Hello again,

One of you mentioned wanting to see the COE public notice for the Plum well. We were not sent one, shame on the Corps, but it is on the internet. Just in case you have something to comment about. I will be sending in comments end on next week and will incorporate your concerns.

www.swg.usace.army.mil/reg/notice/22754.pdf This gets the drawings, change the ending to /pn22754.pdf to see the Public Notice.
