjoy their one-week visit.

Three peaks, Diaz, Santa Rosa, and Montezuma, were climbed. An attempt was made to climb Kino peak but due to time and the inexperience of some of the party, they were unable to reach the top.

Interpretive Service

With the loss of our temporary rangers April 1, we have really been swamped this month. 2,715 persons received interpretive service at the headquarters and on conducted trips. Slides were shown and talks were given campers by the Superintendent and Ranger and two illustrated lectures were also given by Josef Muench.

Research and Observations

Max Hensley continued his research on ecology during the month and gathered much interesting bird information for the records.

During the conducted trips with the Sierra Club three complete pots were found in the Cement Tank area. They were brought in for the museum and are awaiting the visit of an archeologist for identification.

Several new plants were found on the exploration trip into the Ajos. A new hedgehog type cactus was found in Arch Canyon which we are unable to key out and believe to be new. It has one of the most beautiful flowers we have seen yet.

A specimen of Green Rock Rattlesnake was collected in Arch Canyon. It is new to the area and extends the range of this species.

Travel

While April is always our busiest month, we set a record this year with 12,853 visitors through the area with 960 camping during the month. This is an increase of 2,238 persons over April of last year.

Publicity

Organ Pipe flower forecasts were carried in Desert magazine and broadcast on the Richfield Oil Radio program.

Mr. and Mrs. Harold Weight spent several days on the area collecting material and pictures for a magazine article.

Wellknown photographers visiting the area for publication pictures included Josef Muench, Don Ollis, Harry and Ruth Crockett, and Captain Williams.

Considerable publicity was given the area in the newspapers over the selection of a name for the new postoffice and settlement at the Port of Entry. While Lukeville seems to be leading, many other names have been suggested.

Accidents

On April 11, the two-year old son of the Nolans, members of the Sierra Club, wandered off but he was found unhurt two miles from the camp after about a one-hour search.

Our usual cow accident occurred on March 28 on the highway. A cow was struck and killed by a car three miles south of headquarters. No personal injuries were sustained.

Personnel

Superintendent Krauser and family returned to Navajo National Monument March 31, after his winter assignment here.

Personnel

Seasonal Ranger Rasmussen was terminated March 31, due to lack of funds.

William R. Supernaugh,
Superintendent.

Saguaro National Monument
Tucson, Arizona

April 25, 1949

MEMORANDUM for the Regional Director,
Region Three.

There follows the monthly narrative report of activities at Saguaro National Monument for April 1949.

General

Intermittant showers during the early part of the month tended to decrease travel for a few days. Since April 2nd there has been a steady flow of heavy travel for this time of the year. Travel figures show a substantial increase over the corresponding month a year ago. The maximum temperature reached 87 degrees on several occasions.

The wildflower display improved during the month, but was not so spectacular as in some areas farther west. The first cactus (Strawberry hedgehog) blossomed on April 10th, thirteen days later than last year. We expect an outstanding display of cacti blossoms during the next six weeks. Some of the Saguaros are budding now.

A thunder shower of light intensity occurred over Redington Pass north of Mica Mountain on April 19th.

General preparations for the forthcoming fire season are in progress.

Special Activities

The Superintendent attended the Inter-Regional Fire Control Training Conference held at Grand Canyon National Park from April 4th to 8th inclusive. The conference was excellent and much valuable information for the field man was derived. The Superintendent also spent two days in the Regional Office discussing administrative matters with various department heads.

Inspections

Mr. Tolson, Assistant Director, and Mr. Tillotson, Regional Director, were here on a general inspection tour on March 26th.

Assistant Regional Director Davis and Chief Clerk Castellum were here over the period April 15th and 16th to discuss land matters and fiscal accounting with the Superintendent.

Status of Lands

Assistant Regional Director Davis and the Superintendent attended a meeting of the Saguaro Land Committee on April 15th for a discussion of land acquisition problems. A special report on the minutes of the meeting was forwarded to the Regional Director.

General Publicity

An article giving an account of the Saguaro Land Committee meeting was carried in the April 16th issue of "The Arizona Daily Star".

Maintenance

Maintenance work was concentrated on the lower portion of the Madrona-Grass Shack Trail during the first half of April. There is still about three-quarters of a mile yet to complete on the relocation of this trail.

The Spud Rock pasture fence was repaired and strengthened for use during the coming fire season.

Maintenance of the mountain telephone line was completed and new batteries were installed in all telephone sets.

Approach Roads

An article appearing in the March 31st issue of "The Arizona Daily Star" gave notice of a proposed paved road to Saguaro National Monument following the route of the Old Spanish Trail from east Broadway.

The Broadway approach was in good condition for most of the month.

Interpretive Service

A total of 1714 people in 544 parties were given interpretive services at headquarters for an average of 15 per party.

Increase or Decrease in Travel

Travel figures show a decrease of 66 persons as compared with last month and an increase of 814 persons over the same month a year ago. A total of 2924 persons in 721 cars visited Saguaro during the month. Total visitors for the travel year, 16,078.

Visitors

Chief Ranger Morley, Carlsbad Caverns National Park
Chief Ranger Sholly, Big Bend National Park
Dr. Margaret Kemp, Smith College, Northampton, Massachusetts
Mrs. George McCord and Dean Tillotson, sister and son respectively of Regional Director Tillotson
Kay Doering and Ambrose Flinnique of "Life" magazine.
General and Mrs. Concoigne, British Diplomatic Corps, Washington, D.C.
Mr. and Mrs. GunnarSeidenfaden, Danish Embassy, Washington, D. C.
Erick Seidenfaden, (Chief Editor), Copenhagen, Denmark
Dr. W. J. Follett, Curator of Fishes, California Academy of Sciences, San Francisco, California

Wildlife

One group of visitors observed 15 javelinas on the loop road.

Three species of orioles were observed in one day at headquarters including Scotts', Hooded, and Bullocks.

Harris ground squirrels succeeded in eating most of the buds and flowers of the Strawberry hedgehogs on plants in the arboretum. They seemed particularly fond of the pistil.

Ranger Servicing

Ranger Wilde spent the latter part of the month supervising preparations for the summer forest protection program.

Due to heavy travel and the necessity of maintaining constant interpretive services at headquarters, Ranger Frost will be retained on duty status until May 15th.

Forest Fire Protection

Six head of mules were brought in from pasture in order to condition them for the coming fire season. The other six were brought in on April 20th and taken to Spud Rock pasture to remain there until they are needed.

The U.H.F. and mid-range radios have been checked and taken to Nanning Camp and Mica Mountain Fire Tower.

The SP-4, Senior Fire Control Aid is scheduled to go on duty May 1st.

Samuel A. King
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

~~Wupatki~~ NATIONAL MONUMENT

~~Flagstaff, Arizona~~

~~April 28~~ 19 49

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Sunset Crater National Monument for the month of April, 1949:

Weather: The month was dry at Sunset with the exception of a few light showers. Wind continued to blow most of the month which is not unusual for this time of the year. At least enough of the snow is gone so that a person can get into the area for the first time since January. The precipitation record for the winter months at Sunset was lost, as wind had blown off the snow catchment pipe.

Roads: After 3½ months of being closed by snow the roads are once more open. Even though it was a record snowfall, the melting caused little damage because the road was put in shape late last fall. The entrance off of Hiway 89, however, is still a problem because there is inadequate drainage. The road along the base of the crater and through to Wupatki was fine bladed and is in relatively good shape through the cinders.

Travel: Visitor use this month showed an increase of 10% over that of last year. Registration was 805 persons which is considered to represent only 40% of the total travel.

Road Maintenance: Five days were spent at Sunset Crater on road maintenance blading the entrance from Hiway 89 and six miles of the approach to Wupatki over the back road.

General: A survey of the east fire road was made to acquaint Ranger Reynolds with this portion of the country.

NPS Visitors: Assistant Regional Director Davis visited the area on April 2, being one of the first to enter the parking area section in a car.

David J. Jones
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
TONTO NATIONAL MONUMENT
ROOSEVELT, ARIZONA

April 25, 1949

MEMORANDUM for the Regional Director, Region Three.

Following is a report of activities at Tonto National Monument for the month of April 1949.

Weather During the early portion of April some light rain was had. Days got dryer and hotter until the present with temperatures well into the high 90's.

Approaches to Monument Both portions of the Apache Trail are dusty and rough. The state highway department now has two trucks on the section to Globe and resurfacing work is under way so this section should improve considerably. Ab Sanders, State Grader-operator, graded the monument approach on March 30, but with lack of rain it soon relapsed into its usual rough state.

Interpretation The museum was open all month and guide service was available each day. This was possible by having Ranger Sam Orem with us throughout the month during Supt. Sharps absence.

The Grand Canyon film was shown to some 50 people at the Roosevelt Community Club House on April 1st.

Special attempts were made during the month of April to identify the numerous desert wild flowers in bloom as an aid in interpreting the flora of the area.

Travel April brought some 2,415 visitors in 646 vehicles to the monument. This is a decrease of 220 from March and an increase of 240 over April of 1948. The travel trend has been more toward local people with spring fever of late.

Personnel Superintendent Sharp and wife left on annual leave the 28th of March. It was necessary for Mrs. Sharp to go to a Denver specialist for a deliente mastoid operation on the 2nd of April. The operation was successful and Mrs. Sharp is recuperating nicely. Sam Orem has remained on duty as labor-leadman during Supt. Sharps absence. Society Note: Mrs. Charles C. Sharp has been elected president of the Roosevelt Women Club.

UNITED STATES

Visitors

March 25. Ray Carlson, editor of Arizona Highways, and Herb. McLaughlin, photographer.

March 31. Regional Director Tillotson and Assistant Director Tolson.

April 10. Prof. Harry Getty of the University of Arizonas Anthropology Dept. and 9 students.

April 16. Dr. Frank C. Hibben, Mrs. Hibben and son Pat of the University of New Mexico Anthropology Dept.

April 17. Assistant Regional Director John Davis.

April 21. J.H. Brannon of the Public Roads Administration on a survey for the N.P.S. of the monuments roads.

cactus.

Wildlife. The hedgehog/has started to bloom this past week. Sacrifice Mariopa lilies began to bloom the 18th of April. The lower ruin cave is now inhabited by 2 Ravens; 8 Say's Phoebes; 8 White Throated Swifts; 3 Chipmunks; and innumerable bees, mice and lizards. The Hooded Orioles have started nest building in the eaves of Supt. Sharps home. Nesting activities of Phoebes, Phainopeplas, Ravens and Palmer Thrashers have been observed throughout the month.

Maintenance. Much time has been spent on repairing the badly frozen water line to the cattle tank at the north monument boundry. Orem has also spent considerable time covering portions of exposed water line between the dwellings and the spring.

Lloyd M. Pierson
Acting Superintendent.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Tumacacori National Monument
Tumacacori, Arizona

April 25, 1949.

MEMORANDUM for the Regional Director,
Region Three.

Follows the monthly narrative report for Tumacacori National Monument for the month of April, 1949:

WEATHER CONDITIONS: Precipitation was .38, which is an average for the past 11 years in this vicinity. Maximum temperature of 97 occurred on April 24, minimum of 27 on March 30. Last freeze was on April 8. Flower displays in the hills are fair.

INCREASE OR DECREASE IN TRAVEL: The visitor total of 2,825 makes the second highest April total in Tumacacori history, contrasted with 4,080 persons in April of 1939. The latter figure may or may not have represented a record of normal travel, for it was in that month the museum building was dedicated. The dedication drew approximately 1,000 people, and an Easter ritual on the grounds in the same month drew hundreds more.

For the first time since last October Tumacacori travel shows travel increase as compared to similar months for the past year.

INTERPRETIVE SERVICE: 1,389 persons went on 216 guided trips through the mission church and grounds, receiving an average of 34.9 minutes per trip. 2,677 persons received combined information and interpretation service, and 8,665 saw the museum and patio garden.

INSPECTIONS: March 26 - Assistant Director Tolson and Regional Director Tillotson.

April 12 and 13 - Assistant Regional Director Davis and Chief Clerk Castellum.

VISITORS: March 28 - Ranger and Mrs. Al Schroeder, of Montezuma Well, and Mr. and Mrs. Bob Frost.

March 31 - 18 pupils of the Tucson County Day School and 4 teachers, studying Spanish and S.W. history.

April 8 - Mrs. Joe McCord and Mrs. Dean Tillotson.

April 19 - 38 pupils of the Phoenix Junior College Spanish class visited the museum and garden.

April 22 - Dr. and Mrs. Howard K. Gloyd. He is director of the Chicago Academy of Sciences.

April 23 - 38 Latter Day Saints women on a special tour of Arizona.

PUBLICITY: April 6 - J. N. Locke, photographer for the National Geographic Society, took pictures which may partially illustrate a forthcoming article on Sonora by Frederick Simpich.

April 9 - Alfred Murray, lecturer, took photographs.

MAINTENANCE: Cylinder, sucker rod, and column pipe of the pump were pulled. The double-action cylinder was taken completely apart, thoroughly cleaned, new leathers installed, rubber washers re-faced, and the lower check valve seat was given a new rubber washer and the brass seating re-faced. Leaky breather screens were repaired. The pump is now working excellently. To our great surprise, the water was only 23 feet below ground level in the well. Low water mineral stains on the pipe are only about two feet below present water level. This is very encouraging to us, and indicates we probably have a sufficiency of water for some years to come.

The incinerator was plastered on the outside, to arrest weathering on the adobes. One trip was made to Tucson to obtain emulsified asphalt for trail work. At this writing bituminis and gravel have been applied to most of the trail leading from the patio garden to the two residences. The road-end behind the ranger house has been converted into a gravelled terrace. A cement and masonry curb has been installed just north of the view-room museum entrance, to prevent the trail breaking off into tree watering holes. Routine maintenance, pruning and fertilizing have been kept current, and a great deal of watering done to plants.

PERSONNEL: Laborer Ramon S. Orozco entered on duty April 11, to work essentially on trails.

Ranger Brewer has taken one day of sick leave.

No annual leave was taken.

EQUIPMENT: When Messrs. Davis and Castellum arrived they brought us a long-needed adding machine by transfer from Casa Grande National Monument.

ACTS OF GOD: On March 29 a large chunk of original plaster fell from the east end of the south wall of the corridor leading from the sacristy to the patio area east of the mission church. A couple of square feet of plaster broke entirely into bits when it fell.

LAW ENFORCEMENT: On April 6 the superintendent had a long discussion with Judge Gordon Bailey, of Nogales, who is U.S. Commissioner for the county. Complete details of necessary action were laid out in connection with handling vandalism cases here, and, what is more important, the judge assured complete sympathetic cooperation in handling cases which may represent violation of the Antiquities Act. Insofar as the law allows, he apparently will go along with us.

GENERAL: Ten years ago Santa Cruz County, through its chamber of commerce, erected several roadside shrines along the Tucson-Nogales highway, each containing a statue of an historic early priest, and

commemorating the quadri-centennial of Fray Marcos de Niza's entrance into Arizona. During the years casual vandals have mutilated the statues, and recently some creature or creatures in human form splashed the faces and robes of the statues with red enamel. The superintendent called this to the attention of Hanson Sisk, publisher of the Nogales Daily Herald and President of the Pimeria Alta Historical Society. The result was a blistering editorial against such types of vandalism, and a statement by Mr. Sisk that he would take up the matter of cleaning up the statues with the Society.

On the evening of March 30 a special meeting of Cub Scout Pack 46 was held at the museum. As Cubmaster I took the boys, on two groups, through the mission church by lantern light. Afterward, in the museum, the boys had a ten minute written contest to see who remembered the most of the mission story I had told them. We were quite pleased with the amount of information the boys had soaked in.

All in all, the monument is ticking quite busily along, and in good shape.

Earl Jackson,
Superintendent.

TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA.

April 28, 1949.

MEMORANDUM for the Regional Director, Region Three.

Following is the monthly narrative report for Tuzigoot National Monument for April, 1949.

Travel Data:

This month brought the amazing total of 2080 visitors as compared with the previous April high of 1727 for 1948. This figure broke all recorded records for any corresponding period. However, the current travel year is still slightly under last year, due to the past severe winter months.

Weather:

Ideal. Wind down to a minimum - which probably accounts for the heavy visitation this month.

Guide and Contact Service:

Museum, ruins and orientation contacts totaled 4685 for the month. 1810 people in 55% parties were shown through and given an orientation lecture in the museum, and 1828 people in 555 parties made the trip through the ruins. Average time spent by each party in the museum and ruins was 21 minutes.

Personnel Time:

Museum: 186 hours, 45 minutes. Ruins: 187 hours, 10 minutes. Total time for Bright: 200 hours, 5 minutes. For Richert: 173 hours, 50 minutes.

Publicity:

A technicolor movie short was filmed recently by the Jam Handy Organization, Detroit, Michigan, featuring Tuzigoot and the Oak Creek Canyon - Verde Valley area. Local people were used for the few acting parts. The movie was made for General Motors and will be distributed through Chevrolet dealers all over the country, and shown to civic clubs, church group and other audiences.

N.P.S. Visitors:

Ass't. Director Tolson and Regional Director Tillotson on April 1, and John Davis on April 18.

Con't. on page 2.

TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA.

(PAGE TWO)

Continued from page 1.

April 26, 1949.

Special Activities:

Something new has been added to this Ancient City. The first annual Easter Sunrise Service sponsored by the Methodist Youth Fellowship of Clarkdale Community and Haven Methodist Churches. Services started at 6:30 Easter morning by a 30-voice young peoples choir. The service was open to the entire Verde Valley Community and a large group attended.

Pictures:

A 45-minute talk was given, by the Sup't, to a Father and Son Indian-guide Club, from Redlands, California. They have a membership of 70 who have adopted as their tribal name "The Tuzigooters". The group made the 800 mile round-trip to see the monument and camped during the night of April 9 at a nearby lake, at which place the campfire talk was given.

Approach Road:

We would like to mention the excellent cooperation we are receiving from the Yavapai County Highway Division. Mr. Ersel Garrison, County Supervisor, stated that he, and other business men in the Verde Valley, deeply appreciate the tourist trade Tuzigoot is bringing into the area, and that he definitely intends to see that the monument entrance road is given top priority and kept in first-class condition.

Maintenance:

Long sections of the flagstone trail leading to the ruins were seriously damaged, in January and February, due to constant freezing and expansion. Several days were spent cementing the loosened stones back into their original positions, and a few more days will be required before the project is completed. Antifreeze was drained from the Government pickup, and the radiator and engine block was given a thorough flushing, with a cleansing solution, in preparation for summer driving.

Superintendent.

Walnut Canyon National Monument
Flagstaff, Arizona

April 25, 1949.

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly narrative report of activities at Walnut Canyon National Monument for April, 1949.

Visitors this month, 1259; travel year to date, 2422.

General An unusual phenomena occurred on April 14 when a sizable stream of water said to be the first since 1937 came down Walnut Canyon. This is too deep to be crossed easily on foot and is still flowing. Lake Mary, which catches the runn-off into Walnut Canyon, is full to overflowing which accounts for the stream. Flagstaff residents report that numerous trout escaped over the barriers at Lake Mary and may later be stranded in Walnut Canyon when the stream dries up. An attempt was made to get pictures of the water in both black and white and Kodachrome.

Administration A pumice loading plant located near where the Walnut Canyon water line goes under the Santa Fe railroad tracks is being re-activated. Activities are being watched to see that they do not endanger the water line.

A meeting was held April 9 concerning a revised contract for water from Flagstaff supplied through the Eldon Water and Pipe Line Users Association. This was attended by Chief Clerk Castellum, Ranger Leding, Mr. Paul Babbitt representing the water users and Mr. Pulliam, City Clerk, Flagstaff. According to a ten year contract expiring in November of this year the Eldon Water and Pipe Line Users Association has been obliged to sell water to Walnut Canyon at 65¢ per thousand gallons while it cost the water users more than three times this much. It has been recommended that the city of Flagstaff credit the Water Users with the differential. It appears that an equitable agreement has been reached.

Ranger Aubuchon briefed Hastings on the maintenance of the telephone and water systems. The seven miles of water line was traversed with the location of 17 air release valves and five meters for permitees noted. Aubuchon did a good job in acquainting Hastings with the general location of various utilities, valves, outlets, etc. and the operation of the systems.

The inventories of all tools and equipment were checked and accountability transferred to Hastings.

On April 19 there was a meeting between Assistant Regional Director Davis and Mr. Fred. M. Wilgus, local manager of the Arizona Electric Power Corporation concerning commercial power for Walnut Canyon. The installation expected to be completed in November, 1947 may be completed this fall.

Personnel Former Superintendent Beaubien's household effects were moved by van on March 28 after considerable delay due to deep snow.

Ranger Loding was in charge at Walnut Canyon April 3 to 9 while Ranger Aubuchon went to El Morro to get acquainted with the area.

Superintendent Hastings transferred from Montezuma Castle to Walnut Canyon on April 11 and Ranger Loding from the same area on April 19.

On April 18 Ranger Aubuchon transferred to El Morro to become Superintendent of that area.

Visitors The 1259 visitors reported for Walnut Canyon this month includes only those who registered or were contacted. No estimate has been added for those who came but did not register. The percentage of contacts was very low due to the personnel being occupied with packing or unpacking, learning the location and operation of various utilities, etc.

Maintenance One of the two Onan light plants was overhauled on April 15 and failed to start after about two hours of cranking. A mechanic from Flagstaff was able to start it only after returning to town for a mechanical cranking device. We have since usually been able to start it with difficulty.

The drain from the septic system was found to be completely obstructed and was cleaned.

Brass plates were made to cover the locks on both restroom doors and the door from the museum lobby onto the point so they could not be locked accidentally.

Decal number were attached to several pieces of equipment for which the numbers were on hand but had not been applied.

Protection New 2 qt. carbon tetrachloride extinguishers were installed in both the Dodge and International trucks.

H. P. S. Visitors Assistant Director Tolson and Regional Director Tillotson visited the area on April 2. The new road grader assigned to Navajo was being held at Walnut Canyon and it is reported that Mr. Tillotson drove the grader to help pull a car out of the mud.

On April 3 the following were here on their way to the fire school at Grand Canyon: C. E. Johnson and Irwin D. Kerr, Sequoia; Homer W. Robinson, Arthur Helms, and Louis W. Hallock, ~~Yellowstone~~; Jack Wade, Mesa V.

Regional Forester Clrlson visited the area on April 9.

Archaeologist Aid Rixey was here April 20 to pick up his car and some of the ruins stabilization equipment.

On April 19 Troy V. Strickland, Road Foreman and a helper were here from Petrified Forest to pick up a surplus compressor and pneumatic tools.

Rehabilitation Cleaning and painting is progressing is the ranger's quarters. Work in the hall is complete and is going foreward in the bathroom and living room.

Homer F. Hastings,
Superintendent.

Box 231, Alamogordo, New Mexico.

April 22, 1949.

MEMORANDUM for the Regional Director, Region Three.

APRIL TRAVEL, 1949 — TRAVEL YEAR TO DATE

Visitors, 18,177 Cars, 3,455 — Visitors, 110,349 Cars, 26,310

GENERAL: April proved to be a very interesting month in many ways. It surpasses, by a wide margin, any other April in our history, with 18,177 visitors in 3,455 vehicles. Its Play Day on the 9th surpassed any other in our history, as did Easter Sunday, April 17. It brought us heavy dust storms, snow storms, sleet, rain, a taste of what we may expect this summer, scouts for a movie location, the first White Sands Relays, and, although last but not least, by any manner or means, our D-12 Road Grader. On the darker side, it records our first accident involving our Operator General, Joe Shepperd. There will be a noticeable loss of man hours due to this accident.

PLANS, MAPS & SURVEYS: We had hopes of doing some work on our Master Plan, boundary studies, and a few patrols to check on some Army permits in our South and West portion of the Monument, but as yet very little has been accomplished on these projects. We did spend a few minutes going over a little of our boundary, but this was done on Play Day morning, when only a few minutes were available. We were able to survey a few obsolete pieces of equipment, the removal of which will tend to improve the looks of our Utility Area.

PUBLICITY: We never want for publicity, and the press throughout the Southwest featured our Play Day. Sports Sections carried accounts of the White Sands Relays, and the trophy awards were well publicised. The Holloman Air Field printed a nice program on our Easter Services, and, of course, the possibility of a movie setting always creates publicity. U. S. Highway No. 54 is holding a convention in Alamogordo, and here too, we are getting considerable publicity, all along Highway No. 54 from virtually Mexico to Canada.

COMPLAINTS: No complaints, written or verbal, have been received on either our Service or the Concession. Our Play Day arrangements this year embodied many suggestions made last year, and everyone seemed well pleased.

Superintendent's Narrative, continued.

ROADS & TRAILS: In spite of several severe winds, our roads have been in good shape the greater portion of the time. Our big event being the acquisition of a No. 12 Diesel Grader. Messrs. Meadows and McPherson from Grand Canyon delivered it to us, and it is really a big help. Some work was done on our trails recently and a portion yet remains unfinished. We hope to get some of this done before the summer season, but our prospects do not seem too bright at present.

CONCESSION: The White Sands Service Company is showing a gain on sales this month, although much of it may be traced to the increase of travel on Play Day. The over-all the first three months shows a loss, but, of course, our heavy travel is ahead.

RANGER SERVICE: Heavy travel has made the duties of our Ranger Service mostly clean-up, garbage and water hauling. Little time has been given to patrols or activities normally covered by the Ranger's curriculum. Clerk Cota has eased our load by his help in cleaning the Administration and Museum Buildings and relief at the checking station.

UTILITIES: Our Dog Canyon water source is holding up well, with little danger of any particular shortage this year. The Army source, seemingly, has played out more or less, and I see in the paper where the Army is to use Alamogordo City water once again. This may mean another shortage this summer, or at least it has been thus in the past. We have not heard any more on our getting REA power, but the last we heard it was still a possibility.

VISITORS: Early in the month we were surprised by a visit from Mrs. McCord and Mrs. Hunter, who, it seems, are taking in some of Regional Director Tillotson's charges. I got them part-way down a dune and made them promise to give us a good send-off before going all the way down. Both promised - hurriedly. Tilly's sister will soon take in all of the Region Three areas, which is quite a feat for a hoosier.

Associate Director Patraw and Clerk Pete Sunzo came down to help us on Play Day, as well as our good friends and neighbors, Superintendent and Mrs. Bowen of Gran Quivira. We certainly appreciate the help of these folks as we can certainly use help on Play Day.

SPECIAL ACTIVITIES: Of course, the big event of April is Play Day. This year Play Day was the best ever. We had 8,529 visitors in 1,729 vehicles ar Concession booths were much better

Superintendent's Narrative, continued.

We added a large shade to our picnic area where the "Old Timer's Reunion" was held. The Army had a nice display, consisting of a V-2 Rocket from White Sands Proving Grounds, buzz bombs, smoke signals, baloon ascents, a helicopter, and a jet plane. While the "Old Timers" were reminiscing on their coming into this country in ox carts, covered wagons, etc., the jet plane buzzed the crowd at 575 miles per hour. Quite a contrast to the ox cart speed.

Then, too, this year the White Sands Relays were held for the first time. A number of schools were entered and their coaches were high in their praise of the event. Many trophies were awarded, and the interest in keeping these cups will soon become greater as the event grows.

Not to be outdone by Play Day, Easter Service was well attended, and the day brought us well over 2,600 visitors. The Sunday before Easter we had a regular snow storm, and the day after Play Day was also adverse. I guess we lived right this year.

ACCIDENTS: We had the misfortune of our worse employee accident in our history. Joe Shepperd, Grader Operator, broke his ankle when the front wheel of the D-12, which he was removing, threw him off balance, causing him to fall. The wheel fell across his foot. We regret this accident, but Ranger Chittum and his crews will keep our roads open, and we are looking forward to our usual regular traffic for the month of May which, although it will be less than the current month, it will be an increase over the same past like months. We will attempt to at least keep up, even if although we do not have any hopes of doing much catching up. We are interested in publicity in all conservation practices to compare with methods they have today. Needless to say, they were a most interesting and appreciative audience.

Operator Tom Co Tex Company has been by Johnwill Faris, who is formerly with Phillips in the Deep Well pipeline being Superintendent. Also freezing points in the Deep Well pipeline has been buried for the work early in the winter. All water at Deep Well has been buried for the next three months. The cattle are being moved closer to Salt Flat to eliminate this haul. Grazing during the past month has not increased much.

Visitors: NPS visitors included John Davis on the 2nd, and the following who attended the Fire School at Cowhill Canyon: Irvin C. Ferr and C. E. Hall, and Assistant of Sequoia National Park, Frank W. Childs, Section Park Grazing

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

April 26, 1949

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Wupatki National Monument for the month of April 1949:

Weather: Typical spring weather prevailed the entire month- little rain, some wind, maximum temperature 82°, minimum 32°. Precipitation totaled .51" which is about normal.

Roads: All approaches are passable and in fair condition. U. S. Hiway 89 has been patched extensively and we are told that the section from 66 to beyond Wupatki will require a new seal coat this summer. We think our roads within the Monument are in fair condition, but visitors complain about dust.

Travel: The travel season started with a boom. Visitor use increase more than 40% above last year and 200% above last month. At Wupatki 318 visitors registered and 221 at the Citadel. A total of 268 received guide service.

Public Relations: Three illustrated lectures were given during the month at the Flagstaff Rotary Club, 20-30 Club and the Flagstaff Soil Conservation Association. The latter group, made up of local farmers, were interested in prehistoric soil conservation practices to compare with methods they were using today. Needless to say, they were a most interesting and appreciative audience.

Grazing: The CO Bar Company has been having difficulty since January with leakage in the Deep Well pipeline because of the excessive freezing action early in the winter. All water at Deep Well has been hauled for the past three months. The cattle are being moved closer to Spider Web to eliminate this haul. Grazing during the past month has not exceeded 200 head.

Visitors: NPS visitors included John Davis on the 2nd, and the following men who attended the Fire School at Grand Canyon: Irvin D. Kerr and C. E. Johnson of Sequoia National Park, Frank W. Childs, Region Two; Charles

Humberger, Isle Royal NP and Ernest K. Fields, Rocky Mountain NP. It was a pleasure to have the opportunity to meet these men.

The Flagstaff High School Hiking Club visited Crack in the Rock Ruin early in the month, approaching the ruin from Wupatki Basin.

Personnel: April also was a month of many changes. The Aubuchons took off in a flurry from Walnut Canyon, but we are pleased to have the Hastings and Ledings close enough to have the opportunity of our getting to know them better. Ranger Reynolds drove our stake truck to El Morro transporting household effects and came back full of enthusiasm for Auby's new spot. Maintenanceman Bean is at present somewhere between here and Navajo Nat'l Monument to present Jimmy with his new motor patrol. Jones was on sick leave from April 3 thru the nineteenth to have a minor operation. He is still on the wobbly list, but at work.

Spring Flow: Wupatki Spring decreased from 1200 gpd to 1152, while Heiser showed an increase from 2880 to 3085gpd.

Road Maintenance: The primary effort of the month was concentrated on the road from the Earth Cracks to Hiway 89. Ninety three yards of cinder was hauled to lay down some of the dust. Experiments have shown that the fine material is better than coarse which is thrown out of the road by the cars. Eighty yards of clay was hauled on to rocky portions . The time element involved in hauling was checked. For a ½ mile haul the time elapse per load was 15 minutes. This included loading, hauling, spreading and return trip.

Publicity: An interesting article on our road problems at Wupatki and Sunset Crater appeared in the Arizona Daily Sun on March 28. Illustrated with a photograph of the new patrol working at Sunset, the emphasis was placed upon recent acquisition of the new equipment and the need for the additional appropriations to imporve the roads.

David J. Jones

NATIONAL PARK SERVICE

Region Three
Santa Fe, New Mexico

June 8, 1949

MEMORANDUM for the Regional Director, Region Three.

The following is the narrative report for the Naturalists of the Southwestern National Monuments for May, 1949.

Staff Activities, General

Naturalist Dale S. King was in the office the whole month; Archeologist Charlie R. Steen made one trip to Aztec Ruins and Chaco Canyon.

Interpretive Administration

Museum Curator Mary finished drawings for the Montezuma Castle booklet and the manuscript was completed by King and mailed to the Director May 6. King read page proof on the Sunset Crater two-fold leaflet; notified the Director of the number of desired reprints of the Geological Section of the Colorado River report; corresponded with Walnut Canyon regarding needed trail leaflets; and sent out the regular reminder to the field to check insect repellants in museum storage cases.

Progress of Exhibit Plans and Projects

Material in the library, mostly notes of proposed exhibits, was sent to Casa Grande for the use of the staff in planning.

King corresponded with Gran Quivira regarding a proposed wayside exhibit. Steen spent a great portion of the month preparing two display panels for the new exhibit room there.

Research and Observations

Mostly on personal time King finished the Nalakihu report and sent it to the printers on May 17. No Southwestern Monuments Association funds are involved in its publishing, which is to be handled entirely by King and the Museum of Northern Arizona.

Further correspondence was had with the Director and Canyon de Chelly regarding an application to collect study skins.

Cooperative Activities

King gave a talk illustrated by slides at the open house for N.F.F.b. and another short talk at a meeting of the Santa Fe Tourist Host School. Attendance was about 100 at each affair.

Loan Library

Accessions totalled 74, including 10 books, 38 pamphlets and 85 periodicals. The more important books received were:

Handlin, Oscar - This Was America, Harvard University Press, Cambridge, 1949. Accounts, by Europeans, of American life and manners from colonial times to the present.

Martin, Paul S., Rinaldo and Antevs - Cochise and Mogollon Sites, Pine Lawn Valley, Western New Mexico. Fieldiana, Anthropology, Vol. 38, No. 1, Chicago Natural History Museum, Chicago, 1949.

Prescott, William H. - Conquest of Mexico. Edited by Marshall McClintock Julian Messner, Inc., New York, 1948. Condensed version of the Conquest.

Southwestern Monuments Association

King spent 3/4 of the day, May 7, on personal time at San Ildefonso, and Santa Clara Pueblos making arrangements to take Association pictures of Indian activities. He obtained quotations from local printers on reprinting the Montezuma Well booklet and the mail book list.

An excellent series of photographs were received from Marvin Frost Sr. to be used in the next edition of "Poisonous Dwellers of the Desert."

Treasurer Vedder made the usual two deposits and one disbursement. This month: 152 covers, including 89 letters and 18 purchase orders.

Considerable time was spent on making an inventory on stock at headquarters, as he shall not be able to do it at the fiscal year end date of June 30th. Also some time was spent on doing bookkeeping in preparation for the year-end report. The usual time on the usual duties, except that the business reply cards are coming in faster now, and they have to be added and alphabetized. Luis Castellun cut over 1,800 stencils on new names.

A little over two days were taken on sick leave.

A small exhibition of the books published for the National Park Service was prepared for the open house for Federal employees and Santa Fe residents on the night of May 18.

Visual Aids

King wrote a letter to a manufacturer in an attempt to obtain file holders for 35 mm slides to revise and improve our filing methods.

Visitors

Superintendents Bowen and Aubuchon.

Unusual Activities

King prepared a letter to a conservationist who recently expressed criticism of interpretive work in the Southwestern National Monuments.

Ruins Stabilization

King prepared a letter to a visitor explaining preservation policies in respect to the small kiva formerly roofed at Aztec Ruins.

King and Steen wrote letters to collaborator Rutherford J. Gettens of Fogg Museum who will inspect paintings and plaster at Tumacacori Mission June 18.

Information received from Mesa Verde indicates that the deer repellant being tried at Colorado National Monument is not suitable to repel bats.

Steen transported Mobile Unit tools to Aztec Ruins and Chaco Canyon. The unit finished its planned work at Aztec Ruins and Archeologist Gordon B. Vivian moved to Chaco Canyon.

Aid to Administrators

King prepared the condensed report for Southwestern National Monuments.

Projects for June

King will prepare the general condensed report, supervise the reprinting of the Montezuma Well booklet and Association mail material, and will spend considerable time in the editing of two-fold leaflets and other government material.

Steen will go to Gran Quivira June 1 to install exhibits and to Tucson June 10 to accompany Collaborator Gettens to Tumacacori.

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

ARCHES NATIONAL MONUMENT
Moab, Utah

May 29, 1949

MEMORANDUM for the Regional Director, Region Three.

There follows a Narrative Report of activities in Arches National Monument for the month of May, 1949.

WEATHER: We received two good rains on May 12 and May 17. Three light rains fell over the Monument, but barely settled the dust. Local people tell me that it is just getting warm here, but the temperature has not lingered long in the cool range that I have been used to.

TRAVEL: Again the all-time record for any single month was broken by the arrival of 1684 visitors in 507 cars. This total would have been higher, but one weeks registration sheets at the Delicate Arch parking area were devoured by hungry cows. We are proud of our registered stock, but would appreciate it very much if they would refrain from making a box lunch out of our travel count.

INTERPRETIVE SERVICE: Contact time amounted to 46½ hours in which 647 visitors received information about the area. Sixteen letters of inquiry were answered.

NOTED VISITORS: Mr. Ray Garner, world renowned mountain climber, photographer and lecturer arrived on May 21 to spend six weeks photographing in the area. During a three-day cloudy spell, which halted his work here, Mr. Garner climbed Agathla Peak in Monument Valley. He and his two companions accomplished the feat in 25 hours and over one stretch of the ascent they gained only 500 feet in eight hours.

INSPECTIONS: Harold M. Ratcliff arrived on the evening of May 6. May 7 was spent checking livestock watering locations and driveways within the monument. May 8 Mr. Ratcliff went over all grazing permits and inspected Forest Fire equipment, electrical wiring and gas installations. He recommended that all fire hazards be corrected and this will be done as soon as money is available in our 1950 allotment.

ROADS: Monument roads have been in excellent condition during the entire report period. The two heavy rains did little damage and mainly served to compact any loose sand.

copy

GENERAL: Maintenanceman Winbourn spent five days on a trip to Casa Grande National Monument to pickup the front-end leader for Arches. One weeks work was all that was necessary to keep the roads in excellent shape. The patrol was brought in for servicing and the front-end leader was tried out here at headquarters by loading gravel for the utility area. With a few adjustments a great deal of material was loaded with this small piece of equipment. Maintenanceman Winbourn constructed a trailer hitch for the dump truck which can now be hauled behind the Patrol. This will save a great many hours of time and eliminate the assistance of another driver by having the two units together.

The old hay barn was moved and placed on a masonary footing beside the trailer house. If funds ever become available it won't take long to make this unit livable for Ranger Worthington and his family.

NATURAL BRIDGES NATIONAL MONUMENT: All equipment was hauled to Blanding for Natural Bridges National Monument on May 12. Our intention was to go on into the monument, but heavy rains made the road impassable. Mr. Wiley Redd was employed as laborer leadman to construct, paint and place six new road signs. The sign job was completed and Mr. Redd went off duty temporarily until the road is passable.

Bates E. Wilson,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

MEMORANDUM for the Regional Director, 24 May 1949
Region Three, National Park Service.

There follows the report of activities in Aztec Ruins for May 1949.

WEATHER: Windy, blustery days with generally clear skys have prevailed. We received slightly over 1 inch rainfall during this report period, and on the whole weather has been quite favorable for tourist travel.

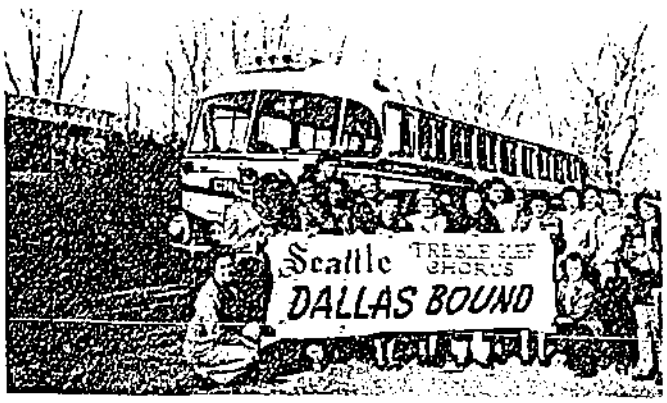
INSPECTIONS: Ken Saunders visited regarding the repair to the new residence and the removal of the old residence, 28 April.

Charlie Steen visited the 3 May and with Gordon Vivian inspected the East Ruins in this area for needed repair.

PLANS, MAPS: The Regional Office prepared plans for landscaping the area surrounding the new residence.

MAINTENANCE. Carpenters in applying the plaster board in the kitchen of the new residence drove a nail thru one of the copper pipes of the water system, resulting in damage to cabinets and wall plaster. The domestic water pump required some attention due to faulty circuit connections. The boundary fence, along the Hubbard Mound Area, is complete. We are currently recovering the leaking portions of the great kiva roof and making repairs to other roofs in the ruins area.

New CONSTRUCTION: The crew under Gordon Vivian have completed their stabilization in the East Ruins, completeing a roof over two adjoining rooms that were stabilized.



INTERPRETIVE SERVICES. There were 1131 visitors in 199 groups shown the museum and 807 visitors in 112 parties conducted thru the ruins.

INCREASE IN TRAVEL. We have had a 6.4% increase in travel with 1131 visitors from 35 states, Alaska, Canada, and Chili, England and Uraguay.

VISITORS: B. K. Neddy, British Consul, Denver; Walter Bryant, Indian Service, Toadlena, N.M.; Chas. Hearing, Ind. Service, Wash. D.C.; Mr. and Mrs. James Cole, Land Office Southern Union Gas Co.; Mr. and Mrs. Van Soelen, School of American Research and Museum of New Mexico; and in addition we enjoyed school classes from 8 different schools in New Mexico, Colorado, Texas and Utah.

Irving B. Townsend,
Superintendent.

AZTEC

One interested group from Washington

The Ignacio, Colorado Indian School, senior class. A yearly event for this school to visit Aztec Ruins as it is for some 10 to 15 other schools in the "4-Corners" country.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

May 29, 1949.

Memorandum for the Regional Director, Region Three.

There follows a report of the activities at Bandelier National Monument for the month of May, 1949.

Weather

The weather throughout the month was generally very pleasant with temperatures ranging from 34 degrees on the 20th to 88 on the 24th. The average minimum temperature was 43 and the average maximum 75. There were three thunderstorms that brought 1.05 inches of moisture during the month.

The good weather brought out an unusual number of visitors for this early in the season and the campgrounds were overflowing on weekends.

Special Activities

The Superintendent spent some time this month meeting with officials of the telephone company and Atomic Energy Commission relative to the construction of a telephone line on the power line poles between headquarters and White Rock camp. A meeting was held on the 26th in the Forest Service office in Santa Fe that was attended by representatives of the Forest Service, Park Service, A. E. C., and Telephone Co. Construction has started on the line and we are assured of an emergency connection on to the Mountain States lines in three or four weeks. The permanent connection will be delayed until the switchboard at White Rock is installed.

Maintenance

The water system intake became so badly filled with silt that it was necessary to dig it out and clean it. One section of the intake pipe was replaced with tile and new gravel was repacked around it. It was necessary to pack the gravel for about one mile on mules from the end of the road to the intake.

The refrigerators at the lodge were all checked and put in good working order.

DEFENSE
BUY UNITED STATES SAVINGS BONDS AND STAMPS

An electric line was run from the power house to the fire lookout to provide power for a radio that was loaned from the A. E. C.

The patio at the lodge dining room was repainted and a second coat of paint was put on the comfort station floors.

Approach Road and Trails

The approach road stayed in good condition with the exception of being dusty. Earlier grading proved its worth when rains drained off rapidly and did not cause bad spots.

The trails to Caplin Canyon, Upper Crossing, and Rio Grande were checked and made passable by removing downed trees and rock slides.

The first part of the ruins trail was given a treatment of dust pallative with Sani-Soil Set, a product of the Gulf Oil Co.

Concessioner

The season has started out rather poorly for Frijoles Canyon Lodge although it is a little better than last year. There were a total of 115 lodgings as compared with 93 for a year ago.

Some difficulty has been experienced with getting a chef for the lodge kitchen. The first two stayed about one week each but the present chef seems to be more dependable.

Interpretive Service

A total of 139 trips with 1913 visitors were guided through the ruins. 2553 persons received interpretive services which included the museum and Trails to Sankawi.

Cooperating Non-Government Agencies

Approval was received for continuation of the Archeological field school from Adams State College, Alamosa, Colo. A meeting was held with A. E. C. officials, that was also attended by Professor Norman, concerning areas under Commission jurisdiction on which the archeological survey will be allowed this year.

DEFENSE BUY UNITED STATES SAVINGS BONDS

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

Travel

Travel increased considerably this month over any previous May. There were a total of 4585 visitors as compared with 3019 for a year ago. This is the greatest number of visitors ever to be checked in in May and even exceeded the travel for July, 1948.

The largest travel for a single day in the history of the Monument occurred on the 22nd when 708 visitors were checked in. This exceeded the previous largest day on August 8, 1948 when 683 visitors entered the Monument.

Visitors

The annual instruction meeting for 300 Atomic Energy Commission scientists from all over the country was held at Los Alamos this year. They visited the Monument on the evening of May 5 for a buffet supper at the Lodge. Just before the supper they were conducted through the ruins on a special tour that was arranged for the occasion.

Mr. and Mrs. Max Waibel and Mr. and Mrs. Max Hussmann, military attaches from Switzerland visited the area on the 6th.

School parties from Las Vegas, El Rancho, Los Alamos, Santa Fe, Pojaque, Espanola, and Santa Cruz visited the area during the month.

Ranger Service

W. A. E. Guide S. J. Thomas was entered on duty on weekends starting May 14 and will be converted to temporary ranger about June 1.

Fish Cultural Activities

4000 legal size rainbow trout were released in Frijoles Canyon on May 10.

Forest Fire Protection

Three fire control aides were entered on duty the first of the month. They were Augustine Pino and Cresenico Toribio, Zia Pueblo, and Jerry Hall, Santa Fe. A number of lighting storms

DEFENSE
BUY
UNITED STATES SAVINGS BONDS

occured on the Monument but no fires were started. Cooperation was given the Forest Service on locating some fires in the Santa Fe Forest.

A radio was installed in the fire lookout that was loaned by the A. E. C. This gives direct communication with the Los Alamos fire department and speeds up the reporting and locating of fires by both agencies.

Insect and Tree Disease

The first spraying of the season for tent caterpillars was done on the 23rd. Wettable DDT was used and the campground area was covered at the rate of 1/2 pound per acre.

Personnel

Mr. Prod W. Quesenberry, Jr., Albuquerque, New Mexico, entered on duty as clerk on the 2nd. He spent a week in the regional office to receive training on Park Service procedure. We are very pleased to welcome Mr. Quesenberry to the Park Service family and wish him success in his new position.

Canyon de Chelly National Monument
Chinle, Arizona

May 25, 1949

MEMORANDUM for the Regional Director, Region three.

The following is a report of activities at Canyon de Chelly National Monument during the month of May, 1949.

Weather

Most of the month was cooler than normal with a minimum temperature of 28 degrees. However it has warmed up considerably the last week and the maximum temperature was 87 degrees on May 24th. The Canyon streams have continued running quite a flow of water. We have not yet ventured a trip in. Usually we make our first try between the first and fifteenth of May. There have been several good rains in the higher elevations, but moisture at headquarters measured only .21 inches. This is more than usual for this month. We had several windy days, but even the wind was more kind to us than it has been in past years.

Administration

One day of annual leave was taken by the Superintendent. On May 9, a trip was made to Casa Grande National Monument to pick up surplus equipment and the return was made May 12. Administrative duties have been kept current. Horse patrols were made to Antelope House. and apatrol trip was made to the peninsular area between the two Canyons.

Maintenance

Maintenance work has taken the greater portion of our time this month as weather conditions did not permit much of it to be done earlier. The Sewers were completely cleaned. Plaster repairs made to the headquarters buildings, Ranger quarters repainted on the outside. Roof repairs are almost complete with the east garage and tool shed being recoated with bitumels. Flagstone has been hauled and repairs to curb and walk in front of head quarters has been started. Drake repairs were made to I-15606,aNd equipment has been cleaned and greased.

Soil and Moisture

1,000 small trees were obtained from soil conservationist Armstrong of the Indian Service and planted on each side of the dam at the mouth of the Canyon. Repair work will be made at antelope house as soon as we can get in with equipment. There will not be the amount of work necessary that we anticipated.

Insect Infestation

The Cottonwood leaf beetle has again made its appearance in large

Insect Infestation (Cont'd)

numbers. We will take some control measures before the next hatch if the Indian Service sprayer is available for our use.

Travel

Travel compares favorably with that of other years and has increased over the corresponding period last year. Roads have not been too good. The inaccessability of the canyon has probably had some deterring influence.

Visitors

Mrs. H.C. Briant and her friends Mr. and Mrs. Woegee. Mr. Garfield Horner and wife of the Sierra Club. Canado High School Seniors, Mrs. C.C. Salisbury, and son, Chalmers. Rehoboth Mission School.

General

While the Superintendent was on leave at Mesa Verde National Park, Ranger Morris was called to help with the burial of an elderly Navajo woman and was thus initiated into one of the extra-curricular duties that often befall employees here. He obtained lumber from the Indian service, constructed a coffin, helped prepare the corpse for burial and helped dig the grave. He then witnessed the brushing out of tracks and the burning of the Hogan.

Government publications on Hand

NATIONAL PARK SERVICE
SOUTHWESTERN NATIONAL MONUMENTS
~~COOLIDGE, ARIZONA~~
Capulin, New Mexico

5-27-49

MEMORANDUM for the Regional Director
Region Three, National Park Service
Santa Fe, New Mexico

There follows the narrative report for Capulin Mountain National Monument for the month of May, 1949:

Visitors: There were about 1,500 visitors to Capulin Mountain National Monument during the month of May, making a total of ~~xxxxx~~ nine thousand, three hundred for the travel year and twenty nine thousand, one hundred visitors for the fiscal year.

Weather: Have had very seasonal weather during the month of May, with about four inches moisture. Eight cloudy days and fourteen partly cloudy days have been recorded during this period.

Flora and Fauna: Indian paint brushes, blue bells, lupines, yellow sweet peas and many other flowers are in full bloom in all the Monument area now, and all animal life seems to be faring splendidly.

Roads and Trails: All roads and trails in the area are in fine condition, and the cattle guard at the entrance of the Monument area has just had a complete overhaul job by the Superintendent.

Information Pamphlets: About three hundred information pamphlets have been distributed by the Superintendent during the month of May. Two hundred were sent to the Regional Office, Region Three, Santa Fe, New Mexico. Received 15,000 pamphlets in the month of May. Have about ~~17,000~~ 15,200 on hand at the present time.

Very respectfully,

Homer J. Farr
Ranger

NATIONAL PARK SERVICE
REGION THREE OFFICE

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

May 25, 1949.

MEMORANDUM for the Regional Director,
Region Three.

There follows the narrative report for Casa Grande National Monument for may, 1949.

General: The hot weather is a leading topic of conversation in this area now. Our travel has dropped considerably with the rising temparatures and many visitors are content to see only the museum as they feel it is too hot to make the trip through the ruins. Practically all the cotton is up now and farmers are busy thinning out the young plants. Many of the farmers are complaining about the weather as the nights have been a little bit too cool for good cotton crops.

Weather: Only the latter part of the month has been uncomfortable due to hot weather but there is no longer any doubt that soaring temperatures are here to stay forthe next few months. The maximum was 105 with a low maximum of 84 and a minimum of 45. No rain occured this month.

Visitors: May 1949 - 1,939: May 1948 - 2,197: Travel Year to date - 25,182: Travel year to date 1948 - 30,810. This month shows a decided drop in travel which is dun in part to the advent of hot weather and also the fact that travel this year has not been up to par with that of previous seasons.

Interpretive Service: Of the 1939 visitors to the area, 1112 made the trip to the ruins in 144 groups averaging 43.9 minutes per trip. 827 were here for a quick look but did not go through the ruins.

N.P.S. Visitors and Visitors of Note:

April 27 - 28 Pima Indian Children, 3rd, 4th and 5th grades from the Pima Day School at Sacaton.

April 30 - Dr. H. K. Cloyd, Director of the Chicago Academy of Sciences, and Mrs. Cloyd were dinner guests of Ranger and Mrs. Arnberger.

May 9 - Merle E. Winbourn, maintenancemman from Arches National Monument, and his mother were here to pick up the tractor for Arches.

May 10 - Mrs. Bertha P. Dutton of the New Mexico Museum at Santa Fe.

Supt. Meridith Guillett of Canyon de Chelly National Monument was here for the better part of two days to pick up supplies and equipment.

May 11 - 25 4th grade students and 6 teachers from Kenilworth School at Coolidge.

Administration and Protection: The Adamsville site was checked for vandalism. Eight requests for information were answered. The Superintendent is now in the midst of preparing the estimates for the 1950 fiscal year. Work is also progressing on the preparation of the building report requested by the directors office. The Superintendent presented a bronze medal for commendable service to Elmer G. Cipe, former Custodian of Tonto National Monument who is now retired.

Publicity: The Archeologist spent considerable time on may 19, with Mr. C.H. Works of the Daily Tribune of Mesa, Arizona. Mr. Works is preparing an article featuring the pre-historic Indians and general archeology of Southern Arizona. In cooperation with radio station KOKY of Coolidge, we will now supply them with the daily temperatures for broadcasting over that station at 12:45 P.M. daily. This is a public service and should result in favorable publicity for this National Monument. Preliminary plans have been made with KOKY for the making of a wire recording of a description of the ruins as given to a party of visitors for broadcast as a public service feature.

Museum Activities: We have finally completed four panels for our multiplex unit and feel that it has been well worth the effort. Many visitors will now spend more time inspecting the multiplex display than all the rest of the museum combined. Three of thesedisplay panels feature location maps, pictures and information regarding the National Park Service areas of Arizona and New Mexico. The forth panel is devoted entirely to Grand Canyon National Park with pictures and information on activities etc. in that area. This is now stalled temporarially as we are in need of more pictures and official road maps of Utah and Colorado.

Maintenance: The maintenanceman has spent almost the entire month working on repairs to buildings. The roofs on quarters 5-5 and 6-5 and the laundry equipment house were patched and and covered with a good coat of Aluminum Asbestos roof coating. Quarters 5-5 are being given a thorough going over as plaster cracks have been patched, the sink board has been sanded down and refinished, the poor paint job on the woodwork has been sanded down and paint has been removed from the hardware. The painting in this house is about 75% complete. Minor plumbing repairs were made on the bathroom washbowl in quarters 3-5.

Leaves Taken: Archeologist Davis took 7 hours sick leave on May 19.

Nature Notes: The bats are beginning to show a little bit more activitity and although there is no great problem at present, there is little doubt that we will have our troublesin the near future. A family of rock wrens have been nesting in the ruins and have been the source of comments from many visitors. The predicted desert flower display has been somewhat of a false alarm and many people havebeen disappointed.

Disgruntled Visitor: As the old saying goes, it takes all kinds to make a world, and we got one of the other kind here on Sunday May 8. This particuley member of the genus Homo attempted to go through the ruins without getting a ticket and when requested to do so he promptly informed us that he had no intentions of getting a ticket and then in rather nasty manner he made it clear that he was a taxpayer and was going to claim his right to see these ruins free. A short few minutes later, through the efforts of the Superintendent and Ranger, this Gentleman was persuaded to see the error of his ways and upon payment of the fee he was allowed to join the party. After all of this trouble the man simply walked around the watchtower and then departed on foot at a high rate of speed. This same fellow caused further trouble in Coolidge before he finally left that evening by bus.

A. T. Bickell,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Chaco Canyon NATIONAL MONUMENT

Bloomfield, New Mexico

May 27, 1942

MEMORANDUM for the Regional Director, Region Three,
National Park Service.

There follows the report of activities in Chaco Canyon National Monument for the month of May, 1949.

Visitor travel picked up considerably over last month, and there were twenty-five visitors more than a year ago this month. All told, 137 persons visited the ruins. They came in thirty-seven automobiles from the states of:- Arizona - 1 car, 2 visitors; California - 2 cars, 3 visitors; Colorado - 9 cars, 20 visitors; Illinois - 1 car, 2 visitors; Indiana - 1 car, 1 visitor; Michigan - 1 car, 2 visitors; New Mexico - 17 cars, 95 visitors; New York - 1 car, 3 visitors; North Dakota - 1 car, 1 visitor; Pennsylvania - 1 car, 2 visitors and Texas - 3 cars, 6 visitors. These people formed 29 ruins trips, and 119 of them, forming 24 parties, visited the museum. The ranger spent 23 hours and 50 minutes and the superintendent spent 22 hours and 30 minutes with them.

The past 30 days have been the coolest for this time of year in a good while, it is believed. The coolest night of the month was 28 degrees and the warmest day was 87 degrees Fahrenheit. It rained three times for a total precipitation of .88 of an inch.

The approach roads are in fair condition. The Monument roads have been graded since the rain and are in good shape.

National Park Service visitors included Irving Townsend and family from Aztec Ruins, Charlie Steen, Paul Balch and J. H. Conn.

Permission was requested for Charley Atencio, one of the faithful Chaco workers, to bury his 18 year old daughter, who had just died, in the Monument Cemetery. As the religion of the neighboring Indians limits their contact with the body of the deceased, upon learning of the event at 3:30 on a Saturday after-

noon, the superintendent offered to dig the grave and was given two hours to do so. Although it was Gordon Vivian's day off, he offered to help. The grave, approximately six feet deep was just completed when the body arrived in the home made casket. Art Tarito, another Chaco faithful, had built the casket. The grave was covered by dark. During the digging, it was discovered that the moisture had penetrated nearly two feet last winter. Also, the second piece of Chattro Kettle polychrome was discovered.

More seep pool trouble. The roof of one of the seep pools caved in. Upon removing the roof, it was found that the walls had caved in, too. It was necessary to rock the walls up and put on a new roof.

The roof of one of the residences leaked like a sieve, but was repaired. The next day there was a hard rain. The roof held -- thank,goodness.

Thomas N. Mathews, a former graduate student at the University of New Mexico, reported for duty as ranger on May 8, 1949. As he was in charge of the dig at the last University of New Mexico Field School here at Chaco, he is well acquainted with the ruins and is a valuable addition to the Monument staff.

In installing the water pump for Tom y, it was necessary to lay a concrete base. Other problems were encountered, but he has water now.

For the first year since this superintendent has been here, the Canyon had practically no mocking birds in the month of May. One or two were heard, but where the large numbers of them that nested here year after year are, we don't know. We surely miss them.

In Soil and Moisture work, a few small check dams were built.

The Concessioner reports a new roof on his curio room. He had a good wool season, and has a good stock of Navajo rugs on hand for the visitors.

There follows the report of Archaeologist Gordon Vivian.

Irving McNeil, Jr.
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Chaco Canyon NATIONAL MONUMENT

Bloomfield, New Mexico

May 25, 43

MEMORANDUM for the Superintendent,
Chaco Canyon National Monument.

After some 7½ months of division and wanderings the now really Mobile Unit has returned to its headquarters here at Chaco. During the period we were gone either Ray Rixey or myself served temporary assignments at Region three headquarters in Santa Fe and at Gran Quivira, Aztec, Walnut Canyon and Casa Grande National Monuments.

At the end of the last report period Archeologist Aldo Rixey was in the process of moving equipment from Casa Grande to Chaco. He started this move April 19th and completed it on May 4th with part of the interval used to make his Chaco quarters habitable. While at Walnut Canyon and Casa Grande Ray received valuable and varied experience in different types of stabilization but the real test of skill - the final examination - came when he tried to move back into his 8 months abandoned Chaco quarters which were composed in the main of mud and rocks on the floor, sagging walls, fallen plaster and large holes in the roof.

Since the move was completed Ray has spent most of his time repairing the space used as office and storeroom. He has put in 3 new windows, patched the door and removed most of the 4 coats of old mud plaster. When these office repairs are completed he will complete his archeological report on Walnut Canyon.

I spent the report period up to the 16th working on the East Ruin at

Aztec. A roof was built over 4 open rooms which had been partially cleaned out and the roofs supported. On the 4th in company with Archeologist Steen entry was made into a series of 9 open rooms which had been blocked off since 1927. All of the series were in good condition with the exception of 5 large beams. The remainder of the period was spent making a permanent entrance into this series of rooms, placing supports under the weakened beams and setting in a door.

Moving the tent and equipment back to Chaco was completed on the 10th. Since that time I have been repairing quarters. Work on the small CCC site will begin shortly.

Gordon Vivian
Archeologist

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Chiricahua National Monument,
Dos Cabezos, Arizona.

May 25, 1949.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Chiricahua National Monument for the month of May.

Weather. Typical May weather can be reported for this month. No extreme temperatures were reached and no precipitation recorded. Days have been clear and sunny with mild changing winds. 91 degrees maximum temperature recorded for the 25th and 36 degrees minimum recorded on the 6th.

Forest Fire Protection. On May 6 personnel from the Forest Service and this area suppressed a Class B fire near the northeast corner of the monument boundary. Burned area consisted of .6 of an acre of brush and grassland, two thirds of this being on land under the jurisdiction of the Forest Service and the rest on monument land. Fire was caused by the accidental release of a 100 lb. practice bomb from planes of the U.S. Air Force. Correspondence with the Commanding Officer of the airbase at Tucson assures full cooperation against future occurrences.

Project Completion. The repair and rehabilitation of the fire lookout on Sugarloaf Mountain was completed during the month.

Maintenance. Road and trail maintenance continued as usual. Emergency work on the Sugarloaf trail was started and is progressing nicely.

Communications. Radio communication with Saguaro and Organ Pipe Cactus was resumed following receipt of our set from the repair shop, however, additional adjustment is necessary before transmission can be made on the 5150 k.c. band. Adjustment is being made now and we hope to be in operation again in a few days.

Personnel. Superintendent Cooke returned to duty May 2 after several weeks of sick leave.

Approaches to Park Area. The oiling of State Highway 181 to the monument boundary was completed by the Arizona Highway Department on May 10. This furnishes a paved approach from the South and from the West. A question now frequently asked by the visitor is, "When will the road be completed to Massai Point".

Travel. Visitation to the area continued to increase with 1,433 persons coming in during the month as compared to 1,215 for May of 1948. Out of state travel has definitely slackened which is normal for this time of the year but local and State travel is on the increase.

Interpretive Services. 1,285 persons were given contact service at the museum and at Massai Point and one conducted tour over the trail system was made.

Ray B. Ringenbach,
Park Ranger.

El Morro

El Morro, New Mexico

May 25 49

MEMORANDUM for the Regional Director, Region Three

The following constitutes the Monthly Narrative Report of activities at El Morro National Monument, El Morro, New Mexico.

Weather: Nice crisp spring days with a high of 82° on the 25th; nights were 32° or below, some wind and only a trace of moisture.

Special Activities: The Superintendent made one trip to the Santa Fe office to confer with the Regional Director and staff. The trip was most beneficial and many problems were worked out satisfactorily.

Incidental Intelligence: One of the local men from Ramah whose reliability is unknown but believed to be excellent, states that the $175,000 of State funds for the El Morro-Grants road has been spent elsewhere. It is doubted that the urgency of other road needs is the reason. However, the talk concerning a good road to El Morro has caused some nearby property to jump in value from $2.00 an acre to a present price of $7.05 an acre.

Observations: It took Mrs. Virginia Townsend from Aztec Ruins National Monument to locate the El Morro golden eagle nest. The nest is at present occupied by two small eaglets.

Travel Status: The good condition of the road and pleasant weather has resulted in a 60% increase in travel for May of 1949 over that of May 1948. There were 345 visitors during the month. Two school groups visited the area, one group from the Zuni village and one from Lubbock, Texas.

NPS Visitors: Superintendent Townsend and family were visitors to the Monument on May 8th and a second trip by Irving and Virginia Townsend was made by plane on the 16th of May. Mrs. Townsend has been elected Honorary Godmother of the eaglets.

Naturalist and Mrs. Robert Upton of Petrified Forest were house guests at El Morro for a few days. Mr. Upton spent much of his time photographing the "Rock", the results to be used as post cards and for historical file references. He plans to return at a later date to continue the project.

Cont. of El Morro Monthly Report -

General: The drinking fountain at the Administration building was finally induced to function. The two bedrooms, hall, bathroom and dining room were painted, and all of the floors given three coats of wax. Four days were spent painting and relocating road signs. CPO sheets were revised and new priority lists made. Some time was spent on the trail to the Inscriptions trying to kill the very persistent lemon weed, that grows best in the center of our bitumen path.

The pipes on the gas pump was replaced by a flexible hose. The Superintendent attended a Forest Service Fire Guard Orientation School at Paxton Springs on May 2nd.

The El Morro mailing address was officially changed from Ramah, New Mexico to that of El Morro National Monument, El Morro, New Mexico.

Community Activities: The night of the 25th of April the home of a local family burned and emergency relief was provided by the entire community.

The Superintendent attended funeral services for a local war veteran whose body was returned from the Pacific.

A pie supper was held, the proceeds to benefit a local woman who had donated much time to the school. It was a huge success in spite of the fact that the recipient became perturbed and went home during the festivities.

John A. Aubuchon
Superintendent.

RECEIVED
JUL 1 1949
NATIONAL PARK SERVICE
REGIONAL OFFICE

Gran Quivira National Monument
Gran Quivira, New Mexico

May 25, 1949

MEMORANDUM for the Regional Director, Region Three.

The following is a report of activities at Gran Quivira for the month of May 1949.

General. Good weather, fair roads, vacation time and some increase in travel. Locally, bean and sunflower planting is now nearly completed. There have been fewer sandstorms this spring, consequently field and range lands are in better condition than for some time past.

Weather. Ideal throughout most of the month. A high temperature of 88° was recorded on May 3. 0.93 inches of rain fell on May 11 and 12. The rain was accompanied by the most severe lightning storms we have seen here in our two years.

Special Activities. On May 4 and 5 the superintendent was in the Regional Office on Monument business.

During the month the PCP sheets and Priority List for the area were completely revised and forwarded to the Regional Office for review.

On May 16 the superintendent contacted the Secretary of the Chamber of Commerce in Belen relative to the Travel Host School. Arrangements were completed for my part of the program on the evening of May 30.

Gordon Vivian visited the area on May 9 and departed with a load of "ruins stabilization" cement for Chaco Canyon and Aztec.

Maintenance. Early in the month a new water cooler was received and placed in the exhibit room. Public restrooms were also connected and appropriate signs placed. This is the first time that these two travel necessities have been available without "special request" at Gran Quivira and the superintendent enjoys having these improvements available.

New roofing paper was placed on the residence, tool shed and pump house. This takes care of all buildings with the exception of the frame garage which is next in line.

A picnic fireplace grill was manufactured and installed in cement. This is another "first" which Gran Quivira doesn't need often, but it is convenient and saves a lot of miscellaneous camp fires by picnicers and our few overnight campers.

RECEIVED
MAY 31 1949
NATIONAL PARK SERVICE
REGION THREE

The severe lightning storms of May 11 & 12 necessitated 2 days work on the telephone line. The line was burned in two in several places and the vacuum type lightning arresters at the residence and in the box where the grounded line hooks to the metallic line were 100% casualities. At $1.82 per each the price of communication is going up, since we can no longer procure the arresters gratis from the U.S.Forest Service. The same storm interrupted the power service for 24 hours.

During the month all brush between the two missions was grubbed and hauled away. This greatly improves the appearance of the mission and gives the area a neater look. The first weed burning of the interior of the mission was completed on May 25.

Approaches to the Monument. The Mountainair approach road was graded on May 18 and is now in good shape. The approach from Carrizozo is reported rough.

Arrangements have again been made to have the U.S.Forest Service pull the ditches and grade the 3/4 mile of entrance road early in June.

Interprotive Service. 52 parties totaling 187 people were guided through the ruins. Average trip time, 48 minutes.

Museum Activities and Exhibits. As mentioned a new water cooler has been installed in the exhibit room. On my trip to Santa Fe I obtained additional SWM sales publications and, now that we have a place for displaying them, sales are on the increase.

SWMAssociation purchased and donated to the Gran Quivira Library one of the few remaining copies of Bailey's BIRDS OF NEW MEXICO. Thanks.

Increase in Travel. As shown below there was a noticeable increase in travel over the same period last year. Most of this increase has occurred in the last week with the arrival of a larger number of out-of-state cars. Credit is due the staff at White Sands and Aztec as a considerable number of the cars were directed this way from those two areas.

	CARS	VISITORS
May 1949	87	259
May 1948	66	194
Increase	21	65
Percent Increase	31.9%	33.5%
This Travel Year	388	1095
Last Travel Year	293	850
Increase	95	245
Percent Increase	32.4%	28.8%

Visitors.

May 7. Gordon Vivian.

May 19. Wm. F. Longton and wife accompanied by Mrs. Geraldine Hamilton all of Salt Lake City. Mr. Longton has completed an educational film entitled "Cities of the Ancient Ones" and is now working on a second film covering Southwestern missions. Mrs. Hamilton provides the narration.

May 21. Mrs. B. L. Gehrman, Belen, N. Mex., gathering information for an article dealing with prehistoric agriculture in this area.

May 22. Bennett Foster, Albuquerque, writer, gathering information for an article dealing with this area circa 1880.

May 22. George Wich, Southwest Post Card Co., Albuquerque, preparing a series of post cards on Abo, Quarai, and Gran Quivira.

May 23. Graduating class, Trent High School, Trent, Texas.

Building Fire Protection. CT extinguishers were installed in the exhibit room and in the kitchen.

William L. Bowen,
Superintendent.

GREAT SAND DUNES NATIONAL MONUMENT
MOSCA, COLORADO.

May 26, 1949

MEMORANDUM for the Regional Director,
Region Three.

There follows the report of activities in Great Sand Dunes National Monument for May, 1949.

WEATHER. Spring took a step backwards and this report period has been very cool and very, very windy. At present the weather is clearing and the temperature is warming up - we hope it stays that way.

The minimum of 28 degrees was registered on May 6. The maximum of 79 degrees was reached on April 26. The high minimum was 42 degrees on May 20; and the low maximum was 35 degrees on May 6.

Snow fell on May 5,6 and 7. These storms were from the northeast and the wind was strong and very cold.

Rain fell on April 27; May 10,11,12 and 15. A severe hail storm also came with the rain of May 12.

During this report period there were 12 cloudy days; 12 partly cloudy and only 6 clear days. The wind blew very strongly on 18 days. The contour of the Sand Dunes was noticeably changed.

Crops in the valley are retarded by cold weather and much water was diverted from the Rio Grande River to irrigate the valley.

The Medano creek is flowing along the entire eastern edge of the Sand Dunes, and has changed its course from last year's channel. (See accompanying photographs)

TRAVEL. One thousand seven hundred and five visitors in four hundred and eight cars visited the Sand Dunes during this report period. Twenty-nine states were represented, as well as the District of Columbia, Canada, Mexico and Italy. There were three days when there were no visitors to the area. One written request was answered.

Nine hundred ninety-one people took advantage of the picnic areas and of these forty-eight camped over night.

INCREASE IN TRAVEL. For May 1948, there were 270 cars and 1211 visitors. This is an increase of 494 for May 1949, over last year's figures.

CONTACT. Contact with visitors was done on four Sundays and during week days as time and work permitted. Two hundred eighty-five cars were contacted, with a total of one thousand two hundred ninety-seven visitors. Contact time amounted to forty-seven hours and thirty minutes.

NEWSWORTHY VISITORS. Picnic outings by the following groups: Gomez School with 20 pupils; Sargent School with 20; Fort Garland School with 30; Manzanola School with 15; Cheyenne Mountain School for Boys with 40, who camped over night; and the Senior Class of the Estes Park School with 45.

N.P.S. VISITORS AND VISITORS OF NOTE. Mr. J.H. Diehl, Engineer, Region Three Office, visited the area for several days, May 15,17 and 18; and May 23 and 25.

Mr. E.E. Davis and Mr. W.E. Bartt, of the General Accounting Office, Washington, D.C., visited the area on May 18 and went over the monument accounts.

ROADS. The State graded the approach road on April 30; May 14 and 21. More ditching was accomplished between the San Luis Lake and the Medano Ranch turnoff. The road was almost impassable at this time, due to dryness and boulders in the road. A drop in travel was the result. Road is now in fair condition.

The monument road from entrance to headquarters is in excellent condition. More work was accomplished on the road from headquarters and the picnic areas with the Sand Dune grader, and it is gradually becoming a wider and smoother stretch of road.

WATER SYSTEM. At long last something is to be done with our water system. Mr. Diehl came to the area to inspect the spring and trench line. A break was also located and dug up while he was here. Plans are underway for hiring a tractor with bulldozer to entirely cover the open trench and also pile dirt for sufficient coverage over low lying spots along the line. This should prevent freezing.

The break in the line was repaired by welding and this should completely protect the poor job done in the first place. Mr. Carl Markley, plumber of Monte Vista, made the repair on May 25.

Further work is to be done on Morris Gulch Spring; locate and clean up the perforated pipe so that actual spring water is obtained, instead of the surface water we are now getting.

With this work, we have high hopes of spending a pleasant winter here for a change.

Suggestions were also made by Mr. Diehl in obtaining more water from Rosca Spring for both upper and lower picnic areas.

PICNIC PARKING AREA. Mr. Diehl also assisted in contacting and hiring equipment to obtain gravel for the parking area at the lower picnic area. This has long been a major headache and with a proposed parking area consisting of 3/4 of an acre, we should not have the past trouble of cars becoming stuck in the loose sand. Gravel is to be hauled and spread to a depth of four inches.

CONCESSION. Mr. A.W. Graves brought in his house trailer and two horses and placed them on the Hollington property. He and his son are now busy with the building of a day-use corral at the lower picnic area. We hope his Saddle Horse Concession will have the very best of luck and prove to be of need at this area.

SPECIAL ACTIVITIES. Katy Ruth arrived on May 5, at the Alamosa Community Hospital, weighing in at 6 pounds, 11 ounces and measuring 19½ inches long. She was given a joyous welcome by Jonny Anna.

ACTIVITIES. Usual routine duties of hauling supplies, contacting visitors, cleaning up comfort stations and picnic areas, and keeping office matters current.

A load of washed sand was obtained for cement. Repairs were started on the walls of the service porch where partitions for a closet were torn out when the automatic hot water heater was installed.

As time permitted, more road work was done on road leading to the Sand Dunes. It is being widened and much time is consumed in removing large rocks which are up-rooted by the grader.

In spite of signs, cars have been stuck in the sand. Tracks show where they have had trouble and on Sundays, there are enough visitors on hand to help in extracting cars. Over one hour was spent one evening helping a visitor get out of the sand.

Enjoyed very much the time spent with Mr. Diehl as so much was accomplished.

Photographs were taken of the break in the pipe and of Morris Gulch Spring.

Funds amounting to $150 were transferred from this monument's account to help take care of the recent transfers within Region Three field personnel.

RANGER POSITION. Funds are available for a temporary ranger position for three months at this area. Four letters were written to veterans who may be interested. If none accept, a local valley man will be hired for the job.

The following letter was received in this office and thought it might be of interest to others in the field.

May 4th, 1949

Dear Sirs,

We understand that you hire young men during the summer. We are interested in working for you. We are students. After some inquiry, we believe that the type of work which you offer is exactly what we are looking for. Our names are, John H. Hodes and Vincent C. Wiesmer.

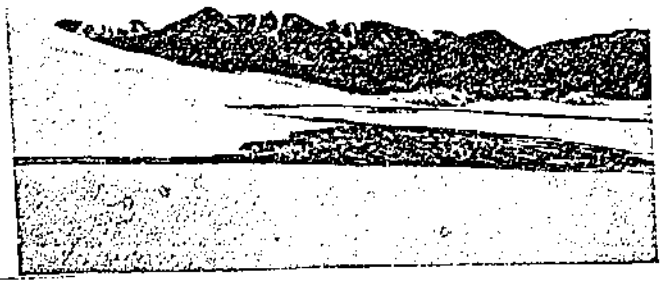
Here are some qualifications you may be interested in;
I have owned horses for several years and am reasonably familiar with care and feeding Etc. I have ridden both Western and Shoe horses. I play the harmonica, very little piano, and have won several writing and dramatic contests.
I am especially interested in working with horses.
John Hodes

I am also fairly familiar with horses.
I have dramatic and oratorical ability.
I have worked in a grocery store for more than three years.
Vincent "Jerry" Wiesmer

We will be more than glad to fill any opening you may have.
Expectantly,

John H. Hodes III and Vincent C. Wiesmer
5700 Holmes St. 5616 Kenwood
Kans. City, 4, Kans. City, 4,
Mo. Mo.

PUBLICITY. The Buick Magazine for May 1949, published a short article entitled "Sands of San Luis Valley" by Jack Zohrt. Two photographs illustrated the article.



PROJECTS FOR THE ENSUING MONTH. Rent equipment to cover the water line. Move the house trailer and make it livable for ranger's quarters. Repair and replace if necessary the pipe at Morris Gulch Spring. Rent equipment to haul gravel to the parking area at the lower picnic area. Place rock to outline parking area and try to place picnic tables in better positions. Repaint road signs and others at picnic area. Do more road work with grader.

Hope to have a ranger report for duty on June 5.

Also hope that an annual inspection can be made by Region Three Office, before the end of the fiscal year.

Ted C. Sowers,
Superintendent.

NAVAJO NATIONAL MONUMENT
TONALEA, ARIZONA

May 25, 1949

MEMORANDUM for the Regional Director, Region Three

There follows the monthly narrative report of activities in this area for the month of May 1949.

VISITORS

147 visitors came to the Betatakin area in 38 cars (30 parties). These visitors selected their activities as follows: 116 visitors used Sandal Trail to Betatakin Point in 22 parties, 24 visitors hiked to Betatakin in 6 parties, one party of three hiked to Keet Seel, one party of two made the trip to Scaffold House. 100 people used the campgrounds. 111 visitors were guided in the museum and orientation station. 12 inquiries were answered.

All visitors to the area were contacted by the Superintendent except one party which arrived while the Superintendent was making the monthly trip for supplies. Laborer Seth T. Sigman contacted this party. Obviously one man on a 40 hour week could not contact all of this travel. The Superintendent has not taken a day off this month. This area badly needs a seasonal ranger for the months of April and May.

REPORTSWORTHY VISITORS

Mr. and Mrs. Joe Horn of Hupatki on the 26th.
Mr. Jurwitz and Mr. Boren of US Weather Bureau on the 28th.
Mr. and Mrs. Cox and Miss Belyea all of the US Indian Service on the 13th.
Mr. Parcher of the Red Cross on the 3rd.
Shonto Indian School party of 60 on the 3rd.
Mr. Parcher returned with Mrs. Parcher on the 14th.

WEATHER

Minimum temperature 32 degrees on the 5th, maximum 82 degrees on the 24th and 25th. Snow fell on the 6th and hail on the 11th and 12th. Total precipitation 0.50 inches.

ROADS

All approach roads are fair, dry and rough in spots. Most of our Roadside directional signs need repainting because of the severe winter and the unseasoned wood used in their construction.

PLANS MAPS AND SURVEYS

NAV 21CZA Road Plan map for this area was received and this valuable planning has been added to the Master Plan file.

A map of Monument Valley was obtained on loan and a dozen copies were kindly reproduced by your office. This map is now displayed in the contact station where potential visitors to that fine area may familiarize themselves with the roads and features of the area. The borrowed copy has been returned to Mr. Bennett Hyde of Kayenta.

MAINTENANCE

Road maintenance has been our largest item. Joe and Lizzie Bean brought the new Galion 402 road grader out on the 25th and 26th. Joe then briefed us in the operation and maintenance of this equipment. Joe crowned up the road across Klethla Valley and then dragged the ruts out all the way to Headquarters. The Superintendent spent five days grading the two miles west of the contact station. This section of road was as badly in need of blading as the Superintendent was in need of learning the operation tricks of the blade. It now becomes our chore to teach Bob Black how to operate the grader ("Now Bob, this gear marked #2 is 3rd speed, and this gear marked #3 is second speed"--all this in my poor Navajo language). I'll never be able to explain why white people mark the second gear position on the shifting lever with a 3 while the third gear is marked 2, because I don't understand it myself. The operation manual shows the correct marking.

The rewound Master Motor has been repainted and a three pole switch has been mounted on the connection box. We expect to pack this heavy motor into the canyon and install it on the pump next week.

All fire fighting equipment has been inspected, refilled and replaced in convenient locations.

The Orientation Panel on the contact station was removed, repainted and the pictures and maps replaced with new ones.

The dump truck has been cleaned of all grease and mud and is ready to be repainted, standard yellow.

May 28, 1949

HAV page 3

MAINTENANCE (con't.)
The bathroom in Residence #1 was repainted, two coats of yellow interior enamel.

GENERAL
This has been an exceptionally busy month for all hands. Visitors were contacted as early as 6:30 AM. and as late as 10:45 P.M. Has kept count on the extra-curricular meals served during the month--the total reached 85 meals. Radio contact with Region Three Office was maintained daily (except Saturday and Sunday) and the two days we made our monthly trip to Flagstaff.

P.S. A party of last nites campers and 3 newly arrived parties have been contacted since I started this report. Help! Help!

J.W. Brewer, Jr.
Supt.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

ORGAN PIPE CACTUS NATIONAL MONUMENT
P. O. Box 38, Ajo, Arizona

May 25, 1949.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of May, 1949.

Weather.

Hot and dry weather engulfed us just at the close of the report period with a maximum temperature of 104 being recorded on May 24. Most of the month was comparatively cool, though, with a minimum of 45 degrees on May 5 following our coolest day of May 4 when only 84 was recorded by the maximum thermometer. Not even a drop of moisture fell during the entire month.

Research and Observation.

Advantage was taken of the decrease in visitors to make more exploratory patrols in some of the remote parts of the area. Canyon Diablo, with a large tinaja used at one time by a bootlegger, the north fork of Alamo Canyon, in which willows (Salix goodingii (?) were found, and an extremely rugged canyon northwest of Growlwater Pass, in which a great deal of mimosa was discovered, were the most interesting spots visited.

Several Sonoran coachwhip snakes (Coluber semilineatus) found dead in a water hole in the north fork of Alamo Canyon are believed to extend the western record for the species from the Baboquivaris.

Max Hensley now expects to complete his ecological research by mid-July.

W. C. Bryan of the Division of Forest Pathology, Bureau of Plant Industry, Soils, and Agricultural Engineering worked three days in the area on further investigation of the saguaro disease and related forms affecting the organ pipe and senita cacti.

The new hedgehog reported last month has been tentatively identified by Dr. Marshall, Papago Park, as Echinocereus polyacanthus.

Decrease in Travel.

The decrease in tourists noted after Easter continued throughout the month despite the cool weather. The mine at Ajo is now giving employees four days off every two weeks so international travel through the port of entry showed an increase of 1217 over May 1948.

Grazing.

The Grays are now in the process of selling some of their cattle. The range is drying rapidly and the prospects of the mesquite bean crop are not favorable.

Visitors.

Captain Flavelle Williams has been on the monument the entire month taking 16 mm color movies of the banks and cats. Hubert A. Lawson, another noted photographer, spent two days on the area taking scenic shots in color.

Communications.

Daily contact was established during the month with Region Three, Big Bend, Bandelier, Navajo on the 5150 Ke frequency. The daily contact with Saguaro and Chiricahua will be continued on 2770 until they both have been operating on 5150.

Mild weather has continued to prevail throughout this [illegible] temperature recorded was 92 degrees on May 31. Minimum was 42 degrees occurring several nights. Light showers [illegible] of the month caused a total precipitation of .45 inches.

[illegible] Officer-in-Charge of the U. S. Weather Bureau, Phoenix, [illegible] on April 30 for the purpose of checking and [illegible] operations. He was William R. Supernaugh, [illegible] Superintendent.

In spite of the usual after Easter vacation slump, travel [illegible] heavy during the month. There were 2,851 visitors in the Monument Headquarters Area and 1,356 visitors in Ajo area to the Call [illegible] total of 4,207 people and 1,130 cars. 909 adults and 55 [illegible] below the Indians.

[illegible] April 27 a group of 35 members representing the Gem [illegible] Chapter of the U. S. A., under the auspices of Mr. Lucas

Montezuma Castle National Monument
Camp Verde, Arizona
May 24, 1949

MEMORANDUM for the Director, Region Three:

Montezuma Castle National Monument submits its monthly narrative report of May 1949.

General Activities: Part of this month was spent in becoming better acquainted with the monument and the surrounding area, including residents. Among local people contacted were the Editor of the Verde Valley Independent, the Secretary of the Verde Valley Chamber of Commerce, Forest Service personnel, and active business men. All of these men expressed a deep interest in the National Park Service, and it is felt that our relationship will be of the best.

Dennis Murray reported for temporary ranger duty on May 15. The addition of extra help has made it possible to schedule conducted Castle tours from 9:00 a.m. through 5:00 p.m., including a trip at noon.

Archeologist Schroeder presented an illustrated talk to the Verde Valley Garden Club on May 16. Mrs. Schroeder has been elected president of this group for the coming year. Schroeder also gave a talk on Montezuma Well to the children of Beaver Creek school during the month.

Weather: Mild weather has continued to prevail throughout this month. Maximum temperature recorded was 92 degrees on May 22. Minimum temperature was 39 degrees occurring several nights. Light showers the latter part of the month caused a total precipitation of .14 inches. L. R. Juaritz, Officer in Charge of the U. S. Weather Bureau, Phoenix, called at the monument on April 30 for the purpose of checking and adjusting weather apparatus. He expressed his appreciation to the Park Service for submitting weekly reports of weather conditions from this area.

Travel: In spite of the usual after Easter vacation slump, travel has remained steady during the month. There were 2,403 visitors in 807 cars to Montezuma Castle and 1,034 visitors in 323 cars to the Well for a monthly total of 3,437 people and 1,130 cars. 866 adults and 55 children climbed the ladders.

Visitors: April 27 - A group of 35 students representing the Geographic Society of U. C. L. A., under the guidance of Dr. Logan

Visitors (continued):

paid a visit to the Castle. (A nice thank you letter was received from this group).
May 1 - The Verde Valley Pioneer Picnic was held at the Well with 155 in attendance.
May 8 - Supt. & Mrs. H. C. Bryant, Grand Canyon.
May 9 - Asst. Park Naturalist Christenson & family, Grand Canyon.
May 10 - Dr. & Mrs. Howard Cloyd, Director of the Museum, The Chicago Academy of Sciences.
May 12 - District Park Ranger R. K. Weldon & family, Mt. Rainier.

Maintenance: Repairs which consisted of extending the casing and sealing the top were made to the water well. It is hoped that this work will eliminate drinking water contamination.

Leaves, broken branches and debri were removed from the foot-path leading from the museum area to the base of the Castle. This trail was also raked thoroughly and all holes filled in.

At the Well, the county grader came in and graded the road to the picnic ground. Several loads of gravel were hauled in by the resident archeologist to surface the service road to the residential area.

Protection: A general fire inspection was made of all facilities on the monument. Some minor hazards were found and are being corrected as rapidly as possible.

The Forest Fire Control Plan for this area was prepared and submitted for approval.

Wildlife: The arrival of warmer weather has caused lizards and snakes to come out of hibernation. Three rattlesnakes at the Castle and one at the Well were observed. Also, several racers and gopher snakes have been seen.

The Well recorded two new birds for that area. They are the Dwarf Cowbird and Western Tree Sparrow.

Flowers bloomed profusely at both the Castle and Well this month, in spite of the fact that they were three weeks later than usual.

John O. Cook,
Superintendent.

Saguaro National Monument
Tucson, Arizona

May 25, 1949.

MEMORANDUM for the Regional Director,
Region Three.

There follows the monthly narrative report of activities at Saguaro National Monument for the month of May 1949.

General.

The month of May has proven to be most delightful from the standpoint of weather, mild day time temperatures prevailed throughout the month with cool nights.

Travel to Saguaro took a decided up-swing and it is believed that weather conditions together with the flowering season for several species of cacti were influencing factors in this travel increase. A sporadic display of Saguaro blossoms in the cactus forest attracted many local and out of state visitors. Perhaps the cool weather has not been conducive to a better display of blossoms, which appear to be less spectacular than last year, although this year may prove to be a longer flowering season. The Cane and Staghorn Cholias put on a spectacular display of flowers and they were the subjects for hundreds of photographs.

It is interesting to note that local interest in Saguaro is increasing, many Tucson residents visited the area for the first time during the month although they have lived in this community for a long time. Several publications distributed by the Tucson Chamber of Commerce, containing information about Saguaro have no doubt had an influence on visitor interest.

Special Activities.

The Superintendent spent the period May 11 through 14 in the forested area inspecting the various trails and fire protection activities.

Maintenance.

Work on relocating parts of the Madrona-Manning Camp Trail was continued by our two-man trail crew. Many rocks were removed and wider tread established on the new location.

Approaches to Park Area.

The Broadway approach road was graded regularly during the month and was in good condition for the most part. The Pima County Highway Department is now using a wider blade on all their graders, enabling the grader operators to go over the roads more often.

Accessions.

A much needed saddle horse was secured from Grand Canyon by transfer. Ollie Barney has been riding him to work each day and he is becoming somewhat gentle, although he seems to have a innate desire to kick homo sapiens.

Interpretive Service.

A total of 1,221 persons in 382 parties were given interpretive service at headquarters amounting to 101 hours for an average of 15 minutes per party.

Ranger Frost was terminated on May 15 and his services will be sorely missed in the interpretive program. It is felt in this office that local interest has been materially increased by Mr. Frost's untiring efforts to help our visitors to enjoy Saguaro.

Increase or Decrease in Travel.

A total of 2,334 persons in 806 cars visited Saguaro during the month. Thirty two states were represented together with visitors from Denmark, Sweden, Alaska and Hawaii. This was an increase of 1,189 persons over the same month a year ago and a decrease of 480 persons over last month. Total visitors for the year 18,577.

Visitors.

W. A. Rickler, Mishawaka, Indiana, noted photographer.

Glenn Bean, Park Ranger, Organ Pipe Cactus National Monument.

Ranger Don Davis & wife, Casa Grande National Monument.

Gregor Dahls, Agriculture Attache, Royal Swedish Embassy, Wash, D. C.

Ranger McClanahan & wife, Petrified Forest National Monument.

Iynge Hansen, Odense, Denmark.

Ernst Brenner, Odense, Denmark.

Dr. W. Taylor Marshall, Director, Desert Botanical Garden, Tempe, Ariz.

D. Wayne Thompson, Assistant, Desert Botanical Gardens, Tempe, Ariz.

Ranger Service.

Ranger Wilde spent the entire month on fire protection activities in the forested area. Ranger Marvin H. Frost Sr. was terminated on May 15.

Wildlife.

Twelve mule deer (Mexican) were observed in the cactus area including one buck on May 15.

Mr. W. A. Stickler was fortunate in securing some good motion picture shots of javelinas in several groups including young ones along the east side of the loop road.

An abandoned woodpeckers' nest(produced by plant exudation) attached to some Saguaro ribs was installed in the arboretum this spring for display purposes. Much to the astonishment and delight of our visitors, a pair of Says Phoeben took up residence therein and are in the process of rearing their young.

On the night of May 12 a spotted owl tentatively identified as Strix occidentalis lucida was heard several times in the vicinity of Manning Camp.

Forest Fire Protection.

Senior Fire Control Aid Samuel A. Oram entered on duty May 1 and was assigned to full time detection work for the month.

All fire tool caches were distributed to the various secondary lookouts and many of the logs were removed from the patrol trail. New batteries were installed in all telephones at the various stations.

Regular daily radio contacts were established with the U. S. Forest Service between Mica Mountain Fire Tower and Mt Bigelow Lookout. Daily radio contacts are being maintained with Organ Pipe Cactus and Chiricahua National Monuments for the ensuing fire season.

Personnel.

Irvin Western entered on duty as Trail Laborer on May 8, Mr. Western is experienced in this work and we are glad to have him.

Samuel A. King
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Sunset Crater NATIONAL MONUMENT

Flagstaff, Arizona

May 26, 1949

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Sunset Crater National Monument for the month of May, 1949:

Weather: Daily temperatures for the month were below normal and for this time of the year the lack of high winds was welcomed. The snow has disappeared, but for the first two weeks blocked the entrance to the Ice Cave. Precipitation was above normal.

Roads: The entrance road is in reasonably good shape, although it is impossible to keep out the "washboard". The road down through the cinders to Wupatki is in better shape than it has been for several years and has received considerable use.

Travel: Visitor use of this area increased 9% over May of last year and registration shows an increase of ~~almost~~ 30% above last month. A total of 869 persons registered, which is considered to be only 40% of the total travel.

Personnel: The Ranger -in-Charge moved into the trailer on the 21st of the month with his family and, once again, Sunset Crater has resident personnel.

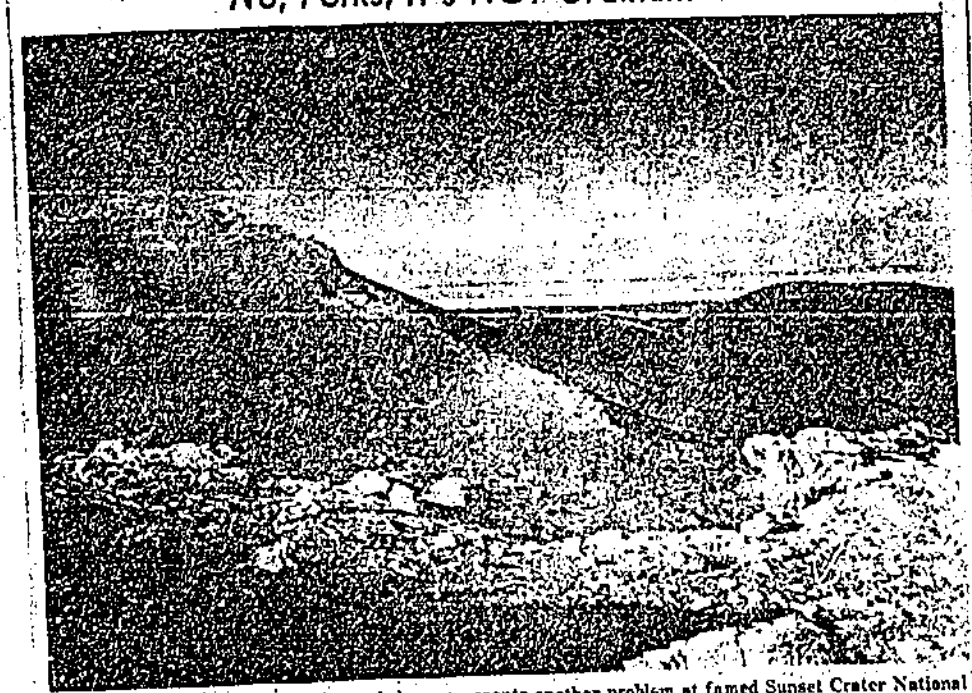
Visitor Use: Increased overnight use within the area and along the entrance road by trailer owners has been common this month. It is felt that this is due to the fee system being tried in three of the Forest Service Camps. Camp Townsend, our nearest established camp, has a fee of 50¢ per night. People are merely pulling off the road wherever they find a likely spot and since most of them have gasoline stoves, they do not violate any regulations. It is felt that the results of the fee system will tend to scatter rubbish more widely over the Forest, and in the long run created additional fire hazard.

Interpretive Service: Proof of the new two-fold leaflet on Sunset was received, and we are anxiously awaiting receipt of copies for distribution.

Maintenance: The period from the 9th to the 20th was spent in making the trailer quarters liveable for the summer. It was painted on the interior, shelving and a sink installed, wiring and fixtures put in place. A new pit toilet constructed.

Area cleanup near the Crater is underway and has proven to be quite a task. A new garbage dump was established.

Publicity: This issue of the Arizona Highways carries an unusually fine cover photo of the Rim of Sunset Crater with the San Francisco Peaks in the background. There is also a three page story on the area with a good many photographs.



The Arizona Daily Sun on May 12 used a photograph of the Rim and called attention to the fact that the canary yellow rock deposit is sulphur; not uranium. Ever since the discovery of uranium at House Rock Valley, bonanza hunters have been racking their memories for yellow earthy deposits. Geiger counters are being advertised for rent for the first time in Flagstaff.

Owen L. Reynolds
Ranger-in-Charge

Through the Supt., Wupatki.

RECEIVED
MAY 31 1949
NATIONAL PARK SERVICE
REGION THREE OFFICE

No, Folks, It's NOT Uranium

Discovery of uranium in northern Arizona presents another problem at famed Sunset Crater National Monument northeast of Flagstaff. Park Service officials are afraid amateur uranium prospectors will get excited over the canary yellow rock and soil around the rim of the crater, shown here. The yellow rock isn't uranium-containing carnotite, according to Ranger Owen Reynolds, but is just plain ordinary sulphur. "So please don't pack away samples to test for uranium," he says. Shortly after 1065 A. D. when Sunset Crater ceased its eruption of volcanic cinder, steam escaped and minerals in solution were deposited when the steam struck the cold air, leaving "hot springs" deposits of sulphur and yellow iron oxide. Basic principle of the Park Service is to preserve areas in as natural condition as possible, so that they may also be enjoyed by future generations. (SUNfoto by Park Service)

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Tonto National Monument
Roosevelt, Arizona

May 25, 1949

MEMORANDUM for the Regional Director, Region Three.

Following is the report of activities at Tonto National Monument for May, 1949.

Weather. The first three weeks continued cool and pleasant, an unexpected reprieve from summer. However, hot weather started this week.

Approaches to the Monument. As usual during the summer, dusty and a bit rough, but not too bad.

Interpretation. Mrs. Pierson gave a talk on the various types of prehistoric weaving represented in the Tonto collection, with some of the better specimens of Salado weaving here on exhibits and visual aid, to the Roosevelt chapter of the American Federation of Women's Clubs. This was well received and was good public relations.

Ted Nicholls' film on the eruption of Paricutin was shown to the community.

Travel. Travel for May this year was about 20% above that of same month last year, with 1129 visitors this May, 937 last May. About 20 states and South Africa were represented.

Personnel. Archaeologist Pierson completed his oral exams for his Master's degree in Archaeology at Albuquerque this month. Superintendent Sharp was back on duty April 28. Sam Cron left for his Saguaro assignment the same day.

Visitors. Dr. Howard E. Cloyd of the Chicago Academy of Sciences.
Archaeologist Aldo Rixey and family.
Misses Lynn & Kitty Sharp, sister and aunt of C. Sharp.

Arizona Archaeological and Historical Society Library

Flora & Fauna. Two Gila Monsters are sighted occasionally. A wildcat was seen near headquarters. The battle with the carpenter bees in the Lower Ruins continues. The first Saguaro blossom appeared about two weeks ago, but most of the blooms are not out yet. The wild buckwheat, (Eriogonum) has been in bloom continuously for about ten months.

Public Relations. The fiddle and guitar again resounded at the long-abandoned site of Apache Lodge, and lights glinted from the dark waters of Roosevelt Lake rippling in the desert night-wind, at the first outdoor dance this season, on the old concrete floors near the Dam. Music was by Hoell Lyall and Dean Day, complete with electric amplification; light plant by courtesy of the Park Service; wiring and general preparation by the Forest Service and Water Users; coffee & frijoles and general good will by the good community of Roosevelt, ranchers, Water Users and all; jitterbugging by the cowkids of Globe and Tonto Basin. It was a noble affair.

General. Ceiling insulation and covering in the superintendent's house were installed. A railing was put up along the bank by the ranger's house. Fire warning signs are up for the season. It is quite dry again, and an abundant cover present, due to winter rains. Fire tools were checked over. The 2-cylinder plant took another half day of maintenance.

It is annual report, estimate, and head-scratching time again.

Charles C. Sharp
Superintendent

Tonto National Monument
May 1949 Narrative.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Tumacacori National Monument
Tumacacori, Arizona

May 25, 1949.

MEMORANDUM for the Regional Director,
Region Three.

Follows the monthly narrative report for Tumacacori National Monument for the month of May, 1949:

WEATHER CONDITIONS: Precipitation was zero. This is a little drier than the .17 average of the past 11 years for May. Maximum temperature of 101 occurred on May 24, minimum of 59 on May 21.

INCREASE OR DECREASE IN TRAVEL: All May travel records have been broken this month. 1,769 visitors arrived, in 514 cars. The highest previous May visitor total was for 1948, with 1,756 people. This is the second straight month of 1949 to pull out of the travel doldrums which started last November.

INTERPRETIVE SERVICE: 911 persons went on 158 guided trips through the mission church and grounds, receiving an average of 35.76 minutes per trip. 1,670 persons received combined information and interpretation service, and 1,687 saw the museum and patio garden.

VISITORS: 4 - 27 - The Tombstone High School Senior Class of 11 and one teacher, were very interested.

4 - 30 - Don Hummel, President of Concessions Company at Lassen.

5 - 7 - A Don's Club sponsored travelcade of 35 persons from Phoenix, plus about 10 border officials who met them at Tumacacori.

5 - 11 - Mr. P. W. Tompkins, a Park Service fan and chemical engineer from San Francisco, who spent the greater part of a day taking detailed photographic studies.

5 - 13 - The Patagonia Grammar School Eighth Grade.

5 - 22 - Sr. and Sra. Arriola, of Nogales, Sonora. He is the city health officer of the border, and was very interested in our history.

PUBLICITY: Quite a bit of Southern Arizona publicity came out as result of elaborate preparations the city of Nogales made for reception of the Don's Club sponsored Travelcade referred to above. At first Nogales officials anticipated 150 persons would arrive in the Travelcade, which was to terminate its trip in Nogales with attendance at the Fiesta de Mayo celebration, which is a join-hands-across-the-border affair of two cities. State Senator Merryweather and civic officials arranged with me for reception of the Travelcade group at Tumacacori, with plans for soft drinks, speeches by dignitaries, the Nogales High School Band for a concert, and then a trip through the mission. In anticipation of this large crowd I arranged for some of the local Boy Scouts to serve as "Junior Rangers" in helping to tastfully usher the crowd and prevent its spilling

over into places where it could unwittingly do damage to natural or historic features.

Then came the great moment for which Nogales officials had so carefully planned. A loud-speaker was set up in our view window, great quantities of soft drinks arrived, and then, instead of the crowd of 150 people came a total of about 65 people. Senator Merryweather addressed the group, as they stood north of the museum with the mission in the background, then Mayor Robbins of Nogales spoke briefly. Then the chief address, a historical talk, was given by yours truly. After which the visitors were taken through the mission. Upon termination of the trip everybody appeared to have had a grand time, the Boy Scouts cleaned up the mess and consumed prodigious quantities of surplus soft drinks, and the monument was completely intact. We were mildly amused at the elaborate preparations made by our local civic leaders, but perhaps they are not as accustomed to handling large crowds of people as we Park Service veterans are.

The important thing about the above episode, to us, is the fact that several civic leaders of the border area seem to know much more clearly than before that Tumacacori is more than just a way station at the side of the road.

MAINTENANCE: Application of bitumuls and gravel to trails of the residence area, and from the museum building to the residence area, has been completed. Another treatment will be needed next year to really solidify the whole trail. The patio garden fish pond was given its annual cleaning out. Valves on the water line leading to the fish pond and on the drain pipe leading from it were in very bad condition, so a deep excavation was necessary. Valves were repaired and re-ground, the excavation was refilled, and a new box left open down to the valves. A leaky toilet in the comfort station was taken out, repaired, and replaced. Heating stoves of the residences were removed for the summer. Pruning of winter killed plants was practically finished. Bermuda grass was removed from walks. The combination of the office safe was changed. In starting the annual check-up on the museum furnace it was discovered that the firepot was warped and cracked. This, plus the fact the burner motor is badly worn, and the hearth is completely worn out, will necessitate practically an entire new furnace before next winter. A detailed report on the furnace condition will follow separately.

ROADS: Bids were solicited for oil caking the road leading from the parking area to the residence area. Only one bid was received, and it was entirely too high, so the work has been deferred until another year.

MUSEUM AND EDUCATION: Our patio garden is actually an extension of the museum. This year in one section we have planted two rows of the primitive Papago Corn, which is as near as we can get to the corn which was being raised here when missionary activity began. Two other rows have been planted in Mexican June Corn, which is about as great a modern corn contrast with the old type as we can obtain. Labels at the heads of the corn rows inform the visitors of the contrast, and they can note, as the corn matures,

the distinct differences which will show up. We believe there can be no more graphic form of education than this.

PERSONNEL: Ranger Brewer had a touch of "flu" and was ill for several days, taking 4 days 6 hours of sick leave.
Superintendent Jackson took 2 days of annual leave.
On May 12 Alfred Frank Whiting entered on duty as WAE Guide, filling the position vacated by Juliet Kibbey England because of pregnancy. Mr. Whiting worked two days this period.

GENERAL: Except for the distressing news about our museum furnace, it can be reported that the monument is going along in good shape.

Earl Jackson,
Superintendent.

Weather

The weather has been fairly good all month, with only a few precipitations during the week, being very dry most part of the time making it rather hard on the plantings.

Visits and Conducted Parties

During, going and organizing sessions totaled 252% for the month. 7548 people in 478 parties were shown through and given an orientation lecture in the museum. 1508 people in 478 parties made the trip through the petrified forest after being conducted by each party in the museum and using our 31 cars.

Personnel Visits

Rangers ATL hours, Rubey 161 hours, 40 minutes. Total miles for month 160 rovers, 40 minutes. For Kinnett, 176 hours, 30 minutes.

U.S.F. Visitors:

Pogue and Mrs. Clancy on April 25, and Corder and two from Petrified Creek B. C.

Special Groups

Peripatetic played host to 27 Geography Majors from the University of California on April 27.

Maintenance:

All informational and directional road signs were repainted and reinforced, and most favorable comments by the visiting public were overheard. The campers archeologist spent three days repairing the fireplaces built by the rains. A few minor jobs are scheduled to be done soon.

Ranger in Charge

TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA.

MAY 26, 1949.

MEMORANDUM for the Regional Director, Region Three.

Following is the monthly narrative report for Tuzigoot National Monument for May, 1949.

Travel Data:

1555 visitors broke the record for May travel at Tuzigoot. Previous May high of 1428 was reached in 1948, all of which is a reminder that the travel season is just around the corner.

Weather:

The weather has been fairly cool all month, with wind a good percentage of the time. No precipitation. Sulphur smoke, from the smelter, hung over the ruins part of the time making it rather hard on the visitors.

Guide and Contact Service:

Museum, ruins and orientation contacts totaled 3804 for the month. 1306 people in 478 parties were shown through and given an orientation lecture in the museum, and 1809 people in 472 parties made the trip through the ruins. Average time spent by each party in the museum and ruins was 21 minutes.

Personnel Time:

Museum: 171 hours. Ruins: 161 hours, 40 minutes. Total time for Bright: 158 hours, 20 minutes. For Richert: 176 hours, 20 minutes.

N.P.S. Visitors:

Ranger and Mrs. Clancy on April 26, and Sup't. and Mrs. John Cook on May 1, all from Montezuma Castle N. M.

Special Group:

Tuzigoot played host to 37 Geographic Society Students from the University of California on April 27.

Maintenance:

All informational and directional road signs were repainted and relettered, and many favorable comments, by the visiting public, have been received. The ranger-archeologist spent three more days repairing the flagstone trail leading to the ruins. A new window pane was installed in the office door.

Everett W. Bright
Superintendent.

NATIONAL PARK SERVICE

Walnut Canyon National Monument
Flagstaff, Arizona

May 25, 1949.

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly narrative report of activities at Walnut Canyon National Monument for May, 1949.

Visitors this month, 1936; travel year to date, 4358.

General Water ceased to flow in Walnut Canyon about May 10. Numerous fish were known to have escaped from Lake Mary into Walnut Creek and on May 21 and 22 the State opened the stream to fishing. Five people fished on the monument and the Superintendent caught the only fish - a small-mouthed bass.

At night choruses of frogs along the creek can be heard on the canyon rim.

Visitors often report seeing antelope or deer along the approach road and several deer have been seen on the monument.

Administration Building fire protection and forest fire fighting plans were prepared.

Hastings and Loding attended the Forest Service fire fighting school on May 5 and 6.

The Department of the Interior Century of Conservation stamp was received and used on our envelopes.

Some time was spent interviewing people who would be customers on an electric power line to Walnut Canyon.

The annual report for the 1949 fiscal year was prepared.

The Forest Service is about to start charging for the use of their camp ground in Oak Creek Canyon and at Camp Townsend at the rate of 25¢ for picnic parties and 50¢ for over-night camping. This will probably make some difference in the demands on our picnic area by Sunday and evening picnickers.

Weather Snow to a depth of 8½ inches on May 5 slowed travel for a few days.

Equipment Bids were received and distributed for a new gasoline operated jack hammer.

Visitors A total of 1936 visitors came to the monument. Of these 1211 were contacted in 19.5 hours. 228 saw the museum on Sundays and other times when the light plant was running. Several local people were surprised to learn we have a museum and are very interested in it. Since the museum depends entirely on artificial illumination, it is open to visitors only when the light plant is running.

On April 26 a party of 38 students from the University of Southern California were found camping on the phonic area. They came in late and were prepared to spend the night when discovered.

A party of 38 students from Safford High School visited the monument May 18.

Southwestern Monument Association Sales A total of $65.10 was collected from April 17 through May 28 in the sale of publications, etc. Post cards, Jumbo cards, and picture packs in colors have been received and will soon be placed on sale on a Self-Serve basis.

Maintenance Repainting the living-room of the ranger's quarters is almost complete.

The woodwork, walls, and ceilings of office, workroom, and lobby were repainted except the portions painted green in the lobby and the window frames.

The telephone line went dead and a tree was found on it near the quarters. The line was lying on the ground near Fish's ranch and was broken where it crosses old Highway 66.

Protection Three S & A fire extinguishers were cleaned and refilled.

Arrangements were made with the City Street Department of Flagstaff to respond to a fire call.

Daily patrols of the picnic area are made at dusk to check for neglected fires.

The condition of fire tools was checked and caches were placed at the museum and in the Comfort Station. A 6-man tool box has been equipped and placed where it could be quickly loaded on a truck.

Roads and Trails The visitor trail into the canyon and around the "Island" has been reconditioned for summer use.

On May 9 the county bladed the approach road and our entrance road.

Maintenance man Joe Bean moved from Wupatki on May 19. The motor patrol, loader and Wupatki truck are being used along with the Walnut Canyon dump truck to haul cinders for our roads.

National Park Service Visitors. Archaeologist Aid Pixley arrived on May 2 and departed May 3 after loading the last of the stabilization equipment, and cleaning up around the Log Cabin.

Archaeologist Schroeder and former ranger Charles B. Frost were here May 11.

Superintendent and Mrs. Bright were here May 16 and 17.

Homer V. Hastings,
Superintendent.

May 23, 1949.

MEMORANDUM for the Regional Director, Region Three.

MAY TRAVEL, 1949 — Visitors, 11,121 Cars, 2,428

TRAVEL YEAR TO DATE — Visitors, 65,373 Cars, 16,038

GENERAL: May has brought us exceptionally heavy winds, as was the case a year ago, but in spite of this, May has exceeded, by well over three thousand, any May in our history, and our travel year to date is ahead of any like period by over thirteen thousand. In a small area such as ours, thirteen thousand gain over our heaviest travel is trying to say the least. Probably not as trying on us as on the Regional Office, but our set-up and staff is not capable of doing justice to this number of visitors. To give even checking station service to this number leaves us little time for much else, and as a consequence, we are way behind on upkeep of buildings, equipment, and even general clean-up. One official trip was made to El Paso, and no inspection trips off our public use area were made.

PUBLICITY: No lack of publicity ever exists at White Sands. If nothing more than our being in the middle of the area of the big fight between ranchers and the Army, every day or so we rate the press. A nice story appeared in a New York City paper telling of the White Sands and urging its readers to come by. We got a lot of publicity through the recent U.S. Highway 54 Association. U.S. Highway 70 holds a meeting in Safford next week, and already we are receiving publicity from this angle.

COMPLAINTS: No complaints of any nature have been received in this office on either our Service or the White Sands Service Company.

ROADS & TRAILS: Our roads have been handled by Ranger Chittum while Joe is laid up with his broken ankle. Chittum is doing this in addition to some of his regular duties. Ray holds down some of the jobs which Harold is forced to pass up.

CONCESSION: The Concession seems to be running a little behind last year, and we are at a loss as to why, when the visitor total is so much higher. Purchases seem to be for smaller amounts, and lower priced articles. In accordance with instructions, price reductions have been placed into effect.

Superintendent's Narrative - continued

RANGER SERVICE: As was true last month, little has been done other than the absolute necessary duties connected with the volume of people -- mostly clean-up, garbage disposal, and water hauling.

VISITORS: A Grazing Service official was in with a couple of accountants from the General Accounting Office. Mr. E. P. Anoona of the Forest Service was in with Mr. Jackson from their Washington Office. Remo Sarlin of the Indian Service and formerly at Ranier and Olympic National Parks was in for a few minutes. So, in spite of neglects here and there, we are proud of the increase in our visitor totals, and especially appreciative of the kind words so many leave with us. My boys are doing yeomen's service over long hours. Otherwise, the added work could be most impossible.

Sincerely,

Sherrill Faris,
Superintendent.

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

May 26, 1949

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Wupatki National Monument for the month of May.

Weather: Unseasonably cool weather characterized May. No temperatures above 85° until the 24th. Hiegh winds were lipited to one week and we had .80 inches of precipitation in two storms.

Roads: All approaches are passable, although somewhat dusty. They are in better shape than at any time in the past.
