Re: Coronado National Memorial - Withdrawal of Well Registrations (55-642742, 55-633156, and 55-633159) and Claims (39-11130D and H, 39-008265, and 39-11-13637); Change of Ownership (36-11163 and 36-11205); and Amendments (39-11130 and 39-004344)

Dear Ms. Logan:

We have recently completed an extensive review of our water rights and adjudication claims for Coronado National Memorial in the San Pedro River Basin as part of settlement discussions with various objectors. Therefore, we request that you make the following changes to our claims.

Please withdraw well registrations 55-642742, 55-633156, and 55-633159 because they are redundant with well registrations 55-629140, 55-629139, and 55-629142. The National Park Service (NPS) inadvertently filed duplicate claims through two separate offices in the 1980's for the same wells.

Please amend 39-11130 by withdrawing our claim to the two wells known as Zaleski Well (39-11130D) and the Forest Service Well (39-11130H). We would also like to withdraw claims 39-008265 and 39-11-13637 which were filed by previous land owners prior to assignment to the NPS. Our file review and field reconnaissance reveal that these wells are either dry, collapsed or non-existent.

Please change the ownership on 36-11163 and 36-11205 in your records from the USDA - Coronado National Forest to the USA - National Park Service - Coronado National Memorial. The Statement of Claimant forms (39's) are already in the name of the Coronado National Memorial. The land and water rights were transferred from the Forest Service to the National Park Service on November 10, 1978 (P.L. 95-625).

Please amend our claims filed for 39-11130 B, E, F, and G (Tunnel Mine Springs, Baumkirchner Wells #2 and #3, and the Headquarters Well) and 39-004344 (Montezuma

Ranch stockpond). We are amending the beneficial use, completion date, and legal locations for 39-11130 and amending the beneficial use, storage capacity and annual volume for 39-004344. The attached Amendments indicate the specifics of each of these changes.

If you have any questions please contact Bill Hansen, on my staff, at (970) 225-3532.

Subject: Water Rights Dockets

Please find attached a summary for State appropriative and Federal reserved water rights and a map displaying water sources at Coronado National Memorial. This summary describes the name, docket number, legal location, statement of claimant number in the San Pedro River adjudication, priority date, and other miscellaneous information. The information is based upon our discussions on May 2, 1995, and should memorialize the water source names and legal locations.

Also attached are a draft letter to the Arizona Department of Water Resources withdrawing the Baumkirchner's Statement of Claimant form and a complete copy of each water right docket stored at the Water Rights Branch in Ft. Collins. If you have any questions regarding this information please contact me at (970) 225-3532.

Re: Withdrawal of Statement of Claimant No. 39-003608

Dear Mr. Erb:

We would like to withdraw Statement of Claimant (SOC) No. 39-003608 filed in the San Pedro River Adjudication. The wells are located on lands sold to the United States, National Park Service (NPS), Coronado National Memorial in 1980. The SOC was never transferred or assigned to the NPS. The NPS has filed a SOC (No. 39-011130) for the wells claimed in 39-003608.

We hope this clarifies any confusion. If you have any questions please contact us at ????

I recieved a telephone call from Margaret Baumkirchner last Tuesday asking if I would write a letter to them and to the permitte stating that the NPS would continue to provide water for the Montezuma Allotment. I believe she was thinking that since we were asking them to sign letter to Water Master transferring the Baumkirchner well from the Baumkirchner name to the NPS, they might be able to get something from us.

I told her no that I would not do so, and I possibly may not have the authority to do so at this time due to grazing issues that we are working on. I again told her that water rights and water for the allotment were two different things and if they wanted to sign the letter to the Water Master, that was fine, if not, that was okay with me as we were going to pursue the water rights issue with or without their help. I told her that from this point on, I would talk about water for the allotment only with the permittee and as far as I was concerned, they were not in the picture as they had sold the property and the permit. I was fairly short with her.

On Wednesday, I received call from the Jim DuBois as he had been on the receiving end of a telephone call from the Baumkirchner son. He got an ear full about the government taking from the local ranchers etc. I told Jim the entire story, and I think he feels that we are attempting to deal with this on level basis. I have been thinking for months whether the Baumkirchners may try and bring watering cows into the water rights picture, which it appears they are trying.

At some point, we are goint to have to address water rights /wells etc and how the permittee on the Montezuma Allotment will be dealt with. I have some thoughts but still don't believe that cows will ever come to this pasture anytime in the near future. At least for now, I think that we should start demanding to see improvements to the allotment structures from the permittee before committing any water from the Baumkirchner well. However we need to think what may be the long term water solution for this pasture.

Just food for thought, but be aware that the Baumkirchners may see what they can get out of the water rights issues. From this point on, I don't expect any cooperation from them, which is FINE.

Bill:

We forwarded the letter that you sent us to Mr. and Mrs. Baumkirchner some weeks ago. While in conversations with them over the telephone, I thought that they were ready to sign, it now appears that they are having second thoughts. I recieved a telephone call from Mrs Baumkirchner and she asked if I would call her son, Gary Baumkirchner (a realtor?) in Havasu City and explain what we were trying to do.

I talked to him and attempted to explain that we were trying to get the court to note that that well and water rights were now property of the NPS. He questioned why his parents would sell all water rights on the property that they sold to us, when they still had cows on the allotment and would need water from that particular well. I told him that we had grant deed stating that we acquired all rights, to include water rights, on the property. He requested a copy of the grant deed which I have sent to him.

I think that Everett and Margaret may be reluctant to sign a document which they believe they may give a right that they THINK they may still have. By willingly signing the document to the Water Master, they think we may not have to provide water to the allotment at a later date. I tried on several occassions to tell them that that was a separate issue, however they keep coming back to whether the NPS will always provide water for the allotment. It's interesting in that while they do not own the grazing permit, they are still very concerned about watering cows on that allotment. Suspect they may think that the Doctor that purchased the allotment may backout of the deal at some point, and they get stuck with it again.

At any rate, I recommend that we see if we can follow another course in getting the court to identify the NPS as the water owner of the well. I told Gary Baumkirchner that if they were willing to sign the document, it would be easier for all of but we would pursue getting the water ownership changed even if they refused to submit the water transfer document. At this point, I doubt that they will go with us on this. Maybe they think that if we did get the water rights on the well, why at this late date are we now asking them to give us documentation saying that they do not own the water??

Please pass on to Jim DuBois at DOJ.

Thanks

Ed

Re: Withdrawal of Well Registration Numbers 55-633157 and 55-633158

Dear Mr. Erb:

We would like to withdraw well registrations numbered 55-633157 and 55-633158. These wells were registered in 1982 and are duplicates of registrations numbered 55-629137 and 55-629138 filed for wells located at Coronado National Memorial. We apologize for any inconvenience this may cause you or your staff. If you have any questions regarding this request please contact Bill Hansen, of my staff, at (970) 225-3532.

NOTE TO FILE

Baumkirchner Well #2 (aka 17 bcb 2) was located on land owned by Fred and Everett Baumkirchner. The Baumkirchner's filed a Statement of Claimant (SOC) form (File No. 39-003608) for the well on May 22, 1980. Well #2 is supplementary to Baumkirchner #3. The land was purchased by the NPS on March 20, 1980. The NPS filed a SOC form (39-011130) on January 4, 1982. The NPS, for some unknown reason, filed two well registrations (55-633157 and 55-629138) on May 7 and June 9, 1982. The well is capped and has a power source. The NPS will notify the Arizona Department of Water Resources that well registration no. 55-633157 should be withdrawn.

NOTES

When this site was visited on August 19, 1980, the site was not yet Park Service property (National Park Service took possession on September 1, 1980). The top of the 3 ft. X 3 ft. concrete slab around the well casing was used as land surface datum, although the present ground surface is 0.9 feet below the top of the slab. The well casing appears to be 6 inches in diameter; there is a 7 inch coupling around casing above concrete slab. Set in the concrete slab are three worn statements: depth of well 90 feet; depth to water 40 feet; and the apparent date well drilled - 1943.

Per phone conversation with Superintendent Dale on 9/25/81 it was learned that this well and well 17 bcb 3 are being used to supply water to two residences (two in-holdings) and starting October 1, 1981, will supply water for six months a year for grazing under permit. These wells, used in conjunction, supply water needs for six people and a 50 head grazing operation.

An aquifer test, consisting of evaluating both this well and well (D-24-21) 17 bcb 3 was conducted on April 18, 1983, see notes.

Dear Mr. Steiner:

Enclosed are the completed well registration forms for existing wells within the State of Arizona owned by the United States Government, Department of the Interior, National Park Service, Western Region. These forms have been completed for the following areas: Casa Grande National Monument (1 well), Chiricahua National Monument (8 wells), Coronado National Memorial (6 wells), Fort Bowie National Historic Site (1 well), Grand Canyon National Park (no wells), Lake Mead National Recreation Area (14 wells), Montezuma Castle National Monument (3 wells), Organ Pipe Cactus National Monument (21 wells), Petrified Forest National Park (3 wells), Saguaro National Monument (14 wells), Tonto National Monument (1 well), Tumacacori National Monument (3 wells), Tuzigoot National Monument (1 well), and Walnut Canyon National Monument (1 well). The location of these National Park Service areas are shown on the enclosed map (in red).

If there are any questions with regards to this matter, or if we can be of further assistance, please contact Gerard S. Witucki, Chief, Division of Water Resources, (415) 556-8660, of this Office.

Conversation: Called at 10:00am - call back at 12:30 pm -

- ① Baumkersehen has been transferred to NPS.
- ② Brown Allotments have not yet been transferred from Forest Service to NPS.
- ③ Dry well (Baumkersehen Ranch): not filled yet, but p to do so in near future.
- ④ Drillers logs or records for two drilled wells (Baumkersehen). Both drillers are deceased and no known record exist. George Brown is of the opinion that each well was drilled by cable rig, casing was probably set without graveling or such, and it is unlikely but not known if well was sealed in any manner.

Follow-up Action to be Taken:

Call Coro again in a few months to check on status of dry well filling; and on transfer of Brown Allotment from F.S. to NPS.

Re: Withdrawal of Statement of Claimant No. 39-003608

Dear Mr. Erb:

We would like to withdraw Statement of Claimant (SOC) No. 39-003608 filed in the San Pedro River Adjudication. The wells are located on lands sold to the United States, National Park Service (NPS), Coronado National Memorial in 1980. The SOC was never transferred or assigned to the NPS. The NPS has filed a SOC (NO. 39-011130) for the wells claimed in 39-003608.

We hope this clarifies any confusion. If you have any questions please contact us at (520) 378-6504.

We did, however, retain the right to use the water for livestock E.B. MB.

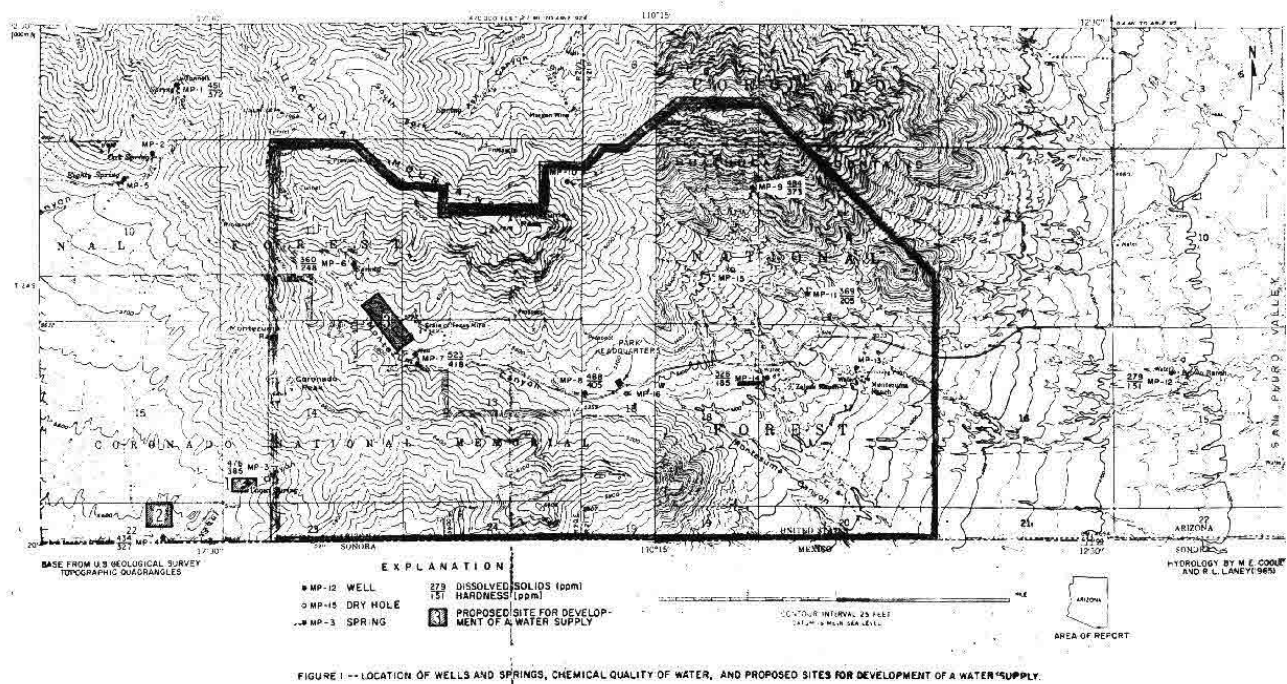

Sincerely,

Everett Baumkirchner
