Time

8:40 am

Subject

Ama co

Environmental

Person

"Middle Man"

Comments:

Went down to PAIS - looked pretty good. What do we need from them?

I explained the history.

May want to build a small flare pit after covering/cleaning the pit.

Hydrologist can possibly get the water samples.

I stressed the importance of letting us know what is going on when they come into the Park.

He agreed. Will talk to his guys.
