

Dear Sir-

12/9/04

I'm writing to strongly object to the new proposed Drilling Man on Padre Island National Seashore. We already drill all over the Texas Coast- we should leave this special place alone. It is a beautiful area - a place to enjoy the beach in its natural state. Not to run back and forth with trucks, dig holes in the ground and displace wildlife. Why did the plans not include the option to buy the mineral rights?
& us

Sincerely,

Lisa C. Kaczmarczyk
