

WATER-RIGHT DOCKET

Chickasaw National Recreation Area

Docket No: 20

TUFF'S SPRING

Preliminary Docket Information

08-17-1995: dockets; august 17, 1995

August 17, 1995

L54(479)

Memorandum

To: Files

From: Owen Williams, Chief, Water Rights Branch *OW*

Subject: Dockets

This is one of six springs in the "Ravine group" as defined by Charles N. Gould in 1905. The springs are named:

Spring	Docket
Sulphur Springs	23
Sulphur Springs	22
Soda Springs	21
Taff's Spring	20
Black Sulphur Spring	03
Iron Spring ¹	05

Where it is available, water Quality data are included in the CHIC springs dockets. This is done here because of the original purposes for which the park was established. Water quality data would not normally be a part of a docket, but CHIC's springs were viewed as medicinal at the time of the park's establishment. This reason, among others, necessitated the protection and preservation of CHIC and its springs.

The State of Oklahoma has been informed of the U.S.'s claim to the springs but no quantification of a right under the reservation doctrine, or any other doctrine has been completed.

¹ Note: This spring has been identified as Sulphur Spring. However, based upon the location in the 5/9/83 Declaration of Ownership of Water Rights, it appears to park staff (Len Weems, 8/16/95 phone conversation) and WRB that this spring has been double counted in the 5/27/83 Letter to James Barnett from Assoc R.D. Jack Neckels as Sulphur Spring and Iron Spring. The correct name for this spring, I believe, is Iron Spring and the Docket will be modified to reflect that.

Mr. James R. Barnett
Executive Director
Oklahoma Water Resources Board
P.O. Box 53585
Oklahoma City, Oklahoma 73152

Dear Mr. Barnett:

Following the National Park Service's "Declaration of Water Rights" to all springs and wells (see Enclosure A for individual listing), at Chickasaw National Recreation Area dated May 9, 1983, enclosed you will find the following additional information:

1. Excerpts of correspondence, office memoranda, etc., dated from the early 1900's generally describing the development of selected springs within the Sulphur Springs Reservation (formerly Platt National Park).
2. Photographs showing visitor use of selected springs through the years.

In addition to the above declarations, the National Park Service obtains water from the following water sources for municipal purposes.

1. City of Sulphur, Oklahoma.
2. Rural Water District No. 1.
3. NPS Water Treatment Plant.

Municipal water purchased from the City of Sulphur and the Rural Water District No. 1 from 1976 to 1982 is as follows:

<u>Year</u>	<u>City of Sulphur</u>	<u>RWD No. 1</u>
1976	1.431	.003
1977	2.199	.021
1978	4.363	.032
1979	3.287	.133
1980	1.035	.062
1981	1.639	.015
1982	1.195	3.037

The above metered values are in million of gallons per year.

Supplemental mineral water is obtained from the overflow of an artesian well (Caylor Well), which is located on non-National Park Service property within Sulphur, Oklahoma. The water has been flowing into park land since 1937, as nearly as we are able to determine at this time. A formal agreement reflecting the above verbal agreement, which has been in effect since 1937(?), was entered on June 3, 1981. The initial flow to the park from Caylor Well is estimated at 15 to 20 gallons per minute.

Visitation figures to the area (see Enclosure 3), compiled by the staff of Chickasaw National Recreation Area from 1907 to 1982 are also enclosed. As you will note, visitation to the area shows an increasing trend from 106,332 in 1908 to 2,094,319 in 1982. Visitation has increased in part because of the increasing size of the park and construction or replacement of physical facilities, plus the discovery of the recreational and aesthetic benefits of the area by first time visitors to the area.

Additional information is available, should you and the board request it. The information may take some time to secure as it is stored in Dallas, Texas. Obtaining additional information may require as much as two months work and attendant costs estimated at \$10,000.

Sincerely,

/S/ JACK NECKELS

Associate Regional Director,
Park Operations, SWR

Mr. James R. Barnett
Executive Director
Oklahoma Water Resources Board
P.O. Box 53565
Oklahoma City, Oklahoma 73152

Dear Mr. Barnett:

In accordance with an agreement reached during a meeting between members of our respective staffs on April 21, 1983, the National Park Service declares a water claim to all waters issuing from a total of 33 springs which were identified by Dr. Charles N. Gould, Professor of Geology at the University of Oklahoma, in 1906. In addition, the National Park Service declares its claims to water which issue from the Vendome Well, a free flowing artesian well.

Within 2 weeks, the National Park Service will submit under separate cover, two packages consisting of photographs and excerpts of correspondence dating back to the turn of the century, concerning these claims.

Sincerely,

/s/ Robert I. Kerr

Regional Director,
Southwest Region

DECLARATION OF OWNERSHIP OF WATER RIGHTS

Page 1 of 2

No. 22 Tulsa's Spring - Sulphur Artesian Basin
 Basin Name

Declaration No. _____ Date received _____

1. Name of Declarant United States of America through National Park Service

Mailing Address Chickasaw National Recreation Area, Box 201, Sulphur, OK 73086

County of Murray State of Oklahoma

2. Source of water supply Simpson/Arbuckle Group *(See 8A)
 (artesian or shallow water aquifer)

3. Describe well location under one of the subheadings:

a. SW 1/4 SW 1/4 SW 1/4 of Sec. 2 Twp. 1S Rge. 3E 1 P.M., in
Murray County.

b. Tract No. _____ of Map No. _____ of the _____
 On land owned by the United States of America.

4. Description of well: date drilled _____ driller _____ depth _____ feet.
 outside diameter of casing _____ inches; original capacity _____ gal. per min.; present
 capacity _____ gal. per min.; pumping lift _____ feet; static water level _____ feet (above)
 (below) land surface; make and type of pump _____
 Make, type, horsepower, etc., of power plant _____
 Fractional or percentage interest claimed in well _____

5. Quantity of water appropriated and beneficially used 3 gallons per minute *(See 8B)
 historical and current uses: (acre feet per acre)
1.61 public drinking water, livestock watering, education, rec-
 (acre feet per annum) reation, fish and wildlife, including support purposes.
 of existing natural riparian vegetation.

6. Description of spring: Developed or Undeveloped (Circle One)

Date Developed: prior to 12-22-1906 by NATIONAL PARK SERVICE

7. Water was first applied to beneficial use 07 01 1902
 month day year

and since that time has been used fully and continuously for the above described
 purpose in Number 5.

8. Additional statements or explanations A) Classified as one of six springs of the "Ravine
 Group" by Dr. Charles N. Gould, Geologist, in "Report of Springs," - August 13, 1906

B) Approximate flow determined by Dr. Charles N. Gould in 1905, ref. 8A

C) See Attached.

I, Robert J. [Signature] being first duly sworn upon my oath, depose
 and say that the above is a full and complete statement submitted in evidence of
 ownership of a valid water right, that I have carefully read each and all of the items
 contained therein and that the same are true to the best of my knowledge and belief.

Robert J. [Signature] declarant
 by _____

Subscribed and sworn to before me this 9th day of May, A.D., 1983

My commission expires February 21, 1987 Robert S. Williams Notary Public

8. . This Declaration is provided pursuant to the policy of the Secretary of the Interior to recognize and grant deference to state laws, regulations and procedures where those secure water rights and uses of the United States. This Declaration is given as a matter of comity, cooperation and information. It does not consent to the jurisdiction of the State in regards to judicial or other adjudications, the rights of the United States to the use or amount of water, or the amount described in this Declaration. This Declaration cannot affect vested rights under Federal or State law.

These Declarations concerning ownership of or flows of springs - developed and undeveloped - and wells should be taken and considered in totality as part of the entire Chickasaw National Recreation Area.

Re: Determination of Prior Vested Ground Water Rights, Murray County

Dear Mr. Barnett:

In accordance with the conclusions reached during the discussion on April 21, among members of your staff, employees of the National Park Service, and me in the Office of the Chief, Division of Stream Water, concerning the determination of prior vested ground water rights in Murray County as they affect the Chickasaw National Recreation Area, additional time is hereby requested to May 9, 1983, within which National Park Service will submit evidence and information to supplement the record on behalf of historical uses by the National Recreation Area and its predecessor National Park.

It was agreed during our discussion that, subject to your approval of this request for additional time, supplemental information and evidence will be provided to O.W.R.B. by May 9 in order to allow timely completion of the ongoing determination process.

Sincerely yours,

Kathleen King
Department Counsel
National Park Service
