Re: Five more Wells

Dear Superintendant,

Thank you for your good work protecting Padre Island.
Please do not permit more exploitation of the Padre
Island National Seashore Resources. BNP Petroleum
Commercial use is incompatible with the intended use
of a National Seashore.

Please continue to protect the National Seashore. If it is
acceptable to plunder this site, there really is no point
in having so much federal overhead standing in the way
of wholesale commercial exploitation of what should
be protected and appreciated undisturbed, now and
for our children.

Thanks.

Nagla
