Subject: NHPA Concurrence for Dunn-McCampbell A3, 11A, and 12A

Debra,

I just returned to the office and received your message regarding the map for the Dunn-McCampbell A3, 11A, and 12A operation. I have included a better plat of the well pad with the respective well names included. This plat augments the graphic in the archeological report that we sent to you earlier. It is the same location, but with a better view of the pad and the wells. If you need any further information, please do not hesitate to call me.

Thanks,  
Darrell
