which is an increase of 214 people over August of last year.

Interpretation: Another record was shattered this month when 1,980 people in 257 groups were conducted through the Castle. Children and shool groups made up a large per cent of the parties. In addition to those climbing the ladders, about 3,000 visitors used the Sycamore Trail and 4,500 saw the museum. At the Well, 1,660 visitors hiked the Nature Trail and 522 visited the museum.

The new Sycamore Trail booklets arrived from the printers and were placed in service the middle of the month. A stand to hold these booklets was constructed and placed near the present registering stand. This booklet is proving very popular and sales are running about thirty per day.

Visitors: On July 29, Superintendent King and family from Saguaro.

On August 4, John Davis and Luis Castellun from Region.

On August 6, twenty members of the California Sierra Club spent the night in the campground.

On August 13, Archeologist Schroeder and family from Lake Mead.

On August 15, thirty-five children from the Foxboro Camp in upper Oak Creek.

On August 21, forty students from Camp Geronimo near Payson paid their annual visit.

During the month, many smaller groups of Boy Scouts etc.

Roads & Trails: A laborer was hired for two days to repair the Castle trail and campground road which were damaged by summer rains.

Personnel: On August 3, a son, James Michael, was born in the Cottonwood hospital to Ranger and Mrs. Clancy. All are doing well.

Jack McCracken from Camp Verde entered on duty as Seasonal Ranger. He replaced Sydney Jamoson who left August 26 for Casa Grande.

Superintendent Cook was on sick leave through August 22-26.

NAME [illegible]
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOMES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATION OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE MATERIALS, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHALL NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE WILL RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REVISED MAY 1948.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Natural Bridges National Monument
Moab, Utah

August 28, 1950

Memorandum

To: General Superintendent

From: Acting Superintendent, Natural Bridges

Subject: Monthly Narrative Report for the month of August, 1950

WEATHER: Hot & Dry.

TRAVEL: With dry, passable roads travel for August shows an increase of 64 % over July of this year and comes within 20 visitors of August last year which was a record count. A total of 487 people visited the area in 143 cars. The Campground was used by 80 people in 14 parties.

INTERPRETIVE SERVICES: Total contact time amounted to 85 hours in which 373 visitors were given information about the area. Two guided tours were made to all three bridges with a total attendance of 28. Twenty-four of this total were with the Prairie Trek, from St. Louis.

INSPECTIONS & TRAILS: Acting Superintendent Wilson spent August 10 & 11 in the area on an inspection trip and assisting in the placing of two 28 ft. and one 26 ft. ladders on the Kachina Trail. The new trail to Kachina will be completed next month and will cut the milage to this Bridge from 1½ mile to ½ mile. It is a spectacular trail and Ranger Redd has done an excellent job on the construction of the ladders. They even look safe.

SIGNS: The arrow on the sign at the junction of the mine road was changed. "See The" was removed from the sign at the junction of the Rito and Monument entrance road. Two new directional signs were placed on the trail at Owachoma Bridge. A register box was placed at the head of the Kachina Bridge Trail with a "Please Register " sign.

GENERAL: A fireplace stove was installed at the Campground and the visitor's reaction to its use is being noted. A coat of paint was applied to the cab of the weapons carrier and it now has the appearance of a more respectable "Chick Sales on Wheels".

REVISED MAY 1946.

AUG 30 1950 RECEIVED REGION THREE

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Navajo National Monument
Tonalea, Arizona

August 30,1950

Memorandum

To: General Superintendent, Southeastern National Monuments

From: Superintendent, Navajo

Subject: Report 1st, August 1950

Visitation and Interpretation: A record August with 71 cars carrying 212 visitors; 76 people in 19 parties hiked to Betatakin,14 in 3 parties by horseback to Keet Seel, 90 were satisfied to view Betatakin from the canyon rim. The Sierra Club of California and Glendale's YMCA group from Phoenix were responsible for approximately one third of the visitors.

Weather: Temperatures recorded a high of 89° and a low of 46°. Only .45 of an inch of moisture fell during this report period.

Visitors: Ranger Art White from Montezuma Well, Supt. Brower and family and Mrs. Reichert of Fuzzigret, Supt. Hastings, wife and daughter from Walnut Canyon, Ross King, seasonal ranger, Grand Canyon, Seasonal Rangers Bradley, Polk, and Bryant of Rosa Verde, Seasonal Ranger Buchman and wife of Walnut Canyon, General Supt. John Davis and Administrative Officer Castellum of Region three office. Robert Young and Supt. Allen Harper of the Indian Agency at Window Rock, artist Paul Coze, Bertha Sutton, Santa Fe, New Mexico.

Roads and Trails: Several man days of labor went into the repair of the culvert located in Klethla Valley. Unless we have an exceptionally hard rain, the stone headwalls and fill should be quite adequate.

Inspections: General Superintendent Davis and Administrative Officer Castellum were in on the 7th. This was Lou's first visit to Navajo.

New Construction: Funds, plans and specifications were received for the addition to residence no. 1. Bids will be closed August 30. Work has begun on the project to the extent of quarrying approximately 30 yd. of building stone and moving it to the construction site. The sand and stone for the addition is to be furnished on the site by the Service.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

General: The jeep has arrived and most certainly can be used to a good advantage. Homer Hastings, of Walnut, was generous enough to drive it to Navajo from Flagstaff.

A trip was made to Rainbow Lodge, Navajo Mountain and Inscription House Trading Post.

Two days were spent painting and stamping Monument hand tools and equipment.

Personnel: An item which should have been reported last month: a son, John Paul, was born to Seasonal Ranger and Mrs. Seth Bigman, July 11, 1950.

REVISED MAY 1949.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

ORGAN PIPE CACTUS NATIONAL MONUMENT

P. O. Box 38, Ajo, Arizona

August 25, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Organ Pipe Cactus

Subject: Superintendent's Monthly Narrative Report for August, 1950

Weather

Most days have been over 100 with a high of 109 on the 9th and 17th. The low of 84 for night temperatures was on the 16th. A light rain of .08 inches fell on the 18th. Other spotted rains fell over the area but were not recordable at headquarters. Frequent electrical storms have occurred this month.

Special Activities

The Superintendent was principal speaker for the Gila Bend Lion's Club Ladies Night Banquet the 23rd. Approximately 100 people attended including Mrs. Supernaugh and Ranger and Mrs. Steele.

Maintenance

On August 11 the pumping system had to be pulled for repair due to a stuck check valve. Again on the 21st further repair of the same nature was required. With these small facilities and their frequent trouble it is a struggle to keep ample water on hand.

Routine road maintenance continued the first part of the report period.

Cooperating Governmental Agencies

Another road construction project has been started by the Bureau of Animal Industry. They are locating a patrol road on the neutral strip of the International Boundary between Dowling Well and Quitobaquito.

Organ Pipe Cactus National Monument
Ajo, Arizona

(1)

Research and Observations

W. Taylor Marshall again honored us with a brief visit and gave further assistance in cactus identifications. Records are added to our long list almost monthly. Marshall was accompanied by his assistant, Jim Blakely.

Travel

This month's travel decrease can partially be contributed to the heat and almost a week of blocked roads in Mexico, due to floods. All interested visitors, however, were well paid with a nice display of fall annuals along the highways.

Personnel

Maintenanceman Quinn left on leave the 7th and will return about the first.

Superintendent Supernaugh will be on leave through September.

Accidents

Two minor wrecks occurred on the road during the month with little property damage. This being the shut-down period at the mine, there will, no doubt, be more to come.

Grover E. Steele
Acting Superintendent

IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REVISED MAY 1945.

SAGUARO NATIONAL MONUMENT
Tucson, Arizona

August 25, 1950

MEMORANDUM

To: General Superintendent

From: Acting Superintendent, Saguaro

Subject: Monthly Report, August, 1950

General

Precipitation appeared in a few heavy showers during August which differed from the general rains in July. On July 31 a two inch rainfall within one hour, drowned the city of Tucson and caused considerable damage to the roads and trails in the monument area. A total of 3.39 inches of rain was recorded at Mica Mountain tower but at this writing the forested area is relatively dry and very susceptible to the lightning storms that have been occurring during the past month. During the greater part of the month the temperatures at headquarters ranged in the 95-100 degree mark and comments from old-timers call this a cool (?) summer.

Travel at Saguaro for the month of August again broke previous records and apparently the war situation has not halted the "Wandering American".

Special Activities

Architect Kenneth Saunders of the Regional Office visited the area on July 27-28. The two days were spent in lining up contractors for bidding on the addition to Madrona Ranger Station.

Superintendent King and family, left July 27 for a months vacation. At last report they were basking in the cool pines of Northern California.

The Budget, Agriculture, Interior Task Force did not stop at Saguaro on their way through Tucson.

Maintenance

The Happy Valley Saddle trail has been completed to the top of the ridge leading out of the valley toward Manning Camp.

Approximately one-half of the Rincon Peak trail has been brushed out during the past month.

The Spud Rock Lookout patrol trail is practically finished and only a few hundred feet remains to complete the rehabilitation of this trail.

All trails suffered a terrific beating as a result of the heavy rain of July 31. The lower portion of the Happy Valley Saddle trail, recently repaired, is again in need of extensive repair to the tread and replacement of water bars.

Nineteen trail signs were established at junction points in the forested area during the month.

New Construction

A bidding deadline for construction of the addition to the Madrona Ranger Station was set for September 1. At this writing no contractors have appeared to look over the proposed addition sight.

Approaches to Park Area

The Broadway approach road has been bladed twice during the past month and is in fair condition at this time.

A County grador is at work on the Vail approach road which, for the greater part of the month, looked more like a river bed than a road. Many visitors complained of this condition and several were stuck in some of the sandy washes.

Accessions

Two saddles were transferred from Organ Pipe Cactus National Monument.

Interpretive Services

A total of 619 persons in 180 parties were given interpretive service at headquarters. This amounted to 47 hours for an average of 16 minutes per party.

Research and Observation

A mule deer was observed by visitors one mile south of the monument headquarters.

Several coyotes have been sighted along the Broadway approach road and one was reported by a visitor on the Cactus-Loop road.

Dr. Taylor Marshall of the Desert Botanical Gardens, Tempe, Arizona, conferred at length with the Acting Superintendent on cactus and succulents. Dr. Marshall pointed out one error on our guide leaflet that will remedied.

One five point whitetail deer was observed on several occasions in the vicinity of Reef Rock Secondary.

A Jaguar (Felis hernandesii) was observed by the Acting Superintendent on the road leading into Madrona Ranger Station.

Decrease in Travel

A total of 1422 persons visited Saguaro National Monument during August. This is a slight decrease of 88 visitors as Compared to last month, but an increase of 221 visitors over the corresponding month a year ago.

Visitors

July 27 - Architect Kenneth Saunders, Regional Office.
July 28 - Rudi and Rosali Guttmann de Torrnya, Budapest, Hungary.
July 29 - Misses P. David and P. Tournier, Lyons, France.
August 8 - Mr. Herode Robert, Wasmuel, Belgium.
August 14 - Dr. Taylor Marshall, Desert Botanical Garden, Tempe, Arizona.
August 18 - Mr. Bormann, U.S. Fish and Wildlife Service. Visited forested area.

Ranger Service

Ranger Benjamin J. Zerbey was presented with a new little Ranger on July 25. The new Ranger has been named Roderick John.

Wildlife Activities

Biologist Lowell Sumner of Region Four Office will conduct a wildlife investigation at Saguaro this fall.

Forest Fire Control

Two fires in the Catalina mountains were reported to the U.S. Forest Service by our lookouts. The Forest Service removed their lookout on July 26.

A new telephone line was completed to Spud Rock Secondary lookout during the month. All secondaries now have telephone communication with the exception of Mica Mountain secondary.

Accidents

Laborer James L. Gilmore suffered a strained back while working on the Happy Valley Saddle trail. Mr. Gilmore received diathermy treatments at the Veterans Hospital and returned to duty August 16.

Personnel

Marion W. Wallmark was changed in status from a temporary to an excepted appointment as Fire Control Aid, ICS-3, on July 27.

Forrest M. Benson, Jr.
Acting Superintendent

NAME Benjamin J. Torbey

TITLE Park Ranger

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

~~The station was left unattended several times during the month because~~ Supt. King was on annual leave and the ranger had other important duties.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, [illegible] relations of the area, and the utilization of these facilities by the public. It includes data on routes and rates, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: Is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a1) and 9 (Report 8a2).

RECEIVED AUG 28 1950 NATIONAL PARK SERVICE REGIONAL OFFICE

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Sunset Crater NATIONAL MONUMENT

Flagstaff, Arizona

Aug. 25 19 50

Memorandum

To: General Superintendent

From: Ranger-in-charge, Sunset Crater

Subject: Monthly Narrative Report, August 1950

Weather: Temperatures have varied considerably during the past month with cold nights and mornings and hot sultry afternoons between thunder showers. Rains have been scattered with a two week stretch without a drop on the monument. Several good soakings however off and on kept the fire danger down. Temperatures ranged from the low forties up to the high seventies and low eighties.

Special Activities: Three trips were made to Flagstaff for supplies. One of these to drive a group of Girl Scouts to the Crack-in-the-Rock ruin.

Major Brady of the Museum of Northern Arizona visited the monument several times this month. Information gathered from him has been invaluable. Several interesting formations in the lava flow has been shown and discribed.

Mr. Paul Cozo is at present on the monument painting pictures of the area. He intends to show the eruption of the crater with Indians included to bring out the story of the area.

One car had to be pulled out of the cinders north of the parking area. Ignorance and carlessness were the cause.

The sectionof trail from the ice cave to the parking area was rerouted. The trail now runs from the ice cave around the fumarole to the register stand.

Inspections: Mr. Davis together with Mr. Gastellum visited the monument on August 6.

Maintenance: Mr. Bean came up the back road with the blade and started blading the monuments roads on August 18. A good heavy rain arrived at the same time. The combination of rain and blading will greatly improve the road conditions on the monument.

More work was done on the trailer house to ready it for occupancy.

A landing mark was built to ease the problem of locating parcels of the air mail.

General Publicity: Two articles appeared in The Arizona Republic newspaper at Phoenix on August 2nd and 3rd. Both were very good with pictures of the crater included. The first appeared on July 31 and publicized the new Nature Trail. A small name error was made, but on the whole the articles were very well written. The stories were included in a Sunday vacation section.

Interesting Items: The Nature Trail is still considered to be an attraction. Over 50% of the visitors have taken the trip. Comments are still favorable. The Ranger and area resident stand in keeping a high percentage of conservation.

The small books are still going quickly with collections averaging 50¢. 705 books were sold this month with $24.95 collected showing a loss of $10.55.

Travel to the top of the crater has increased from 4% to 12% over last month. Several large groups scheduled this increase. A total of [redacted] 2,575 people in 155 parties made the climb.

On July 28, Miss Loretta Hutton together with the second group of Junior Girl Scouts arrived and climbed the crater. The rangers went to Grand for lunch and then Ranger Walker and Grandi drove two visitors to Meteor-Barringer-Crater. Don Gardner made the trip twice.

Changes in Travel: Travel after the first week or so in August has been good. People seem to have gotten over the war scare and are visiting the monument as usual.

	Cars	Visitors
August 1950		
August 1949		
This travel year		
Last travel year		

Visitors: July 28 Miss Loretta Hutton and Junior Girl Scouts of Holbrook
August 3 Mr. John Davis, National Office
Mr. Louis Castillon, National Office.
August 5-6-7 Walter Ivory, Museum of Northern Arizona.
August 7 Sierra Club, California, 5 cars, 17 people.
11 Girl Scout group, Oak Park, Illinois, 10 in party.
11 Mr. Dawson, Arizona State College, Flagstaff, Identifying plants on Nature Trail.
11 Junior Girls 7 car minor tour, Navajo Indians, Summer recruits. Ten in party.

Future Plans: Two trees were cut on a line in Limits park. The Forest Service then a crew to handle it.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers with Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.); count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a5).

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Tonto National Monument
Roosevelt, Arizona

August 30, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Tonto

Subject: Narrative report, Tonto, month of August, 1950

Weather. Typical brutal August weather, with temperatures up to 112 degrees, cloudy some days, very little rain.

Approach Roads. Apache Trail rough and dry. The state received bids for oiling about 9 miles of the Apache Trail between Tonto and the Globe-Miami junction.

Parking Area. The concrete curb and gutter has been completed, which outlines the area neatly. The fill on the approach to the terraces is nearly completed, for which it was necessary to borrow dirt from below the bridge. The base course is partly spread, and concrete culvert headboxes are complete. Some filling and trimming, and spreading the oil course remains to be done, and the job will require awhile yet. One truck driver was injured when he attempted to jump into his truck to stop it as the truck drifted back down the hill, and it overturned on him. This will be covered by a separate report.

Travel. 723 persons in 190 cars were counted, with perhaps another 150 to 200 people who turned around below the construction area and were not counted. This compares with 844 persons for August last year.

Personnel. Archaeologist and Mrs. Lloyd Pierson attended the Southwestern Archaeological Conference at Flagstaff August 23 to 25, taking 16 hours of leave as well as lieu days. A. J. Conner was employed as laborer-leadman to help with the plane table survey.

Visitors. Mr. W. Earl of the Desert Botanical Garden, with 20 Boy Scouts, on July 25.

Mr. A. L. McComb and 55 forestry students from Iowa State College, July 29.

Superintendent John Cook and Ranger Jim Clancy of Montezuma Castle, to get the Chevrolet pickup, August 17.

Robert, Mac, and Evelyn Sharp, and Mrs. C. C. Sharp, family of the superintendent, August 20 to 30.

Vehicles. Another milestone on Tonto's progress toward the 20th century occurred on August 7, when a new Dodge pickup was received. This is the first new vehicle to be assigned here, and it is highly appreciated.

The Plymouth sedan brought out by Engineer Conn, which was surveyed and sold to the highest bidder, was purchased by a local man.

Surveying. A plane table survey of the proposed residential site was made by Engineer Conn, with the aid of A. J. Cormer and Lloyd Pierson. The recent ruins excavation sites were surveyed also.

General. The customary overhauls on the Onan power plants were made. An order of parts for these plants was received and will be installed from time to time. Pierson made an extension of the tool shed roof, which will serve as an open air shop. Some time was spent in a cleanup of the area.

Master Mechanic Pierson and Sharp spent a half day tightening up bolts and screws on the new Dodge and checking it over.

A temporary trail was roughed out to connect with the lower ruins trail. The outdoor restroom interiors were painted a charming tea-rose and a lovely blue-gray, with contrasting ivory. If they can't be lighted-ly, they can at least be elegant.

A wage survey for a maintenance schedule was made, and one started for a construction schedule.

Much remains to be done to make the monument a smoothly functioning unit, due to the construction disrupting the area and utilities.

Charles C. Sharp
Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATION, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE MATERIAL TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED AS PERFORMED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLACE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY MUST NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATES; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE WILL RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DUE ONE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT NM3) AND 9 (REPORT NM3).

REVISED MAY 1946

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Tumacacori National Monument
Tumacacori, Arizona

August 25, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Tumacacori

Subject: Superintendent's Monthly Narrative Report for July, 1950

Weather: The weather this month has been very dry, the summer rains having slacked off after a very good start last month. There are still many showers within sight, but somehow they seem to miss the Monument. Precipitation this month was only 1.54 inches instead of the average 3.10 inches for the last eleven Augusts. The maximum temperature recorded was 103 on August 9 and the minimum was 56 on August 2.

Visitor Travel: The travel this month has again broken all previous August records. There were 2,148 visitors this month as compared with the previous high of 1,767 for August of last year. For the travel year to date we have 27,856 visitors as compared with the total for 1948, the highest year thus far, which was 25,765 visitors.

Interpretive Services: Of these 2,148 visitors, 849 went on the 158 guided trips through the Mission Church and grounds; 2,029 took advantage of the free self-guiding museum and visited the patio garden; and 2,039 received combination Information and Interpretive Services.

Visitors: Among our visitors were:

July 25 - Carl Strom, U. S. Consul General in Mexico
July 29 - Santa Cruz Valley School group
July 30 - Thomas E. Stimson, Jr., Western Editor of Popular Mechanics.
Aug. 6 - Rex Ranch School, Amado, Arizona. Group of 31 students and 6 Counselors.
Aug. 20 - American Friends Service Committee consisting of members from this country as well as Switzerland, India and Jamaica. Eleven of the group made the trip through the mission.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETIVE. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, BUS, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATION, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE MATERIAL, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR FURNISHED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND SERVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND SERVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLACE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKUPS AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY WILL NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE WILL RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS FURNISHING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DUE NOT LATER THAN EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REVISED MAY 1948

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Tumacacori National Monument
Tumacacori, Arizona

August 25, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Tumacacori

Subject: Superintendent's Monthly Narrative Report for July, 1950

Weather: The weather this month has been very dry, the summer rains having slacked off after a very good start last month. There are still many showers within sight, but somehow they seem to miss the Monument. Precipitation this month was only 1.54 inches instead of the average 3.10 inches for the last eleven Augusts. The maximum temperature recorded was 103 on August 9 and the minimum was 56 on August 2.

Visitor Travel: The travel this month has again broken all previous August records. There were 2,148 visitors this month as compared with the previous high of 1,767 for August of last year. For the travel year to date we have 27,856 visitors as compared with the total for 1948, the highest year thus far, which was 26,766 visitors.

Interpretive Services: Of these 2,148 visitors, 849 went on the 158 guided trips through the Mission Church and grounds; 2,029 took advantage of the free self-guiding museum and visited the patio garden; and 2,039 received combination Information and Interpretive Services.

Visitors: Among our visitors were:

July 25 - Carl Strom, U. S. Consul General in Mexico
July 29 - Santa Cruz Valley School group
July 30 - Thomas E. Stimson, Jr., Western Editor of Popular Mechanics.
Aug. 6 - Rex Ranch School, Amado, Arizona. Group of 31 students and 6 Counselors.
Aug. 20 - American Friends Service Committee consisting of members from this country as well as Switzerland, India and Jamaica. Eleven of the group made the trip through the mission.

Inspections: Architect Kenneth Saunders was here on July 28 and 29. He and Superintendent Jackson went over the necessary changes in the mission screening contract and also looked over the faulty roofing job on the museum. Just after Saunders left, Contractor Sam Schwenn, who put on the roof back in 1948, arrived and made some repairs to the worst part of the roof.

Later, we learned from a memo issued by Architect Saunders, that Mr. Schwenn is going to replace the part that is damaged at a cost of $50.00 to us. The work will cost him $350.00.

Personnel: Ranger Monson returned from annual leave on August 26. Superintendent Jackson went on annual leave on August 5 and won't be back on duty until September 2. WAE Guide Charles B. Conrad has continued working this month during Jackson's leave. Having a WAE Guide here instead of a full time employee has left us with only one person on duty for 21 of the 31 days.

Mission Stabilization: Work on closing the windows and door openings of the old Mission was completed this month. Several changes had to be made in the contract to make a better and more satisfactory job. The windows were all removed and a strip of felt inserted between glass and frame to guard against breakage. While the glass was out, the frames were linseeded throughout. The front window had to be tilted since we found it caused reflections when viewed from our View Window. The reflections would not only ruin photographs but spoil the impression of the antiquity of the Mission as well. It was also found that, because of changes made in the method of attaching the front doors, the front opening was not bat-proof. Therefore, an extra was added to the contract to take care of this problem. The work called for in the contract, as well as the extra, was finished on July 18 and now the old Mission is bat-proof.

The work is not readily noticeable from the View Window. Several local people who knew of the proposed screening asked why it had not been done and were surprised on being told that it had been done.

The Contractor did a very good job in installing the doors and windows so as not to damage the old structure. The doors and screens are of very good material and are well made. The materials are much better and stronger than we had visualized and certainly they will last as long as the building. Incidentally, he furnished a screen for the tower sacristy window which was necessary, although not called for, in the contract.

Maintenance: The painting of the Museum building with Bondex took up most of the time of the Maintenance man. Now he has one coat over most of the building and the second coat over part of it. In addition to the painting, he has done quite a bit of weeding along the newly treated roads and trails where the weeds are

NAME [illegible]
TITLE Acting Sup't

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, BUS, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATES; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE WILL RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 6 (REPORT 6M3) AND 9 (REPORT 9M3).

REVISED MAY 1949.

AUG 29 1950

TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA

August 27, 1950

Memorandum

To: General Superintendent

From: Superintendent, Tuzigoot

Subject: Report lml, August 1950

There follows a narrative report of activities in this area.

VISITORS

Visitors this month--3057 visitors in 888 cars and three chartered busses. This travel tops all previous records

GUIDE AND CONTACT SERVICE

Museum, ruins and orientation contacts totaled 7383 for the month. 2765 people in 211 parties were shown thru and given an orientation lecture in the museum and 2693 people in 839 parties made the trip thru the ruins. Average time spent by each party in the museum and ruins--20 minutes.

PERSONNEL TIME

Museum and Ruins: 258 hours, 5 minutes.
Total contact time for Brewer: 113 hours, 5 minutes.
For Richert: 142 hours.

N.P.S. VISITORS

Supt. Sam and Mrs. King, Saguaro National Monument on the 28th.

Supt. John and Mrs. Cook of Montezuma Castle on the 28th.

Ranger Naturalist and Mrs. John Merkle of Grand Canyon National Park on the 1st.

Gen. Supt. John M. Davis and Administrative Officer Luis Castellum on the 4th.

Al Schroeder, Archeologist, Lake Meade, on Aug. 12 and 13.

Ranger and Mrs. Jamieson of Montezuma Castle on the 14th.

Mr. and Mrs. and Barbara Jean Anderson of Yosemite National Park on the 25th.

OTHER AGENCY VISITORS

Mr. J.W. Dixon and family, Washington Office of Bureau of Reclamation on the 2nd.

Dr. Frost and family, Veterans Administration, Fort Whipple, Arizona.

Mr. and Mrs. Dutton, USIS, Tuba City on the 20th.

REPORTWORTHY VISITORS

Dr. Malcolm Farmer of the San Diego Museum of Man on the 11th. (Mac is on a years assignment to study Navajo archeology for the Tribal Council).

Mr. Harry F. Rorick formerly of Grand Canyon and Shonto on the 14th.

Bob Uhler formerly of Tupatki on the 19th.

Dr. Geo. W. Brainerd of U.C.L.A. and Southwest Museum on the 22nd.

Mr. and Mrs. Thomas P. Cairde and family of the U.S. Embassy in Rome.

Father Victor Stoner on the 24th.

ORGANIZED GROUPS

Two groups of 28 and 14 Sierra Club members by motor caravan on August 7th and 8th.

26 students by chartered bus on August 7th. KSTC, Emporia, Kansas.

26 students by chartered bus on August 11th. Central Mo. Teachers College.

30 students by chartered bus on August 12th. Springfield Mo., Teachers College. Special talks and tours were given these groups.

Pittsburg State Teachers College, Pittsburg, Kansas--party of 30 on the 14th.

CONFERENCES

Supt. Brewer attended the afternoon session of the Pecos conference on the 23rd and Archeologist Richert attended A.M. and P.M. Sessions on the 25th.

MAINTENANCE

Following a rainstorm the garage electrical circuit functioned only intermittently. Fearing a sparking short circuit we investigated the conduit under the residence. Rick crawled thru the trap door in the bedroom closet and, trying to locate

MAINTENANCE (Con't.)

the conduit, noticed a strong small of liquified petroleum. We handed him our shaving mug and brush and he applied a lather to the gas line, bubbles appeared at a solder joint. What an unhappy condition this presented; Gas filling the space under the house and a loose electrical connection threatening combustion. Chain reaction, no less.
The Verde Valley Gas Co. repaired the leak but as yet the electrical trouble has not been corrected.

IMPROVEMENTS

On the 16th and 17th the area about to become the new MENS room was cleared out. Seven wheel barrel loads of manos were moved out and buried 20 feet north of the rear door of the museum, at the base of the east wall. Artifacts were moved and the shelving dismantled.

On the 17th the kitchen range was moved from the dark poorly ventilated recess to a much more convenient location. The recess may later be made into a dinette or breakfast nook.

ROADS AND TRAILS

Two stakes and a cable suspending a TRAIL CLOSED sign were installed at the start of the lower trail around the ruin. Recent rains have rendered this trail unsafe.

OVERHEARD IN THE MUSEUM

Nice lady from Milwaukee, at the drinking fountain, "Tastes like it came from the bottom of the ruins".

J.W. Brewer jr.

REVISED MAY 1945.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Walnut Canyon National Monument
Flagstaff, Arizona

August 25, 1950

Memorandum

To: General Superintendent

From: Superintendent, Walnut Canyon

Subject: Monthly Narrative Report, August, 1950

Administration Ranger Brockman completed sorting all herbarium specimens which have been identified. These specimens were enclosed in genus and species folders and filed according to the DeDalla, Tone, and Harms system. All plant specimens which have not been identified were sent to the National Museum.

Brockman has also been engaged in a project to catalog all our library books.

Ranger Leding completed sorting and indexing our maps and plans.

Use of Monument Facilities By The Public There were 1179 cars which brought 4353 visitors. This is an increase of 90 visitors over the same period last year. A total of 1087 parties including 4025 visitors were contacted. Museum visitors totaled 4046 visitors in 1098 parties. Contact service was maintained from 7:00 A.M. to 7:00 P.M. each day. There were 565 visitors in 97 picnic parties. The lack of camping facilities continues to present problems with several groups arriving in the evening and expecting to camp here. On August 11 four separate parties arrived after 5:00 P.M. and expected to camp.

Interpretation Ranger Leding is engaged in a project to photograph the point of interest at each of the interpretive stations along the Island Trail. The pictures are to be used in preparing an exhibit of the trail for the museum.

A total of 965 Island Trail pamphlets were picked up from the serve-yourself dispenser. For these $81.20 was received and we were short $15.50.

Equipment A work bench was installed in the old generator house where electric power is available.

Considerable time was spent rehabilitating a gasoline pump and tank which have been on hand for several years. The pump and tank were repainted, a cement base was made for the pump, and a few more plumbing connections will complete the installation.

Telephone Service A break where the telephone line crosses Highway 89 was located and repaired on August 19.

Act of God On August 20 lightening struck very near the residences and knocked out the phones at both residences and at the office. The fuse block at Residence No. 1 was demolished and the ringer box was split apart. At Residence No. 2 wires were burned and the wall was blackened. Lightening came into the electric range and destroyed a burner over which Mrs. Leding was cooking but she was not harmed.

Roads and Trails The County graded our approach and entrance roads on August 7 but since that time they have become very rough.

Signs The directional sign at the Flagstaff end of our approach road was repaired.

National Park Service Visitors

July 26	Ben Breeze ffom the Major Roads Branch of the Director's Office and Charles D. Carter from the Regional Office.
July 28	Ranger Schaffner and family from Petrified Forest
July 30	Ranger Bob Walker from Wupatki
Aug. 5	General Superintendent Davis and Administrative Officer Castellum
Aug. 10	Ranger and Mrs. Schroeder
Aug. 21	Superintendent and Mrs. Bright from Canyon de Chelly
Aug. 22	Superintendent Bowen and Ranger Bob Walker from Wupatki
Aug. 23	Ranger Bob Viklund from Sunset Crater

Newsworthy Visitors

July 27	Miss Bertha Dutton and her party of Girl Scouts made an over night visit. They were given a conducted tour around the "Island" and out the Log Cabin Trail.
Aug. 22	Artist Paul Coze was here to start work on several paintings of the Canyon and cliff dwellings.

REMARKS: (Please note below any factors significantly affecting interpretive service, such as: "museum closed for repairs", "closed for season", "understaffed on sick leave", etc.

24 hours contact service maintained daily from 7:00 a.m. to 7:00 p.m.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing RESERVATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the Average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive services this Attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents, if any, should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

Subject: Superintendent's Monthly Narrative, Report No. 1ml

AUGUST TRAVEL, 1950 — TRAVEL YEAR TO DATE

Visitors, 26,922 Cars, 6,092 — Visitors, 157,341 Cars, 36,835

GENERAL

How much longer we can continue to show decided increases over like months is problematical but August 1950 is double our 1946 August with a steady increase between these dates. We have been fortunate in having good weather and the help of a lot of friends.

A couple of trips were made to El Paso to check on some supplies, materials, etc., but these were made in my personal car and on my days off.

GENERAL PUBLICITY

Judging from the requests we have received for literature and information on the White Sands we certainly are not lacking for publicity, but I hope we shall never be guilty of ever complaining in regard to the publicity received by White Sands.

COMPLAINTS

No complaints have been received on any phase of our activity. A party did come in to the office regarding being bitten by a dog, but they had no information by which we could attempt to locate the party owning the dog.

MAINTENANCE

Building maintenance has been centered on the reception of quarters. One residence has already been completed, another one well toward completion, and then one more to go. Some minor work yet done on the toilets out in the ponds. Road maintenance has consisted entirely of blading and dragging as moisture would allow.

PUBLIC RELATIONS

The organization has not shown the gain that our gate would indicate it should. But the last few days show promise of a good month. Longer hours have been established to honor week end demands of the public.

PLUMBER SERVICE

All ponds have been used on peaks and a 12 to 14-hour shift means it is necessary to spread our force pretty thin to give the service desired.

MISCELLANEOUS

A recent visit from John Davis and Ben Hendricks and Thorne Horan was appreciated. We are always glad to have these people stop in, any time any National man can spare us the time we are glad to have them stop by.

Johnnie Faris,
Superintendent.

NAME Johnwill Faris

TITLE Johnwill Faris, Superintendent.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. This is due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Wupatki

Flagstaff, Arizona

August 25 50

To: General Superintendent

From: Superintendent, Wupatki

Subject: Monthly Narrative Report for August 1950

Weather Conditions. Weather for August has been cooler than average. Good growth of vegetation is noticeable since the July rains. Rainfall for the period totaled 0.72". Maximum temperature was 100° on August 21.

Inspections. July 27. Mr. Ben Breeze of the Washington Office and Mr. Charles Carter, Regional Office on road inspection.

August 6. Mr. John Davis and Mr. Luis Castellum on administrative matters.

August 16. Mr. and Mrs. Wm. H. Richardson. Mr. Richardson inspected the LPG system in the superintendent's residence.

August 22. Mr. Bradley and Mr. Jenkins surveying proposed building site at Heiser Spring.

Maintenance. Very little maintenance was undertaken this month. A change in the pipe line between the two houses at Heiser Spring made some improvement in the water system. When time allows the 3/4" pipe to the two houses will be replaced with 2" pipe now on hand.

Repair and Rehabilitation. A 10,000 BTU panel ray and a 25,000 BTU wall heater (LPG) were installed in the superintendent's residence as part of the repair and rehabilitation program.

Monument Roads. Mr. Bean has worked the grader throughout the period and the roads are now good by Wupatki standards. Considerable time was devoted to the drainage system as the July rains emphasized the necessity of getting the water off of the road.

Interpretive Service. At Wupatki Ruin 1309 visitors in 391 parties were given guide service averaging 23 minutes per party. The self-guide leaflet continues to be our greatest asset. Comments are very favorable. Actually many visitors spend more time with the book than with a guide as they rest, let their imagination go, take more pictures, and in general enjoy themselves.

On August 16 the first of the NALAKIHU-CITADEL trail leaflets were received and the trail will be in use shortly. The arrival of Mr. McClain as temporary ranger o/a August 27 will allow time to work out the trail and set up the exhibits.

Mr. Stan Davis, Lindesgard photographer, was in on the 20th to secure transparencies for the Wupatki color postcards. Cloudy weather prevented the pictures; however, he promised to return within a week or so.

Increase in Travel. Wupatki really got busy and set itself a record this month with a total of 2037 visitors. This is the largest single month on record. Two factors, one our fault, and one over which we have no control probably account for the increase. First, the Sunset Crater-Wupatki road is the best it has ever been and the bulk of the increase was from that direction. Second, August was cooler than average and less people were deterred by the heat. The travel varies inversely with the temperature. A day of 85° will bring in 60 or 70 visitors. If the temperature goes to 95° to 100° the next day the travel will drop to 30 or 40 for no other apparent reason.

	CARS	VISITORS
August 1950	641	2037
August 1949	398	1196
This Travel Year	2726	8346
Last Travel Year	1899	5892

Visitors.

July 29. Senior Girl Scouts, Miss Bertha Dutton in charge, 21 in party. The group camped overnight and were taken to Crack-in-the-Rock.

Sam & Norma King & Lillian, Saguaro National Monument.

Aug. 3. Supervisor Keeney and Mr. Allen, Coconino Natl. Forest, Flagstaff.

Aug. 7. Sierra Club, 37 in party, led by Mr. P. E. Saito, camped overnight.

Aug. 8. Mr. & Mrs. Paul Ezell.
Mr. Waydo, Bowshouse with 18 members of the Phoenix YMCA.

Aug. 8. Supervisor & Mrs. Keeney, Coconino Natl. Forest, Flagstaff.

Aug. 14. Ruth & Millard Henning, old SWM friends.

Aug. 15. Mr. Stone with 17 members Bakersfield, Calif., YMCA

Aug. 16. Ranger & Mrs. Bill Brockman, Walnut Canyon.

Aug. 20. Mr. Stan Davis, Llolesgard photographer.

Grazing. On August 4 District Supervisor Ed Stocks of Tuba City made the annual stock count for the local Navajos at the Black Falls trading post. Ranger Walker took part in the count.

Spring Flow.

Wupatki Spring up from 197 GPD last month to 538 this month.
Heiser Spring flowing 2880 GPD.

SEP 28 1950

UNITED STATES
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Southwestern National Monuments
Box 1728
Santa Fe, New Mexico

September 7, 1950

Memorandum

To: General Superintendent

From: Naturalist

Subject: Narrative report for interpretive work in the Southwestern National Monuments for August 1950.

Naturalist Dale S. King spent the month in the office.

Archeologist Charlie R. Steen excavated at Tse-ta'a at Canyon de Chelly during the month, coming to Santa Fe on August 26 to bring excavated sherds and other material, but taking leave until September 3 when he returned to Canyon de Chelly.

Interpretive Administration

The Sunset Crater and White Sands two-folds were sent to the field for suggested revision.

Two articles written by outside authors were edited and suggestions made.

A loan check-out system was set up for naturalist equipment and new LeRoy lettering sets dispatched to the field.

Steen showed 205 visitors through the ruin of Tse-ta'a during the month.

Progress of Exhibit Plans and Projects

The remaining several hundred aluminum cactus labels, which were obtained from the Western Museum Laboratory by Naturalist King away back in the 30's, had become mixed in shipping and were sorted and placed in order. Several were furnished to White Sands and additional ones were ordered for this monument from Yosemite.

An excellent draft was received from Arches of a pamphlet for the "Cove Trail."

Kelbo, Irving Robert - Our Country's National Parks, Vols. One and Two, Bobbs-Merrill Company, Inc., reprinted 1950.

Forrest, Earle R. - Arizona's Dark and Bloody Ground, Revised and Enlarged Edition, The Caxton Printers, Ltd., 1950.

Whiting, Beatrice Blyth - Paiute Sorcery, The Viking Fund, Inc., 1950.

Southwestern Monuments Association

All corrected page proof on the Cummings Volume was returned to the printer August 14. Apparently the September 20 deadline will be met easily.

Ornithologist E. H. Collins, Jr., of San Cristobal Ranch, San Cristobal, New Mexico, prepared an excellent 16-page booklet on the "Birds of Bandelier," which will be sold in the monument for $0.15. The manuscript was copyread, John Moseley very kindly did an excellent cover, and the booklet went to press August 28. It is hoped that similar booklets and others on animals, trees, shrubs, etc., can be prepared, mostly by our own Park Service men, on other areas.

The Sycamore Trail pamphlet was received from the printer August 3 and dispatched to the monument, with review copies to various National Park offices.

The Kalakihn-Citadel Trail pamphlet for Wupatki was delivered August 14.

Artist Paul Coze took photographs and made color notes for reconstruction paintings at Chaco, Aztec Ruins, Canyon de Chelly, Navajo, and the Flagstaff and Verde Valley monuments.

An excellent manuscript on Tumacacori was received from Earl Jackson. It is planned to publish this before the heavy winter season.

Several publishers furnished for our information copies of their royalty agreements with authors.

The insurance premium was paid for two years on the Spanish arms and armor at Tumacacori.

During the month of August two deposits and one disbursement were made by Treasurer Vedder. The number of covers mailed was 209, including 37 letters and 58 purchase orders.

Outside of taking care of the mail, most of the Treasurer's time was spent on figuring the year-end inventory, posting in the journals and ledger, figuring various reports for the annual report and seeing the auditor, Mr. Neal. He was given the books and various papers necessary for the audit August 28 and he presented us with the final audit August 29th, the earliest it has ever been done. One reason for this speed was due to the fact that no changes as adjusting entries had to be made. The Profit & Loss Statement shows a net gain of $482.85 for the past fiscal year. Sales for the year rose about $5,000. Unless there is some event in the following year and the Association continues to grow, we should show a much better net gain for the 1950-51 year.

Also during the month the cost value of headquarter's inventory was made. It came to about $5,200. We are going to have it insured through the McBride Insurance Agency.

More tourists and even a few members of the Association are appearing at the office.

Photographs and Visual Aids

For some time we have been holding to the policy of retaining all satisfactory original kodachromes in the master file here rather than by dissipating them by loan or issue to the field. In the past our kodachrome collections have vanished mysteriously; we feel all good views should be duplicated and the duplicates used, the originals being held in safe storage.

Visitors

Anthropologists Verne Ray, Frederick Sleight, John Corbett, and Fred Worman; Ornithologist Eliot Porter.

Ruins Stabilization

Mrs. Moore completed mounting photographs in one copy of the Bandelier stabilization report for 1949. This was an arduous job, and two more copies must be prepared. It reminds us again of the great improvement made by the adoption of ektype paper.

Technical Aid to Administrators

King spent the better part of three days compiling the Condensed Monthly Report for July for Southwestern National Monuments in the absence of Miss. Metcalf. He also wrote several letters to applicants for positions in the monuments.

Outside of taking care of the mail, most of the Treasurer's time was spent on figuring the year-end inventory, posting in the journals and ledger, figuring various reports for the annual report and seeing the auditor, Mr. Neal. He was given the books and various papers necessary for the audit August 28 and he presented us with the final audit August 29th, the earliest it has ever been done. One reason for this speed was due to the fact that no changes as adjusting entries had to be made. The Profit & Loss Statement shows a net gain of $462.85 for the past fiscal year. Sales for the year rose about $5,000. Unless there is some event in the following year and the Association continues to grow, we should show a much better net gain for the 1950-51 year.

Also during the month the cost value of headquarter's inventory was made. It came to about $6,200. We are going to have it insured through the McBride Insurance Agency.

More tourists and even a few members of the Association are appearing at the office.

Technical Aid to Administrators

King spent the better part of three days compiling the Condensed Monthly Report for July for Southwestern National Monuments in the absence of Miss. Metcalf. He also wrote several letters to applicants for positions in the monuments.

Projects for September

King will work on the folder revisions for Arches and Navajo, and prepare a newpne for Rainbow Bridge. Also in process are the Arches and Capulin Mountain trail pamphlets, and proof must be read on "Birds of Bandelier" and the Sunset Crater "Lava Flow Trail" revision. King may make a flying trip to Tucson September 20 to attend the presentation ceremonies for Dr. Cummings. Steen will continue excavation of Tse-ta'a, finishing about September 22 and arrive at Santa Fe in three or four days.

September 26, 1950

Memorandum

To: General Superintendent

From: Superintendent, Arches

Subject: Monthly Narrative Report for the month of September, 1950

WEATHER: Hot and dry weather continued until September 18th. when two inches of rainfall came in three 15 minute storms taking out all wash crossings and causing a flood four feet deep and 300 yards wide at the Court House crossing on approach road # 93. Headquarters received the heaviest cloudburst which cascaded from the cliffs in back of the residences and flooded the whole area. Ranger Worthington's basement was filled to capacity with water, mud and sand. The foot bridge on the Delicate Arch Trail was demolished by a five foot flow of water down Salt Wash. Inspite of the damage done we were glad to receive the moisture, for it was the first in two months.

TRAVEL: A total of 2978 visitors entered the monument in 831 cars representing 33 states, three foreign countries, District of Columbia and Territory of Hawaii. This is an increase of 58% over the same period last year. Thirty-nine parties camped in the area staying 120 visitors days.

ANNUAL TRAVEL: A total of 15,679 visitors in 6237 cars were recorded for the travel year ending September 25.

INTERPRETIVE SERVICES: Total contact time amounted to 200 hours and 16 minutes in which 1806 people were given information about the area. Eleven guided tours were made with an attendance of 42 people.

INTERPRETIVE DEVICES: The "Cove Nature Trail" was put in operation September 22, using a mimeographed sheet and although there are improvements and corrections to be made it is appreciated very much by all visitors so far.

ROADS: Although the heavy rains caused a great deal of damage we did receive enough moisture to make possible a finished balding job and all monument roads are now in excellent condition.

ROAD SURVEY: The DPR Survey Crew, under Mr. Rod Miller, has completed the center line on Route #1 which ends near the Balanced Rock. Three miles of profile levels have been run and two miles of cross section. All stakes on the topog. of the Court House Wash Bridge were carried away by the heavy flood.

Personnel: Park Ranger(Temp.) Derald E. Allred was terminated September 16th. and we were all very sorry to have him leave. During his short tour of duty he made many valuable contributions to the monument interpretive program and we are hoping that he will return next spring.

WATER SYSTEM: Five days were spent in determining the total depth, water level and straightness of our well in order to insure the proper installation of a new pump. To determine these facts it was necessary to pull the pump and with makeshift equipment this turned out to be quite a job.

VIP VISITORS: Matt Dodge and Mr. Paul E. Franke paid us an unheralded visit on September 10 and we wish we had been able to spend more time with them. Mr. & Mrs Jim Hamilton stopped for a few minutes on September 24 enroute to the State of Washington. Mr. Jack Diehl was an overnight visitor in Moab September 25.

NOTED VISITOR: United States Senator, Elbert Thomas (Utah) visited the area on September 23rd. and was taken on a tour of all sections, via car. This was his first trip and he was apparently very impressed with the scenic beauty of his state.

TITLE ~~Park Naturalist~~

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP IN EMERGENCY THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL BUILDINGS SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, ZOO, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE SERVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN HOSTED, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS ENCLOSES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. FOOT TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY, SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATES; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE WILL RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE AS EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8m3) AND 9 (REPORT 9m3).

AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

24 Sept 1950

Memorandum

To: General Superintendent

From: Superintendent Aztec Ruins

Subject: Superintendent's Monthly Narrative Report Mnl

WEATHER: First half of the month clear and dry, but the past 2 weeks have seen an abrupt change with rain and storm.

NEW CONSTRUCTION: Most of the materials for the completion of the residence construction have been delivered. Work will start Sept 25 and will be completed within 30 days.

INTERPRETIVE SERVICE. There were 2,640 visitors shown thru the museum in 341 parties, of which, 2,017 were conducted thru the ruins in 211 parties.

RUINS STABILIZATION: This work, under the direction of Raymond Mixey, altho still incomplete, will finish for this season at the close of September. It appears that Mr. Mixey and his crew have completed about 85% of the needed stabilization work.

INCREASE IN TRAVEL: September this year shows a gain of 10% over Sept 1949 with 2,640 visitors in 811 cars from 40 states, D.C., Alaska, Canada, Colombia, Holland and India. The travel year has increased 18% over that for 1949.

PERSONNEL. William F. Perkins, temporary ranger, was terminated COB Sept 6, with accumulated leave that carried him thru noon Sept 16.

VISITORS: Mr. and Mrs. Geo. E. Barlenson, Bureau Mines, in charge of the Helium Plant at Amarilla, Texas, with Mr. and Mrs. R. E. Brown and daughter Caroline, Bureau Mines, visited during the early part of Sept.

Irving D. Townsend

REVISED MAY 1949.

RECEIVED OCT 1 1950 DENVER, COLO. SERVICE CENTER

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

September 28, 1950

Memorandum

To: General Superintendent

From: Superintendent, Bandelier

Subject: Monthly Narrative Report for September, 1950

Weather

The weather during much of September continued with similiar characterestics to that of August with clear mornings and cloudy afternoons. A total of 1.21 inches of rain was received which is .68 less than normal. Temperatures ranged from 98 on the first to 33 on the Twenty sixth.

The fall coloring had made a good start by the end of the month and will be at its height early in October.

Special Activities

The Superintendent made a trip to Mesa Verde National Park on the 22nd and 23rd to pick up some surpluss metal roofing and to discuss museum displays and interpretive programs with Naturalist Watson.

It was necessary for the Superintendent to assist with conducting tours through the ruins during the later part of the month when Ranger Keefe was on temporary assignment at Chaco Canyon.

Inspections

Regional Archeologist Reed made an inspection of the excavation being carried on at Rainbow House and discussed future plans with Mr. Norman and the Superintendent.

Maintenance

The maintenanceman installed two electric meters in the Lodge kitchen. One of the meters had been ordered since last April.

DEFENSE BUY UNITED STATES SAVINGS BONDS AND STAMPS

and delivery has been very slow. These meters will now give an accurate measurement of the electricity that is used by the Lodge where it was necessary to estimate part of it before.

General repairs and maintenance were performed on all of the motor vehicles in preparation for cold weather.

New Construction

The last of the bridge construction money was expended this month with the completion of the second trail bridge and finishing the fill on the vehicle bridge.

Roads and Trails

The trail crew spent a week working over bad spots in the trails in Capulin Canyon that had developed during the summer. Bad weather hampered the work to some extent but both the Stone Lions and Upper Capulin trails were repaired.

Work was begun to clean out the ditches along the approach road and generally put it in good shape prior to cold weather.

Concessions

Frijoles Canyon Lodge reported that business during September was generally poorer than last year. There were 206 lodgings as compared with 352 for September, 1949.

The saddle horse business was fair and it is planned to keep the horses available until early in October. The Lodge will close October 9.

Interpretive Service

A total of 162 trips that were attended by 2,634 visitors were conducted through the ruins this month. This is a slight increase over last year when 2,543 people were conducted on 158 trips.

The evening talks were discontinued after Labor Day when most of the temporary rangers were terminated but 6 were given to 191 visitors up to that date.

Archeological Excavations

After it was learned that Adams State College would not continue the excavation of Rainbow House it was decided to complete the balance of it with a crew under Mr. Norman's supervision. Work was started on the 5th and by the end of the month 20 rooms, approximately half of a kiva that is 21 feet in diameter, and an exploratory trench had been excavated.

Travel

For the first time in several months the travel did not exceed that of last year. A total of 4691 visitors came to the area this month as compared with 4810 for September last year. The decrease was caused in part by a very stormy Sunday on the 24th that reduced visitation by an estimated four hundred people.

The travel year ended with 45,524 visitors which is an increase of 11,203 over last year and is practically twice the 1947 travel.

Ranger Service

Ranger Joe Keefe went to Chaco Canyon National Monument on temporary assignment as Acting Superintendent on September 9 and will be there until sometime in October.

Temporary rangers Wenger and Thomas were terminated on September 5 but Ranger Brewer will continue on duty until Mr. Keefe returns.

Franklin D. Van Wart, who has been a temporary naturalist at Mesa Verde all summer was on duty at Bandelier for the week of September 10 to 17.

Fish Planting and Wildlife

The Seven Springs State fish hatchery delivered 550 rainbow and loch laven trout to the Rito de los Frijoles on the 8th. The trout were all legal size and ranged from 7 to 12 inches.

Deer, bear, and turkeys seem to be moving down from higher elevations earlier than usual this year. Bear reported along the Rio Grande and a flock of 16 turkeys were seen about 1 mile above headquarters.

Forest Fire Control

One fire was reported by the patrol plane from Los Alamos on the mesa between Frijoles and Alamo canyons following a lightning storm on the 7th but it was put out by a light rain before suppression forces could arrive.

REVISED MAY 1948

Canyon de Chelly National Monument
Chinle, Arizona.

September 26, 1950

Memorandum

To: General Superintendent

From: Superintendent, Canyon de Chelly

Subject: Monthly Narrative Report for September, 1950

Travel: 705 visitors in 225 cars arrived this month. This is a considerable increase over the 426 people and 161 cars for the corresponding period of 1949. Our 1950 travel year ended with a total visitation of 3715. This, also, is a material gain over the 2818 figure for 1949. Guide and contact service for the month totaled 106 hours, and 20 minutes. Fully 25% of the visitors camped-out at one of our picnic areas, and stayed from two to five days.

Weather: Continued dry and below normal precipitation. Only .34 inches of moisture. Sand in the floor of the canyon is still too dry for normal travel.

Roads,General: Both approach roads, from north and south, are in good condition due to recent work done by the County grader. The monument road from headquarters to White House overlook was graded, holes filled, and rocks covered.

Archeology: Archeologist Steen ceased work on the excavation at Tse-tan site on September 22, and a pickup load of material was packed and loaded for shipment to Santa Fe for storage.

Dr. David de Harport terminated his summer work on the site survey of the canyons on September 15.

Adm. and Maint. Two trips were made to Gallup. One to secure supplies for the monument and Charley Steens Tse-tan project, and the other to obtain unit costs of 10 concrete picnic tables and fireplaces

1262 Sq. Ft. of excellent flagstone was hauled in from Canado and placed in front of the Administration Building. The result of which greatly improves, from the visitor angle, the approach appearance of the building. We are now in the pointing-up process, which should be completed early next month.

Also, a much needed drinking fountain was built for convenient public use. The fountain is of flagstone structure and blends-in with the surrounding area.

A supply of wood has been hauled in for winter use.

Edward W. Bright

Everett W. Bright, Sup't.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.
ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICE TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.
INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKERS AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY BECOME A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PREPARED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REVISED MAY 1945.

CAPULIN MOUNTAIN NATIONAL MONUMENT

September 25, 1950

MEMORANDUM for the General Superintendent
Southwestern National Monuments
National Park Service
Santa Fe, New Mexico

There follows the narrative report for Capulin Mountain National Monument for the month of September, 1950.

Visitors: There have been about 6,000 visitors to Capulin Mountain National Monument during the month of September, making a total of thirty thousand visitors for the travel year and nineteen thousand two hundred for the fiscal year to date.

Weather: There have been about sixteen days of cloudy weather during the month and about ten days of rain, precipitation about 2 inches.

Flora and Fauna: Vegetation and grasses in the Monument area are in much better condition than had been expected, considering the dry weather in the spring. There has been no frost yet. Deer, squirrels and other wildlife in the area are doing well, as usual.

Roads and Trails: The rim trail has been completely overhauled, but still needs some more work. The allotment was not enough to fix it up like I had planned, but hope to get some more work done on it next spring. Many fills have been completed on the washed out places on the outer edge of the road. One large fill halfway up was backed up from the bottom to near level of the road with stone masonry laid with cement. This then was filled with gravel and is now in perfect condition. All of the badly washed places were first filled near the bottom with stone and then with gravel. The road has been gone over thoroughly from the bottom to the top and is in better condition now than it has ever been. The wall around the turn around has been completed and looks very good. Many loads of cinders have been hauled and placed over the surface of the road near the bottom of the volcano. Two culverts have been cleaned out and re-set.

Pamphlets: About fifteen hundred pamphlets have been distributed during the month, and we now have about three thousand five hundred on hand.

Very respectfully,

Homer J. Farr
Ranger

NAME Homer J. Farr

TITLE Ranger

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and trails, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each colum in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

September 25, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Acting Superintendent, Casa Grande

Subject: Monthly Narrative Report for September 1950

General: Cotton picking is the big activity in the Gila Valley this time of year. Transient workers are everywhere in evidence and local businessmen are doing a booming business.

Weather: This has been a month of decided variation in weather. Record maximum temperatures were recorded during the early part of the month, but the heat was soon broken, and our temperatures are now quite mild. On September 1 Yuma, Arizona, set the record for the highest temperature ever recorded during the month of Sept. throughout the nation with a reading of 123 degrees. The maximum temperature for the month was 114 degrees, the low maximum was 73 degrees and the minimum was 50 degrees. We received .63 inches of rain during the month and our total for the year now amounts to 6.37 inches. Accompanying the mild temperatures there has been an increased use of our picnic area by the local residents which accounts in part for the greater number of unattended visitors to the area this month.

Water Shortage: Indications are that the water table has continued to drop and our water resources for this area are in critically short supply. The reservoir behind Coolidge Dam has been dry, or almost so, for most of the month and as a result the pumping of our underground water resources has continued without let-up. Our pump continues to pump quite a bit of air which necessitates bleeding the storage tanks once or twice daily. Although the critical mid-summer period is past, it is still a possibility that we may be faced with a water failure before the end of the season.

[illegible]

Personnel: Superintendent Bicknell terminated his sick leave and began his annual leave on September 1. Several days of his leave have been spent in California; he is expected back to work on October 10. Mr. Jonasson, our new archeologist, reported for duty on August 30 and will replace Mr. Hardies who resigned August 29. Mr. Jonasson has his master's degree in archeology from the University of Utah and we are happy to have him on the staff at Casa Grande.

Research: On the 12th of September, Mr. Henry A. Collins spent the day observing and identifying birds. He made the first recorded observation of the Black-throated Gray Warbler, Dendroica nigrescens, that we have. Mr. Collins stated that he found our bird observation file quite helpful.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Chaco Canyon National Monument

September 27, 1950

Memorandum

To: The General Superintendent

From: Acting Superintendent,
Chaco Canyon National Monument

Subject: Monthly Narrative Report

Visitors

114 visitors came to Chaco Canyon during September. They arrived in 39 automobiles. All were conducted through the Pueblo Bonito ruin and 15 people were conducted by auto caravan to other major ruins in the area.

Weather

The weather has been very pleasant during the month with temperatures ranging from a high of 95 on the 1st. to a low of 36 on the night of the 24th. Between the 6th. and 24th. we had some rain almost every day giving us 1.2 inches of precipitation during that period. The daily cloudiness due to these frequent showers gave Chaco Canyon unusually cool weather.

Roads

The condition of the entrance roads was comparatively good. On one or two occasions they were a little slippery immediately after showers. There were, of course, the usual number of chuck holes and soft, sandy spots which make it always imperative to drive with caution. The section from the north gate to headquarters was dragged twice during the month with the road maintainer.

Projects

Soil and Moisture conservation work was discontinued with the stoppage of the seeding program on the 14th. The tractor and seeder were brought to headquarters and secured on that date. The two laborers employed on that job were retained for work on the well project.

On the 13th. and 14 th. we began to suspicion the water condition as being responsible for frequent cases of dysentery. Upon conferring with the General Superintendent via radio about the water problem here,

it was learned that Engineer Conn would be at Chaco on the following Monday, 18th. to make plans for the continuation of the new well project. We had already begun chlorinating on the 14th. of the month. Samples were sent to the State Health Laboratory on the 20th.

Mr. Conn came in on Monday and plans were drawn up for the work, together with a list of materials needed. Mr. Conn then had to proceed to Tonto with plans to return here on the 25th. On the 25th. we received a radio message to the effect that he would not return to Chaco until Oct. 3. Upon learning this it was decided to begin the work and on the 26th. the floor was laid for the new pumphouse. As of this writing, 27th, we have two men working on trenching, readying pipes, etc. so that we will be all set to try out the pump and well when Mr. Conn comes back. We will not continue with the walls and roof of the pumphouse until Conn has observed the pump and new well in operation.

We expect to start using water from the new well on about Wednesday, Oct. 5. Until then, we are chlorinating heavily in the old system.

Unusual events

A Mr. Coddington, of Mexican Springs near Gallup, overturned his Forest Service pick-up ¼ mile outside our south boundary on September 12. He had not been injured and after waiting about 3 hours for passersby, he decided to walk on in to this headquarters where he arrived at 12:45. Enlisting the aid of Gordon Vivian and his crew, we went down and helped him turn his truck right-side-up. It was then towed to our headquarters to prevent stripping by vandals. Although extensive damage was done to the vehicle, everyone was happy that the man had not been hurt and alone on the lonely road. A wrecker came the following day and towed the truck to Crown Point.

Official and Prominent Visitors

Engineer Conn of the Regional Office visited this area on business on the afternoon of the 18th, and departed for Tonto early the 19th.

Dr. Dorothy L. Lahrs, prominent archeologist, and Roberta Joughin, one of her students visited Chaco Canyon on the 7th, 8th, and 9th. They were encamped in the campground. These people are old friends of the Francis Elmores. Mr. Elmore is the newly appointed permanent ranger here.

Personnel

Temporary Ranger Guy Exon was on leave 1½ days due to serious illness of his wife at the Farmington hospital.

Sylvester J. Keefe,
Acting Superintendent.

Chaco Canyon National Monument
Bloomfield, New Mexico

September 26, 1950

Memorandum

To: The Superintendent, Chaco Canyon National Monument

From: Archeologist Vivian

Subject: Monthly Report

This is the narrative report of Mobile Unit activities in your area during September, 1950.

The major part of the work this month has gone into the stabilization of the Triple-Walled structure and its adjoining rooms and kivas. Final work on the unexcavated, standing room walls and Kiva L in Pueblo del Arroyo proper was finished on the 15th. This completes the comprehensive stabilization of del Arroyo proper and the site can now be considered in maintenance status.

Within the tri-walled building capping and patching of the three encircling walls has been completed and stabilization of the adjoining rooms and kivas is in progress. Some of the related work such as drainage of the exterior and backfilling has also been done while the remainder is awaiting completion of the work in the rooms and kivas.

Leland Abel who held a temporary position as Archeologist Aide was terminated on the 14th and he has returned to school.

Some work was done remodeling the shelves in the study collection with a view to later revising the arrangement of the material there. Assistance was given to the Monument on the 26th in pouring the concrete floor for the new pump house.

As time has allowed notes and captions have been assembled for final typing of the del Arroyo stabilization records and these should be completed within the following month. Ground plans, profiles and the photographic records for the excavation report on the tri-walled building have been completed; compilation of the report will have to wait till the work program slackens this winter.

In the coming month Ray Rixey will return here ffom his extended detail at Aztec Ruins; work here, with a reduced crew, will continue on the tri-walled structure.

Gordon Vivian
Archeologist

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical development, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8nJ) and 9 (Report 9nJ).

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Chiricahua National Monument
Dos Cabezas, Arizona

September 25, 1950

To: General Superintendent

From: Superintendent, Chiricahua

Subject: Monthly Narrative Report

There follows the Chiricahua National Monument Monthly Narrative Report for September, 1950.

WEATHER September's weather at Chiricahua was very pleasant throughout the month. The temperatures ranged from a maximum of 99° to a minimum of 47° to provide comfortable weather for hiking and picnicking. Precipitation totaled .64 inches in four showers.

SPECIAL ACTIVITIES Superintendent Cooke was on Annual Leave on several occassions through the month. A ten-day trip by Mr. Cooke included visits to Grand Canyon and other Parks and Monuments of this Region.

INSPECTION General Superintendent Davis inspected Chiricahua on the 25th. His visit was greatly enjoyed and appreciated.

PUBLICITY Articles on Chiricahua appeared in the September issue of the Arizona Guide. A copy has been obtained for the Monument files.

BOUQUETS A very kind "thank you" was received from two New York visitors who enjoyed their two-day stay at the Monument. A copy is being furnished to the Regional office.

MAINTENANCE The work on the trail system continued through September. This work, following close upon the spring and summer rains, now has all trails in good condition. Much time was spent in blading the Monument road and in clearing drainage ditches. As with the trails, a good road condition is to be reported.

Some time was spent on a general cleanup of the Maintenance Area and buildings of the Monument. Two days were given to painting two rooms of the Ranger residence.

Because of damage done by trucks of the Kilroy Line, repairs to the telephone line were made in September. This is the second time these trucks have struck the wire. Plans are to raise the poles and to further confer with the operators.

Following a summer meeting with representatives of the Rural Electrification Administration, plans were discussed on the hope of power into Dickinson early in 1951. A recent power line survey, reaching within two miles of the Monument, increased this hope. However, a call made to the R.E.A. office this month brought the discouraging news that poles and accessories are not to be obtained at present and will probably not be available for another four months.

TRAVEL. A total of 1,785 visitors was reported this month and represented an increase of 15% over August of 1950. Campground use continued to be heavy, particularly over the Labor Day weekend when a part of 30 campers was received on Sunday night. Camping totaled 270 for September, an increase of 21% over August of 1950.

The total number of visitors to Dickinson for the year of 1950 was submitted in the Annual Travel Report, September 25. A summary shows an 11% increase over 1949.

RANGER SERVICE. Seasonal Ranger R.T. Ingemann terminated duty at Dickinson on August 31.

FIRE PROTECTION. During September, all vehicles at Dickinson were stocked with the dry powder-type fire extinguishers.

Richard L. Bryant,
Acting Superintendent.

PARK SERVICE OR OTHER GOVERNMENT EMPLOYEE

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE SERVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND HOURS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLACE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHALL NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATES; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REVISED MAY 1945.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
El Morro National Monument
El Morro, New Mexico
September 26, 1950

Memorandum

To: General Superintendent

From: Superintendent, El Morro

Subject: Monthly Narrative Report

We have had 1.31 inches of rain this month, but as it came in small doses it was not too beneficial to our pool and was too late in the year to help the farmers. Several farmers have left the country. They figure that the crops are not worth harvesting. There were 64 children in the El Morro school last year, but this year there are only 28 — an indication of how the farmers have left! The coolest this month was 28 degrees on September 15th and the warmest was 86 degrees Fahrenheit on the second.

The east approach road from Grants has been in good shape. The oil on the cinders is holding up well. The crews are working very fast on the road to Gallup. It is completed from the Monument boundary nearly to Ramah except for the oiling. The contractor expects to be through in another 5 to 7 weeks.

The off again on again REA made some progress this month. An engineer was out locating the pole sites for the line. Carl Alleman was in at the same time, by prearrangement, to help locate the poles so that they would be as obscure as possible.

During September, we had more visitors than we had in either June or July. The improved road may account for part of the visitors. We had 552, and of these, 494 took a trip around the rock in 97 parties. 106 persons visited the ruins on top of the mesa.

All the signs were refinished and several were relocated between Grants and the Monument. The large entrance sign was relocated, after the road was finished near the Monument, and the poles stained. Several signs on the Gallup road were relocated due to the new route of the road.

John Koll was in regarding the purchase of Section 5, and that project is nearer to completion. The certificate of inspection has been made and the abstract office is working on a sample deed.

Several odd jobs were accomplished such as rewriting the article for the AAA Tour Book, rebuilding the ventilator opening for the furnace, getting the second light plant in working order, painting the rest room floor, killing the algae in the pool, etc.

Interesting visitors included:- John Noll, Carl Allaman, Clyde Kluckhohn - in several times, Allen Harper - Superintendent of the Navajo Agency, Fred C. Curley - President of the Santa Fe Railroad, George Fitzpatrick - editor of New Mexico Magazine, Laura Gilpin and others.

REVISED MAY 1949.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Gran Quivira National Monument,
Gran Quivira, New Mexico

September 25, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Gran Quivira

Subject: Monthly Narrative Report for September, 1950

Weather. We received our share of the rains this month with 1.66 inches recorded. Most of this fell in the last two weeks. Fall weather has set in and the maximum temperature the past few days has been around 55 degrees with the minimum about 10 degrees less.

Approach Roads. Not a great deal of change could be noticed in approach road conditions this month over what they have been. The Mountainair approach is in the best condition of the three as recent heavy rains has roughened Highway 10 from Carrizozo.

District No. 5, State Highway Department, moved in their equipment on the 19th, and are now in the process of graveling part of State 10.

Museum. A small glass-covered exhibit/storage case was built to display a collection of indian artifacts and a bit of vicinity geology. Two displays for the multiplex were completed also and added to the exhibit room.

Maintenance. A new glass bowl for the gasoline pump was received and installed and the pump repainted. It took several days of wet work to get the cistern water system back into operation; the pressure tank had become water logged. The deep well engine received some minor repairs and we repacked the pump. Routine road and trail work and area cleanup were conducted as usual.

Interpretive Services. A total of 280 persons were conducted through the ruins on 72 trips. 28 parties of 92 persons used the self guiding trip through the mission and one party was given a 60 minute talk in the exhibit room.

Travel. Travel increased slightly again this month with 388 visitors to the area as compared to 352 for September 1949. Total travel for the year just ended was 2,859, an increase of 8 percent over 1949 travel year.

Cooperating Governmental Agencies. The Superintendent was appointed Deputy State Game Warden in New Mexico on September 5.

Visitors. Mr. B.G. Dwyre, State Engineer, on the 17th. Mr. W.A. Humphries, Dept. of Game and Fish, on the 10th, and Ranger and Mrs. Forrest Benson, Saguaro National Monument, on the 19th.

Personnel. Four days of annual leave were taken this month.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.). count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
GREAT SAND DUNES NATIONAL MONUMENT
Alamosa, Colorado

September 29, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Great Sand Dunes

Subject: Superintendent's Narrative Report for September, 1950

Weather Conditions

Temperatures for the month have been above normal with the minimum of 32 occurring on September 24th. The maximum was 79 on the 2nd. Light rains fell on 13 days during the month to total 0.85 inch which was more than had fallen the rest of the summer. The rainy and cloudy weather helped to slow up travel to the monument.

Rehabilitation

Invitations to Bid were distributed for the rehabilitation of the roof on the residence and office. The low bidder was Ray Burrows of the Valley Home Supply Company at Alamosa for $1,327.

Concessioner

The A. W. Graves Saddle Horse Company ceased operations on September 6. Business within the monument was poor with $232 gross being taken in. Pack trips originating within the monument to Sand Creek Lakes boosted this to $1089.

Research and Observations

The herbarium case loaned us by White Sands was received. I picked a poor year in which to start a herbarium collection as few plants flowered well under the abnormally dry conditions prevailing this year.

Official weather observations started September 1.

Bear tracks were noted on September 24 on the upper end of the monument on Medano Creek.

Decrease in Travel

Travel for the month of September dropped 30% from that of last year to 2733 visitors. This great decrease in August and September travel (usually the heavy months) brought the total travel for the year to 19,744 visitors, a decrease of 11% from the 22,237 of the 1949 travel year.

Visitors

Among the welcome National Park Service visitors during the month were Ranger Forrest Benson of Saguaro, Mary, and Teri. Ranger Charles R. McManus and his family visited here while taking the daughter to Sargent where she is teaching school. Ranger and Mrs. Dean McClanahan and his parents spent one afternoon here while on annual leave from Petrified Forest. Ranger Bob Morris and family of Canyon de Chelly held a family picnic at the Great Sand Dunes with a portion of their many relatives during the month. Fire-guard Jack Williams and wife of Bandelier spent one afternoon here.

Other interesting visitors during the month included Mr. Newsome, the new president of Adams State College. Henry H. Collins, who is doing some writing for the Southwestern Monuments Association, looked over the area for booklet possibilities.

The Pueblo Motorcycle Club made their annual trip down Mosca Pass to the Great Sand Dunes.

Personnel

I spent two weeks of September on annual leave for the purpose of acquiring a wife. Mrs. Bean, the former Lois Marie Manson of Wiseton, Saskatchewan, and I returned home on September 23. We welcome all National Park Service friends who can make it this way.

Ranger Donald B. Mutz resigned on September 6, effective at noon, September 7, just as I was leaving for Canada on annual leave. It was almost impossible to find a qualified replacement on such short notice so my brother, Kenneth E. Bean, was finally drafted. He was terminated C.O.B., September 22, so that he could return to Stanford University.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Montezuma Castle National Monument
Camp Verde, Arizona

September 24, 1950

Memorandum

To: General Superintendent

From: Superintendent, Montezuma Castle

Subject: Monthly narrative report, September 1950

Special Activities: The evening of August 27 was spent with Paul Coze, Pasadena artist, who arrived in the area for the purpose of painting the Castle in moonlight. Accompanying Mr. Coze were Mrs. John Britt of Flagstaff, president of Northern Arizona Artists, and two models. The water color painting which shows the two models in the foreground representing a fifteenth century Indian maid and young brave is to appear on the back cover page of the Arizona Highway magazine for April or May 1951. Mr. Coze returned to the monument again on August 29 and took pictures showing modern day use of the Castle.

September 8 was spent with Mr. H. H. Collins, ornithologist from Laham Maryland, hiking the area for the purpose of identifying birds. Mr. Collins spent three days here in assembling data for a bird identification booklet to be printed by the Southwestern Monuments Association. This booklet will be used in manner similar to the present nature trail guide pamphlets.

Weather: What is hoped to be the last hot spell of the season occurred the first part of the month when the mercury reached 110 degrees on several days. Perfect weather, however, existed throughout the latter part of the month. Minimum temperature for the past few days has dropped as low as 37 degrees. Several small showers fell during the month.

Travel: Travel remains heavy, especially for September. 3,668 people in 1,209 cars visited the Castle and 1,823 people in 646 cars saw the Well. This makes a total of 5,711 people in 1,885 cars to the area, an increase of 795 people over September of last year. Each year it becomes more evident that many people postpone their vacation trip until after school starts. As a result there is no abrupt drop in visitors immediately following Labor Day.

This monument, like most other areas in the System, has again experienced a record travel year. In closing out the travel year for 1950, it was found that 42,105 people visited the Castle and the Well which represents and increase of 7,031 people or 20 per cent over last year. Although no official figures were kept, observation showed that

California led the parade, followed by Arizona. During the fall of the year, Californians make up approximately 75 per cent of our visitors.

Interpretation: At the Castle, interpretive service was maintained 31 days, 10 hours per day, and the Well museum was kept open 17 full days. A full schedule of conducted tours was also maintained throughout the month. 212 trips were made to conduct 1,382 people through the ruins and about 2,000 people used the Sycamore Trail. The museum was enjoyed by 3,500 visitors. At the Well, 1,823 visitors hiked the nature trail and 646 stopped by to see the museum.

The Montezuma Castle 3-fold pamphlet was revised and material mailed to Naturalist King for checking and printing.

A rough draft for a new Montezuma Well guide pamphlet was prepared during the month to replace the old one, copies of which are now all gone. However, work on this new pamphlet will be held abeyance pending construction of a new foot trail at the Well.

Visitors: On August 27 & 29, Paul Coze and Mrs. John Britt from Flagstaff.

On September 8, Mr. & Mrs. H. H. Collins of Laham, Maryland.

On September 15, Supt. Hastings & family from Walnut Canyon.

On September 20 & 21, Landscape Engineer Paul Thomas of the Regional Office.

On September 21, Mrs. John Verkamp and Miss Peggy Verkamp from Grand Canyon.

Maintenance: At the Well, flagstone in front of the museum was cemented and new sections of stone installed. This is a precaution against visitors falling.

The Chevrolet pickup recently acquired from Tonto was placed in the garage for some badly needed repair work. A new muffler and exhaust pipe were installed, fenders welded, and the ignition system repaired.

Considerable trouble was experienced with the leaky roof to residence No. One. This condition is causing interior damage.

Roads & Trails: Paul Thomas spent September 20 and 21 in the area for the purpose of locating the new Montezuma Well foot trail. This is Project Construction Proposal No. P-4 for which $3100.00 has been allocated. Work on this job will start tomorrow, September 24, when four men are to report for duty.

Wildlife: The skunk population at the Well seems to be on the increase; five were seen this month. Both at the Well and Castle, this years batch of quail is doing nicely. They are seen almost daily.

The annual wildlife report was submitted the latter part of the month.

NAME JOHN D. COOK
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED ON TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING SECTION OR OFFICER DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS CONCERNING THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL USE BEING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM WILL NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PRESENTED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES ARE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. ADD TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COOPERATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DUE THE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8m3) AND 9 (REPORT 9m3).

REVISED MAY 1950

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Natural Bridges National Monument

September 28, 1950

Memorandum

To: General Superintendent

From: Acting Superintendent, Natural Bridges

Subject: Monthly Narrative Report for the month of September, 1950

WEATHER: Until September 18th. the weather has been hot and dry, but on this date a heavy rain fellbringing cold nights and pleasantly cool days.

TRAVEL: With dry passable roads travel into this area has been steady showing a total of 469 visitors in 140 cars. A slight increase of 12% is noted over the same period last year. The campground was used by 16 parties with a total of 52 visitors days.

ANNUAL TRAVEL: A 26 % increase is shown in the annual travel as of September 25th., with a total of 2019 visitors and 609 cars. This is the highest annual travel ever recorded at Natural Bridges.

INTERPRETIVE SERVICES: Of the 469 visitors in the area, 374 were contacted and the total contact time amounted to 58 hours and 20 minutes. Five guided tours were made with an attendance of 16 people.

TRAILS: The finishing touches were put on the Kachina Bridge trail and this spectacular ladder trail has become very popular with the visitors. Weather permitting, a good start will be made this fall in replacing all ladders.

INSPECTIONS: Due to lack of transportation I have made no inspection of the area this month.

AUTOMOTIVE EQUIPMENT: A sore subject: The weapons carrier, obtained from Los Alamos surplus, burned out a rod on September 21, 7 miles out of Blanding, as Ranger Redd was enroute to the monument. This pile of junk has been a headache from start to finish and I do not recommend spending any more money on it. Ranger Redd is now using his own pickup at five cents per mile.

GENERAL: A new refrigerator was just received at Arches, but will not be installed until next spring, at Natural Bridges. A kitchen range will be picked up at Gran Quivira when the new pickup for Arches arrives in Santa Fe. A gas tank from White Sands will be picked up in Gallup soon. Work on trails will continue as long as the weather permits.

REVISED MAY 1946.

RECEIVED SEP 29 1950 REGIONAL OFFICE

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Navajo National Monument
Tonalea, Arizona

September 26, 195

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Navajo

Subject: Report Inl, September, 1950

Travel: Travel to Navajo increased this year from a previous high of 770 to a new total of 1, 054. The count at Rainbow Bridge National Monument was only 542 as compared with the previous high of 572 persons in 1948.

A trip to Rainbow Bridge was made September 14-15 to collect the annual travel data. On June 7, 1950, Dave Hurt and Starr Jenkins parachuted into Bridge Canyon to visit Rainbow Bridge. Later they walked to the Colorado River, 6 miles away, where Art Greene met them and they went by boat to Lee's Ferry.

Weather: One and one quarter inches of rain has fallen during this report period. This rain was welcome but too late to do the vegetation much good.

Roads: Almost all the roads leading to the Monument, including our own, have been recently graded and are in good condition.

Inspection: Director Tillotson visited Navajo, September 23. It was his third trip to the area but the first since the area has been developed.

Construction: Only one bid was received for the addition to residence number 1 and it was far too high. We are going to start construction soon (we hope) by force account. All the necessary stone and sand has been hauled to the site and the rest of the material should be on hand by October 1st. The excavations for the foundations have been completed.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Navajo National Monument
Tonalea, Arizona

General: The ranger bunkhouse was given two additional coats of bondex and it looks quite presentable. The vertical radio antenna has been moved to make way for the new construction. All Monumnt tools and equipment have been stamped or otherwise marked to identify them as government property.

A wage board survey was conducted to establish wage rates at Navajo for the onstruction job. A minimum of $1.675 per hour for common labor and $3.25 per hour for mixed gang foreman are the extremes.

Special Visitors: Dr. Carl Schmidt and family, University of Oklahoma.

Dr. John Roberts and family, Harvard University.

Regional Director and Mrs. Tillotson, Mrs.R.L. Sexton, Washington, D.C., Mrs. John Cabot, Santa Fe, New Mexico.

Seasonal Ranger Harmon Maxson, Mesa Verde National Park.

REVISED MAY 1949

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
ORGAN PIPE CACTUS NATIONAL MONUMENT
P. O. Box 38, Ajo, Arizona

September 25, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Acting Superintendent, Organ Pipe Cactus

Subject: Superintendent's Monthly Narrative Report for September, 1950

Weather

This month started in very hot but cooled down nicely about mid-month. Our high of 113 occured on the 1st. and a low night temperature of 52 was recorded on the 12th. Rain fell on the 5th, 7th, and 20th for a total of .92 inch this month and bringing our total for the year up to 5.16 inches.

Maintenance

Fence repairs were made on the north boundary on the 7th.

Well repairs were again necessary on the 11th for the third time in 30 days.

The small light plant was repaired and put back in service on the 6th.

Regular road maintenance continued after the return of maintenance-man Guinn.

Minor sign maintenance was accomplished at odd times and more of the same will continue as time allows.

Cooperating Governmental Agencies

On the 24th a Brazilian-Polish Alien came to the Steele's residence and asked for water. He had slipped through the border about 5 miles west of the entry station at Lukeville and was headed for Phoenix, on foot. With the assistance of C. R. McCalmont, the Immigration Officer in charge, he was apprehended about 1½ miles north of Headquarters.

The Bureau of Animal Industry has almost completed the patrol road between Dowling Well and Quitobaquito.

According to an article in the Copper News, great progress has been made on the Tucson-Ajo Highway improvement Contracts. This section of highway is complotly new and not visable from the present road. The schedule promises an all paved road by April or shortly after.

Increase in Travel

With cooler weather travel was back up to or above normal with a total of 12,204 for the month. This gave us a record breaking

year of 155,875 visitors. This is an increase of 52,512 visitors over last travel year.

Visitors

General Superintendent John Davis payed us a short visit on the 22nd. His answers to my many questions gave me a better understanding of a few of the administrative problems of a Superintendent.

Personnel

Maintenance-man Quinn returned from leave on the 5th. After a vacation in the "Deep South", he is glad to be back in cool country.

Temporary Ranger James W. Shirley in on an official trip in Phoenix at this writing. He also was in Deming for the Civil Service Clerical Exam on the 12th.

Superintendent Supernaugh has been on leave this report period but will return sometime after the 1st of October.

Protection

Dove season opened on the 1st requiring extra patrols, especially in the northern end of the area.

Another case of gun shots on the highway near the headquarters area occurred on the 29th. Six shots were fired in fast succession between Lukeville and Headquarters about 11:15 p.m. By the time I could find my trousers and prop my eyes open, their car was speeding past headquarters in the direction of Ajo. It was futile to give chase in a pick-up.

Cases of this type seem to be ever increasing and will probably require special attention in the near future.

General

Lukeville School opened the 11th with 23 students from the district.

A Benefit Bar-B-Q at the school will draw approximately 1000 people through the Monument on the 30th. This method of raising funds for school assistance is necessitated by the small amount of taxable lands in the Lukeville District.

"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

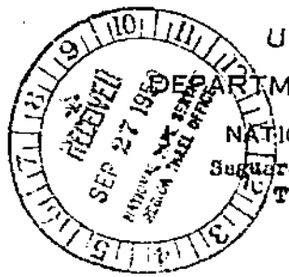
INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. FIGURE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.



INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE WILL RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 2 (REPORT NM3) AND 9 (REPORT NM5).

REVISED MAY 1948.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Saguaro National Monument
Tucson, Arizona

September 25, 1950

Memorandum

To: General Superintendent

From: Superintendent, Saguaro

Subject: Monthly Report, September 1950

General

A new all time travel record was established at Saguaro National Monument for the 1950 travel year. As of this writing some 34,002 persons visited the monument during the travel year just ended. This is an increase of 10,000 persons over the 1949 travel year. Increased travel trends are reflected not only in this area but over the whole Southwest. This interest on the part of out-state visitors coupled with revitalized local visitation has been conducive to a 50% travel increase.

One of the major aircraft companies has established a factory in Tucson and is presently engaged in repairing B-29's for the U.S. Air Force. This has resulted in an increased local population due to the necessity of securing skilled workers from all over the United States.

The weather for the past month has been relatively dry and pleasant. Lightning storms were not as intensive as usual, which no doubt has assisted in the prevention of fires. Hot dry days have prevailed and although several light showers did occur, the forested area is quite dry for this time of the year.

Special Activities

Superintendent King returned from vacation on August 26.

Mr. Gentellum stopped in Tucson on his return from the N.P.F.E. convention in Los Angeles. Together with Supt. King the two interviewed building contractors for a possible reopening of the bids on the Madrona Ranger Station bedroom addition.

Naturalist King and General Superintendent Davis spent one and two days respectively at Saguaro National Monument inspecting the area and discussing administrative matters with the superintendent.

Maintenance

The Rincon Peak Trail was completely brushed out during September. The Happy Valley Saddle Trail has been rehabilitated and is in good condition, except for the portion which suffered flood damage during last month. We anticipate repairing the latter portion during the late fall or early spring. Maintenanceman Barney and one trail laborer are presently engaged in repairing flood damage on the Pack Trail, about two miles above Grass Shack.

A new metal roof was installed on the living quarters section of Manning Cabin this month.

Repairs were accomplished to the Spud Rock Pasture fence which was badly damaged during the Spud Rock Fire. All except four miles have been turned out to winter pasture since the repairing of the fence.

New Construction

The shortage of building materials seemed to be the reason that no acceptable bids were received on the Madrona Ranger Station bedroom addition. A second bid opening date was set at September 25, and several contractors seem interested. If no acceptable bids are received the project will be undertaken using a force account.

Approaches to Park Area

The Broadway approach was bladed once in September and is in fair condition at present.

The approach to Madrona Ranger Station was bladed also and is in good condition.

The Vail approach is in poor condition as much of the roadbed was lost during a downpour in July. A general replacement of materials is required before this approach is again in good condition.

The Cactus Forest looproad was graded in some sections and is in good repair.

Donations

Marvin Frost Sr. donated a fine photograph of a Cearab Rhinoceros Beetle for use in our multiplex display. Mr. Frost also donated an excellent panorama of the Saguaro Mountain Ranges as seen from the Tail approach road.

Interpretive Services

A total of 928 persons in 263 parties were given interpretive service at headquarters. This amounted to 67 hours for an average of 15 minutes per party.

Research and Observation

Mr. H.H. Collins and wife spent three days touring the cactus area and the Pack Trail to Grass Shack observing birds of Saguaro National Monument. Mr Collins plans to publish an illustrated booklet of the birds found in the monument. He seemed very much impressed by the virgin area of the Rincons being located so near a well populated area.

A desert mule deer doe was observed near the picnic ground on September 9. A five point buck was sighted by visitors near the Javalina dens on September 7. One white tailed deer was observed [illegible] in the forested area.

Increase in Travel

A total of 1,734 persons visited Saguaro National Monument during September. This is an increase of 312 visitors as compared to last month, and an increase of 718 visitors over the same month last year.

Visitors

Sept. 7 - Dr. Douglas and family, Univ. of Arizona.
Sept. 8 - Dr. Carden, Univ. of Arizona and a group of eight prominent agricultural experts from France and her possesions. These men have been studying American methods of livestock production. They are:
Marcel Achilles, Reims, France.
Marcel Poirier, Constantine, Algeria.
Pt. Pierre Receveur, Pt. Lary, Fr. Equatorial Africa.
Pt. Pierre Rulin, Niamey, Algeria.
Georges Robert, Fez, Fr. Morocco.
Alfred Vandon, Yoaunde, Fr. Cameroon.
Phillippe Keller, Tunis, N. Africa.
Alfred Quienne, St. Pol de Leon, France.

Sept. 13 - Mr. H.H. Collins and wife, Lanham, Maryland.
Sept. 20 - General Superintendent Davis, Regional Office.
Mr. Dale King, Regional Office.

Ranger Service

Forrest Benson and family left September 16 for an extended vacation. They plan to visit many of the parks and monuments of the Southwest and include a stop at the Regional Office.

Forest Fire Control

All three Fire Control Aids were terminated as of August 31. Two men, however, were stationed at Manning Camp during September. They rode the patrol trail after lightning storms to watch for possible late season fires.

Insects and Tree Diseases

The annual forest insect report was prepared and submitted this month. Insects and tree diseases are about the same as last year but if the forested area is to be opened to public use in the future certain control measures are recommended.

Personnel

Fire Control Aids Raymond Kimmel, Marion Wallmark, and Robert Russell were terminated as of August 31.

Trail laborer James Patterson was terminated as of August 31.

Trail laborer James Gilmore resigned September 1.

After three months of sour-dough cooking without a return to civilization Fire Control Aids Kimmel and Russell were reported as headed for Nogales to celebrate.

All temporary personnel are commended for the excellent manner in which they discharged their duties throughout the summer.

Samuel A. King
Superintendent

ON JULY 31 SAGUARO NATIONAL MONUMENT WAS DOUSED BY A TWO INCH RAIN IN ONE HOUR. THE FOLLOWING PICTURES PORTRAY SOME OF THE DAMAGE INFLICTED ON MONUMENT TRAILS

WASHOUTS SUCH AS THIS WERE COMMON ON THE MADRONA R.S.-MANNING CAMP TRAIL. THE RECENTLY RECONSTRUCTED HAPPY VALLEY SADDLE TRAIL SUFFERED WORSE DAMAGE.

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

The cactus forest guide leaflet continues to contribute to the enjoyment of our visitors.

Interpretive service was constant throughout the month.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m).

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Sunset Crater NATIONAL MONUMENT

Flagstaff, Arizona

Sept. 25, 1950

Memorandum

To: General Superintendent

From: Ranger-in-charge, Sunset Crater

Subject: Monthly Narrative Report, Sept. 1950

Weather: Temperatures have varied considerably during the past month. Nights have been cold with several mornings below freezing. Snow fell on the San Francisco Peaks Aug. 24 and again Sept. 7-8. We had six days of rain throughout the month with a heavy downpour the night of Sept. 5-6. The first four days of the month were hot and sultry. Strong winds swept the area for five straight days begining Sept. 14. Cloudy skies with heavy overcast has been occuring the past few days. This together with low temperatures should bring snow anyday now.

Special Activities: Three trips were made to Wupatki for supplies. Once to escort Ranger McClain when he arrived in the area to assume duties. Another to give a hand in putting a concrete floor in the Quonset Hut.

On Sept. 1, Mr. Natt Dodge and Mr. Paul R. Franke visited the monument and some time was spent with them going over the Nature Trail.

Ranger McClain arrived on Aug. 27 to assume duties at Sunset and Wupatki. Aug. 28 was spent getting him acquainted with the area.

Inspections: Mr. Natt Dodge and Mr. Paul R. Franke visited the area in regard to the interpretive program.

Maintenance: Mr. Bean was up on Sept. 11, and bladed the section of road from the utility area to the parking area and the section to the Painted Desert View.

Some time was spent getting the trailer house ready for occupancy. An oil stove and gas plate was installed.

The rest rooms and trash barrels were sprayed with DDT to kill the flies which were becoming numerous.

A section of the Nature Trail was moved to conform with the new trail booklets when they arrive.

Interpretive Service: The Nature Trail still continues to please all those who take it. Use of it has declined somewhat due to the cold and rainy weather. However 34% of the visitors have gone over it. All comments are still favorable. Most people are very inthused with the trail booklet system.

Collections on the trail booklets have averaged 88%. The number of books sold amounted to 614 with $54.10 collected showing a loss of $7.30.

Due also to the cold and rainy weather, the travel to the top of the crater has dropped from 13% to 7%. The number of hearty sould who made the trip was 240 made up of 112 parties.

Total travel for this month has been 1206 cars with 3539 people. Of these 2547 persons were contacted in 806 cars. This figures out to 72% of the people contacted.

Increase in Travel: Travel for this month shows that the season is about over. Our largest day of the year occured on Sept. 3 with 102 cars and 350 people. Since then, travel has dropped way off with only Saturdays and Sundays numbering high.

	Cars	Visitors
September 1950	1206	3539
September 1949	1437	4310
This travel year	7722	23676
Last travel year	10424	31269

Visitors: Ranger and Mrs. Ralf H. Anderson, Yosemite Nat'l Park. Aug. 26.
Sept. 1, Mr. Paul R. Franke, Wahhington D.C.
Mr. Natt Dodge, Regional office, Santa Fe.
Sept. 22 Mr. and Mrs. P.F. Van Cleave, Mesa Verde Nat'l Park.

Forest Fires: Due to the generous rain fall this month, the fire hazard has been nil.

REVISED MAY 1948

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Tonto National Monument
Roosevelt, Arizona

September 27, 1950

Memorandum

To: General Superintendent, Southwestern Nat'l Monuments

From: Superintendent, Tonto

Subject: Narrative Report, September, 1950

Weather. Maximum temperatures ranged from 110° on September 1, down to an average daily maximum of 80 to 85°, during the last of the month. The worst summer heat is over, we hope. About 2.50 inches of rain fell, 1.50 of which poured down in 45 minutes on Sept. 18. This caused considerable damage to roads, trails, raw banks left by construction, and buried a culvert. Mud was washed all over the parking area just prior to seal-coating, which cost the contractor an extra dey of cleanup work. The tool shed area was badly flooded.

Approach roads. The Apache Trail was damaged by the severe rains. Oiling the 8 mile strecth near Globe should start any time. The Monument entrance road was bladed by Archaeologist Pierson & Pat Cook with a borrowed grader & our dump truck, and smoothed up by Ab Sanders, State Highway grader man, so it is fairly good again.

Personnel. A local man, Pat Cook, was hired on roads & trails, and one or two more men will be added as soon as we can find them.

Travel. 934 visitors in 282 cars came in this month. This compares with 915 September last year. Annual travel as of the 25th was 18,481, an increase of 1,092 over last year.

Visitors. Ranger & Mrs. Forrest Benson & Terry, Sept. 16, from Saguaro.
Engineer J. H. Conn, Sept. 20 to now.
Mr. & Mrs. Don South, Albuquerque, New Mexico, friends of Piersons.
General Superintendent Davis, September 26.

Parking Area. With the seal-coating job finished on September 26, the parking area is complete and looks very good. It fits the canyon well and even arouses the admiration of some of the visitors. This basic improvement will allow orderly permanent development to proceed whenever that becomes possible.

General. During Mr. Davis' inspection of the 26th, a program of road & trail work, general rehabilitation of the area after the grading, and restoration of utilities, was laid out, and we hope to accomplish a lot of work before the heavy travel begins. There was no "slack season" this summer here, though of course the travel was lighter.

Considerable work and a long time will be required to reseed and minimize the banks and scars of construction, and this will require a continuing effort.

The gas hot water heater in the ranger's quarters is nearly installed, in an outside compartment, as per instructions.

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND SERVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND SERVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR SERVICE. PLACE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS UNDER EACH INTERPRETIVE SERVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKINGS AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE SERVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINALS IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 5 (REPORT 8M5) AND 9 (REPORT 9M2).

REVISED MAY 1949.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Tumacacori National Monument
Tumacacori, Arizona

RECEIVED SEP 27 1950 NATIONAL PARK SERVICE SOUTHWESTERN AREA OFFICE

September 25, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Tumacacori

Subject: Superintendent's Monthly Narrative Report for September, 1950

Weather: Mother Nature doesn't love us any more. Total precipitation for the month was .01 of an inch, compared with an average rainfall of 1.95 inches for the same month during the preceding 11 years. Temperatures ranged from a high of 108 degrees on August 31 and September 1, to a low minimum of 40 on September 15. We have had our full share of hot weather, and exceptionally dry weather.

Visitor Travel: The close of the travel year chalks up two new records for this area. There were 2,127 visitors this month as compared with the previous September high of 1,683 in 1949, which is better than a 20% increase. For the 1950 travel year Tumacacori had 29,983 visitors, which is over 10% higher than the previous record total of 25,766 in 1948. Some of this increase is undoubtedly caused by the fact that a through paved highway from Nogales to Guaymas, Mexico was placed in use in January of this year.

Interpretive Service: 874 persons went on 165 guided trips through the mission church and grounds, receiving an average of 32.39 minutes per trip. 2,002 persons received combined Information and Interpretation Service, and 2,000 saw the museum and patio garden.

Visitors: Among our visitors were:
Alfred F. Whiting, former W.A.E. guide here, now on the staff of the nearby Santa Cruz Valley School.
Architect Eastman, who made the drawings for the mass diorama and the mission model, in our museum building.
Carl Gordon, former head of the CCC in Arizona.

Inspections: General Superintendent John Davis inspected the area during the afternoon of September 23 and part of the morning of the 24th, and we discussed a wide variety of Tumacacori matters.

Personnel: Sup't. Jackson returned to duty from annual leave on September 2. W.A.E. Guide Conrad worked 4 hours this month, on Labor Day. Maintenanceman Orozco took a day of annual leave.

Maintenance: On September 15 the Tucson Roofing Company, which installed roofing over our museum building over a year and a half ago, came down to make repairs. The worst portions of the roof, over the lobby, office, and south arcade of the building, were given entirely new covering of roofing felt, and all the worst blisters on other portions of the roof were patched. At the same time, the company put roofing compound over wall cracks above the north end of the restored nave roof on the mission church, and treated a light-weight cement deck above the baptistry with the same material, to stop some leaks.

More of the extensive Bondex painting job on the museum building was done this month, which brings the outside fairly close to completion. Badly worn bricks in the church floor and north entrance to the sacristy were replaced. Cement sills were placed under two of the recently installed screened metal doors in the mission church. The highway approach signs were taken down and re-painted and re-lettered, and all the wooden signs inside the monument area were freshly painted. The porch of the ranger house was screened. A heavy screen in front of the men's rest room door, fronting on the service road driveway, was remounted on metal posts. Several minor plumbing repairs were effected. Much irrigating was done. The east bed in the patio garden was fertilized and turned, and planted in hardy annuals which may give some late autumn flowers. Several new plants were installed in the cactus garden. Some Matilija Poppy seedlings and some Jojoba seeds, obtained from Fred Gibson, of the Boyce-Thompson Southwest Arboretum, were planted. Considerable old winter-kill and fungus-kill on sick European Olive trees was cut out. Oleanders were sprayed with Black-leaf 40 to control aphid pests.

General: The monument appears to be ticking along in very good shape, with never a dull or idle moment. I would like at this time to insert what I consider the letter of the year, received here recently:

Envelope Address:

Tumacacori National Monument
c/o Rangers
Arizona

Text of letter:

San Angelo Texas 9 1450

Dear Sirs

I am writing a book of 100 places I like best. I need some one there to write a story of the indians in the rock age & how many were there then & now Also 5 or more pictures of the most enteresting places theer closst the Writer Will rec one of thes bookes for theer trouble when its complent

Paul J Hughes
1516 N Oakes

Perhaps it is the lot of most monument superintendents to receive such a literary masterpiece but once in a lifetime. Certainly anything that could be added here would be superfluous.

Earl Jackson
Superintendent

NAME Frank Pinkston
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO MINES AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, ETC., OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATION OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATES AS ACCURATELY AS POSSIBLE ALL VISITS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE MATERIAL, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

REVISED MAY 1945.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA

September 27, 1950

Memorandum

To: General Superintendent

From: Superintendent, Tuzigoot

Subject: Report lml, September 1950

There follows a narrative report of activities in this area.

VISITORS

Visitors this month--2379 visitors in 771 cars. This is a drop of 261 compared with September 1949. However, our total for the 1950 Travel Year is 21,093, which is an increase of more than 10% over last year.

GUIDE AND CONTACT SERVICE

Museum, ruins and orientation contacts totaled 5924 for the month. 2082 people in 691 parties were shown through and given an orientation lecture in the museum and 2232 people in 728 parties made the trip through the ruins. Average time spent by each party in the museum and ruins--20 minutes. The trend this month, following commencement of school, was a smaller number of people per car--generally two--in contrast to the usual three or four, indicative of older persons taking their vacations.

N.P.S. VISITORS

Supt. Homer and Mrs. Hastings of Walnut Canyon National Monument on August 27 and September 23. During the month Homer borrowed and returned two tires from this area while awaiting receipt of new ones for Walnut Canyon.

Ranger Jim and Mrs. Clancy of Montezuma Castle on August 30.

Ranger-Naturalist Myron Sutton on September 6. Myron is somewhere between Grand Canyon National Park and the Armed Forces.

[redacted]

[redacted]

[redacted]

IMPROVEMENTS

The ladder was repaired in Room 14 Group III of the ruins. This ladder leads into a partially restored room and shows the visitor the type of roof construction employed by the Indians.

On September 22 the hot water faucets in the Quarters failed to flow, and the hot water heater was drained in an effort to get rid of the lime incrustation which forms rapidly in the coils. Periodic draining alleviates this to some extent.

The trash which constituted a fire hazard behind the museum retaining wall was cleaned up.

A sign bearing the caption MUSEUM - OPEN 8:00 A.M. TO 5:00 P.M. was designed and layed out. This will be posted at the entrance to the Museum-Administration Building.

OVERHEARD IN THE MUSEUM

"Bet these pots was like putting together a cross-word puzzle".

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Walnut Canyon National Monument
Flagstaff, Arizona

September 25, 1950

Memorandum

To: General Superintendent

From: Superintendent, Walnut Canyon

Subject: Monthly Narrative Report, September, 1950

Visitors this month, 3079; travel year to date, 23, 589.

Administration The project to catalog our library was brought to a close with all publications carded by author and title. Considerable work to get all material classified by subject remains to be done.

Temporary Ranger Brockman's appointment was terminated on September 15. He and Mr. Brockman left on that date for their home in Seattle, Washington.

Time has been spent in getting information and informal estimates on the cost of installing oil-burning furnaces. Invitations to Bid have been circulated.

Use Of Monument Facilities by the Public There were 3079 visitors who came in 956 cars. Contact was made with 2859 visitors and there were 2918 people in the museum. There were 23,589 visitors for the travel year which is an increase of 1810 or 8.3 per cent over the 1949 travel year.

There were 65 picnic parties including 462 people. On September 10 approximately 150 people from the Veterans of Foreign Wars in Winslow enjoyed a picnic here.

Maintenance The floors in the kitchen and bathroom of Residence No. 1 were repainted.

A broken door glass in Residence No. 1 was replaced and repainting the exterior woodwork was started.

The sump at the biginning of our water line was drained and cleaned.

All exterior woodwork at the restrooms was given a coat of paint.

Interpretation Artist Paul Coze was here to paint a picture of the canyon during the Indian occupation. Mr. Coze was accompanied by an assistant and two models. The most of one day was spent in taking several photographs and working on the painting. It is planned that the material will be used in Arizona Highways for April, 1951.

Work has continued on obtaining photographs for a museum case on the Island Trail.

Mr. and Mrs. H. W. Collins were here to inquire about preparing booklets on the birds and mammals of the area.

Equipment We completed hooking up our gasoline pump to an underground tank and the first bulk delivery of gasoline for this monument was received on September 12.

A chain saw and a 2-ton hoist were transferred to Petrified.

Vandalism Four of the metal numerals on our Island Trail markers were ripped off and two of the signs on the trail were moved. The identity of the culprits could not be determined.

Patrols Part of the north boundry was patrolled and eight breaks in the bottom wire were repaired.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Contact service from 7:00 A.M. to 7:00 P.M. until September 15. Then from 8:00 A.M. to 5:00 P.M.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside writers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Reports are due in accordance with instructions in Administrative Manual: Vol. 15, Chapters 8 (Report 8x3) and 9 (Report 9x3).

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
White Sands
Box 231, Alamogordo, New Mexico

September 25, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, White Sands National Monument

Subject: Superintendent's Monthly Narrative, Report No. 1nl

SEPTEMBER TRAVEL, 1950	TRAVEL YEAR TO DATE
Visitors, 20,848 Cars, 5,010	Visitors, 178,189 Cars, 41,845

GENERAL

We are proud to report the close of the most successful travel year in our history. Twenty thousand eight hundred forty-eight visitors in five thousand and ten cars surpass, by over 2,000 visitors, any like month in our history. Again, in our travel year, of 29,028 visitors and 6,752 cars over any previous travel year is also most encouraging.

One of the features that strike us as being noteworthy is the fact that every month of the year showed a gain of not less than a thousand visitors, and a couple of months as much as four and five thousand gain in visitors.

Our physical plant has held up well in spite of the heavy strain on some of our facilities during peak loads, and in speaking of the increase, I want to take this opportunity to compliment my entire personnel on their handling of this increase in visitation without a single complaint from any member of the staff.

Our contact personnel have averaged over 35,000 visitors each for the year. And not one complaint. I think this speaks better than I for the boys. Of course, the boys keeping up the other work, such as pounding the typewriter, etc., deserve equal credit, because contacts alone can not keep the machine going. My entire personnel force has done a swell job and I am proud of every one.

Several trips have been made to El Paso, in connection with contracts on our Comfort Stations. Some moisture has fallen and a high of _____ was reached on the _____, with a low of _____ on the _____.

INSPECTIONS

No special trips were made for inspections, even though trips to various parts of the monument have enabled us to pretty well look over our south boundaries.

GENERAL PUBLICITY

The increase in visitors, we feel, shows no lack of publicity. And, too, several articles have kept us in the public eye. "Buick" for October carried a feature article on Scenic Sands. "A.A.A." tells us that Carlsbad and White Sands lead their request list for New Mexico.

COMPLAINTS

No complaints have been received on any phase of our area.

MAINTENANCE

Otis Hicks has been working on buildings and two residences are now completely refinished and a couple of the girls are much happier. Roads are in fine shape, what with a few rains to give the required moisture.

PUBLIC SERVICES

Concession gains are not at all in proportion to our increase in visitors. But they are doing a very good business.

COOPERATING GOVERNMENT AGENCIES

The water contract between the Holloman Air Base and White Sands National Monument was signed and submitted to the Washington Office for approval this month.

We hope soon to be able to obtain this water and do away with this 15-mile haul.

INCREASE OR DECREASE IN TRAVEL

This increase was described in the opening paragraph of this narrative. Increases of over 20,000 visitors per year have been recorded since the year 1947.

NAME Johnwill Faris,
TITLE Superintendent.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside agencies with Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and rates, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

WHO REPORT TO: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 8m4).

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Wupatki

Flagstaff, Arizona

Sept. 25 50

To: General Superintendent

From: Superintendent, Wupatki

Subject: Monthly Narrative Report for September 1950.

Weather Conditions. September has been an ideal "sight seeing" month. Some moisture early in September has long since disappeared and the roads are again dry and dusty. Rainfall for the period totalled .80". Maximum temperature on Sept. 1, 102°.

Inspections. Mr. Paul R. Franke of the Washington Office, accompanied by Matt Dodge, visited the area on Sept. 1 to review the interpretive program.

Maintenance. During the month the exterior walls of the ranger's quarters (trailer house) at Heiser Spring were patched and then painted. Before winter it will be necessary to cover the outside of the addition to the trailer house with building paper or some such.

Stake truck I-15853 was given a coat of conventional black paint over the CCC green which was definitely showing its age.

The remainder of the cement floor in the warehouse end of the quonset hut was run so that the cement mixer could be released to Navajo. Also garage doors were fitted on the garage end and for the first time in the history of Wupatki we can now run our equipment inside for repairs.

Mr. Troy Strickland of Petrified Forest was in on Sept. 19 and removed the heavy timbers stored here, for which we had no use.

Ranger McClain made a hurried trip to Mesa Verde on Sept. 21-23 to secure two new tires for the weapons carrier as it had been laid up for two weeks with a blowout.

Repair and Rehabilitation. Bids for reroofing the superintendent's residence were distributed on Sept. 11 and opened in Santa Fe on Sept. 20. You guessed it -- too high!

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Subject: Monthly Narrative Report for September 1950.

Weather Conditions. September has been an ideal "sight seeing" month. Some moisture early in September has long since disappeared and the roads are again dry and dusty. Rainfall for the period totalled .80". Maximum temperature on Sept. 1, 102°.

Inspections. Mr. Paul R. Franke of the Washington Office, accompanied by Matt Dodge, visited the area on Sept. 1 to review the interpretive program.

Maintenance. During the month the exterior walls of the ranger's quarters (trailer house) at Heiser Spring were patched and then painted. Before winter it will be necessary to cover the outside of the addition to the trailer house with building paper or some such.

Stake truck I-13833 was given a coat of conventional black paint over the CCC green which was definitely showing its age.

The remainder of the cement floor in the warehouse end of the quonset hut was run so that the cement mixer could be released to Navajo. Also garage doors were fitted on the garage end and for the first time in the history of Wupatki we can now run our equipment inside for repairs.

Mr. Troy Strickland of Petrified Forest was in on Sept. 19 and removed the heavy timbers stored here, for which we had no use.

Ranger McClain made a hurried trip to Mesa Verde on Sept. 21-23 to secure two new tires for the weapons carrier as it had been laid up for two weeks with a blowout.

Repair and Rehabilitation. Bids for reroofing the superintendent's residence were distributed on Sept. 11 and opened in Santa Fe on Sept. 20. You guessed it -- too high!

Monument Roads. Roads have been fair this month. Additional blading has kept the road between Sunset Crater and Wupatki better than usual as reflected in the increased travel.

Clay plating of the worst stretches on the above road should get underway about Oct. 2 with dump truck from Walnut Canyon and Navajo to expedite the work. If luck is with us the winter moisture will settle the clay before the wind and the tourists blow it away.

Cooperating non-government agencies. Rain guages were read for the Museum of Northern Arizona on Sept. 1.

Interpretive Service. At Wupatki ruin 859 visitors in 260 parties were contacted for an average of 19 minutes per party.

On Sept. 1 the Nalakihu-Citadel self-guide trail went into operation complete with a Kennesaw Mountain register box, 5 easel displays and the booklet prepared by Mr. King. This trail has been very well received by the public. It is believed that more people now figure they have seen enough and turn back at the Citadel, but a study will have to be made to verify this. Certainly a much larger perportion of visitors stop there now, know what to do, and know what they've seen when they leave.

Mr. Stan Davis, Lloiesgard photographer, returned to the area on Sept. 9 and weather cooperating should have gotten some excellent transparencies for color postcards.

Artist Paul Coze was in on the 14th and finished the photography for his part of the forthcoming Indian Ruin article.

Increase in Travel. Travel, as shown below, is up about 50% this month over the same period last year. Again this is no doubt due largely to the passable condition of the back road from Sunset Crater. The 1950 travel year just ended is up 47 % over 1949.

	CARS	VISITORS
September 1950	481	1349

October 3, 1950

Memorandum

To: General Superintendent

From: Naturalist

Subject: Narrative report for interpretive work in the Southwestern National Monuments for September 1950

Naturalist Dale S. King traveled September 18-21 to Phoenix, Casa Grande, Tucson, and Saguaro.

Archeologist Charlie R. Steen returned to the office September 25 from field work at Canyon de Chelly.

Interpretive Administration

King processed and forwarded through Region to Washington the revised 2-fold leaflets for Arches, Navajo, and White Sands, the revised 3-fold leaflet for Montezuma Castle, and material for a new 3-fold on Rainbow Bridge. He sent out the usual memorandum to southern Arizona areas as a reminder to rehabilitate interpretive devices before the heavy travel, and mailed several copies of the herbarium catalogue in answer to requests from other National Park System areas.

Progress of Exhibit Plans and Projects

The Chiricahua museum exhibit plan which has been recommended by Museum Chief Burns and signed by Superintendent Cooke and General Superintendent Davis was submitted to the Regional Director. A leaflet for the Cove Trail at Arches, prepared by the local staff, was mimeographed.

Accessions -- Other Than Library

Photographs by Artist Paul Coze of posed pictures simulating prehistoric Indian activities at Casa Verde, Aztec Ruins, and Bandelier

Bent, Arthur Cleveland - Life Histories of North American Wagtails, Shrikes, Vireos and Their Allies. U.S. National Museum, Bulletin 197.

Cook, S. F. and A. E. Treganza - The Quantitative Investigation of Indian Mounds, Univ. of California Pub. in American Arch. and Eth. Vol 40, No. 5.

Daniel, Glyn E. - A Hundred Years of Archaeology. London, 1950.

Day, Albert M. - North American Waterfowl. New York, 1949.

Diso, Lee R. and Philip M. Blossom - Studies of Mammalian Ecology in Southwestern North America with Special Attention to the Colors of Desert Mammals. Carnegie Institution of Washington Publication No. 485.

MacGowan, Kenneth - Early Man in the New World. NewYork, 1950.

Preston, Richard J. - North American Trees. Ames, Iowa, 1948.

Stubbs, Stanley A. - Bird's Eye View of the Pueblos. Norman, 1950.

Southwestern Monuments Association

The biggest news during the month was the publication of "For The Dean," a leather bound copy of which was presented to Dr. Cummings at a reception at his home September 20. More than 170 guests were present and congratulatory telegrams and letters came from all over the country. Several donations for the Cummings revolving publication fund, including one for $500, were received.

Galley proof for the revised Lava Flow at Sunset Crater was received September 7 and for "Birds of Bandelier" September 28. Photographs and text also came in for "Animals of Bandelier." Some progress was made on accumulating photographs and drawings for the Tuzigoot trail booklet.

Word was received from the National Park Service that no organization should be allowed the use of our mailing list.

A form for contracts with authors was worked up and submitted to an attorney for review. This was adapted from forms obtained from three publishing companies.

During the month of September two deposits and one disbursement were made by Treasurer Vodder. The number of covers mailed was 246, including 60 letters and 65 purchase orders.

As the annual audit was completed at the end of August, much time this month was spent in posting the accumulated receipted purchase orders and turn-ins to the warehouse cards. Also the ledger accounts were closed, and the various statements for the Association's annual report were prepared. They are all completed and only the written text has to be done now.

The Cummings Volume, entitled FOR THE DEAN, was published and a leather bound copy was presented to Dean Cummings on his 90th birthday, Sept. 20th. The book is now on sale for $6, and copies will be mailed during October to those who have already subscribed.

Visitors

Photographer Laura Gilpin, Artist Paul Coze, Assistant Chief Naturalist Paul Franke, Rangers Elmore and Benson, Archeologists David De Harport and Malcolm Farmer.

Ruins Stabilization

First record pages were received from Bandelier on the stabilization work this summer at Tyuonyi and the Big Kiva.

At the request of Region Two it was arranged for Archeologist Vivian to travel to Fort Laramie National Monument to give them the benefit of his advice on the stabilization of the Sutler's Store there.

Technical Aid to the Administrator

In the absence of General Superintendent Davis, King was Acting September 22-30.

Projects for October

King will be on normal office routine except for a trip October 5-14 with Historian Ronald Lee and Regional Archeologist Erik K. Reed to Mesa Verde, Aztec Ruins, Chaco Canyon, El Morro, Montezuma Castle, Tuzigoot, Walnut Canyon, Wupatki, and Petrified Forest.

Steen will work in the office on the Tse-Ta'a material except for a short trip late in the month to Southern Arizona.

APPROVED FOR DISTRIBUTION

Dale S. King
Naturalist

General Superintendent
Copy to: Mr. Dodge (3)
Mr. Davis for distribution (2)

ARCHIVES NATIONAL PARK SERVICE
MOAB, UTAH

October 26 1950

Memorandum

To: General Superintendant

From: Superintendant Arches

Subject: Monthly Narrative Report for Month Of October, 1950

Weather: From September 25th to October 25th hot and dry no rain a few over cast skies and some high winds. Maximum Temperature 99 Minimum 35.

TRAVEL: A total of 989 people and 286 cars Representing 28 States visited the Monument during the Month of October 1950.
This is an increase of 58 .6 % over the same period last year.
Eight parties camped in the Area staying 116 visitor days.

INTERPRETIVE SERVICES: The Cove Trail is working out very satisfactory the people are getting a lot of very good information out of the leaflets.

[illegible]:

INTERPRETIVE SERVICES: Total contact time amounted to 85 hours in which 837 people were given information on the Monument.
Fourteen Guided Tours were made with an attendance of 123 people.

ROADS INSPECTION: On October 4th and 5th an Inspection of the BPR Survey lines on Route 1 (portion), the Monument Entrance Road, and Route 2, the Windows Spur Road, was made in Company with Project Engineer Horace Miller and Superintendant Wilson.
Locations were selected for Four Parking Overlooks within the first 5 Miles.
It was agreed that the proposed terminal parking Area on this route was too far from objectives of Double Arch and North and South Windows since a walk of approximately four tenths of a mile and return would be required to each feature from such a central parking area.
A terminal loop over the easy terrain can route travel to two parking areas much closer to the scenic features which will require a walk of only 5 to 6 hundred feet to each of them.
This line will be incorporated into the location.
Besides these two parking areas, two more were selected along the line which give sweeping views over the rugged Monument Country.
Topography at all Four will be taken and sent to the Region for design of the areas.

Chief Naturalist
[illegible]

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, BUS, OR OTHER ORGANIZED ACTIVITY.
TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.
ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE MATERIALS TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.
INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATES; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND OR GIVEN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REVISED MAY 1949.

RECEIVED NOV 10 1950 DIRECTOR'S OFFICE

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

October 29, 1950

Memorandum

To: General Superintendent

From: Superintendent, Bandelier

Subject: Monthly Narrative Report for October, 1950

Weather

The weather was very dry during the entire month with only .07 inches of rain being received. The days were generally clear with temperatures in the 70s and low 80s and the nights were cool with temperatures in the 30s. A high of 89 degrees occurred on the 11th and a low of 32 occurred on the 21st.

Visitors took advantage of the pleasant weather to visit the area in increasing numbers.

Inspections

Chief Historian Lee and Regional Archeologist Reed inspected the area on the 5th. They looked over the museum and the excavation of Rainbow House.

Regional Naturalist Lodge spent the 26th taking movies of various features to include in the film on Bandelier.

Maintenance

The maintenanceman completed painting the exterior windows and screens on the residences, administration building, and comfort stations.

Approaches to Monument

The ditches on the approach road were cleared out in preparation for winter weather but due to the very dry conditions it

KEEP DEFENSE BUY UNITED STATES SAVINGS BONDS AND STAMPS

was necessary to delay some of the work. The road was exceedingly dusty by the end of the month and numerous verbal complaints were received concerning it.

It appears that the State Highway Department is taking more interest in the maintenance of this road. One of the engineers made an inspection of it on the 18th and expressed interest in the number of people that are visiting the area now.

Concessions

Frijoles Canyon Lodge closed on October 3 after one of the most successful seasons that it has had. All services were conducted in a very fine manner and numerous compliments were received on the meals and lodgings. The dining room management was considerably better than in the past and since Mrs. Frey was relieved of much of these responsibilities she was able to devote more time to the guests.

Interpretive Service

There were 1477 visitors on 124 conducted tours of the ruins and an additional 998 persons made use of other interpretive facilities.

Plans were drawn up for the construction of small trail side interpretive stations and work was started on the preparation of texts for them. They are to be placed at Tsankawi Ruin, Trail to Tsankawi, Otowi Ruin, Ceremonial Cave, Stone Lions, Painted Cave, Falls of the Rito de los Frijoles, and Rainbow House Ruin.

Archeological Excavation

The excavation of Rainbow House has progressed very well with the small crew and a total of 46 rooms and one kiva have been completed. The last week of the month was spent on stabilizing the excavated rooms and if time permits a few additional rooms will be cleared in November. The ruin is nearly ready to exhibit and a nature trail to it has tentatively laid out.

Travel

Travel during October resumed its upward swing that was temporarily halted in September. There were 3,214 visitors this

month as compared with 2,085 a year ago, which represents a 54% increase in travel.

There were 650 visitors on Sunday the 22nd and two years ago we would have thought that this was a big day for a Sunday in August.

Visitors

The Regional Workshop of the American Association of University Women met at Frijoles Canyon Lodge from the 6th to the 8th.

The 8th grade of the Los Alamos schools were given a special tour of the ruins on the 8th.

Edward Kelly and his wife from National Capitol Parks were visitors on the 10th.

50 representatives to the Conference on State Government that met in Santa Fe came to the area on the 22nd. The group was mainly composed of state senators, representatives, and the Governor of Arizona.

Ranger Service

Supervisory Park Ranger Keefe returned from temporary duty at Chaco Canyon on the 7th.

Temporary Park Ranger Brewer was terminated on the 8th. She spent an additional week in the area visiting some points that it had not been possible for her to see before.

Insect and Tree Diseases

Regional Forester Carlson spent the 27th making a survey of insect damage to pines on the south mesa and in Frijoles Canyon. There is some evidence of infestation by pine beetle but not enough to warrant control measures yet. It must be watched in case the insects start to spread to other trees to any great extent.

REVISED MAY 1945.

Canyon de Chelly National Monument
Chinle, Arizona.

October 26, 1950

Memorandum

To: General Superintendent

From: Superintendent, Canyon de Chelly

Subject: Monthly Narrative Report for October, 1950

Travel:

575 people in 141 cars this month. This more than doubled the 173 figure for the same period last year. Good weather, with apparently greater public interest, were major factors in this increase. Campers, taking advantage of the mild nights, are to be found in increased numbers at both camp sites along the rim. Guide and contact service totaled 75 hours, 30 minutes.

Weather:

Dry and much below normal precipitation. No moisture of any nature during the month. The result of this continued dryness has stopped all vehicle travel in the floor of the canyons.

Roads:

All approach roads are travelable but rough. Monument roads are in fair condition even though we have been unable to operate the grader due to extreme dryness.

N.P.S. Visitors:

John Davis on September 27. We always benefit materially by Johns inspections, and wish that his visits could be made more often.

Miss Grace Metcalf, Mrs. Ida Lentz, and Miss Stella Ortiz from Region Three Office, and Miss Mary Mitchell of the U.S. Indian School, Santa Fe, on October 14-15. It was a real pleasure having these young ladies with us.

Supt. Spotts, Jefferson Nat'l. Expansion Monument on October 23.

Administration:

One trip was made to Petrified Forest N.M. to pickup artifact material belonging to this area. This was in accordance with a suggestion made by Sup't. Branch. Two trips were made to Gallup to secure bids for concrete picnic tables and pickup much needed suplies.

Cont. on page 2.

OCT 27 1950

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
SOUTHWESTERN NATIONAL MONUMENTS
COOLIDGE, ARIZONA
CAPULIN MOUNTAIN NATIONAL MONUMENT
October 25, 1950

Memorandum

To: The General Superintendent
Southwestern National Monuments
National Park Service
Santa Fe, New Mexico

From: Ranger Homer J. Farr

Subject: Monthly narrative report, October, 1950

Visitors: There have been about 2,100 visitors to Capulin Mountain National Monument during the month of October, making a total of two thousand one hundred visitors for the travel year and twenty one thousand three hundred for the fiscal year to date.

Weather: The weather has been unusually warm and pleasant during the entire month, with no precipitation and no nigh winds.

Flora and Fauna: Grass andall vegetation in the Monument area is very dry. A bunch of eleven deer has been noted in the area, among them are two very fine bucks. All other wildlife is faring fine.

Roads and Trails: Roads in the Monument area are now in excellent condition. The crater rim trail is now finished, with the exception of placing the markerposts. This I have been unable to do, as Dale King has not as yet been able to get me a prescript of the rim pamphlet to show where to place the marker posts. These posts have been cut and peeled, and are in the process of curing. The trail to the bottom of the crater (with good weather prevailing) will be finished this week.

Special Visitors: Superintendent and Mrs. Ralston B. Lattimore of Fort Pulaski National Monument, Savannah Beach, Georgia were very welcome visitors to our Monument on October 10. They stopped on their way to Conference at Yosemite.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
SOUTHWESTERN NATIONAL MONUMENTS
COOLIDGE, ARIZONA

CAPULIN MOUNTAIN NATIONAL MONUMENT
October 25, 1950

Our genial Park Geologist, Mr. W. B. Lang from Washington, D. C. and his mother made us a visit this month. Mr. Lang gave the Ranger here some very good pointers on geology which he hopes to be able to impart to the visitors during the coming season. Mr. Lang is a mighty good sport and a scholar, but he did not realize what thin ice he was treading upon when he suggested that our Capulin Mountain, who is very much of an old maid, might be much older than 2,000 years.

Information Pamphlets: About five hundred pamphlets have been distributed during the month, leaving about three thousand now on hand.

Very respectfully,

Homer J. Farr
Ranger

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides. "ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation. "OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers with Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, museum collections, etc.). Count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations. INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire. INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside stations, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 35, Chapters 8 (Report 8a3) and 9 (Report 9a1).

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

October 25, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Casa Grande

Subject: Monthly Narrative Report for October 1950

General: Cotton picking has reached its peak in Pinal County during the month. The weather has been ideal for this activity and the cotton farmers appear to be happy. During the picking season, our town of Coolidge is transformed into a bustling center of activity. The annual rodeo was held last week and this has added to the confusion.

We would again like to call attention to the water shortage at this area. The heavy irrigation pumping is now over in the valley, but our pump has continued to pump air so our situation remains precarious.

Weather: The weather this month has been most unusual and several maximum temperature records for this time of year have been broken. None of the maximum temperatures this month have been below 92 degrees, but during our usually torrid summer months of July and August we had low maximum readings in the 80's and even in the 70's. An Indian summer such as this might be most welcome in other parts of the country, but we were looking forward to some nice cool fall weather for a change. Significant temperatures recorded during the month are as follows:

Maximum	---	105 degrees
Low maximum	---	92 "
Minimum	---	48 "

No precipitation was recorded during the period covered by this report.

Visitors: Although our travel this month shows a small loss we expect visitation in the coming months will be up to normal. This month's decrease in travel is no doubt due to the unseasonably hot weather we have had this month. Our travel figures are as follows:

		1950	1949
Visitors during October		2,105	2,319
Increase or decrease	-	214	
Visitors for travel year		2,105	2,319
Increase or decrease	-	214	

Interpretive Service: A total of 1,115 people made the trip to the ruins in 147 groups averaging 52.3 minutes per trip. There were 990 visitors who made only a short stop and did not go to the ruins.

Visitors of Note and Special Groups:

Sept. 28 - Group of 23 7th grade school children from Coolidge visited the ruin as part of their U. S. History course.

Sept. 29 - Rev. Kenneth Porray of Grand Canyon National Park

Oct. 5 - Supt. and Mrs. Sharps from Tonto

Oct. 13 - Supt. and Mrs. Ross Maxwell and Asst. Supt. and Mrs. Robert Gibbs of Big Bend National Park

Oct. 23 - Ranger and Mrs. Zerbey of Saguaro. Mr. Zerbey picked up some surplus items for Bandelier, Gran Quivira and White Sands.

Ranger Henson of Tumacacori

Mr. and Mrs. S. H. Hart, friends of Mr. Albright and Supt. Rogers of Yellowstone.

Ranger and Mrs. Anderson from Sequoia National Park.

Administration and Protection: Eight requests for information were received and answered. The Adamsville Site was checked for pot hunting, but no evidence of trespass was noted.

Maintenance: The redecoration of the interior and the repair work on quarters 3-5 is now almost complete. Some time has been spent in reconditioning our oil heating stoves for use in the near future.

Public Health: We have again received an unsatisfactory report on a water sample submitted to the state health department. This has necessitated putting our chlorinator back into use.

Personnel: Superintendent Bicknell returned to duty on October 10. He had been on sick leave and annual leave since July 25.

Research: A partial report was received from the U. S. National Museum, Division of Insect Identification, on the insect specimens which we had sent to them in August. Several of the specimens appear to have been of more than usual interest and one small beetle, belonging to the genus Diplotaxis, may be a new species. An effort will be made to secure a large series of these beetles for further study by specialists. Now that our insect specimens have been identified we really feel the need for proper storage facilities for these specimens. Without proper cases our insect collection will be almost useless.

A series of arachnid specimens collected by Ranger Arnberger have been given to Dr. Stahnke of Arizona State College at Tempe for identification.

NAME A.T. Bicknell
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, LOBBY ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATION, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL USE OF USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR FURNISHED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. FILL IN TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATES; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE WILL RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND OR GIVEN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN COPIES IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REVISED MAY 1948.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Chaco Canyon National Monument
Bloomfield, New Mexico

October 25, 1950

Memorandum

To: General Superintendent

From: Superintendent, Chaco Canyon

Subject: Report of Activities at Chaco Canyon National Monument during the month of October, 1950

Weather

Extremely mild weather has prevailed thruout the month with warm days and crisp, cool nights . Maximum temperatures have ranged mostly above 70 degrees and minimum temperatures have been in the fortys most of the month. Our highest maximum temperature was 87 degrees on October 13 and our low minimum was 29 on October 2.

Administration

Ranger Francis Elmore entered on duty status on October 7, relieving Ranger Joe Keefe of Bandelier of the duties of Acting Superintendent. Ranger Keefe left the same day and Ranger Elmore served as Acting Superintendent until October 15th.

Superintendent Meredith M. Guillet arrived from Carlsbad on October 15th and entered on duty as Superintendent on October 16. Most of the office workthat had accrued after Superintendent McNeil left was stacked up and awaiting his arrival. Most of the time since arrival has been spent catching up on back files and matters that had been pending for some time.

A trip was made to Gallup, New Mexico for household equipment that had been left in storage. I took the stake truck and was able to bring practically all of it in one load. The balance will be picked up on the next trip to Gallup. On October 24th Ranger Elmore made a trip into Farmington N.M. for supplies and equipment. This consisted of a new weather station and an A.C. converter purchased for the Radio from the Collins Radio Company.

Maintenance

Acting Superintendent Elmore has had the two navaho laborers working on various maintenance projects eliminating hazards along the ruin trail, working on the well, etc. before my arrival. On my arrival the light plant was out of order and some time was spent getting it back in working order.

In order to connect the radio converter it was first necessary to dig up the entire line from the plant to the office and repair connections which were responsible for a great deal of power loss. A great many other corrections were made to the light system and it is working much better.

We have had most of the piles of tumble weeds cleaned from around the headquarters area and a start has been made in the wareroom towards rounding up propety and equipment so we'll know what we have and where it is.

Visitors

The new travel year has started off with a bang and shows a considerable increase over the corresponding period last year. There were 141 registered visitors and an estimated 15 who were unattended making a total of 156 visitors. Automibiles totaled 55.

Interpretive Services

There were 127 persons conducted thru the ruins and 95 given orientation talks at the museum. Forty-three hours were spent in guide and contact work. There was a total of 28 conducted trips.

Accidents

While working on the light plant Ranger Elmore inadvertently got his hand in contact with the fan causing an abrasion. It is almost healed at the present time.

General

After quite a number of years served in various areas and in various positions I have at last received competitive status which means much to me and for which I am duly thankful.

Meredith M. Guillet
Superintendent

Chaco Canyon National Monument
Bloomfield, New Mexico

October 26, 1950

Memorandum

To: The Superintendent, Chaco Canyon

From: Archeologist Vivian

Subject: Monthly Narrative report

This is the report of Mobile Unit activities in your area during October 1950.

Stabilization of the tri-walled building adjacent to Pueblo del Arroyo was completed on the 20th and the site can now be considered in maintenance status. This structure 73 feet in diameter contains a central partially paved area, 14 complete rooms and parts of 3 others. Adjacent to this structure and stabilized with it are 4 kivas and 11 rooms or small areas. A fifth kiva almost wholly razed in prehistoric times for its building stone was backfilled.

With this job completed and with a reduced crew we have started 2 small projects. The first is preliminary work around Kin Kletso. To date heavy growth has been removed from the site, an access road cleared, a dump for concrete sand made and stockpiling of building stone begun. It is not expected that a great deal will be accomplished at Kin Kletso this fall aside from this, doing the mapping and making preliminary photographs.

The other project under way is final cleanup preparatory to complete stabilization of Site Bc-59. Stabilization of this site will require the rest of the fall until such time as weather closes down the work. It is a rather intricate little ruin on which only a small crew can be employed at one time.

Archeologist-Aide Rixey completed this season's work at Aztec Ruins and returned to his headquarters here on October 2nd. His notes for the stabilization records were up to date and some of the records completed. They await only final typing and assembly of the photographic sheets before being submitted. Mr. Rixey remined here till the 16th when he went on annual leave for the remainder of the month.

I was away from the area from October 3rd to the 16th on annual leave and on travel to Fort Laramie National Monument.

Mrs. A.M. Elmore entered on duty in the WAE clerk-typist position on October 9th.

Completed stabilization records for Site Bc-59, 117 pages, 3 copies, were completed and 2 copies mailed to Region on the 24th.

REVISED MAY 1950

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Chiricahua National Monument
Dos Cabezas, Arizona

October 25, 1950

Memorandum

To: General Superintendent

From: Superintendent, Chiricahua

Subject: Monthly Narrative Report

Weather. Only .02 inch of rain has fallen this month. Weather has remained warm and summerlike, and it has not been necessary to heat the houses to date.

Approaches to Monument. Roads are in fair condition, although the dirt and gravel roads are rough and dusty.

Interpretive Service. A total of 5 conducted tours were made by the ranger and superintendent; 1 auto trip, 3 hikes and 1 horseback trip. 1008 visitors were contacted in the museum.

Research and Observation. Another Indian cave, containing large pieces of broken pottery, was found by the superintendent. This cave is a short distance from the Natural Bridge trail .4 of a mile from the road. This makes four caves that show evidence of Indian use, at Chiricahua.

Travel. 1076 visitors came to Chiricahua during the past month. This is a decrease of 285 from October of 1949.

Visitors. Superintendent Maxwell and Assistant Superintendent Gibbs of Big Bend paid Chiricahua a brief visit while en route to the Superintendent's Conference at Yosemite.

Miss Nell Murberger, free lance writer and photographer, spent several days on the monument gathering material for an article. She was given a conducted tour to the Natural Bridge. Miss Murberger had an article on Navajo sheep in the August issue of Arizona Highways.

General. The superintendent was absent on leave during the last 10 days of September, and visited Grand Canyon and Petrified Forest.

Report lml

Memorandum

To: General Superintendent

From: Superintendent, El Morro

Subject: Monthly Narrative Report

We have had only .12 of an inch of rain for the month, so our pool is again getting low. The coolest this month was 30 degrees and the warmest was 83 degrees Fahrenheit.

The east approach road from Grants is in good shape, and people coming in that way are delighted to find the oil. The road through to Gallup has been finished as far as the Zuni Reservation line. We certainly are happy with such good roads.

Surely because of the good roads, our travel is holding up well. We had 337 visitors which is 58% more than last year this month. Of these, 308 took a trip around the rock and formed 67 parties. 58 persons visited the top of the mesa and the ruins there.

During October, our coal was hauled, all of our wood was located, cut, hauled and sawed and the tractor and saw returned. Also, both trucks have been winterized to 25 below with Texaco PT antifreeze.

John Davis was a welcome visitor on September 29, but was not able to stay long. Clyde A. Maxey, ranger at Rocky Mountain, was in for a night. M. R. Little, who laid out the trails, fence line, etc., at El Morro during the 30's, was in for a short visit.

Some caulking in residence number 2 was done, the floor was refinished in the Office and a gooddeal of trail work was accomplished. A little more than 100 yards of the asphalt trail was rebuilt.

Seasonal Ranger Ladd was terminated October 14. We are sorry to see

him go off duty, but hope to have him back again next summer.

The on again off again REA appears to be off this month. Seems that bids were opened but rejected because too high. Hope to have some better news along this line next month.

Irving McNeil, Jr.
Superintendent

NAME Irving McNeil, Jr.
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO EXCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATION OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATION, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS ENQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE MATTER TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLACE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE SERVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE SERVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DUE THE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Gran Quivira National Monument,
Gran Quivira, New Mexico

October 25, 1950

Memorandum

To: General Superintendent

From: Superintendent, Gran Quivira National Monument

Subject: Monthly Narrative Report for October, 1950

General. The mild fall weather has been wonderful but the vicinity has had very little moisture. Local harvests are underway and the average yield for this years bean crop probably will average only one sack to the acre. A rough year for the farmer.

Weather. October weather this year has been nothing like preceeding years. Ordinarily we think about winterizing after the 15th but through this date the minimum temperature has not fallen below 42 degrees. Maximum daily temperatures have been averaging in the high seventies; there has been very little wind and no dust carry. An ideal weather month marred only, perhaps, by too little moisture. 15 hundreds of an inch of precipitation fell on the 1st with none since.

Special Activities. The Superintendent made a trip into Santa Fe on the 23rd to exchange pickups and spent the 24th in Albuquerque on monument business.

Visitors. Superintendent Bates Wilson came in on the 24th for the gas range, cabinet, and stove accessories.

Maintenance. Three days were spent working over the two water cisterns. Both were pumped out and cleaned, cracks patched, and then painted with wall solution. Four tank trucks of water were hauled from Mountainair and the pressure system given it's 100 hour maintenance checkup so, we hope, no more troubles with this water system for a year or two.

Roads and Trails. The monument road received it's annual blading on the 19th when the Forest Service road crew came by. Ditches were pulled and cleaned and culverts put into shape. Minor trail maintenance continued as usual.

Approaches to the Monument. The Mountainair approach is in good condition at this time. The State completed their work on the south and east approach and with some moisture and a few bladings should be an improved road.

Travel. This month travel has been good with 251 visitors in 84 cars coming in. Many more out of state cars entered than in past years, due probably to the generally mild weather throughout the State, and especially in this vicinity.

Interpretive Services. A total of 214 persons were guided through the mission ruins in 71 parties for an average time of 43 minutes per trip. 37 people in 11 parties used the self guiding trail pamphlet. 95 percent of all visitors went through the exhibit room.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and such Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Natural areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 6n3) and 9 (Report 6n4).

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
GREAT SAND DUNES NATIONAL MONUMENT
Alamosa, Colorado

October 27, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Great Sand Dunes

Subject: Superintendent's Narrative Report for October, 1950

Weather Conditions

October weather has been unusually mild and dry and leaves still persist on some of the trees and shrubs. The maximum temperature was 76 on October 11 and the minimum was 30 on October 2. 0.20 inch of rain fell on October 1. High winds hindered the roofing job on the 25, 26, and 27.

Special Activities

The period of October 13 through October 26 was spent attending the National Park Service Conference at Yosemite National Park. I was very fortunate in being selected to attend the conference, my first. Death Valley and Sequoia-Kings Canyon were visited en route.

On my return to Santa Fe, I took the pickup to White Sands to get the surplus storage tank that they saved me.

Inspections

Associate Director Demaray and Regional Director Allen of Region One and their wives made a short visit to the Great Sand Dunes on October 2.

Boundary Fence

The fence along the south boundary of Section 31, T 40 N, R 13 E, NMPM was moved to the north boundary of the same section in accordance with a Memorandum of Agreement with Mr. Malcolm Stewart. This prevents the grazing of Section 16, T 27 S, R 73 W, 6th PM, a state section which is under lease to Mr. Stewart but which lies within the monument.

Rehabilitation

Rehabilitation of the roofs of the buildings is well underway by Ray Burrows of Alamosa, the contractor. Architect Saunders was here on October 26 in connection with the job. High winds have hindered the work a great deal.

Approach Roads

The condition of the approach roads changed very little during the month and they remain fair in spite of the dry weather and high winds. The monument section of the road is still the worst that the visitor traverses.

Co-operating Non-governmental Agencies

Wilbur Foshay, Secretary of the Alamosa County Chamber of Commerce, has resigned effective October 31. His resignation removes a constant source of irritation.

Decrease in Travel

October travel decreased 22% from that of last year with 973 people visiting here in 286 cars.

Visitors

National Park Service visitors for October included Associate Director and Mrs. Demaray, Regional Director and Mrs. Allen of Region One, Seasonal Ranger Al Maxey of Rocky Mountain National Park, and Architect Kenny Saunders of Region Three.

Other noteworthy visitors included Floyd H. McCall of the Denver Post and the Wiley High School football team on their way home after defeat by La Jara High School.

Ranger Service

Deer hunting season opened October 15 and Ranger Williams spent most of his time patroling. Over 70 hunters came through the monument but only 5 deer have been brought through thus far. The dry and mild weather has resulted in poor hunting throughout the state.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Montezuma Castle National Monument
Camp Verde, Arizona

October 27, 1950

Memorandum

To: General Superintendent

From: Superintendent, Montezuma Castle

Subject: Monthly narrative report, October 1950

Special Activities: October 15 - 21 was spent attending the National Park Service conference held at Yosemite. This was my first opportunity to attend a conference of this kind, and I found it most interesting and educational.

Weather: To date this has been a very warm fall. Days throughout the month have been hot with temperatures reaching 100 degrees on several occasions. Nights have been delightfully cool and no killing frost has yet occurred.

Travel: Good weather has of course induced heavy fall travel. 2,222 people in 776 cars visited the Castle and 1,094 people in 381 cars saw the Well. This makes a total of 3,316 people to the area as compared with 2,900 visitors for October of last year.

Interpretation: Although the number of people receiving interpretation has decreased, the amount of interpretive service rendered has not lessened accordingly. Almost every hour there is at least one person who wishes to take the conducted tour. This resulted in a 162 trips to conduct 852 visitors through the Castle. About 2,000 people took the Sycamore trail and 2,000 saw the museum. At Montezuma Well, 285 people saw the museum and 1,000 hiked the nature trail.

Visitors: On September 28, fifteen students representing the history class of Camp Verde high school were conducted through the Castle.

On October 1, 26 students from a ranch school near Mayer climbed the ladders.

On October 6, Associate Director and Mrs. Demaray and Regional Director and Mrs. Allen were shown about the area.

On October 11, 18 students from the Verde Valley School took the conducted tour.

- Montezuma Castle -

On October 13, Chief Historian Lee and Mr. Erik Reed for the purpose of discussing problems pertinent to archeology.

Maintenance & Construction: On October 2, the well which supplies domestic water for the monument went dry for the fist time since its construction in 1928. This condition was caused by a cave in and probably a lowering of the water table. Construction of a new 120 ft. deep well was started on October 25. This well is situated just in back (east) of the museum building. Changing the location from near the basement of the building to the present site will eliminate potential contamination from sewage and will make digging much easier.

Several new rungs were installed in the Castle ladders during the month.

Roads & Trails: Construction of the Montezuma Well loop trail, PCP-4, was started September 20. At present the trail has been completed around the Well crater and work is progressing on the west section from the crater rim to the water level. This section of trail has an abrupt drop of about seventy feet which means a lot of steps and fill to stay within ten per cent grade. In fact it has been necessary to install far more steps than was originally anticipated.

Personnel: Seasonal Ranger McCracken was terminated at the close of business October 28.

DUE FOR EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8-C) AND 9 (REPORT 9-C).

REVISED MAY 1945

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

October 29, 1950

Memorandum

To: General Superintendent

From: Acting Superintendent, Natural Bridges National Monument

Subject: Monthly Narrative Report for the month of October, 1950

WEATHER: During the entire period the weather has been unseasonably warm for October. One rain fell during the first week.

TRAVEL: With the continued dry weather the roads have been very passable and 248 people visited the area in 93 cars. This is an increase of 167 % over the same period last year.

INTERPRETIVE SERVICES: Of the 248 visitors 192 were contacted at head quarters. Two guided tours were made with a total attendance of five people. Sixtytwo people visited the area during the Ranger's absence and the campground had a visitor use of 48 days.

TRAILS: Eleven laddors have been constructed and placed by Ranger Redd with the help of a laborer for eight days. This completes the ladder job and is a great improvement over the entire trail system. If weather permits all trail markers will be repainted this fall.

PERSONNEL: Ranger Redd received word on October 23 that five of his children had been stricken with food poisoning in Moscow , Kansas. He took annual leave for this emergency on the 24th. and returned on the 29th. after being assured that they were all out of danger; although four are still in the hospital.

GENERAL: A 280 gallon gasoline tank was received from White Sands and will be stored at Arches until next spring. A Butane kitchen range was received from Gran Quivira along with a regulator and fittings. The installation of this range will also be postponed until next spring.

NAME
TITLE Park Ranger

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASSTS. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE ON A PARK INTERPRETIVE SERVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO EXCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE SERVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS CONCERNING THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FROM WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE WAYSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PRESENTED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND SERVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND SERVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR SERVICE. PLACE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE SERVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKS AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY DO NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE SERVICES, THIS ATTENDANCE WILL RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DUE ONE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REVISED MAY 1950

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Navajo National Monument
Tonalea, Arizona

October 29, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Navaj

Subject: Monthly Narrative Report for October, 1950

Travel: There were 66 visitors to the area this month compared with 70 persons in October, 1949. The visitors who came spent some time in the area causing our visitor contact ratio to exceed 2 per person.

Weather: Fine fall weather has persisted and has been more than a little appreciated since we have a small construction project under way. Temperatures have been as high as 84 degrees with only one night of freezing temperature - 31°.

Roads: In contrast to last months' conditions they are now very rough and full of sand. Two days of high wind moved a lot of sand into the roads in places and in others it blew the soft sand from the road leaving many holes.

Construction: The garage and bedroom addition has moved along well and rapidly. Actual construction started October 9th when we poured the footings for the new rooms. At this time the garage walls are complete and the roof nearly so. The bedroom walls will require about 5 more days, the subfloor and roof is done. It is a time consuming operation to haul the necessary supplies from Flagstaff to the area, the distance one way is approximately 140 miles, 75 of which is over poor, secondary, reservation dirt road.

Maintenance: The primary object at present is to finish the house addition and only emergency maintenance work has been done. This emergency work - 10 man days of labor at a cost of one half the price of a new pump - has been put in trying to maintain and operate the pump furnishing the area with water. This same pump and system was installed in July 1940 and started misbehaving in September the same year.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE

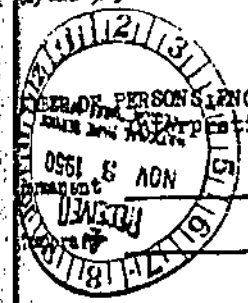
Navajo National Monument

At a most crucial time, while trying to obtain pump parts and using the radio as the communication medium, one of the Navajo laborers got himself, horse and colt, tangled in a guy wire. The resulting damage took 1½ man days of labor to repair.

Personnel: District Ranger Harold Chittum, White Sands, arrived October 9th to take over and supervise the house construction during the absence of the superintendent. He left to return to White Sands, October 25th, after doing a splendid job. I am grateful that his services were made available at a time when they were most needed.

I left to attend the National Park Service Conference October 13, accompanied by Mrs. Aubuchon. The Conference was a huge success and was enjoyed by all in attendance. This was also a good opportunity to inspect some of the NPS areas not previously visited by us and to meet old friends again and make new ones.

Visitors: Dr. Carroll H. Wegemann and party, October 24. Dr. Wegemann was formerly Regional Geologist for Region Two, NPS.



Superintendent and Mrs. James Brower, Jr. of Tuzigoot National Monument.

John A. Aubuchon

REVISED MAY 1949.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
ORGAN PIPE CACTUS NATIONAL MONUMENT
P. O. Box 38, Ajo, Arizona

October 25, 1950

Memorandum

To: Superintendent, Southwestern National Monuments

From: Superintendent, Organ Pipe Cactus

Subject: Superintendent's Monthly Narrative Report for October, 1950

Weather

Summer has continued through most of October this year, with nearly every day breaking a high record. High for the month was 104 on the 12th. Previous high for October was 101, which has been reached only during the first week. Low for the month was 46 on October 22. The heat has dried up all moisture until we are again badly in need of rain.

Status of Private Lands

Notice was received that the homestead entry of Robert Lewis Gray had been allowed. This adds another private holding within the area.

Maintenance

The main highway was cleaned of all trash after about three months of accumulation during the summer when it is too hot to do much with it. More than 10 pick-up loads heaped with beer cans, bottles and trash were gathered from the roadside. With the cooler weather, this will be patrolled regularly.

All directional signs were repaired and given new paint for our coming travel season.

Our well was out of order three times during the month and this trouble was not solved until a rush trip was made to Phoenix for a new plunger which has it now working better than ever.

Both Onan light plants required tearing down and overhaul during the month.

All roads and walks were gravelled around the Headquarters area.

Cooperating Agencies

The Organ Pipe District School held a barbeque on September 30 which was attended by approximately 300 people. More than $800.00 net was raised to pay for improvements. Most of the success of the school here must be credited to Ranger Steele and Mr. McCalmet of the Immigration Service. Both have put in many days off of very hard work making improvements.

Interpretation

During the month a number of new photographs were mounted and placed in the swing file for visitor use.

A display of branches of some typical thorny desert plants was mounted on a wall plaque. Explanatory captions identify and describe the specimens.

We acquired a set of Indian millstones which have been put on display outside the office. The use of these burro-powered millstones was presumably introduced to the Indians by the Early Spanish.

The Superintendent delivered three lectures, interpretive of the area, while on annual leave; One to a group of 20 at Evanston, Illinois, another to a group of 28 at Antioch, Illinois, and a third to a group of 50 at Cimmaron, Kansas.

Research and Observation

A plant specimen of Mexican Jumping Bean was forwarded to Dr. C. E. Bradley of the California Institute of Technology, who is working out the toxicity of the species in its various parts and phases.

Deer and Javelina are being seen more frequently along the highway since the advent of somewhat cooler weather during the latter part of the month. Ranger Steele saw a band of 8 javelinas a short distance from Headquarters one evening last week.

Travel

Cooler weather during the last few days has brought increased visitation and more sustained interest. We continue to exceed last year's monthly figures by a wide margin, with our busy season just approaching.

Accidents

On October 12th Mr. W. H. Kenyon of Prescott, Arizona was killed instantly when his pick-up truck went out of control and overturned on the highway about a mile above Headquarters. A report of this accident was forwarded to your office.

Two cows were killed by cars on the Monument highway during October, one on the 7th and one on the 20th.

Visitors

Chief Forester and Mrs. John D. Coffman visited the area on October 25 and 26, with Mr. Coffman discussing the area's forestry problems with the Superintendent.

Personnel

The Superintendent returned to duty October 8 after spending annual leave in the Midwest. He expresses gratification on being able to see sunshine again.

Ranger Steele is taking a few days of annual leave during the last part of the month to participate in a deer hunt.

REVISED MAY 1950

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Saguaro National Monument
Tucson, Arizona

October 25, 1950

Memorandum

To: General Superintendent

From: Superintendent, Saguaro

Subject: Monthly Report, October 1950

General

Hot and dry weather was evidenced all through the month of October. The high temperature record in Tucson was broken four days consecutively and daily highs throughout the month ranged between 90 and 100 degrees.

Crabapple trees in Tucson began to blossom for a second time this year. These introduced species probably thought that winter was past and spring had once again arrived.

Extreme drought conditions seem to have returned and the abundant moisture of the July rains has been used up. Smaller birds and animals flock to the wells of surrounding ranches as these spots are the only places where water can still be found.

Special Activities

An investigation of wildlife conditions at Saguaro National Monument with special emphasis on predators will be undertaken by Biologist Lowell Sumner of Region Four in January.

We were honored by a visit of Superintendent and Mrs. Ross A. Maxwell and Assistant Superintendent and Mrs. Robert F. Gibbs of Big Bend National Park who were enroute to the National Park Service Conference at Yosemite.

Status of Private Lands

The proposed Saguaro land exchange remains pending until the State of Arizona can make selections of suitable lands in the public domain in exchange for those lands within the monument area. At present the Arizona Land Office is re-appraising all state grazing lands and since they are handicapped by a personnel shortage it has been estimated that final action on the exchange will be postponed for about a year.

General Publicity

Mr. Dick Simms, free lance writer, has been gathering information and taking for several articles in newspapers. One of his articles is to appear in "Grit", a weekly newspaper published at Williamsport Pa. with a circulation of 700,000.

The October edition of "Arizona Highways" contains a fine factual article on Saguaro National Monument. About the only fault we can find is that no mention was made of the staff or parts of the monument other than the cactus area. Josef Muench is responsible for the excellent photography and Wes Branch took over the literary chores.

Maintenance

Work progressed slowly on the Pass Trail between Hanging Camp and Grass Shack as this section of trail was washed very badly during the July rainfall. We expect to have the Pass Trail completely repaired in another month.

New Construction

Work started on the Ephrone Ranger Station bedroom addition on the 12th of October . A hired help foreman was hired to do the construction and materials were procured by means of competitive bid. At this writing the concrete floor and foundation have been laid; the roofing, roofing, and siding completed; the electrical wiring completed. We expect to have the insulation and sheetrock installed in the very near future. Work will soon be started on cutting the door through the partition and changing over of the plumbing and heating connections. The lumber company supplying materials has experienced difficulty in obtaining the sheetrock for the interior which may produce a slowdown in progress.

Total obligated funds as of this date are $1157.62 leaving a balance of $1504.38.

Approaches to Park Area

The Pima County Highway Department graded the Broadway approach once during the past month. At this writing the road is in fair condition.

One day while passing out information on the area , the Superintendent was asked by a visitor, "What is the main difference between national parks and national monuments?" Another visitor overhearing broke in, "That's an easy one to answer. We have been to parks and monuments all through the west and the only difference we can find is that national parks have good approach roads while national monuments have poor ones."

Interpretive Services

A total of 829 persons in 274 parties were given interpretive service at headquarters. This amounted to 64 hours for an average of 14 minutes per party.

Marvin Frost Mr. gave a lecture on the flora and fauna of Saguaro National Monument to a group of 60 persons at the Tempe Methodist Church on October 8.

Superintendent King told the Tucson Ad Club of the interpretive program in park service areas on October 10. The group of 50 persons were also impressed by colored slides taken in the monument.

The manager of the Pioneer Hotel in Tucson has requested an illustrated talk by one of the staff in December for the benefit of the winter visitors.

Research and Observation

Four mule deer were observed near the garbage pit on October 1. A number of whitetail deer were observed in the Juniper Basin area on September 26.

A western meadowlark (sturnella neglecta) was observed near headquarters on October 15.

Increase and Decrease in Travel

A total of 1,904 persons visited Saguaro National Monument in October. This represents an increase of 170 visitors as compared to last month, and an increase of 467 visitors over the corresponding month a year ago.

Visitors

Sept. 26 - Mr. and Mrs. Neil Clark, Albuquerque, New Mexico.
Mr. and Mrs. Sam Cadd, Univ. of Arizona.
William Hughes, Ranger, Coronado National Forest.
Oct. 5 - Supt. and Mrs. Claire Cooke, Chiricahua Nat. Mon.
Oct. 9 - Mr. Dick Stone, Tucson, Arizona.
Oct. 13 - Supt. and Mrs. Rose Maxwell, Big Bend Nat. Park
Assistant Supt. and Mrs. Robert Ribbs, Big Bend Nat. Park.
Oct. 14 - Dr. Edwin D. McKee, Univ. of Arizona.
Oct. 17 - Mr. Florence Doyle, Univ of Arizona.

A group of 500 University of Arizona geology students began visiting the area in groups of 30 on October 23. The visitation was under the expert tutelage of Dr. Eddie McKee and his staff.

Ranger Service

Ranger Zarbey left for Santa Fe on October 23. He is to pick up some galvanized sheet iron at the Regional Office for use at Saguaro. Mr. Zarbey was accompanied by Ranger Al Henson of Tumacacori National Monument.

Personnel

Maintenancoman Barney was incapacitated for three days after he had an impacted wisdom tooth pulled. Mr. Barney reported that he did not know what pain was before this.

TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Harrin H. Frost Sr. carried on the interpretive program at headquarters on two occasions during the absence of regular personnel

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, And the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and time. Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside museums, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Report is due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report One) and 9 (Report Two).

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Sunset Crater National Monument
Flagstaff, Arizona

October 25, 1950

Memorandum

To: General Superintendent

From: Acting Superintendent, Wupatki

Subject: Monthly Narrative Report, Sunset Crater National Monument, October, 1950

Weather: Extremely dry with some cloudiness toward the end of the month. There have been some low temperatures at night, but very warm during the day for this time of the year.

Travel: Travel to Sunset Crater this month declined rapidly with a visitor count of 1,932 based on registration figures plus the regula r 60% non-registrants. This compares with 3,539 last month and 1800 for October 1949.

Roads: Maintenance-man Sean with Mr. Viklund and Mr. McClain hauled dirt and clay to plate the worst of the cinder ponds on the back road from Wupatki to Sunset Crater. With the loan of the dump trucks from Walnut Canyon and Navajo this project was carried out in good order. The project was begun on October 2 and completed on October 19. The road itself was closed to traffic on October 7 will probably remain closed until there is sufficient moisture to pack the plating. The way the weather is holding out, that opening date will probably be next spring.

Personnel: Temproary Rangers Viklund and McClain were terminated on the advent of the road project and rehired as truck drivers for the project. McClain was terminated finally on the 20th October, while Viklund was terminated on the 19th and will be employed by Walnut Canyon while they are doing some needed roads and trails work.

Interpretive Services: The Nature Trail was discontinued on October 20. All of the current printing of the Nature Trail Booklets were sold and with the arrival of the new printing of the booklet we can begin next season with something for the early visitors to see and do, although there probably won't be a ranger on duty until sometime in May.

General: On October 20 the ranger quarters were closed up for the winter, and all but two trash barrels were stored to prevent some helpful soul from taking them home to empty and then forget to return them.

James R. Walker

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES RENDERED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC WHEN OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR AT AN INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATION OR OFFICER DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE EXHIBITS, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM WILL NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR FURNISHED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. ADD TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY WILL NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATES; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE WILL RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DUE BY EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Tonto National Monument
Roosevelt, Arizona

October 25, 1950

Memorandum

To: The General Superintendent, Southwestern National Monuments

From: Superintendent, Tonto

Subject: Narrative Report, October 1950

Weather. October has been quite hot, with a barely perceptible cooling off. Temperatures near 90° still occur around midday, but the nights are cool. The usual late October rain has not arrived.

Approach Roads. Work has actually started on the 6 mile Apache Trail oiling project this side of Globe. The rest of the trail is no rougher than usual. Monument entrance road is fairly good, with the drainage now being worked by the 3-man crew.

Construction Completed. The celebrated parking area construction was completed with the seal-coating process on September 26. Tiffany Construction Company turned out a neat looking job in a rather difficult place to work, under direction of Project Superintendent George Cossett.

We got along excellently with the contractor's men at all times and will be glad to welcome any of them back as visitors or friends. Upon occasions when the Monument visitors talked with the men or asked information from them, they were always treated courteously.

Engineer J. H. Conn supervised the job for the Park Service, and secured adherence to a high standard of work while getting along excellently with the contractor and men. We missed Jay when the job was finished, and will be glad to see him back any time.

Personnel. This is the last week for the 3-man crew hired to get the area back in shape. One of the men does not even write his name, and of course had no record of his varied experience, which made it a bit hard to fill out some of the forms required.

Travel. With 988 visitors, travel is up slightly over last month, but is about 10% under October last year. This is about the first time that a decrease has occurred since the war, the latest one.

Visitors. Dean Kirk, of Kirk's Trading Post, October 1.
C. T. Eyring, of the Salt River Power District.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Special Activities. The Superintendent gave a 20 minute talk on Australia to the local grade school, on personal time.

General. Considerable cleanup and road and trail work has been accomplished this month. A new trail connection was made which took several man days, and makes an easy access from the parking area to the ruins trail.

The nature trail was worked out to take advantage of the good representation of desert plants along the old ruins trail, and the surface partly graveled. It will take considerable time to develop this to a complete and well marked trail and work out copy for the leaflet.

Much time was required to clear drainage after the flood, and work out the newly established drainage pattern. The slopes which Tiffany's bulldozer operator had left so neatly smoothed off were badly eroded.

We hope to get the L. P. gas bulk tank replaced this week.

Shadows: With the deletion of the Tonto residences from the current building program, old memories stir uneasily, and there is the smell of 1942 in the air. We are looking darkly at our "temporary" buildings, and figuring where to put the braces and nail on the tin, and are saving old nails, pipe fittings, and baling wire.

REVISED MAY 1950

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Tumacacori National Monument
Tumacacori, Arizona

October 25, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Tumacacori

Subject: Superintendent's Monthly Narrative Report for October, 1950

Weather: One of the worst summer drowths in many years continued into a completely rainless October. Average October rainfall in this vicinity for the past 12 years has been .51 inches. This month also registered the hottest temperature of any October since temperature records started here five years ago. Maximum was 102 on the 8th, minimum was 44 on the 22nd.

Visitor Travel: Travel reached a new October high of 1906 visitors, compared with the previous October high of 1663 visitors in 1949. This is almost a 13% increase. 536 motor vehicles carried the month's attendance.

Interpretive Service: 833 persons went on 171 guided trips through the mission church and grounds, receiving an average of 36.02 minutes per trip. Although fewer visitors went through the church than did in September, there were more guided trips taken, and a much longer time per trip was spent. These figures check with our observations, that tone of visitor interest is definitely higher than a month ago. 1,825 persons received combined Information and Interpretation Service, and 1,830 saw the museum and patio garden.

Visitors: Among those present were:
October 3 - A school group from the Santa Cruz Valley School.
October 7 - Frank L. Cota, Clerk at White Sands National Monument, with his wife and children and parents and some other relatives and friends.
October 14 - Mr. and Mrs. Robert Heineman, of Tucson. He is head of the Community Chest for that city this year.
October 18 - George Gibson, artist, and head of MGM's scenic backgrounds department.
October 22 - Nine members of the Arizona Archaeological and Historical Society, of Tucson.
October 24 - Novelist and Mrs. A. B. Cunningham, of Lubbock, Texas. He also writes as Garth Hale.
October 24 - Charles Chilton, who conducts the British Broadcasting Company's program "Riders of the Range." With Mr. Chilton were Mr. and Mrs. E. W. Palmer, Jr. Palmer was formerly Secretary of the American Wildlife Institute, now president of the commission which is seeking to restore Tombstone, Arizona, to its former state.

Publicity: George Gibson, of Metro-Goldwyn-Mayer's scenic background department, and a companion, a Mr. Hill, spent a full day here doing oil and water color paintings of the mission church. They inform me these paintings will probably be exhibited in Los Angeles.

Personnel: Maintenanceman Orozco was absent on annual leave for a period of six working days.

Education: On the evening of October 16 the superintendent journeyed to Tucson to deliver the opening lecture of the season for the Arizona Archaeological and Historical Society. The subject was the history of Tumacacori. About 60 people attended the 70 minute lecture, and constituted a very enthusiastic audience.

Donations: Mr. M. C. Little, of Nogales, Arizona, donated some valuable old law books to the museum. These consisted of the four-volume set Novisima Recopilacion de las Leyes de Espana, printed in 1831, and the second and third volumes of the three volume set Pandectas Hispano-Megicanas, printed in 1840.

Roads: On September 27 Kelly Moore, Chief Right of Way Agent of the Arizona State Highway Department, was in to discuss desired widening of Highway 89 to a width of 200 feet. Inasmuch as the highway goes directly past the entrance of our parking area, such widening would take a strip of this area about 65 feet wide off the west side of the monument. Moore later went to Santa Fe to have a conference with Regional Director Tillotson about the matter.

Maintenance: Routine cleanup was kept current. Much watering and weed raking was done. Boraxo soap dispensers were installed in the rest rooms, and a mirror installed in the men's side. Parts of the patio garden were fertilized with manure and ammonium phosphate. Minor repairs were made to a road sign, and to our plumbing system. More bondex painting was done on the museum building and patio garden wall. The wainscoting of the walls inside the museum, lobby, and office was re-painted. All steps in the building were painted with aluminum paint, to reduce stumbles. The warehouse was given a good cleaning. Glass windows in the mission church were given a stain for the frames, and a cement sill was put under a recently installed screen in the north opening of the sacristy. A number of trail side stakes were made, which later will bear numbers and go in the patio garden, to refer to a chart giving plant names. Our compost pit was added to, and the material turned.

General: The superintendent's conference came and went, and not a solitary Park Service conferree visited our area, either going or coming. This was a surprise, and a disappointment. However, the monument seems to be ticking along nicely, and as soon as this prolonged summer heat breaks the winter rush should be on.

Earl Jackson
Superintendent

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DUE FOR EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REVISED MAY 1950

TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA

October 25, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Tuzigoot

Subject: Report lml, October 1950

There follows a narrative report of activities in this area.

VISITORS

1571 visitors in 567 cars. 1469 visitors in 561 parties were contacted and oriented in the Museum. 1493 visitors in 568 parties made the trip thru the ruin. 100% of the 8-12 A.M. 1-5 P.M. visitors were contacted.

N.P.S. VISITORS

Mr. Art White, Archeologist, Montezuma Castle on the 5th.
Associate Director and Mrs. A.E. Demaray with Regional Director and Mrs. T.J. Allen on Oct. 6th.
Mr. P.F. Lee of the Washington Office with Dr. E.K. Reed of the Region Three Office on the 13th.
Mr. Clyde A. Maxey of Rocky Mountain National Park on the 20th.
Acting Supt. Jim Clancy of Montezuma Castle on the 21st.

OTHER FEDERAL AGENCY VISITORS

Dr. and Mrs. N.". Karr and family of Long Beach, Calif., VA Center on the 20th.

REPORTWORTHY VISITORS

Mr. John McPhee former public relations director for the Navajo Service on the 11th.
Dr. H.S. Colton, director of the Museum of Northern Arizona on the 12th.

PERSONNEL

Archeologist Richert has been on annual leave since October 11, 1950

Mr. Steve O'Brien entered on duty as laborer-leadman on October 18th, for employment 2 days per week. Steve is a resident of Clarkdale and attending Arizona State Teachers College at Flagstaff, Arizona--a veteran of World War II and a survivor in the sinking of the USS Princeton.

IMPROVEMENTS

The county grader bladed the entrance road on the 28th. With a little persuasion we were able to have the drainage near the parking area improved.

Paints and oils, solvents and other flammables were moved from the storage room in the museum to the small room in the garage.

Weeds (all plants other than cactus) were hoed out of the Cactus Garden and all labels were repainted.

Acting Superintendent Clancy very kindly called in on the 21st and hauled away three-and-ahalf months trash.

A new chimney A shaped cap was installed above the residence on the 23rd.

GENERAL

Improvements for the Museum were discussed with Ronnie Lee and Erik Reed and with Dr. Colton. All agreed that there is plenty of space for improvement. Some worthy advances will be made with material on hand but a much greater improvement could be had if some dollars were available.

All of the display cases, even the poorly illuminated ones (four of the twenty) give bad reflections from the windows. These reflections are intense enough to prevent seeing thru the glass covers.

Our next most crying need is for continuity and depiction. We are badly wanting in pictures to portray pueblo life. A trip thru this museum with it's ancient artifacts and skeletons doesn't convince visitors that the pueblo people once lived and loved here.

We are trying to stimulate interest among the local art teachers to get some of the needed pictures. This, of course is a neat trick if it can be done without money.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

NAME
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATION OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATION, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS CONCERNING THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FROM WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM WILL NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR FURNISHED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. FIRST TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHALL NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE WILL RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DUE ON EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 6N3) AND 9 (REPORT 9N3).

REVISED MAY 1948

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Walnut Canyon National Monument
Flagstaff, Arizona

October 25, 1950

Memorandum

To: General Superintendent

From: Superintendent, Walnut Canyon

Subject: Monthly Narrative Report, October, 1950

Visitors this month, 1937; travel year to date, 1937.

Weather The first killing frost came on the night of October 2. A few cold night followed, but in general, the weather has been clear and moderate with no snow even on the San Francisco Peaks.

A rain guage was received from the Weather Bureau and observations were initiated on October 20 for the first time at this monument. However there has been no precipitation during the entire report month.

Use of Monument Facilities By The Public A party of 75 members of the Social Science Club of Arizona State College, Flagstaff picnicked on October 5th and on October 22nd fifty members of the Shrine of The Ages Choir from the College were picnickers.

There were 662 cars with 1937 visitors. This is an increase of 33 per cent over October, 1949. Parties contacted totaled 528 with 1510 visitors. There were 1835 visitors in the museum in 624 parties. Picnic parties totaled 36 with 325 visitors.

Utilities The sewer line was dug up where there is a man-hole under the parking area. It appeared that the line had been obstructed but had cleared itself.

The septic tank was checked and the drain from the lower end of the disposal system was cleaned. There are about eight inches of solid matter in the bottom of the forward compartment.

A contract has been awarded for supplying and installing an oil burning furnace in each residence. Oil storage tanks of 550 gal. capacity have been secured and arrangements are being made to excavate for burying them.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE

Roads and Trails A project to haul more cinders for our entrance road was started on October 23. The cinders were screened by the County but were not suited for their purpose and are being brought from a stockpile near Sunset Crater.

Publicity A booth on Park Service areas in Coconino County was prepared for the County Fair. The Fair was visited by between 4000 and 5000 people who saw the Park Service exhibit and numerous questions on our areas were answered. A blue ribbon for first place was awarded the booth. (See picture with this report.)

Birds Prolonged dry weather has brought numerous birds to the water pan near our quarters. The following are among the birds which have been observed: Chestnut-backed bluebirds, Robin, Chickadee, Oregon Junco, Townsend's Solitaire, Pink-sided Junco, Evening Grosbeak, Gray Titmouse, Grey-headed Junco, and Gambel's Sparrow.

Park Service Visitors

Sept.	25	Ranger Arthur White- Montezuma Well
Oct.	6	Associate Director and Mrs. A. E. Demaray Regional Director and Mrs. Thomas J. Allen Mr. and Mrs. Monteith, Director's Office
Oct.	8	Ranger Bob Walker and his mother - Tupatki
Oct.	9	Regional Forester S. T. Carlson
Oct.	12	Chief Historian Ronald F. Lee and Archeologist Erik Reid
Oct.	13	Ranger Chittum who is on a temporary assignment at Navajo
Oct.	18	Temporary Ranger Clyde M. Maxey - Rocky Mountain
Oct.	23	Supt. and Mrs. T. C. Miller - Platt National Park
Oct.	24	Ranger Bob Walker - Tupatki

Robert T. Hastings
Superintendent

Park S ervice booth at Coconino County Fair, Flagstaff, Arizona, September 29 - 30 and October 1, 1950. It is estimated that between 4000 and 5000 people visited the Fair and saw the booth. A first place award of a blue ribbon was received.

INSTRUCTIONS FOR FILLING OUT THIS FORM IN OTHER CASES: Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.). Count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and rates, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report #43) and 9 (Report #44).

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
White Sands

Box 231, Alamogordo, New Mexico

October 23, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, White Sands National Monument

Subject: Superintendent's Monthly Narrative, Report No. 1nl

OCTOBER TRAVEL, 1950	TRAVEL YEAR TO DATE
Visitors, 10,294 Cars, 2,653	Visitors, 10,294 Cars, 2,653

WEATHER CONDITIONS

Perfect weather has prevailed throughout the entire month, which may account, in part, for our increase in visitors over any like month in our history. The days have been warm, almost hot, with cool nights all month.

A high of 91° was recorded on September 21, and the low for the month was 40° on the 12th of October. 1.84 inches of rain have helped in our road maintenance.

SPECIAL ACTIVITIES

The White Sands National Monument, though we did not have a booth in the 1950 Otero County Fair, did participate in that a play pen was supplied with out sand for the younger folks. The Superintendent gave a short talk before the Knights of Columbus and the Community Concert Association, as well as acted as Master of Ceremonies for a couple of functions in his capacity as President of the Chamber of Commerce.

Several trips were made to El Paso in connection with equipment and supplies and bids, etc.

INSPECTIONS

Hearing several rumors regarding trespassing on our South boundary, a trip was made in connection with a lease in that sector, and both purposes were served by that one trip. No great amount of trespassing has been done that is not Army, and that is essential, in part, at least.

Heavy rain had caused considerable erosion in some of the washes. But too, these same rains had caused excessive growth of some of the native grasses, and the area looked very good on the whole.

STATUS OF PRIVATE LANDS

The Army is still going ahead with its land program and is in the process of getting exclusive use of practically all lands surrounding the monument. Accordingly, action was taken this month to rewrite our leases on grazing so they would be acceptable to the Army as well as to protect our Service.

GENERAL PUBLICITY

Several newspaper items mentioning our travel were noted during the month and these, along with items of people visiting the White Sands and appearing in more or less local papers, have kept us before the public.

COMPLAINTS

No complaints have been received in this office on any phase of our administration in particular or the area in general. We are certainly receiving verbal compliments on our force and the kindness shown to our visitors.

MAINTENANCE

While we will never get up, we are getting many things done which we have been neglecting because of our previous shortage of personnel to handle the jobs needing attention. Fuel oil and Kerosene Oil tanks have been located and the windows on the Administration Building are being puttied and painted. Experiments were made on the best method for trying to repair our adobe walls and more work will be carried on in connection with this project.

Dozens of routine jobs were kept current and no major breakdowns occurred during the month. Roads and sands area maintenance has been very satisfactory. Moisture of sufficient quantities has allowed us to work the roads and keep them in good shape.

Of course, the cooler weather has lowered the evaporation so there moisture is retained longer. Early morning finds our roads in good shape for dragging most every day.

Constant repair is necessary on the shades and picnic units. Replacements were necessary in two instances the past month.

NEW CONSTRUCTION

Bids were received on two comfort stations to be built in the sands area, but were rejected because of excessive costs. Our plans are being revised and we hope to re-advertise at a later date.

PUBLIC SERVICES

This phase of the area is seemingly running a little behind like periods of a year ago in spite of our increased visitation.

COOPERATING GOVERNMENT AGENCIES

Negotiations have been completed, from the standpoint of the Park Service, to place all leases within our boundaries on a status satisfactory to the Army so they can proceed to cancell all grazing on the monument.

An arrangement to alter our water contract with the Army is hanging fire for an opportune time to hit the proper officials. Several approaches are being considered and we anticipate no trouble in getting our desire, although in reality I question it meaning much to us. But an ounce of prevention may help later.

We are in the process of obtaining, from Rosa Verde, a quantity of sheet iron so drastically needed for our picnic shades, and, if this is obtainable, we can at least be assured of a cover over our picnic shades. If our plan to secure some old pipe fro the Army goes thru, then we can perhaps hold the picnic shade problem in check for a time.

INTERPRETATION SERVICE

This phase of the work always improves as our season falls off, but our increase in visitors still keeps our contacts fewer and shorter than we like. We seem to face a dark future in this respect, in that unless we can secure the services of a naturalist the time spent in interpretive contacts may become less and less. With the exception of changing defective lights, etc., little has been done on museum or exhibit activities. Fortunately our museum is of such high standards that it carries the load very effectively.

INCREASE OR DECREASE IN TRAVEL

The total of 10,294 visitors for October shows an increase of 1,153 over last October and makes it the biggest like period in our history. We are faced with the problem of increases over even our present figures due to a decided increase in activities at all the nearby Army installations. Some 2,500 new housing units are proposed by the Army alone within a radium of 125 miles of the White Sands. This can not help but show up in our attendance.

VISITORS

Bill Supernaugh and family, of Organ Pipe Cactus National Monument, were in on October 3.

Kenny Saunders and Harold Marôh, of the Regional Office, stopped by on October 5, ~~enroute to the conference.~~

Mr. and Mrs. Robert H. Atkinson, Superintendent Fort Raleigh National Historical Site.

Mr. and Mrs. Horace A. Dough, Superintendent Kill Devil Hill Monument National Memorial.

We were pleased to have these folks visit with us and are looking forward to others from the conference enroute home.

ACCIDENTS

A highway accident near White Sands involved the actress Pauline Lord, who later died in an Alamogordo hospital, although her death was not a direct result of the accident. We were among the first to reach the scene of the wreck and assisted wherever possible until the State Police arrived and took charge.

GENERAL

Ranger Harold Chittum was despatched to Navajo to take over while their Superintendent attended the conference. We miss Harold but are glad and sure that Navajo will benefit from his services and that the Monument is in good hands in the absence of the Superintendent.

White Sands wishes to be among the first to officially welcome Hugh Miller back to our Southwest. As a former Superintendent of the Southwestern National Monuments, we in them now know what an asset Hugh Miller will mean to any area he may serve. Come see us, Hugh. We will be glad to show you how rapidly we have grown, even in the few short years you have been away.

Work shall continue toward getting our equipment ready for winter, along with other duties of the season, such as checking our stoves, flues, etc. And too, efforts will be made to adequately care for some 7 to 8,000 people which we anticipate for November.

DONATIONS AND ACCESSIONS

Through the cooperation and graciousness of Superintendent Cal Miller of Platt National Park, we were able to obtain a flat bed truck and a sturdy tank of small size. Both of these items are needed badly at White Sands. Our thanks to Platt.

Johnwill Faris,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Wupatki National Monument
Flagstaff, Arizona

October 25, 1950

Memorandum

To: General Superintendent

From: Acting Superintendent, Wupatki

Subject: Monthly Narrative Report for October 1950

Weather: This has been a real Indian Summer month. The high was 90° and low, 37°. Both of these temperatures were recorded toward the first of the month, the remainder of the period being a good balance of around 80° during the day and down to around 45° at night. The only bad feature being the lack of moisture with only a trace recorded during the entire period, that was on the 14th.

Inspections: Architect and Mrs. Sutton from Washington, D.C. were in on the 11th to inspect the roof job on the Sup'ts. residence.

General Publicity: The Coconino County Fair was held in Flagstaff on the 29 September through 1 October. The National Park Service in Coconino County was represented by a booth which was soon decorated by a blue ribbon! The booth was attended during the fair by Sup't. Hastings and Ranger Leding from Walnut Canyon, and Rangers Viklund and Walker from Wupatki, working in shifts. Ranger Viklund fashioned a model of Sunset Crater out of plaster, complete with cinder and exact coloring, which drew much comment. This model now reposes in the office of the Flagstaff Chamber of Commerce. It was estimated that the Fair was attended by between 4000 and 5000 people.

A letter from Johns H. Harrington states that his article on Wupatki was published in the New York Herald Tribune on August 20.

Maintenance: A new coat of asphalt roofing paper was applied to the roof of Maintenance-man Bean's residence and asphalt siding was applied to the addition to the trailer house, which is the Ranger's quarters. This, along with the new roof on the Superintendent's residence should take care of the residences at least for this winter.

A new lid had to put on the septic tank for the Ranger's quarters and luckily enough, the old CCC ice box had just been torn down and there was enough salvaged lumber to use for this job.

One day was spent in closing up the trailer house at Sunset Crater and tying down all of the loose ends for the winter.

Repair and Rehabilitation: Reroofing of the Superintendent's residence was started on October 9 and project was completed on October 16.

Monument Roads: Clay plating of the worst stretches on the road from Sunset Crater to Wupatki was begun on October 2. The project got off to a great start with the fan belt on the loader breaking after loading the first truck. The hydraulic pump on the loader is very conveniently located so as to necessitate a major overhaul in replacing a fan belt. With a new belt in place, the loader, as well as the rest of the equipment, held up surprisingly well for the remainder of the project. The project was ended on October 19. The road itself was closed on October 7 and will probably remain closed until there is sufficient moisture to pack the plating and allow grading to be done with some effectiveness.

Interpretive Services: At Wupatki ruin 288 visitors in 56 parties were contacted for an average of 24 minutes.

The Na Lakihu-Citadel self-guide trail has been in operation for more than a month now, and according to the registration almost all of the people that stop there come on in to Wupatki, or so it would seem. Without a doubt a much larger percentage of the visitors stop there than used to. The collections on the self-guide booklet, both at Wupatki and Nalakihu, continue to be surprisingly good, around 74%.

Museum Activities and Exhibits: When the Nalakihu-Citadel self-guide trail was installed, a 2' X 4' foot hanging display case was removed from that area and brought to headquarters to use in our office-museum here. Some of the more interesting and characteristic artifacts were taken out of the cabinet in which they had been stored and fastened into this wall case. Since the case was so small there is only room to display very specific kinds of items along with smaller items like beads and bone awls. For the most part, this material was inaccessible to the visiting public even though personnel were present to open the cabinets. This will also solve the problem of not having to tell guidlectures and explain to visitors at the same time, how to maintain the problem of the currently humber.

Records: The annual figures, as indicated below, do not show much of a [illegible] but a look at visitors over the same period a year ago. This is probably due to the fact that unfortunately a good number of our visitors enter the monument via the back road from Lomaki Ranger, but this road was closed to all traffic on November. It might also indicate that more people are traveling alone.

	CARS	VISITORS
October 1961	291	991
October 1960	377	1,251
This current year	2,[illegible]10	1,988
Last current year	2,280	6,854

Wildlife: Migrating birds are beginning to show up at Heiser Spring and spend from two days to a week there. The overflow pond is very attractive to these birds considering they are right in the middle of the desert.

It is becoming more evident that the deer are beginning to come into the Wupatki Basin for the winter. Several game trails have been located and there seems to be plenty of traffic on them. The coyotes have been coming into Heiser Spring for water for the past few weeks which would indicate that the other smaller springs they have been using are drying up. The Black Tail Jack Rabbit is very plentiful this year, and to bear out how dry it has been, these rabbits are foraging almost entirely on Rabbitbrush.

Visitors: 10/1 Sup't. and Mrs. Branch and party from Petrified Forest.
10/3 Mr. and Mrs. George W. Dean and Mr. and Mrs. John B. Heltzel. Mr. Heltzel is with the Virginia State Forestry Dep't. in Charlottsville.
10/11 Architect and Mrs. Dick Sutton, Washington, D.C.
10/13 Chief Historian Ronald F. Lee and Erik K. Reed signed the Citadel register on this date.
10/21 Clyde A. Maxey from Rocky Mountain Nat'l. Park.

Personnel: Superintendent Bowen went on annual leave Oct. 18 and is expected back around the first of November. Bill, Gertrude, and Steve are visiting friends and relatives in Colorado during this period.

Revert Viklund terminated COB October 19.
Claude W. McClain terminated COB October 20.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

NAME James R. Walker
TITLE ~~Acting Superintendent~~ James R. Walker

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE SERVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATION OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATION, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE MATERIALS TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND SERVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND SERVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLACE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHALL NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT NN3) AND 9 (REPORT NN3).

Southwestern National Monuments
Box 1728
Santa Fe, New Mexico

November 10, 1950

Memorandum

To: General Superintendent

From: Naturalist

Subject: Narrative report for interpretive work in the Southwestern National Monuments for October 1950.

Both Naturalist Dale S. King and Charlie R. Steen were in the office all month.

Interpretive Administration

Material for a revised 2-fold leaflet for Tonto was sent to Washington October 13. Several men in the field were asked to submit Forms 57 for a file being kept by Chief Naturalist John Doerr. This includes men who desire to be considered for future naturalist appointments. Complete bibliographies are being obtained from men who do considerable writing. During the month they were compiled for King, Steen, and Earl Jackson.

Progress of Exhibit Plans and Projects

The museum plan for Arches was approved by the Director, October 9.

Work was started on the printing of the booklet for the Cactus Forest Trail at Saguaro, and continued on the one for Tuzigoot.

Approval was received for statements of significance for Bandelier and Aztec Ruins. If suitable cutout letters can be obtained, perhaps these statements can be placed on display during October.

Because Canyon De Chelly has no display facilities, the Pueblo II turkey was loaned temporarily to Mesa Verde.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

UNITED STATES

Research and Observation

Steen accomplished considerable cleanup in the basement preparatory to establishing a work and storage room there. He will spend much time there this winter on the Se-Ya's material.

Loan Library

Accessions for the month totaled 66, including 10 books, 41 pamphlets, and 35 periodicals. Steen with the help of Mrs. Corman achieved considerable cataloguing and King ordered various maps and reports.

The most important books received were:

Hughes, John T. - Doniphan's Expedition, Cincinatti, 1848

Moorehead, W. K. - Archeology of the Arkansas Valley, New Haven, 1931

Ninninger, Mr and AD - The Ninninger Collection of Meteorites, Winslow, 1930.

O'Kane, Walter C. - Sun In the Sky, (Hopi Indians) Norman, 1950.

Osborn, Henry F. - Men Of The Old Stone Age, New York, 1916.

Spaulding, Edward S. - The Quails, New York, 1942

Southwestern Monuments Association

The second and improved edition of the Lava Flow Trail booklet for Sunset Crater was delivered in Santa Fe October 12.

Word was received from the National Park Service that our mailing list should not be made available to any outside personnel, agency, or organization.

During the month of October two deposits, and one disbursement was made by Treasurer Vedder. The number of covers mailed were 205, including 36 letters and 60 purchase orders. These figures do not include a mailing of brochures totaling 1300.

Much time was spent in handling [illegible], the full shipment of which has arrived. Books have been sent to all those who subscribed for this volume. The quarterly inventory turn-ins were checked and posted onto the warehouse cards.

Barbara Vedder worked 23 hours preparing the mailing for the above brochures, filing the business reply cards, etc.

Visitors

Chief Historian Ronald Lee; Superintendents Ringenbach, Wilson, Dominicis and Bean. Rangers Zerbey and Hanson; and Photographer George Grant, and Naturalist Alberts, from Rocky Mountain.

Ruins Stabilization

Steen worked on the report of preservation of wall paintings at Tumacacori. Newly appointed Regional archeologist Thomas Onstott reported October 30 to work on the stabilization report for Tyuonyi ruins at Bandelier.

Technical Aid to the Administrators

During the absence of General Superintendent Davis at the Superintendents' convention, King was Acting.

Projects for November

King will take some annual leave, work on trail booklets and other routine.

Steen will leave November 1, for Chaco, Tonto, Casa Grande, and Tumacacori, delivering a truck for the Mobile Unit, and transport equipment.

ARCHES NATIONAL MONUMENT
MOAB, UTAH

November 28, 1950

Memorandum

To: General Superintendent

From: Superintendent, Arches

Subject: Monthly Narrative Report for the month of November, 1950

WEATHER: The warm dry weather of October continued until November 1 when heavy overcast skies brought a definite drop in temperature, but no moisture. Skies cleared during the last week of the report period; however minimum temperatures have stayed below freezing.

TRAVEL: Travel has dropped to a minimum and a 50% decrease from the same period last year is noted. The combination of war scare and cold weather is believed to be the cause of this decrease. Only 398 visitors in 120 cars entered the area.

INTERPRETIVE SERVICES: Total contact time amounted to 19 hours and 50 minutes in which 80 visitors were given information about the area. This service has been cut to a minimum due to prohibitive cost of equipment operation.

INTERPRETIVE DEVICES: The Cove Trail continues to be appreciated by all visitors although a great many changes and improvements can be made. The completetion of the Wayside Exhibit is hoped to be accomplished within the next month.

WATER SYSTEM: Invitation bids were let on the purchase of a new pumping system and the sucessful bidder was Utility Engineers, Salt Lake City. Preparations have been made for the installation of this new system as soon as it arrives. This improvement will not only give us a good supply of water but will also eliminate a great many headaches and cut operations to a minimum.

AUTOMOTIVE EQUIPMENT: A trip was made to Santa Fe to accept delivery on a long expected new Dodge Pickup. An overhaul job was done on the 1947 Dodge Pickup and the International Dump truck was given a valve grinding and tune-up job. Our Grader and front-end loader are at present awaiting repairs. The recaps on three of the grader tires have come loose from the cord and will have to be replaced. The homemade front wheel assembly on the front-end loader will not stand another welding job. Tires and parts for the repair of these two pieces of eqipment have been ordered.

ROADS: Due to no moisture, blading of the monument roads has not been practical; however Maintenancoman Winbourn has kept them in good condition by applying shale to all sections showing breaks. The entrance road at Headquarters was given a coat of gravel.

EPS VISITORS: Mr. & Mrs John Davis and Grace Metcalf stopped for a few minutes on November 2 enroute to Santa Fe.
RANGER John E. Williams and Mrs Williams spent November 5 in the area. They were on vacation from Mt. McKinley National Park and seemed to envy us in our dry warm climate.

GENERAL: Two hundred feet of water line from the main line to the ranger Cabin was dug up and lowered 18 inches to protect it from frost. Three yards of asphalt mulch was procured by Ranger Worthington from the Sate Highway Department and tamped as flooring in our storage room, shop, and generator house. Three days were spent repairing our telephone line which was completely flattened by a freak wind storm.

OUTSIDE ACTIVITIES: Annual leave was taken by all personnel during the deer season and all return with their quota of two deer each.

Bates E. Wilson
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
ALDER RUINS NATIONAL MONUMENT
ALDER, NEW MEXICO

30 Nov 1950

Memorandum

To: Director, National Park Service

From: Superintendent, Alder Ruins

Subject: Superintendent's Monthly Narrative Report for November

WEATHER: Cold and crisp with generally clear days, below 1/2 a little rain, some frost and a few of 4 above zero.

NEW CONSTRUCTION: Due to delay on the part of the supplying nursery, plants and shrubs have not been planted, fence wire hung and the walls painted in the patio construction of residences No. 8. New earth and fertilizer have been hauled for patio beds.

Interpretive SERVICES: 399 visitors in 94 parties were conducted thru the ruins and there were 601 visitors in 206 parties who visited the museum.

INCREASE IN TRAVEL: With 601 visitors in 206 cars from 38 states, Washington D.C. and Canada we have had an increase of approximately 16% over last November, which itself was also 16% over the preceding year.

PERSONNEL: Park Ranger Thomas D. Custard transferred to the Region Three Office, and entered on duty there on [illegible] and 30 October 1950. On the 11 for her entered military leave and reported to Ft. Bliss, Texas as an instructor in riding.

William F. Perkins, formerly temporary park ranger and currently GS Guide, has entered on duty in place of Ranger Custard until a new appointment is made to fill Custard's vacancy.

Ivy Tennant, Supt. receives from annual leave for 2.

VISITORS: Former employees of headquarters, Jack Williams and wife with Chandler Bernard and wife visited here 11.

Original signed,
Superintendent

BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

November 30, 1950

Memorandum

To: General Superintendent

From: Superintendent, Bandelier

Subject: Monthly Narrative Report for November, 1950

Weather

The weather during most of the month was mild although there was one sharp cold period on the 10th when the temperature dropped to 0 degrees. The maximum temperature of 76 degrees occurred just two days before on the 8th.

Special Activities

The Superintendent gave two talks on the 8th to the seventh and eighth grades at the Los Alamos school on mapping Indian ruins and archeological finds. There were 250 students in attendance and they showed a great deal of interest in the archeology of this region.

One day was spent in Santa Fe distributing bids for reroofing three residences.

A general staff meeting was held on the 6th to discuss plans for patrols during the hunting season.

Inspections

Regional Archeologist Hood, Architect Saunders, Dr. and Mrs. Donaldo, Morristown National Historical Park, and Mr. Tom Onstott visited the area on October 31. Mr. Hood inspected the excavating at Rainbow House.

Mr. Saunders inspected the buildings that are in need of roof repairs and made up a list of the most urgent in order to prepare bids on them.

UNITED
STATES
SAVINGS
BONDS

DEC 1950
RECEIVED
National Park Service
Region Three
Office

Mr. Onstott secured some data for completion of a report on the stabilization of Tyuonyi.

Maintenance

A contract was let to the Goodrich Roofing Company, Albuquerque, New Mexico for reroofing residences 3 and 4 and the dormitory. The actual work was started the last of the month.

Roads and Trails

The roads and trails crew did considerable work on the ruins trails during the month. They removed rocks and improved the surfacing and constructed a number of water turnouts. Construction was started on a new ladder to replace one that is becoming dangerous on the Ceremonial Cave trail.

The roadsides along both the Los Alamos highway and State road no. 4 in the Otowi Section were cleaned of beer cans and trash.

The approach road was exceedingly dusty all month due to the dry weather. The state grader went over it once and other than the dust it has been in fair condition.

Concessions

A meeting was held with the dining room manager for Frijoles Canyon Lodge to discuss rates for next year. In general meal rates will be a little higher than this year due to increase in food prices.

Interpretive Service

A total of 932 visitors were conducted on 96 tours of the ruins this month. An additional 487 persons made use of unattended interpretive devices.

Work was continued on the preparation of texts for the interpretive stations that are to be placed at Ceremonial Cave, Rainbow House, Tsankawi Ruin, etc.

An advance copy of the pamphlet "Birds of Bandelier" prepared by Henry H. Collins, Jr. was received and it appears to be a very practical publication. Copies will be put on sale as soon as they are received from the printer.

DEC 1950
RECEIVED
National Park Service
Region Three
Office

Archeological Excavation

The excavation and stabilization of Kastiatsi (Rainbow House) was completed this month. Mr. Fred Worman, who supervised this project, reported for duty at Los Alamos on the 5th and the work was completed by Romolo Cordero. Mr. Worman will do the pottery analysis and write the report on the ruin this winter.

Travel

Travel continued to show an increase over last year although the percentage was not as high as in October. There were 2007 visitors compared with 1852 last year or an increase of 7.8%.

Visitors

Mr. and Mrs. Connick, Vice President of the Save the Redwood League, were visitors on October 30.

Superintendent and Mrs. Ronalds, Morristown National Historical Park visited the area on October 31.

Mr. and Mrs. Ray Mattison, Region Two Office, were here on November 2.

Mr. Nusbaum brought Mr. Herbert J. Slaughter, Assistant Solicitor in the Secretary's Office, to the area on the 7th and Mr. Slaughter returned again on the 9th.

Regional Director and Mrs. Tillotson brought a friend of theirs, Mrs. Sloane for a visit to Frijoles Canyon on the 25th.

Ranger Service

The rangers and entire staff were very busy during the big game hunting season maintaining patrols to prevent hunting in the Monument. No evidence was found that any deer were killed on Monument lands. A state game warden caught 20 Indians from San Felipe Pueblo with illegal game that had been killed in a state game refuge next to the southern edge of the Monument. It is possible that some of these were killed in the area but patrols in that vicinity did not reveal any violations.

Miscellaneous

Operator General, Edd Wendland, married Mrs. Alta Fite of Oklahoma City on November 15.

Fred W. Binnewies

Canyon de Chelly National Monument
Chinle, Arizona.

November 26, 1950

Memorandum

To: General Superintendent

From: Superintendent, Canyon de Chelly

Subject: Monthly Narrative Report for November, 1950

Travel:

144 people in 54 cars this month. Even though the figure may appear small it almost doubled that for the same period last year. This was due primarily to favorable weather conditions. Total contact time 28 hours, 50 minutes.

Weather:

Still below normal precipitation. Only one shower of .13 of an inch fell on the night of November 15. A low temperature of 4 degrees was reached on the 10th, and each succeeding night below freezing points were recorded.

Canyon Travel:

Residents of this area for the past 40 years state that never have they seen the canyon floor so dry, and as a result travel by motor vehicle in the canyon is almost impossible.

Roads:

All approach roads are rough and dry, but travelable. Monument roads are in fair to good condition.

N.P.S. Visitor:

Paul Balch on Nov. 20-21. A trip was made to the upper canyon regions for the purpose of studying and starting the joint watershed survey with Indian Service officials.

Administration:

Two trips were made to Gallup for general and construction supplies. Also, a general straightening up and improving the appearance of the Hdq. area.

Projects:

Outside of visitor contact, the entire month was spent constructing picnic tables and fireplaces. We are rushing this project with all possible speed trying to get as many completed as possible before severe winter months sets in.

CAPULIN MOUNTAIN NATIONAL MONUMENT
November 25, 1950

Memorandum

To: The General Superintendent
Southwestern National Monuments
National Park Service
Santa Fe, New Mexico

From: Superintendent Homer J. Farr

Subject: Monthly narrative report, November 25, 1950

Visitors: We have had about 1,200 visitors to Capulin Mountain National Monument during the month of November, making a total of three thousand three hundred visitors during the travel year and twenty two thousand five hundred for the fiscal year to date.

Weather: Fair and warm weather has prevailed during the month, with a light snowstorm on November 8.

Flora and Fauna: Vegetation in the Monument area is still very dry. The porcupines have moved into the area again and are at work stripping the bark from a great number of trees. Quite a few deer have been observed there during the month.

Roads and Trails: Both roads and trails have been kept in splendid condition. The trail to the bottom of the crater was completed the first part of the month.

Special Visitors: No special visitors have visited the Monument this month to my knowledge.

Information Pamphlets: About three hundred pamphlets have been distributed this month. A shipment of 15,000 new pamphlets arrived two weeks ago, so we now have about 17,300 on hand.

Very respectfully,

Homer J. Farr
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

November 25, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Casa Grande National Monument

Subject: Monthly Narrative Report for November 1950

General: The weather remains mild. Cotton picking is still a big project; the crop is going to set a value-per-pound record and also a production record inspite of the acreage control by the P.M.A.

There is a steady change in the registration of the states in our travel figures over the summer months; the trend is for more of our visitors to be from the mid-west and the northern states. It seems that winter weather is coming to those areas after an unseasonably warm autumn.

The Phoenix Dons had their annual trek from Phenix to the monument. Casa Grande, the community, was confused with the Monument; the trek took the long route to the "ruins".

Weather: Our weather for the past month has been exceedingly mild. The highest daily maximum was a "heated" 97°, on the 25th of October; the lowest maximum was a cool 67°. We had a brisk 27° for the minimum on the 12th of November, but it was a scare that passed quite quickly. There was even a trace of precipitation; one hundredth of an inch fell on the 15th.

The Phoenix Republic had an excellent description of the weather; it follows:

> Jurwitz Looks--At Neckline
> Louis R. Jurwitz, weatherman, loosened hi necktie Wednesday, and took a swig of sweet cider.
> "Indian Summer," he explained, "always goes good with apple mash, especially when the temperature is 89--three degrees higher than it's ever been for this time of year.

"Took a walk downtown at noon and saw a woman with a neckline almost as low as the temperatures in Great Falls, Mont. Wednesday, Three below.

"Thursday might be lower," he said. "In Great Falls, I mean."

Visitors: Our travel figures show a small gain over last year for the same month. The cooling weather has brought our usual upsurge for autumn travel; however, the annual travel figures are lagging. With the sub-zero temperatures threatening in the East, North and Mid-West, our number of visitors should begin to pick-up.

We notice that very few members of the armed services have taken advantage of the tax-price admissions; we have had only six servicemen this month.

	1950	1949
Visitors during November	3131	3049
Increase	82	
Visitors for travel year	5236	5368
Decrease	132	
Servicemen during November	6	

Interpretive Service: A total of 1,857 people made the trip to the ruin in 186 groups, averaging 56.2 minutes per trip. There were 1274 visitors who made only a short stop and did not go to the ruins.

Visitors of Note and Special Groups:

October 27 -- Mr. and Mrs. John D. Coffman, Chief of the N.P.S Division of Forestry, Bethesda, Md.

November 4 -- 14 girl scouts from Troop 64, Williams Field, Arizona.

November 5 -- Regional Archeologist Charlie Steen from Santa Fe, New Mexico. An unexpected but pleasant surprise.

November 8 -- District Ranger Donald J. Erskine, Sequoia Nat'l Park and his mother, Mrs. George A. Erskine, La Conada, Calif. District Ranger Erskine is a former Casa Grande employee.

November 14 -- A group of 34 fourth grade students and their teachers from the Arizona State College Training School, Tempe, Arizona.

November 14 -- Ranger and Mrs. Robert Brangas from Sequoia Nat'l. Park.

November 19 -- The Phoenix Dons and their travelcade from Phoenix.

November 24 -- 18 members of the Union High School football team from Parker, Arizona.

W. H. Merriam, U. S. Public Health Service, from Coolidge from weather data relative to his fly count.

The Phoenix Dons and their annual Travelcade to Casa Grande:

After waiting a hour and a half after the supposed time of arrival for the Phoenix Dons and their Party, it was decided that someone had become confused. The picnic area was loaded with the members of the Coolidge Chamber of Commerce, well-wishers, and folks who had prefered to drive down to the ruins without the State Police escort; all were awaiting the enmass arrival. The announcer from radio station KCKY, Coolidge-Casa Grande, attempted a "tape" recording of the Dons without as much as a single Don or their party being present.

While the staff alternately burned and cooled their heels, the travelcade was proceeding down State Highway 87 led by their police escort. Since Maricopa County has no signs giving the shortest route to the Monument, the intrepid young police officer was proceeding by the shortest route he knew; it seems that the ruins are six miles closer to Phoenix via Casa Grande than they are via Coolidge, or so thought the police officer. So the entire travelcade followed to Casa Grande.

Once at Casa Grande, everyone piled out of their cars and scattered looking for the ruins. The ruins were still twenty miles away as the county road goes. The Dons discovered the mistake; the group was rounded up and the tour continued to Casa Grande National Monument-- or so they thought.

The tour swung on south, through Eloy, past road junction to the Monument, on to Picacho. Another halt was called. Finally after some discussion it was decided that the shortest route, now, was to turn around and head north..... So a little late, having traveled over forty miles out of their way, the party of 320 visitors finally reached the ruins.

The Chamber of Commerce from Coolidge provided the visitors with hot coffee and entertainment; it is said that the police officer had already received the hot water so he needed only a couple coffee beans, sugar and cream. The Circle-C Square Dancing Club presented a short "skip-to-the-lou", followed by chanting Indian braves hoop-dancing their way through "original" Indian songs and dances. After the performance of the young Indians, the square dancers wanted to do a rebuttle of hand springs and back flips, but there wasn't time.

The staff survived. Undaunted by Sunday drivers, we managed to supervise the parking of over two hundred cars without the loss of too much paint and too many tempers. The trips to the ruins were in large cozy groups; for those interested, cuddling was a necessity even in the large rooms.

All in all the visit was successful. Every attempt was made to provide the visitors with the maximum amount of attention and to make their visit worthwhile. The Dons, the Coolidge Chamber of Commerce, and the public, all cooperated marvelously to make the even without special incident; The Superintendent was appraised by one of the colored visitors, after receiving his "change"; Praise de lawd, a honest man.

Administration and Protection: Four requests for information were answered and the literature requested was mailed. The Adamsville site was checked ofr new evidence of "pot hunting" but no new digging was noticed.

Maintenance: After the cold scare in the early part of the month, the heating stoves were installed in the houses and the museum. The heaters were already to be installed, having been reconditioned last month. However, need we say that the heaters have received little use since being installed.

Personnel: There has been a change in our personnel. Ranger Leslie P. Arnberger has been transfered to the RegionaThree Office as Naturalist. Les has been a hard working ranger and will be missed, but we wish him well in his new promotion.

The Monument received Ranger James N. Clancy, "Jim Clancy", from Montezuma Castle. We feel that we received a fine replacement for Les, and we hope that the "castle" has done as well. There was a freshly painted and redecorated house awaiting the Clancys. We hope that they will be able to overcome the expectancy of a rattlesnake behind every bush, and like our "ruins" as well as they did the "Castle."

Research: Regional Archeologist Charlie Steen made us a visit and took the sherds we had stored fromTonto away; we might be able to say that was limited research. Charlie also took the remaining sherds from the Taylor Collection with him.

Archeologist Jameson attempted to collect some specimens of the new genus of Diplotaxis to add to those which Ranger Arnberger had collected; Archeologist Jameson can be mentioned for effort, his specimens were not Diplotaxis.

Public Health: Our water supply remains critical. Combined with the Arizona State Health Department's positive report of our water, things are completely unsatisfactory. We have the clorinator working, and the most recent check shows negative results.

A. T. Bicknell
Superintendent

Chaco Canyon National Monument
Bloomfield, New Mexico

November 27, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Acting Superintendent, Chaco Canyon National Monument

Subject: Monthly Narrative Report for November 1950

Weather Conditions

The weather has taken a decided change from October, which was generally mild. Our maximum temperatures have been 70° and below, with our minimums running 30° and below. The highest temperature was 70° on the 9th and the lowest was 0° on the 20th. Incidentally, the highest temperature recorded on the 10th was 57°. On the 15th of the month there was .05 inch of rain, the first since a trace on the 16th of October.

Special Activities

Soil Conservationist Paul L. Unich, together with Messers H. E. Kilgore and C. H. McConnell, both of the Bureau of Indian Affairs, Window Rock Area Office, spent the 16th and 17th making a joint soil conservation survey of the Chaco watershed. Engineer J. H. Conn continued his work on the new well, started the dike-building program and started the topographical survey of the new headquarters area. The new well house has been completed and the old pump installed. Lots of mud in the well so it is planned to run a metal casing down another three feet below the concrete pipe and to cement up the 6 inch space between the two lower sections of concrete pipe. This may solve our sanding problem.

Administration

Superintendent Guillet made a special trip to the Regional Office on November 20th through 22nd to discuss miscellaneous items with the General Superintendent, and then commenced 30 days annual leave. On November 17th Ranger Kilgore made a trip into Farmington to retrieve a sump pump borrowed from the Methodist Mission.

Visitors

Visitor travel has dropped off, with only 83 persons taking the guided trips through the ruins. However, this is a 10% increase over last year. These people came in 37 cars. There were an estimated 52 "runarounds" in 25 cars.

Accessions

Ranger Francis H. Elmore donated a copy of his Ethnobotany of the Navajo to the Chaco Canyon library.

Interpretive services

83 persons were taken through the ruins on 28 conducted trips. Two special trips were made to the Bc sites, where Archeologists Vivien and Rixey are doing some work, with super-interested visitors. These two trips totaled 135 minutes. 92 persons were given orientation talks in the museum. A total of 20 hours were spent in guide and contact work.

Official and noteworthy visitors

National Park Service:
Charlie Steen and Luis Castellum on November 1st

Other:
October 27th:
Mr. and Mrs. Irving Posey, Road Supervisor, United Pueblos Agency.
Hildegard Thompson, Director of Education, Navajo Agency
Seith Begay and Jim Hale, Navajo Tribal Council

November 5th:
William R. Bullard Jr., Archeologist, El Paso Natural Gas Co.

November 12th:
Seasonal Ranger Jack R. Williams and party of Alamosa, Colo.

November 13th:
Mr. and Mrs. John E. Pressant, Kitchener, Ontario, Canada
The Reverends Francis B. Borgs[illegible] and Davin Von Hugel, both of Shiprock, New Mexico.

Attached is the monthly report of Archeologist Vivian.

November 27, 1950

Memorandum

To: Superintendent, Chaco Canyon, New Mexico

From: Archeologist Vivian

Subject: Monthly Narrative Report, November, 1950

With the weather remaining good for the greater part of the month we have pushed the stabilization of Site Bc-59 and held in abeyance the cleanup work previously started at Kin Kletso. To date two kivas at the south end of Bc-59 and approximately one third of the rooms here have been done. If the weather continues favorable, about one half of the site will be completed during the next month. In addition to work on the room areas, related stabilization, diversion of surface drainage from the talus slopes to the south and east, is in progress and this work now about half through will be carried to completion in December.

The preliminary work at Kin Kletso was halted on the 14th. Up to that time fill was removed from the 2 south kiva corners of Kiva B and two rooms were cleared. The material in the kiva corners was backfill from previous excavation and no cultural material was recovered from the 2 rooms.

A surplus oil heater received last spring was cleaned and set up in the back of the building to heat the shop and darkroom. An oil heater was also set up in residence No. 2. This building is 50 years old and putting in an oil heater is worthy of note since it involves cutting through a wood ceiling, then through a first roof covered with a foot and a half of adobe, and then through the second roof overlying this. The trick of course is to miss the 2 sets of concealed vigas.

Some progress was made on the archeological report of the Tri-Walled structure. This work was somewhat hampered by having to turn out in limited time an illustrated report and recommendations for structures at Fort Laramie National Monument for Region Two.

November 28, 1950

Memorandum

To: General Superintendent

From: Superintendent, Chiricahua

Subject: Monthly Narrative Report

General. Ranger and Mrs. Gaynard are the proud parents of a fine 7 lb. girl, Jane Elizabeth; born October 26, just too late to get into last months report. All three are doing fine.

Leave was taken by all of the employees during the month. Gaynard took 4 days leave to get the new girl started in life; Marble took 8 days leave for deer hunting, with no luck, and Cooke took 2 days just for fun and to keep from losing it.

Weather. Only 2 windy days marred the weather for the month. Of course, we would be glad to see some moisture as not a drop has fallen during the month or for some time previous.

Inspections. We enjoyed a visit of a few hours by Forester and Mrs. Coffman on October 29. An inspection was made of the fire equipment and the area adjacent to the road.

Approaches to Monument. The three dirt approach roads are all very rough and dusty due to the prolonged drouth. This has probably reduced travel some.

Interpretive Service. 728 visitors were contacted in the museum in 215 parties. 4 conducted trips were made. These trips, while small in number of visitors, consumed a total of 10½ hours.

A total of 11 visitors in 3 parties made use of the self-guided nature trail, taking an average of one hour for each trip.

Travel. A total of 966 visitors came to Chiricahua this month. This is a decrease of 395 from November of 1949. We are unable to account for this decrease but hope for an increase next month.

Monthly Narrative Report,...Nov.1960,...

Visitors. Rosemary Taylor, artist, "Chicken Every Sunday", "Riding the Meadow With Father", and "Her Nothing Much", visited the Monument for one day.

Ranger and Mrs. Robert F. Pangle of Lincoln National Park spent three days at Chiricahua.

Police Protection. During hunting season, October 29 to November 14, the Ranger and Superintendent spent as much time as practical on hunting patrol.

On November 6, Ranger Sargent apprehended three hunters bringing two bucks out of the Monument. They were taken before the Justice of the Peace in Willcox where they were fined. The two guns were given to the Arizona Industrial School for boys at Fort Grant.

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
El Morro National Monument
El Morro, New Mexico
November 24, 1950

Memorandum

To: General Superintendent

From: Superintendent, El Morro

Subject: Monthly Narrative Report

There were 283 visitors to the Monument this month. This is 50% more than a year ago. 224 of these people formed 52 parties of which Ed Ladd took two. 48 of these visitors came on my days off in 17 parties, signed the register, were given an orientation lecture and allowed to go on our self-guided tour. We have had an average of 54% more visitors the last two months than the same period last year.

We were able to employ Ed Ladd 5 days this last month.

The coolest this month was a minus 1 degrees and the warmest was 67 degrees Fahrenheit. There was .16 of an inch of precipitation which is mighty little. Our pool is surely getting low.

The approach roads remain in good shape. In fact, many visitors come out expecting to find them as they were 15 years ago, are pleasantly surprised and say that they are going to spread the word. We have had direct results from this, and like a snow ball it is going to keep going.

We worked over the Monument roads. Got the corduroy out of them and this is also true of the road from the highway to the gate. Made an arrangement whereby when the snow falls, the grader will not only come down the by-road to the gate but will also come up to the parking area and the residences.

For several months, it had been a question as to whether the cattle guard supports would collapse or whether we could get to repairing it first. A few weeks ago, a saw mill operator in Ramah was contacted who cut us some

bridge timbers according to specifications and delivered them the next morning. Then, with sub-zero weather having already hit, it became a race to see if we could finish the job before the ground froze hard. We won on both counts. The guard did not collapse and the ground did not freeze hard before the job was complete.

It was interesting while Ed was working on the cattle guard. He had a large white sign with black letters reading

USE OTHER GATE
SO JEEP
←

We noticed that visitors would draw up to the cattle guard, read the sign, then take off down the road and go out of sight before returning and sheepishly going through the gate. To remedy the situation, Ed put up an additional sign, a large one reading

GATE
→

right in front of the gate and at right angles to the road. Ed was ready to throw up his hands when the first car by after the erection of the second sign drew up, read the sign in front of the cattle guard, and then took off down the road clear out of sight before returning!!

We greased, changed to light weight oil and put anti-freeze in the light plants this month. Also, the CAA men came by and spent nearly all of one afternoon working over the plants for us and putting them in shape for the winter. Mighty nice cooperation.

The ranger cabin has been completely weatherstripped. We had a touch of snow this month, enough to show us that there was a bad break on the ranger cabin roof. It was repaired, so now the ranger cabin is in good shape for the winter.

All the floors in both the superintendent's residence and the Office have been refinished this month (on a day off!). It is always a pleasure to refinish the floors, they look so nice, and the visitors to the house and office always comment on them. Other routine jobs and annual jobs such as stacking our wood in neat piles, digging down three feet on two occasions to free water valves, etc., were accomplished.

One man was by to see the superintendent, who is dickering for a bus line to leave Grants, go via the Ice Caves, El Morro, Zuni and hit the highway again at Sanders. The bus would run once a day each way.

The REA looks as if it is really off this month. It was rumored that in view of the fact that the bids were rejected when opened in October because they were too high, that they might readvertise and open them again in November. Such was not the case.

A veteran air pilot who was recently transfered to a route passing over El Morro, took a busman's holiday for his leave to see what his route looked like from the ground. He and his wife were so impressed with El Morro that after he got back on his regular run, he now, sometimes, radio-telephones us a few minutes before coming in sight, and then, with his huge plane tipped up on one wing and flying relatively low, shoots by the Rock waving to us. Good advertisement for El Morro.

Our National Park Service visitors this month reads like a NPS Who's who. In order of their arrival - Mr. and Mrs. Ross Maxwell and Mr. and Mrs. Robert Gibbs from Big Bend National Park; Mr. and Mrs. Ray Matteson, Region Two Office; Mr. and Mrs. Conrad Wirth, Washington Office; Mr. Tillotson, Mr. McColm, Mr. Barton and Mr. Kell from the Regional Office.

Irving McNeil, Jr.
Superintendent

UNITED STATES

NATIONAL PARK SERVICE

Gran Quivira National Monument,
Gran Quivira, New Mexico

November 25, 1950

Memorandum

To: General Superintendent

From: Superintendent, Gran Quivira

Subject: Monthly Narrative Report for November, 1950

Weather. Weather for October was unusually mild with very little moisture. Maximum temperatures have been in the mid-sixties and the minimum averaging about 35 degrees. A brief cold spell on the 10th brought the temperature down to 2 degrees but the half inch of accompanying snow melted the following day, and we have had pleasant weather since.

Special Activities. A trip was made into Albuquerque on the 14th to obtain quotations on equipment and material for the utilities project, and to make arrangements for the installation of a new power transformer.

Maintenance and Rehabilitation. Work on the utility project got underway this month. 875 feet of sucker rod was pulled from the deep well and new leathers and gaskets installed. Condition of check valves was good and no replacement was necessary but leathers were badly worn. Operation has been excellent since this work was accomplished as water now reaches the storage tank within two minutes after pumping as compared to about twenty minutes before. Electrical equipment, including electric motor and accessories, has been ordered, and work will continue as soon as shipment is received.

As you know the water catchment from the residence roof has been unsuitable for drinking due to discoloration and asphalt taste from the type of roofing. Rather than replace an otherwise good roof, 1200 feet of aluminum foil sheeting was applied over the tar roofing. It promises cool clear water.

Road work and trail work were stepped up this month. Ten truckloads of gravel were hauled and spread over the approach and parking area, and several breaks in the road shoulder were repaired. Additional filling and leveling on the mission trail also were accomplished.

Approach Roads. Lack of moisture has had a direct effect on road conditions into the monument this month. Several extremely dusty sections were reported on the Carrizozo approach, and while the

road in from Mountainair is in fairly good condition, it needs moisture.

Personnel. Extension of employment papers for Doyle B. Chaney, Laborer, were submitted to the Civil Service Commission.

Travel. Visitation this travel year is exactly the same as 1949, so far.

	1949	1950
October	260	251
November	224	233

Interpretive Services. Forty three parties with 156 people were guided through the ruins for an average of 46 minutes per party. The self-guiding trail trip was used by 23 parties totaling 75 people. The exhibit room was open all month.

Research and Observation. The opportunities to observe the reptilia of the area have been excellent this summer. Some 50 or 60 individuals of the prairie rattlesnake were seen and several of these afforded close scrutiny. One peculiar characteristic of the local variety is their cooperation to observation. I've found it most convenient on more than one occasion to look up from my desk and find one posed on the linoleum ready to be catalogued into the fact files. Some thoughthas been given to keeping a duplicate set of files at the residence for after hour observations, as the legs of the coffee table have been known to take on additional design. With color yet!

Superintendent

NOV 1950 RECEIVED National Park Service Region Three Office

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
GREAT SAND DUNES NATIONAL MONUMENT
Alamosa, Colorado

November 25, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Great Sand Dunes

Subject: Superintendent's Narrative Report for November, 1950

Weather Conditions

November weather has been favorable for travel for the most part with temperatures running above normal. The maximum was 61 on November 8 and the minimum was -1 on November 10. The drouth continued throughout the month even though snow blew all day on November 9. Only a trace was left on the ground when the gale subsided so I guess that the wind must have worn out the snow.

Special Activities

The Mosca-Hooper-Moffat Service League was attended on November 6. The League at that time drafted a Resolution to the State Highway Advisory Board asking for the further improvement of State Highway 150 leading to the Great Sand Dunes. Little hope is held for much improvement in 1951 since this is not a farm-to-market road.

Boundary Fence

The north fence separating the George White and Rounsaville tracts from the rest of the monument was repaired. I am sort of stubborn and decided that the yearly migration of horses from Medano Canyon will not take place this year.

Rehabilitation

Contractor Ray Burrows completed the roof rehabilitation job on November 8. He did a good job and I am confident that our roofs are good for at least 10 years now. The roofs of the expandable trailer and tool shed were included in the work.

Maintenance

Most of the month was spent with the routine maintenance jobs which are so necessary, which occupy so much time, but which leave such

little evidence of [illegible]. The underground water system was shut off and drained, the comfort stations at the checking station were drained and closed for the winter, wood was hauled for the fireplace, the 120 gallon tank obtained from White Sands was installed as a supply tank for the light plants, the kitchen walls were cleaned, and the bathroom was enameled for the first time. The fire pot from the furnace was removed, repaired by welding two new flanges, and reinstalled after the soot was cleaned out.

While the roofers had the office roof torn up I installed a new radio antenna leading down through the ceiling. This will cut down the length so that our radio transmissions should improve.

Approach Roads

The condition of State Highway 150 changed little during the month. The monument section of the road is still in poor shape and cannot be improved until we receive some moisture. I have continued to grade it once a week.

Travel

832 people in 171 cars visited the monument this month. This is only 2 cars and 5 people less than November 1949.

Visitors

Former Superintendent Hal Sowers and family visited us on Armistice Day, November 11.

Glen T. Bean
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Montezuma Castle National Monument
Camp Verde, Arizona

November 26, 1950

Memorandum

To: General Superintendent

From: Superintendent, Montezuma Castle

Subject: Monthly narrative report, November 1950

General: What should have been a slack month turned into an extremely busy one. This was caused by construction of a water well, continued work on the Montezuma Well loop trail, changes in personnel, a trip to Santa Fe for a new truck, arrival of a movie company for the purpose of filming a picture of the Castle, and as usual good travel.

Weather: With the exception of .05 inches of rain which fell on November 14, dryness still prevails. Freezing weather arrived on November 10 when the mercury dipped to 14 degrees. This cold snap, however lasted only three days and conditions are again ideal with sunny days averaging in the high 70's.

Travel: Weather conditions as they are, travel simply refuses to fall off. Again this area established another record for November when 1826 people in 628 cars visited the Castle and 582 people in 170 cars saw the Well. This makes a total of 2408 visitors to the area as compared to 1976 for November 1949.

Interpretation: On November 13, the movie company started removing the modern ladders to the Castle for the purpose of installing pole type ladders. Since no trips have been made following that date, only 80 tours were made to conduct 359 people through the ruins. Opportunity was taken of the temporary shutdown of the Castle to observe visitor reaction at not being able to climb the ladders. Very little complaining was heard and the majority of people seemed to be content with interpretive service at the base of the Castle and with the Sycamore trail. In fact, more than one visitor mentioned that he was relieved that the ladders were closed; strange why so many people feel they must take the trip merely because it is offered.

Very little interpretive contacts were made at Montezuma Well. Archeologist White spent most of his time supervising construction of the loop trail and performing relief work at the Castle.

Superintendent Brewer of Tuzigoot spent a couple days in the area photographing the interior of the Castle. These pictures are to

be used as a guide in building a scale model of the Castle. Jimmy did a fine job of picture taking, and we certainly appreciate his cooperation.

Visitors: On October 29, Superintendent Farris of White Sands.

On November 2, Assistant Director and Mrs. Conrad Wirth of the Washington office.

During the Thanksgiving weekend, several groups of Boy Scouts and students from California and Arizona.

Publicity: Most northern Arizona newspapers printed articles on the filming of a picture within the area by the Nat Holt Pictures Corporation. This movie company has been in the Valley for about a month filming a 'glorified western" tentatively named "Canon Diablo" which revolves around the story of John D. Lee for whom Lee's Ferry was named and who was executed in 1877 for his part in the Mountain Meadow massacre in southern Utah. The Castle plays an important part in this picture inasmuch as the renegade Lee and his band of Piutes use it as a home and stronghold. The story goes that there is quite a price on the renegade's head and that two principals, the hero and a cavalary lieutenant, have bet a year's pay on who would win the honor of this capture. These two gentlemen are to race up two parallel makeshift ladders to get the villain who resides on the upper floor. Since our ladders are too modern, the company has replaced them with pole affairs. Theoretically our heroes arrive at the top room and then the big fist fight occurs, but the fight does not happen in the Castle. Instead, the movie company has reproduced, Hollywood style, the top room of the Castle. This structure is located on the ledge almost directly above the ruin so as to include the surrounding scenery as seen from the top floor of the Castle. It is quite an elaborate affair, including a roasting pit, several floor levels and plenty of room in which the stunt men can do their stuff. Unfortunately, I have not yet learned who wins the bet or the fight, or for that matter who fights whom. At any rate, the construction crews have completed their work and filming is slated to start tomorrow, November 27. Filming was supposed to have started last Monday but was postponed because of several cloudy days which caused the company to get behind schedule on its work near Sedona.

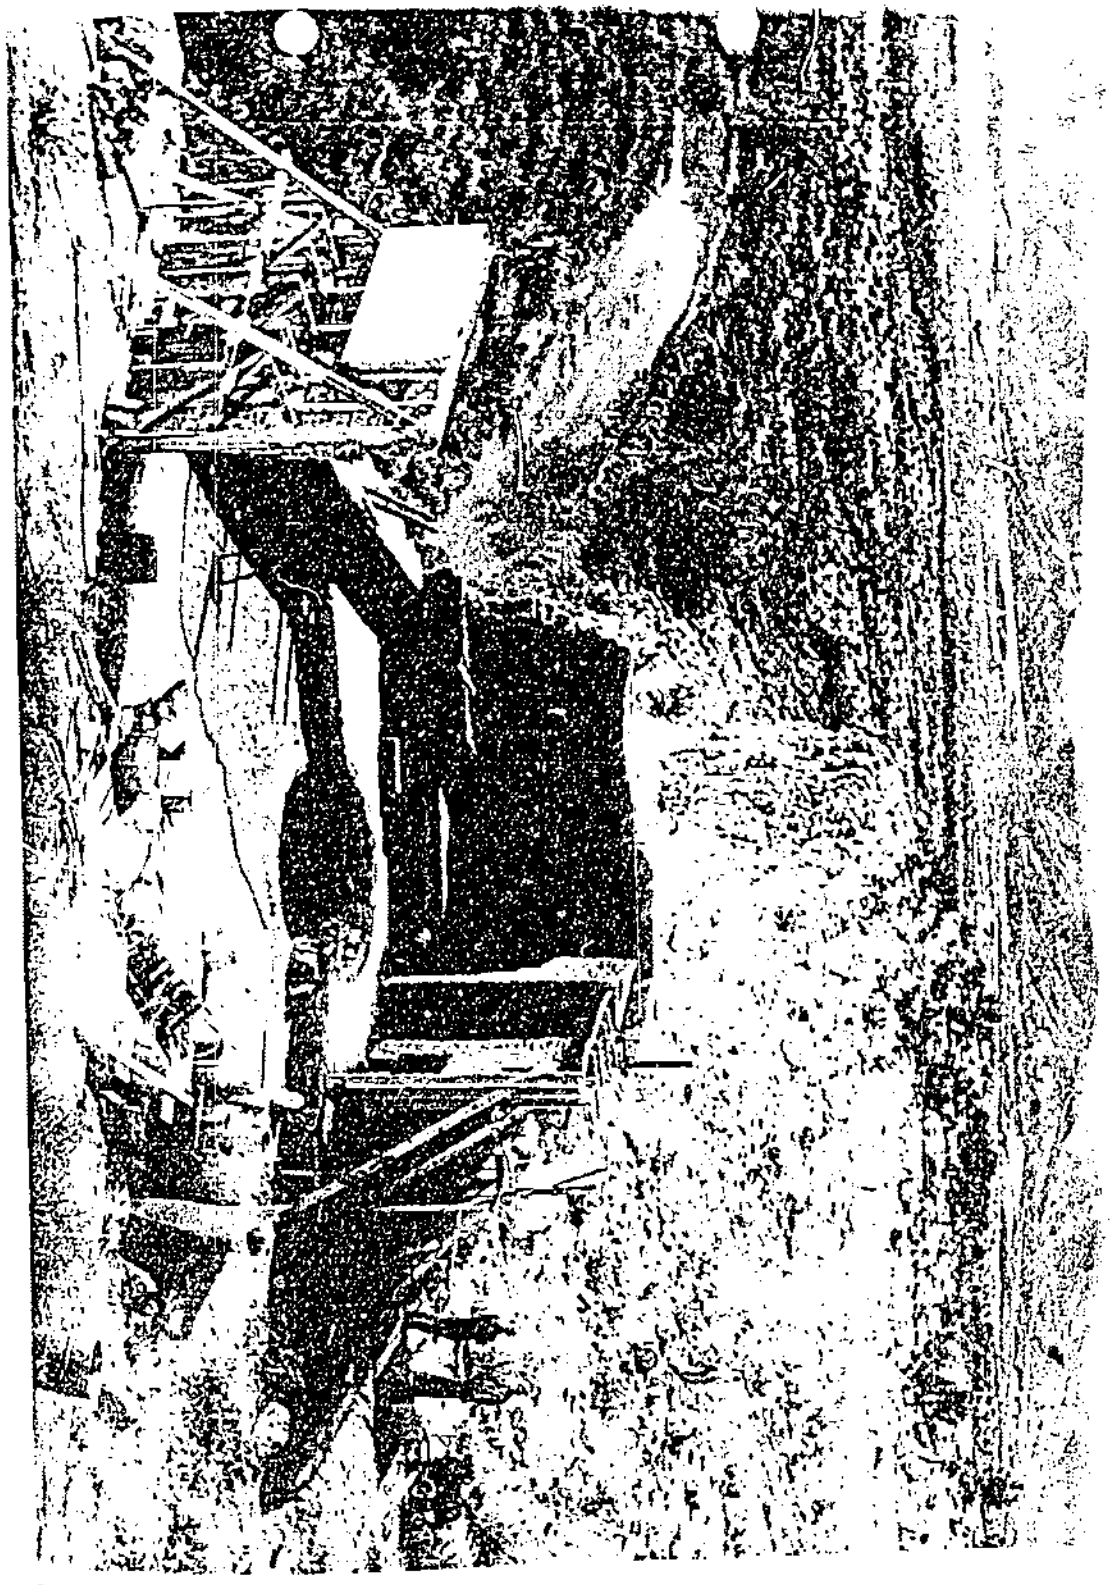
The October issue of "Arizona Guide", a magazine published in Phoenix, had as its cover picture a photo of Montezuma Castle and included a correct history of the pre-historic people who inhabited the vicinity.

-Montezuma Castle -

Construction & Maintenance: The new Almatta water well was completed and the pump tested and placed in service on November 10. The old badly worn suction rods to the pump were replaced with 81 feet of new oak rods. The well penetrs a depth of 100 feet with the water level standing at about 70 feet, and the plan has been checked at one thousand gallons per hour with no noticeable drawdown. This, it seems, is more than sufficient to meet the needs of this area.

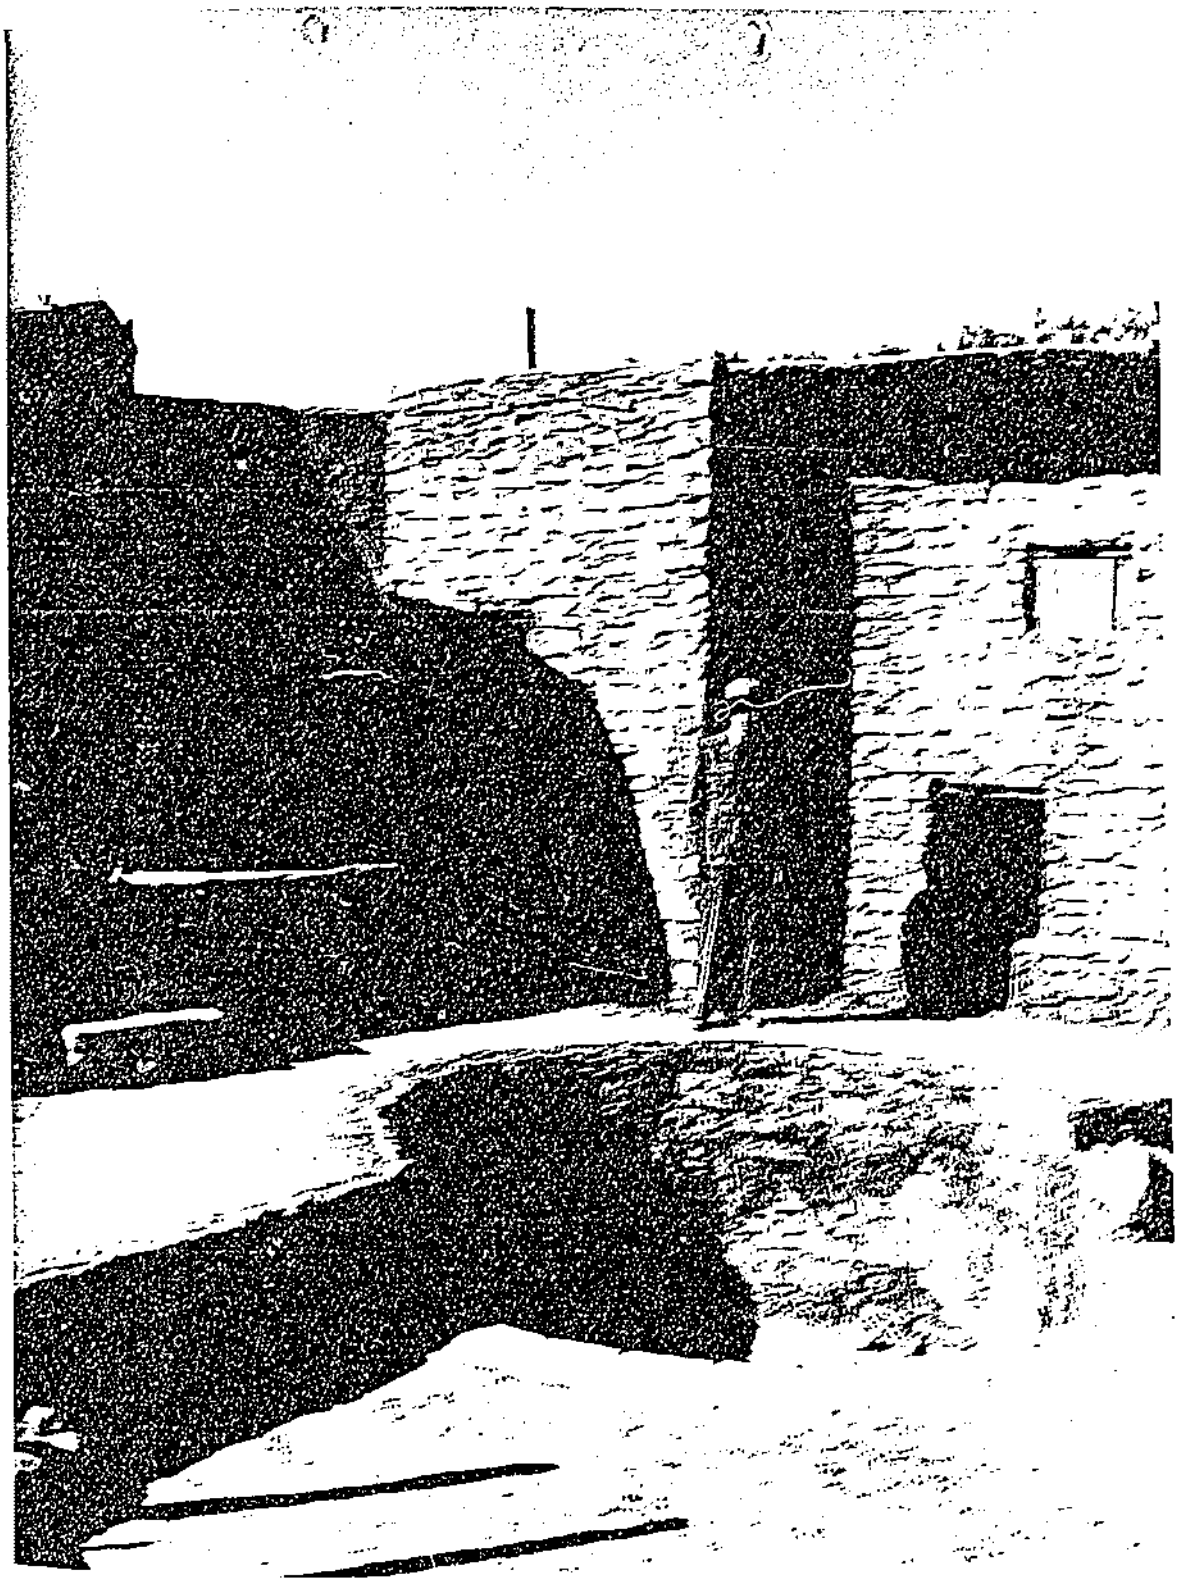
The weather station was overhauled and reinstalled during the month.

Roads & Trails: Construction of the Hollywood Hill Jeep trail is progressing nicely. Most of the month was spent in building steps from the water level to the crater rim. This has been a tough job, since plans require that steps be built which will give that climb. All steps are made from native stone, and it is felt that they blend nicely with the surrounding cliffs. Upon completion of these steps, work will start on the section from the water level to the lower terrace at the well outlet.



The County maintenance has spent a day in the blue shading of the shoulders on the entrance road.

Personnel: Ranger Clancy and family contemplate to make Grande on November 15 where [illegible] will arrive on duty on [illegible]. Mr. and Mrs. Jim Clancy family, and relatives have all been working in the area. They are from Colorado Highway, and have to my knowledge [illegible] most appointments with the service. [illegible] Inquire.



On November [illegible] Ranger Clancy made a trip to [illegible] for the purpose of [illegible] new federal plates. This trip was [illegible] and [illegible] Thursday and [illegible]

John D. [illegible]
Superintendent

[illegible]

This is the way the interior of Montezuma Castle will appear in the motion picture tentatively entitled "Devil's Canyon." The set is located on the white cliffs directly above the Castle. Photographed November 28, 1960.

Superintendent Cook stands inside the motion picture set where the hero and villain will fight to the death -- the victor presumably to win the fair hand of the gal. The "earth" floor on which the superintendent stands is actually several feet above ground level. The "rock" walls consist of plaster cast sections. Photographed November 28, 1950

November 28, 1950

Memorandum

To: General Superintendent

From: Superintendent, Arches

Subject: Monthly Narrative Report for the month of November, 1950

WEATHER: A decided change from the warm October weather came around November 1 with heavy overcast skies, but no moisture.

TRAVEL: Due to the continued dry weather people entered the area up to the day the area was closed on November 10. The total of 70 people in 31 cars as compared with 21 people in 8 cars during the same period last year shows quite an increase.

INTERPRETIVE SERVICES: Of the 70 visitors 44 were contacted at headquarters and 26 arrived during the ranger's absence.

TRAILS: With the completion of the new ladder construction on all t trails last month Ranger Redd was able to spend over a week on grading and drainage.

PERSONNEL: Ranger Redd was terminated on November 10 , having checked in all equipment.

GENERAL: The area was closed for the season on November 10 and Ranger Worthington & I made a trip to the area to check and haul all equipment to Arches.

Bates E. Wilson
Bates E. Wilson
Acting Superintendent

Navajo National Monument
Tonalea, Arizona

November 27, 1950

Memorandum

To: General Superintendent

From: Superintendent, Navajo

Subject: Report 1m1, Narrative Report for November, 1950

Travel: Thirty-one persons found their way to Navajo this month, 7 less than in November, 1949. Approximately one half the visitors were locals who came to see the new house addition.

Weather: Only .12 of an inch of moisture has fallen during this report period. The temperature on one occasion went to 4 degrees which indicated winter was here but a little snow would make it more convincing. The average high temperatue about 55° and the low 35° for the month.

Roads: A minimum of road work has been done because it has been too dry. All approach roads are rough and sandy.

It was noted on a recent trip to the Hopi villages that the U.S. Indian Service has started spending, in earnest, some of the Navo-Hopi money, on reservation roads. The current project is one of rebuilding the road from near New Oraibi, east toward Window Rock. Upon completion of the road building projects there will be two all weather roads across the Navajo Reservation. The quiet valley floor of Klethla Valley, now known as Calamity Flat, will hear, not the sound of singing, solitary, Navajo horsemen, but that of singing tires instead.

Construction: The garage and bedroom additions are completed except for some interior trim and painting yet to be done and the cement floor in the garage to be poured. The outside trim was primed and painted, insulation was obtained from Walnut Canyon and installed in the new additions and also in the previously constructed house. The area around the building has been cleaned and backfilled.

General: Clean up near the construction project, replacing the juniper post fence and putting things away has taken most of the time since we stopped work on the building, November 15. A considerable amount of time has been spent on paper work. The office is being moved into the new bedroom, temporarily.

The entire residence has been cleaned and the floors refinished. Previously we had a three room house and by adding to each end of it it has been enlarged, however, we were forced to live in the center room since both end rooms were open to the elements. The task of removing stone and plaster walls was attacked with such vigor that plaster and cement dust was found everywhere in the house.

When the house was sealed sufficiently to warrant the use of the hot air furnace, it was found as much smoke was circulating through the hot air pipes in the house as was going out the chimney. The furnace was completely disassembled, all furnace pipes and chimney pipes were cleaned. The furnace was put together again and all seams and joints in the furnace and hot air distribution system were cemented. It works like a dream!

The winter wood supply was hauled, cut and stacked. We have plenty of kindling by using scrap wood from the building job.

We are having some trouble with the water system, however, when new parts are installed perhaps we may have an efficient system. By the process of elimination in replacing pump parts, we hope to find the difficulty.

Our shipment of anti-freeze was reported to have arrived in Flagstaff some 4 weeks ago. When I went to pick it up it had been sent on to Camden, New Jersey for some unknown reason.

Miscellaneous: With a fair share of the $8,300 for construction at Navajo Mountain in the pockets of our Navajo Indian workmen, there has been a minor buying spree in progress. Two or three new saddles ($150 each) several new blankets, rings and bracelets have been purchased and one man has had a five day "fling".

Visitors: Robert Young and H.S. Sabin, attorney with the Solicitors Office, Washington, D.C.
Architect and Mrs. Kenneth Saunders, Region Three Office.

NATIONAL PARK SERVICE

Organ Pipe Cactus National Monument
P. O. Box 38, Ajo, Arizona

November 25, 1950

Memorandum

To: General Superintendent

From: Superintendent, Organ Pipe Cactus

Subject: Monthly Narrative Report for November 1950.

Weather

High of 94 oscured on the 28th October and a low of 31 on the 12th of November. The little cool spell broke a long heat wave over this section and was very welcome by all. A light rain of .44 inch fell on the 15th of November to bring our year total to date to a little over 3 inches. Pretty dry all year.

Special Activities

Regional Director and Mr. Allen of Region One visited the area October 29. They were accompanied around the area and to Punto Penasco, Mexico by the superintendent.

Communications Engineer Gable arrived with the Radio test truck November 5, but was recalled to the Washington office before tests could be made.

One trip to Tucson was made by the Superintendent taking Mr. Gable to catch a plane and to pick up some equipment from Saguaro National Monument.

Cooperating Agencies

Application to establish a headquarters camp for the Bureau of Animal Industry in our headquarters area was received and forwarded to the regional office for action and comment.

Research & Observations

Observation of a Steklers Jay this month was a new record for the monument and probably for any desert valley. Galls from a new species of Jatropha were collected and sent to the Arizona State College at Tempe for study.

Travel

Travel the first of the month remained light but with the storms in the northern part of the country it is now gaining momentum. Campers are starting to arrive in force and trends are now toward a very busy season.

Personnel

James W. Shirley, who has very capably filled our vacant ranger position, was terminated November 19 at the end of his appointment. We are going to be very short handed until the arrival by transfer of Ranger Landing about December 10.

William R. Supernaugh
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Saguaro National Monument
Tucson, Arizona

RECEIVED
4 NOV 1950
National Park Service
Region Three
Office

November 25, 1950

Memorandum

To: General Superintendent

From: Superintendent, Saguaro

Subject: Monthly Report, November 1950

General

Visitation and lack of rainfall are items of major importance in the month of November. Rainfall was nil in the desert portion of the monument and only one light shower was noted at Manning Camp. Seriousness of the drought is showing in various cacti. Many are shriveling up considerably and assuming a parched pinkish tinge.

The drought situation has caused a serious water shortage at Madrona Ranger Station. If relief of these conditions is not immediate water hauling must be again undertaken.

On the other hand visitation has increased substantially. This month showed an increase of about 60% over last November. The winter trek of the "sun worshippers" is underway. Traffic and trade are on the upswing and Tucson is cleaning up for the arrival.

One explanation for the increased travel to Saguaro National Monument is the excellent publicity we received in the October issue of "Arizona Highways". Many visitors reported that this article was directly responsible for their stop at Saguaro.

Special Activities

Associate Director Demaray visited the area on October 29-30. He inspected the construction of the Madrona Bedroom addition, discussed the proposed land exchange, and viewed possible sites for new construction.

Chief Forester Coffman made an official inspection of the area on Octob r 27. Fire control problems and communications were discussed.

Regional Director and Mrs. Thomas J. Allen of Region One visited the area on October 31.

Maintenance

Work is nearly complete on repairs to the Pack Trail between Manning Camp and Grass Shack.

The Cactus Loopread was bladed completely in November. It is in good condition at present.

All vehicles were winterized in November.

Approaches to Park Area

The Broadway approach was bladed twice during November and at this writing is in fair condition. With the increased travel the road becomes rough a short time after grading.

The Vail approach was bladed once during the month and is in good condition.

New Construction

Painting and a few other odd jobs will complete the Madrona Bedroom Addition. During the month sheetrock was installed, plumbing completed, and butane tubing laid. Funds expended are $1893.26 leaving a balance of $506.74.

Interpretive Services

A total of 1414 persons in 435 parties were given interpretive service at headquarters. This amounted to 111 hours for an average of 15 minutes per party.

Ranger Benson gave an illustrated lecture on Saguaro National Monument to a group of 15 at the monthly N.F.F.E. meeting on Nov. 8 and again to a group of 100 on Nov. 15 under the auspices of the P.T.A. at the Sam Hughes School in Tucson.

Research

Dr. Douglas of the University of Arizona has undertaken further studies in ring growth-age correlation of Saguaro ribs.

Mr. E.P. Haddon, former chief photographer of the U.S. Fish and Wildlife Service and still in collaborator status, expressed interest in photographing various wildlife features of the Monument.

Observation

An exceptional increase in wildlife observations was noted during November.

Javalines- Nov. 1, one group of 15, one group of 10.
" 4, one near Cactus Ranger Station.
" 11, group of 8 near Peccary Hill.
" 19, several
" 21, group of 18 near Peccary Hill.

Mule Deer- Nov. 17, four-very tame, visitor obtained photo.
" 21, two

White-Tail Deer- Nov. 22, four east of Manning Camp.

Bobcat - Nov. 21, one in cactus area.

Bear - Nov. 22, tracks below Manning Camp

Increase in Travel

A total of 3168 persons visited Saguaro National Monument in November. This represents an increase of 1204 visitors as compared to last month, and an increase of 1231 visitors over the corresponding month a year ago.

Visitors

Oct. 27, Chief Forester and Mrs. John D. Coffman, Washington D.C.
" 29, Associate Director and Mrs. A.E. Demaray, " "
" 31, Regional Director and Mrs. Thomas J. Allen, Richmond Va.
Nov. 3, Dr. Douglas, University of Arizona.
Nov. 7, Mr. Howard Cromwell, Assistant General Superintendent, Department of Parks and Recreation, Detroit Mich.
Nov. 11, Mr. Rex Gary Schmidt, Chief Photographer, U.S. Fish and Wildlife Service, Washington, D.C.
Nov. 15, Bill Supernaugh and family, Organ Pipe Cactus Nat. Mon.
Nov. 19, Mrs. Maude B. Chaney, Bedford Iowa.
Dr. Louis B. Schmidt, Iowa State College, Ames, Iowa.
Nov. 20, Mr. Victor Coty, naturalist and lecturer, New York City.
Nov. 21, Mr. Jack Verkamp and family, Grand Canyon National Park.

Ranger Service

Deer hunting season passed without incident. Boundary patrols were maintained and all hunters contacted knew where the boundary was located. Cloth boundary signs were renewed along the boundary before the season began.

Accidents

Ranger Benson suffered a strained back while lifting some lumber on October 31. After a one day recuperation he was back on the job in light duty status. At this writing he has completely recovered.

Personnel

Laborer Arthur P. Garcia received a 180 day appointment extension on November 3.

Maintenancemnn Barney left on annual leave on November 8 in quest of the deer and the elk.

Miscellaneous

All employees at Saguaro are commended for their 100% subscription to the Tucson Community Chest.

Office

TONTO NATIONAL MONUMENT
ROOSEVELT, ARIZONA

November 25 1950

Memorandum

To: General Superintendent, Southwestern Monuments.

From: Acting Superintendent, Tonto

Subject: Narrative Report, November 1950

Weather: The end of October and the first portion of November remained warm. Things cooled off around the 9th of Nov. and the stoves were put up, but after a few days of temperatures down to 40°, it warmed up again and has been very pleasant. Temperatures the last few days have gotten up into the 80's and the banana belt is at its best. A light soaking rain fell on the 14th to dampen and otherwise extremely dry fall.

Approach Roads: For the most part rough and dusty. The 8 mile section of Route 88 on the Globe end is almost blacktoped and should be finished by the end of the month.

Travel: This month brought 988 visitors in 313 cars as compared with 1246 a year ago. This decrease may be due to construction work on highways 88 and 70.

Personnel: A son, Dale Frederick, was born to Archaeologist and Mrs. Pierson on the 2nd of Nov. WAE Guide Joe Connor was employed for one day while Pierson was on annual leave to await the arrival of the new baby. Road and trail men, Cook, Loon and Cano were terminated on the 3d.

Visitors: Ranger Al Henson of Tumacacori on the 25th of Oct., to deliver a chain hoist. Ray Mattison and wife, historian with NPS at Region II office on Oct. 27 to visit the Sharps. Johnnill Faris of White Sands for a short stop on Oct. 28. Al Rexio, former temporary ranger at Rocky Mountain National Park to spend the night of the 30th. Tom Honeomer, staff photographer of the Arizona Republic and friend of Joe Connor spent the 31st and 1st with us taking photos for a feature article on Tonto to appear in the Republic. Charlie Steen on Nov. 7 to inspect the recent excavations. Miss Bernice Beach, sister of Mrs. Sharp, for an extended visit on the 10th. Ranger and Mrs. Robert Brenger of Sequoia National Park on the 19th.

vehicles: Sgt. Sharp left on the 4th in the 1½ dump truck to attempt to make it to Nome in mud plus up a new truck for this area.

wildlife: New records for the month include: a redpoll sapsucker, an Alaska jay and a California jay. A flight of white pelicans hovered over the settlement for some twenty minutes but made no attempt to land (too dry I guess). A spotted shark took refuge in one of our outhouse pits and was finally removed with no shots fired on either side. Seadlins are frequenting the dragon again.

water supply: Reports from the State Department of Health show our water supply to be totally contaminated. A representative of the Health Department was out on the 26th of Nov. to instruct us in chlorating of the contaminated to check on possible sources of it. We left some chlorine solution to be used & I it is hoped that this will clear it up.

sanitation: Sod and brick privies were closed out by the 3 man sod and trail crew. The Nome Water Unit was reinstalled and line connected to residence #3. The main fuel oil tank was put in place and filled. Stoves were installed in the museum and schoolhouse. A new chimney pipe was placed in the fireplace in residence #3. Anti-freeze has been put in all vehicles and motors.

Lloyd [illegible]
[illegible] Coordinator/Asst.

NOV 1950
RECEIVED
National Park Service
Region Three
Office

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Tumacacori National Monument
Tumacacori, Arizona

November 25, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Tumacacori

Subject: Superintendent's Monthly Narrative Report for November, 1950

Weather: Our summer and autumn drowth continues unabated. Precipitation for the month was zero, compared with an average November rainfall of .365 for the past 18 years. Temperatures ranged from a maximum of 95 on October 29 to a minimum of 31 on the night of November 11. Average temperature has been delightful, with clear sunny days and brisk nights.

Visitor Travel: Travel reached a new November high of 2,223 visitors, arriving in 710 motor vehicles. This visitor figure compares with the previous November high of 2,076 in 1949. Each of the past six months has set a new travel record for its respective period.

Interpretive Service: 937 persons went on 192 guided trips thru the mission church and grounds, receiving an average of 35.05 minutes per trip. 2,118 persons received combined Information and Interpretation Service, and 2,126 saw the museum and patio garden.

Visitors: Among those present were:
10-27 - Clyde Maxey, Seasonal Ranger, Rocky Mountain National Park. Has visited 16 park and monument areas thus far.
11-1 -- Regional Director and Mrs. Thomas J. Allen, Region One, National Park Service. Very interested visitors.
11-17 - Superintendent and Mrs. H. C. Bryant, of Grand Canyon National Park.
11-21 - General and Mrs. Thomas Green, Washington, D. C.

Inspections: 11-2 - Archaeologist Charles Steen, of the Region Three Office.

Publicity: 11-20 - Ted Rosin and Gordon M. Watkins, professional photographers of Portland and Salem, Oregon, were in taking pix for free-lands work.

Museum and Education: On the evening of November 7 the superintendent gave a slide illustrated lecture on Arizona Reptiles, at the nearby Santa Cruz Valley School. This was a 60 minute talk to an interested group of 15.

During most of our very little spare time this month Ranger Henson and Sup't Jackson have been keying out technical identities for the various patio garden plant species and looking up interesting and informative text matter about them. The object in mind is to put numbered stakes with the plants in the garden, and to work up a nature trail type leaflet which garden visitors may use.

Equipment: During the month Ranger Henson went to Santa Fe and drove back a new Dodge ½ ton pickup truck to replace the very elderly Ford pickup here. On the return trip he delivered some supplies to Tonto National Monument and brought to Tumacacori a new automatic water heater.

Maintenance: Routine maintenance was kept current. Extensive dead weed cleanup on grounds and around trash disposal pit was effected, and much more dead weed material was added to our compost pit. More Bondex painting was done on the patio garden wall. Linseed oil and pigment stain was applied to woodwork of one of the residences and part of the other, and to the two picnic tables. Some additional planting was done in the patio garden, including an attractive native Groundsel which should bloom in February or March. A hot water ~~tank~~ was installed in the government garage in a walled-off laundry section. A permanent shelf was installed across the length of a room in Residence No. 1. A new and larger metal grate was installed in lieu of the poorly functioning old one in front of the museum in the walkway. Under the new grate a large gravel settlement box was installed, to take care of puddling rain water (if it ever rains again, which we doubt). A window box was made for use in the south office window in winter. In this box are planted various desirable seeds to help get the patio garden off to a good start next Spring after the frosts end. Extensive irrigation was necessary during the month to keep our plantings in the garden and on the grounds vigorous.

First Aid: Late on Thanksgiving Day one Calvin Belford, an employee of the P.M. Ranch near here, came in for First Aid to a badly cut elbow. It seems he had climbed up a tree after a treed raccoon, and sustained a fall when a weak limb collapsed under him. The elbow was badly gashed, and his neighbors had put soot in the freely flowing wound "to check the bleeding." Ranger Henson cleaned out the sooty mess around the opening of the wound, bandaged it, and sent the injured man to a doctor.

General: I think we are keeping up our visitor contact work in good shape. This keeps us so busy, however, that progress on anything else is distressingly slow at this season. Will be glad to see the winter ranger arrive in December.

Earl Jackson
Earl Jackson
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA

November 25, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Tuzigoot

Subject: Report 1mi, November 1950

There follows a narrative report of activities in this area.

VISITORS

1212 visitors in 413 cars. 1122 visitors in 379 parties were contacted and oriented in the museum. 1127 visitors in 500 parties made the trip thru the ruins. 100% of the 8-12 A.M. 1-5 P.M. visitors were contacted.

N.P.S. Visitors

Johnnie Faris of White Sands National Monument on the 25th;
Fred and Mrs. Brueck of Grand Canyon National Park on the 30th;
The Hadleys of Walnut Canyon on November 1.
Assistant Director and Mrs. Conrad Wirth, on November 2, during an initial tour of the Southwest following the NPS Conference at Yosemite.
Mr. and Mrs. Bob Branyon of Sequoia-Kings Canyon National Park on the 20th;
Superintendent and Mrs. John Cook, Montezuma Castle, on the 24th.

REPORTWORTHY VISITORS

Dr. H. S. Colton, Director of the Museum of Northern Arizona, on the 16th.

ORGANIZED GROUPS

30 students from St. Joseph's Academy, Prescott, on the 2nd.
27 6th Graders, from Clarkdale Public School, on the 16th.

PERSONNEL

Archeologist Richert returned from annual leave on the 1st.

SPECIAL ACTIVITIES

An assignment to photograph Montezuma Castle to aid in the construction of a scale model was commenced November 6 with the preparation of equipment. On the 6th we made 30 shots, 23 of which were interior flash light exposures. Without darkroom facilities we are greatly handicapped in processing material in such a large quantity. Development must be done at night. 80 additional shots were made on the 8th.

The Superintendent accompanied Ranger Clancy of Montezuma Castle to Santa Fe on November 1, for the purpose of taking delivery on new pick-up trucks for the respective areas.

MAINTENANCE

The Phelps Dodge Mining Corporation recently increased the height of the existing earth dam containing the tailings pond adjacent to the Monument, and in the process buried the top of our boundary fence for a distance of 10 feet permitting cattle to enter. It was necessary to fence across this distance to make it cattle-proof.

The space heater was cleaned and installed in the quarters.

A furnace expert made necessary adjustments on the Museum furnace to make it burn properly and efficiently. Filters have been ordered for the registers. When installed, these will cut down the amount of soot which heretofor permeated the Museum when the furnace blower was turned on, and will render less arduous our daily routine of cleaning exhibit cases. The furnace now tests 75% efficient.

IMPROVEMENTS

Asphalt tile linoleum was laid in the kitchen and bathroom of the quarters.

The county grader bladed the approach road on November 16.

Handrails were made for the stairway leading from the parking area to the Museum. The stair is rather wide and steep so one rail was placed on each side. 1½ inch pipe was used, and has been painted a desert tan.

A rack for hand tools was constructed in the garage.

A "built-in" storage cabinet was made by using the lower part of an exhibit case. It will be used for storing SWPA sales publications, which organization donated funds for the materials.

A new lavatory was purchased and installed in the bathroom of the quarters.

Considerable time was spent on the manufacture of signs. Routed in a rustic design with dark shingle stain background and lettered in glossy white, they will lend a neat and uniform appearance to the area when completed. Those completed and positioned include: a Museum entrance sign, "Superintendents Residence", rest room signs, one trail sign at the ruins, and a "cat and dog" sign.

A survey on Museum Planning was started by Archeologist Richert on one of his days officially off duty. A study was made of the Museum of Northern Arizona and Walnut Canyon Museum. Museum Exhibit Plan material was collected at both these museums and research is underway for the proposed Tuzigoot Museum reorganization.

GENERAL

Like old times to have a memorandum from the Regional Office signed by Hugh Miller. Further nostalgia was imminent the 26th and 27th when Superintendent and Mrs. Everett Bright returned to Tuzigoot for a get-together we should have had at the time of our transfers.

J.W. Brewer Jr.

J. W. Brewer, Jr.,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Walnut Canyon National Monument
Flagstaff, Arizona

November 25, 1950

Memorandum

To: General Superintendent

From: Superintendent, Walnut Canyon

Subject: Monthly Narrative Report, November, 1950

Weather Visitors this month 1226; travel year to date 3163.

Weather Ideal travel weather has prevailed throughout most of the month. A storm on November 14 brought the first snow even on the San Francisco Peaks. The minimum temperature was 18° above zero.

Administration Much of our time has been required for visitor contact because of unusually heavy travel for this season. Any time that could be spared has been spent in repainting the exterior woodwork at the quarters.

Ranger Leding took 24 hours of annual leave and Superintendent Hastings the same amount.

Use of Monument by the Public There were 1226 visitors in 457 cars. This is a visitor increase of 7.2 per cent over the same period last year. Visitors contacted totaled 927 in 342 parties with a total of 35 hours and 55 minutes spent on contact. There were 1134 visitors in the museum in 425 parties. Twenty-six picnic parties including 97 visitors were counted.

Interpretation Nineteen plant specimens identified by the National Herbarium were returned.

Maintenance and Improvements New "Men" and "Women" signs were made for the restrooms.

Two coats of "dri-fall" waterproofing were applied to the restroom walls beneath the roof drains. Repairs were made to the plumbing in the Ladie's restroom.

Two truck loads of waste lumber were hauled from Flagstaff for the picnic ground grills.

The project to install new oil burning furnaces is progressing. Two 500 gallons tanks were purchased and have been buried. This required the use of a jack-hammer since most of the excavation was in solid rock. Excess dirt and rocks have been hauled away and lines have

been run from the tanks into the quarters. Early delivery is expected on one furnace but there will be some delay in getting the other. Invitations to quote prices on diesel fuel have been submitted to all Flagstaff vendors.

Repainting the exterior woodwork at Residence No. 1 is almost complete and is well started at Residence No. 2. More time was required to remove the old paint and prepare the surface for repainting than in applying the new paint.

Tar was applied to all joints in the roof drains at the quarters and some patching was done on the roof over the museum.

Protection Frequent patrols for hunters were made throughout deer season. Neither hunters nor deer were numerous and no trespass was noted. One neglected fire was discovered and extinguished.

All water base fire extinguishers exposed to freezing were emptied and dried. Our one carbondioxide extinguisher was given a hydrostatic test and recharged.

Supplies and Equipment Seventeen rolls of Kimsul Insulation were released to Navajo National Monument and a visa was transferred to that area.

Roads and Trails The project to re-cinder our entrance road was terminated October 31 when our small allotment of funds was exhausted. Joe Bean brought the motor patrol from Wupatki to spread the cinders and get the road in shape for winter.

One-half barrel of bitumuls was used in patching the walk to the museum.

National Park Service Visitors

[illegible]

STATUS OF PRIVATE LANDS

The Army Real Estate Division wrote us a letter, dated November 13, 1950, requesting us to hasten the revision of our grazing leases. They were informed that this has been done, with the approval of our Regional Office, several weeks ago.

GENERAL PUBLICITY

Twice this month we have rated "Let's take a Trip", a feature carrying local points of interest to visit on week-ends or short trips. One was in the local Air Base publication.

COMPLAINTS

We have not received any complaints of any nature in this office. Once in a while a visitor will complain a little on being caught in one of the Army road blocks. But they realize that this inconvenience is one thing we cannot control and are never too bitter about it.

MAINTENANCE

Much of our time has been spent in our attempt to preserve the remaining plaster on many of our buildings. In nearly every case we have found that our cardinal fault lies in the parapet wall cracks and water getting into our walls from this source.

We have capped nearly all of our worst breaks in our more important structures and we hope to tear off some plaster in our utility area and try just a mud wall.

Our underground water tank sprung a leak and it has probably served its last days since it has been in constant service since 1936. Attempts shall be made to make temporary repairs in hopes of getting our water system early in the next fiscal year.

Roads are in fair shape. Joe has taken off several days not planned in our schedule and additional work will be necessary to get our roads back to our desired state.

PUBLIC SERVICES

The White Sands Service Company reports a month very close to last year's. Our increase in visitation does not reflect in the Concession's sales.

CONSERVATION ASSISTANCE AGENCIES

A nice load of tin was obtained from Nava Verde and we are very appreciative of this sheet iron. We hope to get more of it a little later.

Some surplus pipe we had hoped to get from the Army was bid on at an enormous price so our pipe is back. We are hoping to get more of this, too, from Nava Verde. From what I hear on this dividend, Bob Rose and Perry Brown are so to nearly any area in the Southwest and feel right at home what with all the Nava Verde tin scattered about. Anyway, we thank them for our share.

INTERPRETIVE SERVICE

Perhaps it is imagination, but it seems visitors off season desire more attention or appear more interested than our heavy season visitors. Maybe, too, we are just able to notice the desire more with less visitors. Anyway, the winter months show an additional desire for information.

INCREASE OR DECREASE IN TRAVEL

Two thousand three hundred ninety-seven cars, with nine thousand one hundred fifty-three people for November, surpass any similar month in the past, although our gain is not as spectacular as some have been. The same is true of our Travel Year to Date.

VISITORS

National Park Service

Don Erskine, former Mesa Park Ranger
Mr. & Mrs. Glen Bean, Grand Canyon Natl. Park
Mr. & Mrs. Cal Miller, Platt National Park
Mr. Richard C. Frazil, Carlsbad Natl. Park
Jon Lentz & companions, Region Three Office
Mr. Lyle Bennett, Region Three Office
Mr. Dick Sutton, Washington Office
Mr. Jerry Miller, Region Three Office
Mr. & Mrs. R. W. Allen, Bandelier Natl. Mon.
Jean & Marjorie Stevens, Nava Verde Natl. Park
C. Henry Lister, Platt National Park

Other

Glen Hansel, Denver Post
Lumber Retail Dealers group, El Paso, Texas
Mr. Christensen, Life of Children Home Society, Phx. Ariz.

ACCIDENTS

One call was answered seven miles southwest of our area. A California car blew out a tire. Of the two occupants in the car, one suffered a broken shoulder blade, requiring ambulance service.

GENERAL

Hunting season vacations, etc. have kept, and will continue to keep, us short-handed the balance of the year. A list of things to be done has been estimated to keep us all busy for about three years, so I guess we will not lack for something to do.

Winter should be ushered in, too, next month, so perhaps some repairs we always put off will get some attention.

Johnwill Faris.
Johnwill Faris,
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Wupatki National Monument
Flagstaff, Arizona

Nov. 30, 1950

To: General Superintendent

From: Superintendent, Wupatki

Subject: Monthly Narrative Report for Nov. 1950 - Wupatki & Sunset Crater

Weather. Dry!! A trace of rain was recorded at Wupatki on Nov. 14. At the same time Sunset Crater received a trace of snow. Roads, grazing and etc. are suffering accordingly.

Inspections. Asst. Director Conrad L. Wirth visited the area on Nov. 5.

Mr. Kenny Saunders was in the area on Nov. 15. The completed roofing and heating projects on the superintendent's residence were inspected and maintenance problems discussed.

Maintenance. Not much this month (see personnel). Mr. Viklund removed the old peaked roof on the CCC office at Kaiser Spring and replaced it with one of more conventional slope. With a coat of paint it will now look more in keeping and will make a very good shed for the light plants.

Monument Roads. Monument roads are becoming progressively worse due to lack of moisture. Traffic and wind are removing the road bed and leaving us with assorted cobble stones and wash board. With winter moisture, if any, considerable grading will be necessary. Visitor comment from the register, "Roads are in unpardonable condition."

Interpretive Service. At Wupatki ruin 213 visitors in 61 parties were contacted for an average of 25 minutes. Approximately 216 visitors used the Nalakihu-Citadel Trail.

There was no interpretive service available at Sunset Crater. Eventually we will have to face the fact that the Crater road just won't snow shut 6 months out of the year. In fact as of Nov. 30 dust, not snow, is the problem.

Travel. Some slight increase for this month. With the installation of the Nalakihu-Citadel Trail more people are now turning back at the Citadel. Poor roads and a good "taste" of ruins are probably the reasons.

	Cars	Visitors
November 1950	140	350
November 1949	98	293
This Travel Year	336	853
Last Travel Year	276	824

Wildlife. A band of 11 Antelope have been observed serveral times in the vicinity of the Citadel

Visitors.

10/28 Ranger & Mrs. Ben Zerbey & son, Saguaro National Monument
11/3 Conrad L. Wirth, Washington Office
11/6 Mr. & Mrs. Steve Brodie, Museum of Northern Arizona
11/15 Mr. & Mrs. Kenny Saunders, Santa Fe

Personnel. This month has been one of coming and going and nobody home.

Bowen - returned from AL on 11/5 on SL 11/20 to 11/30
Walker - AL 11/9 to 11/14. SL beginning 11/18
Bean - AL beginning 11/2

Former temporary ranger Viklund was in charge of the area from 11/20 to 11/30 during the unplanned absence of the superintendent.

Spring Flow. Wupatki - 412 gpd
Heiser 2160 gpd

NAME Butler E. Nelson
TITLE ~~Superintendent~~

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE MATERIAL, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND SERVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND SERVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. FIGURE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE AND EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 9m3) AND 5 (REPORT 9m3).

REVISED MAY 1945.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR FURNISHED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLACE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 6 (REPORT 6M3) AND 9 (REPORT 9M3).

REVISED MAY 1949.

NAME Homer J. Farr

TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits in place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and trails, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report Sm3) and 9 (Report Sm5).

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE ENCLOSED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHALL NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATES; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8m3) AND 9 (REPORT 9m3).

REVISED MAY 1949.

NAME [illegible]
TITLE Park Naturalist

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Form No. 10-769
Reports 8m3 and 9m3

MONTHLY STATISTICAL REPORT OF INTERPRETIVE SERVICES IN NATIONAL PARK AREAS.

NOV 1950
RECEIVED
National Park Service
Region Three
Office

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE UNIT, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL BUILDINGS SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, ETC., OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE SERVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS BEARING INTERPRETIVE DEVICES, ROADSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN TOURS, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PREPARED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8n3) AND 5 (REPORT 9n3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accomodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9a3).

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF ITEMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO CURIO AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.
TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE SERVICE.
ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CURATOR STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATION OR OFFICER DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.
INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATION, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.
INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS POSSIBLE INTERPRETIVE SIGNS, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.
INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHALL NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE SERVICES, THIS ATTENDANCE WILL RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DUE THE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT RM3) AND 9 (REPORT RM3).

REVISED MAY 1950.

AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

26 December 1950

Memorandum

To: General Superintendent

From: Superintendent Aztec Ruins

Subject: Superintendent's Monthly Narrative Report Iml

WEATHER: Generally warmer than November and no snow for Christmas. We did, however, have two light snow flurries in the early part of the month for a total of 0.9 inch.

NEW CONSTRUCTION: As time has allowed, the Monument personnel have continued to haul dirt and fertilizer in the landscaping program at residence No. 3, have transplanted numerous native shrubs and now have the landscaping about 3/4 complete.

MAINTENANCE: Because of the extremely dry condition of roadside growth we have burnt off a strip along the south boundary of the monument, so to lessen the fire danger from man caused sources. This boundary parallels the county road.

INTERPRETIVE SERVICES: We have taken 322 visitors in 59 parties thru the ruins and 616 visitors visited the museum in 132 parties.

INCREASE IN TRAVEL: Approximately 49% more people visited Aztec this month than in December last year. Our count was 616 visitors in 177 cars from 30 states, Wash D.C., Alaska, Canada, France and Peru.

VISITORS: Engr. and Mrs. O. Rawhauser, Bureau of Reclamation, Denver, Colorado, visited Dec 16. Mr. Harold Thatcher, Soil Conservation Service visited from Farmington, N.M. Dec 1. Mr. Leonard Anderson and family, USGS, Denver were in Nov 24.

Park Service visitors included John Kell, Merritt Barton from Region Three and A. van V. Dunn from the Washington Office, all on Dec 3.

NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

JAN 1951 RECEIVED National Park Service Region Three Office

December 31, 1950

To: General Superintendent

From: Superintendent, Bandelier

Subject: Monthly Narrative Report for December, 1950

Weather

The weather during December has been very dry and was approaching serious drouth conditions by the end of the month. A light snow that contained .11 inches of moisture occurred on the 5th and was the only precipitation during the month.

Temperatures were generally uniform and averaged about 12 degrees at night and 58 during the day. The low was 4 degrees on the 6th and the high 63 on the 9th.

Special Activities

The Superintendent made two trips to Santa Fe to discuss rates for the 1951 season with the concessioner.

It was necessary for the Clerk and Superintendent to assist with conducting tours of the ruins during much of the month due to increased travel and taking annual leave by the rangers.

Inspections

Architect Saunders made an inspection of the re-roofing of three buildings by the Goodrich Roofing Company, Albuquerque, New Mexico on November 30.

Maintenance

A roof jack was installed at residence 3 to provide an out-let for the oil heater. Heretofore the stove pipe had been run out through a window in a very unsatisfactory manner. Roof jacks

FOR DEFENSE
BUY UNITED STATES SAVINGS BONDS AND STAMPS

were purchased for installation at the comfort stations also.

The Georgian Roofing Company completed the installation of new roofs on residences 3 and 4, and the dormitory. A new roof was also placed on the shop building that was in addition to the contract for the other buildings.

The entire force spent several days on general cleanup of the warehouse, shops, equipment shed, and office basement. A lot of junk that has accumulated for many years was cleaned out and the buildings put in more workmanlike order.

Construction was started on an additional new ladder on the trail to Ceremonial Cave.

Approach Road

The very dry conditions have not made it practical to grade the approach road and with the exception of two or three days following the snow it has remained very dusty.

Concessions

The recommended rates for the 1951 season were finally received from the concessioner and forwarded for approval. Food prices are, as usual, unpredictable but indications are that they will be higher next year and some increases in the rates were justified.

Interpretive Service

There were 331 visitors conducted on 22 tours of the ruins during the month.

A new sign with the warning "This ruin and the area in this vicinity are protected by Federal antiquities study. Please do not remove pottery sherds or artifacts or disturb 21 any way any [illegible] of Prehistoric ruin and remains are in the process of being [illegible] Pot Rocks and Rainbow Rocks.

Maint.

[illegible]

Fire Protection

The very dry conditions during the past three or four months have kept the forest fire danger higher than usual. No fires have occurred in the Monument recently but the Santa Fe National Forest is experiencing a very bad year with over 150 fires as compared with an average of 65 or 70. We are cautioning Monument visitors to be very careful with matches, cigarettes, etc.

Miscellaneous

A round-robin Christmas party was held for all employees on the 17th. It started at the Quesenberry's house and went from there to Keefe's, to Turney's, to Vandland's, and ended up at Binnewies'. A good time was had by all.

The Bandelier staff wishes everyone a

Canyon de Chelly National Monument
Chinle, Arizona

December 26, 1950

Memorandum

To: General Superintendent

From: Superintendent, Canyon de Chelly

Subject: Monthly Narrative Report for December, 1950

Travel:

91 people in 35 cars. This figure, however, represents an increase of about 9% over December of last year. Total contact time 16 hours, 20 minutes.

Weather:

No precipitation of any nature. A low temperature of 0 degrees was reached on the night of the 21st. Day readings stay in the forties.

Roads:

Approach roads are rough. County graders are unable to maintain them due to extreme dryness. Monument roads are in fair condition. We, likewise, are unable to blade them because of lack of moisture.

Soil & Moisture:

Local Indian Service S & M officials have been very cooperative during the 1950 calander year. As of December 31 the construction of 500 jetties in the canyons will have been completed. 200 at twin trails in del Muerto canyon and 300 a short distance above White House ruins in de Chelly canyon. According to their estimate of $10.00 per jetty this amounts to an expenditure of approx. $5000.00 the Indian Service has contributed to work done on Park Service land.

N.P.S. Visitor:

Sup't. Hastings and family on December 23, 24.

General: Ranger Morris is spending the holidays with relatives in Colorado.

Con't. from page 1.

Maintenance:

The kitchen in the Sup'ts quarters and the office in the administration building have been completely redecorated.

PCP Projects:

The materials this Service is to furnish on our joint cooperative action on the B & M Program, Canyon de Chelly Watershed, is being held pending the opening of bids for approx. $1000 worth of black wire.

Action on the replastering of the exterior and interior of the administration and quarters building is also being held until the arrival of Kenneth Saunders on January 18.

Building of the campground tables and fireplaces is progressing as rapidly as possible. We are working in below freezing temperatures most of the time and every precaution must be taken to prevent freshly poured concrete from freezing. Table tops and fireplaces are about one half completed. However, the table ends and seats are completed and ready to set up.

CAPULIN MOUNTAIN NATIONAL MONUMENT

Capulin, New Mexico

December 25, 1940

Memorandum

To: The General Superintendent
Southwestern National Monuments
National Park Service
Santa Fe, New Mexico

From: Superintendent Homer J. Farr

Subject: Monthly narrative report, December 25, 1940.

Visitors: There have been about 600 visitors to Capulin Mountain National Monument during the month of December, 1940, making a total of three thousand nine hundred for the travel year and twenty three thousand one hundred for the fiscal year to date.

Weather: Weather has been fair and comparatively warm throughout the month, with no precipitation.

Flora and Fauna: Vegetation in the area is suffering from lack of moisture. While a number of deer have been noted in the area recently and they seem to be in fine condition. The porcupines are still busy at stripping the bark from some of the fibert trees.

Roads and Trails: Roads and trails are in splendid condition. The road up on the mountain has recently been greased with the grader.

Special Visitors: To my knowledge there have been no special visitors to the Monument during the month.

Publicity: I noted a half page story in the Denver Post during the early part of the month, a copy of which I sent to the Regional Office. It included a couple of very good pictures, showing the crater on a large scale, and the surrounding landscape. I noted that some of the statements in the story were not entirely correct, but think it not of sufficient importance to warrant a correction.

Information Pamphlets: About one hundred pamphlets have been distributed this month. Now have about 17,200 on hand.

Very respectfully,

Homer J. Farr
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

December 25, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Casa Grande National Monument

Subject: Monthly Narrative Report for December, 1950.

General: Most of the cotton is picked in the valley; there has been an average crop yield of 771 pounds to the acre. The yield is supposed to be a record average-acre yield for any where in the world. The plans for next years crop are for even greater production, if there is no serious water shortage because of the present drouth.

Currently Arizona is experiencing a serious drouth. The Arizona Republic gives the dire warning:

> Arizona faces the worst drouth crisis in recent history... And the U. S. Weather Bureau Tuesday forecast no change for another 30 days... Water producing storms seldom occur after mid-January, records show... Salt River Project storage already is down to 210,822 acre-feet and dropping daily. San Carlos Reservoir on the Gila has been below the release outlet since August. Capacity of Central Arizona reservoirs is nearly 3,600,000 acre-feet. Annual water consumption is more than 2,000,000... To meet minimum needs, a heavy drawdown on already rapidly dropping ground water tables will be necessary... It would take nearly three inches of rain just to soak up the ground so we could get some runoff... In many areas... many springs have gone dry.

The staff here wonders how our well will hold out if there is no change in the drouth situation; the well is drawing water at near its maximum depth, 190 feet. We have had for a long time a rigid program for the conservation of water; however, it appears as though our best efforts, though laudable, are not sufficient to prevent the well from eventually going dry.

On December 8th and 10th, we had Paul Coze and companions taking the various photographs and making the water-color painting for an article in the Arizona Highways. The companions were a group of models from a modeling school in Phoenix. The young women posed for a series of fashion pictures. In Mr. Coze's original letter he had inquired about a model who would pose with bare breasts; we didn't know of a person who would pose partly nude, and since he did the painting on a Sunday, we were too busy to find out if she did.

Weather: The current drouth conditions are, of course, weather. A look at the record shows that our highest daily maximum was 69°F and the lowest daily minimum was 31°F. Temperatures to date are according to the U. S. Weather Bureau running "1,087 degrees in excess of normal."

If it weren't for the pending water shortage one could really enjoy the present mild weather, especially after contacting visitors who have come to the Southwest either to avoid the bad weather of because of the bad weather.

Visitors: Our travel figures show a slight gain over the same month last year and for the travel year. As expected towards the end of the month we had our pre-Christmas slump in travel; apparently we aren't serious competition to the white-bearded old gentleman. However, more servicemen have been taking advantage of their "tax" admission.

	1950	1949
Visitors during December	3,400	2,949
Increase	451	
Visitors for travel year	8,836	8,517
Increase	319	
Servicemen during December	14	

Interpretive Service: A total of 2068 people made the trip to the "ruins" in 108 groups, averaging 61.2 minutes per trip. There were 1532 visitors who made only a short stop and did not go to the "ruins"; we estimate that 60% of this group did take advantage of the museum.

Visitors of Note and Special Groups:

November 26 -- Mr. Leonard Farran, personal friend of Mrs Horace Albright, dropped in for a pleasant visit and a trip to the "ruins".

November 29 -- 24 Brownies and their leaders from Coolidge for a picnic.

November 30 -- Ranger and Mrs. John H. Riffey, from Grand Canyon National Monument, taking a busman's holiday took a trip to the "ruins."

December 2[illegible] 25 members of the Seventh Day Adventist Church from Coolidge for a picnic.

December 8 -- Cub Pack 49 from Phoenix, with their families, for a trip to the "ruins" and a wiennor roast. There were 55 Cubs and 16 adults in the party.

December 10 -- General Superintendent John Davis, Highway Maintenance Engineer George D. Smith, and Regional Landscape Architect Jerome C. Miller made an offical visit to thetarea. Both Mr. Smith and Mr. Miller made a tour through the "ruins".

Vacationing Assistant Superintendent and Mrs. Lemuel A. Garrison, from Grand Canyon National Park. Mr. and Mrs. Garrison renewed contacts with the Clancys while the youngsters took the trip to the "ruins."

Also on vacation from Grand Canyon were Assistant Chief Ranger and Mrs. Merry Thead. Armed with their cameras, the Theads joined a party going to the "ruins."

December 15 -- Mrs. J. S. Coulter and daughter from Ramona, California. Mrs. Coulter was an employee of the Southwestern Museum in Los Angeles when the Grewe Site material was being cataloged and written up.

December 14 -- 201 4th grade pupils from the schools in Coolidge, with their instructors, for their annual visit to the "ruins."

December 16 -- Mr. and Mrs. C. D. Wyatt and family from Kilgore, Texas, made a brief visit. Mr. Wyatt was formerly a ranger here at Casa Grande, and Custodian at Canyon de Chelly; he is now employed by the Texas Oil Company as an engineer.

Administration and Protection: Five requests for information were answered, and the literature requested was mailed. The Adamsville site was checked for new evidence of "pot holing", but no new digging was noticed.

The Superintendent made the long drive to Phoenix to make the arrangements about the fuel oil contract. The local company handling the deal is now at working with the government, and we hope by the time that they make the second oil delivery they will have a better idea of how things should be handled.

Research: At the request of Dale King, the Superintendent collected several specimens of Tamarix and took them over to Dr. Peebles at Sacaton to be identified. The Southwestern National Monuments wanted a specimen of Gallica, Tamarix; Dr. Peebles identified the proper specimen and it was mailed to Santa Fe.

News: We suppose that most folks have read of the closing of Gila Pueblo in Globe, Arizona, and the transfering of it and its collection to the University of Arizona. The collection financed by Mr. and Mrs. Harold Gladwin has been valued at $1,000,000; it is estimated to contain 50,000 artifacts. The artifacts cover a period in the Southwestern archaeology from 15,000 B.C. to the white conquest. We, of course, approve of the transfer, but, like so many others, we wish that we had a representation of the various periods' artifacts, which are related to the Gila River drainage, for our museum

A. T. Bicknell
Superintendent

DEC 1950
RECEIVED
National Park Service
Region Three
Office

Chaco Canyon National Monument
Bloomfield, New Mexico

December 24, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Acting Superintendent, Chaco Canyon National Monument

Subject: Monthly Narrative Report for December 1950

Weather conditions

The weather has continued to be fairly mild with the maximum temperature of 65° occuring on the 1st, with the minimum of 5° above coming on the 6th. The lowest maximum was 39° on the 6th and the highest minimum was 35° and the 4th. On the second of the month there was quite a snow flurry at 10 a.m. but it lasted only about 15 minutes. For the few minutes that it was here it looked as if it were going to turn into a real snow and last all day, but 15 minutes later it was bright sunshine and in a few hours all traces of it were gone. This was our first snowfall of the season, although it only recorded a trace.

Special activities

Work has continued intermittently on the new well due to a shortage of Navajo labor due to numerous "sings." The forms from the ceiling of the pump house were removed and the pumphouse thoroughly cleaned. A cover was put on the well itself, and both the openings in the roof were covered with removable covers. The water is continuing to be muddy and very alkaline. On account of this the University pump was placed in the University well house, but connecting will have to be left until after the Christmas holidays. This will be used as a stand-by, and for the time being will be used to help get the main water tank filled again. (We have run out of water several times lately). There is not enough water in the new well to fill the tank more then a foot (about 800 gallons) at a pumping, which is about daily consumption. Once the tank is filled to capacity, it is believed that the new well pump can keep it filled by pumping twice daily as we are now doing. With two pumpings a day, the tank is filled about 6 inches at a pumping, which helps keep the water clear as below this level there is an opening in the well casing which lets in sand and mud. The sealing of this opening is on our "must" list. A temporary shed was build for the light plant received from Bandelier.

Administration

Superintendent Guillet is continuing on his 30 days "take-it-or-leave-it leave". Acting Superintendent Elmore made a special trip to Santa Fe Regional Office to pick up a 10 KW generator for the Chaco light plant. This was surplus from Bandelier National Monument. He also took back a specimen storage case destined for Aztec Ruins National Monument. With the new (to Chaco) light plant, it is believed that there will be no more light plant trouble (keep your fingers crossed!). The two 3 KW plants that Chaco now has are not putting out the maximum KW's and have been constantly undergoing repairs. These will be used as stand-by plants when the 10 KW plant is placed in operation. We are now awaiting copper wire from Carlsbad Caverns to complete the installation. The Acting Superintendent also made two trips to Aztec and Farmington in connection with the well and the light plant. On one of these trips the specimen storage cases were delivered to Aztec Ruins National Monument.

Visitors

Visitor travel is still dropping off, with only 26 persons, including 4 children, taking the guided trips through the ruins. This is five more than took the trip a year ago this same time. These people came in 9 cars. There was an actual "runaround" count of 19 people in 9 cars, but there were probably twice as many not counted for one reason or another.

Interpretive services

26 persons were taken through the ruins on 9 conducted trips. 33 persons were given orientation talks in the museum and 6 persons took advantage of our picnic facilities. An average of 60 minutes was spent on each of the guided trips, while an average of 30 minutes was spent on each museum orientation talk.

Francis H. Elmore
Acting Superintendent

Mobile Unit
Chaco Canyon National Monument
Bloomfield, New Mexico

December 25, 1950

Memorandum

To: The Naturalist

From: Archeologist Vivian

Subject: Mobile Unit Report, December 1950

This is the report of Mobile Unit activities in Chaco Canyon National Monument for December 1950.

GENERAL:

Working conditions remained excellent throughout most of the report period and with the exception of a few half days we were able to proceed with the comprehensive stabilization of Site Bc-59. With the end of the squaw dance season loss of time from absenteeism was less than usual; the labor force averaged 7-1/2 men.

STABILIZATION, Bc-59:

December saw the comprehensive stabilization of this small site, begun last month, brought to 90% completion. The work included wall repair, support for foundations, backfilling of low areas and capping and the total area covered includes 5 kivas and 21 rooms or enclosed areas.

The program at Bc-59 also included extensive related stabilization, providing diversion for surface runoff from the adjacent

talus slope to the south and east. Due to the location, at the foot of the talus, it was required to move or otherwise disturb a good portion of the refuse mound in providing this diversion.

We feel that Bc-59 is a valuable addition to the interpretive program among the small house sites on the south side of the canyon. It contains a superimposed kiva, not otherwise shown in this group, and late masonry styles, among the crudest in the Chaco, overlying the major structure.

The three groups of ruins so stabilized in this rincon area include a pit house, the small house sites Bc-58 and 58 and the late masonry at Bc-59. In view of the number of unattended visitors that visit these sites it is suggested that before the next travel season warning signs and a self-guiding visitor trail be established in the area.

INCIDENTAL ARCHEOLOGY:

It was assumed that the 1947 excavations of the University of New Mexico at Bc-59 which included trenching of the refuse mound, and earlier unrecorded excavations in this mound, had removed whatever material it contained. In moving this refuse to provide the diversion for surface runoff noted above it was found that while the center of the mound had been overturned, a thin fringe on the west side, nearest the ruin remained untouched. Thirty-five burials were taken from this area. The refuse here was nowhere over a foot thick, most of it less, and the burials generally in poor condition were found within a few inches of the surface. Twenty-four partial and restorable vessels were recovered from these burials.

The skeletal material, considerable of which is beyond salvage, will be cleaned and prepared for shipment to the Regional office during the next month. The pottery and minor artifacts have been cleaned and permanently cataloged.

KIN KLETSO:

Considering that the Mobile Unit will probably be at Gran Quivira in the spring, the preliminary work started at Kin Kletso last month was still held in abeyance. Work which had been in progress was cleaned up and material and equipment at the site stored.

STATUS OF REPORTS:

The rough draft of the pottery section for the report on the tri-walled structure at del Arroyo was completed. Photographs of sherds from the tri-wall "tower" and of approximately two thirds of the material from Bc-51 were made and processed. Since we are dependent upon a few hours of daylight each day in which to make these photographs it is sometimes a long drawn out affair.

Completion of the final del Arroyo record sheets is awaiting the last photographs and ad-type prints. The completion photographs for Bc-59 have not yet been taken.

MAINTENANCE:

One half day was personally lost working futilely on the office and lab light plant. Archeologist Hixon has started placing study material in the new storage cases and revising the storage space.

With most of the work at Bc-59 done, the remains of the 2 rooms built for Professor Dodge on the east slope of Pueblo del

Arroyo about 1898 were removed and the building stone salvaged. We understand that this stone was originally taken from Kin Kletso. Two loads of firewood were hauled and cut.

One trip was made to the Regional office to transfer a storage case for the Mobile Unit and a small file case for the Monument.

ASSISTANCE:

When we ran out of water during the absence of the Acting Superintendent, Archeologist Hixey and myself spent one half day pulling the pipe from the wall, replacing the foot valve and taking the pump apart to remove foreign material which had become jammed under the valves.

During the Soil and Moisture Control program last month Regional Soil Conservationist Balch requested that we use any excess dirt to divert surface runoff at Wijiji Ruin where arroyo cutting is threatening the loss of the road and will soon threaten the archeological site itself. Accordingly some 95 yards of fill, partly from Bc-59 and partly from a dump at Kin Kletso were hauled this month and spread as a small diversion at Wijiji. The Soil and Moisture program bore the cost of the additional haulage.

FOR THE COMING MONTH:

The labor force has now been reduced to 4 men at the end of this period and during the coming month the remainder of the crew will be terminated.

During January I expect to be in the Regional Office completing the archeological report on the Tri-walled and adjacent

structures at del Arroyo. Pottery and artifacts from Bc-51 will also be worked up and I hope to at least examine material at the University of New Mexico which they took from sites Bc-52, 57 and 58, with a view to eventually combining this material for publication with the field notes which we already have.

Archeologist Rixey will remain here at Mobile Unit headquarters for the month, where he will work on the stabilization records for Bc-59 and prepare skeletal material for shipment.

Gordon Vivian

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Chiricahua National Monument
Dos Cabezas, Arizona

December 30, 1950

Memorandum

To: General Superintendent

From: Superintendent, Chiricahua

Subject: Monthly Narrative Report

General. This report is a little late due to the ranger and superintendent taking annual leave. Ranger Gaynard has been on leave since December 17 and will return January 7. Superintendent Cooke has taken 4 days "use it or lose it" leave lately. Mr. Marble has kept count on the visitors when no one else was on duty.

Grandma Erickson of Faraway Ranch, adjoining the monument, died early in December. She was a pioneer who came to Arizona with the wife of one of the officers of General Crook's army. Her husband "Dad" Erickson and a neighbor chased the Indian, Big Foot Massai over what is now Massai Point to give Massai Point its name. She was buried with "Dad" Erickson at the mouth of Bonita Canyon about a mile outside of the monument. Superintendent Cooke was one of the pallbearers. Mrs. Erickson was 96 years of age.

Weather Conditions. There has been no precipitation since last report and none worth mentioning since September 18. With only one day to go, we would need 8 inches of rain to keep this from being the driest of the eleven on record at Chiricahua. The skies are clear and bright so we feel safe in recording 1950's rainfall as 13.40 inches. This is well below the average of 20 inches per year.

Maintenance. The sewer line from the superintendent's residence became clogged with oak roots, early in the month. The ranger, road man and superintendent worked on it for the best part of a week before getting all of the root systems out. The problem now is to keep the same thing from happening again.

Approaches to Monument. The three dirt approach roads to the monument are all very dusty and washboardy.

Interpretive Service. One conducted trip was made with two visitors. 856 visitors were contacted in the museum.

Research and Observation. Dr. Harold Enlows and two students, Mr. John Harris of Oklahoma, and Mr. M. Weller of Melbourne, Australia Tulsa, Oklahoma, at Chiricahua. They made a general study of the monument geology, with Mr. Weller concentrating on the lake bed deposits for his masters degree thesis. Dr. Enlows worked at Chiricahua the summers of 1941 and 42 as temporary ranger.

Travel. 1060 visitors came to Chiricahua this month, bringing the travel year total to date up to 3102. This compares with 966 for November and 668 for December of last year. However, we are 288 behind last travel year.

Cleir V. Cooke
Cleir V. Cooke

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
El Morro National Monument
El Morro, New Mexico
December 26, 1950

Memorandum

To: General Superintendent

From: Superintendent, El Morro

Subject: Monthly Narrative Report

This month, there were 137 visitors to El Morro who came in 48 automobiles. This is 169 per cent increase over last year. 97 of these visitors took the trip around the Rock and formed 25 parties. Of these, 14 continued on over the top of the Rock in 7 parties. 39 visitors received an orientation talk in 12 parties. The good weather and the good roads account for the large increase in visitors.

Mentioning the weather, there has been no precipitation at all this month, and our pool is getting lower and lower. One of these days, maybe, we will have a three foot snow, but the days are like summertime now. The coolest was 8 degrees (above) and the warmest was 60 degrees Fahrenheit.

The superintendent took 6 days annual leave rather unexpectedly. He had planned to go during the Christmas holidays, but the relief picture changed suddenly so he had to take the 11th through the 18th instead.

One and one-half days were spent with the CAA man, who donated his time, adjusting the light plant engines, disassembling, greasing, adjusting and replacing the magnetos, etc. We returned from annual leave to find both light plants out of commission and trouble with the water line. We repaired one light plant in half a day and repaired the water line in the same length of time. The other light plant is still out of commission awaiting a part.

Several days trail work was done this month. A power pole was reset and a guy wire placed on it. Some sign painting was accomplished when the weather allowed. New ropes were placed on the radio aerial.

An FBI representative was in the area this month. The Office has contacted us several times lately for one reason or another. We are glad to cooperate not only because the Office has certainly helped us.

Our radio reception has been atrocious lately. We were long under

the impression that in winter there was less static, but the static just rolls in. Furthermore, with or without the static, there seems to be some one sending code messages which come right through El Morro at the exact frequency and time that we are trying to listen. As a result, with our ears glued to the receiver, we catch snatches of other stations between words on the code and can hardly hear XEKU at all. All this after spending from 7:30 to 8:00 getting a cold light plant engine running and warmed up so we can operate the radio!

Travel. As expected, this was a very slow month. 103 visitors in 30 cars came into the area, an increase of 5% over 1949 travel.

Interpretive Services. 95% of all monument visitors were contacted by the Superintendent and given some interpretation. 22 parties of 89 persons were guided through the ruins for an average of 40 minutes per party. 14 people in 5 parties used the self guiding trail pamphlet. The average guide time was lowered somewhat this month due to the chilling winds but more time was spent on interpretation in the exhibit room.

Roy B. Ringenbach,
Superintendent.

GREAT SAND DUNES NATIONAL MONUMENT
Alamosa, Colorado

December 26, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Great Sand Dunes

Subject: Superintendent's Narrative Report for December, 1950

Weather Conditions

December weather has been relatively mild and the Christmas Day temperature reminded me much of southern Arizona. The maximum for the month was 51 on December 25 and the minimum of -1 on December 6 was not at all representative of the usual 16 to 25 degree minimum temporatures.

The 7.8 inches of snow which fell on December 3, 4, 5, and 7 was soon melted except in protected spots. Local people are becoming quite concerned about the absence of snow.

Special Activities

The Mosca-Hooper-Moffat Service League was attended on December 4 and I presented movies from the Region Three Office as a part of the program.

On December 13 I attended the dinner in honor of Governor-elect Dan Thornton which was given jointly by the service clubs of Alamosa, Colorado.

Rehabilitation

All but about $400 of the rehabilitation funds were obligated during the month and informal bids on the asphalt tile for the residence to be solicited tomorrow will enable me to obligate the remainder by the first of the year. Storm sash has been ordered but hasn't arrived yet. Razing of the rear patio wall has been started and I hope to move the old tool shed from the rear of the house to a more accessible location

back in the pinons before a heavy snow comes.

Maintenance

Routine maintenance jobs such as lubrication of equipment again occupied a great deal of time. Moving of the radio to shorten the leadin has improved radio communications a little. The radio charger also made room in the office for the herbarium case.

Concessions

The application by Mr. A. H. Chavez for renewal of his saddle horse permit was forwarded for appropriate action and the proposed schedule of rates to be charged the public were transmitted for approval.

Interpretive Service

Five talks were given outside the area to a total of 266 people. Of these, one was a slide lecture to the Adams State College Science Seminar on the "Arizona Desert"; the others, illustrated with movies, were given to the Hooper Consolidated Schools, Rosa-Hooper-Moffat Service League, San Luis Institute of Arts and Crafts P.T.A. of Adams State College, and Weeks Public Schools.

Research and Observation

Check lists of San Luis Valley birds by Ronald A. Ryder and Dr. Paul Bibbee, both of which mention the Great Sand Dunes, were added to the library and used in setting up the bird section of the fact file. A preliminary list of the vascular plants of the San Luis Valley by Dr. Craft was also added to the library.

Considerable time was spent in setting up the observation sections of the fact file and the mammals, lizards, snakes, and birds are now relatively complete. The historical and chronological sections are also now set up but the plant section will need a great deal more effort.

The deer have not come down from the high country because of lack of snow so only a few old headquarters have been seen this month. One fat ducky grouse was seen in a fir above that part of the boundary line above headquarters on December 24. Considerable sign of bighorn sheep was seen on the upper Medano Pass but the Herrera homestead and to the east of the Wellington place but on the monument.

Decrease in Travel

Only 216 visitors came to the Great Sand Dunes in December, a decrease of 816 from the record 532 of December 1948. This decrease was in spite of the good weather.

RECEIVED
JAN 1931

Ranger Service

One of my days off was spent in the Medano section looking for a possible plane crash. The light plane enroute from Denver to Utah was reported seen near here but has subsequently been traced on through the valley over Cochetopa Pass although it has not yet been located.

Personnel

I took 1½ days of annual leave on December 24 and 26.

NATIONAL PARK SERVICE
Montezuma Castle National Monument
Camp Verde, Arizona

December 31, 1950

Memorandum

To: General Superintendent

From: Superintendent, Montezuma Castle

Subject: Monthly narrative report, December 1950

General Activities: On December 21, the park field fighters Inc. completed filming the feature "Fort Bowie" which included several shots of Montezuma Castle. Filming took two full days and required much activity within the area. However, no damage was done either to the Castle or the grounds.

December 5 was spent inspecting ruins and working the Arizona Highway Department administration with Ben Davis, Chief Ranger and Jerome Miller of the Regional Office.

Weather: This has been another dry month with considerably no precipitation. Days remain clear and warm, and evenings are generally very cool, sometimes as cold as 30 degrees.

Travel: Besides the Superintendent, Administrative Officer and Chief Ranger, the month. Five people in the park visited the Castle and 473 people in all came to the park. This is a considerably smaller of 2277 visitors in the area and represents an decrease of 1804 people over December of last year. This might [illegible] to several of the factors can be accounted for by [illegible] and the [illegible].

Interpretation: Interpretive talks were given to [illegible] during the month and guided [illegible] were conducted. Five people saw the Castle museum-[illegible] in the absence of Ranger the museum and 473 visited the [illegible].

The Service Club (Junior Ranger Service) held a [illegible] on the 14th. Ten members of the Junior Ranger Service [illegible] and the [illegible].

Maintenance: In December [illegible] and [illegible] Further [illegible] to [illegible] the [illegible] from [illegible] Monument [illegible].

During the month, Maintenance [illegible], and [illegible] Museum, and [illegible] from [illegible].

- [illegible] -

Construction & Maintenance: A new shed was constructed to house the domestic water pump. This shed was built on runners and has one detachable side. To work on the pump, all that is necessary is to remove the side and slide the shed from over the pump.

To eliminate frequency of pumping, a new air relief valve was installed to the water pressure tank and the automatic switch re-adjusted.

Roads & Trails: Work progressed rapidly on the Montezuma Well loop trail during the month. With the exception of oil treatment, the trail connecting the rim with the ruins located at the well outlet is complete. The rim loop trail is about 85 per cent complete. Work has been discontinued until after January 1, or pending purchase of more bitumulus.

At the Castle, the entrance road was patched and shoulders and drainage ditches cleaned.

Miscellaneous: Art White completed assembling data for the new Montezuma Well guide booklet. This material has been submitted to Dale King for approval.

The Holiday season has caused an increase in community activities such as school programs, community Xmas tree etc. Monument personnel has done its share in helping with these valuable affairs.

ORGAN PIPE CACTUS NATIONAL MONUMENT
P. O. Box 38, Ajo, Arizona

December 26, 1960

Memorandum

To: General Superintendent

From: Superintendent, Organ Pipe Cactus

Subject: Monthly Narrative Report lml for December 1960

Weather

Very pleasant temperatures have continued all month with a high of 90 on November 25 and a low of 38 on December 25. Most days have been in the low 80s and most nights in the high 40s. This is the fourth month this year with no recordable rain and we have had two other months with only a trace. Total rainfall for the year is 5.38 inches which is the lowest on record in the history of the monument.

Special Activities

December 9 & 10 were spent in the field with Engineer Dunn of the Directors Office and Regional Attorney Barton on inspection of land and water-rights.

General Superintendent Davis, Landscape Architect Miller, and Roads Engineer Smith spent December 11 & 12 on inspections and master planning.

The weather station was moved from the Camp ground to a more desirable location behind the office and given a fresh coat of paint this month.

Cooperating Government Agencies

The permit for the Bureau of Animal Industry to establish a camp here was signed and returned for final approval. The well materials have been received and improvements will be made during the coming month.

Howard T. Coons, a State Game Ranger, has been assigned to the Ajo district. This is the first time that a State man has been stationed in the area and it should give us better protection around our boundaries.

We received word that the Papago Tribal Council is making a game survey study on the reservation adjoining us. They are planning to install a game management program patterned on the Arizona game code. This will be of great benefit to us since Indians may now kill game including Big Horn Sheep on their side of the Big Ajo mountains. A managed program should give more protection to animals crossing back and forth.

[illegible]

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Saguaro National Monument
Tucson, Arizona

December 25, 1950

Memorandum

To: General Superintendent

From: Superintendent, Saguaro

Subject: Monthly Report, December 1950

General

Several weather records were set during December. Warm dry weather was prevalent throughout the month. Tucson passed its one hundredth day without rain and its three hundredth day without a frost. All time high temperature records were set on many days during the month.

The extreme dry conditions of the area are considered very serious. The weather bureau at Phoenix stated that this is the driest fall since 1939. Water is being hauled continuously to Madrona Ranger Station. The increased use of the water trailer caused the old tires to give out and four new ones had to be purchased.

Travel continued strong except for a slight lull during the days immediately preceding Christmas.

Special Activities

General Superintendent Davis, Landscape Architect Miller, and Highway Engineer Smith visited the area on December 14. Administrative problems were discussed and an official inspection was conducted by Mr. Davis.

Regional Director and Mrs. Tillotson visited Saguaro on December 10. Mr. Tillotson was in Tucson for several days.

Maintenance

Repairs were completed to that portion of the Pack trail between Manning Camp and Grass Shack. The damage to this trail was extensive in places, but is restored and in good repair once more. Trail laborer Garcia moved to the Pack Base, from where he will accomplish repairs on the lower part of the Pack Trail.

Maintenanceman Barney is making repairs on the road leading in to the Pack Base. This road was also damaged by the floods in August, when heavy rains washed away the ballast in many places.

The loop road through the Cactus Forest was graded twice during the month and is in fair condition. However, due to the extreme dry conditions, ruts soon appear after grading from the impact of heavy traffic.

New Construction

Painting and cleaning up is almost complete on the Madrona Bedroom Addition. It is expected that the project will be completed within the next month. At this writing $2168.21 has been expended leaving a balance of $231.79/

Approaches to Park Area

Work commenced in the middle of December on construction of the Old Spanish Trail Approach Road. The road-site is being cleared and it is assumed that paving will be undertaken shortly on as much of the road as funds permit. Each year a certain sum is alloted for construction of the road. The amount for the 1951 fiscal year alloted by the county board of supervisors was $35,000.

Concessioners

The 49'er Ranch expressed a desire to renew its camping permit on monument lands for the 1951 calendar year.

Cooperating Government Agencies

Dr. Lyle R. Gill and Mr. Stuart Andrews of the U.S. Dept. of Agriculture, Bureau of Plant Pathology, conducted their annual studies on the check plots of giant Saguaros on monument lands. They indicated that some plants in the 30 to 40 year age group had grown an average of ten inches since the study was undertaken.

Cooperating Non-Government Agencies

The Tucson Gem and Mineral Society has indicated that they would be happy to prepare an exhibit showing samples of various rocks found in Saguaro National Monument with the geological history of each. This exhibit will be displayed at monument headquarters.

Accessions

New supplies and materials such as pack pads, saddle blankets, and horseshoes were purchased during December. Normally, these materials would not be needed until next spring, but due to the tenuous world situation they might be scarce by that time.

Interpretive Services

A total of 1194 persons in 402 parties were given interpretive services at headquarters. This amounted to 90 hours for an average of 13.5 minutes per party.

Marvin Frost Sr. gave an illustrated lecture on December 11 to one-hundred members of the Tucson Audubon Society. Introductory remarks were made by the Superintendent.

Research and Observation

Three white-tail deer were observed near Manning Camp on November 28 and December 1.

Visitors reported seeing various groups of Javalines throughout the month with the largest group of 35 observed on December 17.

Four Mile Deer were observed on the loop-road on December 16.

Decrease in Travel

A total of 2283 persons visited Saguaro National Monument in December. This represents a decrease of 819 visitors as compared to last month, but an increase of 530 visitors over the corresponding month one year ago.

Visitors

Nov. 26- 19 members of the Tucson Camera Club escorted by Marvin Frost.
Nov. 29- Dr. Brooks and 11 members of invertebrate zoology class, Univ. of Arizona.
Dec. 5- Dr. Lake S. Gill and Mr. Stuart Andrews, Bureau of Plant Pathology, Santa Fe, New Mexico.
Dec. 9- Assistant Superintendent Lon Garrison and family, Grand Canyon National Park.
Dec. 10- Regional Director and Mrs. M.R. Tillotson, Santa Fe.
Dec. 14- General Superintendent Davis, Landscape Architect Miller, and Highway Engineer Smith, Santa Fe.
Messrs. Ben Hersch, Lee Nattenstrom, Fritz Lang, Hal Mohr, William Ihnen, and Pam Blumenthal Jr. of Fidelity Pictures Inc., Hollywood, California.
Dec. 16- Mrs. Jane Serrano, TTucson, Arizona.

Ranger Service

Superintendent King spent several days in the Tucson Medical Center to have a kidney stone removed. He first noticed the pain while returning from Hunting Camp on December 16. The trip down the mountain was a slow one with frequent stops being made along the way. On December 22, the stone was removed.

Mr. James L. Shibley was appointed as seasonal park ranger for the coming travel season.

Miscellaneous

On December 14 a group of movie-men from Fidelity Pictures Inc., Hollywood California, toured the area and expressed interest in using the monument as background for several scenes of a "western" which is supposed to star Barbara Stanwick.

Samuel A. King
Superintendent

TONTO NATIONAL MONUMENT
ROOSEVELT, ARIZONA

28 December 1960

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Tonto.

Subject: Narrative Report, December 1960

Weather: Continued warm and dry. No precipitation, diurnal temperature ranged from 40° minimum to 65° maximum. Moderate rain on 31 December.

Approach Roads: Rougher than a cob, due to drought. State Grader-man Sanders bladed monument road December 29. Construction between Miami and Superior affected travel here adversely.

Personnel: Robert H. Vikland entered on duty as seasonal Ranger December 27. SAS Guide A. J. Cosnaroworked a few days while Archaeologist Pierson took leave.

Visitors: Artist Paul Coze, of Pasadena, California. John Trethaway, Seasonal Ranger from Zupathi. Paul Buss, uncle of Ranger Vikland, from Flagstaff. Mac, Lynn, and Mrs. C.O. Sharp, Compton Calif., and Robert Sharp, Lincoln, Nebraska, and D.B. Lamb, Houston, Tex. for the holidays with Supt. Sharp.

Inspections: General Superintendent Davis, Engineer George Smith, Architect Charles Carter, and Landscape Architect Jerome Miller, were in on December 15 for a brief inspection of the monument.

Water Supply: Chlorination with HTH supplied by the Arizona State Department of Health cleared up the contamination in the water supply and recent tests have indicated no contamination.

Powerplants: One Onan undergoing a major overhaul, the other one received a quick valve spring replacement to keep it going. Area without electricity several days. Archaeologist Pierson will soon qualify for an additional degree in Motor Maintenance.

Travel: December showed the usual moderate but increasing travel, with 1203 visitors as of Dec. 25. This was an increase of 49 over December of last year. Travel increased heavily immediately after Christmas, as usual.

Wildlife: Some of the wild buckwheat (eriogonum fasiculatum) commenced to bloom out of season the first part of December. A new bird, the evening grosbeak, was added to the checklist. A spotted skunk has usurped Vicklunds garbage can for a domicile.

Publicity: A full page feature article with pictures and the story of the cliff dwellings appeared in the Sunday, November 26, Arizona Republic. Result was a noticable increase in travel that day.

General: With the addition of Bob Viklund to the staff, progress on nature trail desks, easel display stands, etc, will be rapid, and we expect to complete the job of making an interpretive trail out of the path to the cliff dwellings, this month. Conner and Pierson finished a nice display case for SWNA publications.

Charles C. Sharp
Superintendent.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Tumacacori National Monument
Tumacacori, Arizona

December 25, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Acting Superintendent, Tumacacori

Subject: Superintendent's Monthly Narrative Report for December, 1950

Weather: The drouth continues. Only .01 inches instead of the average .91 inches for the past twelve years. That brings the total precipitation for the calendar year up to 8.39 inches. Unless Mother Nature sees fit to give us some more in the next few days, that total will be 4 to 5 inches below normal. Temperatures ranged from a maximum of 88 on November 26 & 27 to a minimum of 25 on the night of December 5.

Visitor Travel: Travel again exceeded all past Decembers. A total of 2,468 visitors came to the Monument this month. That figure compares with the previous December high of 2,301 in 1949. Each of the past seven months has set a new travel record for its respective period.

Interpretive Service: 1,091 persons went on the 206 guided trips that went thru the mission church and grounds. The trips averaged 37.45 minutes. 2,407 persons received combined Information and Interpretation Service, and 2,357 saw the museum and patio garden.

Visitors: Among those who visited the area were:

11/30 - Mrs. Sam King and son Gordon from Saguaro National Monument. With them were Mrs. L.M. Conroy and her son John A. Townsley who is from Yosemite National Park.
12/2 - Ranger and Mrs. "Slim" Maybery and child. From Lassen National Park.
12/2 - Tucson Indian School. A group of 33 pupils and teachers.
12/3 - Dr. C. C. McCown, Archaeologist and expert on Palestine. He is a consultant on filming of "David and Bathsheeba" which is taking place not far from Nogales.
12/7 - Regional Director M. R. Tillotson brought a group of 15 members and wives of the Colorado River-Great Basin Field Committee.
12/8 - Charles Franklin Parker of Prescott. A writer on National Park Service subjects.
12/10 - Chief Ranger and Mrs. Sadler, Richardson of State Park, California.
12/13 - Arizona Desert School of Photography - group of 7 students took photo studies most of the day.
12/18 - Sally Brewer, former Ranger here at Tumacacori, now in the Region Three Office at Santa Fe.

Inspections: General Superintendent John Davis, Landscape Architect Charles D. Carter, Regional Landscape Architect Jerome C. Miller and Highway Maintenance Engineer George D. Smith were here for most of the day on December 15. They came here to confer with Mr. Kelly Moore and Mr. Connie Clare of the Arizona Highway Department about the proposed highway widening. After the conference, other problems of the Monument were discussed.

Personnel: On December 5, James W. Shirley entered on duty as Seasonal Ranger. Ranger Shirley comes to us from Organ Pipe Cactus National Monument where he has worked for the past six months. With him are his wife Lorraine and two children, Mike and Marilyn.

Education: On the evening of November 27 Superintendent Jackson was suddenly called on to give a lecture to the Pimeria Alta Historical Society in Nogales, Arizona. About two hours later he gave a 45 minute lecture on the history of Tumacacori to the 100 members and guests.

Education works both ways. Rangers Hanson and Shirley got some too. They made a trip to San Xavier Mission at Tucson to learn all they could from that Mission in order to better interprot this area.

Museum: Two cases in the Museum were switched around in order to make them assume a more logical sequence. Numbers were cut out of masonite, painted white and placed above the cases in place of the temporary numbers that had been placed there. A large arrow with "Case No. 1" lettered on it was installed in order to get people to start at the beginning of the museum displays. We thought it was going to work too. Earl saw one man go right past the first room and into the west room where the arrow directs. We were very proud of our arrow until we found he was just looking for his wife.

The two large doors between the Lobby and the Museum itself were removed and stored. Due to the nature of the entranceway to the museum, the doors left only a rather narrow passageway.

Several changes and additions of signs were made in and around the museum. The sign in front of the museum building was altered and the small sign on the information desk revised to include the information previously given on that sign. Signs were placed over the doorways to the Museum and the Patio Garden so visitors would be sure and see all we have to offer. In the winter time with the door to the Patio Garden closed part of the day, many seemed to assume that passage through that door was "off Limits".

Maintenance: Routine maintenance was kept current. More Bondex painting of the Museum building and Patio Garden wall was done. The staining of outside woodwork on the Ranger residence was continued as well as the staining of gates and doors in and around the Patio Garden. The weather station was given two coats of the paint sent to us by the Weather Bureau. A brick ~~retaining~~ retaining wall was built up on either side of the walk from the parking area to the door of the museum. Dirt was placed behind it and now, if it ever rains again, the water won't all collect on the walk and perhaps run into the museum as it has done in the past.

Accidents: On November 26 a car turned over several hundred feet south of the Monument. Mrs. Jackson was called out of bed in the wee hours of the morning to administer first aid. One of the persons in the car apparently had a rather serious back injury. He was taken to the hospital.

On the morning of December 7, a highway department pick-up turned

into the driveway about 10 feet south of the south monument entrance. A car, also southbound attempted to pass just at that time and slammed into the side of the pick-up. The car was damaged quite a bit. The driver of the car suffered a scratch on the forehead. Ironically, our First Aid sign again was knocked down by the accident.

Three days later a minor accident occurred directly in front of the parking area. Amidst a screeching of tires, a southbound car tangled fenders with a northbound car which was turning into the gas station across the road from the monument.

General: The annual Christmas Eve party, held on the mission grounds by the community to provide Cristmas stockings and a sure-nuff Santa Claus for the younger children, was again a success, and again there was no publicity.

Happy New Year!

Albert G. Henson
Acting Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA

December 25, 1950

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Acting Superintendent, Tuzigoot

Subject: Report 1m1, December 1950

There follows a narrative report of activities in this area.

TRAVEL AND TRENDS

818 visitors in 265 cars. 710 visitors in 235 parties were contacted and given orientations in the museum. 711 visitors in 238 parties made the trip thru the ruins. Although weather has been ideal for travel in this part of Arizona with above normal temperatures prevailing and no precipitation, the first three months of the travel year show a slight decline of 3% in visitation compared with last year. A decreasing trend in travel-for-pleasure is noted, probably reflective of the national emergency, prospective rationing and shortages, and uncertain outlook generally. One factor which may also be affecting travel to the Verde Valley is the poor condition of the upper end of the Black Canyon Highway, causing a slowing of traffic from Phoenix and Southern Arizona.

N.P.S. VISITORS

Superintendent and Mrs. Everett Bright of Canyon de Chelly on November 27.

General Superintendent Davis, Architect Miller and Engineer Smith on December 9. Discussions were held and decisions reached on the following subjects: design of new road signs, men's room plumbing, trail relocation and repair, museum prospectus, and broken sewer line. The new handrails and signs recently installed at the museum were approved. We feel that this visit by our Regional Officers was particularly constructive, enjoyable, and mutually beneficial.

Art White, Archeologist, Montezuma Well, on December 13.

Superintendent and Mrs. John Cook, Montezuma Castle, on December 15.

OTHER FEDERAL AGENCY VISITORS

Mr. and Mrs. H. B. Reed, Bureau of Internal Revenue, on December 6.

REPORTWORTHY VISITORS

Catharine and Bill Wilson of Rainbow Lodge on December 7.

Mr. Harold Butcher, President of the Yavapai County Archeological Society, on December 9. Mr. Butcher informs us that his organization received an archeological permit from the Department of Agriculture to excavate three sites in the Groom Creek district of the Prescott National Forest. It is quite possible that this project will shed some light on the little-known Patayan Culture. The Museum of Northern Arizona is making the pottery identifications, acting in a consultive capacity, and lending technical advice.

PERSONNEL

Superintendent Brewer is on annual leave from December 14 to January 2, during the latter part of which he and Mrs. Brewer will visit relatives and spend the holidays in California. WAE Guide Steve O'Brien assumes duties on the Acting Superintendent's lieu days.

Superintendent Brewer on November 20 and Archeologist Richert on the 30th assisted at Montezuma Castle while the Hal Holt Company shot color movie.

IMPROVEMENTS

The metal butane cabinet was moved to a new location along the southside of the museum so that it now conforms with the safety regulation that it be situated the proper distance from a window or opening; at the same time it was given two coats of paint.

The flagpole was dismanted, painted an aluminum color, and set up again.

Fiber glass filters were installed in the three warm air registers in the museum. Necessary adjustments to combustion having been previously made on the furnace burner, our museum heating plant now operates at its maximum efficiency, better than in any recent years.

New screen was placed on the front entrance door to the museum.

An Arvin Forced Air electric space heater was purchased for use in the bathroom of the quarters.

M N CONSTRUCTION

Work is now progressing satisfactorily on construction of the men's room. With the aid of a Barco hammer, kindly loaned by Walnut Canyon, excavations through the cement floor were completed for the plumbing. A very favorable estimate was received from a local contractor on the plumbing which has now been roughed in and the floor re-cemented. Necessary materials in the way of plaster, rock lath, etc. have been purchased and the remainder of the project will be completed by force account.

Mr. Brewer should be admired and complimented for donating the major part of his annual leave which he spent in constructing a neat and convenient breakfast nook in the quarters consisting of a built-in table, seats, shelving above, and a uniquely modernistic shadow box on the wall.

We want to thank Mr. Hastings, Walnut Canyon, for his generosity in transferring considerable surplus supplies to Tuzigoot, such as 2" by 4" lumber, masonite board, window glass, iron sewer pipe and fittings, and 50' of vitrified sewer tile.

COOPERATION WITH OTHER AGENCY

A new, routed sign titled POST OFFICE, COTTONWOOD, ARIZONA, was made at this area with lumber donated by the Cottonwood Lumber Co., and presented to the Postmaster of that town.

SPECIAL TALK

On December 7, Archeologist Richert gave a talk to 25 members of the Jerome-Clarkdale Rotary Club at their noonday luncheon meeting at King's Cafe, Clarkdale, on the subject: "History and Policies of the National Park Service".

GENERAL

This is to wish everyone a happy and successful 1951, with the fervent hope that we are enjoying not our last post-war (or is it pre-war) Holiday Season.

December 28, 1950

To: General Superintendent

From: Superintendent, Walnut Canyon

Subject: Monthly Narrative Report, December, 1950

Visitors this month 704; travel year to date 3867.

Weather There has been no snow this month and the small amount that had fallen on the San Francisco Peaks has almost disappeared. The forest has become so dry that there is some fire danger and several fires in the Coconino National Forest have been extinguished during the past month.

Administration On December 9 Ranger Leding transferred to Organ Pipe Cactus where he was promoted to the position of District Ranger. He was replaced on December 12 by Lawrence D. Wilde, Jr. who transferred from Carlsbad Caverns. We are glad to be able to welcome Larry's return to the Monuments. Some time has been spent in acquainting Mr. Wilde with the area and his new job. A trip was made to Flagstaff on December 22 to acquaint him with "key" people there.

All water meters on our line were read. Kollen's meter No. 2 had to be dug out so that moisture under the dial glass could be removed.

A new sign using plaster letters was completed for the publications display case.

Volumes of Arizona Highways Magazine for 1948 - 49 were returned from the bindery where they were bound at the expense of Southwestern Monuments Association.

Our annual inventory was taken after the arrival of Ranger Wilde so that he could become familiar with the equipment.

All publication stocks and records were checked before the departure of Ranger Leding.

Use of Monument Facilities by the Public Our travel count was 388 visitors or 97 per cent more than the 376 counted last December. Dry weather and good road conditions have provided this unusual increase. There were 704 visitors who came in 264 cars. Visitors contacted totaled 304 in 110 groups. There were 584 visitors in 257 groups in the museum. Our percentage of contact is low dow to changes in rangers and to annual leave being taken by the Superintendent.

There were 8 picnic parties including 37 people.

Maintenance and Improvements On December 6 1000 gallons of diesel oil for furnace fuel was delivered - the first such delivery to this area. The furnaces have been installed at both residences and are complete except for the outer jacket of the one at Residence No. 2. Considerable difficulty is being encountered in getting them adjusted to where they will responde properly to thermostatic control.

Coal bins at both residences were cleaned out and the coal storage space at Residence No. 2 removed to provide more room.

The bathroom and kitchen floors at Residence No. 2 were refinished.

Supplies and Equipment A truck load of heavy timbers, cable, wire, and reinforcing iron was transferred to Navajo and a pick-up load of sewer tile and scrap lumber to Tuzigoot.

Two truck loads of scrap lumber were sawed for use on the picnic ground next summer.

The Barco jack hammer was taken to Canyon de Chelly on a personal trip there.

Wildlife On December 14 the carcass of a fawn, nearly a yearling, was discovered between the entrance road and Residence No. 1 and only about 50 yards from the house. Tracks and paw marks made it appear that the deer had been killed by a lion and buried by the big cat. Later the carcass had been moved a short distance, probably by a bobcat seen in the vicinity.

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, White Sands

Subject: Superintendent's Monthly Narrative Report for Dec. 1951

DECEMBER TOTAL, 1951 — DATE TOTAL TO DATE

Visitors, 6,442 Cars, 1,781 — Visitors, 26,207 Cars, 6,332

GENERAL

December, as is becoming customary, surpasses any like month in our history. Six thousand six hundred and forty-two people, in seventeen hundred and eighty-four cars, is quite a number for an off season month. Ole Man Winter, however, has not put in his appearance, as yet, and an open month always helps our visitor count.

No snow or storms of any consequence have occurred during the month. A few chilly nights have just added that snap to the days that is needed to make us realize Winter is here.

SPECIAL ACTIVITIES

A trip was made to El Paso in connection with our roof and wall repairs. A trip was made to White Sands Proving Ground, and several trips were made to Holloman Air Base in connection with Monument matters.

INSPECTIONS

No inspections were made outside the monument, but routine patrols and work inspections were frequent, due to activity of my crew. An inventory of all monument equipment was made and forwarded to the Regional Office. Boards of Survey Reports were made for items to be picked up and dropped from our records.

GENERAL PUBLICITY

No complaints can be registered against our publicity. Commander Scott, on the Greyhound Program, gave White Sands, along with Carlsbad, a remarkably accurate account for such type programs. This program was broadcast on a nation-wide hook up on December 3.

The last issue of "Holiday" carried a nice picture of White Sands by Ansel Adams. The "Denver Post", in a Sunday edition, gave a nice article and picture of White Sands, with Mrs. Dan Davis adding an additional touch to the picture. Local papers have carried many items more local in nature.

COMPLAINTS

No complaints have been registered in this office on either our Service or that of our Public Service Operator.

MAINTENANCE

Much has been accomplished along these lines, and much remains yet to be done. A leaky water line in our parking area revealed an old water line we thought was removed years ago.

Oil tanks for both the electric plant and the road patrol were installed above ground, painted, and put into use. Barrells and other storage has been abandoned and their mess cleaned up. Our gasoline pump and fire hydrant boxes have been repainted, adding a fine touch to our work.

Several days have been expended on a parking area available to cars coming out of the sands area, and we feel this will be a great improvement. Garages were cleaned out, better arrangements made for storage, and a general cleanup of our utility areas was conducted, all of which adds to our pride in the area.

APPROACHES TO PARK AREA

Wonderful progress is being made on the Cloudcroft road, and the open weather has assisted materially. Bids are being prepared, according to the Press, on U.S. 54 being paved in its entirety through New Mexico. Bids are also being let on improvements on U.S. 80 west of the Monument.

PUBLIC SERVICES

This phase has held up very well, but slightly under last December; to date at least. A letter on new rates has been submitted for approval, to cover growing costs. I fear our famed five-cent "coke" will soon be a thing of the past.

COOPERATING GOV'T. & NON-GOV'T. AGENCIES

Several talks have been made with City and Government officials as regards our water contract. It is believed that nearly all the wrinkles have been ironed out and we have hopes of submitting a new agreement for approval.

MUSEUM ACTIVITIES & EXHIBITS

Correspondence has been carried on with your office in regard to obtaining specimens of Trinitite from the Atomic Bomb Site for exhibition purposes, and also on the improvement of our general orientation map.

INCREASE IN TRAVEL

Weather, we feel, has been instrumental in our gain. Our travel has been remarkably wide in scope with New Hampshire being the only state not represented, and Washington D. C, Mexico, Hawaii, Canada, Holland, and Alaska represented by vehicles registered.

VISITORS

Mr. M. J. McColm and family, Region Three Office
Mr. Lon Garrison and family, Grand Canyon N.P.
Mr. Hugh Miller, Region Three Office
Mr. Natt Dodge, Region Three Office
Mr. Glen Boyland and Wife, Mesa Verde N.P.

We were also honored by a visit from Congressman Van Zant, who has been on active Navy duty at White Sands Proving Ground for a short period of time.

RANGER SERVICE

Ranger Chittum returned from a couple of weeks of annual leave and is back in the routine of duties. Ranger Dan Davis has taken leave to visit both his parents and those of his wife in Iowa.

Both Chittum and Davis have been helping a lot on general problems dealing with repairs and maintenance. Our 3,000 gallon water storage tank has a nice fresh coat of paint and Ranger Davis a lot of painting experience.

ACCIDENTS

No accidents were reported, although several hours were spent in hunting for two young men supposed to be lost in the White Sands. The boys turned up in Alamogordo about 11:00 p.m., but only after several trips were made into the sands area to check on their whereabouts.

ACCIDENTS - cont'd

El Paso paper also called up this office regarding a party searching in the mountain area of the White Sands National Monument for the remains of Judge Fountain supposedly slain some 40 years ago.

No such party was ever in the Monument and it turned out that several searchers did make a trip into the San Andreas, but without results.

GENERAL

The Superintendent resigned as President of the Alamogordo Chamber of Commerce, due to the absence of Ranger Chittum and Dan Davis for the balance of the year and the volume of duties connected with the Chamber of Commerce work at this time of the year.

The Board, however, labeled the resignation and time (mid-January) will automatically relieve me of the post.

As President of the Chamber of Commerce, I was chosen to give the welcoming address at a dinner given in honor of Governor-Elect Mechem, held in Alamogordo. Some 350 people were present and the dinner was declared a big success by all who attended.

Ranger Davis has gone to Iowa to spend the holidays and Frank plans to leave for Tucson on the 23d, also to celebrate the Yuletide and wedding anniversary on New Year's Eve.

Our Christmas greetings to all of our fellow workers, and to all a Happy New Year.

John W. Faris,
Superintendent.

NATIONAL PARK SERVICE
Wupatki National Monument
Flagstaff, Arizona

JAN 1951
RECEIVED
National Park Service
Region Three
Field Office

Dec. 24, 1950

To: General Superintendent

From: Superintendent, Wupatki

Subject: Monthly Narrative Report for Wupatki and Sunset Crater

Weather. Things at Wupatki-Sunset Crater in the weather department are going from bad to worse. In October and November we recorded a trace of moisture, but December was unable to muster even a trace.

Inspections. Mr. John Davis accompanied by Mr. Jerome Miller and Mr. George Smith, visited Sunset Crater and Wupatki on Dec. 6. The day was spent in discussing present maintenance and road problems as well as future development possibilities.

Maintenance. During the report period a tool rack was constructed in the quonset hut. The two 270 gallon fuel oil tanks obtained from White Sands were placed at the Heiser Spring residences. This doubles the fuel oil storage on the area and saves considerable time and work since the oil company can now deliver direct to each residence.

Monument Roads. Due to the extremely dry weather, roads are very dry and washboarded. During the month 4 days were spent blading the loop road to Sunset Crater and another 25 yards of clay patching was hauled. The Sunset Crater - Wupatki road is now the best it has ever been when bone dry. Also this is one of the few years when it has been open in December.

Work was started on the rough, narrow one-half mile between Deadman Wash and the foot of Doney and is about 75% complete.

Interpretive Service. At Wupatki Ruin 110 visitors in 34 parties were contacted for an average of 30 minutes. A total of 197 people used the self-guide trail. 84 visitors made the self-guide tour at the Citadel.

Travel. A small increase this month. It is estimated that well over one-half of the visitors came down the back road from Sunset Crater. If, as in other years, Sunset Crater had been blocked with snow, Wupatki would evidently have had a considerable decrease.

	CARS	VISITORS
December 1950	83	217
December 1949	56	169
This Travel Year	419	1070
Last Travel Year	351	998

Visitors. Dec. 6 Mr. John Davis — Santa Fe
Mr. Jerome Miller — "
Mr. George Smith — "

Wildlife. For the first time since the poisoning program conducted by the Fish and Wildlife Service one year ago, a coyote was observed near Wupatki Ruin.

Personnel. Laborer Leadman Viklund was terminated on Dec. 9. He has accepted the position of temporary ranger at Tonto this winter.

Joe Bean returned from annual leave on Dec. 3.

Ranger Walker is recovering rapidly and should return to duty from sick leave about Jan. 2.

Spring Flow.
Wupatki 540 GPD
Heiser 3600 GPD

The spring flow is less than this time last year - no doubt a reflection of the extremely dry fall.

William L. Bowen,
Superintendent

TITLE Park Ranger

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

RECEIVED DEC 1950 National Park Service Region Three Office

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT EXCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICE TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M5).

REVISED MAY 1949.

"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC WHEN OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE SERVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICE TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REVISED MAY 1949.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

NAME [illegible]
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IF ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

Museum closed for repairs.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE.
Please read them carefully.

RECEIVED DEC 1950 National Park Service Region Three Office

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REVISED MAY 1949.

NAME [illegible]
Acting Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, BUS, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE SERVICE TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MAY BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. TITLE Supt.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 9m3) and 9 (Report 9m1).

NAME William L. Bowen
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, NCI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS BEING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND WAYSIDE EXHIBITS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THEIR ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

ARCHES NATIONAL MONUMENT
MOAB, UTAH

January 27, 1951

Memorandum

To: General Superintendent

From: Superintendent, Arches

Subject: Monthly Narrative Report for the month of January, 1951

WEATHER: The prolonged drought was slightly dampened by a one inch snow storm on New Years Eve and again, on January 17, by two inches of snow; however the moisture content of the snow in both storms was only a trace and we are still far below normal.

TRAVEL: A 31% increase in travel appears over last month's count and an increase of over 600% over the same period last year, makes up for the two slow months of November and December. Our very dry weather is believed to be responsible for these increases. A total of 427 visitors entered the monument in 136 cars.

INTERPRETIVE SERVICES: Out of 427 visitors only 38 were contacted and the total contact time amounted to 6 hours and 50 minutes. In an earnest attempt to cut down our equipment operations we have necessarily neglected the contact work; however we will attempt to solve this problem by parking our dump truck on the job and combining the use on the one pickup for Maintenanceman Winbourn's transportation and Ranger Worthington's patrols.

ROADS: No work has been done this month due to the slowness in delivery of tires for the grader and loader.

TRAILS: Maintenanceman Winbourn has finished the job of cutting a set of steps into Winter Camp Canyon which gives us a safe ½ mile trail to the Winter Camp View Point of Delicate Arch. Signs have been made for this section of the trail.

WATER SYSTEM: Although we had a serious mishap during the first attempt to install our new Pacific Jet Pump, we now have a supply of water which is kept constant by a very efficient Floatless Switch. We only get 450 gallons per hour, because it was necessary to install a smaller Jet than was originally planned, but since the tanks have been full the pump runs less than an hour a day. It is certainly a relief to know that our tanks are full and will stay full with a minimum of power plant operation.

EQUIPMENT: Three new tires were received and mounted on the D-12 Patrol. This puts this piece of equipment back into operation. We are still waiting for the shipment of tires for the Front-End Loader.

GENERAL: About half the month was spent on the installation of the new Water Pump; however our annual inventory is almost completed and signs have been made for the Delicate Arch Spur Road and Trail.

AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

24 January 1951

Memorandum

To: General Superintendent

From: Superintendent Aztec Ruins

Subject: Superintendent's Monthly Narrative Report 1nl

WEATHER: Quite a variety this month with cold, sub-zero, weather accompanied by snow, sleet and high wind. This sort of weather lasted for only a few days and was followed by very mild and pleasantly warm days and nites with the 4 inch snowfall melted and gone. Travel as a result is away up again for this month.

NEW CONSTRUCTION: We have done a little more hauling of soil in the landscaping project and a few additional transplants were made of native shrubbery around site #3 residential area.

MAINTENANCE: For the first time in a number of years we have not had to repair the great kiva roof after a sudden cold spell and snow fall. In checking over the roofs of the ruins rooms, each seems to be water tight as does the recently laid roof of the museum-administration building.

It has been a different story, however, with the garage roof at residential site #3 where settling of the building has given us some difficulty with tears in the roof cover and the usual problem thawing frozen "weep holes" that drain the roof cover.

INTERPRETIVE SERVICES: There were 391 visitors in 68 parties conducted thru the ruins and 557 visitors in 114 parties shown thru the museum.

INCREASE IN TRAVEL: As the general trend seems to be in the Southwest, a great increase in travel has occurred this month over January of the previous year and we are ahead by 48% with 557 visitors from 30 state and Cuba, arriving in 162 cars.

VISITORS: Mr. and Mrs. Al Lancaster, Archaeologist Engr., from Mesa Verde visited with friends December 26. Mrs. Eugene C. Saxe with daughter Alice, from Montclair, N.J. visited Jan 18. She is an artist of some note, having been connected with the American Museum Natural History.

Irving [illegible] Townsend, Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

January 29, 1951

Memorandum

To: General Superintendent

From: Superintendent, Bandelier

Subject: Monthly Narrative Report for January, 1951

Weather

The weather during most of the month continued to be very dry and there is considerable apprehension over water supplies through out most of the state. This is the second winter with very little snowfall and some wells are already going dry. There were two light snows on the 1st and 12th that had .24 inches of moisture.

Temperatures were generally cold the first part of the month with a low of 9 degrees below zero on the 5th and 7th but it warmed up to 64 degrees on the 25th.

Special Activities

The Superintendent and Ranger Keefe attended a number of meetings at Los Alamos and Santa Fe in connection with the organization of Civilian Defense for this region. A mutual aid pact has been formed which includes the defense organizations of Los Alamos, Espanola, Taos, Santa Fe, Las Vegas, Albuquerque, and the National Park Service, Indian Service, and Forest Service. The Bandelier orgainzation is being set up to work closely with the one at Los Alamos.

In-Service training meetings were started this month and will be held once a week until the middle of March. Following the practice started last year each employee will take part in one program. Some of the regional office personnel have also been requested to aid in the training meetings.

A staff meeting was held for all employees on the 8th and a safety meeting on the 18th.

Approximately three and one half tons of scrap metal were disposed of and the wood yard can now be placed in a more orderly condition.

A Red Cross First Aid course was started for all employees and their wives under Mr. Darnworth of the Los Alamos fire department. Both the standard and advance courses will be given.

Maintenance

Two connecting rods burned out on the Chevrolet sedan and it was necessary to overhaul it. All of the work was done locally except replacing and grinding the valves.

All of the signs in the headquarters area were oiled to freshen them up.

A second ladder was constructed for use on the Ceremonial Cave Trail to replace one that was becoming dangerous.

Eight new benches for the picnic tables were hewn out of logs and will be installed next month.

Approach Road

Although the approach road continued to be very dry and dusty it was graded once during the month by the State maintenance crew and it is in fair condition.

The Operator General graded the shoulders along the paving leading into Frijoles Canyon.

The Atomic Energy Commission has made final plans to pave the road from the Los Alamos west gate, past our checking station, to site TA 33. This will contribute approximately one and one half more miles of paving to the approach road.

Plans are being developed to place an oil dust coat on the unpaved section of the approach road. Two trips were made to the Regional Office to discuss this project and some information has been gathered on cost of gravel etc.

Interpretive Service

394 visitors were conducted on 51 tours of the ruins this month.

ORP 1

A special talk on the importance of the archeology of this region with emphasis on protection of the ruins was given to the 4, 5, and 6th grades of the White Rock school by Ranger Turney.

Travel

Travel continued to show a good increase over last year with 890 visitors as compared with 646 for January, 1950 and 160 in January, 1949. The continued open weather is largely responsible for the heavier than usual travel although it is very similar to the weather last year.

RECEIVED FEB 1951

Visitors

Visitors to the area this month included:

Mr. and Mrs. Charles Sigler, and Mr. and Mrs. Sears, recently appointed architects in the Region Three Office.

Ranger and Mrs. Bob Morris, Canyon de Chelly National Monument.

Chief Ranger and Mrs. Barton Hershler, Rocky Mountain National Park.

Forest Fire Control

Ranger Keefe attended a meeting in Forest Supervisor Flock's office to discuss the cooperative fire fighting agreement between the Forest Service, Indian Service, Atomic Energy Commission, and National Park Service. This is the first year that the Indian Service has been included in the general agreement although we have had separate understandings with various pueblos for several years.

Building Fire Protection

Fire Chief Keefe prepared a self inspection form for all employees to use at their residences to check for possible fire hazards. In addition he made a careful inspection of the other buildings and propane gas installations.

Insect and Tree Disease

A contract was prepared in the Regional Office for spraying by airplane to prevent damage by tent caterpillars and web worms to the trees in Frijoles Canyon. Two sprayings are anticipated in May and July.

Fred W. Binnewies
Superintendent

Canyon de Chelly National Monument
Chinle, Arizona

January 26, 1951

Memorandum

To: General Superintendent

From: Superintendent, Canyon de Chelly

Subject: Monthly Narrative Report for January, 1951

Travel:

Always rather slow this time of the year. However, we did have 60 people in 19 cars compared with 27 people and 13 cars for January of last year. We continue to show an increase over last year with travel year to date figures of 663 compared with 376 last year.

Weather Conditions:

It's really getting serious as far as moisture is concerned. Only 3.45 inches of precipitation fell during the entire 1950 calandar year and only 3.53 inches for the past 15 months. Livestock is suffering. A low of -1 was reached on January 7, and several successive nights hovered around the zero mark.

Roads:

Recent bladings have put all roads in fairly good shape.

N.P.S. Visitors:

Kenneth Saunders and Harold Marsh on the 16-17. Plans were discussed concerning the living quarters and administration building rehabilitation program. Much valuable assistance was given to me by these gentlemen.

Personnel:

While loading concrete table units on a truck, David Gorman-Maintenance Man, suffered a bruised and possible fractured ankle bone when a table end fell on his foot. A report of injury has been submitted covering this accident.

Project Progress:

A start has been made on the rehabilitation of buildings and structures. A new hot water heater was purchased and installed replacing the 17 year old antiquated one. Firms are being contacted in Gallup to determine who can furnish what materials for the successful conclusion of this program

All concrete table units have been completed and are now being placed at the various picnic areas. Five fireplaces remain to be completed - five are already in place.

The Soil & Moisture Program will be completed as soon as $1000 worth

OKPI

Superintendent.

RECEIVED
FEB 1951

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Capulin Mountain NATIONAL MONUMENT

Capulin, New Mexico

Memorandum January 25, 1951

To: The General Superintendent
Southwestern National Monuments
National Park Service
Santa Fe, New Mexico

From: Superintendent Homer J. Farr

Subject: monthly narrative report, January 25, 1951.

Visitors: We have had about 450 visitors to Capulin Mountain National Monument during the month of January, making a total of four thousand three hundred and fifty during the travel year and twenty three thousand five hundred and fifty for the fiscal year to date.

Weather: We have had two inches of snow on January 1, one inch on January 6th and six inches on January 13, which helps the dry condition quite a lot. Have had good weather though throughout the month, and the road up the volcano has been kept open with the exception of two days, when the drifts on the north side were pretty deep.

Flora and Fauna: Of course the snows during the month have helped the vegetation some. Quite a few deer have been noted in the area. While the snow was on the ground, the Sup't. has had several of the porcupines, which have been causing extensive damage to the pine trees, exterminated.

Roads and Trails: The road on the Monument has been dressed four times during the month, and has been in good condition, except for about two days, when the snow was drifted in several places.

Special visitors: The early part of the month, State Patrolman Scroggins of this area brought some of the officials of the State Police to the Monument. They were considering making a request to the National Park Service for a small relay broadcasting station on the top of the mountain. It was explained by Mr. Scroggins that if they did make the request, it would be a very small building, to be placed out of sight of the public on top of the volcano, and would be unattended. Several times the Patrolmen have told me that they get the most perfect police radio reception on top of the volcano than any place in this area. I have no comments to make about this until and if we get a request.

Information Pamphlets: About fifty pamphlets have been distributed during the month. Have about 17,550 on hand.

Homer J. Farr, Sup't.

ORPI

JAN 1951 RECEIVED

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

January 29, 1951

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Casa Grande National Monument

Subject: Monthly Narrative Report for January, 1951.

General: The heavy winter travel began as scheduled. Although we have received eleven more visitors for January than we did for the same month a year ago, it was so close that it was almost splitting hairs. A better picture of the increase in travel can be seen by comparing the travel figures of this month with December; 5,212 as compared to 3,400. Our biggest problem is the anticipation of visitors' demands for the publications which we handle for Southwestern Monuments Association; as yet we have not been able to establish a trend, even some of the normally poor sellers have gone like the proverbial "hot cake".

Irregardless of recent storms, our travel and the drouth situation continues without relief. Two critical water areas have been designated to curtail the drilling of more wells; one area is south of the monument near Eloy, and the other is north of here in the Queen Creek-Superstition area. Available water in storage is only sufficient for about one-tenth to one eighth of the land that is under irrigation; the remainder must come from underground water sources.

On the pleasant side of the ledger, the electric power from Davis Dam will soon be coming over the lines to Coolidge, via Prescott and Mesa. The substation which the Bureau of Reclamation built just out of Coolidge cost some 4.5 million dollars will begin full time operation about the 1st of February.

At 2:55 p.m. on December 29th, a five year old child, Robert D. Lloyd, was accidentally, but fatally shot while taking a tour through the "ruins". The shooting was done by two local youths who were target shooting along the canal beyond the monument

area. Prompt medical attention was insufficient to save the childs' life as the bullet penetrated the brain through the right temple; the child died in the Pinal County Hospital in Florence about three hours after the shooting. For more comprehensive details we refer to the narrative report and form 10-403 which were submitted after the accident.

On the 14th of January, we were host to the Mesa Annual Cavalcade, which is sponsored by the Mesa Junior Chamber of Commerce. More than three hundred people came as part of the tour. The group was divided into two groups, part of the cavalcade was visiting "Picture Rock" canyon while the other half was visiting the monument. The picnic, free coffee actually, was given to the cavalcade at "Picture Rock" canyon rather than tie up our picnic area for Sunday visitors.

Weather: We have been subject to a variety of weather conditions during the past month. It did most everything except snow (although five miles north of the monument there was about six inches of snow on the flats and they had a snow plow out clearing the highway.) We had our first good storm on January 12 since September, .62 inch of rain.

Highest Maximum	79°
Lowest Minimum	20°
Precipitation for the month	.97 inch

Visitors: Our visitors for the month showed a slight increase over the same month last year; our annual travel figures are somewhat ahead for the travel year, about 2.4%.

	1951	1950
Visitors during January	5,212	5,201
Increase	11	
Visitors for travel year	13,848	13,518
Increase	330	
Servicemen during January	16	

Interpretive Service: A total of 3,423 people made the trip to the "ruins" in 220 groups, averaging 53.0 minutes per trip.

There were 1789 visitors who made only a short stop and did not go to the "ruins"; we estimate that 70% of this group did take advantage of the museum.

Visitors of Note and Special Groups:

December 27 -- Mr. Louis Schellback and son from Grand Canyon National Park

December 28 -- Mr. and Mrs. Adolphe Van Opabbeke of Brussels, Belgium. Mr. Van Opabbeke is Belgium's represenative at the United Nations.

December 29 -- 18 Boy Scouts of Troop 20, Safford, Arizona for a tour to the "ruins" and a picnic.

January 2 -- 67 members of the high school band from Douglas, Arizona, for the ruins tour.

January 5 -- Mr. Malcom Farmer, former head of the Museum of Natural History, San Diego, California.

January 7 -- Visit from John Davis, General Superintendent of Southwestern National Monuments.

January 14 -- Caveloade sponsored by the Mesa Junior Chamber of Commerce for their annual tour. Approximately 300 people participated in the caveloade.

January 21 -- 27 Y.W. and Y.M.C.A. teenagers of the Mesa Hi-Y Club for picnic and visit to the "ruins".

18 Boy Scouts from Troop 144, Coolidge, Arizona, for picnic and receiving of merit badges.

Administration and Protection: Seven requests for information were answered, and the literature requested was mailed. The Adamsville site received its usual inspection, and there was no evidence of new "pot hunting".

The rains, the first good ones since September, enabled us to shape up the ditches three times and fill in any breaks in the shoulders of the roads, which are now in excellent condition.

A.T. Bicknell
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Chaco Canyon National Monument
Bloomfield, New Mexico

January 27, 1951

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Chaco Canyon National Monument

Subject: Report of Activities at Chaco Canyon during the Month of January 1951

Weather conditions

As with past months, January has proven one of the dryest on record. A trace of snow fell New Year's morning with another light skiff on the 19th, barely enough to register a trace of moisture. We have has two bad dust storms. For the most part, the weather has been spring-like with temperatures ranging from a low of minus 1 and a high of .

Administration

Superintendent Guillet returned from annual leave on December 26th and Ranger Elmore entered on annual leave December 30th and returned to duty on January 20th, 1951.

A complete inventory of semi-expendable and non-expendable equipment and cards arranged for recording items not recorded.

Two trips were made to Gallup, New Mexico for materials for the well. One trip was made to Farmington to pick up supplies.

All of the correspondance and filing that had accumulated since June 1950 was completed and rearrangement and correction of the filing system carried on as time permitted.

Maintenance

The light plant was overhauled, valves ground and wiring made to quarters. Work on the water system continued and studies made on the wells by Mr. Conn of the Regional Office. The old sheds were cleaned and repaired for some equipment. This job is being continued as time permits. New stone steps were placed in Pueblo Bonito eliminating the rather rickety and dangerous ladder. A general though rather futile cleaning of the grounds was made. A survey of signs was made and plans made for the installation of new or repaired signs, both in the Monument and on the approaches.

Visitors

Travel shows a slight increase over last year despite poor road conditions. A total of 77 visitors in 28 cars were recorded this month.

Interpretive services

19 conducted trips with a total of 69 persons were conducted through the ruins. With these and museum contacts, a total of 23 hours was spent. Ranger Elmore lectured to 53 students and teachers at the Crownpoint Boarding School.

General

Archeologist Aide Rixey became the proud father of a six pound baby boy on January 16th. The new arrival was named Gary Raymond, and all concerned are getting along nicely.

Permits

Two permits were given to move sheep across the Monument - one to Rafell Mescalito and one to Sargent.

Inspection by N. P. S. Officials

Architects Marsh and Saunders were in for a short look around on the January 18th. Engineer Conn arrived a week earlier for work on the new well.

Meredith M. Guillet

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Chiricahua National Monument
Dos Cabezas, Arizona

January 25, 1951

To: General Superintendent

From: Superintendent, Chiricahua

Subject: Monthly Narrative Report

There follows the Chiricahua National Monument Narrative Report for January, 1951:

WEATHER — January brought a snowfell on the 1st and another on the 12th of the month. The first snow totaled 5.00" and gave us .85" of water. The second snow brought .10" less water but reached a depth of 8.75". Temperatures ranged from a high of 69 degrees to a low of 14.

SPECIAL ACTIVITIES — Superintendent Cocke left on the 23rd for a four day trip to White Sands National Monument where he plans to pick up some surplus items assigned to Chiricahua.

Ranger Maynard returned from Annual Leave on the 7th. Operator-General Marble took four days Leave during the third week.

PUBLICITY — On the morning of January 21, the Greyhound Bus Co. radio program included a five minute talk on Chiricahua by Commander Scott. Our only criticism was that the reporter spoke of being able to move Chiricahua's balanced rocks by hand!

It was learned from several visitors that the Phoenix Gazette ran a large spread of pictures and articles on this Monument in their January 14 issue. Though requested, no copy has as yet been received.

Correspondence has been received from Universal Studios of California relative to their plans for a film on the life of Cochise. The plans include filming the story in full or in part at Chiricahua. The picture is to be a sequel to the current technicolor on Geronimo entitled "Broken Arrow". If definite word is received as to the shooting of scenes at Chiricahua, the General Superintendent shall be notified.

MAINTENANCE — A general cleanup of the area and of the buildings was held this month. One day was given to painting a room in the Superintendent's residence.

APPROACHES TO MONUMENT — The two snows of January lasted but a short while on the approach roads and did much to keep down the objectionable dust of December. The pavement of route # 181

was centerstriped from the intersection with route # 666 to the Monument. All roads are in good condition with the exception of the approach over the mountain from Portal. As always, this is not recommended during winter months.

The monument road is in excellent condition despite the snows and run-off. Extremely little rock has fallen to the road bed during the melting and the thawing.

INTERPRETIVE SERVICE — One three hour conducted tour was made with 2 visitors. Four conducted walks on the Massai Point trail were held with 36 visitors. Contacts in the museum totaled 461.

TRAVEL — Travel for this month showed a decrease of 17% from that of January, 1950. The total number of visitors was 621 and gave a 41% decrease from the previous month. Chiricahua is now 541 behind the travel year total of 4264 recorded this date in 1950. We are unable to account for this decrease unless travelers are becoming more cautious in the use of money and equipment and are avoiding long drives from main highways to areas such as Chiricahua.

The grader was employed as a snow plow immediately after the two snows of the month and cleared the road to where travel was almost totally uninterrupted. Only one car of two visitors could not make the drive through the monument. They arrived in the thick of the January 12 fall.

VISITORS — Joseph Muench, photographer, visited the Monument on the 23rd. His was a brief visit but he declared plans to return in the spring.

RANGER SERVICE — Much Ranger time was spent in January on the replacing and the repainting of approach signs.

In accordance with a request from Naturalist Arnberger, tree specimens were collected and forwarded to Mr. Paul Londsore of Los Angeles, California.

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
El Morro National Monument
El Morro, New Mexico
January 27, 1951

Memorandum

To: General Superintendent

From: Superintendent, El Morro

Subject: Monthly Narrative Report

This month, there were 157 visitors to the Monument. This is 207 per cent increase over a year ago. Since September 30th, we have had an average increase of 119 per cent for each month. When word really gets around about our good roads, we are going to be swamped. Twenty-four parties with 96 persons took the trip around the Rock. 74 persons in 29 parties were given orientation talks. No trips were taken over the top of the Rock.

The coolest was 2 below on two occasions and the warmest was a 61 degrees Fahrenheit. Though we only managed .15 of an inch of moisture, we thought we spent all of our time shoveling snow the first part of the month. We wanted it clear so no visitor would slip on the ice. It is a nice surfaced trail, but we had no idea how long the trail was until we got on the business end of a snow shovel. With several snow-shoveling trips to our credit, we are fully acquainted as to its length.

Mentioning snow - one day, we had a blinding snowstorm all day (my day off). Some visitors came up and had a picnic lunch in the storm. Just after lunch, we discovered them and they wanted a trip around the Rock, so we put on our galoshes and took them. It was difficult to see three feet in front of one. They were from Grants, 40 miles away!

The CAA man came by early in the month and spent one half day giving our light plants a thorough checking, and putting one back in operation. A few days after he left, though, they really began to "act up". Both were out of commission. We got both to operating again, but now one is down again. A considerable amount of time has been spent on them this month. I'm glad that

the trouble has developed this time of year and not in the busiest travel season, and hope that we can get them in shape again for next travel season.

However, we may not need them. The big news this month is that the District Representative and three Washington Office men from the REA were out to see us and revived our hopes by stating that we will have REA power by the end of the calendar year unless some unforseen war emergency prevents it!

Our helper, Ed Ladd, took a short vacation in part to see about entering school. We kept fires in his house for a while, but several nights of zero or near zero weather forced me to drain the house. When he returned, we found that when the house was drained, a few drops, evidently, collected in T's and the like and froze several places. The lines were entirely empty except for these places, and it took just a few moments to thaw them when they were located. We had one sweet time finding them. The air pressure held the water away from the places to make them more difficult to find. He stayed only a few days and then left to attend the University in Albuquerque for the spring semester. We wish him good luck and expect him back next summer.

Inventory was taken before the end of the calendar year. A few odd jobs were accomplished such as one sign was rehabilitate and erected at an intersection, some floors were refinished, etc. One trip was taken to town this month, the same last month, to bring back white gasoline for the light plants, propane, one oxygen tank and minor items of supply.

Superintendent and Mrs. Aubuchon were by to see us, but could only stay a few minutes. However, they promised to be back.

Our water supply is getting alarmingly low. The purchase of the adjacent piece of land which has a well on it has not been completed, but even when it is completed, we will have nearly a mile of trench to dig, pipe to lay, etc.

The weather the past few days has been like summer, but a cold wave is predicted for tonight, so we may have some cold weather and lots and lots of snow(we hope so as to fill our water tank) to report next time.

Irving McNeil, Jr.
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Gran Quivira National Monument,
Gran Quivira, New Mexico

January 25, 1951

Memorandum

To: General Superintendent

From: Superintendent, Gran Quivira

Subject: Monthly Narrative Report for January 1951

Weather. Two good snows early this month somewhat alleviated the dry condition that has been with us. Five inches fell on the 1st and another inch and a half on the 11th and totalled .76 inches of precipitation. Average maximum temperatures for the month were in the high forties and minimum temperatures freezing or below.

Visitors. Ranger and Mrs. Francis Elmore of Chaco Canyon visited on the 18th.

Inspections. Leo Arnberger, SWNM, spent a half day on the 25th discussing museum and interpretive problems with the Superintendent.

Approach Roads. Both approach roads into the area received some maintenance improvements this month. The Torrance County maintainer spent 5 days grading and filling on Highway 10 from Mountainair, and Socorro County reportedly bladed most of the road from Carrizozo to Claunch. This work followed the heavy snows which halted all travel for a three day period.

Personnel. Janitor Lois Kite and Laborer Doyle Chaney obtained Social Security cards during the month.

The Superintendent took four days annual leave over the holidays.

Maintenance and Rehabilitation. Fifteen pickup loads of fill were removed from the cattleguard at the monument's entrance and used to widen portions of the entrance road. The State Highway grader accommodated us by blading our 3/4 mile of road and pulling the drainage ditches.

Work continued on the utilities project this month and the job is now about 95% completed. The electric motor, magnetic starter, meter, switches, and wiring were installed, and material

ORPI

to complete the work was ordered.

Three loads of water were hauled this month, both vehicles serviced, fire and work tools sharpened, and other routine maintenance performed.

Public Health. Bacteriological reports on both water cisterns were reported negative by the State Public Health Laboratory.

Travel. Travel increased 4% over last year with 102 persons visiting the monument. The Chamber of Commerce in Mountainair reports a slight increase in this year's winter tourist travel and predicts heavy summer visitation during 1951.

Interpretive Services. About two thirds of the monument's visitors used the self guiding pamphlet this month, as the Superintendent was absent from the area for about ten days. Conducted tours were given to 11 parties of 32 persons for an average of 44 minutes per party.

Ray B. Ringenbach,
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

GREAT SAND DUNES NATIONAL MONUMENT
Alamosa, Colorado

January 26, 1951

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Great Sand Dunes

Subject: Superintendent's Narrative Report for January, 1951

Weather Conditions

Winter almost refuses to come to the San Luis Valley and January weather has been mild and delightful for this time of year. Outside work has been feasible almost any day as the maximum temperature recorded was 53 on January 23. The lowest minimum temperature was 1 above zero on January 7 and 14 and the highest was 28 on January 19 and 24.

Unfortunately, such mild weather is concomitant with little or no precipitation. We had 0.25 inches of moisture in the form of 3.4 inches of snow which has long since melted or evaporated. All the business men in the valley are quite concerned and a Pasadena, California snow making corporation headed by Dr. Irving P. Krick has been contracted by the commissioners of Alamosa, Conejos, Costilla, Rio Grande, and Saguache Counties.

Special Activities

An unofficial trip was made to Santa Fe on January 23 to get advice on administrative problems and completion of the rehabilitation program. That one day in the Region Three Office will save me much time later.

The Alamosa Kiwanis Club has appointed me as chairman of their Agriculture and Conservation Committee for 1951.

Rehabilitation

The concrete cinder blocks for the patio wall have been purchased and brought to the monument. The old wall has been razed and the tool shed will be moved this next month so that work can be started on the wall proper as soon as freezing weather is over.

The kitchen walls were given two coats of enamel during the month. The woodwork will not be refinished until new cupboard doors are received to replace the badly warped ones. These will be received in February. The Region Three Office is now placing an order for asphalt tile for the floors which will save us a third over all the local quotations for the same tile.

The bathroom lavatory, which had been cracked for some time, was replaced by a new one.

The storm sash has been partly installed. Some of it has not yet been received but notice was received yesterday that it is now available in Alamosa. The installation of the sash has been difficult and slow due to the irregularity and odd size of the casements.

Maintenance

Maintenance again consisted mostly of the routine jobs. The ignition systems of the light plants were again adjusted and new points installed. Thus far this fiscal year, only one plant has been taken to Heide Motor for work and that job consisted only of the installation of a new timing gear.

Almost a day was spent in a futile effort to open up the drain on the laundry tubs in the service porch. These have not worked since my arrival and I doubt if they ever were in service.

Interpretive Service

Slide talks on "Desert Reptiles" were given to the Alamosa Rotary Club on January 5 and Alamosa Lions Club on January 17.

Research and Observation

The plant observation section of the fact file was set up during the month although much work remains to be done.

The January observation that deer have not yet come down from the high country bears repeating. One of my days off was spent on upper Medano Creek above the monument with a party of would-be lion hunters and at that time several deer and a great deal of sign were seen on the exposed mountainsides at 10000 feet altitude and higher. Almost no evidence of deer is found down in the monument.

The few weather records which have been returned from the Weather Bureau since we began observations in September indicate that the range of temperature here is much less than out in the valley. The average minimum temperature for October was exactly 10 degrees higher at the Great Sand Dunes (37.2) than it was at the Alamosa Airport although our average maximum (68.7) was 3 degrees lower.

Decrease in Travel

The decrease in visitation continued in spite of the mild weather. The 207 visitors this year (369 last January) gives us 2027 for the travel year. One of these visitors was a hiker who stayed overnight at the campground.

Ranger Service

The gate in the fence below the George White property was left open sometime last week and the horses from above on Medano Creek came down into the monument. I chased them back above the fence with the wife's help and closed both that gate and another one left open at the same time. I was truly thankful to have my little pony handy to use on this occasion.

The Director has granted me permission to accept a deputy game warden's commission from the State of Colorado. This will help me take care of enforcement problems locally.

(SIGNED)

Glen T. Bean
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Montezuma Castle National Monument
Camp Verde, Arizona

January 25, 1961

Memorandum

To: General Superintendent

From: Superintendent, Montezuma Castle

Subject: Monthly narrative report, January 1961

Weather: From our viewpoint it has been excellent with warm, sunny days and crisp bright nights. Day temperatures have ranged from the mid 50's into the 70's. Night temperatures generally have been in the high 20's, although on a few occasions the mercury dropped to 10 and 15 degrees. Theonly precipitation was welcomed in by the New Year, but only a scant .2 of an inch. Fairly heavy snow in the surrounding high country did not reach the Valley. As far as ranchers are concerned, increasingly serious drouth conditions prevail.

Travel: Weather conditions, undoubtedly coupled with other factors, have helped to keep a steady pace of traffic into the area. While it fell off somewhat from last month, it nevertheless represents approximately a 20 per cent increase over this same period last year. Visitors numbering 1698, arriving in 523 cars visited the Monument. This breaks down into 1353 visitors and 403 cars for the Castle; and 345 visitors and 120 cars for the Well.

Interpretation: During the period, 276 persons were guided on 92 tours through the Castle; an average of 3 persons per tour. This means, of course, that on many trips only one or two visitors were conducted.

At the Castle, 1,300 persons visited the museum; 500 who did not take the guided trip received interpretive talks; and 1,000 toured the Sycamore Trail. At the Well, 61 persons visited the museum during the 39 hours it was open, and 345 toured the Well Loop Trail. Because of the unattended periods at the Well, the latter figures may well be too low.

Henry H. Collins Jr. forwarded to us for comment his manuscript on the proposed booklet, "Birds of Montezuma Castle." We regarded it as a highly commendable job, particularly in its treatment of the Monument's bird-life. For reasons of conformation to policy, one section was rewritten and various minor revisions suggested.

Publicity: Publicizing points of outstanding interest in Arizona, photographs of Montezuma Castle, along with Grand Canyon, Chiricahua, and Tumacacori appeared in "Arizona on Parade." This excellently done booklet was sold as a souvenir by the Kiwanis Club at the Salad Bowl football game, Phoenix, January 1, 1951, which the Club sponsored. Distribution amounted to several thousand.

Vandalism: The first case of vandalism in several years occurred sometime during the night of December 26. The following morning it was discovered the metal flag pole had been pulled down and broken. The rope and fixtures were missing. The large sign reading "Cats and dogs must be kept on leash or in car" had been ripped off its mount at the head of the trail leading to the Castle. It, too, had been stolen.

Maintenance and Construction: Even with a steady flow of visitors, a number of needed maintenance jobs were completed. Finishing touches were put on the pump house, and it was painted. Other painting jobs included the rear alcove of the museum, the window frames, doors and screens of the museum; and the bedrooms of Residence No. 2. The pit toilet structures were repaired and the campground given an intensive policing.

Signs: Archeologist White availed himself of facilities at Tusigoot to make number signs for the self-guided trails both at the Castle and the Well. Included were directional and museum signs for the Well. The motion picture company that worked here last fall left some pole ladders which had been artistically antiqued. Sawed into suitable lengths they will serve as harmonious mounts for the trail numbers. Among the sign jobs was a survey made of those at the Monument entrance. Recommendations for changes were forwarded to the Regional Office.

JOHN O. COOK

John O. Cook
Superintendent

Navajo National Monument
Tonalea, Arizona

January 26,1951

Memorandum

To: General Superintendent

From: Superintendent, Navajo

Subject: Monthly Narrative Report, 1ml, January 1951

Weather: We have had two snow storms (January 1 and 12) during this report period which collectively produced approximately one inch of moisture.

Roads: Most of the approach roads are in good condition, having been recently graded. Our own roads need attention but we have no gasoline for our grader.

General: The development outline for the Master Plan for Navajo was re-written and submitted. More work on the photographic files was accomplished. The furnace was given a cleaning. Three weeks accumulated correspondence was answered and filed.

We are still waiting for the truck load of gasoline that was ordered December 12, 1950.

Visitation: There were four visitors this month,traveling in one automobile.

Publicity: Navajo National Monument obtained some good publicity January 17,1951, from radio station KTAR, Phoenix, Arizona. The radio station broadcast the story of Pipeline, one of the Navajo Indians who guides horseback parties to Keet Seel, and how he got his name. The story was taken from the "Pipeliner" Magazine.

Personnel: The superintendent was on annual leave through January 11.

Seasonal Ranger Seth Thomas Bigman has accepted the position of Boys Adviser at the Chonto Indian Service School. He may still be available for seasonal work in the summer.

John A. Aubuchon
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Organ Pipe Cactus

Ajo, Arizona

January 25, 1951

Memorandum

To: General Superintendent

From: Superintendent

Subject: Monthly Narrative Report lml for January 1951

Weather

This month brought our cold weather for the season with a high of 83° on January 24 and a low of 25° on January 2. An average of daylight temperatures would come in the high 60's with night recordings falling in the mid 30's. Rain, with small amounts of hail and sleet, came and broke, for a short time, our dry spell bringing .65 of an inch of precipitation. Snow appeared in the Ajo Mountains twice during this period.

Special Activities

The Superintendent journeyed to Phoenix on January 2 and 3 to meet Communications Engineers Rowley and McFadden. Under their supervision our FM radio survey for intra-area communication was set-up, conducted, and completed. Radio equipment needs for the new installation were determined and we now await the issuance of bids and the letting of contracts.

The annual inventory of all non and semi-expendable equipment was completed and appropriate board of survey forms were prepared.

Co-operating Government Agencies

The Bureau of Animal Industry camp, for which a recent permit has been approved, is in the process of being established at monument headquarters. The present outlay includes three frame buildings which have been hauled in from other locations along the border. It appears likely we shall add three families, at least temporarily, to the population at Organ Pipe Cactus.

With the assistance of various of the local Bureau of Animal Industry personnel the monument staff pulled the old 2" drop pipe from the water well and replaced it with new 3" pipe, steel sucker rod, cylinder, and 3 h.p. electric motor. It now requires but a half to two thirds of the former pumping time

to fill our tank. Too, our system is now more adaptable for future developments.

Maintenance

The Bureau of Animal Industry has loaned us a bulldozer which is currently being used in improving minor roads and wash crossings. It is hoped, with the help of this equipment, to put what is at present a scarcely passable loop road into passable condition for the use of visitor passenger cars. This will give us ready access to a very interesting and scenic portion of the area.

Travel

Visitor use has doubled itself this period. While contact totals show slightly less than double the campground use has more than doubled with a high of 86 campers making use of the grounds at one time. An average of 21 campers were with us each day this month. This month's camp use and resulting crowded conditions clearly indicate the inadequacy of the present facilities.

Accidents

On January 17 Ranger Steele received a painful injury to his left hand while working with the crew on the well improvement. Two fingers were badly mashed and cut when they were caught in the lower block while pulling the drop pipe.

On December 29 a pick-up towing a boat overturned 8 miles north of headquarters.

On December 31 a deer was struck and killed on the through the monument highway.

Visitors

Chief Ranger and Mrs. Everman Horschler of Rocky Mountain National Park on January 19 and 20.

Photographer Joseph Muench on January 17 and 18. Mr. Muench presented an illustrated lecture at headquarters the evening of the 18th for the campers.

William R. Supernaugh
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Saguaro National Monument
Tucson, Arizona

January 25, 1951

Memorandum

To: General Superintendent

From: Superintendent, Saguaro

Subject: Monthly Report, January 1951

General

Two storms during the month brought much needed precipitation to this area in general, however, because of extreme dry conditions, all of the moisture was absorbed by the parched soil and principal streams have not begun to flow. Thus, for the second month, it has been necessary to haul all water for both domestic use and for stock to the Pack Base.

A group of Southeastern Arizona ranchers headed by former Ambassador Lewis Douglas has contracted for rain-making operations with the Water Resources Development Corporation of Pasadena Calif. In the first two storms of January precipitation recorded in cities in the target area was double that of stations in other parts of the state. This is an encouraging note for Saguaro especially in the summer rainy season when so many moisture laden clouds are present but do not always deposit their moisture on the ground. We hope that the rain-makers can "milk" clouds of this sort to increase precipitation.

Travel to the Monument has been brisk throughout the month except during stormy periods and another all time travel record for Saguaro National Monument was established for January.

Temperatures for the month ranged from a minimum of 31° to a maximum of 74°.

Special Activities

Lowell Sumner, Biologist from Region 4, arrived on schedule and has been engaged in a study of wildlife resources of Saguaro National Monument, with particular emphasis on predators and their relation to other wildlife types.

During the month, he gave four excellent lectures on Service areas illustrated with Kodachrome slides before civic groups in Tucson. These lectures were very well received as was indicated by members of his audiences who came forward at the conclusion and were profuse in expressing their appreciation.

It is felt in this office that Mr. Sumner's talks have contributed greatly to a better understanding of Service policies and will, no doubt, help to promote better relations with local citizens particularly in the field of wildlife.

General Superintendent Davis made an official visit to the area on January 7.

Publicity

On January 11, 1951 over radio station KVOA, Tucson, a portion of a travel program sponsored by the Pacific Greyhound Lines was devoted to the giant cacti of Saguaro National Monument. Instructions as to how to reach the area were also included.

Status of Private Lands

The proposed Saguaro land exchange suffered a set-back during the month when the Arizona Land Commission mis-laid the list of public domain lands offered for exchange by the Bureau of Land Management. State Land Commissioner Lane was extremely sorry about this and agreed to assign one man of his department to make tentative appraisals of these federal lands. A pseudo-agreement should be forthcoming in the next two or three months.

Maintenance

All major maintenance was devoted to Monument roads in January. Maintenanceman Barney has been building up the tread material on the Madrona Ranger Station approach while Laborer-Leadman Shamberry spent most of his time grading the Cactus Forest Loop road. The latter road is now in good condition and the high moisture content of the soil plus heavy travel should aid in packing it down.

New Construction

The Madrona Ranger Station Bedroom Addition work this month was devoted almost entirely to painting and clean-up. As of this date $2252.43 has been expended leaving a balance of $147.57.

Approaches to Park Area

The Broadway approach road was bladed twice in the preceding month. At this writing, the road is in fair condition. The two storms have settled the dust on this road which diminishes the visitor complaints.

Construction seems to have halted on the "Old Spanish Trail" approach road. Whether this is a permanent work stoppage cannot be determined as yet. Much construction work is suffering by a shortage of materials in this emergency period. The roadway has been brushed out through to the west boundary of the Monument.

Cooperating Government Agencies

Biologist Lowell Sumner reports that the University of Arizona has been very cooperative in providing him with laboratory and library facilities. Several University biology professors have become interested in Mr. Sumner's study and have accompanied him during periods of his investigation.

Interpretive Services

A total of 2,380 persons in 785 parties were given interpretive service at headquarters. This amounted to a total of 168 hours for an average of 13 minutes per party.

Accessions

During the month, the clutch and pilot bearing of the Galion grader burned out thus making it impossible to take the machine to town for repairs. Qualified repair shops in Tucson were phlegmatic about sending a mechanic to the Monument. Laborer-leadman Stansberry accomplished this work at a great saving of time and at about one-half the cost of a repair man.

Museum Activities

New labels were made, using the Leroy Lettering Set, for all exhibits in the arboretum. All labels were then water-proofed.

A new section to the arboretum at headquarters is at present under construction. This new annex will contain specimens of desert plants and wildflowers other than cacti. Rangers are working in their spare hours(which are very few) toward its completion.

Increase in Travel

A total of 4,976 persons visited Saguaro National Monument in January. This represents an increase of 2,687 visitors as compared to last month, and an increase of 917 visitors over the corresponding month one year ago.

ORP I

Visitors

Dec. 27- Adeline Grabber, Tucson, Arizona.
" 28- Supt. John O. Cook and family, Montezuma Castle Nat. Mon.
29- Scoutmaster Canyon and seven scouts of Troop 32, Tucson, Arizona hike to Manning Camp.
Jan. 2- Lowell Sumner, Biologist, Region Four, San Francisco, Cal.
" 4- Ranger Paul Steele and family, Petrified Forest Nat. Mon.
" 12- Mr. Walter F. Loehwing, Dean of Graduate School, Iowa State University.
" 16- Mr. Emerson C. Scholer, architect, Tucson, Arizona.
" 18- Mr. and Mrs. Henry Dandahl, Santa Fe, New Mexico.
" 19- Dr. and Mrs. Juan Fonseca, Catholic University, Havana Cuba.
" 19- Miss Lyla Haines, Yellowstone Picture Shops.

Ranger Service

Seasonal Ranger Wendell A. Bryce reported for duty on January 7, 1951. Mr. Bryce served three summers as a Fire Control Aid for the U.S. Forest Service and was employed as a ranger at Bryce Canyon Nat. Park last summer. It is a pleasure to welcome Mr. Bryce to our organization.

Mervin H. (alias "Pop") Frost entered on duty January 7, as W.A.E. Guide. "Pop" is always a welcome addition to Saguaro.

Personnel

Trail Laborer Arthur P. Garcia was terminated January 2, 1951. We plan to hire Mr. Garcia back in the Spring when the snows melt on the Rincons.

Samuel A. King
Superintendent

Tonto National Monument
Roosevelt, Arizona

January 26, 1951

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Tonto

Subject: Narrative Report, Tonto, January 1951

Weather: Still warm and dry, with near records for hot days in January. Has 71° at Tonto on the 25th. One good rain on January 12, and some snow. There is very little snow in the watersheds around here, the lake is nearly dry, and little prospect of a good run-off so far.

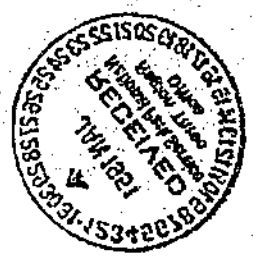
Approach Roads. The rain enabled the State to smooth up its roads considerably, and the Apache Trail is temporarily in good condition. State Maintenance man Ab Seniors bladed the Tonto road this month.

Visitors. Mr. and Mrs. Henry Viklund, to spend a weekend with Seasonal Ranger Robert Viklund.
Mr. Raymond Briost and family, of the Dons Club, Phoenix.

Powerplants. A light power line was constructed from the museum down to the utility area, and the power plants all put under a shed there. Seems to work all right, and clears up the residence area a little more. Considerable valuable time was used to keep one plant running, and only one is running.

Travel. The January travel received a good boost from the Dons Apache Trail cavalcade on January 21, when about 500 visitors were here, counting about 150 not with the Dons.
Total for the month was 2458, compared with 2774 for January last year. Since last years Dons Trek was in February, an actual decrease of about 20 per cent is indicated.

Public Relations. Supt. Sharp made a trip to Phoenix the afternoon of January 18 to attend a Dons Club meeting and give a talk on Tonto National Monument. Phoenix papers carried a good write-up of the Cavalcade on January 21.
A talk to the Globe Lions Club is tentatively scheduled sometime next month.



Dons Cavalcade. The annual stop of the Dons Trek at Tonto was accomplished this year in a much more orderly and convenient fashion, due to the adequate parking area. About 30 cars and 5 Greyhound busses came in at one time, in addition to the regular Sunday travel. The Dons and Donas, in fiesta costume, were hosts to about 350 people, and greatly helped us in giving service to the group. Supt. Sharp briefed the crowd over the P.A. system, and Archaeologist Pierson led about 200 visitors up the trail to the cliff dwelling. Pierson and Ranger Viklund were on duty in the ruin, along with half a dozen Dons. NAE Guide Conner helped out at headquarters. For a while it reminddd me of old times at Carlsbad.

General. Ranger Viklund has the nature trail equipment ready to go, including a desk for leaflets, easel display stands, and numbered stakes.

Some trail work was done after the rain. Considerable time was spent on power plants as usual. Maintenance, heavy travel, reports, red tape, and interpretive work have kept us busy, with a lot more to do.

Special Reports. A rather complete pictorial report for the Engineers, on the parking area job, was started when we finally got more of our pictures back. This is made up in draft stage, but will be delayed a few days by other work.

Radio. The radio has worked well for a long time, but is becoming increasingly unsatisfactory because of the overcrowded 8150 channel. We can get music, Morse code, lessons in Spanish, and everything but the National Park Service stations.

Charles C. Sharp
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Tumacacori National Monument

Tumacacori, Arizona

January 25, 1951

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Acting Superintendent, Tumacacori

Subject: Superintendent's Monthly Narrative Report for January, 1951

Weather: Temperatures this month ranged from a maximum of 76 degrees on January 24 to a minimum of 20 degrees on January 2. The precipitation this month was double the average for January of the last thirteen years, being 1.50 inches. This consisted of both rain and snow. On December 31, 1950 high winds blew down another big clump of cactus out along the mission trail.

Credit for the precipitation is being claimed by the Water Resource Development Corporation, a private organization engaged in "rain-making" here in southern Arizona. We don't know who to thank, the Corporation or Mother Nature, for our precipitation, the first of any consequence since last August.

The total precipitation for 1950 was only 8.39 inches as compared with 12.99 inches, the average for the past twelve years.

Visitor Travel: Travel this month was a little higher than Januaryr travel of last year but not as high as the travel for Januaryr 1948. A total of 3,626 visitors came to the monument this month. This compares with 3,614 for Januaryr 1950, and 4,065 for January 1948. This is the first month since last June that has not broken all previous travel records for the respective periods.

Interpretive Service: Of the 3, 626 visitors to the area, 1,632 went on the 268 guided trips that went through the mission church and grounds. The average trip took 35.53 minutes. 3,535 persons received combined Information and Interpretation Service and 3,610 persons saw the museum and patio garden.

Visitors: Among those who visited the area were:

12/26 - Superintendent and Mrs. Sam King and party, of Saguaro Nat'l Mon't.
1/1/51- Maintenanceman Ollie Barney of Saguaro National Monument.
1/2 - John Scott Trotter, Santa Monica. His orchestra provides music for Bing Crosby program.
1/3 - Ranger and Mrs. Forrest Benson and daughter of Saguaro Nat'l Mon't, and Supervisory Ranger and Mrs. Paul Stosle and daughters of Petrified Forest National Monument.

1/4/51- Charles Van Ravenswaay, Director Missouri Historical Society, St. Louis, Missouri.

1/22/51-John Thurston, Deputy Administrator, Federal Security Agency, Washington, D.C.; Dr. Heber Harper, Regional Director, Federal Security Agency, Denver, Colorado; James Dourn, Regional Director Federal Security Agency, Kansas City; and Fay W. Hunter, Regional Director, Federal Security Agency, San Francisco.

1/23/51-Mr. and Mrs. Henry Dandahl, Santa Fe, New Mexico. Friends of the Park Service.

Cooperating Agencies: On January 3 Bob, Blakely of the Arizona Highway Sign Shop was contacted concerning signs needed on the highway in front of the monument. Today, he let us know that the signs are being made and we should have them in two or three weeks. These signs will be black and white, with six inch letters. Two saying "Tumacacori National Monument - 1 mile" and two saying "Tumacacori National Monument - 1500 feet."

Museum and Education: Our plans for the Patio Garden "Nature Trail" are coming right along. The leaflet has been written and sent in to the Regional Office for mimeographing. The stakes are about ready, and as soon as we get the mimeographed sheets we will install the stakes and see how it works.

Maintenance: Routine maintenance was kept current. The east gate to Patio Garden was repaired and a new gate for the east Monument boundary was made. More Bondex work on the museum was done including the painting of the roof drains. A section of the brick walk in front of the museum was given a coat of Ducorex. Several of the bricks in the floor of the museum lobby were badly worn necessitating a floor patching job. Felt stripping has been placed around access boards above ~~the~~ some museum display cases to stop light leaks. The large Thunderbird sign, on the highway directly in front of the museum, was removed. The few people who noticed the sign would stop on the highway to read it, since there was no turn-off, and this was a bad safety feature. A new sign has been drafted to incorporate the information from this sign and the sign in front of the museum into one large sign in front of the museum. The windows in the mission were cleaned and there was a general clean-up of the mission grounds.

A good part of the maintenance work this month was on behalf of the plants on the monument, both in the patio garden and in the rest of the monument area. Irrigation basins around most of the trees on the monument were enlarged and compost was added. A tree (Prunus caroliniana) was purchased and planted just west of the Ranger's residence, in place of the dead Chinaberry tree. The Superintendent and HSWP spent a good day working in the patio garden pruning and fixing up the garden.

Accidents: On December 26, Orozco got a fleck of paint in his eye and was taken to the Doctor in Nogales to have it removed. He was back at work the next morning.

Earl Jackson
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA

January 25, 1951

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Tuzigoot

Subject: Report 1ml, January 1951

There follows a report of activities in this area.

TRAVEL

900 visitors in 285 cars. 829 visitors in 261 parties were contacted and oriented in the Museum. 823 visitors in 262 parties made the trip thru the ruins. This is the first month of the 1951 Travel Year which shows an increase over 1950, and may be attributed to unusually warm January weather, with all approaches free from snow thus far. Total number of visitors for January of last year was 801.

N.P.S. VISITORS

Mr. and Mrs. Francis Elmore of Chaco Canyon National Monument on a "busman's" holiday, December 30.

Mr. Art White, Archeologist, Montezuma Well, on January 4, and again on the 10th, 12th, and 13th, using our sign shop to rout signs for his area.

Superintendents and Mesdames Hastings and Bright, Walnut Canyon and Canyon de Chelly respectively, on January 16, accompanied by Mrs. Bright's sister, Miss Barbara Hunt, of New York and Phoenix.

Former Ranger, Myron Sutton (G.C.N.P.) on the 15th, enroute to Ft. Meyers, Va.

REPORTWORTHY VISITORS

Allen C. Read, Photographer, Phoenix, on December 26.

Mr. Klaus Vollmer, Berlin, Germany, and Mr. Werner Libsch, Munich, Germany, two Foreign Exchange students attending Stanford University, on December 29.

Two Swiss students in the U.S. on Fellowships at the Frank Lloyd Wright School of Architecture, Phoenix, on January 24: Fritz Stuckey, Zurich, Switzerland, and Peter Steiger, Zug, Switzerland.

OTHER FEDERAL AGENCY VISITORS

Mr. Ralph James, U.S. Forest Service, Stanford, California, on January 5.

Mr. Howard Weindel, U.S. Public Health Service, Denver, Colorado, on January 17, enroute as an instructor in a training school for sanitarians and food handlers to be conducted in Phoenix.

IMPROVEMENTS

The unsightly cobblestone-lined drainage ditch in front of the Museum was removed, as approved by Regional Landscape Architect Miller.

The furnace in the office, heretofore a black color, was painted aluminum, enhancing the appearance of the office.

Salvaged plate glass was installed in two Museum doors replacing corrugated paper. Door stops were fastened to prevent further breakage by wind slamming.

Two faulty light switches were replaced. Two switches were installed to control illumination in the Men's Room.

A Romex line was installed to bring convenience outlets to the kitchen.

The butane installation was corrected and the supply line is now buried in a 12-inch trench to the new location of the metal cabinet.

Old laboratory shelving was torn out of the office and the walls were patched and repainted.

A small wood/coal burning space heater was set up in the garage-shop to provide enough heat to use the building as a sign shop. Ranger Art White set up the stove and then routed a goodly number of signs for Montezuma Castle and Montezuma Well.

The drinking fountain in the Museum was repaired and heigth of flow adjusted.

The Women's Room was repainted, and instead of repainting the cement floor after it had been broken up to reach the sewer line to connect plumbing for the Men's Room, the floor was smoothed and covered with a mottled yellow asphalt tile.

NEW CONSTRUCTION

The Men's Room was partitioned and plastered, utilizing 2" by 4" studs, fireproof Rocklath and Perlite plaster. Seal coat and Palm green paint was applied to the walls. Finish plumbing was installed; also a toilet, toilet tank, floor length urinal, lavatory, paper rack, towel rack, and mirror. Into the 20" by 4' space extending to the ceiling adjacent to the chimney was constructed a storage cabinet for sanitary supplies and equipment.

NATURAL HISTORY

A Gambel Quail (adult male), killed on the highway by a motorist,

was collected by the Superintendent and prepared as a study skin by M. A. Wetherill. Adding this skin to our wildlife collection now brings the total up to one.

J. W. Brewer jr.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Walnut Canyon National Monument
Flagstaff, Arizona

January 25, 1951

Memorandum

To: General Superintendent

From: Superintendent, Walnut Canyon

Subject: Monthly Narrative Report, January, 1951

Visitors this month 583; travel year to date 4450.

General Clear dry weather has prevailed throughout most of the month giving us the highest travel count for any January recorded. There were 538 visitors while the last previous record was January, 1948 with 434 visitors. From three to fourteen parties of visitors arrived every day except January 12 when it snowed and there were no visitors.

Administration The serial numbers on all Government tires was recorded.

The quarterly book sales inventory and report was completed as were other quarterly reports.

The west and part of the north boundary was patrolled. Also that portion of the south boundary south of Headquarters. A fill used by logging trucks outside the south boundary has been removed leaving most of the boundary inaccessible by truck.

Special Use Permits for water line connections were delivered to Claud Smith, Ralph Fish, and J. A. Kollam. Action on a permit to James Copeland is still pending.

Use of Monument Facilities By The Public The trail to the cliff dwellings was slick in spots for a few days but is now dry. There were 583 visitors who came in 204 cars. Contact was made with 307 visitors in 98 parties. Visitors in the museum numbered 554 in 195 groups. There were 8 picnic parties including 14 people.

Equipment Installation of our new oil burning furnaces is not quite complete. A humidifier is needed for the one at Residence No. 1 and an outer jacket for the one at Residence No. 2.

A small shed made to shelter a transformer was transferred to Wupatki.

Utilization of what had been a coal storage space allows us to place all automotive equipment under shelter.

A used gasoline powered winch has been located and data for the Regional Office is being assembled.

Maintenance and Improvements The telephone line has been working poorly most of the month. The seven miles of line from the monument to the repeating coil north of Highway 89 was patrolled on foot but we still have an intermittant "short". Repairs were made by the Forest Service to the telephone from Residence No. 2.

A new 3-wire clothesline supported by metal posts was erected at Residence No. 2.

Minor repairs were made to the "tissue" paper roof over our shop.

The hole for our gasoline tank was backfilled.

The floor of the men's restroom was repainted.

Interpretation A project to mount all plant specimens not previously mounted has been undertaken. A new supply of genus and species folders has been received.

NAME C C Seymour
TITLE Asst Custodian

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, BUS, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS ENQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE KNOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REVISED MAY 1949.

Superintendent on leave - 10 days of month.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical Areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each colum in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service Areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

NAME JOHN O. COOK
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL MONUMENTS SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS RADIO, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REVISED MAY 1949.

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance or visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report Em3) and 9 (Report Em1).

ORPS

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REVISED MAY 1949.

CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 9M3) AND 9 (REPORT 9M3).

REVISED MAY 1949.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service Personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 16, Chapters 9 (Report No3) and 8 (Report No).

NAME
TITLE Supt

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY CONTACT SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATION OR OFFICER DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. REVISED MAY 1949

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

White Sands

Box 231, Alamogordo, New Mexico

January 24, 1951

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, White Sands

Subject: Superintendent's Monthly Narrative, Report No. 1n1

JANUARY TRAVEL, 1951	TRAVEL YEAR TO DATE
Visitors, 9,701 Cars, 2,396	Visitors, 35,790 Cars, 9,230

GENERAL

January certainly started out the calendar year with a "bang", and probably an open month might account for the large visitor count. The weather has been grand. A high of 64° occurred on the 12-31-50 and a low of +6° was registered on the 1-7-51. A total of only .18" of moisture was received.

This lack of moisture is apt to be noticed later. Already our Sands Well is drained at a single pumping and with the winter use. This has not occurred before in our history, especially this time of the year. In mid-summer we have pumped it dry but not in winter before.

INSPECTIONS

Dog Canyon water is as low as has ever been recorded, and such seems to be the case in most of the mountain streams or springs. Little moisture has fallen in any of the mountains nearby.

Several trips were made to Holloman Air Force Base in connection with our water contract with the Air Force. We may not get the wording exactly as we wish it but it all means that if no water is available we naturally won't get any.

INSPECTIONS - continued

Local building and maintenance inspections are most encouraging. We have replaced the big doors on the garage where we can now get our Caterpillar under cover and still shut the doors. And, too, the present ones we can close without calling for help.

GENERAL PUBLICITY

No special items have come to my attention and, with the exception of local items carried in the two Alamogordo papers, I guess all has been very quiet.

COMPLAINTS

Neither the concession operator nor our Service received any complaints. In fact, we have commented on how appreciative our visitors have been.

MAINTENANCE

As mentioned above, our big doors were replaced in the garage; the other doors are being scraped and repainted, readjusted and repaired. All the plaster has been removed from our oil house and in several bad places on our garage. We will replaster these spots as soon as weather will permit.

Some alarming conditions were discovered upon removing some of the old plaster. Moisture had seeped down and our walls were wet despite the fact that it has been weeks since we have had any moisture to speak of.

Routine repairs have been made to our sands well and the pump. Several spot patches were made on our roofs. Road repairs have been minor and most work has consisted of dragging in the late afternoon to prevent the ruts from freezing and being so rough until midday when thawing begins.

APPROACHES TO PARK AREA

We hear that the Cloudcroft road is paved all the way to Cloudcroft now, and that should help our visitors a lot in planning a trip to the mountains. Portions of this road are dangerous, however, when slick. One person was killed last week when his car went off the road on an icy stretch. No word has been received on the contracts that have been let on other approach roads.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Wupatki National Monument
Flagstaff, Arizona

Jan. 26, 1951

To: General Superintendent

From: Superintendent, Wupatki

Subject: Monthly Narrative Report -- Wupatki and Sunset Crater National Monuments

Weather. The weather continues dry. It has now reached a place where the out-of-state visitor remarks happily, "My, isn't this wonderful weather?" The local visitor on the other hand laments, "Lord, What are we going to do for water?"

Status of Private Lands. On Jan. 20 the superintendent visited the site of Babbitt Brothers new water well located in Sec. 31, T26N, R10E (their private section in the tier of sections running out to crack-in-the-rock). The well is pumping 8 gallons per minute on a round-the-clock basis. A new and modern 4-room, cinder block house at the site is nearing completion. Storage tanks are in place and water lines will be laid to service the range in the vicinity. Use of that area and adjoining Monument lands has been heavier this season due to shortage of feed elsewhere and the extremely mild and open winter.

Maintenance. Considerable needed maintenance work was accomplished this month. Rewarehousing from the CCC barracks into the quonset hut was completed and the barracks can now be removed. A new 16 ft. workbench was constructed in the shop end of the quonset. Now for the first time we can work on the equipment under cover and without having to lay all the parts down in the cinders. The turquoise blue ends on the quonset hut were repainted a more conventional OD.

All exterior woodwork on the superintendent's residence and the pump house was repainted. The house occupied by Mr. Bean was given a coat of paint. This leaves only the old CCC office (to be used as a light plant house at Heiser) to be painted. With the paint etc. Heiser Spring should look pretty presentable when the old barracks is removed.

A small building to house the light plant at Wupatki was obtained from Walnut Canyon. The building has not been placed as yet, but when it is it will allow us to comply with recommendations of long standing that the plant be removed from the workshop.

JAN 1951
RECEIVED
National Park Service

Monument Roads. Road work moved slowly this month as Mr. Bean had 4 days annual leave and 8 days sick leave. The roads are too dry to blade and the time has been used to distribute approximately 160 yards of clay surfacing in the Doney Mountain section.

Cooperation. This is a broad term sometimes. This month it has included the towing of a car from near Sunset Crater to the highway. unfortunately the driver got a bit confused late one evening as to where to put the alcohol. The result the next morning --- two cracked heads. An 8 mile hike helped clear the driver's head but a 33 mile tow didn't do much for the car's head.

The Census Bureau in Washington is now mailing questionnaires to the local Navajoes stating that they cannot find birth certificates for recent arrivals who showed up on the 1950 census. Such questions as "Who attended the birth?" and "What was the Mother's maiden name?" and "Why aren't all last names the same?" are a bit confusing to the Navajo, the Census Bureau and the superintendent.

Interpretive Service. At Wupatki Ruin 192 visitors in 56 parties were contacted for an average of 21 minutes. A total of 328 visitors used the self-guide trail at Wupatki and 175 visitors the Citadel self-guide trail.

Travel. A substantial increase this month due to the fact that the back road from Sunset Crater has been open for the entire period. Mild weather, the rabbit season and the open road has brought an increasing number of Sunday visitors from Flagstaff.

REMARKS:

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE
Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOMES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REVISED MAY 1945.

TITLE Superintendent

RECEIVED
FEB 1951
Region Three
Office

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR STAND INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REVISED MAY 1949.

REVISED MAY 1950

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PREPARED BY SERVICE PERSONNEL OUTSIDE THE AREA.

JAN 1951 RECEIVED National Park Service Region Three

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKERS AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

RECEIVED
JAN 1951
National Park Service
Region Three
Santa Fe, New Mexico

REVISED MAY 1946

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill In Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible the visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, roadside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each colcum in all b[illegible]es.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

[illegible] REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a1).

ARCHES NATIONAL MONUMENT
MOAB, UTAH

February 26, 1951

Memorandum

To: General Superintendent

From: Superintendent, Arches

Subject: Narrative Report for the Month of February, 1951

WEATHER: The drought continues with only a trace of precipitation. A touch of spring has been definitely noted in quite a number of warm days and a few very windy ones.

TRAVEL: Our traffic counter, on loan from the Utah State Highway Department, was returned to them at the close of the January tarvel month. It will be returned to us May 1, after reconditioning. The visitor count this month was taken from the register and 25% added for Non-registration. There appears a 180% decrease from the count of last month. Non-registration undoubtedly can be blamed for this [illegible] decrease. The total visitors for this month amounted to 153 people, arriving in 60 cars, from 13 states and Canada. Inspite of the heavy decrease between this month and last, we still show an increase of 61% over the same period last year.

INTERPRETIVE SERVICE: Our interpretive service improved this month with 68 of the 153 visitors being contacted. Total contact time amounted to 7 hours and 40 minutes.

MONUMENT ROADS: Ranger Worthington worked for a week with Maintenanceman Winbourn, shaling the crossing on Salt and Winter Camp washes. This work makes this road passable although a finished job of grading is impossible until we receive more moisture.

APPROACH ROADS: The Utah State Highway Department worked a full week plating approach road #93 with shale and improved it a great deal; however much more plating and grading could be done.

WATER SYSTEM: The new Pacific Jet Pump is working satisfactorily with it's capacity the same: 460 gallons per hour.

MOTOR EQUIPMENT: We have been unable to obtain new tires for the Front End Loader, but finally put back into operation by recapping two of the old tires. We are keeping our fingers crossed against blowouts.

PERSONNEL: Notice of the approval of my transfer to Blue Ridge Parkway was received on February 20, but sofar I have received no notice as to when this transfer will be made. From the Red Rocks to the Blue Ridges. What a change!

24 February 1951

Memorandum

To: General Superintendent

From: Superintendent Aztec Ruins

Subject: Superintendent's Monthly Narrative Report, Feb

WEATHER: This month has been quite variable with a cold snap at the beginning when the temperature went to a low of -5, followed by warmer weather up into the 60's. Several scattered snow storms have added some 8 inches to the yearly total. The generally good weather has upped our travel considerably.

MAINTENANCE: In our last report we did a little bragging about the fine shape in which our ruins structures' roofs had come thru the winter, but we find we spoke too soon. The great kiva roof cover split in great lenghts, 15 to 20 feet to a crack, following the cold snap on Feb 1 and 2. The repair to recover these cracks took all of our stock of roofing, so we believe we now have a water proof surface.

The other ruins structures with roofs seem to have come thru the alternate cold and warm spells in good shape. Also, the stabilization work completed during the past summer is weathering the winter quite well.

We had a little hard luck with our pickup when the radiatorsprung a leak, allowing the loss of the coolant. This has been repaired and we are ready for more winter, which at this writing is here again with snow falling heavily outside.

INTERPRETIVE SERVICES: There were 372 visitors in 83parties conducted thru the ruins, and 557 visitors in 146 parties shown thru the museum.

INCREASE IN TRAVEL: Each month seems to bring an increase over the month of the previous year, and this February we have had an increase of approximately 44% with 557 visitors from 27 states and Canada in 184 cars.

VISITORS: Harry Linder, Chief Clerk Mesa Verde, dropped in for a quick visit while on his way from Platt to his new job, Feb 20. C.H. Rudkin and Don Meadows from So. Calif. Edison visited Feb 22, while enroute from Region Three thru the Southwest.

BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

March 1, 1951

Memorandum

To: General Superintendent

From: Superintendent, Bandelier

Subject: Monthly Narrative Report for February, 1951

Weather

Drought conditions were relieved somewhat by 13 inches of snow on January 30 and 31 and lighter snows and rain on six days during February. A total of 1.21 inches of moisture was received.

The lowest temperature ever recorded here occurred on February 1 when the mercury went to 23 degrees below zero. The previous low was 18 degrees below zero in 1948. Immediately following the cold snap the weather warmed up to a balmy 74 degrees on the 11th.

Special Activities

In-service training meetings were held once a week during the month. Mr. Gilmore from the Region Three Office conducted a meeting on fiscal procedure and Messrs. Reed, King, and Arnberger attended the meeting on interpretation. We greatly appreciated the contribution of time and information by the Region Three personnel.

Most of the employees and their wives completed the advanced first aid course that was conducted by Mr. Burnsworth of the Los Alamos fire department.

Inspections

Assistant Regional Director Cornell, Architect Jerry Miller, and John Rosthoft of the Washington Office made an inspection of roads and the proposed parking area enlargement on the 6th.

FOR DEFENSE
BUY
UNITED
STATES
SAVINGS
BONDS
AND STAMPS

Architect Lyle Bennett inspected the proposed installation of a dishwashing machine in the Lodge kitchen and other building problems on the 21st.

Maintenance

A six mile section of the abandoned long distance telephone line was salvaged by the maintenance crew. This line connects on to the Forest Service line to Espanola that has been discontinued since the installation of a new line to Los Alamos.

An insulated hot water tank was installed at the warehouse quarters and a hot water line was connected to the wash bowl in the bathroom.

A number of deficiencies that were discovered during an intensive fire inspection were corrected by the maintenanceman. These consisted, for the most part, of leaks in propane gas lines and oil line to heating stoves.

It was necessary to spend several days chipping ice out of the canales on all of the buildings following the snow the last of January.

Approach Road

Mr. Moran made an inspection of road materials on the 9th in order to determine what to use for placing an oil dust coat on the section of the approach road from the end of the paving to the checking station. It was decided that the volcanic ash material that is now on the road will be suitable for an oil base.

A soaking rain toward the last of the month made it possible to grade the entire approach road with good results.

The Bureau of Public Roads is making the final survey and the bids have been advertised for construction of the road from the Los Alamos west gate to technical area 33. This will add about one and one half miles of paving to the approach road.

Concessions

A meeting was held in Santa Fe with Mrs. Frey, Mr. Gilgis, and Mr. Baker to discuss the operation of dining facilities for the coming season. Mr. Gilgis and Mr. Baker will manage the dining room as they did last season.

A new dishwashing machine was purchased for the Lodge kitchen. This will eliminate the most serious criticism made by the U. S. Public Health Service of this operation.

Interpretive Service

A total of 512 visitors were conducted on 58 tours of the ruins.

All of the pottery sherd and artifact collections that have been stored in the office basement in old boxes and sacks have now been placed in standard sherd boxes and properly labeled. This practically completes the rearrangement and straightening up of the basement and gives us a good workroom. It also provides space for visitors or students that are interested in the herbarium or study skins.

Travel

The bad weather, particularly on weekends, caused a decrease in travel under that of last year. There were 1226 visitors as compared with 1325 for February, 1950.

Visitors

Naturalist Don Watson and Miss Jean Pinkley paid us a visit on the 11. Mr. Meadows, architect for California State Parks was a visitor on the 20th.

Wildlife

Two counts of wildlife tracks were made while snow was on the ground. Wild turkeys were seen frequently in the Canyon near Ceremonial Cave and near the checking station.

Building Fire Protection

A building fire drill was held this month at which the equipment was taken to the administration building and the hose was connected to a hydrant in three minutes. The drill brought out the need for more secure fastening of wrenches and hose nozzles on the hose cart.

Office

Canyon de Chelly National Monument
Chinle, Arizona.

February 26, 1951

Memorandum

To: General Superintendent

From: Superintendent, Canyon de Chelly

Subject: Monthly Narrative Report for February, 1951

Weather: Temperatures this month ranged from a low of -3 degrees on February 8 to a maximum of 69 on February 10. A light snow of only .12 inch of moisture fell on January 30.

Visitor Travel: 69 people in 23 cars this month. This is slightly higher over last month, however, the figure is lower than for the same period of last year. Cold weather and uncertain road conditions hold travel to a minimum.

Progress on Project Programs: The construction of all picnic tables and fireplaces are now completed and placed into position at the three campground areas - Monument Headquarters, White House and Spider Rock overlooks, and are ready for use by the large number of campers we expect during the coming summer months. These units will add considerably to the monument recreational facilities and will be enjoyed by Park visitors for many, many years to come. Trash disposal containers and trail improvement work remain to be completed.

A trip was made to Gallup on February 9 to distribute bids and specifications for alterations to Superintendent's residence. Work on the rehabilitation program will start as soon as a successful bidder is selected.

We are still waiting for delivery of 14,000 pounds of wire, from the General Services Administration, to complete the de Chelly water shed Soil & Moisture Program.

The Spider Rock trail is being shortened from 900 yards to a distance of about 100 yards. Visitors will be able to drive to the newly established picnic and parking area thus eliminating the previous one-half mile walk.

Work on the roads will start as soon as the first moisture arrives.

General: A trip was made to Santa Fe during the first part of the month to deliver excavated material taken from Tse-tsa site, and to discuss master plans, project programs, accounts, and many other phases of de Chelly work.

Canyon de Chelly National Monument
Chinle, Arizona.

Con't. from page 1.

Canyon Travel: For the first time in a year water is flowing in the canyon. Not much but just enough to prevent canyon travel.

Personnel: Maintenance-Man David Corman returned to work on the morning of February 19 after a short illness due to a fractured ankle bone.

Capulin Mountain ..... NATIONAL MONUMENT

Capulin, New Mexico .....

February 25, 19 51

Memorandum
To: The General Superintendent
Southwestern National Monuments
National Park Service
Santa Fe, New Mexico

From: Superintendent Homer J. Parr

Subject: Monthly narrative report, February 25, 1951.

Visitors: There have been about 450 visitors to Capulin Mountain National Monument during the month of February, making a total of four thousand eight hundred during the travel year and twenty four thousand for the fiscal year to date.

Weather: During the last few days of January and the first few days of February we had an extremely cold spell. The thermometer registered 30 degrees below, probably our coldest in 25 years. Considerable damage was done to the water systems here and a potential damage to fruit. Have had about one inch of snow and a light rain.

Flora and Fauna: More damage to the pine trees has been done this winter than any previous year by the porcupines. A special effort has been made on their control, and four of them have been eliminated. The deer population seems to be slightly on the increase, and all other animals are faring well as usual. Trees, shrubs and grasses all seem in good condition in spite of the dry weather

Roads and Trails: Continuous maintenance on the Monument road has kept it in excellent condition throughout the winter months. Little attention has been given the trails this winter.

Special Visitors: To my knowledge no special visitors have been to the Monument.

Information Pamphlets: About forty pamphlets have been distributed this month. Have about 17,510 on hand now.

Homer J. Farr
Superintendent

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

February 25, 1951

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Casa Grande National Monument

Subject: Monthly Narrative Report for February, 1951.

General: Travel was heavy again this month with an increase of 1056 visitors over the same period last year. This was probably due to the unusually fine weather which has brought an influx of visitors to the state that crowded tourist facilities beyond capacity and many visitors have had to sleep in their cars.

On Sunday, February 11th, The Denver Post published a well written article on the Casa Grande ruins by Frank Gianell. Accompanying the story was a very good picture of the ruins taken by the author. We quote one paragraph from the article:

> The Casa Grande ruins are among the most interesting in Arizona-- and remain in a fair state of preservation. At least civilized man can tell what it's all about.

Although we had one good rain, 1.65 inches, during the month, the water situation remains serious throughout Arizona. Even the advance thirty day forecasts indicate no immediate relief of the drouth.

On January 31st, Ranger Jim Clancy gave an illustrated talk to the Coolidge Lions Club. His talk was on the National Park and Monuments in Arizona.

February 7th, 117 grade school students from the town of Casa Grande visited the ruins. This is an annual event for the school, and they are, without doubt, one of the best behaved, orderly groups that it has been our pleasure to conduct through the ruins.

The New York Yankees have arrived at Phoenix for their spring training, and the Cleveland Indians are training at Tucson;

which means we should have some pretty good exhibition games.

Weather: Generally clear warm days during the month with the high maximum of 93° on the 10th (shades of summertime, wow) and a low of 27°, the night of the 3rd. January 30th we had 1.65 inches of rain, and on the 31st we had .08 inches more. This was indeed fortunate as some of the younger children at the Monument had never seen rain before. Sunday, February 11th, set a new all time maximum record for Phoenix when the temperature reached 87°.

Visitors: Our visitors for the month showed a good gain over the same month last year; actually an increase of 21.8%.

	1951	1950
Visitors during February	5,884	4,828
Increase	1,056	
Visitors for travel year	19,732	18,346
Increase	1,386	
Servicemen during February	15	

Interpretive Service: A total of 3,761 people made the trip to the "ruins" in 244 groups, averaging 52.4 minutes per trip. There were 2,125 visitors who made only a short stop and did not see the "ruins"; we estimate that 70% of this group did see the museum.

Visitors of Note and Special Groups:

February 7 -- 117 seventh grade pupils from Casa Grande for a trip through the "ruins".

Ranger and Mrs. Dan Davis and family for a week vacation with friends here at Coolidge. Ranger Davis, former Archeologist at our Monument, is now Ranger at White Sands National Monument.

February 12 -- Ranger Larry Wilde of Walnut Canyon and Archeologist Arthur White of Montezuma Well for a brief visit and to look in on the Clancys.

February 23 -- Ranger and Mrs. Bill Nancarrow of Mt. McKinley National Park to make a visit to the "ruins".

Administration and Protection: Ten requests for information were answered, and the literature requested was mailed. The Adamsville site received two personal inspections by the Superintendent, and there was no new evidence of "pot hunting".

The heavy traffic kept the maintenanceman busy walking behind the public and cleaning up after them.

A. T. Bicknell
Superintendent

J.M.C.

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Chaco Canyon National Monument
Bloomfield, New Mexico

February 26,1951

Memorandum

To: General Superintendent

From: Superintendent, Chaco Canyon

Subject: Report of Activities at Chaco Canyon National Monument during the month of February, 1951

Weather Conditions

The long drought period was finally broken with two very welcome snow falls. These brought a total of .83 inches of moisture which was quickly absorbed by the dry earth. Temperatures were above normal with a high of 66 degrees and a low of -16.

Administration

Work continued on straightening out the filing system and Inventories were completed. A general statement for the Master plan was prepared.

Ranger Kimere was called into the Regional office on special assignment and left for Santa Fe the morning of February 22.

Maintenance

With the first moisture of any extent that we have had, the roads were able to be worked to advantage and were graded from boundary to boundary. A general program of repair of equipment and painting with identifying marks has been carried on as well as the cleaning out and partial repair of buildings used for storage. A general clean-up of grounds around the Ackerly property has been carried on and will continue. Mr. Art Werito was hired as a truck driver and will continue work on roads and trails, signs, Etc.

Approach roads

The State Highway Department started working the north approach from the Blanco trading post and are putting it in excellent condition. No work has been done on the south approach between Seven Lakes and the Monument. It is rough but passable.

Visitors

Travel for this month was exactly the same as last year, 64 visitors. However, the travel year to date shows a sizeable increase.

Interpretive Services

A total of twelve and one-half hours was spent in eight conducted tours and sixteen museum contacts. Several persons arrived each time we had bad weather.

General

Charlie Attencio, who has worked as laborer off and on for the National Park Service for some years died and was buried at Crown point. After many stops and futile attempts to get him to go to the Hospital, he was finally persuaded too late and died on February 4 of a heart ailment. His death occurred shortly after arriving at the Hospital.

NATIONAL PARK SERVICE
Chaco Canyon National Monument
Bloomfield, New Mexico

February 26, 1951

Memorandum

To: The Naturalist

From: Archeologist Aid Rixey

Subject: Mobile Unit Report, February, 1951

The following is the report for the Mobile Unit activities here in Chaco Canyon National Monument for the month of February, 1951.

GENERAL

Archeologist Vivian is in the basement archives of the Anthropological building at the University of New Mexico trying to locate additional information concerning the Universities excavations here in the Monument. He plans to join us here at Mobile headquarters some time during the later part of the week.

Snow, sleet, rain, and plenty of windy days have made this month a hectic one. There were just enough summer like days to thin one's blood to the point that the nights felt as if that one strand fence between here and Alaska had completely collapsed. The common greeting around here is either a "katchoo" or an elongated "schnort".

Most of the work has been in the confines of the Mobile unit's laboratory, however, a few days of fairness came along and made possible the completion of the photographic "afters" of Bc-59.

Nine restored and cataloged vessels have been added to the study collection, and nearly as many more have been repaired. Several new types are now represented in the study. We have hopes of adding a few more odd and interesting vessels if there are enough fragments available.

The unexpected call of Ranger Elmore to the Regional office at Santa Fe, has deprived us of our W.A.E. clerk here at Mobile Headquarters. Mrs. Elmore, Tony, accompanied him to his new assignment. They tell us to cheer up, however, as he will be there for only a short time.

ASSISTANCE

Some assistance was given in the installation of the new power plant. Why do they make the derned things so complicated and heavy? I might add that they are also the gas eatinest outfits that were ever slung together.

MAINTENANCE

Perpetual motion is a fact when it pertains to seeps and leaks here in the office. Repair, I am afraid, is an unheard-of thing as the accumulation of years has added to the perplexity of the job. I believe each roof, and about every room has two to three leaks and is covered by about a square acre of earth. Some diversion tactics were tried and met with success to some extent. I wonder if repairs to this place would not come under soil conservation or errosion?

FOR THE COMING MONTH

Some plans are being made for the mobility of this unit for the coming month as there are two jobs coming up that will pull us away from headquarters. Archeologist Vivian is to head to Gran Quivira and I fear that Aztec is beckoning for the completion of the job there. This is of course all tenative until final plans are drafted here, and these plans are pending the arrival of G. Vivian.

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Chiricahua National Monument
Dos Cabezas, Arizona

February 23, 1951

Memorandum

To: General Superintendent

From: Superintendent, Chiricahua

Subject: Monthly Narrative Report

There follows the Chiricahua Monthly Narrative Report for February, 1951:

WEATHER Precipitation at Chiricahua for February totaled .12" with sleet and light snow falling on the 14th and the 19th. Temperatures were mild for the winter month and provided many days of comfortable hiking. February was typical of the entire moderate winter. Only on two nights throughout the season has it been necessary to burn lanterns in the rest rooms to prevent freezing.

SPECIAL ACTIVITIES Ranger Gaynard took one day of annual leave to visit Saguaro National Monument. Operator General Marble was off duty from February 12 to 16 on sick leave.

PUBLICITY A very interesting article on Chiricahua was featured in the January-February issue of PACIFIC DISCOVERY magazine. Written by author-photographer Weldon Heald, the story covered eight and one half pages with many well taken pictures of the monument.

APPROACHES TO MONUMENT With little rain or snow, the Monument road remained in excellent condition through February. All approach roads are the same; the State having recently scraped the gravel road from Chiricahua to Willcox.

CONCESSIONS Correspondence continues on the problem of obtaining satisfactory insurance for the Faraway Saddle-horse concession. As valuable a service as this concession performs for Chiricahua, it is hoped that a policy will soon be offered. Copies of all correspondence have been forwarded to the General Superintendent.

It is of interest to note that February brought a comparatively great number of guests to the Silver Spur Guest Ranch. The previous winter months saw very few to no visitors accepting the accomodations.

INTERPRETIVE SERVICE Superintendent Cooke presented an illustrated lecture on Chiricahua to nine guests of the Silver Spur Guest Ranch on the evening of January 30. The talk lasted one hour and was very warmly received.

Three conducted hikes of Echo Canyon were held during February. Hikers in the groups totaled ten with each hike averaging two hours.

Five walks from Massai Point were made with thirty-seven visitors, each walk taking approximately one-half hour. One conducted auto tour with thirteen visitors was made during the month. These tours generally take one hour.

Nine visitors enjoyed the use of the Chiricahua nature trail.

Contacts in the museum totaled 1219 visitors in 334 parties.

TRAVEL. Travel for the month of February showed an increase of 8% over February of 1950. The total number of visitors was 1367 and gave a 120% increase over the previous month. Chiricahua is now 431 behind the travel year total of 5521 recorded this date in 1950.

VISITORS Mr. and Mrs. J.F. Zerby, parents of Ranger Ben Zerby of Saguaro National Monument, visited Chiricahua on the 8th.

Ranger and Mrs. Nancarrow of Mt. McKinley National Park camped and hiked at Chiricahua on the 17th and the 18th.

RANGER SERVICE Much Ranger time was again spent in February on the repainting, repairing, and the replacing of the Monument signs on approach roads. This project has occupied many hours of the winter months but is now about 90% completed.

TREE DISEASES Much concern is held on the browning of the Chihuahua Pine at Chiricahua. Where before it was thought that the period of drought caused the coloring, the trees now indicate a pathological condition. Action is being taken to determine the cause.

Clifford O. Gaynard,
Acting Superintendent.

El Morro National Monument
El Morro, New Mexico
February 25, 1951

Memorandum

To: General Superintendent

From: Superintendent, El Morro

Subject: Monthly Narrative Report

There were 101 visitors to the area this month who came in 35 automobiles. This is 274 per cent increase over last year. For the first five months of the travel year, we have had an 88 per cent increase in visitors over a year ago, and 247 per cent increase over two years ago! Of these 101 visitors, 84 took a trip around the Rock in 26 parties; 25 persons in 11 parties received an orientation talk and 4 persons in two parties went over the top of the Rock.

The coolest this month was a 20 below, and the warmest was a 62 above, degrees Fahrenheit. There was .65 of an inch of moisture which fell in several snow falls. The weather has been good and the approach roads excellent.

The big news this month I heard last night at a Chamber of Commerce banquet in Grants. In great part through the efforts of recently re-elected State Senator Gotlieb, who was instrumental in securing the good road we have now, a bill was passed through the State legislature to improve and oil some of the road between the Ice Caves and Grants. At this rate, we will soon have an oiled road all the way to Grants!

We had some more trouble with our light plants, but after the technician's monthly checkup, they have worked very well -- only minor troubles now and then.

The radio batteries got so weak that we could hardly hear anything. We got some new ones, finally, and could then receive all right, but after a few days we found that we could not transmit. The radio technician is expected by tomorrow to locate the trouble for us.

RECEIVED
FEB 1951

Omaha

One day was spent shoveling several tons of coal around. First, it was shoveled from the coal bin into the truck and then from the truck into the basement. Several trips were made to town hauling materials for the picnic tables and fireplaces.

Superintendent Aubuchon sent us 53 names from his Long House near Kayenta to see if the men also stopped here. Strangely, after checking, not one man, apparently, stopped at both places.

For the first time since we have been here, we have had a few hours this month to do a little reading and research. We found that a few minor errors in interpretation had been made. We are in correspondence with several sources in Mexico and several municipal, county and state organizations in the States in an effort to identify some of the names.

Recently, we have seen a fox; a large, sleek coyote, and the two eagles are back. This is in addition, of course, to the cottontail and jack rabbits, pinyon jays and other animals and birds usually seen.

Subject: Monthly Narrative Report for February 1951

Weather. The weather has been hard to get along with this month. Snow, hail, rain, high winds, and balmy sunny days were received. Seven inches of snow fell on the 31st totalling .52 of an inch of moisture with the minimum temperature that night falling to fourteen below zero. A maximum temperature of 68 degrees was reached on the 10th. Wind prevailed almost all month with six days recorded in the "high wind" category; rain and sleet totalling .10 of an inch was received on the 24th.

Cooperating Governmental Agencies. State Game Warden W.A. Humphries and Ranger H. Earle, U.S. Forest Service, were in on the 11th to discuss the possible stocking of the monument with several coveys of quail.

Visitors. Joe H. Toulouse, former Custodian of Gran Quivira, and wife, Betty, on January 28.

Mrs. Boatwright, Ida Lenz, Region Three, and party, on January 28.

Harry Linder, Chief Clerk, Platt National Park, on the 12th.

Special Activities. A one day trip was made into Albuquerque for supplies on the 6th.

Maintenance and Rehabilitation. The utilities project is nearing completion and the electric unit has been placed in temporary operation. Additional material is on order which will complete the job. Electric wiring for lights to the pump house was completed.

Forty feet of telephone line from the residence to the office was placed in underground conduit.

Road and trail maintenance continued during the month.

Monthly N[illegible]ative Report - Gran Quivira - [illegible]ruary 1951

Approach Roads. Both Approach roads were closed for two days following the heavy snows of January 30-31 but travel has been normal since then. Two new approach road signs were installed on the Carizozo route into the monument.

The State maintainer bladed the Mountainair approach following the wet period and it has remained in good condition throughout the month.

Travel. Visitation to the monument increased 35 percent over 1950 this month. 128 persons in 40 cars were recorded, 20 percent of these out of state cars.

Interpretive Services. Guide service was provided to 97 persons in 25 parties for an average of 48 minutes per party. 26 persons in 9 parties used the self guiding trail through the mission.

General. Ed Cottam, District Forest Ranger for this area for many years, transferred to another assignment at Carlsbad, N.M. He was replaced by Ranger Harlan Johnson, transferee from Arizona.

GREAT SAND DUNES NATIONAL MONUMENT
Alamosa, Colorado

February 26, 1951

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Great Sand Dunes

Subject: Superintendent's Narrative Report for February, 1951

Weather Conditions

The salient feature of February weather was the lack of moisture. We recorded only 0.06 of precipitation which fell in three light snows. The minimum of -18 degrees on February 1 was not representative of most nights as over half of the minimum temperatures recorded were above 15 degrees. The maximum recorded was 61 on February 11.

Special Activities

I attended the Monte-Hooper-Moffat Service League on February 5.

General Publicity

An article on the Great Sand Dunes by Robert M. Ormes appeared in the December Natural History Magazine under the title of "The Naked Hills."

Rehabilitation

The remainder of the storm sash were received from the Ullrich Lumber Company and partly installed. A great difference has been noted already in the difficulty of heating the house during cold windy days. On February 1 when the minimum of -18 was recorded the windows without storm sash were completely frosted over but those with storm sash had no frost whatever.

The tool shed at the back of the house was moved back into the pinon trees and hidden from view. This will allow us to proceed with the wall rehabilitation when warmer weather comes. A truck can now be backed right up to the door of the shed.

The asphalt tile for the floors ordered through the Federal Supply Service a month ago by the Region Three Office has not yet

arrived so that project is at a standstill. Enamel has been removed from one bedroom floor in anticipation of its arrival.

Maintenance

Both light plants have required repair this month. One with new valve springs installed is now back in operation while the other is now at Reide Motor Company for the installation of new rings and valve springs.

The Galion Motor Grader was also taken to Mosca for the installation of a new clutch. It, too, is now back in operation and the entrance road was bladed twice during the month.

Interpretive Services

Three talks were given by me during the month as follows.

The first was given to 13 members of the Half-century Club in Alamosa on February 7. The subject was "Desert Reptiles" illustrated with slides from Organ Pipe Cactus National Monument.

The second was given to 11 members of the Native Daughters of Colorado on February 12 in Alamosa. The subject was "The Great Sand Dunes National Monument" illustrated with 35 mm. slides.

The third was given to 17 members of the Wesley Foundation of the Alamosa Methodist Church on February 18. The subject was "Plants of the Desert" illustrated by slides from Organ Pipe Cactus National Monument.

Research and Observation

Considerable work was accomplished on the fact files and one of my days off was spent in the Adams State College library looking for material on the mammals and birds of this area. A mouse which met an untimely end in the kitchen cupboard fit the description and measurements of the San Luis Valley Harvest Mouse as given by Anthony.

Approach Roads

Alamosa County has bladed the approach road about every ten days and it has been in good condition all winter. The road south to Highway 285 is also in good shape except for the two mile rocky stretch above the Zapata Ranch.

Co-operating Governmental Agencies

The Director of the Colorado State Game and Fish Commission issued me a deputy game warden's card during the month.

The Colorado State Game and Fish Commission planted a number of antelope just south of Highway 285 and west of Blanca last month. These would be only about 14 miles from our south boundary but intervening fences will probably keep them from working this far.

Decrease in Travel

Travel figures continued to fall below those of last year despite the nice weather. The decrease of almost 20% was less than that of last month, however, and the 956 visitor decrease in annual travel thus far will not seem much if summer travel holds up.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Montezuma Castle National Monument
Camp Verde, Arizona

February 26, 1951

Memorandum

To: General Superintendent

From: Superintendent, Montezuma Castle

Subject: Monthly narrative report, February 1951

Weather: The weather this month was excellent. The days were relatively warm with percipitation recorded for only three days. The average daily temperature has ranged in the mid 60's with extremes at 45 and 82 degrees. The night temperatures averaged 30 degrees with extremes at 45 and 20. The last two days have been for the most part cloudy with frequent light showers here in the valley and snow at higher elevations.

Travel: Continued good weather conditions no doubt have kept travel up this month. The 563 recorded cars bringing 1882 people into the area tops the travel figures for this month for the past five years. These figures show nearly a 30 per cent increase over this month of last year. The break down of the above figures shows that 1521 people in 427 cars visited the Castle while the remaining 361 people in 136 cars were recorded at the Well.

Interpretation: 248 people were taken through the Castle on 86 conducted trips. As usual, numerous trips were taken with only one or two persons.

At the Castle, 1250 people visited the museum, 480, who did not take the conducted trip through the Castle, recieved interpretative talks, and about 1000 people took the self-guided tour along the Sycamore Trail. At the Well, 66 people visited the museum during the 19 hours that it was open and 361 people took the Loop Trail.

Maintenance and Construction: During the month some needed maintenance was done. The living room of residence #2, the public rest rooms and the main room of the museum were given a much needed coat of paint. The wooden clothes line posts of the two residences at the Castle, long needing replacing, were taken down and steel posts were put up. The pipeline in the kitchen of residence #1 broke beneath the cement floor and after much excavating to find it, the broken section was replaced.

ORP2

RECEIVED
FEB 1931
National Park Service
Region Three
Office

Roads and Trails: Bushes and trees along the road to the picnic ground at the Castle were trimmed back. The cattleguard at the Well was replaced due to the fact that several of the beams had broken and the rest warped to the extent that it was a hazard to cars. Graveling of the Loop Trail at the Well was completed. Lacking now is the bitumul cap. This will be put on in the near future, weather permitting.

Wildlife: Some signs of returning spring in the form of robins have been noticed both at the Well and the Castle. A flight of mountain blue birds was recorded at the Well along with numerous western meadow larks. At the Castle several kinds of sparrows were noted and recorded as well as two hawks and some ravens.

Visitors: Bill Nancarrow, ranger from Mount McKinley National Park, and wife, Virginia, came through for a visit on the 23rd.

John O. Cook
Superintendent

Office

Navajo National Monument
Tonalea, Arizona

February 25,1951

Memorandum

To: General Superintendent

From: Superintendent, Navajo

Subject: Report 1m1, Monthly Narrative Report for February, 1951

Travel: Six persons traveling in three cars found their way to the Monument during the report period. One group chose to hike to Betatakin and the other parties viewed the ruin from the canyon rim.

Weather: The high temperature for the month was 57° and the low was 4 degrees below zero. Not quite one half inch of moisture has been recorded for February.

Roads: Our roads are in fair condition but need blading while there is some moisture in the ground. One attempt was made to blade but the ground is still frozen.

Inspections: A trip was made to Scaffold House and Swallow's Nest Ruins to obtain some needed information. While Swallow's Nest Ruin is somewhat commonplace in appearance Scaffold House is spectacular, especially that feature for which the ruin is named. A trip was made to Long House to copy the inscriptions but we were discouraged by a very cold wind. One day was spent inspecting the trails and noting repair work to be done.

Maintenance: The water system has chosen February as a holiday period or so it seems. The radiator on the generating plant started leaking, the foot valve on the pumping system stuck in the closed position, a serious short developed in the spark plug wiring on the generating motor and at the last attempt to pump water, two of the three pistons in the pump were maliciously doing nothing more than agitating the water.

Construction Project: The Perfatape joint compound has been applied to the new bedroom walls and ceiling and also the walls and ceiling of the new service porch. It is my considered opinion that the invention of plaster wallboard and the perfatape joint system are the most lavishly devised and fiendish works of the Devil as yet come to light.

The ceiling joists have been installed in part of the new garage and forms and batter boards are in place preparatory to pouring the cement floor. As weather permits, casement windows are being puttied. Insulating batts have been installed in part of the unfinished garage. The remainder will be placed as soon as we can get to it.

General: The generator serving the house was cleaned and tuned and new spark plugs installed. A 125 gallon gasoline storage tank was placed outside the generator building to serve the plants.

An underground cable was laid between the generator house and the hogan.

A start has been made on a Fact File for Navajo with 175 cards completed so far.

Publicity: An article appearing in the Sunday, February 18, LOS ANGELES TIMES has started a chain reaction of inquiries concerning trips to Kest Seel. The first mail delivery after the appearance of the article brought many letters asking for information and one telephone call from a man in Los Angeles who was in a hurry to make arrangements for a trip to the Ruin to be undertaken April the first. One man writes stating "Please send me all your information", another wishes to bring his own horses (from California) to make the trip and a third has "long dreamed of visiting an undiscovered ruin".

Miscellaneous: The superintendent took a Navajo woman and her 10 day old baby to the hospital at Tuba City for treatment. On their return they spent two days with us while waiting for transportation by horseback to their home in the canyon.

Ajo, Arizona

February 26, 1951.

Memorandum

To: General Superintendent

From: Superintendent

Subject: Monthly Narrative Report (m) for February 1951

Weather

Our usual good weather held most of the month with two or three days of high winds. Low for the month was 32° on February 1 with a high of 90° on the 10th. Two small rains fell during the period with .06 of an inch on the 17th and .18 on the 23rd. With warm weather continuing we may have enough moisture to bring out the spring flowers.

Special Activities

All time that a man could be spared from the administrative force assistance was given on road work. The road between Dripping Spring and Quitobaquito was graded, which now allows a 41 mile round trip through the area.

Engineer Conn spent February 4 to 14 in the area on soil and moisture work. An inspection of Indian Service work was made by the Superintendent and Mr. Conn to see what could be learned from their experience.

The Superintendent spent February 20 in Tucson checking County probate records and arranging for aerial mapping of the headquarters area.

February 19 was spent with Paul P. Cutter, of Bureau of Land Management, checking spring flow in the monument.

Inspections

Landscape Architect Miller spent February 14 to 17 on the area on master planning and general inspection of the area.

Maintenance

While maintaining the road the open well at Dripping Spring was filled and a parking area made over it. This eliminates one of our very dangerous situations and we will rest easier when children are taken to the Spring.

Travel

Travel broke all records again this month with 18,828 through the area. Campground facilities were overrun with 1,222 campers for the month.

BUILDING Fire Protection

A fire of unknown origin started in Residence #2 on February 1. Loss was limited to a mattress, bedding, and some scorched paint.

Personnel

The flu has had most of the monument personnel down during the month. Rangers Steele and Leding are on sick leave now and nearly all wives and children have been sick.

William R. Supernaugh
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Saguaro National Monument
Tucson, Arizona

February 28, 1951

Memorandum

To: General Superintendent

From: Superintendent, Saguaro

Subject: Monthly Report, February 1951

Travel to Saguaro National Monument was good throughout the month with peak visitation on Sundays. A slight increase was recorded over February of 1950. Weather conditions were generally pleasant except for general rains on February 19 and 24 which brought some relief to the parched earth. For the third consecutive month it has been necessary to haul water to Madrona Ranger Station.

Tucson will at last be favored with a major industry, namely the Hughes Electronics Company, being established near the Tucson Municipal Airport. The company will employ some 1500 people and thus marks the first important milestone to industrialize the community. It is noted that real estate values have already begun to soar as a result of the new industry being established here, (See Status of Private Lands)

Temperatures for the month ranged from a minimum of 30° to a maximum of 84°.

Special Activities

Biologist Lowell Sumner completed his studies of wildlife conditions at Saguaro which entailed long hours in the field and over the microscope making accurate determinations of predator food habits. It is interesting to note the winter food habits of the coyote in particular indicates that 75% of their diet is seeds, mostly juniper and Manzanita berries.

Status of Private Lands

We were informed by the agent handling the property, that Section 29 within the Monument boundaries is no longer for sale. Evidently the land boom created by the Hughes enterprise has prompted this action on the part of the owner.

Master Plan

The Superintendent and Supervisory Ranger have been engaged in assembling material for revision to the Saguaro Master Plan. This requires exhaustive research and display in the arts of composition.

Maintenance

The Cactus Forest Looproad was graded periodically during the month and is in good condition at present,

Repairs were effected to the entrance road to Madrona Ranger Station in February.

New Construction

The Madrona Ranger Station Bedroom Addition was completed in February. Completion of painting and other minor tasks was accomplished and the area was cleaned up.

Approaches to Park Area

Local citizens have become quite enraged with the condition of the Broadway Approach Road. It was a bitter pill to swallow when work ceased on the Spanish Trail Approach Road but, in addition, periodic grading of the present road has also ceased. It appears that one more season of heavy travel will pass with no better than mediocre access to Saguaro National Monument.

Cooperating Government Agencies

Dr. Lyle Sowls, Biologist, U.S. Fish and Wildlife Service, together with other officials of that Service (see visitor list) visited Saguaro National Monument on February 13, to inspect wildlife environs in the Lower Sonoran Life Zone of the area. Dr. Sowls indicated that funds may be forthcoming for a wildlife study to be made in southern Arizona areas by his department and that an agreement could be worked out to include Saguaro. They are especially interested in making studies on Monument lands relating

to deer. These studies would prove invaluable as decimation is not [illegible] permitted by hunters.

It was also indicated that summer food habits of predators would be included in the studies, through the media scat analysis. Formal application to make studies on the monument will be forthcoming contingent to availability of funds.

Interpretive Services

A total of 5739 persons in 1182 parties were given interpretive service at headquarters. This amounted to a total of 298 hours for an average of 15 minutes per party.

Museum Activities

Construction of the new wing on the arboretum was completed during the month for the display of flowering plants. Some twelve native perennials were transplanted and labeled& with more to be added as time permits. This work was accomplished by the rangers when an opportunity was afforded.

Research and Observation

Jan. 27, one Ladder-back Woodpecker (Dryobates scalaris subsp.)
" 28, 20 Javelinas
Feb. 2, one Mule Deer (buck)
" 3, two Golden Eagles and one Desert Bobcat
" 17, one coyote and 8 purple Martins (Progne subis subis)

Increase in Travel

A total of 6900 persons visited Saguaro National Monument in February. This represents an increase of 984 visitors over last month, and an increase of 28 visitors as compared to the corresponding month one year ago.

Visitors

Feb. 1, Ted Knipe, Jack Noggridge, and Bob Smith, Arizona Fish and Game Commission,
" 5, Dr. Hal Broadbrooks, University of Arizona.
" 6, Leland D. Case, Editor, Rotary Magazine, Chicago, Ill.
" 7, Melvin Johnson, Supreme Commander Northern Jurisdiction, Masonic Order.
" 12, Joseph Joffe and wife, Administrative Assistant, Yellowstone National Park.
" 13, A.E. Borrell, Regional Biologist, SCS, Albuquerque, N.M.
C.R. Gutermuth, vice-pres. Wildlife Management Institute, Washington D.C.
Dr. D.L. Leedy, Biologist, U.S. Fish and Wildlife Service Washington, D.C.
L.K. Sowls, Biologist, U.S. Fish and Wildlife Service, Tucson, Arizona.
Ranger Grover Steele and family, Organ Pipe Cactus Nat. Mon.

Feb. 14, Ranger Cliff Caynard and family, Chiricahua Nat. Mon.
" 17, Mr. and Mrs. Art Metzger, Grand Canyon National Park.
" 19, Ranger and Mrs. William Mancarren, Mt. McKinley Nat. Park
Chris Hauck and wife, Sanitary Engineer, Yosemite National Park.
Dr. Howard Thurman, Pastor, Fellowship Church, San Francisco, California.

Insects and Tree Diseases

Reports received from the Agriculture Research Administration, Division of Forest Pathology, indicate a fairly high percentage of mortality in the Giant Cacti over the period 1941 to 1950. However, it is gratifying to note that Dr. Lake S. Gill summarized the report by saying, "within the Saguaro National Monument there are vast acreages MX well stocked with Giant Cacti all less than 18 feet high which could very well become the spectacular forests of the future."

Personnel

Laborer-leadman Frank Stansberry has not been too well at times lately, but insists on remaining in duty status. I have suggested that he have a thorough physical checkup, but to no avail.

Maintenanceman Ollie Barney has accepted the position of Maintenanceman at Tumacacori National Monument. He will leave for his new position at the end of February. We wish Ollie the best of luck and will miss his services at Saguaro.

Hazard Removal

In order to prevent accidents the cracks between the steps, leading down to the arboretum, were filled with concrete and smoothed over. This will afford sure footing for visitors using the steps between the parking area and the arboretum.

Samuel A. King
Samuel A. King
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
TONTO NATIONAL MONUMENT
ROOSEVELT, ARIZONA.

28 February 1951

To: General Superintendent, Southwestern National Monuments.

From: Superintendent, Tonto.

Subject: Narrative Report, Tonto, February, 1961

Weather: Rains fell on the 29th to 31st (2 inches) and the 18th and 23d to 25th, with more forecast in the near future. The first of the month was cold, but the weather became quite balmy during the middle of the month.

Roads: Wet weather allowed extensive grading of approach and entrance roads and they are comparatively smooth and dust free for a change. Bid prospectives and plans have been distributed for the replacement of the narrow bridge on the entrance road.

Visitors: B.K. Burke and family, USFS, Custer, S.D. on Feb. 9. Syd. Jamison of Casa Grande Natl. Mon. on the 13th. Dan Davis of White Sands Natl. Mon. on the 14th. J.H. Conn for a short conference on the new bridge, Feb. 15. Railway Club of Southern Calif. (80 people) Feb. 10.

Travel. 2926 visitors in 830 cars as compared with 2880 a year ago this month. The war scare seems to have worn off. Phoenix reports a full house every night.

Nature Trail: Three easel displays have been placed on the ruins trail: one on the dam and lake; one on cactus blooms; and one on geology, conservation and ruins protection. Temporary Ranger Vicklund constructed the easels and did the lettering, plans of the easels were sent to Santa Fe for Region Four. We are awaiting the arrival of the nature trail pamphlets to commence operation of what we hope will be an aid to our puzzled tourists.

Photography: Several photos for easel displays were obtains from the regional files. A booklet of photos showing construction work on the parking area was made by Supt. Sharp. Several kodachromes on Tonto were loaned to the Regional office.

Interpretation: A new registor desk, with storage space, was constructed by Viklund and put into use. Some rearranging of the museum and office to secure more and better space, was done when a case of spring fever hit the monument. Word has been received of the shipment of two new storage cabinets, one of the insect storage type and the other a two-drawer herbarium. Signs and labels have been standardized with the skill of Viklund and one of Dale Kings LeRoy lettering sets. The burial of the premature infant found in Room 8 of the Lower Ruin during last years excavations was reinterred as an "in situ" display. Ten thousand new revised edition of the Tonto 8-fold leaflet were received.

Wildlife: Signs of Spring: The swifts are back in the cave; flower plants are appearing and a few of the Desert Hyacinths are blooming. Javelina season opened the 15th of this month, two weeks early, and will continue through March. State Game Department says that this area is overstocked with Javeling.

General: The Dodge dump was gone over to tighten various bolts that the Apache Trail had loosened. Road signs were replaced or changed were experience has shown the need. A load of scrap pipe was obtained from the Water Users for use as telephone poles. Roadside guide posts were ordered and will be put along the curve to the parking area as soon as received.

Charles C. Sharp
Superintendent.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Tumacacori National Monument
Tumacacori, Arizona

February 25, 1951

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Tumacacori

Subject: Superintendent's Monthly Narrative Report for February, 1951

Weather: Temperature ranged from a maximum of 87 on the 10th to a minimum of 20 on the 2nd and 20th. Precipitation was .56", compared to the average of .71 for the past 13 years. Weather has been pleasant for the greater part of the month, but rainfall has been too light to be of much value to this part of the state in recovery from the drouth of the last year.

Visitor Travel: A total of 6,007 visitors has broken all monthly travel records in the history of the monument. It exceeds by over 38% the figure of 4,303 visitors for February of 1948 (the highest previous February), and by over 19% the highest previous month, which was April, 1939. This latter was a freak travel figure, for it was in April 1939 that the museum building here was dedicated, which brought crowds of extra people to swell the month total to 4,850 persons.

During the past 12 months this tiny national monument has had 32,364 visitors, far higher than any other 12 month period in history.

Interpretive Service: 2,473 persons went on 314 guided trips through the mission church and grounds, receiving an average of 36.65 minutes per trip. 5,815 persons received combined Information and Interpretation service, and 5,762 saw the museum and patio garden.

The highest number of guided trips recorded in a previous month was 273 for February of 1947.

The biggest visitor day in my experience here was on February 10, when we had a total of 445 visitors (counted), including six large Greyhound busses containing 235 persons on a Dons Club sponsored tour, out of Phoenix. On this day we took 288 visitors through the mission church, running some extra-schedule trips to make a total of 15 guided trips for the day. Our staff of three handled this day's visitors without a hitch, with many expressions of thanks from enthusiastic visitors, and without a complaint being heard.

Visitors: 1 - 25 - Harold A. Keats, Commissioner, American Battle Monuments Commission (Overseas cemeteries).

1-29 - Ellsworth E. Binz, artist, spent the day on the grounds.

2-7 - 29 members of the International Executive Board of IATSE (Projectionist Union), who were having a mid-winter convention in Tucson.

2-10 - A group of 236, sponsored by the Dons Club of Phoenix, under leadership of Ben J. Cahill, Manager, Republic and Gazette World Wide Travel Service.

2-14 - Archaeologist Arthur White, of Montezuma Castle National Monument.

2-15 - Ranger and Mrs. Earl Steele and family, Organ Pipe Cactus National Monument.

2-19 - Ranger and Mrs. Raymond O. Knox, Lava Beds National Monument.

Publicity: 1-27 - Paul L. Hoefler, of Los Angeles, taking movies for Standard Oil Company release, with accompanying commentary to be made by Raymond Carlson, Editor of Arizona Highways Magazine.

Cooperating Agencies: On February 1 the Arizona State Highway Department installed four new black and white signs on the highway. One mile north and one mile south of the monument the signs say "Tumacacori National Monument - 1 mile." 1500 north, and 1500 south, two signs read "Tumacacori National Monument - 1500 feet."

Donations: The Tumacacori library benefitted through a gift by the Amerind Foundation, of Dragoon, Arizona, of Nos. 1 through 5 of its technical report series (archaeology and ethnology.)

Museum and Education: During very limited non-visitor-contact time we have made progress on bringing the library entries and card file up to date, and considerable has been added to the chronology portion of the Fact files. It has also been possible to start a long-desired Fact file section which, when complete, will have an individual card for every native or exotic plant which grows in the monument area, giving ethno-botany for each plant, as well as flowering and fruiting dates.

Mission Stabilization: A leak developed in the northwest corner of the sacristy barrel-vault roof. As a result we applied our cement-lime-pigment mortar coating over about 4 square yards of the upper surface, which was badly weathered and pitted. This treatment is not visible from the ground.

Routine touch-up maintenance was performed by sealing new and enlarged weathered cavities in exterior lime plaster on the old church.

Maintenance: Stakes, with painted numbers, for the patio garden nature trail, were finished. A great deal of work has been done in the patio garden, including final pruning in preparation for Spring, cutting out suckers from a giant Maguey plant, removing limbs of blight-killed olive trees, giving lead-arsenate spray to rose plants, changing soil on water plants in the fish pond, and thinning the plants. On other parts of the monument dead tree growth in "used" areas was taken out, dead branches removed from other plants, and drastic pruning given to several China-berry trees. Several root-rot weakened trees were given extensive medication through application of ammonium sulphate and deep watering for root systems. Additional tree

watering basins received manure and compost. The compost pit was emptied, and is now being re-filled. The last of the giant cactus plants along the mission trail (Opuntia ficus-indica ?) was removed. These plants, once very handsome, with lovely early summer flowers, have suffered so badly from severe frosts of the past five winters that they were beyond salvation. Warning signs were put up along the monument boundary. Work was done toward stopping light leaks in the museum.

Civilian Defense: During the month the superintendent contacted R. G. Frazier, Chairman of Santa Cruz County civilian defense organization, and discussed such matters in detail with Harry Chernin, Coordinator of civilian defense activities for the county. Our facilities for possible help in an emergency were outlined, and services offered.

General: While we had over 28% more visitors than in the highest previous February, the number of visitors who went through the mission church was a little less than 18% higher than for that same month. This indicates about a 10% increase differential which presumably consists mostly of the slightly to casually interested visitors. I suspect a considerable part of this increase in "casuals" has been caused by the additional highway signs which were installed on February 1. I foresee the possibility, as travel continues to increase, that we may some day have to critically evaluate sign "advertising" policy. As an area reaches the capacity of its ability to receive visitors and take care of them, advertising might then have to be geared to overlook "casual" appeal and go to those with only a deeper interest.

However, we will not have reached the limit of visitor capacity here until our 40 minute trip interval has had to be cut to a 20 minute interval, assuming 50 persons as the maximum manageable group per trip. As it is, only on very special days do we have to run trips at a 20 minute interval, which is fortunate, because such days require the full staff of the two permanents and the one seasonal, and there is only one day a week when all three are on duty.

From this end, the record month of February has been very satisfactory. It is my belief that the visitors received a high quality of service, and left the area well instructed and in good spirits. Certainly I wish to express the highest praise for the courteous and efficient performance of Rangers Henson and Shirley.

CLARKDALE, ARIZONA

February 25, 1951

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Tuzigoot

Subject: Report lml, February 1951.

There follows a narrative report of activities in this area.

VISITORS

991 visitors in 328 cars. 887 visitors in 299 parties were contacted and oriented in the museum. 895 visitors in 300 parties made the trip through the ruins. 100% of the 8 - 12 A.M. 1 - 5 P.M. visitors were contacted. Although travel was 158 visitors short of the record February travel of 1948, a very substantial increase of 45% was recorded compared to visitation a year ago.

N.P.S. VISITORS

Superintendent and Mrs. Homer Hastings of Walnut Canyon on January 27.

Superintendent John Cook, Montezuma Castle, and Archeologist Art White, Montezuma Well, on February 2.

Ranger and Mrs. Carlton Murray, Montezuma Castle, on February 5; Bill and Katherine Wilson, Rainbow Lodge, on the same date.

Ranger and Mrs. Larry Wilde and family, Walnut Canyon, on February 8.

Regional Landscape Architect J. Miller, accompanied by his Father-in-law, Dr. Murray, on February 13. Jerry reviewed the general trail arrangement through the ruins and drafted specifications for a flight of wood steps to the top of Room 14. Dr. Murray, who is from Ames, Iowa, was keenly interested in seeing the Verde Valley for the first time.

Ranger and Mrs. William Nancarrow, Mt. McKinley National Park, on February 24.

OTHER FEDERAL AGENCY VISITORS

Forest Ranger and Mrs. Gordon Hammon, Coconino National Forest

Ranger Station, Sedona, Arizona, on February 11.

REPORTWORTHY VISITORS

Dr. and Mrs. Durrell, on February 8; Dr. Durrell is Professor of Geology at U.C.L.A.

Mr. and Mrs. Draper of Fred Harvey, Grand Canyon, on February 13.

Mrs. Vicklund of Flagstaff, on February 16; Mrs. Vicklund is the Mother of Bob Vicklund, who is now at Tonto, and is the seasonal ranger at Sunset Crater during the summer.

ORGANIZED GROUPS

Mr. Edward B. Danson, Instructor in the Department of Anthropology, University of Arizona, with five students from his Seminar in Southwestern Archeology Class, on January 27.

Six Seventh Graders, Verde Valley School, Sedona, on February 16.

IMPROVEMENTS

A Roamex surface switch was installed in the Men's Room. This replaced a dangling cord toggle switch which was difficult to find in darkness.

The switch on the furnace blower was disassembled, overhauled and replaced in good working order.

The offensive "Warning" sign was dismantled, the panel was sanded and set up as a drafting table in the office.

Ten road signs were glued and clamped. Nine have been layed out, one double-face, for routing. Routing, painting and staining of signs is now underway following breakdown of the router, parts for which were ordered from the Stanley Electric Tool Co. in Connecticut, and which were unduly delayed in the mails by the railroad strike.

Two saw horses were constructed with 2" by 4" lumber and metal saw horse brackets. These will be used immediately to aid in the fabrication of wood steps for the ruin's trail project, and later, in general carpentry.

MISCELLANEOUS

On January 26, a party locked a set of ignition keys in their car. Their plight was made known to the Superintendent, who, by deft probing and reaching successfully removed the keys from the ignition switch.

Mr. Paul Keefe, retired Phelps Dodge official and resident of Clarkdale since 1913, died on January 25, at the age of 66. Mr. Keefe was general director of C.W.A. projects at Clarkdale in the '30's, and it was largely through his efforts that the excavation of Tuzigoot was carried through to successful completion insofar as

moral and financial support was concerned.

MUSEUM PROSPECTUS

Miss Marion Dick, Cottonwood, an Art major at Arizona State Teachers College, Flagstaff, consulted with us on January 28, preparatory to commencing sketches and drawings for proposed museum exhibits which will appear in the Preliminary Museum Exhibit Plan being prepared for Tusigoot.

Work continued on preparation of narrative text for the plan as time permitted.

RESEARCH AND OBSERVATION

On February 22, a legal holiday, Archeologist Richert and Milton Wetherill visited a hitherto unreported archeological site 12 miles below (south) of Tusigoot on the Verde River on the Clover Leaf Ranch, owned by Mr. Schwartz, wealthy steel industrialist of Cleveland, Ohio, a recent visitor at the Monument, who extended us a cordial invitation to visit his ranch and look at the site. With the permission of the owner, a sherd collection was made and site cards prepared for Museum of Northern Arizona records. This site is extremely interesting in that it undoubtedly represents a pure Verde Hohokam phase, with sherds of Gila Red, Tonto Red, and both Verde and Southern Hohokam predominating. Tentative date of site: 800-900 A.D.

A second site 5 miles below Camp Verde previously reported by Archeologist Schroeder was also visited. This has a large ball court, and judging from house mounds and surface pottery was a contemporaneous occupation by Sinagua and Hohokam at probably 1000 A.D.

Walnut Canyon National Monument
Flagstaff, Arizona

February 25, 1951

Memorandum

To: General Superintendent

From: Superintendent, Walnut Canyon

Subject: Monthly Report, February, 1951

Visitors this month 747; travel year to date 5197.

General This month brought the most snow of the winter with one storm piling up about six inches. However this melted rapidly and as this is written, snow remains only in patches.

Administration An inventory of all electrical supplies on hand was taken.

A chronicle of 1951's events was made for the Fact File.

Patrol of the north boundary including that portion which is posted but not fenced was completed.

A copy of the Ruins Stabilization Manual was received and read with particular interest because of this superintendent's familiarity with most of the places discussed.

An excessive reading on Copeland's water meter indicated a leak which was reported to users of the water from this line. Processing of the Special Use Permit for Copeland's connection to our water line was completed.

Use of Monument Facilities by the Public There were 747 visitors who came in 273 cars. This was 33 more visitors than we had in the same month last year. Visitors arrived on every day but two and there was an average of 24 visitors per day for the entire month. Visitors to the museum totaled 728 in 268 parties. Two hundred and two parties were contacted including 566 visitors. There was one picnic party of four people.

Roads The entrance road was dragged once by monument personnel and once by the County.

Fire Protection N.P.S. was stamped on all our fire tools and their green bands were painted red.

Maintenance Ground connections for both electric ranges were installed.

n Some time was spent shoveling snow. Although it was never very deep, a leak in the drain at Residence No. 1 necessitated shoveling snow from the east side of the roof.

Considerable difficulty has been had in starting our Ford pick-up. We had to pull it several time and finally had to install a new startor.

A 40 inch fluorescent unit was repaired and installed in the superintendent's quarters. A light fixture was also installed in the hall at the ranger's quarters.

Weeds were removed from the septic tank drainage ditch.

Equipment A used Kodak printing timer was received.

Our furnace installation is not yet complete with an outer jacket needed for the furnace at Residence No. 2 and a humidifier for the one at residence No. 1.

Interpretation The earliest known reference to Walnut Canyon was noted by Ranger Wilde in Arizona Place Names which reports the visit of Lt. Beale on April 13, 1857. On a visit in July, 1859 Beale found the stream in the canyon filled with water and containing mountain trout.

Wilde was shown the petroglyphs in the bottom of the canyon west of the Inland and we visited several cliff dwellings on the south side.

Copies of pictures of the cliff dwellings taken in 1874 or 85 by J. J. Fauber were received.

Considerable time has been spent on our herbarium. Twenty-seven specimens have been mounted and filing folders prepared for them. Eighty Ethnobotany File Cards have been prepared. A small grove of quaking aspen up the canyon from the cliff dwellings was visited and several plants that have not been collected have been noted on the monument.

February 22, 1951

Memorandum

To: General Superintendent

From: Superintendent

Subject: Superintendent's Monthly Narrative, Report No. 1nl

FEBRUARY TRAVEL, 1951 — TRAVEL YEAR TO DATE

Visitors, 9,021 Cars, 2,350 — Visitors, 44,811 Cars, 11,580

GENERAL

Records must be broken, and this month, since we cannot break any visitor records, we turn to the weather for our laurels. On February 1 our minimum temperature dropped to 14° below zero, which is an unheard-of low for the floor of the valley. An area about 5 miles wide, north and south through the Tularosa Basin, seemed to take the worst of the storm.

Highways on the strip were iced and frozen for a couple of days and on both sides of the strip the roads were normal. Anyway, 14° below zero, at White Sands, cut into our visitor count, and for the first time in almost two years a travel month drops below the preceding like month. Our travel year, however, is still showing an increase. February was not entirely a freeze. Some beautiful days took off some of the chill of that 14° below. High for the month was 75° on the 2-11-51, and our precipitation for the month was .11 inches.

SPECIAL ACTIVITIES

Three of our personnel took the Standard Red Cross First Aid Course and it is possible a couple may take the instructor's course. Others are planning on taking the standard course, which is being given again soon.

Otis Hicks has been prevailed upon to take over more Boy Scout work in Alamogordo. His past experience with the Scout work makes him a valuable man in this line and the boys are proud to have secured his services.

The Superintendent finished a year as President of the Alamogordo Chamber of Commerce and was elected to an honorary membership on the Board of Directors of the Chamber and asked to serve with the Board for the year 1951. He also received again an honorary membership in the Holloman Air Base Officer's Club for 1951. He has been asked to accept the nomination for President of the Parent-Teachers Association covering the grade schools in Alamogordo. We appreciate these confluences the people place in us and are glad to do what we can for the community.

INSPECTIONS

No particular inspections were made. A rocket landed close to the picnic area and an attempt was made to inspect the area as described in a special report covering the subject. No trouble is anticipated in case further inspections may be necessary.

PUBLICITY

Much early attention is being given to Play Day on April 14 and the White Sands Relays, in connection with Play Day. The New Mexico Magazine carried a White Sands picture this month and one of the large trade journals of the Candy Companies carried a front cover page of White Sands.

Our new Orientation Case is the source of a lot of favorable comment, and we are certainly indebted to Les for his work on this, as well as the assistance in getting it set up. Several minor changes had to be made, but it is well worth any effort that has been devoted to it.

COMPLAINTS

No complaints have been received in this office, either on our Service and facilities, or the Concession.

MAINTENANCE

This phase of our work seems never-ending and, in spite of all we do, it seems much, much more, always remains to be done. Joe has put in several extra days on the roads, even with the few winds we have had to date. Road conditions on the whole for the month have been good.

Otis has done some painting, made minor repairs as the occasion arose, our garage doors were finished, the case for our new map completed, the power house was given a coat of paint, as was our gas pump, tar kettle, etc.

Several man days were spent on picnic tables and this work is being delayed by lack of bolts and paint. A proposed trip to El Paso will take care of both of these matters. Perhaps this week end. Repairs were made to our Sands water storage tank and some work was done on the pump and well. Several loads of gravel have been hauled for some trail work and several more are needed for this same project.

We are making some progress along maintenance lines, we hope, but it does seem that whatever we do we are forced to let something else just as urgent go by. We are doing considerable work on our highway signs, dressing them up for the spring travel.

APPROACHES TO PARK AREA

The Highway Department is likewise working over road signs, and the White Sands sign at the junction of U.S.54-70 is being replaced. This is none too soon as it was in a deplorable condition.

The Press has been giving considerable space to the work to be done on U.S. 54 and any work done will assist us materially as this highway is one of the main arteries from the central U.S. to the Southwest.

MUSEUM ACTIVITIES & EXHIBITS

In addition to the museum proper, the orientation map in the entrance hallway, is our revised exhibit. This was worked up in the Naturalist Division, and Les came down and helped arrange it. That seemed to be the big job until we started to install it and minor changes made a major job out of it, but it is now complete and is a case worthy of a prominent place in any museum.

It now has a plate glass front and is one of our best lighted cases as well as being one of the most attractive.

INCREASE & DECREASE IN TRAVEL

About 1,200 visitors decrease shows our first loss in many months. Several days the mountain passes on both sides of us were closed for a few hours at a time and the word soon spread.

A general alarm was broadcast over the State in general to keep off the highways unless absolutely necessary. Of course, over nine thousand visitors that we did have kept our checking station man pretty close to his station. On Sundays and holidays our station required two men for checking.

We are going to be faced with the problem of a two-lane entrance before we realize it. An actual danger exists now on peak loads and someone is going to get run over if we don't revise our present entrance and exit. It is grand for 25 to 50 thousand visitors a year but not for 150 to 200 thousand.

VISITORS

Les Arnberger, Region Three Office
Claire Cook & Mrs. Cook, Chiricahua Nat'l. Mon.
Harry Linder, enroute from Platt to Mesa Verde
Mr. & Mrs. MacCarrow, Mt. McKinley Nat'l. Park

RANGER SERVICE

Dan and Mrs. Davis spent a week visiting old friends in Coolidge. Ranger Chittum has spent most of the month on signs and supervision of various projects in the process of being accomplished and some to be accomplished.

MISCELLANEOUS

Joe was called for jury duty in District Court and our road maintenance awaited the dismissal of the jury.

Play Day and spring winds loom up with all else to assure us of being plenty busy throughout March and early April.

Johnwill Faris.

Johnwill Faris,
Superintendent.

FEB 1951
RECEIVED
National Park Service

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Wupatki National Monument
Flagstaff, Arizona

February 24, 1951

To: General Superintendent

From: Superintendent, Wupatki

Subject: Monthly Narrative Report -- Wupatki and Sunset Crater National Monuments

Weather: Although we have had some light snows this month the snow seems to have little moisture content. Needless to say, it is still very dry in this area. Wupatki had a preview of Spring this month with a high of 73° recorded on the 11th. Sunset Crater has had a little more snow this winter than Wupatki and just how much moisture was in it will be determined next month when the rain gauges are read for the Museum of Northern Arizona.

Maintenance: The old CCC office at Hieser Spring was painted this month to complete the painting of the buildings in that area. The wood on this building, as with the wood on the cabin, was in pretty bad shape, so the paint was applied half-and-half with linseed oil. New screens were made and put in place on the cabin, so now all we have to do to really dress up Hieser Spring is tear down the old CCC barracks. A new coat of paint was also applied to the door and windows of the office at headquarters. The superintendent and Ranger Walker are now experienced painters.

Monument Roads: The road from Hieser Spring to Highway 89 was reshaped and graded and it appears that most of the bed rock is pretty well covered now. Before going on leave, Maintenanceman Bean also graded the entrance road at Sunset Crater.

A new Wupatki boundary sign was placed on the Sunset Crater road and all of the road signs from Hieser Spring to Highway 89 were refinished.

Interpretive Service: The Lava Flow Nature Trail at Sunset Crater was put back into service the 14th of this month with a new name, a few changes in the trail, and a new trail booklet. At Wupatki 204 visitors in 69 parties were contacted for an average of 45 minutes and a total of 50 hours. 112 visitors were not contacted but the trail booklet continues to give some help to the visitor not contacted by any of the personnel.

Travel: The travel figures continue to show an increase with most of the visitors coming into Wupatki over the back road from Sunset Crater.

	WUPATKI		SUNSET CRATER

Last travel year	487	1460	1579	4138

Visitors: 2/15 Ranger and Mrs. Brucok, Grand Canyon NP
Dr. and Mrs. Herold C. Bryant, Grand Canyon NP
2/18 Ranger and Mrs. Fred Bergemeyer, Davis Dam
Asst. Sup't. and Mrs. Lon Garrison, Grand Canyon NP
2/21 Ranger and Mrs. Larry Wilde, Walnut Canyon NM

Personnel: The Superintendent and family were on a business trip to Santa Fe from February 4 to 10th. Maintenanceman Bean on annual leave from February 17 to 25th.

Research and Observation: The Wupatki Fact File has undergone a complete and much needed change. Ranger Walker has spent a lot of spare time gathering and adding much pertinent data to the file.

Public Health: Samples of water from Wupatki and Hieser Springs were taken in to the State Health Laboratory for testing. The tests indicated the water to be safe for public use.

Equipment: The Gallon grader went in to Flagstaff last week for it's first major overhaul. At last report the mechanics were really going over it. The Regional Fiscal Office should get a firm grip on their 282 account.

Spring Flow: Wupatki Spring, 771 GPD
Hieser Spring, 3800 GPD

NAME
TITLE Park Naturalist

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, BUS, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATION OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THOSE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE MATERIALS, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR FURNISHED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. FILL IN TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY WILL NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. FROM AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORT. FROM OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE IN ACCORDANCE WITH ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REVISED MAY 1945

NAME Ira Townsend
TITLE Ira Townsend, Supt.

FEB 1951
RECEIVED
National Park Service
Region Three
Office

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES, TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATION OR OFFICER DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE MEDIA, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHALL NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DUE BY ___ EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

Revised May 1949.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Naturalists, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of [illegible]

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and rates, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total all column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data to be included in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8-3) and 9 (Report 9-3).

NAME A. T. Bicknell
TITLE Superintendent

RECEIVED FEB 1951 National Park Service Regional Trails Officer

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER-NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, BUS, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLACE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHALL NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATES; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE WILL RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND OF WHAT.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 9M3) AND 9 (REPORT 9M3).

REVISED MAY 1949.

TITLE Meredith M. Guillet

THE PURPOSE OF ...IS FORM IS TO SECURE AN ACCURATE RECORD Of INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CORRECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE ON A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORD THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2: INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; BASIS ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY BE TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

TITLE Ray B. Ringenbach, Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

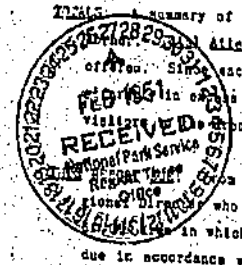
TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit areas, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM



COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total number in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors registered during the month should be shown.

Forward from all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data are due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some survey of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since a visitor may use several different interpretive devices, this attendance may record a total considerably greater than the number of visitors registered in the area during the same period. For comparison, the total number of visitors registered during the month should be shown.

NAME John O Cook
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONVICTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO BIRDS AND HISTORICAL MUSEUM SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, BUS, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE SERVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

RECEIVED
SEP 1951
NATIONAL PARK SERVICE

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL COPY. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORT. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REVISED MAY 1949.

NAME William R. Supernaugh
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO BOTANICAL AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE MATERIALS, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES ARE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLACE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHALL NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; TOTAL ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

NAME Carl Gastrom
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATION, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE MATERIAL, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLACE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHALL NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE [illegible] FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORT. OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 6 (REPORT 8M3) AND 9 (REPORT 9M3).

REVISED MAY 1945.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

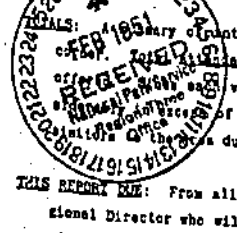
TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and rates, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be collected as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM



COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: Summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner of the form. Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors registered in the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report Bn3) and 9 (Report Bn...

TITLE

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR STATION INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE MATERIAL, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE NOON OF [illegible] NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORT. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING OFFICES. FORWARD TO REGIONAL DIRECTOR AND DIRECTOR THROUGH ADMINISTRATIVE CHANNELS. DATE DUE [illegible] SERVICE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

March 26 1951

Memorandum:

To: General Superintendent

From: Superintendent, Arches

Subject: Narrative Report for Month of March, 1951

Weather: Two welcome snow storms blotted any thought of warm spring weather, but did bring us almost an inch of much needed moisture.

Travel: We received our Traffic counter back from the State of Utah which they loaned us last year, and our traffic shows a tremendous increase of 864% over last Month. Allowing 3.2 People per car we had 990 people visit the Arches during Easter Sunday.

And we took the actual count from the register from the first of the month to the 23rd and allowed 25% for non registeration which gave us a total of 1322 people for the Month.

INTERPRETIVE SERVICES: Our interpretive Services improved this Month with 530 of the 1322 visitors being contacted, Total contacts this month amounted to 31 hours.

INTERPRETIVE DEVICES: The two center panels were installed in the Wayside Shelter on March 15 and we are waiting for a set of pictures from Harry Rood and other material from the Regional office to complete it.

MONUMENT ROADS: Maintenancoman Winbourn has completed the spring cleaning of culverts and ditches. He also made one complete round of blading on all Monument Roads. The lack of moisture has been holding us up on this job for some time.

APPROACH ROADS: There is some talk of the State turning the Maintenance of 93 over to the County. We are in favor of this action for Grand County at least has the necessary Equipment.

PUBLICITY: The March issue of the Nash Airflyte Magazine ran a feature article on Arches, by Hal Strong, with a great many excellent pictures. The Denver Post Empire gave a full page of pictures to Arches in their February 18 issue, Showing Delicate, Landscape, and turret through North Window.

INVESTIGATIONS: The Bureau of Reclimation contacted the Superintendent concerning the construction of a dam at the Moab Damsite on the Colorado River. A report of this contact was immediately made to the Regional Office.

PERSONAL: Superintendent Wilson was unable to accept the Transfer to Blue Ridge Parkway, due to the prohibitive increase in the living cost entailed in the Transfer.

EQUIPMENT: Two new tires were recieved for the front wheels of the front end loader. We have still not been successful in obtaining rear tires for this piece of equipment.

SIGNS: In placing the new signs on Delicate Arch Spur Road we are experimenting with a new design and color scheme. If the combination proves satisfactory we will request permition to change our entire sign system.

that's a new spelling but it makes a good word. B

NATURAL BRIDGES: The State road Commission on March 6 announced that nearly $1,000,000 would be expended this year on road construction to uranium mines in southeastern Utah. The State has agreed to finance 10% of the total cost of three separate road improvement projects, while the while the remainder of the cost will be paid by the Atomic Energy Commission.

The improvement of 90 miles of Road between Green River and Banksville and the construction of 30 miles of new road, to avoid the 9000 foot elevations at the Bears Ears in the Elk Mountains will certainly increase travel to Natural Bridges. A truck road is also under construction from the junction of Hite and Bridges roads, running about forty miles south to an oil well which is being drilled by the Skelly Oil Company.

LOCAL INTERESTS: Construction has started on a truck trail from Moab down the North side of the Colorado River to the Cane Creek Oil Well.

UTILITIES: A new Propane hotwater heater and a kitchen range were instaled in quarters #1 on March 5and6. During this instalation corrections were made to the existing system to bring it up to standard specifications.

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

24 March 1951

Memorandum

To: General Superintendent

From: Superintendent, Aztec Ruins

Subject: Superintendent's Monthly Narrative Report

WEATHER: The month has been typical of the season; windy, with cool mornings and many warm afternoons. The low for the month was eleven and the high sixty seven degrees. We failed to receive any measurable precipitation during the month.

MAINTENANCE: The floors in the covered rooms and the Great Kiva have been treated with Sani-Soil-Set. This is certainly a great improvement over the previous half inch of fine dust which served as a floor covering. The rooms now present a neat and more orderly appearance.

INTERPRETIVE SERVICES: There were 445 visitors in 76 parties conducted thru the ruins and 755 visitors in 240 parties shown thru the museum.

INCREASE IN TRAVEL: Our travel for March continues the general trend of the past several months with a twenty per-cent increase over the same period a year a go.

PERSONNEL: Superintendent Townsend has been on annual leave since the 18th of March and will return to duty the 14th of April.

VISITORS: We had the pleasure of meeting and showing the ruins to; Mr. J. A. Delaney, U. S. Bureau of Land Management, Washington, D. C.; Mr and Mrs. Boatright, and Miss. Ida Lents of the Region Three Office; and Ranger E. W. Stevens of the Uncompagre National Forest.

Clyde A Maxey

Clyde A. Maxey
Acting Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

March 29, 1951

Memorandum

To: General Superintendent

From: Superintendent, Bandelier

Subject: Monthly Narrative Report for March, 1951

Weather

Precipitation continued to be below normal with only .05 inches being received this month. Santa Fe has started to ration water and the shortage will become acute unless a considerable amount of rain is received this spring.

Temperatures were fairly uniform and were generally in the sixties during the day and the twenties and thirties at night. A high of 71 degrees was recorded on the 7th, 21st, and 25th and a low of 11 degrees was reached on the 4th and 12th.

Special Activities

A special meeting was held with all employees on the 12th to discuss plans for the Civil Defense organization. Each employee was assigned a division to be responsible for and the details will be completed about the first of April.

The Superintendent and Regional Forester attended a meeting at Los Alamos with Forest Service and Atomic Energy Commission officials to discuss cooperation for the protection of the Los Alamos laboratories in case of emergency. This cooperation is mostly concerned with the prevention, detection, and suppression of forest fires that might interrupt utilities or damage valuable installations.

A conference was held with Mr. Gilgis and Mr. Baker concerning the management of the Lodge kitchen and needed repairs to equipment.

FOR DEFENSE
BUY
UNITED STATES SAVINGS BONDS

Inspections

Mr. Edwin Kenner from the Washington Office and Region Three Architects Saunders and Marsh made an inspection of needed rehabilitation projects in the buildings and campground on the 13th.

Architect Carter discussed plans for the road change at the checking station with Bureau of Public Roads engineers on the 15th.

Maintenance

The new dishwashing machine for the Lodge kitchen was received on the 26th and installed immediately. This will correct the major criticism that the Public Health Service had of the kitchen operation.

The living room, dinette and kitchen of residence 3 and the kitchen and living room of residence 2 were painted with rubber emulsion base paint. These rooms had not been redecorated for five years.

Additional stones were placed to define parking spaces in the campground and to prevent campers from driving their cars too close to trees.

Approach Road

35 Loads of volcanic ash were hauled onto the road between the checking station and the end of the paving in preparation for oiling.

The contractor started work on March 12 on the section of highway 4 from TA33 to the Los Alamos west gate. The road is being reconstructed by the Atomic Energy Commission. Approximately one and one half miles of this road are a part of the Bandelier approach road.

Laborers Cordero and Toribio were entered on duty to begin the spring maintenance of roads and trails.

Interpretive Service

A total of 809 visitors were conducted on 85 tours of the ruins this month. An estimated 543 persons visited Ceremonial Cave and Tsankawi Ruin.

Three trail side exhibit stands have been completed but we are very much in need of some one who can make reconstruction drawings of three of the ruins. As soon as these can be obtained the stands will be installed.

Travel

Travel continued its upward swing that was temporary halted in February. There were 1861 visitors this month compared to 1413 last year. This gives us approximately 2,000 visitors increase for the travel year. Nearly 700 persons came to Frijoles Canyon on the 25th which is more than we would expect in August a couple of years ago.

Ranger Service

Supervisory Ranger Keefe completed the assembling of kits of accidents reports for each vehicle as suggested in FO 943.

Insects and Tree Diseases

Funds for the aerial spraying for the control of tent caterpillars in Frijoles Canyon are to be allotted and a request for permission for the plane to operate in this area was made to the Atomic Energy Commission. Most of the Monument lies in the Los Alamos air space reservation.

Public Health

Covers were constructed of sheet metal for manholes in the water intake and reservoirs that were surrounded by a cement curb.

Training

The in-service training sessions that were started in January were concluded on the 27th. The subjects covered included:

History and Legislation
Protection
Objectives and Policies
Fiscal Procedure
Maintenance
Interpretation
Wildlife
Concessions
Personnel

All of the employees took part in the sessions and we also received valuable aid from Messrs. Gilmore, King, Reed, and Armberger of the Region Three Office.

Fred W. Binnewies
Superintendent

Canyon de Chelly National Monument
Chinle, Arizona.

March 23, 1951

Memorandum

To: General Superintendent

From: Superintendent, Canyon de Chelly

Subject: Monthly Narrative Report for March, 1951

Visitor Travel: 210 people in 65 cars this month. This represents a figure of almost four times that for the same period of last year. Increased travel due mainly to an early Easter and good weather conditions. The current travel year has almost doubled that of 1950. A total of 36 hours, and 40 minutes spent on interpretive work.

Weather: With the exception of several below freezing nights the weather has been very satisfactory. The customary March hard winds have not as yet arrived. However, it has been unusually dry. Only 3.79 inches of moisture during the past 17 months.

Project Programs Progress: Very satisfactory progress is being made on our various programs. As previously mentioned all concrete picnic tables and fireplaces have been completed and placed at the three campground areas. We are now in the process of placing new trash disposal containers - improving the parking areas - sign work, and other miscellaneous jobs to make the campground areas more usable and attractive. 75 overnight campers already this month have taken advantage of these added facilities.

The Hart Hardware and Plumbing Company, Gallup, New Mexico, was the successful bidder for the alterations to the Superintendent's Residence. Work will start on April 2.

Completion of the de Chelly Water Shed Soil & Moisture Program will be made as soon as 7 tons of wire is received from the General Services Adm.

Several loads of material were hauled for surfacing the road. We are unable to do any major grader work due to extreme dryness.

Improvements and surfacing of trails are being made as time permits.

Other Activities: All forms for the construction of picnic tables and fireplaces were hauled to El Morro on March 11, and three days were spent there assisting the Superintendent in getting his picnic table project under-way.

A 1 1/2 foot x 3 1/2 feet x 105 foot long stone retaining wall has been constructed in rear of the administration building and living quarters. This construction not only serves a very useful purpose, but adds materially to the general appearance of the headquarters area.

K.P.S. Visitors: Sup't. Bates Wilson and family on March 19.

Special Parties: 60 members of the Southern California Sierra Nature Club on March 21-22. The entire group camped overnight at the Spider Rock picnic area and were much pleased over the new campground facilities. All members expressed a desire to return as individual families during the coming summer months for the purpose of staying for several days. 45 made the trip into the canyons.

Easter Sunday Activities: Local School Officials assisted by de Chelly Park employees sponsored an Easter egg hunt for more than 300 school children at our headquarters campground area. Needless-to-say this was much enjoyed by these little tots.

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Capulin Mountain NATIONAL MONUMENT

Capulin, New Mexico

Memorandum March 25, 1951

To: The General Superintendent
Southwestern National monuments
National Park Service
Santa Fe, New Mexico

From: Superintendent Homer J. Farr

Subject: Monthly narrative report, March 25, 1951

Visitors: About three hundred people have visited the Monument during the month of March, making a total of five thousand one hundred during the travel year and twenty four thousand three hundred for the fiscal year to date.

Weather: There has been a variety of weather thru the month. It was extremely windy for the first few days, then an extra cold spell with the thermometer reaching 12 degrees below zero one night. Have had about five inches of snow in March.

Flora and Fauna: A bunch of nine deer , mostly does, have been seen in the Monument area several times this month. Other wildlife in the area is f ring fine. Trees and shrubs are beginning to take on a tinge of spring green.

Roads and trails: The road has been maintained through the month and has been kept open to traffic every day, despite a few 10 to 12 in snowdrifts on the north side.

Special Visitors: To my knowledge there have been no special visitors during the month.

Information Pamphlets: About twenty pamphlets have been distributed to tourists during the month. Upon request, 250 pamphlets have been delivered to the Chamber of Commerce of Raton, 250 to the Chamber of Commerce of Clayton and 100 to the Port of Welcome at Clayton. Have about 16,890 on hand now.

Homer J. Farr
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

March 25, 1951

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Casa Grande National Monument

Subject: Monthly Narrative Report for March, 1951.

General: With the daily temperatures pushing the high eighties, the females of the species are breaking out in their deepest plunging necklines and their fanciest "bikini" sets. We have thought that a committee from Congress should make an investigation here....it would be most revealing. No objections.

In other words, the weather is great. The travel continues to be good; however, there is a definite shift from the winter-resident-type visitor to the early vacationers. The California visitors have really been hitting the area the past ten days due to their Easter vacation.

There is, however, another side to the weather picture; our drouth continues to be critical. The Arizona Republic brought the whole situation up to date with a report from Louis R. Jurwitz, the offical weatherman for Phoenix, quoted, in part, as follows:

> Stream flows from rainfall during the past five months, which normally accounts for 80 per cent of the annual runoff, dropped to from 3 to 9 per cent of normal..... Records at the Calva station (for) inflow into Coolidge reservior show only 10,400 acre feet, and new runoff since last Sept. 30. That is 3 per cent of the normal annual total of 350,000 acre feet, and the amount of stored water is now so low that it will not flow through the gates..... The Salt River and San Carlos projects already are severely hurt-- San Carlos critically.... Cotton and produce growers may be compelled to cut planting in half because of the water limitations.

The old Casa Grande has really hit its style. The "mud hut", so often photographed and threaten by cameras, has been photographed for television. The National Broadcasting Company, doing a

study of the phases of the University of Arizona activities, had Dr. Haury and 25 archeology students make the trip from Tucson to be photographed with a photogenic ruin for a background. Just when the material will be televised we haven't heard, but imagine, Casa Grande on television.

Pinal County is a great place to live. Besides having wonderful weather, the Arizona State Employment Service's A News Letter tells of the excellent job opportunities-- clerical jobs starting salaries of $300.00 a month; sounds good doesn't it? Even some of the cotton choppers find it such a swell place that they stay right around the year and draw unemployment compensation during the winter.

Weather: The steady pulse of daily temperatures in the mid and high eighties shows that "cooler" weather is on its way. This month there were 14 days of the 28 with maximum readings above eighty. The weather is so close that the cotton farmers are working round the clock getting the seed under the ground.

Number of days with temperatures above 80° -- 14

The highest maximum temperature -- 91°

The lowest minimum temperature -- 26°

Visitors: As usual, the travel for this month continues the trend of exceeding the same month last year. There were visitors from every state and territory except Rhode Island; lots of Canadians, of course; and a scattering from Austria, France, Germany, Switzerland, the Netherlands, and Pakistan.

	1951	1950
Visitors during March	4,759	5,880
Increase	879	
Visitors for Travel Year	24,491	22,226
Increase	2,265	
Servicemen in March	14	

Interpretive Service: A total of 2,798 people made the trip to the "ruins" in 216 groups, averaging 51.1 minutes per trip. There were 1961 visitors who made only a brief stop and did not see the "ruins"; we estimate that 70% of this group did see the museum.

Visitors of Note and Special Groups:

March 2, 1951 -- Cub Pack 47, Den 3, from Eloy, for a trip to the "ruins" and a weiner and spud roast.

March 6, 1951 -- 62 students from the 7th and 8th grades of Flowing Well School, Tucson, for a tour and museum visit.

March 7, 1951 -- Mr. Ray Overstreet, a representative of the Public Relations Dept. of the Phoenix Chamber of Commerce, for a "ruins" trip.

March 10, 1951 -- 3 French Air Cadets from Williams Field for a quick picnic and museum visit. They would have liked to have taken the tour, except they didn't understand English, and we don't speak French.

Mr. U. A. Ansan, Press Secretary for the Pakistan Embassey, Washington, D. C., took advantage of the usual services, the tour and museum.

March 11, 1951 -- 100 Knights of Columbus and their families from Eloy, Coolidge, and Casa Grande had a lamb bar-B-Q (that really smelled good); also took in the "ruins" and the museum.

March 15, 1951 - Dr. Haury, 25 archeology students from the University of Arizona, and four N. B. C. photographers; all all part of the plan to televise the Casa Grande as a backdrop for the University's archeology activities.

March 18, 1951 -- 30 members (mostly youngsters) of the Pilgrim Church for a picnic.

March 21, 1951 -- Messers Davis, Cornell, and Lassiter from the Regional Office for a "routine" check and inspection.

March 22, 1951 -- 38 members of the Pilgrim Church for a pre-Easter egg hunt for the youngsters in our picnic area.

March 24, 1951 -- 55 Seventh Day Adventist for a pot luck picnic; they shared apple pie and chocolate cake with the staff.

Administration and Protection: There were ten requests for information this month; the literature requested was mailed.

As per usual, the Adamsville site was walked over, and there was no new evidence of "pot robbing".

The continuing heavy travel keeps the maintenanceman busy just picking-up after the public; with the warm evening there has been a great increase in the use of the picnic grounds, and the maintenanceman spends more time policing the area.

Wildflowers and cactii blossoms: With the drouth there certainly will be fewer wildflowers, but nevertheless, the cycle is beginning. Around the monument the Creosote Bush is "busting out all over"; the Ocotillo buds look as though they are just about due to open. The poppies are starting to appear along the well-watered road drainage. There are no Cactii blossoms as yet.

A. T. Bicknell
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Chaco Canyon National Monument
Bloomfield, New Mexico

March 25, 1951

Memorandum

To: General Superintendent

From: Superintendent, Chaco Canyon

Subject: Report of Activities at Chaco Canyon National Monument during the Month of March, 1951.

Weather Conditions

Only .01 of an inch of moisture was recorded this month and one of the dryest seasons on record continues. There were many days with high winds. Our maximum temperature was 67 degrees and our minimum was 10 degrees.

Administration

With only the Superintendent on duty during the month it has not been possible to do much more than just keep up with the major items of administrative work. One trip was made to Gallup, New Mexico, and one to Farmington New Mexico for a wage rate survey. Work continues on the building report folders none of which have ever been prepared for this area.

Maintenance

Work on signs, roads, and general maintenance and repair of equipment has been carried on with the help of one unskilled Navaho assistant.

Visitors

Travel continues to show a considerable increase over last year and with improved road conditions should hold up. Due to the temporary shortage of personnel it has been impossible to contact all visitors.

Interpretive Services

A total of eighteen hours was spent in guide and contact work.

Approach Roads

Work continues on the road in from Highway 40 and is in the best condition it has been for some time. In a discussion with the Highway engineer he stated that although no work was scheduled on our southern approach that it might be possible to make atrip or two over it with the grader.

Mobile Unit

Archeologist Gordon Vivian and his crew of Navaho Workmen have moved to Gran Quivira for stabilization work.

Meredith H.Quillet
Saperintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Chiricahua National Monument
Dos Cabezas, Arizona

March 28, 1951

Memorandum

To: General Superintendent

From: Superintendent, Chiricahua

Subject: Monthly Narrative Report

There follows the Chiricahua Monthly Narrative Report for March, 1951:

WEATHER The month was typically March with strong winds and variable temperatures. Maximum temperature recorded was 73 degrees; the minimum, 14. Precipitation occurred on 6 days to bring the month's total to 1.60 inches of rainfall. Hail fell on the 27th.

SPECIAL ACTIVITIES Superintendent Cooke took Annual Leave on the 25th. and will be absent from the Monument until the 1st. of April. He plans to visit Carlsbad Caverns during the week of leave.

PUBLICITY Chiricahua received publicity this month in the March issue of FORD magazine. The article, written by author-photographer Weldon Heald, included the Monument as an outstanding attraction in the Chiricahua Mountains. Mr. Heald wrote at length as to why he has chosen this corner of Arizona for his new home the Painted Canyon Ranch at Portal, Arizona.

APPROACHES TO MONUMENT All of the approach roads into Chiricahua remained in good condition during March. Several cars travelled the road through Pinery Canyon with no difficulty. The Monument road was kept in excellent condition through the month.

CONCESSIONS Of interest to Chiricahua is the continued increase in guests at the Silver Spur Guest Ranch. Travel records for March show that 82 visitor days were spent at the Ranch. This, and the count for February of 101, is more than double the count for the same period of last year. It is also of interest to see the Ranch accept more reservations from Monument visitors for dinners and lunches. A few have been turned away in March but the percentage is a great deal lower than it has been in the past. This is gratifying inasmuch as there is no other restaurant within forty miles.

INTERPRETIVE SERVICE Three illustrated lectures on Chiricahua were presented this month. Superintendent Cooke spoke to an audience of 14 for one hour at the Silver Spur Guest Ranch on the 11th. and again for the same period in the museum to 14 on the 17th.

Monthly Narrative Report....March....Chiricahua....

Ranger Gaynard held a one and one-half hour lecture in the museum on March 24. The use of the museum for these slide lectures has proven to be very satisfactory. With proper seating arrangements, the room will accomodate 35 visitors. On the two showings this month, a "slide-swap" session was held after the Service talk and slides owned by campers and visitors were run off for the interest of the group. Both lectures were warmly received and the "slide-swap" sessions were thoroughly enjoyed by all. Camper use has been heavy and 25 were in attendance at the show of the 24th.

The Sierra Club of Southern California camped at Chiricahua from the 21st. to the 23rd. with 29 members in the group. On the evening of the 21st., a campfire meeting was held with Superintendent Cooke giving a talk of one-half hours duration. The Club was likewise entertained on the evening of the 22nd. and taken for a conducted trip through Echo Canyon and Heart Of Rocks that day.

Contacts in the museum totaled 1429 visitors in 410 parties.

Twenty visitors enjoyed the use of the Chiricahua Nature trail. One conducted tour of the trail was made with three visitors.

One conducted auto trip through the Monument was made with five visitors. Four conducted walks on the Massai Point loop trail was made with twenty-four visitors.

TRAVEL Travel for the month of March showed an increase of 8.7% over March of 1950. The total number of visitors was 1575 and gave a 15% increase over the previous month. Chiricahua is now 304 behind the travel year total of 6969 recorded this date in 1950.

Last year's travel year totals showed a 92% increase in campground use over that of 1949. From all indications, this year's count should again double the previous year's figures. March brought a very heavy use of the camp site including many trailers. Total visitor days on the campground was 391.

Although Chiricahua is behind last year's count on total visitors, the Monument is 2 ahead on total visitor days. For the month of March 1951, the figures are 2058 total visitor days. For March 1950, that same total was but 1647. This would certainly indicate that although we have fewer individual faces on the Monument this year, the area is being used more heavily and more personnel time is necessarily spent with the public interest.

RANGER SERVICE Some Ranger time was spent during the month on the Monument signs on approach roads. These have almost entirely been covered and work has started on those signs inside the boundaries. With the Sierra Club visiting the area, and with heavy camper use and increased travel, a good share of Ranger hours was given to the visitors.

Letters have been sent to several Universities for applicants for the Seasonal Ranger position at the Monument. To date, only one man has made application. Neighboring ranches and towns are being surveyed for a man to fill the Fire-guard position. This job likewise has received but one application.

Clifford C. Gaynard

Clifford C. Gaynard,
Acting Superintendent.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
El Morro National Monument
El Morro, New Mexico
March 23, 1951

Memorandum

To: General Superintendent

From: Superintendent, El Morro

Subject: Monthly Narrative Report

This month, for the eighth consecutive month, there was a large increase in visitors. There were 109 visitors who came in 46 automobiles. Of these, 77 took a trip around the Rock in 29 parties. 38 persons in 13 parties had a orientation talk, and 8 people in 3 parties went on top of the Rock.

The weather has been typical for March - like summer one day and like January the next, but with very little wind. The maximum was 64 degrees and the minimum was a minus 5 degrees Fahrenheit. There was .46 of an inch of moisture.

With the cooperation of Superintendent Bright and Ranger Morris, we have our picnic tables and fireplaces well under way. Those at Canyon de Chelly lent us their forms and Bob Morris came with them and got us started.

Some time has been spent working on the Master Plan.

Considerable trouble with the light plants again. When the technician made his monthly checkup, he got them both running but one is running fairly well now and the other is down again.

Again this month, the technician spent hours working over the radio, but to no avail. No matter how loud I scream, the answer from KNKU is that all they can hear is a hum. By now we know lots of things that are not the matter with the radio and eventually we hope to find the trouble.

Our large sign at the entrance gate was repainted this month.

The floors in the office and residence were refinished.

The rest of the coal was shoveled from the coal bin to the truck and from the truck to the basement.

Some, but very little, research was accomplished.

National Park Service visitors included Bob Morris, John Davis, Mr. and Mrs. Bates Wilson, Mr. Bassiter and Mr. Kell.

On the night of the 17th of March, shortly after 6:00 p.m., some young people came by to tell us of a serious automobile accident approximately one mile from our Headquarters. They said that some of the people appeared dead, but that they had not stopped. After telephoning the Zuni hospital, getting some sterile cloths, flashlight, first aid kit and others, the superintendent jumped in th pickup and went to the scene. It was one of the most ghastly accidents that one can imagine. We have all heard the expression "blood and brains all over the street" - such was literally the case. After a quick survey of the situation and finding the living persons were in need of blankets for it was a very cold night, the superintendent came back home, secured blankets, hot water bottle and the like and telephoned the Zuni Hospital again, the State Police who promised to send a wrecker and an ambulance immediately and then returned to the scene of the accident. Counting an unborn child who died as a result of the accident, there were 9 persons in the car. Five of them died!! The automobile was as complete a wreck as I have ever seen, even the rear axle housing and differential was off the car - in pieces! The superintendent was on the scene helping out as he could until nearly 1:00 a.m.

While at the scene of the accident, a passerby reported to the superintendent that there had been another accident 7 miles dorn the road but the injured had been cared for. Upon returning home and while making my report to the State Police Officer one of our nearby residents interrupted our telephone conversation to tell us that one of our neighbors was involved in the other accident and was in serious condition in Grants. A few minutes later we heard that the man needed a transfusion, so the superintendent offered his blood as it was of the same type. The hospital in Grants was telephoned. No blood was needed at the moment, they had enough, but the superintendent was to stand by ready to go to Grants should they need more. In a few hours, the man was transfered to Albuquerque where he died.

One of the most touching aspects to this superintendent was the fact that there was a little boy just the age of our boy, wearing an exact duplicate of our boy's jacket, who lay

crushed todeath under the car. There were many other pitiful happenings; one woman who could scarcely move kept asking for her boy who was under the car and her husband who was less than 10 feet behind her also dead; a severely injured man trying to comfort his wife in terrible agony. Because they were all so severely injured and because of instructions and orders from the hospital we did not attempt to move them. We kept them covered with blankets, bandaged their wounds, applied hot water bottles and helped where we could.

Irving McNeil, Jr.

Irving McNeil, Jr.
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Gran Quivira National Monument,
Gran Quivira, New Mexico

March 25, 1951

Memorandum

To: General Superintendent

From: Superintendent, Gran Quivira

Subject: Monthly Narrative Report for March 1951

Weather. Traditional March winds dominated the weather scene most of the month. Fields under cultivation provide for a heavy dusty carry which is referred to locally as "moving real estate". Two small amounts of moisture were received, .15 of an inch on February 26 and .25 of an inch on March 10. Average maximum temperature was 65 degrees with minimum temperatures averaging 33 degrees.

Visitors. Miss Esther Quackenbush, Albuquerque, and Mr. W.W. Whitehead, Washington D.C., representatives of the American Automobile Association, on the 23rd.

Inspections. General Superintendent Davis and Regional Engineer Lassiter inspected the monument area on March 2.

Ruins Stabilization. The project of stabilizing San Buenaventura mission got underway with the arrival of Archeologist Gordon Vivian and a crew of nine men on March 21. Work was begun on the interior of the nave and is progressing satisfactorily.

Maintenance and Rehabilitation. The completion of the deep well project was postponed when sucker rods broke near the bottom of the well. Repairs are underway and this unit should be in operation in about a week.

Minor repairs were made to both monument vehicles. The 1½ ton stake was painted and a new trailer hitch welded on the pickup.

Two additional loads of gravel were spread on the mission trail and maintenance continued as usual on the entrance road.

Approach Roads. Despite heavy shifting of sand road conditions have been good. The Mountainair road has been bladed twice and the Carrizozo approach has had maintenance this month. An increased amount of travel has been using the east approach from Corona and comments indicate it an improved road.

Travel Increase. Travel continued to increase this month by 22% over last year's visitation. 174 persons in 58 cars and motorcycles entered the area. Auto courts and hotels in the approach towns to the monument report that out of State travel is much heavier than previous years.

Interpretive Services. Twenty six guided tours were made with 119 visitors for an average of 43 minutes per trip. The self guiding trail trip was taken by 19 parties of 55 persons. 147 people went through the exhibit room and were given information.

Personnel. The Superintendent took 4 days of annual leave during the month. Nine laborers were hired by Archeologist Vivian for the ruins stabilization work and are camped on the monument.

Ray B. Ringenbach
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

GREAT SAND DUNES NATIONAL MONUMENT
Alamosa, Colorado

March 25, 1951

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Great Sand Dunes

Subject: Superintendent's Narrative Report for March, 1951

Weather Conditions

Continued drouth and wind marked March weather and restricted travel to a great extent. The entire precipitation for the month was 0.03, the monthly minimum was 3 above zero on March 3, and the maximum was 67 on March 22. Many San Luis Valley farmers will not be able to plant crops if the drouth continues and others who have wells for auxiliary water will plant only a part of the normal amount.

Special Activities

A trip was made to Monte Vista on March 22 to talk to REA officials about the prospects of an electric power line in this neighborhood. REA now plans to extend their present lines to the Zapata Ranch, our nearest neighbor, this next summer. This will put a line about seven miles from headquarters. A POP sheet is being prepared for addition to our construction program.

Decrease in Travel

Visitation continues to fall below that of last year. The decrease for March was 367 as only 356 people came to the area during the month. Windy, nasty weather had a great deal to do with the loss.

Rehabilitation

Very little was accomplished on rehabilitation this month as I was on leave for two weeks and the asphalt tile ordered from Denver has not yet arrived. A new door was constructed for the tool shed to make it weather tight and mouse-proof.

Maintenance

Eight man days were spent cleaning culverts on the entrance road and only about two more days of work will be required to finish the job. Thistles were burned along the fence at the monument entrance where they were causing sand to drift over the wires and above culverts where they might be washed by a rain to plug a culvert. Enough poles were secured to satisfactorily rebuild the fence around Mosca Spring and a broken pole in the fence at the entrance was replaced.

Interpretive Services

Two talks outside the monument were given during the month as follows.

The first was given to 22 members of the Alamosa High School Band and Orchestra Parents Club at Alamosa on February 26. The subject was "Desert Plants and Animals" illustrated with slides from Organ Pipe Cactus National Monument.

The second was given to 14 members of the Hiram Club at Superior, Arizona on March 15. The subject was "Great Sand Dunes National Monument" illustrated with slides from the area.

Research and Observation

A group of 11 bighorn sheep consisting of 9 ewes and 2 coming yearlings were seen about a mile above (east) of the monument boundary in Medano Canyon on a patrol trip on March 21. The entire group was in good condition and wintered very well.

Guide to the Turtles of Colorado was given to us for the library by the SWMM naturalists.

Approach Roads

Alamosa County continued to blade the approach road about every ten days. The spring thaws are just beginning in the San Luis Lake section but I do not believe that the road will develop the deep frost boils that it usually does in wetter years.

The monument section is in poorer shape than the remainder of the approach road. The absence of any binding material except sand makes it impossible to do much with a grader in such dry weather except redistribute the rocks.

Co-operating Agencies

Civil Air Patrol units from Alamosa and San Acacio spent

February 26 making tests with their portable radio equipment to determine communications possibilities between here and Alamosa. The walkie-talkie sets were effective for about 18 miles and they secured very fine transmissions with a 25 watt voice set on 2375 but have never been able to receive my transmissions on 5160.

Personnel

Jack R. Williams worked as laborer from February 27 until March 21 and took care of the monument while I was on annual leave. Jack accomplished a great many small maintenance jobs that have been piling up and his presence during my leave was very much appreciated.

My two weeks annual leave was spent visiting friends and relatives in Santa Fe and southern Arizona. I took 4 hours sick leave on February 27 for emergency dental work and 1 day on March 24 due to an attack of pleurisy.

Glen T. Bean
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Montezuma Castle National Monument
Camp Verde, Arizona

March 26, 1951

Memorandum

To: General Superintendent

From: Superintendent, Montezuma Castle

Subject: Monthly narrative report, March 1951

Weather: Typical for March with days sunny and cloudy, windy and still, and temperatures ranging from a minimum of 21 to a maximum of 79. The first snow for this winter season fell on March 2, covering the ground with a three inch blanket. This snow melted in less than four hours.

Travel: With generally good weather throughout the state and due to the Easter vacation week, travel has been exceptionally good. Visitors numbering 3045, arriving in 869 cars, visited the monument. This breaks down into 2243 visitors and 652 cars for the Castle, and 802 visitors and 217 cars for the Well. Total travel to the area represents an increase of 686 people over March of last year.

Interpretation: Because of the large number of people visiting the area, interpretation was given priority over all other activities. During this report period, 777 persons were guided on 125 tours through the Castle. This represents special conducted tours for several large school groups along with the regular visitors. 700 people who did not take the guided trip received interpretive talks, and 1960 people toured the Sycamore Trail. At the Well, 150 saw the museum and 800 hiked the new Loop Trail.

As my guest, Jimmy Brewer of Tuzigoot presented an interesting illustrated lecture to about 20 members of the Camp Verde Lions Club on March 21. His talk and pictures covered archeological areas in Arizona.

New editions of the Montezuma Loop Trail and of the Sycamore Trail pamphlets were received and placed in service. Both of these pamphlets are excellently prepared and reflect credit on the Region naturalist staff. It is noted that these guide booklets are rapidly becoming more and more popular and that people are beginning to actually demand them. This was strongly brought to our attention during the middle of the month when our stock of booklets was gone.

Visitors: On March 19, John Davis and Ralph Lassiter in regards to general administration of the area.

On March 19, twenty-eight students from Placer college, California, were conducted through the Castle.

On March 20, Superintendent Houston and party from Craters of the Moon.

On March 22, twenty-eight students from Reedly college, California, camped overnight at Montezuma Well and were conducted through the Castle the following morning.

On March 23, twenty-two students from Bšnak-Foxe Academy, California, climbed that ladders.

On March 23, Kenny Saunders and Harold Marsh in regards to location of the Castle model and for the purpose of inspecting buildings.

On March 24, thirty executives from Brown and Bigelows Advertising Co., St. Paul, Minn., were given a special talk and conducted along the Sycamore Trail. These people were guests of Charles Ward, President of the Company, who owns several ranches in the Valley.

Signs: Archeologist White spent several days at Tuzigoot using the equipment there to complete entrance signs for both Montezuma Castle and Well. It is felt that these signs conform to Service policy, and they will be installed as soon as possible.

Personnel: Ranger Carl G. Murray resigned effective February 24. Until his position is filled, Harvey N. Koller of Camp Verde is serving as W. A. E. Guide.

Archeologist White entered on annual leave as of March 14 and will return to duty March 30. He is visiting his family in Mississippi.

JOHN O. COOK

John O. Cook
Superintendent

APR 1951
RECEIVED
National Park Service
Region Three
Office

Navajo National Monument
Tonalea, Arizona

March 28,1951

Memorandum

To: General Superintendent

From: Superintendent, Navajo

Subject: Monthly Narrative Report for March, 1951

Travel: The last 10 days of this report period there have been so many visitors that it has seemed more like mid-July than March. For three successive days we had two trips a day to Betatakin (ranger guided,requiring 3 hours for a round trip), one trip a day to Keet Seel (a guided party but not guided by NPS representative) and one trip to Inscription House by horseback.There were 88 visitors traveling in 22 cars.9 parties of 41 people camped overnight in the area.

One party from California, their time limited to three days, drove all night to and from Navajo in order to visit Keet Seel and Betatakin. Another party of two men drove all night, hiked to Keet Seel the morning they arrived and left the same evening to return to California.

Weather: We have had only a few days of high wind during a reputedly windy month. The high for the month was 67° and the low was 9°. A total of .2 of an inch of precipitation.

Roads: Most of the roads leading to the area are in good shape. The very rough section of road between Dinnehotso and Mexican Water, leading east toward Shiprock, has been partially repaired. The old sand trap located in Chinle Wash, that caught and held the unwary driver and even on occasion proved too much for the initiated, has been eliminated.

Publicity: The article appearing in the LOS ANGELES TIMES, February 18, concerning a trip to Keet Seel Ruin, has brought over one hundred requests for detailed information.

General: An underground cable obtained from Walnut Canyon was installed between the generators and the ranger hogan. All automotive equipment and the road grader were serviced and nuts and bolts tightened. The radiator on the jeep was repaired.

A forge and scarifier were obtained from Hupatki. The water pump required repairs, as usual.

A truck load of 30 juniper posts were cut, peeled and hauled to the Monument for use in marking the trails to Rest Seal and Inscription House Ruins. More steel reinforcing has been laid preparatory to pouring the concrete floor in the new garage. One trip to Flagstaff, the last rip having been made three months ago. Woodwork in the new bedroom was sanded. Two loads of manure was hauled for use in landscaping the area around the residence. 21 cards were added to the fact file.

Local Items: Our good friend and Neighbor, Max Littlesalt, was elected Judge of the Keyenta District Court. The events leading up to the Tribal Council election, March 5th, had all the spice and flavor of one of our own hotly contested elections.

Two trips were made to the Tuba City hospital with local Indians urgently needing medical attention. One case was that of a mother and six weeks old son, both quite ill with diphtheria. The other was a mother and two day old baby, the mother unable to walk after the child's birth.

A daughter was born to Bob Black and wife on March 25. Bob is our very capable Navajo Indian laborer.

Reportworthy Visitors: Mr. Harry Goulding of Goulding's Trading Post in famed Monument Valley.

Dr. and Mrs. Horst Mueller of Heidleberg, Germany. Dr. Mueller is an eye specialist and came to the U.S.A. to further his training.

John A. Aubuchon
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

ORGAN PIPE CACTUS NATIONAL MONUMENT
P. O. Box 38, Ajo, Arizona

March 26, 1951

Memorandum

To: General Superintendent

From: Superintendent, Organ Pipe Cactus

Subject: Monthly Narrative Report lml for March 1951

Weather

Several days of high wind killed any chances of a spring flower display and dried up the .03 inch of rain that fell on March 2. March was generally cooler than February with a low of 27 on March 4 and a high of 89 on March 14.

Special Activities

Archaeologist Al Schroeder and Don Jowell, from Lake Mead, spent March 10 & 11 in the area with the Superintendent and Ranger Leding on a preliminary survey of sites. Material from Folsom type to Modern Papago were found in sites and we have high hopes for a complete study in the near future.

The approximate limits were located for the aerial survey but actual shooting has been delayed because of mechanical trouble with the aircraft of the Tucson firm.

Inspections

General Superintendent John Davis and Engineer Lassiter spent March 24 in the area on a general inspection.

Maintenance

General road maintenance continued most of the month and several days were spent on clean-up on the thru highway.

The front- end loader was checked and serviced for temporary loan to Saguaro National Monument.

Visitors and Special Groups

14& 15 Ranger & Mrs. F. H. Benson and daughter and Seasonal Ranger Pop Frost of Saguaro National Monument.

10 & 11 Archaeologist Al Schroeder and Don Jowell of Lake Mead National Recreational Area.

18 & 19 37 members of the Los Angeles Chapter of the Sierra Club were in on Nature Studies.

20 & 21 A Los Angeles State College group of 65 in on Nature Studies.

Travel

A slight decrease in through travel was probably due to the high winds and the short report period. Visitor use in the area held steady with 1,101 campers for the month. Average camp use of over 100 a day for the 18, 19, & 20th caused minor verbal complaints about facilities. Groups of up to 15 women could be seen lined up, waiting their turn, to use the one hole pit toilet provided for the campers. Others who couldn't wait took to the brush.

Equipment

Purchase orders have been received on the F.M. Radio equipment and a new pick-up for the area. Odd shipments are begining to come in on the radio equipment.

Personnel

All personnel is again on duty after surviving the Flu bugs.

William R. Supernaugh
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Saguaro National Monument
Tucson, Arizona

March 25, 1951

Memorandum

To: General Superintendent

From: Superintendent, Saguaro

Subject: Monthly Report, March 1951

General

March produced very cool and dry weather for Southern Arizona. Mean temperatures were generally below normal for the month and an all time low of 30° was recorded on March 18, in Tucson.

An inspection trip to the forested area showed that the snow-pack is quite well below that of other years. The South and West facing slopes are completely devoid of snow while on the North and East slopes only scattered patches remain. Unless we get several soaking spring rains, we must look forward to one of the most hazardous fire seasons in the history of the area.

Near the end of the month water from melting snows has at last reached Madrona Ranger Station and we expect to be able to pump water into the storage tanks.

Travel held strong throughout March with exceptionally heavy visitation during Easter Week. Most visitors are wondering when the cacti will come into bloom.

The new Cactus Forest Trail Leaflet published by Southwestern Monuments Association is extremely popular. About 99% of visitors purchase leaflets and only 9 out of the first 400 were lost.

The Spanish Trail Approach Road is almost completely graded and should be ready for the surface coat within thirty days.

Special Activities

General Superintendent Davis and Regional Engineer Lassiter made two trips to Saguaro on the 2 and 23 of March. Their first visit was cut short when word was received that Mr. Hendricks had passed away.

Status of Private Lands

Negotiations are still underway with the State of Arizona to obtain state lands within the monument boundaries. The Arizona Land Office found that the list of lands submitted for exchange by the Bureau of Land Management does not fit in to the state's acquisition program. State officials are now working on a list of lands which would be more suitable to their needs.

Maintenance

Trail Laborer Arthur Garcia has completely repaired the trail from Spud Rock Cabin as far as the pasture gate on the trail toward Manning Camp.

Laborer-leadman Stansberry has been working on the Cactus Loop road supplying ballast to rough sections. An end-loader was borrowed from Organ Pipe Cactus which greatly speeds up this work. The ballast material is being applied to the road to make ready for addition of a dust palliative later in the year.

About twenty loads of ballast were applied to the corrals at Madrona Ranger Station to replace eroded materials.

Approaches to Park Area

Grading and installing of three culverts on the Spanish Trail Approach Road have been completed and we expect that oiling of the road should commence within a short time.

Cooperating Government Agencies

We have received word that the Division of Forest Pathology has been requested to continue their studies of the mortality rate in the Giant Cactus for another ten years. If an agreement is reached, certain immediate steps must be taken to preserve the identity of the check plants.

Donations

We received an excellent collection of rocks and minerals of this area from the Tucson Gem and Mineral Society. Special pains on this project were undertaken by Mrs. Serrano, the society president, and Mr. Foster, who did most in assembling the collection. These specimens will be exhibited at Monument Headquarters.

Interpretive Services

A total of 2,905 persons in 936 parties were given interpretive service at headquarters. This amounted to a total of 216 hours for an average of 14 minutes per party.

Research and Observation

March 6, First buds appear on Hedgehog Cactus.
" 19, Three Arizona Whitetail Deer in forested area.
" 23, Four rock squirrels drowned in the horse trough at Madrona Ranger Station attempting to obtain water. This indicates that drought conditions are already in force.

Various groups of javelinas have been observed by visitors during March.

Increase in Travel

A total of 6253 persons visited Saguaro National Monument in March. This represents a decrease of 647 visitors over last month and an increase of 454 visitors as compared to the corresponding month one year ago.

Visitors

Feb. 28, Mr. Homer Boyd, Chairman, Pima County Board of Supervisors.
Mar. 2, Messrs. Davis and Lassiter, Santa Fe, New Mexico.
" 4, Messrs. Maurice Terrill and Dan Fowler, Look Magazine, Hollywood, Calif.
" 13, Glen and Lois Bean, Great Sand Dunes National Mon.
" 15, Mr. and Mrs. W.P. Hillman, Budget Officer, Region One Office, U.S.F.S., Missoula, Montana.
Mr. and Mrs. E.H. Myrick, Supervisor, Lolo National Forest, Montana.
" 19, Mr. Karl E. Pheiffer, Dept. of Forests and Parks, Annapolis, Maryland.
" 23, Messrs. Davis and Lassiter, Santa Fe, New Mexico.
Mr. Al Yokkelson, Arizona State Land Office, Phoenix.

Ranger Service

Rangers Benson and Bryce got the telephone line to the forested area in working condition once more. This entailed the removal of many snags which had fallen on the line.

Ranger Benson made a trip to Organ Pipe Cactus to bring back an end-loader for use at Saguaro.

Police Protection

. A local "Rod and Gun" columnist beckoned javelina hunters to try the south slopes of the Rincon Mountains in an article in the "Arizona Daily Star". We are not sure what will be the outcome of this article, but as of this writing no infractions have been discovered. Apparently most hunters in this area have become acquainted with the monument boundaries. Boundary patrol by rangers have been maintained throughout the month.

Forest Fire Control

Preparations are being made for the coming fire season. The telephone line into the forested area was restored to operating condition, radios were repaired and new batteries installed, and the annual inspection and repair of fire tools was commenced.

Personnel

Trail laborers Ralph Brito and Arthur Garcia entered on duty on March 1, 1931. Laborer Brito resigned as of March 9, 1931.

Samuel A. King
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Tonto National Monument
Roosevelt, Arizona

March 29, 1951

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Tonto

Subject: Narrative Report, 1ml, Tonto, March 1951

Weather. Cold early in the month, with a 1 inch rain and snow March 2. Warm week during Easter vacation, cold and .3 inch rain March 26.

Roads. Good most of the month. Apache Trail was rough due to the usual breakdown of the State Highway grader, and to heavy travel. The Monument entrance road is in good condition, as Sanders bladed it earlier this month.

Visitors. Mr. Ted Sayles, Curator of the Museum of Arizona, Tucson.
Dr. Ernst Anteva, of the Carnegie Foundation, Paleozoic Geologist, of Globe, Arizona.
Stan Davis, Lollesgard Specialty Company, Tucson.
Evelyn Sharp & Mrs. C. C. Sharp, Compton, California, and Cristobel Brandt, Zion, Illinois.
Mr. & Mrs. Fred Young, LaTuna, Texas.
Sierra Club of California, about 6 cars, on March 24.

Travel. 2402 visitors in 703 cars. 85 less persons than March 1950.

Nature Trail. After many delays, the leaflets were finally received from the trucking company, and the trail will be operating very soon.

Building Fire. The trailer house quarters near the Museum, occupied by Archeologist Pierson and family, were completely destroyed by a fire which started at 4:15 March 5, in the afternoon. The house was too hot to enter in about 10 minutes after it started to burn, and was burned to the ground in about 45 minutes. It was finally decided that the failure of the l.p. gas regulator permitted gas to escape under pressure, which gas was ignited by the pilot light from a hot water heater. No one was injured, but considerable property was lost. Any area having this type of war surplus expandable trailers is hereby warned that they are bad fire traps, and extreme precautions are urged.

Inspections. General Superintendent Davis spent most of March 26 here going over various administrative questions. We regret that Regional Engineer Lansiter had to miss Tonto this time.

Wildlife, and Flora. First Gila Monster of the season was observed by Pierson on March 26. The warm weather of Easter week apparently encouraged the Gila Monster and a lot of wild flowers to come out. Now blooming are Lupines, California Poppies, Spiderwort, Desert Hyacinth, Indian Paintbrush (castilleja integra), Alfilaria, Eriogonum, and others. The brittlebush and hedgehog cactus are about ready to bloom here, and the ocotillo. It was too dry a winter for the large hillside displays, but there will be a good many scattered flowers.

General. Three days were required to restore utilities and clean up after the fire, including obliteration of the building site. Mrs. Frazier of Roosevelt kindly offered the use of one of her houses which was temporarily vacant, and Piersons have been living there this month. The neighbors have been very helpful in this emergency.

Visitors have kept us busy, but some time has been found to improve signs and carry on maintenance. One road sign which seemed to be superfluous, has been taken down.

Charles C. Sharp

Charles C. Sharp
Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Tumacacori National Monument
Tumacacori, Arizona

March 26, 1951

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Tumacacori

Subject: Superintendent's Monthly Narrative Report for March, 1951

Weather: Temperature ranged from a maximum of 81 on the 13th to a minimum of 19 on the 4th - both a lower high and a lower low than we had in February. Precipitation was .09", compared with the average of .40" for the last 13 years.

Visitor Travel: A total of 5,488 visitors set a new March record for Tumacacori, over 26% higher than the previous March high of 3,502 in 1950. The past 12 months has brought over 34,000 visitors to Tumacacori, which is distinctly a record year.

Interpretive Service: 1,908 persons went on 284 guided trips through the mission church and grounds, receiving an average of 38.1 minutes per trip. 5,307 persons received combined Information and Interpretation service, and 5,268 saw the museum and patio garden.

The average time spent per trip, 38.1 minutes, is in part an indication of the tone of visitor interest. This time is quite high, and compares with an average trip time of 35.45 minutes during the past 64 months.

Museum and Education: On March 1 the mimeographed trial run of the "Patio Garden Guide" nature trail leaflet was set in operation for users of the mission type patio garden here. So far the most conspicuous result of the use of the leaflet has been the fantastic rate at which visitors carry the leaflets away with them when they leave the monument. A good many people have been seen using them in the garden, and apparently enjoying them. Many favorable comments have been received, but there are also a lot of people who just grab a leaflet and fold it, unread, and stick it in a pocket to carry away as something else that is free. That is to be expected, however, for an area that receives so many very casual "dropins".

Little free time has been available for continuing work on bringing library card files up to date, or for fact file work, but from time to time a little is accomplished.

Visitors: February 28 - Tad Nichols, well known to most Arizonans for his outstanding photography, was in taking pictures.
March 3 - A group of 37 from the Brandeis School, Tucson.

ORPT

March 4 - William W. Drewry, Jr., President of Drewry Photocolor Corporation, Glendale, California.

March 12 - Ranger and Mrs. Sydney Jameson and daughter, of Casa Grande National Monument.

March 15 - Dr. H. D. Harrington, Colorado A. & M. College.

March 21 - Tom Lockhart, Field Supervisor, Water Resources Development Corporation.

Inspections: Assistant Regional Director Cornell, General Superintendent John Davis of Southwestern National Monuments, Regional Engineer Lassiter, were in for monument inspection on March 22, and for a conference with representatives of the Arizona State Highway Department and the Bureau of Public Roads with regard to location of the widened right-of-way for Highway 89 where it passes the monument.

Personnel: Maintenance laborer Ramon S. Orozco was terminated here on February 28, C.O.B. The following day Ollie Barney Jr. entered on duty, through intra-agency transfer from Saguaro National Monument, as maintenance-man here. His services to date have been quite satisfactory.

Maintenance: Routine maintenance work has been kept current, including a great deal of watering of plants. A stockpile of fine quality cement sand was hauled. Ranger and Mrs. Henson spent their version of a day off period in painting the bedroom of Residence .... 2. Charles La Plante was hired for two days to work with Maintenanceman Barney in pulling our pump, replacing the leathers, getting 30' of drop pipe welded where rust holes had eaten through it, and putting the system back together. All steps in the museum building were given a new coat of aluminum paint, as a public safety factor. Barney has been doing a lot of work in the museum with the extremely tedious carpentry necessary to permanently stop light leaks and condition the interior for a new paint job, which is to be done soon. The superintendent has done quite a bit of necessary "puttering" in the patio garden, including instruction to the new maintenanceman, considerable pruning, and fussing over the plants to get them to present as handsome a front as possible for the visitors. Four additional shrubs (Myrtus compacta), some Columbines, several Jojobas, and a bed of Dwarf Alyssum, were planted in the Patio garden. Dwarf Alyssum was planted (from cold frame) to form a border on either side of the entrance to the museum building.

General: We are all [illegible]y here that by contrast a one-armed paper hanger with the hives would look like a study in slow motion. We are well aware that the almost fantastic increase in visitor attendance of the last two months is not due entirely to increased public appreciation of the merits of the area. Much of the increase has been caused by the additional highway signs which were put up on February 1. However, while March of this year brought about 26% higher total attendance than for the same month a year ago, the percentage of visitors going on guided trips through the church and grounds increased by over 28%. So our visitor increase is by no means limited to "casuals". High tone of visitor interest is shown, not only by time spent on guided trips, but by number attending them.

Recently, in talking with Tom Lockhart, field supervisor in this area for Dr. Irving Krick's "Water Resources Development Corporation", which is only one aspect of Dr. Krick's activities, we rounded out our picture of what the corporation is doing in Arizona. The rain-making work of this firm is represented in Arizona by only the Southeastern corner of the state, an area bounded on the west by an imaginary line running north from Sasabe to Randolph (SE of Coolidge) thence eastward on a line through Safford to the New Mexico border.

Foundry coke, soaked in silver iodide, is fed into a small hopper end in turn into a small electrical furnace lined with fire brick. An auto storage battery provides the current. The silver iodide, heated, vaporizes, rises above the furnace, promptly crystallizes, then is carried upward to the clouds solely by normal convection currents. The particles then provide extra nuclei around which water vapor can condense until it becomes heavy enough to precipitate.

The generators are portable, and are set out at various strategic places, and operated by non-technical people, who start the furnaces going on telephonic instructions from field headquarters. The generators are not used in any attempt to "make clouds rain." They are used, according to Lockhart, only when the clouds are going to rain anyhow. In other words, the use of the generators is intended only to cause more rain to fall than would fall normally.

Various ranchers and civic groups pay the company a stipulated minimum, with a bonus for rainfall which is above normal. Operations in Arizona commenced on January 1, and are to continue at least through this calendar year.

Well, I hope rain-making efforts meet with more success than they seem to have so far in this district. We are still suffering from a terrible drouth. Me, I'm on the fence, as to whether silver iodide or Hopi prayers are the more efficacious.

NATIONAL PARK SERVICE

TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA

March 25, 1951

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Tuzigoot

Subject: Report 1ml, March 1951

There follows a narrative report of activities in this area.

GENERAL

Excellent weather prevailed throughout the month and March, as usual, marked the beginning of the popular visitor season, highlighted by an earlier than usual Easter vacation and an upsurge in travel toward the last of the month with Californians dominating out-of-state entries. There was a slight decrease in number of visitors over the corresponding month in 1950 but our total for the year continues to run ahead of last year.

VISITORS

1224 visitors in 401 cars. This compares with 1338 visitors for March 1950. 1157 visitors in 382 parties were contacted and oriented in the museum. 1169 visitors in 388 parties made the trip through the ruins.

N.P.S. VISITORS

Archeologist Art White, Montezuma Well, on March 8 and 9, using our shop to rout signs for his area.

General Superintendent John M. Davis and Regional Engineer Ralph Lassiter on March 19, who spent half a day reviewing on the ground and making minor revisions in our trail plans, as also inspecting constructions projects.

Mr. and Mrs. Sam Houston, Craters of the Moon National Monument, on March 20.

Architects Saunders and March paid us an unscheduled visit on March 22.

OTHER FEDERAL AGENCY VISITORS

Dr. Gardiner, Messers Griswold, Carrol and Christenson of the Soil Conservation Service Regional Office, Albuquerque, New Mexico, on March 7.

REPORTWORTHY VISITORS

Mr. and Mrs. C. E. Dodge of Phelps Dodge Mining Corporation, Main Office, New York, with Mr. W. W. Little, General Manager of Phelps Dodge, Jerome District, on March 12. Mr. Little has lived in Jerome the past three years and this marked his first visit to Tuzigoot.

Mr. Horace Griffin, newspaperman, accompanied by Mr. R. K. Duffey, Chief Clerk, Phelps Dodge, Clarkdale, on March 13.

ORGANIZED GROUPS

On March 23 an Easter vacation tour of 20 boys from the Black-Foxe Military Institute, Los Angeles, accompanied by their supervisors - Captain Marmaduke and Captain Kropps. Included in the group, ranging from 9 to 15 years of age, was the son of Joe Dimaggio of baseball fame.

IMPROVEMENTS

The county bladed the approach road on February 26.

A new entrance sign was installed on February 23.

Boxed archeological material was moved to dead storage space in the loft above the women's rest room.

Plumbing in the office sink was improved, the drainboard repaired, sanded and given two coats of drainboard enamel.

VISUAL AIDS

During the month we received from the Naturalist Division a set of 46 projection slides covering areas in Region Three which will form the basis of a slide library for the monument.

SPECIAL TALKS

Using the above-mentioned slides, the Superintendent entertained the Camp Verde Lions Club, 25 strong, on the night of March 21.

COOPERATION WITH CIVIC GROUP

A sign bearing the caption "Boy Scout Grand Canyon Council Headquarters" was routed, painted and installed in Clarkdale for the benefit of the local organization.

RESEARCH AND OBSERVATION

Mr. Richert, in company with Mr. Milton Wetherill, cooperating with the Museum of Northern Arizona, spent most of his limu days during the month in preliminary archeological surface survey of a number of sites on Coffee Creek and the Verde River. Interesting Hohokam sites are showing up along the Verde which have not previously been reported on the former Gila Pueblo or present NMA surveys. Although presence of the Hohokam in the Verde has been known for some time, greater density and wider boundaries are now indicated. It is significant to note that scored red-on-buff sherds of either Gila Butte or Snaketown Phases of the Pioneer Period, red-on-grey of the same period, and early northern intrusives are present.

Along Coffee Creek, which is part of the Oak Creek-Verde drainage, basin-shaped metates with corresponding "rocker" type manos, percussion flaked choppers and planers, snub-nose and thumb-nail scrapers, some of which show patination, are eroding out of what might be an old land surface. Fire hearths are present and pottery is absent, implying a food-gathering or hunting complex. Typologically, the material is a "dead ringer" for Chiricahua Stage of the Cochise Culture and equates with the Dry Creek Site. Unfortunately, little is known as to the culture of the early Yavapai, but if the above is not Yavapai, then it is tempting to suggest the existence of a Paleo-Indian migration route along the Verde dating before the Christian era. This conclusion must rest, of course, with the geologist or climatologists who are best equipped to analyze the factors surrounding the clayey soils and gulleys bearing these artifacts, since it is a problem of alluvial chronology.

ORPI

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Walnut Canyon National Monument
Flagstaff, Arizona

March 25, 1951

Memorandum

To: General Superintendent

From: Superintendent, Walnut Canyon

Subject: Monthly Report, March, 1951

Visitors this month 1026; travel year to date 6223.

General March came in like a lion with about sixteen inches of snow - the heaviest storm of the year. Stormy days reduced travel. There were nine days with less than ten visitors and of these, three days when there were no visitors. Considerable snow shoveling was required to keep the trails open.

Personal On March 13 Ranger Wilde reported for four days active duty in the Air Force. During this time he was processed preparatory to entering on extended active duty on March 29. Since returning from his four days active duty, Captain Wilde has been on annual leave for a visit with his parents in Utah.

Use of Monument Facilities by the Public There were 1026 visitors who came in 349 cars. Of these 877 visitors were contacted in 290 groups. Museum visitors totaled 958 in 316 parties. There were 7 picnic parties totaling 49 people. One enthusiastic group of visitors without overshoes walked around the "Island" in 16 inches of snow and said they had a wonderful time.

Maintenance and Improvements Two ash trays were made from building tile for the museum.

Trucks hauling high loads broke our telephone line twice where it crosses Highway 89. We have learned that the line is lower than the 16 feet required for a highway crossing and have made plans for raising it.

Moulding was installed on two window screens and the frames of five screens were painted.

Equipment Two surplus field telephones were received from the Forest Service in Santa Barbara, California. Enough wire has been received

from another monument so that we can place one of the phones across Walnut Canyon for use in fire control.

A siren was removed from our pick-up and transferred to Organ Pipe Cactus.

A telescope was transferred to Tonto.

Installation of our furnaces was completed on March 16 and a Project Completion Report was submitted.

Interpretation Our project to mount herbarium specimens was completed with 43 specimens mounted and folders prepared for them. Eighty-six Ethnobotany Fire Cards were prepared and the same number of common name cards. This project has been suspended pending the receipt of more cards.

National Park Service Visitors

March 3 Supt. and Mrs. Bright from Canyon de Chelly
March 10 Ranger Bob Walker from Wupatki
March 12 Supt. Bowen and family from Wupatki
March 13 Supt. and Mrs. Aubuchon from Navajo
Marhh 15 Kenneth Saunders and Harold Marsh from the Regional Office and Edwin C. Kenner from the Washington Office
March 16 John Davis and Ralph Lassiter from the Regional Office
March 16 Ranger Ray Schaffner and family from Petrified Forest
March 17 Ranger Bob Viklund from Tonto

Newsworthy Visitors

March 20 Prof. Deaver and his botany class from Arizona State College, Flagstaff
March 23 Harold T. Tyak from the Bureau of L and Management

March 24, 1951

Memorandum

To: General Superintendent

From: Superintendent

Subject: Superintendent's Monthly Narrative, Report No. 1m1

MARCH TRAVEL, 1951 — TRAVEL YEAR TO DATE

Visitors, 9,670 Cars, 2,508 — Visitors, 54,481 Cars, 14,088

GENERAL

For the second consecutive month we show a slight decrease in visitors. The weather, on the whole, has been very good. So good, in fact, that I think if we had a means to allow for early and late visitors we would pass even last year's mark. Little wind for this time of the year has made the entire month very pleasant. The high temperature for March was 80° on the 3-1-51 and the low was 21° on the 2-22-51. Ranger Chittum made one trip to El Paso for supplies and materials.

INSPECTIONS

In company with General Superintendent Davis and Regional Engineer Lassiter, a trip was made to Dog Canyon to inspect the area as well as check on the flow of water. It was found to be quite low, but even the low ebb would be ample for our needs for many years to come. Inspections were also made of various phases of our area, primarily the utility area and picnic area.

PUBLICITY

Our Play Day and Fourth of July events always get a lot of publicity this time of the year.

The local radio station is giving local points of interest a plug on each announcement, for instance, "Radio Station K. A. L. G, the Home of the White Sands", or "Lincoln National Forest", etc., and several times a day the White Sands is called to the attention of the radio audience.

The Southern Pacific and Rock Island & Pacific Railroad Co. had some tourist and department heads in, with some cameramen, for pictures. With Joan Davis as a very capable model, some excellent pictures were obtained. We appreciate Mrs. Davis' cooperation in helping out in this way, and, sooner or later, Paramount or M. G. M. will realize her abilities and we will have to find another model for our photographic friends.

COMPLAINTS

No complaints from the public have been received in either the Service or the Public Services Operator.

MAINTENANCE

Slowly, oh, so slowly, we are getting many of our goals accomplished. This month we have put up a barrier in front of the Men's rest-room to keep youngsters from running directly into the roadway, which has always been the case. We have also added another entranceway to the Ladies rest-room, which will also add a major safety feature to our public use area, as well as supply a much shorter pathway from the Concession to the Ladies room.

We are making headway, also, on our mud plastering, and it is showing up very well. Of course, it will require attention from time to time, but will look very nice and we cannot hope to do much with cement with the allotments we have. Joe is also keeping up with his roads and trails and we are slowly fixing up the parking area adjacent to the Concession area, along with our headquarters area trails.

Picnic tables are still being repaired as we can get to them. I spoke last month of getting our highway signs fixed up and repainted for the summer travel season and we have about decided it doesn't pay. At any rate, two entrance marker signs, of the smaller type, were found missing after all our work. It seems old signs do not have the attraction of a pretty, newly-painted sign.

INCREASE & DECREASE IN TRAVEL

Five hundred less people, officially, this month than last March, but, as you near the ten-thousand-visitor-per-month point, 500 is hardly noticeable, one way or the other. One cold Sunday could sway the total one way or the other by that figure.

VISITORS

John M. Davis, General Superintendent, SE National Monuments
Ralph Lassiter, Regional Engineer, Region Three
Mr. Lewis, Big Bend National Park Concessions
Walter S. Young, Rock Island Railroad, Chicago, Illinois
Ray White, Rock Island Railroad, El Paso, Texas

We are happy to have had these visitors and are looking forward to many more for Play Day and April.

Johnwill Faris,
Superintendent.

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Wupatki National Monument
Flagstaff, Arizona

March 25, 1951

To: General Superintendent

From: Superintendent, Wupatki

Subject: Monthly Narrative Report - Wupatki and Sunset Crater National Monuments

Weather: Dry weather continues with no precipitation recorded during the month. Sunset Crater had a little snow the first part of the month. The loop road to Wupatki was cleared of snow March 11 and opened to traffic. A maximum temperature of 74 degrees was recorded on March 15 with a minimum of 16 degrees on March 4. The rain gauges over the area were read on Feb. 28 and data sent to the Museum of Northern Arizona.

Monument Roads: The road from Sunset Crater to Wupatki is being bladed with a few more days of work to put the road in fairly good condition. The grader was given a complete overhaul in the Forest Service shop in Flagstaff the first of the month. The dump truck is at present in the shop for overhaul and when it is returned work will start on claying bad sections of cinders near Sunset Crater.

Interpretive Services: With the Easter holidays coming early this year we had a sudden rush of visitors using the interpretive devices and taking the ruin trail. At Wupatki 262 visitors in 76 parties were contacted for an average of 24 minutes and a total of 30 hours.

Travel: Travel figures showed a decrease for the time around the first of the month and increased rapidly over Easter but we still end the month with a slight decrease over March 1950.

	Wupatki		Sunset Crater

ORPT

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO MINE AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT EXCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE MATTER, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM WILL NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR FURNISHED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLACE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHALL NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE WILL RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND OF REMAINING STOCK.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN COPIES IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DUE BY 5TH OF EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REVISED MAY 1945.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETIVE WORK. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATION OR OFFICER DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE MATERIAL, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHALL NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REVISED MAY 1948.

NAME A. T. Hicknall
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATIVE, "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA, "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATION OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE EXHIBITS, PORTABLE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PLANNED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND SERVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND SERVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY WILL NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; NAME; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND OF WHAT.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN OFFICIAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DUE NOT LATER THAN EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8H3) AND 9 (REPORT 9H3).

NAME Carl E. Sampson
TITLE Acting Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC HERE: OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATION, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OCCURRING IN THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE MATERIALS, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PARTICIPATED IN BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES ARE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. FILL IN TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHALL NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR [illegible] THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: (FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL FOR AREA FILES.) NAME Irving McNeil, Jr.
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, MUSEUM ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FROM WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE MEDIA, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. FOOT TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHALL NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATES; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND OF HAND IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

tendent on annual leave 6 days.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical Aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.). count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF THE INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, Geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: Is an accurate explanation of the many manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service Areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Submit due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

NAME John O. Crane
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR WALKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON SIDE 3. BE SPECIFIC WHEN OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OBTAINED IN THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE MATERIAL, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. ALSO TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHALL NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE WILL RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND OR GIVEN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN CARBON IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DUE THE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REVISED MAY 1949.

NAME
TITLE Superintendent

REVISED MAY 1941.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE SERVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATION OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE MATERIAL, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM MAY NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. FOOT TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY MUST NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE WILL RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND OR USED.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

NAME J. W. Brewer
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EXHIBIT OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE MATERIAL, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PERFORMED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 - RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DUE BY 5TH EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9m3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and trails, Motel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: Is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside readers, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services." Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Reports are due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8a3) and 9 (Report 9a3).

NAME Frederick R. Bruce
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OCCURRING IN THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM WILL NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PARTICIPATED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. FOOT TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHALL NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M1).

April 26 1951

Memorandum:

To: General Superintendent

From: Superintendent Arches

Subject: Narrative Report for Month of April, 1951

Weather: We recieved two welcome rain storms this month in which ½ inch of percipitation fell.
It gave us a chance to grade all monument roads.

Travel: A 74% increase over the same period last year was noted ; of the 2270 visitors for the month 990 arrived on Easter Sunday.

Interpretive Services: Contacts of 920 people was made with a total time of 65 hours.
Nineteen guided tours were made with an attendance of 210 people.

Special Activities: Easter Services were held at the Window Section of the monument with 250 people in attendance.

Monument Roads: As of April 20th all road equipment operations ceased due to lack of funds.

Approach Roads: Utah State Highway Maintenance crew bladed route # 93 twice this month; however due to lack of moisture the results were very poor.

NPS Visitors: Ranger & Mrs. HF. Uhte of Yosemite National Park
Chief Ranger, & Mrs L.W. Hallock Crater Lake National Park
Ranger & Mrs Ray Dobbins Colo, National Monument
Superintendent Rose Mesa Verde National Park

Local Activities: Road is under construction down the Colorado River to the oil well and being built by the Americol Petroleum Co; seven or eight miles is completed.

AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

24 April 1951

Memorandum

To: General Superintendent

From: Superintendent Aztec Ruins

Subject: Superintendent's Monthly Narrative Report 1m1

Weather: For April, the weather has been windy and chilly, altho a number of nice warm days have kept our visitors coming with an increase over March of 30%. The nites have been cold, generally below freezing, and we have enjoyed a few lite rain storms.

INSPECTIONS: On the 17th, Architect Ken Saunders inspected the residence at Site #3, which was covered by his report of the 18th.

MAINTENANCE: Ruins stabilization work has been going on since the 2nd of April with a crew of 9 men under the direction of Raymond Rixey, Archeologist Aide. Capping of deteriorated wall tops in the NE corner of the ruin, and excavation of the south wall is well under way.

INTERPRETIVE SERVICE: There were 644 visitors in 131 parties conducted thru the ruins and 1078 visitors in 360 parties shown thru the museum.

RESEARCH*OBSERVATION: Numerous transient arrivals of birds are noted with nesting activities going on. Capt. and Mrs. R. Rigg USCGS, Ft Worth were in the 22nd taking movies of birds in flight.

INCREASE IN TRAVEL: We are 6% ahead of April last year with 1078 visitors in 354 cars from 32 states and Wash. D.C.

VISITORS: On the 26th, A F Houston, Supt Craters of the moon; on the same day, F E Minnigter, Supply and Credit, Wash D.C. April 20, Harold Ratcliff Region Three and L W Hallock Crater Lake, Oregon visited. April 21, Supt. Robt Rose, Mesa Verde dropped in and Mr. H. Griffin and Family, USIS, Shiprock Agency visited.

BUILDING FIRE PROTECTION: All soda acid fire extinguishers have been refilled in the Museum Building and residential structures.

Irving L. Townsend
Superintendent

NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

April 30, 1951

Memorandum

To: General Superintendent

From: Superintendent, Bandelier

Subject: Narrative Report for April, 1951

Weather

The weather has been generally unsettled during most of the month and a total of .83 inches of moisture was received on four days. The last of the month was characterized by partly cloudy days and high winds.

Temperatures fluctuated considerably between a low of 14 degrees on the 11th and a high of 78 on the 14th.

Special Activities

The Superintendent and Regional Forester Carlson attended a meeting with Forest Service supervisors on March 29 to discuss the protection of wild lands around Los Alamos as part of the Civil Defense program. Preliminary estimates were made in order to have a basis for requesting funds should any become available under the Civil Defense program.

Inspections

Regional Administrative Officer Castellum brought Mr. Edwards, Department of the Interior personnel division, for an inspection of the area on April 26 following a short tour of Los Alamos. The duties and methods of appointing various personnel in small areas were discussed.

APR 1951

UNITED STATES SAVINGS BONDS

OPD-

Personnel

Mr. Fred W. Quesenberry, Jr., Clerk, CS-4, at this area received notice of his transfer and promotion to Administrative Aid at Petrified Forest. The transfer will effected early in May. Our best wishes for success and happiness in their new assignment go with the Quesenberry's.

Ranger and Mrs. Jack Turney are the proud parents of a new daughter, Elizabeth Ann, who was born April 20.

Maintenance

The installation of the new dishwashing machine and rearrangement of part of the Lodge kitchen were completed prior to the opening of the Lodge the last of the month.

The lobby of the museum was stained and given two coats of varnish which improved its appearance considerably.

A new telephone cable was installed to the residences for the local phone system after the old cable became unserviceable.

The kitchen of residence 1 was painted and also the portal in back of the museum lobby.

Roads and Trails

Some additional volcanic ash was hauled on the road between the checking station and the end of the paving in preparation for oiling. Prices were obtained on the oil and a distributor and everything is ready as soon as final approval is given to the job.

Holes and sharp edges in the walks and flagstone patios were filled with cement to improve their safety.

Concessioner

Frijoles Canyon Lodge was opened for the season on April 28 and the saddle horses will be in between the first and fifteenth of May. This years rates have not yet been approved and it was necessary to open with those that were in effect last year.

Interpretive Service

There were 1312 visitors conducted through the ruins on 109 tours this month.

The Superintendent gave a talk on the "National Park Service in New Mexico" to 36 members of the Lions Club at Los Alamos, New Mexico on the 5th.

The cement casts of the Stone Lions that were prepared last fall were mounted in the patio of the museum. An attempt is being made at a reconstruction drawing of the lions to be exhibited with them to show how they may have looked four or five hundred years ago.

Travel

The unsettled weather, particularly on week ends, caused a decrease in travel this month from 3030 last year to 2580 this year. Indications are that travel will continue to increase as soon as the weather becomes more pleasant.

Visitors

Mr. and Mrs. Zerby; the parents of Ranger Zerby of Saguaro National Monument, were visitors on the 5th.

Dr. C. W. Goff, professor of physical anthropology at Yale University, paid us a visit on the 7th.

Forest Fire Control

A refresher fire control training session was held for all employees on the 9th. Another fire school will be held in June after the temporary rangers and Lodge employees are on duty.

Fred W. Binnewies
Superintendent

Canyon de Chelly National Monument
Chinle, Arizona

April 26, 1951

Memorandum

To: General Superintendent

From: Superintendent, Canyon de Chelly

Subject: Monthly Narrative Report for April, 1951

Visitor Travel: April travel was somewhat lower than for the same period last year. The current travel year, however, is running considerably over 1950. 235 people in 77 cars this month. 41 hours and 55 minutes were spent in guide and contact work. Since campground facilities have been improved there is a very definite increase in overnight campers.

Weather: Outside of two or three windy days the weather has been unusually mild. A total of .85 of an inch of rain fell during the month which helped materially. Temperatures ranged from a high of 79 on the 23rd to a low of 19 on the 11th.

Project Programs: Alterations to the Superintendent's Residence is nearing completion. All exterior covering was removed from the entire upper part of the building and two badly disintegrated walls. Total area of over 1000 square feet. Rabbit wire was firmly secured onto the old adobe and coatings of cement, lime and paint added according to specifications. This portion of the building will hold for many years to come. Lack of funds prevented the completion of the entire exterior structure.

The kitchen was stripped completely down to the bare adobe walls, and, metal lath with coatings of cement and lime mixtures and a final covering of plaster added. All new wall and base cabinets and sink, all metal, were installed including a new refigerator. This now adds a very attractive unit to the quarters. Linoleum and asphalt tile will be laid as soon the necessary basic material can be obtained.

Canyon de Chelly Water Shed Soil & Moisture Program will be completed upon receipt of 14,000 pounds of wire from the General Services Administration.

Due to recent rains we were able to do considerable grader work on the roads. Also, several loads of material were hauled for surfacing the roads and trails. This work will continue on into next month.

Materials are being obtained for the construction of a new register and publications display case and new informational signs.

Capulin [illegible]

Capulin New Mexico

April 30, 51

Memorandum

To: The General Superintendent
Southwestern National Monuments
National Park Service
Santa Fe, New Mexico

From: Superintendent Homer J. Farr

Subject: Monthly narrative report, April 28, 1951

Visitors: About seven hundred fifty people have visited the Monument during the month of April, making a total of five thousand eight hundred fifty during the travel year and twenty five thousand fifty for the fiscal year to date.

Weather: The usual bad cloudy weather for this time of year, having had three light snows with a total snowfall of about eight inches, with .75 inches of precipitation.

Flora and Fauna: I note in last month's report that I did not mention the porcupines, and I never want to slight those rascals so I'm saying now: we still have too many. I have not seen any deer this month but see their tracks where at night they play in the road.

Road and Trails; Roads have been maintained constantly and all thru the month has been in good condition,

Special visitors; One of our naturalists, Leslie Arnsburger and Bill Bowen was two mighty welcome boys to the Monument this month, We three went over the rim trail carefully and Leslie took some very good pictures preparatory to our new crater rim trail booklet, which we hope to be able to place in circulation by the middle of next month,

Information pamphlets; approximately twenty Capulin pamphlets have been mailed out upon request and about 100 handed to visitors, This spring we have had much more requests in the mail for literature about the Monument this may be the forerunner of heavier traffic this summer,

Superintendent,

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

April 25, 1951

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Casa Grande National Monument

Subject: Monthly Narrative Report for April, 1951.

General: "Spring is busting out all over" in the Gila Valley; cactii and wildflowers are blooming, and the desert is a riot of color; however, due to the very dry condition of the country, it is not as beautiful as it has been in past years.

The drouth situation continues to be the main topic of conversation throughout Arizona. A great number of cattlemen and sheepmen are shipping their livestock to Kansas and Wyoming because of the water shortage and feed problem (which all means that it will be a few more years before we can afford a small steak for dinner). Time and Newsweek magazines carried articles about the Arizona drouth in their April issues.

Everything happens to us. On March 26, this area was visited by the Public Lands Subcommittee on Interior and Insular Affairs. The committee was in Arizona to study the problem of Arizona's share of the Colorado River water -- an especially important problem because of the drouth -- and to make the authorization of the Arizona Central Valley Project. As the Superintendent was conducting the group (Senators, Representatives, and other visiting V.I.P.'s) through the "ruins", we had one of those freak rain storms that sometimes hits this country. Although only one tenth of one inch of rain fell, it all happened while the party was in Compound A, and it was enough rain to give the whole party the appearance of wearing unpressed clothes. Also, the photographer from Life magazine took a picture of one of the bitter opponents of the Colorado-River-Water-for-Arizona, a California Senator, with rain dripping off his hat.

APR 1951
RECEIVED

Office

Weather: The month of April has brought ideal spring weather with daytime temperatures that range in the [illegible] and nice cool nights. There is however, the hint of summer in the air, and

everyone is either busy installing their cooler or making the necessary repairs and clean-up prior to installing their cooler.

Mr. Louis R. Jurwitz, Section Director of U.S. Weather Bureau at Phoenix, visited the monument March 26 for a routine check of our weather station. He found everything in good order except for a brand new sage green paint job which we had put on to keep the wood from weathering away. (They are going to send up some white paint to standardize things.)

Highest Maximum temperature this month	96°
Lowest Minimum temperature this month	35°
Total amount of rainfall this month	.82"

Visitors: The travel is starting to slow up; however, it is still heavier than last year for the same month. As usual we had visitors from every state and territory except one; this month we had no visitors from Maine. We had foreign visitors from Denmark, Sweden, Norway, France, and Great Britain. This is the best month that we have ever had with servicemen-- we had 22 of them.

	1951	1950
Visitors during April	4,088	3,809
Increase	279	
Visitors for Travel Year	28,579	26,035
Increase	2,544	
Servicemen in April	22	

Interpretive Service: A total of 2,574 people made the trip to the "ruins" in 212 groups, averaging 53.0 minutes per trip. There were 1714 visitors who made only a brief stop and did not see the "ruins"; we estimate that 70% of this group did see the museum.

Visitors of Note and Special Groups:

March 28, 1951 -- Congressional Subcommittee on Public Lands-- Interior and Insular Affairs-- for a trip to the "ruins" and one of our unusual rain storms.

Miss. C. Mallett, Executive Secretary of the Museum of Northern Arizona, for a ruins visit.

APR 10 1951

Office

Mr. Louis R. Jurwitz, Section Director of the U.S. Weather Bureau at Phoenix, for a routine check of weather instruments.

March 29, 1951 -- Naturalist and Mrs. Harry C. Parker and family from Yosemite National Park for a "ruins" tour and a visit.

12 members of the Northwestern Mutual Life Insurance Convention and wives for a "ruins" visit as a side-light on their convention.

April 4, 1951 -- 38 6th graders from the Stanfield School, Stanfield, Arizona for a "ruins" and museum visit, plus a picnic lunch.

April 5, 1951 -- 29 7th graders from the Stanfield School, Stanfield Arizona for a "ruins" and museum visit.

April 6, 1951 -- 40 6th and 7th graders from Toltec District School, near Eloy, Arizona, for the "ruins" and museum trip.

April 14, 1951 -- 12 Girl Scouts from Troop 2, Coolidge, Arizona, for a "ruins" and museum trip, plus a weiner roast.

April 22, 1951 -- Dick Shubler of the Museum of Anthropology, University of California, Berkeley, California, for a museum and "ruins" visit.

Mr. Woody Spires, a former temporary Ranger here at Casa Grande, to look things over and talk about the "old days" at Casa Grande with the Superintendent.

April 23, 1951 -- Superintendent "Jimmy" Brewer and Mrs. Brewer from Tuzigoot National Monument for a quick "hello" to everyone on the monument.

Administration and Protection: There were twelve requests for information this month; all were answered the same day that they were received. The usual visit was made to the Adamsville site and everything was found to be in good order.

APR 1951
RECEIVED
National Park Service
Region Three
Office

Personnel: Ranger James N. Clancy was on sick leave from April 6 to 16; he returned to duty on April 17 while still under the doctor's care. It would seem that he has a recurrence from an old injury which bothered his hip and right leg; the old injury goes back to his service when at Zion National Park. Even though it meant some doubling up for those on duty, we glad to report that "Jim" seems to be coming along fine now.

Maintenance: Twenty-three feet of four inch pipe and a new sucker rod were added to the well, we are now pumping from the 165 foot level. This is the last time that the present well can be lowered; from now on it will be a question of keeping our fingers crossed and living right.

The Maintenanceman was busy with the usual cleanup and normal maintenance work. The museum coolers which were cleaned and overhauled last winter were installed, and the heating stoves and fuel oil barrels were stored for the summer.

Wildlife: A male Arizona Hooded Oriole was seen by the Superintendent and the Ranger on April 23; it was perched on the Ocotillo by the museum, and the brillant yellow-and-black bird among the flaming scarlet Ocotillo made quite and impressive sight. This is the first time that this bird has been offically observed in this area.

Wildflowers and Cactii: The Hedgehog cactus and the Ocotillo, in front of the museum, have done their usual good job of giving the visitor a spectacular sight and a "easy" chance to get photographs. The Palo Verde and the Creosote are in full bloom and the Squawberry bush has decided to live up to its name and it now has borries on it.

NATIONAL PARK SERVICE

Chaco Canyon National Monument
Bloomfield, New Mexico

April 25, 1951

Memorandum

To: General Superintendent

From: Superintendent, Chaco Canyon

Subject: Report of Activities at Chaco Canyon National Monument during the Month of April, 1951

Weather Conditions

Extremely dry and windy weather has prevailed thruout the month with a few light, sporadic showers which brought a total of .35 inches of moisture for the month. On April 9 one of the worst dust storms recorded in recent years occurred. Temporatures were about normal with a Maximum of 78 degrees and a minimum of 15.

Administration

One trip was made to Farmington, New Mexico to confer with Architect Saunders on matters concerning the construction of new quarters. Regular administrative work has been kept fairly current and considerable time has been spent digging data for requests and reports from our files.

Mr. Jack Williams of Alamosa, Colorado was appointed to fill the WAE guide position and reported for duty on March 29.

Inspection trips were made to all of the outlying ruins except Pueblo Pintado.

Maintenance

Roads and trails maintenance has been carried on and the drainage on the big hill cleaned and deepened in spots. 14 new directional and traffic control signs have been constructed and four installed. Some new wrinkles were initiated in their construction and will be the subject of a later report. Considerable time and effort has been expended in cleanup of grounds and buildings along with minor repair of buildings and equipment. The high winds littered the area with tumble weeds and other trash. In spots sand dunes were built up a foot or two high.

Soil and Moisture

On April 2 a trip was made to Bernalillo to pick up 15,000 Peach-leaf willows. A crew of six Navaho laborers have completed the planting of these and installed one cable and tree jetty near the old CCC well. Common willow cuttings have been made and also used to supplement the other plantings in some strategic spots.

Travel

Road conditions are better than they have been for some time and a considerable increase in travel over previous periods is shown. Travel year to date shows an increase of 191 visitors over 1950.

Interpretive Services

With the establishment and filling of the WAE guide position better service has been rendered our visitors. 33 parties totalling 146 people were conducted thru the ruins. Orientation and Museum contacts totaled 136. Time spent by the guide and Superintendent in interpretive work totalled 54 hours.

Visitors

Dr. and Mrs. Thomas B. Noble Jr., of Indianapolis, Indiana.
Mr. and Mrs. Fred S. Gurley and party of the A.T.& S.F. Railway.
Mr. J. Mangles Brown, Director of Roads,etc. Office of Indian Affairs, Washington D.C.
Mr. Herold Johnson, Navajo Agency Road Supervisor
A.H. Sandbright, also of the Indian Service.

N.P.S. Officials

General Superintendent John M. Davis, Regional Engineer Lassiter, and Engineer Conn, April 23.

Approach Roads

The State highway Department has moved their equipment and evidently have completed their work on the north approach road for the present.

Mobile Unit.

Archeologist Aid Rixey has moved his crew and family to Aztec Ruins where stabilization work will continue.

NATIONAL PARK SERVICE
Chiricahua National Monument
Dos Cabezas, Arizona

April 25, 1951

Memorandum

To: General Superintendent

From: Superintendent, Chiricahua

Subject: Monthly Narrative Report

Following is a report of activities at Chiricahua for the month of April:

General. The Superintendent took three days sick leave, followed by five days annual leave, March 26 to April 4. During the annual leave he made a trip to Carlsbad Caverns to renew old acquaintances.

Weather Conditions. Weather has remained quite good with the usual spring winds. We have had three rainy spells since last report which slowed down travel some. 1.47 inches of rain has fallen since the last narrative report.

Maintenance. The Portal telephone line is being brushed out and repaired as time allows.

Approaches to Monument. Approach roads are all in about their average condition. The mountain road from Rodeo to the Monument has been passable for over a month.

Cooperating Governmental Agencies. Two changes have taken place in the personnel of the Coronado National Forest. Forest Supervisor Parker has been transferred to Santa Fe, and Supervisor Wood has taken his place on the Coronado. Ranger Ehel Nave, whose District surrounds this Monument on three sides, is transferring to a forest in New Mexico and is being replaced by a Ranger Urban Post. Supervisor Wood has called at the Monument

RECEIVED APR 1951 National Park Service Region Three Office

and we hope to get acquainted with the new Ranger soon in order to continue our fire control cooperation.

Interpretive Service. 1250 visitors in 352 parties were contacted in the museum this month. 4 conducted hikes were taken with a total of 23 visitors and a total of 15 hours time. 1 lantern slide lecture was given in the museum to 10 visitors.

Travel. Travel dropped to 1403 as compared with 1575 for March and 1618 for April of last year. This leaves us about 6% behind last year, at this time. We are unable to account for all of this loss but hope for better luck for the rest of the year. Camper use continues to be heavy with 318 visitor days recorded for April as compared to 237 for the same month of 1950. This month brought 68 visitor days to the two neighboring guest ranches which is 47 more than April of last year.

Forest Fire Protection. Some Ranger time was given this month to the inspection of fire equipment.

On the 15th, a fire broke out on the lands of a neighbor of Chiricahua, Mr. Ellerby Riggs. Ranger Gaynard went to the scene and assisted in the control of the fire which burned over 200 acres of range land. Seven and one-half hours of Ranger time were thus donated, but in view of the necessity for maintaining a high degree of cooperation along our boundaries we considered it well spent. Mr. Riggs was most appreciative and we are certain of his cooperation in any fire suppression problem that may arise on the Monument.

Clair V. Cooke
Superintendent.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
El Morro National Monument
El Morro, New Mexico
April 25, 1951

Memorandum

To: General Superintendent

From: Superintendent, El Morro

Subject: Monthly Narrative Report

This month, there were 309 visitors who came in 115 automobiles. The weather, we believe, has resulted in the first drop in visitors in 9 months. There were 357 a year ago this month. There were only 31 guided trips. 54 persons went over the mesa top in 7 parties.

The weather has been cold, very windy and there have been several rains and snows. The warmest was 74 degrees and the coolest was 14 degrees Fahrenheit. There was .95 of an inch of moisture. The pool is still very low.

Thanks to our friend the technician, the radio is now back in condition. We have it beamed to the Regional Office and can usually hear them very well, but we can hear very few other stations. The Regional Office reports that they can usually hear us very well.

Yesterday, two ladies came out in a brand new car and took a tour around the Rock. When they were about to get back in the car, they discovered that they had locked the keys in it. The superintendent, after considerable effort, managed to get the car open without breaking a glass. They were two tickled people.

While we were gone, Cal Clawson worked on the concrete tables and fireplaces. He has them nearly all poured and today is working on a winch for the truck in order to move them into position.

The superintendent was gone 23 days on annual leave. During the trip which he took, he went by Cincinnati purposely and only to get measured for a uniform. He finally found the

street on which the uniform company is located. He decided to park the block before he reached the building, but found signs reading "No Parking between 9:00 a.m. and 5:00 p.m.". He decided to go on to the next block where the building, in which the uniform company has the 6th and 7th floors, was located. However, upon reaching that block, there were signs reading "No parking day or night". He looked across a very wide street and saw no parking places, so decided to go around the corner of the building to the right and park. He went around the corner, but found himself on a long bridge (the air was beginning to turn a little blue!). After crossing the bridge, he found himself on a turnpike with cars whizzing by in both directions and he could not turn to the right without falling into the river nor to the left because of a high embankment (the air was beginning to turn purple by this time). After going a mile or so on the turnpike, he found a turn-off to the left. He took this and went up a long steep hill and turned to the left, thus facing him towards his destination. At that point he turned to his wife and said "Now, we will probably go through a park with no cross streets" which happend almost im-ediately!!! At last, he did get to the uniform company and get his measurements taken. Also on the trip, stopped by Hot Springs National Park, Fort Donelson and others and to see Cal Miller at Mamroth Cave and Perry Brown at Platt National Park.

Irving McNeil, Jr.

Irving McNeil, Jr.
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
GREAT SAND DUNES NATIONAL MONUMENT
Alamosa, Colorado

April 25, 1951

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Great Sand Dunes

Subject: Superintendent's Narrative Report for April, 1951

Weather Conditions

Very poor for visitors but much improved for the country was the weather story for April. Persistent cold and windy weather on weekends held travel down considerably but the 0.95 inch of moisture, most of which came in one very wet snow on March 8, was quite welcome. Total moisture for the winter is still below normal throughout the mountains, however. The maximum for the month was 88 on April 23 and the minimum was 0 on April 11.

General Publicity

A picture of the Great Sand Dunes appeared in the March 10 edition of France Illustration. This is a Life-type, French picture publication.

Rehabilitation

The asphalt tile for the residence floors was finally received and has been installed in one bedroom. Paint has been removed preparatory to installation in the dining room and part of the front room. I expect to lay the tile in these rooms during May. Asphalt cove base for these rooms has not yet been received as the order could not be made until actual color of the tile was determined after its receipt.

Maintenance

The comfort stations at the checking station were opened up and water was brought into them and to the drinking fountain to the north of the checking station.

Estimates were made for the plumbing work on the expandable

trailer and materials were ordered last week. The job will be started this next week. We were particularly happy to receive the extra allotment of $200 for this work as the cost was almost twice that of my prior estimates.

The entrance road was graded twice and more cleanup along the roadside and particularly around the culverts was done incidentally with other jobs.

Approach Roads

Spring thaws did not affect the approach road to any great extent and it remains in good shape for that type of road.

Concessioner

Mr. A. W. Graves of Monte Vista, who has the horse concession, was here twice during the month getting ready for the summer activity. He plans to bring his horses in on May 15, the same as in previous years.

Co-operating Governmental Agencies

One trip was made to Monte Vista to talk with the Forest Service officials about the coming fire season and correspondence carried on with District Ranger Van Doren at Gardner concerning his fire organization plans for this year.

The Colorado State Historical Society has placed the Great Sand Dunes on their mailing list for the Colorado Magazine on an exchange basis.

Interpretive Services

Three talks outside the monument were given during the month as listed below.

The first was given to 23 members of the Costilla County Rotary Club at Blanca, Colorado on March 4. The subject was "History and Development of the National Park Service".

The second was given to 11 members of the Future Teachers of America organization of Adams State College at Alamosa, Colorado on March 5. The subject was "Desert Plants" illustrated by slides from Organ Pipe Cactus National Monument.

The third was given to 44 members of the Hooper Parent Teachers Association at Hooper, Colorado on March 23. The subject was "National Parks Wildlife" illustrated by the 16 mm. movie from the Region Three office.

APR 1951 RECEIVED National Park Service Region Three Office

Research and Observation

The snow on April 6 finally brought the deer down to lower elevations and a number of tracks have been seen just east of the checking station. A well gnawed deer carcass, death probably due to natural causes, was found in the canyon above Mosca Spring.

A Guide to Some Colorado Spiders was sent us for the library by the SWNM naturalists.

The first wood tick of the season was observed on April 21. Visitors are being warned to watch out for them.

Decrease in Travel

The 710 visitors during April were 273 less than were recorded in April of 1950. Cold and windy weekends contributed materially to the decrease.

Protection

A would-be wood hauler from Alamosa was intercepted on April 8 before he even had a chance to collect his load. The regulations were explained to him but no further action was taken.

Building Fire Protection

The annual inspection of fire hazards and an examination of fire extinguishers were made on April 23.

General

The San Luis Valley has become quite excited this month due to "wild-cat" oil drilling. Two different wells are being drilled at the present time, one in the vicinity of Hooper and another near Saguache. Prospects are considered to be quite favorable according to the newspaper accounts of the enterprise. ¿Quien sabe?

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Gran Quivira National Monument,
Gran Quivira, New Mexico

April 25, 1951

Memorandum

To: General Superintendent

From: Superintendent, Gran Quivira

Subject: Monthly Narrative Report for April 1951

General. The Torrance County Singing Convention held it's annual get together at the village of Gran Quivira on April 22. About 150 people attended the day long festivities enjoying themselves by singing hymns, eating barbecue, and visiting in the visinity.

Weather. This has been a warm but windy month. Temperatures have been very pleasant but extremely high winds have prevailed. Rain totalling .70 of an inch fell at headquarters with heavier rains reported both south and east of the monument.

NPS Visitors and Inspections. Erik Reed, Dale King, and Paul Balch on March 29 on excavation, interpretation, and soil conservation problems.

Jack Diehl, Region 3, for a short visit on April 12.

Regional Director Tillotson stopped in on April 5 for a brief inspection and visit.

Visitors. Major Tom Onstott and wife, formerly of Aztec Ruins National Monument, on the 7th.

Maintenance and Rehabilitation. The utilities project was completed during the month. A deep well rig was contracted to pull the 875' of drop pipe; pipe was cleaned out and new sucker rod replacements made. It is hoped that with the completion of this project no new troubles will arise for another ten years.

Ruins Stabilization. Archeologist Vivian and his crew continued work on the stabilization of San Buenaventura mission throughout the month. Walls are being thoroughly stabilized and drainage for the interior has been partially completed.

Excavation. Cleanout of the small Indian house mound directly south of San Isidro mission was begun during the month with

APR 1951
RECEIVED
National Park Service
Region Three
Office

a local work crew of six men. Approximately 25 rooms have been exposed and an abundance of material has been uncovered. Acting Archeologist Francis Elmore has been working with Mr. Vivian the past 10 days cataloguing material and aiding in the dig.

Special Activities. Mr. Elmore addressed the Rotary Club at Mountainair on April 19. His 20 minute illustrated lecture, "National Monuments of New Mexico", was well received by the Club's 55 members.

Travel. Another travel increase is reported for this month. 333 persons in 88 cars visited, in comparison to 202 for April of 1950. Sunday, April 22, was the monuments heaviest travel day with 99 persons recorded visiting the museum and viewing the mission.

Interpretive Services. 88 percent of all visitors to the area were contacted this month. 54 parties of 277 people were conducted through the ruins for an average of 38 minutes per party. 22 parties of 56 persons used the self guiding pamphlet.

It has been interesting to note that much of the travel the last month or two has been people living within a radius of 75 miles of the monument. The recent excavation and ruins stabilization project seems to have revived local interest.

Personnel. The Superintendent took annual leave from April 16 to 23.

Six laborers were employed this month. Two of the six terminated their employment before the month ended.

Roy B. Ringenbach,
Superintendent

NATIONAL PARK SERVICE

Montezuma Castle National Monument
Camp Verde, Arizona

April 26, 1951

Memorandum

To: General Superintendent

From: Superintendent, Montezuma Castle

Subject: Monthly narrative report, April 1951

Weather: As usual it has been good. Maximum temperatures are averaging in the mid 80's while minimum temperatures remain in the 40's. Showers throughout the month have given the area a total of 1.26 inches of rain. The maximum precipitation was recorded on April 19 when .52 inches of rain fell.

Travel: Travel remained steady throughout the month. Visitors numbering 3,231 in 949 cars visited the Castle, and 1,046 people in 305 cars saw the Well. This makes a total of 4,277 people and 1,252 cars to this area as compared to 5,061 people for April of last year. Decrease in visitors may be attributed to the fact that Easter vacation week occurred during the month of April last year.

Interpretation: During this report period, 930 people were conducted on 166 trips through the Castle. Approximately 2,500 visitors used the Sycamore trail and 3,000 saw the museum. At the Well, 254 people visited the museum and 1,046 hiked the Loop trail.

New number stakes constructed last winter by Archaeologist White were placed along both the Montezuma Well Loop trail and the Sycamore trail.

As guest of the Cottonwood and Camp Verde Lions Clubs, Assistant Superintendent Garrison of Grand Canyon gave a very interesting and educational talk on the value of National Park Service areas to adjacent communities. This dinner meeting represented Charter night for both clubs and was held at Camp Verde. Over a hundred Valley folks attended.

Visitors: On April 4, Chief Electrician Joe Gaustad from Grand Canyon.

On April 7, Assistant Superintendent and Mrs. Garrison from Grand Canyon.

On April 7, 100 Catholic Youths from Flagstaff, Arizona.

APR 1951 RECEIVED National Park Service Region Three Office

On April 17, 40 students from Kingman high school, Arizona.

Construction & Maintenance: A number of needed maintenance jobs were accomplished during the month. The wire fence adjacent to the public picnic area was moved back a short distance from the creek bank. Two gates were installed in this fence so that visitors can reach the creek without climbing over or through the wires. The picnic tables were repaired and painted with a high grade oil paint.

Four hundred yards of the old south boundary fence was repaired and the lower water gap (south along Beaver Creek) again set up.

To eliminate the possibility of it breaking and injuring someone, the flagpole was taken down and shortened

The paper covering the roof to the museum building again cracked open causing a bad leak. Some damage occurred to the recently painted alcove room in the museum. Repairs have been made by installing new roofing paper over the torn area.

At the Well, the irrigation ditch which serves the residence yard was cleaned and the brush cut back to open a path along its entire length. Also, the picnic ground was given a thorough cleaning and construction of one fireplace completed.

Roads & Trails: Construction of the Montezuma Well Loop trail was completed during the month. The trail is now completely gravelled around the Well crater and has been covered with one coat of bitumuls.

Wildlife: The bats have returned to the Castle and are again causing a nuisance. The first cliff swallows were seen on April 22, and quail and doves are again abundant.

Personnel: We are happy to welcome Lloyd Pierson and family to Montezuma Castle. They arrived from Tonto on April 5, and Lloyd has since entered on duty as permanent park ranger for this area.

JOHN O. COOK

John O. Cook
Superintendent

APR 1951
RECEIVED
National Park Service
Region Three
Office

Navajo National Monument
Tonalea, Arizona

April 28,1951

Memorandum

To: General Superintendent

From: Superintendent, Navajo

Subject: Monthly Narrative Report for April 1951

Travel: There were only 111 visitors this month compared to 114 a year ago. One day we had 46 visitors which constitues a "big" day here.

Weather: April has blessed us with some nice warm days with the temperatures going to 72° on several occasions. On the other hand the monthly low was 19° and was accompanied by moderate winds that persisted for several days. The 16th through the 19th were miserable days of high wind and dust with cold temperatures. Rain and snow delivered .31 inches of moisture. Much more is needed to provide adequate grazing.

General: Some time was spent working on the water system. This water pump maintenance seems to be so continuous a task that reporting it seems a waste of time. If spare time presents itself this next month the entrance to the spring and the tunnel near the pump will be enlarged to make working on the pump more convenient.

A new section of trail was constructed at the end of Sandal Trail. It is now possible to view Betatakin from a point directly across the canyon from the ruin and not on an angle. The new trail parallels the canyon rim and loops past the previously used view point.

The Supatki scarifier has been very useful in removing the sandstone from our approach road. The stone is very soft and easily crumbles under the teeth of the ripper.

The position of the ladder at Keet Seel Ruin was changed and the ladder has been permanently anchored.

Over one half of the new garage has been insulated. Navajo has been given $860.00 to complete the bedroom and garage addition. Some plumbing supplies were picked up at Grand Canyon to be used on this project and also in the ranger's hogan.

NPS Visitors: Ranger Louis G. Kirk and family, from Death Valley National Monument are enjoying the cool northern Arizona climate and Navajo's spectacular ruins.

John A. Aubuchon
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Organ Pipe Cactus National Monument
Ajo, Arizona

April 25, 1951

Memorandum

To: General Superintendent

From: Superintendent

Subject: Monthly Narrative Report Inl for April 1951

Weather

The spring weather remains pleasant with no real hot days so far. High temperature for the month was 95° on the 13th with a low of 36° on the 1st.

A total of one and three tenths inches of rain fell on the 4th and 6th. The rains came too late for annual flowers but perennials and cactus received a much needed boost and the desert is in very good condition.

Special Activities

While on a routine trip to Tucson the Superintendent and Ranger Leding contacted Paul Ezell concerning his recent appointment as NPS collaborator. Ezell will perform archaeological reconnaissance and survey work in this area.

Bill Carr, National Park Service friend and author of DESERT PARADE, was also contacted in Tucson. As a dealer in rare publications he has offered to assist us in securing books for the monument library.

Approaches to the Area

The long awaited completion of the Tucson-Ajo road was realized this month when the last gap was surfaced and opened for travel.

Improvements on the monument highway by the County Highway Department included a center stripe. This should be a great help and reduce some of the many wrecks on this road.

Accidents

Our usual accident with a cow being killed on the highway occurred April 20.

Ranger Service

Patrol trips were made to the Bates Well area, Bull Pasture in the Ajos, Diablo Canyon, and the petroglyph rock area east of Kino Peak in the Growlers. Assorted archaeological and botanical collections were made on all these trips.

Travel

Visitor travel is on the decrease through this section. This trend is normal for this time of the year. Week ends are still busy as state residers begin to have time for sightseeing.

Maintenance

Hard rains in parts of the area necessitated grading our dirt roads and repairing some washed out dips that had been impassable.

New Projects

Work on the Soil & Moisture Control program has been started with a small labor crew.

Foundations and floors were run for the metal power building and radio room on the office.

The rangers made a trip to Phoenix to purchase lumber, wall board, and other materials for the office addition.

Radio equipment for our FM intra-area set-up is starting to arrive but little progress can be made toward installation until all is here.

Rain

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Saguaro National Monument
Tucson, Arizona

April 25, 1951

Memorandum

To: General Superintendent

From: Superintendent, Saguaro

Subject: Report 1m1, April 1951

General

More genuine Springtime weather characterized the month of April. The weather was warm and pleasant. Two good rains coming in periods near the beginning and end of the month have tended to alleviate drought conditions in the area. The forested area is in much better condition in regard to precipitation than it was last year at this time.

The water tanks at Madrona Ranger Station have been pumped full during the month. Chiminea Creek continues to run and prospects are good that it will continue long enough so no water will need be hauled during the early summer.

A number of plants flowered in April. The creosote bush, brittle bush, and desert marigolds were most in evidence, and their yellow was harmonized with the pink of the hedgehog cactus.

Travel seems to have taken a slight dip this month. Visitation showed a decrease from last month and also from April one year ago.

Temperatures ranged from a high of 91° on April 13 to a low of 42° on April 6 at headquarters.

Special Activities

Dr. Lyle Sowls of the U.S. Fish and Wildlife Service commenced making collections of coyote scats in the forested area to continue the studies of Mr. Lowell Sumner on the food habits of the coyote. Mr. Sumner recommended that further study be undertaken since winter food habits may differ from those of other seasons of the year. Dr. Sowls' first trip to the forested area was spent clearing the trails of scats. On his second trip, he began actual collections.

4- APR 1951 RECEIVED National Park Service Region Two Office

Status of Private Lands

The State of Arizona submitted another informal list of lands which it desires to obtain in exchange for lands within monument boundaries. This list included two sections of land in Saguaro which were never included in previous proposals. This will completely clear the State of any holdings in this area. The Service has agreed to extend grazing priveleges to these additional sections.

The Hughes Tool Co. is buying up large tracts of lands at an unprecedented rate in the Tucson area. This has caused one holder of private land within the monument to remove his property from the market and a second property owner has indicated that he may be forced to sell to a private party even though he would rather see his land included in the monument.

Maintenance

The following trails were completely rehabilitated during April; Spud Rock Cabin - Patrol Trail via Italian Ranch intersection; Spud Rock Cabin - Mud Springs - intersection with Happy Valley Saddle, telephone trail; Spud Rock Cabin to Pasture Gate on Manning Camp Trail.

Patrol Trail, Mica Tower, and Manning Camp to Spud Rock Cabin was cleared of all obstructions.

Various maintenance was performed on pack and saddle equipment in preparation for the coming fire season.

One hundred twenty five yards of fill were added to rough portions of the Cactus Loop road during the month. The road was graded at various times and is now in good condition.

Approaches to Park Area

The Broadway approach road was graded once during the previous month and is in rough condition at present.

No further work has been accomplished on the Spanish Trail approach road. Right away must still be obtained through one section of land before work will be continued.

Interpretive Services

A total of 2,907 persons in 782 parties were given interpretive service at headquarters. This amounted to a total of 215 hours for an average of 16 minutes per party.

RECEIVED APR 1951 National Park Service Region Three Santa Fe

Research and Observation

March 31, - Four white-tail deer at Spud Rock Cabin.
April 3, - Six white-tail deer near Spud Rock Cabin.
" 6, - First White-winged Dove of season at headquarters.
" 9, - First Hedgehog Cactus in bloom at headquarters.
" 15, - Twenty javalinas on loop road.
" 21, - First Prickly Pear blossom at headquarters.

Decrease in Travel

A total of 4,554 persons visited Saguaro National Monument in April. This represents a decrease of 550 visitors from last month and a decrease of 290 visitors from the corresponding month one year ago.

Visitors

March 29, Associate Naturalist Harry Parker and Family, Yosemite National Park.
April 6, A group of 40 children of the Sixth grade from Amphitheater Schools, Tucson, Arizona.
" 12, Dr. and Mrs. Nadir Giannitrapani, staff, Tucsonita Daily, Milan, Italy.
" 13, Dr. Homer L. Shantz and wife, former President of Univ. of Arizona.
" 15, Chief Ranger Lou Halleck and family, Crater Lake National Park,
Ranger Bob White, Yosemite National Park.
" 17, Dr. Lyle Sowls, U.S. Fish and Wildlife Service.
" 19, Dr. and Mrs. Robert Craig, College of Forestry, Univ. of Michigan.

Ranger Service

Seasonal Ranger Wendell Bryce received orders to report for pre-induction physical. Mr. Bryce is in the Army reserve.

Forest Fire Control

Fire tool caches were placed at all secondary lookouts. Fire tools were rehabilitated and the equipment shed was put in order.

Local ranchers were contacted in regards to the amount and kind of stock available for our use in the event of a fire emergency.

New batteries were installed in all telephones. The telephone line was cleared of all obstructions and all phone were tested.

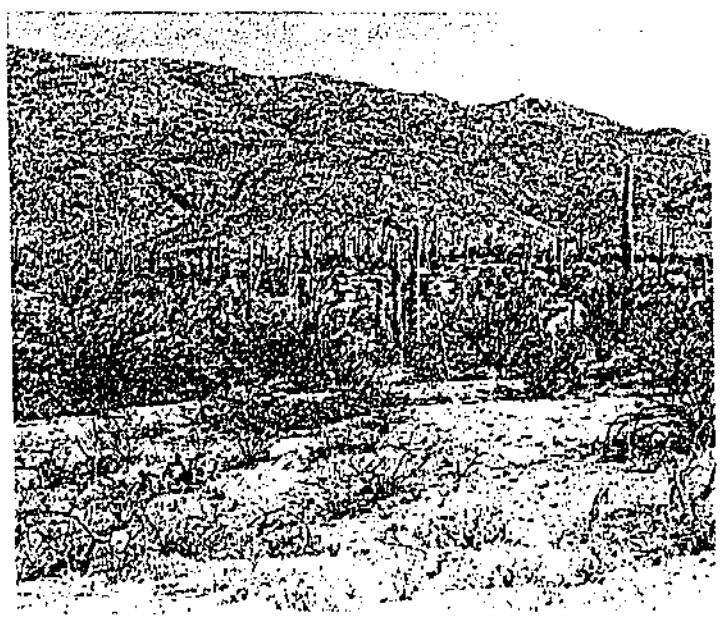
APR 1951 RECEIVED

The Saguaro Fire Training School will be held on June 13 and 14. At present, it is planned to have one or more personnel from the Washington Office to assist as instructors.

Ranger Zerbey will attend the Regional Fire Training Conference at Bryce Canyon.

Accidents

On the morning of April 10, the Superintendent was about to shave when the wash basin gave up and plummeted to the floor breaking into a thousand pieces. A new pedestal type stand was purchased in replacement. Moral: One close shave in the morning is enough.



Personnel

Trail Laborer Pat O'Brien entered on duty April 9.

Tonto National Monument
Roosevelt, Arizona

April 30, 1951

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Tonto

Subject: Narrative Report, 1ml, Tonto, April 1951

Weather: A few rains in April, about 2.5 inches, relieved the drought somewhat, brought out a good wildflower blooming season, and made the ranchers happy.

Roads. Good most of the month. Ab Sanders, State Highway Department, bladed the entrance road after the last rain, so it is in good condition.

Visitors. Mr. & Mrs. Weldon Heald, of Painted Canyon Ranch, Portal, Arizona. Mr. Heald was collecting material for an article on Tonto for Desert Magazine.

Superintendent & Mrs. John Aubuchon of Navajo National Monument..

Mr. & Mrs. Henry Viklund and Paul Buss, of Flagstaff.

Personnel. Archaeologist Pierson & family transferred to Montezuma Castle on April 5, 1951. They had been here almost 3 years since their transfer from Aztec Ruins.

Seasonal Ranger Robert H. Viklund finished his assignment here and was terminated c. o. b. April 28, and left for Sunset Crater for the summer.

Eugene P. Cook was hired as laborer-leadman April 25, for about a three weeks job on trail work.

Inspections. General Superintendent Davis, Regional Engineer Lesoiter, Engineer Jerome Miller, and Regional Landscape Architect Cornell were in for a short inspection, April 25.

Flora & Fauna. April rains brought out a good variety of flowers, and the hedgehog cactus & ocotillo are blooming. This is the best month of the year for the visitors, with dozens of wildflower species out, resurrection plants green, and weather generally pleasant. The interpretation of the cliff dwelling trail with numbered stakes & leaflets has aroused much interest and made the trip easier for the visitors, as they do not hurry so much.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Flora & Fauna, Contd. A Gila monster was given the refrigerator treatment and photographed on a blue cloth background, then released. As it was a rather skinny specimen, I dont expect to get an outstanding kodachrome. A few rattlesnakes are out, and visitors are being warned, as our supply of snakes is too scarce to have their children trample any.

A visiting botanist, Wayne Thompson of Phoenix, identified a nice Dudleya Arizonica, a succulent which is growing along the trail.

General. With the transfer of Archaeologist Pierson and the end of Viklund's seasonal ranger assignment, everything but visitor contact and necessary administrative work has come to a halt. For a while, we will not be able to have NAE Guide Cosner on a full 5-day schedule in lieu of Pierson, so are short-handed, but visitors are still rolling in.

During his assignment here, Archaeologist Pierson improved the museum exhibits considerably, excavated an interesting child burial, conducted an excavation of the lower cliff dwelling, and added quite a bit to our information on archaeology. He did much of the work on the interpretive leaflet and nature trail, and through association with Dr. Marshall of the Desert Botanical Garden, added a lot to our knowledge of the cactus.

Seasonal Ranger Viklund constructd a series of attractive new signs of the Thunderbird type, with cut-out letters. This includes marker signs and a big entrance sign, with a brief statement of the nature of the Monument, and the three important legends, Tonto National Monument, U. S. Department of the Interior, and U. S. National Park Service.

Viklund also turned out a very good series of signs and labels for the museum, with the Leroy set, and made a register stand, desk for trail leaflets, and easel stands, working out the display material with Pierson. He also drew up plans for a register desk, largely on his own time, for use in Park & Monument areas.

Projects. Since A. J. Cosner is now first vice-president and acting Superintendent at times, an intensive in-service training course in administration is under way. This, with visitor contact and office work, will take up all the time available for quite a while.

Charles C. Sharp
Superintendent

MAY 1951 RECEIVED National Park Service Region Three Office

UNITED STATES
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Tumacacori National Monument
Tumacacori, Arizona

April 25, 1951

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Tumacacori

Subject: Superintendent's Monthly Narrative Report for April, 1951

Weather: Temperature ranged from a maximum of 92 on April 23 to a minimum of 29 on March 29. Precipitation was .74", compared with a 13 year average for the month of .336". Several showers brought this total, refreshing the country but not really soaking much of it.

Visitor Travel: This month: 4,596
Highest previous April: 4,850 for 1939.
Last twelve months - -: 36,145

April of 1939 was the month the museum here was dedicated, and the function drew huge crowds. Excepting that month, the highest previous April was for 1949, with 2,825 visitors - only 61.4% of the current April.

Visitors: March 28 - Louis R. Jurwitz, U.S. Weather Bureau head for the state of Arizona.
March 29 - A Sierrita, Arizona, school group of 13.
March 30 - Superintendent and Mrs. Sam King, of Saguaro National Monument, brought in Mr. and Mrs. Harry C. Parker and family, of Yosemite National Park.
March 31 - Tucson Festival of Arts sent a group of 17.
April 4 - Mr. Juan Urriga, Director, Spanish language center of San Francisco.
April 22 - Arizona Sunshine School, Tucson, sent 17.

Interpretive Service: 1,737 persons went on 279 guided trips through the mission church and grounds, receiving an average of 37.69 minutes per trip. 4,450 persons received combined Information and Interpretation service, and 4,684 saw the museum and patio garden.

Museum and Education: Ranger Shirley has spent free time this month in seeing that all library books are correctly classified by the Dewey Decimal System, entering previously unentered books, and arranging books in the shelves according to the classification order.
Ranger Hanson has pressed in triplicate 20 new plant specimens for our nascent herbarium collection.

MAY 1951
RECEIVED
National Park Service
Region Three
Office

Maintenance: Routine maintenance was kept current. The largest job of the month was re-painting the interior of the museum. As a preliminary to the painting Ollie Barney had to devise a method of his own, much superior to any previous attempts, for stopping the many light leaks around our furred-in wall cases. Then big and very rough boards, hinged over the cases to allow access to light fixtures above them, made extremely rough looking by some predecessor here in an apparent attempt to get an "arty" or "rustic" look, were worked over with Textone, which is a marvelous filler for rough spots, and finally given Texolite. All museum woodwork above the wainscoting was painted the same very light blue that the plastered walls received, and the brown wainscoting was partially re-painted. The result is the best appearance we have seen in the museum.

A sturdy box was made for fastening into the pickup truck bed, a removable box which can be used for looking up property carried on field trips. More grounds work, including planting of additional seedlings of the Bird of Paradise, some chili plants in the east side of the garden, some planting of Dwarf zinnias, planting of two new agave plants in the cactus garden, and replacement of a huge dying Maguey on front of the museum with a younger one which is vigorous. It may appear slightly peculiar to visitors coming back to see in place of the huge Maguey a comparatively tiny specimen in the same spot, but there will doubtless be some wag to ~~ex~~ inform other members of his party that the original plant has shrunk because of drouth. A fine Pyracantha lewisi in the garden, badly infested with cottony cushion scale, was given a spraying with the highly poisonous Vapotone XX. A couple of sick Myrtles have been given a Spring tonic and seem to be snapping out of it. A lot of dead mesquite growth has been pruned from cemetery mesquites.

First Aid: On the night of March 31 Ranger Benson and Betty Jackson responded to a first aid call on the highway a short distance south of the monument. Nobody was killed, and first aid had already been tendered. Incidentally, there is a young highway patrolman in this county who is taking his job very seriously. He gives speeding tickets to rich and poor alike, and anybody involved in a wreck, if at fault, gets a complaint sworn out against him for reckless driving. Residents of the county are becoming acutely aware that there is a speed limit, and that their cars must be in safe operating condition.

Archaeological Research: On April 23 Archaeologist Sallie Brewer, of the Region Three Office, started a small crew of pick and shovel men at the task of test trenching a narrow strip of ground along our west boundary. This is to ascertain if there are sites of historical or archaeological significance in a portion of the monument which may become part of the State Highway Department's right of way easement for highway improvement. Considerable trenching has been done in the two days before this report is written, with mostly negative results so far, although there is one peculiar alignment of stone and burnt adobe which is to be investigated further.

General: Monument affairs continue to tick along very busily, with lots of visitors, and some quite interested ones. Everything appears to me to be going well.

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Tuzigoot

Subject: Report 1mi, April 1951

There follows a narrative report of activities in this area.

VISITORS

1892 visitors in 636 cars. This compares with 2482 visitors for April 1950. 1704 visitors in 585 parties were contacted and oriented in the museum. 1805 visitors in 614 parties made the trip through the ruins. 100% of our 8-12, 1-5 visitors were contacted.

N.P.S. VISITORS

Ranger Art White of Montezuma Well on a busman's holiday the 4th.
Ranger Lloyd and Mrs. Pierson erstwhile Aztec and Tonto rangers now of Montezuma Castle, on the 9th.
Maintenance Man Joe and Mrs. Bean, Wupatki, on April 14.

OTHER AGENCY VISITORS

Dr. and Mrs. H. C. Creselius, Arizona State Department of Health, on March 31.
Mr. and Mrs. C. L. Brunk, Inyo National Forest, Bishop, California, on March 31. The Brunk's are old friends from Organ Pipe Cactus National Monument.
Ranger and Mrs. Mark Jones, Prescott National Forest, Clarkdale, accompanied by Forester and Mrs. Gordon Bade, Williams, Arizona, on April 14.

REPORTWORTHY VISITORS

Mr. Ralph Gray, veteran Park/Monument traveler and photographer extraordinary and friend indeed visited here on April 16.

ORGANIZED VISITORS

Boy Scout Troop 23 of Jerome comprising 8 boys, on March 31.

RECEIVED APR 1951 National Park Service Region Three Office

Grand Canyon College party of 12 on the 11th.

VANDALISM

The following letter written by the Superintendent and co-signed by Mr. Mark Jones, District Ranger USFS, was published in the "Verde Independent" on April 5, 1951:

Vandalism: A Letter to the Parents in the Verde Valley

"Last week the Verde Valley suffered an epidemic of vandalism. Vandalism is the willful destruction or defacement of anything of beauty. The term vandalism has been expanded to include all property.

The wanton destruction or defacement of any road sign is vandalism. When road signs or directional markers are property of the Federal Government vandalism is punishable by 60 days in jail and a $500.00 fine.

On the night of March 28 three road signs were laboriously destroyed. Two of these signs were property of Federal Agencies. The vandals were apprehended on the 28th and by their own confessions were subject to 60 days in jail and a $500.00 fine.

These boys were and are not criminals. Because they were first offenders they were released after the seriousness of their act was explained to them.

It is the purpose of this letter to have all parents in the Verde Valley explain the law and the penalty to their children.

Every possible effort will be made to apprehend the perpetrators of vandalism in the future."

(Signed) Mark P. Jones, US Forest Service
J. W. Brower, Jr., National Park Service.

On the 27th a party of visitors arriving at noon reported damage to the cluster of signs at the Sycamore Canyon fork 1.5 miles from Tuzigoot. They had difficulty deciding which road led to Tuzigoot. The Superintendent reviewed the road fork on his lunch hour and discovered all of the signs at the fork had been laboriously vandalized. A reconnaissance of the area revealed enough evidence (an inadvertently dropped gasoline sales slip) to lead to the vandals.

The details were turned over to Deputy Sheriff Robbins of Clardale who brought two suspects to the Monument on the 29th. Both denied complicity without removing much doubt. After a thorough questionnaire by the Superintendent the boys were taken back to town by the Sheriff. Ten minutes later they were back at the Monument with a full confession. The Sheriff returned and took custody of the boys. Later with their promise to obey the law and commit no further nuisance two very scared boys were released.

At 6:10 P.M. on Sunday the 1st a phone call relayed through the Verde Valley Country Club from Mrs. McGill who lives in the Clark

Mansion told us that some young fellows were stoning our new signs.

We rushed down to the Sycamore Fork but the youngsters were gone (two minutes after the call came in). There were footprints on top of the sign but no stone scars. We expressed our appreciation of their cooperation by routing a small roadside directional sign reading: Verde Valley Country Club.

IMPROVEMENTS (PLANNING)

A Museum Prospectus, a fine document of 37 pages was prepared by Archeologist Richert and submitted to the Region Three Office on March 29. Contingent upon regional planning is the exact Museum Exhibit Plan for Tuzigoot. When the regional plan coordinating the local museums is received, Archeologist Richert will complete the museum exhibit plan for this area.

The Superintendent is preparing an interim plan for rearrangement of the museum exhibits employing the existing facilities. This plan intends to put some continuity into the story of Tuzigoot and change the present setup of multitudinous labels illustrated by artifacts into a less interrupted presentation of Pueblo (Sinagua) life at Tuzigoot. The plan will be submitted to your office for approval.

IMPROVEMENTS (PHYSICAL)

The oil furnace blower was dismantled and reconditioned by the Superintendent on the 27th.

Two new routed roadside directional signs were installed on the entrance road at the Sycamore Canyon fork 1.6 miles from the museum on the 28th. (see VANDALISM)

A new large and deep fence post was set at the back gate and equipped with a gravity gate fastener.

The unsightly sun-faded cloth "No Hunting" signs were removed from the fence posts at the entrance.

Construction of the wood steps down from Room 22 was started on the 30th. Some difficulty was encountered by the discovery of a projecting rock ledge. Instead of one landing between two long flights it became necessary to build three flights and two landings. The shorter flights add considerably to the safety factor.

Material for this job was purchased before the detail plan for the steps to Room 14 was received. Upon receipt of the plan we observed that the step mountings had been changed from the verbal specifications for wood to angle iron. We were able to locate some suitable angle iron and we constructed this step job with the improved method. It was also noted that the step plan recommends stain to match the rocks. These items not considered in the appropriation are expensive.

While completing the grading at top and bottoms of the steps we were advised to add an intermediate rail for the safety of children.

Following completion of the steps on April 14, the trail was swept clean of all loose gravel, the trail closed sign was removed and the circuit reopened.

The empty 5 gallon oil cans were shaped into waste baskets and given two coats of yellow enamel. These replace paper cartons used for trash receptacles and the obvious fire hazard is reduced.

The bedroom in the residence was repainted on the 16th by the Superintendent. Three walls Berkshire Green (Satin Spred) and one wall Sunshine Yellow (Texolite).

New home-made valences and drapes were installed as soon as the paint dried.

Lower cabinets and baseboards in the kitchen were painted a Tile Red Deck Enamel shade that harmonizes with both the tile red floor and the bright red counter top. Much of this painting was done by the HSWP.

Work was started on the excavation of the sewer line on the 18th. This line is found to be covered by almost 7 feet of loose cascading sand and rock at the revetment wall. This is considerably more excavating than was expected.

A fine rain on the 19th prevented any outside work so we knocked out the routed number stakes for the guided trail.

PERSONNEL

Superintendent Brewer has been on annual leave since April 21, 1951.

NATIONAL PARK SERVICE

Walnut Canyon National Monument
Flagstaff, Arizona

April 25, 1951

Memorandum

To: General Superintendent

From: Superintendent, Walnut Canyon

Subject: Monthly Report, April, 1951

Visitors this month, 1769; travel year to date, 7992.

Weather Dry weather was creating a fire hazard over all the forest until we had more than one-half inch of rain in mid-April. This reduced the fire hazard and should bring out a good showing of annual plants.

Administration Efforts are being made to acquaint Ranger Spangle with this area and with all details of monument administration.

Personnel The superintendent's daughter came down with mumps March 27 and since Friday, April 13, Mrs. Hastings has been in bed with the same disease.

Ranger Lawrence D. Wilde, Jr. moved to Tucson on March 28 after being recalled to the Air Force.

Paul F. Spangle reported for duty on April 15 following his transfer from Blue Ridge Parkway. Mr. Spangle has worked at Casa Grande and spent several seasons at Grand Canyon. We are glad to welcome the Spangles return to the Southwest.

Use of Monument Facilities by The Public There were 1769 visitors who came in 600 cars. This is a decrease of 107 visitors over the same period last year. Contact was made with 464 parties totaling 1396 visitors. There were 555 parties including 1637 visitors in the museum. Picnickers totaled 143 people in 24 parties. There were 15 visitors in the Armed Forces.

Maintenance and Improvements A dead pinyon tree along the entrance road was removed.

The small bedroom in Residence No. 2 was cleaned and re-painted and the floors of both bathroom and kitchen were repainted. The sink drainboards at both residences were sanded and re-varnished

and new calking was installed around the drainboard at Residence No. 2. The bathroom floor at Residence No. 1 was re-painted.

Interpretation A new printing of Island Trail guide pamphlets was placed in use during the month. The slick paper cover on the new edition should help prevent the pamphlets from being soiled and damaged while in use.

A shipment of 100 copies of Flowers of the Southwest Deserts was received and placed on sale.

On April 13 four boys were apprehended after the change box for self-service sales was clear d out during the noon hour. After considerable questioning the boys gave up all the fifty cents which had been removed.

Protection Several score of names and initials were obliterated or removed along the Island Trail where dates as early as 1919 were found. Equal parts of hydrochloric acid and water was used with some success but most of the names were removed by rubbing the cliff with fragments of rock and then going over it with a wire brush. After removal of the names, the sign reading "No more names or initials, Please" was taken away, and with no reminder, we hope that fewer names will be left.

The water system for the picnic ground was turned on and the fire buckets and barrel kept on the area were re-filled.

A metal fire tool box has been received from the Forest Service and plans are being made to install it on the south side of Walnut Canyon

Equipment An air leak in the oil line for the furnace in the superintendent's quarters caused the furnace to stop running each night. Eventually the leak was located and corrected.

A double drum gasoline powered hoist was received. This was checked and placed in operating condition by a mechanic who assurred us we have a good piece of equipment.

Repairs were made to the steering gear and fenders of the pick-up.

A kodak dark-room light was received from surplus at the Naval Supply Center.

MEMORANDUM

To; General Superintendent

From: Superintendent

Subject: Superintendent's Monthly Narrative, Report No.1n1

APRIL TRAVEL, 1951 — TRAVEL YEAR TO DATE

Visitors, 23,377 Cars 5,096 — Visitors, 77,858 Cars 19,184

GENERAL

The two months prior to April have shown a slight decrease in travel, but this month to a terriffic gain over any April in our history. Of course Play Day always contributes a noticable number to the count and this year Play Day was the biggest yet. On the whole excellent weather has prevailed with less wind than usual. High for the month was 86 on the 29, and a low was registered on the 4th of 36 An official trip was made to El Paso by Ranger Chittum, and the Superintendent made a trip into the Regional Office for official matters.

INSPECTIONS

Francis Elmore was down from Santa Fe to help us with Play Day and he inspected our Southwestern National Monuments Association records helping us iron out a few bugs. Jack Diel was down to inspect the Dog Canyon waters and those sources from the Air Base. Regional Director Tillotson went over the entire area with us and we were pleased to have this visit from him. We wish that he might get down to see us more often.

SPECIAL ACTIVITIES

The White Sands had a very interesting party in Ambassador George C.S. Corea of Ceylon, his wife, son, secretary, driver, and a family fiend. It was my pleasure to spend an hour or so with the Ambassador and he was very gracious in his remarks concerning the National Park Service and our unit in particular. Their visit was only a couple

RECEIVED APR 1951 National Park Service Region Three Office

of days before Play Day and the family was very interested in this event.
Play Day on April 14 exceeded any like occassion at White Sands and about 8000 people in over 1600 cars swarmed into our area and all seemed to have a good time. The Old Timers reunion, and the White Sands Relays held in connection with Play Day were both very successful. No major accidents occured although a couple of dented fenders was the result of a couple of cars stopping suddendly.

PUBLICITY

Local papers as well as the press from El Paso carried column after column devoted to Play Day, pictures were carried of the Relay Races and the Old Timers. The Holloman Air Base took some movie shots of some of the speakers. Play Day seems to be attracting more attention every year.
The El Paso Camera Club spent an afternoon in the sands and the number of pictures taken should afford us publicity to the ends of the world.

COMPLAINTS

No complaints were received in this office on either the National Park Service or our White Sands Service Company who handle our concession needs.

MAINTENANCE

According to Webster maintenance is described as " upkeep " and even under the heading I want to reverse the definition and describe our trouble as keeping up. We are still cleaning up from Play Day and have had some five thousand visitors since that day which means more clean up. As though that were not enough our sewer lines stopped up and we find that our disposal had filled completely and it was necessary to dig it all up and we have dug several new laterals in hopes of taking care of the trouble. Our redwood tank is holding up very well but may just be to small. It is very probable that this facality like many others is being taxed beyonds its limits and we may be forced to install a pumping system for our sewerage. Plans for our local domestic water lines are completed and that project is well along. It is no small task however in addition to our other work and my crew are all working trough the entire week and will take a lieu day later. Virtually all regular maintenance has given way to these special tasks, and we hope that next month we will be able to get back to some of the daily maintenance routine.

INCREASE OR DECREASE IN TRAVEL

An increase of twelve hundred seventy four cars and six thousand three hundred thirteen people over any previous April is no small item and the increase can not be attributed entirely to Play Day. Two hundred sixty cars and eleven hundred fourty two people was our Play Day gain, leaving one thousand fourteen cars and five thousand one hundred seventy one people as just normal gain. We are thrilled

with these gains but we are paying for them dearly in the strain on our physical plant. I hope that the last thing of which I shall ever be accused is that of being a pessimist, but with the increase that we are experiencing we will have to give consideration to the enlargement of our physical plant or we shall suffer a complete collapse one of these days. In 1939 our visitor count was 58,955 and this year with good luck and a continuation of the present trend we should exceed the 1939 figure by almost one hundred and fifty thousand, and yet we have not enlarged our sewer system, our light plant and what little facalities we have for the picnic groups we have salvaged from scrap of other agencies. Our fondest dreams for peak days in 1939 are being exceeded almost daily now, and so it goes.

VISITORS.

M.R. Tillotson, Regional Director, Santa Fe Office
Jack Diel, Santa Fe Office
Francis Elmore Santa Fe Office

We are always glad to have any of our fellow workers stop off with us and we are sorry that they can not get down more often. Ambassador' Corea's visit has been mentioned and I am quite proud of my pound of tea direct from Ceylon, which the boy wanted me to have for my attention to the party. The fourteen year old by was quite impressed also with the red light and siren on our Ranger Patrol car.

RANGER SERVICE

Both of my rangers have been and are putting in some long hard hours. Poor ole Dan probably wonders when he is digging out a sewer line where the romance in a Park Ranger career lies—certainly not in laying water lines or digging out plugged sewers. Chittum also in cutting water pipes, rebuilding worn out motors etc. likewise wonders what is eating on the visitor who begrudges us a job wiht nothing to do but visit with an occassional tourist. A inquisitive six year old walked into my office the other day and ask what I was doing. Before I had a chance to answer the daddy said " son leave the man alone, if he works for the government he is writing a report," and sure enough I was. My hat is off to my boys though for doing the work I call on them to do and then be as pleasant about it as they are. This goes also for Otis, Joe and Frank. My crew is tops.

POLICE PROTECTION.

Both local and State police did a good job for us on Play Day. No accidents of any consequence occured and at times the traffic was plenty heavy, and eight thousand people can sure get in the way. We appreciate their help.

GENERAL

We are dreadfully sorry to report that little Cindy Cota has been and is yet critically ill. She was taken to the local hospital and later

to Tucson where she is yet receiving special care. She was taken sick and was at the point of death for several days. Frank has been off for a couple of weeks, but he tells us that Cindy is doing much better and that he will soon be back. We all miss the Cota family and hope Cindy will soon be well enough that they can all be back at White Sands. It just occured to me that I will have to type this report myself so I too this time shall suffer from its length. This will explain the many mistakes that also will occur in my struggle to revive some of that skill required in getting out the nice letters Frank gets out for me.

Johnwill Paris.

This travel year	1088	2894	2251	6014
Last travel year	~~1902~~ 898	2624	1988	5966

Visitors: 3/25 Mr & Mrs. Minor McPherson, Grand Canyon Nat'l Park
3/25 Mr & Mrs. Ray Foster, Grand Canyon National Park
3/25 Mr F. E. Whipple & Family, Mayor of Winslow, Ariz.
4/12 Mr. Phil Moore, photographer from Beverly Hills, Cal. taking movies for educational purposes.
4/20 Thirty-five students from the Hopi High School, Oraibi, Arizona

Research and Observations: The Golden Eagles at the Citadel have been seen several times this month. They have a nest in the side of the lava flow above the old sink hole south of the ruins.

Three antelope and one porcupine were seen along the loop road to Sunset Crater on April 2.

Three ducks were noted swimming around on the pond at Heiser Spring the morning of April 9. Probably a few tired travelers getting a rest.

Most of the wildlife I have seen so far has been limited to a few sparrows and an occasional cottontail and jack rabbit.

Ranger Service: Superintendent Brusek was on annual leave from April 3 to 17 inc. A new boy was added to the family at Kanab, Utah on April 9.

A flagpole was erected on April 4 by Ranger Walker and a flag is now flying at Wupatki for the first time.

A dead calf was disposed of on April 11. Evidently hit by a car just a few miles off of highway 89.

One cat was disposed of April 18 that showed up here at Headquarters.

Forest Fire Protection: One small fire started by an abandoned campfire was extinguished by Monument personnel on April 2 at 7:00 P.M. The fire was on the Coconino National Forest and the forest service was notified the next morning so they could check it. The Forest Service now has two fire towers in operation due to the extreme dry forest conditions.

Superintendent

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Wupatki National Monument
Flagstaff, Arizona

April 26, 1951

To: General Superintendent

From: Superintendent, Wupatki

Subject: Monthly Narrative Report - Wupatki and Sunset Crater National Monuments

Weather: The long dry spell was finally broken with a few showers this month that totaled .82 inches. Every little bit helps and vegetation does seem a bit greener since the rain. There have been quite a few days of high winds. The maximum temperature for the month was 83 on April 14 with a minimum of 29 on April 11. The flow of the Little Colorado River has almost stopped which is making it quite hard for the Navajo Indians who depend on it this time of the year for their sheep.

Maintenance: With some rain this month it was possible to blade some of the bad wash board out of the Sunset Crater entrance road and to pack some of the clay plating between Sunset Crater and Wupatki. The Wupatki entrance road did not get much rain and it is still very dry with quite a bit of wash board.

The ruins trails at Wupatki and the Citadel were worked over April 2 and 4.

A drinking fountain was installed outside of the office to replace the old faucet and has proved very popular.

The dump truck was overhauled by the Forest Service shop in Flagstaff and is now back on the job clay plating the roads where needed. It looks like the hard work and efforts of maintenanceman Joe Bean are beginning to pay off. I am sure we will be able to keep the Sunset Crater-Wupatki loop road open for traffic both ways this spring.

Interpretive Services: At Wupatki 455 visitors in 160 parties were contacted for an average of 19 minutes and a total of 48 hours.

Travel: Travel figures showed a decrease of only 4 people for the month. Sunset Crater travel showed an increase of 202 people but there were frequent groups of local people making trips to the area which can account for some of the increase. Considering Easter holidays came in April last year with heavy travel we figure we did good to break even this month. On April 22, 20 cars were recorded which is the most in one day so far this year.

OEPS

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

RECEIVED APR 1951

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, HEL, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKERS AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHALL NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 6 (REPORT 8M3) AND 9 (REPORT 9M3).

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND [illegible]

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DUE ONE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

NAME Fred W. Binnewies
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONDUCTED, INTERPRETIVE IN CHARACTER, BETWEEN A VISITOR AND A NATIONAL PARK SERVICE EMPLOYEE OR A POST INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC WHEN CITING TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE SERVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, AUDIO BOOTH, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATION OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATION, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS CONCERNING THE AREA REGARDING WHICH VISITORS ENQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE EXHIBITS, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PRESENTED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORD THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE KIND OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. ADD TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA [illegible] PLACE ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE [illegible] TIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; NUMBER IN ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN COPIES IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. NAME Everett H. Bright
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CORRECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR AT AN INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, LECTURE ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATION OR OFFICER DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS CONCERNING THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL USE USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM WILL NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR FURNISHED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. ALSO TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND OF PRINT.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN COPIES IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DUE THE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 9M3) AND 9 (REPORT 9-3).

NAME Homer J. Parr
TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside sponsors under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing information rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and modes of travel, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, Wayside shelters housing interpretive devices, trailside museums, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be included.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total all column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They are not included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance will be considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Due in accordance with instructions in Administrative Manual, Vol. 35, Chapters 8 (Report 8a3) and 9 (Report 9a3)

NAME A. T. Bicknell
TITLE Superintendent

APR 1951
RECEIVED
National Park Service
Regional Offices

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR AT AN INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL USE MADE OF USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE EXHIBITS, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM WILL NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR FURNISHED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. ALSO TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKUPS AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; RADIO AUDIENCES; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE WILL RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND GIVEN AWAY.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATION SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DUE NOT LATER THAN EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists, Park Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, park collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing information rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historic areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please fill out column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance figure will be considerably in excess of the visitors registered in the area during the same period. For comparison, the number of visitors to the area during the month should be shown.

THIS REPORT ONE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Report is due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

OEPI

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Junior Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing PERMITS rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and trails, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: Is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historic areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Reports due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m1) and 9 (Report 9m3).

REMARKS:

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

NAME JOHN O. COOK
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, AUDITORIUM ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC ORIENTATION, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES ARE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. ADD TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY ARE NOT TO BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE WILL RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND OR DISTRIBUTED.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN DUPLICATE IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE TO EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 6 (REPORT 6H3) AND 9 (REPORT 9-3).

SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA. "CONTACT" IS A CONVERSATION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR AT AN INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, LECTURE ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATION, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL POINTS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM WILL NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR FURNISHED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND SERVICES ARE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. ADD TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY ARE NOT TO BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; AND ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE WILL RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN COPIES IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DUE FOR EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical Aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

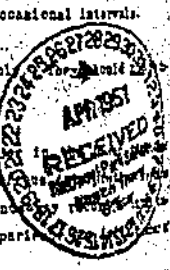
CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public.. It includes data on routes and rates, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historic areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.



INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only and should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance figure may be considerably in excess of the visitors registered in the area during the same period. For comparison the number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Reports are due in accordance with instructions in Administrative Manual, Vol. 16, Chapters 8 (Report 8mJ) and 9 (Report 9mJ).

NAME Charles C. Sharp
TITLE Supt.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHERS" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONVERSATION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A NON-INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC WHEN OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR AT AN INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CONCESSIONAIRE STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS CONCERNING THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE EXHIBITS, WAYSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM MAY NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PRESENTED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. ALSO TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHALL NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; NAME; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN COPIES IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DUE AS OF EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Contact and Museum open daily from 8:00 A.M. to 5:00 P.M.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit room, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and rates, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Report is due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8s3) and 9 (Report 9m3).

TITLE Johnnie Faris
Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, museum collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.
INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and rates, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.
INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical Areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using an interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Reports are due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

NAME
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL ASSISTANTS.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF BOOKS, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES. TRIPS SPECIFIC TO BIRDS AND HISTORICAL SUBJECTS SHOULD BE REPORTED ON LINE 3. BE SPECIFIC HERE (TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BIRD, ART, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE AUTHORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR THE INTERPRETIVE SERVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, EXHIBIT COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CONTACTING STATION OR OFFICE DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATION, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS RELATIVE TO THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: CHECK THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL MAJOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS DURING INTERPRETIVE SEASON, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM MAY NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORD THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLACE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE SERVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHALL NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND BY DATE.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN COPIES IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COOPERATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE FOR EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 5 (REPORT SM3) AND 9 (REPORT SM3).

NATIONAL PARK SERVICE
ARCHES NATIONAL MONUMENT
MOAB, UTAH

June 3, 1951

Memorandum

To: General Superintendent

From: Superintendent, Arches

Subject: Narrative Report for the month of May, 1951

WEATHER: Over one inch of rain fell during this report period bringing with it abnormally cool weather. Maybe those Rain Makers have something!

TRAVEL: Inspite of the stormy weather 1495 visitors arrived in the area in 447 cars which gives us an increase of 36% over the same period last year. Twenty-seven states and four foreign countries were represented.

INTERPRETIVE SERVICE: Of the 1495 visitors who entered the monument 650 were contacted. Fourteen guided tours were made with a total attendance of 216 people. Total contact time amounted to 81 hours. Three tours outside the monument were made with 108 students of the Grand County School. The purpose of these field trips was to view and discuss vandalized petroglyphs along the Colorado River and explain to them the meaning and reasons for the Antiquities Act.

INTERPRETIVE DEVICES: The four panels which flank the two large center panels on the Wayside Exhibit were received from the Regional Office along with a welcome $35.00 to pay for their installation. The installation of these panels will complete our Wayside Exhibit. Informational and directional signs for the Cove Nature Trail were received from Les Arnberger who is revising our Nature Trail leaflet. His help and suggestions will improve this trail a great deal.

PUBLICITY: Director George Sherman of the Universal Motion Picture Co. spent one half day in the monument seeking location sites for a Technicolor picture to be filmed in the vicinity of Moab around the end of June. He left without making any definite decision on location, saying that there was so much to choose from that the decision was going to be difficult.

NPS VISITORS: Naturalist Leslie P. Arnberger, May 10 & 11.

PERSONNEL: Park Ranger T. Earl Worthington is on Annual Leave from May 18 until May 31, in order to use up his 1960 annual leave.

ROADS: Taking advantage of the moisture received this month Maintenanceman Winbourn was able to do a good job of blading on all monument roads.

NATURAL BRIDGES: Two trips to Natural Bridges were made for the purpose of transporting and installing propane tanks, refrigerator and stove.

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

26 May 1951

Memorandum

To: General Superintendent

From: Superintendent Aztec Ruins

Subject: Superintendent's Monthly Narrative Report May

WEATHER: Many windy days with dust storms followed, toward the close of the month, with clear warm days. Three light rain storms have added .18 to the annual precipitation.

MAINTENANCE: Ruins stabilization has been continued this month with considerable repair being accomplished in the north east corner of the ruin and about one third of the south wall excavated.

The deteriorated paint and plaster in the residence at site No. 3, bath room, was repaired with plastic tile. Likewise the baseboards in the living-dining room and kitchen of this residence were replaced. The floors in the remainder of the residence have not as yet finished settling, but within another year will be repaired.

NEW CONSTRUCTION: The landscaping of the residential area has been completed, which report is forwarded separately.

INTERPRETIVE SERVICE: There were 1004 visitors in 164 parties conducted thru the ruins and 1462 visitors in 340 groups shown thru the museum.

DECREASE IN TRAVEL: For the first time in may months we show a decrease in travel for the same period of the previous year. This decrease is approximately 7% with 1462 visitors from 37 states, Wash D.C., Brit Honduras, Alaska, Canada and Switzerland. Our decrease seems to be due to an almost total absence of visiting school groups. Generally in May we have 15 to 20 school bus loads of students, this year we have had but 2 such groups.

RESEARCH-OBSERVATION: Several fair sized flocks of evening gross beaks visited for a week on their way north to the higher country. We have completed a new type of plant-tree sign, placing 6 of them along the entrance walk identifying native shrubbery. The sign is made of 2 plates of glass sealed together with liquid solder.

VISITORS: Jess Lombard, Cruters of the Moon, visited at the close of the month. We enjoyed his visit and wish more NPS personel would drop in on their way by.

Irving D. Townsend

NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

May 31, 1951

Memorandum

To: Gen eral Superintendent

From: Superintendent, Bandelier

Subject: Narrative Report for May, 1951

Weather

The hottest day for May ever to be recorded at Bandelier occurred on the 27th when the temperature reached 98 degrees. This was quite a cont rast to the snow flurries and cold rain that occurred on the 17th, and a lo w of 22 degrees on the 3rd.
