Dear Mr. Black:

This letter is in response to Victor Lopez's letter dated November 12, 2008, sent on your behalf to notify the National Park Service (NPS) of BNP's intent to mobilize a workover rig to Padre Island National Seashore to re-complete the ST 1008 #1 well. The workover is consistent with the approved plan of operations, and you may proceed with the work.

Please provide daily electronic copies of morning reports to Wade Stablein of my staff and Pat O'Dell, NPS petroleum engineer, at the following email addresses:

Wade_Stablein@nps.gov
Pat_O'Dell@nsp.gov

I understand you wish to begin mobilizing on November 13, 2008. Though the park is able to adjust to a one-day advance notification in this instance, your approved plan of operations requires 5 days advance notice of any major activity. The park needs this advance notice so that we can schedule park staff to monitor these operations for compliance with the approved plan of operations, and assure that necessary steps are being taken to protect park resources.

Sincerely,

Joe Escoto
Superintendent
