

WATER-RIGHT DOCKET

Coronado National Memorial

Docket No: 1

BROWN ALLOTMENT SPRING (D24-21).

Preliminary Docket Information

04-02-2002: Water Rights Summary including claims to be withdrawn

WATER RIGHTS SUMMARY - Coronado National Memorial

Compiled by William R. Hansen on April 2, 2002; Modified by Alberti April 5, 2002; Modified by Hansen Dec. 20, 2002 and May 7, 2003 (Yellow indicates claims to be withdrawn)

This Summary was done to evaluate water right use and claims as part of ongoing settlement discussions in the San Pedro River Adjudication and replaces previous evaluations and summaries that may be found in CORO dockets.

13 ORDER AND PARTIAL DECREE OF
STIPULATED WATER RIGHTS IN THE
14 SAN PEDRO RIVER WATERSHED FOR
THE CORONADO NATIONAL MEMORIAL

15 This matter came before the Court on the Final Hydrographic Survey Report for the San Pedro
16 River Watershed (1991) ("San Pedro HSR") and objections to that report; consideration of the San
17 Pedro HSR and objections were referred to Special Master John E. Thorson and, subsequently, to
18 Special Master George A. Schade, Jr.; the Special Masters organized and conducted proceedings in
19 Contested Cases Nos. W1-11-556 and W1-11-1132 involving the water rights of the United States of
20 America appurtenant to the Coronado National Memorial, a federal reservation of land within the San
21 Pedro River Watershed administered by the United States Department of the Interior, National Park
22 Service; certain parties in both contested cases having reached stipulations that were filed on March
23 19, 1996, and on May 2, 2003, as to the water rights in one stockpond, three springs, and twenty wells,
24 to be decreed for the Coronado National Memorial; Special Master Thorson having accepted the

1 stipulation filed on March 19, 1996, and Special Master Schade having accepted the stipulation filed
2 on May 2, 2003; Special Master Schade having filed a report with the Clerk of the Court on May 15,
3 2003, recommending the approval of both stipulated agreements and abstracts of water rights and
4 having served the involved parties and all persons listed on the Gila River Adjudication Court-
5 Approved Mailing List; the Special Master having given claimants in the Gila River Adjudication,
6 pursuant to A.R.S. § 45-257(A)(2), a period of 180 days, or until November 12, 2003, to file an
7 objection to the report, and until December 8, 2003, to file responses to the objections; the Bella Vista
8 Water Company, Inc. and Pueblo Del Sol Water Company (the "Water Companies") having filed an
9 objection; the United States having filed a response; and the Court having considered the report and
10 the objection and being fully advised;

11 THE COURT FINDS that notice of the Special Master's report was given as required by law
12 and prior orders of this Court; the period allowed for filing objections to the Special Master's report
13 was as required by A.R.S. § 45-257(A)(2); the period for filing objections to the report has passed; and
14 the stipulated agreements and abstracts of proposed water rights for the United States of America
15 within the Coronado National Memorial should be approved.

16 THE COURT ADJUDICATES AND DECREES the water rights of the United States of
17 America for the Coronado National Memorial as set forth in the twenty-four abstracts of water rights
18 stipulated by the parties and described in Special Master Schade's report of May 15, 2003.

19 IT IS ORDERED that the twenty-four abstracts of water rights shall be incorporated in the
20 tabulations or lists of all water rights and their relative priorities on the Gila River system and source
21 in the form that the Court shall determine, pursuant to A.R.S. § 45-257(B)(2), to be most appropriate.

22 IT IS FURTHER ORDERED that the dismissals of Statements of Claimant Nos. 39-8265, 39-
23 11130(D), 39-11130(H), and 39-13637 are accepted.

24 IT IS FURTHER ORDERED overruling the objection of the Water Companies.

RE: Assignments (Conveyance) of Statements of Claim of Right Nos. 36-11163.0001 and
36-11205.0001.

From: Coronado National Forest
To: National Park Service

Mr. Pettee:

The referenced assignment actions have been completed as required by Arizona Revised Statutes §§ 45-163 and 45-164. The official records of the Department have been revised to indicate the name and address of the current holder of the referenced surface water filings.

The Department assumes your request for assignments on the Statements of Claim of Right is a request to change the names of the claimants only. The Department does not presume to either adjudicate the validity of the claims or determine who should hold the claims.

Check No. 011973 for \$20.00 has been deposited. Thank you for your payment. The cancelled check is your receipt.

If you have further questions regarding the assignment application, please contact me at (602) 417-2442.

Sincerely,

Re: Assignment Forms for Statement of Claimant for Nos. 36-11163 and 36-11205

Dear Ms. Hutchinson:

Enclosed are the assignment forms for Statement of Claims for 36-11163 and 36-11205 as requested in your letter dated May 14, 2003. We apologize for the delay in returning the forms – it was difficult to get the assignment forms signed by the Forest Service due to ongoing wildfires. We have also enclosed a copy of the Act transferring the lands from the Coronado National Forest to the Coronado National Memorial, a land status map, and \$20.00 check for the examination fees.

Please contact Bill Hansen, of my staff, at (970) 225-3532 if you have any questions.

Sincerely,

INSTRUCTIONS FOR COMPLETING THE REQUEST FOR ASSIGNMENT

The Department of Water Resources will process requests for assignment of surface water applications, permits, certificates, or claims listed on the official form or its attachment only. An assignment conveys the ownership of the right or claim from one entity to another and in the case of permits and certificates results in re-issuance of the permit or certificate.

1. Fill in the registry number of the right or claim being assigned. If more than one right or claim is being assigned with this request, the attachment must be utilized. Write "see attachment" in this space to indicate that more than one right or claim is being assigned. Photocopy the attachment sheet as needed.
2. Indicate whether this request for assignment is for the entire right or claim or for a portion of a right or claim. If Total Assignment is indicated, the current holder will retain no portion of the right or claim following completion of the assignment. Partial Assignment would be selected if the current holder intends to retain some portion of the right.

NOTE: A single Request for Assignment form cannot be utilized if a right or claim is being assigned (either in total or partial) to multiple parties. In this case, **a separate request for assignment must be completed for each buyer/assignee.** The total quantity of water being assigned to all parties cannot exceed the quantity of water listed in the original claim or right. Photocopy additional pages if needed.

3. This portion of the request for assignment **must** be completed for all partial assignments. Using the existing claim or right as a guide, complete the blanks to indicate the type of use being assigned, the quantity of use being assigned that is associated with that particular use, and the legal location of the place of use. If there are more than three uses associated with a right or claim, please provide the additional information in the same form either on the attachment or on a separate sheet of paper.
4. Requests for assignments that are not signed by both the buyer and seller will not be processed unless circumstances warrant. If the seller is not the current holder of the right or claim, **a chain of title of ownership must be provided.** Please indicate if property was in lieu of foreclosure and provide documentation.

5. **REQUIRED ATTACHMENTS:**

- ☐ **Fees (per claim or right being assigned) as authorized by AAC Rule R12-15-151:**
 - \$10.00** Application for Permit to Appropriate (prefixes 33, 3R, or 4A)
Application for Stockpond Certificate (prefix 38)
Statement of Claim of Right (prefix 36)
 - \$20.00** Permit to Appropriate (prefixes 33, 3R, or 4A)
Stockpond Water Right Certificate (prefix 38)
 - \$35.00** Certificate of Water Right (application prefixes 33, 3R, or 4A)
- ☐ **Copy of recorded deed** showing land ownership in the name of the buyer. If the seller is not the current holder of the right or claim, **a chain of title of ownership must be provided.** If land is owned by other than buyer, a copy of all pertinent leases or grazing permits must be included.
- ☐ **Copy of assessors map or allotment map** with places of use identified.

For partial assignments more detailed land ownership information may be requested.

SEGMENT 101

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
DIVISION OF LAND ACQUISITION

NATIONAL PARK SERVICE LAWS

5. Coronado

An Act to authorize additional appropriations for the acquisition of lands and interests in lands within the Sawtooth National Recreation Area in Idaho. (92 Stat. 3467) (P.L. 95-625)

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE III—BOUNDARY CHANGES

SEC. 301. The boundaries of the following units of the National Park Systems are revised as follows, and there are authorized to be appropriated such sums as may be necessary, but not exceed the amounts specified in the following paragraphs for acquisitions of lands and interests in lands within areas added by reason of such revisions:

* * * * *

(4) Coronado National Memorial, Arizona: To add approximately three thousand and forty acres and delete approximately twelve hundred acres as generally depicted on the map entitled "Land Status Map 01, Coronado National Memorial, Cochise County, Arizona", numbered 8630/80,001, and dated October 1977; \$1,410,000.

SEC. 302. Within twelve months after the date of the enactment of this Act, the Secretary shall publish in the Federal Register a detailed map or other detailed description of the lands added or excluded from any area pursuant to section 301.

SEC. 303. (a) Within the boundaries of the areas as revised in accordance with section 301, the Secretary is authorized to acquire lands and interests therein by donation, purchase with donated or appropriated funds, exchange, or transfer from any other Federal agency. Lands and interests therein so acquired shall become part of the area to which they are added, and shall be subjected to all laws, rules, and regulations applicable thereto. When acquiring any land pursuant to this title, the Secretary may acquire any such land subject to the retention of a right of use and occupancy for a term not to exceed twenty-five years or for the life of the owner or owners. Lands owned by a State or political subdivision thereof may be acquired only by donation.

(b) (1) Lands and interests therein deleted from any area pursuant to section 301 may be exchanged for non-Federal lands within the revised boundaries of such area, or transferred to the jurisdiction of any other Federal agency or to a State or political subdivision thereof, without monetary consideration, or be administered as public lands by the Secretary, as the Secretary may deem appropriate.

NATIONAL MEMORIALS, ETC.

(2) In exercising the authority contained in this section with respect to lands and interests therein deleted from any such area which were acquired from a State, the Secretary may, on behalf of the United States, transfer to such State exclusive or concurrent legislative jurisdiction over such lands, subject to such terms and conditions as he may deem appropriate, to be effective upon acceptance thereof by the State.

(c) It is the established policy of Congress that wilderness, wildlife conservation, and park and recreation values of real property owned by the United States be conserved, enhanced, and developed. It is further declared to be the policy of Congress that unutilized, underutilized, or excess Federal real property be timely studied as to suitability for wilderness, wildlife conservation, or park and recreation purposes. To implement this policy, the Secretary, the Administrator of General Services, and the Director of the Office of Management and Budget shall establish a system with appropriate procedures to permit the Secretary full and early opportunity to make such studies and propose appropriate recommendations to disposing agencies for consideration in connection with determinations of further utilization or disposal of such property under existing law. Each affected executive agency is authorized and directed to provide to the Secretary such advice and information relating to such studies as the Secretary may request.

Sec. 304. The authorities in this title are supplementary to any other authorities available to the Secretary with respect to the acquisition, development, and administration of the areas referred to in section 301.

Re: Assignment for Bob's Spring and Joe's Spring 3 (36-11205 and 36-11163)

Dear Bob:

As discussed on the phone on May 27, 2003, please find the assignment form for Bob's Spring (SE, NE, Sec. 7, T24S, R21E) and Joe's Spring 3 (SW, NW, Sec. 7, T24S, R21E). Statement of Claim forms (36-11205 and 36-11163) were filed for the San Pedro River Adjudication by the Coronado National Forest in 1979. On November 10, 1978, per Public Law 95-625 (92 Stat. 3467), Section 7 containing the two springs was transferred from the Coronado National Forest to the Coronado National Memorial. I have included the Public Law and a land status map for your reference.

The National Park Service has submitted a signed stipulation to Special Master Schade and would like to clear up ownership issues associated with these two springs. Please have the Forest Supervisor sign the assignment form and return it to the above captioned address. I will have our Branch Chief sign the form and submit it to Arizona Department of Water Resources. Once accepted, I will return a copy of the date stamped form for your records.

If you have any questions please call me at (970) 225-3532. Thanks for your help.

Sincerely,

William R. Hansen

RE: Assignments (Conveyance) of Statements of Claim of Right Nos. 36-11163 and 36-11205.

Mr. Pettee:

The Department of Water Resources has information indicating that the land on which the referenced water right filings are located has been sold or transferred to the National Park Service. The described places of use for the water right filings are described as being within the SE $\frac{1}{4}$ NE $\frac{1}{4}$ and the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 7, Township 24 South, Range 21 East. Copies of the original claims are enclosed for your information.

The Public Water Code provides that all active records of the Department remain current and correct. Therefore, in order to indicate the correct and current holders of the referenced filings, you must complete the enclosed request for assignment form. As requested by instructions on the form, please include evidence of the changes in land ownerships or holders of the leases. This evidence may include copies of recorded deeds or lease agreements. In addition, please send a copy of an assessor or allotment map.

Each request for assignment form should be signed by both the assignee and the assignor, but must be signed by the assignee. A \$10.00 examination fee payment is required for each water right or claim being assigned.

Please contact me if you have further questions regarding the assignment process.

Sincerely,

INSTRUCTIONS FOR COMPLETING THE REQUEST FOR ASSIGNMENT

The Department of Water Resources will process requests for assignment of surface water applications, permits, certificates, or claims listed on the official form or its attachment only. An assignment conveys the ownership of the right or claim from one entity to another and in the case of permits and certificates results in re-issuance of the permit or certificate.

1. Fill in the registry number of the right or claim being assigned. If more than one right or claim is being assigned with this request, the attachment must be utilized. Write "see attachment" in this space to indicate that more than one right or claim is being assigned. Photocopy the attachment sheet as needed.
2. Indicate whether this request for assignment is for the entire right or claim or for a portion of a right or claim. If Total Assignment is indicated, the current holder will retain no portion of the right or claim following completion of the assignment. Partial Assignment would be selected if the current holder intends to retain some portion of the right.

NOTE: A single Request for Assignment form cannot be utilized if a right or claim is being assigned (either in total or partial) to multiple parties. In this case, **a separate request for assignment must be completed for each buyer/assignee.** The total quantity of water being assigned to all parties cannot exceed the quantity of water listed in the original claim or right. Photocopy additional pages if needed.

3. This portion of the request for assignment **must** be completed for all partial assignments. Using the existing claim or right as a guide, complete the blanks to indicate the type of use being assigned, the quantity of use being assigned that is associated with that particular use, and the legal location of the place of use. If there are more than three uses associated with a right or claim, please provide the additional information in the same form either on the attachment or on a separate sheet of paper.
4. Requests for assignments that are not signed by both the buyer and seller will not be processed unless circumstances warrant. If the seller is not the current holder of the right or claim, **a chain of title of ownership must be provided.** Please indicate if property was in lieu of foreclosure and provide documentation.

5. **REQUIRED ATTACHMENTS:**

- ☐ **Fees (per claim or right being assigned) as authorized by AAC Rule R12-15-151:**
 - \$10.00** Application for Permit to Appropriate (prefixes 33, 3R, or 4A)
Application for Stockpond Certificate (prefix 38)

 - \$20.00** Permit to Appropriate (prefixes 33, 3R, or 4A)
Stockpond Water Right Certificate (prefix 38)
 - \$35.00** Certificate of Water Right (application prefixes 33, 3R, or 4A)
- ☐ **Copy of recorded deed** showing land ownership in the name of the buyer. If the seller is not the current holder of the right or claim, **a chain of title of ownership must be provided.** If land is owned by other than buyer, a copy of all pertinent leases or grazing permits must be included.
- ☐ **Copy of assessors map or allotment map** with places of use identified.

For partial assignments more detailed land ownership information may be requested.

Re: Coronado National Memorial - Withdrawal of Well Registrations (55-642742, 55-633156, and 55-633159) and Claims (39-11130D and H, 39-008265, and 39-11-13637); Change of Ownership (36-11163 and 36-11205); and Amendments (39-11130 and 39-004344)

Dear Ms. Logan:

We have recently completed an extensive review of our water rights and adjudication claims for Coronado National Memorial in the San Pedro River Basin as part of settlement discussions with various objectors. Therefore, we request that you make the following changes to our claims.

Please withdraw well registrations 55-642742, 55-633156, and 55-633159 because they are redundant with well registrations 55-629140, 55-629139, and 55-629142. The National Park Service (NPS) inadvertently filed duplicate claims through two separate offices in the 1980's for the same wells.

Please amend 39-11130 by withdrawing our claim to the two wells known as Zaleski Well (39-11130D) and the Forest Service Well (39-11130H). We would also like to withdraw claims 39-008265 and 39-11-13637 which were filed by previous land owners prior to assignment to the NPS. Our file review and field reconnaissance reveal that these wells are either dry, collapsed or non-existent.

Please change the ownership on 36-11163 and 36-11205 in your records from the USDA - Coronado National Forest to the USA - National Park Service - Coronado National Memorial. The Statement of Claimant forms (39's) are already in the name of the Coronado National Memorial. The land and water rights were transferred from the Forest Service to the National Park Service on November 10, 1978 (P.L. 95-625).

Please amend our claims filed for 39-11130 B, E, F, and G (Tunnel Mine Springs, Baumkirchner Wells #2 and #3, and the Headquarters Well) and 39-004344 (Montezuma

Ranch stockpond). We are amending the beneficial use, completion date, and legal locations for 39-11130 and amending the beneficial use, storage capacity and annual volume for 39-004344. The attached Amendments indicate the specifics of each of these changes.

If you have any questions please contact Bill Hansen, on my staff, at (970) 225-3532.

Sincerely,

Charles Pettee

NOTE TO FILE

The Brown Allotment Spring (aka Bob's Spring) was originally located on the Coronado National Forest. The land and water rights were transferred to CORO on November 10, 1978 (PL 95-625). A Statement of Claim of Right To Use Public Waters of the State (36-11163) was filed by the Forest Service on May 25, 1979. Statement of Claimant forms were filed by the Forest Service (39-8208) and NPS (39-011130) on December 22, 1981 and January 4, 1982. The SOC and well registration will remain in the name of the United States and will be assigned to the NPS. The Forest Service SOC will be withdrawn.

Item 3. This site was authorized for inclusion into Coronado National Memorial on
 November 10, 1978 as a part of a land transfer agreement with the U.S.
 Forest Service. This portion of Coronado Nat'l Mem. was originally re-
 served as a part of the Huachuca Forest Preserve on Nov. 6, 1906.

Item 4. The National Park Service claims the entire flow from this source for the
 indicated purposes. The volumetric flow from this source was measured
 at 2.0 gpm on 8/19/80. The estimated annual flow from this source is

This spring is located on Forest Service land which will be acquired by NPS in a trade of lands. This spring is located in a narrow canyon below Ash Peak. The spring is within a tunnel that was dug into the base of a fall that drops the canyon floor approximately 15 feet. The tunnel was originally dug back into the canyon wall approximately 20 feet; since then the entrance has fallen in 12-13 feet leaving only 7-8 feet of the original tunnel. The water from the spring is ponded behind a 2.5 foot high dam at the present tunnel entrance. The area outside the tunnel, which was once within the tunnel, is presently level with the top of the dam. The water is piped to two drinking tanks: The first is just east of where the original entrance to the tunnel might have been, and the second is SE $\frac{1}{4}$, SE $\frac{1}{4}$, NE $\frac{1}{4}$, Section 7, T 24S, R 21 E, which is approximately 300 feet lower in elevation and approximately 1200 feet south by southeast of the spring. Between the upper and lower drinking tanks is a dry abandoned tank, approximately 100 feet higher in elevation than the lower drinking tank. This site is used by George E. Brown to water his stock under an allotment he has with the Forest Service. George E Brown was in the process of checking with the Forest Service to see if they had filled a docket concerning this spring for the present adjudication of the San Pedro River Basin by the State of Arizona.

Coronado, Brown Allotment Spring, looking North. This tunnel was dug to develop the spring at this site. The tunnel length was once approximately 20 feet yet now only the back 7-8 feet are still enclosed. A 2.5 foot high dam ponds the water at the entrance of the remaining tunnel. The area in front of the dam is filled in to the top of the dam. The dam and tunnel entrance are five feet wide (measured as shown). Height of the remaining tunnel is approximately 5.5 feet.

- ① Baumkersehen has been transferred to NPS.
- ② Brown Allotments have not yet been transferred from Forest Service to NPS.
- ③ Dry well (Baumkersehen Ranch): not filled yet, but plan to do so in near future.
- ④ Drillers logs or records for two drilled wells (Baumkersehen). Both drillers are deceased and no known records exist. George Brown is of the opinion that each well was drilled by cable rig, casing was probably set without graveling or such, and it is unlikely but not know if well was sealed in any manner.

Follow-up Action to be Taken:

Call Coro again in a few months to check on status of dry well fillin; and on transfer of Brown Allotment from F.S. to NPS.

Follow-up Action Taken:
