Subject: Re: BNP's Latest Plan 

Hi Arlene,

Just got the little bugger today. Wow!!! - looks like BNP left no stone unturned. I have given the plan to Pat to coordinate the completeness review with Lisa and Ed. In keeping with our commitment to turn our review around within 2 weeks, I have asked that Pat have a draft response to me by COB, Monday, Dec. 10. That way I can send you our final comment memo on Dec. 11. Hope that works for you. Wish I was in S. Texas today...it's 15 degrees outside with snow on the ground. Tough to play golf in this stuff. Hope you had a great Thanksgiving. Talk to ya soon.

Jim

Subject: BNP's Latest Plan

Hi Jim,

BNP has delivered the next Plan of Operation for their Lemon/Lemon Seed Unit. It went out Fed-X yesterday evening, so you'll probably be getting it faster than this e-mail. If you would please pass it on to Pat and whoever else would enjoy the reading experience. Look forward to all your comments.

Arlene

November 26, 2001

NOTE: Returning from Thanksgiving, the Lemons Plan of Operation was in my office. Copies were Fed-ex'd to Linda Dansby (Regional Mineral Coordinator) and Jim Woods (Geologic Resources Division, Chief Minerals Branch) that afternoon.

NPS is using this date to start our clock.
