Subject: Re: Lemon

I did not realize Monday was a Holiday. I will let the surveyors know (via this email) that no one will be at the Park Monday, but they can go ahead and do their work. The hydrologist has not set a field date yet. I will check on him.

Arlene_Wimer@nps.gov wrote:

Hi Jeff

Charlie sent me a fax earlier about gathering plants on Tuesday.

Monday will be ok for the surveyors, you realize it's a Federal holiday, so no one will be here.

Also, I do need a definite date for the hydrologists site visit. His determination need to be in the wetlands statement of findings that accompanies the Peach EA and we are pushing to get it out of here ASAP!!

Let me know.

Arlene

Subject: Lemon

Hi Arlene,

Frontier surveying would like to come out to the park on Monday the 13th to stake BNP's Lemon access road, dune pass, and well pad. Is Monday okay? Also, on Tuesday we (BEI) plan on coming out to remove the native plants along the lemon dune pass.

Thanks,
Jeff Nelson
