

TIME LINE – BNP "PLUM" WELL

FILE BEGAN: March 5, 2002

March 5, 2002

Fax from Charlie Belaire about coming to the park to look at a prospective pipeline location north of the Lemons

April 28, 2002

Fax from Charlie Belair informing NPS that they would like to look at pipeline logistics for the Plum well on Tuesday, April 30, 2002

April 30, 2002

Arlene Wimer, NPS
Charlie Belair
Jeff Nelson, BEI
Jeff Eckerd, BNP

This group did a preliminary pipeline placement to evaluate the habitats in route and decide if wetlands or other sensitive habitats could be avoided.

The Plum well is proposed for a Laguna Madre location. a flow line and production facility would be constructed in the area of Dunn-McCambell A 4. The route would shadow a dune ridge that runs east west. Tentatively the route can be manipulated to avoid wetlands.

No wildlife was observed during this field evaluation.

May 9, 2002

Meeting at the Corpus Christi Corps of Engineers office on Flynn Parkway
Lloyd Mullins, COE
Mark Patillo, COE
Scott Taylor, BNP
Bo Waters, BNP
Ken McMullin, NPS
Arlene Wimer, NPS

Purpose of meeting was to discuss permit requirement by different agencies for the Plum well. Notes and map in file.

May 10, 2002

Fax from Scott Taylor requesting temporary access permit to gather data for Plum/Plum Deep prospects

May 13, 2002

Letter from Superintendent granting BNP temporary access for 45 days from this date.

May 15, 2002

PAIS received a packet from BNP's Scott Taylor
Permit application to COE
Request of waiver of Plan of Operations requirements
Copies of the letters were sent to Linda Dansby and GRD for consultation on the waiver request.
