INTRODUCTION

The National Park Service (NPS) Statistical Office acknowledges the conscientious efforts of the field staff of the many areas of the National Park System. Without the effort of the park staff to count, record, and report the data summarized here, a statistical report of this quality would not be possible. These public use data are collected and analyzed monthly. A program of park counting procedure audits is conducted to ensure consistency and accuracy of data.

The gathering and publication of these statistics is in accordance with Public Law 88-29, "An Act to promote the coordination and development of effective programs relating to outdoor recreation" and related legislation. Definitions of terms in use here are given at the end of this report. The definitions are those initially outlined by "A Uniform Method for Measuring and Reporting Recreation Use on the Public Lands and Waters of the United States," unpublished guideline of the Recreation Advisory Council Study Committee Number Two, April, 1965.

In 1987 the following changes occurred: Jimmy Carter NHS and El Malpais NM were added as NPS units but did not report visits; St. Paul's Church NHS and Ebey's Landing NHR were added to the system from the list of affiliated areas; Blackstone River Valley NHC was added to the list of affiliated areas; Steamtown NHS and Sewell-Belmont House NHS were moved from the list of NPS units to the list of affiliated areas; Old Post Office Tower was no longer an affiliated area but reported as part of the new Pennsylvania Avenue NHS which was an affiliated area but is now listed as a unit of the system.

Additional footnotes are provided at the end of this report. The footnotes describe conditions at parks which may require important adjustments for certain applications of these data.

Timely, reliable, and useful information is fundamental to effective management and planning of the National Park System. This annual report is a general summary of visitation records for the year. Comments or requests for additional statistical information should be addressed to:

NATIONAL PARK SERVICE (NPS). A Department of the Interior (DOI) agency which administers approximately two dozen types of federal land, nationally significant for their scenic, natural, scientific, historical, or archeological interest (see CLASSIFICATION). The agency was established as a bureau of the DOI by Act of Congress, August 25, 1916. The NPS does not administer National Forests (United States Department of Agriculture/Forest Service), Wildlife Refuges (United States Department of Interior/Fish and Wildlife Service), or a variety of other lands available for public use.

NEGLIGIBLE TRANSIT. A brief, incidental entry into a park by passing traffic (vehicular or pedestrian) using NPS administered grounds, roads, or walkways. Such use is nonreportable (see NONRECREATION VISITS).

NONRECREATION VISITS. Reportable nonrecreation visits include visits by (a) persons going to and from inholdings; (b) through traffic; (c) trades-people with business in the park; (d) government personnel (other than Park Service employees) with business in the park.

(See NONRECREATION VISITS).

Three types of fees may be collected; (a) entrance fees (including Golden Eagle Passport sales) at designated national parks, monuments, recreation areas, seashores, historic and memorial parks and sites administered by the NPS; (b) fees for the use of specialized sites, facilities, equipment, or services furnished at federal expense; (c) fees for special recreation permits issued for uses such as group activities, recreation events, motorized recreation vehicles, and other specialized uses.
