13 ORDER AND PARTIAL DECREE OF
STIPULATED WATER RIGHTS IN THE
14 SAN PEDRO RIVER WATERSHED FOR
THE CORONADO NATIONAL MEMORIAL

15 This matter came before the Court on the Final Hydrographic Survey Report for the San Pedro
16 River Watershed (1991) ("San Pedro HSR") and objections to that report; consideration of the San
17 Pedro HSR and objections were referred to Special Master John E. Thorson and, subsequently, to
18 Special Master George A. Schade, Jr.; the Special Masters organized and conducted proceedings in
19 Contested Cases Nos. W1-11-556 and W1-11-1132 involving the water rights of the United States of
20 America appurtenant to the Coronado National Memorial, a federal reservation of land within the San
21 Pedro River Watershed administered by the United States Department of the Interior, National Park
22 Service; certain parties in both contested cases having reached stipulations that were filed on March
23 19, 1996, and on May 2, 2003, as to the water rights in one stockpond, three springs, and twenty wells,
24 to be decreed for the Coronado National Memorial; Special Master Thorson having accepted the

1 stipulation filed on March 19, 1996, and Special Master Schade having accepted the stipulation filed
2 on May 2, 2003; Special Master Schade having filed a report with the Clerk of the Court on May 15,
3 2003, recommending the approval of both stipulated agreements and abstracts of water rights and
4 having served the involved parties and all persons listed on the Gila River Adjudication Court-
5 Approved Mailing List; the Special Master having given claimants in the Gila River Adjudication,
6 pursuant to A.R.S. § 45-257(A)(2), a period of 180 days, or until November 12, 2003, to file an
7 objection to the report, and until December 8, 2003, to file responses to the objections; the Bella Vista
8 Water Company, Inc. and Pueblo Del Sol Water Company (the "Water Companies") having filed an
9 objection; the United States having filed a response; and the Court having considered the report and
10 the objection and being fully advised;

11 THE COURT FINDS that notice of the Special Master's report was given as required by law
12 and prior orders of this Court; the period allowed for filing objections to the Special Master's report
13 was as required by A.R.S. § 45-257(A)(2); the period for filing objections to the report has passed; and
14 the stipulated agreements and abstracts of proposed water rights for the United States of America
15 within the Coronado National Memorial should be approved.

16 THE COURT ADJUDICATES AND DECREES the water rights of the United States of
17 America for the Coronado National Memorial as set forth in the twenty-four abstracts of water rights
18 stipulated by the parties and described in Special Master Schade's report of May 15, 2003.

19 IT IS ORDERED that the twenty-four abstracts of water rights shall be incorporated in the
20 tabulations or lists of all water rights and their relative priorities on the Gila River system and source
21 in the form that the Court shall determine, pursuant to A.R.S. § 45-257(B)(2), to be most appropriate.

22 IT IS FURTHER ORDERED that the dismissals of Statements of Claimant Nos. 39-8265, 39-
23 11130(D), 39-11130(H), and 39-13637 are accepted.

24 IT IS FURTHER ORDERED overruling the objection of the Water Companies.

Re: Coronado National Memorial - Withdrawal of Well Registrations (55-642742, 55-633156, and 55-633159) and Claims (39-11130D and H, 39-008265, and 39-11-13637); Change of Ownership (36-11163 and 36-11205); and Amendments (39-11130 and 39-004344)

Dear Ms. Logan:

We have recently completed an extensive review of our water rights and adjudication claims for Coronado National Memorial in the San Pedro River Basin as part of settlement discussions with various objectors. Therefore, we request that you make the following changes to our claims.

Please withdraw well registrations 55-642742, 55-633156, and 55-633159 because they are redundant with well registrations 55-629140, 55-629139, and 55-629142. The National Park Service (NPS) inadvertently filed duplicate claims through two separate offices in the 1980's for the same wells.

Please amend 39-11130 by withdrawing our claim to the two wells known as Zaleski Well (39-11130D) and the Forest Service Well (39-11130H). We would also like to withdraw claims 39-008265 and 39-11-13637 which were filed by previous land owners prior to assignment to the NPS. Our file review and field reconnaissance reveal that these wells are either dry, collapsed or non-existent.

Please change the ownership on 36-11163 and 36-11205 in your records from the USDA - Coronado National Forest to the USA - National Park Service - Coronado National Memorial. The Statement of Claimant forms (39's) are already in the name of the Coronado National Memorial. The land and water rights were transferred from the Forest Service to the National Park Service on November 10, 1978 (P.L. 95-625).

Please amend our claims filed for 39-11130 B, E, F, and G (Tunnel Mine Springs, Baumkirchner Wells #2 and #3, and the Headquarters Well) and 39-004344 (Montezuma

Ranch stockpond). We are amending the beneficial use, completion date, and legal locations for 39-11130 and amending the beneficial use, storage capacity and annual volume for 39-004344. The attached Amendments indicate the specifics of each of these changes.

If you have any questions please contact Bill Hansen, on my staff, at (970) 225-3532.

Sincerely,

Stipulation
Civil Nos. W1-11-556 & W1-11-1132

Yavapai Apache Tribe, City of Phoenix, ASARCO Incorporated, Phelps Dodge Corporation, and BHP Copper Co., by and through their undersigned attorneys stipulate and agree as follows:

1. Claim Nos. 39-11130(B), 39-11130(C), 39-11130(E), 39-11130(F), 39-11130(G), 39-13636, 39-4343(A), 39-4343(B), 39-4343(C), 39-4343(D), 39-4343(E), 39-4343(F), 39-4343(G), 39-4343(H), 39-4343(I), 39-4343(J), 39-4343(K), 39-4343(L), and 39-4343(M) are claims to wells located within Coronado National Memorial. Abstracts setting forth the elements of each of these claims are set forth in Appendices 1 through 21 attached hereto and incorporated herein by reference. The parties hereto stipulate and agree to entry of a decree for these claims on the terms set forth in the attached abstracts. The National Park Service reserves the right to challenge and/or appeal the imposition by ADWR or a court of competent jurisdiction of attributes less favorable to the National Park Service than those set forth in the attached abstracts. The other signatories reserve the right to challenge and/or appeal the imposition by ADWR or a court of competent jurisdiction of attributes more favorable to the National Park Service than those set forth in the attached abstracts.

2. Claim No. 39-4344 is a claim to a stockpond located within Coronado National Memorial. An abstract setting forth the elements of this claim is set forth in Appendix 21 attached hereto and incorporated herein by reference. The parties hereto stipulate and agree to entry of a decree for this claim on the

terms set forth in the attached abstract. The National Park Service reserves the right to challenge and/or appeal the imposition by ADWR or a court of competent jurisdiction of attributes less favorable to the National Park Service than those set forth in the attached abstract. The other signatories reserve the right to challenge and/or appeal the imposition by ADWR or a court of competent jurisdiction of attributes more favorable to the National Park Service than those set forth in the attached abstract.

3. The National Park Service filed Claim Nos. 39-11130(H) (Forest Service Well), 39-08265 (Hazel Well), 39-13637 (Sparks #2 Well), and 39-11130(D) (Zaleski Well) for Coronado National Memorial. These wells are no longer in use. The United States agrees to submit a letter to the Arizona Department of Water Resources withdrawing these claims 60 days after the approval of this Stipulation by the Decree Court.

4. This Stipulation is the result of negotiation. None of the legal issues regarding the bases or attributes of the water rights involved in this matter have been briefed or tried. The parties agree that this stipulation shall have no precedential effect in this or any other pending or future general stream adjudication or case.

5. The parties agree to bear their own costs and attorneys' fees in connection with this matter.

In witness whereof, the parties have executed this
Stipulation as of the dates written below.

Re: Withdrawal of Well Registration Numbers 55-633157 and 55-633158

Dear Mr. Erb:

We would like to withdraw well registrations numbered 55-633157 and 55-633158. These wells were registered in 1982 and are duplicates of registrations numbered 55-629137 and 55-629138 filed for wells located at Coronado National Memorial. We apologize for any inconvenience this may cause you or your staff. If you have any questions regarding this request please contact Bill Hansen, of my staff, at (970) 225-3532.

Memorandum

To: Superintendent, Coronado National Memorial
From: Bill Hansen, Hydrologist
Subject: Water Rights Dockets

Please find attached a summary for State appropriative and Federal reserved water rights and a map displaying water sources at Coronado National Memorial. This summary describes the name, docket number, legal location, statement of claimant number in the San Pedro River adjudication, priority date, and other miscellaneous information. The information is based upon our discussions on May 2, 1995, and should memorialize the water source names and legal locations.

Also attached are a draft letter to the Arizona Department of Water Resources withdrawing the Baumkirchner's Statement of Claimant form and a complete copy of each water right docket stored at the Water Rights Branch in Ft. Collins. If you have any questions regarding this information please contact me at (970) 225-3532.

Re: Withdrawal of Statement of Claimant No. 39-003608

Dear Mr. Erb:

We would like to withdraw Statement of Claimant (SOC) No. 39-003608 filed in the San Pedro River Adjudication. The wells are located on lands sold to the United States, National Park Service (NPS), Coronado National Memorial in 1980. The SOC was never transferred or assigned to the NPS. The NPS has filed a SOC (No. 39-011130) for the wells claimed in 39-003608.

We hope this clarifies any confusion. If you have any questions please contact us at ????

I recieved a telephone call from Margaret Baumkirchner last Tuesday asking if I would write a letter to them and to the permittee stating that the NPS would continue to provide water for the Montezuma Allotment. I believe she was thinking that since we were asking them to sign letter to Water Master transferring the Baumkirchner well from the Baumkirchner name to the NPS, they might be able to get something from us.

I told her no that I would not do so, and I possibly may not have the authority to do so at this time due to grazing issues that we are working on. I again told her that water rights and water for the allotment were two different things and if they wanted to sign the letter to the Water Master, that was fine, if not, that was okay with me as we were going to pursue the water rights issue with or without their help. I told her that from this point on, I would talk about water for the allotment only with the permittee and as far as I was concerned, they were not in the picture as they had sold the property and the permit. I was fairly short with her.

On Wednesday, I received call from the Jim DuBois as he had been on the receiving end of a telephone call from the Baumkirchner son. He got an ear full about the government taking from the local ranchers etc. I told Jim the entire story, and I think he feels that we are attempting to deal with this on level basis. I have been thinking for months whether the Baumkirchners may try and bring watering cows into the water rights picture, which it appears they are trying.

At some point, we are goint to have to address water rights /wells etc and how the permittee on the Montezuma Allotment will be dealt with. I have some thoughts but still don't believe that cows will ever come to this pasture anytime in the near future. At least for now, I think that we should start demanding to see improvements to the allotment structures from the permittee before committing any water from the Baumkirchner well. However we need to think what may be the long term water solution for this pasture.

Just food for thought, but be aware that the Baumkirchners may see what they can get out of the water rights issues. From this point on, I don't expect any cooperation from them, which is FINE.

Bill:

We forwarded the letter that you sent us to Mr. and Mrs. Baumkirchner some weeks ago. While in conversations with them over the telephone, I thought that they were ready to sign, it now appears that they are having second thoughts. I recieved a telephone call from Mrs Baumkirchner and she asked if I would call her son, Gary Baumkirchner (a realtor?) in Havasu City and explain what we were trying to do.

I talked to him and attempted to explain that we were trying to get the court to note that that well and water rights were now property of the NPS. He questioned why his parents would sell all water rights on the property that they sold to us, when they still had cows on the allotment and would need water from that particular well. I told him that we had grant deed stating that we acquired all rights, to include water rights, on the property. He requested a copy of the grant deed which I have sent to him.

I think that Everett and Margaret may be reluctant to sign a document which they believe they may give a right that they THINK they may still have. By willingly signing the document to the Water Master, they think we may not have to provide water to the allotment at a later date. I tried on several occassions to tell them that that was a separate issue, however they keep coming back to whether the NPS will always provide water for the allotment. It's interesting in that while they do not own the grazing permit, they are still very concerned about watering cows on that allotment. Suspect they may think that the Doctor that purchased the allotment may backout of the deal at some point, and they get stuck with it again.

At any rate, I recommend that we see if we can follow another course in getting the court to identify the NPS as the water owner of the well. I told Gary Baumkirchner that if they were willing to sign the document, it would be easier for all of but we would pursue getting the water ownership changed even if they refused to submit the water transfer document. At this point, I doubt that they will go with us on this. Maybe they think that if we did get the water rights on the well, why at this late date are we now asking them to give us documentation saying that they do not own the water??

Please pass on to Jim DuBois at DOJ.

Thanks

Ed

NOTE TO FILE

The Baumkirchner Well (aka 17 bcb 3 or Montezuma Well #3) was located on land owned by Fred and Everett Baumkirchner. The Baumkirchner's filed a Statement of Claimant (SOC) form (File No. 39-003608) on May 22, 1980. The land was purchased by the NPS on March 20, 1980. The NPS filed a SOC form (39-011130) on January 4, 1982. The NPS, for some unknown reason, filed two well registrations for the well (55-633158 and 55-629137). The NPS will notify the Arizona Dept. of Water Resources that well registration no. 55-633158 should be withdrawn. The SOC will then be assigned to the NPS and/or withdrawn.

Explanatory

It is claimants' position that the water right described in this application is private, percolating water. Because of the present uncertainty caused by conflicting claims in recent litigation, claimant considers it prudent to file this claim and establish ownership to this water right, whether it should eventually be determined to be public or private, percolating water.

NOTES

This site was visited August 19, 1980 when property was not yet officially National Park Service property. The property is to be acquired September 1, 1980. The well was equipped with a submersible pump; it is unknown if this pump is to be removed when property changes hands. This well and well 17 bcb 2 are pumped at the same time. The information posted on the pump power box was: depth of well: 125 ft., depth to water: 60 ft., pump set 2 ft. off bottom of well. This well shut off while at site at 9:19 am, it was assumed that 17 bcb 2 shut off at the same time. (Zalesk Ranch - Baumbersehn property) George E. Brown reports well was drilled in 1968-1970 period. *2-5-80 17 bcb 2 125 ft.*

W. Reed
9/25/80

Per phone conversation with Superintendent Dale on 9/25/81, it was learned that this well and well # 17 bcb 2 are being used to supply water to two residences (two in-holdings) and starting October 1, 1981 will supply water for six months a year for grazing under permit. These wells, used in conjunction, supply water needs for six people and a 50 head grazing operation.

W. Reed
9/25/81

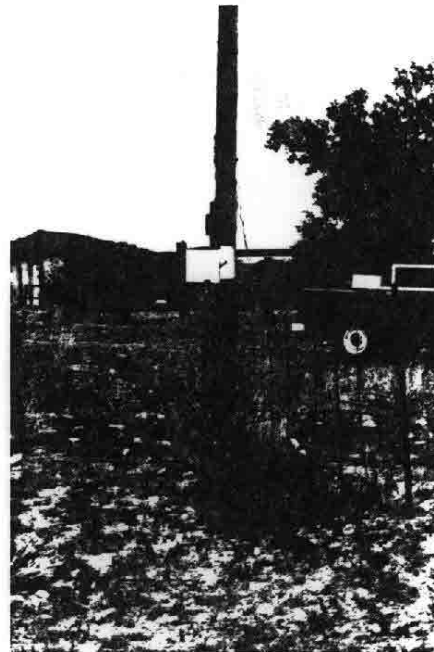

An aquifer test, consisting of evaluating both this well and well (D-24-21) 17 bcb 2 was conducted on April 18, 1983, see notes.

Coronado, looking Northwest. Montezuma Peak is in the background. This well was not, at the time of this photo/visit, NPS property; the well was in use and was equipped with a submergible pump.

Coronado, looking East. Vehicle is parked on the unimproved road that is used for access to the park's south-eastern section.

- ① Baumkirschen has been transferred to NPS.
- ② Brown Allotments have not yet been transferred from Forest Service to NPS.
- ③ Dry well (Baumkirschen Ranch): not filled yet, but p to do so in near future.
- ④ Driller logs or records for two drilled wells (Baumkirschen). Both drillers are deceased and no known record exist. George Brown is of the opinion that each well was drilled by cable rig, casing was probably set without graveling or such, and it is unlikely but not known if well was sealed in any manner.

Follow-up Action to be Taken:

Call Coro again in a few months to check on status of dry well filling; and on transfer of Brown Allotment from F.S. to NPS.

draw down 2 1.00

no change 2.00

no change 4.00

total draw down 26 ft

This initial test shows that
~~that~~ in a five hour test there
was no draw down after the
first two hours.

The present pumps at Baumkerchner place have a rated capacity of 10 gallons per minute at 220 ft.

This means they should pump water to VC, but would need a booster pump to put it in system.

well depths	100 ft
rise from well to VC	100 ft
rise from VC to tank	200 ft
total rise	400 ft

A $1\frac{1}{2}$ H.P. Berkeley pump (220V. single phase) is rated at 10 gallon per minute; pumping from 400 ft depth. This pump would have no problem putting water into our system.

Berkeley also has a one H.P. pump which pumps ~~at~~ 420 gallon per hour at 400 ft or 7 gallon per minute.

1 H.P. pump	cost \$567.00

Dear Mr. Steiner:

Enclosed are the completed well registration forms for existing wells within the State of Arizona owned by the United States Government, Department of the Interior, National Park Service, Western Region. These forms have been completed for the following areas: Casa Grande National Monument (1 well), Chiricahua National Monument (8 wells), Coronado National Memorial (6 wells), Fort Bowie National Historic Site (1 well), Grand Canyon National Park (no wells), Lake Mead National Recreation Area (14 wells), Montezuma Castle National Monument (3 wells), Organ Pipe Cactus National Monument (21 wells), Petrified Forest National Park (3 wells), Saguaro National Monument (14 wells), Tonto National Monument (1 well), Tumacacori National Monument (3 wells), Tuzigoot National Monument (1 well), and Walnut Canyon National Monument (1 well). The location of these National Park Service areas are shown on the enclosed map (in red).

Of the total 77 wells being registered, 12 wells have a pump capacity exceeding 35 gallons per minute and therefore payment in the amount of \$120.00 (\$10.00 X 12) will be forwarded to your office by the U.S. Treasury Department under separate cover as the registration fee for these non-exempt wells.

If there are any questions with regards to this matter, or if we can be of further assistance, please contact Gerard S. Witucki, Chief, Division of Water Resources, (415) 556-8660. of this Office.

Sincerely yours,

FOR Ward John B. Cherry
